- FREN3116 - Adventure and Discovery: Journey in the Francophone World - 3cr.
- FREN3118 - Paris, City of Lights - 3cr.
- FREN3400 - Introduction to Translation - 3cr.
- FREN3500 - French and Francophone Authors (DHA) - 3cr.
- FREN3510 - Business French (CI) - 3cr.
- FREN3700 - Francophone Music (CI) - 3cr.
- FREN3880 - Individual Readings - 1cr.
- FREN3900 - Topics in French and Francophone Studies - 3cr.
- FREN4610 - Studies in French Literature and Culture (DHA) - 3cr.
- FREN4620 - Genre Studies in French Literature (DHA) - 3cr.
- FREN4630 - French and Francophone Fairy Tales (DHA) - 3cr.
- FREN4640 - Exploring the French and Francophone Short Story - 3cr.
- FREN4880 - Individual Readings - 1cr.
- FREN4900 - Seminar in French and Francophone Studies - 3cr.
- FREN4920 - French Language Tutoring - 1cr.

Additional Comments:
NOTES:

1. Students with experience abroad may be advised to enroll in FREN3090 INTERM WRITTEN COMM (CI) or FREN4090 ADV WRITTEN COMMUNICATION (CI), depending on placement test and/or instructor's determination.
2. FREN4920 FRENCH LANGUAGE TUTORING - French Language Tutoring is repeatable up to 3 credits and requires instructor approval.

Section 2

Type
Completion Requirement

Additional Comments:

French Teaching Emphasis Minor with Secondary School Licensure

- To receive secondary school licensure, students must complete the Secondary Teacher Education Program (STEP). Courses may be subject to change, and students should contact the Secondary Education Advising Office for a current course list of STEP requirements before declaring the minor.
- A minimum grade of C is required in all STEP required courses.
- SCED3300 CLINICAL EXPERIENCE I is required for licensure, and is typically taken in the last semester of minor coursework, but does not count toward required FREN credits.

Section 3

Type
Completion Requirement

Secondary Teacher Education Program (STEP) (29 credits)

Many of the courses below may count for both the French Teaching Minor and STEP requirements.

Please see STEP requirements. and information: https://www.usu.edu/degrees-majors/secondary-teacher-education-program-step_licensure.

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- LING5400 - Teaching Modern Languages - 3cr.
- LING5500 - Student Teaching Seminar - 2cr.

NOTES:

1. The Special Methods II course is taught under course number 5400.
2. SCED3300 CLINICAL EXPERIENCE I and LING5400 TEACHING MODERN LANGUAGES must be taken during the same semester if the student is taking LING5400 TEACHING MODERN LANGUAGES. SCED3300 CLINICAL EXPERIENCE I 1 credit is required and should be the last course taken for the minor. These courses are for STEP and a student must be admitted to the STEP program to enroll. These courses should be taken the fall semester before student teaching if possible. SCED3300 CLINICAL EXPERIENCE I is also listed in required courses above so that students seeking the French Teaching Emphasis Minor understand the complete list of minor requirements. See non-licensure information below.

Section 4

Type
Completion Requirement

French Minor

Teaching Emphasis without Secondary School Licensure (Minor 19 credits)
It is possible to have a teaching emphasis within a major or minor in French *without* receiving secondary school teaching licensure. However, unless the student *is also* an elementary education major, the student would not be authorized to teach in Utah public schools (nor at some private schools).

To complete a French Minor—Teaching Emphasis *without* Secondary School Licensure, students must fulfill all of the requirements listed under Section I above, except for SCED3300 CLINICAL EXPERIENCE I which is *not* required if completing minor *without* Secondary School Licensure).

Licensure

Licensure Notification
This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

About this Degree

Program Contacts

Department Head: Christopher Keyes, 435-797-2254, chris.keyes@usu.edu
Graduate Program Coordinator: Stacey Brummer, 435-797-2503, stacey.brummer@usu.edu

Program Description

Students in the fisheries biology program study river, lake, and wetland ecosystems. The program highlights the ecology of freshwater systems, management of important fisheries, restoration of stream, riparian, and wetland areas, and the monitoring and protection of plant and animal populations in lakes and rivers.

Each student has an individualized plan of study created for them by their graduate committee, and students are able to take courses in other departments on campus, such as biology and civil and environmental engineering. This allows students to gain a broad education in areas related to fish populations and aquatic ecosystems.

Specializations are available in Conservation Biology and Fisheries Management as part of this degree. For additional degree information, see the program page or the Department of Wildland Resources website.

Admission Requirements for this Program

Applying for graduate study in Watershed Sciences is a two-step process. We admit applicants to begin graduate study during Fall, Spring, and Summer Semesters. Applications should be submitted by the following deadlines.

- Summer: March 15
- Fall: June 15
- Spring: October 15

Preference is given to applicants who apply before January 10. Fellowships for non-University funds, such as Quinney Fellowships, have different deadlines. Please see individual applications for deadlines.

1. Gain a faculty sponsor and funding

- Contact a faculty member you would like to work with directly. Students cannot be admitted to the program without first having a faculty sponsor and funding provided by their sponsor or an outside agency. In your email please explain why you are interested in working with your prospective mentor and discuss your qualifications for graduate study, including any undergraduate research. Be sure to also include your GPA. (Please note that the requirement to take the GRE has been removed.) To choose a prospective mentor, consult the list of faculty who have current active graduate programs.

2. Apply through the School of Graduate Studies

- Once you have secured a faculty sponsor and funding, you will be invited to officially apply through the School of Graduate Studies, send official transcripts, and pay the application fee.

Admission Requirements:

- GPA of 3.2 or higher
- Sponsorship by a faculty member (gaining a sponsorship usually requires correspondence directly with the faculty)
- A formal application
- A detailed statement outlining your objectives in graduate education, your future goals, and your specific area of research interest.

Simple Requisites

Program Requirements

Master's Plan A or Master's Plan B routes

Master's plan A degrees require a thesis and 6-15 thesis credits.

- Your plan A thesis should contribute to your field by presenting your original research or a new perspective of existing knowledge. You'll choose the problem or subject to focus on with your major professor by the end of your second semester of graduate study. You should perform thesis research during the semester(s) you are registered for thesis credit and when faculty support is available. Theses must follow USU publication formatting standards.

Master's plan B degrees require a final paper/project and 2-3 thesis credits.

- The plan B paper is usually a literature review based on inquiry, systematic research and analytic critique of your findings. Your conclusions should enhance knowledge in your discipline. Although perhaps less intensive or original than a master's thesis, a plan B paper must follow the standard USU thesis/dissertation format and reflect equivalent scholarship standards. You will defend your plan B paper, but it will not be reviewed by your assistant dean or signed by the Vice Provost for graduate studies. Like a thesis, your plan B paper will be submitted to the Merrill-Cazier Library for internal publication.

Department Requirements

- Completion of required trainings, including Responsible Conduct of Research training
- Present at the department Graduate Research Symposium
- Thesis/paper/project defense
- Submission of thesis/paper to the School of Graduate Studies and library for review and approval

School of Graduate Studies (SGS) Requirements

Completion of SGS-specific Forms:

- Supervisory Committee Approval
- Program of Study
- Master's Thesis Proposal/Project Approval
- Appointment for Examination
- Record of Examination
- Format & Style Form
- Authorship & Copyright Form
- Title Page Form
- Application for Graduation

Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.

Overall Graduate GPA (≥ 3.0) and No Grades of C- or Lower: Graduate students must maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower cannot be applied toward a graduate degree.

Course Number Acceptability: A master's Program of Study may include no more than 12 semester credits of coursework below 6000-level. The following types of credits are not acceptable toward the degree: foreign language courses (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and any courses numbered below 5000.

Matriculation Start Semester: Master's degrees must be completed within six years of entering the program. Additional time may be requested by the advisor and submitted to the Vice Provost of Graduate Studies.

Coursework Validity: Coursework older than eight years at the time of degree completion may not be used unless it is formally revalidated.

Master's Plan A - 30 required credit hours (minimum), including:

Type
Completion Requirement

1 credit of WATS 6260 - Graduate Induction Course

Complete ALL of the following Courses:

- WATS6260 - Watershed Sciences Graduate Student Induction Course - 1cr.

6-15 credits of WATS 6970 - Thesis Research

Earn at least 6 credits from the following:

- WATS6970 - Thesis Research - 1cr.

Remaining Credits

Remaining credits to reach 30 credit hours (minimum)
Fulfilled via:

- Graduate level course work (6000 and above)
- No more than 12 credits of 5000-5990 level courses

Master's Plan B - 30 required credit hours (minimum), including:

Type
Completion Requirement

1 credit of WATS 6260 - Graduate Induction Course

Complete ALL of the following Courses:

- WATS6260 - Watershed Sciences Graduate Student Induction Course - 1cr.

2-3 credits of WATS 6970 - Thesis Research

Earn at least 2 credits from the following:

- WATS6970 - Thesis Research - 1cr.

Remaining Credits

Remaining credits to reach 30 credit hours (minimum)
Fulfilled via:

- Graduate level course work (6000 and above)
- No more than 12 credits of 5000-5990 level courses

Forensic Specialist and Crime Scene Investigation - Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

The Forensic Investigations and Crime Scene Investigations Certificate will be housed and administered by USU's Sociology department in the College of Humanities and Social Sciences. The curriculum will include currently offered undergraduate courses. While only three courses are required for certificate completion, students will be welcome and invited to take additional courses of electives.

Admission Requirements for this Program

Certificate completion will require three courses totaling 9 credit hours.

Forensic Specialist and Crime Scene Investigation - Certificate

Type
Completion Requirement

Required Course (3 credits)

Complete ALL of the following Courses:

- CJ1350 - Introduction to Forensic Science - 3cr.

Required Course (6 credits)

Complete at least 2 of the following courses:

- CJ4350 - Courtroom Communication (CI) - 3cr.
- CJ1340 - Criminal Investigations - 3cr.
- CJ1355 - Crime Scene Processing - 3cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

Objectives

1- Students will learn the procedures and techniques involved in criminal investigations, including interrogation, evidence collection and preservation, crime scene procedures, and laboratory analysis, while preparing cases for prosecution.

2- Students will develop skills in oral advocacy and testimony presentation, while learning how disputes are resolved outside of trial and the role of communication in the criminal justice process.

3- Students will gain foundational knowledge in criminal investigations, including legal, scientific, and administrative aspects, while learning to overcome obstacles, and acquire skills in crime scene technician duties, evidence handling, report writing, and laboratory methods.

Freshwater and Marine Ecology - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Watershed Sciences

Program Level
Undergraduate

About this Degree

The Freshwater and Marine Ecology (FAME) Bachelor of Science major at Utah State University integrates freshwater and marine ecology to prepare students for careers that focus on the structure, function, and conservation of aquatic environments—from headwater streams to open oceans.

At the heart of the FAME program is a deep exploration of how aquatic ecosystems work, how they respond to natural and human-driven changes, and how they support biodiversity and societal wellbeing. In this major, students explore the biological, chemical, and physical processes that sustain life in water, and they gain hands-on skills in ecology, restoration, conservation, and environmental data analysis.

- For more information about Freshwater and Marine Ecology, see the website.
- Admitted and current students must meet with an academic advisor for semester by semester planning.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
99-100

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses required for this major must be taken on an A-B-C-D-F basis. A grade of C- or better is required for all WATS and GEOG courses used to meet requirements for the Fisheries and Aquatic Sciences major. The grade point average for all courses taught by the College of Natural Resources must be 2.5 or higher.

Freshwater and Marine Ecology - BS

Type
Completion Requirement

Scientific Foundation (31-32 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1210 - Calculus I (QL) - 4cr.
  OR MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
- WATS2220 - General Ecology - 3cr.
  OR BIOL2220 - General Ecology - 3cr.

Departmental Core (17 credits)

Complete ALL of the following Courses:

- WATS2000 - Natural Resource Professional Orientation - 1cr.
  OR ENVS2000 - Natural Resource Professional Orientation - 1cr.
  OR WILD2000 - Natural Resource Professional Orientation - 1cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
  OR WATS3500 - Water and Power - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WATS2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WILD2800 - Introduction to Geographic Information Sciences - 4cr.
- WATS3100 - Fish Ecology, Conservation, and Management (CI/DSC) - 3cr.
- WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.
- WATS5500 - Limnology: Ecology of Inland Waters - 3cr.

Freshwater and Marine Ecology Courses (34 credits)

Complete ALL of the following Courses:

- WATS3000 - Oceanography (DSC) - 3cr.
  OR GEO3300 - Geology of the World's Oceans (DSC) - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- WATS2500 - Introduction to Marine Biology (BLS) - 3cr.
- WATS3110 - Fish Ecology, Conservation, and Management Lab - 1cr.
- WATS4510 - Aquatic Ecology Methods - 2cr.
  OR WATS3450 - Introduction to Coral Reefs-Field Course (DSC) - 3cr.
  OR WATS3200 - Marine Ecology: Expedition Sea of Cortez (DSC) - 3cr.
- WATS4050 - Marine Global Change: Impacts and Conservation Strategies - 3cr.
- WATS5200 - Fish Habitats - 2cr.
- WATS5305 - Ecology and Restoration of Plants - 3cr.
- WATS5540 - Ichthyology - 4cr.
- WATS5550 - Freshwater Invertebrates - 3cr.
- WILD3810 - Wildlife Population Ecology - 3cr.

Directed Electives (17 credits)

Students must choose a minimum of 17 elective credits to complete the Freshwater and Marine Ecology degree requirements. The majority of these elective credits must come from courses directly related to the degree program. All elective courses must be approved by the student's faculty advisor before enrollment. The following is a list of recommended courses that could be used to satisfy this requirement.

Earn at least 17 credits from the following:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- BIOL3020 - Evolutionary Biology - 3cr.
- BIOL3050 - Organismal Biology with Physiology - 3cr.
- BIOL3055 - Organismal Biology with Physiology Laboratory (CI) - 2cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3065 - Genetics Laboratory (CI) - 2cr.
- BIOL3070 - Computational Approaches to Biology - 3cr.
- BIOL3085 - Ecology Laboratory (CI) - 2cr.
- BIOL3150 - Quantitative Modeling of Life - 3cr.
- BIOL3300 - General Microbiology - 3cr.
- BIOL4060 - Exploring Animal Behavior - 3cr.
- BIOL4270 - Theoretical Ecology - 3cr.
- BIOL4420 - Plant Systematics and Diversity - 3cr.
- BIOL4540 - Invertebrate Zoology - 3cr.
- BIOL5010 - Biogeography - 3cr.
- BIOL5390 - Genes and Behavior (CI) - 3cr.
- BIOL5560 - Ornithology - 3cr.
- BIOL5570 - Herpetology - 3cr.
- BIOL5580 - Mammalogy - 3cr.
- BIOL5600 - Comparative Animal Physiology - 3cr.
- BIOL5650 - Comparative Anatomy of the Vertebrates - 4cr.
- ENGL3640 - Nature Writing (DHA) - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS3600 - Living with Wildlife (DSC) - 3cr.
- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
- ENVS5100 - Introduction to Modeling Human-Environment Systems - 3cr.
- ENVS5350 - Ecological Economics - 3cr.
- ENVS5750 - Global Change Ecology - 3cr.
- GEOG3200 - Principles of Remote Sensing - 3cr.
- GEO3550 - Sedimentation and Stratigraphy - 4cr.
- GEO3600 - Geomorphology - 4cr.
- GEOG3700 - Python Programming for GIS - 3cr.
- GEOG3800 - Geospatial Data Visualization - 3cr.
- GEOG4910 - Geographic Information Science Portfolio - 1cr.
- GEOG5300 - Geospatial Analysis with R - 3cr.
- GEOG5805 - Introduction to Geospatial Artificial Intelligence: The Remote Sensing and GeoAI Frontier - 3cr.
- NR4251 - Natural Resources and Environmental Internships Preparation - 1cr.
- NR4252 - Natural Resources and Environmental Internship Achievements - 1cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.
- PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.
- WATS2050 - Data Management for Natural Resources – Cleaning and Shaping Data - 1cr.
- WATS2060 - Data Management for Natural Resources – Data Display and Analysis - 1cr.
- WATS3200 - Marine Ecology: Expedition Sea of Cortez (DSC) - 3cr.
- WILD3300 - Wildlife Behavior - 3cr.
- WATS3450 - Introduction to Coral Reefs-Field Course (DSC) - 3cr.
- WATS4100 - Climate Adaptation Intern Program - 3cr.
- WATS4250 - Advanced Internship/Co-op - 1cr.
- WATS4950 - Special Topics - 1cr.
- WATS4990 - Senior Thesis - 2cr.
- WATS5055 - American Academy of Underwater Sciences Scientific Diver Certification Course - 2cr.
- WATS5110 - Environmental Biogeochemistry - 3cr.
- WATS5150 - Fluvial Geomorphology - 3cr.
- WATS5210 - The Secret Life of Elements on Earth - 2cr.
- WATS5490 - Small Watershed Hydrology (QI) - 4cr.
- WATS5530 - Water Quality and Pollution - 3cr.
- WATS5360 - Wetland Ecology and Management - 3cr.
- WILD3300 - Wildlife Behavior - 3cr.
- WILD4100 - Scientific Communication for Natural Resource Professionals (CI) - 3cr.
- WATS5500 - Limnology: Ecology of Inland Waters - 3cr.
- WILD4600 - Conservation Biology - 3cr.
- WILD5750 - Applied Remote Sensing - 3cr.

Open Electives

Complete the following as needed:

Global Agriculture, Leadership and Education - Institutional Certificate of Proficiency

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Applied Sciences, Technology and Education	Undergraduate

About this Degree

Join the Global Agriculture, Leadership, and Education Institutional Certificate of Proficiency program and unleash your potential to create a lasting difference in the world. Our unique curriculum blends agriculture, leadership principles, and education strategies, providing you with the tools to drive positive change on a global scale. The GALE ICP enriches your academic journey and strengthens your resume. Gain invaluable knowledge and hands-on experience in global food and agriculture science, setting yourself apart as a leader in your field.

Advisor: Caisa Shoop
Applied Sciences, Technology & Education (ASTE)

Section 1

Type
Completion Requirement

Agriculture

Choose one of the following:

Complete at least 1 of the following courses:

- ASTE2900 - Food Matters: Ethics, Economics, and the Environment (BSS) - 3cr.
- ASTE5600 - Biosecurity I - 3cr.
- ASTE5610 - Biosecurity II - 3cr.
- ASTE5620 - Food Security and Solutions - 3cr.
- ENVS5600 - Natural Resource Interpretation - 3cr.
- NDFS1240 - Food Literacy - 3cr.
- NDFS3070 - Science of Food Preparation - 4cr.
- NDFS3110 - Food, Technology, Sustainability and Health (DSC) - 3cr.
- PSC4280 - Field and Food Cropping Systems - 3cr.
- PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.

Leadership

Choose one of the following:

Complete at least 1 of the following courses:

- ASTE2100 - Personal and Team Leadership - 3cr.
- ASTE5220 - Volunteer Programs and Partnerships - 3cr.
- FCSE2510 - Orientation to Family and Consumer Sciences Education - 3cr.
- FCSE3080 - Fashion Studies and Society (DHA) - 3cr.

Education

Choose one of the following:

Complete at least 1 of the following courses:

- ASTE3240 - Teaching in Laboratory Settings (CI) - 3cr.
- ASTE3625 - Youth Development Education - 2cr.
- ASTE4150 - Methods of Teaching Agriculture (CI) - 3cr.
- ASTE4155 - Nonformal Teaching Methods - 3cr.
- ASTE4215 - Community Programming and Evaluation - 3cr.
- BSED3150 - Methods for Business Education - 3cr.
- BSED4150 - Methods of Business, Finance, and Marketing Education - 3cr.
- FCSE3400 - FCSE Methods I - 3cr.
- FCSE4400 - FCSE Methods II - 3cr.
- TEE3200 - Methods of Teaching Engineering and Technology Education I - 3cr.
- TEE4400 - Methods of Teaching Engineering and Technology Education II - 3cr.
- ADVS3150 - Principles of Equine-Assisted Services - 3cr.
- ADVS2800 - Riding Fundamentals for Instructors - 3cr.
- ADVS3400 - Equine Specialist in Equine-Assisted Interventions - 3cr.
- ENVS4700 - Communicating Sustainability (CI) - 3cr.
- WATS4000 - Natural Resources Teaching Experiences - 1cr.

Experiential Education

Choose 3-5 credits from the following:

Earn at least 3 credits from the following:

- ASTE2450 - Domestic Study Experience - 1cr.
- ASTE3900 - Special Problems in Agricultural Systems Technology and Education - 1cr.
- ASTE5450 - Study Abroad Experience - 1cr.
- ASTE5635 - Career and Technical Education Study Abroad Student Teaching - 3cr.
- APEC4250 - Applied Economics Internship - 1cr.
- WATS4250 - Advanced Internship/Co-op - 1cr.

General Education - Certificate

Program Overview

College
University

Department
General University

Program Level
Undergraduate

About this Degree

The General Education Certificate is awarded to students who have completed the general education requirements at Utah State University. Once awarded, it will appear on your transcript and is considered part of your permanent record.

Program Requirements

Total Credits Required In Program Coursework
27

Total Credits Required To Earn This Credential
27

Simple Requisites

Program Requirements

The total number of credits required to complete the certificate is 27.

In order to qualify for the certificate, students must:

1. Complete all General Education Requirements;
2. Complete at least seven (7) of the general education credits from Utah State University; and
3. Earn a minimum GPA of 2.0 in coursework taken to fulfill certificate requirements.

Passing grades are accepted.

Optional Methods for Completing GE Requirements

Students may also complete general education requirements through a combination of Concurrent Enrollment (CE) courses in high school, Advanced Placement (AP) courses in high school, or by taking a series of tests under the College Level Examination Program (CLEP).

Transfer of General Education Course Credits

Students transferring to USU from another institution are required to forward an official transcript for each college or university attended. Credits earned in general education from a campus in the Utah System of Higher Education (USHE) are transferable to USU. Credits earned at a community college or at a university outside of the state of Utah will be evaluated before acceptance for transfer to USU by the Registrar's Office.

