In accordance with the *Code of Federal Regulations, Title 14, Part 61.3*, all professional pilot students are required to obtain an FAA Medical Certificate. There are three classes of medical certificates which students may obtain: First Class, Second Class, and Third Class. Although *only* a Third Class Medical Certificate is required for student pilot operations at Utah State University, it is highly recommended that students obtain a First Class Certificate, in order to ensure that no medical conditions exist which would disqualify them from obtaining one at a later date. **Many pilot jobs *require* a First Class Medical Certificate.** Students using VA education benefits must maintain at least a Second Class Medical Certificate. A medical certificate may be obtained from a certified Aviation Medical Examiner (AME). Detailed requirements for each medical class and durations are explained in CFR Title 14, part 67, and part 61.23.

FAA Medical Certificate must be obtained and submitted to your advisor **before** registering for any flight courses. See this and other requirements to fly here: caas.usu.edu/aviation/flight-requirements

Fees

In addition to regular tuition and fees, a special class fee will be assessed to all flight certification classes. When a student enrolls in each flight certification, the fee is due with tuition payment. Course costs are based on average costs of training, and include stage check and FAA check ride fees. **All fees are subject to change**. Please visit the program website for a list of current flight fees.

Restricted ATP

Students who graduate with this degree can qualify for the Restricted Airline Transport Pilot (RATP) certificate. To be eligible for the RATP certifying document you must meet the following criteria: 1) Received a Bachelors degree in Aviation Technology – Professional Pilot from Utah State University; 2) Earn a minimum of 60 credits of approved aviation courses (see advisor for list); 3) Complete instrument rating and commercial pilot certificate from Utah State University.

All students please note that the 1000 hour R-ATP will only be awarded to students who meet all FAA requirements AND graduate in the Aviation Technology Professional Pilot degree.

Students who meet FAA requirements for the R-ATP, but graduate in an Aviation Management major will only qualify for the 1250 hour R-ATP.

Any questions can be directed to Maranda.Garvin@usu.edu.

Admission Requirements for this Program

- New freshmen and transfer students from other institutions or other programs at USU: 3.0 GPA

Simple Requisites

Program Requirements

Students should work closely with their advisor when choosing electives and filling out the necessary matriculation forms. The advisor can be a useful source of information and assistance, but it is the student's responsibility to seek an advisor's aid and meet the necessary graduation requirements. Find advisor contact here.

Graduation Requirements for Aviation Technology:

For all aviation technology majors, the following academic regulations apply in addition to University regulations:

1. A minimum GPA of 2.75 must be maintained in major required classes. University Studies courses are not included in this GPA calculation.

2. No more than 5 credits of *D+* or lower credit may be applied toward meeting graduation requirements in major required classes.

3. The *P-D-F* grading option may not be used in required courses. (The *P-D-F* grading option is approved for University Studies courses.)

4. The academic regulations listed above (1-3) apply to required coursework and any technology/math/science/business course which could be used to satisfy graduation requirements for the chosen degree. That is, once a student completes a particular technical elective, it becomes a required course for that student.

5. Students in violation of departmental or college academic regulations, no longer eligible for graduation, or not making satisfactory progress toward a degree will have a registration hold placed on their record.

Required Courses

Type
Completion Requirement

Professional Pilot Core Courses (28 credits)

Complete ALL of the following Courses:

- AV1100 - The Aviation Profession - 1cr.

- AV2040 - Aviation Weather - 3cr.
- AV3010 - National Airspace, Air Traffic Control, and Airport Administration - 3cr.
- AV3120 - Aviation Law - 3cr.
- AV4490 - Human Factors in Aviation Safety - 3cr.
- AV4660 - Aviation Senior Project (CI) - 3cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1060 - Trigonometry - 2cr.
- MSLE3110 - Managing Organizations and People (DSS) - 3cr.

Students must also complete the Breadth Physical Sciences requirement. It is strongly recommended that professional pilot students take a physics course to fulfill their BPS requirement.

Fixed Wing Emphasis Courses (44 credits)

Complete ALL of the following Courses:

- AV2000 - Aerodynamics for Aviators - 3cr.
  OR AV1130 - Flight Principles - 3cr.
- AV2160 - Aircraft Systems for the Professional Pilot - 3cr.
- AV2330 - Private Pilot Ground School - 4cr.
- AV2350 - Private Pilot Certification - 3cr.
- AV2401 - Cross Country Ground School - 1cr.
- AV2450 - Cross Country - Commercial Stage 1 - 3cr.
  OR AV2451 - Challenge Cross Country - Commercial Stage 1 - 3cr.
- AV2520 - Instrument Pilot Ground School - 4cr.
- AV2540 - Instrument Pilot Certification - 3cr.
- AV2620 - Commercial Pilot Ground School - 3cr.
- AV2660 - Advanced Maneuvers - Commercial Stage 2 - 3cr.
- AV3410 - Commercial Single Engine Certification - Commercial Stage 3 - 3cr.
- AV3700 - Fundamentals of Instruction - 1cr.
- AV3720 - CFI Ground School (CI) - 3cr.
- AV3740 - CFI Certification - 2cr.
- AV3880 - Commercial Multi-Engine Add-On - 2cr.
- AV5500 - Airline Transport Pilot (ATP) Standards (QI) - 4cr.

Fixed Wing Emphasis Elective Courses (9-10 credits)

Complete at least 3 of the following courses:

- AV3100 - Technical Communication for the Global Aviation Industry (CI) - 3cr.
- AV3140 - Advanced Avionics Systems and Flight Simulation - 3cr.
- AV4280 - Aviation Management - 3cr.
- AV4710 - Crew Resource Management (CI) - 3cr.
- AV4720 - Aviation Safety and Security (CI) - 3cr.
- AV5300 - Advanced Twin Systems - 3cr.
- AV5400 - Boeing 737 NG Systems and Procedures - 4cr.
- AV5420 - Boeing 737 NG Advanced Flight Maneuvers - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample of a possible four-year plan. **Please note that student-specific plans may differ**.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

FAA Medical Certificate must be obtained and submitted to your advisor **before** registering for any flight courses. See this and other requirements to fly here: caas.usu.edu/aviation/flight-requirements

Students who come to USU with a private pilot license will skip AV2330 PRIVATE PILOT GROUND/AV2350 PRIVATE PILOT CERT and register for AV2401 CROSS COUNTRY GROUND SCHOOL and AV2451 CHALLENGE CROSS COUNTRY. FAA medical certificate and private pilot license must be submitted to advisor **before** registering for these courses.

Program Learning Outcomes

Program Learning Outcomes

https://www.usu.edu/oda/assessment/

FW #1: Identify principles of aviation science.

FW #2: Demonstrate the ability to apply safety, ADM, and competency to flight operations.

FW #3: Demonstrate the ability to apply regulations, rules and procedures to flight operations.

FW #4: Earn /maintain FAA pilot certification(s).

Aviation Technology - Professional Pilot: Rotorcraft Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Aviation Technology

Program Level
Undergraduate

About this Degree

The Aviation Technology – Professional Pilot major prepares students to become professional pilots in the rotorcraft industries. Upon graduation from this program, students will have acquired approximately 250-300 hours of flight time. During the freshman and sophomore years, students will complete courses that provide general technological background and skills. The junior and senior years are reserved for concentrated study in flight technology. Aviation Technology – Professional Pilot graduates are trained to be commercial pilots. The degree requirements include completion of the following FAA licenses: private, instrument, commercial, CFI, and CFII.

Rotorcraft Emphasis: This emphasis focuses on receiving flight training in rotorcraft. Students will train in R22 Beta II, R44 Raven II, and a flight training simulator. Possible career paths could include scenic tours, EMS, aerial firefighting, wildlife study, and more.

- For more information about Aviation Technology Professional Pilot, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1060 TRIGONOMETRY

Fees

In addition to regular tuition and fees, a special class fee will be assessed to all flight certification classes. When a student enrolls in each flight certification, the fee is due with tuition payment. Course costs are based on average costs of ratings and include stage check and FAA check ride fees. Please visit the program website for a list of current flight fees.

All students are required to have their own iPad, uniform, and headset.

Medical Certificates

In accordance with the Code of Federal Regulations, Title 14, Part 61.3, all professional pilot students are required to obtain an FAA Medical Certificate. There are three classes of medical certificates which students may obtain: First Class, Second Class, and Third Class. Although only a Third Class Medical Certificate is required for student pilot operations at Utah State University, it is highly recommended that students obtain a First Class Certificate in order to ensure that no medical conditions exist which would disqualify him or her from obtaining one at a later date. Many pilot jobs require a First Class Medical Certificate. Students using VA education benefits must maintain at least a Second Class Medical Certificate.

A medical certificate may be obtained from a certified Aviation Medical Examiner (AME). Although the cost varies according to the examiner and the type of physical sought (First, Second, or Third), the cost is approximately $70 to $100. Detailed requirements for each medical class and durations are explained in CFR Title 14, part 67, and part 61.23.

Before you can be authorized to begin any flight training, you must obtain a valid FAA medical certificate (at least a **Third-Class** medical, though a **First-Class** is recommended if you're pursuing a commercial career). Once you've received your signed medical certificate, please email a copy to your advisor **before registration you can be authorized to register in a flight course.**

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.50

Simple Requisites

Program Requirements

Students should work closely with their advisor when choosing electives and filling out the necessary matriculation forms. The advisor can be a useful source of information and assistance, but it is the student's responsibility to seek an advisor's aid and meet the necessary graduation requirements. Contact Lisa Hunsaker, lisa.hunsaker@usu.edu, 435-797-0851 for advising.

Graduation Requirements for Aviation Technology

For all aviation technology majors, the following academic regulations apply in addition to University regulations:

1. A minimum GPA of 2.5 must be maintained in technology/math/science/business courses required for, or used as technical electives in, the chosen major. University Studies courses are not included in this GPA calculation.

2. No more than 6 credits of D or D+ credit may be applied toward meeting graduation requirements in technology/math/science/business classes.

3. The P-D-F grading option may not be used in required or elective courses. (The P-D-F grading option is approved for University Studies courses.)

4. The academic regulations listed above (1-3) apply to required coursework and any technology/math/science/business course which could be used to satisfy graduation requirements for the chosen degree. That is, once a student completes a particular technical elective, it becomes a required course for that student.

5. Students in violation of departmental or college academic regulations, no longer eligible for graduation, or not making satisfactory progress toward a degree will have a registration hold placed on their record.

a. Students will be placed on probation (registration hold) if they:
   i. have more than 6 credits of D credit (see item 2 above), or
   ii. have a GPA of less than 2.5 (see item 1 above)
b. The hold remains until they improve their standing by repeating classes to reduce the number of D credits to 6 or less, and/or by raising their GPA above 2.5. Students must meet with their advisor to have the hold removed.

Air Traffic Control - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Aviation Technology

Program Level
Undergraduate

About this Degree
This minor will introduce students to the basics of air traffic control through classroom instruction, online training, and simulated scenarios. Courses will introduce students to air traffic control, air traffic control tower operations, how the national airspace system functions, and the weather which impacts aviation.

Program Requirements

Audiology - AuD

Program Overview

College
College of Education & Human Services

Department
Speech and Hearing Sciences

Program Level
Graduate

About this Degree
The Doctor of Audiology (AuD) at Utah State University is a four-year, post-baccalaureate professional doctoral degree offered through the Department of Speech and Hearing Sciences in the Emma Eccles Jones College of Education and Human Services. The AuD is the entry-level degree required for professional practice in audiology and prepares graduates to function as independent healthcare providers in the prevention, identification, assessment, and management of hearing and balance disorders.

The program is designed to be completed over 11 sequential semesters and follows a structured progression of didactic coursework integrated with clinical education. Students begin supervised clinical practicum experiences in the first year of study, applying foundational knowledge to patient care with increasing independence and professional responsibility across university-based and affiliated healthcare settings. The curriculum culminates in a full-time fourth-year clinical externship that provides advanced clinical training in a professional practice environment.

Students receive academic preparation and supervised clinical experience in diagnostic audiology and electrophysiology; amplification and hearing technology; cochlear implants and other implantable devices; vestibular assessment and rehabilitation; and tinnitus management. Clinical experiences span pediatric and adult populations and may include services provided in medical, educational, and community-based settings. In addition to academic coursework and practicum, all students complete a required clinical research project as part of the doctoral curriculum.

The program is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA) of the American Speech-Language-Hearing Association. Graduates are academically prepared to meet requirements for state licensure and national certification in audiology.

The program accepts students from a wide range of undergraduate degree backgrounds. Applicants are not required to hold a bachelor's degree in speech and hearing sciences; however, required prerequisite coursework must be completed prior to matriculation as specified on the program's Admission and Tuition webpage.

Program Requirements

Total Credits Required In Program Coursework
90

Total Credits Required To Earn This Credential
90

Simple Requisites

Program Requirements

The Doctor of Audiology (AuD) program requires completion of 90 semester credits across an 11-semester course of study. The curriculum includes required academic coursework, clinical practicum, and a full-time fourth-year externship.

Students must progress through the program in accordance with departmental academic and clinical standards. Advancement within the program is contingent upon satisfactory academic performance, completion of required clinical experiences, and adherence to professional conduct expectations.

All students are required to:

- Take and pass all required coursework and practicum experiences.

- Take and pass the program's Preliminary Examination during the second year of study.
- Take and pass the program's Comprehensive Examination during the third year of study.
- Take and pass the Praxis Examination in Audiology and provide official score notification to the department prior to graduation.
- Complete the required clinical research project.
- Complete a full-time fourth-year clinical externship.

Graduate School Requirements

• Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies
• Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
• Course Number Acceptability: The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
• Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
• Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
• Master's forms: Approval of the Program of Study is required by the School of Graduate Studies.

Section 1

Type
Completion Requirement

Required Courses (90 credits)

All students admitted to the AuD program must complete the following courses prior to beginning their first semester in the graduate program: Anatomy and Physiology of Speech and Hearing and Basic Audiology. For those with undergraduate degrees other than Speech and Hearing Sciences, foundational coursework in neural bases of communication, normal speech and language development, and statistics is required. All foundational courses can be completed online in the summer prior to admission or prior to the first year of the AuD program. See SHS Website for additional information regarding foundational courses.

Complete ALL of the following Courses:

- SHS7000 - Implementation Science Seminar - 1cr.
- SHS7100 - Acoustics - 1cr.
- SHS7200 - Introduction to Clinical Practice - 1cr.
- SHS7240 - Anatomy and Physiology - 3cr.
- SHS7300 - Intermediate Clinical Practicum - 1cr.
- SHS7310 - Psychoacoustics - 2cr.
- SHS7320 - Amplification I - 3cr.
- SHS7340 - Pediatric Audiology - 2cr.
- SHS7380 - Advanced Audiology - 3cr.
- SHS7400 - Advanced Clinical Practicum - 1cr.
- SHS7420 - Amplification II - 3cr.
- SHS7430 - Electrophysiology - 3cr.
- SHS7450 - Counseling for Audiological Care - 3cr.
- SHS7460 - Aural Rehabilitation Across the Lifespan - 3cr.
- SHS7490 - Medical Aspects of Audiology - 3cr.
- SHS7520 - Introduction to Cochlear Implants - 2cr.
- SHS7530 - Balance Evaluation and Management - 3cr.
- SHS7800 - Clinical Externship in Audiology - 1cr.
- SHS7870 - Clinical Research Project - 1cr.
- SHS7880 - Research Methods in Audiology - 3cr.
- SHS7920 - Preliminary Exam - 1cr.
- SHS7930 - Comprehensive Exam - 1cr.
- EDUC6040 - Applied Research Methods - 3cr.
- EDUC6050 - Applied Statistical Analysis - 3cr.

NOTE:

The following courses are repeatable for credit. To earn the required number of credits, students must take these courses, during more than one semester.

- SHS7000 IMPLEMENTATION SCIENCE SEMINAR - 3 credits
- SHS7200 INTRO TO CLINICAL PRACTICE - 2 credits
- SHS7300 INTERM CLINICAL PRACT - 8 credits
- SHS7400 ADV CLINICAL PRACT - 10 credits
- SHS7800 CLINICAL EXTERNSHIP - 16 credits
- SHS7870 CLINICAL RESEARCH PROJECT - 4 credits

About this Degree

Federal Gainful Employment Information

This program supports a wide variety of mechanical and automated systems. The coursework is designed to help prepare students with the necessary skills to become technicians in several critical industries. Students are introduced to a wide variety of tools, practices, and procedures. The program uses a competency based hands-on approach, with other teaching methods that are employed throughout.

- TEAM1030 - Hydraulics - 2cr.

Program Learning Outcomes

Program Learning Outcomes

- Demonstrate a working knowledge of mechanical systems, maintenance, troubleshooting, repair techniques, and safety practices and procedures.
- Apply system diagnostics and troubleshooting techniques.
- Apply mathematical concepts to real world applications.
- Read, utilize, and design blueprints and schematics.
- Operate, install, maintain, modify, and troubleshoot electrical systems.
- Operate, install, maintain, modify, and troubleshoot fluid power systems.
- Operate, install, maintain, modify, and troubleshoot electrical motor control systems.
- Operate, modify, maintain, program, and troubleshoot programmable logic controllers.
- Implement and properly use a variety of precision measurement tools and procedures.

Automotive Technology - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

What if students could turn their passion for cars into a high-demand career, so that they can work with cutting-edge automotive technology and keep vehicles running at peak performance?

For example, they'll gain hands-on experience diagnosing, repairing, and maintaining modern vehicles using the latest tools and techniques.

Students will be prepared for industry certifications and have doors open to opportunities in dealerships, repair shops, and even performance tuning. Automotive Technology could be the perfect fit to accelerate their future.

Program Learning Outcomes

Program Learning Outcomes

All curricula are aligned with industry-standard ASE credentials that are expected outcomes of student participation. Students are expected to test for their industry credentials to support future employment accounting for all certificates in each are of automotive maintenance and technology.

Aviation Dispatch - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Aviation Technology

Program Level
Undergraduate

About this Degree

An Aviation Dispatch minor equips students with the knowledge and skills needed to manage flight operations, including flight planning, weather analysis, and air traffic coordination. Graduates will earn their FAA Aircraft Dispatcher certification, allowing them to legally dispatch commercial flights and share operational control with airline captains. This credential not only opens doors to careers in airline operations but also serves as a strong foundation for leadership roles in aviation management and flight safety. To be eligible for an Aircraft Dispatcher Certificate, a person must be at least 23 years of age. Applicants can be 21 years old to take the FAA written dispatch & practical exam, and will be issued a Letter of Aeronautical Competency that can be forwarded to the FAA upon turning 23.

Aviation Education - Post-Bachelor's Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Aviation Technology, Applied Sciences, Technology and Education

Program Level
Graduate

About this Degree
The Aviation Education Post-Bachelor's Certificate is designed for aviation professionals who want to strengthen their teaching, training, and instructional leadership skills in aviation settings. It supports pilots, aviation managers, maintainers, dispatchers, and UAS professionals who are moving into training roles—or who want a formal credential to enhance their effectiveness as educators. This 100% online certificate requires **12 credits** and builds practical skills in instructional design, teaching strategies, learner assessment, and clear communication in technical environments, with coursework that emphasizes real-world application to aviation training. Graduates are prepared for roles such as aviation instructor or ground school instructor, flight training educator or training coordinator, airline or corporate training specialist, safety and training manager support roles, standardization/training support in flight operations or dispatch, UAS instructor or training lead, aviation program instructor in collegiate/technical/workforce settings, or curriculum developer/instructional designer for aviation training programs.

Aviation Technology - Aviation Management: Aviation Operations Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Aviation Technology

Program Level
Undergraduate

About this Degree

The Aviation Technology - Aviation Management degree is designed for students who intend to pursue a career in airport management and unmanned aerial systems.

Aviation Operations Emphasis: This emphasis prepares students for a variety of aviation careers, including airport management, finance, Fixed Based Operator staff and working for business and corporate aviation.

Students will learn the discipline's latest technology with hands-on and research-based courses. First- and second-year students will complete courses in aviation subjects such as aviation history, weather, flight principles, airport management, and start to take emphasis courses. During junior and senior years, students focus on deeper topics in their emphasis area, and prepare for careers with courses in airline management, aviation law, national airspace and more.

- For more information about Aviation Technology-Aviation Management, see website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- Any Quantitative Literacy course can fulfill QL requirement.

Admission Requirements for this Program

- New Freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.50 GPA

Program Requirements

Total Credits Required In Program Coursework
60

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Students in the Aviation Technology - Aviation Management program must select either the Aviation Operations emphasis or the Unmanned Aerial Systems emphasis.

For all Aviation Management majors, the following academic regulations apply in addition to university regulations:

1. A minimum GPA of 2.50 must be maintained in major required classes. University Studies courses are not included in this GPA calculation.

2. No more than 6 credits of *D or D+* credit may be applied toward meeting graduation requirements in major required classes.

3. The *P-D-F* grading option may not be used in required courses. (The *P-D-F* grading option is approved for University Studies courses.)

4. The academic regulations listed above (1-3) apply to required coursework and any technology/math/science/business course which could be used to satisfy graduation requirements for the chosen degree. That is, once a student completes a particular technical elective, it becomes a required course for that student.

5. Students in violation of departmental or college academic regulations, no longer eligible for graduation, or not making satisfactory progress toward a degree will have a registration hold placed on their record.

a. Students will be placed on probation (registration hold) if they

i. have more than 6 credits of *D* credit (see item 2 above), or

ii. have a major GPA of less than 2.75 (see item 1 above)

b. The hold remains until they improve their standing by repeating classes to reduce the number of *D* credits to 6 or less, and/or by raising their GPA above 2.50. Students must meet with their advisor to have the hold removed.

Course Requirements

Type
Completion Requirement

Aviation Management Core Courses (34 credits)

Complete ALL of the following Courses:

- AV1100 - The Aviation Profession - 1cr.
  OR AV1125 - The Aviation Profession - 1cr.
- AV1130 - Flight Principles - 3cr.
  OR AV2000 - Aerodynamics for Aviators - 3cr.
- AV2050 - History of Aviation - 3cr.
- AV3010 - National Airspace, Air Traffic Control, and Airport Administration - 3cr.
- AV3100 - Technical Communication for the Global Aviation Industry (CI) - 3cr.
- AV3120 - Aviation Law - 3cr.
- AV4490 - Human Factors in Aviation Safety - 3cr.
- AV4660 - Aviation Senior Project (CI) - 3cr.
- AV4720 - Aviation Safety and Security (CI) - 3cr.
- MSLE3110 - Managing Organizations and People (DSS) - 3cr.
- AV5150 - Fundamentals of Airport Management - 3cr.
- AV2040 - Aviation Weather - 3cr.

Aviation Operations Courses (15-18 credits)

Complete ALL of the following Courses:

- AV2320 - Intro to Private Pilot Requirements - 3cr.
- AV2510 - IFR and Commercial Regulations and Procedures - 3cr.
  OR AV2530 - Instrument Flight Rules, Regulations and Procedures - 4cr.
  OR AV2630 - Commercial Pilot Regulations and Procedures - 2cr.
- AV4280 - Aviation Management - 3cr.
- AV4710 - Crew Resource Management (CI) - 3cr.

Students also must fulfill the Quantitative Literacy (QL) requirement.

Aviation Operations Electives (12 credits)

Students must complete 12 credits from the following courses.

Earn at least 12 credits from the following:

- AV1710 - Air Traffic Control Fundamentals - 3cr.
- AV2160 - Aircraft Systems for the Professional Pilot - 3cr.
- AV2710 - Basic Control Tower Operations - 3cr.
- AV3900 - Aviation Independent Study - 1cr.

- AV4250 - Internship - 1cr.
- AV5220 - Fixed Based Operator Management for General Aviation Airports - 3cr.
- AV5400 - Boeing 737 NG Systems and Procedures - 4cr.
- AV5420 - Boeing 737 NG Advanced Flight Maneuvers - 3cr.
- AV5910 - Aviation Special Topics - 1cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Aviation Management - Post-Bachelor's Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Aviation Technology

Program Level
Graduate

About this Degree

The Aviation Management Post-Bachelor's Certificate is designed for aviation professionals who want to strengthen their leadership and management skills for operational, administrative, and business-focused roles across the aviation industry. This 100% online certificate requires **12 credits** and emphasizes practical, real-world application in areas such as organizational leadership, decision-making, aviation operations, and problem-solving in complex environments. It is a strong fit for working professionals in flight operations, dispatch, airport/airline operations, FBOs, maintenance organizations, and UAS programs who want a focused credential without committing to a full graduate degree. Graduates commonly pursue roles such as aviation operations manager or supervisor, airline or corporate operations specialist, dispatch/operations leadership support, flight department coordinator, aviation program coordinator, or other management-track positions in aviation organizations.

Aviation Technology - Aviation Management - Unmanned Aircraft Systems Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Aviation Technology

Program Level
Undergraduate

About this Degree

The Aviation Technology - Aviation Management degree is designed for students who intend to pursue a career in airport management and unmanned aircraft systems.

Students will learn the discipline's latest technology with hands-on and research-based courses. First- and second-year students will complete courses in aviation subjects such as aviation history, weather, flight principles, airport management, and start to take emphasis courses. During junior and senior years, students focus on deeper topics in their emphasis area, and prepare for careers with courses in airline management, aviation law, national airspace and more.

Unmanned Aircraft Systems Emphasis: This emphasis introduces the rules, regulations and certification to become a Commercial Remote Pilot, with practical design, build and flight labs. Students will learn to fly course drones and gain experience in aerial photography, mapping and data collection/analysis.

- For more information about Aviation Technology-Aviation Management, see website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1060 TRIGONOMETRY

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.50 GPA

Simple Requisites

Program Requirements

Students in the Aviation Technology - Aviation Management program must select either the Aviation Operations emphasis or the Unmanned Aerial Systems emphasis.

For all Aviation Management majors, the following academic regulations apply in addition to University regulations:

1. A minimum GPA of 2.50 must be maintained in major required classes. University Studies courses are not included in this GPA calculation.

2. No more than 6 credits of *D or D+* credit may be applied toward meeting graduation requirements in major required classes.

3. The *P-D-F* grading option may not be used in required courses. (The *P-D-F* grading option is approved for University Studies courses.)

4. The academic regulations listed above (1-3) apply to required coursework and any technology/math/science/business course which could be used to satisfy graduation requirements for the chosen degree. That is, once a student completes a particular technical elective, it becomes a required course for that student.

5. Students in violation of departmental or college academic regulations, no longer eligible for graduation, or not making satisfactory progress toward a degree will have a registration hold placed on their record.

a. Students will be placed on probation (registration hold) if they

i. have more than 6 credits of *D* credit (see item 2 above), or

ii. have a major GPA of less than 2.50 (see item 1 above)

b. The hold remains until they improve their standing by repeating classes to reduce the number of *D* credits to 6 or less, and/or by raising their GPA above 2.50. Students must meet with their advisor to have the hold removed.

Required Courses

Type

- MSLE3110 - Managing Organizations and People (DSS) - 3cr.
- AV2040 - Aviation Weather - 3cr.

Unmanned Aerial Systems (UAS) Emphasis Courses (27 credits)

Complete ALL of the following Courses:

- UAS1200 - Unmanned Aircraft Systems Introduction to Fixed-Wings - 3cr.
- UAS1300 - Unmanned Aircraft Systems Introduction to Multirotor - 3cr.
- UAS1500 - Introduction to Unmanned Aircraft Systems Maintenance and Components - 3cr.
- UAS2050 - Unmanned Aircraft Systems Pilot in Command - 3cr.
- UAS2100 - Unmanned Aircraft Systems Flight Lab - Patterns and Maneuvers - 3cr.
- UAS2700 - Unmanned Aircraft Systems Photo and Video Basics - 3cr.
  OR UAS3700 - Unmanned Aircraft Systems Video Production - 3cr.
- TEE2300 - Electronic Fundamentals (QI) - 3cr.
  OR TESY3300 - Electronic Systems and Programming (QI) - 3cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1060 - Trigonometry - 2cr.

FAA Certification Courses

Complete ALL of the following Courses:

- UAS1020 - Unmanned Aircraft Systems Part 107 Test - 1cr.

FAA Certification Courses

Complete ANY of the following Courses:

- UAS1010 - Unmanned Aircraft Systems - Remote Pilot - 3cr.
- UAS3010 - Unmanned Aircraft System Introduction to Remote Pilot Certification - 3cr.
- UAS3020 - Part 61 Introduction to Unmanned Aircraft Systems and Flight Lab - 3cr.

Only students who have been issued an FAA Part 61 Pilot Certificate are eligible to register for UAS 3020.

UAS Electives (9 credits)

Students must choose three of the following courses, or a course approved by the program advisor. A minimum of 9 credits is required.

Complete at least 3 of the following courses:

- AV3900 - Aviation Independent Study - 1cr.
- AV4250 - Internship - 1cr.
- UAS1350 - UAS Intro to FPV (First Person View) Essentials - 3cr.
- UAS2300 - Unmanned Aircraft Systems Multirotor Autonomy - 3cr.
- UAS2650 - Drones for Hire - 3cr.
- UAS3200 - Fixed-wing Design and Construction Essentials - 3cr.
- UAS3360 - UAS First Person View (FPV) Fundamentals - 3cr.
- UAS3650 - Drones for Projects - 3cr.
- UAS3700 - Unmanned Aircraft Systems Video Production - 3cr.
- MAE5330 - Small Unmanned Aircraft Systems - 3cr.

Master of Aviation Science - MAS

Program Overview

College
College of Agriculture & Natural Resources

Department
Aviation Technology

Program Level
Graduate

About this Degree

The Master of Aviation Science (MAS) is a 100% online professional graduate degree designed for working aviation professionals who want to advance their knowledge, credentials, and career options while maintaining flexibility. The program supports a wide range of aviation backgrounds and career paths, including flight operations, safety, airport and airline management, maintenance, and aviation education/training.

Students develop graduate-level skills in leadership, aviation decision-making, safety and risk management, and applied research—skills that translate directly to real-world aviation roles and help graduates pursue new opportunities or advance within their current organizations. Because all coursework is offered online, students can complete the degree from anywhere.

The MAS requires **33 credits**, including a **non-thesis capstone graduate project (Plan C)** that allows students to apply what they've learned to a practical problem or professional goal in aviation. Most students take **two to three courses per semester (6–9 credits)** and complete the program at a pace that fits their schedule.

A specialization is **not required** to earn this degree.

Program Contact:
Amy Monson, Graduate Program Director
Department of Aviation Technology, Utah State University
amy.monson@usu.edu

Admission Requirements for this Program

Admission Requirements for this Program
All students must be admitted through USU's School of Graduate Studies and follow standard graduate admission procedures and policies. The MAS does **not** require an entrance exam (GRE or MAT not required).

To apply visit the School of Graduate Studies (SGS) application website.

Simple Requisites

Program Requirements

Program Requirements

Degree Verification:
Admission to and completion of the Master of Aviation Science (MAS) requires a bachelor's degree from an accredited U.S. college or university or a similarly recognized international university. Official transcripts must be sent directly to the School of Graduate Studies.

Overall Graduate GPA of at least 3.0 and no grades of C- or lower:
Graduate students must maintain a minimum 3.0 GPA in degree-program coursework. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability:
A master's Program of Study may not include more than 12 semester credits of courses below the 6000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Matriculation Start Semester:
The master's degree must be completed within six years of entering the degree program. Requests for additional time may be submitted by the students' advisor to the Vice Provost of Graduate Studies for review.

Coursework Validity:
Coursework more than eight years old at the time of degree completion may not be used toward a graduate degree unless revalidated.

Master's Forms / Program of Study:
Students must submit and receive approval of a Program of Study through the School of Graduate Studies.

MAS Degree Requirements (Plan C):
Students in the Master of Aviation Science program complete 33 credits, including a non-thesis capstone graduate project (Plan C). Students are encouraged to meet with their advisor early in the program to plan their Program of Study and capstone timeline to ensure all degree requirements are met and paperwork is submitted to the School of Graduate Studies.

MAS Required Courses (12 credits)

Type
Completion Requirement

Required Core Courses

Complete at least 12 credits from this list of course options

Complete ANY of the following Courses:

- AV6110 - Air Transportation - 3cr.
- AV6120 - Aviation Operations and Management - 3cr.
- AV6140 - Aviation Safety: History and Research - 3cr.
- AV6150 - Airport Management - 3cr.
- AV6160 - Human Factors in Aviation - 3cr.

Required Capstone Courses

Complete ALL of the following Courses:

- AV6760 - Reading and Applying Research - 3cr.
- AV6960 - Aviation Capstone Project - 3cr.

Students should complete AV 6760 their second semester.

Elective Courses

Complete at least 2 of the following courses:

- AV5210 - Fundamentals of Aviation Science - 3cr.
- AV6230 - Aerospace Technology and Automation - 3cr.
- AV6900 - Aviation Independent Study - 3cr.
- AV6910 - Aviation Special Topics - 1cr.
- AV6940 - Aviation Internship - 3cr.
- AV6950 - Aviation Creative Project - 3cr.

MAS Specialization Courses

Type
Completion Requirement

Safety Management Specialization

Complete at least 3 of the following courses:

- AV6310 - Aviation Safety Management Systems - 3cr.
- AV6320 - Airport and Ground Safety Programs - 3cr.
- AV6330 - Flight Safety Program Management - 3cr.
- AV6340 - Aircraft Accident Investigation and Analysis - 3cr.

- AV6350 - Aviation Security - 3cr.

Airport Management Specialization

Complete at least 3 of the following courses:

- AV6220 - Fixed Based Operator Management for General Aviation Airports - 3cr.
- AV6240 - Certified Member: Airport Manager Certification Preparation - 3cr.
- AV6320 - Airport and Ground Safety Programs - 3cr.
- AV6340 - Aircraft Accident Investigation and Analysis - 3cr.
- AV6350 - Aviation Security - 3cr.

Aviation Management Specialization

Complete at least 3 of the following courses:

- AV6220 - Fixed Based Operator Management for General Aviation Airports - 3cr.
- AV6310 - Aviation Safety Management Systems - 3cr.
- AV6320 - Airport and Ground Safety Programs - 3cr.
- AV6340 - Aircraft Accident Investigation and Analysis - 3cr.
- AV6350 - Aviation Security - 3cr.

Aviation Education Specialization

Complete at least 3 of the following courses:

- ASTE6090 - Curriculum Design - 3cr.
- ASTE6150 - Evaluation and Assessment - 3cr.
- ASTE6300 - Advanced Teaching Strategies - 3cr.
- ASTE6160 - Foundations of Adult Education - 3cr.
- ASTE6320 - Classroom Management, Student Motivation, and Guidance - 3cr.
- ASTE6380 - Mentoring and Supervision - 3cr.

Aviation Safety Management - Post-Bachelor's Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Aviation Technology

Program Level
Graduate

About this Degree

The Aviation Safety Post-Bachelor's Certificate is designed for aviation professionals who want to deepen their safety knowledge and strengthen their ability to identify hazards, manage risk, and support a proactive safety culture. This 100% online certificate requires **12 credits** and emphasizes practical safety application in aviation operations, including safety management principles, incident analysis, and risk-based decision-making. It is ideal for professionals in flight operations, maintenance, airport operations, dispatch, and UAS who want a focused credential to support advancement into safety responsibilities. Graduates commonly pursue roles such as safety specialist or safety coordinator, SMS support staff, risk management or compliance support, safety and training support roles, incident/quality assurance support, or operational leadership positions with a safety focus across airlines, corporate flight departments, maintenance organizations, airports, and other aviation employers.

Basic Music - Minor

Program Overview

College
College of Arts & Sciences

Department
Music

Program Level
Undergraduate

Admission Requirements for this Program

Students wishing to add the Basic Music minor should make an appointment with Nathan Scott. At least one-half of the credits taken for the Basic Music minor must be taken at Utah State University.

Program Requirements

Total Credits Required To Earn This Credential

21

Simple Requisites

Program Requirements

- A grade of C- or better is required in all courses taken for the minor.
- A GPA of at least 2.5 is required in minor coursework.
- No more than 10 credits may be taken on a pass/fail basis. Individual instruction courses may not be taken on a pass/fail basis.

Section 1

Type
Completion Requirement

Basic Music Minor (21 credits)

Fulfill ALL of the following requirements:

Required Courses (15 credits)

Complete ALL of the following Courses:

- MUSC1010 - Introduction to Music (BCA) - 3cr.
- MUSC1100 - Fundamentals of Music for Non-Music Majors (BCA) - 3cr.
- MUSC1480 - Individual Piano Instruction for Nonmusic Majors - 1cr.

• Large or Small Ensemble (4 credits)
• Individual Instruction (nonmajor) (4 credits)

NOTE:

1. MUSC1480 PIANO INSTR-NONMAJOR - Take 1 credit.

AND

Additional Required Courses (6 credits)

Complete at least 2 of the following courses:

- MUSC3010 - Masterpieces of Music (DHA) - 3cr.
- MUSC3020 - History of Jazz (DHA) - 3cr.
- MUSC3030 - Rock and Roll-Catalyst for Social Change (DSS) - 3cr.

Beef Cattle Management - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Animal, Dairy & Veterinary Sciences

Program Level
Undergraduate

About this Degree

The Beef Cattle Management Certificate is designed to provide students with specialized knowledge and hands-on experience in beef cattle production and management. This 24- to 25-credit program offers a comprehensive curriculum that covers critical areas such as beef production practices, animal nutrition, live animal and carcass evaluation, and business management. Electives allow students to deepen their knowledge in topics related to beef management (forage production, range nutrition, wildlife management, meat science, etc.), tailoring their education to their specific interests and career goals. This program emphasizes practical, real-world applications, preparing students for careers in the beef cattle industry by equipping them with essential skills to manage and optimize herd health, productivity, and business operations.

Program Requirements

Simple Requisites

Program Requirements

1. Attain a grade point average of at least 2.50 across all courses applied toward this certificate.
2. Courses required for the certificate may *not* be taken for a *pass/fail* grade except for courses that are only offered as pass/fail.
3. A minimum grade of C is required in all courses applied toward this certificate.

Required Courses

Type
Completion Requirement

Complete all required courses

Complete ALL of the following Courses:

- ADVS1110 - Introduction to Animal Science (BLS) - 3cr.
- ADVS2080 - Beef Production Practices - 3cr.
- ADVS2500 - Feeds and Feeding - 3cr.
- ADVS3650 - Live Animal and Carcass Evaluation - 3cr.
- ADVS5080 - Beef Cattle Management - 3cr.
- APEC2120 - Small Firm Accounting Basics - 3cr.
- APEC2310 - Small Firm Management - 3cr.

Choose one of the following courses:

Complete at least 1 of the following courses:

- NDFS5020 - Meat Science and Technology - 4cr.
  OR PSC4320 - Forage Production and Pasture Management - 3cr.
  OR WILD4500 - Principles of Wildlife Management - 3cr.
  OR WILD5340 - Range Ruminant Nutrition and Management - 3cr.

Additional Comments:
NOTE:

1. Some of these courses have prerequisites, which may in turn have further prerequisites, etc. We encourage you to plan accordingly and/or speak with an advisor.

Basic Corrections Officer - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree
Federal Gainful Employment Information

The Basic Corrections Officer program builds upon skills and knowledge gained in the Special Function Officer program and provides basic training required for employment in the field of corrections. Areas of study include constitutional and correctional law, offender supervision strategies, critical incident responses, and other correctional-related topics.

Admission Requirements for this Program

- Successfully completed the SFO certification test in the past 4 years OR employment with an agency and engaging in SFO duties.
- Be at least 19 years of age at the time of certification as a correctional officer

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

- Identify and demonstrate key ethical standards in corrections culture.
- Apply concepts of constitutional and correctional law to practical situations.
- Interact professionally with incarcerated offenders.
- Apply basic skills to avoid offender manipulation.
- Demonstrate competency in less-lethal options such as pepper spray.
- Demonstrate competency in critical incident and forced cell response actions.

Behavioral Health - Minor

Program Overview

College
College of Education & Human Services

Department
Psychology

Program Level
Undergraduate

About this Degree
This minor allows students to have a focus in behavioral health, which may be advantageous for them as they apply for professional and graduate schools in areas outside of Psychology but with a social/behavioral component.

Program Requirements

Total Credits Required To Earn This Credential
19

Simple Requisites

Program Requirements

Students are required to have a 3.0 (B) average GPA on all minor coursework with a minimum grade of C on each individual course. At least 9 of the 19 credits required for this minor must be completed through USU. This minor is not available to Students already majoring or minoring in psychology.

Section 1

Type
Completion Requirement

Required Courses (19 credits)

Complete ALL of the following Courses:

- PSY1010 - General Psychology (BSS) - 3cr.
- PSY1100 - Lifespan Development - 3cr.

Biological Engineering - BS

Program Overview

College
College of Engineering

Department
Biological Engineering

Program Level
Undergraduate

About this Degree

The BS Degree is a 120-credit program designed to teach students principles and skills in various biological engineering areas, such as bioprocessing, biomedical, bioenvironmental, bioenergy, and biomanufacturing. Students will also gain hands-on experience from the in-class lab sessions and Senior Design project.

- For more information about Biological Engineering, visit the Biological Engineering department.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The Biological Engineering - BS degree program is accredited by the Engineering Accreditation Commission of ABET, under the commission's General Criteria and the Program Criteria for Biological Engineering and Similarly Named Programs.
- The highest math requirement for this degree is MATH2250 LINEAR ALG/DIFF EQUATIONS (QI) and STAT3000 STATISTICS FOR SCIENTISTS (QI)

Admission Requirements for this Program

New Freshmen and Transfer Students (from other institutions or other USU programs)

- Admitted to USU in Good Standing

New Freshmen:

- 2.8 High School GPA or higher
- 20 ACT or 1030 SAT or higher

Admission to Pre-Professional Program

- Completion of Foundational Courses (listed below)
- MATH1210 CALCULUS I (QL), MATH1220 CALCULUS II (QL), CHEM1210 PRIN OF CHEMISTRY I, CHEM1215 CHEMICAL PRINCIPLES LAB I, PHYS2210 PHYS SCI AND ENGR I (QI)(BPS), PHYS2215 PHYS SCI AND ENGR LAB 1, ENGR1010 ENGR EXPLORATION, ENGR1400 ENGR COMPUTER PROGRAMMING completed with a C- or higher
- 2.8 or higher GPA in Foundational Courses

Biological Engineering Foundational Program Requirements

Type
Completion Requirement

Required for Completion of the Engineering Foundations Program (25 credits)

To be admitted to the pre-professional program, students must:

- Have an engineering foundations GPA of 2.80 or higher in the foundations engineering courses, NOT including ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) or ENGL2020 PROFESSNL COMMUNICATION (CL2)

- Pass all of the courses in the foundations engineering program with a C- or better

Complete ALL of the following Courses:

- ENGR1010 - Engineering Exploration - 3cr.
- ENGR1400 - Computer Programming for Engineers - 4cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.

Biological Engineering Pre-Professional Program Requirements (28 credits)

Type
Completion Requirement

Biological Engineering Pre-Professional Program Requirement Courses

To be admitted to the professional program, students must:

- Have a pre-professional GPA of 2.30 or higher in the pre-professional courses and engineering foundations courses, NOT including ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) or ENGL2020 PROFESSNL COMMUNICATION (CL2)

- Pass all of the courses in the pre-professional engineering program with a C- or better

Complete ALL of the following Courses:

- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- CHEM3710 - Introductory Biochemistry Laboratory - 1cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.
- BENG1200 - SolidWorks for Biological Engineers - 2cr.
- BENG1880 - Engineering Quantification of Biological Processes - 3cr.
- BENG2400 - Biological and Environmental Thermodynamics - 3cr.
- ENGR2010 - Engineering Mechanics Statics - 3cr.

Biological Engineering Professional Program Requirements (55 credits)

Type
Completion Requirement

Biological Engineering Professional Program Courses

To maintain eligibility in the professional program, students must:

- Maintain a GPA of 2.0 or higher in the professional courses. This GPA includes any engineering, math, and science courses required for or used to fulfill required electives in this major. Courses which were part of the pre-professional program requirements and university studies courses are not included in this GPA calculation.

- Pass all of the required courses in the professional engineering program with a C- or better**.** This includes any engineering, math, and science courses that are applied toward meeting graduation requirements.

- Have no more than three repeats total from required or elective courses completed as part of a professional program in order to meet graduation requirements. Courses completed as part of the pre-professional program are not included in this total of three repeats.

- Use the standard letter grading for all professional level courses. The P/D+, D, F grading option may not be used in required or elective courses completed as part of a professional program (the P/D+, D, F grading option is approved for University Studies Courses).

Complete ALL of the following Courses:

- ENGR2140 - Mechanics of Materials - 3cr.
  OR ENGR2210 - Fundamental Electronics for Engineers - 3cr.
- ENGR2450 - Numerical Methods for Engineers - 3cr.
- ENGR3080 - Creativity and Communication in Design (CI) - 3cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
- BIOL3300 - General Microbiology - 3cr.
- BENG2330 - Engineering Properties of Biological Materials - 3cr.
- BENG3000 - Instrumentation for Biological Systems - 3cr.
- BENG3200 - Introduction to Unit Operations in Biological Engineering - 3cr.
- BENG3500 - Fluid Mechanics in Biological Engineering - 3cr.
- BENG3670 - Transport Phenomena in Bio-Environmental Systems - 3cr.
- BENG3870 - Biological Engineering Design I - 1cr.
- BENG4880 - Biological Engineering Design II (CI) - 3cr.
- BENG4890 - Biological Engineering Design III (CI) - 3cr.
- BENG5020 - Biological Modeling and Controls - 3cr.

Biological Engineering Electives (select 6 credits)

Students must take two classes (6 credits) of Biological Engineering Electives. Students may choose from the following elective courses.

Complete at least 2 of the following courses:

- BENG5500 - Systems Biology Modeling - 3cr.
- BENG5600 - Downstream Processes in Biological Engineering - 3cr.
- BENG5610 - Food and Bioprocess Engineering - 3cr.
- BENG5620 - Metabolic Engineering I - 3cr.
- BENG5630 - Synthetic Biological Engineering - 3cr.
- BENG5700 - Introduction to Microfabrication - 3cr.
- BENG5810 - Biochemical Engineering - 3cr.
- BENG5850 - Biomaterials Engineering - 3cr.
- BENG5870 - Molecular and Cellular Bioengineering - 3cr.
- BENG5880 - BioMEMS: Microtechnology for BioMedical Research - 3cr.
- BENG5890 - Tissue Engineering - 3cr.
- BENG5910 - Introduction to Biosensors - 3cr.

Engineering Electives (select 3 credits)

There are **two** options to fulfill this requirement:

1. Students can take an additional (3 credit) biological engineering elective listed in Biological Engineering Electives (not already used).

2. Students can take at least three credits from the list below.

Complete ANY of the following Courses:

- ENGR2030 - Engineering Mechanics Dynamics - 3cr.
- MAE2160 - Material Science - 3cr.
- MAE3040 - Mechanics of Solids - 3cr.

Technical Electives (select 5 credits)

Students must take 5 credits of approved technical electives listed below. Other classes may be considered to count as technical electives that are not on the list. Students will need to go through their academic advisor to seek approval of the non-listed technical elective through the department.

Earn at least 5 credits from the following:

- AV4200 - Composite Manufacturing Processes and Repair - 3cr.
- BENG2290 - Biological Engineering Profession Exploration - 1cr.
- BENG4250 - Cooperative Practice - 3cr.
- BENG5660 - Environmental Quality Analysis - 3cr.
- BENG5680 - Soil-based Waste Management - 2cr.
- BENG5830 - Management and Utilization of Biological Solids and Wastewater - 3cr.
- BENG5840 - Introduction to Biophotonics - 3cr.
- BENG5930 - Special Studies - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3100 - Bioethics (CI) - 3cr.
- BIOL4450 - Neurobiology - 3cr.
- BIOL5160 - Methods in Biotechnology: Cell Culture - 3cr. (Inactive)
- BIOL5210 - Cell Biology - 3cr.
- BIOL5230 - Developmental Biology - 3cr.
- BIOL5260 - Methods in Biotechnology: Molecular Cloning - 3cr. (Inactive)
- CEE3020 - Structural Analysis - 3cr.
- CEE5060 - Mechanics of Composite Materials - 3cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM3070 - Physical Chemistry II (QI) - 3cr.
- CHEM3650 - Environmental Chemistry (DSC) - 3cr.
- CHEM5070 - Biophysical Chemistry - 3cr.
- ECE2290 - Electrical Circuits II - 4cr.
- ECE2700 - Digital Circuits - 4cr.
- ENGR5930 - Special Problems - 1cr.
- KIN4200 - Biomechanics (QI) - 4cr.
- MAE3340 - Instrumentation and Measurements - 3cr.
- MAE5310 - Control Systems - 4cr.
- MAE5320 - Mechatronics - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH5710 - Introduction to Probability - 3cr.
- NDFS4020 - Advanced Nutrition - 3cr.
- NDFS5100 - Sensory Evaluation of Food (QI) - 3cr.
- NDFS5110 - Food Microbiology (CI) - 3cr.
- PHIL4530 - Ethics and Biotechnology (DSC) - 3cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC5670 - Environmental Soil Physics - 4cr.

- PSY3460 - Neuroscience I - 3cr.
- PSY4460 - Neuroscience II - 3cr.

-Any CS course above CS 1400 fulfills a technical elective

Degree Map Narrative

- The following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

*Please note the following:

- ENGL1010 WRITING AS INQUIRY (CL1) is required by USU but is not included in the degree map because most engineering students satisfy this requirement through an ACT English score of 29 or higher, an SAT Critical Reading score of 640 or higher, Advanced Placement (AP) Examinations (score of 3 on English Language & Composition or English Literature & Composition) or College-Level Examination Program (CLEP) completion.
- BIOL1610 BIOLOGY I and BIOL1615 BIOLOGY I LABORATORY, when taken with BIOL3300 GENERAL MICROBIOLOGY, will fulfill the Breadth Life Science (BLS) requirement
- Though **not** required, students are encouraged to take USU1010 UNIVERSITY CONNECTIONS in their first semester
- Apply for admission to the Professional Program in spring semester of year 2
- Passing the Fundamentals of Engineering Exam is part of the degree requirements. It is highly recommended students take the exam before the fall semester of their senior year.
- Students are recommended to apply for graduation as soon as they have registered for their last semester.
- Please see Program Requirements above and work with your Academic Advisor to ensure pre-professional requirements are met within the correct timeline

Biological Engineering - ME

Program Overview

College
College of Engineering

Department
Biological Engineering

Program Level
Graduate

About this Degree
This degree emphasizes professional practice and coursework. Master of Engineering candidates in Biological Engineering can specialize in biomanufacturing and bioproducts, biofuels, biomaterials, bioprocessing, brain organoid, cell engineering, cell sensing and imaging, functional in vitro models, metabolic engineering, and nanophotonics.

Admission Requirements for this Program
- A bachelor's degree from an accredited U.S. college of university or a similarly recognized international university is required for admission
- 3.0 or higher GPA
- Three letters of recommendation

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Graduation Standards and Number of Credits
- A minimum of 30 credits of technical and scientific coursework is required.
- Approval of academic forms required for master's students by the School of Graduate Studies
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- The Program of Study (POS) for a master's degree must include at least 18 semester credits at the level of 6000 or above. A maximum of 12 credits of 5000-level coursework may be applied to the program.
- A master's degree must be completed within six years of entering the program. Additional time may be requested by the student's committee and submitted to the Vice Provost for Graduate Students for review.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree until it is revalidated.

The Master of Engineering degree in Biological Engineering requires 15 credits of core mandatory graduate Biological Engineering coursework, and an additional 15 credits of elective courses for a total of 30 credits. The balance of graduate courses (electives) are determined by the student, graduate advisor, and the department graduate committee and can be in the following emphasis areas:

- Biomanufacturing & Bioproducts
- Biofuels
- Biomaterials
- Bioprocessing

- Brain Organoid
- Cell Engineering
- Cell Sensing & Imaging
- Functional In Vitro Models
- Metabolic Engineering
- Nanophotonics

Elective courses must follow the guidelines of the School of Graduate Studies for inclusion on a student's Program of Study and must be approved by the committee.

Required Core Coursework

Type
Completion Requirement

Mandatory Core

Complete ALL of the following Courses:

- BENG6510 - Graduate Seminar - 1cr.
- BENG6600 - Downstream Processes in Biological Engineering - 3cr.
- BENG6630 - Synthetic Biological Engineering - 3cr.
- BENG6810 - Biochemical Engineering - 3cr.
- BENG6860 - Research Orientation and Planning - 2cr.
- STAT6200 - Analysis of Designed Experiments - 3cr.

Elective Credits

Complete 15 credits in elective coursework.

Biological Engineering - MS

Program Overview

College
College of Engineering

Department
Biological Engineering

Program Level
Graduate

About this Degree

The MS program in Biological Engineering emphasizes design, building, and testing of new specialized bioreactors, biomedical biomaterials, bioplastics, biofuels, pharmaceuticals, biosensors, and bioinstrumentation. We develop engineered systems that protect public health from water, air, and soil contamination. The program includes specific courses in biochemical engineering, synthetic biological engineering, metabolic engineering, biophotonics, biofuels, tissue engineering, biomaterials engineering, and biosensors that provide students with new skills required by employers in industry, government national laboratories, medical and other research institutes, and universities.

The MS degree requires a thesis or project work in a specific area and prepares students for advanced study or advanced work in that area. The MS degree has two options.: Plan A, the student completes a thesis; Plan B, the student prepares a project report.

There is also a Plan C for a Master of Engineering degree (ME) that consists of the student completing coursework only.

Admission Requirements for this Program

In order to be admitted to a graduate degree program at Utah State University, you must meet these minimum requirements:

- Bachelor's degree in an Engineering field from accredited institution (If Bachelor's degree is not in an Engineering field, please see info below concerning Make-up Courses for Non-engineering Students).
- 3.0 or higher GPA. Grade of C or higher on courses.
- Official transcripts with degree conferment for all institutes of higher education attended.
- Statement of Purpose.
- Three letters of recommendation.
- International Students – proof of English proficiency (please see Graduate Admissions Policy).
- GRE is no longer required.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

All graduate degrees in Biological Engineering (BE) require 15 credits of core mandatory graduate BE coursework (see below), 9-12 credits of elective courses, and 3-6 credits of research for a total of 30 credits. Plan C for the ME program will require 15 credits of general courses and 15 credits of elective courses for a total of 30 credits. The balance of graduate courses (electives) are determined by the student, the major professor, and the student's graduate

committee. Elective courses must follow the guidelines of the School of Graduate Studies for inclusion on a student's Program of Study and must be approved by the student's committee.

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- Submit minimum 1 article for publication with an approved peer-reviewed technical journal.
- Write a thesis acceptable to supervisory committee. Give oral presentation of thesis and submit final copy to the USU library.

Section 1

Type
Completion Requirement

Core Courses - 15 credits

Complete ALL of the following Courses:

- STAT6200 - Analysis of Designed Experiments - 3cr.
  OR CEE6660 - Environmental and Hydrologic Data Analysis - 3cr.
- BENG6510 - Graduate Seminar - 1cr.
- BENG6600 - Downstream Processes in Biological Engineering - 3cr.
- BENG6630 - Synthetic Biological Engineering - 3cr.
- BENG6810 - Biochemical Engineering - 3cr.
- BENG6860 - Research Orientation and Planning - 2cr.

Section 2

Type
Completion Requirement

Electives

The MS degree in Biological Engineering Plan A requires 9 credits of electives. The MS Plan B requires 12 credits of electives. The ME Plan C requires 15 credits of electives. A graduate student's supervisory committee helps choose other related graduate coursework as needed to complete the student's program of study and support the research project.

Section 3

Type
Completion Requirement

Elective Courses - (9-15 credits depending on path/degree)

Complete 9-15 credits of Elective Courses

Complete ANY of the following Courses:

- BENG6500 - Systems Biology Modeling - 3cr.
- BENG6610 - Food and Bioprocess Engineering - 3cr.
- BENG6620 - Metabolic Engineering I - 3cr.
- BENG6640 - Biofuels - 3cr.
- BENG6660 - Environmental Quality Analysis - 3cr.
- BENG6680 - Soil-based Waste Management - 2cr.
- BENG6790 - Protein Structure/Function and Purfication - 3cr.
- BENG6830 - Management and Utilization of Biological Solids and Wastewater - 3cr.
- BENG6840 - Introduction to Biophotonics - 3cr.
- BENG6850 - Biomaterials Engineering - 3cr.
- BENG6870 - Molecular and Cellular Bioengineering - 3cr.
- BENG6880 - BioMEMS: Microtechnology for BioMedical Research - 3cr.
- BENG6890 - Tissue Engineering - 3cr.
- BENG6910 - Introduction to Biosensors - 3cr.

- Plan C (ME) requires 15 credits of elective courses. Choice of elective courses will be under the supervision of the department graduate committee

Section 4

Type
Completion Requirement

Thesis Research

All MS Plan A students are required to take 6 credits of thesis research for degree completion. The MS Plan B requires 3 credits of thesis research.

Complete ALL of the following Courses:

- BENG6970 - Thesis Research - 1cr.

Section 5

Type
Completion Requirement

Make-Up Courses for Non-Engineering Students Seeking Admission to the BE Graduate Program

Students who do not have a B.S. degree in an accredited engineering discipline but who want a BE graduate engineering degree, either M.S. or PhD, must take two make-up courses in addition to the coursework for the specific graduate engineering degree.

Make-up courses must be taken the first year of program.

Students may also elect to take the Fundamentals of Engineering (FE) Examination- General Exam (at their own expense). They must successfully pass the exam in lieu of taking the make-up courses.

Complete ALL of the following Courses:

- BENG2400 - Biological and Environmental Thermodynamics - 3cr.
- BENG3200 - Introduction to Unit Operations in Biological Engineering - 3cr.

Biological Engineering - PhD

Program Overview

College
College of Engineering

Department
Biological Engineering

Program Level
Graduate

About this Degree
The PhD program in Biological Engineering emphasizes design, building, and testing of new specialized bioreactors, biomedical biomaterials, bioplastics, biofuels, pharmaceuticals, biosensors, and bioinstrumentation. We develop engineered systems that protect public health from water, air, and soil contamination. The program includes specific courses in biochemical engineering, synthetic biological engineering, metabolic engineering, biophotonics, biofuels, tissue engineering, biomaterials engineering, and biosensors that provide students with new skills required by employers in industry, government national laboratories, medical and other research institutes, and universities.

Students seeking a PhD degree in biological engineering successfully complete all required coursework, conduct research under the direction of a major professor, pass the qualifying examinations for PhD candidacy, write a dissertation acceptable to a supervisory committee, submit minimum 2 articles for publication with an approved peer-reviewed technical journal.

Admission Requirements for this Program
To be admitted to a graduate degree program at Utah State University, you must meet the minimum requirements:

- Bachelor's degree in an Engineering field from accredited institution (If Bachelor's degree is not in an Engineering field, please see info below concerning Make-up Courses for Non-engineering Students).
- 3.0 or higher GPA. Grade of C or higher on courses.
- Official transcripts with degree conferment for all institutes of higher education attended.
- Statement of Purpose.
- Three letters of recommendation.
- International Students – proof of English proficiency (please see Graduate Admissions Policy).
- GRE is no longer required.

Program Requirements

Total Credits Required In Program Coursework
36-60

Total Credits Required To Earn This Credential
36-60

Simple Requisites

Program Requirements

The PhD degree in Biological Engineering (BE) requires 12 credits of core mandatory graduate BE coursework (see below), 9-15 credits of elective courses, and 12-30 credits of research for a total of 36-60 credits. The number of credits depends on whether student is a Post-BS or Post-MS seeking PhD candidate. The balance of graduate courses (electives) are determined by the student, the major professor, and the student's graduate committee. Elective courses must follow the guidelines of the School of Graduate Studies for inclusion on a student's Program of Study and must be approved by the student's committee.

- Cumulative GPA of 3.0 is required for graduation.
- Grade of C or higher on courses.

- Submit a minimum of 2 articles for publication with an approved peer-reviewed technical journal.
- Write a dissertation acceptable to supervisory committee. Give oral presentation of dissertation and submit final copy to the USU library.
- A PhD degree must be completed within eight (8) years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost for Graduate Studies.
- Credits in the following areas are not acceptable: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Section 1

Type
Completion Requirement

Core Courses (12 credits)

Complete ALL of the following Courses:

- STAT6200 - Analysis of Designed Experiments - 3cr.
  OR CEE6660 - Environmental and Hydrologic Data Analysis - 3cr.
- BENG7310 - The Secret Life of Biofilms: Engineering Principles and Research - 3cr.
- BENG7330 - Advanced Transport Phenomena - 3cr.
- BENG7510 - Graduate Seminar - 1cr.
- BENG7860 - Research Orientation and Planning - 2cr.

Section 2

Type
Completion Requirement

Electives

The PhD degree in Biological Engineering requires 9-15 credits of electives. A graduate student's supervisory committee helps choose related graduate coursework as needed to complete the student's program of study and support the research project.

Section 3

Type
Completion Requirement

Dissertation Research

All PhD students are required to take 12-30 credits of dissertation research for degree completion.

Complete ALL of the following Courses:

- BENG7970 - Dissertation Research - 1cr.

Section 4

Type
Completion Requirement

Make-Up Courses for Non-Engineering Students Seeking Admission to the BE Graduate Program

Students who do not have a B.S. degree in an accredited engineering discipline but who want a BE graduate engineering degree, either M.S. or PhD, must take two make-up courses in addition to the coursework for the specific graduate engineering degree.

Make-up courses must be taken the first year of program.

Students may also elect to take the Fundamentals of Engineering (FE) Examination- General Exam (at their own expense). They must successfully pass the exam in lieu of taking the make-up courses.

Complete ALL of the following Courses:

- BENG2400 - Biological and Environmental Thermodynamics - 3cr.
- BENG3200 - Introduction to Unit Operations in Biological Engineering - 3cr.

Biochemistry - BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Undergraduate

About this Degree

Biochemistry is the basic science that addresses the molecular basis of life and seeks to explain the chemical properties and changes that occur in living organisms. The core courses for the major are in the areas of general, organic, and biological chemistry, general biology, calculus, general physics, and laboratory courses.

At USU, chemistry majors have the opportunity to conduct undergraduate research from the beginning of their studies, first as laboratory assistants and eventually moving on to their own research projects. Unique to USU, many undergraduates in the department are able to publish research papers. This gives USU students a competitive advantage should they apply for graduate programs.

- For more information about Chemistry and Biochemistry, see the Department of Chemistry and Biochemistry.
- Admitted and current students must meet with the Chemistry & Biochemistry Department Advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1220 CALCULUS II (QL).

Additional Information

The following curriculum is required for the BS degree in Biochemistry. To complete the degree in eight semesters (four academic years), students must register for an average of 15-16 credits per semester. (**Note:** Biochemistry Majors *cannot* declare a Chemistry Minor.)

Note: Students may satisfy the CHEM1210 PRIN OF CHEMISTRY I requirement with an AP score of 3 or 4. *Both* CHEM1210 PRIN OF CHEMISTRY I ***and*** CHEM1220 PRIN OF CHEMISTRY II (BPS) may be satisfied with an AP score of 5.

Students must complete the General Education Requirements.

- CHEM1220 PRIN OF CHEMISTRY II (BPS) will fulfill the Breadth Physical Sciences (BPS) requirement.
- PHYS2120 GENERAL PHYS LIFE SCI II (BPS) and/or BIOL1620 BIOLOGY II (BLS) will fulfill the Breadth Life Science (BLS) requirement.
- MATH1210 CALCULUS I (QL) will fulfill the Quantitative Literacy (QL) requirement.

Students must also complete the University Studies Requirements.

- Complete at least 2 credits in approved 3000-level or above courses from each of the following two categories: Depth Humanities and Creative Arts (DHA) and Depth Social Sciences (DSS).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.20 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
96-108	120

Simple Requisites

Program Requirements

REQUIREMENTS TO REMAIN IN THE PROGRAM:

- No CHEM prefix course may be applied toward graduation with a major in Biochemistry with an earned grade of less than C-.
- No CHEM prefix course may be taken on a pass/fail basis, except those courses which are only taught pass/fail.
- No CHEM prefix course may be repeated more than one time to improve the grade to a C- or better.
- All candidates for graduation with a Biochemistry degree must complete a department exit survey prior to approval of graduation application and completion of the program.

Major Requirements (96-108 credits)

Type
Completion Requirement

Biochemistry Requirements (66 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM1990 - Introduction to the Chemistry and Biochemistry Professions - 1cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM3000 - Quantitative Analysis (QI) - 3cr.
- CHEM3005 - Quantitative Analysis Laboratory - 1cr.
- CHEM4890 - Undergraduate Biochemistry Seminar (CI) - 2cr.
- CHEM5070 - Biophysical Chemistry - 3cr.
- CHEM5700 - General Biochemistry I - 3cr.
- CHEM5710 - General Biochemistry II - 3cr.
- CHEM5715 - General Biochemistry Laboratory I - 1cr.
- CHEM5720 - General Biochemistry Laboratory II (CI) - 2cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
  OR PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
  OR PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
  OR STAT3080 - Data Science for Scientists - 3cr.

Required Major Advanced Electives (18 credits)

Complete the following:

- Students must take a total of 18 credits of approved electives
- 14 credits must be 3000 level or higher
- A minimum of 9 credits must come from list A
- Students must receive a C- grade or higher in elective courses

- No P grades will be accepted in elective courses
- Other upper-division courses may be substituted if approved by the department.
- Prerequisites will not be waived

Advanced Biochemistry Elective Options List A (9-18 credits required)

A minimum of 9 credits of coursework must from from List A to meet the 18 credit minimum requirement.

- Students must take a total of 18 credits of approved electives
- 14 credits of the 18 total credits must be 3000 level or higher
- Students must receive a C- grade or higher in elective courses
- No P grades will be accepted in elective courses
- Only 3 total credits of research (BIOL 5800 and/or CHEM 4800) can be counted towards 18 credit elective requirements
- For 6000 and 7000 level CHEM prefix courses, permission from the instructor will be required

Earn at least 9 credits from the following:

- ADVS4200 - Physiology of Reproduction and Lactation (CI) - 4cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3065 - Genetics Laboratory (CI) - 2cr.
- BIOL3300 - General Microbiology - 3cr.
  AND BIOL3305 - General Microbiology Laboratory - 2cr.
- BIOL4450 - Neurobiology - 3cr.
- BIOL4770 - Introduction to Dynamic Biological Systems - 3cr.
- BIOL5150 - Immunology - 3cr.
- BIOL5210 - Cell Biology - 3cr.
- BIOL5220 - Endocrine Aspects of Nutrition - 3cr.
- BIOL5240 - Virology - 3cr.
- BIOL5400 - Environmental Toxicology - 3cr.
- BIOL5600 - Comparative Animal Physiology - 3cr.
- CHEM3510 - Intermediate Inorganic Chemistry - 2cr.
- CHEM4800 - Research Problems (CI) - 1cr.
- CHEM5100 - Computational Chemistry - 3cr.
- CHEM5520 - Advanced Inorganic Chemistry - 2cr.
- CHEM5640 - Instrumental Analysis - 3cr.
- CHEM5670 - Intermediate Environmental Chemistry - 3cr.
- CHEM6300 - Advanced Modern Organic Chemistry - 3cr.
- CHEM6720 - Principles of Enzymology I - 1cr.
- CHEM6740 - Cellular Communication by Small Molecules and Proteins - 1cr.
- CHEM6750 - Principles of Structural Biology - 1cr.
- CHEM6760 - Principles of Bioenergetics - 1cr.
- CHEM6770 - Biochemical Methods - 1cr.
- CHEM6780 - Biochemical Basis of Gene Expression: Nucleic Acid Protein Interactions - 1cr.
- CHEM7300 - Reactions and Synthesis in Modern Organic Chemistry - 3cr.
- CHEM7770 - Special Topics in Biochemistry (Topic) - 1cr.
- BENG5810 - Biochemical Engineering - 3cr.
- BENG5870 - Molecular and Cellular Bioengineering - 3cr.
- BENG5500 - Systems Biology Modeling - 3cr.
- PUBH5400 - Environmental Toxicology - 3cr.

Advanced Biochemistry Elective Options List B (0-9 Credits)

A maximum of 9 credits of coursework can come from List B to meet the 18 credit minimum requirement.

- Students must take a total of 18 credits of approved electives
- 14 credits of the 18 total credits must be 3000 level or higher
- Students must receive a C- grade or higher in elective courses
- No P grades will be accepted in elective courses
- Only 3 total credits of research (BIOL 5800 and/or CHEM 4800) can be counted towards 18 credit elective requirements
- Students cannot count both BIOL 2420 and BIOL 4600 towards the elective requirements

Complete ANY of the following Courses:

- ADVS3500 - Principles of Animal Nutrition - 3cr.
- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
- BIOL3020 - Evolutionary Biology - 3cr.
- BIOL3050 - Organismal Biology with Physiology - 3cr.
- BIOL3070 - Computational Approaches to Biology - 3cr.
- BIOL4000 - Human Dissection - 1cr.
- BIOL4040 - Fundamentals of Epidemiology - 3cr.
- BIOL4400 - Plant Physiology (QI) - 4cr.
- BIOL4430 - Introduction to Plant Pathology - 4cr.
- BIOL4600 - Advanced Human Physiology - 5cr.
- BIOL5625 - Neurophysiology Laboratory - 2cr.
- BIOL5630 - Endocrinology (CI) - 3cr.
- BIOL5800 - Undergraduate Research - 1cr.
- CHEM4250 - Cooperative Experience - 1cr.
- PUBH4030 - Communicable Disease Control - 3cr.
- BENG5660 - Environmental Quality Analysis - 3cr.
- BENG5880 - BioMEMS: Microtechnology for BioMedical Research - 3cr.
- BENG5910 - Introduction to Biosensors - 3cr.
- BENG2330 - Engineering Properties of Biological Materials - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Biochemistry - MS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Graduate

About this Degree

The Master of Science (MS) in Biochemistry at Utah State University provides advanced training in the chemical and molecular principles that govern biological systems. The program is designed for students seeking to strengthen their scientific foundation, develop research expertise, and prepare for doctoral study or professional careers in biotechnology, health sciences, and related industries.

Students engage in rigorous coursework in biochemistry and related disciplines, building depth in areas such as molecular biology, metabolism, structural biology, and bioanalytical methods. Emphasis is placed on critical evaluation of scientific literature, quantitative analysis, experimental design, and clear scientific communication.

The program includes significant laboratory and research experiences under faculty mentorship, enabling students to develop technical proficiency with modern instrumentation and methodologies. Through thesis research or other approved scholarly projects, students demonstrate mastery of biochemical concepts and the ability to conduct systematic scientific investigation.

Graduates are well prepared for continued doctoral study, research positions in biotechnology and pharmaceutical industries, government laboratories, and other science-based professions requiring advanced biochemical training.

Qualified undergraduate biochemistry majors at Utah State University may apply in their third year for admission to the BS-MS program. Students should consult with the chairperson of the Graduate Recruiting and Admissions Committee to be certain of their eligibility for this program. All requirements for the BS degree must be completed within two semesters of admission. The MS degree cannot include coursework counted toward the BS degree.

Admissions Requirements for this Degree

Applicants to the MS in Biochemistry program must hold a bachelor's degree in biochemistry or a closely related discipline from an accredited institution. Applicants are expected to have completed foundational coursework in general chemistry, organic chemistry, biochemistry, and related life science disciplines. Admissions requirements and procedures can be found at: https://artsci.usu.edu/chem-biochem/students/graduate/graduate-application.

Additional information about the MS and BS-MS in Biochemistry programs may be obtained by contacting the Department of Chemistry and Biochemistry or by visiting https://artsci.usu.edu/chem-biochem/.

Simple Requisites

Program Requirements

Requirements for an MS degree in Biochemistry

- **Degree Verification**: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate degree.
- **GPA and Minimum Grades**: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. More than one C grade or grades of C- or lower will not be accepted for a biochemistry graduate degree.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- **Matriculation Start Semester:** An MS degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Course Number Acceptability:** The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Research Credits:** The Plan A option for an MS degree requires the preparation and defense of a thesis. Students are required to complete a minimum of 6 semester credits of thesis research with a maximum of 15 thesis credits applied toward a Program of Study.
    1. A Plan B option requires the production and defense of a paper/project. A minimum of two credits of thesis research (6970) are required, but no more than three thesis research credits can be included in an approved Program of Study.
- **School of Graduate Studies Forms:** Approval of all academic forms required for MS students by the School of Graduate Studies. This includes the Supervisory Committee Approval form, Program of Study, Thesis Proposal Approval, Appointment for Exam, Authorship & Copyright, Format & Style, Title Page, and Graduation Application.

Biochemistry - MS

Type
Completion Requirement

Biochemistry Course Requirements (30 credits)

The Program of Study is approved by the student's supervisory committee. A total of 30 credits is required for the MS degree. Every MS student in biochemistry must complete the following coursework for a minimum of 15 credits:

Fulfill ALL of the following requirements:

Core Course Requirements (6 credits)

Complete ALL of the following Courses:

- CHEM6720 - Principles of Enzymology I - 1cr.
- CHEM6740 - Cellular Communication by Small Molecules and Proteins - 1cr.
- CHEM6750 - Principles of Structural Biology - 1cr.
- CHEM6760 - Principles of Bioenergetics - 1cr.
- CHEM6770 - Biochemical Methods - 1cr.
- CHEM6780 - Biochemical Basis of Gene Expression: Nucleic Acid Protein Interactions - 1cr.

AND

Course Requirements

Complete ALL of the following Courses:

- CHEM7800 - Seminar - 1cr.

• One additional CHEM course at the level of 5000 or above
• One graduate-level course with any prefix at the level of 5000 or above

NOTE:

1. CHEM7800 SEMINAR - Must complete 4 credits

Additional Program Requirements

Complete the following:
• Complete Responsible Conduct of Research training
• Attend the Graduate Student Proposal Writing Seminar

Biochemistry - PhD

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Graduate

About this Degree

The PhD in Biochemistry at Utah State University is a research-intensive doctoral program designed to prepare scientists for leadership in academia, biotechnology, and related industries. The program provides advanced training in the molecular and chemical foundations of biological systems while cultivating independence, analytical rigor, and professional integrity.

Doctoral students conduct original research under the guidance of accomplished faculty mentors whose work spans areas such as molecular biology, structural biology, enzymology, bioanalytical chemistry, and related interdisciplinary fields. Coursework strengthens expertise in biochemical principles, quantitative analysis, and experimental design, while emphasizing critical evaluation of scientific literature and clear scientific communication.

Students develop technical proficiency through modern laboratory methodologies and instrumentation and gain experience presenting their research at professional conferences and publishing in peer-reviewed journals. Teaching and mentoring opportunities further reinforce mastery of foundational concepts and prepare graduates for diverse professional roles.

Graduates of the program are well prepared for postdoctoral research, faculty appointments, and advanced positions in biotechnology, pharmaceuticals, government laboratories, and other research-driven organizations.

Admissions Requirements for this Degree

Applicants to the PhD in Biochemistry program must hold a bachelor's or master's degree in biochemistry or a closely related discipline from an accredited institution. Applicants are expected to have completed foundational coursework in general chemistry, organic chemistry, biochemistry, and related life science disciplines. Admissions requirements and procedures can be found at: https://artsci.usu.edu/chem-biochem/students/graduate/graduate-application.

Additional information about the PhD in Biochemistry may be obtained by contacting the Department of Chemistry and Biochemistry or by visiting https://artsci.usu.edu/chem-biochem/.

- **Matriculation Start Semester:** A PhD degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Course Number Acceptability:** The Program of Study for a PhD degree must include at least 18 semester credits at the level of 6000 or above.
    1. The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Research Credits:** A minimum of 12 dissertation research credits is required if the student has an MS degree, and a minimum of 18 is required if the student has a bachelor's degree.
- **School of Graduate Studies Forms:** Approval of all academic forms required for PhD students by the School of Graduate Studies. This includes the Supervisory Committee Approval form, Program of Study, Application for Candidacy, Appointment for Exam, Authorship & Copyright, Format & Style, Title Page, and Graduation Application.

Biochemistry - PhD

Type
Completion Requirement

Biochemistry Course Requirements

The Program of Study is approved by the student's supervisory committee. A total of 30 credits is required for students entering with an MS degree, 60 credits is required for students entering with a bachelor's degree. Every PhD student in biochemistry must complete the following coursework for a minimum of 10 credits:

Fulfill ALL of the following requirements:

Biochemistry Core Courses

Complete ALL of the following Courses:

- CHEM6720 - Principles of Enzymology I - 1cr.
- CHEM6740 - Cellular Communication by Small Molecules and Proteins - 1cr.
- CHEM6750 - Principles of Structural Biology - 1cr.
- CHEM6760 - Principles of Bioenergetics - 1cr.

Biology - Minor

Program Overview

College	Department	Program Level
College of Arts & Sciences	Biology	Undergraduate

Program Requirements

Total Credits Required To Earn This Credential
20

Simple Requisites

Program Requirements

The Biology minor requires completion of 20 credits with the following courses:

Section 1

Type
Completion Requirement

Program Requirments

A minimum overall GPA of 2.25 is required for these courses, with a *C-* or better grade in BIOL1610 BIOLOGY I, BIOL1620 BIOLOGY II (BLS), BIOL1620 BIOLOGY II (BLS), and BIOL1625 BIOLOGY II LABORATORY.

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.

• Upper-division (3000-level and above) BIOL prefix courses (12 credits)

NOTE:
BIOL2220 GENERAL ECOLOGY may be counted toward the 12 elective credits. However, students may not take both BIOL2220 GENERAL ECOLOGY and BIOL3200 ADVANCED ECOLOGY (CI) to fulfill the minor requirements.

Program Learning Outcomes

Biology: Biology - BA, BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Biology	Undergraduate

About this Degree
Biology is the study of living organisms and life, and their origin, structure, function, growth, evolution, distribution, and taxonomy. There are many specialty areas that students can major in within biology. Biologists can find careers in research, healthcare, teaching, science writing, administration and management, government, and industry. Studying biology teaches students to ask questions, make observations, evaluate evidence, and solve problems.

Biology Emphasis: This emphasis is a flexible option for students wishing to customize their education in biology. Students choose electives and conduct research in a variety of different topics, such as botany, entomology, biotechnology, synthetic biology, neurobiology, physiology, toxicology, microbiology, virology, herpetology, mammalogy, ornithology, behavioral biology, and more.

The Biology Department offers courses that fulfill the majority of graduate program prerequisites for students hoping to go on to health professions careers following their undergraduate degree. Students who receive health professions advising from USU can be in any major. USU medical school and dental school applicants have a consistently high acceptance rate. USU's health profession students have the opportunity to receive advanced education in human anatomy and physiology, and the human dissection course offered by the department gives students hands-on preparation not available at most other universities.

Biology majors at USU have the unique opportunity to work with faculty mentors on research projects. Faculty is also involved in multiple USTAR (Utah Science Technology and Research) groups and in national and international collaborative research efforts.

The Department of Biology offers programs leading to a Bachelor of Science or Bachelor of Arts degree. For Bachelor of Arts degree, see Undergraduate Academic Credential Requirements for language requirements. Majors will complete a core of courses that provide an understanding of biological principles. Upper-division courses provide integration, in-depth study, and an opportunity for specialization within the different degree emphases. Additional coursework in chemistry, physics, statistics, and mathematics provides knowledge and analytical skills in these important related fields. Biology degrees provide a foundation for graduate work or employment in research, industry, or governmental agencies. Biology majors can add a minor area of study, such as business or chemistry, to enhance their employment opportunities.

- For more information about Biology, see the link to the Department of Biology.
- Admitted and current students must meet with their academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1210 CALCULUS I (QL) or MATH1100 CALCULUS TECHNIQUES (QL), and either STAT2000 STATISTICAL METHODS (QI), or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program
- New freshmen admitted to USU in good standing qualify for admission to this major.
- Transfer students from other institutions need a 2.25 transfer GPA and students transferring from other USU majors need a 2.25 GPA for admission to this major in good standing

Program Requirements

Total Credits Required In Program Coursework
74-86

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

A minimum GPA of 2.25 must be attained in all Biology and Public Health coursework required for the major. Major requirements may not be taken on a pass/fail basis, except BIOL5850 MICROBIOLOGY SEMINAR, BIOL6800 BIOLOGY SEMINAR, BIOL6870 ECOLOGY SEMINAR and other one-credit seminar biology classes.

Some program requirements will fulfill the General Education Requirements and University Studies Requirements.

- Two classes from BIOL3055 ORGANISMAL BIOL/PHYS LAB (CI), BIOL3065 GENETICS LABORATORY (CI), BIOL3085 ECOLOGY LABORATORY (CI), and BIOL3095 MOLEC, CELL, DEV BIOL LAB (CI) will fulfill the Communications Intensive (CI) requirement.
- STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI) will fulfill the Quantitative Intensive (QI) requirement.

All candidates for graduation with a biology degree must complete a department assessment prior to approval of graduation application and completion of the program.

For further information, contact the Biology Advising Center.

Major Requirements (74-86 credits)

Type
Completion Requirement

Biology Major Required Courses (27 credits)

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- BIOL1050 - Biology Professions - 1cr.
  OR BIOL1060 - Prehealth Professions - 1cr.
- BIOL2220 - General Ecology - 3cr.
- BIOL3020 - Evolutionary Biology - 3cr.
- BIOL3050 - Organismal Biology with Physiology - 3cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3070 - Computational Approaches to Biology - 3cr.
  OR BIOL3150 - Quantitative Modeling of Life - 3cr.
  OR BIOL4770 - Introduction to Dynamic Biological Systems - 3cr.
- BIOL3090 - Molecular, Cellular, and Developmental Biology - 3cr.

AND

Additional Required Courses

Earn a minimum grade of C- in the following:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.

Laboratory Course Requirements (4 credits)

Complete at least 2 of the following courses:

- BIOL3055 - Organismal Biology with Physiology Laboratory (CI) - 2cr.
- BIOL3065 - Genetics Laboratory (CI) - 2cr.
- BIOL3085 - Ecology Laboratory (CI) - 2cr.
- BIOL3095 - Molecular, Cellular, and Developmental Biology Laboratory (CI) - 2cr.

Biology Electives (10 credits)

Earn at least 10 credits
Students must select an additional 10 credits of 4000-level and above BIOL or PUBH prefix courses as electives. BIOL3300 GENERAL MICROBIOLOGY may also be included toward these elective credits. A maximum of 4 credits from BIOL4250 INTERNSHIP AND COOP (1-2 credits), BIOL4710 TEACHING INTERNSHIP (1 credit), and BIOL5800 UNDERGRADUATE RESEARCH (1-3 credits) may be included among the 10 elective credits.

Required Physical Science Courses (26-37 credits)

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.

Students must also select an Organic Chemistry option as well as a Biochemistry option

AND

Organic Chemistry

Fulfill ANY of the following requirements:

Organic Chemistry Option 1

Complete ALL of the following Courses:

- CHEM2300 - Principles of Organic Chemistry - 3cr.
  AND CHEM2315 - Organic Chemistry Laboratory I - 1cr.

OR

Organic Chemistry Option 2

Complete ALL of the following Courses:

- CHEM2310 - Organic Chemistry I - 4cr.
  AND CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
  AND CHEM2325 - Organic Chemistry Laboratory II - 1cr.

AND

Biochemistry

Fulfill ANY of the following requirements:

Biochemistry Option 1

Complete ALL of the following Courses:

- CHEM3700 - Introductory Biochemistry - 3cr.
  AND CHEM3710 - Introductory Biochemistry Laboratory - 1cr.

OR

Biochemistry Option 2

Students who select "Organic Chemistry Option 1" are not eligible to register for this Biochemistry option.

Complete ALL of the following Courses:

- CHEM5700 - General Biochemistry I - 3cr.
  AND CHEM5715 - General Biochemistry Laboratory I - 1cr.
- CHEM5710 - General Biochemistry II - 3cr.
  AND CHEM5720 - General Biochemistry Laboratory II (CI) - 2cr.

Mathematics and Statistics Requirement (7-8 credits)

Complete ALL of the following Courses:

- MATH1210 - Calculus I (QL) - 4cr.
  OR MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Biology: Cellular/Molecular - BA, BS

Program Overview

College
College of Arts & Sciences

Department
Biology

Program Level
Undergraduate

About this Degree

Biology is the study of living organisms and life, and their origin, structure, function, growth, evolution, distribution, and taxonomy. There are many specialty areas that students can major in within biology. Biologists can find careers in research, healthcare, teaching, science writing, administration and management, government, and industry. Studying biology teaches students to ask questions, make observations, evaluate evidence, and solve problems.

The Biology Department offers 4 different emphases. The **Cellular/Molecular** emphasis deals with the formation, structure, and function of macromolecules essential to life, such as nucleic acids and proteins. It also deals with cellular and developmental biology. In addition the Department offers courses that fulfill the majority of graduate program prerequisites for students hoping to go on to health professions careers following their undergraduate degree. Students who receive health professions advising from USU can be in any major. USU medical school and dental school applicants have a consistently high acceptance rate. USU's health profession students have the opportunity to receive advanced education in human anatomy and physiology, and the human dissection course offered by the department gives students hands-on preparation not available at most other universities.

Biology majors at USU have the unique opportunity to work with faculty mentors on research projects. Faculty is also involved in multiple USTAR (Utah Science Technology and Research) groups and in national and international collaborative research efforts.

The Department of Biology offers programs leading to a Bachelor of Science or Bachelor of Arts degree. Majors will complete a core of courses that provide an understanding of biological principles. Upper-division courses provide integration, in-depth study, and an opportunity for specialization within the different degree emphases. Additional coursework in chemistry, physics, statistics, and mathematics provides knowledge and analytical skills in these important related fields. Biology degrees provide a foundation for graduate work or employment in research, industry, or governmental agencies. Biology majors can add a minor area of study, such as business or chemistry, to enhance their employment opportunities.

- For more information about Biology, see the link to the Department of Biology.
- Admitted and current students must meet with their academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1210 CALCULUS I (QL) or MATH1100 CALCULUS TECHNIQUES (QL) and either STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen admitted to USU in good standing qualify for admission to this major.
- Transfer students from other institutions need a 2.25 transfer GPA and students transferring from other USU majors need a 2.25 GPA for admission to this major in good standing.

Program Requirements

Total Credits Required In Program Coursework
90

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

A minimum GPA of 2.25 must be attained in all Biology and Public Health coursework required for the major. Major requirements may *not* be taken on a pass/fail basis.

The following major coursework will fulfill either the General Education Requirements, or University Studies Requirements.

- The required Biology coursework will fulfill the Breadth Life Science (BLS) requirement.
- The required Chemistry coursework will fulfill the Breadth Physical Science (BPS) requirement.
- Two classes from BIOL3055 ORGANISMAL BIOL/PHYS LAB (CI), BIOL3065 GENETICS LABORATORY (CI), BIOL3085 ECOLOGY LABORATORY (CI), and BIOL3095 MOLEC, CELL, DEV BIOL LAB (CI) will fulfill the Communications Intensive (CI) requirement.
- STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI) will fulfill the Quantitative Intensive (QI) requirement.

All candidates for graduation with a biology degree must complete a department assessment prior to approval of graduation application and completion of the program.

For further information, contact the Biology Advising Center.

Biology: Cellular/Molecular - BA, BS

Type
Completion Requirement

Biology Major Required Courses (31 credits)

Complete ALL of the following Courses:

- BIOL1500 - Anatomy and Physiology - 3cr.
  OR BIOL1060 - Prehealth Professions - 1cr.
- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL2220 - General Ecology - 3cr.
- BIOL3020 - Evolutionary Biology - 3cr.
- BIOL3050 - Organismal Biology with Physiology - 3cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3090 - Molecular, Cellular, and Developmental Biology - 3cr.
- BIOL3095 - Molecular, Cellular, and Developmental Biology Laboratory (CI) - 2cr.
- BIOL5800 - Undergraduate Research - 1cr.
- BIOL3070 - Computational Approaches to Biology - 3cr.
  OR BIOL3150 - Quantitative Modeling of Life - 3cr.
  OR BIOL4770 - Introduction to Dynamic Biological Systems - 3cr.

NOTE:

1. BIOL1610 BIOLOGY I, BIOL1615 BIOLOGY I LABORATORY, BIOL1620 BIOLOGY II (BLS), BIOL1625 BIOLOGY II LABORATORY - Requires a C- or better.

2. BIOL5800 UNDERGRADUATE RESEARCH - Minimum of 2 credits required.

Laboratory Course Requirements (2 credits)

Complete ALL of the following Courses:

- BIOL3055 - Organismal Biology with Physiology Laboratory (CI) - 2cr.
- BIOL3065 - Genetics Laboratory (CI) - 2cr.
- BIOL3085 - Ecology Laboratory (CI) - 2cr.

Molecular Biology/Cell/Biotechnology Course Requirement (at least 9 credits)

Earn at least 9 credits from the following:

- BIOL3300 - General Microbiology - 3cr.
- BIOL4400 - Plant Physiology (QI) - 4cr.
- BIOL4450 - Neurobiology - 3cr.
- BIOL4600 - Advanced Human Physiology - 5cr.
- BIOL5050 - Evolutionary Genomics - 3cr.
- BIOL5150 - Immunology - 3cr.
- BIOL5210 - Cell Biology - 3cr.
- BIOL5240 - Virology - 3cr.
- BIOL5390 - Genes and Behavior (CI) - 3cr.
- BIOL5460 - Molecular Neurophamacology - 3cr.
- BIOL5600 - Comparative Animal Physiology - 3cr.
- BIOL5625 - Neurophysiology Laboratory - 2cr.
- BIOL5790 - Protein Structure/Function and Purification - 3cr.

Biology Electives (4 credits)

Complete the following:

Students must select an additional 4 credits of 4000-level and above BIOL prefix courses as electives. A maximum of 3 credits from BIOL4250 INTERNSHIP AND COOP and BIOL4710 TEACHING INTERNSHIP may be included among the 4 elective credits.

Required Physical Science Courses (37 credits)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM5700 - General Biochemistry I - 3cr.
- CHEM5710 - General Biochemistry II - 3cr.
- CHEM5715 - General Biochemistry Laboratory I - 1cr.
- CHEM5720 - General Biochemistry Laboratory II (CI) - 2cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.

Mathematics and Statistics Requirement (7-8 credits)

Complete ALL of the following Courses:

- MATH1210 - Calculus I (QL) - 4cr.
  OR MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

About this Degree

Biology is the study of living organisms and life, and their origin, structure, function, growth, evolution, distribution, and taxonomy. There are many specialty areas that students can major in within biology. Biologists can find careers in research, healthcare, teaching, science writing, administration and management, government, and industry. Studying biology teaches students to ask questions, make observations, evaluate evidence, and solve problems.

The Biology Department offers 4 different emphases. The **Ecology and Evolutionary Biology** emphasis focuses on both ecology, the branch of biology dealing with the relations and interactions between organisms and their environment, and biodiversity, the varieties of life on earth at all its levels and the ecological and evolutionary processes that sustain it.In addition the Department offers courses that fulfill the majority of graduate program prerequisites for students hoping to go on to health professions careers following their undergraduate degree. Students who receive health professions advising from USU can be in any major. USU medical school and dental school applicants have a consistently high acceptance rate. USU's health profession students have the opportunity to receive advanced education in human anatomy and physiology, and the human dissection course offered by the department gives students hands-on preparation not available at most other universities.

Biology majors at USU have the unique opportunity to work with faculty mentors on research projects. Faculty is also involved in multiple USTAR (Utah Science Technology and Research) groups and in national and international collaborative research efforts.

The Department of Biology offers programs leading to a Bachelor of Science or Bachelor of Arts degree. Majors will complete a core of courses that provide an understanding of biological principles. Upper-division courses provide integration, in-depth study, and an opportunity for specialization within the different degree emphases. Additional coursework in chemistry, physics, statistics, and mathematics provides knowledge and analytical skills in these important related fields. Biology degrees provide a foundation for graduate work or employment in research, industry, or governmental agencies. Biology majors can add a minor area of study, such as business or chemistry, to enhance their employment opportunities.

- For more information about Biology, see the link to the Department of Biology.
- Admitted and current students must meet with their academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1210 CALCULUS I (QL) or MATH1100 CALCULUS TECHNIQUES (QL) and either STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen admitted to USU in good standing qualify for admission to this major.
- Transfer students from other institutions need a 2.25 transfer GPA and students transferring from other USU majors need a 2.25 GPA for admission to this major in good standing.

Program Requirements

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

A minimum GPA of 2.25 must be attained in all Biology and Public Health coursework required for the major. Major requirements may *not* be taken on a pass/fail basis.

The following major coursework will fulfill either the General Education Requirements, or University Studies Requirements.

- The required Biology coursework will fulfill the Breadth Life Science (BLS) requirement.
- The required Chemistry coursework will fulfill the Breadth Physical Science (BPS) requirement.
- Two classes from BIOL3055 ORGANISMAL BIOL/PHYS LAB (CI) and BIOL3085 ECOLOGY LABORATORY (CI) will fulfill the Communications Intensive (CI) requirement.
- STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI) will fulfill the Quantitative Intensive (QI) requirement.

All candidates for graduation with a biology degree must complete a department assessment prior to approval of graduation application and completion of the program.

For further information, contact the Biology Advising Center.

- BIOL3050 - Organismal Biology with Physiology - 3cr.
- BIOL3055 - Organismal Biology with Physiology Laboratory (CI) - 2cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3085 - Ecology Laboratory (CI) - 2cr.
- BIOL3090 - Molecular, Cellular, and Developmental Biology - 3cr.
- BIOL5800 - Undergraduate Research - 1cr.
- BIOL3070 - Computational Approaches to Biology - 3cr.
  OR BIOL3150 - Quantitative Modeling of Life - 3cr.
  OR BIOL4770 - Introduction to Dynamic Biological Systems - 3cr.

NOTE:

1. BIOL1610 BIOLOGY I, BIOL1615 BIOLOGY I LABORATORY, BIOL1620 BIOLOGY II (BLS), BIOL1625 BIOLOGY II LABORATORY - Requires a grade of C- or better.

2. BIOL5800 UNDERGRADUATE RESEARCH - Minimum of 2 credits required.

Ecology and Evolution Electives (15 credits)

Earn at least 15 credits from the following:

- BIOL3065 - Genetics Laboratory (CI) - 2cr.
- BIOL3095 - Molecular, Cellular, and Developmental Biology Laboratory (CI) - 2cr.
- BIOL3300 - General Microbiology - 3cr.
- BIOL4040 - Fundamentals of Epidemiology - 3cr.
- BIOL4060 - Exploring Animal Behavior - 3cr.
- BIOL4230 - Applied Mathematics in Biology (QI) - 3cr.
- BIOL4250 - Internship/Co-op - 1cr.
- BIOL4270 - Theoretical Ecology - 3cr.
- BIOL4320 - Summarizing complex datasets and machine learning for biologists - 1cr.
- BIOL4400 - Plant Physiology (QI) - 4cr.
- BIOL4420 - Plant Systematics and Diversity - 3cr.
- BIOL4430 - Introduction to Plant Pathology - 4cr.
- BIOL4500 - Applied Entomology - 3cr.
- BIOL4540 - Invertebrate Zoology - 3cr.
- BIOL4650 - Evolution: History of an Idea (CI/DSC) - 3cr.
- BIOL5010 - Biogeography - 3cr.
- BIOL5390 - Genes and Behavior (CI) - 3cr.
- BIOL5530 - Insect Systematics and Evolution - 3cr.
- BIOL5550 - Freshwater Invertebrates - 3cr.
- BIOL5560 - Ornithology - 3cr.
- BIOL5570 - Herpetology - 3cr.
- BIOL5580 - Mammalogy - 3cr.
- BIOL5600 - Comparative Animal Physiology - 3cr.
- BIOL5810 - Bachelor's Thesis - 3cr.
- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- MATH3310 - Discrete Mathematics - 3cr.
- WILD4600 - Conservation Biology - 3cr.

Aquatic Biology Electives (6 credits)

Students interested in Aquatic Biology may also include up to 6 Elective Credits from the following:

Earn at least 6 credits from the following:

- WATS2500 - Introduction to Marine Biology (BLS) - 3cr.
- WATS3000 - Oceanography (DSC) - 3cr.
- WATS3100 - Fish Ecology, Conservation, and Management (CI/DSC) - 3cr.

Required Physical Science Courses (26 credits)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- CHEM3710 - Introductory Biochemistry Laboratory - 1cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.

Mathematics and Statistics Requirement (7-8 credits)

Complete ALL of the following Courses:

- MATH1210 - Calculus I (QL) - 4cr.
  OR MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.

Biology: Human Biology - BA, BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Biology	Undergraduate

About this Degree

Biology is the study of living organisms and life, and their origin, structure, function, growth, evolution, distribution, and taxonomy. There are many specialty areas that students can major in within biology. Biologists can find careers in research, healthcare, teaching, science writing, administration and management, government, and industry. Studying biology teaches students to ask questions, make observations, evaluate evidence, and solve problems.

The Biology Department offers 4 different emphases. The **Human Biology** emphasis is designed to fulfill the academic course requirements for entrance to most medical or dental schools in the United States and Canada. In addition, the Department offers courses that fulfill the majority of graduate program prerequisites for students hoping to go on to health professions careers following their undergraduate degree. Students who receive health professions advising from USU can be in any major. USU medical school and dental school applicants have a consistently high acceptance rate. USU's health profession students have the opportunity to receive advanced education in human anatomy and physiology, and the human dissection course offered by the department gives students hands-on preparation not available at most other universities.

Biology majors at USU have the unique opportunity to work with faculty mentors on research projects. Faculty is also involved in multiple USTAR (Utah Science Technology and Research) groups and in national and international collaborative research efforts.

The Department of Biology offers programs leading to a Bachelor of Science or Bachelor of Arts degree. For Bachelor of Arts degree, see Undergraduate Academic Credential Requirements for language requirements. Majors will complete a core of courses that provide an understanding of biological principles. Upper-division courses provide integration, in-depth study, and an opportunity for specialization within the different degree emphases. Additional coursework in chemistry, physics, statistics, and mathematics provides knowledge and analytical skills in these important related fields. Biology degrees provide a foundation for graduate work or employment in research, industry, or governmental agencies. Biology majors can add a minor area of study, such as business or chemistry, to enhance their employment opportunities.

- For more information about Biology, see the link to the Department of Biology.
- Admitted and current students must meet with their academic advisor.
- Log on to Degree Works to check student-specific program progress.
- Prehealth students pursuing a professional program should also consult with the Prehealth Advising office.
- The highest math requirement for this degree is MATH1210 CALCULUS I (QL) or MATH1100 CALCULUS TECHNIQUES (QL) and either STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen admitted to USU in good standing qualify for admission to this major.
- Transfer students from other institutions need a 2.25 transfer GPA and students transferring from other USU majors need a 2.25 GPA for admission to this major in good standing.

Program Requirements

Total Credits Required In Program Coursework
85

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

A minimum GPA of 2.25 must be attained in all Biology and Public Health coursework required for the major. Major requirements may *not* be taken on a pass/fail basis.

The following major coursework will fulfill either the General Education Requirements, or University Studies Requirements.

- The required Biology coursework will fulfill the Breadth Life Science (BLS) requirement.
- The required Chemistry coursework will fulfill the Breadth Physical Science (BPS) requirement.
- PSY1010 GENERAL PSYCHOLOGY (BSS) or SOC1010 INTRO SOCIOLOGY (BSS) or SOC1020 SOCIAL PROBLEMS (BSS) will fulfill the Breadth Social Science (BSS) requirement.
- Two classes from BIOL3055 ORGANISMAL BIOL/PHYS LAB (CI), BIOL3065 GENETICS LABORATORY (CI), BIOL3085 ECOLOGY LABORATORY (CI), and BIOL3095 MOLEC, CELL, DEV BIOL LAB (CI) will fulfill the Communications Intensive (CI) requirement.
- STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI) will fulfill the Quantitative Intensive (QI) requirement.

All candidates for graduation with a biology degree must complete a department assessment prior to approval of graduation application and completion of the program.

For further information, contact the Biology Advising Center.

Biology: Human Biology - BA, BS

Type
Completion Requirement

Required Biology Courses (27 credits)

Complete ALL of the following Courses:

- BIOL1050 - Biology Professions - 1cr.
  OR BIOL1060 - Prehealth Professions - 1cr.
- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL2220 - General Ecology - 3cr.
- BIOL3020 - Evolutionary Biology - 3cr.
- BIOL3050 - Organismal Biology with Physiology - 3cr.
  OR BIOL4600 - Advanced Human Physiology - 5cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3090 - Molecular, Cellular, and Developmental Biology - 3cr.
- BIOL3070 - Computational Approaches to Biology - 3cr.
  OR BIOL3150 - Quantitative Modeling of Life - 3cr.
  OR BIOL4770 - Introduction to Dynamic Biological Systems - 3cr.

NOTE:

1. BIOL1610 BIOLOGY I, BIOL1615 BIOLOGY I LABORATORY, BIOL1620 BIOLOGY II (BLS), BIOL1625 BIOLOGY II LABORATORY - Requires a C- or better.

Laboratory Course Requirements (4 credits)

Complete at least 2 of the following courses:

- BIOL3055 - Organismal Biology with Physiology Laboratory (CI) - 2cr.
- BIOL3065 - Genetics Laboratory (CI) - 2cr.
- BIOL3085 - Ecology Laboratory (CI) - 2cr.
- BIOL3095 - Molecular, Cellular, and Developmental Biology Laboratory (CI) - 2cr.

Human Biology Electives (12 credits)

Earn at least 12 credits
Students must select an additional 12 credits of 4000 level or above BIOL or PUBH prefix courses as electives. BIOL2320 HUMAN ANATOMY, BIOL3100 BIOETHICS (CI), and BIOL3300 GENERAL MICROBIOLOGY may also be included toward these elective credits. A maximum of 4 credits from BIOL4250 INTERNSHIP AND COOP, BIOL4710 TEACHING INTERNSHIP, and BIOL5800 UNDERGRADUATE RESEARCH may be included among the 12 elective credits. With the approval of the Director of Undergraduate Studies, up to three credits of Emphasis Electives may come from upper-division courses at the 3000 level and above from other departments. Such substitutions, which may include courses in the humanities and social sciences, must be appropriate to the Human Biology Emphasis and must be different from the courses used to fulfill University Studies Depth Education requirements.

Required Supporting Courses (3 credits)

Complete ALL of the following Courses:

- PSY1010 - General Psychology (BSS) - 3cr.
  OR SOC1010 - Introductory Sociology (BSS) - 3cr.
  OR SOC1020 - Social Problems (BSS) - 3cr.

Required Physical Science Courses (32-37 credits)

Fulfill ALL of the following requirements:

Required Physical Science Courses

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.

AND

Chemistry/Biochemistry

Fulfill ANY of the following requirements:

Introductory Biochemistry Option

Complete ALL of the following Courses:

- CHEM3700 - Introductory Biochemistry - 3cr.

- CHEM3710 - Introductory Biochemistry Laboratory - 1cr.

OR

General Biochemistry Option

Complete ALL of the following Courses:

- CHEM5700 - General Biochemistry I - 3cr.
- CHEM5710 - General Biochemistry II - 3cr.
- CHEM5715 - General Biochemistry Laboratory I - 1cr.
- CHEM5720 - General Biochemistry Laboratory II (CI) - 2cr.

Mathematics and Statistics Requirement (7-8 credits)

Complete ALL of the following Courses:

- MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1210 - Calculus I (QL) - 4cr.
  OR MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

30	30

Simple Requisites

Program Requirements

School of Graduate Studies Requirements

- A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Graduate students are required to maintain at least a 3. 0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- The Program of Study for a master's degree must include at least 15 semester credits at the level of 6000 or above.
- A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of the School of Graduate Studies.
- **Course Level Restrictions:**
  - Graduate level coursework (6000 and above)
  - No more than 12 credits of 5000-5990 level courses
- **Master's forms:**
  - Approval of academic forms required for master's students by the School of Graduate Studies

- List of specific forms required, depending on plan type:
    - RCR Training
    - Supervisory Committee
    - Program of Study
    - Annual Professional Development Plan
    - Individual Development Plan
    - Completion of Comprehensive Exam (Written or Oral)
    - Thesis/Project Approval
    - Appointment for Examination
    - Record of Examination
    - Thesis Format and Style
    - Authorship and Copyright
    - Thesis Title Page
    - SGS and library review and approval of Thesis

- **Defense**
    - Completion of Public Presentation of research
    - Completion of Private Defense with Supervisory Committee

Intro to Graduate Studies

Biomathematics - Minor (Mathematics and Statistics)

Program Overview

College
College of Science

Department
Mathematics & Statistics (Inactive Code - Do Not Use), Biology

Program Level
Undergraduate

Program Requirements

Total Credits Required To Earn This Credential

36-40

Simple Requisites

Program Requirements

All grades for MATH and STAT courses applied toward the Biomathematics minor must be C- or better. A grade of C- or better is also required in BIOL1610 BIOLOGY I, BIOL1615 BIOLOGY I LABORATORY, BIOL1620 BIOLOGY II (BLS), and BIOL1625 BIOLOGY II LABORATORY.

Section 1

Type
Completion Requirement

Required Courses (28 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
- DSAI2275 - Linear Algebra for Data Science - 4cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
- MATH4230 - Applied Mathematics in Biology (QI) - 3cr.
- BIOL4230 - Applied Mathematics in Biology (QI) - 3cr.

(students may choose either MATH2270 LINEAR ALGEBRA (QI) ***or DSAI 2275)***
(students may choose either MATH4230 APPLIED MATH IN BIOLOGY (QI) ***or*** BIOL4230 APPLIED MATH IN BIOLOGY (QI))

Section 2

Type
Completion Requirement

Elective Courses (8-12 credits)

- **Mathematics and Statistics majors** must take *two* courses from the Biology electives, and *one* course from the Mathematics and Statistics electives.
- **Biology majors** must take *one* course from the Biology electives (listed below), and *two* courses from the Mathematics and Statistics electives (listed below).

- **All other majors** must take *two* courses from *each* set of electives.

Fulfill ANY of the following requirements:

Mathematics and Statistics Electives

Complete ANY of the following Courses:

- MATH5410 - Methods of Applied Mathematics - 3cr.
- MATH5420 - Partial Differential Equations - 3cr.
- MATH5460 - Nonlinear Dynamics - 3cr.
- MATH4610 - Fundamentals of Numerical Analysis - 3cr.
- MATH5610 - Introduction to Numerical Analysis - 3cr.
- MATH5620 - Numerical Algorithms for Approximate Solutions of DE - 3cr.
- MATH5710 - Introduction to Probability - 3cr.
- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.
- STAT5120 - Statistical Methods for Rates and Proportions - 2cr.
- STAT5200 - Analysis of Designed Experiments - 3cr.
- STAT5650 - Applied Machine Learning and Multivariate Statistics - 3cr.

(students may choose either MATH4610 FUND OF NUMERICAL ANALYSIS ***or*** MATH5610 INTRO TO NUMERICAL ANALYSIS)

OR

Biology Electives

Complete ANY of the following Courses:

- BENG5020 - Biological Modeling and Controls - 3cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3070 - Computational Approaches to Biology - 3cr.
- BIOL4270 - Theoretical Ecology - 3cr.
- BIOL4300 - Programming for Biologists - 3cr.
- BIOL4400 - Plant Physiology (QI) - 4cr.
- BIOL5600 - Comparative Animal Physiology - 3cr.
- PSC5500 - Environmental Physics of Land Ecosystems & Climate - 3cr.
- PSC5760 - Climate and Climate Change (DSC)(QI) - 3cr.
- PUBH5330 - Industrial Hygiene Chemical Hazard Control (QI) - 3cr.
- WILD3810 - Wildlife Population Ecology - 3cr.

(BIOL4310 LINEAR REGRESSION ***and*** BIOL4320 DATASETS AND MACHINE LEARNING count together as one elective)

Biotechnology - BS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Animal, Dairy & Veterinary Sciences	Undergraduate

About this Degree

The Biotechnology degree provides a comprehensive curriculum that integrates theoretical knowledge with practical applications, enabling students to understand the fundamental principles of biotechnology and its diverse applications in various industries.

- For more information about Animal, Dairy, & Veterinary Sciences, see the website.
- If you are a new/entering student, we strongly recommend reviewing the four-year plan found at the bottom of this page.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.75 GPA

Program Requirements

Total Credits Required To Earn This Credential

120

Simple Requisites

Program Requirements

Students with last names A-L: Contact Allie East at allie.east@usu.edu, 435-797-2194, or https://aggie.link/AllieEast for advising.
Students with last names M-Z: Contact Tami Spackman, tami.spackman@usu.edu, 435-797-2150 or https://aggie.link/TamiSpackman for advising.

1. Attain a grade point average of at least 2.50 in all ADVS courses.
2. ADVS courses required for the major may be repeated only *once* to improve a grade.
3. Courses required for the major may *not* be taken for a *pass/fail* grade, except for courses that are only offered as pass/fail.
4. To graduate with a degree in this major, students must attain an overall GPA of at least 2.25 for all required courses for the major.

Biotechnology - BS Course Requirements

Type

Completion Requirement

Required Courses (79 credits)

Complete ALL of the following Courses:

- ADVS1050 - Animal, Dairy and Veterinary Science Academic and Career Orientation I - 1cr.

- ADVS1060 - Animal, Dairy, and Veterinary Science Academic and Career Orientation II - 1cr.
- ADVS1110 - Introduction to Animal Science (BLS) - 3cr.
- ADVS2200 - Anatomy and Physiology of Animals - 3cr.
- ADVS3000 - Animal Health and Hygiene - 3cr.
- ADVS3200 - Ethical Issues in Genetic Engineering and Biotechnology (DSC) - 3cr. (Inactive)
- ADVS4200 - Physiology of Reproduction and Lactation (CI) - 4cr.
- ADVS4250 - Internship in Animal Industry - 1cr.
  OR ADVS4800 - Undergraduate Research or Creative Opportunity - 1cr.
- ADVS5160 - Methods in Biotechnology: Cell Culture - 3cr. (Inactive)
- ADVS5260 - Methods in Biotechnology: Molecular Cloning - 3cr. (Inactive)
- ADVS5280 - Animal Molecular Biology - 3cr. (Inactive)
- ADVS5650 - Science Communication - 3cr.
- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3300 - General Microbiology - 3cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- MATH1050 - College Algebra (QL) - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.

***ADVS4250 INTERN ANIMAL INDUSTRY*, *ADVS4800 UNDERGRADUATE RESEARCH* require a minimum of 3 credits**

Directed Electives (12 credits)

Earn at least 12 credits from the following:

- ADVS3500 - Principles of Animal Nutrition - 3cr.
- ADVS3520 - Equine Nutrition and Exercise Physiology - 3cr.
- ADVS4210 - Applied Reproduction and Artificial Insemination - 2cr.
- ADVS4220 - Applied Equine Reproduction I - 3cr.
- ADVS4560 - Principles of Animal Genetics and Breeding (QI) - 3cr.
- ADVS5020 - One Health: People, Animals, and the Environment - 3cr.
- ADVS5500 - Applied Animal Nutrition - 2cr.
- ADVS5530 - Nutrient Metabolization & Utilization - 3cr.
- ADVS5630 - Endocrinology (CI) - 3cr.
- BENG2330 - Engineering Properties of Biological Materials - 3cr.
- BENG5890 - Tissue Engineering - 3cr.
- BIOL4540 - Invertebrate Zoology - 3cr.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Program Description

The Department of Veterinary Clinical and Life Sciences offers a graduate program that confers the Master of Science degree in Biomedical Sciences. Students will primarily engage in research focused on understanding animal diseases and the improvement of animal and human health.

Guided by mentors, students in the program work on basic, translational, and clinical research projects that include laboratory, clinical and field studies, and learn skills in preparation for careers as biomedical scientists. Graduates in Biomedical Sciences have a wide variety of employment options in industry, government, and academia.

NOTE: Students who are seeking a **Doctor of Veterinary Medicine (DVM)** should see the Doctor of Veterinary Medicine - DVM program catalog page for more information.

Admission Requirements for this Program

Prerequisites Required for Admission

Prior to applying for an MS in the Biomedical Sciences Program, a student **must** identify a graduate faculty member within the Department of Veterinary Clinical and Life Sciences willing to serve as their major professor. However, identifying a mentor **does not** guarantee acceptance into the Biomedical Sciences Program.

Prospective graduate students should send faculty members they are interested in working with an email including:

- A cover letter detailing your research interests and why your career goals align with their work.
- A current CV/Resume
- Unofficial university transcripts (Official transcripts from all credit-granting institutions indicating a bachelor's, master's or health professional doctorate degree that is or will be completed before matriculating from an accredited U.S. college or university or a similarly recognized international university will be required at a later time.)

Department of Veterinary Clinical and Life Sciences Admissions Policies

Prerequisite Courses Required or their equivalents (No grades of C- or lower)

1. **Earn a minimum grade of C in the following:**
    - BIOL1610 BIOLOGY I
    - BIOL1620 BIOLOGY II (BLS)
    - CHEM1210 PRIN OF CHEMISTRY I
    - CHEM1215 CHEMICAL PRINCIPLES LAB I
    - CHEM1220 PRIN OF CHEMISTRY II (BPS)
    - CHEM1225 CHEMICAL PRINCIPLES LAB II
    - MATH1050 COLLEGE ALGEBRA (QL)
    - STAT2000 STATISTICAL METHODS (QI)
2. Overall GPA 3.0
    - Calculated with primary consideration on the last 60 semester credits of the most recent degree program.
3. Three letters of recommendation
4. Statement of personal and career goals
5. International students – proof of English proficiency (TOEFL or IELTS)
    - Admissions Policies | Grad School | USU See School of Graduate Studies website for required scores and requirements based on country.
6. Students must also meet all School of Graduate Studies requirements for admission. View the School of Graduate Studies Catalog and the School of Graduate Studies webpage to learn more about their requirements and how to apply.

*Applications are taken on a rolling basis. However, to be considered for a departmental teaching assistantship, your completed application must be received by the School of Graduate Studies by **March 1** for the following fall semester.*

Please note: Graduate student stipends are dependent on the continued availability of funding.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
30	30

Simple Requisites

Program Requirements

Department of Veterinary Clinical and Life Sciences MS Program Policies

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** Credits in the following areas are not acceptable: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 6000. No more than 12 credits of 5000-level courses will be accepted as part of the program of study.
- **Matriculation Start Semester:** A master's degree must be completed within 6 years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Course Validity:** Coursework over 8 years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

- **Residency:** At least 24 semester credits must be from Utah State University.
    1. Non-residents of Utah who are eligible to apply for Utah residency must apply for Utah residency upon completion of their first year of the program in order to qualify for in-state tuition. All forms must be submitted prior to the beginning of the semester (August 1 for Fall Semester and December 1 for Spring Semester). Failure to apply for residency will result in the student being financially responsible for paying the difference between in-state and out-of-state tuition (more than $6,000 per semester).
- **Thesis Defense:** The following are required to fully complete your thesis defense:
    1. Approval of your thesis proposal by your committee.
    2. A successful formal thesis defense.
    3. Submission of the thesis to the library. The thesis must meet the School of Graduate Studies and VCLS Department requirements.
- **Master's Forms:** All graduate students must submit the following School of Graduate Studies forms and fulfill requirements for their chosen plan:

1. Supervisory Committee (Due by the end of the student's **second semester**).
2. Program of Study (Due before the end of the student's **second semester**).
3. Thesis Proposal Approval.
4. Appointment for Examination.
    - Submit at least 10 days before your scheduled defense.
5. Defense
    - A student must advertise at least 2 weeks prior to their defense date. See graduate program coordinator for advertising assistance.
    - See School of Graduate Studies deadlines for final defense completion dates and finalized paperwork submission dates to the library for successful graduation within the same semester.
6. After the Defense Forms:
    - Record of Examination (submitted by GPC)
    - Authorship & Copyright
    - Format and Style
    - Title Page
7. School of Graduate Studies and library thesis review and approval.
8. Graduation Registration

Veterinary Clinical and Life Sciences MS Course Policies
Required Credits

- Minimum Total Credits: 30
- Minimum Course Credits: 15-24
- Minimum Research Credits: 6-15 (maximum of 15 research credits applied to Program of Study)

Required Courses (4 credits)

Type
Completion Requirement

Required Courses

VCLS6100 BIOMED LIFE SCI SEMINAR SERIES is offered each fall semester. VCLS6800 BIOMED LIFE SCI GRADUATE SEM is offered each spring semester. Enrollment is expected every semester while enrolled in the program. Exceptions must be approved by the major professor and the course director.

Complete ALL of the following Courses:

- VCLS6100 - Biomedical and Life Sciences Seminar Series - 1cr.
- VCLS6800 - Biomedical and Life Sciences Graduate Seminar - 1cr.

Thesis Research Credits (6-15 credits)

Type
Completion Requirement

Thesis Research Credits

The semesters during which a student registers for thesis credit should correspond as closely as possible to the semesters in which the thesis work is done, and faculty supervision is provided. A student must register for at least 3 thesis credits the semester of their final defense.

Complete ALL of the following Courses:

- VCLS6970 - Veterinary Clinical and Life Sciences Research and Thesis - 1cr.

Elective Courses (11-20 credits)

Type
Completion Requirement

Elective Courses

This is a list of courses historically taken by students in the program and is not a comprehensive list of courses available to graduate students. If a graduate student is interested in taking a course in the Doctor of Veterinary Medicine program, please contact the graduate program coordinator in the Veterinary Clinical and Life Sciences Department for more information. A graduate student should consult with their major professor and supervisory committee to identify appropriate courses directly related to their master's degree. All coursework must be approved by the student's supervisory committee via their program of study.

Complete ANY of the following Courses:

- VCLS6130 - Biomedical Sciences: Cell Culture - 3cr.
- VCLS6200 - Research Animal Anatomy and Physiology - 3cr.
- VCLS6210 - Principles of Pharmacology and Toxicology - 3cr.
- VCLS6220 - Mechanisms of Disease - 3cr.
- VCLS6230 - Biomedical Sciences: Molecular Techniques - 3cr.

- VCLS6900 - Special Topics in Biomedical Sciences - 1cr.
- VCLS7101 - Cell Biology and Metabolism - 3cr.
- VCLS7132 - General Pathology - 3cr.
- VCLS7142 - Agents of Infection and Immunity - 3cr.
- VCLS7162 - Fundamentals of Pharmacology - 1cr.
- VCLS7602 - Leadership Principles for Biomedical Scientists and Veterinarians - 1cr.
- ADVS6630 - Endocrinology - 3cr.
- ADVS6650 - Science Communication - 3cr.

- BIOL7140 - Methods in Neuroscience - 3cr.
- CHEM5700 - General Biochemistry I - 3cr.
- CHEM6720 - Principles of Enzymology I - 1cr.
- PSC6150 - Bioinformatics and Big Data Mining - 3cr.
- STAT6200 - Analysis of Designed Experiments - 3cr.
- STAT6500 - Biostatistics Methods - 3cr.

Program Learning Outcomes

Program Learning Outcomes

https://www.usu.edu/oda/assessment/

Biomedical Sciences Graduate Program Goals 5-14-25 (approved)

1. **Discipline-specific conceptual knowledge:** Demonstrate a broad-based and cross-disciplinary understanding of foundational and emerging knowledge within their field, along with detailed expertise in a specific research area. Critically assess knowledge gaps, conflicts, limitations, and challenges within their research area to develop and refine testable hypotheses.
2. **Research skills:** Demonstrate expertise in designing, conducting and critically interpreting hypothesis-driven research using appropriate established and advanced methodologies and techniques relevant to their field. Further, demonstrate expertise in troubleshooting, and technical execution to contribute original knowledge to their field, while adhering to research ethics and safety standards.
3. **Ethics and Integrity:** Apply, model, and uphold ethics, and integrity in all aspects of research practice, professional conduct, and mentorship, including data management, publication, peer review, authorship, and the ethical treatment of human and animal subjects. Identify, evaluate, and address ethical challenges in research and academic environments.
4. **Communication skills:** Effectively communicate complex scientific concepts, research findings, and their implications through oral, written (including publications and grant proposals), and visual formats. Tailor communication for a range of audiences, including the scientific community, interdisciplinary collaborators, and the public. Demonstrate strong listening skills and engage in constructive, critical scientific dialogue.
5. **Professionalism:** Demonstrate professionalism by adhering to accepted standards within the workplace and relevant professional contexts. Manage conflicts of interest, uphold ethical principles, and contribute to the advancement of the field through public service, peer review, and interdisciplinary collaborations. Engage respectfully with peers, mentors, and collaborators, and foster a positive and supportive professional environment through leadership and mentorship.
6. **Leadership, management, and collaboration:** Demonstrate leadership, management, and collaboration skills by leading research projects, setting expectations and goals, managing project resources, and facilitating effective teamwork. Demonstrate competencies in conflict resolution, mentoring, giving and receiving constructive feedback, and building resilient teams. Pursue leadership opportunities within institutional, regional, and national professional communities to contribute to the advancement of their field.
7. **Professional development:** Demonstrate awareness of varied career pathways and actively engage in strategic, ongoing professional development. Maintain a commitment to continuous learning and skill acquisition aligned with long-term professional goals. Identify and reflect on personal strengths, values, and areas for growth. Build and maintain a broad professional network and pursue opportunities that enhance career readiness. Articulate a professional identity and career plan informed by an understanding of career options, employer expectations, and personal aspirations.
8. **Personal development:** Exhibit emotional resilience and self-awareness in balancing career aspirations with personal well-being. Effectively manage time, stress, and work-life balance while seeking support when needed. Demonstrate positive thinking styles, confidence, and perseverance in achieving long-time goals. Engage with the community to enhance personal and professional growth.

    - Calculated with primary consideration on the last 60 semester credits of the most recent degree program.
3. Three letters of recommendation
4. Statement of personal and career goals
5. International students – proof of English proficiency (TOEFL or IELTS)
    - Admissions Policies | Grad School | USU See School of Graduate Studies website for required scores and requirements based on country.
6. Students must also meet all School of Graduate Studies requirements for admission. View the School of Graduate Studies Catalog and the School of Graduate Studies webpage to learn more about their requirements and how to apply.

*Applications are taken on a rolling basis. However, to be considered for a departmental teaching assistantship, your completed application must be received by the School of Graduate Studies by **March 1** for the following fall semester.*

Please note: Graduate student stipends are dependent on the continued availability of funding.

Simple Requisites

Program Requirements

Department of Veterinary Clinical and Life Sciences PhD Program Policies

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** Credits in the following areas are not acceptable: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 6000. No more than 12 credits of 5000-level courses will be accepted as part of the program of study.
- **Matriculation Start Semester:** A doctoral degree must be completed within 8 years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Course Validity:** Coursework over 8 years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

- **Residency:** At least 30 semester credits must be from Utah State University.
    1. Non-residents of Utah who are eligible to apply for Utah residency must apply for Utah residency upon completion of their first year of the program in order to qualify for in-state tuition. All forms must be submitted prior to the beginning of the semester (August 1 for Fall Semester and December 1 for Spring Semester). Failure to apply for residency will result in the student being financially responsible for paying the difference between in-state and out-of-state tuition (more than $6,000 per semester).
- **Dissertation Defense:** The following are required to fully complete your dissertation:
    1. Submission of a dissertation proposal
    2. Completion of a comprehensive qualifying examination
    3. A formal dissertation defense
    4. Submission of the dissertation to the library. The dissertation must meet the School of Graduate Studies and VCLS Department requirements.
- **Doctoral Forms:** All graduate students must submit the following School of Graduate Studies forms and fulfill requirements for their chosen plan:

1. Supervisory Committee (due by the end of the student's **third semester**).
2. Program of Study (due before the end of the student's **third semester**).
3. Dissertation/Project Approval.
    - A proposal and formal dissertation defense are required. The dissertation must meet the School of Graduate Studies and VCLS Department requirements.
4. Application for Candidacy (due at least 3 months before the final defense).
    - Required Completion Tasks before submitting Application for Candidacy:
    - Completion of all or most courses.
    - Successful comprehensive examinations.
    - Approval of a proposal for dissertation research
5. Submitting Application for Candidacy (*Submission of the candidacy form is a significant point in the student's program because the committee and department head thereby attest the student is ready to conduct independent dissertation research. However, successful program completion is not guaranteed.)*
    - Submit an Application for Candidacy to the School of Graduate Studies.
    - Submission must occur at least 3 months before the final defense.
    - Candidacy form must be approved by the following people:
        - All committee members
        - The department head
        - The School of Graduate Studies
        - The Office of Research
6. Appointment for Examination (Defense).
    - The defense must be scheduled and advertised at least **2 weeks** prior to the date of the defense. See graduate program coordinator for assistance.
7. After the Defense Forms:
    - Record of Examination (submitted by GPC)
    - Authorship and Copyright
    - Format and Style
    - Title Page
8. School of Graduate Studies and library review and approval.
    - After approval from the School of Graduate Studies (via email), the student will submit their final dissertation to the graduate program coordinator to submit for review.
    - Once approved, the dissertation will either be uploaded to DigitalCommons or physically submitted to the library if the student wishes to embargo their work (acceptance will be notified via email).
9. Graduation Registration

PhD-Plan A Dissertation Course Requirements with a BS Degree

Type
Completion Requirement

Required Credits – Plan A Dissertation with a BS Degree

See the following:

- Minimum Total Credits: 70
- Minimum Course Credits: 30-52
- Minimum Research Credits: 18-40 (maximum of 40 research credits applied to Program of Study)

Required Courses with BS (8-10 credits)

Type
Completion Requirement

Required Courses

VCLS6100 BIOMED LIFE SCI SEMINAR SERIES is offered each fall semester. VCLS6800 BIOMED LIFE SCI GRADUATE SEM is offered each spring semester. Enrollment is expected every semester. Exceptions must be approved by the major professor and the course director.

Complete ALL of the following Courses:

- VCLS6100 - Biomedical and Life Sciences Seminar Series - 1cr.
- VCLS6800 - Biomedical and Life Sciences Graduate Seminar - 1cr.

Dissertation Research Credits with BS (18-40 credits)

Type
Completion Requirement

Dissertation Research Credits

The semesters during which a student registers for dissertation credit should correspond as closely as possible to the semesters in which the dissertation work is done, and faculty supervision is provided. A student must register for at least 3 dissertation credits the semester of their final defense.

Complete ALL of the following Courses:

- VCLS7970 - Veterinary Clinical and Life Sciences Dissertation Research - 1cr.

Elective Courses with BS (20-44 credits)

Type
Completion Requirement

Elective Courses

This is a list of courses historically taken by students in the program and is not a comprehensive list of courses available to graduate students. If a graduate student is interested in taking a course in the Doctor of Veterinary Medicine program, please contact the graduate program coordinator in the Veterinary Clinical and Life Sciences Department for more information. A graduate student should consult with their major professor and supervisory committee to identify appropriate courses directly related to their doctoral degree. All coursework must be approved by the student's supervisory committee via their program of study.

Complete ANY of the following Courses:

- VCLS6130 - Biomedical Sciences: Cell Culture - 3cr.
- VCLS6200 - Research Animal Anatomy and Physiology - 3cr.
- VCLS6210 - Principles of Pharmacology and Toxicology - 3cr.
- VCLS6220 - Mechanisms of Disease - 3cr.
- VCLS6230 - Biomedical Sciences: Molecular Techniques - 3cr.
- VCLS6900 - Special Topics in Biomedical Sciences - 1cr.
- VCLS7101 - Cell Biology and Metabolism - 3cr.
- VCLS7132 - General Pathology - 3cr.
- VCLS7142 - Agents of Infection and Immunity - 3cr.
- VCLS7162 - Fundamentals of Pharmacology - 1cr.
- VCLS7602 - Leadership Principles for Biomedical Scientists and Veterinarians - 1cr.
- VCLS7680 - Seminar in Veterinary Pathology and Histopathology - 3cr.
- ADVS6630 - Endocrinology - 3cr.
- ADVS6650 - Science Communication - 3cr.
- BENG6890 - Tissue Engineering - 3cr.
- BIOL6020 - Cellular and Molecular Neuroscience - 3cr.
- BIOL6600 - Comparative Animal Physiology - 3cr.
- BIOL7110 - Cognitive Neuroscience - 3cr.
- BIOL7140 - Methods in Neuroscience - 3cr.
- CHEM5700 - General Biochemistry I - 3cr.
- CHEM6720 - Principles of Enzymology I - 1cr.
- PSC6150 - Bioinformatics and Big Data Mining - 3cr.
- STAT6200 - Analysis of Designed Experiments - 3cr.
- STAT6500 - Biostatistics Methods - 3cr.

Program Learning Outcomes

Program Learning Outcomes

https://www.usu.edu/oda/assessment/

Biomedical Sciences Graduate Program Goals 5-14-25 (approved)

1. **Discipline-specific conceptual knowledge:** Demonstrate a broad-based and cross-disciplinary understanding of foundational and emerging knowledge within their field, along with detailed expertise in a specific research area. Critically assess knowledge gaps, conflicts, limitations, and challenges within their research area to develop and refine testable hypotheses.
2. **Research skills:** Demonstrate expertise in designing, conducting and critically interpreting hypothesis-driven research using appropriate established and advanced methodologies and techniques relevant to their field. Further, demonstrate expertise in troubleshooting, and technical execution to contribute original knowledge to their field, while adhering to research ethics and safety standards.
3. **Ethics and Integrity:** Apply, model, and uphold ethics, and integrity in all aspects of research practice, professional conduct, and mentorship, including data management, publication, peer review, authorship, and the ethical treatment of human and animal subjects. Identify, evaluate, and address ethical challenges in research and academic environments.
4. **Communication skills:** Effectively communicate complex scientific concepts, research findings, and their implications through oral, written (including publications and grant proposals), and visual formats. Tailor communication for a range of audiences, including the scientific community, interdisciplinary collaborators, and the public. Demonstrate strong listening skills and engage in constructive, critical scientific dialogue.
5. **Professionalism:** Demonstrate professionalism by adhering to accepted standards within the workplace and relevant professional contexts. Manage conflicts of interest, uphold ethical principles, and contribute to the advancement of the field through public service, peer review, and interdisciplinary collaborations. Engage respectfully with peers, mentors, and collaborators, and foster a positive and supportive professional environment through leadership and mentorship.
6. **Leadership, management, and collaboration:** Demonstrate leadership, management, and collaboration skills by leading research projects, setting expectations and goals, managing project resources, and facilitating effective teamwork. Demonstrate competencies in conflict resolution, mentoring, giving and receiving constructive feedback, and building resilient teams. Pursue leadership opportunities within institutional, regional, and national professional communities to contribute to the advancement of their field.
7. **Professional development:** Demonstrate awareness of varied career pathways and actively engage in strategic, ongoing professional development. Maintain a commitment to continuous learning and skill acquisition aligned with long-term professional goals. Identify and reflect on personal strengths, values, and areas for growth. Build and maintain a broad professional network and pursue opportunities that enhance career readiness. Articulate a professional identity and career plan informed by an understanding of career options, employer expectations, and personal aspirations.
8. **Personal development:** Exhibit emotional resilience and self-awareness in balancing career aspirations with personal well-being. Effectively manage time, stress, and work-life balance while seeking support when needed. Demonstrate positive thinking styles, confidence, and perseverance in achieving long-time goals. Engage with the community to enhance personal and professional growth.

Brain and Learning - Certificate

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

Other Departments:
Instructional Technology and Learning Sciences
Psychology

This certificate will help students understand brain-based learning principles. Knowledge of these principles and their use will improve performance in any setting. Students will study how humans learn, the optimal contexts for learning, and how learning can be measured.

Biological Science: Composite Teaching - BA, BS

Program Overview

College
College of Arts & Sciences

Department
Biology

Program Level
Undergraduate

About this Degree

Biology educators teach how living things work, how they interact with one another, and how they evolve. The field develops constantly, and it is important for biological science teachers to stay current. The department helps students do this by incorporating recent research results into the classroom, providing research opportunities, and inviting them to participate in research seminars and presentations.

Students will receive a **BS** by completing all required courses in their major. To receive a **BA**, students must also gain proficiency in one or more foreign languages. See Undergraduate Academic Credential Requirements for language requirements. A bachelor's degree in the Biological Science- Composite Teaching major includes: University Studies and coursework, as required by the College of Science; the Composite Teaching major; and the Secondary Teacher Education Program (STEP). Students majoring in the Biological Science-Composite Teaching major will complete courses which provide an in-depth understanding of biological principles.

The Biological Science-Composite Teaching program is fully accredited by the Utah State Office of Education.

Students desiring licensure to teach more than biology should consider completing a teaching minor in an area such as chemistry. For further information, students should contact their academic advisor.

- For more information, see the Department of Biology website.
- Admitted and current students must meet with advisor.
- For further information, students should contact Mary McFadden by email to mary.mcfadden@usu.edu.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1210 CALCULUS I (QL) and either STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen admitted to USU in good standing qualify for admission to this major. A cumulative 3.0 GPA is required for admission to the Secondary Teacher Education Program. Students should contact the School of Teacher Education and Leadership (TEAL) for information on additional STEP admission criteria.
- Transfer students from other institutions or other USU majors need a cumulative 3.0 GPA to be admitted into the major. They also need 30 credits of coursework to be admitted to the STEP. Students should contact academic advisor or the School of Teacher Education and Leadership (TEAL) for information on additional admission criteria.

Program Requirements

Total Credits Required In Program Coursework
83-84

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Students must complete all University Studies (General Education Requirements and University Studies Requirements) Requirements. Required coursework in mathematics, chemistry and physics will meet the Integrated Studies requirement:

- SCED3210 ED/MULTICULTR FOUND (DSS)(CI) and SCED5200 LANG/LIT/LRNG CONTENT AREA(CI) will fulfill the Communications Intensive (CI) requirement.
- STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI) will fulfill the Quantitative Intensive (QI) requirement.
- SCED3210 ED/MULTICULTR FOUND (DSS)(CI) will fulfill the Depth Social Sciences (DSS) requirement.
- The required biology coursework will fulfill the Breadth Life Sciences (BLS) Breadth Life Sciences (BLS) requirement.
- The required chemistry coursework will fulfill the Breadth Physical Sciences (BPS) requirement.

Additional Requirements

- Students must maintain a 2.25 GPA in all Department of Biology (BIOL or PUBH prefix) courses. A grade of C or better is required in all BIOL prefix and STEP program courses.
- The pass/fail option is not acceptable for any course required for the degree, except where a course is only graded pass/fail.

Biological Science: Composite Teaching - BA, BS

Type
Completion Requirement

Required Biology Core Courses (27-29) credits

Fulfill ALL of the following requirements:

Required Courses Section 1

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL2220 - General Ecology - 3cr.
- BIOL3020 - Evolutionary Biology - 3cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3090 - Molecular, Cellular, and Developmental Biology - 3cr.
- BIOL2320 - Human Anatomy - 4cr.
  OR BIOL2420 - Human Physiology - 4cr.

AND

Required Courses Section 2

Complete at least 1 of the following courses:

- BIOL3300 - General Microbiology - 3cr.
  AND BIOL3305 - General Microbiology Laboratory - 2cr.
- BIOL5210 - Cell Biology - 3cr.

Required Science Core Courses (18-19 credits)

Fulfill ALL of the following requirements:

Chemistry Content Knowledge

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

AND

Physics Content Knowledge

Complete ALL of the following Courses:

- PHYS2110 - General Physics—Life Sciences I - 4cr.
  OR PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.

AND

Earth Science Content Knowledge

Complete at least 1 of the following courses:

- GEO1010 - Introduction to Geology (BPS) - 3cr.
- GEO1110 - Physical Geology (BPS) - 3cr.
- GEO1360 - Planet Earth (BPS) - 3cr.
- PHYS1040 - Introductory Astronomy (BPS) - 3cr.
- PSC2000 - The Atmosphere and Weather (BPS) - 3cr.

AND

Mathematics and Statistics Content Knowledge

Complete ALL of the following Courses:

- MATH1210 - Calculus I (QL) - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.

Secondary Teacher Education Program (STEP)

Type

Completion Requirement

STEP Required Courses (38 credits)

To begin the admission process to the STEP, students should see their advisor at least two semesters before they begin Level I coursework. STEP admission deadlines are March 1 for fall and October 1 for spring. For more information about secondary education requirements, visit the Secondary Education website.

For advising, please contact the Biological Science Composite Teaching Advisor or an Education and Leadership (TEAL) Secondary Education Advisor: advising.usu.edu

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5820 - Science Education Teaching and Dispositions Knowledge - 3cr.
- SCED5821 - Three-Dimensional Science and Engineering Pedagogical Knowledge - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.

NOTE: ITLS2500 TECHNOLOGY ENABLED INSTRUCTION may be taken prior to STEP Admission.

Additional Teaching Content Areas

See the following information:
Each additional composite teaching area will earn a level 1 licensure endorsement in that content area except computer science, which will earn a Computer Science teaching minor and certificates in Intro to Computer Science, Programming and Software Development and Web Development.

Biology ONLY (No additional credits required)

Chemistry Content Area

Complete ALL of the following Courses:

- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.

Physics Content Area

Complete ALL of the following Courses:

- MATH1210 - Calculus I (QL) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2710 - Introductory Modern Physics - 3cr.

Earth Science Content Area

Complete ALL of the following Courses:

- GEO2200 - The Earth Through Time - 3cr.
- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
- PHYS1040 - Introductory Astronomy (BPS) - 3cr.
- PSC2000 - The Atmosphere and Weather (BPS) - 3cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr.
  OR BIOL2220 - General Ecology - 3cr.

Computer Science Content Area

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
- CS2410 - Introduction to Event Driven Programming and GUI's - 3cr.
- CS2420 - Algorithms and Data Structures--CS 3 (QI) - 3cr.
- CS2610 - Developing Dynamic, Database-Driven Web Applications - 3cr.
- CS4350 - Computer Science Teaching Methods - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Business Education - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Undergraduate

About this Degree

Business Education combines the fundamentals of business with skill in teaching those principles to Junior High and High School students.

- For more information about Business Education, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 3.0 GPA

Program Requirements

Total Credits Required In Program Coursework
82

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

It is **very important** for each student to meet with the advisor to build a successful plan based on individual needs. The advisor for this program is Caisa Shoop, who can be contacted by email at caisa.shoop@usu.edu or telephone at 435-797-4275.

In order to obtain a secondary teaching license for grades 6-12, students must complete the 35-credit Secondary Teacher Education Program (STEP), which includes one semester of student teaching in a public school. This program is administered by USU's School of Teacher Education and Leadership (TEAL) within the Emma Eccles Jones College of Education and Human Services. Student must apply to the School of TEAL the semester before taking STEP courses. This is usually the fall of their junior year. Students learn subject content through the Department of Applied Sciences, Technology, and Education and spend the last year or two studying education techniques through the STEP program. Students must earn a C or better in all major required courses and have a minimum of a 3.0 major GPA and a 2.0 overall GPA in order to graduate.

Business Education - BS (7-12 Teaching License) Course Requirements

Type
Completion Requirement

Required Courses (82-83 credits)

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- BCIS1040 - Introduction to Programming - 3cr.
  OR CS1400 - Introduction to Computer Science--CS 1 - 4cr.
  OR BCIS1550 - Introduction to Python - 3cr.
- BCIS1300 - Website Design - 3cr.
- BUSN1405 - Word Processing - 2cr.
- BUSN1410 - Spreadsheet (Excel) - 2cr.
- BCIS2441 - Photoshop - 3cr.
- BUSN1021 - Personal Finance - 3cr.
  OR FCSE1350 - Financial Literacy (BSS) - 3cr.
- BUSN1091 - Business Presentations - 2cr.
- BUSN2050 - Business Law - 3cr.
- BUSN2200 - Professional Communications - 3cr.
  OR BUS3200 - Professional Communication with AI (CI) - 3cr.
- BUSN2201 - Digital Marketing Concepts - 3cr.
  OR BUSN2620 - Digital Marketing - 3cr.
- BUSN2320 - Small Business Management - CTE - 3cr.
  OR ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.
- BSED2510 - Orientation to Business Education - 2cr.
- BSED3150 - Methods for Business Education - 3cr.
- BSED3300 - Clinical Experience I in Business Education - 1cr.
- BSED4150 - Methods of Business, Finance, and Marketing Education - 3cr.
- BSED4300 - Clinical Experience II Business Education - 1cr.
- BSED5500 - Business Education Secondary Curriculum Seminar - 2cr.
- BSED5630 - Business Education Student Teaching - 10cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- ITLS2500 - Technology Enabled Instruction - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
  OR BSED4210 - Cognition and Evaluation of Student Learning in Career and Technical Education - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Business - Minor

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Management	Undergraduate

About this Degree

The minor in Business is designed for non-Huntsman School majors. It provides students with the foundational knowledge and problem-solving skills of core business and management disciplines that can complement other programs of study. Advising for the minor is through the Huntsman School's FJ Management Center for Student Success in EBB 309. Students are responsible for completing prerequisite courses where applicable.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
18-19	18-19

Simple Requisites

Program Requirements

A minimum GPA of 2.50 is required in minor courses. An overall GPA of 2.50 is required for the minor to be awarded at graduation. Courses for the minor *may not* be taken on a pass/fail basis.

Section 1

Type
Completion Requirement

Business Minor Required Courses (16 credits)

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- MGT3250 - Managing Human Capital - 3cr.
- MGT3700 - Operations Management - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.

Elective Course (2-3 credits)

Complete ANY of the following Courses:

- ACCT2020 - Managerial Accounting Principles - 3cr.
- DATA2100 - Data and Information in Business - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- MGT3100 - Organizational Behavior - 2cr.
- MGT3350 - Legal and Ethical Environment of Business - 3cr.
- MSLE3110 - Managing Organizations and People (DSS) - 3cr.

Business - AB

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Associate of Business (AB) degree provides a strong foundation in general business principles, equipping students with essential skills in bookkeeping, business communication, small business management, data analysis, marketing strategies, customer engagement, professionalism, and sales. In addition to general education requirements, the program offers flexible learning options, ensuring accessibility throughout the State of Utah. Graduates will be prepared for employment in small businesses and entry-level management roles.

This degree is designed to stack with aligned technical business certificates from Utah's Technical Colleges, including programs offered at USU Blanding, USU Eastern, and USU Moab, allowing students to build on their existing credentials.

The AB degree also serves as a pathway to multiple bachelor's degree programs. Students planning to continue their education should complete the degree while incorporating specific business courses tailored to their intended bachelor's program. Early consultation with academic advisors is strongly recommended to ensure completion of the appropriate prerequisites.

Program Requirements

Total Credits Required To Earn This Credential

60

Simple Requisites

Program Requirements

Business - AB Course Requirements

Type
Completion Requirement

Economic Principles (3 credits)

Earn at least 3 credits from the following:

- APEC1600 - Natural Resources and American Economic Institutions (BAI) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.

Accounting/Bookkeeping (6 credits)

Earn at least 6 credits from the following:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- APEC2120 - Small Firm Accounting Basics - 3cr.
- BUSN1111 - Accounting Principles - 3cr.
- BUSN2010 - Financial Accounting - 4cr.
- BUSN2020 - Managerial Accounting - 4cr.
- BUSN2800 - Computerized Accounting - 3cr.
- TEBP1000 - Basic Financial Principles - 3cr.
- TEBP1300 - Accounting I - 2cr.
- TEBP1350 - Computerized Accounting - 3cr.
- TEBP2300 - Accounting II - 2cr.
- TEBP2320 - Accounting III - 2cr.

Data/Spreadsheets (2 credits)

Earn at least 2 credits from the following:

- BUSN1410 - Spreadsheet (Excel) - 2cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- TEBP1140 - Spreadsheets - 2cr.

Management (6 credits)

Earn at least 6 credits from the following:

- APEC2010 - Introduction to Microeconomics (BSS) - 3cr.
- APEC2310 - Small Firm Management - 3cr.
- BUSN1010 - Business Principles (BSS) - 3cr.
- BUSN1021 - Personal Finance - 3cr.
- BUSN1310 - Introduction to Business Management - 2cr.
- BUSN2320 - Small Business Management - CTE - 3cr.
- BUSN2710 - Entrepreneurial Mindset - 3cr.
- BUSN2720 - Introduction to Project Management - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- FCSE1021 - Personal Finance - 3cr.
- FCSE1350 - Financial Literacy (BSS) - 3cr.
- TEBP1650 - Management Principles - 2cr.
- TEBP1840 - Business Productivity - 3cr.
- TEBP2000 - Introduction to Entrepreneurship - 3cr.

Marketing (3 credits)

Earn at least 3 credits from the following:

- APEC2830 - Agribusiness Sales and Marketing - 3cr.
- BCIS1340 - Digital Video Production - 3cr.
- BUSN1091 - Business Presentations - 2cr.
- BUSN2201 - Digital Marketing Concepts - 3cr.
- BUSN2620 - Digital Marketing - 3cr.
- MSLE3200 - Adobe Graphic Design - 3cr.
- TEBP1150 - Presentations - 2cr.
- TEBP1700 - Marketing I - 3cr.
- TEIT1340 - Digital Video Production - 3cr.

Leadership and Professionalism (6 credits)

Earn at least 6 credits from the following:

- BUSN2390 - Organizational Behavior - 3cr.
- BUSN2590 - Business Ethics and Social Responsibility - 2cr.
- BUSN2200 - Professional Communications - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.
- MSLE2500 - Business for Good: Making an Impact through Social Entrepreneurship - 2cr.
- MSLE2750 - Enhancing Happiness in Your Life and Career - 3cr.
- TEBP1200 - Professionalism - 3cr.
- TEBP1500 - Business English - 1cr.
- TEBP1550 - Business Communications - 3cr.

Directed Business Electives (3 credits)

Select any additional 3 credits from the lists above or select 3 credits from the courses listed below:

Earn at least 3 credits from the following:

- BCIS1300 - Website Design - 3cr.
- BCIS2500 - Web Business - 3cr.
- BUSN1405 - Word Processing - 2cr.
- BUSN2020 - Managerial Accounting - 4cr.
- TEBP1000 - Basic Financial Principles - 3cr.
- TEBP1130 - Word Processing - 2cr.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Business - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Business Technical Certificate offers foundational training that will prepare students to excel in a career in any business setting. The program fosters a strong work ethic and independent learning, where students can cultivate knowledge, practice technical skills, and develop professional work habits. Students will have the opportunity to earn industry certifications that verify technical skills and enhance credibility.

Program Learning Outcomes

Program Learning Outcomes

- Demonstrate computer proficiency by using business software to produce complex documents with speed, efficiency, and accuracy.
- Recognize principles of leadership and management by applying them in relevant business contexts.
- Use basic financial and accounting principles to complete general accounting functions.
- Develop written, verbal, and digital communication skills by preparing clear, concise, and correct messages for a business environment.
- Practice professional skills that are vital for career development and success in the workplace.

Civil and Environmental Engineering - ME

Program Overview

College
College of Engineering

Department
Civil & Environmental Engineering

Program Level
Graduate

About this Degree

The ME degree emphasizes professional practice and coursework. Master of Engineering candidates in Civil and Environmental Engineering can specialize in a variety of emphasis areas.

Graduate students in the Department of Civil and Environmental Engineering seeking the degrees of ME, MS, or PhD are able to select an emphasis that corresponds to the program in which they are studying. These include Environmental Engineering, Fluid Mechanics and Hydraulic Engineering, Geotechnical Engineering, Transportation Engineering, Structural Engineering and Mechanics, Water Resource Engineering and Hydrology. Additionally, the Department of Civil and Environmental Engineering offers an MS or PhD degree with specialization of Climate and Adaptation Science.

Total Credits Required To Earn This Credential
32

Simple Requisites

Program Requirements

- A minimum of 30 credits of technical and scientific coursework is required as well as two semesters of seminar credit for a total of 32 credits.
- Approval of academic forms required for master's students by the School of Graduate Studies
- List of specific forms required:
  - Supervisory Committee
  - Program of Study

School of Graduate Studies Requirements

- A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Graduate students are required to maintain at least a 3. 0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- The Program of Study for a master's degree must include at least 18-semester credits at the level of 6000 or above.
- A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Civil and Environmental Engineering - MS

Program Overview

College
College of Engineering

Department
Civil & Environmental Engineering

Program Level
Graduate

About this Degree

The Masters of Science (MS) degree emphasizes research, coursework and the preparation of a significant publication. For the Master of Science program, each student plans an individualized course of study with their advisor and thesis committee and can specialize in a variety of emphasis areas.

Graduate students in the Department of Civil and Environmental Engineering seeking the degrees of ME, MS, or PhD are able to select an emphasis that corresponds to the program in which they are studying. These include Environmental Engineering, Fluid Mechanics and Hydraulic Engineering, Geotechnical Engineering, Transportation Engineering, Structural Engineering and Mechanics, Water Resource Engineering and Hydrology. Additionally, the Department of Civil and Environmental Engineering offers an MS or PhD degree with specialization of Climate and Adaptation Science.

32-36

Simple Requisites

Program Requirements

Three program plans are available for the Civil and Environmental Engineering MS degree.

The **Plan A** Thesis requires 32 credits (minimum):

- A minimum of 24 credits of technical and scientific coursework is required, a minimum of 6 credits of Thesis Research thesis research, as well as two semesters of seminar credit for a total of 32 credits.
- Approval of academic forms required for master's students by the School of Graduate Studies
- List of specific forms required:
    - Supervisory Committee
    - Program of Study
    - Thesis/Project Approval
    - Appointment for Examination
    - Record of Examination
    - SGS and library review and approval
- The Plan A option for a master's degree requires the preparation of a thesis as well as the successful defense and submission of the thesis to the library.

The **Plan B** Report requires 32 credits (minimum):

- A minimum of 27 credits of technical and scientific coursework is required, a minimum of 3 credits of thesis research, as well as two semesters of seminar credit for a total of 32 credits.
- Approval of academic forms required for master's students by the School of Graduate Studies
- List of specific forms required:
    - Supervisory Committee
    - Program of Study
    - Appointment for Examination
    - Record of Examination
    - Committee review and library approval
- A Plan B option requires the production and defense of a report, and successful submission of the report to the library.

The **Plan C** Coursework Only requires 38 credits (minimum):

- A minimum of 36 credits of technical and scientific coursework is required as well as two semesters of seminar credit for a total of 38 credits.
- Approval of academic forms required for master's students by the School of Graduate Studies
- List of specific forms required:
- Supervisory Committee
- Program of Study

School of Graduate Studies Requirements

- A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Graduate students are required to maintain at least a 3. 0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above.
- A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Civil and Environmental Engineering - PhD

Program Overview

College
College of Engineering

Department
Civil & Environmental Engineering

Program Level
Graduate

About this Degree
The Civil and Environmental Engineering PhD degree prepares students for professional engineering careers. The PhD degree represents high scholarly achievement demonstrated by independent research and competence in an area of specialization approved by the student's supervisory committee. For the PhD program, each student plans an individualized course of study with the assistance of their supervisory committee. The degree requires the successful completion of a comprehensive examination, as well as a proposed written dissertation, and final oral defense. Doctoral candidates in Civil and Environmental Engineering can specialize in a variety of emphasis areas.

Graduate students in the Department of Civil and Environmental Engineering seeking the degrees of ME, MS, or PhD are able to select an emphasis that corresponds to the program in which they are studying. These include Environmental Engineering, Fluid Mechanics and Hydraulic Engineering, Geotechnical Engineering, Transportation Engineering, Structural Engineering and Mechanics, Water Resource Engineering and Hydrology. Career and Technical Education Teaching Academy - ICP

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Undergraduate

About this Degree

The Career and Technical Education Teaching Academy - Institutional Certificate of Proficiency (CTE Teaching Academy) serves to enhance the pipeline of qualified teachers and augment the knowledge and skills of current educators in specialized areas relevant to Career and Technical Education (CTE).

The CTE Teaching Academy is a 15-credit certificate program designed to enhance inservice secondary and post secondary teachers pedagogical techniques necessary for teaching CTE subjects, focusing on competency-based education methods. This program can be pursued independently or integrated into larger academic pathways such as an Associate of Applied Science (AAS) in General Technology or a Bachelor of Science (BS) in Technology Systems.

Please see the CTE Teaching Academy website for course delivery and pathway options.

This program is intended for the following individuals:

- Professional (inservice) secondary level teachers seeking to meet licensure/endorsement requirements or to advance within their career (e.g., change lanes); or
- Post-secondary teachers seeking additional teacher training.

Not intended for undergraduate teaching majors.

Career and Technical Education - PhD

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Graduate

About this Degree
The Ph.D. program prepares candidates for academic careers in formal and nonformal settings that demand research expertise and an understanding of the theoretical foundations. Accepted applicants will work collaboratively with faculty and other students to increase their research, program development, and teaching abilities.

The Career and Technical Education (CTE) Ph.D. program is a four-year online or campus-based program. On-campus students are provided with opportunities to teach undergraduate courses and engage in place-based research. Students who engage in the program online have flexibility as they continue with their careers while earning their degree. All Ph.D. students are required to meet face-to-face on the Logan campus for a one week seminar for three consecutive summers. The summer meeting provides an opportunity for students to complete additional professional competency requirements. Most students in the program take two-three classes (6-9 credits) per semester. Students need to complete the required courses (52 credits) along with committee approved electives (8 credits). Committees may allow for changes to the required courses if students have completed similar coursework in their masters program or have experience commensurate with course objectives. Required courses are noted below. Additional program expectations and coursework requirements can be found on the department webpage.

Admission Requirements for this Program
The required documentation for the application package and admissions requirements are noted on the ASTE Graduate Admission and Application webpage, https://qanr.usu.edu/aste/graduate/graduate-program-admission.

Program Requirements

Total Credits Required In Program Coursework
60-81

Total Credits Required To Earn This Credential
60-81

Simple Requisites

Program Requirements

School of Graduate Studies General Graduation Guidelines:

Degree Verification

A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA

Graduate students are required to maintain at least a 3. 0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability

If the student has a master's degree, a maximum of 18 credits at the level of 6000 may be used on an approved program of study in a doctoral program.

If the student does not have a master's degree, the Program of Study must include at least 30 credits at the level of 6000 or above.

A maximum of 12 credits at the 5000 level may be used on an approved program of study.

Matriculation Start Semester

A **doctorate degree** must be completed **within eight years** of entering the degree program.

- Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity

Coursework more than eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

- If permitted by the departmental or interdepartmental degree program policy, a supervisory committee may develop and submit a revalidation plan to the Vice Provost of Graduate Studies for approval.
- The plan and determination must be verified in writing and include the Vice Provost of Graduate Studies and the student's major professor or other person(s) responsible for the revalidation.
- Work experience cannot be substituted for out-of-date coursework or used for revalidation, except where that work experience can be documented to have involved the use of current knowledge and application of material currently covered in the coursework.
- Graduate credits from another institution exceeding the eight-year limit at the time of degree completion may be transferred to a Utah State University graduate degree only if the student's supervisory committee provides a justification acceptable to the Vice Provost of Graduate Studies.
    - The revalidation procedures described above apply.

Program Requirements

To complete the doctorate degree in career and technical education, **a minimum of 60 total credits (12 credits of Dissertation) is required for students with a master's degree**, or **a minimum of 81 total credits (18 credits of Dissertation) is required for students without a master's degree**. Additional requirements include:

1. Completing the required coursework and electives as approved by the student's supervisory committee.
2. Passing a written and oral comprehensive qualifying examination after completing 36 credits in the program. This exam must be satisfactorily completed before the student advances to candidacy. Advancement to candidacy also requires an approved dissertation proposal.
3. Complete and satisfactorily defending a doctoral research study directed and judged by a supervisory committee of faculty.
4. Complete the CTE PhD Professional Residency Requirements found in the ASTE CTE PhD Program Guide.

Additional Requirements

- Supervisory Committee Approval by the end of the second semester
- Program of Study submitted by the end of the third semester
- Prior to taking the comprehensive exam, students without a master's degree will need to have submitted at least two publications for peer review
- After completing 36 credits in the program, take and pass comprehensive qualifying examination outlined in the ASTE CTE PhD Program Guide
- Receive supervisory committee approval for dissertation research proposal
- Obtain regulatory approvals to conduct your proposed research including completing the Utah State University Responsible Conduct of Research course that is offered on the CITI website
- Application for Candidacy form which must be submitted **at least three months prior to the student's final defense.**
- Appointment for examination form submitted 10 days before defense and during defense semester students must be registered for at least 3 credit hours of dissertation
- Record of Examination Form
- Title Page Form
- Thesis/Dissertation format and Style and Electronic Publication Form
- Authorship and Copyright form
- Graduation application

CTE PhD Required Courses

Type
Completion Requirement

CTE PhD Required Course

52 credits for students who have earned a master's degree, 58 Credits for students who have not earned a master's degree

Earn at least 52 credits from the following:

- ASTE6090 - Curriculum Design - 3cr.
- ASTE6360 - History, Philosophy, and Policy Development in Career and Technical Education - 3cr.
- ASTE6750 - Research Methods and Design - 3cr.
- ASTE6800 - Analysis of Social Research Data - 3cr.
- ASTE6960 - Graduate Seminar - 1cr.
- ASTE7100 - Research and Academic Writing - 3cr.
- ASTE7170 - Program Planning and Evaluation Program Theory and Evaluation - 3cr.
- ASTE7200 - Qualitative Methods - 3cr.
- ASTE7310 - Theories of Teaching and Learning - 3cr.
- ASTE7370 - Grant Writing and Management - 3cr.
- ASTE7400 - Occupational Analysis and Curriculum Development - 3cr.
- ASTE7500 - Diffusion of Innovations - 3cr.
- ASTE7800 - Advanced Data Analysis - 3cr.
- ASTE7810 - Research Seminar - 1cr.
- ASTE7970 - Dissertation Research - 1cr.

- ***1 credit each summer, total 3 credits in ASTE6960 GRADUATE SEMINAR***
- ***minimum 12 Dissertation credits (ASTE7970 DISSERTATION RESEARCH) for students with a master's degree, or minimum 18 Dissertation credits for students without a master's degree***

Electives

Type
Completion Requirement

Electives

8-credits for students who have earned a master's degree, 23 Credits for students who have not earned a master's degree

Complete ANY of the following Courses:

- ASTE6160 - Foundations of Adult Education - 3cr.
- ASTE6180 - Administration and Leadership - 3cr.
- ASTE6220 - Volunteer Programs and Partnerships - 3cr.
- ASTE6300 - Advanced Teaching Strategies - 3cr.
- ASTE6315 - Career and Technical Student Organization Development - 3cr.
- ASTE6460 - Integrating Career and Tech Educ Curriculum with Science, Technology, Engineering, and Mathematics - 3cr.
- ASTE6470 - Digital Tools for Learning - 3cr.
- ASTE6920 - Communication Tools for Extension - 3cr.
- ASTE6950 - Graduate Internship - 1cr.
- ASTE7600 - The Professoriate - 2cr.
- ASTE7900 - Independent Study - 1cr.

Computer Engineering - MS

Program Overview

College
College of Engineering

Department
Electrical & Computer Engineering

Program Level
Graduate

About this Degree

The MS degree requires substantial thesis or project work in a specific area and prepares students for advanced study or advanced work in that area. The MS degree has two options. Under Plan A, the student completes a thesis. Under Plan B, the student prepares an engineering project report.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

School of Graduate Studies Requirements

- A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- The Program of Study for master's degree must include at least 18-semester credits at the level of 6000 or above.
- A master's degree must be completed within six years of entering the program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Master of Science (Computer Engineering)

Two program plans are available for the Computer Engineering MS degree.

The ***Plan A*** Thesis requires 30 credits (minimum). The degree is based on coursework and research and requires a formal thesis. It is designed to prepare graduates for entering a PhD program or performing research in industry or government labs.

- A minimum of 24 credits of technical and scientific coursework and at least 6 credits of ECE6970 THESIS RESEARCH, MS
- At least 12 credits (excluding ECE6970 THESIS RESEARCH, MS) in Electrical or Computer Engineering.
- No more than 6 credits of ECE6970 THESIS RESEARCH, MS can be applied to the Plan A degree.
- At least 2 sequences in Electrical or Computer Engineering or Computer Science. One of the sequences MUST be in core Computer Engineering courses. The ending course MUST be a 6000- or 7000-level course.
- No more than 12 credits of ECE 5000-level or CS 5000-level, non-ECE/CS courses may be applied towards the Plan A degree.
- Responsible Conduct of Research (RCR) Training

- Must submit School of Graduate Studies forms
    - Supervisory Committee
    - Program of Study
    - Thesis/Project Approval
    - Appointment for Exam
    - Record of Examination
    - SGS and library review approval
- The Plan A option requires the submission of a written proposal.
- The Plan A option requires the preparation of a thesis as well as the successful defense and submission of the thesis to the library.

The ***Plan B*** Report requires 30 credits (minimum). The degree is based on coursework and engineering design and requires a formal design project report. It is designed to prepare graduates for employment requiring advanced design in industry.

- A minimum of 24 credits of technical and scientific coursework and at least 3 credits of ECE6950 DESIGN PROJECT and 3 credits of ECE6970 THESIS RESEARCH, MS
- At least 12 credits (excluding ECE6950 DESIGN PROJECT and ECE6970 THESIS RESEARCH, MS) in Electrical or Computer Engineering.
- No more than 3 credits of ECE6950 DESIGN PROJECT and 3 credits of ECE6970 THESIS RESEARCH, MS and be applied to the Plan B degree.
- At least 2 sequences in Electrical or Computer Engineering or Computer Science. One of the sequences MUST be in core Computer Engineering courses. The ending course MUST be a 6000- or 7000-level course.
- No more than 12 credits of ECE 5000-level or CS 5000-level, non-ECE/CS courses may be applied towards the Plan B degree.
- Responsible Conduct of Research (RCR) Training
- Must submit School of Graduate Studies forms
    - Supervisory Committee
    - Program of Study
    - Thesis/Project Approval
    - Appointment for Exam
    - Record of Examination
    - Committee review and library approval
- The Plan B option requires the submission of a written proposal.
- The Plan B option requires the preparation of a report as well as the successful defense and submission of the report to the library.

Required Courses

Type
Completion Requirement

Plan A required courses

Complete ALL of the following Courses:

- ECE6970 - Thesis Research, MS - 1cr.

Plan B required courses

Complete ALL of the following Courses:

- ECE6950 - Design Project - 3cr.
- ECE6970 - Thesis Research, MS - 1cr.

Construction Technology and Management - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

Federal Gainful Employment Information

The Construction Technology program provides a comprehensive opportunity for students to gain knowledge and skills to gain entry into the construction industry. Students are exposed to advanced skills such as building site layout, concrete, framing, interior finishes and exterior finishes. Students also gain knowledge of construction materials, blueprint reading, and estimating. Students who complete the certificate and obtain related employment have the option to continue training as apprentices in their chosen craft and receive state, national, and industry certifications.

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- BCCM1010 - Building Construction Safety - 1cr.
- BCCM1150 - Basic Print Reading - 2cr.
- BCCM2010 - Framing I - 2cr.
- BCCM2030 - Framing II - 2cr.
- BCCM2080 - Concrete I - 2cr.
- BCCM2090 - Concrete II - 2cr.
- BCCM2100 - Interior Finish I - 2cr.
- BCCM2110 - Interior Finish II - 2cr.
- BCCM2170 - Exterior Finish I - 2cr.
- BCCM2180 - Exterior Finish II - 2cr.
- BCCM2240 - Construction Estimating - 3cr.
- BCCM2270 - Building Codes and Inspections - 2cr.
- BUSN1050 - Business Mathematics - 3cr.
  OR ELET1110 - Technical Mathematics - 3cr.
  OR MATH1020 - Trade Mathematics - 3cr.
- BUSN2320 - Small Business Management - CTE - 3cr.
- BUSN2200 - Professional Communications - 3cr.

Optional Facilities and Maintenance Focus

Complete ALL of the following Courses:

- BCCM2340 - Heating, Ventilating, and Air Conditioning Maintenance (HVAC) I - 2cr.
- BCCM2350 - Electrical Maintenance I - 2cr.
- HETR1640 - Hydraulic Excavator Operation - 2cr.
- BCCM2320 - Plumbing Maintenance I - 2cr.

Elective Options

These courses are designed to enhance the student's learning and give hands-on training to develop essential skills.

Complete ANY of the following Courses:

- BCCM2015 - Masonry I - 2cr.
- BCCM2120 - Building Site Layout - 2cr.
- BCCM2130 - Finish Lab - 2cr.
- BCCM2500 - Specialty Construction Lab - 2cr.
- BCCM2988 - Special Problems - 1cr.
- HETR1670 - Fork Lift Operation - 2cr.
- HETR2988 - Special Problems - 1cr.

BCCM2988 SPECIAL PROBLEMS with subjects Articulated Boom/Scissor Lift Operation

HETR2988 SPECIAL PROBLEMS with subjects Skid Steer/Compact Loader Operations

Commercial Driver's License (CDL) - Class A Course Requirements

Type
Completion Requirement

Required Core

Complete ALL of the following Courses:

- TECD1100 - Commercial Driver's License Class A - 6cr.

Supplemental Courses

Earn at least 10 credits from the following:

- TECD1110 - Advanced Trailering Techniques - 2cr.
- TECD1120 - Dump and Trailering - 2cr.
- TECD1130 - Maintenance - 2cr.
- TECD1200 - Advanced Driving Techniques - 1cr.
- TECD1210 - Hazmat for CDL - 1cr.
- TECD1220 - School Bus/Passenger Bus Endorsement - 2cr.
- TECD1230 - Industry Safety Certifications - 2cr.
- TECD1240 - Air Brake Adjustment Certification - 1cr.

Minimum University Requirements

Minimum University Requirements
Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

- Demonstrate basic truck operating procedures.
- Demonstrate safe operating procedures.
- Learn and practice advanced operating procedures.
- Practice vehicle inspections (pre/post-trip).
- Review non-driving activities.

Chemistry - Minor

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Undergraduate

Program Requirements

Total Credits Required To Earn This Credential

20

Simple Requisites

Program Requirements

In addition to CHEM1210 PRIN OF CHEMISTRY I, CHEM1215 CHEMICAL PRINCIPLES LAB I, CHEM1220 PRIN OF CHEMISTRY II (BPS), and CHEM1225 CHEMICAL PRINCIPLES LAB II, 10 additional credits in Chemistry prefix courses at the 2000 level or higher, as approved by department, are required (either CHEM2300 PRIN OF ORGANIC CHEMISTRY or CHEM2310 ORGANIC CHEMISTRY I may be included). (**Note:** Biochemistry Majors *cannot* declare a Chemistry Minor.)

No CHEM prefix course may be applied toward a minor in chemistry with an earned grade of less than C-. No CHEM prefix course may be repeated more than one time to improve the grade to a C- or better.

Section 1

Type
Completion Requirement

Required Courses (10 credits)

Earn a minimum grade of C- in the following:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.

Section 2

Type
Completion Requirement

Select 10 credits from the following (as approved by department):

Earn at least 10 credits from the following:

- CHEM2300 - Principles of Organic Chemistry - 3cr.
  OR CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM3000 - Quantitative Analysis (QI) - 3cr.
- CHEM3005 - Quantitative Analysis Laboratory - 1cr.
- CHEM3060 - Physical Chemistry I (QI) - 3cr.
- CHEM3070 - Physical Chemistry II (QI) - 3cr.
- CHEM3070 - Physical Chemistry II (QI) - 3cr.
- CHEM3510 - Intermediate Inorganic Chemistry - 2cr.
- CHEM3520 - Inorganic Chemistry Laboratory - 1cr.
- CHEM3650 - Environmental Chemistry (DSC) - 3cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- CHEM3710 - Introductory Biochemistry Laboratory - 1cr.
- CHEM5700 - General Biochemistry I - 3cr.
- CHEM5720 - General Biochemistry Laboratory II (CI) - 2cr.

NOTE:

1. CHEM5700 GENERAL BIOCHEMISTRY I cannot be taken as an elective course if CHEM3700 INTRO BIOCHEMISTRY option is taken

Chemistry - BA

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Undergraduate

About this Degree

Chemistry is the scientific study of matter, its properties, and interactions with other matter and with energy. It is a science applicable to a wide range of career goals, including medicine, law, physical and social sciences, engineering, and public health and policy. At USU, chemistry majors have the opportunity to conduct undergraduate research from the beginning of their studies, first as laboratory assistants and eventually moving on to their own research projects. Unique to USU, many undergraduates in the department are able to publish research papers. This gives USU students a competitive advantage should they apply for graduate programs.

Students can choose not to have an emphasis if they obtain a bachelor of arts. To receive a **BA**, students must also gain proficiency in one or more foreign languages. See Undergraduate Academic Credential Requirements for language requirements. This is an appropriate choice for students who wish to combine strong interest and preparation in chemistry with graduate study in law or business.

- For more information about Chemistry and Biochemistry, see the Department of Chemistry and Biochemistry.
- Admitted and current students must meet with the Department of Chemistry & Biochemistry Advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2250 LINEAR ALG/DIFF EQUATIONS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.2 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
68	123

Simple Requisites

Program Requirements

REQUIREMENTS TO REMAIN IN THIS PROGRAM:

- **CHEM prefix course grades must be C- or better.**
- **Only one repeat is allowed to earn a C- or better to stay in this major.**
- **No CHEM prefix course may be taken on a pass/fail basis, except those courses which are only taught pass/fail.**
- All candidates for graduation with a Chemistry degree must complete a department exit survey prior to approval of graduation application and completion of the program.

Additional Information

The following major coursework will fulfill some General Education or University Studies requirements:

- CHEM1220 PRIN OF CHEMISTRY II (BPS) will fulfill the Breadth Physical Sciences (BPS) requirement.
- MATH1210 CALCULUS I (QL) will fulfill the Quantitative Literacy (QL) requirement.
- PHYS2210 PHYS SCI AND ENGR I (QI)(BPS) will fulfill the Quantitative Intensive (QI) requirement.

Chemistry - BA

Type

Completion Requirement

Chemistry Major Requirements (68 credits)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM1990 - Introduction to the Chemistry and Biochemistry Professions - 1cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM3000 - Quantitative Analysis (QI) - 3cr.
- CHEM3005 - Quantitative Analysis Laboratory - 1cr.
- CHEM3060 - Physical Chemistry I (QI) - 3cr.
- CHEM3070 - Physical Chemistry II (QI) - 3cr.

- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.

Bachelor of Arts Course Requirements

Students desiring a Bachelor of Arts (BA) degree must complete the language proficiency requirements in one of the following ways:

Complete the following:

- Demonstration of proficiency in *one* foreign language by successful completion of one course at the 2020-level or higher (or its equivalent) **OR**

- Demonstration of proficiency in American Sign Language by successful completion of American Sign Language IV (ASL4920 AMERICAN SIGN LANGUAGE IV) and Socio-Cultural Aspects of Deafness (ASL4780 DEAF CULTURE), and by passing an exit interview **OR**
- Demonstration of proficiency in *two* foreign languages by successful completion of the 1020 course level in one language ***and*** the 2010 course level in the second language (or its equivalent) **OR**
- Completion of an upper-division (3000-level or higher) foreign language grammar or literature course requiring the 2020 course level (or its equivalent) as a prerequisite. Conversation courses *cannot* be considered for satisfying this requirement.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Chemistry: Biochemistry Emphasis - BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Undergraduate

About this Degree

Chemistry is the scientific study of matter, its properties, and interactions with other matter and with energy. It is a science applicable to a wide range of career goals, including medicine, law, physical and social sciences, engineering, and public health and policy.

At USU, chemistry majors have the opportunity to conduct undergraduate research from the beginning of their studies, first as laboratory assistants and eventually moving on to their own research projects. Unique to USU, many undergraduates in the department are able to publish research papers. This gives USU students a competitive advantage should they apply for graduate programs.

Biochemistry (BS): Biochemistry is the study of chemical processes in living organisms and the structure and function of cellular components. Students study carbohydrates, lipids, proteins, nucleic acids, and other biomolecules. This emphasis meets requirements for certification by the American Chemical Society, which can result in higher-paying careers for graduates than those without ACS certification.

American Chemical Society Certified BS Degree

- For more information about Chemistry and Biochemistry, see the Department of Chemistry and Biochemistry.
- Admitted and current students must meet with the Department of Chemistry & Biochemistry advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2250 LINEAR ALG/DIFF EQUATIONS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.2 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
80-81	120

Simple Requisites

Program Requirements

REQUIREMENTS TO REMAIN IN THS PROGRAM:

- No CHEM prefix course may be applied toward graduation with a major in Biochemistry with an earned grade of less than C-.
- No CHEM prefix course may be repeated more than one time to improve the grade to a C- or better.
- No CHEM prefix course may be taken on a pass/fail basis, except those courses which are only taught pass/fail.
- All candidates for graduation with a Chemistry degree must complete a department exit survey prior to approval of graduation application and completion of the program.

Additional Information

The following major coursework will fulfill some General Education or University Studies requirements:

- CHEM1220 PRIN OF CHEMISTRY II (BPS) will fulfill the Breadth Physical Sciences (BPS) requirement.
- MATH1210 CALCULUS I (QL) will fulfill the Quantitative Literacy (QL) requirement.
- PHYS2210 PHYS SCI AND ENGR I (QI)(BPS) will fulfill the Quantitative Intensive (QI) requirement.
- CHEM4990 UNDERGRADUATE SEMINAR (CI) and CHEM3090 PHYSICAL CHEMISTRY LAB (CI) will fulfill the Communications Intensive (CI) requirement.

Chemistry - Biochemistry Emphasis - BS

Type

Completion Requirement

Chemistry: Biochemistry Emphasis Requirements (80-81 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM1990 - Introduction to the Chemistry and Biochemistry Professions - 1cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM3000 - Quantitative Analysis (QI) - 3cr.
- CHEM3005 - Quantitative Analysis Laboratory - 1cr.
- CHEM3060 - Physical Chemistry I (QI) - 3cr.
- CHEM3070 - Physical Chemistry II (QI) - 3cr.
- CHEM3090 - Physical Chemistry Laboratory (CI) - 2cr.
- CHEM3510 - Intermediate Inorganic Chemistry - 2cr.
- CHEM3520 - Inorganic Chemistry Laboratory - 1cr.
- CHEM4990 - Undergraduate Seminar (CI) - 2cr.
- CHEM5640 - Instrumental Analysis - 3cr.
- CHEM5650 - Instrumental Analysis Laboratory - 2cr.
- CHEM5700 - General Biochemistry I - 3cr.
- CHEM5710 - General Biochemistry II - 3cr.
- CHEM5715 - General Biochemistry Laboratory I - 1cr.
- CHEM5720 - General Biochemistry Laboratory II (CI) - 2cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.

Pre-Approved Advanced Biology Electives (4 credits)

Earn at least 4 credits from the following:

- BIOL3060 - Principles of Genetics (QI) - 3cr.

- BIOL3065 - Genetics Laboratory (CI) - 2cr.
- BIOL3300 - General Microbiology - 3cr.
  AND BIOL3305 - General Microbiology Laboratory - 2cr.
- BIOL4000 - Human Dissection - 1cr.
- BIOL4400 - Plant Physiology (QI) - 4cr.
- BIOL4450 - Neurobiology - 3cr.
- BIOL4600 - Advanced Human Physiology - 5cr.
- BIOL5150 - Immunology - 3cr.
- BIOL5210 - Cell Biology - 3cr.
- BIOL5230 - Developmental Biology - 3cr.
- BIOL5400 - Environmental Toxicology - 3cr.
- BIOL5600 - Comparative Animal Physiology - 3cr.
- BIOL5240 - Virology - 3cr.
- BIOL4770 - Introduction to Dynamic Biological Systems - 3cr.
- BIOL3020 - Evolutionary Biology - 3cr.
- BIOL3050 - Organismal Biology with Physiology - 3cr.
- BIOL3070 - Computational Approaches to Biology - 3cr.
- BIOL4040 - Fundamentals of Epidemiology - 3cr.
- BIOL5630 - Endocrinology (CI) - 3cr.
- BIOL5625 - Neurophysiology Laboratory - 2cr.
- CHEM4800 - Research Problems (CI) - 1cr.
- CHEM6720 - Principles of Enzymology I - 1cr.
- CHEM6740 - Cellular Communication by Small Molecules and Proteins - 1cr.
- CHEM6750 - Principles of Structural Biology - 1cr.
- CHEM6760 - Principles of Bioenergetics - 1cr.
- CHEM6770 - Biochemical Methods - 1cr.
- CHEM6780 - Biochemical Basis of Gene Expression: Nucleic Acid Protein Interactions - 1cr.
- CHEM7770 - Special Topics in Biochemistry (Topic) - 1cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Chemistry - BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Undergraduate

About this Degree

Chemistry is the scientific study of matter, its properties, and interactions with other matter and with energy. It is a science applicable to a wide range of career goals, including medicine, law, physical and social sciences, engineering, and public health and policy. At USU, chemistry majors have the opportunity to conduct undergraduate research from the beginning of their studies, first as laboratory assistants and eventually moving on to their own research projects. Unique to USU, many undergraduates in the department are able to publish research papers. This gives USU students a competitive advantage should they apply for graduate programs.

- For more information about Chemistry and Biochemistry, see the Department of Chemistry and Biochemistry.
- Admitted and current students must meet with the Department of Chemistry & Biochemistry Advisor.
- Log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.2 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
70-71	122

Simple Requisites

Program Requirements

THE CHEMISTRY BS REQUIRES AN EMPHASIS IN ONE OF THE FOLLOWING AREAS. Please see the pages for these programs for more information on complete degree requirements:

- Chemistry: Professional Chemistry Emphasis - BS (ACS Certified)
- Chemistry: Environmental Chemistry Emphasis - BS (ACS Certified)
- Chemistry: Biochemistry Emphasis - BS (ACS Certified)
- Chemistry: Life Science Emphasis - BS

REQUIREMENTS TO REMAIN IN THE PROGRAM

- Grade of C- or higher is required for all CHEM prefix courses.
- No CHEM prefix course may be taken on a pass/fail basis, except those courses which are only taught pass/fail.
- No CHEM prefix course may be repeated more than one time to improve the grade to a C- or better.
- All candidates for graduation with a Chemistry degree must complete a department exit survey prior to approval of graduation application and completion of the program.

Additional Information

The following major coursework will fulfill some General Education or University Studies requirements:

- CHEM1220 PRIN OF CHEMISTRY II (BPS) will fulfill the Breadth Physical Sciences (BPS) requirement.
- MATH1210 CALCULUS I (QL) will fulfill the Quantitative Literacy (QL) requirement.
- PHYS2210 PHYS SCI AND ENGR I (QI)(BPS) will fulfill the Quantitative Intensive (QI) requirement.

Chemistry - BS

Type
Completion Requirement

Chemistry Major Requirements (70-71 credits)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM1990 - Introduction to the Chemistry and Biochemistry Professions - 1cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM3000 - Quantitative Analysis (QI) - 3cr.
- CHEM3005 - Quantitative Analysis Laboratory - 1cr.
- CHEM3060 - Physical Chemistry I (QI) - 3cr.
- CHEM3070 - Physical Chemistry II (QI) - 3cr.
- CHEM3090 - Physical Chemistry Laboratory (CI) - 2cr.
- CHEM3510 - Intermediate Inorganic Chemistry - 2cr.
- CHEM3520 - Inorganic Chemistry Laboratory - 1cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
  OR CHEM5700 - General Biochemistry I - 3cr.
- CHEM4990 - Undergraduate Seminar (CI) - 2cr.
- CHEM5640 - Instrumental Analysis - 3cr.
- CHEM5650 - Instrumental Analysis Laboratory - 2cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Chemistry: Environmental Chemistry Emphasis - BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Undergraduate

About this Degree

Chemistry is the scientific study of matter, its properties, and interactions with other matter and with energy. It is a science applicable to a wide range of career goals, including medicine, law, physical and social sciences, engineering, and public health and policy.

At USU, chemistry majors have the opportunity to conduct undergraduate research from the beginning of their studies, first as laboratory assistants and eventually moving on to their own research projects. Unique to USU, many undergraduates in the department are able to publish research papers. This gives USU students a competitive advantage should they apply for graduate programs.

Environmental Chemistry (BS): This is the study of chemical alterations in the environment. Principal areas include studying soil contamination, water pollution, and air pollution. This emphasis meets requirements for certification by the American Chemical Society, which can result in higher-paying careers for graduates than those without ACS certification.

American Chemical Society Certified BS Degree

- For more information about Chemistry and Biochemistry, see the Department of Chemistry and Biochemistry.
- Admitted and current students must meet with the Department of Chemistry & Biochemistry advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2250 LINEAR ALG/DIFF EQUATIONS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.2 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
83-86	121

Simple Requisites

Program Requirements

REQUIREMENTS TO REMAIN IN THS PROGRAM:

- No CHEM prefix course may be applied toward graduation with a major in Chemistry: Environmental Chemistry with an earned grade of less than C-.
- No CHEM prefix course may be repeated more than one time to improve the grade to a C- or better.
- No CHEM prefix course may be taken on a pass/fail basis, except those courses which are only taught pass/fail.

- All candidates for graduation with a Chemistry degree must complete a department exit survey prior to approval of graduation application and completion of the program.

Additional Information

The following major coursework will fulfill some General Education or University Studies requirements:

- CHEM1220 PRIN OF CHEMISTRY II (BPS) will fulfill the Breadth Physical Sciences (BPS) requirement.
- MATH1210 CALCULUS I (QL) will fulfill the Quantitative Literacy (QL) requirement.
- PHYS2210 PHYS SCI AND ENGR I (QI)(BPS) will fulfill the Quantitative Intensive (QI) requirement.
- CHEM4990 UNDERGRADUATE SEMINAR (CI) and CHEM3090 PHYSICAL CHEMISTRY LAB (CI) will fulfill the Communications Intensive (CI) requirement.

Chemistry: Environmental Chemistry Emphasis - BS

Type
Completion Requirement

Chemistry Major Requirements (75-76 credits)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM1990 - Introduction to the Chemistry and Biochemistry Professions - 1cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM3000 - Quantitative Analysis (QI) - 3cr.
- CHEM3005 - Quantitative Analysis Laboratory - 1cr.
- CHEM3060 - Physical Chemistry I (QI) - 3cr.
- CHEM3070 - Physical Chemistry II (QI) - 3cr.
- CHEM3090 - Physical Chemistry Laboratory (CI) - 2cr.
- CHEM3510 - Intermediate Inorganic Chemistry - 2cr.
- CHEM3520 - Inorganic Chemistry Laboratory - 1cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
  OR CHEM5700 - General Biochemistry I - 3cr.
- CHEM4990 - Undergraduate Seminar (CI) - 2cr.
- CHEM5640 - Instrumental Analysis - 3cr.
- CHEM5650 - Instrumental Analysis Laboratory - 2cr.
- CHEM5670 - Intermediate Environmental Chemistry - 3cr.
- CHEM5680 - Environmental Chemistry Laboratory - 2cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.

Introductory Environmental Electives (6-7 credits)

Select 6-7 credits from the following courses.

Complete ANY of the following Courses:

- CEE3610 - Environmental Management - 3cr.
- CEE3640 - Drinking Water Engineering - 3cr.
- GEO1110 - Physical Geology (BPS) - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- WATS1200 - The Natural World and Our Place Within It (BLS) - 3cr.
- BIOL2220 - General Ecology - 3cr.
  OR WATS2220 - General Ecology - 3cr.

Advanced Environmental Electives (3 credits)

Earn at least 3 credits from the following:

- BIOL5400 - Environmental Toxicology - 3cr.
- CEE5620 - Aquatic Chemistry - 3cr.
- CEE5730 - Environmental Chemistry of Organic Contaminants - 3cr.
  OR PUBH5730 - Environmental Chemistry of Organic Contaminants - 3cr.
- CEE5600 - Environmental Chemistry of Inorganic Contaminants - 2cr.
- CEE5610 - Environmental Quality Analysis - 3cr.
- CEE5750 - Air Quality Measurements - 2cr.
- CEE6850 - Atmospheric and Air Pollution Chemistry - 3cr.
- GEO5600 - Geochemistry - 4cr.
- PSC5050 - Principles of Environmental Soil Chemistry - 3cr.
- WATS5110 - Environmental Biogeochemistry - 3cr.
- WATS5500 - Limnology: Ecology of Inland Waters - 3cr.
- WATS5530 - Water Quality and Pollution - 3cr.

Chemistry: Life Science Emphasis - BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Undergraduate

About this Degree

Chemistry is the scientific study of matter, its properties, and interactions with other matter and with energy. It is a science applicable to a wide range of career goals, including medicine, law, physical and social sciences, engineering, and public health and policy.

At USU, chemistry majors have the opportunity to conduct undergraduate research from the beginning of their studies, first as laboratory assistants and eventually moving on to their own research projects. Unique to USU, many undergraduates in the department are able to publish research papers. This gives USU students a competitive advantage should they apply for graduate programs.

Life Science (BS): The life science emphasis is popular for students wishing to go on to medical or dental graduate programs. A major in chemistry gives these students a strong base for understanding the nature of chemical reactions in the body and the behavior of the drugs they will prescribe.

The life science emphasis is popular for students wishing to go on to medical or dental graduate programs. A major in chemistry gives these students a strong base for understanding the nature of chemical reactions in the body and the behavior of the drugs they will prescribe.

- For more information about Chemistry and Biochemistry, see the Department of Chemistry and Biochemistry.
- Admitted and current students must meet with the Department of Chemistry & Biochemistry advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2250 LINEAR ALG/DIFF EQUATIONS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.2 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
82-84	120

Simple Requisites

Program Requirements

REQUIREMENTS TO REMAIN IN THS PROGRAM:

- Grade of C- or better is required for all CHEM prefix courses.
- No CHEM prefix course may be repeated more than one time to improve the grade to a C- or better.
- No CHEM prefix course may be taken on a pass/fail basis, except those courses which are only taught pass/fail.
- All candidates for graduation with a Chemistry degree must complete a department exit survey prior to approval of graduation application and completion of the program.

Additional Information

The following major coursework will fulfill some General Education or University Studies requirements:

- CHEM1220 PRIN OF CHEMISTRY II (BPS) will fulfill the Breadth Physical Sciences (BPS) requirement.
- MATH1210 CALCULUS I (QL) will fulfill the Quantitative Literacy (QL) requirement.
- PHYS2210 PHYS SCI AND ENGR I (QI)(BPS) will fulfill the Quantitative Intensive (QI) requirement.
- CHEM4990 UNDERGRADUATE SEMINAR (CI) and CHEM3090 PHYSICAL CHEMISTRY LAB (CI) will fulfill the Communications Intensive (CI) requirement.

Chemistry: Life Science Emphasis - BS

Type
Completion Requirement

Chemistry: Life Science Emphasis Requirements (82-84 credits)

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM1990 - Introduction to the Chemistry and Biochemistry Professions - 1cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM3000 - Quantitative Analysis (QI) - 3cr.
- CHEM3005 - Quantitative Analysis Laboratory - 1cr.
- CHEM3060 - Physical Chemistry I (QI) - 3cr.
- CHEM3070 - Physical Chemistry II (QI) - 3cr.
- CHEM3090 - Physical Chemistry Laboratory (CI) - 2cr.
- CHEM3510 - Intermediate Inorganic Chemistry - 2cr.
- CHEM3520 - Inorganic Chemistry Laboratory - 1cr.
- CHEM4990 - Undergraduate Seminar (CI) - 2cr.
- CHEM5700 - General Biochemistry I - 3cr.
- CHEM5710 - General Biochemistry II - 3cr.
- CHEM5715 - General Biochemistry Laboratory I - 1cr.
- CHEM5720 - General Biochemistry Laboratory II (CI) - 2cr.
- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
  OR BIOL3300 - General Microbiology - 3cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.

AND

Biology Options

Fulfill ANY of the following requirements:

Option A

Complete ALL of the following Courses:

- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.

OR

Option B

Complete ALL of the following Courses:

- BIOL2420 - Human Physiology - 4cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Chemistry - MS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Graduate

About this Degree

The Master of Science (MS) in Chemistry at Utah State University provides advanced study and research training in the fundamental and applied principles of chemistry. The program is designed for students seeking to deepen their scientific expertise, strengthen their research skills, and prepare for doctoral study or professional careers in industry, government, and education.

Students complete rigorous graduate coursework across core areas of chemistry, including analytical, inorganic, organic, and physical chemistry, with opportunities for specialization in areas aligned with faculty research strengths. Emphasis is placed on scientific rigor, quantitative analysis, experimental design, and effective written and oral communication.

Under close faculty mentorship, students engage in laboratory research using modern instrumentation and methodologies. Through thesis research or other approved scholarly work, students demonstrate the ability to conduct independent investigation, interpret complex data, and contribute meaningfully to the chemical sciences.

Graduates are well prepared for PhD programs, research and development positions in chemical and materials industries, environmental and regulatory laboratories, and other technical roles requiring advanced training in chemistry.

Qualified undergraduate chemistry majors at Utah State University may apply in their third year for admission to the BS-MS program. Students should consult with the chairperson of the Graduate Recruiting and Admissions Committee to be certain of their eligibility for this program. All requirements for the BS degree must be completed within two semesters of admission. The MS degree cannot include coursework counted toward the BS degree.

Admissions Requirements for this Degree

Applicants to the MS in Chemistry program must hold a bachelor's degree in chemistry or a closely related discipline from an accredited institution. Applicants are expected to have completed foundational coursework in analytical, inorganic, organic, and physical chemistry. Admissions requirements and procedures can be found at: https://artsci.usu.edu/chem-biochem/students/graduate/graduate-application.

Additional information about the MS and BS-MS in Chemistry programs may be obtained by contacting the Department of Chemistry and Biochemistry or by visiting https://artsci.usu.edu/chem-biochem/.

Simple Requisites

Program Requirements

Requirements for an MS degree in Chemistry

- **Degree Verification**: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate degree.

- **GPA and Minimum Grades**: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. More than one C grade or grades of C- or lower will not be accepted for a chemistry graduate degree.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- **Matriculation Start Semester:** An MS degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Course Number Acceptability:** The Program of Study for an MS degree must include at least 18 semester credits at the level of 6000 or above.
    1. The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Research Credits:** The Plan A option for an MS degree requires the preparation and defense of a thesis. Students are required to complete a minimum of 6 semester credits of thesis research with a maximum of 15 thesis credits applied toward a Program of Study.
    1. A Plan B option requires the production and defense of a paper/project. A minimum of two credits of thesis research (6970) are required, but no more than three thesis research credits can be included in an approved Program of Study.
- **School of Graduate Studies Forms:** Approval of all academic forms required for MS students by the School of Graduate Studies including the Supervisory Committee Approval form, Program of Study, Thesis Proposal Approval, Appointment for Exam, Authorship & Copyright, Format & Style, Title Page, and Graduation Application.

Chemistry Course Requirements

The Program of Study is approved by the student's supervisory committee. The MS degree requires 30 credit hours including a minimum of 15 credits of coursework. Of the 15 coursework credits, six must be graduate-level courses from outside the student's chosen area of specialization. All chemistry students are required to register for CHEM 7800 annually. CHEM 7800 credits are counted toward the 15 credits of coursework requirement.

Each division (analytical, inorganic, organic, and physical) has established a list of core courses for students specializing in that area.

Chemistry - MS

Type
Completion Requirement

Analytical Chemistry

Complete ALL of the following Courses:

- CHEM6020 - Molecular Spectroscopy - 3cr.
- CHEM7640 - Special Topics in Analytical Chemistry (Topic) - 1cr.

NOTE:
CHEM7640 ST: ANALYTICAL CHEMISTRY - 3 credits of are required in the following subjects areas:

- ST: Analytical Special Topics: Chromatography (1 credit)
- ST: Analytical Special Topics: Mass Spectrometry (1 credit)
- ST: Analytical Special Topics: Practical GC/MS (1 credit)

Inorganic Chemistry

Complete ALL of the following Courses:

- CHEM6500 - Reactivity and Mechanisms in Inorganic Chemistry - 3cr.
- CHEM6510 - Chemical Applications of Group Theory - 1cr.
- CHEM7310 - Molecular Structure/Spectroscopy of Organic Compounds - 3cr.

Organic Chemistry

Complete ALL of the following Courses:

- CHEM6300 - Advanced Modern Organic Chemistry - 3cr.
- CHEM7310 - Molecular Structure/Spectroscopy of Organic Compounds - 3cr.
- CHEM7300 - Reactions and Synthesis in Modern Organic Chemistry - 3cr.

Physical Chemistry

Complete ALL of the following Courses:

- CHEM6010 - Quantum Chemistry - 3cr.
- CHEM6020 - Molecular Spectroscopy - 3cr.

Elective Credit

Complete the following as directed:
In addition to the core and CHEM7800 SEMINAR courses, electives are taken to fulfill the 15 credits of coursework requirement as directed by the student's committee. Elective credits may be selected from courses with any prefix at the level of 5000 or above with supervisory committee approval.

Additional Program Requirements

Complete the following:
• Pass competency examinations to demonstrate a satisfactory undergraduate level of knowledge in relevant areas
• Complete Responsible Conduct of Research training
• Attend the Graduate Student Proposal Writing Seminar

Chemistry - PhD

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Graduate

About this Degree

The PhD in Chemistry at Utah State University is a rigorous, research-intensive program designed to prepare scientists for leadership in academia, national laboratories, and industry. Grounded in a history of academic excellence and research achievement, the program provides advanced training in the fundamental and applied aspects of chemistry while fostering independence, integrity, and professional excellence.

Doctoral students engage in original research under the mentorship of accomplished faculty across major areas of chemistry, including analytical, inorganic, organic, and physical chemistry. The curriculum emphasizes advanced coursework, critical analysis of scientific literature, and the development of technical and methodological expertise. Students gain proficiency in experimental design, data interpretation, and scientific communication, preparing them to contribute meaningfully to the advancement of chemical knowledge.

In addition to research, students develop teaching and mentoring skills through instructional opportunities that reinforce a strong foundation in chemical principles. Professional development experiences – such as presenting at scientific conferences, publishing in peer-reviewed journals, and collaborating across disciplines – further prepare graduates for competitive careers.

Graduates of the PhD program are well prepared for faculty positions, postdoctoral research appointments, and leadership roles in government and private-sector laboratories. The program maintains high academic standards while providing individualized guidance to ensure each student develops the depth of expertise and professional maturity expected of a doctoral-level chemist.

Admissions Requirements for this Degree

Applicants to the PhD in Chemistry program must hold a bachelor's or master's degree in chemistry or a closely related discipline from an accredited institution. Applicants are expected to have completed foundational coursework in analytical, inorganic, organic, and physical chemistry. Admissions requirements and procedures can be found at https://artsci.usu.edu/chem-biochem/students/graduate/graduate-application.

Additional information about the PhD in Chemistry may be obtained by contacting the Department of Chemistry and Biochemistry or by visiting https://artsci.usu.edu/chem-biochem/.

Program Requirements

Requirements for a PhD degree in Chemistry

- **Degree Verification**: A bachelor's degree or master's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a PhD degree.
- **GPA and Minimum Grades**: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. More than one C grade or grades of C- or lower will not be accepted for a chemistry graduate degree.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- **Matriculation Start Semester:** A PhD degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Course Number Acceptability:** The Program of Study for a PhD degree must include at least 18 semester credits at the level of 6000 or above.

  Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000. A maximum of 12 credits of 5000-level coursework are permitted.
- **Research Credits:** A minimum of 12 dissertation research credits is required if the student has an MS degree, and a minimum of 18 is required if the student has a bachelor's degree.
- **School of Graduate Studies Forms:** Approval of all academic forms required for PhD students by the School of Graduate Studies including the Supervisory Committee Approval form, Program of Study, Application for Candidacy, Appointment for Exam, Authorship & Copyright, Format & Style, Title Page, and Graduation Application.

Chemistry Course Requirements

The Program of Study is approved by the student's supervisory committee. A total of 30 credits is required for students entering with an MS degree, 60 credits is required for students entering with a bachelor's degree. The PhD degree requires a minimum of 10 credits of coursework. Of the 10 coursework credits, six must be graduate-level courses from outside the student's chosen area of specialization. All chemistry students are required to register for CHEM 7800 annually. CHEM 7800 credits are not included in the 10 credits of coursework total.

Each division (analytical, inorganic, organic, and physical) has established a list of core courses for students specializing in that area.

In addition to the core courses, electives are taken to fulfill the 10 credits of coursework requirement as directed by the student's committee. Elective credits may be selected from courses with any prefix at the level of 5000 or above with supervisory committee approval.

Chemistry - PhD

Type
Completion Requirement

Analytical Courses

Complete ALL of the following Courses:

- CHEM6020 - Molecular Spectroscopy - 3cr.
- CHEM7640 - Special Topics in Analytical Chemistry (Topic) - 1cr.

NOTE:

3 credits of CHEM7640 ST: ANALYTICAL CHEMISTRY is required covering the following topics:

- ST: Analytical Special Topics: Chromatography (1 credit)
- ST: Analytical Special Topics: Mass Spectrometry (1 credit)
- ST: Analytical Special Topics: Practical GC/MS (1 credit)

Inorganic Courses

Complete ALL of the following Courses:

- CHEM6500 - Reactivity and Mechanisms in Inorganic Chemistry - 3cr.
- CHEM6510 - Chemical Applications of Group Theory - 1cr.
- CHEM7310 - Molecular Structure/Spectroscopy of Organic Compounds - 3cr.

Organic Courses

Complete ALL of the following Courses:

- CHEM6300 - Advanced Modern Organic Chemistry - 3cr.
- CHEM7300 - Reactions and Synthesis in Modern Organic Chemistry - 3cr.
- CHEM7310 - Molecular Structure/Spectroscopy of Organic Compounds - 3cr.

Physical Chemistry Courses

Complete ALL of the following Courses:

- CHEM6010 - Quantum Chemistry - 3cr.
- CHEM6020 - Molecular Spectroscopy - 3cr.

Additional Program Requirements

Type
Completion Requirement

Requirements

Complete the following:
● Pass competency examinations to demonstrate a satisfactory undergraduate level of knowledge in relevant areas
● Complete Responsible Conduct of Research training
● Attend the Graduate Student Proposal Writing Seminar

Chemistry: Professional Chemistry Emphasis - BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Undergraduate

About this Degree

Chemistry is the scientific study of matter, its properties, and interactions with other matter and with energy. It is a science applicable to a wide range of career goals, including medicine, law, physical and social sciences, engineering, and public health and policy.

At USU, chemistry majors have the opportunity to conduct undergraduate research from the beginning of their studies, first as laboratory assistants and eventually moving on to their own research projects. Unique to USU, many undergraduates in the department are able to publish research papers. This gives USU students a competitive advantage should they apply for graduate programs.

Professional Chemistry (BS): This emphasis is for students who wish to be chemists with careers in test laboratories, such as government laboratories and hospital laboratories. Students graduating with this emphasis will also find jobs in research development, quality control, and manufacturing. This emphasis meets requirements for certification by the American Chemical Society, which can result in higher-paying careers for graduates than those without ACS certification.

American Chemical Society Certified BS Degree

- For more information about Chemistry and Biochemistry, see the Department of Chemistry and Biochemistry.
- Admitted and current students must meet with the Department of Chemistry & Biochemistry advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2250 LINEAR ALG/DIFF EQUATIONS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.2 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
80	123

Simple Requisites

Program Requirements

REQUIREMENTS TO REMAIN IN THS PROGRAM:

- No CHEM prefix course may be applied toward graduation with a major in Chemistry:Professional Chemistry Emphasis with an earned grade of less than C-.
- No CHEM prefix course may be repeated more than one time to improve the grade to a C- or better.
- No CHEM prefix course may be taken on a pass/fail basis, except those courses which are only taught pass/fail.

- All candidates for graduation with a Chemistry degree must complete a department exit survey prior to approval of graduation application and completion of the program.

Additional Information

The following major coursework will fulfill some General Education or University Studies requirements:

- CHEM1220 PRIN OF CHEMISTRY II (BPS) will fulfill the Breadth Physical Sciences (BPS) requirement.
- MATH1210 CALCULUS I (QL) will fulfill the Quantitative Literacy (QL) requirement.
- PHYS2210 PHYS SCI AND ENGR I (QI)(BPS) will fulfill the Quantitative Intensive (QI) requirement.
- CHEM4990 UNDERGRADUATE SEMINAR (CI) and CHEM3090 PHYSICAL CHEMISTRY LAB (CI) will fulfill the Communications Intensive (CI) requirement.

Chemistry: Professional Chemistry Emphasis - BS

Type

Completion Requirement

Chemistry Major Requirements (56 credits)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM3000 - Quantitative Analysis (QI) - 3cr.
- CHEM3005 - Quantitative Analysis Laboratory - 1cr.
- CHEM3060 - Physical Chemistry I (QI) - 3cr.
- CHEM3070 - Physical Chemistry II (QI) - 3cr.
- CHEM3090 - Physical Chemistry Laboratory (CI) - 2cr.
- CHEM3510 - Intermediate Inorganic Chemistry - 2cr.
- CHEM3520 - Inorganic Chemistry Laboratory - 1cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.

Professional Emphasis Requirements (18-19 credits)

Complete ALL of the following Courses:

- CHEM1990 - Introduction to the Chemistry and Biochemistry Professions - 1cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
  OR CHEM5700 - General Biochemistry I - 3cr.
- CHEM4990 - Undergraduate Seminar (CI) - 2cr.
- CHEM5520 - Advanced Inorganic Chemistry - 2cr.
- CHEM5530 - Advanced Synthesis Laboratory - 2cr.
- CHEM5640 - Instrumental Analysis - 3cr.
- CHEM5650 - Instrumental Analysis Laboratory - 2cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.

OR STAT3000 - Statistics for Scientists (QI) - 3cr.

Pre-Approved Advanced Chemistry Electives (6 credits)

Earn at least 6 credits from the following:

- CHEM4800 - Research Problems (CI) - 1cr.
- CHEM5070 - Biophysical Chemistry - 3cr.
- CHEM5100 - Computational Chemistry - 3cr.
- CHEM5670 - Intermediate Environmental Chemistry - 3cr.
- CHEM5680 - Environmental Chemistry Laboratory - 2cr.
- CHEM5710 - General Biochemistry II - 3cr.
- CHEM5720 - General Biochemistry Laboratory II (CI) - 2cr.
- CHEM6010 - Quantum Chemistry - 3cr.
- CHEM6020 - Molecular Spectroscopy - 3cr.
- CHEM6300 - Advanced Modern Organic Chemistry - 3cr.
- CHEM6500 - Reactivity and Mechanisms in Inorganic Chemistry - 3cr.
- CHEM6510 - Chemical Applications of Group Theory - 1cr.
- CHEM6600 - Modern Chemical Analysis - 3cr.
- CHEM6730 - Principles of Enzymology II - 2cr.
- CHEM6740 - Cellular Communication by Small Molecules and Proteins - 1cr.
- CHEM6750 - Principles of Structural Biology - 1cr.
- CHEM6760 - Principles of Bioenergetics - 1cr.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Chinese - Minor

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Undergraduate

About this Degree

Students in the Chinese minor develop language skills, communication skills, analytical skills, and cultural competence skills.

Admission Requirements for this Program

- Minimum Grade Point Average: 2.0 GPA

Program Requirements

Total Credits Required In Program Coursework
16

Total Credits Required To Earn This Credential
16

Simple Requisites

Program Requirements

- Total credits: 16
- Minimum Grade Requirement: All courses taken for the minor require a minimum grade of C- or better. Courses taken for the minor may not be taken on a pass/fail basis.
- Students requesting to apply study abroad credits (CHIN1800 CHINESE I STUDY ABROAD, CHIN2800 CHINESE II STUDY ABROAD, CHIN3800 CHINESE III STUDY ABROAD, CHIN4800 CHINESE IV STUDY ABROAD) toward the minor or major emphasis must obtain approval from the Department of World Languages and Cultures prior to participating.

Section 1

Type
Completion Requirement

Required Courses (4-7 credits)

Complete ALL of the following Courses:

- CHIN2050 - Chinese Conversation - 3cr.
  OR CHIN3000 - Chinese Conversation - 3cr.
- CHIN3010 - Chinese Third Year I - 4cr.

NOTES:

1. CHIN2050 CHINESE CONVERSATION:

• CHIN 2050 is a transition course for students without extensive experience in a Mandarin-speaking environment; it must be taken after CHIN2010 CHINESE SECOND YR I and before CHIN3010 CHINESE THIRD YR I. CHIN 2050 is a prerequisite for CHIN 3010 and all other 3000- or 4000-level Chinese electives.
• Students with at least one year of immersive Mandarin experience (e.g., returned missionaries or study abroad participants) may waive CHIN2050 CHINESE CONVERSATION or CHIN3000 CHIN CONVERSATION. Students may take the Department of World Languages and Cultures Language Placement and Proficiency exam at USU to possibly waive, or "test out of," some prerequisites, depending on test scores.
• Cantonese speakers are still required to take CHIN2050 CHINESE CONVERSATION.