General Education - Certificate

Type
Completion Requirement

General Education Requirements

Complete ALL of the following Course Sets:

- Communications Literacy (CL1) Course
- Communications Literacy (CL2) Course
- Quantitative Literacy (QL) Course

Breadth Requirements (18-20 credits)

Earn at least 18 credits from the following:

- Breadth American Institutions (BAI) Course
- Breadth Creative Arts (BCA) Course
- Breadth Humanities (BHU) Course

- Breadth Life Sciences (BLS) Course
- Breadth Physical Sciences (BPS) Course
- Breadth Social Sciences (BSS) Course

Geography - Geographic Information Science Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Undergraduate

About this Degree

Geography is the study of space, place, and the relationships between people and our environment. With a Geography major, students learn essential skills to solve pressing problems at the local, national, and global scale. Geography is an interdisciplinary degree that includes coursework in the physical and social sciences, combined with technical expertise in the field of geographic information science.

Geographic Information Science Emphasis: This emphasis allows students to gain a solid foundation in geographic information systems and science (GIS). It provides professional preparation for careers in GIS.

- Admitted and current students must meet with an academic advisor for help with semester-by-semester planning, connections to co-curricular experiences, understanding of USU policies, and accessing USU resources. Students can log on to Degree Works to check student-specific progress.
- Students can also have an emphasis in Human-Environment Geography.
- The highest Math Requirement for this degree is STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL).

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
63-66

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses required for the major must be taken on an A-B-C-D-F grade basis. A grade of C- or better and a grade point average of 2.5 or higher is required for all ENVS, GEOG, WATS, or WILD courses used to meet requirements for a major in Geography.

Course Requirements

Type
Completion Requirement

Geography Core (33-35 credits)

Complete ALL of the following Courses:

- ENVS2000 - Natural Resource Professional Orientation - 1cr.
  OR WATS2000 - Natural Resource Professional Orientation - 1cr.
  OR WILD2000 - Natural Resource Professional Orientation - 1cr.

- GEOG1000 - Physical Geography (BPS) - 3cr.
- GEOG1005 - Physical Geography Lab - 1cr.
- GEOG1300 - World Geography: Human and Environmental Dynamics (BSS) - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WILD2800 - Introduction to Geographic Information Sciences - 4cr.
- ENVS3500 - Environmental Data Science (QI) - 3cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- GEOG3800 - Geospatial Data Visualization - 3cr.
- GEOG4210 - Geography of Utah - 3cr.
- PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT1080 - Foundations of Data Science (QL) - 3cr.
- BIOL2220 - General Ecology - 3cr.
  OR WATS2220 - General Ecology - 3cr.
  OR WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

Geographic Information Science Emphasis Core (13 credits)

Complete ALL of the following Courses:

- GEOG3200 - Principles of Remote Sensing - 3cr.
  OR WILD5750 - Applied Remote Sensing - 3cr.
- GEOG3700 - Python Programming for GIS - 3cr.
- GEOG4910 - Geographic Information Science Portfolio - 1cr.
- GEOG5300 - Geospatial Analysis with R - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.

Degree Electives (17-18 credits)

Complete 17-18 credits chosen from the following list. Other courses not listed here may also be approved upon review.

Earn at least 17 credits from the following:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- AV3510 - UAS Fixed Wing Design and Construction - 3cr.
- AV3520 - UAS Guidance and Control - 3cr.
- CMST4260 - Environmental Communication - 3cr.
- DATA3330 - Database Management - 3cr. (Inactive)
- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.
- ENVS3320 - Archaeology of Climate Change (DSS) - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
- ENVS4030 - Building Community Environmental Resilience - 3cr.
- ENVS4130 - Natural Resource Recreation Policy and Planning - 3cr.
- ENVS4200 - Sustainability Metrics - 3cr.
- ENVS4250 - Advanced Internship/Co-op - 1cr.
- ENVS4750 - Global Change Ecology - 3cr.
- ENVS4980 - Environment and Society Departmental Colloquium - 1cr.
- ENVS5020 - Human Dimensions of Fire Management - 3cr.
- ENVS5100 - Introduction to Modeling Human-Environment Systems - 3cr.
- ENVS5200 - Anthropological Perspectives on Conservation - 3cr.
- ENVS5350 - Ecological Economics - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- ENVS5750 - Global Change Ecology - 3cr.
- ENVS5800 - Environment and Society Departmental Colloquium - 1cr.
- ENVS6320 - Water Law and Policy in the United States - 3cr.
- GEO3100 - Natural Disasters (DSC) - 3cr.
- GEO3600 - Geomorphology - 4cr.
- GEOG1400 - Human Geography (BSS) - 3cr.
- GEOG3200 - Principles of Remote Sensing - 3cr.
- GEOG4120 - Environment and Development in Latin America (CI) - 3cr.
- GEOG5400 - Natural Hazards and Society - 3cr.
- GEOG4920 - GIS Internship - 1cr.
- GEOG5805 - Introduction to Geospatial Artificial Intelligence: The Remote Sensing and GeoAI Frontier - 3cr.
- GEOG5815 - Insights from Above: Processing and Analyzing Drone Data - 1cr.
- GEOG5825 - Geospatial Artificial Intelligence, Ethics, & Society - 1cr.
- HIST3950 - Environmental History (DHA/CI) - 3cr.
- LAEP2039 - Foundations of Sustainable Systems - 3cr.
- LAEP2300 - History of Landscape Architecture (BHU) - 3cr.
- LAEP5370 - City and Regional Planning (CI) - 3cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.
- POLS2430 - Contemporary Geopolitics (BSS) - 3cr.
- POLS3430 - Political Geography (CI/DSS) - 3cr.
- SOC2650 - Globalization and International Development (BSS) - 3cr.
- SOC3010 - Social Inequality (DSS) - 3cr.
- SOC3110 - Methods of Social Research (CI) - 3cr.
- SOC3120 - Social Statistics I (QI) - 3cr.
- SOC3200 - Population and Society (DSS) - 3cr.
- SOC3260 - Politics and Society in Post-Colonial States - 3cr.
- SOC3300 - Sociology of Climate Change - 3cr.
- SOC3310 - Environmental Justice - 3cr.
- SOC3340 - Activism, Protest, and Social Movements (DSS) - 3cr.
- SOC3600 - Finding Community in Today's Society (DSS) - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.
- SOC4350 - People, Power, and the Political - 3cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
- SOC4640 - Managing Community Conflict (CI) - 3cr.
- SOC4720 - Effective Community Engagement - 3cr.
- SOC5230 - Techniques of Demographic Analysis - 3cr.
- SOC5270 - Global Migration - 3cr.
- SOC5420 - Gender, Sexuality and Social Inequality - 3cr.
- SOC6640 - Multispecies Justice and Indigenous Environmentalisms - 3cr.
- STAT5410 - Applied Spatial Statistics - 2cr.
- UAS3010 - Unmanned Aircraft System Introduction to Remote Pilot Certification - 3cr.
- UAS3200 - Fixed-wing Design and Construction Essentials - 3cr.
- UAS3700 - Unmanned Aircraft Systems Video Production - 3cr.
- WATS1200 - The Natural World and Our Place Within It (BLS) - 3cr.
- WATS2050 - Data Management for Natural Resources – Cleaning and Shaping Data - 1cr.
- WATS2060 - Data Management for Natural Resources – Data Display and Analysis - 1cr.

- WATS2500 - Introduction to Marine Biology (BLS) - 3cr.
- WATS3000 - Oceanography (DSC) - 3cr.
- WATS3450 - Introduction to Coral Reefs-Field Course (DSC) - 3cr.
- WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.
- WATS4100 - Climate Adaptation Intern Program - 3cr.
- WATS5003 - Remote Sensing of Land Surfaces - 4cr.
- WATS5110 - Environmental Biogeochemistry - 3cr.
- WATS5210 - The Secret Life of Elements on Earth - 2cr.
- WATS5500 - Limnology: Ecology of Inland Waters - 3cr.
- WILD3800 - Wildland Plants and Ecosystems - 4cr.
- WATS5720 - Drone Data Analysis for Environmental Restoration - 2cr.
- WILD5750 - Applied Remote Sensing - 3cr.

Depth Requirements

In addition to two CI courses, and one QI course, complete at least two credits in approved 3000-level or above courses from each of the following two categories:

Complete at least 1 course in the following course sets:

- Depth Humanities and Creative Arts (DHA) Course
- Depth Life and Physical Sciences (DSC) Course

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Program Learning Outcomes

Program Learning Outcomes

Upon completing their program, students will be able to:

- Demonstrate proficiency in application of basic geographic terminology, principles, and concepts
- Explain the diversity and interdependence of regions, places and locations
- Interpret connections between the natural world and human society
- Draw knowledge, understanding and a diversity of approaches from other disciplines to synthesize them in a geographical context
- Apply geographic information systems (GIS) to the analysis of geographic data and spatial relationships
- Apply and interpret appropriate basic statistical and other quantitative analyses for geographic data, including spatially explicit data
- Communicate geographical ideas and information effectively and fluently by written, oral and visual means

Geographic Information Science (GIS) - Post-Bachelor's Certificate

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	College of Agriculture & Natural Resources	Graduate

About this Degree

The online Geographic Information Science (GIS) certificate is designed for graduate students or professionals wanting a competitive advantage in jobs or research requiring competency in applying industry-standard GIS tools to complex natural resource issues.

Students who complete the program will receive a post-bachelor certificate in Geographic Information Science. Their USU transcript will list the courses and grades received to complete the program. The certificate is complementary to a wide variety of graduate programs and is available as a standalone certificate.

Graduate Programs Director: Shannon Belmont

Program Coordinator: Leslie Gonzalez

Technology Requirements
Students must have access to a Windows-based PC to complete this certificate. The program uses ArcGIS Pro, and licenses will be provided to all registered students. ArcGIS Pro does not run on macOS, and the software will not install on Apple operating systems. Students using Apple hardware must secure reliable access to a Windows environment prior to beginning coursework.

To receive the certificate, a student must complete the following set of requirements:

- Apply and be accepted into the GIS Certificate Program
- Register for and successfully complete four graduate-level courses
- Maintain a minimum 3.0 GPA for program courses (grades below B- will not be accepted)
- Abide by the Code of Policies and Procedures for Students at Utah State University

Admission Requirements for this Program

Admission requirements can be found at the USU School of Graduate Studies (apply at https://gradschool.usu.edu/admissions/index). Students are expected to be admitted to the program as matriculated students before taking coursework leading to the degree.

Students pursuing the GIS certificate are not required to be enrolled in a graduate degree program. However, credits obtained from the certificate may be applied toward a graduate degree.

Additional information can about the GIS certificate may be obtained by contacting the Program Coordinator or by visiting https://qanr.usu.edu/mnr/gis-certificate.

Simple Requisites

Program Requirements

School of Graduate Studies Requirements

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

GIS Certificate Course Requirements

Type
Completion Requirement

Required Courses (12 credits)

Students must complete four of the following courses (3 credits each) to fulfill the requirements for the GIS certificate.

Complete at least 4 of the following courses:

- NR6910 - Geographic Information Systems for Natural Resource Applications - 3cr.
- NR6930 - Advanced GIS for Natural Resource Applications - 3cr.
- NR6940 - Principles of Remote Sensing of Natural Resources - 3cr.
- NR6950 - Geospatial Analysis for Natural Resource Management - 3cr.
- NR6960 - Python Programming for GIS - 3cr.

Logan Campus Student Options

Students may substitute the following courses for the certificate. All courses have a prerequisite. Please contact the Program Coordinator for details.

Complete ANY of the following Courses:

- GEOG6300 - Geospatial Analysis with R - 3cr.
- GEOG6500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- WILD6750 - Applied Remote Sensing - 3cr.

General Studies - AA, AS

Program Overview

College
University

Department
General University

Program Level
Undergraduate

About this Degree
General Studies provides students the opportunity to pursue a personalized course of study. This allows students to explore and integrate academic offerings from across multiple departments, programs, and colleges.

- For more information about an Associate of Science or Associate of Art in General Studies, see the Advising Center website.
- Students should meet with an advisor associated with the USU location they attend. For more information contact jordan.pinkham@usu.edu
- Students may utilize Degree Works to check student-specific program progress.
- An Associate of Arts or Associate of Science in General Studies must be listed as the primary program. It cannot be paired with another associate degree as the secondary program or part of a dual associate degree.

Geography - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Undergraduate

About this Degree

Geography is the study of space, place, and the relationships between people and our environment. With studies in geography, students learn essential skills to solve pressing problems at the local, national, and global scale. Geography is an interdisciplinary degree that includes coursework in the physical and social sciences, combined with technical expertise in the field of geographic information science.

Admission Requirements for this Program

Students should make an appointment with an academic advisor in the S.J. and Jessie E. Quinney College of Agriculture and Natural Resources to add this minor: qanr.usu.edu/advising/.

Program Requirements

Total Credits Required In Program Coursework
12-16

Total Credits Required To Earn This Credential
12-16

Simple Requisites

Program Requirements

All courses required for the minor must be taken on an A-B-C-D-F grade basis. A grade of C- or better and a grade point average of 2.5 or higher is required for all courses used to meet requirements for a minor in Geography.

Course Requirements

Type
Completion Requirement

Core Requirements (10 credits)

Complete ALL of the following Courses:

- GEOG1000 - Physical Geography (BPS) - 3cr.
- GEOG1300 - World Geography: Human and Environmental Dynamics (BSS) - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WILD2800 - Introduction to Geographic Information Sciences - 4cr.

Elective Requirements (2-6 credits):

Complete at least 2 of the following courses:

- GEOG1400 - Human Geography (BSS) - 3cr.
- GEOG2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- GEOG3200 - Principles of Remote Sensing - 3cr.
- GEOG3430 - Political Geography (CI/DSS) - 3cr.
- GEOG3800 - Geospatial Data Visualization - 3cr.
- GEOG4120 - Environment and Development in Latin America (CI) - 3cr.
- GEOG4210 - Geography of Utah - 3cr.
- GEOG5300 - Geospatial Analysis with R - 3cr.
- GEOG5400 - Natural Hazards and Society - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- GEOG5805 - Introduction to Geospatial Artificial Intelligence: The Remote Sensing and GeoAI Frontier - 3cr.
- GEOG5815 - Insights from Above: Processing and Analyzing Drone Data - 1cr.
- GEOG5825 - Geospatial Artificial Intelligence, Ethics, & Society - 1cr.

Geography - MS

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Graduate

About this Degree

Geography is concerned with the relationship between people and place and why place matters, the spatial patterns of human activity, and the processes underlying those patterns, and the linkages among places in a globalizing world. The MS in Geography provides a geographic and geospatial perspective on socio-environmental systems and human-environment interactions. The personalized program of study includes both Plan A (thesis) and Plan B (paper/project) options. For additional degree information, see the program page on the Department of Environment and Society Website. Students may complete the Graduate Specialization in Climate Adaptation Science as a part of this degree.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Requirements for this degree include the graduate school and program requirements outlined below.

Graduate School and Home Department Requirements:

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- **Thesis Research Credits 6970:** Plan A students must take at least 6 thesis (ENVS 6970) credits/Plan B students must take a minimum of 2 credits of thesis research (ENVS 6970) but no more than 3 can be included on an approved Program of Study.
- Presentation at the Department's Pre-Project Graduate Research Symposium.
- Completion of the Responsible Conduct of Research (*RCR*) Training
- Approval of a thesis (Plan A) or paper/project (Plan B) proposal.
- Successful defense of the thesis (Plan A) or paper/project (Plan B).
- Submission of thesis to the School of Graduate Studies and library for review and approval, or of the paper/project to the library.
- Completion of academic forms required by the School of Graduate Studies.
    - Supervisory Committee Approval
    - Program of Study
    - Master's Thesis Proposal/Project Approval
    - Appointment for Examination
    - Record of Examination
    - Application for Graduation

Course Requirements

Type
Completion Requirement

A. Complete the Required Core (4 credits):

Complete ALL of the following Courses:

- ENVS6800 - Environment and Society Departmental Colloquium - 1cr.
- ENVS6840 - Graduate Orientation Seminar for Environment and Society - 1cr.
- ENVS6841 - The Socio-Environmental Research Process - 1cr.
- ENVS6842 - Methodology for Socio-Environmental Research - 1cr.

B. Complete a Committee-Approved Plan of Study (minimum of 26 additional credits) that Includes:

1. Theory coursework (at least 3 credits)

2. Methods/analysis coursework (at least 3 credits)

3. Thesis research (Plan A) or a paper/project (Plan B)

ENVS6970 THESIS RESEARCH (6 credits for Plan A or 2-3 credits for Plan B)

4. Elective courses (14 credits Plan A or 17-18 credits Plan B)

Complete ALL of the following Courses:

- ENVS6970 - Thesis Research - 1cr.

Geology - BA, BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Geosciences

Program Level
Undergraduate

About this Degree
Geology is part of broader Earth Science that examines the solid Earth, its composition, history, structure, and how it interacts with the hydrosphere, atmosphere and biosphere.

In this study of how Earth works, geoscientists integrate knowledge of biology, chemistry, engineering, mathematics, and physics. Geologists help us gain energy, mineral, and water resources and evaluate and mitigate hazards due to earthquakes, floods, landslides, and volcanic eruptions, as well as waste disposal and global environmental change.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages. See the following for language course requirements Undergraduate Academic Credential Requirements.

- For more information about Geology, see the Geosciences Department.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1210 CALCULUS I (QL) and either MATH1220 CALCULUS II (QL) or MATH2250 LINEAR ALG/DIFF EQUATIONS (QI).

Admission Requirements for this Program
- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.50 GPA.

Program Requirements

Total Credits Required In Program Coursework

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Some major coursework may fulfill General Education Requirements and University Studies Requirements. Students must receive a grade of C- or higher in GEO courses for them to count toward the major.

- MATH1210 CALCULUS I (QL) will fulfill the Quantitative Literacy (QL) requirement.
- PHYS2220 PHYS SCI AND ENGR II (BPS)(QI) will fulfill the Breadth Physical Sciences (BPS) requirement.
- ENGL1010 WRITING AS INQUIRY (CL1), and ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) will fulfill the Communications Literacy requirement.

Students must receive a grade of C- or higher in GEO courses for them to count toward the major.

Geology - BA, BS Course Requirements

Type
Completion Requirement

Geology Major Requirements (35 credits)

Complete ALL of the following Courses:

- GEO4500 - Igneous and Metamorphic Petrology - 4cr.
- GEO5200 - Geology Field Camp - 5cr.
- GEO5660 - Applied Geophysics - 4cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
  OR MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.

• Additionally complete 9 credits from any geology course numbered 4800 or above (except GEO5200 GEOLOGY FIELD CAMP).

Geology Core Requirements (49 credits)

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
- GEO1115 - Physical Geology Laboratory - 1cr.
- GEO1220 - Historical Geology - 3cr.
  OR GEO2200 - The Earth Through Time - 3cr.
- GEO1225 - Historical Geology Laboratory - 1cr.
  OR GEO2205 - Earth Through Time Laboratory - 1cr.
- GEO2800 - Minerals and Rocks - 4cr.
- GEO3400 - Communicating Geoscience (CI/DSC) - 3cr.
- GEO3550 - Sedimentation and Stratigraphy - 4cr.
- GEO3600 - Geomorphology - 4cr.
- GEO3700 - Structural Geology - 4cr.
- GEO3900 - Geologic Field Methods (CI) - 3cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- MATH1210 - Calculus I (QL) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.

Geology - Professional Emphasis - BA, BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Geosciences

Program Level
Undergraduate

About this Degree

Geology is the part of broader Earth Science that examines the solid Earth, its composition, history, structure, and how it interacts with the hydrosphere, atmosphere and biosphere.

In this study of how Earth works, geoscientists integrate knowledge of biology, chemistry, engineering, mathematics, and physics. Geologists help us gain energy, mineral, and water resources and evaluate and mitigate hazards due to earthquakes, floods, landslides, and volcanic eruptions, as well as waste disposal and global environmental change.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages. See the following for language course requirements Undergraduate Academic Credential Requirements.

- For more information about Geology, see the Geosciences Department.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1210 CALCULUS I (QL).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.75 GPA.

Program Requirements

Simple Requisites

Program Requirements

Some major coursework may fulfill General Education Requirements and University Studies Requirements. Students must receive a grade of C- or higher in GEO courses for them to count toward the major.

- MATH1210 CALCULUS I (QL) will fulfill the Quantitative Literacy (QL) requirement.
- CHEM1220 PRIN OF CHEMISTRY II (BPS) will fulfill the Breadth Physical Sciences (BPS) requirement.
- ENGL1010 WRITING AS INQUIRY (CL1), and ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) will fulfill the Communications Literacy requirement.
- GEO3400 COMMUNICATING GEOSCI (CI/DSC) and GEO3900 GEOLOGY FIELD METHODS (CI) will fulfill the Communications Intensive (CI) requirement.
- PHYS2210 PHYS SCI AND ENGR I (QI)(BPS) will fulfill the Quantitative Intensive (QI) requirement.

Students must receive a grade of C- or higher in GEO courses for them to count toward the major.

Major Requirements (88 credits)

Type
Completion Requirement

Geology Core Requirements (49 credits)

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
- GEO1115 - Physical Geology Laboratory - 1cr.
- GEO1220 - Historical Geology - 3cr.
  OR GEO2200 - The Earth Through Time - 3cr.
- GEO1225 - Historical Geology Laboratory - 1cr.
  OR GEO2205 - Earth Through Time Laboratory - 1cr.
- GEO2800 - Minerals and Rocks - 4cr.
- GEO3400 - Communicating Geoscience (CI/DSC) - 3cr.
- GEO3550 - Sedimentation and Stratigraphy - 4cr.
- GEO3600 - Geomorphology - 4cr.
- GEO3700 - Structural Geology - 4cr.
- GEO3900 - Geologic Field Methods (CI) - 3cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- MATH1210 - Calculus I (QL) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.

Professional Emphasis Courses (24 credits)

Complete ALL of the following Courses:

- GEO3800 - Applied Geoscience Techniques - 3cr.
- GEO4500 - Igneous and Metamorphic Petrology - 4cr.
- GEO5210 - GeoProfessional Field Practicum - 3cr.
- GEO5510 - Groundwater Geology (QI) - 3cr.
- GEO5570 - Engineering Geology (QI) - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.

Professional Emphasis Elective Courses (15 credits)

Students must complete 15 credits from the courses below or others as approved the faculty advisor.