Additional Comments:
Bridge program participants should consult a World Languages & Cultures Advisor.

Section 2

Type
Completion Requirement

Elective Courses (12 credits)

Only one credit of CHIN4920 CHINESE LANG TUTOR may count toward the Chinese Minor. Select 12 credits from the following courses:

Earn at least 12 credits from the following:

- CHIN3020 - Chinese Third Year II - 4cr.
- CHIN3060 - Chinese Grammar and Composition - 3cr.
- CHIN3080 - Chinese Outreach Practicum - 1cr.
- CHIN3090 - Introduction to Modern Chinese Literature and Film - 3cr.
- CHIN3100 - Readings in Contemporary Chinese Culture (DHA) - 3cr.
- CHIN3116 - Exploring China - Past, Present and You - 3cr.
- CHIN3117 - Chinese Legacies - Tradition and Modernity - 3cr.
- CHIN3118 - Chinese Popular Culture - 3cr.
- CHIN3510 - Chinese Business Presentations - 3cr.
- CHIN3520 - Chinese Business Strategies - 3cr.
- CHIN3540 - Translating into and from Chinese (CI) - 3cr.
- CHIN3600 - Contemporary Children's Literature in Chinese - 3cr.
- CHIN3800 - Chinese III Study Abroad - 1cr.
- CHIN3880 - Individual Readings in Chinese - 1cr.
- CHIN4010 - Chinese Multimedia - 3cr.
- CHIN4030 - Love and Death in Chinese Film - 3cr.
- CHIN4090 - Readings in Masterworks of Classical Chinese Fiction - 3cr.
- CHIN4100 - Teaching Chinese as a Foreign Language - 3cr.
- CHIN4210 - Chinese/Sinophone Theatre and Performance - 3cr.
- CHIN4800 - Chinese IV Study Abroad - 1cr.
- CHIN4920 - Chinese Language Tutoring - 1cr.
- LANG3550 - Culture of East Asia (DHA) - 3cr.
- LANG3570 - Narrative Ethics in Asian Literature and Film (DHA) - 3cr.
  OR LANG3650 - Women and Gender in East Asian Culture - 3cr.
- CAI5520 - Chinese Security Affairs - 3cr.
- HIST3481 - China's Cultural Revolution - 3cr.
  OR HIST3480 - History of China - 3cr.
  OR HIST3482 - Ancient China to 1800 (DHA) - 3cr.

NOTES:

CHIN3080 CHINESE OUTREACH, CHIN3800 CHINESE III STUDY ABROAD, CHIN3880 INDIVIDUAL READINGS, CHIN4800 CHINESE IV STUDY ABROAD, or CHIN4920 require instructor permission and are repeatable for credit, up to a maximum of 3 credits counting toward the minor per course. No more than 6 credits total of 3080, 3800, 3880, 4880, and 4920 combined may count toward the minor.

Section 3

Type
Completion Requirement

Bridge Program

Requirements
Bridge Pathway

- **Credits in Residence:** At least half (50 percent) of the credits earned for this minor must be earned at USU. Bridge courses will count toward elective credits and credits in residence at USU.
- **Bridge Courses:** CHIN3116 EXPLORING CHINA, CHIN3117 CHINESE LEGACIES, and CHIN3118 CHINESE POPULAR CULTURE should be transferred to the Registrar's Office, if taken through another university other than USU.

Upon completion, student should have **5 classes (16 credits)** of upper-division Chinese coursework to complete the minor, any high school Bridge classes included.

Chinese Teaching - Minor

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Undergraduate

Program Requirements

Total Credits Required To Earn This Credential
49

Simple Requisites

Program Requirements

- Total Credits: 49 (20 credits + 29 STEP credits)
- Grade Point Average to Declare Chinese Teaching Minor: 2.5 Overall GPA
- Grade Point Average to Graduate with Chinese Teaching Minor: 2.5 GPA within minor coursework
- USU Credit Requirement: At least half (50 percent) of the credits earned for this degree must be completed in upper-division USU courses having prefixes of CHIN or LING. All other credits (including transfer and study abroad credits) must be approved by the program's academic advisor in order to be counted toward the minor. Students who have completed Bridge Program Language courses should contact their advisor as these courses may count toward elective credits and credits toward minor requirements.The bridge students who scored a 3 or 4 on the AP Exam must complete CHIN3000 CHIN CONVERSATION before enrolling in CHIN3010 CHINESE THIRD YR I and other upper-division Chinese courses.
- Students desiring to apply study abroad credits (CHIN1800 CHINESE I STUDY ABROAD, CHIN2800 CHINESE II STUDY ABROAD, CHIN3800 CHINESE III STUDY ABROAD, CHIN4800 CHINESE IV STUDY ABROAD) toward these degrees must obtain approval from the World Languages and Cultures office prior to participating.
- Minimum Grade Requirement: All courses for the minor require a minimum grade of C or better. Courses for the minor may not be taken on a pass/fail basis with the exception of SCED3300 CLINICAL EXPERIENCE I and SCED5630 STUDENT TEACHING SEC SCHOOL.

Section 1

Type
Completion Requirement

Chinese and Linguistics Courses (15 credits)

IMPORTANT NOTES:

- CHIN2050 CHINESE CONVERSATION is a required transition course for students without extensive experience in a Mandarin-speaking environment. It must be taken after CHIN2010 CHINESE SECOND YR I and before CHIN3010 CHINESE THIRD YR I.
- Students with at least one year of immersive Mandarin experience (e.g., returned missionaries) may waive CHIN2050 CHINESE CONVERSATION or CHIN3000 CHIN CONVERSATION. Please work with your academic advisor.
- Cantonese speakers are still required to take CHIN2050 CHINESE CONVERSATION.

Important Notes for Bridge Language Students:

- Bridge students with an AP score of 3 or 4 must complete CHIN3000 CHIN CONVERSATION before enrolling in CHIN3010 CHINESE THIRD YR I or any other upper-division Chinese courses.
- Not following this sequence may delay progress in the major.

Complete ALL of the following Courses:

- CHIN2050 - Chinese Conversation - 3cr.
  OR CHIN3000 - Chinese Conversation - 3cr.
- CHIN3010 - Chinese Third Year I - 4cr.
- CHIN4100 - Teaching Chinese as a Foreign Language - 3cr.
- CHIN4920 - Chinese Language Tutoring - 1cr.
- SCED3300 - Clinical Experience I - 1cr.

NOTES:

1. CHIN4100 TEACHING CHINESE is required for both the licensure and non-licensure route.
2. Only 1 credit in CHIN4920 CHINESE LANG TUTOR may count towards the Chinese Minor-Teaching Emphasis.
3. SCED3300 CLINICAL EXPERIENCE I is only required for STEP and Licensure and a student must be admitted to the STEP program to enroll.

Section 2

Type
Completion Requirement

Elective Courses (3 credits)

Earn at least 3 credits from the following:

- CHIN3020 - Chinese Third Year II - 4cr.
- CHIN3060 - Chinese Grammar and Composition - 3cr.
- CHIN3080 - Chinese Outreach Practicum - 1cr.
- CHIN3090 - Introduction to Modern Chinese Literature and Film - 3cr.
- CHIN3100 - Readings in Contemporary Chinese Culture (DHA) - 3cr.
- CHIN3116 - Exploring China - Past, Present and You - 3cr.
- CHIN3117 - Chinese Legacies - Tradition and Modernity - 3cr.
- CHIN3118 - Chinese Popular Culture - 3cr.
- CHIN3510 - Chinese Business Presentations - 3cr.
- CHIN3520 - Chinese Business Strategies - 3cr.
- CHIN3540 - Translating into and from Chinese (CI) - 3cr.
- CHIN3600 - Contemporary Children's Literature in Chinese - 3cr.
- CHIN3800 - Chinese III Study Abroad - 1cr.
- CHIN3880 - Individual Readings in Chinese - 1cr.
- CHIN4010 - Chinese Multimedia - 3cr.
- CHIN4090 - Readings in Masterworks of Classical Chinese Fiction - 3cr.
- CHIN4210 - Chinese/Sinophone Theatre and Performance - 3cr.
- CHIN4800 - Chinese IV Study Abroad - 1cr.
- CHIN4030 - Love and Death in Chinese Film - 3cr.
- LANG3570 - Narrative Ethics in Asian Literature and Film (DHA) - 3cr.
- LANG3650 - Women and Gender in East Asian Culture - 3cr.
- LANG3990 - Special Topics - 1cr.

NOTES:

1. Only one credit of CHIN4920 CHINESE LANG TUTOR may count toward the Chinese Minor or Chinese Minor - Teaching Emphasis.
2. CHIN3800 CHINESE III STUDY ABROAD, and CHIN4800 CHINESE IV STUDY ABROAD - Students desiring to apply study abroad credits toward these degrees must obtain approval from the World Languages and Cultures office prior to participating. Both courses are repeatable for credit.
3. CHIN3080 CHINESE OUTREACH is repeatable for credit up to a maximum of 3 credits.
4. While CHIN3880 INDIVIDUAL READINGS may be repeated for additional credit, only 1 credit may count toward requirements for the Chinese major or minor.

Section 3

Type
Completion Requirement

Teaching Emphasis with Secondary School Licensure (29 credits)

The following requirements only specify courses offered by the Department of World Languages and Cultures. To be licensed to teach in the Utah public secondary school system, students with a teaching emphasis must also complete additional courses (approximately 29 credits) required by the Secondary Education Program. Courses may be subject to change, and students should contact the Secondary Education Advising Office for a current course list of STEP requirements.

- Students should note that *only one credit* of CHIN4920 CHINESE LANG TUTOR may count towards the Chinese Minor - Teaching Emphasis. In addition, courses taken for the Chinese minor programs may not be taken on a pass/fail basis.
- Praxis requirement: Passing the ETS Praxis II 5665 Chinese - scoring 145 or higher.
- Oral Proficiency Interview (OPI) requirement: A score of Advanced-Low or higher is required for the Oral Proficiency Interview for Chinese as a World Language.
- **For a teaching major or minor there is a minimum "C" grade requirement in all STEP and minor content required courses.**

Earn a minimum grade of C in the following:

- LING5400 - Teaching Modern Languages - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.

- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

NOTES:

1. LING5400 TEACHING MODERN LANGUAGES and SCED3300 CLINICAL EXPERIENCE I must be taken during the same semester, and should be the last courses taken for the minor. These courses should be taken the fall semester before student teaching. LING5400 TEACHING MODERN LANGUAGES is listed in both the STEP and minor requirements for seeking the Chinese Teaching Minor/ non-licensure so the non-licensure minors understand the complete of minor requirements. See additional non-licensure information at bottom of page.

Section 4

Type
Completion Requirement

Chinese Teaching Emphasis Minor without Secondary School Licensure (20 credits)

Requirements without Licensure
(20 credits)

It is possible to have a teaching emphasis within a minor in Chinese without receiving secondary school teaching licensure. However, unless the student is an elementary education major, he or she would not be able to teach in Utah public schools (nor at many private ones). Graduating without licensure may allow employment at community colleges and universities.

In order to complete a Chinese Minor - Teaching Emphasis *without* Secondary School Licensure, students must fulfill all of the requirements listed under Section I (Chinese and Linguistics Courses) of the Chinese Minor - Teaching Emphasis *with* Secondary School Licensure (21 credits), except for SCED3300 CLINICAL EXPERIENCE I, for a total of 20 credits (SCED3300 CLINICAL EXPERIENCE I) for the teaching minor is no longer required if doing non-licensure Chinese Teaching minor program).

Additional Comments:

Related Programs

- Chinese - Minor: 16 credits
- Chinese Teaching - Minor: without Licensure: 20 credits
- Chinese - BA: 33 credits

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Chemistry Teaching - Minor

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Undergraduate

About this Degree

This minor prepares students for a Level 1 Chemistry Teaching Endorsement in the state of Utah. For endorsement in the state of Utah, students must also complete the courses for the Science 6-8 Core. If you are interested in receiving a Level 2 Chemistry Endorsement, please schedule an appointment with the Chemistry & Biochemistry department advisor for additional requirements. For more information on the requirements for teaching minor licensure, see the State of Utah Board of Education Endorsement requirements at: https://www.schools.utah.gov/licensing/endorsements?mid=5266&tid=1.

Program Requirements

Total Credits Required To Earn This Credential

25-27
Jan 1, 1900

Simple Requisites

Program Requirements

- In addition to required courses, 3-4 additional credits in Chemistry prefix courses, as approved by the department, are required.
- No CHEM prefix course may be applied toward a teaching minor in chemistry with an earned grade of less than C.
- No CHEM prefix course may be repeated more than one time to improve the grade to a C or better.
- 3.0 overall GPA is required for the Chemistry Teaching Minor.
- Enrollment in the Secondary Teacher Education Program with a teaching major is required to receive this minor.
- This minor requires 25-27 credits to complete.

Section 1

Type
Completion Requirement

Required Courses (14-15 credit)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
  OR CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.

Section 2

Type
Completion Requirement

Required Elective (3-4 credits)

Complete at least 1 of the following courses:

- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM3000 - Quantitative Analysis (QI) - 3cr.
- CHEM3060 - Physical Chemistry I (QI) - 3cr.
- CHEM3510 - Intermediate Inorganic Chemistry - 2cr.
  AND CHEM3520 - Inorganic Chemistry Laboratory - 1cr.
- CHEM3650 - Environmental Chemistry (DSC) - 3cr.
  OR CHEM3700 - Introductory Biochemistry - 3cr.

NOTE:

1. CHEM2320 ORGANIC CHEMISTRY II - If CHEM CHEM2310 ORGANIC CHEMISTRY I has been previously selected.

Section 3

Type
Completion Requirement

Chemistry Teaching Minor STEP Courses (8 credits)

Required to complete both Science Clinicals and Methods courses:

Complete ALL of the following Courses:

- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5821 - Three-Dimensional Science and Engineering Pedagogical Knowledge - 3cr.
- SCED5820 - Science Education Teaching and Dispositions Knowledge - 3cr.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

Chemistry Teaching - BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Chemistry & Biochemistry	Undergraduate

About this Degree

Chemistry is the scientific study of matter, its properties, and interactions with other matter and with energy. At USU, chemistry majors have the opportunity to conduct undergraduate research from the beginning of their studies, first as laboratory assistants and eventually moving on to their own research projects.

Chemistry teachers educate students in middle school or high school levels on the basic chemical properties of elements and the chemical reactions that take place when different types of elements are combined and how to properly write scientific equations.

The department has two options for students interested in careers as high school or middle school chemistry teachers. The chemistry teaching option is appropriate for students who wish to teach chemistry, but who do not seek the depth of study required for American Chemical Society certification. The chemical education emphasis within the chemistry major requires a few additional math, statistics, and chemistry courses, which allows students to become ACS certified.

Education Component

In order to obtain a secondary teaching license for grades 6-12, students must complete the 38-credit Secondary Teacher Education Program (STEP), which includes one semester of student teaching in a public school. This program is administered by USU's School of Teacher Education and Leadership (TEAL) within the Emma Eccles Jones College of Education and Human Services. Student must apply to the School of TEAL the semester before taking STEP courses. This is usually the fall of their junior year. Students learn subject content through the Chemistry and Biochemistry Department, and spend the last year or two studying education techniques through the STEP program.

Students in the chemistry teaching program are required to select an approved teaching minor in order to expand their career options.

- For more information about Chemistry and Biochemistry, see the Department of Chemistry and Biochemistry.
- Admitted and current students must meet with the Department of Chemistry & Biochemistry advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2210 MULTIVARIABLE CALCULUS (QI).

Admission Requirements for this Program

- New freshmen admitted to USU in good standing qualify for admission to this major. A 3.0 GPA and 60 credits of coursework are required for admission to the Secondary Teacher Education Program (STEP).
- Transfer students from other institutions or other USU majors need a 3.0 GPA, ACT scores of 21 composite and 20 verbal/English and 19 mathematics/quantitative to be admitted to the major. They also need 60 credits of coursework to be admitted to the STEP.
- Students should contact the School of Teacher Education and Leadership (TEAL) for information on additional admission criteria. For application requirements visit teal.usu.edu.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
67 + 38 STEP	122

Simple Requisites

Program Requirements

REQUIREMENTS TO REMAIN IN THS PROGRAM:

- Requires a 3.00 GPA. 3.0 overall GPA is required for Admission into STEP program and for graduation.
- **Grade of C or higher is required for all courses taken to fulfill major requirements and STEP courses for Chemistry Teaching.**
- CHEM prefix course grades must be C or better. No CHEM prefix course may be repeated more than one time to improve the grade to a C or better.
- No CHEM prefix course may be taken on a pass/fail basis, except those courses which are only taught pass/fail.
- All candidates for graduation with a Chemistry degree must complete a department exit survey prior to approval of graduation application and completion of the program.

Teaching Certification and Graduation Requirement:

- Students must complete a USBE-approved lab safety training course as a graduation requirement and provide record of completion to their advisor as a requirement for licensure recommendation.
- The USBE has approved the Flynn Scientific Online Lab Safety Course which can be completed at https://labsafety.flinnsci.com/UnAuthHome/Index.
- This is for the chemical education emphasis only. In order to obtain a secondary teaching license for grades 6-12, students must complete the 38-credit Secondary Teacher Education Program (STEP), which includes one semester of student teaching in a public school. This program is administered by USU's School of Teacher Education and Leadership (TEAL) within the Emma Eccles Jones College of Education and Human Services. Students must apply to the School of TEAL the semester before taking STEP courses. This is usually the fall of their junior year. Students learn subject content through the Chemistry and Biochemistry Department and spend the last year or two studying education techniques through the STEP program.
- Students with a chemical education emphasis are required to select an approved teaching minor in order to expand their career options.

Additional Information

The following major coursework will fulfill some General Education or University Studies requirements:

- CHEM1220 PRIN OF CHEMISTRY II (BPS) will fulfill the Breadth Physical Sciences (BPS) requirement.
- MATH1210 CALCULUS I (QL) will fulfill the Quantitative Literacy (QL) requirement.

- BIOL1010 BIOL AND THE CITIZEN (BLS) will fulfill the Breadth Life Sciences (BLS) requirement.
    - NOTE: BIOL1610 BIOLOGY I is not a BLS, so if selected to fulfill major requirements, another BLS course option will need to be completed to fulfill the BLS requirement.
- CHEM3090 PHYSICAL CHEMISTRY LAB (CI) and CHEM4990 UNDERGRADUATE SEMINAR (CI) will fulfill the Communications Intensive (CI) requirement.
- SCED3210 ED/MULTICULTR FOUND (DSS)(CI) will fulfill the Depth Social Science (DSS) requirement.

Chemistry Teaching - BS

Type
Completion Requirement

Chemistry Teaching Major Requirements (67 credits)

Complete ALL of the following Courses:

- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
  OR BIOL1610 - Biology I - 3cr.
- GEO1010 - Introduction to Geology (BPS) - 3cr.
  OR GEO1110 - Physical Geology (BPS) - 3cr.
  OR GEO1360 - Planet Earth (BPS) - 3cr.
  OR PHYS1040 - Introductory Astronomy (BPS) - 3cr.
  OR PSC2000 - The Atmosphere and Weather (BPS) - 3cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM3000 - Quantitative Analysis (QI) - 3cr.
- CHEM3005 - Quantitative Analysis Laboratory - 1cr.
- CHEM3060 - Physical Chemistry I (QI) - 3cr.
- CHEM3070 - Physical Chemistry II (QI) - 3cr.
- CHEM3090 - Physical Chemistry Laboratory (CI) - 2cr.
- CHEM3510 - Intermediate Inorganic Chemistry - 2cr.
- CHEM3520 - Inorganic Chemistry Laboratory - 1cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
  OR CHEM5700 - General Biochemistry I - 3cr.
- CHEM4990 - Undergraduate Seminar (CI) - 2cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.

Required Courses for the Secondary Teacher Education Program (STEP) (38 credits)

To begin the admission process to the STEP program, students should see their Chemistry advisor at least two semesters before they begin coursework and also meet with a Secondary Education (TEAL) advisor. STEP admission deadlines are March 1 for fall semester and October 1 for spring semester. STEP courses require a grade of C or better. For more information about secondary education teaching requirements, go to teal.usu.edu/undergrad/sced/index-SCED.

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SCED5820 - Science Education Teaching and Dispositions Knowledge - 3cr.
- SCED5821 - Three-Dimensional Science and Engineering Pedagogical Knowledge - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.

- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Civil Engineering - BS

Program Overview

College
College of Engineering

Department
Civil & Environmental Engineering

Program Level
Undergraduate

About this Degree

Civil engineers plan, design, construct, and maintain public works, such as roads, bridges, and harbors. While they focus on building, they also look at the environmental impact of the structure and the structure's stability in the case of environmental hazards, such as earthquakes and hurricanes.

- For more information about Civil Engineering, see the Civil and Environmental Engineering department.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The Civil Engineering BS Program is accredited by the Engineering Accreditation Commission of ABET, https://www.abet.org, under the commission's General Criteria and the Program Criteria for Civil Engineering and Similarly Named Programs.
- The highest math requirement for this degree is MATH2250 LINEAR ALG/DIFF EQUATIONS (QI)

Admission Requirements for this Program

New Freshman and Transfer Students (from other institutions or other USU programs)

- Admitted to USU in Good Standing

New Freshman:

- 2.8 High School GPA or higher
- 20 ACT or 1030 SAT or higher

Admission Requirements for the Pre-Professional Program:

- Completion of Engineering Foundations courses (listed below)
- MATH1210 CALCULUS I (QL), MATH 1220, CHEM 1210, CHEM 1215, PHYS 2210, PHYS 2215, ENGR 1010, ENGR 1400 completed with a C- or higher
- 2.8 or higher GPA in Engineering Foundations courses

Program Requirements

Total Credits Required In Program Coursework
102-103

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Civil Engineering- BS Course Requirements

Type
Completion Requirement

Engineering Foundations Courses (25 credits)

- A Cumulative USU GPA of 2.8 or higher is required in Engineering Foundations courses.

- Engineering Foundations courses: Math 1210, Math 1220, ENGR 1010, ENGR 1400, PHYS 2210, PHYS 2215, CHEM 1210, CHEM 1215 require a grade of C- or higher.
- The P/D+, D, F grading option may not be used in required courses completed as part of Engineering Foundations program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- ENGR1010 - Engineering Exploration - 3cr.
- ENGR1400 - Computer Programming for Engineers - 4cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.

Pre- Professional Program Courses (27 credits)

- An institution GPA of 2.5 or higher is required in the pre-professional courses.
- The P/D+, D, F grading option may not be used in required courses completed as part of Engineering Foundations or a pre-professional program. (The P/D+, D, F grading option is approved for University Studies Courses.)
- All courses require a grade of C- or better.

Complete ALL of the following Courses:

- CEE2240 - Engineering Surveying - 3cr.
- CEE2270 - Computer Engineering Drafting - 2cr.
- ENGR2010 - Engineering Mechanics Statics - 3cr.
- ENGR2030 - Engineering Mechanics Dynamics - 3cr.
- ENGR2140 - Mechanics of Materials - 3cr.
- GEO1110 - Physical Geology (BPS) - 3cr.
  OR CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.

***ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) or ENGL2020 PROFESSNL COMMUNICATION (CL2) will fulfill the major requirement. Whichever course is taken becomes required for the pre-professional program.**

Civil Engineering Professional Program Coursework (21 credits)

For Civil Engineering majors in the professional program the following academic regulations apply, in addition to University regulations:

1. A GPA of 2.0 or higher must be maintained in all upper-division engineering/math/science courses required for, or used as technical electives in, this major. Courses which were part of the pre-professional program requirements and University Studies courses are not included in this GPA calculation.
2. For Civil Engineering, not more than 10 hours of D or D+ credit may be applied toward meeting graduation requirements in engineering/math/science classes.
3. College of Engineering courses may be repeated only once. Audits count as a time taking a class unless prior written approval is obtained from the department head. A maximum of three required or elective courses completed as part of a professional program can be repeated in order to meet graduation requirements. (Courses completed as part of a pre-professional program are not included in this total of three repeats.)
4. The P/D+, D, F grading option may not be used in required or elective courses completed as part of a professional program. (The P/D+, D, F grading option is approved for University Studies Courses.)
5. The academic regulations listed above (1-4) apply to required coursework and any elective engineering/math/science course which could be used to satisfy graduation requirements for the chosen degree.

Complete ALL of the following Courses:

- CEE2450 - Computer Programming and Numerical Methods for Civil and Environmental Engineers - 3cr.
- CEE3160 - Civil Engineering Materials - 2cr.
- CEE3165 - Civil Engineering Materials Laboratory - 1cr.
- CEE3500 - Civil and Environmental Engineering Fluid Mechanics - 3cr.
- CEE3610 - Environmental Management - 3cr.
- CEE3880 - Civil and Environmental Design I - 2cr.
- CEE4870 - Civil and Environmental Design II (CI) - 2cr.
- CEE4880 - Civil and Environmental Design III (CI) - 2cr.
- ENGR3080 - Creativity and Communication in Design (CI) - 3cr.

Civil Focus Areas (12 credits)

A GPA of 2.0 or higher must be maintained in all upper-division engineering/math/science courses required for, or used as technical electives in, this major.

Complete ALL of the following Courses:

- CEE3020 - Structural Analysis - 3cr.
- CEE3210 - Introduction to Transportation Engineering - 3cr.
- CEE3430 - Engineering Hydrology - 3cr.
- CEE3300 - Engineering Soil Mechanics - cr.

Technical Elective Courses (20 credits required)

A GPA of 2.0 or higher must be maintained in all upper-division engineering/math/science courses required for, or used as technical electives in, this major.

Students must take 20 credits (not previously taken to fulfill other degree requirements) from the following list:

Earn at least 20 credits from the following:

- CEE3080 - Design of Reinforced Concrete Structures - 3cr.
- CEE3330 - Ancient and Modern Civil Engineering in Italy and France - 3cr.
- CEE3510 - Civil and Environmental Engineering Hydraulics - 3cr.
- CEE3640 - Drinking Water Engineering - 3cr.
- CEE3650 - Wastewater Engineering - 3cr.
- CEE3670 - Transport Phenomena in Bio-Environmental Systems - 3cr.
- CEE3780 - Solid and Hazardous Waste Management - 3cr.
- CEE5003 - Remote Sensing of Land Surfaces - 3cr.
- CEE5005 - Design and Evaluation of Gravity Irrigation Systems - 3cr.

- CEE5006 - Agricultural Water Management - 3cr.
- CEE5008 - Management of Irrigation Systems - 3cr.
- CEE5010 - Matrix Analysis/Finite Element - 3cr.
- CEE5015 - Structural Design Loads - 3cr.
- CEE5050 - Design of Wood and Masonry Structures - 3cr.
- CEE5060 - Mechanics of Composite Materials - 3cr.
- CEE5070 - Structural Steel Design - 3cr.
- CEE5190 - Geographic Information Systems for Civil Engineers - 3cr.
- CEE5220 - Traffic Operations and Management - 3cr.
- CEE5230 - Geometric Design of Highways - 3cr.
- CEE5240 - Transportation Planning - 3cr.
- CEE5255 - Transportation Safety - 3cr.
- CEE5350 - Foundation Analysis and Design - 3cr.
- CEE5380 - Earthquake Engineering - 3cr. (Inactive)
- CEE5410 - Engineering Systems Analysis - 3cr.
- CEE5430 - Groundwater Engineering - 3cr.
- CEE5470 - Sedimentation Engineering - 3cr.
- CEE5490 - Integrated River Basin/Watershed Planning and Management - 3cr.
- CEE5500 - Open Channel Hydraulics - 3cr.
- CEE5540 - Hydraulic Structures Design - 3cr.
- CEE5550 - Hydraulics of Closed Conduits - 3cr.
- CEE5655 - Green Stormwater Infrastructure - 3cr.
- CEE5750 - Air Quality Measurements - 2cr.
- CEE5830 - Management and Utilization of Biological Solids and Wastewater - 3cr.
- CEE5860 - Air Quality Management - 3cr.
- CEE5880 - Remediation Engineering - 3cr.
- CEE5930 - Independent Study - 1cr.

Registration for CEE5930 INDEPENDENT STUDY must be approved on a case-specific basis

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

*Please note: ENGL1010 WRITING AS INQUIRY (CL1) is required by USU but is not included in the degree map because most engineering students satisfy this requirement through an ACT English score, an SAT Critical Reading score, Advanced Placement (AP) Examinations or College-Level Examination Program (CLEP).

Passing the Fundamentals of Engineering Exam is part of the degree requirements. It is highly recommended students take the exam before the fall semester of their senior year.

Criminal Justice - Minor

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree
The degree requires students have a substantial understanding of the criminal justice system in general. It reflects the realities and concerns of society and draws from a wide variety of academic disciplines such as political science, psychology, history and sociology.

Program Requirements

Total Credits Required In Program Coursework
15

Total Credits Required To Earn This Credential
15

Simple Requisites

Program Requirements

Students must have a GPA of 2.5 or higher USU and Overall to declare for this Minor.

Students must have a GPA of 2.5 or higher in Criminal Justice courses and an overall GPA of 2.0 or higher and overall USU GPA of 2.0 in order to graduate.

Criminal Justice courses over 10 years old do not count toward the minor requirement. 50% of classes need to be taken at USU. Classes taken P/F and earning a "P" grade cannot be counted toward the major without special permission. You must earn a grade of "C" or better in CJ1010 INTRO TO CRIMINAL JUSTICE(BSS), and a "C-" or better in all other courses to be counted toward the degree.

Secion 1

Type
Completion Requirement

Required Courses (9 credits)

Complete ALL of the following Courses:

- CJ1010 - Introduction to Criminal Justice (BSS) - 3cr.
- CJ1300 - Introduction to Corrections - 3cr.
  OR CJ1330 - Criminal Law - 3cr.
  OR CJ1390 - Introduction to Policing - 3cr.
- SOC3420 - Criminology - 3cr.

Required Course (3 credits)

Complete at least 1 of the following courses:

- CJ1030 - Introduction to Firearms Handling/Safety - 3cr.
- CJ1060 - POST Certification: Special Function Officer (SFO) - 8cr.
- CJ1070 - POST Certification: Basic Corrections Officer (BCO) - 5cr.
- CJ1080 - POST Certification: Law Enforcement Officer (LEO) - 12cr.
- CJ1300 - Introduction to Corrections - 3cr.
- CJ1330 - Criminal Law - 3cr.
- CJ1340 - Criminal Investigations - 3cr.
- CJ1350 - Introduction to Forensic Science - 3cr.
- CJ1355 - Crime Scene Processing - 3cr.
- CJ1390 - Introduction to Policing - 3cr.

- CJ2110 - Managing Security: Threats, Risk, and Leadership - 3cr.
- CJ2330 - Juvenile Justice - 3cr.
- CJ2350 - Laws of Evidence - 3cr.
- CJ2360 - Juvenile Law and Procedures - 3cr.
- CJ2370 - Child Abuse and Neglect - 3cr.
- CJ3110 - School Resource Officer: Safety and Crime Prevention in an Educational Setting - 3cr.
- CJ3150 - Moot Court - 3cr.
- CJ3320 - Criminal Procedure - 3cr.
- CJ3370 - Gender-Based Violence - 3cr.
- CJ3400 - Tribal Criminal Justice Systems - 3cr.
- CJ4200 - Criminal Justice Ethics - 3cr.
- CJ4310 - Corrections Law & Inmate Rights - 3cr.
- CJ4350 - Courtroom Communication (CI) - 3cr.
- CJ4440 - The Origins of the United States Criminal Justice System (DSS) - 3cr.
- CJ4450 - Foundations of Leadership - 3cr.
- CJ4460 - Advanced Leadership Skills - 3cr.
- CJ4470 - Specialized Leadership Project - 3cr.
- CJ4480 - Executive Leadership - 3cr.
- CJ4770 - Criminal Justice Field Education and Experience - 3cr.

Required Course (3 credits)

Complete at least 1 of the following courses:

- SOC3410 - Juvenile Delinquency - 3cr.
- SOC3430 - Social Deviance (DSS) - 3cr.
- SOC3520 - Sociology of Mental Illness - 3cr.
- SOC4410 - Race and Crime (CI) - 3cr.
- SOC4420 - Law and Society (CI) - 3cr.

Criminal Justice - BA, BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	School of Social Sciences	Undergraduate

About this Degree

Criminal justice is the structure of laws involving the three components of the system: law enforcement, courts, and corrections. It involves the procedures created to maintain social order, control crime, and direct justice to those who violate these laws. It encompasses a wide range of activities that relate to detection, apprehension, prosecution, and punishment of law violators. These systems can vary from location to location and can even differ within one state. However, the overall goal is to balance the interest of justice, public safety and the rights of the accused.

Students will gain the knowledge and skills needed to pursue a career in criminal justice and related fields, such as law enforcement, probation and parole, corrections, paralegal, pre-law, juvenile probation/detention, court clerk, forensics (CSI), or private investigator.

- For more information about Criminal Justice, see the Criminal Justice Program website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT1040 INTRO TO STATISTICS (QL) or MATH1030 QUANTITATIVE REASONING (QL) or STAT1080 FOUNDATIONS OF DATA SCI (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL) to fulfill the General Education Requirements Quantitative Literacy (QL) requirement.

Admission Requirements for this Program

- New Freshmen must have a minimum GPA for Admission: 2.50-Overall; 2.50-USU
- Additional Matriculation Requirement for new freshmen: Complete CJ1010 INTRO TO CRIMINAL JUSTICE(BSS), with a minimum grade of C or better and at least one other CJ-prefix class with a grade of C- or better
- Transfer students from other institutions or other programs at USU must have a 2.50 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
74-77	120

Simple Requisites

Program Requirements

Major Requirements (74-77 credits)

- Minimum GPA for Graduation: 2.50-major requirements; 2.0-USU; 2.0-Overall GPA.
- Minimum Grade Accepted: C in CJ1010 INTRO TO CRIMINAL JUSTICE(BSS); C- in major courses.
- Classes taken P/F and earning a "P" grade cannot be counted toward the major without special permission.

Criminal Justice majors must meet the requirements listed below.

Bachelor of Science Degree

Students desiring a Bachelor of Science (BS) degree must complete all requirements listed in the sample four-year plan.

Bachelor of Arts Degree

In addition to completion of the requirements for a bachelor's degree, a Bachelor of Arts (BA) degree signifies proficiency in one or more foreign languages. Please see Minimum University Requirements (Bachelor's Degree) for more information about the language requirements.

More Information:

- New Freshmen must have a minimum GPA for Graduation: 2.5, major; 2.0, USU; 2.0, Overall.
- Minimum Grade Accepted for New Freshmen: C in CJ1010 INTRO TO CRIMINAL JUSTICE(BSS); C- in major courses.

A minor outside the program is encouraged but not required.

Criminal Justice - BA, BS

Type

Completion Requirement

Complete the general requirements of the University

Majors are expected to take one of the following courses with a minimum grade of C- or equivalent to fulfill the Quantitative Literacy (QL) General Education Requirements.

Complete at least 1 of the following courses:

- MATH1030 - Quantitative Reasoning (QL) - 3cr.
  OR MATH1050 - College Algebra (QL) - 4cr.
  OR MATH1060 - Trigonometry - 2cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT1080 - Foundations of Data Science (QL) - 3cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT2300 - Business Statistics (QL) - 4cr.

Criminal Justice Coursework (36 credits)

Complete a minimum of 36 credits in Criminal Justice coursework. At least fifty percent of the criminal justice coursework must be completed in the USU Criminal Justice program. Criminal Justice majors must maintain a minimum GPA of 2.5 in Criminal Justice courses and earn a grade of C or better in CJ1010 INTRO TO CRIMINAL JUSTICE(BSS) and a C- or better in all other courses to be counted toward the major. Criminal Justice courses over 10 years old do not count toward the major requirement.

Fulfill ALL of the following requirements:

Required Courses (27 credits)

Complete ALL of the following Courses:

- ANTH3200 - Perspectives on Race (DSS/CI) - 3cr.
  OR SOC4410 - Race and Crime (CI) - 3cr.
- CJ1010 - Introduction to Criminal Justice (BSS) - 3cr.
- CJ1300 - Introduction to Corrections - 3cr.
- CJ1330 - Criminal Law - 3cr.
- CJ1390 - Introduction to Policing - 3cr.
- CJ4200 - Criminal Justice Ethics - 3cr.
- SOC3110 - Methods of Social Research (CI) - 3cr.
- SOC3120 - Social Statistics I (QI) - 3cr.
- SOC3420 - Criminology - 3cr.

AND

Criminal Justice Elective courses (9 credits)

Earn at least 9 credits from the following:

- ANTH1010 - Cultural Anthropology (BSS) - 3cr.
- ANTH1090 - Introduction to Interfaith Leadership (BHU) - 3cr.
- CJ1030 - Introduction to Firearms Handling/Safety - 3cr.
- CJ1060 - POST Certification: Special Function Officer (SFO) - 8cr.
- CJ1070 - POST Certification: Basic Corrections Officer (BCO) - 5cr.
- CJ1080 - POST Certification: Law Enforcement Officer (LEO) - 12cr.
- CJ1340 - Criminal Investigations - 3cr.
- CJ1350 - Introduction to Forensic Science - 3cr.
- CJ2110 - Managing Security: Threats, Risk, and Leadership - 3cr.
- CJ2330 - Juvenile Justice - 3cr.
- CJ2350 - Laws of Evidence - 3cr.
- CJ2360 - Juvenile Law and Procedures - 3cr.
- CJ2370 - Child Abuse and Neglect - 3cr.
- CJ3110 - School Resource Officer: Safety and Crime Prevention in an Educational Setting - 3cr.
- CJ3150 - Moot Court - 3cr.
- CJ3320 - Criminal Procedure - 3cr.
- CJ3370 - Gender-Based Violence - 3cr.
  OR SOC3370 - Gender-Based Violence - 3cr.
- CJ3400 - Tribal Criminal Justice Systems - 3cr.
- CJ3440 - Victimology - 3cr.
- CJ4310 - Corrections Law & Inmate Rights - 3cr.
- CJ4350 - Courtroom Communication (CI) - 3cr.
- CJ4440 - The Origins of the United States Criminal Justice System (DSS) - 3cr.
- CJ4770 - Criminal Justice Field Education and Experience - 3cr.
- CJ4900 - CJ Capstone Experience - 1cr.
- SOC1010 - Introductory Sociology (BSS) - 3cr.
- SOC1020 - Social Problems (BSS) - 3cr.
- SOC2630 - Sociology of Race and Ethnicity (BSS) - 3cr.
- SOC2650 - Globalization and International Development (BSS) - 3cr.
- SOC3010 - Social Inequality (DSS) - 3cr.
- SOC3400 - Tribal Criminal Justice Systems - 3cr.
- SOC3410 - Juvenile Delinquency - 3cr.
- SOC3430 - Social Deviance (DSS) - 3cr.
- SOC3520 - Sociology of Mental Illness - 3cr.
- SOC4420 - Law and Society (CI) - 3cr.
- WILD4550 - Wildlife Law Enforcement - 3cr.

Open Electives

Complete the following;
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Climate Change and Energy - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Undergraduate

Program Requirements

Total Credits Required In Program Coursework
15

Total Credits Required To Earn This Credential
15

Simple Requisites

Program Requirements

To graduate with the Climate Change and Energy minor, a minimum GPA of 2.5 is required in minor coursework.

Section 1

Type
Completion Requirement

The following three courses are required:

Complete ALL of the following Courses:

- GEO1360 - Planet Earth (BPS) - 3cr.
- GEO3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr. **OR** PHYS3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr.
- PSC4820 - Challenges in Climate Change and Energy - 3cr.

Section 2

Type
Completion Requirement

In addition to completing these required courses, students must select one course from each of the following two categories:

Fulfill ALL of the following requirements:

Climate Science

Complete at least 1 of the following courses:

- PSC5760 - Climate and Climate Change (DSC)(QI) - 3cr.
- PSC5680 - Paleoclimatology - 3cr.
- WATS5680 - Paleoclimatology - 3cr.

AND

Socioeconomic

Complete at least 1 of the following courses:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.

Classics: Emphasis in Civilization - Minor

Program Overview

College	Department	Program Level
College of Arts & Sciences	History, Cultures & Ideas	Undergraduate

About this Degree

Coordination: Frances B. Titchener, Department of History
Location: Main 323
Phone: (435) 797-1290
FAX: (435) 797-3899
E-mail: mark.damen@usu.edu, susan.o.shapiro@usu.edu, frances.titchener@usu.edu
Website: history.usu.edu/classics

An academic minor is available in the field of Classical Studies with four areas of emphasis: **Classical Civilization**, **Latin Language**, **Greek Language**, and **Latin Teaching**. From the ancient civilizations of the Mediterranean area are derived our government, literature, sciences, and laws. The classical world is the backdrop of the modern world. In association with various majors, all the Classics minors are designed to enhance intellectual abilities and practical skills.

Program Requirements

Total Credits Required To Earn This Credential

19

Simple Requisites

Program Requirements

A minimum grade of C+ is required for all courses counting toward the Classics minor. A minimum GPA of 2.5 is required in minor coursework. Minor courses may *not* be taken for a pass/fail grade.

Section 1

Type
Completion Requirement

Required Courses (6 credits)

Earn a minimum grade of C+ in the following:

- HIST3130 - Greek History (DHA/CI) - 3cr.
- HIST3150 - Roman History (CI) - 3cr.

Section 2

Type
Completion Requirement

Electives (13 credits)

Earn at least 13 credits from the following:

- ANTH1030 - World Archaeology (BSS) - 3cr.
- ARTH3610 - Classical Art History: Greece and Rome (CI) - 3cr.
- GRK1010 - Beginning Ancient Greek I - 5cr.
- GRK1020 - Beginning Ancient Greek II - 5cr.
- HIST1120 - Building English Vocabulary: The Latin and Greek Element in English - 3cr.
- HIST3110 - Ancient Near East (DHA/CI) - 3cr.
- HIST3160 - Classical Drama and Society - 3cr.
- HIST3170 - Descent and Return: Ancient Views of Hades and the Afterlife - 3cr.
- HIST3210 - Classical Mythology - 3cr.
- HIST4350 - Greek Intellectual History - 3cr.
- LATN1010 - Beginning Latin I - 5cr.
- LATN1020 - Beginning Latin II - 5cr.
- PHIL3010 - Survey of Ancient and Medieval Philosophy (CI) - 3cr.
- POLS4310 - History of Political Thought I (CI) - 3cr.

Additional Comments:

NOTE:

Requirement Changes: Graduation requirements shown on this sheet are subject to change. Students should check with their assigned advisor concerning possible changes.

Materials for Persons with Disabilities: This requirement sheet is available in digital format, recordings, or large print upon request to the USU Disability Resource Center.

Climate Change Solutions - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Undergraduate

About this Degree

The Climate Change Solutions Certificate prepares undergraduate students from across the University to contribute to addressing climate change. The certificate curriculum focuses on developing knowledge and skills for climate change mitigation, adaptation and resilience. It is designed to be easily completed alongside a variety of majors. Students pursuing this certificate will learn about climate change impacts, climate and environmental justice, communicating about climate change, strategies for mitigating greenhouse gas emissions, and adaptation and resilience responses and planning. Students also will learn about climate policy and the role of governments, businesses, civil society, and individuals in addressing climate change at local to global scales.

The certificate uses the concept of solutions in line with usage by the Intergovernmental Panel on Climate Change. Climate change solutions refers to responses to climate change that emphasize effectiveness, feasibility, and just means to reduce climate risk and increase resilience (IPCC). This certificate is designed to prepare students to engage in a wide-range of response actions to help transition organizations and businesses, communities, and societies to reduce risk and enhance resilience. Certificate recipients are prepared to help lead climate change solutions from within a full range of other careers. They are prepared to work for the private for-profit sector, government agencies, NGOs, and international organizations.

Students can combine coursework with hands-on research and projects related to climate change mitigation and adaptation. This could involve fieldwork, data analysis, and modeling, as well as engagement with stakeholders and communities affected by climate change. Students are encouraged to review opportunities through USU's Climate Adaptation Intern Program (https://qanr.usu.edu/research/caip/).

Admission Requirements for this Program

Students should make an appointment with an academic advisor in the S. J. and Jessie E. Quinney College of Agriculture and Natural Resources to add this certificate: https://qanr.usu.edu/advising/.

Program Requirements

Total Credits Required In Program Coursework
16

Total Credits Required To Earn This Credential
16

Simple Requisites

Program Requirements

To receive the certificate, a student must complete the following set of requirements:

- Register for and successfully complete at least 16 credits.
- Grades below C- will not be accepted, and the grade point average for all courses with ENVS, GEOG, WATS, and WILD prefixes must be 2.5 or higher.
- Abide by the Code of Policies and Procedures for Students at Utah State University.

Climate Change Solutions Certificate Requirements

Type
Completion Requirement

A. Knowledge Foundations (6 credits)

Take the following two courses for foundational knowledge for socio-environmental systems thinking.

Complete ALL of the following Courses:

- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- ENVS5750 - Global Change Ecology - 3cr.

B. Climate Change Solutions Theory-Application (6 credits)

Select two courses from this list. Other courses may be accepted with program review and approval.

Complete at least 2 of the following courses:

- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- ENVS4030 - Building Community Environmental Resilience - 3cr.
- ENVS4200 - Sustainability Metrics - 3cr.
- ENVS5020 - Human Dimensions of Fire Management - 3cr.
- GEOG5400 - Natural Hazards and Society - 3cr.
- SOC3300 - Sociology of Climate Change - 3cr.

C. Affiliated Knowledge and Communication (3 credits)

Select one course from this list. Other courses may be accepted with program review and approval.

Complete at least 2 of the following courses:

- CCA3070 - Unveiling the Anthropocene (DSC/QI) - 3cr.
- CMST4260 - Environmental Communication - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS4700 - Communicating Sustainability (CI) - 3cr.
- ENVS5350 - Ecological Economics - 3cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- PSC2700 - Climate Change Impacts (BPS) - 3cr.
- PSC5760 - Climate and Climate Change (DSC)(QI) - 3cr.
- SOC3310 - Environmental Justice - 3cr.

D. Analytical Skills (1-3 credits)

Select one course from this list or as approved. Other courses may be accepted with program review and approval.

Complete at least 1 of the following courses:

- ENVS3320 - Archaeology of Climate Change (DSS) - 3cr.
- ENVS3500 - Environmental Data Science (QI) - 3cr.
- ENVS5100 - Introduction to Modeling Human-Environment Systems - 3cr.
- GEO3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr.
- GEO3800 - Applied Geoscience Techniques - 3cr.
- PSC5123 - Climate Data Analysis - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WILD2800 - Introduction to Geographic Information Sciences - 4cr.
- ENVS4250 - Advanced Internship/Co-op - 1cr.
- GEOG4920 - GIS Internship - 1cr.
- WATS4100 - Climate Adaptation Intern Program - 3cr.
- WILD4250 - Advanced Internship/Co-op - 1cr.
- ENVS4970 - Undergraduate Research - 1cr.
- WILD4970 - Undergraduate Research - 1cr.

Undergraduate Research and Internship courses above must be have a climate mitigation and/or adaptation focus.

Medical Assistant - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree
Medical assistants are multi-skilled, allied health care professionals responsible for various clinical and/or administrative duties and are an essential part of a healthcare team. This program is designed to prepare students for entry-level positions that will allow them to learn and move into higher-level job opportunities by working with physicians and providers in office settings. Students in this program learn cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains by focusing on administrative and back office clinical skills. Upon successful completion of all required courses, students participate in an externship in a medical office. Graduates of the program are eligible to take a national certification exam.

National Certification and Examination
After successful completion of the required coursework, students may sit for the Registered Medical Assistant (RMA) through American Medical Technologists (AMT)

Examination applications and practice exams are available at:

http://www.americanmedtech.org/default.aspx

Admission Requirements for this Program
Additional Application Process Required - See below, speak with advisor for details

1. Meet programmatic admission requirements
2. Maintain a 2.67 GPA throughout program

Personal Documentation Requirements:

- Pass background check and drug screen
- Provide documentation of Immunizations

  Physical Demands:

  - Stand or sit for 10 hours per day
  - Push and pull 50 pounds
  - Lift and support 25 pounds
  - Move within confined spaces
  - Manipulate suture as fine as human with/without glasses or contacts.
  - Effective verbal communication in English without visual clues
  - Hear normal speaking level sounds
  - Hear in situations when not able to see lips (when masks are used)
  - Communicate verbally with others

Program Requirements

Program Requirements

Medical Assistant Course Requirements

Type
Completion Requirement

The following courses are required prior to admittance into the Medical Assistant Program:

Complete ALL of the following Courses:

- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- HEAL2020 - Emergency First Response - 3cr.
- TENA1100 - Nursing Assistant - 3cr.

Health Professions Math Prerequisite Options

Students must complete one of the following courses:

Complete ALL of the following Courses:

- MATH1050 - College Algebra (QL) - 4cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
- STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.

The following courses are required for the Certificate of Completion in Medical Assistant:

Fulfill ALL of the following requirements:

Semester 1

Complete ALL of the following Courses:

- HEAL1008 - Medical Terminology - 2cr.
- HEAL1030 - Medical Assistant: Administrative Competencies - 4cr.
- HEAL1035 - Medical Assistant: Administrative Competencies Lab - 3cr.
- HEAL1500 - Anatomy and Physiology (BLS) - 4cr.
- HEAL1700 - Medical Assistant Externship I - 1cr.
- TEPH1010 - Phlebotomy I - 2cr.
- TEPH1020 - Phlebotomy II - 1cr.

AND

Semester Two

Complete at least 1 of the following courses:

- HEAL1600 - Medical Assistant: Clinical Competencies - 6cr.
- HEAL1701 - Medical Assistant Externship II - 3cr.
- HEAL1900 - Diseases of the Human Body - 3cr.
- TEPT1320 - Pharmacology - 3cr.

AND

Medical Assistant Clinical Competencies Lab

The Medical Assistant Clinical Competencies Lab course was embedded in the Medical Assistant Clinical Competencies Course which was 6 credits total. We are separating the course into the didactic portion (MA Clinical Competencies-4 credits) and the lab portion (MA Clinical Competencies Lab-3 credits) which adds one more credit to the lab which is needed to teach the required skills per national standards

Program Learning Outcomes

Program Learning Outcomes

- Demonstrate competent patient care of a medical assistant in ambulatory healthcare facilities.
- Exhibit basic skills of a medical assistant including obtaining vital signs, phlebotomy, pharmacology, EKG, and assisting providers with specialty examinations.
- Perform accurate medical documentation, patient education instruction, communication, and apply critical thinking skills in both simulated and clinical settings.
- Describe the areas of general, clinical, and administrative medical assisting.
- Demonstrate competencies and skills in preparation for taking a medical assistant national certification examination.

Climate Science - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Undergraduate

About this Degree

Students learn the natural laws that determine the climate through the study of meteorology, climatology, environmental physics, and oceanography. The Climate Science Degree helps students gain a complete understanding of climate including how atmosphere, water, land surface, and ecosystems affect each other. Students also investigate the behavior of weather and climate and the obstacles of climate prediction.

- For more information about Climate Science, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2250 LINEAR ALG/DIFF EQUATIONS (QI)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.75 GPA

Type
Completion Requirement

Required Courses (78-79 credits)

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- GEO1110 - Physical Geology (BPS) - 3cr.
- GEO1115 - Physical Geology Laboratory - 1cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PSC2000 - The Atmosphere and Weather (BPS) - 3cr.
- PSC2710 - General Meteorology - 3cr.
- PSC4740 - Climate Practicum - 4cr.
- PSC4900 - Special Problems - 1cr.
- PSC5123 - Climate Data Analysis - 3cr.
- PSC5410 - Hydroclimate - 3cr.
- PSC5500 - Environmental Physics of Land Ecosystems & Climate - 3cr.
- PSC5760 - Climate and Climate Change (DSC)(QI) - 3cr.
- PSC5880 - Earth System Science - 3cr.
- PSC5830 - Atmospheric Instrumentation and Operation - 3cr.
  OR PSC5000 - Environmental Instrumentation - 2cr.
- PSC5840 - Atmospheric Dynamics - 3cr.
- PSC5850 - Physical Climatology - 3cr.
- PSC5860 - Atmospheric Thermodynamics - 3cr.
- PSC5875 - Synoptic Meteorology - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
- WATS3000 - Oceanography (DSC) - 3cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

Students will need to register for PSC 4900 - Special Problems: Climate Recitation

Communications Literacy

Complete at least 1 course in the following course sets:

- Communications Literacy (CL1) Course
- Communications Literacy (CL2) Course

Elective Courses (7 credits)

Earn at least 7 credits from the following:

- APEC5560 - Natural Resource and Environmental Economics - 3cr.
- CEE3430 - Engineering Hydrology - 3cr.
- CEE3610 - Environmental Management - 3cr.
- CS3430 - Scientific Computing (DSC/QI) - 3cr.
- ECON3550 - Law and Economics - 3cr.
- ENVS3600 - Living with Wildlife (DSC) - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- GEO2200 - The Earth Through Time - 3cr.
- GEO3300 - Geology of the World's Oceans (DSC) - 3cr.
- POLS4820 - Natural Resources and Environmental Policy: Political Economy of Environmental Quality (DSS) - 3cr.
- PSC2040 - Aviation Meteorology (BPS) - 3cr.
- PSC2700 - Climate Change Impacts (BPS) - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC3600 - An Introduction to Plant Breeding and Heredity - 3cr.
- PSC3800 - Fundamentals of Organic Agriculture - 3cr.
- PSC4280 - Field and Food Cropping Systems - 3cr.
- PSC4320 - Forage Production and Pasture Management - 3cr.
- PSC5003 - Remote Sensing of Land Surfaces - 3cr.
- PSC5130 - Soil Genesis, Morphology, and Classification - 4cr.
- PSC5670 - Environmental Soil Physics - 4cr.
- PSC5680 - Paleoclimatology - 3cr.
  OR GEO5680 - Paleoclimatology - 3cr.
- WATS5490 - Small Watershed Hydrology (QI) - 4cr.
- WATS5530 - Water Quality and Pollution - 3cr.
- WILD4000 - Principles of Rangeland Management - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Conflict Management and Facilitation - Certificate

Program Overview

College
College of Arts & Sciences

Department
Communication & Media

Program Level
Undergraduate

About this Degree

This certificate is an opportunity for students who are interested in understanding the roots and impact of interpersonal conflict and developing skills to manage and facilitate conflict resolution. These skills are relevant in personal relationships as well as in nearly all professional settings. The program is designed with an interdisciplinary approach to serve students from a variety of majors and colleges throughout the university.

This certificate is available at all USU campus locations, either in-person or online.

Program Requirements

Total Credits Required In Program Coursework
18

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

Courses may not be taken on a pass/fail basis except for those courses which are only taught pass/fail.

Conflict Management and Facilitation - Certificate

Type
Completion Requirement

Required Courses (9 credits)

Complete ALL of the following Courses:

- CMST2110 - Interpersonal Communication (BHU) - 3cr.
- CMST3600 - Communication and Conflict - 3cr.
- CMST5600 - Advanced Communication and Conflict - 3cr.

Electives (9 credits)

9 credits of elective courses must be selected from the provided options. Courses are sorted by topical group, but may be chosen from multiple areas.

Fulfill ANY of the following requirements:

Negotiation and Persuasion

Complete ANY of the following Courses:

- CMST3400 - Persuasion - 3cr.
- CMST5400 - Advanced Persuasion - 3cr.
- MGT4600 - Negotiations - 2cr.
- POLS4410 - International Negotiations - 3cr.

OR

Societal Conflict

Complete ANY of the following Courses:

- CMST3160 - Gender Communication - 3cr.
- CMST4260 - Environmental Communication - 3cr.
- CMST4700 - Health Communication (CI) - 3cr.

- HIST3340 - Holocaust History and Memory (DHA) - 3cr.
- HIST4540 - Gender, Violence, and Non-violence - 3cr.
- HIST4720 - The Civil Rights Movement (DHA/CI) - 3cr.
- PHIL1120 - Social Ethics (BHU) - 3cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.
- PHIL3820 - Theories of Sex and Gender (DHA) - 3cr.
- POLS4220 - Ethnic Conflict and Cooperation (CI/DSS) - 3cr.
- PSY3510 - Social Psychology (DSS) - 3cr.
- PSY3700 - Mental Health Advocacy and Awareness - 3cr.
- PSY4230 - Psychology of Gender (DSS) - 3cr.
- SOC2630 - Sociology of Race and Ethnicity (BSS) - 3cr.
- SOC3010 - Social Inequality (DSS) - 3cr.
- SOC3340 - Activism, Protest, and Social Movements (DSS) - 3cr.
- SOC4350 - People, Power, and the Political - 3cr.
- SOC4640 - Managing Community Conflict (CI) - 3cr.
- SW1010 - Introduction to Social Welfare (BSS) - 3cr.
- SW2100 - Human Behavior in the Social Environment - 3cr.
- SW2400 - Social Work with Diverse Populations - 3cr.

OR

Intercultural/Global

Complete ANY of the following Courses:

- CMST3270 - Culture and Public Discourse (DHA) - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.
- CMST4270 - Communication, Culture, and Power - 3cr.
- HDFS3210 - Families and Cultural Diversity (CI) - 3cr.
- LING3100 - Language in Social Context - 3cr.
- POLS3100 - Global Issues: Non-Democratic Politics - 3cr.
- PSY4240 - Multicultural Psychology (DSS) - 3cr.
- SPAN3061 - Fundamentals of Translation and Interpretation - 3cr.
- SPAN3081 - Healthcare Translation - 3cr.
- SPAN3082 - Legal and Business Translation - 3cr.

OR

Interfaith Bridgebuilding

Complete ANY of the following Courses:

- ANTH1090 - Introduction to Interfaith Leadership (BHU) - 3cr.
- RELS1090 - Introduction to Interfaith Leadership (BHU) - 3cr.
- ANTH3165 - Bridging Religious Difference in Theory and Practice: an Introduction to Interfaith Leadership - 3cr.
- ANTH5195 - Interfaith Leadership Practicum Experience - 3cr.
- RELS3165 - Bridging Religious Difference in Theory and Practice: an Introduction to Interfaith Leadership - 3cr.
- RELS5195 - Interfaith Leadership Practicum Experience - 3cr.

OR

Peace Building

Complete ANY of the following Courses:

- CMST4200 - Language, Thought, and Action (CI/DSS) - 3cr.
- HIST4825 - Historical Roots of the War on Terror (DHA) - 3cr.
- PHIL2400 - Ethics (BHU) - 3cr.
- PI2010 - Introduction to Peace Building and Transformative Conflict (BHU) - 3cr.
- PI4910 - Special Studies in Heravi Peace Institute - 1cr.
- PI4940 - Peacebuilding Internship - 1cr.
- RELS1070 - Religion, Violence, and Peace (BHU) - 3cr.

OR

Relational/Organizational

Complete ANY of the following Courses:

- CMST2810 - Communicating Emotions - 3cr.
- CMST3120 - Communication in Family Contexts - 3cr.
- CMST3250 - Organizational Communication (CI) - 3cr.
- CMST3280 - Organizations and Social Change - 3cr.
- CMST3610 - Communication Studies Teaching Practicum - Conflict - 1cr.
- CMST5000 - Studies in Communication Studies - 1cr.
- CMST5110 - Advanced Interpersonal Communication - 3cr.
- CMST5500 - Communication and Leadership - 3cr.
- CHSS4250 - Advanced Internship/Co-op - 1cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.
- HDFS3700 - Mental Health Advocacy and Awareness - 3cr.
- HDFS4220 - Family Crises and Interventions - 3cr.
- HEP3400 - Stress Management - 3cr.
- MGT3100 - Organizational Behavior - 2cr.
- MGT3250 - Managing Human Capital - 3cr.
- PSY3120 - Abuse, Neglect, and the Psychological Dimensions of Intimate Violence (DSS) - 3cr.
- SW3360 - Adolescents: Theories, Problems, and Issues - 3cr.
- SW4925 - Resilience and Human Flourishing - 3cr.
- PI3110 - Transformative Mediation - 3cr.
- RELS3110 - Transformative Mediation - 3cr.
- SW3850 - Spirituality and Social Work - 3cr.
- SW5580 - Grief and Loss in Social Work Practice - 3cr.

NOTE:

1. CMST5000 STUDIES IN CMST - May count by approval only.
2. CHSS4250 ADV INTERNSHIP/COOP - May count by approval only.

Composite Materials and Structures - Post-Bachelor's Certificate

Program Overview

College
College of Engineering

Department
Mechanical & Aerospace Engineering

Program Level
Graduate

About this Degree

This certificate program supports our local and state-wide industry partners who make and use composite materials by providing an additional path for working professionals and students to gain increased understanding and skills in this vital area. This certification program also provides a stepping stone for recipients to enter our Composite Materials and Structures - MS program with four of the 11 courses completed.

Composite Materials and Structures - MS

Program Overview

College
College of Engineering

Department
Mechanical & Aerospace Engineering

Program Level
Graduate

About this Degree

The Department of Mechanical and Aerospace Engineering provides each graduate with a foundation of knowledge and experience upon which to build successful careers in mechanical engineering, aerospace engineering, composite materials and structures, or space systems engineering.

Composite Materials and Structures MS is directed at providing students and industry professionals the opportunity to become familiar with how composite materials are used in several areas of engineering research and design across multiple industries. Graduates will develop the ability to better understand the applicability of these materials in improving and advancing product design. Surveys of the materials, processes and design methods associated with composite materials will be given as well as the scientific principles involved. In-depth understanding of the critical manufacturing processes, the testing of constituent and composite materials, and the structural analyses of these complex systems will be taught.

Admission Requirements for this Program

- Official transcript indicating a bachelor's degree in an accredited U.S. college or universty or a similarly recognized international university in mechanical or aerospace engineering, or a closely related engineering discipline
- GPA of 3.3
- GRE scores are used by some faculty in choosing students and in funding decisions and are therefore strongly encouraged
- 3 letters of recommendation
- International students-proof of English proficiency (TOEFL or IELTS)

Program Requirements

Total Credits Required In Program Coursework
30-33

Total Credits Required To Earn This Credential
30-33

Simple Requisites

Program Requirements

- Must maintain a minimum 3.0 GPA
- A cumulative GPA of 3.0 is required for graduation
- Grades of C- or lower are not permitted on the program of study
- All graduate students must submit School of Graduate Studies forms and requirements for their chosen plan
- A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated

The Plan A Thesis requires 30 credits (minimum):

- 15 credits of Composite core courses

- 9 credits of approved MAE technical electives
- Minimum of 6 credits of thesis research
- A maximum of 15 thesis credits applied toward a Program of Study
- No more than 12 credits of approved 5000-level courses
- Credits in the following areas are not acceptable: foreign languages, continuing graduate advisement, individual home study, military science, thesis research, and courses numbered below 3000
- A thesis proposal and formal thesis defense are required. The thesis must meet School of Graduate Studies and MAE Department requirements
- Successful defense and submission of the thesis to the library
- In-person attendance at 6 MAE Research Seminar Series presentations before graduating
- Approval of academic forms required for master's students by the School of Graduate Studies
    - Supervisory Committee
    - Program of Study
    - Thesis Proposal Approval
    - Appointment for Examination
    - Record of Examination
    - SGS and library review and approval

The Plan B Report requires 30 credits (minimum):

- 15 credits of Composite core courses
- 12 credits of approved MAE technical electives
- 3 credits of project research
- No more than 12 credits of approved 5000-level courses
- Credits in the following areas are not acceptable: foreign languages, continuing graduate advisement, individual home study, military science, thesis research, and courses numbered below 3000
- A thesis project proposal and formal report defense are required. The report must meet School of Graduate Studies and MAE Department requirements
- Successful defense and submission of the project to the library
- In-person attendance at 6 MAE Research Seminar Series presentations before graduating
- Approval of academic forms required for master's students by the School of Graduate Studies
    - Supervisory Committee
    - Program of Study
    - Thesis Project Approval
    - Appointment for Examination
    - Record of Examination
    - Library review and approval

The Plan C Coursework Only requires 33 credits (minimum):

- 15 credits of Composite core courses
- 18 credits of approved MAE technical electives
- No more than 12 credits of approved 5000-level courses
- Credits in the following areas are not acceptable: foreign languages, continuing graduate advisement, individual home study, military science, thesis research, and courses numbered below 3000
- Approval of academic forms required for master's students by the School of Graduate Studies
    - Program of Study

Section 1

Type
Completion Requirement

Required Core Courses:

Complete ALL of the following Courses:

- MAE5050 - Material Science of Composites - 3cr.
- MAE5060 - Mechanics of Composite Materials I - 3cr.
  OR CEE5060 - Mechanics of Composite Materials - 3cr.
- MAE6050 - Manufacturing of Composite Materials and Structures - 3cr.
- MAE6070 - Mechanics of Composite Materials II - 3cr.
  OR CEE6070 - Mechanics of Composite Materials II - 3cr.
- MAE6055 - Testing of Composite Materials - 3cr.

Section 2

Type
Completion Requirement

Approved courses:

Earn at least 18 credits from the following:

- MAE5020 - Finite Element Methods in Solid Mechanics I - 3cr.
- MAE5045 - Adhesion Sciences - 3cr.
- MAE5310 - Control Systems - 4cr.

Computer Engineering - BS

Program Overview

College
College of Engineering

Department
Electrical & Computer Engineering

Program Level
Undergraduate

About this Degree

Computer engineering involves programming software and hardware, building on knowledge of electronics and circuits. A computer engineer designs and builds computers, such as PCs, workstations, and supercomputers, as well as computer-based systems like those found in cars, planes, appliances, electronics, phones, and communication networks.

Computer engineering is different from computer science in that computer science is more concerned with the theoretical understanding of computation and programming. It is also different from electrical engineering in that computer engineering prepares students for more complicated computer engineering positions, while electrical engineering is a broader field. However, both fields include computer programming to a significant degree, and a good electrical foundation is required.

- For more information about Computer Engineering, see the Electrical and Computer Engineering department website.
- The Computer Engineering BS degree program is accredited by the Engineering Accreditation Commission of ABET (http://www.abet.org),under the commission's General Criteria and the Program Criteria for Computer Engineering and Similarly Named Programs.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH5710 INTRO TO PROBABILITY or STAT3000 STATISTICS FOR SCIENTISTS (QI)

Admission Requirements for this Program

New Freshman and Transfer Students (from other institutions or other USU programs)

- Admitted to USU in Good Standing

New Freshman:

- 2.8 High School GPA or higher
- 20 ACT or 1030 SAT or higher

Admission Requirements for the Pre-Professional Program

- Completion of Engineering Foundations courses (listed below)
- MATH1210 CALCULUS I (QL), MATH 1220, CHEM 1210, CHEM 1215, PHYS 2210, PHYS 2215, ENGR 1010, ENGR 1400 completed with a C- or higher
- 2.8 or higher GPA in Engineering Foundations courses

Program Requirements

Computer Engineering - BS Course Requirements

Type
Completion Requirement

Engineering Foundations Courses (25 credits)

- A Cumulative USU GPA of 2.8 or higher is required in Engineering Foundations courses.
- Engineering Foundations courses: Math 1210, Math 1220, ENGR 1010, ENGR 1400, PHYS 2210, PHYS 2215, CHEM 1210, CHEM 1215 require a grade of C- or higher.
- The P/D+, D, F grading option may not be used in required courses completed as part of Engineering Foundations program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- ENGR1010 - Engineering Exploration - 3cr.
- ENGR1400 - Computer Programming for Engineers - 4cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.

Required for Admission to the Professional Program (23 credits)

- A Cumulative USU GPA of 2.8 or higher is required in pre-professional courses, NOT including ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) or ENGL2020 PROFESSNL COMMUNICATION (CL2)
- All courses require a grade of C- or higher.
- The P/D+, D, F grading option may not be used in required courses completed as part of Engineering Foundations or a pre-professional program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- ECE2250 - Electrical Circuits I - 3cr.
- ECE2290 - Electrical Circuits II - 4cr.
- ECE2700 - Digital Circuits - 4cr.
- ECE1410 - Computer Programming for Electrical and Computer Engineers II - 3cr.
- ECE2420 - Algorithms and Data Structures - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.

Computer Engineering Required Courses (35 credits)

For Computer Engineering majors in the professional program the following academic regulations apply, in addition to university regulations:

1. A GPA of 2.0 or higher must be maintained in all upper-division engineering/math/science courses required for, or used as technical electives in, this major. Courses which were part of the pre-professional program requirements and University Studies courses are not included in this GPA calculation.

2. For Computer Engineering, not more than 10 hours of D or D+ credit may be applied toward meeting graduation requirements in engineering/math/science classes.
3. College of Engineering courses may be repeated only once. Audits count as a time taking a class unless prior written approval is obtained from the department head. A maximum of three required or elective courses completed as part of a professional program can be repeated in order to meet graduation requirements. (Courses completed as part of a pre-professional program are not included in this total of three repeats.)
4. The P/D+, D, F grading option may not be used in required or elective courses completed as part of a professional program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- ECE3610 - Continuous and Discrete-Time Systems and Signals - 4cr.
- ECE3410 - Microelectronics I - 4cr.
- ECE3700 - Digital System Design - 3cr.
- ECE3710 - Microcontroller Hardware and Software - 4cr.
- ECE3810 - Engineering Professionalism - 1cr.
- ECE4810 - Engineering Design and Communications 1 - 1cr.
- ECE4840 - Engineering Design II (CI) - 2cr.
- ECE4850 - Engineering Communications II (CI) - 1cr.
- ECE5600 - Introduction to Computer Networks - 3cr.
- ECE5720 - Computer Systems Programming and Architecture - 3cr.
- ENGR3080 - Creativity and Communication in Design (CI) - 3cr.
- MATH3310 - Discrete Mathematics - 3cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
  OR MATH5710 - Introduction to Probability - 3cr.

Core Computer Engineering Electives (select 9 credits)

A GPA of 2.0 or higher must be maintained in all upper-division engineering/math/science courses required for, or used as technical electives in, this major.

The following subject areas represent subject areas in computer engineering. They are grouped for easy reference. Students are not required to complete all of the core computer engineering electives in a subject area and may select from different subject areas.

Fulfill ANY of the following requirements:

Subject Area 1: System Design-General Purpose and Embedded Systems

Complete ANY of the following Courses:

- ECE5640 - Real-Time Processors - 4cr.
- ECE5750 - Computer Architecture - 3cr.
- ECE5760 - Hardware Security - 3cr.
- ECE5780 - Embedded Real-Time Systems - 4cr.
- ECE5790 - Principles of Cyber-Physical Systems - 3cr.

OR

Subject Area 2: Digital VLSI

Complete ANY of the following Courses:

- ECE5460 - VLSI Design Automation - 3cr.
- ECE5470 - VLSI Design - 3cr.
- ECE5480 - VLSI Testing and Security - 3cr.

OR

Subject Area 3: Analog and Mixed-Signal VLSI

Complete ANY of the following Courses:

- ECE5420 - Microelectronics II - 3cr.

OR

Subject Area 4: Reconfigurable Computing

Complete ANY of the following Courses:

- ECE5730 - Reconfigurable Computing - 3cr.

OR

Subject Area 5: Trustworthy Computer Systems Engineering

Complete ANY of the following Courses:

- ECE5795 - Reasoning About Computing Systems: Foundations - 3cr.

ECE 5930- ST:Reasoning about Computer Systems: Applications

High-Level Technical Electives (select 10 credits)

A GPA of 2.0 or higher must be maintained in all upper-division engineering/math/science courses required for, or used as technical electives in, this major.

One of the High-Level Technical Electives must have an ECE prefix.

Earn at least 10 credits from the following:

- CS4700 - Programming Languages - 3cr.
- CS5000 - Theory of Computability - 3cr.
- CS5050 - Advanced Algorithms - 3cr.
- CS5110 - MultiAgent Systems - 4cr.
- CS5300 - Compiler Construction - 4cr.
- CS5400 - Computer Graphics I - 4cr.
- CS5410 - Game Development - 4cr.
- CS5600 - Intelligent Systems - 4cr.
- CS5680 - Computer Vision: Foundations and Applications - 3cr.
- CS5800 - Introduction to Database Systems - 3cr.
- ECE3640 - Discrete - Time Systems and Signals - 3cr.
- ECE3870 - Electromagnetics I - 4cr.
- ECE4250 - Internship/Co-op - 1cr.
- ECE5110 - Fundamentals of Electric Power Systems - 3cr.
- ECE5120 - Introduction to Power Electronics - 3cr.
- ECE5150 - Power Electronics for Electric Drive Vehicles - 3cr.
- ECE5160 - Electric Vehicle Design Laboratory - 4cr.
- ECE5210 - Introduction to Photonics and Devices - 3cr.
- ECE5230 - Spacecraft Systems Engineering - 3cr.
- ECE5235 - Space System Design - 3cr.
- ECE5250 - Photonics Laboratory - 3cr.
- ECE5310 - Control Systems - 4cr.
- ECE5320 - Mechatronics - 4cr.
- ECE5330 - Small Unmanned Aircraft Systems - 3cr.
- ECE5340 - Introduction to Planning and Control for Mobile Robots - 3cr.
- ECE5345 - Introduction to the Robot Operating System (ROS) - 1cr.
- ECE5420 - Microelectronics II - 3cr.
- ECE5460 - VLSI Design Automation - 3cr.
- ECE5470 - VLSI Design - 3cr.
- ECE5480 - VLSI Testing and Security - 3cr.

- ECE5510 - Reinforcement Learning - 3cr.
- ECE5520 - Robot Reasoning - 3cr.
- ECE5540 - AI Architecture: Deployment, Systems, and Real-World Const - 3cr.
- ECE5610 - Wireless Communication Networks - 3cr.
- ECE5630 - Digital Signal and Image Processing - 3cr.
- ECE5640 - Real-Time Processors - 4cr.
- ECE5660 - Communication Systems 1 - 3cr.
- ECE5700 - Introduction to Microfabrication - 3cr.
- ECE5710 - Advanced Microfabrication - 3cr.
- ECE5730 - Reconfigurable Computing - 3cr.
- ECE5750 - Computer Architecture - 3cr.
- ECE5780 - Embedded Real-Time Systems - 4cr.
- ECE5790 - Principles of Cyber-Physical Systems - 3cr.
- ECE5800 - Electromagnetics II - 3cr.
- ECE5810 - Microwave Circuits I - 3cr.
- ECE5850 - Antennas I - 3cr.
- ECE5930 - Special Topics in Electrical and Computer Engineering - 1cr.
- ENGR2010 - Engineering Mechanics Statics - 3cr.
- ENGR2030 - Engineering Mechanics Dynamics - 3cr.
- ENGR2140 - Mechanics of Materials - 3cr.
- MAE2160 - Material Science - 3cr.
- MAE2300 - Thermodynamics I - 3cr.
- MATH4610 - Fundamentals of Numerical Analysis - 3cr.
- MATH5210 - Introduction to Analysis I - 3cr.
- MATH5220 - Introduction to Analysis II - 3cr.
- MATH5270 - Complex Variables - 3cr.
- MATH5310 - Introduction to Modern Algebra - 3cr.
- MATH5340 - Theory of Linear Algebra - 3cr.
- MATH5410 - Methods of Applied Mathematics - 3cr.
- MATH5420 - Partial Differential Equations - 3cr.
- MATH5460 - Nonlinear Dynamics - 3cr.
- MATH5510 - Introduction to Topology - 3cr.
- MATH5610 - Introduction to Numerical Analysis - 3cr.
- MATH5620 - Numerical Algorithms for Approximate Solutions of DE - 3cr.
- MATH5720 - Introduction to Mathematical Statistics - 3cr.
- MATH5760 - Applied Stochastic Processes - 3cr.
- PHYS5700 - Introduction to Microfabrication - 3cr.
- PHYS5710 - Advanced Microfabrication - 3cr.

- Students cannot receive credit for both PHYS5700 INTRO TO MICROFABRICATION and ECE5700 INTRO TO MICROFABRICATION.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or co-requisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

*Please note: ENGL1010 WRITING AS INQUIRY (CL1) is required by USU but is not included in the degree map because most engineering students satisfy this requirement through an ACT English score, an SAT Critical Reading score , Advanced Placement (AP) Examinations or College-Level Examination Program (CLEP).

Years 1 and 2 are intended to encompass the Pre-Professional program. Years 3 and 4 are intended to encompass the Professional Program.

Communication Sciences - MS

Program Overview

College
College of Education & Human Services

Department
Speech and Hearing Sciences

Program Level
Graduate

About this Degree

The master's degree in Communication Sciences is a non-clinical degree in the Department of Speech and Hearing Sciences, Emma Eccles Jones College of Education and Human Services. This 30-credit program prepares students to enter the Disability Disciplines PhD program strand in speech-language pathology or the Interdisciplinary PhD Program in Neuroscience at Utah State University. Students from this program could also be eligible to apply to other doctoral programs in other behavioral science, health, or education related fields.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

School of Graduate Studies Requirements:

• Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
• Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
• Course Number Acceptability: The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
• Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
• Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
• Master's forms: Approval of the Program of Study is required by the School of Graduate Studies.

Program Requirements:

Students must complete a minimum of 30 semester credit hours, comprised of 15 credits of required coursework, 6 credits of thesis (Plan A), and a minimum of 9 credits of electives in areas related to communication sciences and disorders. Each student, with mentor and committee, will devise an individualized program of study from the elective courses. Students may go beyond the 9 minimum with electives selected based on individual interests. A 3.0 GPA or higher, successful completion of appropriate coursework, and a successful thesis is required for graduation.

Communication Studies - Minor

Program Overview

College
College of Arts & Sciences

Department
Communication & Media

Program Level
Undergraduate

About this Degree

About this Minor

The Communication Studies minor at USU is designed to help students develop a broad range of communication skills and an understanding of how communication affects individuals, organizations, and societies.

This minor is designed to:

- Increase your communicative competence in both public and private settings.
- Help you understand, explain, and transform communication messages in a variety of settings.
- Improve your ability to carefully explore and think through communication-related challenges and come up with effective solutions.

To declare a communication minor, students need to contact the department's academic advisor.

Students receive a minor by completing twelve Communication Studies (CMST) credits. Please make sure to consult regularly with your departmental advisor to confirm what courses will be available and to work out your plan of study.

Admitted and current students are encouraged to meet with the academic advisor for the program.

Once declared, log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

Admission Requirements for this Program

- Students must contact the academic advisor for admission to the major.
- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.5 GPA.

Program Requirements

Communication Studies - BA, BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Communication & Media	Undergraduate

About this Degree

The Communication Studies program at Utah State University is designed to help students develop a broad range of communication skills and an understanding of how communication affects individuals, organizations, and societies.

This major is designed to :

- Increase your communicative competence in both public and private settings.
- Help you understand, explain, and transform communication messages in a variety of settings.
- Improve your ability to carefully explore and think through communication related challenges and come up with effective solutions.

The Communication Studies major at Utah State University offers several focus areas so students can tailor their coursework to specific personal and career goals. These areas include:

- Health, Environmental, and Science Communication
- Relational Communication and Conflict Transformation
- Communicating Across Cultures
- Organizational Communication and Collaborative Leadership
- Social Influence and Advocacy

To declare a communication studies major or minor, students need to contact the department academic advisor.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages up to the 2020 or 2030 level.

- For more information about Communication Studies, please see the **Communication and Media** website.
- Please make sure to consult regularly with your departmental advisor to confirm what courses will be available and to work out your plan of study.
- Admitted and current students must meet with an academic advisor.
- A minor, certificate, or additional major must also be completed to complete all requirements for this major.
- Log on to Degree Worksto check student-specific program progress.
- The highest math requirement for this degree is Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- Students must contact the academic advisor for admission to the major.
- New freshmen must be admitted to USU in good standing.
- Transfer students from other institutions or other programs at USU must have a 2.5 GPA.
- Minimum Grade Point Average to declare the Major in Communication Studies: 2.0 GPA

Program Requirements

Total Credits Required In Program Coursework
39

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- **Total Credits:** 39
- **Minimum Grade Point Average to graduate with a Communication Studies Major**: 2.5 GPA within major coursework
- **Credits in Residence:** At least half (50 percent) of the credits earned for the Communication Studies major must be earned at USU and approved by the department head. As many as 19 credits completed at other colleges or universities may be used to partially satisfy these requirements. For more information, students should contact their advisor.
- **Minimum Grade Requirement:** All courses taken for the major require a minimum grade of **C-** or better. Courses for the major *may not* be taken on a pass/fail basis.

Bachelor of Science Degree

Students desiring a Bachelor of Science (BS) degree must complete all requirements listed in the core requirements below.

Bachelor of Arts Degree

For the language requirements for a Communication Studies – BA degree, please see Minimum University Requirements (Bachelor's Degree), or academic advisor.

Communication Studies - BA, BS

Type

Completion Requirement

A. Required Classes (12 credits)

CMST5800 CMST SENIOR CAPSTONE (CI) should be taken at the end of the program.

Complete ALL of the following Courses:

- CMST1020 - Public Speaking (BHU) - 3cr.
- CMST2110 - Interpersonal Communication (BHU) - 3cr.
- CMST2900 - Degree and Career Planning in Communication - 1cr.
- CMST5100 - Theories of Communication (CI) - 3cr.
- CMST5800 - Communication Studies Senior Capstone (CI) - 2cr.

B. Research Skills Courses (3 credits)

Complete at least 1 of the following courses:

- CMST4800 - Qualitative Research in Communications Studies - 3cr.
- CMST4810 - Quantitative Communication Studies Research Methods (QI) - 3cr.
- CMST4820 - Communication Criticism (CI) - 3cr.

C. Focus Areas (21 credits)

Complete at least three classes (9 credits) from one of the following five areas, and one class each (3 credits) from the other four focus areas.

Fulfill ANY of the following requirements:

Health, Environmental, and Science Communication

Complete ANY of the following Courses:

- CMST2120 - Group Collaboration and Decision Making - 3cr.
- CMST3020 - Persuasive Public Communication - 3cr.
- CMST3280 - Organizations and Social Change - 3cr.
- CMST3400 - Persuasion - 3cr.
- CMST3730 - Culture and Global Intervention (DHA) - 3cr.
- CMST4260 - Environmental Communication - 3cr.
- CMST4700 - Health Communication (CI) - 3cr.
- CMST4750 - Strategic Health Messaging - 3cr.
- CMST4760 - Current Issues in Communication and Mental Health - 3cr.
- CMST5300 - Visual Rhetoric - 3cr.

OR

Relational Communication and Conflict Transformation

Complete ANY of the following Courses:

- CMST2810 - Communicating Emotions - 3cr.
- CMST3120 - Communication in Family Contexts - 3cr.
- CMST3160 - Gender Communication - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.
- CMST3600 - Communication and Conflict - 3cr.
- CMST4200 - Language, Thought, and Action (CI/DSS) - 3cr.
- CMST5110 - Advanced Interpersonal Communication - 3cr.
- CMST5500 - Communication and Leadership - 3cr.
- CMST5600 - Advanced Communication and Conflict - 3cr.

OR

Communicating Across Cultures

Complete ANY of the following Courses:

- CMST1330 - Introduction to Global Communication (BSS) - 3cr.
- CMST3160 - Gender Communication - 3cr.
- CMST3270 - Culture and Public Discourse (DHA) - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.
- CMST3730 - Culture and Global Intervention (DHA) - 3cr.
- CMST4270 - Communication, Culture, and Power - 3cr.
- CMST4330 - Advanced Perspectives in Global Communication (CI) - 3cr.

OR

Organizational Communication and Collaborative Leadership

Complete ANY of the following Courses:

- CMST2120 - Group Collaboration and Decision Making - 3cr.
- CMST3020 - Persuasive Public Communication - 3cr.
- CMST3250 - Organizational Communication (CI) - 3cr.
- CMST3280 - Organizations and Social Change - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.
- CMST3400 - Persuasion - 3cr.
- CMST3600 - Communication and Conflict - 3cr.
- CMST5300 - Visual Rhetoric - 3cr.
- CMST5500 - Communication and Leadership - 3cr.

OR

Social Influence and Advocacy

Complete ANY of the following Courses:

- CMST2270 - Argumentation and Debate - 3cr.
- CMST3020 - Persuasive Public Communication - 3cr.
- CMST3400 - Persuasion - 3cr.
- CMST3730 - Culture and Global Intervention (DHA) - 3cr.
- CMST4200 - Language, Thought, and Action (CI/DSS) - 3cr.
- CMST4260 - Environmental Communication - 3cr.
- CMST4750 - Strategic Health Messaging - 3cr.
- CMST5300 - Visual Rhetoric - 3cr.
- CMST5400 - Advanced Persuasion - 3cr.

D. Electives (3 credits)

Electives can be any CMST course not previously taken for section B or C, as well as internships (CMST4250 ADV INTERNSHIP/COOP/CHSS4250 ADV INTERNSHIP/COOP) or independent study classes under CMST5000 STUDIES IN CMST.

Complete ANY of the following Courses:

- CMST1330 - Introduction to Global Communication (BSS) - 3cr.
- CMST2120 - Group Collaboration and Decision Making - 3cr.
- CMST2250 - Introductory Internship/Co-op - 1cr.
- CMST2270 - Argumentation and Debate - 3cr.
- CMST2810 - Communicating Emotions - 3cr.
- CMST3010 - Communication Studies Teaching Practicum: Public Speaking - 1cr.
- CMST3020 - Persuasive Public Communication - 3cr.
- CMST3120 - Communication in Family Contexts - 3cr.
- CMST3160 - Gender Communication - 3cr.
- CMST3250 - Organizational Communication (CI) - 3cr.
- CMST3270 - Culture and Public Discourse (DHA) - 3cr.
- CMST3280 - Organizations and Social Change - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.
- CMST3400 - Persuasion - 3cr.
- CMST3600 - Communication and Conflict - 3cr.
- CMST3610 - Communication Studies Teaching Practicum - Conflict - 1cr.
- CMST3730 - Culture and Global Intervention (DHA) - 3cr.
- CMST4200 - Language, Thought, and Action (CI/DSS) - 3cr.
- CMST4250 - Advanced Internship/Co-op - 1cr.
- CMST4260 - Environmental Communication - 3cr.
- CMST4270 - Communication, Culture, and Power - 3cr.
- CMST4330 - Advanced Perspectives in Global Communication (CI) - 3cr.
- CMST4700 - Health Communication (CI) - 3cr.
- CMST4750 - Strategic Health Messaging - 3cr.
- CMST4760 - Current Issues in Communication and Mental Health - 3cr.
- CMST4800 - Qualitative Research in Communications Studies - 3cr.
- CMST4810 - Quantitative Communication Studies Research Methods (QI) - 3cr.
- CMST4820 - Communication Criticism (CI) - 3cr.
- CMST5110 - Advanced Interpersonal Communication - 3cr.
- CMST5300 - Visual Rhetoric - 3cr.
- CMST5400 - Advanced Persuasion - 3cr.
- CMST5500 - Communication and Leadership - 3cr.
- CMST5600 - Advanced Communication and Conflict - 3cr.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Communication Studies - MA

Program Overview

College	Department	Program Level
College of Arts & Sciences	Communication & Media	Graduate

About this Degree

Program Contact:
Dr. Tim Curran, Director of Graduate Studies tim.curran@usu.edu

Program Description:

The Master's degree in Communication Studies is a face-to-face program focused on understanding communication in various contexts including (but not limited to) interpersonal relationships, health settings, the political sphere, intercultural settings, and social movements. Students will receive training in quantitative, qualitative, and rhetorical research methods. In addition to gaining a broad understanding of communication, graduates will develop expertise in an area (or multiple areas) of their choosing via course papers and a final thesis, professional project, or comprehensive exam. Our Master's program prepares graduates for the workforce or Ph.D. programs.

This degree will:

- Provide students with a broad understanding of communication as well as opportunities to specialize.
- Prepare students for careers that highly value communication knowledge and skills.
- Offer excellent opportunities for both research and teaching.

Information for applying:
In addition to the application requirements listed on the School of Graduate Studies page, the following are required:

- Resume
- Scholarly writing sample
- Statement of Purpose (1000-word limit)
    - Why are you interested in a Master's degree in Communication Studies? What topic areas are you interested in? Why are you interested in these topics? Which faculty do you think you might be interested in working with and why?
- Minimum GPA of 3.2

The application deadline is February 15th.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
33	33

Simple Requisites

Program Requirements

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** All courses for a program of study for a master's degree in Communication Studies must be 6000 level or above.
- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- **Master's forms:** Please visit the following link to view required academic forms by the School of Graduate Studies by degree type: https://gradschool.usu.edu/academics/

This is a 33 credit program. 3 courses are required (CMST6050 SEMINAR ON TEACHING COMM, CMST6100 SOCIAL SCIENCE METHOD RESEARCH, and CMST6150 RHETORICAL CRITICISM RESEARCH). The remaining 24 credits are taken between additional coursework and a final project (Plan A, Plan B, and Plan C). See variations among Plan A, Plan B, and Plan C credit requirements below.

Plan A - Description and Requirements

What is a Plan A?

- A Plan A project is a full research project. It is original research where students either analyze original data and write a full social scientific report OR complete a full rhetorical analysis.
- 18 additional credits of coursework
- 6 credits of Thesis Research (CMST6970 THESIS RESEARCH)

Plan B - Description and Requirements

What is a Plan B?

- A Plan B project is an applied project based on academic research. Students write full literature reviews and create an applied project based on the literature.
- 21 additional credits of coursework
- 3 credits of Directed Study (CMST6920 DIRECTED STUDY)

Plan C - Description and Requirements

What is a Plan C?

- A Plan C project is a comprehensive exam wherein a group of faculty will write overarching essay questions about the field (based on the student's completed coursework). Students will pass based on their ability to demonstrate mastery over the topics covered in the questions asked.
- 24 credits of additional coursework
- Successfully complete a comprehensive exam

Section 1

Type
Completion Requirement

Core Courses (9 credits)

Complete ALL of the following Courses:

- CMST6050 - Seminar on Teaching Communication - 3cr.
- CMST6100 - Communication Studies Research: Social Science Methods - 3cr.
- CMST6150 - Communication Studies Research: Rhetorical Criticism - 3cr.

Plan A Students

Plan A Students are required to take 6 credits.

Complete ALL of the following Courses:

- CMST6970 - Thesis Research - 1cr.

Plan B Students

Complete ALL of the following Courses:

- CMST6920 - Directed Study - 3cr.

Plan C Students

Exam
Plan C students must successfully complete a comprehensive exam.

Additional Comments:

Students may take up to one graduate-level courses from other programs with the pre-approval of their committee chair.

Additional Program Requirements

● Students are expected to attend an orientation prior to each fall semester while enrolled in the program.
● Students are expected to attend a professional development seminar each spring semester while enrolled in the program.

Section 2

Type

Completion Requirement

Additional Courses

To fulfill credit requirement, the number of courses completed depends on your plan choice - A, B, or C.

Complete ANY of the following Courses:

- CMST6200 - Seminar on Personal Relationships - 3cr.
- CMST6250 - Graduate Independent Study - 1cr.
- CMST6300 - Seminar on Culture and Difference - 3cr.
- CMST6400 - Seminar in Social Influence - 3cr.
- CMST6500 - Seminar in Organizational Communication - 3cr.
- CMST6650 - Health Communication - 3cr.
- CMST6700 - Rhetorical Strategies in Social Movements - 3cr.
- CMST6800 - Transnational and International Political Discourse - 3cr.
- CMST6900 - Seminar in Communication Theory - 3cr.
- CMST6999 - Special Topics - 3cr.

Consulting - Minor (NOT CURRENTLY OFFERED)

Program Overview

College

Jon M. Huntsman School of Business

Department

Marketing and Strategy

Program Level

Undergraduate

About this Degree

The consulting minor prepares students to manage people, processes and strategies in all types of organizations and to consult with organizational leaders and members on these issues. These skills are needed by students in business, engineering, agriculture, sciences and any technical discipline to get a job in consulting and excel in any job. Students will learn how to manage consulting projects, how to make recommendations based on data analytical analysis, how to implement change and implement a consulting process in working with executives.

Program Requirements

Total Credits Required To Earn This Credential

11

Simple Requisites

Program Requirements

Application is required for the Consulting minor. Application can be found here: Consulting Minor Application Form.

The Consulting Minor requires five classes for a total of 11 semester credit hours. Admission into the minor is required to enroll in MSLE 4895.

Consulting Minor Track Options:

Track 1: General Consulting for Business and Industry

Track 2: Small Business/Micro-enterprise Consulting

A GPA of B- or above is required for minor coursework.

Courses may not be taken on a pass/fail basis

Section 1

Type

Completion Requirement

Core Curriculum

These courses are required for both tracks

Complete ALL of the following Courses:

- MGT3600 - Project Management - 2cr.
- MSLE3880 - Leading Change: Influence and Strategic Agreements - 2cr. (Inactive)
- MSLE4532 - Data-Driven Decision Making (DELETED FALL 2025) - 2cr.

Section 2

Type

Completion Requirement

Consulting Minor Track Options

Fulfill ANY of the following requirements:

Track 1: General Consulting for Business and Industry (5 credits)

Complete ALL of the following Courses:

- MSLE4895 - Consulting Skills - 3cr.
- MSLE4250 - Marketing-Strategy-Leadership-Entrepreneurship Internship - 2cr.

OR

Track 2: Small Business/Micro-enterprise Consulting Curriculum (5 credits)

Complete ALL of the following Courses:

- MSLE3590 - Small Business Consulting - 2cr.
- MSLE3510 - New Venture Creation - 3cr.
  OR MSLE3530 - New Venture Marketing - 3cr.
  OR MSLE3540 - New Venture Finance - 3cr.
  OR MSLE3580 - New Venture Execution - 3cr.

Coaching - Certificate (NOT CURRENTLY OFFERED)

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

The Certificate in Coaching at Utah State University is a comprehensive program designed to provide aspiring coaches with a robust foundation in various aspects of coaching and sports management. This 17-credit certificate program is structured to offer both theoretical knowledge and practical skills essential for successful coaching careers.

The curriculum is carefully curated to cover key areas in coaching, including first aid, fitness training, sports regulations, athletic injury management, motor learning, administration and management in physical education, and motivation strategies. The program combines classroom learning with hands-on experiences, ensuring that students are well-prepared to meet the diverse challenges of coaching roles in educational institutions, sports centers, or private sports organizations.

Certificate completion will require three courses totaling 9 credit hours.

Courtroom Assistance - Certificate

Type
Completion Requirement

Required Course (3 credits)

Complete ALL of the following Courses:

- CJ4350 - Courtroom Communication (CI) - 3cr.

Required Course (6 credits)

Complete at least 2 of the following courses:

- CJ2350 - Laws of Evidence - 3cr.
- CJ3150 - Moot Court - 3cr.
- PHIL4600 - Philosophy of Law - 3cr.
- POLS1100 - United States Government and Politics (BAI) - 3cr.
- POLS3120 - Law and Politics (DSS) - 3cr.

Minimum University Requirements

Minimum University Requirements
Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes
Objectives:

1- Students will develop skills in oral advocacy and testimony presentation while understanding alternative dispute resolution methods and the role of communication in the criminal justice system.

2- Students will analyze the rules of evidence, the structure of criminal courts, and the processes involved in criminal cases while also exploring key political and legal concepts, including the relationship between law and morality and the U.S. Constitution.

3- Students will examine the foundations of American law and politics, comparing the U.S. legal system with others, while understanding the role of law in society and the constitutional principles that shape civil rights, liberties, and governance.

Community Development Economics - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Economics

Program Level
Undergraduate

About this Degree

About This Minor

The Community Development Economics minor at Utah State University equips students with the knowledge and skills needed to understand and address economic issues in communities, focusing on natural resources, regional economics, and policy analysis.

What You Will Learn

Students will study microeconomics, natural resource and regional economics, agricultural and natural resource law, and choose from courses covering natural resource and environmental economics, regional and community economic development, and applied economics policy analysis.

Program Requirements

Total Credits Required In Program Coursework
15

Total Credits Required To Earn This Credential

Construction Fundamentals - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Construction Technology program provides a comprehensive opportunity for students to gain knowledge and skills to gain entry into the construction industry. Students are exposed to advanced skills such as building site layout, concrete, framing, interior finishes and exterior finishes. Students also gain knowledge of construction materials, blueprint reading, and estimating. Students who complete the certificate and obtain related employment have the option to continue training as apprentices in their chosen craft and receive state, national, and industry certifications.

Corrections Leadership Development - Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

Criminal Justice is an area of major potential growth with adult learners in Utah and the surrounding states who may be seeking higher education to advance their careers. Leaders across the Department of Public Safety (DPS), Department of Corrections (DPC), Utah Sheriffs, and municipal departments have expressed interest in skills-based certificates that may be stacked in pursuit of an associate or bachelor's degree. In Utah, USU has an important opportunity to serve career professionals seeking to advance their careers via higher education.

The proposed certificate is based on a core of required coursework. This certificate is one in a series of stackable certificates which can part of the Criminal Justice Associates, Bachelor, or Bachelor of Applied Science (BAS) degrees. This certificate may be earned independently or stacked into the elective portion of the degree.

- CJ4460 - Advanced Leadership Skills - 3cr.
- CJ4470 - Specialized Leadership Project - 3cr.
- CJ4480 - Executive Leadership - 3cr.

Program Learning Outcomes

Program Learning Outcomes

Objectives:

1-Students will develop foundational leadership principles, including decision-making, organizational culture shaping, and problem-solving techniques, with a focus on effective leadership within law enforcement and corrections.

2- Students will explore leadership ethics, employee engagement, situational leadership, and counseling techniques, acquiring essential skills for adapting leadership styles to enhance employee development and work environment effectiveness.

3- Students will integrate leadership competencies across media relations, crisis management, mental health awareness, and legal updates, culminating in executive-level leadership strategies for high-level decision-making and professional image maintenance.

- SW4920 - Trauma and Resilience - 3cr.

Minimum University Requirements

Minimum University Requirements
Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes
Demonstrate a basic knowledge of the US Corrections systems; develop critical skills, competencies, and points of view required by corrections workers.

Objectives:

1- Students will analyze the history, philosophies, and administration of corrections in America, exploring sentencing strategies including alternatives to incarceration, prison communities, alternatives to incarceration, and reform efforts.

2- Students will explore the history, philosophies, and administration of inmates' rights in America, focusing on punishment, prison communities, and reform efforts.

3- Students will examine the effects of trauma and the factors that contribute to human resilience, focusing on how individuals cope with and overcome adverse experiences.

Computer Science - Minor

Program Overview

College
College of Engineering

Department
School of Computing

Program Level
Undergraduate

Program Requirements

Total Credits Required In Program Coursework
15-22

Total Credits Required To Earn This Credential
15-22

Simple Requisites

Program Requirements

Requirements for a minor in computer science are listed below. Students should meet with a School of Computing advisor early in their program to discuss requirements and declare the minor. All courses counted toward the minor must be completed with a grade of C- or better. The overall GPA in Computer Science Minor courses must be at least 2.5. There may be no more than three repeats of Computer Science courses (whether counted for the minor or not). Credit hours from courses offered outside of the School of Computing and/or from CS1400 INTRO COMPUTER SCIENCE 1 taken as Challenge by Exam cannot be counted toward the Computer Science minor.

Section 1

Type
Completion Requirement

Required Prerequisite Courses (0-7 credits)

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.

OR

CS Department approved proof of competency

Section 2

Type
Completion Requirement

Required Courses (6 credits)

Complete ALL of the following Courses:

- CS1440 - Software Engineering Fundamentals - 3cr.
- CS2420 - Algorithms and Data Structures--CS 3 (QI) - 3cr.

Section 3

Type
Completion Requirement

Computer Science Electives (9 credits)

Earn at least 9 credits from the following:

- CS2410 - Introduction to Event Driven Programming and GUI's - 3cr.
- CS2610 - Developing Dynamic, Database-Driven Web Applications - 3cr.
- CS3100 - Operating Systems and Concurrency - 3cr.

- CS3430 - Scientific Computing (DSC/QI) - 3cr.
- CS3450 - Introduction to Software Engineering (CI) - 4cr.
- CS3460 - Modern C++ - 3cr.
- CS4320 - Applied Machine Learning - 3cr.
- CS4460 - Introduction to Cybersecurity - 3cr.
- CS4610 - Modern Web Development - 3cr.
- CS4700 - Programming Languages - 3cr.

• Any CS class numbered 5000 or above

Computer Science - BS

Program Overview

College
College of Engineering

Department
School of Computing

Program Level
Undergraduate

About this Degree

Because almost all businesses, industries, and organizations use computers at all levels, the field of computer science is one of the fastest-growing sectors of employment for college graduates. Computer scientists understand and use algorithmic sequences and computer languages, such as Python, Java, JavaScript, or C++, to create new programs and to solve problems found in almost every sector of society.

Students learn the theoretical foundations of information and computation and understand practical techniques for their implementation and application in order to create, describe, and transform information in computer systems. Computer science is different from computer engineering in that it focuses more on the theoretical understanding of computation and programming.

- For more information about Computer Science, see the Computer Science department.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- Please check with your advisor for the math requirement for this degree. Most students' highest math course will be MATH3310 DISCRETE MATHEMATICS.

Admission Requirements for this Program

Required for Admission to the Pre-Professional (PPRU) Program

New first-year students:

- New first-year students admitted to USU in Good Standing are eligible for admission to the Pre-Professional Program.
- New first-year students with Earned Admission to USU are eligible for admission to the Pre-Professional Program with a minimum 2.5 High School GPA.

Transfer students:

- Transfer students from other institutions or students transferring from other USU majors need a minimum 2.5 overall GPA and 2.5 USU GPA (if applicable) and must show completion of MATH1210 CALCULUS I (QL) prerequisites for admission to the Pre-Professional Program.
- Transfer students who have completed pre-professional courses must have a minimum grade of C- and a minimum 2.5 GPA in the pre-professional courses for admission to the Pre-Professional Program. They must also have no more than 3 repeats total in the pre-professional courses. Pre-professional courses are listed below in the "***Computer Science Pre-Professional (PPRU) Program Courses***" section.

To remain in good standing in the Pre-Professional Program, students must:

- Be in good academic standing in the university and college.
- Have a GPA of 2.5 or higher in the pre-professional courses.
- Maintain a minimum USU GPA of 2.0
- Pass all pre-professional courses with a grade of C- or better.

- Have no more than 3 repeats total in the pre-professional courses. Multiple repeats of the same course are included in the total of 3 repeats.

Required for Admission to the Professional Program

To be admitted to the professional program, students must:

- Be in good academic standing in the university and the college.
- Have a GPA of 2.5 or higher in the pre-professional courses.
- Maintain a minimum USU GPA of 2.0.
- Pass all pre-professional courses with a grade of C- or better.
- Have no more than 3 repeats total in the pre-professional courses. Multiple repeats of the same course are included in the total of 3 repeats.

To remain in good standing in the Professional Program and graduate, students must:

- Be in good academic standing in the university and the college.
- Have a GPA of 2.5 or higher in the CS major courses. This includes any class fulfilling a CS major requirement, regardless of the subject.
- Maintain a minimum USU GPA of 2.0.
- Pass all CS major courses with a grade of C- or better. This includes any class fulfilling a CS major requirement, regardless of the subject.

Program Requirements

Total Credits Required In Program Coursework
82-86

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Students should work closely with their advisor to select their classes.

For all Computer Science majors, the following academic regulations apply, in addition to university regulations:

1. A grade of C- or better is required for all courses taken to fulfill a Computer Science major requirement, regardless of the subject.
2. The P/D+, D, F grading option may not be used in any class fulfilling a Computer Science major requirement, regardless of the subject.
3. To remain in good standing and graduate with a Bachelor of Science in Computer Science, students must maintain a minimum USU GPA of 2.0 as well as a GPA of 2.5 or higher in the pre-professional courses and a GPA of 2.5 or higher in the CS major courses.

If starting in a math course other than MATH1210 CALCULUS I (QL), discuss with an advisor how the plan will be affected.

Computer Science - BS

Type
Completion Requirement

Computer Science Pre-Professional (PPRU) Program Courses (26 credits)

All courses require a grade of C- or better. A GPA of 2.5 or higher is required in the pre-professional courses. No more than 3 repeats total are allowed in the pre-professional courses.

Earn a minimum grade of C- in the following:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
- CS1440 - Software Engineering Fundamentals - 3cr.
- CS2410 - Introduction to Event Driven Programming and GUI's - 3cr.
- CS2420 - Algorithms and Data Structures--CS 3 (QI) - 3cr.
- CS2610 - Developing Dynamic, Database-Driven Web Applications - 3cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH3310 - Discrete Mathematics - 3cr.

Computer Science Required Courses (19-20 credits)

Earn a minimum grade of C- in the following:

- CS2810 - Computer Systems Organization and Architecture I - 3cr.
- CS3100 - Operating Systems and Concurrency - 3cr.
- CS3450 - Introduction to Software Engineering (CI) - 4cr.
- CS4700 - Programming Languages - 3cr.
  OR CS5300 - Compiler Construction - 4cr.
- CS5000 - Theory of Computability - 3cr.
  OR CS5050 - Advanced Algorithms - 3cr.
- TCR3085 - Technical Communication for the Computer Science Workplace (CI) - 3cr.

Computer Science 3XXX/4XXX Elective Courses (6 credits)

Students must take 6 credits of CS 3XXX/4XXX courses from the following list. Additional CS 5XXX/6XXX courses may be applied here if they are not used to fulfill another CS major requirement. All courses require a grade of C- or better.

Earn a minimum grade of C- in the following:

- CS3430 - Scientific Computing (DSC/QI) - 3cr.
- CS3460 - Modern C++ - 3cr.
- CS4250 - Cooperative Work Experience - 1cr.
- CS4320 - Applied Machine Learning - 3cr.
- CS4460 - Introduction to Cybersecurity - 3cr.
- CS4610 - Modern Web Development - 3cr.
- CS4950 - Undergraduate Research - 1cr.

NOTE:

1. CS4250 COOPERATIVE WORK EXPERIENCE - CS majors may use no more than 3 credits of CS4250 COOPERATIVE WORK EXPERIENCE toward their CS major requirements.

Computer Science 5XXX/6XXX Elective Courses (at least 16 credits)

Students must take at least 16 credits of CS 5XXX courses. At least one course must be a 4-credit course, and at least one course must be a TEAMWORK course. CS5313 TECH STARTUP SOFTWARE ENGR, CS5316 COMMERCIAL SOFTWARE ENGR, CS6313 TECH STARTUP SOFTWARE ENGR, and CS6316 COMMERCIAL SOFTWARE ENGR are part of the 18-credit sandbox program and require instructor approval. Students cannot take CS5313 TECH STARTUP SOFTWARE ENGR ,CS5316 COMMERCIAL SOFTWARE ENGR, and CS6313 TECH STARTUP SOFTWARE ENGR as standalone course to fulfill the TEAMWORK requirement. CS majors can take any of the following 6XXX courses in place of 5XXX courses, provided prerequisites for the dual-listed CS 5XXX course is met, or instructor permission is provided. All courses require a grade of C- or better.

Fulfill ANY of the following requirements:

Computer Science 5XXX Elective Courses

Complete ANY of the following Courses:

- CS5000 - Theory of Computability - 3cr.
- CS5030 - High Performance Computing - 4cr.
- CS5040 - Scientific Visualization for Data Science - 3cr.
- CS5050 - Advanced Algorithms - 3cr.
- CS5080 - Data Mining - 3cr.
- CS5110 - MultiAgent Systems - 4cr.
- CS5140 - Human Factors in Computing - 3cr.
- CS5215 - Computer Networks and Security - 3cr.
- CS5270 - Introduction to Cloud Development - 3cr.
- CS5300 - Compiler Construction - 4cr.
- CS5311 - Technology Startup Business Principles - 1cr.
- CS5312 - Modern Technology Stacks - 4cr.
- CS5313 - Technology Startup Software Engineering - 4cr.
- CS5314 - Technology Startup Business Launch - 1cr.
- CS5315 - Computer Science Innovations - 4cr.
- CS5316 - Commercial Software Engineering - 4cr.
- CS5330 - Data-Driven Programming Language Processing - 3cr.
- CS5400 - Computer Graphics I - 4cr.
- CS5410 - Game Development - 4cr.
- CS5470 - Introduction to Interactive Virtual Reality - 3cr.
- CS5600 - Intelligent Systems - 4cr.
- CS5615 - Natural Language Processing - 3cr.
- CS5620 - AI Applications In Education - 3cr.
- CS5640 - Artificial Neural Networks - 3cr.
- CS5665 - Machine Learning for Data Science - 3cr.
- CS5680 - Computer Vision: Foundations and Applications - 3cr.
- CS5700 - Object-Oriented Software Development - 4cr.
- CS5710 - Software Security - 3cr.
- CS5715 - Program Analysis and Its Application - 3cr.
- CS5750 - Computing Education Research - 3cr.
- CS5800 - Introduction to Database Systems - 3cr.
- CS5820 - Interactive Information Visualization for Data Science - 3cr.
- CS5830 - Data Science in Practice - 3cr.
- CS5840 - Graph Mining - 3cr.
- CS5850 - Introduction to Data Analysis - 3cr.
- CS5890 - Topics in Computer Science (Topic) - 1cr.
- CS5950 - Independent Study - 3cr.

NOTE:

1. CS5000 THEORY OF COMPUTABILITY, CS5050 ADV ALGORITHMS, CS5300 COMPILER CONSTRUCTION - Can **NOT** be taken if used to fulfill **any other** CS major requirement.
2. CS5400 COMPUTER GRAPHICS I and CS5700 OBJECT-ORIENTED SOFTWARE DEV - May be offered in summer once in two years.

TEAMWORK Courses:

CS5030 HIGH PERFORMANCE COMPUTING
CS5110 MULTIAGENT SYSTEMS
CS5313 TECH STARTUP SOFTWARE ENGR
CS5316 COMMERCIAL SOFTWARE ENGR
CS5330 DATA-DRIVEN PL PROCESSING
CS5410 GAME DEVELOPMENT
CS5470 INTRO TO INTERACTIVE VR
CS5615 NATURAL LANGUAGE PROCESSING
CS5665 MACHINE LEARNING FOR DATA SCI
CS5830 DATA SCIENCE IN PRACTICE

OR

Computer Science 6XXX Elective Courses

CS majors can take any of the following 6XXX courses in place of 5XXX courses, provided prerequisites for the dual-listed CS 5XXX course is met, or instructor permission is provided. All courses require a grade of C- or better.

Complete ANY of the following Courses:

- CS6030 - High Performance Computing - 4cr.
- CS6040 - Scientific Visualization for Data Science - 3cr.
- CS6110 - MultiAgent Systems - 4cr.
- CS6140 - Human Factors in Computing - 3cr.
- CS6215 - Computer Networks and Security - 3cr.
- CS6270 - Introduction to Cloud Development - 3cr.
- CS6311 - Technology Startup Business Principles - 1cr.
- CS6312 - Modern Technology Stacks - 4cr.
- CS6313 - Technology Startup Software Engineering - 4cr.
- CS6314 - Technology Startup Business Launch - 1cr.
- CS6315 - Computer Science Innovations - 4cr.
- CS6316 - Commercial Software Engineering - 4cr.
- CS6330 - Data-Driven Programming Language Processing - 3cr.
- CS6460 - Usable Privacy and Security - 3cr.
- CS6470 - Introduction to Interactive Virtual Reality - 3cr.
- CS6600 - Intelligent Systems - 4cr.
- CS6615 - Natural Language Processing - 3cr.
- CS6620 - AI Applications In Education - 3cr.
- CS6630 - Fuzzy Logic and its Application - 3cr.
- CS6640 - Artificial Neural Networks - 3cr.
- CS6665 - Machine Learning for Data Science - 3cr.
- CS6675 - Advanced Data Mining - 3cr.
- CS6680 - Computer Vision: Foundations and Applications - 3cr.
- CS6710 - Software Security - 3cr.
- CS6715 - Program Analysis and Its Application - 3cr.
- CS6750 - Computing Education Research - 3cr.
- CS6800 - Advanced Database Systems - 3cr.
- CS6820 - Interactive Information Visualization for Data Science - 3cr.
- CS6830 - Data Science in Practice - 3cr.
- CS6840 - Graph Mining - 3cr.
- CS6850 - Introduction to Data Analysis - 3cr.
- CS6890 - Topics in Computer Science (Topic) - 1cr.

NOTE:

TEAMWORK Courses:

CS6030 HIGH PERFORMANCE COMPUTING
CS6110 MULTIAGENT SYSTEMS
CS6313 TECH STARTUP SOFTWARE ENGR
CS6316 COMMERCIAL SOFTWARE ENGR
CS6330 DATA-DRIVEN PL PROCESSING
CS6470 INTRO TO INTERACTIVE VR
CS6615 NATURAL LANGUAGE PROCESSING
CS6830 DATA SCIENCE IN PRACTICE

Mathematics/Statistics Requirements (9-10 credits)

Students must complete MATH1210 CALCULUS I (QL) (4 credits) and MATH3310 DISCRETE MATHEMATICS (3 credits) which are listed above in the "Computer Science Pre-Professional (PPRU) Program Courses" section.)

Computer Science majors must complete STAT3000 STATISTICS FOR SCIENTISTS (QI) (3 credits) and two MATH classes from the list below:

Fulfill ALL of the following requirements:

Required Math Course

Earn a minimum grade of C- in the following:

- STAT3000 - Statistics for Scientists (QI) - 3cr.

AND

Additional Math Course Requirement Options

Earn a minimum grade of a C- in the following:

Complete at least 2 of the following courses:

- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
- MATH4410 - Discrete Math 2 - 4cr.
- MATH5560 - Actuarial Financial Mathematics - 3cr.
- MATH5710 - Introduction to Probability - 3cr.

Science Requirement (6-8 credits)

Every bachelor degree candidate in the College of Science must complete a year-long sequence outside of their major department. All courses require a grade of C- or better. The approved sequences are:

Fulfill ANY of the following requirements:

Biology Option

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Option

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

OR

Geology Option

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
- GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.

OR

General Physics Option

Complete ALL of the following Courses:

- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.

OR

Physics for Scientists and Engineers Option

Complete ALL of the following Courses:

- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Consult with your academic advisor to ensure courses required for admission to the Professional Program are taken in the correct timeline. Discuss elective options with an advisor.

Fall semester of Year 3 is intended to be the beginning of the Professional Program.

Graduate

About this Degree

Program Contact:

Graduate Program Coordinator: Taryn Sommers, SER 301D, (435) 797-2209, taryn.sommers@usu.edu

Schedule an appointment: https://studentappts.usu.edu/ramonline/BookAppt?AG=1404

Program Description:

The Master of Computer Science (MCS) is a graduate program that is only coursework. This degree is available to students with a computer science undergraduate degree or adequate prior computer science coursework. Students will take 33 credits of computer science courses to complete this degree.

This program is available in Logan at the main campus and at statewide campuses via USU's Distance Education program.

MCS graduates demonstrate mastery of fundamental Computer Science theory and their ability to formulate a problem, analyze it, and develop an efficient and effective solution. Graduates will be successful in their careers, finding jobs, and progressing in their field. Graduates will have excellent oral as well as written communication skills.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (gradschool.usu.edu/admissions/policies). Students must also meet the minimum admission requirements for the Computer Science MCS program listed below.

- C or better in CS 2420 Data Structures and Algorithms (or equivalent) at an ABET accredited University.
- Extensive experience in modern programming languages.
- Understanding of Calculus and Statistics
- 3.0 Cumulative GPA in your BS program
- Three satisfactory Letters of Recommendation from past instructors and/or employers.

Additional Information

Letter of Recommendation Waiver:

- Students who attended USU and graduated with a major in Computer Science, and meet the minimum admission requirements, can request a "Letter of Recommendation waiver from the GPC, Taryn Sommers taryn.sommers@usu.edu.

After you apply:

- If you are currently in the Computer Science BS program at USU, please fill out the Split Form before graduation.

Transcripts:

- An unofficial transcript from your university is acceptable for your application. If accepted into the program, you will have to request an official transcript be sent to the School of Graduate Studies from your university. This transcript should include your completed program(s) and the date the degree(s) was awarded.

International Students:

- A TOEFL score of 79 or an IELTS score of 6.5 overall is required.
- Applicants who have completed two years of college in one of the countries listed here, will not be required to provide additional evidence of English language proficiency via the TOEFL or IELTS. Please email GPC, Taryn Sommers taryn.sommers@usu.edu to waive this requirement **after you have paid the application fee.**

Additional information about the Computer Science MS program may be obtained by visiting the program website at https://engineering.usu.edu/cs/students/graduate/.

33

Total Credits Required To Earn This Credential
33

Simple Requisites

Program Requirements

- **Degree Verification**: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- **Overall Graduate GPA at least 3.0 and grades of B- or better (in all degree-program coursework) are required:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree according to the School of Graduate Studies. Only grades of B- or better are accepted for the Computer Science MCS degree.
- **Course Number Acceptability:** The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000-level and must include at least 18 credits of 6000-level courses.
- **A master's degree must be completed within six years of entering the degree program.** Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- **Course Plan and Credits:** Students in the Computer Science MCS program are required to take 33 credits. This is a Coursework only degree.
- **CS5050/CS6050:** All CS graduate students are required to take CS5050/CS6050 or have taken a course equivalent of CS5050 with a grade of B- or above from an ABET-accredited university.
- **Master's forms:** Approval of the Program of Study is required by the School of Graduate Studies.

Master of Computer Science (33 credits)

Type
Completion Requirement

Required Course

Complete ALL of the following Courses:

- CS5050 - Advanced Algorithms - 3cr.
  OR CS6050 - Advanced Algorithms - 3cr.

Plan of Study (30 credits)

Complete the following:

- At least 21 credits of CS 6000-level courses or above are required for graduation excluding CS6250 COOPERATIVE WORK EXPERIENCE.
- Up to 12 credits of graduate coursework at the 5000-level are allowed.

  NOTE:

  · A maximum of 3 credits of CS6250 COOPERATIVE WORK EXPERIENCE are allowed.
  · A maximum of one course is allowed from the following list: CS5950 INDEPENDENT STUDY, CS6950 DIRECTED READINGS, **or** CS7950 READING AND REPORTS.
  · CS6900 SEMINAR, CS6970 THESIS AND RESEARCH, CS6990 CONT GRAD ADVISEMENT, CS7970 DISSERTATION RESEARCH, and CS7990 CONT GRAD ADVISEMENT are not allowed.
  · A maximum of 6 credits are allowed from outside the School of Computing. Outside credits must be from ECE, MATH, STAT, PSC6150 BIOINFORMATICS BIG DATA MINING, or SOC6150 SOCIAL STATISTICS II or any course upon request and departmental approval.

Program Description

The Computer Science MS is a graduate program with research faculty members whose expertise falls in the following areas: Artificial Intelligence, Computer Vision, Multi-Agent Systems, Data Science/Data Analysis/Data Mining, Database and Software Systems, Computer Security, Theoretical Computer Science, Visualization, Virtual Reality, and High Performance Computing. This degree is available to students with a computer science undergraduate degree or adequate prior computer science coursework. Students may pursue Plan A (Thesis) or Plan B (Report) to achieve their degree.

This program is available in Logan at the main campus and at statewide campuses via USU's Distance Education program.

Computer Science MS graduates demonstrate mastery of fundamental Computer Science theory and their ability to formulate a problem, analyze it, and develop an efficient and effective solution. Graduates will be successful in their careers, finding jobs, and progressing in their field. Graduates will have excellent oral as well as written communication skills. Graduates will demonstrate a contribution of new knowledge via a thesis or report and through original research culminating in publication.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (gradschool.usu.edu/admissions/policies). Students must also meet the minimum admission requirements for the Computer Science MS program listed below.

- C or better in CS 2420 Data Structures and Algorithms (or equivalent) at an ABET accredited University.

- A TOEFL score of 79 or an IELTS score of 6.5 overall is required.

- Applicants who have completed two years of college in one of the countries listed here, will not be required to provide additional evidence of English language proficiency via the TOEFL or IELTS. Please email GPC, Taryn Sommers taryn.sommers@usu.edu to waive this requirement **after you have paid the application fee.**

Additional information about the Computer Science MS program may be obtained by visiting the program website at https://engineering.usu.edu/cs/students/graduate/.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

- **Degree Verification**: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies
- **Overall Graduate GPA at least 3.0 and grades of B- or better (in all degree-program coursework) are required:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree according to the School of Graduate Studies. Only grades of B- or better are accepted for the Computer Science MS degree.
- **Course Number Acceptability**: The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000-level and must include at least 18 credits of 6000-level courses.
- **A master's degree must be completed within six years of entering the degree program**. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity**: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- **Course Plan and Credits:** Computer Science MS students may pursue Plan A (Thesis) or Plan B (Report) to achieve their degree. Students in the Computer Science MS Plan A program are required to take 30 credits, and students in the Computer Science MS Plan B program are required to take 33 credits.
- **CS5050/CS6050:** All CS graduate students are required to take CS5050/CS6050 or have taken a course equivalent of CS5050 with a grade of B- or above from an ABET-accredited university.
- **Master's forms:** Approval of the following MS forms is required by the School of Graduate Studies.

  Plan A Forms:

  ▪ Supervisory Committee Form

  ▪ Program of Study

  ▪ Thesis Proposal Approval

  ▪ Appointment for Exam

  ▪ Authorship & Copyright

  ▪ Format and Style

  ▪ Title Page

  ▪ Graduation Application

  ▪ Record of Exam

  Plan B Forms:

  ▪ Supervisory Committee Form

  ▪ Program of Study

  ▪ Thesis Proposal Approval

  ▪ Appointment for Exam

  ▪ Plan B Report/Creative Project Submission

  ▪ Graduation Application

  ▪ Record of Exam

Computer Science MS Plan A (30 credits)

Type
Completion Requirement

Plan A Requirements

Fulfill ALL of the following requirements:

Required Courses (9 credits)

Complete ALL of the following Courses:

- CS5050 - Advanced Algorithms - 3cr.
  OR CS6050 - Advanced Algorithms - 3cr.
- CS6970 - Thesis and Research - 1cr.

NOTE:

1. CS6970 THESIS AND RESEARCH - Enroll in 6 credits, and is typically taken the last 1-2 semesters.

AND

Program of Study Courses (30 credits)

Complete the following:
• At least **18 credits** of CS 6000-level courses or above are required for graduation excluding CS6250 COOPERATIVE WORK EXPERIENCE.
• Up to **12 credits** of graduate coursework at the 5000-level are allowed.

NOTE:

1. A maximum of 3 credits of CS6250 COOPERATIVE WORK EXPERIENCE are allowed.
2. A maximum of **one** course is allowed from the following list: CS5950 INDEPENDENT STUDY, CS6950 DIRECTED READINGS, or CS7950 READING AND REPORTS.
3. Additional credits of CS6970 THESIS AND RESEARCH are not allowed.
4. CS6990 CONT GRAD ADVISEMENT, CS7970 DISSERTATION RESEARCH and CS7990 CONT GRAD ADVISEMENT are not allowed.
5. A maximum of **6 credits** are allowed from outside the School of Computing. Outside credits must be from ECE, MATH, STAT, or any other course approved by a student's major professor.

AND

Research Requirements

Complete ALL of the following:
- Form a supervisory committee.
- Complete a graduate thesis proposal.
- Prepare a graduate thesis based on original work.
- Successfully defend and submit the thesis to the library.

Computer Science MS Plan B (33–34 credits)

Type
Completion Requirement

Plan B Requirements

Fulfill ALL of the following requirements:

Required Courses (6–7 credits)

Complete ALL of the following Courses:
- CS5050 - Advanced Algorithms - 3cr.
  OR CS6050 - Advanced Algorithms - 3cr.
- CS6970 - Thesis and Research - 1cr.

NOTE:

1. CS6970 THESIS AND RESEARCH - 2-3 credits, and is typically taken the last 1-2 semesters.

AND

Program of Study Courses (30 credits)

Complete the following:
- At least **18 credits** of CS 6000-level courses or above are required for graduation excluding CS6250 COOPERATIVE WORK EXPERIENCE.
- Up to **12 credits** of graduate coursework at the 5000-level are allowed.

NOTES:

1. A maximum of 3 credits of CS6250 COOPERATIVE WORK EXPERIENCE are allowed.
2. A maximum of **one** course is allowed from the following list: CS5950 INDEPENDENT STUDY, CS6950 DIRECTED READINGS, or CS7950 READING AND REPORTS.
3. Additional credits of CS6970 THESIS AND RESEARCH are not allowed.
4. CS6990 CONT GRAD ADVISEMENT, CS7970 DISSERTATION RESEARCH and CS7990 CONT GRAD ADVISEMENT are not allowed.
5. A maximum of **6 credits** are allowed from outside the School of Computing. Outside credits must be from ECE, MATH, STAT, or any other course approved by a student's major professor.

AND

Research Requirements

Complete ALL of the following:
- Form a supervisory committee.
- Complete a graduate thesis proposal.
- Prepare a graduate thesis based on original work.
- Successfully defend and submit the thesis to the library.

About this Degree

Program Contact:

Graduate Program Coordinator: Taryn Sommers, SER 301D, (435) 797-2209, taryn.sommers@usu.edu

Schedule an appointment: https://studentappts.usu.edu/ramonline/BookAppt?AG=1404

Program Description

The Computer Science PhD is a graduate program with research faculty members whose expertise falls in the following areas: Artificial Intelligence, Computer Vision, Multi-Agent Systems, Data Science/Data Analysis/Data Mining, Database and Software Systems, Computer Security, Theoretical Computer Science, Visualization, Virtual Reality, and High Performance Computing. This degree is available to students with a computer science master's degree, a computer science undergraduate degree, or adequate prior computer science coursework. Students will pursue Plan A (dissertation) to achieve their degree.

This program is available in Logan at the main campus.

Computer Science PhD graduates demonstrate mastery of fundamental Computer Science theory and their ability to formulate a problem, analyze it, and develop an efficient and effective solution. Graduates will be successful in their careers, finding jobs, and progressing in their field. Graduates will have excellent oral as well as written communication skills. Graduates will demonstrate a contribution of new knowledge via a thesis or report and through original research culminating in publication.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (gradschool.usu.edu/admissions/policies). Students must also meet the minimum admission requirements for the Computer Science MS program listed below.

- C or better in CS 2420 Data Structures and Algorithms (or equivalent) at an ABET accredited University.
- Extensive experience in modern programming languages.
- Understanding of Calculus and Statistics
- 3.0 Cumulative GPA in your BS program
- Three satisfactory Letters of Recommendation from past instructors and/or employers.
- **To be accepted into the program you must find a faculty member to be your mentor.**

Additional Information

Transcripts:

- An unofficial transcript from your university is acceptable for your application. If accepted into the program, you will have to request an official transcript be sent to the School of Graduate Studies from your university. This transcript should include your completed program(s) and the date the degree(s) was awarded.

International Students:

- A TOEFL score of 79 or an IELTS score of 6.5 overall is required.
- Applicants who have completed two years of college in one of the countries listed here, will not be required to provide additional evidence of English language proficiency via the TOEFL or IELTS. Please email GPC, Taryn Sommers taryn.sommers@usu.edu to waive this requirement after you have paid the application fee.

Funding:

- Funding, in the form of a Graduate Teaching Assistantship (GTA), is available for our top applicants contingent on department funding.
- Graduate Research Assistantships (GRAs) are sometimes available. They come directly from individual faculty members who need students for research. Contact the faculty via email.

Additional information about the Computer Science MS program may be obtained by visiting the program website at https://engineering.usu.edu/cs/students/graduate/.

Simple Requisites

Program Requirements

- **Degree Verification**: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- **Overall Graduate GPA at least 3.0 and grades of B- or better (in all degree-program coursework) are required:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree according to the School of Graduate Studies. Only grades of B- or better are accepted for the Computer Science PhD degree.
- **Course Number Acceptability:** The program of study for a PhD degree cannot include more than 12 semester credits of courses below the 6000-level and must include at least 12 credits of 6000-level courses for the PhD with an MS Plan or 21 credits of 6000-level courses for the PhD with a Bachelor's plan.
- **A PhD degree must be completed within eight years of entering the degree program.** Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- **Course Plan and Credits:** PhD students with an MS degree are required to take 40 credits. PhD students with a BS degree are required to take 70 credits.
- **CS5050/CS6050:** All CS graduate students are required to take CS5050/CS6050 or have taken a course equivalent of CS5050 with a grade of B- or above from an ABET-accredited university.
- **Required courses:** Students must take one class in each of the following course areas: Foundations, Data Analytics, or Applications/Systems. Students who already have an MS degree may request a waiver for one or more of the required Foundations, Data Analytics, or Applications/Systems courses.

- **PhD forms:** Approval of the following PhD forms is required by the School of Graduate Studies.

Plan A Dissertation:

- Supervisory Committee Form
- Program of Study
- Application of Candidacy
- Appointment for Exam
- Authorship & Copyright
- Format and Style
- Title Page
- Graduation Application
- Record of Exam

Computer Science PhD with an MS (40 credits)

Type
Completion Requirement

Required Courses (21 credits)

Complete ALL of the following Courses:

- CS5050 - Advanced Algorithms - 3cr.
  OR CS6050 - Advanced Algorithms - 3cr.
- CS6970 - Thesis and Research - 1cr.

NOTE:

- 18 credits of CS 7970- Typically taken after the first year. Only 6 credits of 7970 are allowed before passing the qualifying exam.

Foundations (3-4 credits)

Complete at least 1 of the following courses:

- CS5000 - Theory of Computability - 3cr.
- CS5050 - Advanced Algorithms - 3cr.
- CS5300 - Compiler Construction - 4cr.
- CECS5700 - Continuing Education Unit: Special Topics in Computer Science - 0.05cr.
- CS5800 - Introduction to Database Systems - 3cr.
- CS6030 - High Performance Computing - 4cr.
- CS6215 - Computer Networks and Security - 3cr.
- CS6615 - Natural Language Processing - 3cr.
- CS6800 - Advanced Database Systems - 3cr.
- CS6890 - Topics in Computer Science (Topic) - 1cr.

Data Analytics (3-4 credits)

Complete at least 1 of the following courses:

- CS5080 - Data Mining - 3cr.
- CS6040 - Scientific Visualization for Data Science - 3cr.
- CS6640 - Artificial Neural Networks - 3cr.
- CS6665 - Machine Learning for Data Science - 3cr.
- CS6675 - Advanced Data Mining - 3cr.
- CS6820 - Interactive Information Visualization for Data Science - 3cr.
- CS6830 - Data Science in Practice - 3cr.
- CS6840 - Graph Mining - 3cr.
- CS6850 - Introduction to Data Analysis - 3cr.
- CS6890 - Topics in Computer Science (Topic) - 1cr.

Applications/Systems (3-4 credits)

Complete at least 1 of the following courses:

- CS5410 - Game Development - 4cr.
- CS6110 - MultiAgent Systems - 4cr.
- CS6140 - Human Factors in Computing - 3cr.
- CS6270 - Introduction to Cloud Development - 3cr.
- CS6330 - Data-Driven Programming Language Processing - 3cr.
- CS6460 - Usable Privacy and Security - 3cr.
- CS6470 - Introduction to Interactive Virtual Reality - 3cr.
- CS6600 - Intelligent Systems - 4cr.
- CS6620 - AI Applications In Education - 3cr.
- CS6630 - Fuzzy Logic and its Application - 3cr.
- CS6680 - Computer Vision: Foundations and Applications - 3cr.
- CS6710 - Software Security - 3cr.
- CS6715 - Program Analysis and Its Application - 3cr.
- CS6750 - Computing Education Research - 3cr.
- CS6890 - Topics in Computer Science (Topic) - 1cr.

Program of Study Courses (21 credits)

Complete the following:

- At least 12 credits of CS 6000-level courses or above are required for graduation, excluding CS6250 and CS7970.
- The remaining credits required by the degree may be fulfilled by taking additional credits of graduate coursework at the 5000-level or above, or additional credits of CS7970.

NOTES:

- Up to 9 credits of 5000-level courses are allowed.
- Up to 3 credits of CS6250 are allowed.
- A maximum of one course is allowed from the following list: CS5950 , CS6950, or CS7950.
- CS6970, CS6990, and CS7990 are not allowed.
- A maximum of 9 credits are allowed from outside the School of Computing. Outside credits must be from ECE, MATH, STAT, or any other course approved by a student's major professor.

Research Requirements

Complete ALL of the following:

- Form a supervisory committee.
- Pass a practice defense qualifying exam demonstrating depth of knowledge in the student's area(s) of emphasis.
- Successfully complete and defend a research proposal.
- Publish research in peer-reviewed venues approved by the major professor.
- Prepare a dissertation.
- Successfully defend and submit the dissertation to the library.

Computer Science PhD with a BS (70 credits)

Type
Completion Requirement

Required Courses (21 credits)

Complete ALL of the following Courses:

- CS5050 - Advanced Algorithms - 3cr.
  OR CS6050 - Advanced Algorithms - 3cr.
- CS6970 - Thesis and Research - 1cr.

NOTE:

- 18 credits of CS7970 - Typically taken after the first year. Only 6 credits of 7970 are allowed before passing the qualifying exam.

Foundations (3-4 credits

Complete at least 1 of the following courses:

- CS5000 - Theory of Computability - 3cr.
- CS5050 - Advanced Algorithms - 3cr.
- CS5300 - Compiler Construction - 4cr.
- CS5700 - Object-Oriented Software Development - 4cr.
- CS5800 - Introduction to Database Systems - 3cr.
- CS6030 - High Performance Computing - 4cr.
- CS6215 - Computer Networks and Security - 3cr.
- CS6615 - Natural Language Processing - 3cr.
- CS6800 - Advanced Database Systems - 3cr.
- CS6890 - Topics in Computer Science (Topic) - 1cr.

Data Analytics (3-4 credits)

Complete at least 1 of the following courses:

- CS5080 - Data Mining - 3cr.
- CS6040 - Scientific Visualization for Data Science - 3cr.
- CS6640 - Artificial Neural Networks - 3cr.
- CS6665 - Machine Learning for Data Science - 3cr.
- CS6675 - Advanced Data Mining - 3cr.
- CS6820 - Interactive Information Visualization for Data Science - 3cr.
- CS6830 - Data Science in Practice - 3cr.
- CS6840 - Graph Mining - 3cr.
- CS6850 - Introduction to Data Analysis - 3cr.
- CS6890 - Topics in Computer Science (Topic) - 1cr.

Applications/Systems (3-4 credits)

Complete at least 1 of the following courses:

- CS5410 - Game Development - 4cr.
- CS6110 - MultiAgent Systems - 4cr.
- CS6140 - Human Factors in Computing - 3cr.
- CS6270 - Introduction to Cloud Development - 3cr.
- CS6330 - Data-Driven Programming Language Processing - 3cr.
- CS6460 - Usable Privacy and Security - 3cr.
- CS6470 - Introduction to Interactive Virtual Reality - 3cr.
- CS6600 - Intelligent Systems - 4cr.
- CS6620 - AI Applications In Education - 3cr.
- CS6630 - Fuzzy Logic and its Application - 3cr.
- CS6680 - Computer Vision: Foundations and Applications - 3cr.
- CS6710 - Software Security - 3cr.
- CS6715 - Program Analysis and Its Application - 3cr.
- CS6750 - Computing Education Research - 3cr.
- CS6890 - Topics in Computer Science (Topic) - 1cr.

Program of Study Courses (51 credits)

Complete the following:

- At least **21 credits** of CS 6000-level courses or above are required for graduation excluding CS6250 and CS7970.
- The remaining **30 credits** required by the degree may be fulfilled by taking additional credits of graduate coursework at the 5000-level or above, or additional credits of CS7970.

NOTES:

- Up to 12 credits of 5000-level courses are allowed.
- Up to 3 credits of CS6250 are allowed.
- A maximum of one course is allowed from the following list: CS5950 , CS6950, or CS7950.
- CS6970, CS6990, and CS7990 are not allowed.
- A maximum of 9 credits are allowed from outside the School of Computing. Outside credits must be from ECE, MATH, STAT, or any other course approved by a student's major professor.

Cosmetology - AAS

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Associate of Applied Science in Cosmetology degree is intended to build upon the state-aligned technical education curriculum and provide valuable training for cosmetologists throughout the state. The program leverages the 36-credit licensure to allow students to pursue additional professional development, business skills, or teaching licensure to ensure that their training will be most beneficial to them after graduation.

Admission Requirements for this Program

Students must have completed a Technical Certificate in Cosmetology or have a cosmetology license.

Program Requirements

Program Requirements

Cosmetology - AAS Course Requirements

Type
Completion Requirement

General Education Requirements

Complete ALL of the following Course Sets:

- Communications Literacy (CL1) Course
- Quantitative Literacy (QL) Course
- Breadth Humanities (BHU) Course
  OR Breadth American Institutions (BAI) Course
  OR Breadth Life Sciences (BLS) Course
  OR Breadth Creative Arts (BCA) Course
  OR Breadth Social Sciences (BSS) Course
  OR Breadth Physical Sciences (BPS) Course

BUSN1010 BUSINESS PRINCIPLES (BSS) is recommended and will fulfill the Breadth Social Science requirement.

Core Requirement Elective Courses

Students may also take general education courses. Business courses are recommended, see advisor for details.

Earn at least 18 credits from the following:

- COST2600 - Eyelash Technology - 3cr.
- COST2610 - Spray Tanning - 1cr.
- COST2620 - Body Waxing - 1cr.
- COST2700 - Student Instructor - 1cr.
- COST2800 - Nail Technician - 9cr.
  OR TENT1110 - Nail Technician I - 4cr.
- COST2977 - Internship Experience - 3cr.
- COST2988 - Special Problems - 1cr.

Cosmetology Technical Certificate or Active Cosmetology Licensure (36 credits)

If student has a cosmetology license, please see advisor for details.

Complete ALL of the following Courses:

- TECS1005 - Design Basics - 3cr.
- TECS1020 - Barbering Basics - 2cr.
- TECS1030 - Cosmetology and Hair Design Chemical Services Basics - 3cr.
- TECS1080 - Esthetics Basics - 2cr.
- TECS1090 - Nails Basics - 2cr.
- TECS2900 - Cosmetology/Barbering Clinical I - 3cr.
- TECS1050 - Cosmetology and Barbering Intermediate Theory and Practice - 3cr.
- TECS1060 - Professional Development and Industry, State Laws, and Specific Continuing Education - 3cr.
- TECS2320 - Progressive Training and Skills III - 3cr.
- TECS2310 - Progressive Training and Skills II - 3cr.
- TECS2910 - Cosmetology/Barbering Clinical II - 3cr.
- TECS2920 - Cosmetology/Barbering Clinical III - 3cr.
- TECS2930 - Cosmetology/Barbering Clinical IV - 3cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Associate Degrees)

Program Learning Outcomes

Program Learning Outcomes

- Demonstrate principles and cosmetology/barbering skills: shampooing, arranging, dressing, curling, styling, men and women haircutting, straight razor shaving, hair extensions, chemical texture services, haircoloring, skin care, nail services, and other concepts essential to becoming a successful cosmetologist/barber.
- Demonstrate principles and practices related to nail technology skills, manicuring, pedicuring, gel, and acrylic application, manual and electric filing, polishing, nail removal, client consultation and other concepts essential to becoming a successful nail technician.
- Demonstrate principles and practices related to esthetics and facial treatments.
- Explain general sciences related to cosmetology/barbering such as anatomy, infection control, hair structure, skin and nail structure, diseases and disorders, chemistry and electricity.
- Demonstrate salon processes and etiquette with sanitation procedures necessary for the health and safety of clients and workers.
- Perform cosmetology/barbering services on mannequins and public guests.
- Communicate effectively

Cosmetology - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Cosmetology Program is designed to prepare students for employment in cosmetology, barbering, and hair design, as well as skin and nail care. This program prepares students for employment in a salon and/or to open a new salon or barbering business. Students in this program develop communication, professional behavior, and other core skills for working in this profession. Students work with guests in a well-equipped lab and perform these skills with the newest techniques, products, and equipment available in the industry. Students learn to communicate with customers, analyze skin, hair, and nails, and perform the duties of hair cutting, coloring, styling, chemical texture services, basic skin and nail care, and hair extension procedures.

Upon completion of the program, students are prepared to take the National Interstate Council of State Boards of Cosmetology/Barbering Licensure, and examination required for licensure.

***Additional application required, check with advisor for details and deadlines.**

- PSC3700 - Plant Propagation - 4cr.
- PSC3600 - An Introduction to Plant Breeding and Heredity - 3cr.

Course Options

Type
Completion Requirement

Select the balance of credits from the following courses.

Fulfill ALL of the following requirements:

Production Courses

at least one production course is required

Complete at least 1 of the following courses:

- PSC4280 - Field and Food Cropping Systems - 3cr.
- PSC4320 - Forage Production and Pasture Management - 3cr.
- PSC4400 - Modern Vegetable Production - 3cr.
- PSC5222 - Temperate Zone Fruit Production - 3cr.

AND

Additional Course Options

Complete ANY of the following Courses:

- PSC3500 - Structure and Function of Plants - 3cr.
- PSC5201 - Hydroponics - 3cr.
- PSC5270 - Environmental Plant Physiology - 2cr.
- PSC5333 - Plant-Microbe Interactions - 3cr.
- PSC5550 - Fundamentals of Integrated Weed Management - 4cr.
- PSC5720 - Advanced Plant Breeding - 3cr.

Conservation and Restoration Ecology - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Wildland Resources

Program Level
Undergraduate

About this Degree

Conservation and restoration ecology involves conserving, maintaining, and recovering ecological systems and enriching the lives of their inhabitants. The conservation and restoration ecology major teaches students to use ecological principles to maintain healthy ecosystems and to restore terrestrial systems, such as forests, rangelands, wildlands, and grasslands that have been damaged or eliminated through overuse, neglect, or disaster.

- For more information about Conservation and Restoration Ecology, see the website.
- Admitted and current students must meet with an academic advisor for help with semester by semester planning, connections to co-curriculum experiences, understanding of USU policies, and accessing USU resources.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT2000 STATISTICAL METHODS (QI) **or** STAT3000 STATISTICS FOR SCIENTISTS (QI)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
101

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses required for the major must be taken on an A-B-C-D-F basis. A grade of C- or better is required for all courses taken in the major department, as well as STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI) The grade point average for all courses taught by the Quinney College of Natural Resources must be 2.5 or higher.

Conservation and Restoration Ecology Required Courses

Type
Completion Requirement

CI1/CL2 Requirements (6 credits)

Complete ALL of the following Courses:

- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.

Scientific Foundation (25-27 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
- WATS2220 - General Ecology - 3cr.

Scientific Foundation continued

Select one chemistry track to fulfill this requirement

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- CHEM1110 - General Chemistry I (BPS) - 4cr.
- CHEM1120 - General Chemistry II (BPS) - 4cr.
- CHEM1125 - General Chemistry II Laboratory - 1cr.

OR

Option 2

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

Departmental Common Courses (25 credits)

Complete ALL of the following Courses:

- WILD2800 - Introduction to Geographic Information Sciences - 4cr.
  OR GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
- WILD2000 - Natural Resource Professional Orientation - 1cr.
  OR ENVS2000 - Natural Resource Professional Orientation - 1cr.
  OR WATS2000 - Natural Resource Professional Orientation - 1cr.
- WILD2400 - Wildland Resource Techniques - 3cr.
- WILD3600 - Advanced Plant Identification and Terminology - 3cr.
  OR WILD3820 - Forest Plants: Identification, Biology, and Function - 3cr.
  OR WILD3830 - Range Plant Taxonomy and Function - 3cr.
- WILD3810 - Wildlife Population Ecology - 3cr.
- WILD3800 - Wildland Plants and Ecosystems - 4cr.
- WILD3850 - Vegetation and Habitat Management - 3cr.
- WILD4750 - Monitoring and Assessment in Natural Resource and Environmental Management - 4cr.

Degree Program Courses (15 credits)

Complete ALL of the following Courses:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource

Management (DSS) - 3cr.
- WILD4600 - Conservation Biology - 3cr.
- WILD4700 - Ecological Foundations of Restoration - 3cr.

Required Program Electives: 21 credits

Complete the following:
Students should work with the faculty and their academic advisor for course selection and approval.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative
- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Cultural Resource Management Policy, Advocacy and Business Administration - Post-Bachelor's Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Graduate

About this Degree

The Post-Bachelor's Certificate in Cultural Resource Management (CRM) Policy, Advocacy, and Administration is designed to prepare both fully matriculated graduate students as well as current professionals in the field wishing to enhance their portfolios to understand and implement CRM policy and business skills within the context of cultural resource management activities. The certificate combines graduate level anthropology courses with courses offered in the School of Business. This certificate may be earned as a stand-alone certification or as part of the USU Anthropology Graduate Program.

Students who complete the program will receive a certificate in Cultural Resource Management Policy, Advocacy, and Administration. Their USU transcript will list the courses and grades received to complete the program.

Graduate Program Directors: Dr. Judson Finley and Dr. Jacob Freeman

Admission Requirements for this Program

To apply for admittance to the program, a person must complete and submit an application to the School of Graduate Studies. Academic credits obtained from the program may be applied toward a graduate degree.

To apply, the School of Graduate Studies requires:

1. A bachelor's degree that is or will be completed before the student matriculates in the degree program.
2. A 3.0 or higher grade-point average for terms that include the student's last 60 semester credits or 90 quarter credits.
3. Resume/CV
4. International applicants are required to submit proof of proficiency in English.

For additional information on admissions and application procedure, please see:

https://gradschool.usu.edu/admissions/

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

Students must complete six core courses (3 credits each) in order to fulfill the requirements for the Cultural Resource Management Policy, Advocacy, and Administration - Post-Bachelor's Certificate.

A minimum 3.0 GPA for program courses must be maintained. Course grades less than a B (B- and below) do not count toward the certificate.

Cultural Resource Management Policy, Advocacy and Business Administration - Post-Bachelor's Certificate

Type
Completion Requirement

Core Courses (18 credits)

Students have the option to customize their certificate curriculum with the permission of the Graduate Program Director(s). Courses not included in the list below must be authorized by the Graduate Program Director(s).

Complete ALL of the following Courses:

- ACCT6350 - Accounting for Management Decision Making - 3cr.
- ANTH6390 - Cultural Resources Management Policy - 3cr.
- ANTH6400 - Collections Management - 1cr.
- ANTH6410 - Writing for Archaeologists - 3cr.
- ANTH6460 - Engaging Communities in Archaeology - 3cr.
- MSLE6410 - Enterprise and Value Creation - 3cr.

Computer Science Cloud Computing - Institutional Certificate of Proficiency

Program Overview

College
College of Engineering

Department
School of Computing

Program Level
Undergraduate

About this Degree

The USU School of Computing provides a variety of learning opportunities to earn certificate specializations through USU's online program. All the courses needed to earn these certificates are available online, meaning students can live anywhere and work on these certificates.

Among the certificates there is some overlap with the course requirements. Students who wish to pursue multiple certificates will benefit greatly from that overlap. For example, a student who completes the Software Development certificate only needs to complete two more classes (6 credits) for the Web & Mobile Developer certificate. The Cloud Computing certificate only requires one class (3 credits) on top of the Software Development certificate. The Computer Science Teaching - Level II certificate only requires two classes (6 credits) on top of the Computer Science Teaching - Level I certificate.

The Cloud Computing certificate introduces students to the tools, techniques, and skills necessary to build cloud computing applications. These are applications that utilize cloud computing resources such as Amazon Web Services (AWS) or Microsoft Azure. Students earning this certification are prepared to design and implement reliable, durable, scalable, and high-availability software applications. Students come away with the following skills and outcomes:

- All those listed for the Computer Science Software Development certificate.
- Learn about the different types of cloud services for computation, information storage and retrieval, communications, security, software development, and more.
- Develop skills with at least one suite of services in sufficient detail to know how to apply those services to create real solutions for real problems.

Climate Science - MS

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Graduate

About this Degree

Climate Science is the study of the atmosphere, land, water cycle and how they interact and change. USU is the only university in the region that offers a degree in Climate Science. This degree offers specializations in climate dynamics, hydroclimate modeling, micro-meteorology, and turbulence in plant canopies.

The Climate Adaptation Science Specialization is offered as an interdepartmental program.

Graduate Program Director: Dr. Jeanette Norton

E-mail: jeanette.norton@usu.edu

Admission Requirements for this Program

Prior to applying, the potential applicant must have a qualified PSC faculty member agree to accept them into their laboratory and be their major (supervisory) professor. Contact Dr. Jeanette Norton with questions.

General Requirements

All prospective graduate students must apply through the School of Graduate Studies. Refer to the School of Graduate Studies website for admission requirements. Please note that all applicants must meet the following general admission requirements:

- A bachelor's degree from an accredited college
- A 3.0 GPA as calculated by the School of Graduate Studies. An official transcript must be sent directly to the School of Graduate Studies from each college or university previously attended (except USU).
- Student recommendation request forms (included in application materials) should be used to request three people to submit letters of recommendation directly to the graduate school. Two letters of recommendation should be from faculty from whom you have taken course work.
- International Students: Please visit the School of Graduate Studies website for requirements.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability

The Program of Study for a master's degree must include at least 15 semester credits at the level of 6000 or above.

Credits in the following areas are not acceptable in a degree program: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Matriculation Start Semester
A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity
Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Thesis Research Credits 6970

Master's Plan A students: The Plan A option requires the preparation and defense of a thesis. Students are required to complete a minimum of 6 semester credits of thesis research (PSC6970 RESEARCH AND THESIS) that will be applied toward a Program of Study.

Master's Plan B students:
A Plan B option requires the production and defense of a paper or project. Students are required to complete a minimum of 2 credits of thesis research (PSC6970 RESEARCH AND THESIS) with a maximum of 3 thesis research credits applied toward a Program of Study.

Professional/Plan C students cannot use any thesis/dissertation credits.

Master's Forms

Master's forms: Approval of the following academic forms is required for master's students by the School of Graduate Studies (SGS):

- Supervisory Committee
- Program of Study
- Thesis/Project Approval
- Appointment for Examination
- Record of Examination
- SGS and library review and approval (Plan A)
- Library review and approval (Plan B)

Degree Requirements

Minimum Total Credits

The minimum requirement for a master's degree is 30 semester credits.

Course requirements leading to MS degrees are developed jointly by the student and the student's supervisory committee. Each student must have a Program of Study approved by their supervisory committee.

The following are required:

- 15 credits minimum of committee-approved 6000-7000 level courses
    - including 2 credits of Plants, Soils and Climate Graduate seminar (PSC6890 PSC GRADUATE SEMINAR)

(5000 level courses are considered upper-division and up to 12 credits may be used in a graduate program if approved by the supervisory committee)

- 2-15 credits of Thesis Research credits (PSC6970 RESEARCH AND THESIS) depending on plan type.
    - Plan A - minimum of 6 credits, maximum of 15 credits
    - Plan B - minimum of 2 credits, maximum of 3 credits

Course selections reflect areas of specialization. Designation of a specialization is optional. Official specializations will appear on transcript. There are additional specific departmental requirements regarding physical sciences, biological sciences, and mathematics courses, which differ depending on the program and area of specialization.

All MS students write a Plan A thesis or create a Plan B project under the guidance of their advisor and supervisory committee. The master's thesis must be successfully defended before the supervisory committee and submitted to the library.

Required Courses

Type
Completion Requirement

Graduate Seminar

Earn at least 2 credits from the following:

- PSC6890 - Plants, Soils, and Climate Graduate Seminar - 1cr.

Thesis Research Credits (Plan A)

Earn at least 6 credits from the following:

- PSC6970 - Research and Thesis - 1cr.

Thesis Research Credits (Plan B)

Earn at least 2 credits from the following:

- PSC6970 - Research and Thesis - 1cr.

Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability
The Program of Study for a doctoral degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above. If the student does not have a master's degree, the Program of Study must include at least 30 credits at the level of 6000 or above.

Credits in the following areas are not acceptable in a degree program: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Matriculation Start Semester
A doctorate must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity
Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is re-validated.

Thesis Research Credits 7970
A minimum of 12 dissertation credits (7970) is required if the student has a master's degree, and a minimum of 18 is required if the student has a bachelor's degree.

Doctoral Forms

Doctoral forms: Approval of the following academic forms required for doctoral students by the School of Graduate Studies (SGS):

- Supervisory Committee
- Program of Study
- Application for Candidacy (includes proposal)
- Appointment for Examination
- Record of Examination
- Authorship and Copyright
- Style and Format
- SGS and library review and approval

Qualifying Exams

- Each Ph.D. student must undergo some sort of qualifying experience. Depending on the student's particular research and their faculty committee, the exam can either be a traditional oral and written exam, a scholarly proposal, or another option best suited to the student's individual situation.

Degree Requirements

Minimum Total Credits

Doctoral degrees generally require 30 academic credits beyond a master's degree or 60 academic credits beyond a bachelor's degree. The credit amounts are determined by the approved Program of Study.

Course requirements leading to Ph.D. degrees are developed jointly by the student and the student's supervisory committee. Each student must have a Program of Study approved by their supervisory committee.

The following are required:

- Ph.D. (post-master's):
    - 15 credits minimum of committee-approved 6000-7000 level courses
        - including 2 credits of Plants, Soils and Climate Graduate seminar (PSC7890 PSC GRADUATE SEMINAR)
- Ph.D. (post-baccalaureate):
    - 30 credits minimum of committee-approved 6000-7000 level courses
        - including 2 credits of Plants, Soils and Climate Graduate seminar (PSC7890 PSC GRADUATE SEMINAR)

(5000 level courses are considered upper-division and up to 12 credits may be used in a graduate program if approved by the supervisory committee)

- Thesis Research credits (PSC7970 RESEARCH AND THESIS)
    - If student has master's degree - minimum of 12 credits
    - If student has a bachelor's degree - minimum of 18 credits

Course selections reflect areas of specialization. Designation of a specialization is optional. Official specializations will appear on transcript. There are additional specific departmental requirements regarding physical sciences, biological sciences, and mathematics courses, which differ depending on the program and area of specialization.

All Ph.D. students write a dissertation under the guidance of their advisor and supervisory committee. The doctoral dissertation must be successfully defended before the supervisory committee and submitted to the library.

Degree Requirements

Type
Completion Requirement

PhD (post-master's)

Earn at least 2 credits from the following:
- PSC7890 - Plants, Soils, and Climate Graduate Seminar - 1cr.

PhD (bost-baccalaureate)

Earn at least 2 credits from the following:
- PSC7890 - Plants, Soils, and Climate Graduate Seminar - 1cr.

If student has a master's degree

Earn at least 12 credits from the following:
- PSC7970 - Research and Thesis - 1cr.

If student has a bachelor's degree

Earn at least 18 credits from the following:
- PSC7970 - Research and Thesis - 1cr.

Computer Science Software Development - Institutional Certificate of Proficiency

Program Overview

College
College of Engineering

Department
School of Computing

Program Level
Undergraduate

About this Degree

The USU School of Computing provides a variety of learning opportunities to earn certificate specializations through USU's online program. All the courses needed to earn these certificates are available online, meaning students can live anywhere and work on these certificates.

Among the certificates there is some overlap with the course requirements. Students who wish to pursue multiple certificates will benefit greatly from that overlap. For example, a student who completes the Software Development certificate only needs to complete two more classes (6 credits) for the Web & Mobile Developer certificate. The Cloud Computing certificate only requires one class (3 credits) on top of the Software Development certificate. The Computer Science Teaching - Level II certificate only requires two classes (6 credits) on top of the Computer Science Teaching - Level I certificate.

This certificate targets displaced workers from other fields and gives them a realistic pathway for obtaining an entry-level position as a software programmer or tester, as well as providing a foundation for other certificates or for a future bachelor's degree in computer science. Specific skills and outcomes as a result of this teaching certificate include:

- An ability to analyze a problem, identify, and define the computing requirements appropriate to its solutions.
- An understanding of professional, ethical, legal, security, social issues, and responsibilities.
- A basic ability to design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- An ability to use the Python programming language.
- An ability to use the Java programming language.
- Learn about algorithm analysis techniques, asymptotic notation, data structures, sorting algorithms, and graph algorithms.

About this Degree

The USU School of Computing provides a variety of learning opportunities to earn certificate specializations through USU's online program. All the courses needed to earn these certificates are available online, meaning students can live anywhere and work on these certificates.

Among the certificates there is some overlap with the course requirements. Students who wish to pursue multiple certificates will benefit greatly from that overlap. For example, a student who completes the Software Development certificate only needs to complete two more classes (6 credits) for the Web & Mobile Developer certificate. The Cloud Computing certificate only requires one class (3 credits) on top of the Software Development certificate. The Computer Science Teaching - Level II certificate only requires two classes (6 credits) on top of the Computer Science Teaching - Level I certificate.

This certificate provides the foundational knowledge a currently licensed teacher needs in order to teach introductory computer science classes at the elementary and secondary education levels. A student should check with their licensing agency to determine how these courses apply in their specific circumstances. Specific skills and outcomes as a result of this teaching certificate include:

- An ability to analyze a problem, identify, and define the computing requirements appropriate to its solutions.
- An understanding of professional, ethical, legal, security, social issues, and responsibilities.
- A basic ability to design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- An ability to use the Python programming language.
- An ability to use the Java programming language.
- Learn methods for teaching computer science to high school students.

Computer Science Teaching - Minor

Program Overview

College
College of Engineering

Department
School of Computing

Program Level
Undergraduate

About this Degree

The School of Computing at Utah State University offers the Computer Science Teaching Minor program. This minor is important for Utah schools because:

- Utah schools are actively seeking good Computer Science Teachers.
- The Utah State Board of Education (USBE) has established Computer Science Standards for grades K-12 and there is a shortage of teachers endorsed to teach these standards.
- Computer Science is a great teaching combination with math, science, and business.

Program Requirements

Total Credits Required In Program Coursework
20

Total Credits Required To Earn This Credential
20

Simple Requisites

Program Requirements

All courses counted toward the minor must be completed with a grade of C or better. The overall GPA for the Computer Science Teaching - Minor courses must be at least 2.5.

Section 1

Type
Completion Requirement

Required Courses (20 credits)

Earn a minimum grade of C in the following:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
- CS2410 - Introduction to Event Driven Programming and GUI's - 3cr.
- CS2420 - Algorithms and Data Structures--CS 3 (QI) - 3cr.
- CS2610 - Developing Dynamic, Database-Driven Web Applications - 3cr.
- CS4350 - Computer Science Teaching Methods - 3cr.
- SCED3300 - Clinical Experience I - 1cr.

Section 2

Type
Completion Requirement

Additional Comments:

Teaching Endorsements

Successfully completing this minor as part of an elementary or secondary education degree will satisfy the requirements to earn the following teaching endorsements:

- Intro to Computer Science
- Programming and Software Development
- Web Development

Computer Science Web & Mobile Developer - Institutional Certificate of Proficiency

Program Overview

College
College of Engineering

Department
School of Computing

Program Level
Undergraduate

About this Degree

The USU School of Computing provides a variety of learning opportunities to earn certificate specializations through USU's online program. All the courses needed to earn these certificates are available online, meaning students can live anywhere and work on these certificates.

Among the certificates there is some overlap with the course requirements. Students who wish to pursue multiple certificates will benefit greatly from that overlap. For example, a student who completes the Software Development certificate only needs to complete two more classes (6 credits) for the Web & Mobile Developer certificate. The Cloud Computing certificate only requires one class (3 credits) on top of the Software Development certificate. The Computer Science Teaching - Level II certificate only requires two classes (6 credits) on top of the Computer Science Teaching - Level I certificate.

This certificate builds on the Software Development certificate by providing additional breadth in the development of web and mobile applications. A particular focus on event driven user interfaces comes first, followed by specific application areas for web and mobile computing. This certificate enables one to have the necessary skills for an entry-level position as a web or mobile software developer. Students come away with the following skills and outcomes:

- Learn to develop secure, dynamic, database-driven web applications.
- Learn to create web pages and mobile applications featuring interactive capabilities using client and server side technologies.
- Gain experience in applying techniques of information representation, storage, retrieval, and transmission in Internet-based environments.
- Gain skills in using tools and practices of professionals for designing, developing, debugging and delivering web and mobile applications.
- An ability to analyze a problem, identify, and define the computing requirements appropriate to its solutions.
- An understanding of professional, ethical, legal, security, social issues, and responsibilities.
- A basic ability to design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- An ability to use the Python and Java programming languages.

College Teaching - Post-Bachelor's Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Graduate

About this Degree

The College Teaching Post-Bachelor's Certificate is designed for educators aiming to enhance their expertise in curriculum design, evaluation, and advanced teaching strategies. This 100% online program focuses on key instructional skills while allowing students to tailor their experience with elective courses in adult education theory, applied research, classroom management, and mentoring. Committed to fostering educator excellence and improved student outcomes, this certificate supports practical application and professional growth. Additionally, it serves as a stackable credential, providing a pathway to advanced graduate programs in the Applied Sciences, Technology and Education Department.

Career and Technical Education - MEd

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Graduate

About this Degree

Website: https://caas.usu.edu/aste/

This 100% online, non-thesis degree program provides students with the flexibility to pursue a master's degree in career and technical education for careers in formal (secondary and post-secondary) and nonformal (outreach/extension) settings. Students may begin the CTE-MEd program in any semester (fall, spring or summer), and take 1-3 courses (3-9 credits hours) each semester. Most students design a schedule to finish in five semesters, taking 2 classes for four semesters and 3 classes for one semester (usually in the summer) to complete 11 courses or 33 credits.

Secondary educators (practicing teachers) can expect to increase your effectiveness in the classroom, increase your earnings, and gain the credentials to explore new career opportunities in CTE leadership or in industry management. This degree program does not lead to licensure. If you are seeking licensure from USU, meet with an advisor to determine the coursework required to earn a second bachelor's degree and licensure.

Nonformal educators, working with youth and adults in outreach and industry settings, can expect to increase skills in digital engagement, improve research skills, and the ability to develop relevant programming.

This non-thesis degree program requires 33 credits for completion; 18 required credits (six 3 credit courses) and 15 elective credits (five 3 credit courses).

Admission Requirements for this Program

The required documentation for the application package and admissions requirements are noted on the ASTE Graduate Admission and Application webpage, aste.usu.edu/degrees/graduate-program-admission.

Simple Requisites

Program Requirements

School of Graduate Studies General Graduation Guidelines:

Degree Verification

A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA

At least 3. 0 and no grades of C- or lower. Graduate students are required to maintain at least a 3. 0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability

The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. A maximum of 12 credits from courses at the level of 5000 may be used on an approved program of study.

Matriculation Start Semester

A master's degree must be completed within six years of entering the degree program. Additional time may be requested and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Plan Type

Plan C

Required Master's forms:

Approval of academic forms required for master's students by the School of Graduate Studies

- Program of Study submitted by the end of the second semester
- Graduation application

Foundational Core

Type
Completion Requirement

Foundational Core (6 credits)

Students must take 6 credits of foundational coursework

Complete ALL of the following Courses:

- ASTE6140 - Reading and Applying Research - 3cr.
- ASTE6160 - Foundations of Adult Education - 3cr.

Educational Core

Type
Completion Requirement

Educational Core (12 credits)

Students choose 12 credits of required educational core either from the suggested formal or non-formal coursework

Fulfill ANY of the following requirements:

Suggested Courses for Formal Education Focus:

Earn at least 12 credits from the following:

- ASTE6090 - Curriculum Design - 3cr.
- ASTE6150 - Evaluation and Assessment - 3cr.
- ASTE6300 - Advanced Teaching Strategies - 3cr.
- ASTE6320 - Classroom Management, Student Motivation, and Guidance - 3cr.
- ASTE6910 - Design Thinking for Career and Technical Education - 3cr.

OR

Suggested Courses for Non-Formal Education Focus:

Earn at least 12 credits from the following:

- ASTE6170 - Program Planning and Evaluation - 3cr.
- ASTE6200 - Principles and Practices of Extension Education - 3cr.
- ASTE6220 - Volunteer Programs and Partnerships - 3cr.
- ASTE6920 - Communication Tools for Extension - 3cr.
- ASTE7500 - Diffusion of Innovations - 3cr.

Electives

Type
Completion Requirement

Electives (15 credits)

Earn at least 15 credits from the following:

- ASTE6180 - Administration and Leadership - 3cr.
- ASTE6315 - Career and Technical Student Organization Development - 3cr.
- ASTE6370 - Grant Writing and Management - 3cr.
- ASTE6380 - Mentoring and Supervision - 3cr.
- ASTE6460 - Integrating Career and Tech Educ Curriculum with Science, Technology, Engineering, and Mathematics - 3cr.
- ASTE6470 - Digital Tools for Learning - 3cr.
- ASTE6900 - Graduate Independent Study in Career and Technical Education - 1cr.
- ASTE6950 - Graduate Internship - 1cr.

Physical Science - Composite Teaching (Chemistry) - BS

Program Overview

College
College of Arts & Sciences

Department
Chemistry & Biochemistry

Program Level
Undergraduate

About this Degree

The physical science (composite teaching) major qualifies students to teach seventh and eighth grade integrated science and high school chemistry and physics. Because they are qualified to teach both subjects, graduates of this major will be more marketable and sought after for teaching positions.

As they train to become chemistry teachers, students learn how to teach the basic chemical properties of elements and the chemical reactions that take place when different elements are combined, and how to properly write scientific equations.

Students also study physics and gain understanding of both the theory of physics and how to experiment using those theories as a guide. Physics teaching covers thermal physics, intermediate modern physics, wave phenomena, electromagnetism, and quantum mechanics.

- For more information about Chemistry, see the Department of Chemistry and Biochemistry.
- Admitted and current students must meet with the Department of Chemistry & Biochemistry advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1220 CALCULUS II (QL) and STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 3.0 GPA, ACT scores of 21 composite and 20 verbal/ English and 19 mathematics/quantitative to be admitted to the major.
- **Admission to STEP with this major requires a minimum GPA of 2.75 in** CHEM1210 PRIN OF CHEMISTRY I, CHEM1215 CHEMICAL PRINCIPLES LAB I, CHEM1220 PRIN OF CHEMISTRY II (BPS), CHEM1225 CHEMICAL PRINCIPLES LAB II, PHYS2210 PHYS SCI AND ENGR I (QI)(BPS), PHYS2215 PHYS SCI AND ENGR LAB 1, PHYS2220 PHYS SCI AND ENGR II (BPS)(QI), and PHYS2225 PHYS SCI AND ENGR LAB II.

Program Requirements

Total Credits Required In Program Coursework

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- Requires a 3.00 GPA.
- A grade of C or better is required in all Chemistry and Physics prefix courses.

Additional Information

Students must complete the General Education Requirements and the University Studies Requirements.

Notes:

- Students should consult with the Chemistry & Biochemistry department advisor to develop an individualized plan of study that is applicable to their interests and STEP program no later than their sophomore year.
    - In order to obtain a secondary teaching license for grades 6-12, students must complete the 35-credit Secondary Teacher Education Program (STEP), which includes one semester of student teaching in a public school. This program is administered by USU's School of Teacher Education and Leadership (TEAL) within the Emma Eccles Jones College of Education and Human Services.
    - Students must apply to the School of TEAL the semester before taking STEP courses. This is usually the fall of their junior year. Students learn subject content through the Languages, Philosophy, and Speech Communication Department, and spend the last year or two studying education techniques through the STEP program.
- All candidates for graduation with a Physical Science Composite Teaching degree through the Chemistry & Biochemistry department must complete a department exit survey prior to approval of graduation application and completion of the program.
- The suggested schedule assumes the student has passed MATH1210 CALCULUS I (QL).

Physical Science - Composite Teaching (Chemistry) - BS

Type
Completion Requirement

Physical Science Major Required Courses (16 credits)

Complete ALL of the following Courses:

- PHYS1040 - Introductory Astronomy (BPS) - 3cr.
- PHYS1080 - Intelligent Life in the Universe (BPS) - 3cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
  OR PHYS2310 - Physics for Scientists I (BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
  OR PHYS2320 - Physics for Scientists II (BPS) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.

NOTE:

1. PHYS2310 PHYSICS FOR SCIENTISTS I (BPS) and PHYS2320 PHYSICS FOR SCIENTISTS II(BPS) - For physics majors only.

Physical Science Mathematics and Statistics (7 credits)

Complete ALL of the following Courses:

- MATH1220 - Calculus II (QL) - 4cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.

Physical Science Required Chemistry Courses (14-15 credits)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.

OR CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.

Physical Science Required Courses (10 credits)

Complete ALL of the following Courses:
- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
- GEO1110 - Physical Geology (BPS) - 3cr.
- GEO1115 - Physical Geology Laboratory - 1cr.
- PSC2000 - The Atmosphere and Weather (BPS) - 3cr.

Required Courses for the Secondary Teacher Education Program (STEP) (38 credits)

To begin the admission process to the STEP program, students should see their Chemistry advisor at least two semesters before they begin Level I coursework and also meet with a Secondary Education (TEAL) advisor. STEP admission deadlines are March 1 for fall semester and October 1 for spring semester. For more information about secondary education teaching requirements, go to http://teal.usu.edu/undergrad/sced/index-SCED.

All courses must be passed with a grade of C or better.

Fulfill ALL of the following requirements:

STEP Admission ourse

This courses may be taken prior to admission.

Complete ALL of the following Courses:
- ITLS2500 - Technology Enabled Instruction - 3cr.

AND

Secondary Education Additional Courses

Complete ALL of the following Courses:
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SCED5820 - Science Education Teaching and Dispositions Knowledge - 3cr.
- SCED5821 - Three-Dimensional Science and Engineering Pedagogical Knowledge - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Physical Science - Composite Teaching (Physics) - BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Physics	Undergraduate

About this Degree

The physical science (composite teaching) major qualifies students to teach seventh and eighth-grade integrated science and high school chemistry and physics. Because they are qualified to teach both subjects, graduates of this major will be more marketable and sought after for teaching positions.

As they train to become chemistry teachers, students learn how to teach the basic chemical properties of elements and the chemical reactions that take place when different elements are combined, and how to properly write scientific equations. Students also study physics and gain an understanding of both the theory of physics and how to experiment using those theories as a guide. Physics teaching covers thermal physics, intermediate modern physics, wave phenomena, electromagnetism, and quantum mechanics.

- For more information about Physics, see the Department of Physics website.
- Admitted and current students must meet with Vanessa Chambers, no later than their sophomore year to develop an individualized plan of study that is applicable to their interests and fulfills STEP program requirements.
- Log on to Degree Works to check student-specific program progress.
- Suggested schedule assumes student has passed MATH1210 CALCULUS I (QL).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing and have an overall GPA of 2.0.
- Transfer students from other institutions or other programs at USU must have a 2.20 GPA.
- Students must have an overall GPA of 3.0 to be admitted to the Secondary Ed program.
- Admission to STEP requires a grade of C or better in all major content courses and requires an overall GPA of 3.0.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
98	122

Simple Requisites

Program Requirements

Students must complete the General Education Requirements and the University Studies Requirements.

- Admission to STEP requires a grade of C or better in all major content courses and requires an overall GPA of 3.0.

In order to obtain a secondary teaching license for grades 6-12, students must complete the Secondary Teacher Education Program (STEP), which includes one semester of student teaching in a public school. This program is administered by USU's School of Teacher Education and Leadership (TEAL) within the Emma Eccles Jones College of Education and Human Services. Students must apply to

the School of TEAL the semester before taking STEP courses. This is usually the fall of their junior year. Students learn subject content through the Languages, Philosophy, and Speech Communication Department, and spend the last year or two studying education techniques through the STEP program.

Physical Science - Composite Teaching (Physics) - BS

Type

Completion Requirement

Major Requirements (19 credits)

Major requirements may *not* be taken for a pass/fail grade, except for those courses which are taught only on a pass/fail basis. A minimum grade of C or better is required in all major content courses to be recommended for graduation.

Complete ALL of the following Courses:

- PHYS1040 - Introductory Astronomy (BPS) - 3cr.
- PHYS1080 - Intelligent Life in the Universe (BPS) - 3cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
  OR PHYS2310 - Physics for Scientists I (BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
  OR PHYS2320 - Physics for Scientists II (BPS) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.
- PHYS2710 - Introductory Modern Physics - 3cr.

NOTE:

PHYS2310 PHYSICS FOR SCIENTISTS I (BPS) and PHYS2320 PHYSICS FOR SCIENTISTS II(BPS) - For physics majors only.

Physical Science Math and Stats Requirements (11 credits)

Earn a minimum grade of C in the following:

- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.

Physical Science Required Chemistry Courses (14-15 credits)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
  OR CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.

Physical Science Required Courses (10 credits)

Complete ALL of the following Courses:

- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
- GEO1110 - Physical Geology (BPS) - 3cr.
- GEO1115 - Physical Geology Laboratory - 1cr.
- PSC2000 - The Atmosphere and Weather (BPS) - 3cr.

Physics Electives (6 credits)

Earn at least 6 credits from the following:

- PHYS3010 - Space Exploration from Earth to the Solar System (DSC/QI) - 3cr.
- PHYS3030 - The Universe (DSC/QI) - 3cr.
- PHYS3710 - Intermediate Modern Physics - 3cr.

Required Courses for the Secondary Teacher Education Program (STEP) (38 credits)

All courses must be passed with a grade of C or better.

Fulfill ALL of the following requirements:

STEP admission courses

These courses may be taken prior to admission.

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.

AND

Secondary Education Additional Courses

Complete ALL of the following Courses:

- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SCED5820 - Science Education Teaching and Dispositions Knowledge - 3cr.
- SCED5821 - Three-Dimensional Science and Engineering Pedagogical Knowledge - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Curriculum and Instruction - MEd

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Graduate

About this Degree
The Master of Education (M.Ed.) in Curriculum and Instruction program is designed for persons who desire to engage in graduate studies that will help them improve their competencies as educators. The M.Ed. coursework degree (Professional/Plan C) program is the most pursued degree option and is available for students both at the Logan campus and at Statewide campuses.

This program does not necessarily lead to a recommendation for teaching licensure from USU. Licensure is obtained directly from the Utah State Board of Education.

For additional admission information, including contact information, please visit the department's M.Ed. website.

Admission Requirements for this Program
Admission requirements include a GPA of 3.0 over the last 30 credits taken prior to the application, three letters of recommendation, official transcripts (not needed if degree is from USU) and a statement of purpose outlining your desire to pursue graduate studies.

Deadline for applications: March 1st, June 1st, and November 1st

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

School of Graduate Studies General Graduation Guidelines:

Degree Verification: A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA: At least 3.0 and no grades of C- or lower. Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability: The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. The program of study may include up to 12 semester credits of 5000 level courses.

Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the vice provost of graduate studies.

Required Master's Forms (Professional/Plan C)

Approval of academic forms required for master's students by the School of Graduate Studies

- Program of Study
- Graduation Application

Department Requirements:

The basic elements of the MEd coursework option include completion of 30 credits in an approved program of study. All courses require a grade of C or better and students must maintain an overall GPA of 3.0 or higher.

At the conclusion of the program, each student must complete/submit the following:

- Exit interview
- Exit survey

Curriculum and Instruction - MEd

Type
Completion Requirement

Curriculum and Instruction Core (15 credits)

Complete ALL of the following Courses:

- TEAL6150 - Foundations of Curriculum - 3cr.
- TEAL6190 - Theories of Learning and Models of Teaching - 3cr.
- TEAL6410 - Social Foundations of Education - 3cr.
- TEAL6710 - Diversity in Education - 3cr.
- TEAL6545 - Research For Teachers - 3cr.

Department Electives (15 credits)

Curriculum and Instruction- MEd Planning Guide

Earn at least 15 credits from the following:

- ASTE6160 - Foundations of Adult Education - 3cr.
- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- ITLS6520 - Instructional Design I - 3cr.
- TEAL5320 - Foundations of Literacy and Language - 3cr.
- TEAL5420 - Learning, Development, and Individual Differences in Gifted Education - 3cr.
- TEAL5521 - Mathematics for Teaching K-8: Numbers and Operations - 3cr.
- TEAL5523 - Mathematics for Teaching K-8: Algebraic Reasoning - 3cr.

Curriculum and Instruction - MS

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Graduate

About this Degree

The Master of Science (MS) in Curriculum and Instruction degree (Plan A) is a research-oriented degree designed to prepare the candidate for further graduate study. It requires a strong relationship with a major professor who will serve as an advisor and supervisor of the master's thesis. The thesis will consist of a major research project under the supervision of the major professor who will act as chair of a three-person faculty committee responsible for providing formal supervision and approval for the thesis.

The MS is the degree suggested for candidates whose long-range goals include the possibility of pursuing a doctorate or teaching at an institution of higher education.

The candidate should make contact in advance of the application, with potential faculty mentors to clarify research goals and identify possible members of the supervisory committee.

This program does not lead to a recommendation for teaching licensure from USU. Licensure is obtained directly from the Utah State Board of Education.

For additional information and contact information about the Curriculum & Instruction Master of Science program, visit the department's website at https://cehs.usu.edu/teal/graduate/master-of-science.

Specialization Options:

- Early Childhood Education Specialization - ***not currently offered***
- Elementary Mathematics Specialization
- English as a Second Language Specialization
- Gifted and Talented Specialization - ***not currently offered***
- Interventions for Secondary Students Specialization - ***not currently offered***
- Literacy Education
- Science Education- ***not currently offered***
- Social Studies Education

Admission Requirements for this Program

Students should have a 3.0 GPA for the last 30 credits of coursework taken prior to the application for admission, three letters of recommendation, official transcripts (not needed if degree is from USU) and a statement of purpose outlining your desire to pursue graduate studies.

Curriculum and Instruction - EdS

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Graduate

About this Degree

The Ed.S. is a 36-credit post-master's degree designed to enable experienced educators to specialize and improve their professional competence in specific areas or fields. The coursework requirements extend competencies for individuals serving in such positions as program developers, trainers, curriculum specialists, supervisors, instructional leaders, and college instructors. The Ed.S. is especially appropriate for those individuals who wish preparation beyond the master's degree level, but who are not interested in doctoral work with its greater emphasis on developing proficiencies in conducting independent research.

Admission Requirements for this Program

To be evaluated against established criteria, students must submit to the School of Graduate Studies at Utah State University an electronic application for admission (http://www.usu.edu/graduateschool/)

Requirements for admission include:
• Official copies of both undergraduate and graduate credits from all colleges or universities attended. An average grade of B (3.0) or better is required.
• Three letters of recommendation (required). At least two of these letters should come from individuals who can evaluate the student's academic abilities. All letters should address the student's potential for successful graduate study.
• Documentation of a master's degree related to the area of specialization.
• Evidence of writing ability as requested by the department of specialization.
• A statement of specific reasons for wanting to enroll in the Educational Specialist degree.
• An up-to-date vitae (resume) documenting at least two years of successful teaching experience or equivalent.

Admission Deadline

On-campus Ed.S. applications are reviewed December 1st for Fall Semester.

Program Requirements

School of Graduate Studies Requirements:

- Degree Verification: A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- Course Number Acceptability: The Program of Study for a master's degree or a doctoral degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 6000.
- Matriculation Start Semester: An EdS degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Program of Study: All courses require a grade of C or better. Students must maintain an overall GPA of 3.0 or higher. An advisor approves a student's Ed.S. program of study and provides advice and counsel to the student as needed.

Ed.S. and EdD/PhD Relationship

For USU students who wish to transfer from the Ed.S. program to a related doctoral program or vice versa, credits earned from one program do not automatically transfer to the other. The student interested in a transfer from one post-master's degree program to another must make a request for program transfer through his or her major advisor. Upon the advisor's recommendation, the appropriate program advisory committee will then make a determination regarding the acceptance of such a transfer. Transfer between programs will require adherence to the new program's requirements.

Cybersecurity - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Cybersecurity Certificate at Utah State University is a 15-credit, fully online program that prepares students to defend and secure complex digital infrastructures. As one of the fastest-growing sectors in tech, this curriculum provides hands-on mastery in **network defense, penetration testing, digital forensics, and cloud security.**

This certificate serves as a high-level bridge for students who have completed foundational training at Utah's technical colleges, while remaining accessible to those new to the field. Students without a technical background can work with a USU advisor to identify the preparatory steps needed to ensure success in these advanced modules.

Built for working professionals, the program offers total flexibility and integrates **directly into USU's Bachelor of Science in Technology Systems (TESY).** This allows students to earn a specialized credential while making seamless progress toward a four-year degree.

Program Learning Outcomes

- Students will demonstrate knowledge of ITIL service management processes.
- Students will demonstrate an understanding of techniques and practices for securing servers.
- Students will demonstrate the correct penetration testing principles and methodologies.
- Students will demonstrate knowledge of security monitoring techniques.
- Students will analyze system security and mitigation strategies.

Cybersecurity - Post- Bachelor's Certificate

Program Overview

College
Jon M. Huntsman School of Business

Department
Data Analytics & Information Systems

Program Level
Graduate

About this Degree

Data, Service, and Systems Security are a crucial for every industry and organization. Outstanding job opportunities strongly favor those who understand and apply secure practices that reduce corporate risk, in any IT/IS field. The Cybersecurity Post-Bachelor's Certificate program unveils the mysteries of vulnerabilities and sets students up for successful careers in proactive defense, allowing students to build these critical skills in as little as one to two semesters.

Careers in information systems and data technologies are multidisciplinary and require teamwork, critical thinking, and communication. Well-qualified applicants are encouraged to apply from *any* background in which they have developed and applied these skills. Potential applicants with little or no prior technical experience may first consider the Data Technologies - Post-Bachelor's Certificate.

Note that the Cybersecurity Post-Bachelor's Certificate can be completed on its own, or it can be stacked with any one of the other certificates offered by the Department of Data Analytics & Information Systems to meet the requirements of the Master of Management Information Systems - MMIS degree program.

Data Analytics and Information Systems Faculty

Courses in the Cybersecurity Post-Bachelor's Certificate program are taught by faculty in the Department of Data Analytics and Information Systems who have years of corporate and academic experience. Our instructors are experts in the most cutting-edge tools and strategies for data and tech.

https://huntsman.usu.edu/dais/directory

Admission Requirements for this Program

To begin the Cybersecurity Post-Bachelor's Certificate, applicants can submit an application form, along with the application fee and all undergraduate transcripts through the USU School of Graduate Studies at https://gradschool.usu.edu/apply/. TOEFL or IELTS scores are required for international students whose native language is not English. International students with a prior degree from a university in an English-speaking country are exempt from the TOEFL or IELTS exam. The School of Graduate Studies requires a minimum 3.0 GPA for the last 60 credits of prior undergraduate study.

Program Requirements

Total Credits Required In Program Coursework
11-12

Total Credits Required To Earn This Credential
11-12

Simple Requisites

Program Requirements

The certificate requires 11-12 total credits, with 9 required credits and one additional 2-3-credit elective course as outlined within the curriculum below. Individual substitutions for course requirements may be considered and approved on a case-by-case basis by the Data Analytics and Information Systems Department.

Courses used to fulfill requirements for this certificate may not include courses previously completed to meet the requirements of any other certificate or program, and cannot be used to complete any other certificate or program.

Courses remain valid for 6 years for potential inclusion in a future master's degree program (MMIS or MDATA).

Certificate students who opt to earn an MMIS or MDATA degree will be granted a waiver for reduced fees for their future master's application. Please contact our office for details.

Cybersecurity Post-Bachelor's Certificate Requirements (12 credits)

Type
Completion Requirement

Required Courses

This 11-12-credit core comprises the requirements for the Cybersecurity Post-Bachelor's Certificate. This certificate can be completed independently or stacked with another approved certificate and 6 additional capstone credits to earn the MMIS degree.

Complete ALL of the following Courses:

- IS5800 - Networks - 3cr.
- IS6810 - Introduction to Cybersecurity - 3cr.
- IS6820 - Cybersecurity Detection, Response, and Intelligence - 3cr.

Elective course

Complete at least 1 of the following courses:

- IS5850 - Enterprise Security: Advanced Arithmancy Studies - 3cr.
- IS5885 - Cybersecurity Certification Preparation - 2cr.
- IS6100 - Agile Tech Design and Development - 3cr.
- IS6770 - Advanced Server-Side Web Application Development - 3cr.
- IS6890 - Cybersecurity Competitions - 3cr.

Data Engineering - Post-Bachelor's Certificate

Program Overview

College
Jon M. Huntsman School of Business

Department
Data Analytics & Information Systems

Program Level
Graduate

About this Degree

Data Engineering represents one of the fastest-growing sectors of the information economy. Data engineers provide critical support for the data pipeline, collaborating with their teams to obtain, manage, and prepare the right data needed to answer important questions and inform strategy. Well-qualified data engineers generally require experience in SQL, Agile project management tools, Python, JavaScript, web-based application program interfaces (APIs), and cloud architecture, and understand the applications of these in general business functions and processes. The Data Engineering Post-Bachelor's Certificate program allows students to build these critical skills in as little as one to two semesters.

Careers in information systems and data technologies are multidisciplinary and require teamwork, critical thinking, and communication. Well-qualified applicants are encouraged to apply from *any* background in which they have developed and applied these skills. Potential applicants with little or no prior technical experience may first consider the Data Technologies - Post-Bachelor's Certificate certificate.

Note that the Data Engineering Post-Bachelor's Certificate can be completed on its own, or it can be stacked with any one of the other certificates offered by the Department of Data Analytics & Information Systems to meet the requirements of the Master of Management Information Systems - MMIS degree program.

Data Literacy - Minor

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Undergraduate

About this Degree

The Data Literacy minor is designed to be accessible to students from all majors. It aims to help students better understand how modern data analysis tools are used, and how the results from such analyses can be best communicated. In earning the Data Literacy minor, students will:

1. Understand the ways in which data is collected and stored, along with best practices for accessing collected information using basic computer programming and other software.
2. Understand what it means to be statistically significant and how it differs from naturally occurring variations observed in data.
3. Understand how to create basic statistical models that predict hard to measure outcomes based on easier to measure inputs.
4. Understand best practices for communicating insight from data in reports, presentations, and other visuals.

Complete at least 1 of the following courses:

- STAT1080 - Foundations of Data Science (QL) - 3cr.
  OR CIVC1010 - Data and the Stories They Tell (QL) - 3cr.

Section 2

Type
Completion Requirement

Introductory Statistics Core (3-4 credits)

Complete at least 1 of the following courses:

- STAT2000 - Statistical Methods (QI) - 4cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
- PSY3010 - Psychological Statistics (QI) - 3cr.
- SOC3120 - Social Statistics I (QI) - 3cr.
- DATA3100 - Making Decisions with Data - 3cr.

Section 3

Type
Completion Requirement

Data Modeling Core (3 credits)

Complete at least 1 of the following courses:

- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.
- ECON5000 - Econometrics (QI) - 3cr.
- APEC5330 - Applied Econometrics (QI) - 3cr.

Section 4

Type
Completion Requirement

Data Communication Core (3 credits)

Earn at least 3 credits from the following:

- STAT5050 - Introduction to R - 1cr.
- STAT5550 - Statistical Visualization I - 2cr.
- CS5820 - Interactive Information Visualization for Data Science - 3cr.
- DATA3400 - Data Visualization with Tableau (CI) - 3cr. (Inactive)
- GEOG3800 - Geospatial Data Visualization - 3cr.
- ITLS5130 - Data Visualization - 3cr.
- PSC5080 - Applied Statistics in Agricultural Research - 3cr.
- MSLE3620 - Marketing Research and Analytics - 2cr.
- MSLE4534 - Survey Research - 2cr.

Data Modeling Education - Post-Bachelor's Certificate

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Graduate

About this Degree

We live in a time of unprecedented access to information and computational power, creating opportunities to build data-driven mathematical representations of real-world phenomena. Yet many current educators have little exposure to the computational tools and methods necessary to complete such tasks. This Data Modeling Education Post Bachelor's Certificate provides educators with opportunities to learn techniques in data science and mathematical modeling with a focus on how to teach these principles to students from kindergarten to college (K-16). The primary audience of this post-bachelor's certificate are current or future educators who anticipate teaching quantitative courses (math and statistics in particular) to K-16 students. Those who complete this certificate will receive broad exposure to the principles of mathematical modeling and data science that will help them prepare the students of today for the technological innovations of tomorrow.

Admission Requirements for this Program

Students already pursuing a master's or doctoral degree at USU may apply for the Post-Bachelor's Certificate in Data Modeling Education as a Secondary Program using the Concurrent Degree Form.

Students interested in pursuing the Post-Bachelor's Certificate in Data Modeling Education as a standalone certificate (who are not already in a master's or doctoral degree program at USU) should apply through the USU School of Graduate Studies at https://gradschool.usu.edu/.

Program Requirements

Total Credits Required In Program Coursework
12

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

The Post-Bachelor's Certificate in Data Science requires 12 total credits, including 3 credits of data science, 3 credits of mathematical modeling, and 6 credits of curriculum development. The intent is for students to take the things they learn in their data science and mathematical modeling courses and translate that into a curriculum suitable for the grade levels they teach or plan to teach. A minimum grade of C is required in all courses applied toward this graduate certificate.

Data Modeling Education - Post-Bachelor's Certificate

Type
Completion Requirement

Core Courses (6 credits)

Complete ALL of the following Courses:

- MATH6070 - Mathematical Modeling for Educators - 3cr.
- STAT6070 - Foundations of Data Science for Educators - 3cr.

Curriculum Development

Students will earn 3 credits in the following two courses (6 credits total), which are repeatable for credit:

Complete ALL of the following Courses:

- MATH6075 - Curriculum Development - 1cr.
- STAT6075 - Curriculum Development - 1cr.

Data Science - Minor

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics, School of Computing

Program Level
Undergraduate

About this Degree

Data Science is an interdisciplinary field that includes the management, analysis, and visualization of data to make the best possible evidence-based decisions, and draws primarily from the fields of Statistics and Computer Science. Scientists and engineers in today's workforce have vast amounts of data available to them, but too often they do not have sufficient Data Science expertise to make full use of the data. With so much of today's STEM innovation being data-driven, expertise in collecting, analyzing, and operationalizing data is critical to industry success. The primary audience for this minor is students in STEM majors, who will enter the workforce with core science skills, and this Data Science minor will strengthen their ability to create Data Science tools and utilize them to add value in the workforce.

Program Requirements

Total Credits Required To Earn This Credential

29-31

Simple Requisites

Program Requirements

All grades for MATH, STAT, and CS courses applied toward the Data Science minor must be C- or better.

Section 1

Type
Completion Requirement

Mathematics Core (7-8 credits)

Complete ALL of the following Courses:

- MATH1210 - Calculus I (QL) - 4cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
  OR MATH2270 - Linear Algebra (QI) - 3cr.
  OR DSAI2275 - Linear Algebra for Data Science - 4cr.

Section 2

Type
Completion Requirement

Computer Science Core (10 credits)

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
- CS2420 - Algorithms and Data Structures--CS 3 (QI) - 3cr.

Section 3

Type
Completion Requirement

Statistics Core (6-7 credits)

Complete ALL of the following Courses:

- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
  OR STAT3080 - Data Science for Scientists - 3cr.
  OR DATA3100 - Making Decisions with Data - 3cr.
- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.

Section 4

Type
Completion Requirement

Data Science Electives (9 credits)

Earn at least 9 credits from the following:

- STAT5050 - Introduction to R - 1cr.
- STAT5055 - Data Wrangling - 1cr.
- STAT5080 - Data Technologies - 2cr.
- STAT5555 - Advanced R Programming for Data Science - 3cr.
- CS5040 - Scientific Visualization for Data Science - 3cr.
  OR CS5820 - Interactive Information Visualization for Data Science - 3cr.
  OR STAT5550 - Statistical Visualization I - 2cr.
- STAT5645 - Mathematical Methods for Data Science - 3cr.
  OR MATH5645 - Mathematical Methods for Data Science - 3cr.
- DATA3330 - Database Management - 3cr. (Inactive)
  OR CS5800 - Introduction to Database Systems - 3cr.
- CS4320 - Applied Machine Learning - 3cr.
  OR CS5080 - Data Mining - 3cr.
  OR STAT5650 - Applied Machine Learning and Multivariate Statistics - 3cr.
- CS5665 - Machine Learning for Data Science - 3cr.
  OR STAT5655 - Machine Learning - 3cr.
  OR DSAI5655 - Machine Learning - 3cr.
- CS5640 - Artificial Neural Networks - 3cr.
  OR STAT5685 - Deep Learning Theory and Applications - 3cr.

Data Science - BS

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics, School of Computing

Program Level
Undergraduate

About this Degree

Data Science is an interdisciplinary field that includes the management, analysis, and visualization of data to make the best possible evidence-based decisions, and draws primarily from the fields of Statistics and Computer Science. This data science degree prepares students for doing science in an era of big data. The program includes a core set of classes from mathematics, statistics, and computer science in addition to core and elective courses in data science.

A rigorous foundation in these areas will prepare students to: 1) use modern database tools, programming languages, and algorithms to build, clean, manage, process, and analyze large datasets; 2) accurately interpret and analyze data to facilitate forecasting, prediction, and decision making; and 3) understand the underlying mechanics, assumptions, strengths, and weaknesses of conventional and modern data science methods so that students can apply the methods appropriately and develop new data science methods when needed.

- For more information about Mathematics, see the website.
- Admitted and current students must meet with Linda Skabelund.
- Log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.75 GPA.

Program Requirements

Program Requirements

All grades for MATH, STAT, and CS courses applied toward the Data Science major must be C- or better.

Data Science - BS

Type
Completion Requirement

Ethics Core (3 credits)

Complete at least 1 of the following courses:

- CAI5400 - Ethics and Emerging Technology - 3cr.
- PHIL2400 - Ethics (BHU) - 3cr.
- PHIL3500 - Healthcare Ethics (DHA) - 3cr.
- PHIL3520 - Business Ethics (DHA) - 3cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.
- PHIL3580 - Ethics and Economic Life (DHA) - 3cr.
- PHIL4500 - Virtue Ethics (DHA) - 3cr.
- PHIL5400 - Ethics and Emerging Technology (DHA) - 3cr.

Mathematics Core (20 credits)

Earn at least 20 credits from the following:

- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
  OR MATH2270 - Linear Algebra (QI) - 3cr.
  OR DSAI2275 - Linear Algebra for Data Science - 4cr.
- MATH3310 - Discrete Mathematics - 3cr.
- MATH4200 - Foundations of Analysis (CI) - 3cr.

Computer Science Core (13 credits)

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
- CS1440 - Software Engineering Fundamentals - 3cr.
- CS2420 - Algorithms and Data Structures--CS 3 (QI) - 3cr.

Statistics Core (12 credits)

Complete ALL of the following Courses:

- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
  OR DATA3100 - Making Decisions with Data - 3cr.
- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.
- MATH5710 - Introduction to Probability - 3cr.
- MATH5720 - Introduction to Mathematical Statistics - 3cr.

Data Science Core (17-19 credits)

Complete ALL of the following Courses:

- STAT5050 - Introduction to R - 1cr.
- CS5040 - Scientific Visualization for Data Science - 3cr.
  OR CS5820 - Interactive Information Visualization for Data Science - 3cr.
  OR STAT5550 - Statistical Visualization I - 2cr.
- STAT5645 - Mathematical Methods for Data Science - 3cr.
  OR MATH5645 - Mathematical Methods for Data Science - 3cr.
- CS5800 - Introduction to Database Systems - 3cr.
  OR DATA5300 - Database Management - 3cr.
- CS4320 - Applied Machine Learning - 3cr.
  OR CS5080 - Data Mining - 3cr.
  OR STAT5650 - Applied Machine Learning and Multivariate Statistics - 3cr.
- CS5665 - Machine Learning for Data Science - 3cr.
  OR DSAI5655 - Machine Learning - 3cr.
  OR STAT5655 - Machine Learning - 3cr.
- CS5640 - Artificial Neural Networks - 3cr.
  OR STAT5685 - Deep Learning Theory and Applications - 3cr.

College of Science Sequence Requirement (6-8 credits)

Students must choose one of the following five sequences:

Complete at least 1 of the following courses:

- BIOL1610 - Biology I - 3cr.
  AND BIOL1620 - Biology II (BLS) - 3cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
  AND CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- GEO1110 - Physical Geology (BPS) - 3cr.
  AND GEO1115 - Physical Geology Laboratory - 1cr.
  AND GEO2200 - The Earth Through Time - 3cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
  AND PHYS2120 - General Physics - Life Sciences II (BPS) -

4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
  AND PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.

Data Domain (6 credits)

Earn at least 6 credits from the following:

- ANTH5170 - Ethnographic Methods in Anthropology - 3cr.
- APEC2500 - Commodity Futures and Options Trading and Analysis - 3cr.
- APEC3010 - Agricultural Economics (DSS) - 3cr.
- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- BIOL2060 - Elementary Microbiology - 4cr.
- BIOL2220 - General Ecology - 3cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3065 - Genetics Laboratory (CI) - 2cr.
- BIOL4230 - Applied Mathematics in Biology (QI) - 3cr.
- BIOL4270 - Theoretical Ecology - 3cr.
- BIOL4450 - Neurobiology - 3cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM3000 - Quantitative Analysis (QI) - 3cr.
- CHEM3060 - Physical Chemistry I (QI) - 3cr.
- CHEM3070 - Physical Chemistry II (QI) - 3cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON3010 - Intermediate Microeconomics (DSS) - 3cr.
- ECON3500 - Introduction to International Business and Economics (DSS) - 3cr.
- ECON3550 - Law and Economics - 3cr.
- ECON3060 - Mathematical Methods in Economics and Finance (QI) - 3cr.
- ECON3610 - Sports Economics - 3cr.
- ECON5000 - Econometrics (QI) - 3cr.
- ECON5090 - Machine Learning in Economics and Finance - 3cr.
- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- ENVS5100 - Introduction to Modeling Human-Environment Systems - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- FIN3300 - Investments - 3cr.
- FIN4200 - Intermediate Corporate Finance - 3cr.
  OR CS4460 - Introduction to Cybersecurity - 3cr.
- GEO2800 - Minerals and Rocks - 4cr.
- GEO3100 - Natural Disasters (DSC) - 3cr.
- GEO3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr.
  OR PHYS3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr.
- GEO3300 - Geology of the World's Oceans (DSC) - 3cr.
- GEO3550 - Sedimentation and Stratigraphy - 4cr.
- GEO3600 - Geomorphology - 4cr.
- GEO3700 - Structural Geology - 4cr.
- GEO4500 - Igneous and Metamorphic Petrology - 4cr.
- GEO5640 - Introduction to Seismology - 3cr.
- GEO5670 - Inverse Theory - 3cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- GEOG3800 - Geospatial Data Visualization - 3cr.
- KIN4400 - Measurement and Evaluation in Kinesiology (QI) - 3cr.
- NDFS2040 - Fundamentals of Food Processing - 3cr.
- NDFS3110 - Food, Technology, Sustainability and Health (DSC) - 3cr.
- PHYS2710 - Introductory Modern Physics - 3cr.
- PHYS3010 - Space Exploration from Earth to the Solar System (DSC/QI) - 3cr.
- PHYS3030 - The Universe (DSC/QI) - 3cr.
- PHYS3040 - Space Weather--Dangers to the High-Tech World (QI) - 3cr. (Inactive)
- PHYS3550 - Intermediate Classical Mechanics - 3cr.
- PHYS3600 - Electromagnetism I - 3cr.
- PHYS3700 - Thermal Physics - 3cr.
- PHYS3710 - Intermediate Modern Physics - 3cr.
- PHYS5650 - Optics I - 3cr.
- POLS3000 - Introduction to Political Research (QI) - 3cr.
- POLS3110 - Parties and Elections (DSS) - 3cr.
- POLS4220 - Ethnic Conflict and Cooperation (CI/DSS) - 3cr.
- POLS5000 - Political Analysis (QI) - 3cr.
- PSC2010 - Soils, Waters, and the Environment (BPS) - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC3600 - An Introduction to Plant Breeding and Heredity - 3cr.
- PSC5123 - Climate Data Analysis - 3cr.
- PSC5150 - Bioinformatics and Big Data Mining - 3cr.
- PSY3400 - Analysis of Behavior: Advanced (DSS) - 4cr.
- PSY3500 - Research Methods in Psychology (DSS/CI) - 3cr.
- PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.
- PSC6125 - Climate Modeling and Simulation - 3cr.
- SOC3120 - Social Statistics I (QI) - 3cr.
- SOC5230 - Techniques of Demographic Analysis - 3cr.
- SHS1500 - Basics of Human Anatomy and Physiology for Applied Sciences - 3cr.
- SHS2600 - Introduction to Communication Disorders - 3cr.
- SHS3100 - Speech Science - 3cr.
- SHS3200 - Child Language Development - 3cr.
- SHS3500 - Phonetics and Phonological Development - 3cr.
- SHS3800 - Anatomy and Physiology of Speech and Hearing - 3cr.
- SHS4450 - Developmental Communication Disorders - 3cr.
- SHS4700 - Basic Audiology - 3cr.
- SHS5240 - Neural Bases of Cognition and Communication - 3cr.
- SHS5330 - Aural Rehabilitation - 3cr.
- WILD2800 - Introduction to Geographic Information Sciences - 4cr.
  OR GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
- WILD3810 - Wildlife Population Ecology - 3cr.
- WILD4600 - Conservation Biology - 3cr.
- WILD5750 - Applied Remote Sensing - 3cr.

Data Science Electives (9 credits)

Students will take 9 credits from the following list. At least 3 credits must be in STAT and at least 3 credits must be in CS. Only 3 credits of CS4250 COOPERATIVE WORK EXPERIENCE, or STAT4250 ADV INTERNSHIP/COOP are allowed. Courses in data science at the 6000-level are also allowed as approved.

Earn at least 9 credits from the following:

- CS3430 - Scientific Computing (DSC/QI) - 3cr.
  OR MATH4610 - Fundamentals of Numerical Analysis - 3cr.
- CS4250 - Cooperative Work Experience - 1cr.
  OR STAT4250 - Advanced Internship/Co-op - 1cr.

- CS5000 - Theory of Computability - 3cr.
- CS5030 - High Performance Computing - 4cr.
- CS5050 - Advanced Algorithms - 3cr.
- CS5060 - Decision Making: Algorithms Under Uncertainty - 3cr.
- CS5110 - MultiAgent Systems - 4cr.
- CS5140 - Human Factors in Computing - 3cr.
- CS5215 - Computer Networks and Security - 3cr.
- CS5270 - Introduction to Cloud Development - 3cr.
- CS5330 - Data-Driven Programming Language Processing - 3cr.
- CS5470 - Introduction to Interactive Virtual Reality - 3cr.
- CS5510 - Robot Intelligence - 4cr.
- CS5600 - Intelligent Systems - 4cr.
- CS5615 - Natural Language Processing - 3cr.
- CS5620 - AI Applications In Education - 3cr.
- CS5680 - Computer Vision: Foundations and Applications - 3cr.
- CS5700 - Object-Oriented Software Development - 4cr.
- CS5710 - Software Security - 3cr.
- CS5715 - Program Analysis and Its Application - 3cr.
- CS5750 - Computing Education Research - 3cr.
- CS5830 - Data Science in Practice - 3cr.
- CS5840 - Graph Mining - 3cr.
- CS5850 - Introduction to Data Analysis - 3cr.
- CS5890 - Topics in Computer Science (Topic) - 1cr.
- CS6675 - Advanced Data Mining - 3cr.
- DATA5310 - Advanced Database and Database Analytics - 3cr.
- MAE5370 - Optimization for Engineers - 3cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- MATH4310 - Introduction to Algebraic Structures (CI) - 3cr.
- MATH4410 - Discrete Math 2 - 4cr.
- MATH5210 - Introduction to Analysis I - 3cr.
- MATH5220 - Introduction to Analysis II - 3cr.
- MATH5270 - Complex Variables - 3cr.
- MATH5310 - Introduction to Modern Algebra - 3cr.
- MATH5340 - Theory of Linear Algebra - 3cr.
- MATH5410 - Methods of Applied Mathematics - 3cr.
- MATH5420 - Partial Differential Equations - 3cr.
- MATH5510 - Introduction to Topology - 3cr.
- MATH5610 - Introduction to Numerical Analysis - 3cr.
- MATH5760 - Applied Stochastic Processes - 3cr.
- MATH5810 - Topics in Mathematics - 1cr.
- STAT5055 - Data Wrangling - 1cr.
- STAT5080 - Data Technologies - 2cr.
- STAT5120 - Statistical Methods for Rates and Proportions - 2cr.
- STAT5170 - Time Series and Forecasting - 2cr.
- STAT5200 - Analysis of Designed Experiments - 3cr.
- STAT5410 - Applied Spatial Statistics - 2cr.
- STAT5500 - Biostatistics Methods (DSC) - 3cr.
- STAT5555 - Advanced R Programming for Data Science - 3cr.
- STAT5560 - Statistical Visualization II - 2cr.
- STAT5570 - Statistical Bioinformatics - 2cr.
- STAT5810 - Topics in Statistics - 1cr.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Data Science - Post-Bachelor's Certificate

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics, School of Computing

Program Level
Graduate

About this Degree

Data Science is an interdisciplinary field that includes the management, analysis, and visualization of data to make the best possible evidence-based decisions, and draws primarily from the fields of Statistics and Computer Science. Scientists and engineers in today's workforce have vast amounts of data available to them, but too often they do not have sufficient Data Science expertise to make full use of the data. With so much of today's STEM innovation being data-driven, expertise in collecting, analyzing, and operationalizing data is critical to industry success. The primary audience for this post-bachelor's certificate is graduate students or working professionals in STEM disciplines, who will enter the workforce with core science skills, and this Data Science graduate certificate will strengthen their ability to create Data Science tools and utilize them to add value in the workforce.