Earn at least 15 credits from the following:

- GEO3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr.
- GEO4850 - Internship/Co-op - 1cr.
- GEO5520 - Techniques of Groundwater Investigations (CI) - 3cr.
- GEO5600 - Geochemistry - 4cr.
- GEO5660 - Applied Geophysics - 4cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Geology: Hydrogeology, Engineering Emphasis - BA, BS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Geosciences	Undergraduate

About this Degree
Geology is the part of broader Earth Science that examines the solid Earth, its composition, history, structure, and how it interacts with the hydrosphere, atmosphere and biosphere.

In this study of how Earth works, geoscientists integrate knowledge of biology, chemistry, engineering, mathematics, and physics. Geologists help us gain energy, mineral, and water resources and evaluate and mitigate hazards due to earthquakes, floods, landslides, and volcanic eruptions, as well as waste disposal and global environmental change.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages.

Hydrogeology-Engineering Geology Emphasis: Hydrogeology is the subdiscipline within geology that deals with the distribution and movement of groundwater in the soil and rocks of the earth's crust. Students in the specialization take engineering courses in addition to their geology coursework as they study the engineering of groundwater.

- For more information about Geology, see the Geosciences Department.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2210 MULTIVARIABLE CALCULUS (QI) or MATH2250 LINEAR ALG/DIFF EQUATIONS (QI)

Admission Requirements for this Program
- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.75 GPA.

- GEO2800 - Minerals and Rocks - 4cr.
- GEO3400 - Communicating Geoscience (CI/DSC) - 3cr.
- GEO3550 - Sedimentation and Stratigraphy - 4cr.
- GEO3600 - Geomorphology - 4cr.
- GEO3700 - Structural Geology - 4cr.
- GEO3900 - Geologic Field Methods (CI) - 3cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- MATH1210 - Calculus I (QL) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.

Hydrogeology-Engineering Emphasis (38-41 credits)

Complete ALL of the following Courses:

- GEO5200 - Geology Field Camp - 5cr.
- GEO5510 - Groundwater Geology (QI) - 3cr.
- GEO5520 - Techniques of Groundwater Investigations (CI) - 3cr.
  OR GEO5600 - Geochemistry - 4cr.
- CEE3430 - Engineering Hydrology - 3cr.
  OR CEE3300 - Engineering Soil Mechanics - cr.
- CEE3500 - Civil and Environmental Engineering Fluid Mechanics - 3cr.
- ENGR2010 - Engineering Mechanics Statics - 3cr.
- ENGR2030 - Engineering Mechanics Dynamics - 3cr.
- ENGR2140 - Mechanics of Materials - 3cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
  OR MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Geology - MS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Geosciences	Graduate

About this Degree

The Master of Science degree in Geology requires original research in a specific area or areas of the geosciences. The successful candidate must demonstrate a breadth of understanding in the geosciences, as well as a depth of understanding in the chosen areas of emphases. Potential students must show an ability to do creative research. This research should be carried out during a significant period of time. Thus, each successful MS candidate will produce a significant piece of original research, presented in a written thesis and defended in an oral examination. This work should be of such scope and quality that may lead to at least one peer-reviewed publication.

Program Contacts:

Tammy Rittenour, PhD

Professor, Graduate Director

Tammy.rittenour@usu.edu

Kelly Bradbury, PhD, PEG

Professional Practice Associate Professor, Graduate Program Coordinator

Kelly.bradbury@usu.edu

Program Description

The department offers advanced study and research opportunities leading to the MS degree in Geology. Although many research specialties require advanced courses selected primarily from Geosciences offerings, additional courses may be selected from other departments on campus, such as Biology; Civil and Environmental Engineering; Mathematics and Statistics; Plants, Soils, and Climate; and departments within the Quinney College of Agriculture and Natural Resources.

Specializations available for the MS in Geosciences: Geomorphology and Earth Surface Processes, Geophysics, Hydrogeology, Petrology and Geochemistry, Sedimentology and Paleoecology, Structure and Tectonics, and Climate Adaptation Science.

Admission Requirements for this Program

- Admission requirements can be found on the USU School of Graduate Studies website (gradschool.usu.edu/admissions/policies) and the Department of Geosciences 'Apply to our Program' page: https://qanr.usu.edu/geo/graduate-program/future-graduates
- Students may need to complete specific undergraduate coursework to prepare them for their graduate program. Seven preparatory core undergraduate courses are *recommended* by the Department of Geosciences: Physical Geology, Minerals and Rocks (Earth Materials, Mineralogy), Earth through Time (Historical Geology), Sedimentation and Stratigraphy, Geomorphology, Structural Geology, and Field Methods or experience. Graduate students are *generally expected* to have taken a minimum of four of the seven core courses, including a field course; however, this depends on each student's background and planned research topic.
- Decisions about any exceptions to these potential prerequisites in a student's graduate program are made by a student's Advisory Committee in their first meeting, and in consultation with the Graduate Director.

- Students are expected to be admitted to the Graduate program as matriculated students before taking coursework leading to the degree.

Additional information about the MS Geoscience program may be obtained by contacting the Department of Geosciences or by visiting the program website at https://qanr.usu.edu/geo/graduate-program/degree-and-information.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

30 credits

· **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.

· **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for Degree Plan courses. Grades of C- or lower will not be accepted for a graduate degree.

· **Course Number Acceptability:** The program of study for an MS-A Degree Plan cannot include more than 12 semester credits of courses at the 5000 level. Credits in courses numbered below 5000-level are not accepted for this Degree Plan.

· **Matriculation Start Semester:** A MS degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.

· **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

· **Master's form approvals:**

o Supervisory Committee submitted by the end of the second semester

o Program of Study submitted by the end of the second semester

o Thesis/Project Approval

o Authorship and Copyright

o Thesis Format and Style

o Appointment for Examination (submitted 10 days before date of defense)

o Record of Examination

o Title Page

o Graduation application

o Students in the MS-A Geosciences Degree Plan program are required to take 30 credits beyond a BS degree.

Geology - MS

Type
Completion Requirement

Degree Requirements

Complete the following:

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. Students enrolled in the MS Geology program will be expected to complete the majority of the Geology undergraduate core course requirements if they have not done so prior to enrollment (e.g., Introductory or Physical Geology with laboratory, Minerals and Rocks (Earth Materials), Historical Geology, Sedimentation and Stratigraphy, Geomorphology, Structural Geology, and Field Methods or relevant experience).

Only the Plan A thesis option is allowed for the MS degree in Geology. The recommended distribution is 20 credits of coursework and 10 credits of Thesis (GEO6970 THESIS) to obtain the required 30 credits for the MS degree. The Program of Study must include at least 15 semester credits at the level of 6000 or above. Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

At least 24 semester credits for a master's degree must be from a committee-approved and a School of Graduate Studies-approved Program of Study from Utah State University.

The thesis option requires completing a MS thesis proposal. Students must prepare and defend a MS thesis based on their original research. Plan A thesis must be submitted to the Merrill-Cazier Library.

Geoscience graduate students using department or university facilities and/or under Geosciences faculty supervision must register for a minimum of 3 credits every semester, up to and including the semester in which the thesis is cleared by the School of Graduate Studies.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review. Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Students must submit and obtain approval of academic forms required for master's students by the School of Graduate Studies.

About this Degree

The Doctor of Philosophy degree in Geology requires original research in a specific area or areas of the geosciences. The successful candidate must demonstrate a breadth of understanding in the geosciences, as well as a depth of understanding in the chosen areas of emphases. Potential students must show an ability to complete coursework and demonstrate competence in independent research. Thus, each successful PhD candidate will produce a significant piece of original research, presented in a written dissertation and defended in an oral examination. This work should be of such scope and quality that more than one peer-reviewed publication can be derived from it.

Program Contacts:

Tammy Rittenour, PhD
Professor, Graduate Director
Tammy.rittenour@usu.edu

Kelly Bradbury, PhD, PEG
Professional Practice Associate Professor, Graduate Program Coordinator
Kelly.bradbury@usu.edu

Program Description

The Doctor of Philosophy in Geology requires original research in a specific area of geology, and demonstration of broad knowledge in the field of geology.

Requirements include: 1) completing 72 credits beyond a BS 2) or completing 42 credits beyond your MS; 2) passing a set of comprehensive examinations showing depth and breadth of knowledge in geology and the student's area(s) of emphasis; 3) completing a Dissertation research proposal; and 4) completing and defending a written Dissertation, which may consist of manuscripts submitted for publication. Graduate assistantships are based upon a three-to-four-year PhD program.

Admission Requirements for this Program

- Admission requirements can be found on the USU School of Graduate Studies website (gradschool.usu.edu/admissions/policies) and the Department of Geosciences 'Apply to our Program' page: https://qanr.usu.edu/geo/graduate-program/future-graduates
- Students may need to complete specific undergraduate coursework to prepare them for their graduate program. Seven preparatory core undergraduate courses are recommended by the Department of Geosciences: Physical Geology, Minerals and Rocks (Earth Materials, Mineralogy), Earth through Time (Historical Geology), Sedimentation and Stratigraphy, Geomorphology, Structural Geology, and Field Methods or experience. Graduate students are generally expected to have taken a minimum of four of the seven core courses, including a field course; however, this depends on each student's background and planned research topic.
- Decisions about any exceptions to these potential prerequisites in a student's graduate program are made by a student's Advisory Committee in their first meeting, and in consultation with the Graduate Director.
- Students are expected to be admitted to the Graduate program as matriculated students before taking coursework leading to the degree.

Additional information about the PhD Geoscience program may be obtained by contacting the Department of Geosciences or by visiting the program website at https://qanr.usu.edu/geo/graduate-program/degree-and-information.

Program Requirements

Total Credits Required In Program Coursework
42-72

Total Credits Required To Earn This Credential
42-72

Simple Requisites

Program Requirements

Complete at least 72 credits of graduate coursework.. The Program of Study for a doctoral degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above. For a doctoral degree, if the student does not have a master's degree, the Program of Study must include at least 30 credits at the level of 6000 or above. An overall GPA of 3.3 or higher and individual course grades of B or higher (in all degree-program coursework) are required.

Successfully complete a written dissertation research proposal, present that proposal orally to the committee, and defend it during an oral examination. The oral examination will include questions of a deep and probing nature and may range beyond the dissertation proposal into geoscience areas unrelated to the student's specialization.

Successfully complete and defend a dissertation. The dissertation will be a written document and should consist of several products submitted or accepted for publication in a peer-reviewed venue. The defense will be oral, including a presentation of the work and successful defense of the work to the faculty. Dissertations must be submitted to the Merrill-Cazier Library.

Geosciences graduate students using department or University facilities and/or under Geosciences faculty supervision must register for a minimum of 3 credits every semester, up to and including the semester in which the dissertation is cleared by the School of Graduate Studies.

A doctorate must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review. Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Students must submit and obtain approval of academic forms required for doctoral students by the School of Graduate Studies.

• Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
• Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for Degree Plan courses. Grades of C- or lower will not be accepted for a graduate degree.
• Course Number Acceptability: The program of study for a PhD Degree Plan cannot include more than 12 semester credits of courses at the 5000 level. Credits in courses numbered below 5000-level are not accepted for this Degree Plan.
• Matriculation Start Semester: A PhD degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
• Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
• Doctoral form approvals:

o Supervisory Committee submitted by the end of the second semester
o Program of Study submitted by the end of the second semester
o Application for Candidacy
o Authorship and Copyright
o Dissertation Format and Style
o Appointment for Examination (submitted 10 days before date of defense)

o Record of Examination
o Title Page
o Graduation application

• Students in the PhD Geosciences Degree Plan program are required to take 42 credits beyond an MS degree. Students with a Bachelor's degree entering a PhD Degree Plan program are required to take 70 credits beyond a BS degree.

Requirements

Type
Completion Requirement

Dissertation Research Credit

Complete at least 21 credits of GEO7970 DISSERTATION RESEARCH beyond a BS degree; at least 15 credits of GEO7970 DISSERTATION RESEARCH beyond an MS degree.

Complete ALL of the following Courses:

- GEO7970 - Dissertation Research - 1cr.

Program of Study Track Options

Please consult with your program coordinator or faculty mentor for specific program of study credit requirements.

See the following:
Academic Track: Successfully teach one geoscience course under the supervision of a faculty mentor while taking GEO6900 GRAD INTERN/COOP (teaching internship) credits. Coursework in pedagogy may be pursued.

Professional Track: Completion of a professional internship program is encouraged and GEO6900 GRAD INTERN/COOP credits may be taken with this. Coursework developing computational skills may be pursued.

Pass written comprehensive examinations showing depth and breadth of knowledge in geosciences and in the student's area(s) of emphasis. The student may be required to take additional classes to satisfy any deficiencies.

Gerontology - Certificate

Program Overview

College
College of Education & Human Services

Department
Human Development and Family Studies

Program Level
Undergraduate

About this Degree
The Gerontology Certificate program is a 19-credit program that covers the biological, cognitive,and psychosocial aspects of aging. The program is designed to prepare students for a variety of careers in the field of gerontology, including healthcare, social work, public policy, and research.

Please contact Laura.Holley@usu.edu for more information.

Gerontology - Certificate

Type
Completion Requirement

Required Courses (13 credits)

Complete ALL of the following Courses:

- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- HDFS3540 - Adult Development and Aging - 3cr.
- HDFS4240 - Social and Family Gerontology - 3cr.
  OR NDFS3080 - Community Nutrition - 3cr.
- HDFS4940 - Gerontology Integration - 1cr.
- HDFS4970 - Gerontology Practicum - 3cr.

NOTE:

1. HDFS4970 GERONTOLOGY PRACTICUM - Application required.

Elective Courses (6 credits)

Students select six additional credits from a list of approved courses across various majors and departments. Students are encouraged to choose electives below that will be most applicable to their chosen field of study.

Earn at least 6 credits from the following:

- BIOL3100 - Bioethics (CI) - 3cr.
- FIN5070 - Retirement Planning - 3cr.
- FIN5080 - Estate Planning - 3cr.
- HDFS3350 - Family Finance (DSS) - 3cr.
- HEP3600 - Functions of Community & Public Health (CI) - 3cr.
- NDFS2020 - Nutrition Throughout the Life Cycle - 3cr.
- NDFS3040 - Nutrition Assessment - 3cr.
- PHIL1120 - Social Ethics (BHU) - 3cr.
- PHIL3500 - Healthcare Ethics (DHA) - 3cr.
- PUBH3120 - Family and Community Health - 3cr.
- SOC3200 - Population and Society (DSS) - 3cr.
- SOC3330 - Medical Sociology (DSS) - 3cr.
- SOC5460 - Sociology of Health, Illness, and Disability - 3cr.

- SPED1010 - Disability and Society (BSS) - 3cr.
- SW5525 - Aging in the 21st Century - 3cr.

- **German Teaching Emphasis Minor with Licensure - Total Credits:** 48 (16 credits + 32 STEP credits)
- **Minimum Grade Requirement:** All courses taken for the minor and STEP require a minimum grade of **C** or better. Courses for the minor *may not* be taken on a pass/fail basis, **except** SCED3300 CLINICAL EXPERIENCE I and SCED5630 STUDENT TEACHING SEC SCHOOL**.**
- **German Teaching Emphasis Minor without Licensure (19 credits)**

German Teaching Emphasis Minor Requirements with Licensure

Type
Completion Requirement

German and Linguistics Courses (16 credits)

Fulfill ALL of the following requirements:

Required Courses (10 credits)

Complete ALL of the following Courses:

- GERM3040 - Advanced German Grammar & Culture (CI) - 3cr.
- GERM3300 - Contemporary German Speaking Cultures (DHA) - 3cr.
  OR GERM3550 - Cultural History of German Speaking Peoples (DHA) - 3cr.
- GERM4200 - Applied German Linguistics and Phonetics - 3cr.
- GERM4920 - German Language Tutoring - 1cr.

AND

Elective Courses (6 credits)

Earn at least 6 credits from the following:

- CMST3330 - Intercultural Communication (DSS) - 3cr.
- GERM3116 - Popular Culture in the German-Speaking World - 3cr.
- GERM3117 - Stories and Storytelling: Young Voices & Cultural Identity - 3cr.
- GERM3118 - Berlin: Monuments, Multiculturalism, and Memory - 3cr.
- GERM3300 - Contemporary German Speaking Cultures (DHA) - 3cr.
- GERM3510 - Business German (CI) - 3cr.
- GERM3540 - Techniques in Translating German Texts (CI) -

3cr.
- GERM3550 - Cultural History of German Speaking Peoples (DHA) - 3cr.
- GERM3600 - Classic German Art and Literature (DHA) - 3cr.
- GERM3610 - Contemporary German Art and Literature (DHA)9 - 3cr.
- GERM3800 - German III Study Abroad - 1cr.
- GERM3880 - Individual Readings - 1cr.
- GERM4610 - German Narratives - 3cr.
- GERM4650 - Trends in Modern Germany (DHA) - 3cr.
- GERM4800 - German IV Study Abroad - 1cr.
- GERM4880 - Individual Readings - 1cr.
- GERM4900 - Special Topics - 3cr.
- GERM4910 - German for Special Purposes - 3cr.

Additional Comments:

NOTES:

1. SCED3300 CLINICAL EXPERIENCE I and LING5400 TEACHING MODERN LANGUAGES must be taken during the same semester, and should be the last courses taken for the minor. These courses should be taken the fall semester before student teaching. SCED3300 CLINICAL EXPERIENCE I and LING5400 TEACHING MODERN LANGUAGES are listed in both the STEP and minor requirements for those seeking the German Teaching minor/non-licensure so the non-licensure minors understand the complete list of minor requirements. See additional non-licensure information at bottom of page.
2. GERM3800 GERMAN III STUDY ABRD, GERM3880 INDIVIDUAL READINGS, GERM4800 GERMAN IV STUDY ABRD, GERM4880 INDIVIDUAL READINGS, GERM4900 SPECIAL TOPICS, and GERM4920 GERMAN LANGUAGE TUTOR are repeatable for additional credit.

Secondary Teacher Education Program (STEP) Licensure Requirement

Type

Completion Requirement

Secondary Teacher Education Program (STEP) - Languages, Philosophy, and Communication Studies (32 credits)

Courses for teaching emphases and the teaching minors may be subject to change, and students should contact the Secondary Education Advising Office for a current course list of STEP requirements.

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.
- LING5400 - Teaching Modern Languages - 3cr.
  AND SCED3300 - Clinical Experience I - 1cr.
- LING5500 - Student Teaching Seminar - 2cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

NOTES:

1. The Special Methods II course is taught under course number 5400.
2. SCED3300 CLINICAL EXPERIENCE I and LING5400 TEACHING MODERN LANGUAGES must be taken during the same semester, and should be the last courses taken for the minor. These courses should be taken the fall semester before student teaching. SCED3300 CLINICAL EXPERIENCE I and LING5400 TEACHING MODERN LANGUAGES are listed in both the STEP and minor requirements for those seeking the French/German Teaching minor/non-licensure so the non-licensure minors understand the complete list of minor requirements. See non-licensure below.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

German Teaching Emphasis Minor without Licensure (19 credits)

Type

Completion Requirement

Minor without Secondary School Licensure (19 credits)

It is possible to have a teaching emphasis within the minor in German without receiving secondary school teaching licensure. However, unless the student is an elementary education major, the student would not be able to teach in Utah public schools (nor at many private ones). Graduating without licensure may allow employment at community colleges and universities.

Fulfill ALL of the following requirements:

Required Courses (13 credits)

Complete ALL of the following Courses:

- GERM3040 - Advanced German Grammar & Culture (CI) - 3cr.

Global Communication - BA

Program Overview

College	Department	Program Level
College of Arts & Sciences	Communication & Media	Undergraduate

About this Degree
The Global Communication major focuses students on building skills, attitudes, and knowledge as critical global citizens, competent intercultural communicators, and globally minded individuals. We do this through a variety of methodological approaches including the social scientific study of public discourse, the humanist study of cultural texts, and the qualitative and quantitative study of intercultural exchanges.

The Global Communication degree at USU is unique. This program is the only four-year degree dedicated to a robust understanding of global communication in Utah, and it is one of only a handful of programs nationwide. The program specializes in giving the students tools to understand cultural systems and prepare them to work effectively and meaningfully in an increasingly global environment.

- For more information about Global Communication, please see *Communication Studies and Philosophy* website.
- Please make sure to consult regularly with your departmental advisor to confirm what courses will be available and to work out your plan of study.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is Quantitative Literacy (QL) course of the student's choice.

Admission Requirements for this Program
- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.50 GPA.
- Grade Point Average to Apply for the Full Major in Global Communication: 2.0 overall GPA (application required; contact academic advisor for details)

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
40	120

Simple Requisites

Program Requirements

- **Credits in Residence**: Students must complete 20 credits of major applicable coursework at Utah State University
- **Credits in Major**: 40
- **Credits of Upper-Division Courses** (3000 or above): 34
- **Total Credits:** 40
- **Grade Point Average to Graduate with Major:** 2.5 GPA within major coursework
- **Credits in Residence:** At least half (50 percent) of the credits earned for this major must be completed in upper-division USU courses. All other credits (including transfer and study abroad credits) must be approved by the faculty or academic advisor in

order to be counted toward these degrees. As many as 19 credits completed at other colleges or universities may be used to partially satisfy these requirements. For more information, students should contact their advisor.

- **Minimum Grade Requirement:** All courses taken for the major require a minimum grade of **C-** or better. Courses taken for the major may not be taken on a pass/fail basis, **except** CMST5950 GLOBAL COMMUNICATION PRACT.
- **Notes:** Completion of any language minor or major will complete the second language requirement (e. g. Spanish, American Sign Language, Arabic).

Bachelor of Arts Degree Requirement

In addition to completion of the requirements for a bachelor's degree, a Bachelor of Arts (BA) degree signifies proficiency in one or more foreign languages. Please see Minimum University Requirements for Bachelor of Arts Degree Requirement for more details about the language requirements.

Global Communication Major Requirements (40 credits)

Type
Completion Requirement

A. Culture General Requirement (7 credits)

Students will be required to take the one-credit CMST5330 GLOBAL COMM SENIOR CAPSTONE course. This course is designed to be taken in their last year of study.

Complete ALL of the following Courses:

- CMST1330 - Introduction to Global Communication (BSS) - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.