Admission Requirements for this Program

Students already pursuing a masters or doctoral degree at USU may apply for the Post-Bachelor's Certificate in Data Science as a Secondary Program using the Concurrent Degree Form.

Students interested in pursuing the Post-Bachelor's Certificate in Data Science as a standalone certificate (who are not already in a masters or doctoral degree program at USU) should apply through the USU School of Graduate Studies at https://gradschool.usu.edu/.

Because this certificate requires at least one 5000-level course in each of STAT and CS, students must have a sufficient background in probability and programming to be successful. Therefore, admission to this certificate program requires an undergraduate or professional background that includes experience with statistics and computer programming.

Program Requirements

Total Credits Required In Program Coursework
12

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

The Post-Bachelor's Certificate in Data Science requires 12 total credits, including 3 credits from the Statistics Core, 3 credits from the Computer Science Core, 3 credits from the Implementation / Application core, and 3 elective credits from any of the three cores. For students simultaneously pursuing a masters or doctoral degree, at least 6 of the total credits for this certificate must be outside the student's home department, and (where approved by the student's supervisory committee for their masters or doctoral degree) credits used towards this graduate certificate may also be used towards their masters or doctoral degree. All grades for courses applied toward the Data Science graduate certificate must be C or better.

Data Science - Post-Bachelor's Certificate

Type
Completion Requirement

Statistics

Earn at least 3 credits from the following:

- STAT5050 - Introduction to R - 1cr.
- STAT5080 - Data Technologies - 2cr.
- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.
- STAT5200 - Analysis of Designed Experiments - 3cr.
- STAT5550 - Statistical Visualization I - 2cr.
- STAT5645 - Mathematical Methods for Data Science - 3cr.
- STAT5650 - Applied Machine Learning and Multivariate Statistics - 3cr.
- STAT5685 - Deep Learning Theory and Applications - 3cr. **OR** STAT6685 - Deep Learning Theory and Applications - 3cr.
- STAT6655 - Machine Learning - 3cr.

● A 5000-level or higher data science-based STAT class approved by the Data Science graduate certificate faculty advisory panel.

Computer Science

Earn at least 3 credits from the following:

- CS5060 - Decision Making: Algorithms Under Uncertainty - 3cr.
- CS5080 - Data Mining - 3cr.
- CS5665 - Machine Learning for Data Science - 3cr.
- CS5820 - Interactive Information Visualization for Data Science - 3cr.
- CS6665 - Machine Learning for Data Science - 3cr.
- CS5830 - Data Science in Practice - 3cr. **OR** CS6830 - Data Science in Practice - 3cr.

● A 5000-level or higher data science-based CS class approved by the Data Science graduate certificate faculty advisory panel.

Implementation/Application

Students will take 3-4 credits from the following list:

Complete at least 1 of the following courses:

- CS5510 - Robot Intelligence - 4cr.
- CS6675 - Advanced Data Mining - 3cr.
- STAT5555 - Advanced R Programming for Data Science - 3cr. **OR** STAT6555 - Advanced R Programming for Data Science - 3cr.

● A 5000-level or higher data science-based application class in the student's home department approved by the Data Science graduate certificate faculty advisory panel.

Elective Credits

Complete the following:
To reach the minimum 12 credits required for the Data Science graduate certificate, students will take 3 elective credits from any of the courses listed above in the Statistics, Computer Science, or Implementation/ Application cores. For students simultaneously pursuing a masters or doctoral degree, at least 6 of the total credits for this graduate certificate must be outside the student's home department.

About this Degree

Program Contact:

Graduate Program Coordinator: Taryn Sommers, SER 301D, (435) 797-2209, taryn.sommers@usu.edu

Schedule an appointment: https://studentappts.usu.edu/ramonline/BookAppt?AG=1404

Program Description

The Data Science MS gives students deep training in this fast-growing interdisciplinary field that includes the management, analysis, and visualization of complex data to make evidence-based decisions, and draws primarily from the fields of computer science and statistics. Accordingly, students in this degree program specialize in either Computer Science or Statistics. Students from both specializations will be well prepared for impactful careers in a wide range of data-reliant industries, and also for PhD programs in related fields.

The Data Science MS with a Computer Science Specialization is a graduate program that is primarily a Computer Science degree, so students need to have taken at least some coursework in Data Structures and Algorithms. This degree is available to students with a computer science undergraduate degree or adequate prior computer science and data science coursework. Students will pursue Plan A (Thesis) to achieve their degree.

This program is available in Logan at the main campus and at statewide campuses via USU's Distance Education program.

Data Science MS with a Computer Science Specialization graduates demonstrate mastery of fundamental Computer Science theory and their ability to formulate a problem, analyze it, and develop an efficient and effective solution. Graduates will be successful in their careers, finding jobs, and progressing in their field. Graduates will have excellent oral as well as written communication skills. Graduates will demonstrate a contribution of new knowledge via a thesis and through original research culminating in publication.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (gradschool.usu.edu/admissions/policies). Students must also meet the minimum admission requirements for the Computer Science MS program listed below.

- C or better in CS 2420 Data Structures and Algorithms (or equivalent) at an ABET accredited University.
- Extensive experience in modern programming languages.
- Understanding of Calculus and Statistics
- 3.0 Cumulative GPA in your BS program
- Three satisfactory Letters of Recommendation from past instructors and/or employers.

Additional Information

Transcripts:

- An unofficial transcript from your university is acceptable for your application. If accepted into the program, you will have to request an official transcript be sent to the School of Graduate Studies from your university. This transcript should include your completed program(s) and the date the degree(s) was awarded.

International Students:

- A TOEFL score of 79 or an IELTS score of 6.5 overall is required.
- Applicants who have completed two years of college in one of the countries listed here, will not be required to provide additional evidence of English language proficiency via the TOEFL or IELTS. Please email GPC, Taryn Sommers taryn.sommers@usu.edu to waive this requirement **after you have paid the application fee.**

Additional information about the Computer Science MS program may be obtained by visiting the program website at https://engineering.usu.edu/cs/students/graduate/.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

• **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.

• **Overall Graduate GPA at least 3.0 and grades of B- or better (in all degree-program coursework) are required**: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree according to the School of Graduate Studies. Only grades of B- or better are accepted for the Data Science: Computer Science Specialization degree.

• **Course Number Acceptability:** The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000-level and must include at least 18 credits of 6000-level courses.

• **A master's degree must be completed within six years of entering the degree program.** Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.

• **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

• **Course Plan and Credits:** Students in the Data Science: Computer Science Specialization Plan A program are required to take 30 credits.

• **Master's forms:** Approval of the following MS forms is required by the School of Graduate Studies.

Plan A Forms:

- Supervisory Committee Form
- Program of Study
- Thesis Proposal Approval
- Appointment for Exam
- Authorship & Copyright
- Format and Style
- Title Page
- Graduation Application
- Record of Exam

Data Science: Computer Science Specialization - MS (30 credits)

Type
Completion Requirement

Required Courses (9 credits)

Earn at least 9 credits from the following:

- CS5080 - Data Mining - 3cr.
- CS5800 - Introduction to Database Systems - 3cr.
- CS6665 - Machine Learning for Data Science - 3cr.
- CS6675 - Advanced Data Mining - 3cr.
- CS6830 - Data Science in Practice - 3cr.
- CS6850 - Introduction to Data Analysis - 3cr.
- CS6640 - Artificial Neural Networks - 3cr.
  OR STAT6685 - Deep Learning Theory and Applications - 3cr.
- MATH5710 - Introduction to Probability - 3cr.
- STAT5050 - Introduction to R - 1cr.
- STAT5650 - Applied Machine Learning and Multivariate Statistics - 3cr.
- STAT6100 - Modern Regression Methods - 3cr.
- MATH5645 - Mathematical Methods for Data Science - 3cr.
  OR MATH6645 - Mathematical Methods for Data Science - 3cr.
  OR STAT5645 - Mathematical Methods for Data Science - 3cr.
  OR STAT6645 - Mathematical Methods for Data Science - 3cr.

Program of Study Courses (14 credits)

Earn at least 14 credits from the following:

- CS5080 - Data Mining - 3cr.
- CS5800 - Introduction to Database Systems - 3cr.
- CS6040 - Scientific Visualization for Data Science - 3cr.
- CS6250 - Cooperative Work Experience, Graduate - 1cr.
  OR STAT6250 - Graduate Internship/Co-op - 1cr.
- CS6600 - Intelligent Systems - 4cr.
- CS6640 - Artificial Neural Networks - 3cr.
  OR STAT6685 - Deep Learning Theory and Applications - 3cr.
- CS6665 - Machine Learning for Data Science - 3cr.
- CS6675 - Advanced Data Mining - 3cr.
- CS6680 - Computer Vision: Foundations and Applications - 3cr.
- CS6800 - Advanced Database Systems - 3cr.
- CS6820 - Interactive Information Visualization for Data Science - 3cr.
- CS6830 - Data Science in Practice - 3cr.
- CS6840 - Graph Mining - 3cr.
- CS6850 - Introduction to Data Analysis - 3cr.
- CS6890 - Topics in Computer Science (Topic) - 1cr.
- CS6950 - Directed Readings in Computer Science - 3cr.
- MATH5710 - Introduction to Probability - 3cr.
- MATH5720 - Introduction to Mathematical Statistics - 3cr.
- MATH5645 - Mathematical Methods for Data Science - 3cr.
  OR MATH6645 - Mathematical Methods for Data Science - 3cr.
  OR STAT5645 - Mathematical Methods for Data Science - 3cr.
  OR STAT6645 - Mathematical Methods for Data Science - 3cr.
- STAT5050 - Introduction to R - 1cr.
- STAT5550 - Statistical Visualization I - 2cr.
- STAT5650 - Applied Machine Learning and Multivariate Statistics - 3cr.
- STAT6080 - Data Technologies - 2cr.
- STAT6100 - Modern Regression Methods - 3cr.
- STAT6410 - Applied Spatial Statistics - 2cr.
- STAT6550 - Statistical Computing - 3cr.
- STAT6710 - Mathematical Statistics I - 3cr.
- STAT6810 - Topics in Statistics (Topic) - 1cr.

NOTE:

- A maximum of 3 credits of CS6250 are allowed.
- A maximum of one course is allowed from the following list: CS5950, CS6950, or CS7950.
- Additional credits of CS6970 are not allowed.
- CS6990, CS7970 and CS7990 are not allowed.
- No repeat courses are allowed.
- At least 18 credits of CS 6000-level courses or above are required for graduation, excluding CS6250.
- Up to 12 credits of graduate coursework at the 5000-level are allowed

Required Courses (6 credits)

Earn at least 6 credits from the following:

- CS6970 - Thesis and Research - 1cr.
  OR STAT6970 - Thesis and Research - 1cr.

NOTE:

- CS6970 - Enroll in 6 credits. Typically taken the last 1-2 semesters.
- STAT6970 - Enroll in 6 credits.

Research Requirements

Complete ALL of the following:

- Form a supervisory committee.
- Complete a graduate thesis proposal.
- Prepare a graduate thesis based on original work.
- Successfully defend and submit the thesis to the library.

Data Science: Statistics Specialization - MS

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Graduate

About this Degree

The MS in Data Science gives students deep training in this fast-growing interdisciplinary field that includes the management, analysis, and visualization of complex data to make evidence-based decisions, and draws primarily from the fields of computer science and statistics. **Accordingly, students in this degree program specialize in either Statistics or Computer Science.** Students from both specializations will be well prepared for impactful careers in a wide range of data-reliant industries, and also for PhD programs in related fields.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Requirements for the Master of Science in Data Science are listed below. Students must complete 30 credit hours, 12 of which must be at the 6000 level or above (excluding CS6900 SEMINAR, CS6250 COOPERATIVE WORK EXPERIENCE, CS6970 THESIS AND RESEARCH, STAT6250 GRAD INTERN/ COOP, and STAT6970 THESIS AND RESEARCH).

All students will complete a Plan A MS which includes the completion of a thesis that will be reviewed by their committee. An overall GPA of 3.0 or higher and individual course grades of B- or better (in all degree-program coursework) are required.

Students with an overall GPA below 3.0 at the completion of fall and spring semesters will be issued an academic warning. If a student's institution or Program of Study GPA remains below 3.0 for two consecutive semesters, they will be dismissed from the program.

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review. Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

At least 24-semester credits for a master's degree must be from a committee-approved and a School of Graduate Studies-approved Program of Study from Utah State University.

Students in this specialization should contact the Graduate Program Coordinator in the Department of Mathematics and Statistics for detailed program requirements.

Data Science: Statistics Specialization - MS

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MATH6910 - Directed Reading and Conference - 1cr.
- STAT6970 - Thesis and Research - 1cr.

NOTE:

1. MATH6910 DIRECTED READING - 1 credit.
2. STAT6970 THESIS AND RESEARCH - 6 credits.

Required Courses

Complete at least 1 of the following courses:

- MATH5710 - Introduction to Probability - 3cr.
  OR STAT6710 - Mathematical Statistics I - 3cr.

Required Courses

Complete at least 1 of the following courses:

- STAT5645 - Mathematical Methods for Data Science - 3cr.
  OR STAT6645 - Mathematical Methods for Data Science - 3cr.
- MATH5645 - Mathematical Methods for Data Science - 3cr.
  OR MATH6645 - Mathematical Methods for Data Science - 3cr.
- MATH5720 - Introduction to Mathematical Statistics - 3cr.
- STAT6720 - Mathematical Statistics II - 3cr.

Required Courses

Complete at least 1 of the following courses:

- CS5665 - Machine Learning for Data Science - 3cr.
- STAT5650 - Applied Machine Learning and Multivariate Statistics - 3cr.
- STAT6655 - Machine Learning - 3cr.
- STAT5685 - Deep Learning Theory and Applications - 3cr.
  OR STAT6685 - Deep Learning Theory and Applications - 3cr.

Required Courses

Complete at least 1 of the following courses:

- STAT5550 - Statistical Visualization I - 2cr.
- STAT5560 - Statistical Visualization II - 2cr.
  OR STAT6560 - Statistical Visualization II - 2cr.
- CS5820 - Interactive Information Visualization for Data Science - 3cr.
  OR CS6820 - Interactive Information Visualization for Data Science - 3cr.

Required Courses

Complete at least 1 of the following courses:

- CS6510 - Robot Intelligence - 4cr.
- CS6675 - Advanced Data Mining - 3cr.
- CS6680 - Computer Vision: Foundations and Applications - 3cr.
- CS6830 - Data Science in Practice - 3cr.
- CS6840 - Graph Mining - 3cr.
- STAT6555 - Advanced R Programming for Data Science - 3cr.
- STAT6655 - Machine Learning - 3cr.
- STAT6685 - Deep Learning Theory and Applications - 3cr.

Remaining Credit Requirements

Complete the following:

- Fill remaining credits from any course with a MATH, STAT, CS, or DSAI designation at the 5000 level or higher. Other courses outside these designations can also be considered if they have a strong data science component.

Research Requirements

Complete the following:

- Form a supervisory committee.
- Complete a graduate thesis proposal.
- Prepare a graduate thesis based on original work.
- Successfully defend and submit the thesis to the library.
- Graduate school forms are found at this link: https://gradschool.usu.edu/academics

Data Analytics - Minor

Program Overview

College
Jon M. Huntsman School of Business

Department
Data Analytics & Information Systems

Program Level
Undergraduate

About this Degree

Modern demand for college graduates with data analytics knowledge has exploded. Undergraduates from any background or major will benefit from learning basic programming, database, visualization, and analysis skills in the Data Analytics minor that will significantly enhance their preparation for the job market. Instructors in this minor have extensive real-world professional backgrounds to provide students with practical hands-on experience. Students will learn how to use the analytics tools employed by today's companies and organizations.

Program Requirements

Total Credits Required In Program Coursework
15

Total Credits Required To Earn This Credential
15

Simple Requisites

Program Requirements

This minor requires 15 total credits, with 12 required credits and 3 elective credits.

Required Courses (12 credits)

Type
Completion Requirement

Section 1

Complete ALL of the following Courses:

- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- DATA5300 - Database Management - 3cr.
- DATA5400 - Data Visualization with Tableau (CI) - 3cr.
- DATA5500 - Python Programming for Analytics - 3cr.

Elective (3 credits)

Type
Completion Requirement

Elective Course Options

Earn at least 3 credits from the following:

- DATA5310 - Advanced Database and Database Analytics - 3cr.
- DATA5410 - Visual Data Analytics - 3cr.
- DATA5420 - Introduction to Text Mining - 3cr.
- DATA5480 - Data Mining - 3cr.
- DATA5510 - Advanced Python Programming for Analytics - 3cr.
- DATA5600 - Introduction to Regression and Machine Learning for Analytics - 3cr.
- DATA5610 - Advanced Machine Learning for Analytics - 3cr.

Data Analytics - BA, BS

Program Overview

College
Jon M. Huntsman School of Business

Department
Data Analytics & Information Systems

Program Level
Undergraduate

About this Degree

Data analysts and data scientists are in heavy demand by companies who need to make decisions in an increasingly data-driven world. In the Data Analytics program, students gain hands-on experience applying the latest data technologies and sophisticated analytical methods, with rigorous courses in computer programming, machine learning and artificial intelligence, data engineering, visualization, and data mining. The Data Analytics experience includes real-world problem-solving across all functions of an organization, including strategy, sales and marketing, accounting, finance, human resources, and operations.

- For more information about Data Analytics and Information Systems, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is DSAI 2275 or MATH2270 LINEAR ALGEBRA (QI).

Admission Requirements for this Program

First-Year and Transfer Students are admitted to the Huntsman School of Business based on USU's Admission Requirements.

Current USU Students in good standing qualify for admission into a Huntsman School major.

Huntsman School Admission Details: https://huntsman.usu.edu/undergraduate/apply

Simple Requisites

Program Requirements

- Elective credits needed will be determined on an individual basis (a student with continuing education, AP credits, and Language credits may not require additional elective credits).
- Completing a minor is recommended to fulfill elective credits.
- Completion of IS4250 DAIS INTERNSHIP requirement is recommended during junior or senior year.
- ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) requires a grade of C or better to satisfy prerequisites for further courses.
- A 2.0 overall and 2.5 major GPA is required to be recommended for graduation.
- Major requirements may not be taken on a pass/fail basis.

Data Analytics - BA, BS Course Requirements

Type
Completion Requirement

Major Requirements - Analytics Core (37 credits)

Students are required to take the following courses along with the business acumen. A 2.5 GPA in core and major courses is required for graduation.

Fulfill ALL of the following requirements:

Required

Complete ALL of the following Courses:

- DATA5300 - Database Management - 3cr.
- DATA5400 - Data Visualization with Tableau (CI) - 3cr.
- DATA5500 - Python Programming for Analytics - 3cr.
- DATA5510 - Advanced Python Programming for Analytics - 3cr.
- DATA5600 - Introduction to Regression and Machine Learning for Analytics - 3cr.
- DATA5610 - Advanced Machine Learning for Analytics - 3cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
- IS4250 - Data Analytics and Information Systems Internship - 1cr.

AND

Electives

Complete at least 3 of the following courses:

- DATA5330 - Data Pipeline Engineering - 3cr.
- DATA5360 - Data Warehousing - 3cr.
- DATA5400 - Data Visualization with Tableau (CI) - 3cr.
- DATA5420 - Introduction to Text Mining - 3cr.
- DATA5480 - Data Mining - 3cr.
- DATA5490 - Prescriptive Analytics and Management Science - 3cr.
- DATA5570 - Building Software With Artificial Intelligence - 3cr.
- DATA5580 - Machine Learning Operations - 3cr.
- DATA5620 - Advanced Regression for Causal Inference - 3cr.
- DATA5630 - Deep Forecasting - 3cr.
- DATA5690 - Computational Methods for FinTech - 3cr.
- DATA5695 - Predictive Methods for FinTech - 3cr.
- DATA5310 - Advanced Database and Database Analytics - 3cr.

Business Acumen (46-47 credits)

All acumen courses must have a minimum grade of C unless otherwise stated.

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- BUS3200 - Professional Communication with AI (CI) - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- DATA3100 - Making Decisions with Data - 3cr.
- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- FIN3300 - Investments - 3cr.
- MGT3350 - Legal and Ethical Environment of Business - 3cr.
- MGT3700 - Operations Management - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3800 - Leadership - 2cr.
- MSLE3890 - Systems Strategy and Problem Solving - 2cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Worksfor requirements and completion.

Students should apply for graduation at http://www.usu.edu/registrar/htm/graduation/apply-online.

Master of Data Analytics (Economics and Finance) - MDATA

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Economics and Finance	Graduate

About this Degree

Economics and Finance Specialization

Many careers in economics and finance, utilize a variety of techniques to analyze data. The MDATA Economics and Finance specialization introduces students to theory and techniques that can be applied to solve problems in economics and finance.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
33	33

Simple Requisites

Program Requirements

The MDATA Economics and Finance specialization requires a minimum of 33 credits from an approved program of study with at least 15 credits from 6000-level courses with a FIN/ECN prefix or higher. More information about courses and specific fields of study can be found at https://huntsman.usu.edu/mdata.

Graduate School Requirements

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review. Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Master of Data Analytics - MDA

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Data Analytics & Information Systems	Graduate

About this Degree

USU's Master of Data Analytics (MDA) program is designed to power your career in our rapidly growing tech and data-driven economy. The degree now centers on two stackable graduate certificates, plus an integrative, multidisciplinary capstone to total 30 credits. With defined certificate tracks such as Data Analytics, Data Science, Machine Learning and AI, Machine Learning Operations, Fintech Analytics, Marketing Analytics, Accounting Fintech, Tech Innovation and Entrepreneurship, and Anticipatory Intelligence, you can tailor your credential to your strengths and to employer needs. Capstone options — ranging from Building Software with AI to Data Competitions and Agile Tech Design (plus internship experiences) — deliver real-world impact and a proven signal of capability to recruiters. All available courses remain available as electives for broader flexibility, and the certificate tracks can be pursued independently of the MDA degree.

Why you'll benefit and stand out:

- Targeted, employer-facing credentials: two certificates clearly communicate your specialized skills to recruiters, accelerating hiring discussions.
- Market-aligned rigor: the program responds to Utah's strong growth in software, data science, and fintech, ensuring your skills match current and future demand.
- Flexible, portable credentialing: stackable certificates let you tailor your path and showcase concrete competencies even before or alongside completing the master's degree.
- Real-world readiness: integrative capstones demonstrate problem solving across disciplines and provide tangible project outcomes for your portfolio and resume.
- Strong industry and career support: collaboration across departments and Huntsman School career resources expand internship, networking, and placement opportunities.

This structure is designed to enhance your competitiveness in a dynamic job market while offering a flexible, practical, and impactful path to advanced data analytics expertise.

Admission Requirements for this Program

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of the MDA program.

Applicants should generally expect to start the MDA program in fall semester, but can also start in spring.

For admission, applicants will be required to submit the following, in addition to the application form: an application fee all undergraduate transcripts, three letters of recommendation, and a statement of purpose describing why they are interested in the MDA program.

All materials will be uploaded or sent directly to the School of Graduate Studies. TOEFL or IELTS scores are required for international students whose native language is not English. International students with a prior degree from a university in an English-speaking country are exempt from the TOEFL or IELTS exam.

No application will be considered until all required information is received by the School of Graduate Studies. The School of Graduate Studies requires a minimum 3.0 GPA for the last 60 credits. For further requirements from the School of Graduate Studies please consult the following website: https://gradschool.usu.edu/apply/.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Students are individually responsible for meeting coursework requirements as outlined below. Students should ensure that they are aware of all requirements and initiate resolution of any apparent inconsistencies. MDA students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted. Modifications or substitutions for the listed MDA course requirements can be made with department approval, but a student's Program of Study must include at least 15 semester credits at the level of 6000 or above. Please also note these additional requirements from the USU School of Graduate Studies:

- Credits in the following areas are not acceptable for the MDA program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000. No more than 12 credits of 5000-level coursework will be accepted for a graduate program.
- Coursework over six years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- The MDA degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Degree Requirements

MDA candidates can select two of the following certificates (24-30 total credits) and complete up to 6 additional capstone credits as specified below, for a total of 30 program credits. Course substitutions can be made within certificate tracks or among the 6 capstone credits if approved by the department. A given course cannot be used to complete more than one certificate, or both a certificate and a capstone credit requirement.

Certificates

For each of the following certificates, specific course requirements are listed within the curriculum information below.

Data Analytics (12 credits) The Harvard Business Review has called data science the "sexiest job of the 21st century." Data analysts and data scientists are in heavy demand by companies who need to make strategic decisions in an increasingly data-driven world. In completing the Data Analytics certificate, students gain practical hands-on experience applying the latest data technologies and sophisticated analytical methods, developing advanced skills in programming, machine learning and artificial intelligence, visualization, and data mining. Note that the Data Analytics Certificate can be earned independently, without completing all MDA requirements.

Machine Learning Operations (12 credits) The Machine Learning Operations Certificate is designed to meet the increasing demand for professionals with skills in deploying, managing, and maintaining machine learning models in production environments. This program provides practical training in ML Ops, software development, web integration, and agile project management. These skills prepare graduates to meet the needs of organizations implementing AI technologies at scale. This program combines ML Ops-specific training with web development and project management methodologies to provide students with comprehensive, job-ready skills. The curriculum addresses a clear market need for professionals who can bridge the gap between data science and operational systems. Note that the Machine Learning Operations Certificate can be earned independently, without completing all MDA requirements.

Fintech Analytics (12 credits) In response to surging demand for professionals who master advanced computational and quantitative methods, the Fintech Analytics certificate blends finance, data science, and technology. Built for tech-savvy students and finance enthusiasts, this program leverages applied analytics expertise and Huntsman School career connections to prepare graduates for fast-growing fintech roles, digital banks, and innovative financial services firms. Note that the Fintech Analytics Certificate can be earned independently, without completing all MDA requirements.

Marketing Analytics (12 credits) Through the collaboration of the Data Analytics and Information Systems (DAIS) and Marketing and Strategy (MSLE) departments, the Marketing Analytics graduate certificate is designed for students with a marketing background who want to build strong, applied analytics skills to compete in today's data-driven marketing profession. This certificate provides a focused, career-relevant pathway that aligns with the Huntsman School's emphasis on real-world impact, employer partnerships, and stackable credentials. Note that the Marketing Analytics Certificate can be earned independently, without completing all MDA requirements.

Tech Innovation and Entrepreneurship (12 credits) A collaboration between the Data Analytics and Information Systems (DAIS) and Marketing, Strategy, Leadership, and Entrepreneurship (MSLE) departments, this certificate empowers students to ideate, validate, and launch technology-based ventures. Built on the Huntsman School's strength in experiential learning — through the Analytics Solutions Center (ASC) and the Center for Entrepreneurship — the program blends technical insight with entrepreneurial discipline. Open to current students and community members, it offers an inclusive, barrier-free pathway to develop scalable, high-impact ventures and to engage with regional startup ecosystems, investors, and established firms. Note that the Tech Innovation and Entrepreneurship Certificate can be earned independently, without completing all MDA requirements.

Machine Learning and AI (12-13 credits) Offered through the Department of Mathematics and Statistics and USU's School of Computing, this certificate provides a more advanced mathematical, statistical, and computational foundation underlying machine learning technologies.

Data Science (12 credits) Offered through the Department of Mathematics and Statistics, this certificate provides deeper experience at the intersection of statistics and computer science. Students considering this track should have some coursework or background in multivariable calculus, linear algebra, and mathematical probability.

Anticipatory Intelligence (15 credits) Offered through Utah State University's Center for Anticipatory Intelligence, this graduate certificate is part of the nation's first graduate program in Anticipatory Intelligence, and is designed to benefit students from all backgrounds. The certificate is structured to equip graduates and professionals with actionable hard and soft skills in systems-level thinking and emergent security challenges, as well as sophistication in interdisciplinary analysis and synthesis relating to the complex security issues affecting their own professional field. Students in the Anticipatory Intelligence program engage with instructors from a range of disciplinary backgrounds who bring a wealth of real-world experience in the security domain. This credential offers strong a value-added benefit for graduates and professionals pursuing a wide range of professions in the private sector, public service, nonprofit work, and academia.

Accounting Analytics (12 credits) Offered through the School of Accountancy in the Huntsman School of In response to surging demand for finance professionals who master advanced computational and quantitative methods, the Fintech Analytics certificate blends finance, data science, and technology. Built for tech-savvy students and finance enthusiasts, this program leverages

applied analytics expertise and Huntsman School career connections to prepare graduates for fast-growing fintech roles, digital banks, and innovative financial services firms.

Capstone Requirements

In addition to completing two of the certificates listed above, students must complete additional elective course credits that must include an integrative multidisciplinary capstone experience, as specified within the curriculum below.

MDA Requirements

Type
Completion Requirement

Required Certificates (24-30 credits)

Complete two of the post-bachelor's certificates listed below (24-30 credits)

- Data Analytics - Post Bachelor's Certificate
- Machine Learning Operations
- Fintech Analytics
- Marketing Analytics
- Tech Innovation and Entrepreneurship
- Machine Learning and Artificial Intelligence - Post-Bachelor's Certificate
- Data Science - Post-Bachelor's Certificate
- Anticipatory Intelligence - Post-Bachelor's Certificate
- Accounting Analytics

MDA Capstone (3-6 credits)

The following requirement must be completed by all MDA candidates, in addition to two of the certificates listed above. These 3-6 credits may be fulfilled as part of the requirements for individual certificates.

Complete at least 1 of the following courses:

- DATA6570 - Building Software With Artificial Intelligence - 3cr.
- DATA6910 - Data Competitions and Problem Solving - 3cr.
- IS6100 - Agile Tech Design and Development - 3cr.
- IS6250 - Graduate Internship - 1cr.
- CAI6990 - Graduate Capstone Experience - 3cr.

Master of Data Analytics (Statistics) - MDATA

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Graduate

About this Degree

The Master in Applied Machine Learning and Statistics degree is a professional masters degree that integrates coursework in four departments (Mathematics and Statistics, Management Information Systems, Economics and Finance, and Computer Science) to give graduates a broad but focused collection of tools for the management and analysis of data, particularly Big Data.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (https://gradschool.usu.edu/admissions/policies). Applicants are also expected to have a GPA in math/stat coursework of at least 3.5.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- This degree requires 30 credits of coursework. At least 18 credits must be at 6000 level or above, excluding STAT6990 CONT GRAD ADVISEMENT and STAT7990 CONT GRAD ADVISEMENT (Continuing Graduate Advisement) with no more than 12 credits allowed at the 5000 level. Credits below the 5000 level are not acceptable for a graduate degree.
- No more than 12 transfer credits may be used toward a graduate degree.
- Supervisory Committee Approval by the end of the second semester
- Program of Study submitted by the end of the second semester
- Graduation application

The Statistics emphasis of the MData program requires at least 30 credits total, including 12 credits with either a STAT or DSAI prefix. At least 18 of the 30 credits must be from courses at the 6000-level or above. The degree allows for a "stackable credential" approach, where two post-baccalaureate certificates can be combined to complete most of the requirements. Course substitutions may be approved on an individual basis.

Master in Applied Machine Learning and Statistics

Type
Completion Requirement

Core Options

Fulfill ANY of the following requirements:

Course Option

Earn at least 9 credits from the following:

- DSAI5655 - Machine Learning - 3cr.
  OR DSAI6655 - Machine Learning - 3cr.
  OR STAT5655 - Machine Learning - 3cr.
  OR STAT6655 - Machine Learning - 3cr.
- MATH5645 - Mathematical Methods for Data Science - 3cr.
  OR MATH6645 - Mathematical Methods for Data Science - 3cr.
  OR STAT5645 - Mathematical Methods for Data Science - 3cr.
  OR STAT6645 - Mathematical Methods for Data Science - 3cr.
- STAT5685 - Deep Learning Theory and Applications - 3cr.
  OR STAT6685 - Deep Learning Theory and Applications - 3cr.

OR

Post Bachelor Certificate Option

Completion of the following Certificate

• Machine Learning and Artificial Intelligence - Post-Bachelor's Certificate (11-13 credits)

Other Machine Learning Requirement

Complete at least 1 of the following courses:

- STAT5650 - Applied Machine Learning and Multivariate Statistics - 3cr.
  OR STAT6650 - Applied Machine Learning and Multivariate Statistics - 3cr.
- STAT5655 - Machine Learning - 3cr.
  OR STAT6655 - Machine Learning - 3cr.
- DSAI5655 - Machine Learning - 3cr.
  OR DSAI6655 - Machine Learning - 3cr.
- STAT5685 - Deep Learning Theory and Applications - 3cr.
  OR STAT6685 - Deep Learning Theory and Applications - 3cr.

Applied Statistics Requirement

Complete at least 1 of the following courses:

- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.
  OR STAT6100 - Modern Regression Methods - 3cr.
- STAT6180 - Financial Time Series - 2cr.
- STAT5200 - Analysis of Designed Experiments - 3cr.
  OR STAT6200 - Analysis of Designed Experiments - 3cr.
- STAT5410 - Applied Spatial Statistics - 2cr.
  OR STAT6410 - Applied Spatial Statistics - 2cr.
- STAT5500 - Biostatistics Methods (DSC) - 3cr.
  OR STAT6500 - Biostatistics Methods - 3cr.
- STAT6300 - Bayesian Statistical Methods and Data Analysis - 3cr.

Elective Post-Bachelor's Certificates

Complete one of the following:

- Data Science - Post-Bachelor's Certificate
- Data Analytics - Post Bachelor's Certificate
- Anticipatory Intelligence - Post-Bachelor's Certificate
- Machine Learning and Artificial Intelligence - Post-Bachelor's Certificate
- Fintech Analytics Post-Baccalaureate Certificate
- Marketing Analytics Post-Baccalaureate Certificate
- Accounting Fintech Post-Baccalaureate Certificate
- Tech Innovation and Entrepreneurship Post-Baccalaureate Certificate

Capstone Requirement

Type
Completion Requirement

Required Course

Earn at least 3 credits from the following:

- STAT6080 - Data Technologies - 2cr.
- STAT6180 - Financial Time Series - 2cr.
- STAT6250 - Graduate Internship/Co-op - 1cr.
- STAT6410 - Applied Spatial Statistics - 2cr.
- STAT6555 - Advanced R Programming for Data Science - 3cr.
- STAT6560 - Statistical Visualization II - 2cr.
- STAT6655 - Machine Learning - 3cr.
  OR DSAI6655 - Machine Learning - 3cr.

NOTE:

1. STAT6250 GRAD INTERN/COOP - Must have a machine learning or statistics focus.

Electives

Type
Completion Requirement

Elective Courses

Complete any additional elective courses to fulfill 30 total credits:

Complete the following:
May include any 5000 or 6000-level course with a STAT, DSAI, or DATA prefix as long as at least 12 of the total 30 credits have a STAT or DSAI prefix.

Data Analytics - Post Bachelor's Certificate

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Data Analytics & Information Systems	Graduate

About this Degree

The Harvard Business Review has called data science the "sexiest job of the 21st century." Data analysts and data scientists are in heavy demand by companies who need to make strategic decisions in an increasingly data-driven world. In completing the Data Analytics certificate, students gain practical hands-on experience applying the latest data technologies and sophisticated analytical methods, developing advanced skills in programming, machine learning and artificial intelligence, visualization, and data mining. The Data Analytics Post-Bachelor's Certificate program allows students to build these critical skills in as little as one to two semesters.

Careers in information systems and data technologies are multidisciplinary and require teamwork, critical thinking, and communication. Well-qualified applicants are encouraged to apply from *any* background in which they have developed and applied these skills. Potential applicants with little or no prior technical experience may first consider the Data Technologies - Post-Bachelor's Certificate

Note that the Data Analytics Post-Bachelor's Certificate can be completed on its own, or it can be stacked with any one of the other certificates offered by the Department of Data Analytics & Information Systems to meet the requirements of the Master of Management Information Systems - MMIS degree program.

Data Analytics and Information Systems Faculty

Courses in Data Analytics Post-Bachelor's Certificate program are taught by faculty in the Department of Data Analytics and Information Systems who have years of corporate and academic experience. Our instructors are experts in the most cutting-edge tools and strategies for data and tech.

https://huntsman.usu.edu/dais/directory

Admission Requirements for this Program

To begin the Data Analytics Post-Bachelor's Certificate , applicants can submit an application form, along with the application fee and all undergraduate transcripts through the USU School of Graduate Studies at https://gradschool.usu.edu/apply/. TOEFL or IELTS scores are required for international students whose native language is not English. International students with a prior degree from a university in an English-speaking country are exempt from the TOEFL or IELTS exam. The School of Graduate Studies requires a minimum 3.0 GPA for the last 60 credits of prior undergraduate study.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
12	12

Simple Requisites

Program Requirements

The certificate requires 12 total credits, with 9 required credits and one additional 3-credit elective course as outlined within the curriculum below. Individual substitutions for course requirements may be considered and approved on a case-by-case basis by the Data Analytics and Information Systems Department.

Courses used to fulfill requirements for this certificate may not include courses previously completed to meet the requirements of any other certificate or program, and cannot be used to complete any other certificate or program.

Courses remain valid for 6 years for potential inclusion in a future master's degree program (MMIS or MDATA).

Certificate students who opt to earn an MMIS or MDATA degree will be granted a waiver for reduced fees for their future master's application. Please contact our office for details

Data Analytics Post-Baccalaureate Certificate Requirements (12 credits)

Type
Completion Requirement

Required Courses

This 12-credit core comprises the requirements for the Data Analytics Post-Baccalaureate Certificate. This certificate can be completed independently or stacked with another approved 12-credit certificate and 6 additional capstone credits to earn the MMIS degree.

Complete ALL of the following Courses:

- DATA5600 - Introduction to Regression and Machine Learning for Analytics - 3cr.
- DATA6510 - Advanced Python Programming for Analytics - 3cr.
- DATA6610 - Advanced Machine Learning for Analytics - 3cr.

Elective Courses

Complete at least 1 of the following courses:

- DATA6330 - Data Pipeline Engineering - 3cr.
- DATA6360 - Data Warehousing - 3cr.
- DATA6410 - Visual Data Analytics - 3cr.
- DATA6420 - Introduction to Text Mining - 3cr.
- DATA6480 - Data Mining - 3cr.
- DATA6490 - Prescriptive Analytics and Management Science - 3cr.
- DATA6570 - Building Software With Artificial Intelligence - 3cr.
- DATA6580 - Machine Learning Operations - 3cr.
- DATA6620 - Advanced Regression for Causal Inference - 3cr.
- DATA6690 - Computational Methods for FinTech - 3cr.
- DATA6695 - Predictive Methods for FinTech - 3cr.
- DATA6910 - Data Competitions and Problem Solving - 3cr.

Data Technologies - Post-Bachelor's Certificate

Program Overview

College
Jon M. Huntsman School of Business

Department
Data Analytics & Information Systems

Program Level
Graduate

About this Degree

Designed specifically for students with nontechnical academic or employment backgrounds, the Data Technologies certificate allows students to learn foundational database, programming, and analytics skills to boost their job qualifications in as little as one to two semesters. Students may also use this certificate to prepare for successfully completing an additional certificate track within USU's Data Analytics and Information Systems program. Careers in information systems and data technologies are multidisciplinary and require teamwork, critical thinking, and communication. Well-qualified applicants are encouraged to apply from from *any* background in which they have developed and applied these skills.

Note that the Data Technologies Post-Bachelor's Certificate can be completed on its own, or it can be stacked with any one of the other certificates offered by the Department of Data Analytics and Information Systems to meet the requirements of the Master of Management Information Systems - MMIS degree program.

Dairy Cattle Management - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Animal, Dairy & Veterinary Sciences

Program Level
Undergraduate

About this Degree

The Dairy Cattle Management Certificate is a comprehensive 27-credit program designed to equip students with the specialized knowledge and practical skills needed for careers in dairy cattle management. The curriculum covers essential areas such as dairy production practices, animal health, reproduction, nutrition, and business operations.

Electives allow students to tailor their learning to focus on areas such as carcass evaluation, animal health, dairy technology, or forage production. This program emphasizes hands-on, practical learning, preparing students for leadership roles in the dairy industry by integrating technical expertise with business management skills. Students can pursue this certificate independently or alongside a Bachelor of Science degree, enhancing their career prospects in the dairy sector.

Design Entrepreneurship - Institutional Certificate of Proficiency

Program Overview

College
College of Agriculture & Natural Resources

Department
Landscape Architecture & Environmental Planning

Program Level
Undergraduate

About this Degree

The Certificate in Design Entrepreneurship is composed of required professional foundation courses in the Entrepreneurship Core (6 credits), a Professional Office Experience (1 credit), and Business Electives (6 credits min.) in accounting, entrepreneurship, finance, ideation, management, or marketing. A minimum of 13 credits are required for the Certificate.

Drawn from various programs across USU, the Electives would allow students from allied AEC+D programs to efficiently complete the Certificate due to overlap in their major requirements (e.g., credit for existing internship experiences). The schedule for the Certificate is left open to when the students can best fit the courses in with their major requirements.

Program Requirements

Deaf Education - Listening and Spoken Language Specialization - MEd

Program Overview

College
College of Education & Human Services

Department
Speech and Hearing Sciences

Program Level
Graduate

About this Degree

The Deaf Education program at Utah State University offers teacher training in Listening and Spoken Language (LSL) to earn a Master of Education degree and eligibility for the Utah Deaf Education Professional Educator License with the LSL Endorsement. The program is designed to be completed in four semesters; 47 credit hours.

The LSL deaf education graduate training program prepares students to serve young children who are deaf or hard of hearing (DHH) and their families. The program focus is on early intervention, strategies for optimizing LSL development, kindergarten readiness, and an understanding of hearing technology (e.g., cochlear implants, digital hearing aids). Students gain hands-on experiences every semester of the program in rotations that focus on classroom, individual or small group, and early intervention services. As an interdisciplinary program, students also gain theoretical knowledge and practical experience in audiology and speech/language pathology services. Students must successfully complete a Plan A Thesis, Plan B, or Plan C Project.

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. Refer to the department website for current admission requirements. Some prerequisites may apply. Transcripts can be reviewed if students have completed required coursework in an undergraduate program or at another institution. In such cases, the program of study will be individualized consistent with department and college requirements.

Admission for off-campus and out-of-state students is contingent upon access to an approved practicum placement site. Students complete requirements to earn a Utah Deaf Education Professional Educator teaching license with LSL Endorsement at the time of graduation. Students who do not seek licensure at the time of graduation must meet Utah State Board of Education licensure requirements at the time of application.

School of Graduate Studies Requirements

Degree Verification

- A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- Course Number Acceptability: The Program of Study for a master's degree or a doctoral degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000. No more than 12 credits of 5000-level coursework may be applied to a graduate program.
- Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
- Master's forms: Approval of the Program of Study is required by the School of Graduate Studies.

Section 1

Type

Completion Requirement

Required Courses

Complete ALL of the following Courses:

- SHS6320 - Language Learning and Literacy Acquisition in Children with Hearing Loss - 3cr.
- SHS6350 - Early Elementary and Itinerant Support for Children who are DHH using LSL - 3cr.
- SHS6580 - Family Centered Practices for Children who are Deaf, Hard of Hearing (DHH) - 3cr.
- SHS6700 - Practicum in Education of Children who are Deaf and Hard of Hearing - 1cr.
- SHS6715 - Listening and Spoken Language Practicum Workshop - 1cr.
- SHS6720 - Interdisciplinary Implementation of IDEA - 2cr.
- SHS6730 - Multiple Disabilities and Differentiated Instruction - 2cr.
- SHS6770 - Audiology and Teachers of Children who are Deaf and Hard of Hearing - 1cr.
- SHS6880 - Listening and Spoken Language Deaf Education Student Teaching - 6cr.
- SHS6850 - Seminar in Communicative Disorders and Deaf Education - 1cr.
- SHS6340 - Foundations of Listening and Spoken Language - 3cr.
- SHS6360 - LSL Preschool Curriculum: Language and Cognition - 3cr.
- SHS6560 - Speech and Language Assessment and Intervention for Children Who are Deaf or Hard of Hearing - 3cr.

Utah students can earn the Utah Preschool Special Education teaching license upon completion of additional coursework and practicum. For information regarding the Preschool Special Education Teaching License, see the Special Education and Rehabilitation Counseling website.

NOTE:

1. SHS6700 PRACT IN ED DEAF/HH - 9 total credits are required
2. SHS6715 LISTENING/LANGUAGE WORKSHOP - 3 total credits required
3. SHS6580 FAMILY CENTERED PRAC IN HL - 1 credit required
4. SHS6880 LSL DE STUDENT TEACHING - 9 credits required

Digital Design - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Department of Technology, Design and Technical Education offers a Technical Certificate in Digital Design. The certificate program is available at the following locations: Blanding, Moab, and Price. The Technical Certificate in Digital Design is an 19-credit-hour stand-alone credential that will contribute to the elective course requirements for several existing business-related certificates as well as the Associate of Applied Science General Technology degree with a General Business emphasis. The Technical Certificate will meet many of the requirements for USU's IT Support and Web Development AAS degree. In addition to qualifying students for entry-level design jobs, a Digital Design Technical Certificate will build momentum to facilitate student transitions and support student efforts to earn certificate and associate degree credentials.

Digital design is a growing specialty in the field of graphic design. Digital design students will learn interactive website design, digital video production, graphics and communication technologies, as well as overall layout and production design for advertisements, brochures, magazines and corporate reports. The Technical Certificate will provide students with the initial tools to enhance business marketing through digital equipment and software.

IT skills in greatest demand in the state include JavaScript, LINUX, UNIX, C++, website development and HTML - all of which are utilized in the Digital Design Technical Certificate. In just one or two semesters, students will have marketable skills to help them gain employment. Completion of the Digital Design Technical Certificate will create pathways for additional education and employment opportunities.

College of Education & Human Services	Special Education & Rehab Counseling	Graduate

About this Degree

The department's Ph.D. program in Disability Disciplines prepares graduates for university faculty positions in research and personnel preparation in the areas of special education, rehabilitation, applied behavior analysis, speech-language pathology, pathokinesiology, and audiology. The PhD program is designed to develop students' competence in (1) mastery of the theoretical and applied content underlying the provision of appropriate and effective services for persons with disabilities; (2) ability to conduct independent research; and (3) ability to conduct effective personnel preparation, including college teaching and supervising students who are learning to deliver services.

The PhD is available at Utah State University's main campus in Logan, Utah

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
56-61	56-61

Simple Requisites

Program Requirements

Degree Completion Requirements:

- A master's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- The Program of Study for a doctoral degree must include at least 15 semester credits at the level of 6000 or above.
  Credits in the following areas are not acceptable: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost for the School of Graduate Studies.
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- A doctorate must be completed within eight years of entering the degree program.
- Depending on the specialization, 56 – 61 credits are required beyond master's degree.
- A minimum of 12 dissertation credits (7970) is required for all specializations.
- Successful defense and submission of the dissertation to the library.
- Approval of academic forms required for doctoral students by the School of Graduate Studies.

Coursework

Coursework includes a set of core courses that establish a foundation and framework for a rigorous and scholarly understanding of issues related to disability disciplines. In addition, each specialization provides unique

coursework focused on issues that are more specific to that specialization. See details of specializations for details.

Preliminary Exams
Early in his/her program - typically after one year of full-time study - students must pass a preliminary exam. This two-part exam is completed across a two-day period. Components of the exam required of all Disability Disciplines students are:

- Critique of Research: The student critiques a manuscript reporting research relevant to their specialization.
- Design of Research: The student outlines the design of a research project on a given topic relevant to their specialization.

In addition, specializations may include an examination of disciplinary knowledge on a third day of the preliminary exam.

Products and Demonstrations of Competence
A set of seven required products and demonstrations of competence provide a context for collaboration and mentoring around the critical skill sets necessary for successful university professors. The products and demonstrations of competence include research, college teaching, supervision, conference presentation, publication, review of literature, and grant writing. These activities are focused on the particular content and issues that are important within the student's specialization. Thus, the products and internships provide both a cohesive program-wide structure and disciplinary depth. This set of activities constitutes the program's comprehensive exam; they must be completed before the student proposes their dissertation.

Dissertation
The dissertation is the culminating project of the doctoral program. It involves original research that advances the field by contributing new knowledge that is relevant to an important question. The dissertation is a creative and scholarly endeavor that builds upon the student's coursework, products and demonstrations of competence, and extensive mentoring from the faculty. A dissertation proposal is written by the graduate student and approved by the student's supervisory committee prior to data collection.

Specializations

Applied Behavior Analysis with Individuals with Disabilities
The Applied Behavior Analysis doctoral specialization prepares graduates to be highly effective university faculty and behavior analytic practitioners who significantly improve individuals' lives through research, intervention, and teaching.

The specialization offers students the opportunity to advance their behavior analytic skills by taking advanced coursework in behavior analysis theory, research and practice; practicing applied behavior analysis in clinical and educational settings; and collaborating extensively with faculty in the areas of research, teaching, and staff supervision.

For more specific information, please visit the department's website: https://cehs.usu.edu/sperc/sped/doctoral/applied-behavior.

Audiology Specialization
The Audiology doctoral specialization prepares graduates to be highly effective university faculty in audiology programs. Prospective students enter the program with an earned graduate degree in audiology (AuD, MS). Programs of study can be created for students with an earned bachelor's degree in Communicative Disorders, or for students interested in completing a combined AuD/PhD.

For more specific information, please visit the department's website: https://cehs.usu.edu/sperc/sped/doctoral/audiology.

Pathokinesiology
The Pathokinesiology specialization within the Disability Disciplines doctoral program focuses on the scientific study of human movement (kinesiology) as it relates to any abnormal condition (patho) affecting movement or postural dysfunction. The specialization is designed to prepare students to be productive in research and to pursue a career in academia or industry. The program offers training to investigators who seek to answer questions about human movement, its functions and dysfunctions. Students will be exposed to three core areas: motor control, motor learning and biomechanics.

For more specific information, please visit the department's website: https://cehs.usu.edu/sperc/sped/doctoral/pathokinesiology.

Rehabilitation Counselor Education and Supervision
The Rehabilitation Counselor Education and Supervision doctoral specialization at Utah State University offers students a unique combination of extensive collaboration with faculty; direct experience in research, teaching, counselor supervision, and grant writing; and focus on preparing outstanding rehabilitation counselor educators and researchers. This specialization prepares graduates to be highly effective university faculty and agency administrators in rehabilitation counseling. Graduates significantly improve the lives of persons with disabilities through research, teaching, and program administration.

For more specific information, please visit the department's website: https://cehs.usu.edu/sperc/sped/doctoral/rehabilitation-counseling.

Special Education
The Special Education specialization of the Disability Disciplines PhD prepares graduates to be effective university faculty in special education who significantly improve children's lives through research, scholarship, and teaching.

This doctoral specialization offers students a unique combination of extensive collaboration with faculty; direct experience in research and scholarship, teaching, supervision, and writing; behavior analytic orientation to special education; and focus on producing outstanding special education services.
For more specific information, please visit the department's website: https://cehs.usu.edu/sperc/sped/doctoral/special-education.

Speech-Language Pathology
The Speech-Language Pathology specialization within the Disability Disciplines PhD brings together faculty and students across disciplinary and departmental lines to explore interrelated aspects of disabilities.
For more specific information, please visit the department's website: https://cehs.usu.edu/sperc/sped/doctoral/speech-language-pathology.

Disabilities Studies Specialization (NOT CURRENTLY OFFERED)

Specializations and their requirements are listed below:

Applied Behavior Analysis with Individuals with Disabilities (59 credits)

Type
Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Required Courses (10 credits)

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- SPED7420 - Systematic Literature Reviews - 3cr.
- SPED7920 - Doctoral Program Professional Seminar - 1cr.

AND

Electives (6 credits)

Complete at least 2 of the following courses:

- REH7780 - Bioethics, Ethics and Disability - 3cr.
- SPED7020 - Teaching in Disability Disciplines - 3cr.
- SPED7400 - Cultural and Linguistic Diversity and Disability - 3cr.
- SPED7430 - Educational Neuroscience - 3cr.
- SPED7750 - Social and Legal Context of Disability - 3cr.

AND

Specialization Courses (14 credits)

Complete ALL of the following Courses:

- SPED7700 - Single-Subject Research Methods and Designs - 3cr.
- SPED7720 - Advanced Applied Behavior Analysis - 3cr.
- SPED7820 - Seminar: Special Topics - 1cr.
- SPED7940 - Journal Reading Group - 1cr.

NOTE:

1. SPED7940 JOURNAL READING GROUP take 2 credits (Journal Reading Group-Prelim Prep-1 credit, Journal Reading Group-Behavior Analysis-1 credit).
2. SPED7820 SEMINAR: SPECIAL TOPICS take 6 credits (Verbal Behavior & Relational Responding-3 credits, Advanced Functional Assess/Intervention-3 credits).

AND

Specialization Elective (9 credits)

Complete at least 3 of the following courses:

- PSY6650 - Theories of Learning: The Behavioral Perspective - 3cr.
- PSY6760 - Fundamentals of Acceptance and Commitment Therapy - 3cr.
- PSY7750 - Behavioral Economics - 3cr.
- PSY7810 - Seminar - 1cr.

NOTE:

1. **PSY7810 Seminar Topics** - 1) Behavior Theory & Philosophy-3 credits, 2) Experimental Analysis of Human Behavior-3 credits, 3) Translational Research in Behavior Analysis-3 credits.

AND

Internships (3 credits)

Complete ALL of the following Courses:

- SPED7060 - Research Internship - 1cr.
- SPED7330 - Supervision Internship - 1cr.
- SPED7340 - College Teaching Internship - 1cr.

AND

Products (4 credits)

Complete ALL of the following Courses:

- SPED7040 - Literature Review - 1cr.
- SPED7070 - SPED Grant Writing Internship - 1cr.
- SPED7080 - Writing for Publication - 1cr.
- SPED7090 - Conference Presentation - 1cr.

AND

Preliminary Exams (1 credit)

Complete ALL of the following Courses:

- SPED7840 - Preliminary Exams - 1cr.

AND

Dissertation (12 credits)

A minimum of 12 dissertation credits is required.

Complete ALL of the following Courses:

- SPED7970 - Dissertation - 1cr.

Audiology Specialization (56 credits)

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Required Courses (10 credits)

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- SPED7420 - Systematic Literature Reviews - 3cr.
- SPED7920 - Doctoral Program Professional Seminar - 1cr.

AND

Electives (6 credits)

Complete at least 2 of the following courses:

- REH7780 - Bioethics, Ethics and Disability - 3cr.
- SPED7020 - Teaching in Disability Disciplines - 3cr.
- SPED7400 - Cultural and Linguistic Diversity and Disability - 3cr.
- SPED7430 - Educational Neuroscience - 3cr.
- SPED7750 - Social and Legal Context of Disability - 3cr.

AND

Specialization Courses (20 credits)

Fulfill ALL of the following requirements:

Specialization Core Courses (14 credits)

Complete ALL of the following Courses:

- SHS7710 - Evidence-Based Practice in Audiology - 3cr.
- SHS7730 - Advanced Topics in Audiology - 3cr.
- SHS7740 - Research in Audiology - 3cr.
- SHS7880 - Research Methods in Audiology - 3cr.
- SHS7890 - Journal Reading - Audiology - 1cr.
- SPED7940 - Journal Reading Group - 1cr.

AND

Specialization Electives (6 credits)

Complete the following:
• Students should take 6 credits of committee-approved electives focused on their research to complete degree requirements.

AND

Internships (3 credits)

Complete ALL of the following Courses:
- SPED7060 - Research Internship - 1cr.
- SPED7330 - Supervision Internship - 1cr.
- SPED7340 - College Teaching Internship - 1cr.

AND

Products (4 credits)

Complete ALL of the following Courses:
- SPED7040 - Literature Review - 1cr.
- SPED7070 - SPED Grant Writing Internship - 1cr.
- SPED7080 - Writing for Publication - 1cr.
- SPED7090 - Conference Presentation - 1cr.

AND

Preliminary Exams (1 credit)

Complete ALL of the following Courses:
- SPED7840 - Preliminary Exams - 1cr.

AND

Dissertation (12 credits)

A minimum of 12 dissertation credits is required.

Complete ALL of the following Courses:
- SPED7970 - Dissertation - 1cr.

Pathokinesiology (57 credits)

Type
Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Required Courses (10 credits)

Complete ALL of the following Courses:
- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- SPED7420 - Systematic Literature Reviews - 3cr.
- SPED7920 - Doctoral Program Professional Seminar - 1cr.

AND

Electives (6 credits)

Complete at least 2 of the following courses:
- REH7780 - Bioethics, Ethics and Disability - 3cr.
- SPED7020 - Teaching in Disability Disciplines - 3cr.
- SPED7400 - Cultural and Linguistic Diversity and Disability - 3cr.
- SPED7430 - Educational Neuroscience - 3cr.
- SPED7750 - Social and Legal Context of Disability - 3cr.

AND

Specialization Courses (21 credits)

Students must complete a total of 21 credits, combining Specialization - Core and Specialization - Electives.

NOTE:
*6000/7000 level courses offered from other USU Departments may be approved by student's advisor/committee.

Fulfill ALL of the following requirements:

Specialization - Core (2-4 credits)

Complete ALL of the following Courses:
- KIN7910 - Independent Research - 1cr.
- KIN7940 - Journal Reading Group - 1cr.

NOTE:

1. KIN7940 JOURNAL READING GROUP - 1 credit.
2. KIN7910 - 1-3 (repeatable)

AND

Specialization - Electives (17-19 Credits)

Complete 17 - 19 credits from the following:

Complete ANY of the following Courses:
- KIN6050 - Psychological Aspects of Sports Performance - 3cr.
- KIN6200 - Biophysical Aspects of Sport - 3cr.
- KIN6410 - Bioenergetics and Exercise Metabolism - 2cr.
- KIN6425 - Exercise in Extreme Environments - 2cr.
- KIN6440 - Body Composition - 2cr.
- KIN6460 - Exercise Electrocardiogram Interpretation - 2cr.
- KIN6480 - Advanced Neuromuscular Exercise Physiology - 2cr.
- KIN6610 - Topics in Biomechanics - 2cr.
- KIN6840 - Fundamentals of Motor Behavior - 2cr.
- KIN6850 - Neural Aspects of Rehabilitation - 2cr.
- KIN7910 - Independent Research - 1cr.
- KIN7820 - Seminar: Special Topics - 1cr.

AND

Internships (3 credits)

Complete ALL of the following Courses:
- SPED7060 - Research Internship - 1cr.
- SPED7340 - College Teaching Internship - 1cr.
- SPED7330 - Supervision Internship - 1cr.

AND

Products (4 credits)

Complete ALL of the following Courses:

- SPED7040 - Literature Review - 1cr.
- SPED7070 - SPED Grant Writing Internship - 1cr.
- SPED7080 - Writing for Publication - 1cr.
- SPED7090 - Conference Presentation - 1cr.

AND

Preliminary Exams (1 credit)

Complete ALL of the following Courses:

- SPED7840 - Preliminary Exams - 1cr.

AND

Dissertation (12 credits)

A minimum of 12 dissertation credits is required.

Complete ALL of the following Courses:

- SPED7970 - Dissertation - 1cr.

Rehabilitation Counselor Education and Supervision (61 credits)

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Required Foundation Courses (10 credits)

Complete ALL of the following Courses:

- EDUC6600 - Statistical Foundations - 3cr.
- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- SPED7420 - Systematic Literature Reviews - 3cr.
- SPED7920 - Doctoral Program Professional Seminar - 1cr.

AND

Required Program Courses (9 credits)

Earn at least 9 credits from the following:

- REH7750 - Social and Legal Context of Disability - 3cr.
- REH7780 - Bioethics, Ethics and Disability - 3cr.
- SPED7020 - Teaching in Disability Disciplines - 3cr.

AND

Supervision Courses (9 credits)

Complete ALL of the following Courses:

- REH7050 - Professional Issues in Rehabilitation Counselor Education - 3cr.
- REH7760 - Clinical Supervision - 3cr.
- REH7790 - Theoretical Foundations of Counseling - 3cr.

AND

Advanced Research and Electives (9 credits)

EDUC7610 REGRESSION ANALYSIS **Regression Analysis and EDUC 6770 Qualitative Research Methods, plus 3 other graduate-level credits.**

Earn at least 9 credits from the following:

- EDUC7610 - Regression Analysis - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.

AND

Formative Practice Experience and Products (11 credits)

Fulfill ALL of the following requirements:

Practicum (1 credit)

Complete ALL of the following Courses:

- REH7010 - Doctoral Practicum - 1cr.

AND

Experience (6 credits)

Earn at least 6 credits from the following:

- REH7060 - Research Internship - 1cr.
- REH7250 - Leadership & Advocacy Internship - 1cr.
- REH7330 - Supervision Internship - 1cr.
- REH7340 - College Teaching Internship - 1cr.
- REH7350 - Counseling Internship - 1cr.

All internship courses are variable credit courses. Total must equal 6 credits.

AND

Products (4 credits)

Complete ALL of the following Courses:

- REH7040 - Literature Review - 1cr.
- REH7070 - REH Grant Writing Internship - 1cr.
- REH7080 - Writing for Publication - 1cr.
- REH7090 - Professional Conference Presentation - 1cr.

Summative Products (13 credits)

Complete ALL of the following Courses:

- REH7840 - Preliminary Examinations - 1cr.
- REH7970 - Dissertation - 1cr.

Students must take a minimum of 12 Dissertation credits.

Special Education (61 credits)

Type

Completion Requirement

Requirements

Fulfill ALL of the following requirements:

Required Core Courses (10 credits)

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- SPED7920 - Doctoral Program Professional Seminar - 1cr.

- SPED7420 - Systematic Literature Reviews - 3cr.

AND

Core Electives (6 credits)

Complete at least 2 of the following courses:

- REH7780 - Bioethics, Ethics and Disability - 3cr.
- SPED7400 - Cultural and Linguistic Diversity and Disability - 3cr.
- SPED7750 - Social and Legal Context of Disability - 3cr.
- SPED7020 - Teaching in Disability Disciplines - 3cr.
- SPED7430 - Educational Neuroscience - 3cr.

AND

Specialization Courses (7 credits)

Complete ALL of the following Courses:

- SPED7700 - Single-Subject Research Methods and Designs - 3cr.
- SPED7940 - Journal Reading Group - 1cr.

NOTE:

1. SPED7940 JOURNAL READING GROUP - Take Preliminary Preparation (1 credit), and Special Education (3 one-credit Journal Reading Group courses for a total of 3 credits)

AND

Internships (3 credits)

Complete ALL of the following Courses:

- SPED7060 - Research Internship - 1cr.
- SPED7340 - College Teaching Internship - 1cr.
- SPED7330 - Supervision Internship - 1cr.

AND

Products (4 credits)

Complete ALL of the following Courses:

- SPED7040 - Literature Review - 1cr.
- SPED7070 - SPED Grant Writing Internship - 1cr.
- SPED7080 - Writing for Publication - 1cr.
- SPED7090 - Conference Presentation - 1cr.

AND

Preliminary Exams (1 credit)

Complete ALL of the following Courses:

- SPED7840 - Preliminary Exams - 1cr.

AND

Seminars (15 credits)

Earn at least 15 credits from the following:

- SPED7050 - Internship in Program Evaluation - 1cr.
- SPED7500 - Leadership Education in Disabilities - 1cr.
- SPED7800 - Seminar: Issues in Special Education and Rehabilitation - 1cr.
- SPED7810 - Research Seminar in Special Education and Rehabilitation - 1cr.
- SPED7820 - Seminar: Special Topics - 1cr.
- SPED7830 - Personal Preparation in Disability Disciplines - 3cr.
- EDUC6050 - Applied Statistical Analysis - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.
- EDUC6800 - Mixed Methods Research - 3cr.
- EDUC7700 - Grant Writing - 3cr.

Students may also take seminar credits in related disciplines (with committee approval), or take additional research training credits.

AND

Research (3 credits)

Earn at least 3 credits from the following:

- EDUC7610 - Regression Analysis - 3cr.
- EDUC7670 - Literature Reviews in Education and Psychology - 2cr.
- EDUC6010 - Introduction to Program Evaluation: Evaluation Models and Practical Guidelines - 3cr.
- SPED7710 - Advanced Single-Subject Research Methods and Design - 3cr.

AND

Dissertation (12 credits)

Earn at least 12 credits from the following:

- SPED7970 - Dissertation - 1cr.

Speech-Language Pathology (58 credits)

Type

Completion Requirement

Rreuirements

Fulfill ALL of the following requirements:

Required Courses (10 credits)

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- SPED7920 - Doctoral Program Professional Seminar - 1cr.
- SPED7420 - Systematic Literature Reviews - 3cr.

AND

Specialization Courses (6 credits)

Complete at least 2 of the following courses:

- REH7780 - Bioethics, Ethics and Disability - 3cr.
- SPED7400 - Cultural and Linguistic Diversity and Disability - 3cr.
- SPED7750 - Social and Legal Context of Disability - 3cr.
- SPED7430 - Educational Neuroscience - 3cr.
- SPED7020 - Teaching in Disability Disciplines - 3cr.

AND

Specialization Electives (15 credits)

Select 15 credits from the following electives or other committee-approved electives to complete degree requirements:

Earn at least 15 credits from the following:

- SHS6020 - Language Assessment and Intervention for School-Age Children and Adolescents - 3cr.
- SHS6120 - Adult Language Disorders - 3cr.
- SHS6130 - Motor Speech Disorders - 3cr.
- SHS6220 - Severe Communication Impairments - 1cr.
- SHS6250 - Birth to Five Language Intervention - 3cr.
- SHS6900 - Independent Study - 1cr.
- SHS7820 - Clinical Research in Audiology - 1cr.
- SHS7830 - Special Topics in Speech-Language Pathology - 3cr.

NOTE:

1. SHS6220 SEVERE COMM IMPAIRMENTS - is 1-3 variable credits. Student should take 3 credits.
2. SHS6900 INDEPENDENT STUDY, SHS7820 CLINICAL RESEARCH IN AUDIOLOGY, SHS7830 ST: SPEECH-LANGUAGE PATHOLOGY - may be repeated for credit.

AND

Advanced Research/Statistics Electives (6 credits)

Earn at least 6 credits (2 courses) from the following or other relevant coursework in advanced statistics/research design:

Complete at least 2 of the following courses:

- SPED7710 - Advanced Single-Subject Research Methods and Design - 3cr.
- PSY7610 - Regression Analysis - 3cr.
- PSY7650 - Multilevel and Marginal Models for the Social Sciences - 3cr.
- PSY7780 - Neuroendocrinology: Hormones and Behavior - 3cr.

AND

Internships (3 credits)

Complete ALL of the following Courses:

- SPED7060 - Research Internship - 1cr.
- SPED7330 - Supervision Internship - 1cr.
- SPED7340 - College Teaching Internship - 1cr.

AND

Products (4 credits)

Complete ALL of the following Courses:

- SPED7040 - Literature Review - 1cr.
- SPED7070 - SPED Grant Writing Internship - 1cr.
- SPED7080 - Writing for Publication - 1cr.
- SPED7090 - Conference Presentation - 1cr.

AND

Preliminary Exams (2 credits)

Complete ALL of the following Courses:

- SPED7840 - Preliminary Exams - 1cr.
- SPED7940 - Journal Reading Group - 1cr.

AND

Dissertation (12 credits)

A minimum of 12 dissertation credits is required.

Complete ALL of the following Courses:

- SPED7970 - Dissertation - 1cr.

Disability Studies - Minor

Program Overview

College
College of Education & Human Services

Department
Special Education & Rehab Counseling

Program Level
Undergraduate

About this Degree

The Disability Studies minor offers an opportunity to develop knowledge, skills, and perspective to deal with disability issues in future careers. Nearly every student who graduates from Utah State University will deal with disability issues in their future employment, fields of study, and communities. One in five U.S. citizens deals with the limitations of disability in their everyday lives. Participating students will be better prepared to address the complex social, economic, political, and scientific issues affecting the disability community.

Program Requirements

Total Credits Required In Program Coursework
18

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

Students are required to have a 3.0 (B) or better GPA on all minor coursework with a minimum grade of C in an individual course accepted for the minor. Courses may *not* be taken for a pass/fail grade, unless the course is only taught on a pass/fail basis.

Section 1

Type
Completion Requirement

Core Courses (9 credits)

Complete ALL of the following Courses:

- SPED1010 - Disability and Society (BSS) - 3cr.
  OR REH1010 - Disability and Society (BSS) - 3cr.
- SPED4300 - What is Normal?: Introduction to Disability Studies - 3cr.
- SPED5500 - Interdisciplinary Disability Awareness and Community Engaged Learning - 3cr.

Section 2

Type
Completion Requirement

Electives (9 credits)

Earn at least 9 credits from the following:

- ADVS3150 - Principles of Equine-Assisted Services - 3cr.
- ANTH1010 - Cultural Anthropology (BSS) - 3cr.
- ASL1010 - American Sign Language I - 4cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.
- HDFS2660 - Parenting and Child Guidance - 3cr.
- HDFS3210 - Families and Cultural Diversity (CI) - 3cr.
- HDFS3500 - Infancy and Childhood - 3cr.
- HDFS3700 - Mental Health Advocacy and Awareness - 3cr.
- JCOM2010 - Media Literacy (BSS) - 3cr.
- JCOM3320 - Strategic Research Methods in Public Relations (DSS) - 3cr.
- MUSC1310 - Introduction to Music Therapy - 2cr.
- POLS1100 - United States Government and Politics (BAI) - 3cr.
- PSY1010 - General Psychology (BSS) - 3cr.
- PSY1100 - Lifespan Development - 3cr.
- PSY2100 - Developmental Psychology: Adolescence - 3cr.
- PSY2300 - Psychological Disorders - 3cr.
- PSY3700 - Mental Health Advocacy and Awareness - 3cr.
- REH2010 - Neurodiversity and Society - 3cr.
- REH2060 - Health Promotion for Individuals with Chronic Illness and Disability - 3cr.
- SHS4700 - Basic Audiology - 3cr.
- SOC1010 - Introductory Sociology (BSS) - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- SPED4910 - Undergraduate Research and Creative Opportunities - 1cr.
- SW1010 - Introduction to Social Welfare (BSS) - 3cr.
- SW2400 - Social Work with Diverse Populations - 3cr.
- TCR3110 - Accessibility and Disability Rhetorics - 3cr.

Digital Modeling and Visualization - AS

Program Overview

College
College of Agriculture & Natural Resources

Department
Landscape Architecture & Environmental Planning

Program Level
Undergraduate

About this Degree

The Associate's of Science in Digital Modeling and Visualization prepares students for a career in the digital modeling and visualization industry, specifically preparing students to work in visualization and design firms operating in the built environment and construction sectors, or enter a four-year degree program. The associate degree will also introduce students to fields that incorporate advanced visualization practices such as video games, film, animation, product design, marketing, etc.

- For more information about Digital Modeling and Visualization, see the department website.
- Current and admitted students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.0 GPA

Program Requirements

Total Credits Required In Program Coursework
60

Total Credits Required To Earn This Credential
60

Simple Requisites

Program Requirements

A minimum overall GPA of 3.0 is required in LAEP-prefix courses, with no individual LAEP-prefix course grade less than a C-. No pass/fail grades are accepted to fulfill LAEP-prefix courses. A minimum USU overall GPA of 2.5 is required for all other courses used to fulfill major requirements.

Some of the core coursework fulfills general education requirements, such as BHU requirements. Students should consult with their Academic Advisor and make a plan to complete all general education requirements.

Major Requirements (60 credits)

Type
Completion Requirement

General Education Courses (27 credits)

Complete ALL of the following Course Sets:

- Breadth American Institutions (BAI) Course
- Breadth Creative Arts (BCA) Course
- Breadth Life Sciences (BLS) Course
- Breadth Physical Sciences (BPS) Course
- Breadth Social Sciences (BSS) Course
- Communications Literacy (CL1) Course
- Communications Literacy (CL2) Course

Digital Modeling and Visualization - Institutional Certificate of Proficiency

Program Overview

College
College of Agriculture & Natural Resources

Department
Landscape Architecture & Environmental Planning

Program Level
Undergraduate

About this Degree

The Certificate in Digital Modeling and Visualization program introduces and provides basic preparation to students for a career in the digital modeling and visualization industry, specifically preparing students to work in visualization and design firms operating in the built environment and construction sectors. The certificate will also provide basic preparation for students to work in fields that incorporate advanced visualization practices such as video games, film, animation, product design, marketing, etc.

Program Requirements

Drones for Natural Resource and Environmental Management - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Undergraduate

About this Degree

The Certificate in Drones for Natural Resource and Environmental Management combines remote sensing and geographic information science (GIS) courses offered by the Department of Environment and Society with basic coursework for operation of unmanned aircraft systems (UAS, or drones) offered by the Department of Aviation Technology. Students who complete this certificate can use UAS/drones (and the data they can help collect) for application to environmental and natural resource management and decision-making.

This certificate can be combined with the Applied Geographic Information Science - Certificate and/or the certificate in Remote Sensing and Geospatial Artificial Intelligence Foundations - Certificate The addition of this certificate or any of the other geospatial certificates complements a bachelor's degree in many different fields, including all those connected to natural resources, environmental science or studies, sustainability, agriculture, and planning. The knowledge and skills provided support job placement and career success.

Admission Requirements for this Program

To be admitted to this program, students must be pursuing BS or BA degree at Utah State University. Students should make an appointment with an academic advisor in the S. J. and Jessie E. Quinney College of Agriculture and Natural Resources to add this certificate: https://qanr.usu.edu/advising/.

Program Requirements

Total Credits Required In Program Coursework
11-12

Total Credits Required To Earn This Credential
11

Simple Requisites

Program Requirements

The certificate curriculum consists of one course (3 credits) that prepares students for, and one course (1 credit) that then documents, licensing to operate an unmanned aircraft system (UAS or drone), combined with additional courses (7-8 credits) that train students to use UAS/drones for natural resource and environmental applications. These courses train students to process correctly the data produced by a UAS/drone and then analyze the data for natural resource or environmental management and decision-making.

Drones for Natural Resource and Environmental Management - Certificate (11-12 credits)

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- UAS1010 - Unmanned Aircraft Systems - Remote Pilot - 3cr.
  OR UAS3010 - Unmanned Aircraft System Introduction to Remote Pilot Certification - 3cr.
- UAS1020 - Unmanned Aircraft Systems Part 107 Test - 1cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WILD2800 - Introduction to Geographic Information Sciences - 4cr.
- GEOG3200 - Principles of Remote Sensing - 3cr.
- GEOG4815 - Insights from Above: Processing and Analyzing Drone Data - 1cr.
  OR WATS4720 - Drone Data Analysis for Environmental Restoration - 2cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

Students will be able to:

1. Secure their license to operate an unmanned aircraft system (or "drone").
2. Demonstrate an understanding of basic remote sensing principles.
3. Effectively apply basic geographic information science (GIS) to natural resources and/or environmental problems.
4. Apply basic remote sensing principles to processing and analyzing drone data.

Didactic Program in Dietetics - Post-Bachelor's Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Nutrition, Dietetics & Food Sciences

Program Level
Graduate

About this Degree

The Didactic Program in Dietetics (DPD) verification statement certificate program is intended for individuals who have a bachelor's degree and are working to become a Registered Dietitian Nutritionist (RDN). Upon completion of the courses in the certificate program, the individual will receive a DPD verification statement which will qualify them to apply to a dietetics supervised practice program of their choice.

Admission Requirements for this Program

Prior to acceptance into the DPD post-bachelor's certificate program, the applicant must have taken the following courses within the last 10 years and received a C- or better grade. An overall GPA of at least 3.0 is required.

- General Chemistry
- Organic Chemistry
- Biochemistry
- Introduction to Human Nutrition
- Human Physiology or Human Anatomy
- Nutrition Throughout the Lifecycle
- Principles of Statistics
- General Psychology
- Food Literacy / Culinary Basics
- Medical Terminology

About this Degree

Federal Gainful Employment Information

Are there students who want to turn their creativity into a career designing the buildings, products, and technology of the future? So that they gain the technical skills and industry knowledge to bring ideas to life with precision and innovation. For example, students will learn to create detailed blueprints, 3D models, and technical drawings using the latest CAD software. This program connects students with real-world projects and industry professionals, preparing you for careers in architecture, engineering, manufacturing, and beyond.

Dietetics - Didactic Program in Dietetics Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Nutrition, Dietetics & Food Sciences

Program Level
Undergraduate

About this Degree

Dietetics is the application of the science of nutrition to humans in healthcare and food service settings.

This degree prepares students to become a Registered Dietitian Nutritionist (RDN). RDNs are credentialed healthcare professionals who specialize in food and nutrition.

The dietetics program at Utah State University is an in-person program providing many opportunities for hands-on learning.

This program prepares students for advanced training in dietetics needed to qualify students to sit the national registration exam for Registered Dietitian Nutritionists. The exam is required for licensing in most states, including Utah. Additional information on licensing and certification programs can be found at https://www.cdrnet.org/LicensureMap.

- For more information about Nutrition, Dietetics and Food Sciences, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program

- New freshmen: Admitted to USU in good standing
- Transfer students from other institutions or other programs at USU: 3.0 GPA

Program Requirements

Total Credits Required In Program Coursework
89

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- After completing pre-major coursework, students who meet the major GPA requirement (3.0 or better) will be eligible for advanced standing in the Didactic Program in Dietetics.
- Students must complete 120 credits to earn a bachelor's degree, including 40 credits upper division. Consultation with their advisor is important to choose elective courses that will be most effective in helping them reach their academic goals. Contact Dawnetta Mahnken, dawnetta.mahnken@usu.edu, 435-797-2282 for advising or schedule an appointment through this link.
- To receive a verification statement, students must complete all required core knowledge requirements (KRDNs). To learn more about verification statements and KRDNs, please see the DPD Program Handbook.

The Dietetics: Didactic Emphasis program requires an overall GPA of 3.0 and a major coursework GPA of 3.0 to meet Didactic emphasis admission requirements. The courses below require a grade of C- or better. ENGL1010 WRITING AS INQUIRY (CL1) and MATH1050 COLLEGE ALGEBRA (QL) can be completed through AP, ACT, or SAT equivalent scores.

Dietetics: Didactic Emphasis - BS Course Requirements

Type

Completion Requirement

Dietetics Pre-Major Coursework Requirements (27 credits)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- MATH1050 - College Algebra (QL) - 4cr.
- NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.
- NDFS1030 - Introduction to Dietetics and Nutrition Science - 1cr.
- NDFS1240 - Food Literacy - 3cr.
- NDFS2020 - Nutrition Throughout the Life Cycle - 3cr.
- PSY1010 - General Psychology (BSS) - 3cr.

Students are also required to fulfill the Communications Literacy (CL2) requirement with a C- grade or higher.

Major Requirements (62-64 credits)

The Dietetics: Didactic Emphasis program requires an overall GPA of 2.0 and a major coursework GPA of 3.0. Courses below with an NDFS prefix require a grade of B- or better. All other courses require a grade of C- or better.

Complete ALL of the following Courses:

- BIOL2420 - Human Physiology - 4cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
- NDFS1250 - Sanitation and Safety - 3cr.
- NDFS1600 - Medical Terminology for Health Care Professionals - 2cr.
  OR HEAL1008 - Medical Terminology - 2cr.
- NDFS2030 - Nutrition and Physical Performance - 2cr.
- NDFS2500 - Dietetics-Related Experiences I - 1cr.
- NDFS3010 - Didactic Program in Dietetics Orientation - 1cr.
- NDFS3040 - Nutrition Assessment - 3cr.
- NDFS3045 - Nutrition Assessment Lab - 1cr.
- NDFS3050 - Education and Counseling Methods in Dietetics I (CI) - 3cr.
- NDFS3060 - Education and Counseling Methods in Dietetics II (CI) - 3cr.
- NDFS3065 - Education and Counseling Lab - 1cr.
- NDFS3070 - Science of Food Preparation - 4cr.
- NDFS3080 - Community Nutrition - 3cr.
  OR NDFS5432 - Community Nutrition - 3cr.
- NDFS4010 - Preparation for Supervised Practice - 1cr.
- NDFS4020 - Advanced Nutrition - 3cr.
  OR NDFS5433 - Advanced Nutrition - 3cr.
- NDFS4560 - Medical Nutrition Therapy (CI) - 4cr.
- NDFS4710 - Food Service Systems - 3cr.
- NDFS4720 - Management in Dietetics (QI) - 3cr.
- NDFS4780 - Maternal and Child Nutrition (CI) - 3cr.
- NDFS5300 - Advanced Micronutrient Nutrition - 3cr.
- NDFS5750 - Advanced Dietetics Practicum - 2cr.

NOTE:

1. NDFS2500 DIETETICS-RELATED EXP I - 1 credit is required

Recommended Electives

These courses are recommended, but not required, for this degree. Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Complete ALL of the following Courses:

- USU1010 - University Connections - 2cr.
- NDFS2500 - Dietetics-Related Experiences I - 1cr.
- NDFS5410 - Nutrient Gene Interactions (CI) - 3cr.

NOTE:

1. NDFS2500 DIETETICS-RELATED EXP I - 1 credit is required, additional credits can be taken as elective credits

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state per the information provided by The Academy of Nutrition and Dietetics.

According to the most recent information from the sponsoring department, this program:

- Meets licensure requirements in the following states: OR, WA, CA, ID, NV, AZ, UT, AK, MT, WY, CO, HI, ND, SD, NE, KS, OK, TX, MN, IO, MS, AR, MS, TN, KY, OH, WV, PA, NH, VT,MA, RI, CT, NJ, DE, MD, VA, NC, SC, GA, FL
- Does not meet licensure requirements in: ME
- Has not determined if the program meets licensure requirements in the remaining states.

A detailed spreadsheet on states and requirements can be found on this spreadsheet. For more information, please see additional information regarding USU's Programs in Dietetics at https://qanr.usu.edu/degrees/ndfs/undergrad/dietetics.

Dietetic Internship - Post-Bachelor's Certificate

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Nutrition, Dietetics & Food Sciences	Graduate

About this Degree

The Dietetic Internship (DI) is a post-bachelor's certificate program that provides the required supervised practice experience for students that have completed the necessary didactic dietetics coursework and have a desire to become a Registered Dietitian. Dietetic interns complete 27 weeks of supervised practice and concurrent graduate online courses in clinical, community, and food service management with a program emphasis in Child Nutrition Programs and School Food Service Systems Management. All Prior Assessed Learning (PAL) internship hours that are waived will be noted on the transcript. The completion of the practice hours and online courses results in a total of 26 graduate credits. These credits can later be used towards obtaining the Master of Dietetics Administration (MDA) degree. On completion of the internship, the students are awarded a post-bachelor's certificate recognizing their completion of the graduate coursework and are eligible to sit for the national registered dietitian examination.

A Registered Dietitian is a highly-qualified health professional, recognized as an expert on food and nutrition. Dietitians are employed in a variety of settings and work in management or as clinicians in healthcare institutions, schools, universities, industry, home health agencies, government-funded agencies, wellness programs, research, and so forth.

Admission Requirements for this Program

Students seeking admission must meet the minimum selection criteria and satisfy the admissions requirements for the DI program. This includes participating in the DICAS online centralized dietetic internship application and D&D Digital Dietetic Internship Matching service.

For a complete list of admission requirements and minimum selection criteria for this program, please refer to dieteticinternship.usu.edu.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
26	26

Simple Requisites

Program Requirements

Program Schedule

The DI is designed to allow students to train in their current location or a location that is convenient for the individual student. As part of the application process, prospective students are responsible for finding their own training facilities and preceptors in their desired location, based on the USU DI guidelines.

The online courses listed below are variable credits and students are enrolled in classes corresponding to their supervised practice schedule.

Dietetic Internship Course Requirements

Type
Completion Requirement

Required Courses (26 credits)

Complete ALL of the following Courses:

- NDFS6050 - Community Nutrition Experience - 3cr.
- NDFS6250 - Clinical Nutrition Experience - 3cr.
- NDFS6350 - Food Service Management Experience - 3cr.
- NDFS6450 - Dietetics Career Essentials - 1cr.

5 credits required of NDFS6050 COMMUNITY NUTRITION EXPERIENCE

9 credits required of NDFS6250 CLINICAL NUTRITION EXPERIENCE

11 credits required of NDFS6350 FOOD SERVICE MGMT EXPERIENCE

Additional Comments:
The USU DI meets the performance requirements for supervised practice hours for students who have completed the academic requirements of the Accreditation Council for Education in Nutrition and Dietetics (ACEND), the Academy of Nutrition and Dietetics' accrediting agency for education programs preparing students for careers as registered dietitian nutritionists (RDN).

It is ACEND's considered opinion that the program is designed to and meets all state dietetics licensure and certification laws as some states may interpret their statutes differently. More information about state licensure and certification is available at this link: State Licensure.

Dual Language Immersion - Institutional Certificate of Proficiency

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership, World Languages and Cultures

Program Level
Undergraduate

About this Degree
Utah State University offers the coursework and field experiences required for a Dual Language Immersion (DLI) endorsement. The endorsement itself is granted by the Utah State Board of Education, but undergraduate students can apply for the endorsement when they apply for the Professional Educator License upon successful completion of their program. Eligible languages include: Spanish, French, Chinese, German, Portuguese, and Russian. The endorsement is available to:

- University students seeking undergraduate degrees in elementary or secondary education (with licensure)
- University students enrolled in the Master's program in the School of Teacher Education & Leadership and currently have a Utah Professional Educator License
- Licensed teachers who are currently teaching in a DLI school in Utah

Program Requirements

Total Credits Required In Program Coursework
23.5

Total Credits Required To Earn This Credential
23.5

Simple Requisites

Program Requirements

Oral Proficiency Interview (OPI/OPIc)

- An OPI or OPIc score of Advanced-Mid, are required to earn the DLI Endorsement through the Utah State Board of Education. Instructions for taking the OPI.
- **Pre-service teachers** may enter the DLI endorsement program with a minimum of an Advanced-Low score on the OPI or OPIc. To continue their language development during the program, students may need to take university-level courses in the target language of instruction (beyond grammar courses), or they may pursue a rigorous study abroad program. It is recommended that students take the language proficiency tests as soon as they return from an experience abroad or complete advanced language coursework.
    - An Advanced-Mid score on the OPI is required for the field experience hours. Thus, we recommend students achieve this score (or higher) as soon as possible.
- **Practicing teachers who are already teaching in DLI schools** while earning the endorsement are expected to enter the program having passed the OPI/OPIc and WPT at a level of Advanced-Mid or higher.

The certificate requires the courses listed below. All courses must be completed with C grades or higher.

Dual Language Immersion - ICP

Type
Completion Requirement

Required Courses (16.5-19 credits)

Fulfill ALL of the following requirements:

Foundations

Complete ALL of the following Courses:

- LING4700 - Foundations of Dual Language and Immersion Education - 3cr.
- TEAL5735 - Language Systems, Acquisition, and Instruction for English Learners - 3cr.
  OR SPAN4200 - Introduction to Hispanic Linguistics - 3cr.
  OR SPAN5060 - Spanish for Professional and Academic Purposes - 3cr.

AND

Second Language Acquisition, Teaching Methods & Assessment

Complete ALL of the following Courses:

- LING5400 - Teaching Modern Languages - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
  OR SCED4300 - Clinical Experience II - 1cr.

AND

Required Courses

Complete ALL of the following Courses:

- TEAL5770 - Content Based Instruction for Dual Language Immersion/English as a Second Language - 3cr.
- TEAL5780 - Assessment for Language Learners - 3cr.
- TEAL5790 - ESOL Field Experience - 0.5cr.

Digital Writing and Publication - Certificate

Program Overview

College
College of Arts & Sciences

Department
English

Program Level
Undergraduate

About this Degree

This certificate provides students with the opportunity to work across the fields of creative writing, technical communication, and journalism to acquire the tools and the knowledge to make intentional choices in language and presentation.

The certificate draws on three areas in the College of Humanities and Social Sciences, specifically Journalism and Communication (JCOM), Technical Communication and Rhetoric (TCR), and Creative Writing (CW). Students are required to complete 18 credits, including nine credits from the core classes, with one core class from each area: Journalism and Communication (JCOM), Technical Communication and Rhetoric (TCR), and Creative Writing (CW).

Program Requirements

18

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

Students must earn a grade of C or better in courses they are counting toward the certificate and must maintain a 2.75 GPA or better in certificate courses.

Digital Writing and Publication - Technical Certificate

Type
Completion Requirement

Core Courses (9 credits)

Students are required to complete nine credits from the core classes, with one core class from each area: Journalism and Communication (JCOM), Technical Communication and Rhetoric (TCR), and Creative Writing (CW).

Fulfill ALL of the following requirements:

Journalism and Communication (JCOM) Core Courses (3 credits)

Complete at least 1 of the following courses:

- JCOM2030 - Multimedia Bootcamp - 4cr.
- JCOM2220 - Introduction to Video Media - 3cr.
- JCOM2400 - Introduction to Social Media - 3cr.

AND

Technical Communication and Rhetoric (TCR) Core Courses (3 credits)

Complete at least 1 of the following courses:

- TCR2100 - Introduction to Technical Communication - 3cr.
- TCR2110 - Digital Writing Technologies - 3cr.
- TCR3220 - Technical Editing (CI) - 3cr.

AND

Creative Writing (CW) Core Courses (3 credits)

Complete at least 1 of the following courses:

- ENGL3420 - Fiction Writing - 3cr.

- ENGL3430 - Poetry Writing - 3cr.
- ENGL3440 - Creative Nonfiction Writing - 3cr.

Elective Courses (9 credits)

Students must take nine additional credits from either core or elective courses in three areas. Students may count a three-credit internship as part of those nine additional credits. Whether the additional nine credits include an internship or not, the credits must come from at least two of the three areas.

Fulfill ANY of the following requirements:

Journalism and Communication (JCOM) Courses

Complete ANY of the following Courses:

- JCOM3110 - Feature Writing (CI) - 3cr.
- JCOM3140 - Opinion Writing (DSS) - 3cr.
- JCOM4010 - Mass Communication Ethics (DSS) - 3cr.
- JCOM4020 - Mass Media and Society (DSS) - 3cr.
- JCOM4030 - Mass Media Law (DSS) - 3cr.
- JCOM4410 - Gender and the Mass Media - 3cr.
- JCOM4510 - Communication Internship - 1cr.
- JCOM5400 - Social Media Strategy, Analytics & Artificial Intelligence - 3cr.

OR

Technical Communication and Rhetoric (TCR) Courses

Complete ANY of the following Courses:

- TCR3110 - Accessibility and Disability Rhetorics - 3cr.
- TCR4210 - Visual Communication Design - 3cr.
- TCR4220 - Technology and Activism - 3cr.
- TCR4230 - Project Management - 3cr.
- ENGL4900 - Internship/Cooperative Work Experience - 1cr.

OR

Creative Writing (CW) Courses

Complete ANY of the following Courses:

- ENGL3420 - Fiction Writing - 3cr.
- ENGL3430 - Poetry Writing - 3cr.
- ENGL3440 - Creative Nonfiction Writing - 3cr.

College
College of Education & Human Services

Department
Human Development and Family Studies

Program Level
Undergraduate

About this Degree

The 16-credit Early Childhood Certificate equips individuals with essential skills and knowledge to support the cognitive, social, emotional, and physical development of young children.

Program Requirements

Total Credits Required In Program Coursework
16

Total Credits Required To Earn This Credential
16

Simple Requisites

Program Requirements

Students may complete the Early Childhood Certificate through online, in-person, or a combination of both course formats.

- **Coursework:** Classes are available in-person or online.
- **Practicum:** This is a site-based requirement. Online students work with the department to arrange a placement in their local community, while in-person students utilize the Child Development Lab.

To learn more, contact Laura Holley (laura.holley@usu.edu) or explore the department website: https://cehs.usu.edu/hdfs/undergraduate/early-childhood-certificate.

Early Childhood - Certificate

Type
Completion Requirement

Required Courses (13 credits)

Complete ALL of the following Courses:

- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- HDFS2200 - Special Topics in Human Development and Family Studies - 3cr.
- HDFS2600 - Seminar in Early Childhood Education - 2cr.
- HDFS2605 - Early Childhood Education Practicum - 2cr.
- HDFS3500 - Infancy and Childhood - 3cr.

Elective Courses (3 credits)

Complete at least 1 of the following courses:

- HDFS2660 - Parenting and Child Guidance - 3cr.
- HDFS3100 - Abuse and Neglect in Family Context - 3cr.
- HDFS4550 - Preschool Methods and Curriculum - 3cr.
- SW3350 - Child Welfare - 3cr.

Earth Science Teaching - BA, BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Geosciences

Program Level
Undergraduate

About this Degree
The earth science teaching major prepares students to teach earth science in secondary schools. A bachelor's degree in the Earth Science Teaching Major includes: University Studies, as required by the College of Science; the Teaching Major; and the Secondary Teacher Education Program (STEP). Students majoring in the Earth Science Teaching Major will complete courses which provide an in-depth understanding of geological principles.

The Earth Science Teaching Major program is fully accredited by the Utah State Office of Education and the National Council for Accreditation of Teacher Education. It requires a 3.00 GPA and a grade of C or better in all chemistry and physics prefix courses.

- For more information about Geology, see the Geosciences Department.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1210 CALCULUS I (QL).

Bachelor of Arts Degree Requirement

In addition to completion of the requirements for a bachelor's degree, a Bachelor of Arts (BA) degree signifies proficiency in one or more foreign languages. Specifically, the BA requirement may be completed in one of the following ways:

- Demonstration of proficiency in one foreign language by successful completion of one course at the 2020-level or higher (or its equivalent) **OR**
- Demonstration of proficiency in American Sign Language by successful completion of American Sign Language IV (ASL4920 AMERICAN SIGN LANGUAGE IV) and Socio-Cultural Aspects of Deafness (ASL4780 DEAF CULTURE), and by passing an exit interview **OR**
- Demonstration of proficiency in two foreign languages by successful completion of the 1020 course level or higher in one language **and** the 2010 course level or higher in the second language (or its equivalent) **OR**
- Completion of an upper-division (3000-level or higher) foreign language grammar or literature course requiring the 2020 course level (or its equivalent) as a prerequisite. Conversation courses cannot be considered for satisfying this requirement.

For non-native English-speaking students only, the following options are available:

- Successful completion of the Intensive English Language Institute (IELI) program for international students OR
- TOEFL, IELTS, other USU approved exam, or IELI placement scores high enough to meet the university admission criteria.

Admission Requirements for this Program
- New freshmen admitted to USU in good standing qualify for admission to this major. A 3.0 GPA, ACT scores of 21 composite and 20 verbal/English and 19 mathematics/quantitative and 60 credits of coursework are required for admission to the Secondary Teacher

Education Program (STEP). Students should contact the School of Teacher Education and Leadership (TEAL) for information on additional admission criteria.

- Transfer students from other institutions or other USU majors need a 3.0 GPA, ACT scores of 21 composite and 20 verbal/English and 19 mathematics/quantitative to be admitted to the major. They also need 60 credits of coursework to be admitted to the STEP. Students should contact the School of Teacher Education and Leadership (TEAL) for information on additional admission criteria.

  OR GEO2205 - Earth Through Time Laboratory - 1cr.
- GEO2800 - Minerals and Rocks - 4cr.
- GEO3550 - Sedimentation and Stratigraphy - 4cr.
- GEO3600 - Geomorphology - 4cr.
- MATH1210 - Calculus I (QL) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- STAT2000 - Statistical Methods (QI) - 4cr.

Earth Science Teaching Major Requirements (50 credits)

Complete ALL of the following Courses:

- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
- ITLS2500 - Technology Enabled Instruction - 3cr.
- PHYS1040 - Introductory Astronomy (BPS) - 3cr.
- PSC2000 - The Atmosphere and Weather (BPS) - 3cr.
  OR PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SCED5820 - Science Education Teaching and Dispositions Knowledge - 3cr.
- SCED5821 - Three-Dimensional Science and Engineering Pedagogical Knowledge - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Early Childhood Education - BA, BS

Program Overview

College	Department	Program Level
College of Education & Human Services	School of Teacher Education & Leadership	Undergraduate

About this Degree
Those who graduate in early childhood education are qualified to teach in preschool settings and can become licensed to teach kindergarten through third grade. All students gain a broad knowledge in early childhood education subjects.

Students are also required to participate in practicums and field experiences. Utah State's program in early childhood education is unique in that students have the opportunity to work with children starting their first year in the program rather than waiting until their junior year, which is typical at other universities. By the time students graduate, they will have spent more than 600 hours in eight different practicum experiences.

- For more information about Early Childhood Education, see the department webpage.
- Admitted and current students must meet with an advisor (435-797-0391).
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).

Admission Requirements for this Program
- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.00 overall GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
91-93	120

Simple Requisites

Program Requirements
- This program requires a 3.0 GPA in required major courses. Program requirements may not be taken for a pass/fail grade, except for those courses that are only taught pass/fail.
- Students in this major must receive a grade of C+ or better in **both** Communications Literacy 1 (CL1) and Communications Literacy 2 (CL2).

Preparation Courses

Type
Completion Requirement

Required Courses (11 Credits)

Complete ALL of the following Courses:
- ELED1010 - Orientation to Elementary Education - 3cr. **OR** TEAL1010 - Introduction to Education - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- ITLS2500 - Technology Enabled Instruction - 3cr.

- TEAL2660 - Educational Psychology for Teachers - 2cr.

NOTE:

1. HDFS1500 HUMAN DEV LIFESPAN (BSS) - Minimum grade of C or higher.

Mathematic Requirement (9-11 credits)

Type
Completion Requirement

QL Mathematic Requirement (3-5 Credits)

Quantitative Literacy (QL) requires a grade of **C-** or better.

Complete ALL of the following Course Sets:

- Quantitative Literacy (QL) Course

Mathematic Requirement (6 Credits)

MATH2010 ALG/NUMER FOR ELED TEACH (QI) and MATH2020 GEOMETRY/STAT ELED TEACH(QI) require a grade of **C** or better.

Complete ALL of the following Courses:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Art Methods (3 Credits)

Type
Completion Requirement

Art Requirement (3 Credits)

A grade of B- or better is required for any Arts Methods course.

Complete at least 1 of the following courses:

- ART3700 - Elementary Art Methods - 3cr.
- MUSC3260 - Elementary School Music - 3cr.
- THEA3320 - Movement Exploration for Elementary Education Majors - 3cr.
- THEA3330 - Drama for Classroom Teachers - 3cr.
- THEA3340 - Methods of Teaching Drama, Grades K-6 - 3cr.

Foundations Block

Type
Completion Requirement

Level II (12 Credits)

A grade of B- or better is required for all Level II courses.

Complete ALL of the following Courses:

- ELED3000 - Historical, Social, and Cultural Foundations of Education (CI) - 3cr.
- ELED3002 - Foundations Practicum - 1cr.
- ELED3050 - PE and Health in the Elementary Classroom - 2cr.
- ELED3100 - Classroom Reading Instruction - 3cr.
- ELED4061 - Teaching Elementary School Mathematics I: Rational Numbers, Operations, and Proportional Reasoning - 3cr.

NOTE:

1. ELED3000 HIST/SOC/CULTR FOUND EDUC (CI), ELED3002 FOUNDATIONS PRACTICUM, and ELED3100 CLASSROOM READING INSTRUCTION **must be taken together.**

Literacy Block

Type
Completion Requirement

Level II B&C (16 Credits)

A grade of B- or better is required for all Level II B&C courses.

Complete ALL of the following Courses:

- ELED4040 - Reading Assessment and Intervention (CI) - 2cr.
- ELED4042 - Reading Assessment and Intervention Practicum - 1cr.
- ELED4049 - Foundations of Reading Review - 1cr.
- ELED4150 - Assessment and Differentiation Across the Curriculum - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- TEAL3080 - Integrating Arts into Academic Learning (DHA) - 3cr.
- TEAL5710 - Instruction for Linguistically and Culturally Diverse Learners - 3cr.

NOTE:

1. ELED4040 READ ASSESS AND INTERVENT (CI), ELED4042 READ ASSESS INTERVENT PRACT and ELED4049 FOUNDATIONS OF READING REVIEW **must be taken together.**
2. SPED4000 EDUCATION STUD W/DISABILITIES - Students are strongly encouraged to take this course with ELED4150 ASSESSMENT AND DIFFERENTIATION and ELED4040 READ ASSESS AND INTERVENT (CI).
3. TEAL3080 INTEGRATING ARTS INTO ACA(DHA) - Students are strongly encouraged to take this course with ELED4040 READ ASSESS AND INTERVENT (CI) and ELED4042 READ ASSESS INTERVENT PRACT.

Content Pedagogy Block

Type
Completion Requirement

Level III (15 Credits)

A grade of B- or better is required for all Level III courses.

Complete ALL of the following Courses:

- ELED5020 - Teaching Science in Elementary School - 2cr.
- ELED5030 - Teaching Language Arts (CI) - 2cr.
- ELED5010 - Teaching Social Studies in Elementary School - 2cr.
- ELED5040 - Teaching Elementary School Mathematics II: Number, Operations, and Algebraic Reasoning - 2cr.
- ELED5060 - Elementary Content Practicum - 4cr.
- ELED5105 - Motivation and Classroom Management - 3cr.

NOTE:

1. ELED5020 TEACHING SCIENCE ELEM, ELED5030 TEACHING LANG ARTS (CI), ELED5010 TEACHING SOC STUDIES ELEM, ELED5040 TEACHING ELEMENTARY

MATH II, ELED5060 ELEM CONTENT PRACTICUM and ELED5105 MOTIVATION CLASSROOM MANAGE **must be taken together.**

Early Childhood Requirement

Type
Completion Requirement

Program Requirement (13 Credits)

Complete ALL of the following Courses:

- HDFS2600 - Seminar in Early Childhood Education - 2cr.
- HDFS2605 - Early Childhood Education Practicum - 2cr.
- HDFS4550 - Preschool Methods and Curriculum - 3cr.
- HDFS4960 - Practice Teaching in Child Development Laboratories - 3cr.

NOTE:

1. HDFS2605 EARLY CHILDHOOD EDUC PRACTICUM - Enroll in 2 credits
2. HDFS4960 PRAC TEACHING IN CHILD DEV LAB - Enroll in 6 credits. Must be taken seperately from other student teaching courses.

Student Teaching

Type
Completion Requirement

Program Requirement (12 Credits)

Complete ALL of the following Courses:

- ELED5150 - Student Teaching: Elementary - 3cr.
- ELED5250 - Elementary Education Student Teaching Seminar - 3cr.

NOTE:

1. ELED5150 STUDENT TEACHING: ELEMENTARY - Register for 9 credits.
2. ELED5250 ELED STUDENT TEACHING SEMINAR - Register for 3 credits.

Open Electives

Type
Completion Requirement

Electives

Complete the following as needed:
Students in the dual ELED/ECE major should take 9 credits of electives (see advisor for details) while students in the Early Childhood Education major should see their advisor to determine the additional number of credits needed to fulfill the 120-credit requirement.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

About this Degree

Graduate Programs in Ecology

Ecology degree programs at Utah State University are administered by the interdepartmental Ecology Center. Students earn their degrees in Ecology while maintaining residence in one of the participating home departments (BIOL, ENVS, PSC, WATS, WILD). The Ecology Center itself does not directly admit students or grant degrees. Students must first apply to and be admitted to one of the Ecology Center's participating home departments, and then they can opt to major in Ecology in accordance with their faculty advisor and graduate program coordinator.

Interdepartmental Program in Ecology

The Ecology Center aims to promote research and graduate education in ecology and to provide expert, professional information and advice for decision-makers. The research carried out by the center's associates covers the full spectrum of ecology.

Director: Dr. Peter Adler

Location: Natural Resources 208B

E-mail: peter.adler@usu.edu

Correspondence for catalog questions should be sent to the Ecology Center/CAS Program Coordinator:

Program Coordinator: Dr. Lexi Turano

Location: Natural Resources 208

Phone: (435) 797-2555

E-mail: alexandra.turano@usu.edu

Department of Biology

The Department of Biology offers an M.S. degree in Ecology administered by the interdepartmental Ecology Center. Students must be Plan A (Thesis) to complete the Ecology degree; Plan B (non-Thesis) students are not eligible to major in Ecology.

Ecology majors who are housed in the Department of Biology also have the option of adding a specialization in Climate Adaptation Science. For this optional specialization, please see the Climate Adaptation Science Specialization page.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Biology Department Requirements:

- Submission of Thesis to the School of Graduate Studies and library for review and approval
- Comprehensive Exams
- Thesis Defense
- Annual Professional Development Plan
- Individual Development Plan
- Completion of required trainings

School of Graduate Studies (SGS) Requirements:

- Completion of SGS-specific forms
    - Supervisory committee approval form
    - Program of Study form
    - Master's Thesis Proposal
    - Appointment for Examination
    - Record of Examination
    - Format & Style Form
    - Authorship & Copyright Form
    - Title Page Form
    - Application for Graduation
- Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- Overall Graduate GPA (≥ 3.0) and No Grades of C- or Lower: Graduate students must maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower cannot be applied toward a graduate degree.
- Course Number Acceptability: A master's Program of Study may include no more than 12 semester credits of coursework below 6000-level. The following types of credits are not acceptable toward the degree: foreign language courses (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and any courses numbered below 5000.
- Matriculation Start Semester: Master's degrees must be completed within six years of entering the program. Additional time may be requested by the advisor and submitted to the Vice Provost of Graduate Studies
- Coursework Validity: Coursework older than eight years at the time of degree completion may not be used unless it is formally revalidated.

Biology and Ecology Center Credit Requirements:

Type
Completion Requirement

Program Requirements (9-18 credits)

The Ecology M.S. degree requires a research thesis (M.S. Plan A Thesis) and a minimum of 30 credits.

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- BIOL6750 - Topics in Biology - 1cr.
- BIOL6970 - Thesis Research - 1cr.

NOTE:

1. BIOL6750 TOPICS IN BIOLOGY - take 1 credit.
2. BIOL6970 THESIS RESEARCH - take 6-15 credits.

AND

M.S. students must pass one of these 1-credit courses at least two times during their program of study.

Complete at least 2 of the following courses:

- BIOL6870 - Ecology Seminar - 1cr.
- ENVS6870 - Ecology Seminar - 1cr.
- PSC6870 - Ecology Seminar - 1cr.
- WATS6870 - Ecology Seminar - 1cr.
- WILD6870 - Ecology Seminar - 1cr.

Ecology Requirements (6 credits)

Students must complete 6 total credits of a demonstrated breadth of knowledge in Ecology. M.S. students must take 3 credits from at least two of the five Ecology Blocks:

Complete 3 credits form 2 of the following blocks:

- Block #1: Biophysical Ecology
- Block #2: Organismic, Population, and Evolutionary Ecology
- Block #3: Community, Ecosystem, and Landscape Ecology
- Block #4: Quantitative Ecology
- Block #5: Human Ecology

Students are advised to discuss course options with their Graduate Program Coordinator to fulfill block requirements. For a list of courses qualifying under these blocks, please visit our website.

Elective Credit (6-15)

Remaining credits to reach 30 credit hours (minimum) fulfilled via:

Complete remaining credits with the following:

- Graduate level coursework (6000 and above)
- No more than 12 credits of 5000-5990 level courses

Additional Comments:

Optional Climate Adaptation Science Specialization:

Ecology majors who are housed in the Department of Biology have the option of adding a specialization in Climate Adaptation Science to appear on their transcript upon completion. To opt for this specialization, students must declare this to their home department (Biology). Please use specialization code CLAD.

- For course requirements, please see the Climate Adaptation Science Specialization page.

Correspondence for catalog questions should be sent to the Ecology Center/CAS Program Coordinator:

Program Coordinator: Dr. Lexi Turano

Location: Natural Resources 208

Phone: (435) 797-2555

E-mail: alexandra.turano@usu.edu

Department of Plants, Soils and Climate

The Department of Plants, Soils and Climate offers an M.S. degree in Ecology administered by the interdepartmental Ecology Center. Students must be Plan A (Thesis) to complete the Ecology degree; Plan B (non-Thesis) students are not eligible to major in Ecology.

Ecology majors who are housed in the Department of Plants, Soils and Climate also have the option of adding a specialization in Climate Adaptation Science. For this optional specialization, please see the Climate Adaptation Science Specialization page.

Admission Requirements for this Program

Prior to applying, the potential applicant must have a qualified PSC faculty member agree to accept them into their laboratory and be their major (supervisory) professor. Contact Dr. Jeanette Norton with questions - jeanette.norton@usu.edu

General Requirements

All prospective graduate students must apply through the School of Graduate Studies. Refer to the School of Graduate Studies website for admission requirements. Please note that all applicants must meet the following general admission requirements:

- A bachelor's degree from an accredited college
- A 3.0 GPA as calculated by the School of Graduate Studies. An official transcript must be sent directly to the School of Graduate Studies from each college or university previously attended (except USU).
- Student recommendation request forms (included in application materials) should be used to request three people to submit letters of recommendation directly to the graduate school. Two letters of recommendation should be from faculty from whom you have taken course work.
- International Students: Please visit the School of Graduate Studies website for requirements.

Simple Requisites

Program Requirements

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability

The Program of Study for a master's degree must include at least 15 semester credits of 6000 level or above.

Courses numbered 5000-5990 are advanced, upper-division courses and a maximum of 15 credits may be used on an approved program of study.

Credits in the following areas are not acceptable in a degree program: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Matriculation Start Semester

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.

Minimum Total Credits

The minimum requirement for a master's degree is 30 semester credits.

- Course requirements leading to MS degrees are developed jointly by the student and the student's supervisory committee. Each student must have a Program of Study approved by their supervisory committee.

  The following are required:

  - 15 credits minimum of committee-approved 6000-7000 level courses related to selected research area
  - including 2 credits of Plants, Soils and Climate Graduate seminar (PSC6890)

- 2-15 credits of Thesis Research credits (PSC6970) depending on plan type
- Plan A - minimum of 6 credits, maximum of 15 credits

(5000 level courses are considered upper-division and maximum of 15 credits may be used in a graduate program if approved by the supervisory committee)

- All MS students write a Plan A thesis under the guidance of their advisor and supervisory committee. The master's thesis must be successfully defended before the supervisory committee and submitted to the library.
- **Master's Plan A students:**

  The Plan A option requires the preparation and defense of a thesis. Students are required to complete a minimum of 6 semester credits of thesis research (PSC6970) that will be applied toward a Program of Study.

  Approval of academic forms required by the School of Graduate Studies:

  - Supervisory Committee approval form
  - Program of Study form
  - Thesis/Project Approval
  - Appointment for Examination
  - Record of Examination
  - SGS and library review and approval (Plan A)

Plants, Soils, and Climate & Ecology Center Credit Requirements

Type
Completion Requirement

30 required credit hours (minimum), including:

The Ecology M.S. degree requires a research thesis (M.S. Plan A Thesis)

***This program only offers a Plan A*

Earn at least 2 credits from the following:

- PSC6890 - Plants, Soils, and Climate Graduate Seminar - 1cr.
- ***M.S. students must pass this 1-credit course at least two (2) times during their program of study***

Ecology Seminar

Earn at least 2 credits from the following:

- BIOL6870 - Ecology Seminar - 1cr.
  OR ENVS6870 - Ecology Seminar - 1cr.
  OR PSC6870 - Ecology Seminar - 1cr.
  OR WATS6870 - Ecology Seminar - 1cr.
  OR WILD6870 - Ecology Seminar - 1cr.
- ***M.S. students must pass this 1-credit course at least two times during their program of study***

6-15 credits of Research and Thesis

Earn at least 6 credits from the following:

- PSC6870 - Ecology Seminar - 1cr.

Ecology breadth of knowledge

6 credits of a demonstrated breadth of knowledge in Ecology

- M.S. students must take 3 credits from at least two of the five Ecology Blocks
  - Block #1: Biophysical Ecology
  - Block #2: Organismic, Population, and Evolutionary Ecology
  - Block #3: Community, Ecosystem, and Landscape Ecology
  - Block #4: Quantitative Ecology
  - Block #5: Human Ecology

Students are advised to discuss course options with their Graduate Program Coordinator to fulfill block requirements.

Remaining Credits

Remaining credits to reach 30 credit hours (minimum)

- Fulfilled via:
  - Graduate level course work (6000 and above)
  - No more than 12 credits of 5000-5990 level courses

Additional Comments:

Optional Climate Adaptation Science Specialization:

Ecology majors who are housed in the Department of Plants, Soils and Climate have the option of adding a specialization in Climate Adaptation Science to appear on their transcript upon completion. To opt for this specialization, students must declare this to their home department (Plants, Soils and Climate). Please use specialization code CLAD.

- For course requirements, please see the Climate Adaptation Science Specialization page

About this Degree

Graduate Programs in Ecology

Ecology degree programs at Utah State University are administered by the interdepartmental Ecology Center. Students earn their degrees in Ecology while maintaining residence in one of the participating home departments (BIOL, ENVS, PSC, WATS, WILD). The Ecology Center itself does not directly admit students or grant degrees. Students must first apply to and be admitted to one of the Ecology Center's participating home departments, and then they can opt to major in Ecology in accordance with their faculty advisor and graduate program coordinator.

Interdepartmental Program in Ecology

The Ecology Center aims to promote research and graduate education in ecology and to provide expert, professional information and advice for decision-makers. The research carried out by the center's associates covers the full spectrum of ecology.

Director: Dr. Peter Adler

Location: Natural Resources 208B

E-mail: peter.adler@usu.edu

Correspondence for catalog questions should be sent to the Ecology Center/CAS Program Coordinator:

Program Coordinator: Dr. Lexi Turano

Location: Natural Resources 208

Phone: (435) 797-2555

E-mail: alexandra.turano@usu.edu

Department of Plants, Soils and Climate

The Department of Plants, Soils and Climate offers a Ph.D. degree in Ecology administered by the interdepartmental Ecology Center.

Ecology majors who are housed in the Department of Plants, Soils and Climate also have the option of adding a specialization in Climate Adaptation Science. For this optional specialization, please see the Climate Adaptation Science Specialization page.

Program Requirements

Total Credits Required In Program Coursework
30-60

Total Credits Required To Earn This Credential
30-60

Simple Requisites

Program Requirements

Department of Plants, Soils and Climate Requirements:

- Submission of Dissertation to the School of Graduate Studies and library for review and approval
- Completion of required trainings
- Qualifying Exams
    - Each Ph.D. student must undergo some sort of qualifying experience. Depending on the student's particular research and their faculty committee, the exam can either be a traditional oral and written exam, a scholarly proposal, or another option best suited to the student's individual situation.
- Dissertation defense

School of Graduate Studies (SGS) Requirements:

- Completion of SGS-specific Forms:
    - Supervisory Committee Approval
    - Program of Study
    - Application for Candidacy
    - Appointment for Examination
    - Record of Examination
    - Format & Style Form
    - Authorship & Copyright Form
    - Title Page Form
    - Application for Graduation
- Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- Overall Graduate GPA (≥ 3.0) and No Grades of C- or Lower: Graduate students must maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower cannot be applied toward a graduate degree.
- Course Number Acceptability: A PhD Program of Study may include no more than 12 semester credits of coursework below 6000-level. The following types of credits are not acceptable toward the degree: foreign language courses (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and any courses numbered below 5000.
- Matriculation Start Semester: PhD degrees must be completed within eight years of entering the program. Additional time may be requested by the advisor and submitted to the Vice Provost of Graduate Studies.
- Coursework Validity: Coursework older than eight years at the time of degree completion may not be used unless it is formally revalidated.

Ph.D. (post-master's)

Type
Completion Requirement

30 required credit hours (minimum), including:

Earn at least 2 credits from the following:

- PSC7890 - Plants, Soils, and Climate Graduate Seminar - 1cr.
- *Ph.D. students must pass this 1-credit course at least **two times** during their program of study*

Ecology Seminar

Earn at least 3 credits from the following:

- BIOL6870 - Ecology Seminar - 1cr.
  OR ENVS6870 - Ecology Seminar - 1cr.
  OR PSC6870 - Ecology Seminar - 1cr.
  OR WATS6870 - Ecology Seminar - 1cr.
  OR WILD6870 - Ecology Seminar - 1cr.
- *Ph.D. students must pass this 1-credit course at least **three times** during their program of study*

Research and Thesis

Earn at least 12 credits from the following:

- PSC7970 - Research and Thesis - 1cr.

9 credits of a demonstrated breadth of knowledge in Ecology

Ph.D. students must take 9 total credits (3 credits from at least three of the five Ecology Blocks)

- Block #1: Biophysical Ecology
- Block #2: Organismic, Population, and Evolutionary Ecology
- Block #3: Community, Ecosystem, and Landscape Ecology
- Block #4: Quantitative Ecology
- Block #5: Human Ecology

Students are advised to discuss course options with their Graduate Program Coordinator to fulfill block requirements. For a list of courses qualifying under these blocks, please visit our website.

Remaining Credits

Remaining credits to reach 30 credit hours (minimum)

- Fulfilled via:
  - Graduate level course work (6000 and above)
  - No more than 12 credits of 5000-5990 level courses

Ph.D. (post-baccalaureate)

Type

Completion Requirement

60 required credit hours (minimum) including:

Earn at least 2 credits from the following:

- PSC7890 - Plants, Soils, and Climate Graduate Seminar - 1cr.
- *Ph.D. students must pass this 1-credit course at least **two times** during their program of study*

Ecology Seminar

Earn at least 3 credits from the following:

- BIOL6870 - Ecology Seminar - 1cr.
  OR ENVS6870 - Ecology Seminar - 1cr.
  OR PSC6870 - Ecology Seminar - 1cr.
  OR WATS6870 - Ecology Seminar - 1cr.
  OR WILD6870 - Ecology Seminar - 1cr.
- *Ph.D. students must pass this 1-credit course at least **three times** during their program of study*

Research and Thesis

Earn at least 18 credits from the following:

- PSC7970 - Research and Thesis - 1cr.

9 credits of a demonstrated breadth of knowledge in Ecology

Ph.D. students must take 9 total credits (3 credits from at least three of the five Ecology Blocks)

- Block #1: Biophysical Ecology
- Block #2: Organismic, Population, and Evolutionary Ecology
- Block #3: Community, Ecosystem, and Landscape Ecology
- Block #4: Quantitative Ecology
- Block #5: Human Ecology

Students are advised to discuss course options with their Graduate Program Coordinator to fulfill block requirements. For a list of courses qualifying under these blocks, please visit our website.

Remaining credits

Remaining credits to reach 60 credit hours (minimum)

- Fulfilled via:
  - Graduate level course work (6000 and above)
  - No more than 12 credits of 5000-5990 level courses

Wildland Resources and Ecology Center Credit Requirements:

Type

Completion Requirement

30 required credit hours (minimum), including:

The Ecology M.S. degree requires a research thesis (M.S. Plan A Thesis).

Earn at least 1 credits from the following:

- WILD6800 - Wildland Resources Departmental Seminar - 1cr.

Ecology Seminar

Earn at least 2 credits from the following:

- BIOL6870 - Ecology Seminar - 1cr.
  OR ENVS6870 - Ecology Seminar - 1cr.
  OR PSC6870 - Ecology Seminar - 1cr.
  OR WATS6870 - Ecology Seminar - 1cr.
  OR WILD6870 - Ecology Seminar - 1cr.

*M.S. students must pass this 1-credit course at least **two times** during their program of study.*

6-15 credits of Thesis Research

Earn at least 6 credits from the following:

- WILD6970 - Thesis Research - 1cr.

Ecology breadth of knowledge

6 total credits of a demonstrated breadth of knowledge in Ecology

- M.S. students must take 3 credits from at least two of the five Ecology Blocks
    - Block #1: Biophysical Ecology
    - Block #2: Organismic, Population, and Evolutionary Ecology
    - Block #3: Community, Ecosystem, and Landscape Ecology
    - Block #4: Quantitative Ecology
    - Block #5: Human Ecology

Students are advised to discuss course options with their Graduate Program Coordinator to fulfill block requirements. For a list of courses qualifying under these blocks, please visit our website.

Remaining Credits

Remaining credits to reach 30 credit hours (minimum)

- Fulfilled via:
    - Graduate level course work (6000 and above)
    - No more than 12 credits of 5000-5990 level courses

Additional Comments:

Optional Forest Ecology Specialization:

Ecology majors who are housed in the Department of Wildland Resources have the option of adding a specialization in Forest Ecology to appear on their transcript upon completion. To opt for this specialization, students must declare this to their home department (Wildland Resources). Please use specialization code FOEC.

Required elements for this specialization include:

- 3 courses (credits vary) approved by the Forest Ecology Specialization Committee for their relevance to Forest Ecology.

Optional Climate Adaptation Science Specialization:

Ecology majors who are housed in the Department of Wildland Resources have the option of adding a specialization in Climate Adaptation Science to appear on their transcript upon completion. To opt for this specialization, students must declare this to their home department (Wildland Resources). Please use specialization code CLAD.

- For course requirements, please see the Climate Adaptation Science Specialization page

Students earn their degrees in Ecology while maintaining residence in one of the participating home departments (BIOL, ENVS, PSC, WATS, WILD). The Ecology Center itself does not directly admit students or grant degrees. Students must first apply to and be admitted to one of the Ecology Center's participating home departments, and then they can opt to major in Ecology in accordance with their faculty advisor and graduate program coordinator.

Interdepartmental Program in Ecology

The Ecology Center aims to promote research and graduate education in ecology and to provide expert, professional information and advice for decision-makers. The research carried out by the center's associates covers the full spectrum of ecology.

Director: Dr. Peter Adler

Location: Natural Resources 208B

E-mail: peter.adler@usu.edu

Correspondence for catalog questions should be sent to the Ecology Center/CAS Program Coordinator:

Program Coordinator: Dr. Lexi Turano

Location: Natural Resources 208

Phone: (435) 797-2555

E-mail: alexandra.turano@usu.edu

Department of Wildland Resources

The Department of Wildland Resources offers a Ph.D. degree in Ecology administered by the interdepartmental Ecology Center.

Ecology majors who are housed in the Department of Wildland Resources also have the option of adding a specialization in Climate Adaptation Science and/or Forest Ecology. For more information about these optional specializations, please see the Climate Adaptation Science Specialization page.

Program Requirements

Total Credits Required In Program Coursework
30-60

Total Credits Required To Earn This Credential
30-60

Simple Requisites

Program Requirements

Department of Wildland Resources Requirements:

- Submission of Dissertation to the School of Graduate Studies and library for review and approval
- Completion of required trainings
- Dissertation defense

School of Graduate Studies (SGS) Requirements:

- Completion of SGS-specific Forms:
  - Supervisory Committee Approval
  - Program of Study
  - Application for Candidacy
  - Appointment for Examination
  - Record of Examination
  - Format & Style Form
  - Authorship & Copyright Form
  - Title Page Form
  - Application for Graduation
- Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- Overall Graduate GPA (≥ 3.0) and No Grades of C- or Lower: Graduate students must maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower cannot be applied toward a graduate degree.
- Course Number Acceptability: A PhD Program of Study may include no more than 12 semester credits of coursework below 6000-level. The following types of credits are not acceptable toward the degree: foreign language courses (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and any courses numbered below 5000.
- Matriculation Start Semester: PhD degrees must be completed within eight years of entering the program. Additional time may be requested by the advisor and submitted to the Vice Provost of Graduate Studies.
- Coursework Validity: Coursework older than eight years at the time of degree completion may not be used unless it is formally revalidated.

PhD (post-master's)

Type

Completion Requirement

30 required credit hours (minimum), including:

Earn at least 1 credits from the following:

- WILD7800 - Wildland Resources Departmental Seminar - 1cr.

Ecology Seminar

Earn at least 3 credits from the following:

- BIOL6870 - Ecology Seminar - 1cr.
  OR ENVS6870 - Ecology Seminar - 1cr.
  OR PSC6870 - Ecology Seminar - 1cr.
  OR WATS6870 - Ecology Seminar - 1cr.
  OR WILD6870 - Ecology Seminar - 1cr.
- *Ph.D. students must pass this 1-credit course at least **three times** during their program of study*

Dissertation Research

Earn at least 12 credits from the following:

- WILD7970 - Dissertation Research - 1cr.

Ecology breadth of knowledge

9 total credits of a demonstrated breadth of knowledge in Ecology

- Ph.D. students must take 3 credits from at least three of the five Ecology Blocks (see below)
  - Block #1: Biophysical Ecology
  - Block #2: Organismic, Population, and Evolutionary Ecology
  - Block #3: Community, Ecosystem, and Landscape Ecology
  - Block #4: Quantitative Ecology
  - Block #5: Human Ecology

Students are advised to discuss course options with their Graduate Program Coordinator to fulfill block requirements. For a list of courses qualifying under these blocks, please visit our website.

Remaining Credits

Remaining credits to reach 30 credit hours (minimum)

- Fulfilled via:
- Graduate level course work (6000 and above)
- No more than 12 credits of 5000-5990 level courses

PhD (post-baccalaureate)

Type

Completion Requirement

60 required credit hours (minimum) including:

Earn at least 1 credits from the following:

- WILD7800 - Wildland Resources Departmental Seminar - 1cr.

Ecology Seminar

Earn at least 3 credits from the following:

- BIOL6870 - Ecology Seminar - 1cr.
  OR ENVS6870 - Ecology Seminar - 1cr.
  OR PSC6870 - Ecology Seminar - 1cr.
  OR WATS6870 - Ecology Seminar - 1cr.
  OR WILD6870 - Ecology Seminar - 1cr.

*Ph.D. students must pass this 1-credit course at least **three times** during their program of study*

Dissertation Research

Earn at least 18 credits from the following:

- WILD7970 - Dissertation Research - 1cr.

Ecology breadth of knowledge

9 total credits of a demonstrated breadth of knowledge in Ecology

- Ph.D. students must take 3 credits from at least three of the five Ecology Blocks (see below)
    - Block #5: Human Ecology
    - Block #4: Quantitative Ecology
    - Block #3: Community, Ecosystem, and Landscape Ecology
    - Block #2: Organismic, Population, and Evolutionary Ecology
    - Block #1: Biophysical Ecology

Students are advised to discuss course options with their Graduate Program Coordinator to fulfill block requirements. For a list of courses qualifying under these blocks, please visit our website.

Remaining Credits

Remaining credits to reach 60 credit hours (minimum)

- Fulfilled via:
    - Graduate level course work (6000 and above)
    - No more than 12 credits of 5000-5990 level courses

Additional Comments:

Optional Forest Ecology Specialization:

Ecology majors who are housed in the Department of Wildland Resources have the option of adding a specialization in Forest Ecology to appear on their transcript upon completion. To opt for this specialization, students must declare this to their home department (Wildland Resources). Please use specialization code FOEC.

Required elements for this specialization include:

- 4 courses (credits vary) approved by the Forest Ecology Specialization Committee for their relevance to Forest Ecology
- 1 *additional* course (credits vary) from *any* of the Ecology Center blocks (see above).

Optional Climate Adaptation Science Specialization:

Ecology majors who are housed in the Department of Wildland Resources have the option of adding a specialization in Climate Adaptation Science to appear on their transcript upon completion. To opt for this specialization, students must declare this to their home department (Wildland Resources). Please use specialization code CLAD.

- For course requirements, please see the Climate Adaptation Science Specialization page

Economics - PhD

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Economics

Program Level
Graduate

About this Degree

The Economics Ph.D. is a research based program that emphasizes applied economic theory and quantitative analysis. Students have the option to focus their studies in environmental and natural resource economics; agricultural economics; or regional economic development.

The Climate Adaptation Science Specialization is also offered.

Note: This program only accepts Ph.D. students in odd years.

Admission Requirements for this Program

Prerequisite course work for the PhD in Economics:

M.S. in Agribusiness, Agricultural Economics, Applied Economics, Economics, Environmental/Natural Resource Economics, or a closely related degree.

Or at a minimum evidence of the following coursework:

- Microeconomic Principles
- Intermediate Microeconomics
- Calculus
- Statistics
- Basic Econometrics

Program Requirements

Total Credits Required In Program Coursework
53-73

Total Credits Required To Earn This Credential

Program Requirements

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA at least 3.0 and no grades of C-or lower; Graduate stude nts are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability
The Program of Study for a doctoral degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above. If the student does not have a master's degree, the Program of Study must include at least 30 credits at the level of 6000 or above.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Courses numbered 5000-5990 are advanced, upper-division courses and cannot be used towards a doctoral degree, unless approved by the graduate program advisor prior to enrollment in the course. If used, a maximum of 12 credits are allowed.

Matriculation Start Semester
A doctorate must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity
Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is re-validated by the Vice Provost of Graduate Studies.

Doctoral forms: Approval of the following academic forms is required for doctoral students by the School of Graduate Studies (SGS):

- Supervisory Committee
- Program of Study
- Application for Candidacy (includes proposal)
- Appointment for Examination
- Record of Examination
- Authorship and Copyright
- Style and Format
- SGS and library review and approval

PhD students who are going from a BS to the PhD are required to complete 73 credits as follows:

Type
Completion Requirement

(1)

Complete the core in the first year (fall and spring semesters; 18 credits).

Complete ALL of the following Courses:

- APEC7130 - Microeconomic Theory I - 3cr.
- APEC7140 - Microeconomic Theory II - 3cr.
- APEC7310 - Econometrics I - 3cr.
- APEC7320 - Econometrics II - 3cr.
- APEC7350 - Mathematical Economics I - 3cr.
- APEC7360 - Mathematical Economics II - 3cr.

NOTE:

APEC 7350 - Taught in a 3 week intensive course just prior to fall semester.

(2)

Summer Semester
Perform successfully on a written qualifying examination based on the core

Students must take a qualifying examination at the end of their first year. It is composed of two, four-hour exams covering 1) microeconomics and 2) econometrics and quantitative methods.

Both exams must be passed before moving on to the second year of study.

(3)

Complete required courses in second year (fall semester; 9 credits)

Complete ALL of the following Courses:

- APEC7150 - Applied Microeconomics - 3cr.
- APEC7330 - Econometrics III - 3cr.
- APEC7960 - Applied Economics Teaching Practicum - 3cr.

(4)

Complete the following additional courses (17 credits):

Complete ALL of the following Courses:

- APEC7950 - Department of Economics Graduate Seminar - 1cr.

2 credits of APEC7950 GRADUATE SEMINAR required

- ***9 credits of APEC 6000 level or above elective courses approved by the student's committee***
- ***6 credits outside of APEC department 6000 level or above***

(5)

Complete a dissertation, successfully orally defend it, and submit it to the School of Graduate Studies.

Earn at least 29 credits from the following:

- APEC7970 - Dissertation Research - 1cr.

PhD students who are going from an MS to the PhD are required to complete 53 credits as follows:

Type

Completion Requirement

(1)

Complete the core in the first year (fall and spring semesters; 18 credits).

Complete ALL of the following Courses:

- APEC7130 - Microeconomic Theory I - 3cr.
- APEC7140 - Microeconomic Theory II - 3cr.
- APEC7310 - Econometrics I - 3cr.
- APEC7320 - Econometrics II - 3cr.
- APEC7350 - Mathematical Economics I - 3cr.
- APEC7360 - Mathematical Economics II - 3cr.

NOTE:

APEC 7350 - Taught in a 3 week intensive course just prior to fall semester.

(2)

Summer Semester
Perform successfully on a written qualifying examination based on the core

Students must take a qualifying examination at the end of their first year. It is composed of two, four-hour exams covering 1) microeconomics and 2) econometrics and quantitative methods.

Both exams must be passed before moving on to the second year of study.

(3)

Complete required courses in second year (fall semester; 9 credits).

Complete ALL of the following Courses:

- APEC7150 - Applied Microeconomics - 3cr.
- APEC7330 - Econometrics III - 3cr.
- APEC7960 - Applied Economics Teaching Practicum - 3cr.

(4)

Complete the following additional courses (14 credits).

Complete ALL of the following Courses:

- APEC7950 - Department of Economics Graduate Seminar - 1cr.

2 credits of APEC7950 GRADUATE SEMINAR required

- ***6 credits of 6000 level or above APEC courses***
- ***6 credits of 6000 level or above courses from outside APEC department***

(5)

Complete a dissertation, successfully orally defend it, and submit it to the School of Graduate Studies.

Earn at least 12 credits from the following:

- APEC7970 - Dissertation Research - 1cr.

Economics - BA, BS

Program Overview

College
Jon M. Huntsman School of Business

Department
Economics and Finance

Program Level
Undergraduate

About this Degree

Economics is the social science that analyzes the production, distribution, and consumption of goods and services in order to explain how economies work. Students in the economics major learn how to think critically, solve problems, work with numbers, in addition to a variety of other skills. The program also provides a strong grounding in economic theory, which helps open unique career opportunities that involve policy analysis. Students pursuing economics gain valuable research experience that prepares them for graduate school or various careers in business.

- For more information about Economics, see the website
- Admitted and current students must meet with an advisor
- Log on to Degree Works to check student-specific program progress
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program

First-Year and Transfer Students are admitted to the Huntsman School of Business based on USU's Admission Requirements.

Current USU Students in good standing qualify for admission into a Huntsman School major.

Huntsman School Admission Details: https://huntsman.usu.edu/undergraduate/apply

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- Elective credits needed will be determined on an individual basis (a student with continuing education, AP credits, and Language credits may not require additional elective credits).
- Completing a minor or dual major is recommended to fulfill elective credits.
- Individual and professional development opportunities are encouraged, see http://huntsman.usu.edu/programs/ for specific information.
- Huntsman School of Business courses are limited to one repeat.

Completion with at least 2.5 GPA in major courses and 2.0 overall GPA is required for graduation. All major courses require a grade of C or better. Courses *may not* be taken on a pass/fail basis.

Economics Degree

Type
Completion Requirement

Economics Required Courses (19 credits)

Complete ALL of the following Courses:

- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- ECON2250 - Economics Professional Development - 1cr. **OR** ECON4920 - Economics Internship - 1cr.
- ECON3000 - Quantitative Methods in Economics - 3cr. **OR** DATA3100 - Making Decisions with Data - 3cr.
- ECON3010 - Intermediate Microeconomics (DSS) - 3cr. **OR** ECON5010 - Microeconomic Theory - 3cr.
- ECON3020 - Intermediate Macroeconomics - 3cr. **OR** ECON5020 - Macroeconomic Theory - 3cr.
- ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.

Choose 12 credits of upper-division electives from the following:

Complete ANY of the following Courses:

- POLS3170 - Law and Economics - 3cr.
- ECON 3000 - 5999 listed courses
- FIN 3000 - 5999 listed courses (maximum of 6 credits)
- POLSC 3170 - Law and Economics

Total Elective Credit

Complete the following:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.

- Check your Degree Works for requirements and completion.

Students who have not attended any school beyond high school and have a declared major in the Huntsman School of Business are expected to enroll in BUS1000 HSB FRESHMEN ACADEMY during their first year at USU. This course is intended to acculturate students to college life, and is therefore not relevant for internal or external transfer students and online students.

Economics - MA

Program Overview

College
Jon M. Huntsman School of Business

Department
Economics and Finance

Program Level
Graduate

About this Degree

The Master of Science (MS) and Master of Arts (MA) degrees in Economics offered through the Department of Economics and Finance, Huntsman School of Business, are primarily intended to prepare students for subsequent doctoral study in Economics. Students that choose to do an MA are required to satisfy the foreign language requirement by earning an additional 15 credits in the study of a foreign language.

Admission Requirements for this Program

Admission to the master's program in the Department of Economics and Finance requires a minimum grade point average (GPA) of 3.0 (4.0 = A) for the last 60 semester credits earned prior to applying for the program. Educational requirements include a bachelor's degree, courses in intermediate microeconomic theory, econometrics/statistics, and mathematical economics/calculus. Students whose prior academic performance warrants admission, although some of these courses have not been taken, may be admitted provisionally. Such students will be required to make up deficiencies by enrolling in appropriate courses prior to beginning the master's program.

The Graduate Record Examination (GRE) is required. GRE scores should be included with the application. Scores should be at or above the 50th percentile for the verbal portion of the examinations and above the 60th percentile for the quantitative portion. A TOEFL score is also required of all students whose native language is not English.

Simple Requisites

Program Requirements

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review. Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Degree Requirements

The MSE program requires a minimum of 30 credits from an approved program of study with at least 15 credits from 6000-level courses with an ECN/FIN prefix or higher. Plan A Thesis students must complete 6 credits of Thesis Research (ECN6970 THESIS RESEARCH) while Plan B students must complete 3 credits of Thesis Research (ECN6970 THESIS RESEARCH). More information about courses can be found at https://huntsman.usu.edu/mse/curriculum.

Degree Requirements

Type
Completion Requirement

Plan A Thesis

Earn at least 6 credits from the following:

- ECON6970 - Thesis Research - 1cr.

Plan B

Earn at least 3 credits from the following:

- ECON6970 - Thesis Research - 1cr.

Economics - MS

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Economics and Finance	Graduate

About this Degree

The Master of Science (MS) and Master of Arts (MA) degrees in Economics offered through the Department of Economics and Finance, Huntsman School of Business, are primarily intended to prepare students for subsequent doctoral study in Economics. Students that choose to do an MA are required to satisfy the foreign language requirement by earning an additional 15 credits in the study of a foreign language.

Admission Requirements for this Program

Admission to the master's program in the Department of Economics and Finance requires a minimum grade point average (GPA) of 3.0 (4.0 = A) for the last 60 semester credits earned prior to applying for the program. Educational requirements include a bachelor's degree, courses in intermediate microeconomic theory, econometrics/statistics, and mathematical economics/calculus. Students whose prior academic performance warrants admission, although some of these courses have not been taken, may be admitted provisionally. Such students will be required to make up deficiencies by enrolling in appropriate courses prior to beginning the master's program.

The Graduate Record Examination (GRE) is required. GRE scores should be included with the application. Scores should be at or above the 50th percentile for the verbal portion of the examinations and above the 60th percentile for the quantitative portion. A TOEFL score is also required of all students whose native language is not English.

Simple Requisites

Program Requirements

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review. Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Degree Requirements

The MSE program requires a minimum of 30 credits from an approved program of study with at least 18 credits from 6000-level courses with an ECON/FIN prefix or higher. Plan A Thesis students must complete 6 credits of Thesis

Research (ECN6970 THESIS RESEARCH) while Plan B students must complete 3 credits of Thesis Research (ECN6970 THESIS RESEARCH). More information about courses can be found at https://huntsman.usu.edu/mse/curriculum.

Economics: Econometrics and Data Analytics Emphasis - BS

Program Overview

College
Jon M. Huntsman School of Business

Department
Economics and Finance

Program Level
Undergraduate

About this Degree

Economics is the social science that analyzes the production, distribution, and consumption of goods and services in order to explain how economies work. Students in the economics major learn how to think critically, solve problems, work with numbers, in addition to a variety of other skills. The program also provides a strong grounding in economic theory, which helps open unique career opportunities that involve policy analysis. Students pursuing economics gain valuable research experience that prepares them for graduate school or various careers in business.

Economics: Prelaw Emphasis - BA, BS (NOT CURRENTLY OFFERED)

Program Overview

College
Jon M. Huntsman School of Business

Department
Economics and Finance

Program Level
Undergraduate

About this Degree

Economics is the social science that analyzes the production, distribution, and consumption of goods and services in order to explain how economies work. Students in the economics major learn how to think critically, solve problems, work with numbers, in addition to a variety of other skills. The program also provides a strong grounding in economic theory, which helps open unique career opportunities that involve policy analysis. Students pursuing economics gain valuable research experience that prepares them for graduate school or various careers in business.

Multiple emphasis options are available in Economics: Economic Theory (NOT CURRENTLY OFFERED), Managerial Economics (NOT CURRENTLY OFFERED), Prelaw Economics (NOT CURRENTLY OFFERED), and International Economics and Trade, Quantitative Economic History (NOT CURRENTLY OFFERED), Financial Economics (NOT CURRENTLY OFFERED), Business Economics (NOT CURRENTLY OFFERED), Econometrics and Data Analysis.

- For more information about Economics, see the website
- Admitted and current students must meet with an advisor
- Log on to Degree Works to check student-specific program progress
- The highest math requirement for this degree is MATH1100 CALCULUS TECHNIQUES (QL)

Admission Requirements for this Program

First-Year and Transfer Students are admitted to the Huntsman School of Business based on USU's Admission Requirements.

Current USU Students in good standing qualify for admission into a Huntsman School major.

Aquatic Ecosystem Restoration - Post-Bachelor's Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Watershed Sciences

Program Level
Graduate

About this Degree

The purpose of the Post Bachelor's Certificate in Aquatic Ecosystem Restoration is to provide training for graduate students wishing to gain depth in techniques and principles for restoration of riverine habitats and environments.

Please visit the certificate requirements page for more information.

Completion Requirement

Required Courses

Complete ANY of the following Courses:

- WATS4300 - Principles of Ecosystem Restoration - 3cr.
  OR WATS5305 - Ecology and Restoration of Plants - 3cr.
  OR WATS6700 - Restoration Ecology - 4cr.
- ***Students who choose to take WATS5300 RESTORATION PRINCIPLES or WATS5305 PLANT ECOL RESTORATION will need to take additional credits from the Additional Certificate Requirements course list for a total of 12 credits for the certificate.***

Additional required courses

Take 2 credits from the following course options:

Earn at least 2 credits from the following:

- WATS5620 - Intro to Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5622 - Planning Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5623 - Designing Low-Tech Process-Based Restoration of Riverscapes - 1cr.

Additional Certificate Requirements (6-8 credits)

Select 6-8 credits from the following courses:

Earn at least 6 credits from the following:

- WATS5305 - Ecology and Restoration of Plants - 3cr.
- WATS5621 - Science and Case Studies of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5624 - Implementation of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5625 - Adaptive Management and Monitoring of

Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS6050 - Aquatic Ecosystems and Water Resources Systems Modeling - 2cr.
- WATS6150 - Fluvial Geomorphology - 3cr.
- WATS6360 - Wetland Ecology and Management - 3cr.
- WATS6530 - Water Quality and Pollution - 3cr.
- WATS6600 - Environmental Water Management - 3cr.
- WATS6900 - Graduate Special Topics - 1cr.
- ENVS6410 - Translational Ecology - 3cr.
- ENVS6320 - Water Law and Policy in the United States - 3cr.
- ENVS6530 - Natural Resources Administration - 3cr.
- NR6910 - Geographic Information Systems for Natural Resource Applications - 3cr.
- NR6940 - Principles of Remote Sensing of Natural Resources - 3cr.
- NR6950 - Geospatial Analysis for Natural Resource Management - 3cr.

Economics and Statistics - MS

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Economics, Mathematics & Statistics

Program Level
Graduate

About this Degree

College of Agriculture and Natural Resources; College of Science

Department of Applied Economics; Department of Mathematics and Statistics

The master's degree in economics and statistics is a flexible, versatile degree that focuses both on gaining extensive quantitative economics knowledge and applying statistics skills to social science.

Note: This program only accepts students in odd years.

The Master of Science (MS) degree in Economics and Statistics is primarily intended to prepare students for subsequent doctoral study in Economics. Consequently, students are required to take the same first-year core theory and econometrics courses as the PhD students.

Graduates in Economics and Statistics are well-prepared to continue their studies at the doctoral level, particularly in programs with a strong quantitative emphasis. Graduates have recently continued their studies at a variety of institutions, including Brown University, the University of Oregon, Harvard Law School, University of California at Irvine, and George Mason University

For More Information
Man-Keun Kim
Director of Graduate Programs
Department of Applied Economics
3530 Old Main Hill, Logan, Utah 84322-3530
Phone: 435-797-2359, email: mk.kim@usu.edu website: apec.usu.edu

Admission Requirements for this Program

Admission to this master's program requires a minimum grade point average (GPA) of 3.0 (4.0 = A) for the last 60 semester credits earned prior to applying for the program. Educational requirements include previous bachelors (BA or BS) level (or above) courses in intermediate microeconomic theory, econometrics/statistics, and mathematical economics/calculus. Students whose prior academic performance warrants admission, although some of these courses have not been taken, may be admitted provisionally. These students will be required to make up deficiencies by enrolling in appropriate courses prior to beginning the master's program.
The Graduate Record Examination (GRE) is required. GRE scores should be included with the application. Scores must be at or above the 40th percentile for both the quantitative and verbal portions of the examination. A TOEFL score is also required of all students whose native tongue is not English. Application forms and more information about application requirements (such as GRE and TOEFL scores) can be found online at www.usu.edu/graduateschool/ or by phoning 435-797-1189.

Program Requirements

Total Credits Required In Program Coursework
30-33

Total Credits Required To Earn This Credential
30-33

Simple Requisites

Program Requirements

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA at least 3.0 and no grades of C- or lower;
Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C-or lower will not be accepted for a graduate degree.

Course Number Acceptability
The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above.

Courses numbered 5000-5990 are advanced, upper-division courses and a maximum of 12 credits can be used towards a master's degree.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Matriculation Start Semester
A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity
Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.

Master's Plan A students:
The Plan A option requires the preparation and defense of a thesis. Students are required to complete a minimum of 6 credits of thesis research (APEC6970 THESIS RESEARCH) for a Program of Study.

Master's Plan B students:
A Plan B option requires the production and defense of a paper or project. Students are required to complete a minimum of 2 credits of thesis research (APEC6970 THESIS RESEARCH) with a maximum of 3 thesis research credits applied toward a Program of Study.

Master's forms: Approval of the following academic forms is required for master's students by the School of Graduate Studies (SGS):

- Supervisory Committee
- Program of Study
- Thesis/Project Approval
- Appointment for Examination
- Record of Examination
- SGS and library review and approval (Plan A)
- Library review and approval (Plan B)

Economics and Statistics - MS

Type
Completion Requirement

Required Courses (24 credits)

Complete ALL of the following Courses:

- APEC7130 - Microeconomic Theory I - 3cr.
- APEC7140 - Microeconomic Theory II - 3cr.
- APEC7310 - Econometrics I - 3cr.
- APEC7320 - Econometrics II - 3cr.
- APEC7350 - Mathematical Economics I - 3cr.
- APEC7360 - Mathematical Economics II - 3cr.
- MATH5710 - Introduction to Probability - 3cr.
- MATH5720 - Introduction to Mathematical Statistics - 3cr.

See program coordinator for plan of study for these courses.

NOTE:

1. APEC7350 MATHEMATICAL ECON I - Taught in a 3 week intensive course just prior to fall semester.

Thesis/Research Paper

Complete (6 credits for Plan A) or (3 credits for Plan B)

Complete ALL of the following Courses:

- APEC6970 - Thesis Research - 1cr.

Plan B only

Earn at least 3 credits

- Elective course must be in APEC, ECN, MATH, or STAT

Additional Comments:

NOTE:

For students who are majoring under the Math and Statistics department, those Plan B and C students interested in studying Macroeconomic Theory, the Department of Economics and Finance in the Huntsman School of Business offers two courses at the master's/PhD level (cross-listed as APEC7240 MACROECONOMIC THEORY II that can be taken during the Second Fall Semester. Also, the two Math courses taken during the first fall and spring semesters (MATH5710 INTRO TO PROBABILITY and MATH5720 INTRO TO MATH STATISTICS) are prerequisites for higher-level math and statistics courses offered through the Mathematics and Statistics Department. These higher-level math courses can therefore be taken during the Second Fall Semester as well.

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

Federal Gainful Employment Information

Bring ideas to life with the Engineering, Drafting and Design program! Through a hands-on, project-based curriculum, students dive into architectural, mechanical, and civil drafting, mastering industry-standard techniques and best practices. With one-on-one guidance from experienced instructors, students will develop the skills to create precise technical drawings using cutting-edge software. Every course is computer-intensive and competency-based, ensuring they gain real-world experience that employers value. Whether a student is aiming for entry-level employment or planning to continue their education, this program equips them with the knowledge and skills to succeed in the dynamic world of drafting and design.

Education Paraprofessional - Certificate (NOT CURRENTLY OFFERED)

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Undergraduate

About this Degree

The Education Paraprofessional Certificate is intended to prepare individuals who have graduated from high school and who have been hired as paraprofessional in the public schools to improve their practice as a paraprofessional and to move toward teacher licensure if they so choose. Students are admitted to the program as a cohort and move through the program on a cohort basis. The schedule requires approximately 6-9 credits per semester to accommodate the paraprofessionals' work schedules. The program is offered entirely online.

- For more information about Elementary Education, see the website.
- Admitted students must meet with an advisor (435-797-0391). Current students should also meet with an advisor (435-797-0391).
- Log on to Degree Works to check student-specific program progress.
- The highest math course for this certificate is MATH1050 COLLEGE ALGEBRA (QL) or MATH1051 CLASSIC ALGEBRA TEACHERS (QL).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- High School Diploma & hiring as a paraprofessional in a participating school district.

Program Requirements

Education - Curriculum and Instruction Specialization - EdD

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Graduate

About this Degree

The School of Teacher Education and Leadership (TEAL), in the Emma Eccles Jones College of Education and Human Services (CEHS), offers a doctoral program to earn a Doctor of Education (Ed.D.) in Curriculum& Instruction (C & I). As a professional doctorate for practitioners, the Doctor of Education (Ed.D.) equips educators with the tools to implement tangible changes within their professional environments, enhancing educational outcomes. Please review the TEAL Ed.D. website for more information.

Degrees offered: Doctor of Education (Ed.D.)

Graduate specialization: Curriculum and Instruction

Admission Requirements for this Program

For additional admission information, including, contact information, please refer to the TEAL admissions for doctoral program website.

Please follow the 5 steps for admissions:

1. Complete USU Graduate School Application
2. Three letters of recommendation. All letters should address the student's potential for successful graduate study.
3. A copy of an official transcript from each previously attended college and/or university (except Utah State University). The official transcript must show the master's degree verified (the degree has been awarded and shows the award/conferral date on the transcript). A Master's degree in education or closely related field (e.g., Instructional Technology and Learning Sciences) is preferred. A minimum, cumulative GPA 3.0 or above for highest degree verified.
4. A Curriculum Vitae that shows evidence of at least two years of successful experience in teaching.
5. Statement of purpose essay (500 words). Please review the TEAL admissions website for directions.

International applicants are expected to follow the School of Graduate Studies application requirements, including completion of the English Language Proficiency Test.

Deadline for applications: December 1st

General Information About Doctorate in Curriculum and Instruction (C & I)

Planned Program

To complete an Ed.D. degree, a minimum of 46 total credits (6000 level or above) is required for students with a Master's degree. A student must:

- Complete (a) Curriculum and Instruction Core (10 semester credits), (b) Research Methods Core (9 semester credits), (c) Electives (15 credits), and (d) Capstone Project (12 credits), approved by the student's Supervisory Committee.
- Pass a doctoral capstone project proposal defense directed and evaluated by a Supervisory Committee of graduate faculty. The committee consists of 3 USU Graduate Faculty members, which may include 1 Outside Member (and 2 TEAL faculty).
- Complete and satisfactorily defend a doctoral capstone project directed and evaluated by a Supervisory Committee of graduate faculty.
- Complete all final requirements, as specified by the Curriculum and Instruction specialization, the Emma Eccles Jones College of Education and Human Services, and the School of Graduate Studies.

School of Graduate Studies Requirements

- Degree Verification: A master's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission.
- Overall Graduate GPA at least 3.0 and no grades of C- or lower;
- Graduate students are required to maintain at least a 3.0 GPA. Grades of C- or lower will not be accepted for a graduate degree.
- Course Number Acceptability: The program of study for a doctoral degree cannot include courses at the 5000 level. Credits of courses at the 6000 level or above are required.
- Matriculation Start Semester: A doctoral degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Required Forms: Ed.D. program forms are available on the School of Graduate Studies forms website and the TEAL Service Now forms website.
    - Supervisory Committee Form
    - Program of Study
    - Title Page
    - Graduation Application
    - TEAL Thesis/Dissertation Credit Request Form
    - TEAL Annual Review
    - TEAL Dissertation Proposal/Defense Request Form

Students are expected to consult with their advisor for course enrollment.

Requirements

Type
Completion Requirement

Required Courses (10 credits)

Complete ALL of the following Courses:

- TEAL7015 - Orientation to Educational Research - 1cr.
- TEAL7150 - Curriculum Theory - 3cr.
- TEAL7300 - Historical, Social, and Cultural Foundations of Education - 3cr.
- TEAL7310 - Teaching-Learning Foundations in Education - 3cr.

Research Core Requirements (9 credits minimum)

A student must take 9 credits of research methods courses from the list below. EDUC6570 INTRO ED/PSY RESEARCH is required. The student can select six credits of research methods courses.

Fulfill ALL of the following requirements:

Required Courses (3 credits)

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.

AND

Six credits from research methods cluster (6 credits)

Complete at least 6 of the following courses:

- EDUC6050 - Applied Statistical Analysis - 3cr.
- EDUC6010 - Introduction to Program Evaluation: Evaluation Models and Practical Guidelines - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.

Education: Curriculum and Instruction Specialization - PhD

Program Overview

College	Department	Program Level
College of Education & Human Services	School of Teacher Education & Leadership	Graduate

About this Degree
The School of Teacher Education and Leadership (TEAL), in the Emma Eccles Jones College of Education and Human Services (CEHS), offers a doctoral program to earn a Doctor of Philosophy (Ph.D.) in Education specializing in Curriculum & Instruction (C & I) with a concentration area (see areas below). The C & I specialization prepares graduates for leadership, teaching, and research positions in curriculum and instruction. Please review the TEAL Ph. D. website for more information.

Degree offered: Doctor of Philosophy (Ph.D.)

Graduate specialization: Curriculum and Instruction

Concentration Areas:
- Science Education
- Literacy Education and Leadership
- Cultural Studies in Education
- Mathematics Education and Leadership
- School Leadership

Admission Requirements for this Program
For additional admission information, including contact information, please refer to the TEAL admissions for doctoral program website.

Please follow the 5 steps for admissions:

1. Complete USU Graduate School Application
2. Three letters of recommendation. All letters should address the student's potential for successful graduate study.
3. A copy of an official transcript from each previously attended college and/or university (except Utah State University). The official transcript must show the master's degree verified (the degree has been awarded and shows the award/conferral date on the transcript). A Master's degree in education or closely related field (e.g., Instructional Technology and Learning Sciences) is preferred. A minimum, cumulative GPA 3.0 or above for highest degree verified.
4. A Curriculum Vitae that shows evidence of at least two years of successful experience in teaching.
5. Statement of purpose essay (500 words). Please review the TEAL admissions website for directions.

International applicants are expected to follow the School of Graduate Studies application requirements, including completion of the English Language Proficiency Test.

Deadline for applications: December 1st

60	60

Simple Requisites

Program Requirements

Planned Program

To complete a Ph.D. degree, a minimum of 60 total credits (6000 level or above) is required for students who previously earned a Master's degree. A student must:

1. Complete (a) Curriculum and Instruction Core (10 semester credits), (b) Research Methods Core (12 semester credits), and Concentration Area Core (12-21 credits), approved by the student's Supervisory Committee.
2. Pass a written Comprehensive Examination. This exam must be satisfactorily completed before the student advances to candidacy. Advancement to candidacy also requires an approved dissertation proposal.
3. Complete and satisfactorily defend a doctoral research study directed and evaluated by a Supervisory Committee of USU Graduate Faculty.
4. Complete all degree requirements, as specified by the Curriculum and Instruction specialization, the Emma Eccles Jones College of Education and Human Services, and the School of Graduate Studies.

Ph.D. Residency Professional Requirements

The Ph.D. prepares candidates for careers in university settings, school districts, or research institutes. It is designed for graduates who will have significant leadership, research and/or higher education teaching responsibilities.

All PhD students must:

- Present once at a state, regional, or national professional conference
- Submit a manuscript to a peer-reviewed professional journal

PhD students participate with faculty to extend their immersion in academia in a number of ways:

Research and creative endeavors: (e. g., participate in a research project; participate in a grant-funded project; apply for graduate student funding; write/co-write a grant to fund a research project; publish an article in professional organization's newsletter; publish a book review)

- Immersion in the culture of graduate education: (e. g., participate in scholarly discussion of writing groups; participate in graduate student organizations and events; serve on committees within the department, college, or university; complete coursework or immersion in literature beyond program requirements)
- Engagement in professional activities: (e. g., teach a college course; work as a research or teaching assistant at the college level; conduct a guest lecture or workshop; attend local, regional, or national scholarly professional meetings; hold office in local, regional, or national scholarly professional meetings; organize informal seminars, consortia, or orientation programs; serve as a reviewer for a professional conference or journal)

School of Graduate Studies Requirements

- Degree Verification: A Master's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission. An official transcript must be sent directly to the School of Graduate Studies.
- Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate students are required to maintain at least a 3.0 GPA. Grades of C- or lower will not be accepted for a graduate degree.
- Course Number Acceptability: The program of study for a doctoral degree cannot include courses at the 5000 level. Credits **.** Credits of courses at the 6000 level or above are required
- Matriculation Start Semester**:** A doctoral degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
- Required Forms:

Ph.D. program forms are available on the School of Graduate Studies forms website and the TEAL Service Now forms website.

- Supervisory Committee Form
- Program of Study
- Application for Candidacy
- Appointment for Exam
- Record of Exam
- Authorship & Copyright
- Format and Style
- Title Page
- Graduation Application
- TEAL Thesis/Dissertation Credit Request Form
- TEAL Annual Review
- TEAL Dissertation Proposal/Defense Request Form
- TEAL Professional Requirements From
- TEAL Comprehensive Exam Request Form

Curriculum and Instruction Specialization - Ph.D.

Type
Completion Requirement

Concentration Areas

All Ph.D. in Education students must complete the required Curriculum & Instruction Specialization Core and Research Methods coursework. Additionally, the Ph.D. in Education program offers coursework across five concentration areas for fulfilling requirements for an area of Concentration. Please review the most current planning guides on the TEAL concentration area websites.

The following are concentration options:

- Science Education
- Literacy Education
- Cultural Studies
- Mathematics Education
- School Leadership

Science Education Concentration

Type
Completion Requirement

Science Education

Fulfill ALL of the following requirements:

Core Courses (10 credits)

Complete ALL of the following Courses:

- TEAL7015 - Orientation to Educational Research - 1cr.
- TEAL7150 - Curriculum Theory - 3cr.
- TEAL7300 - Historical, Social, and Cultural Foundations of Education - 3cr.
- TEAL7310 - Teaching-Learning Foundations in Education - 3cr.

Recommended:

1. TEAL7670 EDUCATION LITERATURE REVIEWS - Education Literature Reviews 3 credit(s)

AND

Research Methods Courses (15 credits)

Two research methods courses, EDUC6800 MIXED METHODS RESEARCH and EDUC7610 REGRESSION ANALYSIS, are required for Science Education concentration area students.

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.
- EDUC6800 - Mixed Methods Research - 3cr.
- EDUC7610 - Regression Analysis - 3cr.

AND

Science Concentration Required Courses (15 credits)

Complete ALL of the following Courses:

- TEAL7710 - History of Science Education - 3cr.
- TEAL7712 - STEM Education: Research Development - 3cr.
- TEAL7713 - Nature of Science Research - 3cr.
- TEAL7714 - Misconceptions in Science Education - 3cr.
- TEAL7715 - Research Practices for Science Educators - 3cr.

AND

Dissertation Credits (12 credits)

Complete ALL of the following Courses:

- TEAL7970 - Dissertation Research in Curriculum and Instruction - 1cr.

NOTE:

TEAL7970 DISSERTATION RESEARCH IN C&I- Register for a total of 12 credits.

AND

Elective Credits (8 credits)

Students must also complete 8 elective credits.
Recommended:

1. TEAL7548 QUAL RESEARCH APPRENTICESHIP - Qualitative Research Apprenticeship (1-3 credits)
2. ITLS7350 ETHNOGRAPHY - Ethnography (3 credits)
3. TEAL7546 QUALITATIVE DATA ANALYSIS - Qualitative Data Analysis (3 credits)

Recommended Research Courses:

1. EDUC6010 INTRO TO PROGRAM EVALUATION - Introduction to Program Evaluation (3 credits)
2. TEAL7545 RESEARCH FOR TEACHERS - Research for Teachers (3 credits)
3. TEAL7549 AUTOETHNOGRAPHY - Autoethnography as Research Methodology (3 credits)
4. TEAL7675 DISCOURSE ANALYSIS - Discourse Analysis in Education (3 credits)
5. TEAL7324 ADVANCED LITERACY ASSESSMENT - Advanced Studies in Literacy Assessment and Intervention (3 credits)
6. SPED7700 SINGLE-SUBJECT RESEARCH - Single Subject Research Methods and Designs (3 credits)

See you Ph.D Advisor for guidance.

Literacy Education and Leadership Concentration

Type
Completion Requirement

Literacy Education

Fulfill ALL of the following requirements:

Core Courses (10 credits)

Complete ALL of the following Courses:

- TEAL7015 - Orientation to Educational Research - 1cr.
- TEAL7150 - Curriculum Theory - 3cr.
- TEAL7300 - Historical, Social, and Cultural Foundations of Education - 3cr.
- TEAL7310 - Teaching-Learning Foundations in Education - 3cr.

Recommended:

1. TEAL7670 EDUCATION LITERATURE REVIEWS - Education Literature Reviews 3 credit(s)

AND

Required Research Methods Courses (12 credits)

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.
- TEAL7324 - Advanced Studies in Literacy Assessment and Intervention - 3cr.

AND

Advanced Research Methods Course (3 credits)

Complete at least 1 of the following courses:

- EDUC6800 - Mixed Methods Research - 3cr.
- EDUC7610 - Regression Analysis - 3cr.
- TEAL7546 - Qualitative Data Analysis - 3cr.
- TEAL7547 - Thinking with Theory in Qualitative Research - 3cr.
- EDUC6010 - Introduction to Program Evaluation: Evaluation Models and Practical Guidelines - 3cr.
- TEAL7548 - Qualitative Research Apprenticeship - 1cr.

AND

Literacy Concentration Required Courses (18 credits)

Complete ALL of the following Courses:

- TEAL7320 - Theories and Models of Reading - 3cr.
- TEAL7321 - Foundations of Literacy and Oral Language Development - 3cr.
- TEAL7322 - Research in Literacy - 3cr.
- TEAL7570 - K-12 Comprehension Research - 3cr.
- TEAL7380 - Writing Research and Instruction - 3cr.
- TEAL7326 - Designing and Conducting Literacy Research: A Capstone Experience - 3cr.

AND

Dissertation Credits (12 credits)

Complete ALL of the following Courses:

- TEAL7970 - Dissertation Research in Curriculum and Instruction - 1cr.

NOTE:

TEAL7970 DISSERTATION RESEARCH IN C&I- Register for a total of 12 credits.

AND

Elective Credits (5 credits)

Students must also complete additional elective credits.
Recommended:

1. TEAL7327 LITERACY RESEARCH APPRENT - Literacy Research Apprenticeship (1 credit) (can be repeated for a total of 2 credits)
2. TEAL7390 RSRCH K12 LIT FIC NONFIC TXTS - Researching K-12 Literacy through Fiction and Non-Fiction Texts (3 credits)
3. TEAL7323 LITERACY TEACHER EDUCATION - Literacy Education Teacher Preparation and Development (3 credits)

Recommended Research Courses:

1. EDUC6010 INTRO TO PROGRAM EVALUATION - Introduction to Program Evaluation (3 credits)
2. TEAL7545 RESEARCH FOR TEACHERS - Research for Teachers (3 credits)
3. TEAL7548 QUAL RESEARCH APPRENTICESHIP - Qualitative Research Apprenticeship (1 credit)
4. TEAL7549 AUTOETHNOGRAPHY - Autoethnography as Research Methodology (3 credits)
5. TEAL7675 DISCOURSE ANALYSIS - Discourse Analysis in Education (3 credits)
6. SPED7700 SINGLE-SUBJECT RESEARCH - Single Subject Research Methods and Designs (3 credits)
7. ITLS7350 ETHNOGRAPHY - Ethnography (3 credits)

See you Ph.D Advisor for guidance.

Cultural Studies in Education Concentration

Type
Completion Requirement

Cultural Studies

Fulfill ALL of the following requirements:

Core Courses (10 credits)

Complete ALL of the following Courses:

- TEAL7015 - Orientation to Educational Research - 1cr.
- TEAL7150 - Curriculum Theory - 3cr.
- TEAL7300 - Historical, Social, and Cultural Foundations of Education - 3cr.
- TEAL7310 - Teaching-Learning Foundations in Education - 3cr.

Recommended:

1. TEAL7670 EDUCATION LITERATURE REVIEWS - Education Literature Reviews 3 credit(s)

AND

Required Research Methods Courses (9 credits)

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.

AND

Elective Research Methods Courses (3 credits)

Earn at least 3 credits from the following:

- TEAL7547 - Thinking with Theory in Qualitative Research - 3cr.
- TEAL7546 - Qualitative Data Analysis - 3cr.
- EDUC6800 - Mixed Methods Research - 3cr.
- EDUC7610 - Regression Analysis - 3cr.
- TEAL7675 - Discourse Analysis in Education - 3cr.

AND

Additional Elective Research Methods Courses (3 credits)

Earn at least 3 credits from the following:

- TEAL7547 - Thinking with Theory in Qualitative Research - 3cr.
- TEAL7546 - Qualitative Data Analysis - 3cr.
- EDUC6800 - Mixed Methods Research - 3cr.
- EDUC7610 - Regression Analysis - 3cr.
- TEAL7675 - Discourse Analysis in Education - 3cr.

- TEAL7548 - Qualitative Research Apprenticeship - 1cr.
- TEAL7545 - Research for Teachers - 3cr.

AND

Cultural Studies Required Courses (6 credits)

Complete ALL of the following Courses:

- TEAL7200 - Advanced Review of Cultural Studies Research - 3cr.
- TEAL7800 - Advanced Review of Research in Social Studies - 3cr.

AND

Cultural Studies Elective Courses (9 credits)

Earn at least 9 credits from the following:

- TEAL6710 - Diversity in Education - 3cr.
- TEAL7820 - Seminar: Special Topics in Teacher Education and Leadership - 1cr.
- TEAL7830 - Queer and Transgender Studies in Education - 3cr.
- TEAL6530 - Anthropology of Education - 3cr.
- TEAL6755 - Family and Community Involvement for ELs - 3cr.
- TEAL7415 - History of Policy Change in US Schools - 3cr.

NOTE:

1. TEAL7820 ST: TEAL - **Register for 3 credits.** This is a special topics course that changes topics.

AND

Dissertation (12 credits)

Complete ALL of the following Courses:

- TEAL7970 - Dissertation Research in Curriculum and Instruction - 1cr.

NOTE:

TEAL7970 DISSERTATION RESEARCH IN C&I- Register for a total of 12 credits.

AND

Elective Credits (8 credits)

Students must also complete additional elective credits.
Recommended:

1. TEAL7415 HIST POLICY CHANGE US SCHOOLS - History of Policy and Change in US Schools (3)
2. TEAL7820 ST: TEAL - Diversity Issues in Instructional Leadership (3)
3. TEAL6560 SPECIAL TOPICS - Special Topics: Education in Refugee Populations – Jordan (3)
4. TEAL7900 INDEPENDENT STUDY/TEAL7910 INDEPENDENT RESEARCH (1-3 credits) (No more than 5 credits of TEAL7900 INDEPENDENT STUDY and TEAL7910 INDEPENDENT RESEARCH)
5. ITLS7545 SOCIO-CULTURAL LEARNING THEORY - Socio-Cultural Learning Theory (3)

   or ITLS7340 BUILD COMM PARTNER RESEARCH - Community Partnerships (3)

   or SOC6760 THEORY/RESEARCH IN INEQUALITY - Theory and Research in Social Inequality (3)

   or SOC6480 RACE AND ETHNICITY - Race and Ethnicity (3)

Recommended Research Courses:

1. EDUC6010 INTRO TO PROGRAM EVALUATION - Introduction to Program Evaluation (3 credits)
2. TEAL7545 RESEARCH FOR TEACHERS - Research for Teachers (3 credits)
3. TEAL7548 QUAL RESEARCH APPRENTICESHIP - Qualitative Research Apprenticeship (1 credit)
4. TEAL7549 AUTOETHNOGRAPHY - Autoethnography as Research Methodology (3 credits)
5. TEAL7675 DISCOURSE ANALYSIS - Discourse Analysis in Education (3 credits)
6. TEAL7324 ADVANCED LITERACY ASSESSMENT - Advanced Studies in Literacy Assessment and Intervention (3 credits)
7. SPED7700 SINGLE-SUBJECT RESEARCH - Single Subject Research Methods and Designs (3 credits)
8. ITLS7350 ETHNOGRAPHY - Ethnography (3 credits)

   See you Ph.D Advisor for guidance.

Mathematic Education and Leadership Concentration

Type
Completion Requirement

Mathematic Education

Fulfill ALL of the following requirements:

Core Courses (10 credits)

Complete ALL of the following Courses:

- TEAL7015 - Orientation to Educational Research - 1cr.
- TEAL7150 - Curriculum Theory - 3cr.
- TEAL7300 - Historical, Social, and Cultural Foundations of Education - 3cr.
- TEAL7310 - Teaching-Learning Foundations in Education - 3cr.

Recommended Course:
● TEAL7670 EDUCATION LITERATURE REVIEWS - Education Literature Reviews 3 credit(s)

AND

Required Research Methods Courses (9 credits)

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.

- EDUC6770 - Qualitative Research Methods - 3cr.

AND

Elective Research Methods Courses (3 credits)

Earn at least 3 credits from the following:

- EDUC6800 - Mixed Methods Research - 3cr.
- EDUC7610 - Regression Analysis - 3cr.
- TEAL7546 - Qualitative Data Analysis - 3cr.
- TEAL7547 - Thinking with Theory in Qualitative Research - 3cr.

AND

Additional Elective Research Methods Courses (3 credits)

Earn at least 3 credits from the following:

- EDUC6800 - Mixed Methods Research - 3cr.
- EDUC7610 - Regression Analysis - 3cr.
- TEAL7546 - Qualitative Data Analysis - 3cr.
- TEAL7547 - Thinking with Theory in Qualitative Research - 3cr.
- EDUC6010 - Introduction to Program Evaluation: Evaluation Models and Practical Guidelines - 3cr.
- TEAL7548 - Qualitative Research Apprenticeship - 1cr.

AND

Mathematics Education Required Courses (18 credits)

Earn at least 18 credits from the following:

- TEAL7551 - Mathematics Education Research Foundations - 3cr.
- TEAL7552 - Mathematics Education Learning Theory - 3cr.
- TEAL7553 - Mathematics Education Curriculum Content and Evaluation - 3cr.
- TEAL7554 - Mathematics Education Teacher Preparation and Pedagogy - 3cr.
- TEAL7555 - Mathematics Education Current Issues and Policy - 3cr.
- TEAL7556 - Mathematics Education Research Design and Assessment - 3cr.
- TEAL7557 - Advanced Research Design in Mathematics Education and Leadership - 3cr.

NOTE:

1. Work with your Ph.D. Advisor to determine which 18 credits to register for

AND

Dissertation (12 credits)

Complete ALL of the following Courses:

- TEAL7970 - Dissertation Research in Curriculum and Instruction - 1cr.

NOTE:

TEAL7970 DISSERTATION RESEARCH IN C&I- Register for a total of 12 credits.

AND

Elective Credits (5 credits)

Students must also complete additional elective credits.
Recommended:

1. Additional math or research courses are highly recommended.
2. **Recommended Research Courses:**
    1. EDUC6010 INTRO TO PROGRAM EVALUATION - Introduction to Program Evaluation (3 credits)
    2. TEAL7545 RESEARCH FOR TEACHERS - Research for Teachers (3 credits)
    3. TEAL7548 QUAL RESEARCH APPRENTICESHIP - Qualitative Research Apprenticeship (1 credit)
    4. TEAL7549 AUTOETHNOGRAPHY - Autoethnography as Research Methodology (3 credits)
    5. TEAL7675 DISCOURSE ANALYSIS - Discourse Analysis in Education (3 credits)
    6. TEAL7324 ADVANCED LITERACY ASSESSMENT - Advanced Studies in Literacy Assessment and Intervention (3 credits)
    7. SPED7700 SINGLE-SUBJECT RESEARCH - Single Subject Research Methods and Designs (3 credits)
    8. ITLS7350 ETHNOGRAPHY - Ethnography (3 credits)

    See your Ph.D. Advisor for guidance.

School Leadership Concentration

Type
Completion Requirement

School Leadership

Fulfill ALL of the following requirements:

Core Courses (10 credits)

Complete ALL of the following Courses:

- TEAL7015 - Orientation to Educational Research - 1cr.
- TEAL7150 - Curriculum Theory - 3cr.
- TEAL7300 - Historical, Social, and Cultural Foundations of Education - 3cr.
- TEAL7310 - Teaching-Learning Foundations in Education - 3cr.

Recommended:

1. TEAL7670 EDUCATION LITERATURE REVIEWS - Education Literature Reviews 3 credit(s)

AND

Required Research Methods Courses (9 credits)

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and

Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.

AND

Elective Research Methods Courses (3 credits)

Earn at least 3 credits from the following:
- EDUC6800 - Mixed Methods Research - 3cr.
- EDUC7610 - Regression Analysis - 3cr.
- TEAL7546 - Qualitative Data Analysis - 3cr.
- TEAL7547 - Thinking with Theory in Qualitative Research - 3cr.

AND

Additional Elective Research Methods Courses (3 credits)

Earn at least 3 credits from the following:
- EDUC6800 - Mixed Methods Research - 3cr.
- EDUC7610 - Regression Analysis - 3cr.
- TEAL7546 - Qualitative Data Analysis - 3cr.
- TEAL7547 - Thinking with Theory in Qualitative Research - 3cr.
- EDUC6010 - Introduction to Program Evaluation: Evaluation Models and Practical Guidelines - 3cr.
- TEAL7548 - Qualitative Research Apprenticeship - 1cr.

AND

School Leadership Required Courses (12 credits)

Complete ALL of the following Courses:
- TEAL7050 - Theories of Instructional Supervision - 3cr.
- TEAL7060 - Assessment and Data Issues for Instructional Leaders - 3cr.
- TEAL7090 - Theories of Organizational Leadership in Education - 3cr.
- TEAL7325 - Instructional Leadership - 3cr.

AND

Dissertation (12 credits)

Complete ALL of the following Courses:
- TEAL7970 - Dissertation Research in Curriculum and Instruction - 1cr.

NOTE:

TEAL7970 DISSERTATION RESEARCH IN C&I- Register for a total of 12 credits.

AND

Elective Credits (11 credits)

Students must also complete additional elective credits.
Recommended:

1. EDUC6010 INTRO TO PROGRAM EVALUATION - Introduction to Program Evaluation (3 credits)
2. TEAL7545 RESEARCH FOR TEACHERS - Research for Teachers (3 credits)
3. TEAL7548 QUAL RESEARCH APPRENTICESHIP - Qualitative Research Apprenticeship (1 credit)
4. TEAL7549 AUTOETHNOGRAPHY - Autoethnography as Research Methodology (3 credits)
5. TEAL7675 DISCOURSE ANALYSIS - Discourse Analysis in Education (3 credits)
6. TEAL7324 ADVANCED LITERACY ASSESSMENT - Advanced Studies in Literacy Assessment and Intervention (3 credits)
7. SPED7700 SINGLE-SUBJECT RESEARCH - Single Subject Research Methods and Designs (3 credits)
8. ITLS7350 ETHNOGRAPHY - Ethnography (3 credits)

See you Ph.D Advisor for guidance.

Environmental Geoscience - BA, BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Geosciences

Program Level
Undergraduate

About this Degree

Students pursuing this degree will obtain a core understanding of physical and historical geology, earth materials, and geomorphology. In addition, there are multiple added skills and knowledge sets that build usefully upon this core in Geology, as well as in Biology, Chemistry, and Mathematics and/or Statistics. The degree also allows flexibility for students to tailor their course work plan and specializations toward their interests, as the series of elective and required elective courses is intentionally broad and includes courses offered by the Plants, Soils and Climate, Watershed Sciences, and Environment and Society Departments.

Simple Requisites

Program Requirements

Required Core Courses

Type
Completion Requirement

Required Core Courses (60-62 credits)

Complete ALL of the following Courses:

- GEO1060 - Introduction to Environmental Geoscience (BPS) - 3cr.
- GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.
- GEO2205 - Earth Through Time Laboratory - 1cr.
- GEO2800 - Minerals and Rocks - 4cr.
- GEO3400 - Communicating Geoscience (CI/DSC) - 3cr.
- GEO3550 - Sedimentation and Stratigraphy - 4cr.
- GEO3600 - Geomorphology - 4cr.
- GEO3800 - Applied Geoscience Techniques - 3cr.
- GEO3900 - Geologic Field Methods (CI) - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL2220 - General Ecology - 3cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1210 - Calculus I (QL) - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
  OR STAT3080 - Data Science for Scientists - 3cr.

Required Elective Courses

Type
Completion Requirement

Required Elective Courses (10-12 credits)

Complete ALL of the following Courses:

- GEO5600 - Geochemistry - 4cr.
  OR CHEM3650 - Environmental Chemistry (DSC) - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
  OR WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.
- PSC5130 - Soil Genesis, Morphology, and Classification - 4cr.
  OR WATS5490 - Small Watershed Hydrology (QI) - 4cr.

Additional Required Elective Courses

Type
Completion Requirement

Additional Required Elective Courses (5 credits)

Earn at least 5 credits from the following:

- GEO5210 - GeoProfessional Field Practicum - 3cr.
- GEO5520 - Techniques of Groundwater Investigations (CI) - 3cr.
- GEO5630 - Remote Sensing for Geoscientists - 3cr.
- ENVS5300 - Natural Resources Law and Policy - 2cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- PSC5000 - Environmental Instrumentation - 2cr.
- PSC5500 - Environmental Physics of Land Ecosystems & Climate - 3cr.
- PSC5740 - Environmental Quality: Soil and Water (CI) - 2cr.
- WATS4300 - Principles of Ecosystem Restoration - 3cr.
- WATS5350 - Capstone and Professional Practice - 2cr.

Elective Courses

Type
Completion Requirement

Elective Courses (5 credits)

Earn at least 5 credits from the following:

- GEO5420 - Ore Deposits - 3cr.
- PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.
- WATS5500 - Limnology: Ecology of Inland Waters - 3cr.
- WATS5530 - Water Quality and Pollution - 3cr.
- WATS5720 - Drone Data Analysis for Environmental Restoration - 2cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Program Learning Outcomes

Program Learning Outcomes

1) Science fundamentals: Apply principles from geology, biology, ecology, chemistry and mathematics to understand Earth's diverse environments as interrelated systems.

2) Experiment: Apply field, lab and data-driven observations and quantitative approaches to interpret environments and processes within the Earth's critical zone and hydrologic systems.

3) Connect: Analyze and interpret general patterns in Earth's systems using geological records and recognize the natural and anthropogenic drivers of Earths' systems, including global climate change.

4) Communicate: Develop skills to communicate environmental geoscience concepts to a wide range of audiences through written, oral and graphical representation.

5) Teamwork: Collaborate with peers to characterize and address environmental problems using scientific expertise and input from stakeholders.

6) Ethics: Recognize ethical responsibilities in professional setting and make informed judgments that consider the impact of environmental solutions.

Environmental Geosciences - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Geosciences

Program Level
Undergraduate

About this Degree

The Environmental Geosciences - Certificate is an option that allows undergraduate students to obtain employable skills without having to complete an entire bachelor's degree program. To be proficient in environmental geosciences, students need a core understanding of physical and environmental geology, applied geoscience techniques, Earth materials, and Earth surface processes. In addition, there are multiple added skills and knowledge sets that build usefully upon this core in Geology. The series of elective courses is intentionally broad, including courses offered by the Environment & Society, Plants, Soils and Climate, and Watershed Sciences Departments.

Elementary Education - AS

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Undergraduate

About this Degree

An Associate of Science (AS) degree in Elementary Education prepares a student interested in a career in education to obtain a degree as they determine the role that best suits their career goals.

This degree can stack into a BA or BS in a chosen teaching major (e.g. Elementary Education or Early Childhood education), transfer into another major, or allow movement into the workforce. The future BA or BS degree leads to a recommendation for Professional License from the Utah State Board of Education to teach in the grade-level or content of the chosen degree.

For more information about this degree, visit our AS in Elementary Education website.

Admission Requirements for this Program

Students will need to hold a high school diploma. This is the usual minimum requirement for being hired by a school district as a paraprofessional, which is the audience in which most of the recruiting will occur.

Program Requirements

46-48

Total Credits Required To Earn This Credential
60

Simple Requisites

Program Requirements

A GPA of 3.0 is required in major courses. Program requirements may not be taken for a pass/fail grade, except for those courses that are only taught pass/fail. Students in this major must receive a grade of C+ or better in **both** Communications Literacy (CL1) and Communications Literacy (CL2) general education requirements.

Program Requirements

Type
Completion Requirement

Required Courses (20 credits)

Unless otherwise noted, these courses require a grade of B- or better.

Complete ALL of the following Courses:

- ELED1010 - Orientation to Elementary Education - 3cr.
  OR TEAL1010 - Introduction to Education - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
  OR PSY1100 - Lifespan Development - 3cr.
- TEAL2660 - Educational Psychology for Teachers - 2cr.
- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.
- ELED2620 - Early Childhood Education Kindergarten Through Grade 3 - 3cr.
- ITLS2500 - Technology Enabled Instruction - 3cr.

NOTE:

1. HDFS1500 HUMAN DEV LIFESPAN (BSS) or PSY1100 LIFESPAN DEVELOPMENT- Minimum grade of C or higher.
2. ENGL1010 WRITING AS INQUIRY (CL1) - Minimum grade of C+ or higher.
3. ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) or ENGL2020 PROFESSNL COMMUNICATION (CL2) - Minimum grade of C+ or higher.

Mathematics Requirements

Type
Completion Requirement

Required Mathematics Courses (9-10 credits)

Fulfill ALL of the following requirements:

Math Requirement One (3-4 credits)

A grade of C- or better is required in one of the following courses.

Complete at least 1 course in the following course sets:

- Quantitative Literacy (QL) Course

AND

Math Requirement Two (6 credits)

A grade of C or better is required in the following courses.

Complete ALL of the following Courses:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Electives

Type
Completion Requirement

Elective Credit (14-15 Credits)

Earn at least 14 credits from the following:

- SPED1010 - Disability and Society (BSS) - 3cr.
- ENGL1410 - Elements of Grammar - 3cr.
- ENGL2060 - Reading Across Borders (BHU) - 3cr.
- ENGL2200 - Understanding Literature (BHU) - 3cr.
- ENGL2330 - Introduction to Children's Literature (BHU) - 3cr.
- ENGL2340 - Navajo Literature and Philosophy - 3cr.
- PSY1010 - General Psychology (BSS) - 3cr.
- PSY1100 - Lifespan Development - 3cr.
- PSY2100 - Developmental Psychology: Adolescence - 3cr.
- HDFS2660 - Parenting and Child Guidance - 3cr.
- LING2100 - Languages in Global and Historical Context (BSS) - 3cr.
- SHS2600 - Introduction to Communication Disorders - 3cr.
- USU1010 - University Connections - 2cr.
- USU1020 - Personal Productivity - 1cr.
- USU1030 - Resilience - 1cr.
- USU1040 - Learning Techniques - 1cr.
- USU1050 - Navigating College: Aggie First Scholars - 1cr.
- USU1060 - Reading College Texts - 1cr.
- USU1070 - Growth Mindset in STEM - 1cr.
- USU1150 - Leadership Development of First-generation College Students - 1cr.
- USU1340 - Social Systems and Issues (BSS) - 3cr.
- USU2170 - Community Voices and Engagement - 1cr.
- USU1120 - Habits for Academic Success - 3cr.

Other Electives may be used with approval.

Elementary Education - BA, BS

Program Overview

College	Department	Program Level
College of Education & Human Services	School of Teacher Education & Leadership	Undergraduate

About this Degree

A degree in Elementary Education prepares a student to receive a Professional License from the Utah State Board of Education to teach in grades K-6. Utah State's program in elementary education is unique in that students have the opportunity to be in the classroom starting their first year in the program rather than waiting until their junior year, which is typical at other universities. By the time students graduate, they will have spent more than 400 hours in the classroom or working with children through a variety of field experiences.

The major in elementary education is particularly well suited to students transferring with an associate's degree because the curriculum is designed so students can easily transition into the program and finish on time.

- For more information about Elementary Education, see the website.
- Admitted and current students must meet with an advisor (435-797-0391).
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).

Bachelor of Arts Degree Requirement

In addition to completion of the requirements for a bachelor's degree, a Bachelor of Arts (BA) degree signifies proficiency in one or more foreign languages. Please see Minimum University Requirements (Bachelor's Degree) for more information about the language requirements.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 overall GPA.

Program Requirements

Simple Requisites

Program Requirements

A GPA of 3.0 is required in major courses. Program requirements may not be taken for a pass/fail grade, except for those courses that are only taught pass/fail. Students in this major must receive a grade of C+ or better in **both** Communications Literacy 1 (CL1) and Communications Literacy 2 (CL2).

Preparation Courses

Type
Completion Requirement

Required Courses (15 credits)

Unless otherwise noted, these courses require a grade of B- or better.

Complete ALL of the following Courses:

- ELED1010 - Orientation to Elementary Education - 3cr. **OR** TEAL1010 - Introduction to Education - 3cr.
- ELED2620 - Early Childhood Education Kindergarten Through Grade 3 - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- TEAL2660 - Educational Psychology for Teachers - 2cr.
- ITLS2500 - Technology Enabled Instruction - 3cr.

NOTE:

1. HDFS1500 HUMAN DEV LIFESPAN (BSS) - Minimum grade of C or higher.

Mathematic Requirement (9-11 credits)

Type
Completion Requirement

QL Mathematic Requirement (3-5 Credits)

Quantitative Literacy (QL) requires a grade of **C-** or better.

Complete ALL of the following Course Sets:

- Quantitative Literacy (QL) Course

Mathematic Requirement (6 Credits)

MATH2010 ALG/NUMER FOR ELED TEACH (QI) and MATH2020 GEOMETRY/STAT ELED TEACH(QI) require a grade of **C** or better.

Complete ALL of the following Courses:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Arts Methods

Type
Completion Requirement

Art Requirement (3 Credits)

A grade of B- or better is required for any Arts Methods course.

Complete at least 1 of the following courses:

- ART3700 - Elementary Art Methods - 3cr.
- MUSC3260 - Elementary School Music - 3cr.
- THEA3320 - Movement Exploration for Elementary Education Majors - 3cr.
- THEA3330 - Drama for Classroom Teachers - 3cr.
- THEA3340 - Methods of Teaching Drama, Grades K-6 - 3cr.

Foundations Block

Type
Completion Requirement

Level II (12 Credits)

A grade of B- or better is required for all Level II courses.

Complete ALL of the following Courses:

- ELED3000 - Historical, Social, and Cultural Foundations of Education (CI) - 3cr.
- ELED3002 - Foundations Practicum - 1cr.
- ELED3050 - PE and Health in the Elementary Classroom - 2cr.
- ELED3100 - Classroom Reading Instruction - 3cr.
- ELED4061 - Teaching Elementary School Mathematics I: Rational Numbers, Operations, and Proportional Reasoning - 3cr.

NOTE:

1. ELED3000 HIST/SOC/CULTR FOUND EDUC (CI), ELED3002 FOUNDATIONS PRACTICUM, and ELED3100 CLASSROOM READING INSTRUCTION **must be taken together.**

Literacy Block

Type
Completion Requirement

Level II B&C (16 Credits)

A grade of B- or better is required for all Level II B&C courses.

Complete ALL of the following Courses:

- ELED4040 - Reading Assessment and Intervention (CI) - 2cr.
- ELED4042 - Reading Assessment and Intervention Practicum - 1cr.
- ELED4049 - Foundations of Reading Review - 1cr.
- ELED4150 - Assessment and Differentiation Across the Curriculum - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- TEAL3080 - Integrating Arts into Academic Learning (DHA) - 3cr.
- TEAL5710 - Instruction for Linguistically and Culturally Diverse Learners - 3cr.

NOTE:

1. ELED4040 READ ASSESS AND INTERVENT (CI), ELED4042 READ ASSESS INTERVENT PRACT and ELED4049 FOUNDATIONS OF READING REVIEW **must be taken together.**
2. SPED4000 EDUCATION STUD W/DISABILITIES - Students are strongly encouraged to take this course with ELED4150 ASSESSMENT AND DIFFERENTIATION and ELED4040 READ ASSESS AND INTERVENT (CI).
3. TEAL3080 INTEGRATING ARTS INTO ACA(DHA) - Students are strongly encouraged to take this course with ELED4040 READ ASSESS AND INTERVENT (CI) and ELED4042 READ ASSESS INTERVENT PRACT.

Content Pedagogy Block

Type
Completion Requirement

Level III (15 Credits)

A grade of B- or better is required for all Level III courses.

Complete ALL of the following Courses:

- ELED5020 - Teaching Science in Elementary School - 2cr.
- ELED5030 - Teaching Language Arts (CI) - 2cr.
- ELED5010 - Teaching Social Studies in Elementary School - 2cr.
- ELED5040 - Teaching Elementary School Mathematics II: Number, Operations, and Algebraic Reasoning - 2cr.
- ELED5060 - Elementary Content Practicum - 4cr.
- ELED5105 - Motivation and Classroom Management - 3cr.

NOTE:

1. ELED5020 TEACHING SCIENCE ELEM, ELED5030 TEACHING LANG ARTS (CI), ELED5010 TEACHING SOC STUDIES ELEM, ELED5040 TEACHING ELEMENTARY MATH II, ELED5060 ELEM CONTENT PRACTICUM and ELED5105 MOTIVATION CLASSROOM MANAGE **must be taken together.**

Student Teaching

Type
Completion Requirement

Program Requirement (12 Credits)

Complete ALL of the following Courses:

- ELED5150 - Student Teaching: Elementary - 3cr.
- ELED5250 - Elementary Education Student Teaching Seminar - 3cr.

NOTE:

1. ELED5150 STUDENT TEACHING: ELEMENTARY - Register for 9 credits.
2. ELED5250 ELED STUDENT TEACHING SEMINAR - Register for 3 credits.

Open Electives

Type
Completion Requirement

Electives

Complete the following as needed:
Sufficient credits of electives to meet 120 total credits for graduation (usually 15). All courses must have a grade of C- or P or better. Please see advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Electrical Engineering - Minor

Program Overview

College
College of Engineering

Department
Electrical & Computer Engineering

Program Level
Undergraduate

Program Requirements

Total Credits Required In Program Coursework
17-19

Total Credits Required To Earn This Credential
17-19

Simple Requisites

Program Requirements

Requirements for a minor in Electrical Engineering (EE) are listed below. General requirements are:

- Students may declare the minor at any time.
- Students must maintain a GPA of 3.0 in their minor coursework.
- No course with an earned grade less than C- may be applied to the minor.
- Before taking 3000-level and above elective courses, students must:
  - complete minor required courses, AND
  - complete at least 30 credits in their declared major with a minimum GPA of 3.0
- No more than one repeat is allowed in the minor. Audits are counted as a repeat.
- Courses for the minor may not be taken on a pass/fail basis.

Section 1

Type
Completion Requirement

Required Courses (11 credits)

Complete ALL of the following Courses:
- ECE1400 - Computer Programming for Electrical and Computer Engineers I - 4cr.
  OR ECE1410 - Computer Programming for Electrical and Computer Engineers II - 3cr.
- ECE3620 - Continuous - Time Systems and Signals - 3cr.
  OR ECE3610 - Continuous and Discrete-Time Systems and Signals - 4cr.
- ECE3710 - Microcontroller Hardware and Software - 4cr.

Section 2

Type
Completion Requirement

Elective Courses (6-8 credits)

Two additional ECE classes must be selected from the following:

Complete at least 2 of the following courses:
- ECE2290 - Electrical Circuits II - 4cr.

- ECE2700 - Digital Circuits - 4cr.
- ECE3410 - Microelectronics I - 4cr.
- ECE3640 - Discrete - Time Systems and Signals - 3cr.
- ECE3700 - Digital System Design - 3cr.
- ECE3870 - Electromagnetics I - 4cr.
- ECE5120 - Introduction to Power Electronics - 3cr.
- ECE5230 - Spacecraft Systems Engineering - 3cr.
- ECE5250 - Photonics Laboratory - 3cr.
- ECE5235 - Space System Design - 3cr.
  OR MAE5530 - Space System Design - 3cr.
- ECE5310 - Control Systems - 4cr.
  OR MAE5310 - Control Systems - 4cr.
- ECE5320 - Mechatronics - 4cr.
  OR MAE5320 - Mechatronics - 4cr.
- ECE5330 - Small Unmanned Aircraft Systems - 3cr.
  OR MAE5330 - Small Unmanned Aircraft Systems - 3cr.
- ECE5235 - Space System Design - 3cr.
  OR MAE5340 - Introduction to Planning and Control for Mobile Robots - 3cr.
- ECE5345 - Introduction to the Robot Operating System (ROS) - 1cr.
- ECE5420 - Microelectronics II - 3cr.
- ECE5460 - VLSI Design Automation - 3cr.
- ECE5600 - Introduction to Computer Networks - 3cr.
- ECE5610 - Wireless Communication Networks - 3cr.
- ECE5630 - Digital Signal and Image Processing - 3cr.
- ECE5640 - Real-Time Processors - 4cr.
- ECE5660 - Communication Systems 1 - 3cr.
- ECE5720 - Computer Systems Programming and Architecture - 3cr.
- ECE5730 - Reconfigurable Computing - 3cr.
- ECE5750 - Computer Architecture - 3cr.
- ECE5780 - Embedded Real-Time Systems - 4cr.
- ECE5800 - Electromagnetics II - 3cr.
- ECE5810 - Microwave Circuits I - 3cr.
- ECE5850 - Antennas I - 3cr.
- ECE5930 - Special Topics in Electrical and Computer Engineering - 1cr.

Take ECE5930 ST: ELECTRICAL/COMPUTER ENGR for 3 credits

Engineering - Electrical Engineering Specialization - ME

Program Overview

College
College of Engineering

Department
Electrical & Computer Engineering

Program Level
Graduate

About this Degree

The ME degree is based on coursework and is designed to give graduates a strong practical foundation. The degree is designed for students with a Bachelor of Science degree in Electrical or Computer Engineering who would like to increase their *technical depth* in engineering. To obtain the specialization in Electrical Engineering, at least nine credits of ECE coursework must be taken in the desired specialization.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

School of Graduate Studies Requirements

1. A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
2. Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
3. The Program of Study for master's degree must include at least 18-semester credits at the level of 6000 or above.
4. A master's degree must be completed within six years of entering the program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
5. Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Master of Engineering (Electrical Engineering)

- A minimum of 30 credits of technical and scientific coursework is required.
- At least one ECE depth course (having a graduate-level prerequisite) is required.
- At least 18 credits of ECE coursework must be completed at or above the 5000-level.
- No more than 12 credits of ECE 5000-level or non-ECE 5000-level courses may be applied towards the ME degree
- A maximum of 12 credits outside of the Electrical and Computer Engineering Department may be allowed based upon a comprehensive academic plan.
- School of Graduate Studies form:
  - Program of Study

- At least three credits of Professional Experience (ECE6250 GRAD INTERN/COOP) ***or*** substantial lab-intensive courses listed below) are required. Only three credits of ECE6250 GRAD INTERN/COOP are allowed.

Program Requirements

Type
Completion Requirement

Program Requirements

Complete at least 1 of the following courses:

- ECE5160 - Electric Vehicle Design Laboratory - 4cr.
- ECE5320 - Mechatronics - 4cr.
- ECE5330 - Small Unmanned Aircraft Systems - 3cr.
- ECE5420 - Microelectronics II - 3cr.
- ECE5640 - Real-Time Processors - 4cr.
- ECE5660 - Communication Systems 1 - 3cr.
- ECE5720 - Computer Systems Programming and Architecture - 3cr.
- ECE5730 - Reconfigurable Computing - 3cr.
- ECE5780 - Embedded Real-Time Systems - 4cr.
- ECE6160 - Electric Vehicle Design Laboratory - 4cr.
- ECE6250 - Graduate Internship/Coop - 1cr.
- ECE6730 - Reconfigurable Computing - 3cr.
- ECE6740 - Advanced Reconfigurable Computing - 3cr.
- ECE6780 - Embedded Real-Time Systems - 4cr.

Electrical Engineering - BS

Program Overview

College
College of Engineering

Department
Electrical & Computer Engineering

Program Level
Undergraduate

About this Degree
Electrical engineers work with electronics, electricity, and electromagnetism, and electronic devices. Electrical engineering covers a broad range of application areas, including power generation and delivery, transportation (cars and airplanes), communication (radio, TV, wireless, telephones), robotics, computers (memory systems, displays, microprocessors), defense applications (navigation, radar, and secure communication), and consumer electronics (DVD and MP3 players). The Electrical Engineering BS degree program is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org, under the commission's General Criteria and the Program Criteria for Electrical Engineering and Similarly Named Programs.

- For more information about Electrical Engineering, see the Electrical and Computer Engineering department.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH5710 INTRO TO PROBABILITY

Admission Requirements for this Program

- **New Freshman and Transfer Students (from other institutions or other USU programs)**
    - Admitted to USU in Good Standing

  New Freshman:
    - 2.8 High School GPA or higher
    - 20 ACT or 1030 SAT or higher

Admission Requirements for the Pre-Professional Program:

- Completion of Engineering Foundations courses (listed below)
- MATH1210 CALCULUS I (QL), MATH 1220, CHEM 1210, CHEM 1215, PHYS 2210, PHYS 2215, ENGR 1010, ENGR 1400 completed with a C- or higher
- 2.8 or higher GPA in Engineering Foundations courses

Program Requirements

Total Credits Required In Program Coursework
102

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Electrical Engineering - BS Course Requirements

Type
Completion Requirement

Engineering Foundations Courses (25 credits)

- A Cumulative USU GPA of 2.8 or higher is required in Engineering Foundations courses.
- Engineering Foundations courses: Math 1210, Math 1220, ENGR 1010, ENGR 1400, PHYS 2210, PHYS 2215, CHEM 1210, CHEM 1215 require a grade of C- or higher.
- The P/D+, D, F grading option may not be used in required courses completed as part of Engineering Foundations program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- ENGR1010 - Engineering Exploration - 3cr.
- ENGR1400 - Computer Programming for Engineers - 4cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.

Required for Admission to the Professional Program (30 credits)

- A Cumulative USU GPA of 2.8 or higher is required in pre-professional courses, NOT including ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) or ENGL2020 PROFESSNL COMMUNICATION (CL2)
- All courses require a grade of C- or higher.
- The P/D+, D, F grading option may not be used in required courses completed as part of Engineering Foundations or a pre-professional program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- ECE1410 - Computer Programming for Electrical and Computer Engineers II - 3cr.
- ECE2250 - Electrical Circuits I - 3cr.
- ECE2290 - Electrical Circuits II - 4cr.
- ECE2700 - Digital Circuits - 4cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.

Electrical Engineering Required Courses (27 credits)

For Electrical Engineering majors in the professional program the following academic regulations apply, in addition to University regulations:

1. A GPA of 2.0 or higher must be maintained in all upper-division engineering/math/science courses required for, or used as technical electives in, this major. Courses which were part of the pre-professional program requirements and University Studies courses are not included in this GPA calculation.
2. For Electrical Engineering, not more than 10 hours of D or D+ credit may be applied toward meeting graduation requirements in engineering/math/science classes.
3. College of Engineering courses may be repeated only once. Audits count as a time taking a class unless prior written approval is obtained from the department head. A maximum of three required or elective courses completed as part of a professional program can be repeated in order to meet graduation requirements. (Courses completed as part of a pre-professional program are not included in this total of three repeats.)
4. The P/D+, D, F grading option may not be used in required or elective courses completed as part of a professional program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- ECE3410 - Microelectronics I - 4cr.
- ECE3610 - Continuous and Discrete-Time Systems and Signals - 4cr.
- ECE3710 - Microcontroller Hardware and Software - 4cr.
- ECE3810 - Engineering Professionalism - 1cr.
- ECE3870 - Electromagnetics I - 4cr.
- ECE4810 - Engineering Design and Communications 1 - 1cr.
- ECE4840 - Engineering Design II (CI) - 2cr.
- ECE4850 - Engineering Communications II (CI) - 1cr.
- ENGR3080 - Creativity and Communication in Design (CI) - 3cr.
- MATH5710 - Introduction to Probability - 3cr.

Electrical Engineering Elective Courses (24 credits)

A GPA of 2.0 or higher must be maintained in all upper-division engineering/math/science courses required for, or used as technical electives in, this major.

Fulfill ALL of the following requirements:

Electrical Engineering Electives (select 20-24 credits)

Earn at least 20 credits from the following:

- ECE3700 - Digital System Design - 3cr.
- ECE5110 - Fundamentals of Electric Power Systems - 3cr.
- ECE5120 - Introduction to Power Electronics - 3cr.
- ECE5150 - Power Electronics for Electric Drive Vehicles - 3cr.
- ECE5160 - Electric Vehicle Design Laboratory - 4cr.
- ECE5210 - Introduction to Photonics and Devices - 3cr.
- ECE5230 - Spacecraft Systems Engineering - 3cr.
- ECE5235 - Space System Design - 3cr.
- ECE5250 - Photonics Laboratory - 3cr.
- ECE5310 - Control Systems - 4cr.
- ECE5320 - Mechatronics - 4cr.
- ECE5330 - Small Unmanned Aircraft Systems - 3cr.
- ECE5340 - Introduction to Planning and Control for Mobile Robots - 3cr.
- ECE5345 - Introduction to the Robot Operating System (ROS) - 1cr.
- ECE5420 - Microelectronics II - 3cr.
- ECE5460 - VLSI Design Automation - 3cr.
- ECE5470 - VLSI Design - 3cr.
- ECE5480 - VLSI Testing and Security - 3cr.
- ECE5510 - Reinforcement Learning - 3cr.
- ECE5520 - Robot Reasoning - 3cr.
- ECE5540 - AI Architecture: Deployment, Systems, and Real-World Const - 3cr.
- ECE5600 - Introduction to Computer Networks - 3cr.
- ECE5610 - Wireless Communication Networks - 3cr.
- ECE5630 - Digital Signal and Image Processing - 3cr.

- ECE5640 - Real-Time Processors - 4cr.
- ECE5660 - Communication Systems 1 - 3cr.
- ECE5700 - Introduction to Microfabrication - 3cr.
- ECE5710 - Advanced Microfabrication - 3cr.
- ECE5720 - Computer Systems Programming and Architecture - 3cr.
- ECE5730 - Reconfigurable Computing - 3cr.
- ECE5750 - Computer Architecture - 3cr.
- ECE5780 - Embedded Real-Time Systems - 4cr.
- ECE5790 - Principles of Cyber-Physical Systems - 3cr.
- ECE5800 - Electromagnetics II - 3cr.
- ECE5810 - Microwave Circuits I - 3cr.
- ECE5850 - Antennas I - 3cr.
- ECE5930 - Special Topics in Electrical and Computer Engineering - 1cr.