B. Global Communication Competence (9 credits)

Complete at least 3 of the following courses:

- CMST3270 - Culture and Public Discourse (DHA) - 3cr.
- CMST3730 - Culture and Global Intervention (DHA) - 3cr.
- CMST4270 - Communication, Culture, and Power - 3cr.
- CMST4330 - Advanced Perspectives in Global Communication (CI) - 3cr.

C. Communication Specialization Requirement (12 credits)

Three courses (9 credits) must be completed from the student's chosen Area of Specialization. Students must also take one additional course from the other area of specialization (3 credits):

Fulfill ALL of the following requirements:

Interpersonal and Organizational Communication Competence - Area of Specialization

Complete ANY of the following Courses:

- CMST2110 - Interpersonal Communication (BHU) - 3cr.
- CMST2120 - Group Collaboration and Decision Making - 3cr.
- CMST3250 - Organizational Communication (CI) - 3cr.
- CMST3280 - Organizations and Social Change - 3cr.
- CMST3400 - Persuasion - 3cr.
- CMST3600 - Communication and Conflict - 3cr.
- CMST4200 - Language, Thought, and Action (CI/DSS) - 3cr.
- CMST5110 - Advanced Interpersonal Communication - 3cr.
- CMST5400 - Advanced Persuasion - 3cr.
- CMST5500 - Communication and Leadership - 3cr.

AND

Public Communication Competence - Area of Specialization

Complete ANY of the following Courses:

- CMST3160 - Gender Communication - 3cr.
- CMST3270 - Culture and Public Discourse (DHA) - 3cr.
- CMST3730 - Culture and Global Intervention (DHA) - 3cr.
- CMST4260 - Environmental Communication - 3cr.
- CMST4270 - Communication, Culture, and Power - 3cr.
- CMST4330 - Advanced Perspectives in Global Communication (CI) - 3cr.
- CMST4700 - Health Communication (CI) - 3cr.
- CMST4750 - Strategic Health Messaging - 3cr.
- CMST4820 - Communication Criticism (CI) - 3cr.
- CMST5300 - Visual Rhetoric - 3cr.

D. Language/Culture Specific Requirement (9 credits)

Students must complete 3 classes (either 3 or 4 credits) of an upper division foreign language (3000 level or higher). *Important: All three courses must be from the same language.*

Students may instead complete any combination of 3 classes of upper division language requirements and approved World Affairs classes.

Fulfill ALL of the following requirements:

Language Course Options

Complete at least 3 of the following courses:

- ARBC3010 - Advanced Arabic I - 3cr.
- ARBC3020 - Advanced Arabic II - 3cr.
- ARBC3030 - Introduction to Islam (DHA) - 3cr.
- ARBC4040 - Language and Culture of the Arab World (DHA) - 3cr.
- CHIN3010 - Chinese Third Year I - 4cr.
- CHIN3020 - Chinese Third Year II - 4cr.
- CHIN3060 - Chinese Grammar and Composition - 3cr.
- CHIN3090 - Introduction to Modern Chinese Literature and Film - 3cr.
- CHIN3100 - Readings in Contemporary Chinese Culture (DHA) - 3cr.
- CHIN3510 - Chinese Business Presentations - 3cr.
- CHIN3520 - Chinese Business Strategies - 3cr.
- CHIN3540 - Translating into and from Chinese (CI) - 3cr.
- CHIN3600 - Contemporary Children's Literature in Chinese - 3cr.
- CHIN4010 - Chinese Multimedia - 3cr.
- CHIN4090 - Readings in Masterworks of Classical Chinese Fiction - 3cr.
- CHIN4100 - Teaching Chinese as a Foreign Language - 3cr.
- CHIN4210 - Chinese/Sinophone Theatre and Performance - 3cr.
- FREN3030 - Advanced French for Everyday Communication - 3cr.
- FREN3060 - French Intermediate Written Communication (CI) - 3cr.
- FREN3090 - French Intermediate Written Communication (CI) - 3cr. (Inactive)

- SOC3340 - Activism, Protest, and Social Movements (DSS) - 3cr.

E. Practicum (3 credits)

The practicum may not be **completed** (nor enrolled in concurrently) until students have applied and been accepted as a full major in Global Communication.

Student must also take CMST1330 INTRO TO GLOBAL COMM (BSS) and CMST3330 INTERCULTURAL COMM (DSS) *before* enrolling in CMST5950 GLOBAL COMMUNICATION PRACT.

It is best to have at least one year of study and coursework before the planned practicum semester. Students are responsible for arranging for their own practicum. Students are encouraged to find or create a practicum that is related to their personal interests and will serve their goals after graduation. The practicum should tie together various elements of the program through practical experience, in-service learning, or internship experience in a cultural community distinct from the student's own culture. The practicum plan should include at least 135 contact hours. Planning for the practicum early or as soon as the student is accepted into the full major is recommended. Approval for a particular practicum experience must be granted by the student's faculty advisor and the CSPH Department Head prior to the experience. Students should visit with the faculty advisor early in the decision process.

There are four options for a student to complete the practicum requirement.

- Option 1 – Global Studies/Travel - Student goes on a self-designed global engagement or an institutional (USU) experience. Both require going through the Office of Global Engagement at Utah State University.
- Option 2 – Local Intercultural Experience – Student works with advisor on finding a local intercultural experience.
- Option 3 Global Communication Portfolio – Student may use previous travel abroad experience providing it is approved by their assigned faculty advisor and the portfolio demonstrates they have learned the required intercultural knowledge, skills, and attitudes.
- Option 4 - Complete 12 credits from the Critical Global Citizenry Area of the major. Students doing option #4 are not required to enroll in CMST5950 GLOBAL COMMUNICATION PRACT. For all other options, students are required to enroll in CMST5950 GLOBAL COMMUNICATION PRACT.

See the academic advisor for more information about Global Communication practicum options and the Practicum Guidelines Information Packet.

Complete ALL of the following Courses:

- CMST5950 - Global Communication Practicum - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

- Minimum GPA for Admissions: 2.5
- Cumulative Minimum GPA in Certificate Coursework for Graduation: 2.5
- Cumulative Number of Required Credits: 21
- Courses may not be taken on a pass/fail basis except for those courses which are only taught pass/fail.

Global Peacebuilding - Certificate

Type
Completion Requirement

Lower-Division Requirements (6 credits)

Students must complete two courses (6 credits) at the 1000- or 2000-level.

Fulfill ALL of the following requirements:

Lower-Division Requirements

Complete ALL of the following Courses:
- PI2010 - Introduction to Peace Building and Transformative Conflict (BHU) - 3cr.

AND

Lower-Division Requirements

Complete at least 1 of the following courses:
- CMST1330 - Introduction to Global Communication (BSS) - 3cr.
- HIST1510 - The Modern World (BHU) - 3cr.
- POLS2100 - Introduction to International Relations (BSS) - 3cr.
- POLS2500 - Introduction to International Studies (BSS) - 3cr.
- RELS1070 - Religion, Violence, and Peace (BHU) - 3cr.
- RELS1090 - Introduction to Interfaith Leadership (BHU) - 3cr.
  OR ANTH1090 - Introduction to Interfaith Leadership (BHU) - 3cr.

- SOC2650 - Globalization and International Development (BSS) - 3cr.
- SW1010 - Introduction to Social Welfare (BSS) - 3cr.

Upper-Division Requirements (15 credits)

Students must complete upper-division courses from each of the two areas (A, and B) below for a total of 15 credits.

Fulfill ALL of the following requirements:

Area A. Global Conflict, Peace and Human Rights (6 credits)

Earn at least 6 credits from the following:

- ANTH4200 - The Anthropology of War - 3cr.
- CAI5000 - Foundations of Anticipatory Intelligence - 3cr.
- CAI5300 - Art and Science of Anticipation - 3cr.
- CAI5540 - Future Space Security - 3cr.
- CMST3270 - Culture and Public Discourse (DHA) - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.

The General Studies major in the Humanities though the College of Humanities and Social Sciences is intended to serve the needs of students who want to design a more individualized academic program that can allow students to pursue an interdisciplinary coursework centered in the humanities.

Admission Requirements for this Program

Students may apply for admission to the General Studies major in the Humanities after completing 30 credits with a minimum GPA of 2.00. Students who wish to pursue the General Studies in the Humanities must submit an application online through the CHaSS Advising Center to apply to the program. The application will be reviewed by and discussed with an academic advisor. Students will then work with an academic advisor to create a plan for the major in Degree Works.

Program Requirements

Total Credits Required To Earn This Credential

120

Simple Requisites

Program Requirements

- **Total Credits:** 30
- **Interdisciplinary Focus:** Courses used for the major must include at least 30 credits from the humanities.
- **Upper Division Coursework:** At least 21 of the 30 credits must be at the 3000 level and above.
- **Internship Credit or Capstone Experience:** While not required, it is strongly recommended that you complete an internship as part of your major.
- **Minimum Grade Point Average to Apply to and Graduate in General Studies:** 2.00 USU GPA
- **Credits in Residence:** At least half (50 percent) of the credits earned for the General Studies major must be earned at USU. As many as 15 credits completed at other colleges or universities may be used to partially satisfy major requirements. For more information, students should contact their advisor.

Students can pursue a **BA** or **BS** degree.

Bachelor of Science Degree

Students desiring a (BS) Bachelor of Science degree must complete all major requirements.

Bachelor of Arts Degree

Students desiring a (BA) Bachelor of Arts degree must complete the language proficiency requirements in one of the following ways in addition to the Bachelor of Science (BS) degree requirements. See Minimum University Requirements (Bachelor's Degree) for language requirments.

The General Studies major in the Social Sciences though the College of Humanities and Social Sciences is intended to serve the needs of students who want to design a more individualized academic program that can allow students to pursue an interdisciplinary coursework centered in the social sciences.

Admission Requirements for this Program

Students may apply for admission to the General Studies major in the Social Sciences after completing 30 credits with a minimum GPA of 2.00. Students who wish to pursue the General Studies in the Social Sciences must submit an application online through the CHaSS Advising Center to apply to the program. The application will be reviewed by and discussed with an academic advisor. Students will then work with an academic advisor to create a plan for the major in Degree Works.

Program Requirements

Total Credits Required To Earn This Credential

120

Simple Requisites

Program Requirements

- Total Credits: 30
- Interdisciplinary Focus: Courses used for the major must include at least 30 credits from the humanities.
- Upper Division Coursework: At least 21 of the 30 credits must be at the 3000 level and above.
- Internship Credit or Capstone Experience: While not required, it is strongly recommended that you complete an internship as part of your degree.
- Minimum Grade Point Average to Apply to and Graduate in General Studies: 2.00 USU GPA
- Credits in Residence: At least half (50 percent) of the credits earned for the General Studies major must be earned at USU. As many as 15 credits completed at other colleges or universities may be used to partially satisfy major requirements. For more information, students should contact their advisor.

Students can pursue a BA or BS degree.

Bachelor of Science Degree

Students desiring a (BS) Bachelor of Science degree must complete all major requirements.

Bachelor of Arts Degree

Students desiring a (BA) Bachelor of Arts degree must complete the language proficiency requirements in one of the following ways in addition to the Bachelor of Science (BS) degree requirements:

- Demonstration of proficiency in one foreign language by successful completion of one course at the 2020-level or higher (or its equivalent) OR
- Demonstration of proficiency in American Sign Language by successful completion of American Sign Language IV (COMD 4920) and Socio-Cultural Aspects of Deafness (COMD 4780), and by passing an exit interview OR
- Demonstration of proficiency in two foreign languages by successful completion of the 1020 course level in one language and the 2010 course level in the second language (or its equivalent) OR
- Completion of an upper-division (3000-level or higher) foreign language grammar or literature course requiring the 2020 course level (or its equivalent) as a prerequisite. Conversation courses cannot be considered for satisfying this requirement.

For nonnative English-speaking students only, the following options are available:

- Successful completion of the Intensive English Language Institute (IELI) program for international students OR
- TOEFL, Michigan, or IELI placement scores high enough to meet the University admission criteria.

Geography Teaching - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Undergraduate

About this Degree

Geography is the study of space, place, and the relationships between people and our environment. With studies in geography, students learn essential skills to solve pressing problems at the local, national, and global scale. Geography is an interdisciplinary field that includes coursework in the physical and social sciences, combined with technical expertise in the field of geographic information science. This Geography Teaching minor prepares students to teach the subject of geography at the secondary schooling level.

Admission Requirements for this Program

A teaching minor in Geography **requires** an approved teaching major in another subject.

Program Requirements

Total Credits Required In Program Coursework
17

Total Credits Required To Earn This Credential
17

Simple Requisites

Program Requirements

All courses required for the Geography Teaching minor must be taken on an *A-B-C-D-F* basis. A grade of *C* or better is required for all GEOG courses taken to meet requirements for the minor. A minimum GPA of 2.5 is required for courses taken to complete the minor, but teaching licensure in the State of Utah requires a cumulative GPA of 3.0.

Students should make an appointment with an academic advisor in the S.J. and Jessie E. Quinney College of Agriculture and Natural Resources to add this minor: qanr.usu.edu/advising/.

Subject Courses

Type
Completion Requirement

Disciplinary Foundations in Geography (13 credits)

Complete ALL of the following Courses:

- GEOG1000 - Physical Geography (BPS) - 3cr.
- GEOG1300 - World Geography: Human and Environmental Dynamics (BSS) - 3cr.
  OR GEOG1400 - Human Geography (BSS) - 3cr.
- GEOG4210 - Geography of Utah - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WILD2800 - Introduction to Geographic Information Sciences - 4cr.

Education Courses

Type
Completion Requirement

Geography Education Courses (4 credits)

Complete ALL of the following Courses:

- SCED3300 - Clinical Experience I - 1cr.
  OR SCED4300 - Clinical Experience II - 1cr.
- SCED3500 - Teaching Social Studies - 3cr.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

General Theatre Studies - Minor

Program Overview

College	Department	Program Level
College of Arts & Sciences	Theatre Arts	Undergraduate

About this Degree

The General Theatre Studies Minor is designed to serve students who have experience in theatre and a strong interest in remaining actively involved, but do not have the time to commit to a theatre major. A limited number of minors are accepted each year, so early application is advised.

Admission Requirements for this Program

Admission into the Department of Theatre Arts General Studies Minor requires a 2.75 GPA and a separate application and interview with the department head. Acceptance is competitive and not guaranteed.

Program Requirements

Total Credits Required To Earn This Credential

20

Simple Requisites

Program Requirements

Annual Reviews are held for each minor student to determine satisfactory progress. These reviews determine if students will: (A) continue in the program (to continue, students must have demonstrated satisfactory progress and met the appropriate benchmarks); (B) be placed on programmatic probation (if a student fails to meet all benchmarks or has not made satisfactory progress, but in the opinion of the faculty has the potential to recover and meet the requirement within one semester's time, they may be placed on probation); (C) be discontinued from the program (if a student currently on probation fails to meet requirements within the specified time, or if their conduct is such that the faculty do not have confidence that the student will be able to meet requirements, even during a probationary period).

Section 1

Type
Completion Requirement

Required Theatre Arts Courses (20 credits)

Complete ALL of the following Courses:

- THEA1033 - Beginning Acting (BCA) - 3cr.
- THEA1513 - Stagecraft (BCA) - 3cr.
- THEA1713 - Playscript Analysis (BHU) - 3cr.
- THEA2203 - Costume Construction and Technology - 3cr.
- THEA2555 - Production Practicum - 1cr.
- THEA3710 - Theatre History and Literature I (DHA)(CI) - 3cr.
  OR THEA3720 - Theatre History and Literature II (CI/DHA) - 3cr.

NOTE:

1. THEA2555 PRODUCTION PRACTICUM must be repeated twice for a total of 2 credits.

Section 2

Humans and Animal-Assisted Interventions - Post-Bachelor's Certificate

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Animal, Dairy & Veterinary Sciences	Graduate

About this Degree

The Humans and Animal-Assisted Interventions (HAAI) Post-Bachelor's Certificate is a 12-credit program designed to provide students with a comprehensive understanding of the human-animal bond and its application in therapeutic settings. The curriculum includes four required courses.

The program emphasizes the theoretical foundations of human-animal interactions, explores the physiological and psychological benefits for diverse populations, and ensures students understand the ethical considerations and welfare needs of therapy animals.

This certificate prepares students for careers in fields such as mental health, occupational therapy, social work, and animal-assisted therapy programs, providing them with the knowledge and skills needed to implement effective and ethical animal-assisted interventions. The certificate can be pursued at both the undergraduate and post-bachelor's levels, enhancing professional opportunities in this growing field.

Human Development and Family Studies - BA, BS

Program Overview

College
College of Education & Human Services

Department
Human Development and Family Studies

Program Level
Undergraduate

About this Degree

Students gain the skills to uncover the 'why' behind human behavior and family dynamics. The Human Development and Family Services (HDFS) Department's undergraduate major equips students to launch impactful careers. Students explore social, cognitive, and emotional development, and the influence of family relationships through in-depth academic study and applied learning. Gaining essential skills to navigate complex relationships, understand diverse perspectives, and become effective professionals.

A required practicum, a supervised real-world experience, enables students to apply developmental insights in diverse settings, including (but not limited to) youth mentoring programs, family resource centers, crisis intervention services, elder care facilities, and child development centers.

Students are well-prepared for graduate studies or direct employment, supported by personalized advising and long-term academic and career plans.

- **Student Registration Information Guide:**
  - New students: Detailed information for new students
  - Transfer students: Detailed information for transfer students
- **Personalized Plan:** Meet with an academic advisor to create a plan tailored to your specific needs.
- **Student Responsibility:** You are responsible for fulfilling all degree requirements.
- **Course Requirements:** Verify course prerequisites and corequisites by clicking on the course links.
- **Degree Progress:** Track your requirements and completion in Degree Works.
- **Math Requirements**: The math path for this degree is STAT1040 INTRO TO STATISTICS (QL) **or** STAT1045 INTRO STAT WITH ALGEBRA (QL).
- **HDFS Website:** Visit the website for more information about Human Development and Family Studies.

Degree Options:

- Bachelor of Arts (BA) in Human Development and Family Studies. See Undergraduate Academic Credential Requirements for language requirements.
- Bachelor of Science (BS) in Human Development and Family Studies

Emphasis Options:

While the formal emphases in Child Development, Family and Community Services, and Human Development are not currently offered, the HDFS curriculum remains rich in these areas. The department continues to provide a robust selection of coursework in these disciplines, allowing students to gain deep expertise and tailor their education to their specific career goals through our diverse department offerings.

Simple Requisites

Program Requirements

- **GPA and Coursework Standards:**
- A minimum 2.0 GPA and a grade of C or better in all major coursework (including pre-major and required statistics courses) are required for admission, continued enrollment, and graduation.
- HDFS major courses cannot be taken pass/fail.
- **Pre-Major Completion:**
- Students admitted to USU in good standing are initially placed in the HDFS pre-major.
- To formally enter the HDFS major, students must successfully complete HDFS1500 HUMAN DEV LIFESPAN (BSS), HDFS2000 CAREERS IN HDFS, HDFS2400 COUPLE & FAM RELATIONS (BSS) and choose one of STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL).

Human Development and Family Studies - BA

Type
Completion Requirement

HDFS Pre-Major Courses (10-12 credits)

Complete ALL of the following Courses:

- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- HDFS2000 - Careers in Human Development and Family Studies (HDFS) - 1cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.

NOTE:

The Quantitative Literacy (QL) requirement will be satisfied by successful completion of STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL).

HDFS Core Courses (21 credits)

Earn at least 21 credits from the following:

- HDFS2660 - Parenting and Child Guidance - 3cr.
- HDFS3100 - Abuse and Neglect in Family Context - 3cr.
- HDFS3110 - Human Sexuality - 3cr.
- HDFS3130 - Research Methods (QI) - 3cr.
- HDFS3210 - Families and Cultural Diversity (CI) - 3cr.
- HDFS3350 - Family Finance (DSS) - 3cr.
- PSY3010 - Psychological Statistics (QI) - 3cr.
  OR SOC3120 - Social Statistics I (QI) - 3cr.

NOTE:

- The Communications Intensive (CI) requirement is satisfied by the successful completion of HDFS 3210 and HDFS 4900.
- The Quantitative Intensive (QI) requirement is satisfied by the successful completion of PSY 3010 and HDFS 3130.

Student-Selected HDFS Courses (16-18 credits)

Students must select at least 6 HDFS courses, of which at least 4 must be upper-division (3000-5000 level).

Complete at least 6 of the following courses:

- HDFS1010 - Balancing Work and Family (BSS) - 3cr.
- HDFS2100 - Family Resource Management (BSS) - 3cr.
- HDFS2200 - Special Topics in Human Development and Family Studies - 3cr.
- HDFS2600 - Seminar in Early Childhood Education - 2cr.
- HDFS2605 - Early Childhood Education Practicum - 2cr.
- HDFS3500 - Infancy and Childhood - 3cr.
- HDFS3540 - Adult Development and Aging - 3cr.
- HDFS3570 - Youth and Adolescence - 3cr.
- HDFS3700 - Mental Health Advocacy and Awareness - 3cr.
- HDFS4220 - Family Crises and Interventions - 3cr.
- HDFS4230 - Family and Social Policy - 3cr.
- HDFS4240 - Social and Family Gerontology - 3cr.
- HDFS4250 - Addictions and the Family - 3cr.
- HDFS4260 - Family Life Education Methods - 3cr.
- HDFS4550 - Preschool Methods and Curriculum - 3cr.
- HDFS4420 - Motivation and Medication in Addiction Treatment/Recovery - 3cr.

Professional Development and Applied Experience (Minimum 6 credits)

Fulfill ALL of the following requirements:

Professional Development

Complete ALL of the following Courses:

- HDFS4900 - Professional Development and Pre-Practicum (CI) - 3cr.

AND

Choose at least one work experience:

Students must complete a minimum of 3 credits in this area. Please note that some work experiences require additional prerequisites, necessitating careful advance planning.

Complete at least 1 of the following courses:

- HDFS4980 - Practicum in Human Development and Family Studies - 1cr.
- HDFS4960 - Practice Teaching in Child Development Laboratories - 3cr.
- HDFS4970 - Gerontology Practicum - 3cr.
- HDFS4950 - Research Practicum in Human Development and Family Studies - 1cr.
- HDFS4990 - Pre-Clinical Practicum in Human Development and Family Studies - 1cr.