AND

Technical Electives (select 0-4 credits)

Complete ANY of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL2420 - Human Physiology - 4cr.
- BIOL3300 - General Microbiology - 3cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- CHEM3710 - Introductory Biochemistry Laboratory - 1cr.
- CS1440 - Software Engineering Fundamentals - 3cr.
- CS2420 - Algorithms and Data Structures--CS 3 (QI) - 3cr.
- CS3100 - Operating Systems and Concurrency - 3cr.
- CS4700 - Programming Languages - 3cr.
- CS5000 - Theory of Computability - 3cr.
- CS5110 - MultiAgent Systems - 4cr.
- CS5300 - Compiler Construction - 4cr.
- CS5400 - Computer Graphics I - 4cr.
- CS5600 - Intelligent Systems - 4cr.
- CS5800 - Introduction to Database Systems - 3cr.
- ECE4250 - Internship/Co-op - 1cr.
- ENGR2010 - Engineering Mechanics Statics - 3cr.
- ENGR2030 - Engineering Mechanics Dynamics - 3cr.
- ENGR2140 - Mechanics of Materials - 3cr.
- ENGR2450 - Numerical Methods for Engineers - 3cr.
- MAE2160 - Material Science - 3cr.
- MAE2300 - Thermodynamics I - 3cr.
- MATH3310 - Discrete Mathematics - 3cr.
- MATH4200 - Foundations of Analysis (CI) - 3cr.
- MATH4310 - Introduction to Algebraic Structures (CI) - 3cr.
- MATH4610 - Fundamentals of Numerical Analysis - 3cr.
- MATH5210 - Introduction to Analysis I - 3cr.
- MATH5220 - Introduction to Analysis II - 3cr.
- MATH5270 - Complex Variables - 3cr.
- MATH5310 - Introduction to Modern Algebra - 3cr.
- MATH5340 - Theory of Linear Algebra - 3cr.
- MATH5410 - Methods of Applied Mathematics - 3cr.
- MATH5420 - Partial Differential Equations - 3cr.
- MATH5460 - Nonlinear Dynamics - 3cr.
- MATH5510 - Introduction to Topology - 3cr.
- MATH5610 - Introduction to Numerical Analysis - 3cr.
- MATH5620 - Numerical Algorithms for Approximate Solutions of DE - 3cr.
- MATH5720 - Introduction to Mathematical Statistics - 3cr.
- MATH5760 - Applied Stochastic Processes - 3cr.
- PHYS2710 - Introductory Modern Physics - 3cr.
- PHYS3550 - Intermediate Classical Mechanics - 3cr.
- PHYS3600 - Electromagnetism I - 3cr.
- PHYS3700 - Thermal Physics - 3cr.
- PHYS3710 - Intermediate Modern Physics - 3cr.
- PHYS3750 - Foundations of Wave Phenomena - 3cr.
- PHYS4600 - Electromagnetism II - 3cr.
- PHYS4700 - Quantum Mechanics I - 3cr.
- PHYS4710 - Quantum Mechanics II - 3cr.
- PHYS5650 - Optics I - 3cr.
- PHYS5700 - Introduction to Microfabrication - 3cr.
- PHYS5710 - Advanced Microfabrication - 3cr.

- ***Credit for AP Biology or AP Chemistry can also be used to fulfill this requirement***
- ***Students cannot receive credit for both ENGR2010 ENGINEERING MECHANICS STATICS and PHYS3550 INTERM CLASSICAL MECHANICS***
- ***Students cannot receive credit for both MAE2300 THERMODYNAMICS I and PHYS3700 THERMAL PHYSICS***
- ***Students cannot receive credit for both ECE5700 INTRO TO MICROFABRICATION and PHYS5700 INTRO TO MICROFABRICATION***
- ***Students cannot receive credit for both ECE5710 ADVANCED MICROFABRICATION and PHYS5710 ADVANCED MICROFABRICATION***

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.

- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or co-requisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

*Please note: ENGL1010 WRITING AS INQUIRY (CL1) is required by USU but is not included in the degree map because most engineering students satisfy this requirement through an ACT English score, an SAT Critical Reading score , Advanced Placement (AP) Examinations or College-Level Examination Program (CLEP).

Years 1 and 2 are intended to encompass the Pre-Professional program. Years 3 and 4 are intended to encompass the Professional Program.

Engineering - Computer Engineering Specialization - ME

Program Overview

College	Department	Program Level
College of Engineering	Electrical & Computer Engineering	Graduate

About this Degree

The ME degree is based on coursework and is designed to give graduates a strong practical foundation. The degree is designed for students with a Bachelor of Science degree in Electrical or Computer Engineering who would like to increase their *technical depth* in engineering. To obtain the specialization in Computer Engineering, at least nine credits of ECE coursework must be taken in the desired specialization.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
30	30

Simple Requisites

Program Requirements

School of Graduate Studies Requirements

1. A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
2. Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
3. The Program of Study for master's degree must include at least 18-semester credits at the level of 6000 or above.
4. A master's degree must be completed within six years of entering the program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
5. Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Master of Engineering (Computer Engineering)

- A minimum of 30 credits of technical and scientific coursework is required.
- At least one ECE depth course (having a graduate-level prerequisite) is required.
- At least 18 credits of ECE coursework must be completed at or above the 5000-level.
- No more than 12 credits of ECE 5000-level or non-ECE 5000-level courses may be applied towards the ME degree
- A maximum of 12 credits outside of the Electrical and Computer Engineering Department may be allowed based upon a comprehensive academic plan.
- School of Graduate Studies form:
    - Program of Study

- At least three credits of Professional Experience (ECE6250 GRAD INTERN/COOP) ***or*** substantial lab-intensive courses listed below) are required. Only three credits of ECE6250 GRAD INTERN/COOP are allowed.

Computer Engineering ME Program Requirements

Type
Completion Requirement

Program Requirements

Complete at least 1 of the following courses:

- ECE5160 - Electric Vehicle Design Laboratory - 4cr.
- ECE5320 - Mechatronics - 4cr.
- ECE5330 - Small Unmanned Aircraft Systems - 3cr.
- ECE5420 - Microelectronics II - 3cr.
- ECE5640 - Real-Time Processors - 4cr.
- ECE5660 - Communication Systems 1 - 3cr.
- ECE5720 - Computer Systems Programming and Architecture - 3cr.
- ECE5730 - Reconfigurable Computing - 3cr.
- ECE5780 - Embedded Real-Time Systems - 4cr.
- ECE6160 - Electric Vehicle Design Laboratory - 4cr.
- ECE6250 - Graduate Internship/Coop - 1cr.
- ECE6730 - Reconfigurable Computing - 3cr.
- ECE6740 - Advanced Reconfigurable Computing - 3cr.
- ECE6780 - Embedded Real-Time Systems - 4cr.

Electrical Engineering - MS

Program Overview

College
College of Engineering

Department
Electrical & Computer Engineering

Program Level
Graduate

About this Degree
The MS degree requires substantial thesis or project work in a specific area and prepares students for advanced study or advanced work in that area. The MS degree has two options. Under Plan A, the student completes a thesis. Under Plan B, the student prepares an engineering project report

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential

Simple Requisites

Program Requirements

School of Graduate Studies Requirements

- A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- The Program of Study for master's degree must include at least 18-semester credits at the level of 6000 or above.
- A master's degree must be completed within six years of entering the program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Electrical Engineering - MS
Two program plans are available for the Electrical Engineering MS degree.

The ***Plan A*** Thesis requires 30 credits (minimum). The degree is based on coursework and research and requires a formal thesis. It is designed to prepare graduates for entering a PhD program or performing research in industry or government labs.

- A minimum of 24 credits of technical and scientific coursework and at least 6 credits of ECE6970 THESIS RESEARCH, MS
- At least 3 credits must be completed at the 7000-level.
- At least 12 credits (excluding ECE6970 THESIS RESEARCH, MS) of Electrical or Computer Engineering courses must be completed at or above the 6000-level.
- No more than 6 credits of ECE6970 THESIS RESEARCH, MS can be applied to the Plan A degree.
- No more than 12 credits of ECE 5000-level or non-ECE 5000- to 7000-level may be applied towards the Plan A degree.
- Responsible Conduct of Research (RCR) Training

- Must submit School of Graduate Studies forms
    - Supervisory Committee
    - Program of Study
    - Thesis/Project Approval
    - Appointment for Exam
    - Record of Examination
    - SGS and library review approval
- The Plan A option requires the submission of a written proposal.
- The Plan A option requires the preparation of a thesis as well as the successful defense and submission of the thesis to the library.

The ***Plan B*** Report requires 30 credits (minimum). The degree is based on coursework and engineering design and requires a formal design project report. It is designed to prepare graduates for employment requiring advanced design in industry.

- A minimum of 24 credits of technical and scientific coursework and at least 3 credits of ECE6950 DESIGN PROJECT and 3 credits of ECE6970 THESIS RESEARCH, MS.
- At least 3 credits must be completed at the 7000-level.
- At least 12 credits (excluding ECE6970 THESIS RESEARCH, MS) of Electrical or Computer Engineering courses must be completed at or above the 6000-level.
- No more than 3 credits of ECE6950 DESIGN PROJECT and 3 credits of ECE6970 THESIS RESEARCH, MS can be applied to the Plan B degree.
- No more than 12 credits of ECE 5000-level or non-ECE 5000- to 7000-level may be applied towards the Plan B degree.
- Responsible Conduct of Research (RCR) Training
- Must submit School of Graduate Studies forms
    - Supervisory Committee
    - Program of Study
    - Thesis/Project Approval
    - Appointment for Exam
    - Record of Examination
    - Committee review and library approvall
- The Plan B option requires the submission of a written proposal.
- The Plan B option requires the preparation of a report as well as the successful defense and submission of the report to the library.

Required Courses

Type
Completion Requirement

Plan A

Complete ALL of the following Courses:
- ECE6970 - Thesis Research, MS - 1cr.

This degree is based on coursework and research and requires a formal thesis.

Plan B

Complete ALL of the following Courses:
- ECE6950 - Design Project - 3cr.
- ECE6970 - Thesis Research, MS - 1cr.

This degree is based on coursework and engineering design and requires a formal design project report.

Electrical Engineering - PhD

Program Overview

College
College of Engineering

Department
Electrical & Computer Engineering

Program Level
Graduate

About this Degree

A PhD degree in Electrical Engineering prepares students for a professional engineering career. The PhD degree represents high scholarly achievement demonstrated by independent research and competence in an area of specialization approved by the student's supervisory committee. For the PhD program, each student plans an individualized course to study with the assistance of their supervisory committee. The degree requires the successful completion of a comprehensive exam, a successful dissertation proposal defense, and a final dissertation oral defense.

Program Requirements

Total Credits Required In Program Coursework
42-72

Total Credits Required To Earn This Credential
42-72

Simple Requisites

Program Requirements

School of Graduate Studies Requirements

- A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- The Program of Study for doctoral degree must include at least 18-semester credits at the level of 6000 or above. A maximum of 12 credits from courses at the level of 5000 may be used on an approved program of study.
- A doctorate must be completed within eight years of entering the program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Electrical Engineering - PhD

- Responsible Conduct of Research (RCR) Training
- School of Graduate Studies forms:
  - Supervisory Committee
  - Program of Study
  - Application for Doctoral Degree Candidacy
  - Appointment for Exam
  - Record of Examination
  - SGS and library review and approval
- PhD Comprehensive Exam
  - Taken after at least 33 hours of coursework for PhD degree beyond a Bachelor's
  - Taken after at least 9 hours of coursework for PhD degree beyond a Master's
- A proposal defense
- Formal final defense and submission of the dissertation to the library.

Electrical Engineering -PHD

Type
Completion Requirement

The PhD degree beyond a Bachelor's requires at least 72 credits:

Earn at least 18 credits from the following:

- ECE7970 - Dissertation Research - 1cr.

Additionally:

- 42 credits of 5000-7000 level coursework
- Up to 18 credits can be taken outside of the ECE Department
- Only 12 credits of 5000-level coursework may be taken

The PhD degree beyond a Master's requires at least 42 credits:

Earn at least 12 credits from the following:

- ECE7970 - Dissertation Research - 1cr.

Additionally:

- 18 credits of 5000-7000 level coursework
- Up to 9 credits can be taken outside of the ECE Department
- Only 12 credits of 5000-level coursework may be taken

Elementary Mathematics Specialist (EMS) - Post-Bachelor's Certificate

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Graduate

About this Degree

Utah State University's online Elementary Mathematics Specialist (EMS) Certificate is designed for graduate students and professionals to strengthen their mathematics content, pedagogy and leadership knowledge and expertise to serve as leaders in elementary mathematics. As outlined in the Association of Mathematics Teacher Educators (AMTE) standards, Elementary Mathematics Specialists are "teachers, teacher leaders, or coaches who are responsible for supporting effective mathematics instruction and student learning at the classroom, school, district, or state levels."

Master in Elementary Teaching - MET

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Graduate

About this Degree

The School of Teacher Education and Leadership (TEAL) offers a Master in Elementary Teaching (MET) degree that is designed for persons seeking educator licensing following a previous undergraduate degree. The MET (Plan C) degree is available for students both at the Logan campus and at Statewide Campuses. The basic elements of the MET coursework option include completion of 33 credits in an approved program of study. An additional 30 credits of coursework may be necessary to meet licensure requirements of the Utah State Board of Education (USBE).

This program is specifically designed to provide an avenue for education degree seekers and job changers to become licensed educators. Upon degree completion, USU will be able to recommend licensure.

This program leads to a recommendation for teaching licensure from USU. However, licensure is granted by the Utah State Board of Education.

For additional admission information, including contact information, visit the School of Teacher Education & Leadership MET website.

Admission Requirements for this Program

A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

- At minimum 3.0 GPA will be required for admission over the last 30 credits taken prior to the application.
- Official transcripts (not needed if degree is from USU)
- 3 letters of recommendation
- Acceptance to the Elementary Education (ELED) program, which includes MATH 2010 & MATH 2020.
- Approved FBI/BCI background fingerprint check cleared through the Utah State Board of Education (USBE).

Deadline for applications: March 1st, June 1st, and November 1st

Simple Requisites

Program Requirements

School of Graduate Studies General Graduation Guidelines:

Degree Verification: A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
Overall Graduate GPA: At least 3.0 and no grades of C- or lower. Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
Course Number Acceptability: The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. The program of study may include up to 12 semester credits of 5000 level courses.

Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested and submitted to the Vice Provost of Graduate Studies for review.
Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
Required Master's Forms (Professional/Plan C): Approval of academic forms required for master's students by the School of Graduate Studies:

- Program of Study
- Graduation Application

Department Requirements:

A grade of B- or better is required on all major courses and pedagogical content knowledge courses. Students must maintain an overall GPA of 3.0 or higher.

At the conclusion of the program, each student must complete/submit the following:

- Exit interview
- Exit survey

Licensure Information:

See the Teacher Education and Leadership Advisor with the MET advising area for more information.

The content/pedagogy courses are required for USU to recommend teaching licensure to the USBE, however, they do not fulfill requirements toward the master's degree.

Elementary Content/Pedagogy Courses:

- ITLS2500 TECHNOLOGY ENABLED INSTRUCTION
- ELED3050 PE/HEALTH ELEM METHODS
- ELED3100 CLASSROOM READING INSTRUCTION
- One of: ART3700 ELEMENTARY ART METHODS, MUSC3260 ELEMENTARY SCHOOL MUSIC, THEA3320 MOVEMENT EXPLORATION ELED, THEA3330 DRAMA FOR CLASSROOM TEACHERS, or THEA3340 DRAMA TEACHING METHODS K-6
- SPED4000 EDUCATION STUD W/DISABILITIES
- Literacy Block (Level II): must be taken together
    1. ELED4040 READ ASSESS AND INTERVENT (CI)
    2. ELED4042 READ ASSESS INTERVENT PRACT
    3. ELED4049 FOUNDATIONS OF READING REVIEW
- ELED4061 TEACHING ELEMENTARY MATH I
- ELED4150 ASSESSMENT AND DIFFERENTIATION
- TEAL3080 INTEGRATING ARTS INTO ACA(DHA)
- ELED5105 MOTIVATION CLASSROOM MANAGE

Teaching Required Courses (33 Credits)

Type
Completion Requirement

Program Requirements

A grade of B- or better is required in all major courses and pedagogical content knowledge courses.

Fulfill ALL of the following requirements:

Content Block (Level III) (12 credits)

Complete ALL of the following Courses:

- ELED5010 - Teaching Social Studies in Elementary School - 2cr.
- ELED5020 - Teaching Science in Elementary School - 2cr.
- ELED5030 - Teaching Language Arts (CI) - 2cr.
- ELED5040 - Teaching Elementary School Mathematics II: Number, Operations, and Algebraic Reasoning - 2cr.
- ELED5060 - Elementary Content Practicum - 4cr.

AND

Required Courses (12 credits)

Complete ALL of the following Courses:

- TEAL6190 - Theories of Learning and Models of Teaching - 3cr.
- TEAL6410 - Social Foundations of Education - 3cr.
- TEAL6710 - Diversity in Education - 3cr.
- TEAL6770 - Content Based Instruction for Dual Language Immersion/English as a Second Language - 3cr.

AND

Student Teaching (9 credits)

TEAL6211 GRAD STUDENT TEACHING SEMINAR and TEAL6210 GRAD STUDENT TEACHING must be taken together.

Complete ALL of the following Courses:

- TEAL6210 - Graduate Student Teaching - 3cr.
- TEAL6211 - Graduate Student Teaching Seminar - 3cr.

NOTE:

1. TEAL6210 GRAD STUDENT TEACHING - Register for 6 credits

Additional Comments:

Licensure Notification

This program, combined with content and pedagogy courses, may lead to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Program Learning Outcomes

Program Learning Outcomes

Learners & Learning
Effective teachers exhibit knowledge, skills and dispositions that demonstrate an awareness of and sensitivity toward diversity in learner development and student individualities.

Instructional Clarity
Effective teachers exhibit knowledge, skills, and dispositions that demonstrate clarity regarding the content they teach and how to organize and sequence it to effectively facilitate learning and drive student engagement.

Instructional Practice
Effective teachers exhibit knowledge, skills, and dispositions that support instructional practices that drive high-quality instruction, demonstrate a data-driven and cooperative approach to teaching and learning, and meet the diverse needs of all learners.

Classroom Climate
Effective teachers exhibit the knowledge, skills, and dispositions that enable them to create appropriate physical, social, and emotional environments to support learning.

Professional Responsibility
Effective teachers exhibit the knowledge, skills, and dispositions that demonstrate awareness of and adherence to professional and ethical standards personally, within their school community, with parents, and within their local community.

Emergency Medical Technician - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

Federal Gainful Employment Information

The Emergency Medical Technician program provides training for out-of-hospital emergency medical care and transportation of critical and emergent patients who access the emergency medical services (EMS) system. Emergency Medical Technicians (EMTs) have basic knowledge and skills necessary to stabilize and safely transport patients ranging from non-emergency and routine medical transports to life threatening emergencies. EMTs function as part of a comprehensive EMS response system, under medical oversight. EMTs perform interventions with the basic equipment typically found on an ambulance. EMTs are a critical link between the scene of an emergency and the health care system.

Admission Requirements for this Program

Student must obtain a healthcare provider CPR Certification prior to enrolling in course.

EMT certification requires applicants to be at least 18 years old to be licensed by the State of Utah.

Required Course (6 Credits)

Complete ALL of the following Courses:

- TEEM1011 - Emergency Medical Technician - 6cr.

Program Learning Outcomes

Program Learning Outcomes

- Apply fundamental knowledge of the anatomy and function of all human systems to the practice of EMS.
- Use foundational anatomical and medical terms and abbreviations in written and oral communication with colleagues and other health care professionals.
- Apply fundamental knowledge of the pathophysiology of respiration and perfusion to patient assessment and management.
- Apply fundamental knowledge of lifespan development to patient assessment and management.

- Properly administer or assist in administering medications to a patient during an emergency.
- Utilize fundamental knowledge of the EMS system, safety/well-being of the EMT, and medical/legal and ethical issues to the provision of emergency care.
- Apply knowledge (fundamental depth, foundational breadth) of anatomy and physiology to patient assessment and management to assure a patent airway, adequate mechanical ventilation, and respiration for patients of all ages.
- Interpret scene information and patient assessment findings (scene size-up, primary and secondary assessment, patient history, reassessment) to guide emergency management.
- Provide basic emergency care and transportation based on assessment findings for an acutely ill patient.
- Apply a fundamental knowledge of the causes, pathophysiology, and management of shock, respiratory failure or arrest

Select 3 courses from the following Topical Areas:

Fulfill ANY of the following requirements:

Social Change and Management

Complete ANY of the following Courses:

- ENVS4030 - Building Community Environmental Resilience - 3cr.
- PUBH3610 - Environmental Management - 3cr.
- SOC3340 - Activism, Protest, and Social Movements (DSS) - 3cr.
- SW5350 - Social Policy and Social Justice (CI) - 3cr.

OR

Tribal Nations/Indigenous Wisdom

Complete ANY of the following Courses:

- SOC3310 - Environmental Justice - 3cr.
- SOC3400 - Tribal Criminal Justice Systems - 3cr.

OR

International/Intercultural

Complete ANY of the following Courses:

- CMST3730 - Culture and Global Intervention (DHA) - 3cr.

OR

Sustainability

Complete ANY of the following Courses:

- ENVS4200 - Sustainability Metrics - 3cr.
- ENVS5350 - Ecological Economics - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.

OR

Sciences

Complete ANY of the following Courses:

- ENVS1350 - Introduction to Environmental Science (BLS) - 3cr.
- GEO1060 - Introduction to Environmental Geoscience (BPS) - 3cr.
- GEO3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr.
  OR PHYS3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr.
- PSC1050 - Plants, Soils, and Climate Orientation - 1cr.
- PSC2010 - Soils, Waters, and the Environment (BPS) - 3cr.

OR

Climate Change

Complete ANY of the following Courses:

- PSC2700 - Climate Change Impacts (BPS) - 3cr.
- PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.
- PLSC3300 - Residential Landscapes - 3cr.

OR

Critical Thinking

Complete ANY of the following Courses:

- ARTH4725 - Contemporary Land, Earth, and Eco Art (CI) - 3cr.
- CMST4260 - Environmental Communication - 3cr.
- CMST4270 - Communication, Culture, and Power - 3cr.
- ENGL3640 - Nature Writing (DHA) - 3cr.
- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
  OR GEOG2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- ENVS5200 - Anthropological Perspectives on Conservation - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- HIST3840 - The Modern American West (DHA) - 3cr.
- HIST3950 - Environmental History (DHA/CI) - 3cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.
- SOC3310 - Environmental Justice - 3cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.

OR

Agriculture and Food Systems

Complete ANY of the following Courses:

- ASTE2900 - Food Matters: Ethics, Economics, and the Environment (BSS) - 3cr.
- ASTE5260 - Environmental Impacts of Agricultural Systems (CI) - 3cr.

OR

Fieldwork & Internships

Complete ANY of the following Courses:

- CMST4250 - Advanced Internship/Co-op - 1cr.

NOTE:

1. CMST4250 ADV INTERNSHIP/COOP with permission.

Engineering Education - MS

Program Overview

College
College of Engineering

Department
Engineering Education

Program Level
Graduate

About this Degree

The Master of Science in Engineering Education is a 30-credit program offered through the Engineering Education Department. The program is a face-to-face program (rather than an online program) and is delivered on the Logan campus of Utah State University. The program offers Plan A (thesis) and Plan B (research project) options. It prepares students to be engineering instructors, engineering education researchers and specialists with solid knowledge and skills in 1) designing and assessing engineering curriculum and engineering knowledge, 2) implementing evidence-based instructional approaches in student-centered engineering learning environments, 3) identifying and synthesizing relevant theories to frame the research problem, and 4) applying appropriate and creative research methods to studies in engineering education. Detailed program requirements, including courses, can be found on this weblink.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Plan A students must take a minimum of 6 research credit hours (EED6970 MASTER'S THESIS RESEARCH) to complete their master's thesis and be consistent with the Graduate School requirements. They must write a thesis research proposal, successfully complete the thesis research proposal defense, write a thesis, and successfully complete the final thesis defense.

Plan B students must take a minimum of 3 research credit hours (EED6960 MASTER'S RESEARCH PROJECT) to complete their master's research project and be consistent with the Graduate School requirements. They must write a research project proposal, successfully complete the research project proposal defense, write a research project report, and successfully complete the final research project defense.

Additional Degree Requirements by the School of Graduate Studies

- Must maintain a minimum 3.0 GPA
- A minimum cumulative GPA of 3.0 required for graduation
- Grades of C- or lower are not permitted on the program of study
- A master's degree must be completed within six years of entering the degree program.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Plan A:

- Approval of academic forms required for master's students by the School of Graduate Studies

1. Supervisory Committee
2. Program Of Study
3. Thesis Project Approval
4. Appointment for Examination
5. Record of Examination
6. SGS and library review and approval

Plan B:

- Approval of academic forms required for master's students by the School of Graduate Studies

1. Supervisory Committee
2. Program Of Study
3. Appointment for Examination
4. Record of Examination
5. Report submission through DigitalCommons@USU

Program Requirements

Type
Completion Requirement

Engineering Education (6 credits)

Complete ALL of the following Courses:

- EED6090 - Developing an Engineering Education Curriculum - 3cr.
- EED6150 - Teaching, Learning & Assessment in Engineering Education - 3cr.

Elective-Area of Specialization (12-15 credits)

- ***Plan A (Thesis): minimum 12 credits***
- ***Plan B (Research Project): minimum 15 credits***

Elective courses can be at 6000- or 5000-level offered by the College of Engineering or by the Emma Eccles Jones College of Education and Human Services at USU. No courses below 5000-level are allowed. No more than 12 credits of 5000-level courses are allowed. All elective courses and associated Program of Study must be approved by the student's supervisory committee. Students may choose from the following options:

Complete ALL of the following Courses:

- ITLS6540 - Learning Theory - 3cr.
- PSY6350 - Introduction to Theories of Intervention in Psychology - 3cr.
- TEAL6190 - Theories of Learning and Models of Teaching - 3cr.
- TEAL6545 - Research For Teachers - 3cr.

Research Theory (6 credits)

Complete ALL of the following Courses:

- EDUC6040 - Applied Research Methods - 3cr.
- EDUC6050 - Applied Statistical Analysis - 3cr.
  OR STAT5200 - Analysis of Designed Experiments - 3cr.

Additional Degree Requirements by the Department

1. Successful Comprehensive exam
2. Successful Dissertation Research Proposal Defense
3. Successful Final Dissertation Defense
4. One peer-reviewed, first-author journal paper submission or conference presentation with a peer-reviewed, first-author paper per 12 dissertation credits. The publication should be generated from the research under the supervision of the student's Faculty Advisor during the course of graduate study at USU.
5. EED7810 RESEARCH SEMINAR: This course is offered each spring semester. Attendance is required throughout *the entire PhD program*. However, students are required to register for this course only once while in the PhD program.
6. Teaching experience including one or more of the following:
    - Two semesters of guided teaching experience
    - Experience as a K-12 teacher
    - Experience as university/college/community college faculty
    - Other equivalent experience approved by the Department Head and the student's graduate committee

Additional Degree Requirements by the School of Graduate Studies

- Must maintain a minimum of 3. 0 term GPA for each semester
- A minimum of 3. 0 cumulative GPA is required for graduation
- Grades of C- or lower are not permitted on the program of study
- A doctorate must be completed within eight years of entering the degree program.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated
- Approval of academic forms required for doctoral students by the School of Graduate Studies

1. Supervisory Committee
2. Program Of Study
3. Application for Candidacy
4. Appointment for Examination
5. Record of Examination
6. SGS and library review and approval

Engineering Education

Type
Completion Requirement

Engineering Education Core (16 Credits)

Complete ALL of the following Courses:

- EED6090 - Developing an Engineering Education Curriculum - 3cr.
- EED6150 - Teaching, Learning & Assessment in Engineering Education - 3cr.
- EED7010 - The Role of Cognition in Engineering Education - 3cr.
- EED7230 - Foundations of Engineering Education - 3cr.
- EED7460 - Finance and Grant Writing - 3cr.
- EED7810 - Research Seminar - 1cr.

EED7810 RESEARCH SEMINAR is offered each spring semester. Attendance is required throughout the entire Ph.D. program. However, students are required to register for this course only once while in the Ph.D. program.

Research Theory Core (9 Credits)

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
  OR PSY6560 - Introduction to Educational and Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
  OR PSY6600 - Statistical Foundations - 3cr.
  OR STAT5200 - Analysis of Designed Experiments - 3cr.
- EED7040 - Qualitative Methods in Engineering Education - 3cr.

Elective-Area of Specialization (Minimum 5 Credits)

Complete ALL of the following Courses:

- EDUC7610 - Regression Analysis - 3cr.
- EED6910 - Special Topics in Engineering Education - 1cr.
- PSY7070 - Advanced Measurement Theories and Practice - 3cr.
- PSY7650 - Multilevel and Marginal Models for the Social Sciences - 3cr.
- SPED7700 - Single-Subject Research Methods and Designs - 3cr.
- TEAL6150 - Foundations of Curriculum - 3cr.
- TEAL6410 - Social Foundations of Education - 3cr.

- TEAL7300 - Historical, Social, and Cultural Foundations of Education - 3cr.

Other alternative elective courses (including 5000-level courses) must be approved by your Faculty Advisor.

Dissertation (Minimum 12 Credits)

Ph.D. Dissertation: Students must take an appropriate number of research credit hours to complement their graduate program and be consistent with the Graduate School requirements.

Program Learning Outcomes

Environmental Equity - Post-Bachelor's Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Graduate

About this Degree

The Environmental Equity Post-Bachelor's Certificate (NRECE) Program is administered by the Sociology Program, College of Arts and Sciences. The certificate will provide rigorous social science training and education in environmental and natural resources equity and inequality. The target of this program is twofold: 1) current graduate students at USU and 2) professionals engaged in human or social dimensions of environment or natural resources work.

Students who complete the program receive a certificate in Environmental Equity. Notification of this certificate appears on the student's transcript.

Graduate students seeking to complete the Environmental Equity Certificate will work with their major faculty advisor, as well as with the Program Director, for support in understanding and meeting the requirements of the certificate.

Admission Requirements for this Program

For admittance into the Environmental Equity Post-Bachelor's Certificate Program, a graduate student must: (1) be accepted by the School of Graduate Studies at Utah State University for graduate study (current or provisional); and (2) meet with the Program Director to discuss personal interest in completing the Certificate with respect to professional goals.

Program Requirements

Total Credits Required In Program Coursework
9

Total Credits Required To Earn This Credential
9

Simple Requisites

Program Requirements

Certificate completion will require a minimum of nine credit hours. This includes a minimum of two environment/natural resources related courses (6 credit hours) and one social inequality-based course (3 credit hours), and a maximum of 15 credit hours. While only three courses are required for certificate completion, students will be welcome and invited to take an additional two courses (6 credit hours) of electives if they wish to expand the breadth and/or depth of their experience.

The two environment-related courses will provide students with training and education in the sociology of natural resources/environmental sociology, environmental justice, social change, community sociology, and community-based or -engaged research methods. Students can select two courses that most closely align with their research, training and/or professional goals. For example, a graduate researcher conducting research on environmental justice in relation to Great Salt Lake may select the most relevant courses (e.g., Environmental & Climate Justice, Multispecies Justice & Indigenous Approaches to the Environment), while practitioners seeking to understand the social wellbeing implications of natural amenity development may select courses focused more on rural natural resource use and social change (e.g., Social & Community Dimensions of Natural Resources, Environment, Technology, & Social Change).

A social inequality course will provide students with more depth regarding the history of inequality and factors that shape unequal social outcomes. As with the environment-related requirements, students can select a course that best aligns with their goals. For instance, students seeking a broad overview of the mechanisms that shape inequality can select a general inequality course (e.g.,

Theory & Research on Inequality) while students seeking a deeper focus on particular populations can select more targeted courses (e.g., Sociology of Race & Ethnicity or Sociology of Sexuality & Gender).

Environmental Equity - Post-Bachelor's Certificate

Type
Completion Requirement

Environment/Natural Resources Cluster (6 credits)

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree. Additional courses options may be approved by the Program Director.

Complete at least 2 of the following courses:

- SOC6620 - Environment, Technology, and Social Change - 3cr.
- SOC6630 - Social and Community Dimensions of Natural Resources - 3cr.
- SOC6640 - Multispecies Justice and Indigenous Environmentalisms - 3cr.
- SOC6800 - Seminar in Sociology - 1cr.

Social Inequality Cluster (3 credits)

Take at least one course from the following list, for a total of 3 credits. Additional courses options may be approved by the Program Director.

Earn at least 3 credits from the following:

- SOC6270 - Global Migration - 3cr.
- SOC6310 - Sociology of Work and Occupations - 3cr.
- SOC6420 - Gender, Sexuality, and Social Inequality - 3cr.
- SOC6460 - Sociology of Health, Illness, and Disability - 3cr.
- SOC6480 - Seminar in Race and Ethnicity - 3cr.
- SOC6760 - Theory and Research in Social Inequality - 3cr.

Program Learning Outcomes

Program Learning Outcomes

Upon successful completion of this certificate, students will be able to:

1. Demonstrate a deep understanding of the social, human, and other drivers and consequences of environmental issues.
2. Apply diverse perspectives, solutions, and methods to understand and address social-environmental issues.
3. Explain the importance of approaches to addressing environmental issues that incorporate equity and justice.

English - Minor

Total Credits Required To Earn This Credential
120-122

Simple Requisites

Program Requirements

- Students may register for an internship for elective credit (ENGL 4900) that combines their academic skills with their professional interests and allows them to develop valuable workplace skills. This program allows up to three credits of internship.
- **Minimum GPA for Graduation:** 2.5 within major courses; 2.0 USU cumulative; 2.0 career total
- **Minimum Grade Accepted:** C within major courses (no grades of pass/fail)
- **Number of required credits:** 37
- **Credits in Residence:** Students must complete 18 credits of major-applicable coursework at Utah State University.

English Department Requirements

Type
Completion Requirement

A. English Major Core (10 credits)

ENGL2000 DEG/CARREER PLNG FOR ENGL MJRS and ENGL2600 LITERARY ANALYSIS are required. Students may fulfill the remaining six credits by selecting one course from the Writing core requirement and one course from the Creative Writing core requirement listed below.

Fulfill ALL of the following requirements:

English Core requirements

Complete ALL of the following Courses:

- ENGL2000 - Degree and Career Planning for English Majors - 1cr.
- ENGL2600 - Literary Analysis - 3cr.

AND

Writing Core requirements

Complete at least 1 of the following courses:

- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
- ENGL2020 - Professional Communication (CL2) - 3cr.

AND

Creative Writing Core requirements

Complete at least 1 of the following courses:

- ENGL3320 - Resistance and Literature II - 3cr.
- ENGL3330 - Literary Theory - 3cr.
- ENGL3440 - Creative Nonfiction Writing - 3cr.

B. Craft Courses (6 credits)

Students develop specific skills, competencies, and points of view needed by professionals in the fields of creative writing, teaching, and/or literary studies.

Complete at least 2 of the following courses:

- ENGL3160 - AI and Writing Across Disciplines (CI) - 3cr.
- ENGL3170 - Legal Writing (CI) - 3cr.
- ENGL3175 - Healthcare and Medical Writing - 3cr.
- ENGL3180 - Writing for the Public - 3cr.
- ENGL3185 - Writing for Peace - 3cr.
- ENGL3190 - Data Storytelling (CI) - 3cr.
- ENGL3220 - Romance Novels (DHA) - 3cr.
- ENGL3260 - Adapted: Page, Stage, Song, and Screen - 3cr.
- ENGL3280 - Graphic Novels - 3cr.
- ENGL3270 - Funny Business (DHA) - 3cr.
- ENGL3420 - Fiction Writing - 3cr.
- ENGL3240 - Writing Family Stories (DHA) - 3cr.
- ENGL3430 - Poetry Writing - 3cr.
- ENGL3440 - Creative Nonfiction Writing - 3cr.
- ENGL3470 - Approaches to Research (QI) - 3cr.
- ENGL3510 - Teaching Young Adult Literature - 3cr.
- ENGL4250 - Playwriting - 3cr.
- ENGL4340 - Studies in Fiction - 3cr.
- ENGL4345 - Studies in Nonfiction - 3cr.
- ENGL4350 - Studies in Poetry - 3cr.
- ENGL4360 - Studies in Drama - 3cr.
- ENGL4365 - Studies in Film - 3cr.
- ENGL4420 - Advanced Fiction Writing (CI) - 3cr.
- ENGL4430 - Advanced Poetry Writing (CI) - 3cr.
- ENGL4440 - Advanced Nonfiction Writing (CI) - 3cr.

C. Context Courses (6 credits)

Students learn to analyze and critically evaluate ideas, arguments, and points of view that inform the production and interpretation of literature and cultural works.

Complete at least 2 of the following courses:

- ENGL3070 - Digital Folklore (DHA) - 3cr.
- ENGL3300 - Special Topics in Literary History - 3cr.
- ENGL3305 - Medieval Literary History - 3cr.
- ENGL3310 - Resistance and Literature I - 3cr.
- ENGL3315 - Early Modern British Literary History - 3cr.
- ENGL3320 - Resistance and Literature II - 3cr.
- ENGL3325 - Eighteenth-Century British Literary History - 3cr.
- ENGL3335 - Nineteenth-Century British Literary History - 3cr.
- ENGL3345 - Literary History of the British Isles Since 1900 - 3cr.
- ENGL3355 - Literary History of the Early Americas - 3cr.
- ENGL3365 - Nineteenth-Century American Literary History - 3cr.
- ENGL3375 - Literary History of the Americas Since 1900 - 3cr.
- ENGL3385 - Postcolonial World Literature - 3cr.
- ENGL3620 - Native American Studies - 3cr.
- ENGL3830 - The History of Yoga - 3cr.
- ENGL4200 - Linguistic Structures - 3cr.
- ENGL4210 - History of English: Change and Diversity - 3cr.
- ENGL4220 - Language and Writing: A History - 3cr.
- ENGL4390 - Contemporary Literature (CI) - 3cr.
- ENGL4650 - Utah's Public Lands: Past, Present, Future (DHA/HASS) - 3cr.

D. Community Courses (6 credits)

Students gain a broader understanding and appreciation of intellectual-cultural activity (music, science, literature, etc.) in relation to specific communities.

Complete at least 2 of the following courses:

- ENGL2800 - Utah Stories - 3cr.
- ENGL3140 - Introduction to LGBTQ+ Literature (DHA) - 3cr.
- ENGL3150 - Science Fiction (DHA) - 3cr.
- ENGL3230 - Young Adult Literature (DHA) - 3cr.
- ENGL3250 - Travel the World through Literature and Writing (DHA) - 3cr.
- ENGL3395 - World Literature in Translation - 3cr.
- ENGL3610 - Multicultural American Literature - 3cr.
- ENGL3630 - The Farm in Literature and Culture (CI/DHA) - 3cr.
- ENGL3640 - Nature Writing (DHA) - 3cr.
- ENGL3700 - Regional Folklore (DHA) - 3cr.
- ENGL3720 - Children's Folklore (DHA) - 3cr.
- ENGL4230 - Language and Culture (DSS) - 3cr.
- ENGL4310 - American Writers - 3cr.
- ENGL4320 - British Writers - 3cr.
- ENGL4330 - World Writers - 3cr.
- ENGL4370 - Native American Literature - 3cr.
- ENGL4375 - U.S. Latinx Literature - 3cr.
- ENGL4380 - African American Literature - 3cr.
- ENGL4610 - Western American Literature (CI/DHA) - 3cr.
- ENGL4630 - Environmental Justice Literature - 3cr.
- ENGL4700 - Folk Material Culture (DHA) - 3cr.
- ENGL5700 - Folk Narrative - 3cr.

Open Electives (9 credits)

Earn at least 9 credits

Students may select any ENGL or TCR courses for elective credit. Only 3 credits of TCR courses count for an elective. Six credits must be upper-division (3000 or 4000 level).

Students may register for an internship for elective credit (ENGL 4900) that combines their academic skills with their professional interests and allows them to develop valuable workplace skills. This program allows up to three credits of internship.

English: Creative Writing Emphasis - BA, BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	English	Undergraduate

About this Degree
With its small class sizes and nationally recognized faculty members, the English Department helps students develop skills in analysis, production, and understanding of texts in the English language. Students learn to write, think, and communicate effectively in a technologically and culturally complex world. Students develop skills in the areas most valued by employers, including critical thinking, teamwork, and oral and written communication, which will prepare them to enter into a wide range of career options.

Because the English Department is home to faculty involved in research, our students are provided with numerous opportunities to pursue undergraduate research projects and creative projects with individual attention from professors.

Students receive a BA or BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages, see Undergraduate Academic Credential Requirements for requirements.

Creative Writing Emphasis: The creative writing program gives students exposure to poetry, fiction, and creative nonfiction writing and then allows them to specialize in their chosen area(s). Through literature and writing courses, students develop critical and cognitive writing skills applicable in numerous professional fields

- For more information about English, Creative Writing Emphasis, please see the Department of English website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program
Minimum GPA for Admission: 2.5 GPA within all English courses (other than ENGL 1010, ENGL 2010, CLEP, AP, etc.); 2.5 USU cumulative GPA (including courses taken for another USU major); 2.5 career total GPA (including transfer credits) for new transfer students

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
45	120

Simple Requisites

Program Requirements

Minimum GPA for Graduation: 2.5 within major courses; 2.0 USU cumulative; 2.0 career total

Minimum Grade Accepted: C in major courses (no pass/fail.)

Number of required credits: 40

Credits in Residence: Students must complete 21 credits of major-applicable coursework at Utah State University. Students completing the Creative Writing emphasis must also complete two of the three Advanced Creative Writing classes at Utah State University.

This emphasis is devoted to the art of literary writing: fiction, poetry, and creative nonfiction. Through practice in specific genres and a comprehensive study of literature, students learn the craft of literary writing as discovered and

practiced over the last three thousand years of written human culture. The emphasis prepares undergraduates for graduate work in creative writing and develops critical, cognitive, and writing skills applicable in numerous professional fields.

Since creative writers must have a broad knowledge of literature, students complete ENGL2600 LITERARY ANALYSIS, as well as 12 credits of Literature courses numbered 3000 and above.

Also at the 3000 level, students begin their work as creative writers, taking three introductory writing courses in three genres: fiction, poetry, and creative nonfiction.

At the 4000- and 5000-level, students concentrate their training as creative writers, taking three courses in advanced fiction, poetry, and creative nonfiction writing, which can be repeated, as well as the Special Topics in Creative Writing course.

English Department Requirements

Type
Completion Requirement

English Major Core (10 credits)

ENGL2000 DEG/CARREER PLNG FOR ENGL MJRS and ENGL2600 LITERARY ANALYSIS are required. Students may fulfill the remaining six credits by selecting one course from the Writing Core Requirement and one course from the Creative Writing Core Requirement listed below.

Fulfill ALL of the following requirements:

English Core requirements

Complete ALL of the following Courses:

- ENGL2000 - Degree and Career Planning for English Majors - 1cr.
- ENGL2600 - Literary Analysis - 3cr.

AND

Writing Core requirements

Complete at least 1 of the following courses:

- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
- ENGL2020 - Professional Communication (CL2) - 3cr.

AND

Creative Writing Core requirements

Complete at least 1 of the following courses:

- ENGL3320 - Resistance and Literature II - 3cr.
- ENGL3330 - Literary Theory - 3cr.
- ENGL3440 - Creative Nonfiction Writing - 3cr.

Emphasis Requirements (30 credits)

Type
Completion Requirement

Creative Writing Courses (21 credits)

Fulfill ALL of the following requirements:

Introductory Creative Writing Courses (9 credits)

Earn a minimum grade of C in the following:

- ENGL3420 - Fiction Writing - 3cr.
- ENGL3430 - Poetry Writing - 3cr.
- ENGL3440 - Creative Nonfiction Writing - 3cr.

AND

Advanced Creative Writing Courses (9 credits)

ENGL4420 ADV FICTION WRITING (CI), ENGL4430 ADV POETRY WRITING (CI), and ENGL4440 ADV NONFICTION WRITING (CI) are repeatable and can be taken more than once for this requirement. However, students must complete courses in at least two genres from the following list.

Earn at least 9 credits from the following:

- ENGL4420 - Advanced Fiction Writing (CI) - 3cr.
- ENGL4430 - Advanced Poetry Writing (CI) - 3cr.
- ENGL4440 - Advanced Nonfiction Writing (CI) - 3cr.

AND

Special Topics in Creative Writing

The Special Topics course varies according to the specialty of the faculty member teaching the course.

Complete ALL of the following Courses:

- ENGL5450 - Special Topics in Creative Writing - 3cr.

Literary Studies (12 credits)

Complete at least 4 of the following courses:

- ENGL3140 - Introduction to LGBTQ+ Literature (DHA) - 3cr.
- ENGL3150 - Science Fiction (DHA) - 3cr.
- ENGL3220 - Romance Novels (DHA) - 3cr.

English: Teaching Emphasis - BA, BS

Program Overview

College
College of Arts & Sciences

Department
English

Program Level
Undergraduate

About this Degree

With its small class sizes and nationally published faculty members, the English Department helps students develop skills in analysis, production, and understanding of texts in the English language. Students learn to write, think, and communicate effectively in a technologically and culturally complex world. Students develop skills in the areas most valued by employers, including critical thinking, teamwork, and oral and written communication, which will prepare them to enter into a wide range of career options.

Because the English Department is home to faculty that are heavily involved in research, students are provided with numerous opportunities to pursue undergraduate research projects and creative projects with individual attention from professors.

Students receive a degree by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages.

English Teaching Emphasis: Students emphasizing in English teaching prepare to teach secondary level English in the public school system. Students take a wide range of literature, writing, and teaching courses that prepare them to teach language arts in secondary education classrooms.

- For more information about English Teaching Emphasis, see the Department of English website. As an English major with an emphasis in English Teaching, you will receive your BA/BS through the Department of English in the College of Humanities and Social Sciences.
- Teacher licensure is earned through the College of Education and Human Services.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is Quantitative Literacy (QL) of the student's choice. STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL) or STAT1080 FOUNDATIONS OF DATA SCI (QL) is recommended.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU: 2.5 GPA Overall, 2.5 GPA at USU, 3.0 GPA for STEP

Additional Information

- For language requirements for a Bachelor of Arts degree, please see Minimum University Requirements (Bachelor's Degree) for more details.
- In addition to the required Exploratory courses, students take 18 credits in literature courses in order to acquire an understanding of the traditional literary canon, literary diversity, and current theoretical approaches to understanding literature. Students take 16 credits in pedagogy to learn about curriculum, planning, instructional delivery, assessment, and related topics. ENGL3500 TEACHING ENGLISHand ENGL4520 TEACHING LITERACY require admission to the STEP program. Students also take three credits of linguistics coursework.
- To obtain professional licensure at graduation, students must fulfill the requirements of the Secondary Teacher Education Program (STEP) prescribed by the Secondary Education Program of the School of Teacher Education and Leadership (TEAL).
- This is for the English teaching emphasis only. To obtain a secondary teaching license for grades 6-12, students must complete the 35-credit Secondary Teacher Education Program (STEP), which includes one semester of student teaching in a public school. This program is administered by USU's School of Teacher Education and Leadership (TEAL) within the Emma Eccles Jones College of Education and Human Services. Students must apply to the School of TEAL the semester before taking STEP courses. This is usually the fall of their junior year. Students learn subject content through the English Department and spend the last year or two studying education techniques through the STEP program.

  Students in the English teaching program are required to select an approved teaching minor to expand their career options.

Program Requirements

Total Credits Required In Program Coursework
40 + 29 for STEP

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Minimum GPA for Graduation: 2.5 within major courses; 2.0 USU cumulative (3.0 USU cumulative required for admission to STEP); 2.5 career total (for licensure)

Minimum Grade Accepted: C (no pass/fail) in major courses; C in STEP courses

Credits in Residence: Students must complete 18 credits of major-applicable coursework at Utah State University.

Other Requirements: STEP (typically requires three semesters; see TEAL website and advisors for STEP advising) required for licensure.

English Department Requirements

Type
Completion Requirement

English Major Core (10 credits)

ENGL2000 DEG/CARREER PLNG FOR ENGL MJRS and ENGL2600 LITERARY ANALYSIS are required. Students may fulfill the remaining six credits by selecting one course from the Writing Core Requirement and one course from the Creative Writing Core Requirement listed below.

Fulfill ALL of the following requirements:

English Core requirements

Complete ALL of the following Courses:

- ENGL2000 - Degree and Career Planning for English Majors - 1cr.
- ENGL2600 - Literary Analysis - 3cr.

AND

Writing Core requirements

Complete at least 1 of the following courses:

- ENGL2010 - Research and Argument Across Perspectives

(CL2) - 3cr.
- ENGL2020 - Professional Communication (CL2) - 3cr.

AND

Creative Writing Core requirements

Complete at least 1 of the following courses:
- ENGL3320 - Resistance and Literature II - 3cr.
- ENGL3330 - Literary Theory - 3cr.
- ENGL3440 - Creative Nonfiction Writing - 3cr.

Emphasis Requirements

Fulfill ALL of the following requirements:

B. Literary History (9 credits)

Distribution: Among the literature courses selected there must be one course in either British or American Literature and one course that is either World or Contemporary Literature.

Fulfill ALL of the following requirements:

American or British Literature (3 credits)

Complete at least 1 of the following courses:
- ENGL3300 - Special Topics in Literary History - 3cr.
- ENGL3305 - Medieval Literary History - 3cr.
- ENGL3310 - Resistance and Literature I - 3cr.
- ENGL3315 - Early Modern British Literary History - 3cr.
- ENGL3320 - Resistance and Literature II - 3cr.
- ENGL3325 - Eighteenth-Century British Literary History - 3cr.
- ENGL3335 - Nineteenth-Century British Literary History - 3cr.
- ENGL3345 - Literary History of the British Isles Since 1900 - 3cr.
- ENGL3355 - Literary History of the Early Americas - 3cr.
- ENGL3365 - Nineteenth-Century American Literary History - 3cr.
- ENGL3375 - Literary History of the Americas Since 1900 - 3cr.
- ENGL3610 - Multicultural American Literature - 3cr.
- ENGL4370 - Native American Literature - 3cr.
- ENGL4375 - U.S. Latinx Literature - 3cr.
- ENGL4380 - African American Literature - 3cr.

AND

World or Contemporary Literature (3 credits)

Complete at least 1 of the following courses:
- ENGL3385 - Postcolonial World Literature - 3cr.
- ENGL3395 - World Literature in Translation - 3cr.
- ENGL4370 - Native American Literature - 3cr.
- ENGL4375 - U.S. Latinx Literature - 3cr.
- ENGL4380 - African American Literature - 3cr.
- ENGL4390 - Contemporary Literature (CI) - 3cr.

AND

Shakespeare Course (3 credits)

Complete ALL of the following Courses:
- ENGL4300 - Shakespeare - 3cr.

AND

C. English Teaching Courses (15 credits)

Complete ALL of the following Courses:
- ENGL3500 - Teaching English - 2cr.
- ENGL3510 - Teaching Young Adult Literature - 3cr.
- ENGL4500 - Teaching Writing (CI) - 3cr.
- ENGL4510 - Teaching Literature (CI) - 3cr.
- ENGL4520 - Teaching Literacy in English Language Arts Classrooms - 2cr.

AND

D. Linguistics Requirement (3 credits)

Complete at least 1 of the following courses:
- ENGL4200 - Linguistic Structures - 3cr.
- ENGL4210 - History of English: Change and Diversity - 3cr.

AND

E. Additional Literature Courses (3 credits)

Complete at least 1 of the following courses:
- ENGL3150 - Science Fiction (DHA) - 3cr.
- ENGL3140 - Introduction to LGBTQ+ Literature (DHA) - 3cr.
- ENGL3210 - Classical Mythology - 3cr.
- ENGL3230 - Young Adult Literature (DHA) - 3cr.
- ENGL3260 - Adapted: Page, Stage, Song, and Screen - 3cr.
- ENGL3270 - Funny Business (DHA) - 3cr.
- ENGL3280 - Graphic Novels - 3cr.
- ENGL3305 - Medieval Literary History - 3cr.
- ENGL3315 - Early Modern British Literary History - 3cr.
- ENGL3325 - Eighteenth-Century British Literary History - 3cr.
- ENGL3335 - Nineteenth-Century British Literary History - 3cr.
- ENGL3345 - Literary History of the British Isles Since 1900 - 3cr.
- ENGL3355 - Literary History of the Early Americas - 3cr.
- ENGL3365 - Nineteenth-Century American Literary History - 3cr.
- ENGL3375 - Literary History of the Americas Since 1900 - 3cr.
- ENGL3385 - Postcolonial World Literature - 3cr.
- ENGL3395 - World Literature in Translation - 3cr.
- ENGL3610 - Multicultural American Literature - 3cr.
- ENGL3620 - Native American Studies - 3cr.
- ENGL3630 - The Farm in Literature and Culture (CI/DHA) - 3cr.
- ENGL4310 - American Writers - 3cr.
- ENGL4320 - British Writers - 3cr.
- ENGL4330 - World Writers - 3cr.
- ENGL4340 - Studies in Fiction - 3cr.
- ENGL4345 - Studies in Nonfiction - 3cr.
- ENGL4350 - Studies in Poetry - 3cr.
- ENGL4360 - Studies in Drama - 3cr.
- ENGL4365 - Studies in Film - 3cr.
- ENGL4370 - Native American Literature - 3cr.
- ENGL4375 - U.S. Latinx Literature - 3cr.
- ENGL4380 - African American Literature - 3cr.
- ENGL4630 - Environmental Justice Literature - 3cr.

G. Secondary Teacher Education Program (STEP) (29 Credits)

English Teaching students must complete the STEP program to be eligible for graduation and to receive a license to teach in the public school system. The STEP program is administered through the Secondary Education Program of the School of TEAL, Emma Eccles Jones College of Education and Human Services. Students must be admitted to STEP before taking many STEP courses. Among the requirements for admission is a Criminal Background Check. While completing student teaching, students must pass the required PPAT assessment. STEP requirements are subject to change based on changes in state licensure. Students should meet with an advisor in the School of TEAL for further information regarding this program.

Fulfill ALL of the following requirements:

STEP Requirements

ITLS 2500 may be taken prior to STEP admission:

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.

AND

Additional Required Courses

Complete ALL of the following Courses:

- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.

NOTE: Students are required to register for a clinical and a methods course together. See below for the suggested registration.

1. SCED3300 CLINICAL EXPERIENCE I - Students are encouraged to also register for ENGL3500 TEACHING ENGLISH.
2. SCED4300 CLINICAL EXPERIENCE II - Students are encouraged to also register for ENGL4520 TEACHING LITERACY.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

English: Literature Emphasis - BA, BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	English	Undergraduate

About this Degree

With its small class sizes and nationally published faculty members, the English Department helps students develop skills in analysis, production, and understanding of texts in the English language. Students learn to write, think, and communicate effectively in a technologically and culturally complex world. Students develop skills in the areas most valued by employers, including critical thinking, teamwork, and oral and written communication, which will prepare them to enter into a wide range of career options.

Because the English Department is home to faculty that are heavily involved in research, students are provided with numerous opportunities to pursue undergraduate research projects and creative projects with individual attention from professors.

Students receive a by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages.

Literature Emphasis: Literary studies students read, analyze, and research texts and writers in American, British, and other world literatures as well as their cultural contexts. Students in literary studies develop critical thinking and communication skills that prepare them for a variety of careers.

- For more information about English Teaching Composite: Literature, see the Department of English website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is Quantitative Literacy (QL) of the student's choice.

Additional Information

Students in this emphasis learn the value of literature as they practice important career skills: writing, speaking, researching, collaborating, and thinking critically.

Literature students learn to solve problems both logically and creatively, both independently and in teams. Graduates will thus be well prepared to pursue their individual goals in a wide variety of educational and professional paths, including (but not limited to) business and marketing, publishing, teaching, museum and library work, arts organizations, and in the law–in short, any field that requires strong communication skills, cultural awareness, and critical thinking. Literature graduates can also look forward to a lifetime of intellectual curiosity and cultural enrichment.

ENGL2600 LITERARY ANALYSIS: Teaches students to read closely, and appreciate literary art, draw connections between form and content, and make interpretive claims.

Students in 3000-level and 4000-level courses learn to draw connections between literature and its historical, cultural, social, and biographical contexts. These courses put texts in conversation with one another and with the conventions of different genres.

The emphasis includes six elective credits in English. Students may devote three of these credits to an internship that combines their academic skills with their professional interests.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
40

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Minimum GPA for Graduation: 2.5 within major courses; 2.0 USU cumulative; 2.0 career total

Minimum Grade Accepted: C within major courses (no grades of pass/fail)

Credits in Residence: Students must complete 18 credits of major-applicable coursework at Utah State University.

English Department Requirements

Type
Completion Requirement

English Major Core (10 credits)

ENGL2000 DEG/CARREER PLNG FOR ENGL MJRS and ENGL2600 LITERARY ANALYSIS are required. Students must fill the remaining six credits by taking one course from the Writing Core Requirement and one course from the Creative Writing Core Requirement.

Fulfill ALL of the following requirements:

Core requirements

Complete ALL of the following Courses:

- ENGL2000 - Degree and Career Planning for English Majors - 1cr.
- ENGL2600 - Literary Analysis - 3cr.

AND

Writing Core requirements

Complete at least 1 of the following courses:

- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
- ENGL2020 - Professional Communication (CL2) - 3cr.

AND

Creative Writing Core requirements

Complete at least 1 of the following courses:

- ENGL3320 - Resistance and Literature II - 3cr.
- ENGL3330 - Literary Theory - 3cr.
- ENGL3440 - Creative Nonfiction Writing - 3cr.

Emphasis Requirements (30 credits)

Type
Completion Requirement

B. Literature Courses (9 credits)

Select 3 courses (9 credits) from the following:

Fulfill ALL of the following requirements:

Courses Focused on Literature Before 1900

Complete at least 1 of the following courses:

- ENGL3305 - Medieval Literary History - 3cr.
- ENGL3310 - Resistance and Literature I - 3cr.
- ENGL3315 - Early Modern British Literary History - 3cr.
- ENGL3325 - Eighteenth-Century British Literary History - 3cr.
- ENGL3335 - Nineteenth-Century British Literary History - 3cr.
- ENGL3355 - Literary History of the Early Americas - 3cr.
- ENGL3365 - Nineteenth-Century American Literary History - 3cr.

AND

Courses Focused on Literature After 1900

Complete at least 1 of the following courses:

- ENGL3320 - Resistance and Literature II - 3cr.
- ENGL3345 - Literary History of the British Isles Since 1900 - 3cr.
- ENGL3375 - Literary History of the Americas Since 1900 - 3cr.
- ENGL3385 - Postcolonial World Literature - 3cr.
- ENGL4390 - Contemporary Literature (CI) - 3cr.

AND

Additional Literature Courses

The following courses may apply to either of the above requirements depending on course content, at the judgment of the advisor

Complete ANY of the following Courses:

- ENGL3300 - Special Topics in Literary History - 3cr.
- ENGL3395 - World Literature in Translation - 3cr.

C. Literature (12 credits)

Select four additional Literature courses at the 3000 or 4000 level. At least two of those courses must be selected from the 4000-level courses listed below; the remaining two can be selected from those or the 3000-level courses listed above.

Earn at least 12 credits from the following:

- ENGL3140 - Introduction to LGBTQ+ Literature (DHA) - 3cr.
- ENGL3150 - Science Fiction (DHA) - 3cr.
- ENGL3220 - Romance Novels (DHA) - 3cr.
- ENGL3250 - Travel the World through Literature and Writing (DHA) - 3cr.
- ENGL3260 - Adapted: Page, Stage, Song, and Screen - 3cr.
- ENGL3270 - Funny Business (DHA) - 3cr.
- ENGL3280 - Graphic Novels - 3cr.
- ENGL3630 - The Farm in Literature and Culture (CI/DHA) - 3cr.
- ENGL3640 - Nature Writing (DHA) - 3cr.
- ENGL4300 - Shakespeare - 3cr.
- ENGL4310 - American Writers - 3cr.
- ENGL4320 - British Writers - 3cr.
- ENGL4330 - World Writers - 3cr.
- ENGL4340 - Studies in Fiction - 3cr.
- ENGL4345 - Studies in Nonfiction - 3cr.
- ENGL4350 - Studies in Poetry - 3cr.
- ENGL4360 - Studies in Drama - 3cr.
- ENGL4365 - Studies in Film - 3cr.
- ENGL4370 - Native American Literature - 3cr.

- ENGL4375 - U.S. Latinx Literature - 3cr.
- ENGL4380 - African American Literature - 3cr.
- ENGL4390 - Contemporary Literature (CI) - 3cr.
- ENGL4630 - Environmental Justice Literature - 3cr.

E. Electives (9 credits)

Complete the following:
Select 9 elective credits from ENGL courses numbered 3000 and higher or TCR courses numbered 2000 and higher. Students may register for an internship for elective credit (ENGL 4900) that combines their academic skills with their professional interests and allows them to develop valuable workplace skills. This program allows up to three credits of internship. No more than three elective credits may be taken as ENGL4900 INTERN AND COOP EXPER.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

English - MA

Program Overview

College
College of Arts & Sciences

Department
English

Program Level
Graduate

About this Degree

The English Department at Utah State University offers a master's degree (MA or MS) that allows students to do advanced work in the fields of Literature, Culture, and Composition or in the field of Creative Writing. The aim is to professionalize students and to help them to become scholars and teachers of English. Any student with a strong undergraduate education in English or related fields and a desire to pursue that education further is welcome to pursue the master's degree in English. The degree caters directly to future Ph.D. students in English, future two-year college instructors, and secondary educators. For up-to-date information, including advice for submitting a competitive application, refer to the English Graduate Program web page. For more comprehensive information about graduate programs in the English Department, refer to the Graduate Program Handbook. To apply, go to the graduate school admission page.

Applicants will be admitted to either the specialization in Literature, Culture, and Composition (LCC) or the Specialization in Creative Writing (SCW). The GRE, MAT, or GMAT are not required to be considered for the English graduate program. Applicants need to have a minimum GPA of 3.00 on a 4.00 scale in the last 60 credits taken in order to be considered. International applicants from non-English-speaking countries should see the additional requirements described on the Graduate School Admissions Policies. Applications are due January 15th.

All coursework can be completed within the English Department. However, students may take one course outside the department if it is relevant to their Program of Study and they have received permission from both the DGS and their Supervisory Committee chair to take it.

The MA/MS in English is an on-campus degree.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades lower than a B- will not be accepted for an English graduate degree.

The Program of Study for the English master's degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above. Refer to degree requirements above for more information. To count toward degree requirements, courses numbered below 6000 must be approved by the Director of Graduate Studies and Supervisory Committee chair.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Students may take a one-week ENGL summer credit workshop at the master's (6000) level with the approval of their supervisory committee; however, summer workshops are not covered by tuition waiver.

All English graduate students must successfully defend their thesis and submit the thesis to the library. An oral defense typically takes place in the last semester of study. For details on the thesis writing and defense process, refer to the Graduate Student Handbook.

An English graduate student writing a Plan A Thesis will also be required to complete the following academic forms during their time of study:

- Supervisory Committee
- Program of Study
- Thesis/Project Approval
- Appointment for Examination
- Record of Examination
- Format and Style
- Authorship and Copyright
- Possibly an Embargo Form
- SGS and library review and approval
- Other forms may be required; for details refer to the Graduate Student Handbook.

An English graduate student writing a Plan B Thesis will also be required to complete the following academic forms during their time of study:

- Supervisory Committee
- Program of Study
- Thesis/Project Approval
- Appointment for Examination
- Record of Examination
- Possibly an Embargo Form
- SGS and library review and approval
- Other forms may be required; for details refer to the Graduate Student Handbook.

Specialization in Literature, Culture, and Composition (LCC)

Type
Completion Requirement

Requirements

The MA in English with the specialization in Literature, Culture, and Composition (LCC) study subjects as varied as Nordic mythology, the influence of reggae in contemporary world literature, and agency in the teaching of composition. Students with a strong background and interest in critical thinking, reading, and writing are encouraged to apply.

In this specialization, students are required to take at least one course in each area—literature, culture, and composition—and concentrate in one area for their thesis, which they develop in collaboration with a faculty mentor and a thesis committee. In addition to traditional projects, students have written theses on the intersection of Harry Potter and social media, Star Wars as it moves from the screen to the page, and how race factors into writing instruction. The degree caters especially to those who plan to continue their studies by seeking a Ph.D. in English education, rhetoric and composition, literature, or cultural studies, as well as to future two-year college instructors and secondary educators.

Students are required to complete a minimum of 30 credits (including thesis credits) for the Master of Arts or the Master of Science degree.

Students' Program of Study should include at least one in-person course in each area: one Literature class (3 credits), one Culture class (3 credits), and one Composition class (3 credits). Courses may not be double-counted. For instance, American Literature and Culture can count for the "Literature" category requirement but not also for the "Culture" category requirement, even though the course is classified in both categories. The Practicum in Teaching English (a pedagogy class for new Graduate Instructors) does not count for the "Composition" category requirement.

Students must complete a thesis project. Most students complete a Plan B thesis project, a scholarly exploration of an applicable topic that may come in a variety of forms, such as a journal-length essay, a review of literature, a personal essay, or a combination of several forms (e.g., multimedia) that are the equivalent of 30–50 pages of writing. However, a predominantly creative work such as a collection of poems or a creative nonfiction essay, while acceptable in the Creative Writing specialization, would not be appropriate for the Plan B thesis in the LCC specialization.

Depending on their project, a student's Supervisory Committee chair may encourage them to do a Plan A project, a critical study of 50–100 pages in length that involves 3 additional credits of Thesis and one fewer seminar.

Students should take coursework that supports the topic of their thesis. For example, if they want to write a thesis on science fiction literature, they should take as many literature courses as possible.

Fulfill ANY of the following requirements:

Literature Courses

Courses with a central objective to examine literature, literary traditions, or literary criticism and theory:

Complete ANY of the following Courses:

- ENGL6320 - Literary Theory - 3cr.
- ENGL6330 - Topics in Literary Study - 3cr.
- ENGL6340 - British Literature and Culture - 3cr.
- ENGL6350 - American Literature and Culture - 3cr.
- ENGL6360 - World Literature and Culture - 3cr.

OR

Culture Courses

Courses with a central objective to examine the interactions of culture, identity, and power within the English field framework:

Complete ANY of the following Courses:

- ENGL6340 - British Literature and Culture - 3cr.
- ENGL6350 - American Literature and Culture - 3cr.
- ENGL6360 - World Literature and Culture - 3cr.
- ENGL6620 - Seminar in Native American Studies - 3cr.
- ENGL6840 - Multilingual Writing and Pedagogies - 3cr.
- ENGL6895 - Critical Rhetorics and Pedagogies - 3cr.

OR

Composition Courses

Courses with a central objective to examine composition& rhetorical theory and practice:

Complete ANY of the following Courses:

- ENGL6810 - Introduction to Composition Studies - 3cr.
- ENGL6815 - Writing Studies Research Methods - 3cr.
- ENGL6840 - Multilingual Writing and Pedagogies - 3cr.
- ENGL6890 - Studies in Writing and Rhetoric - 3cr.
- ENGL6895 - Critical Rhetorics and Pedagogies - 3cr.

Specialization in Creative Writing (SCW)

Type

Completion Requirement

MA in English with a Specialization in Creative Writing

The MA/MS in English with a Specialization in Creative Writing allows students to do advanced work in creative writing, concentrating on poetry, fiction, and/or creative nonfiction. Students with a strong background in creative writing who desire to continue on that path are encouraged to apply. In this specialization, students take creative-writing workshops in all three of the genres before concentrating on one genre for their thesis on which they work closely with a faculty member and their thesis committee. Hybrid theses that cross genre boundaries are also welcome. The aim of this specialization is to allow students additional time after their undergraduate work to hone their craft, continue their apprenticeship as a writer, complete a substantial body of work, and pursue publication. The degree caters especially to those who plan to continue their studies in creative writing by seeking a Ph. D. or MFA in creative writing, as well as to future two-year college instructors and secondary educators. For more details, refer to the Creative Writing Specialization.

Students should take graduate creative writing workshops in poetry, fiction, and nonfiction (one workshop per semester) as well as other coursework that supports their theses. For example, if students want to write a poetry thesis, they will benefit from enrolling in as many poetry-oriented literature courses as possible.

Complete at least 4 of the following courses:

- ENGL6880 - Topics in Creative Writing - 3cr.
- ENGL6882 - Fiction Writing Workshop - 3cr.
- ENGL6883 - Poetry Writing Workshop - 3cr.
- ENGL6884 - Creative Nonfiction Writing Workshop - 3cr.

Additional Requirements for MA Degree

Type

Completion Requirement

Additional Comments:

To obtain an MA (Master of Arts) degree, students must demonstrate proficiency in one or more foreign languages. Students in English must pass a language requirement in order to receive an MA degree. Without a foreign language, students will receive an MS (Master of Science).

The language requirement for the MA degree may be completed in the following ways:

Test: Pass a test of written and oral comprehension in an approved foreign language through the Department of World Languages and Cultures at Utah State University.

Coursework: Students may satisfy the requirement through one of the following forms of coursework:

- Demonstrate proficiency in one foreign language by successful completion of one course at the 2020 level or higher (or its equivalent)
- Demonstrate proficiency in two foreign languages by successful completion of the 1020 course level (or its equivalent) in one language and the 2020-level (or its equivalent) for the other

- Complete an upper-division (3000-level or higher or the equivalent) in a foreign language grammar or literature course requiring the 2020 level (or its equivalent) as a prerequisite. Note: Conversation courses do not satisfy this requirement.

Students who have earned a Bachelor of Arts degree or who have passed coursework in a foreign language within the past five years from the date of matriculation into the English graduate program may petition for acceptance of coursework to fulfill the language requirement for the MA degree. Please see the English Department's Director of Graduate Studies for more information.

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

English Teaching minor students must meet and maintain a 2.5 GPA for admission and graduation. This minor is available only to students completing a teaching major. Students may not use the *P/D/F* option, and grades *C-* and below must be repeated.

Section 1

Type
Completion Requirement

Core Requirement (3 credits)

Complete ALL of the following Courses:

- ENGL2600 - Literary Analysis - 3cr.

Section 2

Type
Completion Requirement

Literature Courses (9 credits)

Fulfill ALL of the following requirements:

British Literary History courses:

Complete at least 1 of the following courses:

- ENGL3305 - Medieval Literary History - 3cr.
- ENGL3315 - Early Modern British Literary History - 3cr.
- ENGL3325 - Eighteenth-Century British Literary History - 3cr.
- ENGL3335 - Nineteenth-Century British Literary History - 3cr.
- ENGL3345 - Literary History of the British Isles Since 1900 - 3cr.

AND

American Literary History courses:

Complete at least 1 of the following courses:

- ENGL3355 - Literary History of the Early Americas - 3cr.
- ENGL3365 - Nineteenth-Century American Literary History - 3cr.
- ENGL3375 - Literary History of the Americas Since 1900 - 3cr.
- ENGL3610 - Multicultural American Literature - 3cr.
- ENGL3620 - Native American Studies - 3cr.
- ENGL4370 - Native American Literature - 3cr.

- ENGL4375 - U.S. Latinx Literature - 3cr.
- ENGL4380 - African American Literature - 3cr.

AND

World Literary History Courses

Complete at least 1 of the following courses:

- CLAS3210 - Classical Mythology - 3cr.
- ENGL3210 - Classical Mythology - 3cr.
- ENGL3385 - Postcolonial World Literature - 3cr.
- ENGL3395 - World Literature in Translation - 3cr.
- ENGL4330 - World Writers - 3cr.

Section 3

Type
Completion Requirement

Shakespeare Course (3 credits)

Complete ALL of the following Courses:

- ENGL4300 - Shakespeare - 3cr.

Section 4

Type
Completion Requirement

Writing Course (3 credits)

Complete at least 1 of the following courses:

- ENGL2160 - AI and Writing: Cultural and Historical Perspectives - 3cr.
- ENGL3180 - Writing for the Public - 3cr.
- ENGL3190 - Data Storytelling (CI) - 3cr.
- ENGL3160 - AI and Writing Across Disciplines (CI) - 3cr.
- ENGL3240 - Writing Family Stories (DHA) - 3cr.
- ENGL3420 - Fiction Writing - 3cr.
- ENGL3430 - Poetry Writing - 3cr.
- ENGL3440 - Creative Nonfiction Writing - 3cr.

Section 5

Type
Completion Requirement

English Teaching Courses (9 credits)

Complete ALL of the following Courses:

- ENGL3510 - Teaching Young Adult Literature - 3cr.
- ENGL4500 - Teaching Writing (CI) - 3cr.
- ENGL4510 - Teaching Literature (CI) - 3cr.

English Teaching Clinical Requirement (3 credits)

Students must be admitted to STEP before taking ENGL3500 TEACHING ENGLISH and ENGL4520 TEACHING LITERACY. ENGL3500 TEACHING ENGLISH and SCED3300 CLINICAL EXPERIENCE I must be taken together. ENGL4520 TEACHING LITERACY and SCED4300 CLINICAL EXPERIENCE II must be taken together. Students only need to complete one of these pairings for the English Teaching minor.

Complete ANY of the following Courses:

- ENGL4520 - Teaching Literacy in English Language Arts Classrooms - 2cr.
  AND SCED4300 - Clinical Experience II - 1cr.
- ENGL3500 - Teaching English - 2cr.
  AND SCED3300 - Clinical Experience I - 1cr.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Environmental Justice - Institutional Certificate of Proficiency

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

This is a 9-credit micro certificate in Environmental Justice. Environmental justice approaches focus on fair and equitable outcomes and meaningful involvement and participation in processes of environmental decision-making. Environmental justice is intersectional and interdisciplinary and relates to inequality based on class, gender, race, ethnicity, Indigeneity, sexuality, disability, etc., and spans local to global scales. This micro certificate in Environmental Justice prepares students to understand and, if desired, support environmental justice efforts in their personal and professional lives.

Students learn about environmental justice theories, efforts, and case studies from the local to the global level and will gain a deeper understanding of the related processes of inequality. Students who complete this micro certificate are knowledgeable about and prepared to support environmental justice efforts in their communities and work in environmental justice-related fields, including government, nonprofit, and corporate positions.

Program Requirements

Total Credits Required In Program Coursework
9

Total Credits Required To Earn This Credential
9

Simple Requisites

Program Requirements

Required credits: 9

Maximum credits: 15

Required course: 1 (3 credits)

Elective courses: 2 (6 credits)

The micro certificate requires the completion of 9 credits with a grade of C or better, at least 50% of which must be completed at USU. Courses taken pass/fail will not count towards the micro certificate. Courses more than 10 years old will not count towards the micro certificate. To enroll in the micro certificate, students must have a GPA of 2.5 at USU and 2.5 overall. GPA required to earn the certificate is 2.25 in the courses applying toward the certificate.

This certificate must be attached to a bachelor's degree.

Environmental Justice - ICP

Type
Completion Requirement

Required course (3 credits)

Complete ALL of the following Courses:

- SOC3310 - Environmental Justice - 3cr.

Elective Courses (6 credits minimum)

Select one elective from Axes of Inequality Courses (3 credits minimum) and one elective from Social Change Courses (3 credits minimum).

Fulfill ALL of the following requirements:

Course options for Axes of Inequality

Complete at least 1 of the following courses:

- CJ4200 - Criminal Justice Ethics - 3cr.
- CJ4440 - The Origins of the United States Criminal Justice System (DSS) - 3cr.
- SOC2370 - Sociology of Gender (BSS) - 3cr.
- SOC2630 - Sociology of Race and Ethnicity (BSS) - 3cr.
- SOC2650 - Globalization and International Development (BSS) - 3cr.
- SOC3010 - Social Inequality (DSS) - 3cr.
- SOC3330 - Medical Sociology (DSS) - 3cr.
- SOC3520 - Sociology of Mental Illness - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.
- SOC3750 - Sociology of Aging (DSS) - 3cr.
- SOC4410 - Race and Crime (CI) - 3cr.

AND

Course options for Social Change

Complete at least 1 of the following courses:

- CJ3400 - Tribal Criminal Justice Systems - 3cr.
- CMST3280 - Organizations and Social Change - 3cr.
- CMST4260 - Environmental Communication - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.

Environmental Planning - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Landscape Architecture & Environmental Planning

Program Level
Undergraduate

About this Degree
The Bachelor of Science in Environmental Planning prepares future professionals to recognize the reciprocal relationship between the biophysical attributes of a region and the human dimensions of settlement and culture; build expertise in large-scale landscape level analysis and planning, and serve as leaders within a transdisciplinary environment to develop better alternatives for land-use decisions and policy.

The program produces highly skilled environmental planners for multiple levels of professional practice while actively engaging and benefitting communities with landscape-scale planning projects.

- For more information about Environmental Planning, see the website.
- Please note that LAEP students have specific computer requirements.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest Math Requirement for this degree is: MATH1100 CALCULUS TECHNIQUES (QL) and STAT1040 INTRO TO STATISTICS (QL) or STAT2000 STATISTICAL METHODS (QI)

Admission Requirements for this Program
- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.50 GPA

Program Requirements

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

A minimum overall GPA of 3.0 is required in LAEP-prefix courses, with no individual LAEP-prefix course grade less than a C-. No pass/fail grades are accepted to fulfill LAEP-prefix courses. A minimum USU overall GPA of 2.5 is required for all other courses used to fulfill major requirements.

All general education requirements set forth by the University are to be met. Some of the core Environmental Planning coursework fulfills General Education Requirements, such as BLS, BAI, QI, and CI requirements, while 15 credits of other general education courses are not. Students should consult with their Academic Advisor and make a plan to complete all general education requirements.

Required Courses (77 credits)

Type
Completion Requirement

Environmental Planning Core (38 credits)

Complete ALL of the following Courses:

- LAEP1040 - Introduction to Environmental Planning and Sustainable Development (BLS) - 3cr.
- LAEP1300 - Digital Drafting, Illustration, and Modeling - 3cr.
- LAEP5200 - Bioregional Analysis and Planning - 5cr.
- LAEP2700 - Analysis Design I - 5cr.
- LAEP5210 - Bioregional Management and Policy - 5cr.
- LAEP5300 - GIS for Environmental Planning - 4cr.
- LAEP5370 - City and Regional Planning (CI) - 3cr.
- LAEP5380 - Planning Methods - 3cr.
- LAEP5400 - Advanced Geospatial Analysis and Visualization for Environmental Planning - 4cr.
- LAEP6750 - Implementation and Regulatory Techniques in Planning - 3cr.

Economic Development Core (15 credits)

Complete ALL of the following Courses:

- APEC1600 - Natural Resources and American Economic Institutions (BAI) - 3cr.
  OR ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- APEC2010 - Introduction to Microeconomics (BSS) - 3cr.
  OR ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- APEC5560 - Natural Resource and Environmental Economics - 3cr.
- APEC5700 - Regional and Community Economic Development - 3cr.
- APEC5950 - Applied Economics Policy Analysis - 3cr.

Natural Resources (9 credits)

Complete ALL of the following Courses:

- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
  OR PHIL3530 - Environmental Ethics (DHA) - 3cr.
- GEO3100 - Natural Disasters (DSC) - 3cr.
  OR GEO3000 - Epic Earth - Geoscience of National Parks (DSC) - 3cr.
  OR PSC3100 - Soils and Civilization (DSC) - 3cr.
  OR ENVS3600 - Living with Wildlife (DSC) - 3cr.
  OR PSC5760 - Climate and Climate Change (DSC)(QI) - 3cr.

Other (15 credits)

Complete ALL of the following Courses:

- DATA2100 - Data and Information in Business - 3cr.
- MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.
  OR SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
  OR ANTH5650 - Developing Societies (DSS) - 3cr.
  OR ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
  OR POLS4820 - Natural Resources and Environmental Policy: Political Economy of Environmental Quality (DSS) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1080 - Foundations of Data Science (QL) - 3cr.
  OR STAT2000 - Statistical Methods (QI) - 4cr.
- LAEP4910 - Foundations of Business in Design and Planning (CI) - 3cr.

See below

Optional Elective Courses (27 credits)

In addition to the core coursework required to develop the professional skills and competency to practice Environmental Planning, the degree program is structured to provide students with opportunities to differentiate themselves in the professional marketplace according to their interests and aptitudes. Students seeking a Bachelor of Science in Environmental Planning degree should complete a Certificate of Proficiency or Minor. The following are suggested LAEP certificates and minors which may be completed within the 120 credit requirement for the degree:

- Advanced Design, Geospatial, and Visualization Technologies
- Design Entrepreneurship
- Digital Modeling and Visualization
- Landscape Architecture - Minor
- Sustainable Systems – Minor

Other certificates and minors may potentially be completed within the 120 credit requirement for the degree, including:

- Environmental Justice
- Social Dimensions of Climate Change
- Social Dimensions of Climate Change and Environmental Justice - Minor
- Climate Change Solutions
- Anticipatory Intelligence – Minor
- Community Development Economics – Minor
- Environmental and Natural Resource Economics – Minor
- Geographic Information Science – Minor or applied Certificate

Students seeking an alternate Certificate of Proficiency or Minor from the USU Catalog should consult with their Academic Advisor to declare a certificate or minor and make a plan to complete all degree requirements without extending beyond the 120 credits required to earn the Bachelor of Science in Environmental Planning degree.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.

- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Environmental Planning - Institutional Certificate of Proficiency

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Landscape Architecture & Environmental Planning	Undergraduate

About this Degree

The Certificate in Environmental Planning at Utah State University (USU) provides students with an introductory professional education in the core principles of environmental planning. The Certificate in Environmental Planning complements multiple majors within USU by offering a planning component through professional education in the core principles of environmental planning. Students benefit by earning a directly applicable credential to be more competitive in the marketplace.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
16	16

Simple Requisites

Program Requirements

A minimum overall GPA of 3.0 is required in LAEP-prefix courses, with no individual LAEP-prefix course grade less than a C-. No pass/fail grades are accepted to fulfill LAEP-prefix courses. A minimum USU overall GPA of 2.5 is required for all other courses used to fulfill certificate requirements.

Section 1

Type
Completion Requirement

Required Environmental Planning Professional Foundation Courses (10 credits)

Complete ALL of the following Courses:

- LAEP1040 - Introduction to Environmental Planning and Sustainable Development (BLS) - 3cr.
- LAEP5300 - GIS for Environmental Planning - 4cr.
- LAEP5380 - Planning Methods - 3cr.

Section 2

Type
Completion Requirement

Elective Courses (6 credits minimum)

Complete ALL of the following Courses:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- CMST4260 - Environmental Communication - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
- LAEP5370 - City and Regional Planning (CI) - 3cr.
- LAEP6750 - Implementation and Regulatory Techniques in Planning - 3cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.

Environmental Planning - MS

Program Overview

College
College of Agriculture & Natural Resources

Department
Landscape Architecture & Environmental Planning

Program Level
Graduate

About this Degree
Informed planning and management of natural resources and systems supersede individual disciplines, requiring an interdisciplinary approach for the successful resolution of environmental issues. The intent of this program's curriculum is to integrate the biophysical disciplines more closely while also addressing the social and political sciences. This degree program is offered by the Department of Landscape Architecture and Environmental Planning in the College of Agriculture and Applied Sciences.

Program Requirements

Total Credits Required In Program Coursework
42

Total Credits Required To Earn This Credential
42

Simple Requisites

Program Requirements

This two-year MS program is comprised of an interdisciplinary core of courses and faculty for addressing complex issues in the areas of bioregional planning and management. Emphasis is placed on four problematic content areas: biophysical, social/demographic, economic, and public policy. The spatial focus is on planning for large landscape areas with dispersed populations with a primary economic base in agriculture, energy development, tourism/ recreation, communities, and natural resources.

The program requires a minimum of 42 graduate-level credits, including eight credits of work on a thesis or paper/project. Six of the required credits are electives in an area of concentration. These credits are to be negotiated with the candidate's major professor and supervisory committee. Requirements for the MS in Environmental Planning are as follows:

Required Courses

Type
Completion Requirement

LAEP Courses (28 credits)

Complete ALL of the following Courses:
- LAEP5380 - Planning Methods - 3cr.
- LAEP6110 - Landscape Ecology for Planning - 3cr.
- LAEP6200 - Bioregional Analysis and Planning - 5cr.
- LAEP6210 - Bioregional Management and Policy - 5cr.
- LAEP6300 - GIS for Environmental Planning - 4cr.
- LAEP6740 - Planning Theory and Implementation Issues - 3cr.
- LAEP6750 - Implementation and Regulatory Techniques in Planning - 3cr.
- LAEP6860 - Faculty/Interdisciplinary Seminar I - 1cr.
- LAEP6930 - Readings in Environmental Planning - 1cr.

Thesis (8 credits)

A Plan A thesis or Plan B paper/project option is required and is to be negotiated with the candidate, major professor, and supervisory committee. Every graduate student is required to complete 2 credits of

LAEP6970 THESIS RESEARCH and an additional 3 credits of LAEP6970 THESIS RESEARCH **or** 3 credits in LAEP6960 MASTER'S PROJECT depending on plan type.

Complete ALL of the following Courses:

- LAEP6880 - Landscape Architecture Research Methods - 2cr.
- LAEP6890 - Seminar on Thesis Proposals and Procedures - 1cr.
- LAEP6970 - Thesis Research - 1cr.

all students must complete 2 credits in LAEP6970 THESIS RESEARCH

Plan A Thesis

Earn at least 3 credits from the following:

- LAEP6970 - Thesis Research - 1cr.

Plan B Thesis

Earn at least 3 credits from the following:

- LAEP6960 - Master's Project - 1cr.

Elective Courses (6 credits)

The following are suggested electives:

Complete ANY of the following Courses:

- ENVS6310 - Introduction to Environmental Laws and Policy - 3cr.
- LAEP6160 - Foundations of Business in Design and Planning - 3cr.
- LAEP6400 - Advanced Geospatial Analysis and Visualization for Environmental Planning - 3cr.

Environmental and Natural Resource Law and Policy - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Undergraduate

About this Degree

The Undergraduate Certificate in Environmental and Natural Resource Law and Policy provides students with (1) a broad introduction to, and overview of, environmental and natural resource law and policy and associated processes, including existing legal and policy structures and frameworks; and (2) additional law and policy knowledge and policy analysis skills based on student selection among complementary courses offered at Utah State University. Adding the certificate on to a major in various different fields can provide valuable skills and knowledge, including for jobs and careers in natural resources, the environment, agriculture, community and city planning, business, law, and public policy, among others. Certificate completion also can assist students in preparation for an advanced professional degree in law.

Admission Requirements for this Program

To be admitted to this program, students must be pursuing BS or BA degree at Utah State University. Students should make an appointment with an academic advisor in the S. J. and Jessie E. Quinney College of Agriculture and Natural Resources to add this certificate: https://qanr.usu.edu/advising/.

Program Requirements

Total Credits Required In Program Coursework
9

Total Credits Required To Earn This Credential
9

Simple Requisites

Program Requirements

Required program coursework consists of 9 total credits, most commonly taken as three 3-credit courses.

Environmental and Natural Resource Law and Policy - Certificate (9 credits)

Type
Completion Requirement

Certificate Core

Complete ALL of the following Courses:

- ENVS3010 - Natural Resource and Environmental Policy - 3cr.

Certificate Electives

Complete at least 2 of the following courses:

- APEC1600 - Natural Resources and American Economic Institutions (BAI) - 3cr.
- APEC2900 - Agricultural and Natural Resource Law - 3cr.
- ENVS5320 - Water Law and Policy in the United States - 3cr.
- POLS4820 - Natural Resources and Environmental Policy: Political Economy of Environmental Quality (DSS) - 3cr.

Students can propose other appropriate courses for potential approval by the Department to meet the electives requirements, including internship experiences or directed projects completed with academic credit.

Program Learning Outcomes

Program Learning Outcomes

Upon completing this certificate, students will be able to:

1. Demonstrate a basic understanding of environmental and natural resource law and policy processes and outcomes.
2. Demonstrate expanded understanding of environmental or natural resource policy from multidisciplinary and/or specific application area perspectives.

Environmental Studies - Minor

18

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

The Environmental Studies minor is open to all majors. All courses required for the minor must be taken on an *A-B-C-D-F* basis. A grade of *C-* or better is required for all courses taken to meet the requirements for the minor. The grade point average for all courses with ENVS, GEOG, WATS, or WILD prefixes must be a 2.5 or higher.

Students should make an appointment with an academic advisor in the S.J. and Jessie E. Quinney College of Agriculture and Natural Resources to add this minor: qanr.usu.edu/advising/.

Minor Core

Type
Completion Requirement

Required Courses (12 credits)

Complete ALL of the following Courses:

- ENVS1350 - Introduction to Environmental Science (BLS) - 3cr.
- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr. **OR** WATS2220 - General Ecology - 3cr.

Minor Electives

Type
Completion Requirement

Electives (6 credits)

Complete at least 2 of the following courses:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.
- ENVS3320 - Archaeology of Climate Change (DSS) - 3cr.
- ENVS3400 - Fundamentals of Tourism - 3cr.
- ENVS3500 - Environmental Data Science (QI) - 3cr.
- ENVS3600 - Living with Wildlife (DSC) - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
- ENVS4030 - Building Community Environmental Resilience - 3cr.
- ENVS4130 - Natural Resource Recreation Policy and Planning - 3cr.
- ENVS4200 - Sustainability Metrics - 3cr.
- ENVS4250 - Advanced Internship/Co-op - 1cr.
- ENVS4500 - Advanced Natural Resource Recreation Management (CI) - 3cr.
- ENVS4700 - Communicating Sustainability (CI) - 3cr.
- ENVS4950 - Special Topics - 1cr.
- ENVS4960 - Directed Readings - 1cr.
- ENVS5000 - Environmental Nonprofit and Volunteer Management - 3cr.
- ENVS5020 - Human Dimensions of Fire Management - 3cr.
- ENVS5100 - Introduction to Modeling Human-Environment Systems - 3cr.
- ENVS5200 - Anthropological Perspectives on Conservation - 3cr.
- ENVS5320 - Water Law and Policy in the United States - 3cr.
- ENVS5350 - Ecological Economics - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- ENVS5600 - Natural Resource Interpretation - 3cr.
- ENVS5750 - Global Change Ecology - 3cr.
- ENVS5800 - Environment and Society Departmental Colloquium - 1cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- GEOG3200 - Principles of Remote Sensing - 3cr.
- GEOG5120 - Environment and Development in Latin America (CI) - 3cr.
- GEOG4210 - Geography of Utah - 3cr.
- GEOG5400 - Natural Hazards and Society - 3cr.

Environmental Studies - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Undergraduate

About this Degree

Environmental studies majors learn about the ecology of natural areas and about the political, economic, geographic, and social aspects of nature and its management.

Students focus on natural resource and environmental issues confronting society as they look for solutions that can sustain both the natural environment and human communities.

Compared to the Environmental Science and Sustainability BS, the Environmental Studies BS places greater emphasis on the social and behavioral sciences for an understanding of human attitudes, perceptions, and behavior, as well as economic, legal, and policy systems, for addressing the environmental challenges facing human societies.

- Admitted and current students must meet with an academic advisor for help with semester-by-semester planning, connections to co-curricular experiences, understanding of USU policies, and accessing USU resources.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT1040 INTRO TO STATISTICS (QL), STAT1045 INTRO STAT WITH ALGEBRA (QL), or STAT1080 FOUNDATIONS OF DATA SCI (QL)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
65-68

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses required for the major must be taken on an A-B-C-D-F basis. A grade of C- or better and a grade point average of 2.5 or higher is required for all ENVS, GEOG, WATS, or WILD courses used to meet requirements for the major.

Course Requirements

Type
Completion Requirement

Disciplinary Foundations (12-14 credits)

Complete ALL of the following Courses:

- ENVS1350 - Introduction to Environmental Science (BLS) - 3cr.
- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT1080 - Foundations of Data Science (QL) - 3cr.
- WATS2220 - General Ecology - 3cr.
  OR WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

Physical Science Course Options in the Disciplinary Foundation (3-4 credits)

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- GEOG1000 - Physical Geography (BPS) - 3cr.

OR

Option 2

Complete ALL of the following Courses:

- GEO1360 - Planet Earth (BPS) - 3cr.

OR

Option 3

Complete ALL of the following Courses:

- CHEM1010 - Introduction to Chemistry (BPS) - 3cr.

OR

Option 4

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
  AND GEO1115 - Physical Geology Laboratory - 1cr.

Professional Coursework (20 credits)

Complete ALL of the following Courses:

- APEC1600 - Natural Resources and American Economic Institutions (BAI) - 3cr.
  OR APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- ENVS2000 - Natural Resource Professional Orientation - 1cr.
  OR WATS2000 - Natural Resource Professional Orientation - 1cr.
  OR WILD2000 - Natural Resource Professional Orientation - 1cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WILD2800 - Introduction to Geographic Information Sciences - 4cr.
- ENVS3500 - Environmental Data Science (QI) - 3cr.
- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
- ENVS4700 - Communicating Sustainability (CI) - 3cr.
- ENVS3600 - Living with Wildlife (DSC) - 3cr.
  OR PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.

Professional Coursework Options (12 credits):

Any of these courses taken in excess of the required 12 credits of Professional Coursework will count towards the student's Degree Electives.

Earn at least 12 credits from the following:

- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.
- ENVS3600 - Living with Wildlife (DSC) - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- ENVS4030 - Building Community Environmental Resilience - 3cr.
- ENVS4200 - Sustainability Metrics - 3cr.
- ENVS5020 - Human Dimensions of Fire Management - 3cr.
- ENVS5000 - Environmental Nonprofit and Volunteer Management - 3cr.
- ENVS5100 - Introduction to Modeling Human-Environment Systems - 3cr.
- ENVS5350 - Ecological Economics - 3cr.
- ENVS5750 - Global Change Ecology - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- GEOG3800 - Geospatial Data Visualization - 3cr.

Degree Electives (18 credits)

Complete the remaining Environmental Studies degree credits from the following list. Courses taken to fulfill the 12 credits of Professional Coursework above will not *also* count as degree electives.

Earn at least 18 credits from the following:

- ANTH2010 - Peoples of the Contemporary World (BSS) - 3cr.
- APEC5560 - Natural Resource and Environmental Economics - 3cr.
- BIOL5010 - Biogeography - 3cr.
- CMST4260 - Environmental Communication - 3cr.
- ECON3550 - Law and Economics - 3cr.
  OR POLS3170 - Law and Economics - 3cr.
- ENGL3440 - Creative Nonfiction Writing - 3cr.
- ENGL3640 - Nature Writing (DHA) - 3cr.
- ENGL4440 - Advanced Nonfiction Writing (CI) - 3cr.
- ENGL4630 - Environmental Justice Literature - 3cr.
- ENGL4650 - Utah's Public Lands: Past, Present, Future (DHA/HASS) - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.
- ENVS3320 - Archaeology of Climate Change (DSS) - 3cr.
- ENVS3600 - Living with Wildlife (DSC) - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- ENVS4030 - Building Community Environmental Resilience - 3cr.
- ENVS4130 - Natural Resource Recreation Policy and Planning - 3cr.
- ENVS4200 - Sustainability Metrics - 3cr.
- ENVS4350 - Ecological Economics - 3cr.
- ENVS4500 - Advanced Natural Resource Recreation Management (CI) - 3cr.
- ENVS4950 - Special Topics - 1cr.
- ENVS4960 - Directed Readings - 1cr.
- ENVS4970 - Undergraduate Research - 1cr.
- ENVS5000 - Environmental Nonprofit and Volunteer Management - 3cr.
- ENVS5020 - Human Dimensions of Fire Management - 3cr.
- ENVS5100 - Introduction to Modeling Human-Environment Systems - 3cr.
- ENVS5200 - Anthropological Perspectives on Conservation - 3cr.
- ENVS5320 - Water Law and Policy in the United States - 3cr.
- ENVS5350 - Ecological Economics - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- ENVS5600 - Natural Resource Interpretation - 3cr.
- ENVS5750 - Global Change Ecology - 3cr.
- ENVS5800 - Environment and Society Departmental Colloquium - 1cr.
- GEO3100 - Natural Disasters (DSC) - 3cr.
- GEOG1300 - World Geography: Human and Environmental Dynamics (BSS) - 3cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- GEOG3200 - Principles of Remote Sensing - 3cr.
- GEOG3700 - Python Programming for GIS - 3cr.
- GEOG3800 - Geospatial Data Visualization - 3cr.
- GEOG4210 - Geography of Utah - 3cr.
- GEOG4900 - GIS Individual Projects - 1cr.
- GEOG4950 - Special Topics - 1cr.
- GEOG5120 - Environment and Development in Latin America (CI) - 3cr.
- GEOG5300 - Geospatial Analysis with R - 3cr.
- GEOG5400 - Natural Hazards and Society - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- HIST3950 - Environmental History (DHA/CI) - 3cr.
- LAEP2039 - Foundations of Sustainable Systems - 3cr.
- LAEP5370 - City and Regional Planning (CI) - 3cr.
- POLS2430 - Contemporary Geopolitics (BSS) - 3cr.
- PSC2010 - Soils, Waters, and the Environment (BPS) - 3cr.
- PSC2700 - Climate Change Impacts (BPS) - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.
- SOC3010 - Social Inequality (DSS) - 3cr.
- SOC3200 - Population and Society (DSS) - 3cr.
- SOC3300 - Sociology of Climate Change - 3cr.
- SOC3310 - Environmental Justice - 3cr.
- SOC3340 - Activism, Protest, and Social Movements (DSS) - 3cr.
- SOC3600 - Finding Community in Today's Society (DSS) - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.
- SOC4350 - People, Power, and the Political - 3cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
- SOC4640 - Managing Community Conflict (CI) - 3cr.
- SOC4720 - Effective Community Engagement - 3cr.
- WATS2050 - Data Management for Natural Resources – Cleaning and Shaping Data - 1cr.
- WATS2060 - Data Management for Natural Resources – Data Display and Analysis - 1cr.
- WATS2500 - Introduction to Marine Biology (BLS) - 3cr.
- WATS3000 - Oceanography (DSC) - 3cr.
- WATS3450 - Introduction to Coral Reefs-Field Course (DSC) - 3cr.
- WATS4100 - Climate Adaptation Intern Program - 3cr.
- WATS5110 - Environmental Biogeochemistry - 3cr.
- WATS5210 - The Secret Life of Elements on Earth - 2cr.
- WILD2400 - Wildland Resource Techniques - 3cr.
- WILD4600 - Conservation Biology - 3cr.
- WILD5320 - Wildland Field Skills I - 1cr.
- WILD5321 - Wildland Field Skills II - 1cr.
- WILD5322 - Wildland Field Skills III - 1cr.
- WATS5530 - Water Quality and Pollution - 3cr.

Other appropriate courses not listed above may be approved by the student's faculty advisor.

Open Electives

Complete the following as needed:
Students may take the remainder of the 120 credits from any department. The guidelines described under "Breadth Requirements" and "Depth Education Requirements" should be consulted to ensure meeting University Studies Requirements. Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Program Learning Outcomes

Program Learning Outcomes

Upon completing their program, students will be able to:

- Describe and explain environmental issues from a rigorous interdisciplinary perspective by integrating insights based on principles, theories, and information from the natural sciences, social sciences, and humanities
- Demonstrate understanding of ethical dimensions of environmental issues

- Apply, evaluate, and interpret appropriate quantitative methods (e.g. geographic information systems, statistics, and systems modeling) to gain information and understanding of environmental problems
- Synthesize and integrate material in interdisciplinary team-structured activities
- Communicate information necessary to understand environmental problems and solutions in written, oral, and visual formats to professional and lay audiences in a manner that is both scientifically accurate, relatable and understandable by the audience
- Demonstrate understanding of how the interactions between humans and the environment affect human health, ecosystem health, resource availability, sustainability, and political stability
- Demonstrate understanding of how environmental policy is made and how, together with economic incentives, it structures people's use of environmental resources

English Teaching Composite - Literature Emphasis - BS (NOT CURRENTLY OFFERED)

Program Overview

College	Department	Program Level
College of Arts & Sciences	English	Undergraduate

About this Degree

With its small class sizes and nationally published faculty members, the English Department helps students develop skills in analysis, production, and understanding of texts in the English language. Students learn to write, think, and communicate effectively in a technologically and culturally complex world. Students develop skills in the areas most valued by employers, including critical thinking, teamwork, and oral and written communication, which will prepare them to enter into a wide range of career options.

Because the English Department is home to faculty that are heavily involved in research, students are provided with numerous opportunities to pursue undergraduate research projects and creative projects with individual attention from professors.

Students receive a by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages. See Undergraduate Academic Credential Requirements for required language credit.

English Teaching Composite: Students emphasizing in English teaching prepare to teach secondary level English in the public school system. Students take a wide range of literature, writing, and teaching courses that prepare them to teach language arts in secondary education classrooms.

Literature Emphasis: Literary studies students read, analyze, and research texts and writers in American, British, and other world literatures as well as their cultural contexts. Students in literary studies develop critical thinking and communication skills that prepare them for a variety of careers.

- For more information about English Teaching Composite: Literature, see the Department of English website.
- As an English major with an emphasis in English Teaching, you will receive your BA/BS through the Department of English in the College of Humanities and Social Sciences. Teacher licensure is earned through the College of Education and Human Services.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is Quantitative Literacy (QL) Quantitative Literacy (QL) of the student's choice. STAT1040 INTRO TO STATISTICS (QL), STAT1045 INTRO STAT WITH ALGEBRA (QL), or STAT1080 FOUNDATIONS OF DATA SCI (QL) is recommended.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU: 2.5 GPA*

  ***Minimum GPA for Admission:** 2.5 USU cumulative GPA (including courses taken for another USU major); 2.5 career total GPA (including transfer credits) for new transfer students. 2.5 GPA within all English courses (other than ENGL 1010, ENGL 2010, CLEP, AP, etc.); 2.5 USU cumulative (including courses taken for another USU major); 2.5 career total (including transfer credits) for new transfer students.