NOTE:

1. HDFS4980 PRACTICUM IN HDFS - Enroll in 3 credits
2. HDFS4950 RESEARCH PRACTICUM HDFS - Enroll in 3 credits.
3. HDFS4990 PRE-CLINICAL PRACTICUM IN HDFS - Enroll in 3 credits.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Human Development and Family Studies - Child Development Emphasis - BA, BS

Program Overview

College
College of Education & Human Services

Department
Human Development and Family Studies

Program Level
Undergraduate

About this Degree

Graduates are prepared for professions assisting individuals across the lifespan: early childhood care and education, community education, financial counseling/ coaching, mental health, research, and human service settings.

Child Development Emphasis: This emphasis focuses on children's social, emotional, intellectual, and physical development and the environments that support optimal growth in these areas. The importance of relationships and early childhood education are also emphasized.

- **Student Registration Information Guide:**
  - New students: Detailed information for new students
  - Transfer students: Detailed information for transfer students
- **Personalized Plan:** Meet with an academic advisor to create a plan tailored to your specific needs.
- **Student Responsibility:** You are responsible for fulfilling all degree requirements.
- **Course Requirements:** Verify course prerequisites and corequisites by clicking on the course links.
- **Degree Progress:** Track your requirements and completion in Degree Works.
- **Math Requirements**: The math path for this degree is STAT1040 INTRO TO STATISTICS (QL) **or** STAT1045 INTRO STAT WITH ALGEBRA (QL).
- **HDFS Website:** Visit the website for more information about Human Development and Family Studies.

Degree Options:

- Bachelor of Arts (BA) in Human Development and Family Studies. See Undergraduate Academic Credential Requirements for language requirements.
- Bachelor of Science (BS) in Human Development and Family Studies

Program Requirements

Total Credits Required In Program Coursework
50

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- **GPA and Coursework Standards:**
- A minimum 2.0 GPA and a grade of C or better in all major coursework (including pre-major and required statistics courses) are required for admission, continued enrollment, and graduation.
- HDFS major courses cannot be taken pass/fail.
- **Pre-Major Completion:**
- Students admitted to USU in good standing are initially placed in the HDFS pre-major.
- To formally enter the HDFS major, students must successfully complete HDFS1500 HUMAN DEV LIFESPAN (BSS), HDFS2000 CAREERS IN HDFS, HDFS2400 COUPLE & FAM RELATIONS (BSS) and choose one of STAT1040 INTRO TO STATISTICS (QL), STAT1045 INTRO STAT WITH ALGEBRA (QL), STAT1080 FOUNDATIONS OF DATA SCI (QL).

Human Development and Family Studies - Child Development Emphasis - BA, BS

Type
Completion Requirement

HDFS Pre-Major Courses (10-12 credits)

Complete ALL of the following Courses:

- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- HDFS2000 - Careers in Human Development and Family Studies (HDFS) - 1cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT1080 - Foundations of Data Science (QL) - 3cr.

HDFS Core Courses (27 credits)

Complete ALL of the following Courses:

- PSY3010 - Psychological Statistics (QI) - 3cr.
  OR SOC3120 - Social Statistics I (QI) - 3cr.
- HDFS2660 - Parenting and Child Guidance - 3cr.
- HDFS3100 - Abuse and Neglect in Family Context - 3cr.
- HDFS3110 - Human Sexuality - 3cr.
- HDFS3130 - Research Methods (QI) - 3cr.
- HDFS3210 - Families and Cultural Diversity (CI) - 3cr.
- HDFS3350 - Family Finance (DSS) - 3cr.
- HDFS4900 - Professional Development and Pre-Practicum (CI) - 3cr.
- HDFS4980 - Practicum in Human Development and Family Studies - 1cr.

NOTE:

1. HDFS4980 PRACTICUM IN HDFS - Minimum of 3 credits required.

Additional Comments:
See Human Development and Family Studies - BA, BS for program requirements.

Child Development Emphasis Courses

Type
Completion Requirement

Required Courses (13 credits)

Complete ALL of the following Courses:

- HDFS3500 - Infancy and Childhood - 3cr.
- HDFS3550 - Infant Lab - 1cr.
- HDFS4550 - Preschool Methods and Curriculum - 3cr.
- HDFS4960 - Practice Teaching in Child Development Laboratories - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Human Development and Family Studies - Human Development Emphasis - BA, BS

Program Overview

College
College of Education & Human Services

Department
Human Development and Family Studies

Program Level
Undergraduate

About this Degree

Students gain the skills to uncover the 'why' behind human behavior and family dynamics. The Human Development and Family Services (HDFS) Department's undergraduate major equips students to launch impactful careers. Students explore social, cognitive, and emotional development, and the influence of family relationships through in-depth academic study and applied learning. Gaining essential skills to navigate complex relationships, understand diverse perspectives, and become effective professionals.

A required practicum, a supervised real-world experience, enables students to apply developmental insights in diverse settings, including (but not limited to) youth mentoring programs, family resource centers, crisis intervention services, elder care facilities, and child development centers.

Students are well-prepared for graduate studies or direct employment, supported by personalized advising and long-term academic and career plans.

Human Development and Family Studies - MHDFS

Program Overview

College
College of Education & Human Services

Department
Human Development and Family Studies

Program Level
Graduate

About this Degree

This program is open exclusively to students currently admitted to Human Development and Family Studies (HDFS) graduate programs.

The Master of Human Development and Family Studies (MHDFS) program is a Plan C/Non-thesis designed to prepare students for professional roles providing education and services to individuals and families in applied settings. The MHDFS is a practice-oriented degree especially suitable for individuals already working in the family or social services sectors, education, or corrections, and for those who seek employment in applied settings. The MHDFS is not a therapy training degree; a person completing this degree is not eligible to become a licensed therapist or counselor. The MHDFS program will, however, provide excellent preparation for those wanting to gain a greater understanding of children, youth, and families to optimize their ability to provide services and education. MHDFS students work closely with one faculty mentor to develop their own independent capstone project. Because an MHDFS student specializes in a project under the mentorship of a faculty member, understanding the research interests of our faculty may be of interest for prospective MHDFS applicants.

In place of a thesis, they participate in a graduate practicum, and they complete a capstone paper or projects. For more specific information, see the department's Graduate Student Handbook online at: cehs.usu.edu/hdfs/graduate/handbook.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

In addition to the department's requirements, the following are the School of Graduate Studies guidelines and are the minimum requirements for students to complete a degree.

Degree Verification
A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA at least 3.0 and no grades of C- or lower
Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree. Graduate Students may earn no more than two "C's" in their courses.

Course Number Acceptability
The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 6000.

Matriculation Start Semester
A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity
Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.

- **Master's Forms:**
  - Approval of academic forms required for master's students by the School of Graduate Studies
    - Supervisory Committee
    - Program of Study
      - (Professional/Plan C students cannot use any thesis/dissertation credits on Program of Study.)

Program Core Requirements (18 credits)

Type
Completion Requirement

Core Courses

Complete ALL of the following Courses:

- EDUC6050 - Applied Statistical Analysis - 3cr.
- HDFS6031 - Research Methodology - 3cr.
- HDFS6060 - Human Development Theories - 3cr.
- HDFS6070 - Family Theories - 3cr.
- HDFS6500 - Master of Human Development and Family Studies Capstone - 3cr.
- HDFS6980 - Master of Human Development and Family Studies Practicum - 1cr.

NOTE:

1. HDFS6980 MHDFS PRACTICUM - Enroll in 3 credits.

Human Development and Family Relations (6 credits)

Type
Completion Requirement

Course Requirements

Complete at least 2 of the following courses:

- HDFS6010 - Family Research and Application - 3cr.
- HDFS6020 - Human Development Research and Application - 3cr.
- HDFS6220 - Interpersonal Family Relationships - 3cr.
- HDFS6510 - Development in Infancy - 3cr.
- HDFS6520 - Development in Childhood - 3cr.
- HDFS6530 - Development in Adolescence - 3cr.
- HDFS6540 - Adulthood and Aging - 3cr.
- HDFS6910 - Parenting - 3cr.

Contemporary Issues (3 credits)

Type
Completion Requirement

Contemporary Issues (3 credits)

Complete at least 1 of the following courses:

- HDFS6210 - Cultural Diversity in Families - 3cr.
- HDFS6230 - Family and Social Policy - 3cr.
- HDFS6240 - Race, Gender, and Social Justice - 3cr.

Elective Credit (3 credits)

Type
Completion Requirement

Elective Course Options

May include any of the Human Development and Family Relations or Contemporary Issues courses, or courses from other departments as approved by your Supervisory Committee.

Earn at least 3 credits from the following:

- HDFS6010 - Family Research and Application - 3cr.
- HDFS6020 - Human Development Research and Application - 3cr.
- HDFS6210 - Cultural Diversity in Families - 3cr.
- HDFS6220 - Interpersonal Family Relationships - 3cr.
- HDFS6230 - Family and Social Policy - 3cr.
- HDFS6240 - Race, Gender, and Social Justice - 3cr.
- HDFS6510 - Development in Infancy - 3cr.
- HDFS6520 - Development in Childhood - 3cr.
- HDFS6530 - Development in Adolescence - 3cr.
- HDFS6540 - Adulthood and Aging - 3cr.
- HDFS6910 - Parenting - 3cr.

Required Orientation Courses

Type
Completion Requirement

Orientation Courses

The School of Graduate Studies requires the following courses for teaching assistantships: Course credit does not count on the Program of Study toward degree requirements.

Complete the following Continuing Education Courses:

- CEUS 7901 - Graduate Teaching Training I: FERPA, Title IX, and Best Practices in Assessment and Communication - 1cr.
- CEUS 7902 - Graduate Teaching Training II: Ethics, Pedagogy, and Student Support - 2cr.

Human Development and Family Studies: Marriage and Family Therapy Specialization - PhD

Program Overview

College
College of Education & Human Services

Department
Human Development and Family Studies

Program Level
Graduate

About this Degree

Students in the PhD program (Marriage and Family Therapy specialization) complete coursework in the MFT program as well as courses within the Department of Human Development and Family Studies that prepares them for both academic and professional scholarship. They complete a major research dissertation that makes a significant contribution to the theoretical and empirical knowledge in MFT.

In addition to relevant coursework and the dissertation, students are trained in additional research, teaching, and professional competencies. For more specific information, see the PhD Graduate Handbook (and MFT supplement) https://cehs.usu.edu/hdfs/graduate/handbook.

Program Requirements

Total Credits Required In Program Coursework
60

Total Credits Required To Earn This Credential
60

Simple Requisites

Program Requirements

In addition to the department's requirements, the following are the School of Graduate Studies guidelines and are the minimum requirements for students to complete a degree.

School of Graduate Studies Requirements:

• Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
• Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
• Course Number Acceptability: The Program of Study for a doctoral degree must include at least 15 semester credits at the level of 6000 or above.
• Matriculation Start Semester: A doctorate degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
• Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
• Required for all defense degrees: Successful defense and submission of the dissertation to the library.
Doctoral forms:

- Approval of academic forms required for doctoral students by the School of Graduate Studies:
  - Complete RCR training
  - Supervisory Committee
  - Program of Study

- Application for Candidacy
- Appointment for Examination
- Record of Examination
- Dissertation Format & Style
- Authorship and Copyright
- Department, SGS, and library review and approval

Human Development and Family Studies: Marriage and Family Therapy Specialization - PhD

Type
Completion Requirement

Core Requirements (45 credits)

Complete ALL of the following Courses:

- HDFS6031 - Research Methodology - 3cr.
- HDFS6060 - Human Development Theories - 3cr.
  OR HDFS6070 - Family Theories - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- HDFS7032 - Multivariate and Dyadic Data Analysis in Human Development and Family Studies - 3cr.
- HDFS7080 - Professional Development - 3cr.
- HDFS7300 - Advanced Theories in Marriage and Family Therapy - 3cr.
- HDFS7310 - Contemporary Issues in Marriage and Family Therapy - 3cr.
- HDFS7320 - Foundations of Marriage and Family Therapy Education - 3cr.
- HDFS7330 - Neuropsychology of Interpersonal Relationships - 3cr.
- EDUC7610 - Regression Analysis - 3cr.
- HDFS7950 - Marriage and Family Therapy Internship - 1cr.
- HDFS7970 - Dissertation Research - 1cr.

NOTE:

1. HDFS7080 PROFESSIONAL DEVELOPMENT will be offered each fall to the second-year doctoral cohort.
2. HDFS7950 MFT INTERNSHIP - 3 credits required.
3. HDFS7970 DISSERTATION RESEARCH - 12 credits required.

Family Relations and Human Development (6 credits)

Complete at least 2 of the following courses:

- HDFS7010 - Family Research and Application - 3cr.
- HDFS7020 - Human Development Research and Application - 3cr.
- HDFS7220 - Interpersonal Family Relationships - 3cr.
- HDFS7510 - Development in Infancy - 3cr.
- HDFS7520 - Development in Childhood - 3cr.
- HDFS7530 - Development in Adolescence - 3cr.
- HDFS7540 - Adulthood and Aging - 3cr.
- HDFS7910 - Parenting - 3cr.

Contemporary Issues and Advanced Methods and Statistics (6 credits)

Complete at least 2 of the following courses:

- EDUC6010 - Introduction to Program Evaluation: Evaluation Models and Practical Guidelines - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.
- EDUC6800 - Mixed Methods Research - 3cr.
- HDFS7034 - Extant/Secondary Data Analysis - 3cr.
- HDFS7100 - Meta-Analysis and Literature Review - 3cr.
- HDFS7210 - Cultural Diversity in Families - 3cr.
- HDFS7230 - Family and Social Policy - 3cr.
- HDFS7240 - Race, Gender, and Social Justice - 3cr.
- PSY7650 - Multilevel and Marginal Models for the Social Sciences - 3cr.
- PSY7760 - Structural Equation Modeling - 3cr.
- PSY7770 - Longitudinal Data Analysis - 3cr.

Elective (3 credits)

Complete at least 1 of the following courses:

- EDUC6010 - Introduction to Program Evaluation: Evaluation Models and Practical Guidelines - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.
- EDUC6800 - Mixed Methods Research - 3cr.
- HDFS7010 - Family Research and Application - 3cr.
- HDFS7020 - Human Development Research and Application - 3cr.
- HDFS7034 - Extant/Secondary Data Analysis - 3cr.
- HDFS7100 - Meta-Analysis and Literature Review - 3cr.
- HDFS7210 - Cultural Diversity in Families - 3cr.
- HDFS7220 - Interpersonal Family Relationships - 3cr.
- HDFS7230 - Family and Social Policy - 3cr.
- HDFS7240 - Race, Gender, and Social Justice - 3cr.
- HDFS7510 - Development in Infancy - 3cr.
- HDFS7520 - Development in Childhood - 3cr.
- HDFS7530 - Development in Adolescence - 3cr.
- HDFS7540 - Adulthood and Aging - 3cr.
- PSY7650 - Multilevel and Marginal Models for the Social Sciences - 3cr.
- PSY7760 - Structural Equation Modeling - 3cr.
- PSY7770 - Longitudinal Data Analysis - 3cr.
- HDFS7910 - Parenting - 3cr.

Required Orientation Courses

The School of Graduate Studies requires the following courses for teaching assistantships: Course credit does not count on the Program of Study toward degree requirements.

Complete the following continuing education courses:

- CEUS 7901 - Graduate Teaching Training I: FERPA, Title IX, and Best Practices in Assessment and Communication
- CEUS 7902 - Graduate Teaching Training II: Ethics, Pedagogy, and Student Support
- CEUS 7903 - Graduate Teaching Training III: Advanced Pedagogy, Policy, and Community Building

Human Development and Family Studies - MS

Program Overview

College
College of Education & Human Services

Department
Human Development and Family Studies

Program Level
Graduate

About this Degree

The MS in Human Development and Family Studies (HDFS) Plan A program offers advanced study of the comprehensive aspects of individual and family development throughout the lifespan. Delve into the intricate theories of human development, mastering rigorous research methodologies and exploring effective intervention strategies. Our program provides a strong foundation for a variety of professional paths, preparing graduates for impactful careers in academic and applied research, conducting scholarly investigations in academic or applied settings. They also work in education, teaching at the college level or developing educational programs. Furthermore, graduates find roles in human services, contributing to non-profit organizations, government agencies, and community initiatives focused on child welfare, family support, and healthy aging.

For more specific information, see the department's Graduate Student Handbook at: ccehs.usu.edu/hdfs/graduate/handbook.

Simple Requisites

Program Requirements

In addition to the department's requirements, the following are the School of Graduate Studies guidelines and are the minimum requirements for students to complete a degree.

- **Degree Verification**

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

- **Overall Graduate GPA at least 3.0 and no grades of C- or lower**

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree. Graduate Students may earn no more than two "C's" in their courses.

- **Course Number Acceptability**

The Program of Study for a master's degree or a doctoral degree must include at least 15 semester credits at the level of 6000 or above.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 6000.

- **Matriculation Start Semester**

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

- **Coursework Validity**

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.

- **Master's Forms:**
  - Approval of academic forms required for master's students by the School of Graduate Studies
    - Supervisory Committee
    - Program of Study
    - Thesis/Project Approval
    - Appointment for Exam
    - Record of Examination
    - Authorship and Copyright
    - Thesis Format & Style
    - Title Page
    - Department, SGS, and library review and approval
  - Required for all Plan A/defense degrees-
    - Complete RCR training.
    - Six thesis credits are required.
    - Successful defense and submission of the thesis to the library.

Plan A - Thesis

Type
Completion Requirement

Core Requirements (18 credits minimum)

Complete ALL of the following Courses:

- HDFS6060 - Human Development Theories - 3cr.
- HDFS6070 - Family Theories - 3cr.
- HDFS6031 - Research Methodology - 3cr.
- EDUC6050 - Applied Statistical Analysis - 3cr.
- HDFS6970 - Thesis Research - 1cr.

NOTE:

1. HDFS6970 THESIS RESEARCH - 6 credits required

Human Development and Family Relations (6 credits)

Complete at least 2 of the following courses:

- HDFS6020 - Human Development Research and Application - 3cr.
- HDFS6510 - Development in Infancy - 3cr.
- HDFS6520 - Development in Childhood - 3cr.
- HDFS6530 - Development in Adolescence - 3cr.
- HDFS6540 - Adulthood and Aging - 3cr.
- HDFS6010 - Family Research and Application - 3cr.
- HDFS6220 - Interpersonal Family Relationships - 3cr.
- HDFS6910 - Parenting - 3cr.

Contemporary Issues (3 credits)

Complete at least 1 of the following courses:

- HDFS6210 - Cultural Diversity in Families - 3cr.
- HDFS6230 - Family and Social Policy - 3cr.
- HDFS6240 - Race, Gender, and Social Justice - 3cr.

Elective (3 credits)

May include any of the Human Development and Family Relations or Contemporary Issues courses, or courses from other departments as approved by the student's Supervisory Committee.

Complete ANY of the following Courses:

- HDFS6010 - Family Research and Application - 3cr.
- HDFS6020 - Human Development Research and Application - 3cr.
- HDFS6210 - Cultural Diversity in Families - 3cr.
- HDFS6220 - Interpersonal Family Relationships - 3cr.
- HDFS6230 - Family and Social Policy - 3cr.
- HDFS6240 - Race, Gender, and Social Justice - 3cr.
- HDFS6510 - Development in Infancy - 3cr.
- HDFS6520 - Development in Childhood - 3cr.
- HDFS6530 - Development in Adolescence - 3cr.
- HDFS6540 - Adulthood and Aging - 3cr.
- HDFS6910 - Parenting - 3cr.

Required Orientation Courses

The School of Graduate Studies requires the following courses for teaching assistantships: Course credit does not count on the Program of Study toward degree requirements.

Complete the following Continuing Education Courses:

- CEU 7901 - Graduate Teaching Training I; FERPA, Title IX, and Best Practices in Assessment and Communication

Human Development and Family Studies - PhD

Program Overview

College
College of Education & Human Services

Department
Human Development and Family Studies

Program Level
Graduate

About this Degree

Students in the PhD program complete a major research dissertation that makes a significant contribution to the theoretical and empirical knowledge in human development and/or family studies. Students can be admitted into the program with a Bachelor of Science degree if they have adequate research experience (*post-BS PhD*), or after they complete a Master of Science (or Master of Arts, with additional research experience; *post-MS PhD*).

Program Requirements

Total Credits Required In Program Coursework
60-78

Total Credits Required To Earn This Credential
60-78

Simple Requisites

Program Requirements

In addition to coursework and the dissertation, students demonstrate research, teaching, and professional competencies, and pass a comprehensive exam. For more specific information, see the Graduate Student Handbook at: cehs.usu.edu/hdfs/graduate/handbook.

In addition to the department's requirements, the following are the School of Graduate Studies guidelines and are the minimum requirements for students to complete a degree.

- **PhD (Post-MS):** 60 credits min.
- **PhD (Post-BS):** 78 credits min.
- **Degree Verification**

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

- **Overall Graduate GPA at least 3.0 and no grades of C- or lower**

Graduate Students may earn no more than two "C's" in their courses.

- **Course Number Acceptability**

The Program of Study for a doctoral degree if the student has a master's degree must include at least 15 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 6000.

- **Matriculation Start Semester**

A doctorate degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.

- **Coursework Validity**

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.

- **Required for all defense degrees:**

Successful defense and submission of the dissertation to the library.

- Doctoral forms:
    - Approval of academic forms required for doctoral students by the School of Graduate Studies.
        - Complete RCR training
        - Supervisory Committee

2. HDFS7970 DISSERTATION RESEARCH - 12 credits are required.
3. HDFS7980 GRAD RESEARCH PRACTICUM - 9 credits are required.

Family Relations and Human Development (9 credits)

Complete at least 3 of the following courses:

- HDFS7220 - Interpersonal Family Relationships - 3cr.
- HDFS7910 - Parenting - 3cr.
- HDFS7510 - Development in Infancy - 3cr.
- HDFS7520 - Development in Childhood - 3cr.
- HDFS7530 - Development in Adolescence - 3cr.
- HDFS7540 - Adulthood and Aging - 3cr.

Contemporary Issues and Advanced Methods (15 credits)

Complete at least 5 of the following courses:

- HDFS7210 - Cultural Diversity in Families - 3cr.
- HDFS7230 - Family and Social Policy - 3cr.
- HDFS7240 - Race, Gender, and Social Justice - 3cr.
- EDUC6010 - Introduction to Program Evaluation: Evaluation Models and Practical Guidelines - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.
- EDUC6800 - Mixed Methods Research - 3cr.
- HDFS7034 - Extant/Secondary Data Analysis - 3cr.
- HDFS7100 - Meta-Analysis and Literature Review - 3cr.
- PSY7650 - Multilevel and Marginal Models for the Social Sciences - 3cr.
- PSY7760 - Structural Equation Modeling - 3cr.
- PSY7770 - Longitudinal Data Analysis - 3cr.

Electives (6 credits)

May include any of the Family Relations and Human Development or Contemporary Issues and Advanced Methods courses, or classes from other departments as approved by the Supervisory Committee.

Earn at least 6 credits from the following:

- EDUC6010 - Introduction to Program Evaluation: Evaluation Models and Practical Guidelines - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.
- EDUC6800 - Mixed Methods Research - 3cr.
- HDFS7034 - Extant/Secondary Data Analysis - 3cr.
- HDFS7100 - Meta-Analysis and Literature Review - 3cr.
- HDFS7210 - Cultural Diversity in Families - 3cr.
- HDFS7220 - Interpersonal Family Relationships - 3cr.
- HDFS7230 - Family and Social Policy - 3cr.
- HDFS7240 - Race, Gender, and Social Justice - 3cr.
- HDFS7510 - Development in Infancy - 3cr.
- HDFS7520 - Development in Childhood - 3cr.
- HDFS7530 - Development in Adolescence - 3cr.
- HDFS7540 - Adulthood and Aging - 3cr.
- HDFS7910 - Parenting - 3cr.
- PSY7650 - Multilevel and Marginal Models for the Social Sciences - 3cr.
- PSY7760 - Structural Equation Modeling - 3cr.
- PSY7770 - Longitudinal Data Analysis - 3cr.

Required Orientation Courses

The School of Graduate Studies requires the following courses for teaching assistantships: Course credit does not count on the Program of Study toward degree requirements.

Complete the following continuing education courses:

- CEUS 7901 - Graduate Teaching Training I: FERPA, Title IX, and Best Practices in Assessment and Communication

Human Experience Design and Interaction - BS

Program Overview

College	Department	Program Level
College of Education & Human Services	Instructional Technology & Learning Sciences	Undergraduate

About this Degree

We are surrounded by design that has been done by people but often not designed with the end user in mind. Whether it is an app that doesn't make sense, a car dashboard, a physical space or product, we deserve to interact with software, tools and spaces that make sense for us. The Human Experience Design and Interaction (HEDI) program focuses on instructional design, video game design, product design, or multimedia design, all with an emphasis on being human-centered. HEDI has core classes that include design, product/project management, how people learn, and how to visualize and present data to key stakeholders. Students will also specialize in two emphasis areas of their own choosing. Emphasis options include game studies, marketing, new venture management, multimedia, culturally responsive design, product development, and technical communication.

- For more information about Instructional Technology and Learning Sciences, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- Students in the program must maintain a minimum 2.0 GPA overall to remain in the program.
- The highest math requirement for this degree is fulfilled through satisfying the Quantitative Literacy (QL) requirement.

Admission Requirements for this Program

A minimum GPA of 2.0 and successfully completing ITLS2000 HEDI ORIENTATION Orientation Course is mandatory. Students with prior work experience, aptitude for technology, and experience with multimedia are preferred but not required.

Students can begin the Human Experience Design and Interaction (HEDI) program at any time during their study at USU. Students are selected based on their GPA in combination with other indicators of achievement.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
61	120

Simple Requisites

Program Requirements

Once admitted, students are required to obtain a minimum grade of C or better in all classes that are required for, or used as electives in, this major. Students are allowed a total of three course repeats. For classes with an ITLS prefix, students are required to have at least 3.0 cumulative major GPA.

- Students in the program must maintain a minimum 2.0 GPA overall to remain in the program.

Human Experience Design and Interaction - BS

Type
Completion Requirement

Required Courses (40 credits)

Complete ALL of the following Courses:

- ITLS2000 - HEDI Orientation - 1cr.
- ITLS3110 - Design Perspectives and Processes I - 3cr.
- ITLS3120 - Design Perspectives and Processes II - 3cr.
- ITLS3130 - How People Learn - 3cr.
- ITLS3310 - Information and Media Literacy - 3cr.
- ITLS3350 - Introduction to Computational Thinking - 3cr.
- ITLS4110 - Project and Product Management - 3cr.
- ITLS5130 - Data Visualization - 3cr.
- ITLS5215 - Video and Audio Design and Production I - 3cr.
- ITLS5230 - Graphic Design and Production I - 3cr.
- ITLS5250 - Artificial Intelligence for Learning and Design - 3cr.
- ITLS5265 - Internet Design and Development - 3cr.
- ITLS5320 - Writing for Design (CI) - 3cr.
- ITLS4170 - AI-Powered Experience Design - 3cr.

Required Capstone Experience

Complete at least 1 of the following courses:

- ITLS4940 - Internship-Undergraduate - 1cr.
- ITLS4960 - Senior Capstone Project - 1cr.

Required Emphases (21 credits total)

Two emphases are required. See program Advisor for course options.

Complete the following:

- Emphasis 1 is a minimum of 12 required credits.
- Emphasis 2 is a minimum of 9 required credits.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Health Equity - Post-Bachelor's Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Graduate

About this Degree

The Health Equity Post Bachelor's Certificate provides rigorous social science training and education in social determinants of health, health disparities, and health equity, targeted at both current graduate students and healthcare professionals and practitioners. The certificate requires completion of two health-related courses, which will provide students with training and education in social scientific approaches to health, healthcare, well-being, disability, aging, and mental health. Also required is an inequality course, which will provide students with more depth regarding the history of inequality and factors that shape unequal outcomes.

Students who complete the program will receive a graduate-level certificate in Health Equity. Their USU transcript will list the courses and grades received to complete the program. The certificate may be earned as a stand-alone certification or as part of a USU graduate degree program.

Admission Requirements for this Program

To apply for admittance to the program, a person must complete and submit an application to the School of Graduate Studies. Academic credits obtained from the program may be applied toward a graduate degree.

To apply, the School of Graduate Studies requires:

1. A bachelor's degree (or, for some doctoral programs, a master's degree) that is or will be completed before the student matriculates in the degree program.
2. A 3.0 or higher grade-point average for terms that include the student's last 60 semester credits or 90 quarter credits.
3. Resume/CV
4. International applicants are required to submit proof of proficiency in English.

Hearing Foundations - Certificate

Program Overview

College
College of Education & Human Services

Department
Speech and Hearing Sciences

Program Level
Undergraduate

About this Degree

Students completing the certificate will need to take five courses, totaling 15 credits that may be completed in two semesters. This set of coursework addresses speech and hearing problems, auditory anatomy and physiology, and acoustics and sound processing for students with an interest in hearing-related knowledge and skills who do not want to complete the full major in Speech and Hearing Sciences.

Program Requirements

Healthcare Interpretation - Certificate

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Undergraduate

About this Degree

This Certificate in Healthcare Interpretation is considered a program in high demand by students, employers, and communities across that state. According to the Occupational Outlook Handbook, Interpreters, and translators' projections for employability in the state is 6% which is above the average in other fields. This program will provide students with access to a comprehensive education with a wide range of employment opportunities, as compared with more specialized programs with specific, less widely available, or geographically focused employment outcomes.

Students will gain the skills to be hired and competent as medical interpreters. The certificate is designed to provide the content knowledge and the language skills in translation and interpretation. Students take an advanced Spanish composition class or a medical terminology class to start the certification, the following are theory of interpretation and translation SPAN3061 FUNDMTLS TRANSLN AND INTERPRTN , and then the translation and interpretation skills SPAN4071 SIM & CONSEC HEALTHC INTERPR, SPAN3081 HEALTHCARE TRANSLATION, and they finish with the Medical Certification of code of ethics, different modes of interpreting , healthcare system, and body systems (SPAN4081 MEDICAL INTERPRET TRAINING).

Heavy Equipment Operator - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Heavy Equipment Operator program introduces students to the heavy equipment industry and basic equipment operations. It also blends classroom time, industry related safety and hands on training for a well-rounded learning experience. Topics include OSHA construction safety, orientation to the trade, identification of heavy equipment, basic operational techniques, introduction to earthmoving, rough grading, and finish grading. This program is open-entry/ open-exit, so students can enter when it's convenient for them!

Supplemental Courses - 6 credits

Complete ALL of the following Courses:

- TEHE1250 - Dozer Operation - 2cr.
- TEHE1300 - Road Grader Operation - 2cr.
- TEHE1400 - Forklift Operation - 1cr.
- TEHE1500 - Worksite Planning for Operators - 1cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

- At the completion of the course students should demonstrate entry level criteria related to overall safety awareness in the heavy equipment operator job fields.

- Students should meet minimum requirements to safely and effectively perform fundamental operating techniques used in industry.
- Students should be capable of performing a machine pre-operation inspection and know the proper procedures for tagging out and addressing maintenance or repair needs.
- Demonstrate knowledge of the job site awareness and have the ability to seek information and/or communicate needs and/or concerns.
- Meet areas industry needs by providing trained and machine safety certified entry-level operators which relate to the service area of the program.

Health Education Teaching - Minor

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

The Health Education Teaching Minor at Utah State University prepares students to teach health education in K–12 school settings. This program includes the essential coursework and practicum experiences required to apply for the Health Education endorsement through the Utah State Board of Education (USBE).

Students must either hold or be working toward a valid Utah teaching license to be eligible for the USBE endorsement. The minor is an excellent option for students in teacher preparation programs who want to enhance their credentials and expand their teaching opportunities.

Important Note: Completion of the program's academic requirements does not guarantee a recommendation for the USBE endorsement. A formal recommendation will be made only when the following criteria are met:

- Successful completion of all required coursework (C or better) and Student Teaching Education Program (STEP) requirements
- Possession of a current and valid Utah teaching license
- Submission of all required forms and applicable fees

This minor cannot be used alone for teaching licensure unless the student has a teaching major. For more information, please contact the Academic Advisors in the Department of Kinesiology and Health Science.

History - Minor

Program Overview

College	Department	Program Level
College of Arts & Sciences	History, Cultures & Ideas	Undergraduate

Program Requirements

Total Credits Required To Earn This Credential
15

Simple Requisites

Program Requirements

A grade of *C* must be earned in all history courses used for the minor. Minor requirements may not be taken for a pass/fail grade. To graduate with a history minor, students must have a 2.5 minor GPA.

Section 1

Type
Completion Requirement

History Minor Requirements (15 credits)

Fulfill ALL of the following requirements:

History Survey Courses (3 credits

Complete at least 1 of the following courses:

- HIST1100 - European History to 1500 (BHU) - 3cr.
- HIST1110 - European History from 1500 (BHU) - 3cr.
- HIST1500 - Pre-Modern World (BHU) - 3cr.
- HIST1510 - The Modern World (BHU) - 3cr.
- HIST2700 - United States to 1877 (BAI) - 3cr.
- HIST2710 - United States 1877-Present (BAI) - 3cr.

Upper-Division Electives (12 credits)

Electives
Students should complete their remaining 12 credits by taking 3000-and 4000-level history courses for a total of 15 credits in the history minor. At least 3 upper-division credits must be taken in non-US history.

No more than 3 credits of HIST4930 DIRECTED READINGS may be applied toward the minor.

History - BA

Program Overview

College
College of Arts & Sciences

Department
History, Cultures & Ideas

Program Level
Undergraduate

About this Degree

The History Department has been recognized by the American Historical Association as one of 12 outstanding history departments in the United States and Canada, selected for its "brilliant teaching and leadership." The department's strongest areas include the modern American West, classics, early modern Europe, and the Atlantic World.

USU history majors have the opportunity to work in-depth on undergraduate research projects. Students learn how to conduct and present their research all while taking advantage of faculty mentoring, study abroad opportunities, internships and more. Students learn the skills needed to research, analyze, think critically, and communicate clearly – all of which are highly valued skills in various career paths. About one-third of history graduates from USU go on to teaching, while two-thirds go into law, medicine, or business fields.

The preferred degree in the history program is the **BA**, which requires proficiency in a foreign language. Students may, however, choose to pursue the BS degree, which requires a significant amount of coursework in the College of Science.

- For more information about History, see the History Department website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is Quantitative Literacy (QL) of student's choice.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.50 GPA.

Minimum GPA for Graduation: 2.5, Major; 2.0, Cumulative

Number of Required Credits: 36

History majors must complete at least four introductory survey courses, two required methods courses, and a number of upper-division electives. Major requirement courses may not be taken pass/fail.

For those students interested in a BA degree, you must complete 16 credits in a single foreign language. See additional options in the Bachelor of Arts Track section below.

Bachelor of Arts Degree Language Requirement

For requirements for a Bachelor of Arts Degree in History, please see Minimum University Requirements (Bachelor's Degree) for required language credit.

History - BA

Type
Completion Requirement

History Major Lower-Division Requirements (12 credits)

Complete the following lower-division survey course requirements in sections A, B and C with a grade of C or better in each class, for a total of 12 credits

Fulfill ALL of the following requirements:

A. European Perspectives (3 credits)

Complete at least 1 of the following courses:

- HIST1100 - European History to 1500 (BHU) - 3cr.
- HIST1110 - European History from 1500 (BHU) - 3cr.

AND

B. World Perspectives (3 credits)

Complete at least 1 of the following courses:

- HIST1500 - Pre-Modern World (BHU) - 3cr.
- HIST1510 - The Modern World (BHU) - 3cr.

AND

C. American Perspectives (6 credits)

Complete ALL of the following Courses:

- HIST2700 - United States to 1877 (BAI) - 3cr.
- HIST2710 - United States 1877-Present (BAI) - 3cr.

NOTE: HIST1700 AMERICAN HISTORY (BAI) American History cannot be applied toward requirements for the history major or minor.

History Major Methods Requirements (6 credits)

Earn a minimum grade of C+ in the following:

- HIST3000 - History Research Methods - 3cr.
- HIST4990 - Undergraduate Research Capstone (CI) - 3cr.

History Upper-Division Course Electives (18 credits)

Earn at least 18 credits
Students take their remaining 18 credits in 3000- and 4000-level history courses (with a grade of C or better in each class). The upper-division classes provide a more focused, detailed and rigorous examination of historical periods and themes.

Any course with a HIST prefix at 3000 or above is acceptable as an elective. No more than 3 credits of HIST4930 DIRECTED READINGS Directed Readings may be applied toward the major.

Requirement for a Minor

See the following information:
Since the study of history requires an understanding of many fields of human behavior, students majoring in history must select a minor. These may include related disciplines such as religious studies, literature, economics, geography, anthropology, political science, sociology, classics, philosophy, and foreign languages, or students may choose a minor in any other program on campus.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

History - BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	History, Cultures & Ideas	Undergraduate

About this Degree

The History Department has been recognized by the American Historical Association as one of 12 outstanding history departments in the United States and Canada, selected for its "brilliant teaching and leadership." The department's strongest areas include the modern American West, classics, early modern Europe, and the Atlantic World.

USU history majors have the opportunity to work in-depth on undergraduate research projects. Students learn how to conduct and present their research all while taking advantage of faculty mentoring, study abroad opportunities, Internships, and more. Students learn the skills needed to research, analyze, think critically, and communicate clearly – all of which are highly valued skills in various career paths. About one-third of history graduates from USU go on to teaching, while two-thirds go into law, medicine, or business fields.

- For more information about History, see the History Department website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is Quantitative Literacy (QL) of student's choice.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.50 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
36	120

Simple Requisites

Program Requirements

Minimum GPA for Graduation: 2.5, Major; 2.0, Cumulative

Number of Required Credits: 36

Major requirement courses may not be taken pass/fail.

History majors must complete at least four introductory survey courses, two required methods courses, and a number of upper-division electives.

Major Requirements (36 credits)

Type
Completion Requirement

History Major Lower-Division Requirements (12 credits)

Complete the following lower-division survey course requirements in sections A, B, and C with a grade of C or better in each class, for a total of 12 credits.

Fulfill ALL of the following requirements:

A. European Perspectives (3 credits)

Complete at least 1 of the following courses:

- HIST1100 - European History to 1500 (BHU) - 3cr.
- HIST1110 - European History from 1500 (BHU) - 3cr.

AND

B. World Perspectives (3 credits)

Complete at least 1 of the following courses:

- HIST1500 - Pre-Modern World (BHU) - 3cr.
- HIST1510 - The Modern World (BHU) - 3cr.

AND

C. American Perspectives (6 credits)

Complete ALL of the following Courses:

- HIST2700 - United States to 1877 (BAI) - 3cr.
- HIST2710 - United States 1877-Present (BAI) - 3cr.

NOTE:

HIST1700 AMERICAN HISTORY (BAI) American History may not be counted toward the history major.

History Required Methods Courses (6 credits)

After satisfying the lower-division major requirements, students will complete two required methods courses (HIST3000 HISTORY RESEARCH METHODS and HIST4990 UNDERGRAD RSRCH CAPSTONE (CI)), and they must earn a C+ grade or better in each class to earn credit toward the major.

Earn a minimum grade of C+ in the following:

- HIST3000 - History Research Methods - 3cr.
- HIST4990 - Undergraduate Research Capstone (CI) - 3cr.

History Upper-Division Course Electives (18 credits)

Complete the following:
Students take their remaining 18 credits in 3000- and 4000-level history courses (with a grade of C or better in each class). The upper-division classes provide a more focused, detailed and rigorous examination of historical periods and themes.

Any course with a HIST prefix at 3000 or above is acceptable as an elective. No more than 3 credits of HIST4930 DIRECTED READINGS Directed Readings may be applied toward the major.

Bachelor of Science Track (3 Credits)

- Students interested in a BS degree must complete 3 credits using EITHER Option A **or** Option B below.
- Students who minor in a science field will automatically fulfill the BS requirement through their minor.

Fulfill ANY of the following requirements:

Option A

Complete one of the following courses with a grade of C or better:

Complete at least 1 of the following courses:

- HIST3900 - Science and Technology in World History (DSC) - 3cr.
- HIST3910 - Health, Disease, and Medicine in North America (DHA) - 3cr.
- HIST3950 - Environmental History (DHA/CI) - 3cr.
- HIST4020 - Public History - 3cr.
- HIST4625 - The History of Natural Disasters (DHA) - 3cr.
- HIST4940 - Historical Internship - 1cr.
- HIST4945 - Archives Management/Archives Internship - 1cr.
- RELS3125 - Religion & Science: Examining a Complex History of Interaction - 3cr.

OR

Option B

Complete the following:
Students must complete one course from the approved list of BLS, BPS, BSS, DSC, or DSS courses with a grade of C- or higher. This cannot be a course that is already being used to fulfill a basic General Education science or social science requirement.

Requirement for a Minor

See the following information:
Since the study of history requires an understanding of many fields of human behavior, students majoring in history must select a minor. These may include related disciplines such as religious studies, literature, economics, geography, anthropology, political science, sociology, classics, philosophy, and foreign languages, or students may choose a minor in any other program on campus.

Students who minor in a science field will fulfill the Mathematics and Science Track requirements of the BS degree through their minor.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

History: Teaching Emphasis - BA

Program Overview

College	Department	Program Level
College of Arts & Sciences	History, Cultures & Ideas	Undergraduate

About this Degree

The History Department has been recognized by the American Historical Association as one of 12 outstanding history departments in the United States and Canada, selected for its "brilliant teaching and leadership." The department's strongest areas include the modern American West, classics, history of religions, early modern Europe, and the Atlantic World.

USU history majors have the opportunity to work in-depth on undergraduate research projects. Students learn how to conduct and present their research all while taking advantage of faculty mentoring, study abroad opportunities, Internships, and more. Students learn the skills needed to research, analyze, think critically, and communicate clearly – all of which are highly valued skills in various career paths. About one-third of history graduates from USU go on to teaching, while two-thirds go into law, medicine, or business fields.

History Teaching Emphasis: This emphasis is for students interested in teaching, particularly in secondary education. Students will complete history courses and will also be required to take a number of classes that will prepare them to be educators.

- For more information about History: Teaching Emphasis, see the History Department website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 3.0 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
36 + STEP (35 credits)	120

Simple Requisites

Program Requirements

History Teaching Emphasis requires 36 credits in history (HIST) and completion of the Secondary Teacher Education Program (STEP).

Minimum GPA for Admission to STEP: 3.0, Major; 2.0 Cumulative

Minimum GPA for Graduation: 3.0, Major; 2.0, USU

Number of Required Credits: 36, plus the Secondary Teaching Education Program (STEP)

History Teaching Emphasis Majors must complete at least five introductory survey courses, two required methods courses, and a number of upper-division electives. Additionally, students must complete the STEP program and graduate with a 3.0 overall GPA for licensure recommendation to be made by USU to the Utah State Board of Education. Major requirements may not be taken for a pass/fail grade except for those STEP courses that are only taught pass/fail.

The History Department does not accept AP credit for use towards the teaching emphasis.

For those students interested in a BA degree, you must complete:

- 16 credits in a single foreign language (see additional options in the Bachelor of Arts Language Track section below.)

History: Teaching Emphasis - BA

Type
Completion Requirement

History Teaching Emphasis Lower-Division Course Requirements (21 credits)

Complete the following course requirements in sections A, B, C, D, and E with a grade of **C** or better in each class, for a total of 21 credits.

Fulfill ALL of the following requirements:

A. European Perspectives (3 credits)

Complete at least 1 of the following courses:

- HIST1100 - European History to 1500 (BHU) - 3cr.
- HIST1110 - European History from 1500 (BHU) - 3cr.

AND

B. World Perspectives (6 credits)

Complete ALL of the following Courses:

- HIST1500 - Pre-Modern World (BHU) - 3cr.
- HIST1510 - The Modern World (BHU) - 3cr.

AND

C. American Perspectives (6 credits)

Complete ALL of the following Courses:

- HIST2700 - United States to 1877 (BAI) - 3cr.
- HIST2710 - United States 1877-Present (BAI) - 3cr.

NOTE:

HIST1700 AMERICAN HISTORY (BAI) American History cannot be applied toward requirements for the history major or minor.

AND

D. Utah History (3 credits)

Complete ALL of the following Courses:

- HIST3850 - History of Utah (DHA/CI) - 3cr.