Simple Requisites

Program Requirements

English Teaching Emphasis

- **Minimum GPA for Graduation:** 2.75 within major courses; 2.0 USU cumulative (3.0 USU cumulative required for admission to STEP); 2.75 career total (for licensure)
- **Number of Required Credits:** 62
- **Credits in Residence:** Students must complete 21 credits of major-applicable coursework at Utah State University.
- **Other Requirements:**
    - To obtain professional licensure at graduation, students must fulfill the requirements of the Secondary Teacher Education Program (STEP) prescribed by the School of Teacher Education and Leadership (TEAL). STEP (typically requires 3 semesters; see TEAL website and advisor for STEP advising) is required for licensure, and ENGL1410 ELEMENTS OF GRAMMAR.
    - The English Teaching Composite: American Studies program prepares students towards professional licensure in the teaching of secondary-level English, with additional preparation in American Studies. Students become versed in their academic subject matter (the language arts, emphasizing writing); skilled in the methods of teaching the various components of the English curriculum and classroom management techniques; and committed to the achievement of all students. The English Teaching Composite: American Studies offers a robust menu of courses, recognizing the complexity and depth of English studies.
    - In addition to the required exploratory courses and content-focused courses in English and American Studies, students take classes in pedagogy to learn about curriculum, planning, instructional delivery, assessment, and related topics. Two clinical experiences provide in-school experiences before student teaching. Admission to STEP is required for clinical experiences.
    - Students are urged to complete the required Exploratory courses early in their program of study and to complete an additional 6 credits of English before taking ENGL4500 TEACHING WRITING (CI) and ENGL4510 TEACHING LITERATURE (CI). When possible, students should complete all of their required 3000-level courses before taking 4000-level courses.

Type
Completion Requirement

English Major Core (9 credits)

ENGL2600 LITERARY ANALYSIS is required. Students may fulfill the rest of the core credits from the following courses. Students should take note of the superscripts to find emphasis-specific requirements.

Earn at least 9 credits from the following:

- ENGL2040 - Introduction to Writing Studies (BHU) - 3cr.
- ENGL2600 - Literary Analysis - 3cr.
- ENGL2050 - Literature by Women (BHU) - 3cr.
- ENGL2060 - Reading Across Borders (BHU) - 3cr.
- ENGL2070 - Introduction to Digital Humanities (BHU) - 3cr.
- ENGL2160 - AI and Writing: Cultural and Historical Perspectives - 3cr.
- ENGL2200 - Understanding Literature (BHU) - 3cr.
- ENGL2210 - Introduction to Folklore (BHU) - 3cr.
- ENGL2220 - Introduction to Fiction (BHU) - 3cr.
- ENGL2230 - Introduction to Film (BHU) - 3cr.
- ENGL2240 - Introduction to Poetry (BHU) - 3cr.
- ENGL2250 - Introduction to Creative Writing (BHU) - 3cr.
- ENGL2300 - Introduction to Shakespeare (BHU) - 3cr.
- ENGL2330 - Introduction to Children's Literature (BHU) - 3cr.
- ENGL2350 - Indigenous Voices (BHU) - 3cr.
- ENGL2630 - Introduction to American Studies (BHU) - 3cr.
- ENGL2640 - Race and Ethnicity in the United States (BHU) - 3cr.
- ENGL2720 - Survey of American Folklore - 3cr.
- ENGL3140 - Introduction to LGBTQ+ Literature (DHA) - 3cr.
- ENGL3150 - Science Fiction (DHA) - 3cr.
- TCR2100 - Introduction to Technical Communication - 3cr.
- TCR2110 - Digital Writing Technologies - 3cr.

Emphasis Requirements (53 credits)

Type
Completion Requirement

B. Literature Courses (12 credits)

Select four courses. One course must focus on American literature content and one must focus on world literature content.

Complete at least 4 of the following courses:

- CLAS3210 - Classical Mythology - 3cr.
  OR ENGL3210 - Classical Mythology - 3cr.
- ENGL3305 - Medieval Literary History - 3cr.
- ENGL3315 - Early Modern British Literary History - 3cr.
- ENGL3325 - Eighteenth-Century British Literary History - 3cr.
- ENGL3335 - Nineteenth-Century British Literary History - 3cr.
- ENGL3345 - Literary History of the British Isles Since 1900 - 3cr.
- ENGL3355 - Literary History of the Early Americas - 3cr.
- ENGL3365 - Nineteenth-Century American Literary History - 3cr.
- ENGL3375 - Literary History of the Americas Since 1900 - 3cr.
- ENGL3385 - Postcolonial World Literature - 3cr.
- ENGL3395 - World Literature in Translation - 3cr.
- ENGL3610 - Multicultural American Literature - 3cr.
- ENGL3620 - Native American Studies - 3cr.
- ENGL3630 - The Farm in Literature and Culture (CI/DHA) - 3cr.
- ENGL4310 - American Writers - 3cr.
- ENGL4320 - British Writers - 3cr.
- ENGL4330 - World Writers - 3cr.
- ENGL4340 - Studies in Fiction - 3cr.
- ENGL4345 - Studies in Nonfiction - 3cr.
- ENGL4350 - Studies in Poetry - 3cr.
- ENGL4360 - Studies in Drama - 3cr.
- ENGL4365 - Studies in Film - 3cr.
- ENGL4370 - Native American Literature - 3cr.
- ENGL4375 - U.S. Latinx Literature - 3cr.
- ENGL4380 - African American Literature - 3cr.
- ENGL4390 - Contemporary Literature (CI) - 3cr.
- ENGL4610 - Western American Literature (CI/DHA) - 3cr.
- ENGL4630 - Environmental Justice Literature - 3cr.
- ENGL5300 - Special Topics in Literature (CI) - 3cr.
- ENGL5320 - Gender and Sexuality in Literature (CI) - 3cr.
- ENGL5330 - Race and Ethnicity in Literature (CI) - 3cr.
- ENGL5340 - Multimedia Literature (CI) - 3cr.

C. Shakespeare Course (3 credits)

Complete ALL of the following Courses:

- ENGL4300 - Shakespeare - 3cr.

D. Linguistics Course (3 credits)

Complete at least 1 of the following courses:

- ENGL4200 - Linguistic Structures - 3cr.
- ENGL4210 - History of English: Change and Diversity - 3cr.

E. Writing Courses (15 credits)

Select five of the following courses (selected courses may not also be used for the Writing Exploratory requirement). ENGL4540 TEACHING CREATIVE WRITING is recommended.

Complete at least 5 of the following courses:

- ENGL3040 - Perspectives in Writing and Rhetoric (DHA) - 3cr.
- ENGL3420 - Fiction Writing - 3cr.
- ENGL3430 - Poetry Writing - 3cr.
- ENGL3440 - Creative Nonfiction Writing - 3cr.
- ENGL4540 - Teaching Creative Writing - 3cr.
- TCR2100 - Introduction to Technical Communication - 3cr.
- TCR2110 - Digital Writing Technologies - 3cr.
- TCR3220 - Technical Editing (CI) - 3cr.
- TCR4210 - Visual Communication Design - 3cr.
- TCR4250 - Careers in Professional Communication (CI) - 3cr.

F. English Education Courses (17 credits)

Complete ALL of the following Courses:

- ENGL3470 - Approaches to Research (QI) - 3cr.
- ENGL3500 - Teaching English - 2cr.
- ENGL3510 - Teaching Young Adult Literature - 3cr.
- ENGL4500 - Teaching Writing (CI) - 3cr.
- ENGL4510 - Teaching Literature (CI) - 3cr.
- ENGL4520 - Teaching Literacy in English Language Arts Classrooms - 2cr.

NOTE:

1. ENGL3500 TEACHING ENGLISH - Students must also register for SCED3300 CLINICAL EXPERIENCE I when taking ENGL3500 TEACHING ENGLISH.
2. ENGL4520 TEACHING LITERACY - Students must also register for SCED4300 CLINICAL EXPERIENCE II when taking ENGL4520 TEACHING LITERACY.

G. Grammar Requirement (3 credits)

Complete ALL of the following Courses:

- ENGL1410 - Elements of Grammar - 3cr.

H. Secondary Teacher Education Program (STEP)

English Teaching students must complete the STEP program to be eligible for graduation and to receive a license to teach in the public school system. The STEP program is administered through the Secondary Education Program of the School of TEAL, Emma Eccles Jones College of Education and Human Services. Students must be admitted to STEP before taking many STEP courses. Among the requirements for admission is a Criminal Background Check. While completing student teaching, students must pass the required PPAT assessment. STEP requirements are subject to change based on changes in state licensure. Students should meet with an advisor in the School of TEAL for further information regarding this program.

Fulfill ALL of the following requirements:

STEP Requirements (29 credits)

These three courses may be taken prior to admission.

Complete ALL of the following Courses:

- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- ITLS2500 - Technology Enabled Instruction - 3cr.

AND

STEP Requirements

Complete ALL of the following Courses:

- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.

NOTE:

1. SCED3300 CLINICAL EXPERIENCE I - Students must also register for ENGL3500 TEACHING ENGLISH when taking SCED3300 CLINICAL EXPERIENCE I.
2. SCED4300 CLINICAL EXPERIENCE II - Students must also register for ENGL4520 TEACHING LITERACY when taking SCED4300 CLINICAL EXPERIENCE II.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Engineering Technology - AAS

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Engineering Technology - AAS degree offers an immersive, hands-on learning experience designed to cultivate practical skills and innovative thinking. Emphasizing laboratory work and project-based learning, this program allows students to engage directly with cutting-edge technology and real-world applications. From designing and building prototypes to working on interdisciplinary projects, students can design and build solutions to technical problems in various lab spaces while gaining a robust understanding of engineering technology principles. Graduates are well-prepared for dynamic careers in engineering technology fields, ready to solve complex problems with practical, innovative solutions.

- For more information about Engineering Technology, see the website.
- Following is a sample two-year plan. Please note that student-specific plans may differ.
- Admitted students must meet with an advisor. Current students should also meet with an advisor and log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1060 TRIGONOMETRY

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.2 GPA

Engineering Technology - AAS Course Requirements

Type
Completion Requirement

Required Core Courses (44 - 46 credits)

Students will need to complete the following courses with a C- or better:

Complete ALL of the following Courses:

- DATA1100 - Excel for Business Analysis - 1cr.
- ETEC1000 - Introduction to Engineering Technology - 1cr.
- ETEC1010 - Engineering Technology Principles - 3cr.
  OR TESY1020 - Energy, Power, Transportation Systems Control Technology - 3cr.
- PHYS1200 - Introduction to Physics by Hands-on Exploration (BPS) - 4cr.
  OR PHYS1800 - Physics of Technology (BPS) - 4cr.
  OR PHYS2210 - Physics for Scientists and Engineers I (QI/ BPS) - 4cr.
- ETEC2020 - Introduction to Automation - 3cr.
  OR CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
- ETEC2200 - Engineering Technology Communications - 3cr.
- ETEC2300 - Introduction to Electronics - 4cr.
  OR TEE2300 - Electronic Fundamentals (QI) - 3cr.
- ETEC2310 - Electronics Systems - 3cr.
  OR CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1060 - Trigonometry - 2cr.
- TESY1200 - Computer-Aided Drafting and Design - 3cr.
- TESY2200 - Intermediate CAD - 3cr.
- TESY1030 - Material Processing Systems - 3cr.
- CHEM1110 - General Chemistry I (BPS) - 4cr.
  OR CHEM1210 - Principles of Chemistry I - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.

Technical Electives (3-4 credits)

Students must take 3-4 credits of technical elective. Students looking to pursue the BAS in Engineering Technology, it is recommended that MATH 1210 be taken to fulfill the technical elective requirements. Students should choose from the following courses:

Earn at least 3 credits from the following:

- ASTE2100 - Personal and Team Leadership - 3cr.
- BCIS1300 - Website Design - 3cr.
- BUSN2390 - Organizational Behavior - 3cr.
- CMST1020 - Public Speaking (BHU) - 3cr.
- MATH1210 - Calculus I (QL) - 4cr.
- NDFS1250 - Sanitation and Safety - 3cr.
- TEE1010 - Graphic Communication Technologies - 3cr.
- TEE1040 - Construction and Estimating - 3cr.
- TEE2030 - Wood-Based Manufacturing Systems - 3cr.
- UAS1010 - Unmanned Aircraft Systems - Remote Pilot - 3cr.
- UAS1100 - Introduction to Unmanned Aircraft Systems - 1cr.
- UAS1200 - Unmanned Aircraft Systems Introduction to Fixed-Wings - 3cr.
- UAS1300 - Unmanned Aircraft Systems Introduction to Multirotor - 3cr.
- UAS1500 - Introduction to Unmanned Aircraft Systems Maintenance and Components - 3cr.
- UAS2100 - Unmanned Aircraft Systems Flight Lab - Patterns and Maneuvers - 3cr.
- UAS2300 - Unmanned Aircraft Systems Multirotor Autonomy - 3cr.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students need a minimum grade of C- in required core classes.

Entrepreneurship - Minor

Program Overview

College
Jon M. Huntsman School of Business

Department
Marketing and Strategy

Program Level
Undergraduate

Admission Requirements for this Program
No prerequisite courses are required to complete this minor.

Program Requirements

Total Credits Required In Program Coursework
12

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

An Entrepreneurship Minor is available to all majors at the university. Students are responsible for completing prerequisite courses where applicable. A minimum, average 2.5 GPA must be obtained in the Minor for the Minor to be awarded at graduation. Courses for the minor *may not* be taken on a pass/fail basis. At least nine (9) of the credits for the minor must be completed through USU.

It is recommended to complete the following courses in sequential order.

Section 1

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MSLE3530 - New Venture Marketing - 3cr.
  OR MSLE3200 - Adobe Graphic Design - 3cr.
- MSLE3540 - New Venture Finance - 3cr.
- MSLE3580 - New Venture Execution - 3cr.
  OR MSLE3555 - Applied Artificial Intelligence in Entrepreneurship - 3cr.

For students interested in pursuing marketing related entrepreneurial ventures, MSLE3200 ADOBE GRAPHIC DESIGN can be taken as substitute for MSLE3530 NEW VENTURE MARKETING.

MSLE3555 AI IN ENTREPRENEURSHIPcan be taken as a substitute for MSLE3580 NEW VENTURE EXECUTION course. MSLE3555 AI IN ENTREPRENEURSHIP is focused on developing entrepreneurial ventures using AI technologies.

Entrepreneurship Options

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- MSLE3510 - New Venture Creation - 3cr.

Students who did not take MSLE2600 INTRO ENTREPRENEURSHIP in high school for university credit should enroll in MSLE3510 NEW VENTURE CREATION

OR

Option 2

Complete ALL of the following Courses:

- MSLE2600 - Introduction to Entrepreneurship - 3cr.

MSLE2600 INTRO ENTREPRENEURSHIP is intended as a Concurrent Enrollment (high school enrollment) substitute for MSLE3510 NEW VENTURE CREATION in the Minor. Students who did not take MSLE2600 in high school for university credit should enroll in MSLE3510 NEW VENTURE CREATION.

OR

Option 3

Complete ALL of the following Courses:

- MSLE3590 - Small Business Consulting - 2cr.
- MSLE2550 - Entrepreneur Leadership Series - 1cr.

MSLE3590 SMALL BUSINESS CONSULTING (SEED program) can be taken as a substitute for MSLE3510 in the Minor. MSLE3590 SMALL BUSINESS CONSULTING is by advanced application approval and requires prework. Please see the Center for Entrepreneurship for more details.

Note: The Minor requires a minimum of 12 credit hours. If students take MSLE3590 SMALL BUSINESS CONSULTING (2cr) instead of MSLE3510 NEW VENTURE CREATION (3cr), they also need to enroll in the online, instructor approval required, section of MSLE2550 ENTREPRENEUR LEADERSHIP SERIES (1cr) so they fulfill the 12 credit hours of entrepreneurship courses for a Minor.

Environment and Society - MS

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Graduate

About this Degree

The MS in Environment and Society is an interdisciplinary master's degree with both Plan A (thesis) and Plan B (paper/project) options. It allows for a personalized program of study built around a core of environmental social and behavioral science, with additional work drawn from the biophysical and geospatial sciences as appropriate to the student's research and professional goals. Focus is on policy and management as well as on contribution to basic scientific understanding of socio-environmental systems and human-environment interactions. For additional degree information, see the program page on the Department of Environment and Society website. Students may complete the Graduate Specialization in Climate Adaptation Science Specialization as a part of this degree.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Requirements for this degree include the graduate school and program requirements outlined below.

Graduate School and Home Department Requirements:

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- **Thesis Research Credits 6970:** Plan A students must take at least 6 thesis (ENVS 6970) credits/Plan B students must take a minimum of 2 credits of thesis research (ENVS 6970) but no more than 3 can be included on an approved Program of Study.
- Presentation at the Department's Pre-Project Graduate Research Symposium.
- Completion of the Responsible Conduct of Research (*RCR*) Training
- Approval of a thesis (Plan A) or paper/project (Plan B) proposal.
- Successful defense of the thesis (Plan A) or paper/project (Plan B).
- Submission of thesis to the School of Graduate Studies and library for review and approval, or of the paper/project to the library.
- Completion of academic forms required by the School of Graduate Studies.
    - Supervisory Committee Approval
    - Program of Study
    - Master's Thesis Proposal/Project Approval
    - Appointment for Examination
    - Record of Examination
    - Application for Graduation

Requirements

Type
Completion Requirement

A. Complete the Required Core (4 credits):

Complete ALL of the following Courses:

- ENVS6800 - Environment and Society Departmental Colloquium - 1cr.
- ENVS6840 - Graduate Orientation Seminar for Environment and Society - 1cr.
- ENVS6841 - The Socio-Environmental Research Process - 1cr.
- ENVS6842 - Methodology for Socio-Environmental Research - 1cr.

B. Complete a Committee-Approved Plan of Study (minimum of 26 additional credits) that includes:

1. Theory coursework (at least 3 credits)

2. Methods/analysis coursework (at least 3 credits)

3. Thesis research (Plan A) or a paper/project (Plan B)

ENVS6970 THESIS RESEARCH (6 credits for Plan A or 2-3 credits for Plan B)

4. Elective courses (14 credits Plan A or 17-18 credits Plan B)

Complete ALL of the following Courses:

- ENVS6970 - Thesis Research - 1cr.

Equine Assisted Services - Institutional Certificate of Proficiency

Program Overview

College
College of Agriculture & Natural Resources

Department
Animal, Dairy & Veterinary Sciences

Program Level
Undergraduate

About this Degree

The Equine-Assisted Services Institutional Certificate of Proficiency (ICP) is a 12-credit program that provides a foundational overview of the field of Equine-Assisted Services (EAS). In EAS, horses are incorporated into various therapies, learning environments, and adaptive equestrian sports and/or recreational lessons to benefit humans' mental, physical, and emotional health. Through the required courses, students will gain an understanding of the principles of EAS, how to train and assess horses for EAS, and the fundamentals of instructing horsemanship skills. Students will choose an additional course to enhance their learning in topics such as the human-animal bond, teaching, management, or leadership. Hands-on labs are provided to enhance student learning. With this foundational knowledge of EAS, students will be prepared to pursue industry certifications.

Admission Requirements for this Program

Students must be in good standing (2.0 GPA or higher) to be admitted to the program.

Program Requirements

Total Credits Required In Program Coursework
12

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

1. Attain a grade point average of at least 2.50 across all courses applied toward this certificate.
2. Courses required for the certificate may *not* be taken for a *pass/fail* grade except for courses that are only offered as pass/fail.
3. A minimum grade of C is required in all courses applied toward this certificate.

Equine-Assisted Services Course Requirements

Type
Completion Requirement

Required Courses (12 credits)

Complete ALL of the following Courses:

- ADVS2800 - Riding Fundamentals for Instructors - 3cr.
- ADVS3150 - Principles of Equine-Assisted Services - 3cr.
- ADVS3610 - Training and Conditioning of the Lesson Horse - 3cr.
- ADVS5710 - Conceptualizing the Human-Animal Bond - 3cr.
  OR ASTE2100 - Personal and Team Leadership - 3cr.
  OR ASTE4155 - Nonformal Teaching Methods - 3cr.
  OR ASTE4215 - Community Programming and Evaluation - 3cr.
  OR ASTE5220 - Volunteer Programs and Partnerships - 3cr.
  OR MSLE3110 - Managing Organizations and People (DSS) - 3cr.

NOTE:

1. ADVS2800 RIDING FUND FOR INSTRUCTORS has a prerequisite of ADVS1200 BASIC HORSEMANSHIP SKILLS.

Equine Science and Management - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Animal, Dairy & Veterinary Sciences

Program Level
Undergraduate

About this Degree

The Equine Science and Management BS degree includes the core scientific disciplines of animal science while focusing on the biological, behavioral, and management principles central to the equine industry. Students gain a broad understanding of current scientific applications in equine health, performance, welfare, and management practices.

Students in this program will not only explore these areas in the classroom, but will also engage in applied experiences in areas such as equine nutrition, reproduction and physiology, behavior and training, facility and herd management, and equine industry operations.

- For more information about the Department of Animal, Dairy & Veterinary Sciences, see the website.
- If you are a new/entering student, we strongly recommend reviewing the suggested degree map.
- Admitted and current students must meet with an advisor (see below).
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL).

Contact Caisa Shoop at caisa.shoop@usu.edu, 435-797-4275, or here for advising.

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.75 GPA

Program Requirements

- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- MATH1050 - College Algebra (QL) - 4cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.

NOTE:

1. A minimum of 3 credits of ADVS4270 INTERNSHIP IN EQUINE INDUSTRY is required.

Directed Electives (9 credits)

Earn at least 9 credits from the following:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ADVS2100 - Weanling Behavior and Handling - 3cr.
- ADVS2150 - Yearling Fitting and Sales Preparation - 3cr.
- ADVS2400 - Riding Fundamentals II - Intermediate - 3cr.
- ADVS2600 - Riding Fundamentals II--Western - 2cr.
- ADVS2800 - Riding Fundamentals for Instructors - 3cr.
- ADVS3150 - Principles of Equine-Assisted Services - 3cr.
- ADVS3280 - Applied Animal Molecular & Cellular Biology - 4cr.
- ADVS3300 - Equine Lower Limb Form and Function - 3cr.
- ADVS3600 - Equine Behavior and Training - 3cr.
- ADVS3610 - Training and Conditioning of the Lesson Horse - 3cr.
- ADVS3750 - Equine Behavior and Training II - 3cr.

- ADVS3920 - Ag Animal Extension Field Experience - 1cr.
- ADVS4220 - Applied Equine Reproduction I - 3cr.
- ADVS4310 - Animal Growth and Development - 3cr.
- ADVS5620 - Advanced Animal Physiology - 3cr.
- ADVS5860 - Poisonous Range Plants Affecting Livestock - 3cr.
- APEC1400 - Introduction to Agriculture Policy (BSS) - 3cr.
- APEC2010 - Introduction to Microeconomics (BSS) - 3cr.
- APEC2500 - Commodity Futures and Options Trading and Analysis - 3cr.
- APEC2830 - Agribusiness Sales and Marketing - 3cr.
- APEC3010 - Agricultural Economics (DSS) - 3cr.
- ASTE3600 - Data Management of Agricultural Systems (QI) - 3cr.
- BUSN2050 - Business Law - 3cr.
- BUSN2320 - Small Business Management - CTE - 3cr.
- DATA2100 - Data and Information in Business - 3cr.
- MSLE3110 - Managing Organizations and People (DSS) - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3510 - New Venture Creation - 3cr.
- MSLE3530 - New Venture Marketing - 3cr.
- MSLE3540 - New Venture Finance - 3cr.
- MSLE3580 - New Venture Execution - 3cr.
- PSC2010 - Soils, Waters, and the Environment (BPS) - 3cr.
- PSC4320 - Forage Production and Pasture Management - 3cr.
- WILD4000 - Principles of Rangeland Management - 3cr.

NOTE:

1. A maximum of 6 directed elective credits may be experiential learning courses (currently ADVS3920 AG ANIMAL FIELD EXP).

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your academic advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Equine - Minor

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Animal, Dairy & Veterinary Sciences	Undergraduate

About this Degree

A minor can be valuable when associated with a major in agricultural education, agricultural economics, plant science, nutrition and food science, business, economics, computer science, rangeland resources, and in other disciplines where the animal industry has direct or indirect involvement.

The Equine minor offers courses that cover equine healthcare and maintenance, basic equine conformation, and topics essential to current equine industry careers. The Equine minor is designed to enrich students' general studies and provide hands-on learning experiences throughout their education. The minor is appropriate for students who are interested in pursuing agriculturally-based careers and would like to broaden their equine knowledge.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
14	14

Simple Requisites

Program Requirements

1. Attain a grade point average of at least 2.50 across all ADVS courses.
2. Courses required for the minor may *not* be taken for a *pass/fail* grade except for courses that are only offered as pass/fail.
3. A minimum grade of C is required in all courses applied toward this minor.

The following is a listing of courses for the minor. A specific course may not be used to fulfill the requirements of more than one ADVS minor.

Section 1

Type
Completion Requirement

Requirements

Complete ALL of the following Courses:

- ADVS1110 - Introduction to Animal Science (BLS) - 3cr.
- ADVS2190 - Horse Production Practices - 3cr.
- ADVS2300 - Horse Health Care - 2cr.
- ADVS3100 - Equine Evaluation and Judging - 3cr.

Choose one course from the following:

Complete at least 1 of the following courses:

- ADVS1200 - Basic Horsemanship Skills - 3cr.
- ADVS2500 - Feeds and Feeding - 3cr.
- ADVS3520 - Equine Nutrition and Exercise Physiology - 3cr.
- ***Or one other equine-related ADVS course with the approval of the ADVS academic advisor.***

Environmental Science and Sustainability - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Undergraduate

About this Degree

Environmental Science and Sustainability majors learn foundational knowledge of biological, chemical, and physical principles integrated with environmental social science on human behavior, decision-making, and policy in relation to human interactions with the natural environment. Compared to the Environmental Studies BS, the Environmental Science and Sustainability BS provides a stronger foundation in the natural sciences and opportunities for added natural science depth.

Students integrate across different types of knowledge to prepare to help society face the challenges of environmental change and work towards environmental sustainability.

- Admitted and current students must meet with an academic advisor for help with semester-by-semester planning, connections to co-curricular experiences, understanding of USU policies, and accessing USU resources.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT2000 STATISTICAL METHODS (QI), STAT3000 STATISTICS FOR SCIENTISTS (QI), or STAT3080 DATA SCIENCE FOR SCIENTISTS.

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
72-84

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses required for the major must be taken on an A-B-C-D-F basis. A grade of *C-* or better and a grade point average of 2.5 or higher is required for all ENVS, GEOG, WATS, or WILD courses used to meet requirements for the major.

Major Requirements

Type
Completion Requirement

A. Professional & Integrative Core (22-23 credits)

Fulfill ALL of the following requirements:

Integrated Introduction (6 credits)

Complete ALL of the following Courses:

- ENVS1350 - Introduction to Environmental Science (BLS) - 3cr.
- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.

AND

College Professional Orientation and Student Success Course (1 credit)

Complete ANY of the following Courses:

- ENVS2000 - Natural Resource Professional Orientation - 1cr.
  OR WATS2000 - Natural Resource Professional Orientation - 1cr.
  OR WILD2000 - Natural Resource Professional Orientation - 1cr.

AND

Professional Series (9 credits)

Complete ALL of the following Courses:

- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS3500 - Environmental Data Science (QI) - 3cr.
- ENVS5750 - Global Change Ecology - 3cr.

AND

Communication Course (2-3 credits)

Complete ANY of the following Courses:

- ENVS5600 - Natural Resource Interpretation - 3cr.
- ENVS4700 - Communicating Sustainability (CI) - 3cr.
- MSLE3855 - Sustainability Marketing - 2cr.

AND

Geospatial Analysis Course (4 credits)

Complete ANY of the following Courses:

- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
- WILD2800 - Introduction to Geographic Information Sciences - 4cr.

B. Math, Statistics, & Natural Sciences Foundations (30-34 credits)

Fulfill ALL of the following requirements:

Math & Statistics Foundation (6-8 credits)

Complete ALL of the following Courses:

- MATH1050 - College Algebra (QL) - 4cr.
  OR MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
  OR MATH1210 - Calculus I (QL) - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
  OR STAT3080 - Data Science for Scientists - 3cr.

MATH1170 MODELING CHANGE and STAT3080 DATA SCIENCE FOR SCIENTISTS are the preferred options.

AND

Chemistry Foundation (9-10 credits)

Select one chemistry track (1110, 1120, 1125 *OR* 1210, 1215, 1220, 1225) for a total of 9-10 credits. 1210-1225 track is the preferred option for careers in science and to meet prerequisites for some electives

Earn at least 9 credits from the following:

- CHEM1110 - General Chemistry I (BPS) - 4cr.
  AND CHEM1120 - General Chemistry II (BPS) - 4cr.
  AND CHEM1125 - General Chemistry II Laboratory - 1cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
  AND CHEM1215 - Chemical Principles Laboratory I - 1cr.
  AND CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
  AND CHEM1225 - Chemical Principles Laboratory II - 1cr.

AND

Earth Sciences Foundation (6 credits)

Complete at least 1 of the following courses:

- GEOG1000 - Physical Geography (BPS) - 3cr.
- GEO1110 - Physical Geology (BPS) - 3cr.

We additionally strongly recommend that Logan-based students take the accompanying lab course, either GEOG1005 PHYSICAL GEOGRAPHY LAB or GEO1115 PHYSICAL GEOLOGY LAB

AND

Earth Sciences Foundation Electives

Select one additional Earth Sciences Foundation course from the following:

Complete at least 1 of the following courses:

- GEO2200 - The Earth Through Time - 3cr.
- GEO3100 - Natural Disasters (DSC) - 3cr.
- GEO3300 - Geology of the World's Oceans (DSC) - 3cr.
- PSC2010 - Soils, Waters, and the Environment (BPS) - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- GEO3600 - Geomorphology - 4cr.

AND

Biology/Ecology Foundation (9 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- WATS2220 - General Ecology - 3cr.

C. Systems & Management Directed Electives (20-27 credits)

Fulfill ALL of the following requirements:

Sustainability & Human-Environment Systems Electives (9 credits)

Complete at least 3 of the following courses:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- ENVS3320 - Archaeology of Climate Change (DSS) - 3cr.
- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
- ENVS5100 - Introduction to Modeling Human-Environment Systems - 3cr.
- ENVS5200 - Anthropological Perspectives on Conservation - 3cr.
- ENVS4970 - Undergraduate Research - 1cr.
- ENVS5350 - Ecological Economics - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- GEOG4210 - Geography of Utah - 3cr.
- GEOG5400 - Natural Hazards and Society - 3cr.
- LAEP2039 - Foundations of Sustainable Systems - 3cr.
- SOC3300 - Sociology of Climate Change - 3cr.
- SOC3310 - Environmental Justice - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.

AND

Atmosphere, Geosphere & Hydrosphere Electives (5-8 credits)

Complete at least 2 of the following courses:

- CHEM3650 - Environmental Chemistry (DSC) - 3cr.
- GEO5510 - Groundwater Geology (QI) - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.
- PSC5410 - Hydroclimate - 3cr.
- PSC5500 - Environmental Physics of Land Ecosystems & Climate - 3cr.
- WATS3600 - Geomorphology - 4cr.
- WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.
- WATS5210 - The Secret Life of Elements on Earth - 2cr.
- WATS5500 - Limnology: Ecology of Inland Waters - 3cr.

AND

Environmental Management & Sustainability Techniques Electives (6-10 credits)

Complete at least 2 of the following courses:

- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- ENVS4030 - Building Community Environmental Resilience - 3cr.
- ENVS4130 - Natural Resource Recreation Policy and Planning - 3cr.
- ENVS4200 - Sustainability Metrics - 3cr.
- ENVS4250 - Advanced Internship/Co-op - 1cr.
- ENVS4500 - Advanced Natural Resource Recreation Management (CI) - 3cr.
- ENVS5020 - Human Dimensions of Fire Management - 3cr.
- GEO3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr.
- GEOG3800 - Geospatial Data Visualization - 3cr.
- LAEP5200 - Bioregional Analysis and Planning - 5cr.
- LAEP5210 - Bioregional Management and Policy - 5cr.
- LAEP5370 - City and Regional Planning (CI) - 3cr.
- LAEP5380 - Planning Methods - 3cr.
- PSC4500 - Urban Soil Management and Reclamation - 3cr.
- WATS4100 - Climate Adaptation Intern Program - 3cr.
- WILD4700 - Ecological Foundations of Restoration - 3cr.
- WATS5360 - Wetland Ecology and Management - 3cr.
- WATS5530 - Water Quality and Pollution - 3cr.
- WATS5600 - Environmental Water Management - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Program Learning Outcomes

Program Learning Outcomes

At the end of this program, students will be able to…

1. Articulate basic understanding of chemistry, biology, and the earth sciences.
2. Integrate basic disciplinary science understanding in the context of environmental change.
3. Conceptualize social-environmental systems.
4. Apply systems thinking to understanding and addressing complex environmental problems.
5. Effectively communicate and initiate sustainability behaviors and policies grounded in environmental science.
6. Apply analytical tools to an environmental science context.

Elementary School Music Teaching - Minor

Program Overview

College
College of Arts & Sciences

Department
Music

Program Level
Undergraduate

About this Degree

This minor is for Early Childhood Education or Elementary Education majors only.

Advisor: Cary Youmans, 797-0513, Fine Arts 127

Admission Requirements for this Program

Students wishing to add the Elementary School Music Teaching minor should make an appointment with Cary Youmans.

Program Requirements

Total Credits Required To Earn This Credential

20

Simple Requisites

Program Requirements

At least one-half of the credits taken for the Elementary School Music Teaching minor must be taken at Utah State University.

Section 1

Type

Completion Requirement

Requirements (20)

Complete ALL of the following Courses:

- MUSC1010 - Introduction to Music (BCA) - 3cr.
- MUSC1100 - Fundamentals of Music for Non-Music Majors (BCA) - 3cr.
- MUSC1480 - Individual Piano Instruction for Nonmusic Majors - 1cr.
- MUSC1550 - Beginning Group Guitar - 1cr.
  OR MUSC1560 - Intermediate Group Guitar - 1cr.
- MUSC1600 - Voice Techniques - 1cr.
  OR MUSC1630 - Individual Vocal Instruction for Nonmusic Majors - 1cr.
- MUSC3260 - Elementary School Music - 3cr.

● Level 1 Orff Schulwerk Teacher Training (Summer only) (4 credits)
● Choral Ensemble (2 credits)
● Large or Small Ensemble (2 credits)

NOTES:

1. MUSC1480 PIANO INSTR-NONMAJOR and MUSC1630 VOCAL INSTR-NONMAJOR enroll in 1 credit.
2. Students must have completed a minimum of 45 credits prior to enrolling in MUSC3260 ELEMENTARY SCHOOL MUSIC. It is recommended that students complete MUSC1100 FUND OF MUSIC-NONMAJOR (BCA) and MUSC1480 PIANO INSTR-NONMAJOR.
3. The Orff Schulwerk teacher training course, taught as a workshop through the Music Department, is offered *only* during summer semester. The prefix and course number for this course varies; see Professor Timmons for further

information. Prior to taking this course, students should complete MUSC1100 FUND OF MUSIC-NONMAJOR (BCA) and MUSC3260 ELEMENTARY SCHOOL MUSIC.

Extension Education - Post-Bachelor's Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Graduate

About this Degree

The Post-Baccalaureate Certificate in Extension Education is a 12-credit, one-year, 100% online program. The program consists of three required courses and one course from the list of electives.

This certificate in Extension Education is critical in equipping professionals with the necessary skills to bridge the gap between expertise and effective education and outreach by addressing the unique challenges faced by Extension program coordinators, assistants, and others, this program contributes to community empowerment, skill diversification, and the overall advancement of Extension and outreach in Utah.

Key Features

Flexible Learning: Our 100% online post-bachelor's certificate allows you to balance your studies with your educational, professional, and personal commitments.

Comprehensive Curriculum: Our foundation core classes encompass courses in program planning & evaluation, volunteer programs, and adult education, with a variety of elective options.

Degree Enhancement: Utilize as a stand-alone post-baccalaureate certificate or augment your current graduate studies.

Stackable Credential: Stack these 12 credits into the M.S. in Agriculture Extension & Education, Family & Consumer Sciences Education, Technology & Engineering

Admission Requirements for this Program

Undergraduate degree from an accredited 4-year institution; 3.0 Undergraduate GPA

Program Requirements

12

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

A minimum GPA of 3.0 is required in all coursework taken to fulfill certificate requirements.

Extension Education Course Requirements

Type
Completion Requirement

Foundation Core Classes - Select 9 Credits

Fulfill ALL of the following requirements:

Block 1

Select one course

Complete at least 1 of the following courses:

- ASTE6170 - Program Planning and Evaluation - 3cr.

- ASTE6180 - Administration and Leadership - 3cr.

***ASTE6170 PROGRAM PLANNING & EVALUATION** offered fall semester, odd years*

***ASTE6180 ADMINISTRATION AND LEADERSHIP** offered fall semester, even years*

AND

Block 2

Complete ALL of the following Courses:

- ASTE6220 - Volunteer Programs and Partnerships - 3cr.

***ASTE6220 VOLUNTEER PROGRAMS** offered spring semesters*

AND

Block 3

Select one course

Complete at least 1 of the following courses:

- ASTE6160 - Foundations of Adult Education - 3cr.
- ASTE6170 - Program Planning and Evaluation - 3cr.
- ASTE6180 - Administration and Leadership - 3cr.
- ASTE6200 - Principles and Practices of Extension Education - 3cr.
- ASTE6220 - Volunteer Programs and Partnerships - 3cr.
- ASTE6920 - Communication Tools for Extension - 3cr.

***ASTE6160 ADULT EDUCATION** offered summer semesters*

***ASTE6920 COMM TOOLS FOR EXTENSION** offered spring semester, odd years*

Elective Courses

Type
Completion Requirement

Electives

Select 3 credits from the following elective options. Elective course must be different than foundation core courses.

Earn at least 3 credits from the following:

- ASTE6160 - Foundations of Adult Education - 3cr.
- ASTE6170 - Program Planning and Evaluation - 3cr.
- ASTE6180 - Administration and Leadership - 3cr.
- ASTE6200 - Principles and Practices of Extension Education - 3cr.
- ASTE6300 - Advanced Teaching Strategies - 3cr.
- ASTE6370 - Grant Writing and Management - 3cr.
- ASTE6380 - Mentoring and Supervision - 3cr.
- ASTE6920 - Communication Tools for Extension - 3cr.
- ASTE7500 - Diffusion of Innovations - 3cr.

Fisheries and Aquatic Sciences - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Watershed Sciences

Program Level
Undergraduate

About this Degree

Utah State University is the only university in the state with a college devoted to the study of natural resources, and the fisheries and aquatic science program is one of the few programs in the nation where students have the opportunity to focus on freshwater fish populations.

Fisheries and aquatic scientists understand the biology of rivers, lakes, and wetlands. The program highlights the ecology of freshwater and marine systems, management of important fisheries, restoration of riparian and wetland areas, and conservation of the plant and animal communities in lakes and rivers.

Students of fisheries and aquatic sciences learn the skills necessary to understand and manage freshwater fish populations. This major also includes an understanding of the relationships among physical, chemical, and biological components of aquatic ecosystems. Graduates of this program may go on to work as scientists and managers for state and federal natural resource agencies, researchers, or as professionals for environmental consulting firms, nonprofit environmental firms, and water-based industries.

Students may use their electives to explore interests in policy or water law, environmental history or ethics, oceanography, or genetics

- For more information about Fisheries and Aquatic Sciences, see the website.
- Admitted and current students must meet with an academic advisor for semester by semester planning.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT3000 STATISTICS FOR SCIENTISTS (QI)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
89-91

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses required for this major must be taken on an A-B-C-D-F basis. A grade of C- or better is required for all WATS and GEOG courses used to meet requirements for the Fisheries and Aquatic Sciences major. The grade point average for all courses taught by the College of Natural Resources must be 2.5 or higher.

Fisheries and Aquatic Sciences Required Courses

Type
Completion Requirement

Scientific Foundation (31-32 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1210 - Calculus I (QL) - 4cr.
  OR MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
- WATS2220 - General Ecology - 3cr.

Departmental Core (17 credits)

Complete ALL of the following Courses:

- WATS2000 - Natural Resource Professional Orientation - 1cr.
  OR ENVS2000 - Natural Resource Professional Orientation - 1cr.
  OR WILD2000 - Natural Resource Professional Orientation - 1cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
  OR WATS3500 - Water and Power - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WATS2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WILD2800 - Introduction to Geographic Information Sciences - 4cr.
- WATS3100 - Fish Ecology, Conservation, and Management (CI/DSC) - 3cr.
- WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.
- WATS5500 - Limnology: Ecology of Inland Waters - 3cr.

Fisheries Courses (24-25 credits)

Complete ALL of the following Courses:

- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- WATS3110 - Fish Ecology, Conservation, and Management Lab - 1cr.
- WATS5490 - Small Watershed Hydrology (QI) - 4cr.
  OR WATS5150 - Fluvial Geomorphology - 3cr.
- WATS4300 - Principles of Ecosystem Restoration - 3cr.
- WATS4510 - Aquatic Ecology Methods - 2cr.
  OR WATS3450 - Introduction to Coral Reefs-Field Course (DSC) - 3cr.
  OR WATS3200 - Marine Ecology: Expedition Sea of Cortez (DSC) - 3cr.
- WATS5200 - Fish Habitats - 2cr.
- WATS5305 - Ecology and Restoration of Plants - 3cr.
- WATS5540 - Ichthyology - 4cr.
- WATS5550 - Freshwater Invertebrates - 3cr.
- WATS5800 - Watershed Sciences Departmental Seminar - 1cr.

recommended to register for WATS3110 FISH ECOL CONSERV MGMT LAB concurrently with WATS3100 FISH ECOL CONSERV MGT (DSC/CI)

Directed Electives (17 credits)

Students must choose a minimum of 17 elective credits to complete the Fisheries and Aquatic Sciences degree requirements. The majority of these elective credits must come from courses directly related to the degree program. All elective courses must be approved by the student's faculty advisor before enrollment. The following is a list of recommended courses that could be used to satisfy this requirement.

Complete ALL of the following Courses:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- BIOL3020 - Evolutionary Biology - 3cr.
- BIOL3055 - Organismal Biology with Physiology Laboratory (CI) - 2cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3065 - Genetics Laboratory (CI) - 2cr.
- BIOL3070 - Computational Approaches to Biology - 3cr.
- BIOL3085 - Ecology Laboratory (CI) - 2cr.
- BIOL3150 - Quantitative Modeling of Life - 3cr.
- BIOL3300 - General Microbiology - 3cr.
- BIOL4060 - Exploring Animal Behavior - 3cr.
- BIOL4270 - Theoretical Ecology - 3cr.
- BIOL4420 - Plant Systematics and Diversity - 3cr.
- BIOL4540 - Invertebrate Zoology - 3cr.
- BIOL5010 - Biogeography - 3cr.
- BIOL5390 - Genes and Behavior (CI) - 3cr.
- BIOL5560 - Ornithology - 3cr.
- BIOL5600 - Comparative Animal Physiology - 3cr.
- BIOL5650 - Comparative Anatomy of the Vertebrates - 4cr.
- ENGL3640 - Nature Writing (DHA) - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS3600 - Living with Wildlife (DSC) - 3cr.
- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
- ENVS5100 - Introduction to Modeling Human-Environment Systems - 3cr.
- ENVS5350 - Ecological Economics - 3cr.
- ENVS5750 - Global Change Ecology - 3cr.
- ENVS6320 - Water Law and Policy in the United States - 3cr.
- GEO3550 - Sedimentation and Stratigraphy - 4cr.
- GEO3600 - Geomorphology - 4cr.
- GEOG3200 - Principles of Remote Sensing - 3cr.
- GEOG3800 - Geospatial Data Visualization - 3cr.
- GEOG3700 - Python Programming for GIS - 3cr.
- GEOG4910 - Geographic Information Science Portfolio - 1cr.
- GEOG5300 - Geospatial Analysis with R - 3cr.
- GEOG5805 - Introduction to Geospatial Artificial Intelligence: The Remote Sensing and GeoAI Frontier - 3cr.
- NR4251 - Natural Resources and Environmental Internships Preparation - 1cr.
- NR4252 - Natural Resources and Environmental Internship Achievements - 1cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.
- PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.
- TCR2100 - Introduction to Technical Communication - 3cr.
- WATS2050 - Data Management for Natural Resources – Cleaning and Shaping Data - 1cr.
- WATS2060 - Data Management for Natural Resources – Data Display and Analysis - 1cr.
- WATS2500 - Introduction to Marine Biology (BLS) - 3cr.
- WATS3000 - Oceanography (DSC) - 3cr.
- WATS3200 - Marine Ecology: Expedition Sea of Cortez (DSC) - 3cr.
- WATS3450 - Introduction to Coral Reefs-Field Course (DSC) - 3cr.

- WATS4050 - Marine Global Change: Impacts and Conservation Strategies - 3cr.
- WATS4100 - Climate Adaptation Intern Program - 3cr.
- WATS4250 - Advanced Internship/Co-op - 1cr.
- WATS4950 - Special Topics - 1cr.
- WATS4970 - Undergraduate Research - 1cr.
- WATS4990 - Senior Thesis - 2cr.
- WATS5055 - American Academy of Underwater Sciences Scientific Diver Certification Course - 2cr.
- WATS5110 - Environmental Biogeochemistry - 3cr.
- WATS5150 - Fluvial Geomorphology - 3cr.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Fashion Studies - Institutional Certificate of Proficiency

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Applied Sciences, Technology and Education	Undergraduate

About this Degree

The Fashion Studies Institutional Certificate of Proficiency will introduce students to the apparel and fashion industry through textile science, apparel construction, sustainability, and product development. Students will be able to learn design and development skills and processes related to soft goods apparel production. Courses include apparel construction, textile science, sustainable systems, relationships of fashion with a sociocultural context, fashion fundamentals, and entry-level business related to fashion marketing. This certificate enhances various career paths in fashion, design, costuming, anthropology, journalism, and business, strengthens resumes and empowers students through education and experience in fashion studies.

Advisor: Caisa Shoop

Simple Requisites

Program Requirements

Section 1

Type
Completion Requirement

Apparel Sewing and Design (6-9 credits)

Choose 2-3 of the following courses:

Complete at least 2 of the following courses:
- FCSE1040 - Introductory Sewing - 3cr.
- FCSE2040 - Intermediate Clothing Construction Skills, Principles, and Alterations - 3cr.
- FCSE3040 - Advanced Clothing Studies: Patternmaking - 3cr.

Section 2

Type
Completion Requirement

Historical and Social Context of Clothing (3 credits)

Choose one of the following:

Complete at least 1 of the following courses:
- FCSE3080 - Fashion Studies and Society (DHA) - 3cr.
- OPDD3600 - Sustainable Design and Operations - 3cr.
- THEA3570 - Historic Clothing (DHA) - 3cr.

Section 3

Type
Completion Requirement

Electives (0-3 credits)

Choose up to one of the following courses:

Complete ANY of the following Courses:

- APEC2830 - Agribusiness Sales and Marketing - 3cr.
- ART1010 - Exploring Art (BCA) - 3cr.
- BUSN2320 - Small Business Management - CTE - 3cr.
- OPDD1100 - Introduction to Product Creation - 3cr.
- TEE1010 - Graphic Communication Technologies - 3cr.

Family and Consumer Sciences Education - Community-Based Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Undergraduate

About this Degree
The Family and Consumer Sciences Education (FCSE) program trains students to become family and consumer sciences (FCS) educators in both school-based and community-based settings.

The program prepares students to enter a high-demand profession throughout the U.S. FCSE graduates are qualified to teach many subjects, including apparel and textile construction, nutrition and foods, interior design, child and human development, financial literacy, and more.

Community-Based Emphasis: This emphasis prepares students for outreach and education in non-formal settings and community engagement. Students will develop a diverse background in FCS content areas. The curriculum includes courses in all the FCS areas: financial literacy, human relationships, child development, apparel and textile construction, interior design, nutrition and foods, and FCCLA leadership. Additional courses in non-formal education include non-formal teaching methods, volunteer programs, community programming and evaluation, and youth development. Students will also gain knowledge about communication, analytical reasoning, critical thinking, effective writing, and teamwork. Students in the community-based program will complete two internships starting their junior year with an FCS-based business, public or private agency, commodity organization, nonprofit organization, or extension office. Students may take some additional coursework to obtain a Family Finance Minor.

- For more information about Family and Consumer Sciences Education, see the website.
- Admitted and current students must meet with an advisor, Caisa Shoop, at caisa.shoop@usu.edu or 435-797-2282.
- Contact Dr. Brian Warnick for internship information: brian.warnick@usu.edu
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program
The Family and Consumer Sciences Education Bachelor's Degree (BS) with an emphasis in Community-Based Education has eligibility requirements for new first-year students, USU students, and transfer students from other institutions or programs at USU. All applicants must be a student in good standing, with a minimum 3.0 GPA. Students who wish to complete this degree must do so with a minimum overall GPA of 2.0 or higher and a 3.0 major GPA or higher.

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 3.0 GPA

Program Requirements

Total Credits Required In Program Coursework
104

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

The program trains students to become family and consumer science educators in nonformal settings through a well-rounded curriculum.

It is **very important** for each student to meet with the advisor to build a successful plan based on individual needs.

The major includes study in nutrition, dietetics and food sciences; family and human development; interior design; apparel and textiles; and consumer sciences. Many states, including Utah, require a master's degree to work for extension. This program requires an overall GPA of at least 3.0 in major coursework and an overall 2.0 GPA for graduation.

For more information, contact the Family and Consumer Sciences Education Academic Advisor, Caisa Shoop, at caisa.shoop@usu.edu or 435-797-2282.

Students who wish to complete this degree must do so with a GPA of 3.0 or higher.

Family and Consumer Sciences Education - BS, Community-Based Course Requirements

Type

Completion Requirement

Required Support Courses (12 credits)

Complete ALL of the following Courses:

- CHEM1110 - General Chemistry I (BPS) - 4cr.
- CHEM1120 - General Chemistry II (BPS) - 4cr.
- MATH1050 - College Algebra (QL) - 4cr.

Major Required Courses (77 credits)

A grade of *C* or better must be earned in these courses, except ASTE2250 OCCUP EXP IN AG and ASTE4250 OCCUP EXP IN AG which are taken on a pass/fail basis.

Complete ALL of the following Courses:

- ASTE2250 - Occupational Experience in Agriculture - 1cr.
- ASTE3625 - Youth Development Education - 2cr.
- ASTE4155 - Nonformal Teaching Methods - 3cr.
- ASTE4215 - Community Programming and Evaluation - 3cr.
- ASTE4250 - Occupational Experiences in Agriculture - 1cr.
- ASTE5220 - Volunteer Programs and Partnerships - 3cr.
- FCSE1040 - Introductory Sewing - 3cr.
- FCSE1350 - Financial Literacy (BSS) - 3cr.
- FCSE2040 - Intermediate Clothing Construction Skills, Principles, and Alterations - 3cr.
- FCSE2350 - Financial Literacy 2 - 3cr.
- FCSE2510 - Orientation to Family and Consumer Sciences Education - 3cr.
- FCSE3030 - Textile Science (DSC/QI) - 4cr.
- FCSE3080 - Fashion Studies and Society (DHA) - 3cr.
- FCSE3400 - FCSE Methods I - 3cr.
- FCSE3790 - Housing and Interior Design Teaching Methods - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.
- HDFS4550 - Preschool Methods and Curriculum - 3cr.
- IAD1750 - Design in Everyday Living (BCA) - 3cr.
- ITLS2500 - Technology Enabled Instruction - 3cr.
- NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.
- NDFS1240 - Food Literacy - 3cr.
- NDFS2020 - Nutrition Throughout the Life Cycle - 3cr.
- NDFS3070 - Science of Food Preparation - 4cr.
- ANTH3200 - Perspectives on Race (DSS/CI) - 3cr.
  OR CMST3330 - Intercultural Communication (DSS) - 3cr.
  OR CMST4200 - Language, Thought, and Action (CI/DSS) - 3cr.
  OR POLS4220 - Ethnic Conflict and Cooperation (CI/DSS) - 3cr.
  OR SOC3010 - Social Inequality (DSS) - 3cr.
  OR SOC3200 - Population and Society (DSS) - 3cr.
  OR SOC3340 - Activism, Protest, and Social Movements (DSS) - 3cr.
  OR SOC3600 - Finding Community in Today's Society (DSS) - 3cr.
  OR SOC3610 - Rural People and Places (DSS) - 3cr.

1 credit of ASTE2250 OCCUP EXP IN AG is required

3 credits of ASTE4250 OCCUP EXP IN AG are required

Electives (15 credits)

A grade of *C* or better must be earned in these courses. They may *not* be taken on a pass/fail basis. Students must have 15 credits of approved electives selected from the following list, or as approved by the major academic advisor:

Fulfill ANY of the following requirements:

Clothing and Textiles

Complete ANY of the following Courses:

- FCSE3040 - Advanced Clothing Studies: Patternmaking - 3cr.
- FCSE3140 - Digital Patternmaking for Apparel - 3cr.
- FCSE4030 - Textiles and Technology - 3cr.
- FCSE4040 - Advanced Apparel Studies - 3cr.

OR

Human Development and Family Studies

Complete ANY of the following Courses:

- HDFS2450 - Consumer and Family Economic Issues (BSS) - 3cr.
- HDFS3100 - Abuse and Neglect in Family Context - 3cr.
- HDFS3110 - Human Sexuality - 3cr.
- HDFS3450 - Consumer Credit Problems - 3cr.
- HDFS3500 - Infancy and Childhood - 3cr.
- HDFS3540 - Adult Development and Aging - 3cr.
- HDFS3570 - Youth and Adolescence - 3cr.
- HDFS3700 - Mental Health Advocacy and Awareness - 3cr.
- HDFS4220 - Family Crises and Interventions - 3cr.

OR

Food and Nutrition

Complete ANY of the following Courses:

- ASTE5620 - Food Security and Solutions - 3cr.
- NDFS1010 - Chocolate: Science, History, and Society (BPS) - 3cr.
- NDFS1250 - Sanitation and Safety - 3cr.
- NDFS2030 - Nutrition and Physical Performance - 2cr.
- NDFS3110 - Food, Technology, Sustainability and Health (DSC) - 3cr.

OR

Communications and Leadership

Complete ANY of the following Courses:

- ASTE2100 - Personal and Team Leadership - 3cr.
- ASTE3050 - Technical and Professional Communication Principles (CI) - 3cr.
- ASTE3090 - Graphic Design in Agriculture and Media Industries - 3cr.
- CMST1020 - Public Speaking (BHU) - 3cr.
- CMST2110 - Interpersonal Communication (BHU) - 3cr.
- CMST3250 - Organizational Communication (CI) - 3cr.
- TCR2100 - Introduction to Technical Communication - 3cr.
- ITLS5215 - Video and Audio Design and Production I - 3cr.
- ITLS5240 - Graphic Design and Production II - 3cr.
- ITLS5270 - Digital Making and Learning - 3cr.
- SOC4640 - Managing Community Conflict (CI) - 3cr.
- TCR3230 - Community Grant Writing - 3cr.
- USU2400 - Career Series 2: Networking and Preparing for Internships - 1cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Family and Consumer Sciences Education - School-Based Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Undergraduate

About this Degree

The Family and Consumer Sciences Education (FCSE) program trains students to become family and consumer sciences (FCS) educators in both school-based and community-based settings.

The program prepares students to enter a high-demand profession throughout the U.S. FCSE graduates are qualified to teach many subjects, including apparel and textile construction, nutrition and foods, interior design, child and human development, financial literacy, and more.

Students in the school-based program are qualified to teach in secondary settings and can advance to higher education with continued graduate degrees.

School-Based Family & Consumer Sciences Education Emphasis: The school-based FCSE emphasis prepares students to meet state teacher certification requirements to teach FCS content in public, charter, and private schools. Students can become school-based FCS teachers and FCCLA advisors in middle, junior, and high schools. School-based FCS teachers educate students on a wide variety of subjects, including financial literacy, human relationships, child development, apparel and textile construction, interior design, nutrition and foods, FCCLA leadership, analytical thinking, and problem-solving. Students have the unique opportunity to work with mentor teachers starting their sophomore year to receive instruction and build professional relationships before entering the classroom as student teachers. Upon completing student teaching, students are eligible to apply for and obtain a secondary teaching license in Utah.

- For more information about Family and Consumer Sciences Education, see the website.
- Admitted and current students must meet with an advisor, Caisa Shoop, at caisa.shoop@usu.edu or 435-797-2282.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 3.0 GPA

Program Requirements

Simple Requisites

Program Requirements

It is **very important** for each student to meet with the advisor to build a successful plan based on individual needs.

The program trains students to become family and consumer science teachers in middle and high schools through a well-rounded curriculum in teaching content areas.

The major includes study in nutrition, dietetics and food sciences; family and human development; interior design; apparel and textiles; and consumer sciences. Many states, including Utah, require a master's degree to work for extension.

In order to obtain a secondary teaching license for grades 6-12, students must complete the 35-credit Secondary Teacher Education Program (STEP), which includes one semester of student teaching in a public school. This program is administered by USU's School of Teacher Education and Leadership (TEAL) within the Emma Eccles Jones College of Education and Human Services. Student must apply to the School of TEAL the semester before taking STEP courses. This is usually the fall of their junior year. Students learn subject content through the Department of Applied Sciences, Technology, and Education and spend the last year or two studying education techniques through the STEP program. Students must earn a minimum overall GPA of 2.0 and a 3.0 major GPA to graduate and be recommended for teaching licensure.

For more information, contact the Family and Consumer Sciences Education Academic Advisor, Caisa Shoop, at caisa.shoop@usu.edu or 435-797-2282.

Family and Consumer Sciences Education - BS, School-Based Course Requirements

Type
Completion Requirement

Required Support Courses (12 credits)

Complete ALL of the following Courses:

- CHEM1110 - General Chemistry I (BPS) - 4cr.
- CHEM1120 - General Chemistry II (BPS) - 4cr.
- MATH1050 - College Algebra (QL) - 4cr.

Major Required Courses (90 credits)

A grade of *C* or better must be earned in these courses.

Complete ALL of the following Courses:

- FCSE1350 - Financial Literacy (BSS) - 3cr.
- FCSE2040 - Intermediate Clothing Construction Skills, Principles, and Alterations - 3cr.
- FCSE2350 - Financial Literacy 2 - 3cr.
- FCSE2510 - Orientation to Family and Consumer Sciences Education - 3cr.
- FCSE3030 - Textile Science (DSC/QI) - 4cr.
- FCSE3040 - Advanced Clothing Studies: Patternmaking - 3cr.
  OR FCSE4040 - Advanced Apparel Studies - 3cr.
- FCSE3080 - Fashion Studies and Society (DHA) - 3cr.
- FCSE3300 - Clinical Experience I - 1cr.
- FCSE3400 - FCSE Methods I - 3cr.
- FCSE3790 - Housing and Interior Design Teaching Methods - 3cr.
- FCSE4300 - Clinical Experience II - 1cr.
- FCSE4400 - FCSE Methods II - 3cr.
- FCSE5500 - Student Teaching Seminar - 2cr.
- FCSE5630 - Student Teaching in Secondary Schools - 10cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.
- HDFS2660 - Parenting and Child Guidance - 3cr.
- HDFS4550 - Preschool Methods and Curriculum - 3cr.
- IAD1750 - Design in Everyday Living (BCA) - 3cr.
- ITLS2500 - Technology Enabled Instruction - 3cr.
- NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.
- NDFS1240 - Food Literacy - 3cr.
- NDFS2020 - Nutrition Throughout the Life Cycle - 3cr.
- NDFS3070 - Science of Food Preparation - 4cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
  OR FCSE4210 - Cognition and Evaluation of Student Learning in Career and Teachnical Education - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Food Science - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Nutrition, Dietetics & Food Sciences

Program Level
Undergraduate

About this Degree

Completion of the Food Science minor will provide an understanding of how raw materials are processed into safe and nutritious foods while expanding the range of employment opportunities available to students upon graduation within the US food industry. This minor is available to all undergraduate majors.

Food Science - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Nutrition, Dietetics & Food Sciences

Program Level
Undergraduate

About this Degree
Food Science students study the chemical and physical composition of food and food ingredients to understand how best to preserve, process, package, and distribute foods that are nutritious, wholesome, affordable, desirable, sustainable and safe to eat. Because the food industry is the largest industry in the world, food scientists are in high demand.

Food Scientists integrates a broad range of core scientific disciplines (including chemistry, biology, biochemistry, microbiology, nutrition and health, and engineering) to solve real problems associated with the many facets of the food system. Food Science graduates find rewarding careers in food engineering and processing, food quality control and assurance, food sustainability and policy, food product formulation and new product development, and food microbiology and safety.

- For more information about Nutrition, Dietetics and Food Sciences, see website.
- Admitted and current students must meet with an advisor, Dawnetta Mahnken, dawnetta.mahnken@usu.edu, 435-797-2282.

Forest Ecology and Management - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Wildland Resources

Program Level
Undergraduate

About this Degree

In the program, students gain the knowledge and skills needed to manage public or private forests. The program focuses on providing future foresters with the broadest possible understanding of the biological, physical, economic, political, and social aspects of forestry. This multidisciplinary degree consists of courses in biology, math, chemistry, statistics, forest ecology, inventory, water quality, wildlife habitat, tree species, and geographic information systems.

- For more information about Forest Ecology and Management, see the website.
- Admitted and current students must meet with an academic advisor for help with semester by semester planning, connections to co-curricular experiences, understanding of USU policies, and accessing USU resources.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
84-85

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses required for the major must be taken on an A-B-C-D-F basis. A grade of C- or better is required for all courses taken in the major department as well as STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI). The grade point average for all courses taught by the College of Agriculture and Natural Resources must be 2.5 or higher.

Forest Ecology and Management Required Courses (84-85 credits)

Type
Completion Requirement

CL1/CL2 Requirements (6 credits)

Complete at least 1 course in the following course sets:

- Communications Literacy (CL1) Course
- Communications Literacy (CL2) Course

Scientific Foundation (26-27 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- CHEM1110 - General Chemistry I (BPS) - 4cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
- WATS2220 - General Ecology - 3cr.

Departmental Common Courses (22 credits)

Complete ALL of the following Courses:

- WILD2000 - Natural Resource Professional Orientation - 1cr.
  OR ENVS2000 - Natural Resource Professional Orientation - 1cr.
  OR WATS2000 - Natural Resource Professional Orientation - 1cr.
- WILD2800 - Introduction to Geographic Information Sciences - 4cr.
  OR GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
- WILD2400 - Wildland Resource Techniques - 3cr.
- WILD3800 - Wildland Plants and Ecosystems - 4cr.
- WILD3820 - Forest Plants: Identification, Biology, and Function - 3cr.
- WILD3850 - Vegetation and Habitat Management - 3cr.
- WILD4750 - Monitoring and Assessment in Natural Resource and Environmental Management - 4cr.

Professional Coursework (27 credits)

Complete ALL of the following Courses:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.
- WILD3100 - Introduction to Wildland Fire - 3cr.
- WILD5100 - Forests and Fuels Measuring & Modeling - 3cr.
- WILD5700 - Forest Assessment and Management (CI) - 3cr.
- WILD5750 - Applied Remote Sensing - 3cr.

Open Electives

Complete the following is needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

The variable number of credits for STAT2000 STATISTICAL METHODS (QI) and STAT3000 STATISTICS FOR SCIENTISTS (QI) may require students to adjust the number of elective credits taken in their program

Foundations in Animal Science - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Animal, Dairy & Veterinary Sciences

Program Level
Undergraduate

About this Degree

The Foundations in Animal Science certificate is a 12-credit program designed to provide students with a foundational understanding of animal science, covering essential topics such as animal nutrition, livestock production systems, and hands-on management practices. The curriculum offers a flexible structure with two required courses which equip students with core knowledge of animal biology, production systems, and the nutritional needs of livestock. In addition to these foundational courses, students choose two production-specific courses from a range of areas, including beef, dairy, swine, and small ruminant practices, among others. This variety allows students to tailor their learning to their specific interests in animal agriculture, providing valuable practical experience in real-world livestock management. The program is ideal for students seeking an entry point into animal science or those who may wish to enhance their career opportunities in the animal agriculture industry without committing to a full bachelor's degree.

Finance - Minor

Program Overview

College
Jon M. Huntsman School of Business

Department
Economics and Finance

Program Level
Undergraduate

About this Degree

Students interested in markets, trading, investing, banking, or other related finance subjects can supplement their major field of study with a minor in finance. The initial courses in the sequence (FIN3200 CORPORATE FINANCE (QI) and FIN3300 INVESTMENTS) give a broad overview of the world of finance. Learn about the time value of money and how it can be applied to solve a variety of problems. There is no GPA requirement but all courses require a B- or better to fulfill the minor requirements. Courses required for this minor may not be taken pass/fail.

Finance - BA, BS

Program Overview

College
Jon M. Huntsman School of Business

Department
Economics and Finance

Program Level
Undergraduate

About this Degree

Finance students learn to manage the monetary resources of organizations, countries, and individuals.

They also gain the knowledge and preparation necessary to pursue the Chartered Financial Analyst (CFA) exam after they graduate. The CFA is the most internationally recognized and credible credential for financial professionals and is earned by passing a series of analytically rigorous exams.

- For more information about Finance, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program

First-Year and Transfer Students are admitted to the Huntsman School of Business based on USU's Admission Requirements.

Current USU Students in good standing qualify for admission into a Huntsman School major.

Huntsman School Admission Details: https://huntsman.usu.edu/undergraduate/apply

Program Requirements

Total Credits Required In Program Coursework
90

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- Elective credits needed will be determined on an individual basis (a student with continuing education, AP credits, and Language credits may not require additional elective credits).
- Completing a minor is recommended to fulfill elective credits.
- Students are encouraged to enhance their educational experience through use of the Roadmap to Graduation and Student Success found at https://huntsman.usu.edu/advising/road_map
- The Huntsman School of Business adheres to the USU repeat policy in the following manner: a student is limited to 10 repeats total to earn a degree from Utah State University.
- The Huntsman School of Business restricts the number of times a specific course can be taken as follows: students may take a business course twice (once, plus one repeat). Beyond two attempts, the student's dean must approve additional registration for the class.

Graduation Requirements:

To be recommended by the department for graduation, majors in the Department of Economics and Finance must have a grade point average of at least 2.50 in their upper-division Huntsman School of Business acumen and

major requirement courses, a grade of C or better in HSB business acumen courses, and an overall GPA of 2.0. Major requirements may *not* be taken on a pass/fail basis. This includes transfer credits. At least fifty percent of the business credits required for a business degree must be taken on the Utah State University campus or at a designated residence center.

Finance - BA, BS Course Requirements

Type
Completion Requirement

Major Requirements (26 credits)

Completion with a 2.5 cumulative and major GPA is required for graduation. All major courses require a grade of C or better.

Fulfill ALL of the following requirements:

Required

Complete ALL of the following Courses:

- FIN2000 - Careers in Finance - 1cr.
- FIN2250 - Finance Professional Development - 1cr.
  OR FIN4250 - Finance Internship - 1cr.
- FIN4200 - Intermediate Corporate Finance - 3cr.
- FIN4410 - Financial Institutions - 3cr.

AND

Elective Credits

Complete 18 credits of approved electives

- FIN 3000-5999 level courses

6 of the 18 credits may come from the following courses:

- ECON 3000 - 5999 (except 4250, 4900, 4950)
- ACCT 3000 - 5999 (except 4250, 4900, 4950)
- A maximum of 3 credits from FIN 4250 may be used.

Business Acumen (46-47 credits)

All acumen courses must have a minimum grade of C unless otherwise stated.

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- BUS3200 - Professional Communication with AI (CI) - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- DATA3100 - Making Decisions with Data - 3cr.
- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- FIN3300 - Investments - 3cr.
- MGT3350 - Legal and Ethical Environment of Business - 3cr.
- MGT3700 - Operations Management - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3800 - Leadership - 2cr.
- MSLE3890 - Systems Strategy and Problem Solving - 2cr.

Finance majors require a B- grade or higher in FIN3200

Total Elective Credit

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students who have not attended any school beyond high school and have a declared major in the Huntsman School of Business are expected to enroll in BUS1000 HSB FRESHMEN ACADEMY during their first year at USU. The course is intended to acculturate students to college life, and is therefore not relevant for internal or external transfer students and online students.

Undeclared students should apply to the Jon M. Huntsman School during their fall semester of Year 2 at huntsman.usu.edu/apply/.

Students should apply for graduation the first semester of their final year at www.usu.edu/registrar/htm/graduation/apply-online.

Finance - Quantitative Finance Emphasis - BA, BS (EMPHASIS NOT CURRENTLY OFFERED)

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Economics and Finance	Undergraduate

About this Degree

Finance students learn to manage the monetary resources of organizations, countries, and individuals.

They also gain the knowledge and preparation necessary to pursue the Chartered Financial Analyst (CFA) exam after they graduate. The CFA is the most internationally recognized and credible credential for financial professionals and is earned by passing a series of analytically rigorous exams.

Quantitative Finance: This emphasis focuses on the quantitative side of finance through the use of mathematical models and data. Potential coursework includes econometrics, financial modeling, financial markets, and machine learning. This emphasis prepares students for a wide array of career options, .some of which include: financial engineering, derivatives trading, asset management, risk management, financial analyst, quantitative analyst, investment banking, and credit analyst. Some students with this emphasis also pursue additional education in degree programs such as a Masters of Financial Economics, Masters of Financial Engineering, Masters of Finance, or Ph.D. in Finance.

- For more information about Finance, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students who have not attended any school beyond high school and have a declared major in the Huntsman School of Business are expected to enroll in BUS1000 HSB FRESHMEN ACADEMY during their first year at USU.

*The course is intended to acculturate students to college life, and is therefore not relevant for internal or external transfer students. Thus, transfer students are *not* expected to enroll in BUS1000 HSB FRESHMEN ACADEMY. Thisis an in-person course on the Logan campus for now, so those at statewide campuses or online are not able to enroll, and thus *not* expected to enroll.

Undeclared students should apply to the Jon M. Huntsman School during their fall semester of Year 2 at huntsman.usu.edu/apply/.

Students should apply for graduation the first semester of their final year at www.usu.edu/registrar/htm/graduation/apply-online.

Fintech Analytics - Post-Bachelor's Certificate

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Data Analytics & Information Systems	Graduate

About this Degree

In response to surging demand for finance professionals who master advanced computational and quantitative methods, the Fintech Analytics certificate blends finance, data science, and technology. Built for tech-savvy students and finance enthusiasts, this program leverages applied analytics expertise and Huntsman School career connections to prepare graduates for fast-growing fintech roles, digital banks, and innovative financial services firms. The certificate is designed to be stackable with the MDATA master's program, allowing a flexible pathway to deeper analytics mastery or standalone launch of a fintech career.

Who this is for

- Students with backgrounds in technology and finance who want to apply advanced analytics to fintech
- Professionals aiming to work in data-driven financial services, fintech product teams, risk analytics, or quantitative analysis
- Individuals seeking a credential that complements engineering, data science, and finance skills

Note that the Fintech graduate certificate can be completed on its own, or it can be stacked with other certificates offered by the Department of Data Analytics and Information Systems (or with designated certificates from other campus programs) to meet the requirements of the Master's of Data Analytics (MDATA) program.

Data Analytics and Information Systems Faculty

Courses in Fintech Analytics program are taught by faculty in the DAIS department who have years of corporate and academic experience. Our instructors are experts in the most cutting-edge tools and strategies for data and tech.

DAIS Faculty

Admission Requirements for this Program

Prior bachelor's degree with at least a 3.0 GPA in previous 90 credits; relevant coursework or experience in basic data analysis, programming, and finance.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
12	12

Simple Requisites

Program Requirements

The certificate requires 12 total credits, as outlined within the curriculum below. Individual substitutions for course requirements may be considered and approved on a case-by-case basis by the Data Analytics and Information Systems Department.

Courses used to fulfill requirements for this certificate may not include courses previously completed to meet the requirements of any other certificate or program, and cannot be used to complete any other certificate or program.

Courses remain valid for 6 years for potential inclusion in a future master's degree program (MMIS or MDATA).

Certificate students who opt to earn an MMIS or MDATA degree will be granted a waiver for reduced application fees for their future master's application. Please contact our office for details.

Fintech Analytics - Post-Bachelor's Certificate Course Requirements (12 credits)

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- DATA6500 - Python Programming for Analytics - 3cr.
- DATA6630 - Deep Forecasting - 3cr.
- DATA6690 - Computational Methods for FinTech - 3cr.
- DATA6695 - Predictive Methods for FinTech - 3cr.

Undergraduate

Program Requirements

Total Credits Required To Earn This Credential
18-19

Simple Requisites

Program Requirements

All courses required for the Fisheries Science minor must be taken on an *A-B-C-D-F* basis. A grade of *C-* or better is required for all WATS courses used to meet requirements for this minor

Section 1

Type
Completion Requirement

A. Fisheries Science Core Courses (10 credits)

Complete ALL of the following Courses:

- WATS2220 - General Ecology - 3cr.
- WATS3100 - Fish Ecology, Conservation, and Management (CI/DSC) - 3cr.
- WATS3110 - Fish Ecology, Conservation, and Management Lab - 1cr.
- WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.

Section 2

Type
Completion Requirement

B. Electives (8-9 credits)

Select three or four courses from the following

Complete at least 3 of the following courses:

- WATS5200 - Fish Habitats - 2cr.
- WATS5305 - Ecology and Restoration of Plants - 3cr.
- WATS5500 - Limnology: Ecology of Inland Waters - 3cr.
- WATS5540 - Ichthyology - 4cr.
- WATS5550 - Freshwater Invertebrates - 3cr.
- WILD3810 - Wildlife Population Ecology - 3cr.

Family and Consumer Sciences Education and Extension - MS

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Graduate

About this Degree
Website: https://caas.usu.edu/aste/

This degree emphasizes research, leadership, and teaching. Students are provided with coursework to gain research skills, engage in mentoring and organizational management, and improve their pedagogical approaches to teaching and learning in formal or nonformal educational settings. This degree program requires a thesis. The completion of a thesis prepares students with the skills and experiences needed to read, interpret, and conduct research. This degree program also prepares students for a future Ph.D. program.

The program can be completed on campus or at a distance as all coursework (30 credits) is available online. Seven courses are required (24 credits). Most students in the program take two classes (6 credits) per semester. Students who follow this will be able complete the program in approximately 2 years (5 semesters).

Admission Requirements for this Program
The required documentation for the application package and admissions requirements are noted on the ASTE Graduate Admission and Application webpage, https://caas.usu.edu/aste/graduate/graduate-program-admission.

Program Requirements

Simple Requisites

Program Requirements

School of Graduate Studies General Graduation Guidelines:

Degree Verification

A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA

At least 3. 0 and no grades of C- or lower. Graduate students are required to maintain at least a 3. 0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability

The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. A maximum of 12 credits from courses at the level of 5000 may be used on an approved program of study.

Matriculation Start Semester

A master's degree must be completed within six years of entering the degree program. Additional time may be requested and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Plan Type

Plan A - The Plan A option for a master's degree requires preparation and defense of a thesis.

Required Master's forms:

Approval of academic forms required for master's students by the School of Graduate Studies

- Supervisory Committee
- Program of Study
- Thesis/Project Approval
- Appointment for Examination
- Record of Examination
- Authorship & Copyright
- Format & Style
- Title Page
- SGS and library review & approval
- Graduation Application

Foundations of Criminal Justice - Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

Crime is a complex subject that is heavily tied to issues of class, race, and gender. Societal response to crime should be nuanced and guided by evidence-based practices. The aim of this certificate is to foster a culture within local, state, and federal criminal justice institutions that embraces multiple perspectives and evidence-based practices.

One of the most important ways the School of Social Sciences can serve the public is by educating future criminal justice practitioners to be culturally aware in the maintenance of formal social control. In keeping with this aim, this certificate strategically integrates curriculum from the Department of Social Work to prepare professionals to individuals experiencing mental health crises while caring for their own wellbeing. Thus, students earning this certificate will have the socially informed education required to operate in modern criminal justice spaces.

Program Requirements

Total Credits Required In Program Coursework
9

Total Credits Required To Earn This Credential
9

Simple Requisites

Program Requirements

- Of the required courses, five are currently offered as USU Concurrent Enrollment courses.
- A minimum of six out of the nine credits must be completed through Utah State University.

Foundations of Criminal Justice - Certificate

Type
Completion Requirement

Core Requirements (3 credits)

Complete ALL of the following Courses:

- CJ1010 - Introduction to Criminal Justice (BSS) - 3cr.

Elective Courses (6 credits)

Complete at least 2 of the following courses:

- CJ1300 - Introduction to Corrections - 3cr.
- CJ1330 - Criminal Law - 3cr.
- CJ1340 - Criminal Investigations - 3cr.
- CJ1390 - Introduction to Policing - 3cr.
- CJ2330 - Juvenile Justice - 3cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

1. **Understanding of the Criminal Justice System.** Students will be able to describe the structure, functions, and interrelationships of the main components of the criminal justice system: law enforcement, courts, and corrections.
2. **Application of Legal Principles and Procedures**. Students will demonstrate knowledge of constitutional law, criminal law, and procedural law, and apply these principles to real-world scenarios involving criminal justice processes.
3. **Critical Thinking and Ethical Decision-Making**. Students will develop the ability to analyze complex criminal justice issues, evaluate evidence, and make ethical decisions in professional contexts.

Folklore - Minor

Program Overview

College
College of Arts & Sciences

Department
History, Cultures & Ideas

Program Level
Undergraduate

About this Degree

The 12-credit minor in folklore is an interdisciplinary program sponsored by the English department and the History department. The coursework for the minor must be approved by the Director of the Folklore Program, Lynne McNeill.

Program Requirements

Total Credits Required In Program Coursework
12

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

Students must have a 2.5 overall GPA to declare the Folklore - Minor and must maintain a minimum 2.5 GPA within the minor courses with no grade lower than a C. With the exception of ENGL2210 INTRO TO FOLKLORE (BHU), courses used to fulfill the requirements for the English and History majors may *not* be used for the Folklore minor.

Section 1

Type
Completion Requirement

Required Courses (6 credits)

Complete ALL of the following Courses:

- ENGL2210 - Introduction to Folklore (BHU) - 3cr.
  OR HIST2210 - Introduction to Folklore (BHU) - 3cr.
  OR ANTH2210 - Introduction to Folklore (BHU) - 3cr.
- ENGL5700 - Folk Narrative - 3cr.
  OR HIST5700 - Folk Narrative - 3cr.
  OR ANTH5700 - Folk Narrative - 3cr.

Section 2

Type
Completion Requirement

Survey of Folklore in Culture and Place Courses (3 credits)

Complete at least 1 of the following courses:

- ANTH2720 - Survey of American Folklore - 3cr.
  OR ENGL2720 - Survey of American Folklore - 3cr.
  OR HIST2720 - Survey of American Folklore - 3cr.
- ENGL3700 - Regional Folklore (DHA) - 3cr.
  OR HIST3700 - Regional Folklore (DHA) - 3cr.

Section 3

Type
Completion Requirement

Folk Groups and Folklore Genres (3 credits)

Complete at least 1 of the following courses:

- ENGL3070 - Digital Folklore (DHA) - 3cr.
  OR HIST3070 - Digital Folklore (DHA) - 3cr.
- ENGL3710 - Topics in Folklore (CI) - 3cr.
  OR HIST3710 - Topics in Folklore (CI) - 3cr.
  OR RELS3710 - Topics in Folklore (CI) - 3cr.
  OR ANTH3710 - Topics in Folklore (CI) - 3cr.
- ENGL3720 - Children's Folklore (DHA) - 3cr.
- ENGL4700 - Folk Material Culture (DHA) - 3cr.
  OR HIST4700 - Folk Material Culture (DHA) - 3cr.

Food Manufacturing - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Nutrition, Dietetics & Food Sciences

Program Level
Undergraduate

About this Degree

Individuals with targeted training in food safety will be in demand in multiple industries to respond to current and emerging food safety challenges. The certificate in Food Manufacturing will provide students with the background needed to appreciate the importance of food safety, and a basis to understand why certain food safety practices must be followed.

Coursework includes an introduction to Food Science and experience with food production (via the Chocolate Science course). Students will also receive training in food safety (Hazard Analysis and Critical Control Points), and will obtain Food Protection Manager Certification through ServSafe as part of the required coursework. Credits from this one-semester certificate can be applied directly towards the requirements for the certificate in Food Processing and/or the BS in Food Science.

Forestry - MS

Program Overview

College
College of Agriculture & Natural Resources

Department
Wildland Resources

Program Level
Graduate

About this Degree

Students in this program study the science and application of ecological principles in the management of forests. Management aspects include measuring current forests, planning for future forests, and considering fire risks, fuel loads, and the provision of wildlife and recreational services. The program includes coursework on forest ecology, fire ecology, social sciences, policy, soils, and restoration. The program is integrated with other natural resource programs in the college focusing on wildlife, range, and ecology, for a broad interdisciplinary experience.

The MS degree targets students motivated toward a management or administrative career in natural resources with an emphasis in forestry. The Forestry MS degree may be obtained through either a Plan A (research thesis) or Plan B (paper) program. The MS Plan A requires the preparation and defense of a thesis and is best suited for students desiring research experience. The Plan B option requires the preparation and defense of a paper and is most appropriate for forestry professionals who are not pursuing a research career path.

Department Head: Dr. Chris Keyes, chris.keyes@usu.edu
Graduate Program Coordinator: Stacey Brummer, 435-797-2503, stacey.brummer@usu.edu

Admission Requirements for this Program

Prior to applying, the prospective applicants must have a Wildland Resources faculty member agree to serve as their major (supervisory) advisor. It is recommended that interested applicants first contact specific faculty members with whom they are interested in working.

If the faculty member is accepting graduate students and agrees to serve as the major advisor, the applicant may then apply for admission through the School of Graduate Studies website. Applications are reviewed and processed on an ongoing basis.

Please note that funding is not provided by the Wildland Resources Department. Funding may be available through the major advisor, or a third party (such as an employer), or a student may be self-funded.

General Admission Requirements:

- A bachelor's degree from an accredited college
- A 3.0 GPA as calculated by the School of Graduate Studies.
- Completion of the formal application is required. This includes the submission of three letters of recommendation, a statement of purpose, and official transcripts from each college or university previously attended (except USU). The letter of recommendation request forms and statement of purpose prompt are included in the application materials.
- International Students: Please visit the School of Graduate Studies website for requirements.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

The Master of Science in Forestry program includes required course work, research, and the defense and submission of an original thesis (Plan A) or paper (Plan B).

The MS **Plan A** option includes a significant research component that leads to the production and defense of a thesis, which is submitted to the School of Graduate Studies for approval and then archived at the library. Students complete a required 6–15 thesis research credits, which support the development of their research and thesis. Thesis chapters frequently form the basis of papers prepared and submitted for publication in peer-reviewed journals by the student. Almost all MS students in the Wildland Resources department pursue a Plan A.

The MS **Plan B** option includes an extensive literature review that forms the basis of a paper. Plan B papers are defended but are not subject to the School of Graduate studies approval before submission to the library. Plan B students are required to complete 2-3 thesis research credits and take more coursework to fulfill the remaining credits.

Regardless of plan type, you will work closely with your major advisor and your supervisory committee to determine the trajectory of your research and the course work that will be most beneficial to you.

Department Requirements:

- **Completion of 30 required credit hours:** Only courses included on a supervisory committee approved Program of Study will count towards an MS degree. Please see specific course requirements under MS Plan A and MS Plan B below.
- **Presentation of Research Proposal**: Students must present a research proposal at the department Graduate Research Symposium.
- **Successful defense:** Students must successfully defend a Plan A research thesis or a Plan B paper.
- **Submission of thesis or paper**: Students must submit a Plan A research thesis or a Plan B paper to the School of Graduate Studies and library for review and approval. All thesis and paper submissions must follow the School of Graduate Studies Publication Guide and departmental requirements.

School of Graduate Studies (SGS) Requirements:

- **Completion of Required Forms:**
  - Supervisory Committee Approval
  - Program of Study
  - Master's Thesis Proposal/Project Approval
  - Appointment for Examination
  - Record of Examination (submitted by department office)
  - Format & Style form
  - Authorship & Copyright form
  - Title Page form
  - Application for Graduation
- **Completion of Required Trainings:** Students must complete all School of Graduate Studies required trainings, including Responsible Conduct of Research training.
- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

- **Minimum GPA Requirement:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Degree Programs

Type
Completion Requirement

MS Plan A (Research Thesis) Course Requirements

Complete ALL of the following Courses:

- WILD6800 - Wildland Resources Departmental Seminar - 1cr.
- WILD6970 - Thesis Research - 1cr.
- 30 required credit hours (minimum) including:
  - 1 credit of WILD6800 WILD SEMINAR
  - 6-15 credits of WILD6970 THESIS RESEARCH
  - Remaining credits fulfilled via: Program of Study approved coursework

MS Plan B (Paper) Course Requirements

30-60

Total Credits Required To Earn This Credential
30-60

Simple Requisites

Program Requirements

The Forestry PhD program includes required coursework, research, and the defense and submission of an original dissertation. In addition, you must achieve candidacy by successfully completing a comprehensive exam (comps), which

assesses your ability to conduct independent research, and by submitting your research proposal. The PhD program may be pursued either post-master's or post-baccalaureate. The post-baccalaureate PhD requires additional credit hours, coursework, and increased guidance from your major advisor and committee.

To develop your dissertation research, you will work closely with your major advisor and supervisory committee to generate original ideas, refine research direction, and identify the coursework and professional activities that will be most beneficial to your progress. As you approach candidacy, you should demonstrate a strong command of the literature, creativity in hypothesis development, and proficiency in research design and data analysis.

Department Requirements:

- **Completion of required credit hours:** Students must complete a total 30 credit hours if pursuing a PhD post-master's or 60 credit hours if post-baccalaureate. Only courses included on a supervisory committee approved Program of Study will count towards a PhD degree. Please see specific course requirements under the PhD post master's and PhD post baccalaureate sections below.
- **Presentation of Research**: PhD students are required to present an initial research proposal and then biennial research updates at the department Graduate Research Symposium.
- **Successful defense:** Students must successfully defend a dissertation.
- **Submission of thesis or paper**: Students must submit a dissertation to the School of Graduate Studies and library for review and approval. All dissertation submissions must follow the School of Graduate Studies Publication Guide and departmental requirements.

School of Graduate Studies (SGS) Requirements:

- **Completion of Required Forms:**
    - Supervisory Committee Approval
    - Program of Study
    - Application of Candidacy Doctoral Degree
    - Appointment for Examination
    - Record of Examination (submitted by department office)
    - Format & Style form
    - Authorship & Copyright form
    - Title Page form
    - Application for Graduation
- **Completion of Required Trainings:** Students must complete all School of Graduate Studies required trainings, including Responsible Conduct of Research training.
- **Degree Verification:** A bachelor's degree and master's degree (if applicable) from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- **Minimum GPA Requirement:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester:** A PhD degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Folklore Studies - MA

Program Overview

College
College of Arts & Sciences

Department
History, Cultures & Ideas

Program Level
Graduate

About this Degree

The word "folklore" names an enormous and deeply significant dimension of culture, including the arts, stories, local knowledges, and everyday practices of a people. Folklore truly is the wisdom of the ages—that is, the aspects of culture that ordinary people find important and useful enough to preserve in their daily lives.

Studying folk culture means examining how traditions are created, shared, and adapted in communities, and how traditions manifest and change in the modern world in local and global contexts. As such, Folklore Studies is rooted in both the past and present and covers a wide range of topics, from older expressions such as quilts, foodways, and fairy tales to more contemporary expressions such as legends, internet memes, conspiracy theories, fake news, and the supernatural. Our faculty teach and publish on a wide range of topics, including fairy tales and legends, digital folklore, landscape, festival, folklore and medicine, and vernacular religious practices.

Students who study folklore gain durable skills in documentary practice, cultural competence, archiving experience, and community-based literacy—preparing them for admission to doctoral programs and also for careers in museums and archives, nonprofit work, education, cultural policy, and community organizing.

This is an in-person, terminal Master's program normally conducted over the course of two years. Options for part-time students are also available. For more information on the program and admission requirements, visit https://www.usu.edu/degrees-majors/folklore-studies_ma_ms.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Program Requirements:

To receive a Master of Arts (MA) degree, students must demonstrate reading competency in a foreign language. Students may demonstrate current competence through any one of three methods:

1. successful completion of two years (four semesters) of foreign language at the undergraduate level (either as an undergraduate or as a graduate student),
2. passing the USU-administered language exam by showing proficiency at least up to a second-semester, second-year level of language classes,
3. or taking a 3000- or 4000-level language course with a grade of C or higher.

Additional Requirements

- A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of B- or lower will not be accepted for a graduate degree.
- The Program of Study for a master's degree must include at least 15 semester credits at the level of 6000 or above.
- Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000. Students are not allowed more than 12 credits of coursework at the 5000 level.
- The Folklore Studies MA degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- Successful defense and submission of the thesis or dissertation to the library.
- Approval of academic forms required for master's students by the School of Graduate Studies:

o Supervisory Committee Approval Form
o Program of Study
o Responsible Conduct of Research training, a brief online training on ethical conduct in research that the university requires
o Thesis Proposal Defense/Approval
o Appointment for Examination
o Record of Examination
o Successful defense and submission of the thesis to the library.
o Other forms may be required; for details refer to the Graduate Student Handbook.

Requirements for MA degree

Type
Completion Requirement

Foundation Courses: 6 credits (2 courses)

Complete ALL of the following Courses:

- HIST6700 - Introduction to Folklore Studies - 3cr.
- HIST6720 - Oral History and Fieldwork Methods - 3cr.

Folklore Elective Courses (9 credits)

Complete at least 3 of the following courses:

- HIST6710 - Folklore, Landscape, and Place - 3cr.
- HIST6740 - Folk Narrative - 3cr.
- HIST6750 - Advanced Folklore Workshop (the Fife Conference) - 3cr.
- HIST6760 - Folk Art, Traditional Art, and Material Culture - 3cr.
- HIST6770 - Seminar in Folklore and Folklife - 3cr.
- HIST6500 - Archiving Internship - 2cr.

Open Elective Courses: 9-12 credits, depending on thesis option (3-4 courses)

Complete the following:

For electives, students may choose any graduate courses offered within the History or English departments, including folklore classes. Students may also take one elective course from outside the History Department, with approval from the Folklore Program chair and the Director of Graduate Studies.

- Students who decide to complete a Plan B thesis must take 9 credits of open elective courses (3 courses).
- Students who decide to complete a Plan A thesis must take 6 credits of open elective courses (2 courses).

Thesis Credits (3-6 credits, depending on thesis option)

Students must choose to complete either a Plan A or a Plan B thesis. Students who decide to complete a Plan B thesis must register for 3 credits of thesis work. Students who decide to complete a Plan A thesis must register for 6 credits of thesis work.

The Folklore program strongly encourages students to complete a Plan B thesis.

Plan B: For a Plan B thesis, students must write a single research paper that is modeled on a publishable journal article. For the Folklore program, the minimum page requirement for a Plan B thesis is 25 pages, although most tend to be 30-50 pages. The length of a Plan B thesis is determined by the discretion of the thesis committee chair.

Plan A: For a Plan A thesis, students must write an extensive research project that consists of several chapters. For the Folklore program, a Plan A thesis must be a minimum of 50 pages, although most tend to be 50-100 pages. The length of a Plan A thesis is determined by the discretion of the thesis committee chair.

Complete ALL of the following Courses:

- HIST6970 - Thesis Research - 1cr.

NOTE:
Students who wish to complete a Plan A thesis must complete their thesis proposal defense by April 15 during the second semester in the program. Students who do not complete a thesis proposal defense by this date will not be eligible to complete a Plan A thesis and must complete a Plan B thesis.

Additional requirements for MA Degree

Type
Completion Requirement

Requirements

Complete the Following:
To obtain an MA (Master of Arts) degree, students must demonstrate proficiency in one or more foreign languages. Students in Folklore Studies must pass a language requirement in order to receive an MA degree. Without a foreign language, students will receive an MS (Master of Science).

The language requirement for the MA degree may be completed in the following ways:

1. Test: Pass a test of written and oral comprehension in an approved foreign language through the Department of World Languages and Cultures at Utah State University.
2. Coursework: Students may satisfy the requirement through one of the following forms of coursework:

Demonstrate proficiency in one foreign language by successful completion of one course at the 2020 level or higher (or its equivalent)

Demonstrate proficiency in two foreign languages by successful completion of the 1020 course level (or its equivalent) in one language and the 2020-level (or its equivalent) for the other

Complete an upper-division (3000-level or higher or the equivalent) in a foreign language grammar or literature course requiring the 2020 level (or its equivalent) as a prerequisite. Note: Conversation courses do not satisfy this requirement.

Students who have earned a Bachelor of Arts degree or who have passed coursework in a foreign language within the past five years from the date of matriculation into the Folklore Studies program may petition for acceptance of coursework to fulfill the language requirement for the MA degree. Please see the English Department's Director of Graduate Studies for more information.

Plan B: For a Plan B thesis, students must write a single research paper that is modeled on a publishable journal article. For the Folklore program, the minimum page requirement for a Plan B thesis is 25 pages, although most tend to be 30-50 pages. The length of a Plan B thesis is determined by the discretion of the thesis committee chair.

Plan A: For a Plan A thesis, students must write an extensive research project that consists of several chapters. For the Folklore program, a Plan A thesis must be a minimum of 50 pages, although most tend to be 50-100 pages. The length of a Plan A thesis is determined by the discretion of the thesis committee chair.

Complete ALL of the following Courses:

- HIST6970 - Thesis Research - 1cr.

NOTE:

Students who wish to complete a Plan A thesis must complete their thesis proposal defense by April 15 during the second semester in the program. Students who do not complete a thesis proposal defense by this date will not be eligible to complete a Plan A thesis and must complete a Plan B thesis.

Forensic Testimony - Minor

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

The Forensic Testimony Minor is designed for students who wish to work as a forensic analyst within the criminal justice system. Students wanting to pursue such a career will need to obtain a Bachelor's degree in the area in which they wish to specialize—those working in a crime lab will need a degree in chemistry or biology, those working in computer forensics will need a degree in computer science, those working in forensic accounting will need a degree in accounting, those working as a forensic psychologist will need a degree in psychology, and so on. As part of their job, forensic analysts are required to testify in court about the forensic analyses they conduct. This minor is designed to provide students with the skills to do this. Specifically, students will learn about the procedural and evidentiary rules that apply to criminal trials and will have the experience of testifying as a witness in a criminal trial in a mock trial setting. Additionally, students will learn the communication skills necessary to be an effective witness.

Program Requirements

Total Credits Required In Program Coursework

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

Students must have a GPA of 2.0 or higher in Forensic Testimony courses, USU courses and Overall to declare for this Minor. Students must have a GPA of 2.0 or higher in Forensic Testimony courses and an overall and USU GPA of 2.0 or higher to graduate. Forensic Testimony courses over 10 years old do not count toward the major requirement. 50% of classes need to be taken at USU. Classes taken P/F and earning a "P" grade cannot be counted toward the major without special permission. A minimum grade of C- is required for all courses in the Forensic Testimony Minor.

Classes used for the Forensic Testimony Minor cannot be applied to another major or minor. However, classes for the Forensic Testimony minor can overlap with a certificate.

Core Courses

Type
Completion Requirement

Core Courses (6 credits)

Earn a minimum grade of C- in the following:

- CJ4350 - Courtroom Communication (CI) - 3cr.
- CJ2350 - Laws of Evidence - 3cr.
  OR CJ3320 - Criminal Procedure - 3cr.

Elective Courses

Type
Completion Requirement

Elective Courses (6 credits)

A minimum grade of C- is required.

Earn at least 6 credits from the following:

- CJ1330 - Criminal Law - 3cr.
  OR CJ1340 - Criminal Investigations - 3cr.
  OR CJ1350 - Introduction to Forensic Science - 3cr.
  OR CJ2360 - Juvenile Law and Procedures - 3cr.
  OR CJ4310 - Corrections Law & Inmate Rights - 3cr.
- CMST1020 - Public Speaking (BHU) - 3cr.
  OR CMST2270 - Argumentation and Debate - 3cr.
  OR CMST3330 - Intercultural Communication (DSS) - 3cr.
  OR CMST3600 - Communication and Conflict - 3cr.

Food Production Management - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree
The Food Production Management Certificate is designed to equip students with the essential knowledge and practical skills required for success in the food industry. This interdisciplinary program integrates core concepts from food science, engineering technology, and business management to address critical workforce needs identified by industry partners.

Students enrolled in the certificate program will explore a range of essential topics, including the fundamentals of food processing, sanitation and safety practices, and the principles of operations management. The curriculum also emphasizes quality management systems and the effective management of organizations and people, providing a well-rounded foundation for leadership roles in the food production industry.

This certificate is ideal for students pursuing careers in food manufacturing, safety assurance, production supervision, and related fields. It also serves as a valuable credential for students from other disciplines seeking to broaden their career opportunities in the food sector.

Food Processing - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Nutrition, Dietetics & Food Sciences

Program Level
Undergraduate

About this Degree
Individuals with targeted training in food safety will be in demand in multiple industries to respond to current and emerging food safety challenges. The Certificate in Food Processing will provide students with the background needed to appreciate the importance of food safety, and a basis to understand why certain food safety practices must be followed.

Coursework includes an introduction to Food Science, experience with food production (via the Chocolate Science course), food processing technology, and statistics. Students will also receive training in food safety (Hazard Analysis and Critical Control Points), and will obtain Food Protection Manager Certification through ServSafe as part of the required coursework. Credits from this two-semester certificate can be applied directly towards the requirements for the BS in Food Science.

French - Minor

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Undergraduate

About this Degree

French minors develop durable skills in communication, cultural competence, critical thinking, analysis and more, while expanding their knowledge of the French language and the cultures of the francophone world. Earning a French minor helps graduates showcase their language and communication skills and cultural knowledge to future employers, from global business, to tech, to education, to healthcare, to STEM fields, and beyond. Students with prior language experience may be able to begin or complete the minor sooner through Language Proficiency and Placement Testing in the USU Department of World Languages and Cultures. Bridge program participants may also be able to complete the minor quicker. The French section offers many opportunities for cultural activities, student club activities, scholarships, tutoring, undergraduate research, and study abroad summer in France.

Admission Requirements for this Program

2.0 GPA minimum

Program Requirements

Total Credits Required In Program Coursework
12

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

- **Total Upper-Division Credits for French Minor:** 12
- **Grade Point Average to Declare French Minor:** 2.0 GPA
- **USU Credit Requirement**: At least half (50 percent) of the credits earned for this degree must be completed in upper-division USU courses having prefixes of FREN or LING. All other credits (including transfer and study abroad credits from other institutions) must be approved by the program's academic advisor in order to be counted toward the minor. Students who have completed Bridge Program Language courses in high school should contact their advisor as these courses may count toward elective credits and credits toward minor requirements; up to 9 credits of Bridge courses may count toward the French minor or French major emphasis at USU.
- **Minimum Grade Requirement:** All courses taken for the French minor or major require a minimum grade of **C-** or better. Courses for the minor *may not* be taken on a pass/fail basis, **except** the Study Abroad course FREN3030 ADV FRENCH EVERYDAY COMM.

Section 1

Type
Completion Requirement

Required Courses (12 credits)

Earn at least 12 credits from the following:

- FREN3030 - Advanced French for Everyday Communication - 3cr.

- FREN3060 - French Intermediate Written Communication (CI) - 3cr.
- FREN3070 - Advanced French Study Abroad I - 4cr.
- FREN3080 - Advanced French Study Abroad II - 4cr.
- FREN3090 - French Intermediate Written Communication (CI) - 3cr. (Inactive)
- FREN3116 - Adventure and Discovery: Journey in the Francophone World - 3cr.
- FREN3117 - Francophone Studies: Past, Present and Future - 3cr.
- FREN3118 - Paris, City of Lights - 3cr.
- FREN3400 - Introduction to Translation - 3cr.
- FREN3500 - French and Francophone Authors (DHA) - 3cr.
- FREN3510 - Business French (CI) - 3cr.
- FREN3550 - French Civilization (DHA) - 3cr.
- FREN3570 - France Today - 3cr.
- FREN3600 - Textual Analysis - 3cr.
- FREN3700 - Francophone Music (CI) - 3cr.
- FREN3820 - Advanced Independent Study: Experiencing Francophone Culture - 2cr.

- FREN4630 - French and Francophone Fairy Tales (DHA) - 3cr.
- FREN4640 - Exploring the French and Francophone Short Story - 3cr.
- FREN4880 - Individual Readings - 1cr.
- FREN4900 - Seminar in French and Francophone Studies - 3cr.
- FREN4920 - French Language Tutoring - 1cr.

NOTE:

FREN3060 FREN INT WRITTEN COMM (CI), FREN3090 INTERM WRITTEN COMM (CI), FREN3500 FRENCH AND FRANCO AUTHOR (DHA), FREN3600 TEXTUAL ANALYSIS, FREN3900 TOPICS IN FRENCH/ FRANCO, FREN4060 ADV FRENCH CONVERSATION (CI), FREN4640 FRANCOPHONE SHORT STORY, FREN4900 SEMINAR: FRENCH/ FRANCO STUDY, FREN4920 FRENCH LANGUAGE TUTORING, are repeatable for credit because content and materials vary.

Section 2

Type
Completion Requirement

Bridge Program

Requirements
Bridge Pathway: Students who participated in a High School French Bridge Program should follow the instructions below for successful completion of the French minor.

- **Credits in Residence:** At least half (50 percent) of the credits earned for this minor must be earned at USU. Bridge courses taken in high school will count toward credits in residence at USU and toward the French minor or French major emphasis.
- **AP Exam:** Bridge and/or (Dual Language Immersion (DLI) students who received a score of 3 or higher on the AP French Exam **may register directly for courses at the 3000-level or 4000-level** without having to take any of the lower-division French courses or another placement test.
- **Bridge Courses:** FREN3116 JOURNEY IN FRANCOPHONE WORLD, FREN3117 FRANCOPHONE STUDIES, and FREN3118 PARIS, CITY OF LIGHTS should be transferred through the Registrar's Office if completed in high school through another university than USU.

If Bridge student successfully completed:

- 1 Bridge course: Take **three** more 3 credit upper-division French electives
- 2 Bridge courses: Take **two** more 3 credit upper-division French electives
- 3 Bridge courses: Take **one** more 3 credit upper-division French elective
- Student should have taken **4 classes (for a total of 12 credits)** of upper-division French coursework to complete the minor, Bridge classes included.