AND

E. History of Traditionally Underrepresented Communities (3)

Complete at least 1 of the following courses:

- HIST2018 - Introduction to Native American History and Culture (BSS) - 3cr.
- HIST2730 - Writing about Indigenous Histories and Cultures (CL2) - 3cr.
- HIST3615 - Latinx History - 3cr.
- HIST3670 - Slavery in the Atlantic World (CI) - 3cr.
- HIST4540 - Gender, Violence, and Non-violence - 3cr.
- HIST4550 - Women and Gender in America (DHA/CI) - 3cr.
- HIST4650 - Women and Gender in the US West - 3cr.
- HIST4710 - American Indian History - 3cr.
- HIST4711 - Northern Ute History (DHA) - 3cr.
- HIST4720 - The Civil Rights Movement (DHA/CI) - 3cr.
- HIST4730 - History of Black America (CI) - 3cr.

History Required Methods Courses (6 credits)

Students will complete two required methods courses (HIST3000 HISTORY RESEARCH METHODS and HIST4990 UNDERGRAD RSRCH CAPSTONE (CI)), and they must earn a **C+** grade or better in each class to earn credit toward the major.

Complete ALL of the following Courses:

- HIST3000 - History Research Methods - 3cr.
- HIST4990 - Undergraduate Research Capstone (CI) - 3cr.

Upper-Division Course Electives (9 credits)

Earn at least 9 credits
Students take their remaining 9 credits in 3000- and 4000-level history courses (with a grade of **C** or better in each class). The upper-division classes provide a more focused, detailed and rigorous examination of historical periods and times.

Any course with a HIST prefix at the 3000 level or above is acceptable as an elective. No more than 3 credits of HIST4930 DIRECTED READINGS may be applied toward the major.

Bachelor of Arts Language Track (16 credits)

See the following for information about language course requirements:
Minimum University Requirements (Bachelor's Degree)

Required Courses for the Secondary Teacher Education Program (STEP) (35 credits)

To begin the admission process to the STEP, students should see their advisor at least two semesters before they begin Level I coursework. STEP admission deadlines are March 1 for Fall and October 1 for Spring. Please contact the College of Education for minimum grade requirements.

Fulfill ALL of the following requirements:

STEP Requirements

Complete ALL of the following Courses:

- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED3500 - Teaching Social Studies - 3cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- ITLS2500 - Technology Enabled Instruction - 3cr.

• Students must complete one methods course in history (HIST4990 UNDERGRAD RSRCH CAPSTONE (CI)) and a methods course for their minor (see advisor for the appropriate course).

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

History: Teaching Emphasis - BS

Program Overview

College
College of Arts & Sciences

Department
History, Cultures & Ideas

Program Level
Undergraduate

About this Degree

The History Department has been recognized by the American Historical Association as one of 12 outstanding history departments in the United States and Canada, selected for its "brilliant teaching and leadership." The department's strongest areas include the modern American West, history of religions, classics, early modern Europe, and the Atlantic World.

USU history majors have the opportunity to work in-depth on undergraduate research projects. Students learn how to conduct and present their research all while taking advantage of faculty mentoring, study abroad opportunities, internships, and more. Students learn the skills needed to research, analyze, think critically, and communicate clearly – all of which are highly valued skills in various career paths. About one-third of history graduates from USU go on to teaching, while two-thirds go into law, medicine, or business fields.

History Teaching Emphasis: This emphasis is for students interested in teaching, particularly in secondary education. Students will complete history courses and will also be required to take a number of classes that will prepare them to be educators.

- For more information about History: Teaching Emphasis, see the History Department website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 3.0 GPA.

Program Requirements

Total Credits Required In Program Coursework
36 + STEP (35 credits) = 71

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Major Requirements (36 credits)

History Teaching Emphasis requires 36 credits in history (HIST) and completion of the Secondary Teacher Education Program (STEP).

Minimum GPA for Admission to STEP: 3.0 Major, 2.0 Cumulative

Minimum GPA for Graduation: 3.0 Major, 2.0 Cumulative

Number of Required Credits: 36 plus the Secondary Teacher Education Program (STEP)

History Teaching Emphasis Majors must complete at least five introductory survey courses, two required methods courses, and a number of upper-division electives. Additionally, students must complete the STEP program and graduate with a 3.0 overall GPA for licensure recommendation to be made by USU to the Utah State Board of Education. Major requirements may not be taken for a pass/fail grade except for those STEP courses that are only taught pass/fail.

- The History Department does **not** accept AP credit for use towards the teaching emphasis.
- In all instances, a grade of *C-* or better is required for any math or science course to be applied toward a BS degree.
- Students who minor in a science field will fulfill the BS requirement through their minor.

Additional Information

Students are encouraged to pursue an additional subject endorsement, a teaching minor, certificate, or other credential to broaden their career possibilities. Consult with an academic advisor to learn more.

History: Teaching Emphasis - BS

Type
Completion Requirement

History Teaching Emphasis Course Requirements

Complete the following course requirements in sections A, B, C, D, and E with a grade of **C** or better in each class, for a total of 21 credits.

Fulfill ALL of the following requirements:

A. European Perspectives (3 credits)

Complete at least 1 of the following courses:

- HIST1100 - European History to 1500 (BHU) - 3cr.
- HIST1110 - European History from 1500 (BHU) - 3cr.

AND

B. World Perspectives (6 credits)

Complete ALL of the following Courses:

- HIST1500 - Pre-Modern World (BHU) - 3cr.
- HIST1510 - The Modern World (BHU) - 3cr.

AND

C. American Perspectives (6 credits)

Complete ALL of the following Courses:

- HIST2700 - United States to 1877 (BAI) - 3cr.
- HIST2710 - United States 1877-Present (BAI) - 3cr.

NOTE:
HIST1700 AMERICAN HISTORY (BAI) American History cannot be applied toward requirements for the History major or Minor.

AND

D. Utah History (3 credits)

Complete ALL of the following Courses:

- HIST3850 - History of Utah (DHA/CI) - 3cr.

AND

E. History of Traditionally Underrepresented Communities (3 credits)

Complete at least 1 of the following courses:

- HIST2018 - Introduction to Native American History and

Culture (BSS) - 3cr.
- HIST2730 - Writing about Indigenous Histories and Cultures (CL2) - 3cr.
- HIST3615 - Latinx History - 3cr.
- HIST3670 - Slavery in the Atlantic World (CI) - 3cr.
- HIST4540 - Gender, Violence, and Non-violence - 3cr.
- HIST4550 - Women and Gender in America (DHA/CI) - 3cr.
- HIST4650 - Women and Gender in the US West - 3cr.
- HIST4710 - American Indian History - 3cr.
- HIST4711 - Northern Ute History (DHA) - 3cr.
- HIST4720 - The Civil Rights Movement (DHA/CI) - 3cr.
- HIST4730 - History of Black America (CI) - 3cr.

History Required Methods Courses (6 credits)

Students will complete two required methods courses (HIST3000 HISTORY RESEARCH METHODS and HIST4990 UNDERGRAD RSRCH CAPSTONE (CI)), and they must earn a **C+** grade or better in each class to earn credit toward the major.

Complete ALL of the following Courses:
- HIST3000 - History Research Methods - 3cr.
- HIST4990 - Undergraduate Research Capstone (CI) - 3cr.

Upper-Division Course Electives (9 credits)

Earn at least 9 credits
Students will take their remaining 9 credits in 3000- and 4000-level history courses (with a grade of **C** or better in each class). The upper-division classes provide a more focused, detailed and rigorous examination of historical periods and times.

Any course with a HIST prefix at the 3000-level or above is acceptable as an elective. No more than 3 credits of HIST4930 DIRECTED READINGS may be applied toward the major.

Required Courses for the Secondary Teacher Education Program (STEP) (35 credits)

To begin the admission process to the STEP, students should see their advisor at least two semesters before they begin Level I coursework. STEP admission deadlines are March 1 for Fall and October 1 for Spring. Please contact the College of Education for minimum grade requirements.

Fulfill ALL of the following requirements:

STEP Requirements

Complete ALL of the following Courses:
- ITLS2500 - Technology Enabled Instruction - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED3500 - Teaching Social Studies - 3cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

● Students must complete one methods course in history (HIST 4990) and a methods course for their minor (see advisor for the appropriate course).

Bachelor of Science Track (3 credits)

Students interested in a BS degree must complete 3 credits using EITHER Option A OR Option B below.
Students who minor in a science field will automatically fulfill the BS requirement through their minor.

Fulfill ANY of the following requirements:

Option A

Complete ONE of the following courses with a grade of **C** or better:

Complete at least 1 of the following courses:
- HIST3900 - Science and Technology in World History (DSC) - 3cr.
- HIST3910 - Health, Disease, and Medicine in North America (DHA) - 3cr.
- HIST3950 - Environmental History (DHA/CI) - 3cr.
- HIST4020 - Public History - 3cr.
- HIST4625 - The History of Natural Disasters (DHA) - 3cr.
- HIST4940 - Historical Internship - 1cr.
- HIST4945 - Archives Management/Archives Internship - 1cr.
- HIST3125 - Religion & Science: Examining a Complex History of Interaction - 3cr.
  OR RELS3125 - Religion & Science: Examining a Complex History of Interaction - 3cr.

OR

Option B

Complete the following:
Students must complete one course from the approved list of General Education Requirements for BLS, BPS, BSS, Depth Life and Physical Sciences (DSC) or Depth Social Sciences (DSS) courses with a grade of **C-** or higher. This cannot be a course that is already being used to fulfill a basic General Education Science or Social Science requirement.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

History - MA

Program Overview

College	Department	Program Level
College of Arts & Sciences	History, Cultures & Ideas	Graduate

About this Degree

The Department of History has been recognized by the American Historical Association as one of 12 outstanding history departments in the United States and Canada, selected for its “brilliant teaching and leadership.”

The department's graduate program attracts students from across the United States and overseas. Because the department limits its entering class to approximately 12, every graduate student is important. Moreover, master's-level students are not competing with doctoral students for the faculty's time or for history-related work experiences.

Faculty members have a broad array of specialties, so students can study a variety of time periods and geographic areas in history. In particular, the department has strengths in environmental history, religious studies, and the history of the American West.

This is an in-person, terminal Master's program normally conducted over the course of two years. Options for part-time students are also available. For more information on the program and admission requirements, visit https://www.usu.edu/degrees-majors/history_ma_ms.

Admission Requirements for this Program

https://www.usu.edu/degrees-majors/history_ma_ms

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
30	30

Simple Requisites

Program Requirements

To receive a Master of Arts (MA) degree, students must demonstrate reading competency in a foreign language. In History, the MA is considered the research degree. Students planning to continue on for a doctorate should be aware that many doctoral programs in history require that students pass written proficiency exams in two or more languages.

Students may demonstrate current competence through any one of three methods:

- successful completion of two years (four semesters) of foreign language at the undergraduate level (either as an undergraduate or as a graduate student),
- passing the USU-administered language exam by showing proficiency at least up to a second-semester, second-year level of language classes,
- or taking a 3000- or 4000-level language course with a grade of *C* or higher.

Additional Requirements

- A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of B- or lower will not be accepted for a graduate degree.
- The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above.
- Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000. Students are not allowed more than 12 credits of coursework at the 5000 level.
- The History MA degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- Successful defense and submission of the thesis or dissertation to the library.
- Approval of academic forms required for master's students by the School of Graduate Studies:

o Supervisory Committee Approval Form
o Program of Study
o Responsible Conduct of Research training, a brief online training on ethical conduct in research that the university requires
o Thesis Proposal Defense/Approval
o Appointment for Examination
o Record of Examination
o Successful defense and submission of the thesis to the library.
o Other forms may be required; for details refer to the Graduate Student Handbook.

Plan A: Master of Arts Degree (Thesis-HISTORY)

Type
Completion Requirement

Core Requirements

The Plan A option for a master's degree requires the preparation and defense of a thesis. The thesis option should be taken by anyone intending to do research or enter another program for the doctoral degree.

The program consists of 30 semester credits beyond the bachelor's degree.

Complete ALL of the following Courses:

- HIST6000 - Historical Methods and Research - 3cr.
- HIST6010 - History and Theory - 3cr.
- HIST6030 - Research Seminar - 3cr.
- HIST6970 - Thesis Research - 1cr.

NOTE:

1. HIST6970 THESIS RESEARCH - Plan A students take 6 credits

Additional Requirements

The remainder (15 credits) of the 30 credits may be taken as electives in history. Students may complete relevant courses to the degree outside the department if approved by supervisory committee and the Director of Graduate Studies. Students may apply a maximum of 4 internship credits earned toward the total credits required for the program. No more than 3 credits of HIST 6900 Directed Studies may be applied to the degree. Students interested in public history should also take HIST6020 PUBLIC HISTORY.

Please note that only a small selection of courses listed below are offered each semester. Check with the Director of Graduate Studies for the upcoming schedule.

Complete at least 5 of the following courses:

- HIST6020 - Public History - 3cr.
- HIST6165 - The History of Total War - 3cr.
- HIST6200 - Special Topics: Comparative World History - 3cr.
- HIST6230 - Special Topics: Middle Eastern History - 3cr.
- HIST6260 - Special Topics: Asian History - 3cr.
- HIST6300 - Special Topics: African History - 3cr.
- HIST6330 - Special Topics: Latin American History - 3cr.
- HIST6400 - Special Topics: American History - 3cr.
- HIST6410 - Special Topics in Mormon History and Culture - 1cr.
- HIST6420 - Special Topics in Religious History - 3cr.
- HIST6430 - Special Topics: Western American History - 3cr.
- HIST6460 - Seminar in Environmental History - 3cr.
- HIST6500 - Archiving Internship - 2cr.
- HIST6520 - Editing Internship - 2cr.
- HIST6540 - Museum Internship - 2cr.
- HIST6560 - Professional Internship - 2cr.
- HIST6580 - Teaching Internship - 2cr.
- HIST6610 - Seminar on the American West - 3cr.
- HIST6620 - Seminar in Native American Studies - 3cr.
- HIST6700 - Introduction to Folklore Studies - 3cr.
- HIST6710 - Folklore, Landscape, and Place - 3cr.
- HIST6720 - Oral History and Fieldwork Methods - 3cr.
- HIST6740 - Folk Narrative - 3cr.
- HIST6770 - Seminar in Folklore and Folklife - 3cr.
- HIST6800 - History of Books, Manuscripts, and Paleography - 3cr.
- HIST6840 - Archives Management/Archives Internship - 1cr.
- HIST6900 - Directed Studies - 1cr.

Plan B: Master of Arts Degree (Non-thesis-HISTORY)

Type
Completion Requirement

Course Requirements

A non-thesis master's plan can lead a student toward many career paths and is especially suited to those interested in public history. Students completing the Plan B do not write a full-length thesis. Instead, Plan B students develop a project agreed upon by the supervisory committee, such as a digital or physical exhibit or a series of lesson plans, accompanied by a written component.

The program consists of 30 credits beyond the bachelor's degree.

Complete ALL of the following Courses:

- HIST6000 - Historical Methods and Research - 3cr.
- HIST6010 - History and Theory - 3cr.
- HIST6030 - Research Seminar - 3cr.
- HIST6970 - Thesis Research - 1cr.

NOTE:

1. HIST6970 THESIS RESEARCH - Plan B students take 3 credits

Additional Requirements

The remainder (18 credits) of the 30 credits may be taken as electives in history. Students may complete relevant courses to the degree outside the department if approved by supervisory committee and the Director of Graduate Studies. Students may apply a maximum of 4 internship credits earned toward the total credits required for the program. No more than 3 credits of HIST 6900 Directed Studies may be applied to the degree. Students interested in public history should also take HIST6020 PUBLIC HISTORY.

Please note that only a small selection of courses listed below are offered each semester. Check with the Director of Graduate Studies for the upcoming schedule.

Complete at least 6 of the following courses:

- HIST6020 - Public History - 3cr.
- HIST6165 - The History of Total War - 3cr.
- HIST6200 - Special Topics: Comparative World History - 3cr.
- HIST6230 - Special Topics: Middle Eastern History - 3cr.
- HIST6260 - Special Topics: Asian History - 3cr.
- HIST6300 - Special Topics: African History - 3cr.
- HIST6330 - Special Topics: Latin American History - 3cr.
- HIST6400 - Special Topics: American History - 3cr.
- HIST6410 - Special Topics in Mormon History and Culture - 1cr.
- HIST6420 - Special Topics in Religious History - 3cr.
- HIST6430 - Special Topics: Western American History - 3cr.
- HIST6460 - Seminar in Environmental History - 3cr.
- HIST6500 - Archiving Internship - 2cr.
- HIST6520 - Editing Internship - 2cr.
- HIST6540 - Museum Internship - 2cr.
- HIST6560 - Professional Internship - 2cr.
- HIST6580 - Teaching Internship - 2cr.
- HIST6610 - Seminar on the American West - 3cr.
- HIST6620 - Seminar in Native American Studies - 3cr.
- HIST6700 - Introduction to Folklore Studies - 3cr.
- HIST6710 - Folklore, Landscape, and Place - 3cr.
- HIST6720 - Oral History and Fieldwork Methods - 3cr.
- HIST6740 - Folk Narrative - 3cr.
- HIST6770 - Seminar in Folklore and Folklife - 3cr.
- HIST6800 - History of Books, Manuscripts, and Paleography - 3cr.
- HIST6840 - Archives Management/Archives Internship - 1cr.
- HIST6900 - Directed Studies - 1cr.

Additional Comments:

Additional Information

Upon arrival at USU, students are urged to meet with the departmental graduate advisor, who will direct them to one or more faculty members with similar interests. Through consultations with the graduate and faculty advisor, the first-year student will form a thesis or project committee and formulate a course of study. By the end of the first year, students will have submitted to their committees a proposal for the thesis or project, which they will write under the close supervision of the committee members. The oral defense usually takes place in the spring semester of the second year.

History - MS

Program Overview

College	Department	Program Level
College of Arts & Sciences	History, Cultures & Ideas	Graduate

About this Degree

The Department of History has been recognized by the American Historical Association as one of 12 outstanding history departments in the United States and Canada, selected for its “brilliant teaching and leadership.”

The department's graduate program attracts students from across the United States and overseas. Because the department limits its entering class to approximately 12, every graduate student is important. Moreover, master’s-level students are not competing with doctoral students for the faculty’s time or for history-related work experiences.

Faculty members have a broad array of specialties, so students can study a variety of time periods and geographic areas in history. In particular, the department has strengths in environmental history, religious studies, and the history of the American West.

This is an in-person, terminal Master's program normally conducted over the course of two years. Options for part-time students are also available. For more information on the program and admission requirements, visit https://www.usu.edu/degrees-majors/history_ma_ms.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
33	33

Simple Requisites

Program Requirements

To receive a Master of Science (MS) degree, students should demonstrate the ability to incorporate methodologies from the social or natural sciences into their research to the satisfaction of their supervisory committee. Students pursuing public history often choose the MS degree.

- A bachelor’s degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of B- or lower will not be accepted for a graduate degree.
- The Program of Study for a master’s degree must include at least 18 semester credits at the level of 6000 or above.
- Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000. Students are not allowed more than 12 credits of coursework at the 5000 level.
- The History MS degree must be completed within six years of entering the degree program. Additional time may be requested by the student’s committee and submitted to the Vice Provost of Graduate Studies for review.

- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- Successful defense and submission of the thesis or dissertation to the library.
- Approval of academic forms required for master's students by the School of Graduate Studies:

  o Supervisory Committee Approval Form
  o Program of Study

  o. Responsible Conduct of Research training, a brief online training on ethical conduct in research that the university requires
  o Thesis Proposal Defense/Approval
  o Appointment for Examination
  o Record of Examination
  o Successful defense and submission of the thesis to the library.
  o Other forms may be required; for details refer to the Graduate Student Handbook.

Master of Science Degree, Plan A (Thesis-HISTORY)

Type
Completion Requirement

Core Requirements

The Plan A option for a master's degree requires the preparation and defense of a thesis. The thesis option should be taken by anyone intending to do research or enter another program for the doctoral degree.

The program consists of 33 semester credits beyond the bachelor's degree.

Complete ALL of the following Courses:

- HIST6000 - Historical Methods and Research - 3cr.
- HIST6010 - History and Theory - 3cr.
- HIST6030 - Research Seminar - 3cr.
- HIST6970 - Thesis Research - 1cr.

NOTE:

1. HIST6970 THESIS RESEARCH - Plan A students take 6 credits

Additional Requirements

Three credits of coursework outside the department that involves methodologies from the social or natural sciences (at the 5000 or 6000 level).

The remainder (15 credits) of the 33 credits may be taken as electives in history. Students may complete relevant courses to the degree outside the department if approved by supervisory committee and the Director of Graduate Studies. Students may apply a maximum of 4 internship credits earned toward the total credits required for the program. No more than 3 credits of HIST 6900 Directed Studies may be applied to the degree. Students interested in public history should also take HIST6020 PUBLIC HISTORY.

Please note that only a small selection of courses listed below are offered each semester. Check with the Director of Graduate Studies for the upcoming schedule.

Horticulture - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Undergraduate

About this Degree

The Horticulture major is designed for students in USU's regional campus system along the Wasatch Front. It is targeted to the field of ornamental horticulture and will prepare students for careers in arboriculture, nursery production, landscape management, greenhouse crop production, and related green industries.

The curriculum is focused on the application of horticultural principles, including weed, insect, and disease control; soils; crop production; plant biology; and others. The degree is distinct from the Plant Science BS offered on the Logan campus by having less emphasis on the science of crop production.

- For more information about Horticulture, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)
- **Only available at the Wasatch sites (Salt Lake, Kaysville, Orem)**

Admission Requirements for this Program

Horticulture - MPSH (NOT CURRENTLY OFFERED)

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Graduate

About this Degree

The Master of Science and Doctor of Philosophy degrees are offered as follows:

(1) **Plant Science** with specializations in crop physiology; crop production and management; molecular biology; plant breeding and cytology; plant biotechnology and tissue culture; plant nutrition; space biology; weed science; and bioinformatics and computational biology;

(2) **Soil Science** with specializations in soil and water chemistry; soil biochemistry & ecology; soil conservation systems; soil fertility and plant nutrition; soil physics; soil-plant-water relations; soil taxonomy and genesis; molecular biology; and soils and irrigation;

(3) **Climate Science** with specializations in climate dynamics, hydroclimate modeling, micro-meteorology, and turbulence in plant canopies

(4) **Ecology** interdepartmental degree program see description and requirements at https://www.usu.edu/ecology/students.

The Climate Adaptation Science Specialization is offered as an interdepartmental program.

Human Resource Management - Minor

Program Overview

College
Jon M. Huntsman School of Business

Department
Management

Program Level
Undergraduate

Program Requirements

Total Credits Required In Program Coursework
13-14

Total Credits Required To Earn This Credential
13-14

Simple Requisites

Program Requirements

Students are responsible for completing prerequisite courses where applicable. A minimum GPA of 2.50 is required in minor courses. An overall GPA of 2.50 is required for the minor to be awarded at graduation.

Section 1

Type
Completion Requirement

Human Resource Management Minor Required Courses (11 credits)

Complete ALL of the following Courses:

- MGT3100 - Organizational Behavior - 2cr.
- MGT3250 - Managing Human Capital - 3cr.
- MGT4620 - Talent Acquisition - 3cr.
- MGT4630 - Applied Human Resource Management - 3cr.

If taken prior to Fall 2026, MGT 4610 (2 credits) and MGT 4620 (2 credits) may fulfill the above MGT 4620 (3 credits) requirement.

Section 2

Type
Completion Requirement

Elective Course (2-3 credits)

Complete ANY of the following Courses:

- MGT3710 - Team Management - 2cr.
- MGT3810 - Employment Law (DSS) - 3cr.
- MGT4600 - Negotiations - 2cr.

History Teaching - Minor

Program Overview

College
College of Arts & Sciences

Department
History, Cultures & Ideas

Program Level
Undergraduate

Program Requirements

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

A grade of *C* or better must be earned in all history courses used for the minor. Minor requirements may not be taken for a pass/fail grade except where the course is only taught as pass/fail. To graduate with a history teaching minor, students must have a 2.75 minor GPA.

Section 1

Type
Completion Requirement

European Perspectives (3 credits)

Complete at least 1 of the following courses:

- HIST1100 - European History to 1500 (BHU) - 3cr.
- HIST1110 - European History from 1500 (BHU) - 3cr.

Section 2

Type
Completion Requirement

World Perspectives (6 credits)

Complete ALL of the following Courses:

- HIST1500 - Pre-Modern World (BHU) - 3cr.
- HIST1510 - The Modern World (BHU) - 3cr.

Section 3

Type
Completion Requirement

American Perspectives (6 credits)

Complete ALL of the following Courses:

- HIST2700 - United States to 1877 (BAI) - 3cr.
- HIST2710 - United States 1877-Present (BAI) - 3cr.

Section 4

Type
Completion Requirement

Utah History (3 credits)

Complete ALL of the following Courses:

- HIST3850 - History of Utah (DHA/CI) - 3cr.

Section 5

Type
Completion Requirement

History of Traditionally Underrepresented Communities (3 credits)

Complete at least 1 of the following courses:

- HIST2018 - Introduction to Native American History and Culture (BSS) - 3cr.
- HIST2730 - Writing about Indigenous Histories and Cultures (CL2) - 3cr.
- HIST3615 - Latinx History - 3cr.
- HIST3670 - Slavery in the Atlantic World (CI) - 3cr.
- HIST4540 - Gender, Violence, and Non-violence - 3cr.
- HIST4650 - Women and Gender in the US West - 3cr.
- HIST4710 - American Indian History - 3cr.
- HIST4711 - Northern Ute History (DHA) - 3cr.
- HIST4720 - The Civil Rights Movement (DHA/CI) - 3cr.
- HIST4730 - History of Black America (CI) - 3cr.

Section 6

Type
Completion Requirement

History Methods Course (3 credits)

Complete ALL of the following Courses:

- HIST3000 - History Research Methods - 3cr.

Section 7

Type
Completion Requirement

Upper-Division Electives (6 credits)

Electives

- Students should complete their remaining 6 credits by taking 3000- and 4000-level history courses for a total of 30 credits in the history teaching minor.

No more than 3 credits of HIST4930 DIRECTED READINGS can be applied to the history teaching minor.

Note: This minor may only be completed in conjunction with the Secondary Teacher Education Program (STEP). For licensure in the state of Utah, students must successfully pass a PRAXIS exam in the content area in addition to the coursework listed here. For information on licensure in other states, please contact the College of Education (cehs.usu.edu).

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Geography - Human Environment Geography Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Undergraduate

About this Degree

Geography is the study of space, place, and the relationships between people and our environment. With a Geography major, students learn essential skills to solve pressing problems at the local, national, and global scale. Geography is an interdisciplinary degree that includes coursework in the physical and social sciences, combined with technical expertise in the field of geographic information science.

Human-Environment Geography Emphasis: This emphasis provides a broad overview of the relationships between humans and their environments across different cultures, economies, and geographic locations around the globe. It requires an understanding of the dynamics of geology, meteorology, hydrology, biogeography, ecology, and geomorphology, as well as human behavior, decision making, and perception in relation to the environment.

- Admitted and current students must meet with an academic advisor for help with semester-by-semester planning, connections to co-curricular experiences, understanding of USU policies, and accessing USU resources.
- Log on to Degree Works to check student-specific program progress.
- Students can also have an emphasis in Geographic Information Science.
- The highest math requirement for this degree is STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL).

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
63-65

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses required for the major must be taken on an A-B-C-D-F grade basis. A grade of C- or better and a grade point average of 2.5 or higher is required for all ENVS, GEOG, WATS, or WILD courses used to meet requirements for a major in Geography.

Geography Major Requirements (63-65 credits)

Type
Completion Requirement

Geography Core (33-35 credits)

Complete ALL of the following Courses:

- ENVS2000 - Natural Resource Professional Orientation - 1cr.

OR WATS2000 - Natural Resource Professional Orientation - 1cr.
OR WILD2000 - Natural Resource Professional Orientation - 1cr.

- GEOG1000 - Physical Geography (BPS) - 3cr.
- GEOG1005 - Physical Geography Lab - 1cr.
- GEOG1300 - World Geography: Human and Environmental Dynamics (BSS) - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WILD2800 - Introduction to Geographic Information Sciences - 4cr.
- ENVS3500 - Environmental Data Science (QI) - 3cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- GEOG3800 - Geospatial Data Visualization - 3cr.
- GEOG4210 - Geography of Utah - 3cr.
- PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT1080 - Foundations of Data Science (QL) - 3cr.
- BIOL2220 - General Ecology - 3cr.
  OR WATS2220 - General Ecology - 3cr.
  OR WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

Human-Environment Geography Emphasis Core (9 credits)

Earn at least 9 credits from the following:

- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
- GEOG2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- GEOG3200 - Principles of Remote Sensing - 3cr.
- GEOG4120 - Environment and Development in Latin America (CI) - 3cr.
- GEOG5400 - Natural Hazards and Society - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- HIST3950 - Environmental History (DHA/CI) - 3cr.

Degree Electives

Complete 21 credits chosen from the following list. Other courses not listed here may also be approved upon review.

Earn at least 21 credits from the following:

- ANTH2010 - Peoples of the Contemporary World (BSS) - 3cr.
- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- CMST4260 - Environmental Communication - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.
- ENVS3320 - Archaeology of Climate Change (DSS) - 3cr.
- ENVS3600 - Living with Wildlife (DSC) - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
- ENVS4030 - Building Community Environmental Resilience - 3cr.
- ENVS4200 - Sustainability Metrics - 3cr.
- ENVS4250 - Advanced Internship/Co-op - 1cr.
- ENVS4700 - Communicating Sustainability (CI) - 3cr.
- ENVS4980 - Environment and Society Departmental Colloquium - 1cr.
- ENVS5000 - Environmental Nonprofit and Volunteer Management - 3cr.
- ENVS5020 - Human Dimensions of Fire Management - 3cr.
- ENVS5100 - Introduction to Modeling Human-Environment Systems - 3cr.
- ENVS5200 - Anthropological Perspectives on Conservation - 3cr.
- ENVS5350 - Ecological Economics - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- ENVS5750 - Global Change Ecology - 3cr.
- ENVS5800 - Environment and Society Departmental Colloquium - 1cr.
- GEO3100 - Natural Disasters (DSC) - 3cr.
- GEOG1400 - Human Geography (BSS) - 3cr.
- GEOG2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- GEOG3200 - Principles of Remote Sensing - 3cr.
- GEOG3700 - Python Programming for GIS - 3cr.
- GEOG4120 - Environment and Development in Latin America (CI) - 3cr.
- GEOG4900 - GIS Individual Projects - 1cr.
- GEOG4910 - Geographic Information Science Portfolio - 1cr.
- GEOG4920 - GIS Internship - 1cr.
- GEOG5400 - Natural Hazards and Society - 3cr.
- GEOG5300 - Geospatial Analysis with R - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- GEOG5805 - Introduction to Geospatial Artificial Intelligence: The Remote Sensing and GeoAI Frontier - 3cr.
- GEOG5815 - Insights from Above: Processing and Analyzing Drone Data - 1cr.

Depth Requirements

In addition to two CI courses, and one QI course, complete at least two credits in approved 3000-level or above courses from each of the following two categories:

Complete at least 1 course in the following course sets:
- Depth Humanities and Creative Arts (DHA) Course
- Depth Life and Physical Sciences (DSC) Course

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative
- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Program Learning Outcomes

Program Learning Outcomes

Upon completing their program, students will be able to:

- Demonstrate proficiency in application of basic geographic terminology, principles, and concepts
- Explain the diversity and interdependence of regions, places and locations
- Interpret connections between the natural world and human society
- Draw knowledge, understanding and a diversity of approaches from other disciplines to synthesize them in a geographical context
- Apply geographic information systems (GIS) to the analysis of geographic data and spatial relationships

- Apply and interpret appropriate basic statistical and other quantitative analyses for geographic data, including spatially explicit data
- Communicate geographical ideas and information effectively and fluently by written, oral and visual means

Master of Human Resources - MHR

Program Overview

College
Jon M. Huntsman School of Business

Department
Management

Program Level
Graduate

About this Degree

The On-Campus and Online Master of Human Resources (MHR) programs prepare students to take strategic roles assisting organizations in attracting, retaining, developing, and mobilizing talent at all levels. Students receive training in a variety of subjects, including talent acquisition and retention, leadership development, compensation and benefits, organizational effectiveness, employment law, HR analytics, project management, negotiation, and strategy. Students in the three-semester On-Campus program also complete a three-month internship and an international experience and may complete an MBA, MDATA or MMIS degree in one additional semester. For working professionals, the Online program can be completed in three, four or six semesters. It is delivered using a blend of live, technology enhanced delivery and online instruction.

Admission Requirements for this Program

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Requirements for On-Campus Program: https://huntsman.usu.edu/mhr/campus/apply

Requirements for Online Program: https://huntsman.usu.edu/mhr/professional/apply

Students must also complete the following business acumen: Corporate Finance, Financial Accounting, Fundamentals of Martketing or their equivalents and Excel.

Program Requirements

Total Credits Required In Program Coursework
36-38

Total Credits Required To Earn This Credential
36-38

Simple Requisites

Program Requirements

Course Number Acceptability

The Program of Study for a master's degree or a doctoral degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 6000.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

USU Residency

The On-Campus program's designation as a Western Regional Graduate Program (WRGP) means that residents of Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming are eligible for in-state tuition.

Approval of the Program of Study is required for master's students by the School of Graduate Studies.

A course grade lower than a C does not meet the graduation requirements. In such circumstances, the student will need to repeat the course at Utah State or complete an equivalent course at an approved university and achieve a grade of C or higher. Students must maintain an overall grade point average of 3.0 to be eligible for graduation. Students who fail to do so will be placed on academic probation and will receive a letter from the School of Graduate Studies. Failure to maintain a GPA of 3.0 for two consecutive semesters may result in termination from the program and dismissal from the University. In the case of termination, reapplication is required to regain matriculation.

Additional information about the Masters of Human Resources degree may be obtained by contacting the Department of Management or visiting http://huntsman.usu.edu/MHR/.

Heating, Ventilation, Air Conditioning, and Refrigeration Technician - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

Federal Gainful Employment Information

This program prepares students for an interesting and profitable career as an HVACR Technician. Technicians will install, service and repair equipment in a wide range of applications including residential, commercial, institutional, and industrial settings. This program provides participants with the opportunity to prepare for a successful career, anywhere in the world, and acquire the knowledge and skills that will qualify them for employment opportunities with incomes higher than the typical U.S. household. Additionally, this industry has proven to be resistant to economic downturns. With increasing energy costs and indoor air quality expectations, employment opportunities and earnings are on the rise.

Technical Education Required Courses

Complete ALL of the following Courses:

- TEAC1010 - Introduction to Air Conditioning, Heating, and Refrigeration - 3cr.
- TEAC1100 - Heating, Ventilation, Air Conditioning, Refrigeration (HVACR) Electrical Essentials - 3cr.
- TEAC1120 - Heating Systems - 3cr.
- TEAC1140 - Basic Refrigeration Systems - 3cr.
- TEAC1160 - Basic Installation Skills - 3cr.
- TEAC1500 - Carbon Steel Piping Practices and Refrigerant Certification - 3cr.
- TEAC1510 - Air Distribution Systems - 3cr.

Program Learning Outcomes

Program Learning Outcomes

- Demonstrate safe work practices during all aspects of training.
- Demonstrate an understanding of electricity as it applies to air conditioning, heating, and refrigeration systems.
- Demonstrate the application of refrigeration theory as it applies to servicing air conditioning, heat pump and refrigeration systems.
- Prepare for the Environmental Protection Agency Section 608 Refrigerant Handling Certification.
- Prepare for the Rocky Mountain Gas Association Natural Gas Technician Certification.
- Demonstrate a variety of methods to assemble pipe and tubing.
- Demonstrate the ability to successfully diagnose electrical and mechanical problems with air conditioning, refrigeration, furnace, and boiler systems.
- Demonstrate the ability to communicate professionally both verbally and in writing.

Health, Wellness, and Equity - Certificate

Program Overview

College
College of Education & Human Services

Department
Special Education & Rehab Counseling

Program Level
Undergraduate

About this Degree

This cross-disciplinary certificate equips students and professionals to design and deliver impactful health and wellness programs, identify and address community needs, address health disparities, and promote healthy lifestyles and environments. Students earning this certificate will benefit from faculty expertise in the departments of Kinesiology and Health Sciences, Special Education and Rehabilitation, Human Development and Family Studies, and Psychology. Please contact laura.holley@usu.edu for more information.

Interior Architecture and Design - BIAD

Program Overview

College
College of Arts & Sciences

Department
Art and Design

Program Level
Undergraduate

About this Degree

The Interior Architecture and Design program at Utah State University is accredited by the Council for Interior Design Accreditation (CIDA), the first in the state to gain this recognition. It has a solid reputation for winning national and international design competitions. The Bachelor's of Interior Architecture and Design degree (BIAD) is a four-year degree and students complete 120 semester credits. In this highly competitive technical program students must pass a first-year portfolio review to gain admission and complete a second-year review to continue in the program. A minimum six-week internship is required during the summer of the third year, and students have the opportunity to pass the LEED Green Associate exam, before graduating with a Bachelor of Interior Architecture and Design degree. Our faculty are experts at preparing interior designers for professional success.

Students are provided with numerous experiences to help them acquire and hone their design skills, and each year we bring internationally renowned designers and architects to campus to work with our students. National and international study opportunities for significant design venues and historical sites are also provided. Students are active in professional associations including ASID, IIDA, and USGBC. Students may also desire to continue their studies in architecture and apply for a graduate program that best fits their goals. Our graduates enter the job market with real-world experience, go on to successful careers, and become leaders in the design profession.

- For more information about Interior Architecture and Design, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the fulfillment of the Quantitative Literacy (QL) requirement.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.75 GPA.

Program Requirements

Total Credits Required In Program Coursework
67

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

The BIAD is a professional degree requiring above-average accomplishment in interior architecture and design. Only students demonstrating considerable promise will be accepted for this more demanding professional degree program. This degree requires 83 semester credits in Art, Art History, Interior Architecture & Design, and Marketing courses, leaving 34 credits to fulfill all other General Education and University Studies requirements.

A cumulative GPA of 2.75 is required for the BIAD degree. A grade of B- or better is required in all art (ART), art history (ARTH), interior architecture and design (IAD), and MSLE 3500 classes. Courses may not be taken on a pass/fail basis, except ART2700 FINE ART SEMINAR,

- For most students, courses taken for the major will fulfill one of the Communications Intensive (CI) requirement.
- One major course having a QI designation will fulfill the Quantitative Intensive (QI) requirement.

Major Requirements (67 credits)

Type
Completion Requirement

Major Requirements

Complete ALL of the following Courses:

- IAD1700 - Seminar Series in Interior Architecture and Design - 1cr.
- IAD1780 - History of Architecture, Interiors, and Furnishings II - 3cr.
- IAD1790 - Foundations in Interior Architecture and Design - 3cr.
- IAD2710 - Architectural Graphics I - 3cr.
- IAD2720 - Architectural Graphics II - 3cr.
- IAD2730 - Space Planning and Human Factors - 3cr.
- IAD2750 - Computer Aided Drafting and Design I - 3cr.
- IAD2760 - Computer Aided Drafting and Design II - 3cr.
- IAD2770 - History of Architecture, Interiors, and Furnishings I - 3cr.
- IAD2790 - Environmental Design for Interiors - 3cr.
- IAD3710 - Pre-Internship in Interior Architecture and Design - 1cr.
- IAD3730 - Interior Materials and Construction (QI) - 3cr.
- IAD3740 - Visual Communication in Interior Architecture and Design - 3cr.
- IAD3760 - Commercial Design Studio - 3cr.
- IAD3770 - Residential Design Studio - 3cr.
- IAD3790 - Architectural Systems - 3cr.
- IAD4710 - Internship in Interior Architecture and Design - 3cr.
- IAD4740 - Business and Professional Practices in Interior Architecture and Design (CI) - 3cr.
- IAD4750 - Senior Design Studio I - 3cr.
- IAD4760 - Senior Design Studio II - 3cr.
- IAD4770 - Senior Exhibit - 1cr.
- IAD4790 - Building Information Modeling in Interior Architecture and Design - 3cr.

Other Requirements (16 credits)

Complete ALL of the following Courses:

- ART1020 - Drawing I (BCA) - 3cr.
- ART1130 - Three-Dimensional Design - 3cr.
- ART2700 - Fine Art Seminar - 0.5cr.

- ARTH2720 - Survey of Western Art: Renaissance to Post-Modern (BHU) - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

Graduates of the Interior Architecture and Design program may become a certified commercial interior designer in the state of Utah through the Division of Occupational and Professional Licensing (see dopl.utah.gov/). In order to be certified as an interior designer in Utah, applicants must pass all sections of the NCIDQ Examination developed by the Council for Interior Design Qualification (CIDQ) (see cidq.org/).

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Information and Computer Technology - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Information and Computer Technology (ICT) Certificate at Utah State University is a 15-credit, fully online program designed to produce the architects of modern enterprise infrastructure. This program delivers advanced expertise in **cloud computing, network administration, database management, and systems automation.**

While ideal for graduates of Utah's technical college IT programs, this certificate is open to anyone looking to pivot into tech. Students entering the field for the first time will be guided by USU advisors to complete the required prerequisites before beginning advanced coursework.

Designed with flexibility at its core, the ICT certificate **can be stacked directly into the Bachelor of Science in Technology Systems (TESY).** This ensures that your specialized technical training counts toward your four-year degree, eliminating redundant coursework and accelerating your career path.

Program Requirements

Information and Computer Technology - Certificate Course Requirements

Type
Completion Requirement

Required courses (15 credits)

Complete ALL of the following Courses:

- TESY4730 - Cloud Computing Architecture - 3cr.
- TESY4750 - Network Administration - 3cr.
- TESY4760 - Information Technology Management - 3cr.
- TESY4770 - Database Administration - 3cr.
- TESY4850 - Scripting for IT and Cybersecurity - 3cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

Students can architect, deploy, and manage cloud-based systems, demonstrating proficiency in cloud computing concepts, services, and best practices.

Students will demonstrate knowledge of network protocols and data.

Students will demonstrate knowledge of ITIL service management processes.

Students will design, implement, and maintain database systems, demonstrating proficiency in database administration tasks, performance tuning, and data security measures.

Students will demonstrate the ability to write scripts for cybersecurity purposes.

International Business - Institutional Certificate of Proficiency

Program Overview

College
Jon M. Huntsman School of Business

Department
Marketing and Strategy

Program Level
Undergraduate

About this Degree

The International Business Institutional Certificate of Proficiency (IBCP) provides an opportunity for all Utah State University students to receive credentialing indicating the acquisition and development of skills in international business. This is intended to complement any major and serve as a signal to potential employers of competency and understanding of factors that affect competing in the international arena. Earning the IBCP requires the completion of three courses and an academic international experience.

Program Requirements

Total Credits Required In Program Coursework
9

Total Credits Required To Earn This Credential
9

Simple Requisites

Program Requirements

Section 1

Type
Completion Requirement

Students Must Complete This Required Course:

This course counts towards the elective course requirement for all Huntsman Business School major requirements. It also counts towards the Depth Social Science (DSS) Requirement for the University Studies (General Education) requirements.

Complete ALL of the following Courses:

- MSLE3820 - International Business (DSS) - 3cr.

Section 2

Type
Completion Requirement

(2) Students Must Complete One Course From The Following List:

Note some courses my have prerequisite requirements

Complete at least 1 of the following courses:

- ECON3400 - International Economics for Business - 3cr.
- FIN4300 - International Finance - 3cr.
- MGT3830 - International Law - 2cr.
- MGT4790 - Managing Global Value Chains - 2cr.
- MSLE4050 - International Marketing - 3cr.

Section 3

Type
Completion Requirement

(3) Students Must Complete One Course From The Following List:

Students must complete an additional course from the (2) menu or the following menu. Courses outside the HSB from partner departments are selected and approved by both the HSB and the respective department. There is also an "as approved" option for students that can present a relevant globally focused course for consideration to meet this requirement. Examples of courses outside the HSB that qualify to complete the third course requirement are below. Many of these courses also count towards certain General Education requirements.

Complete at least 1 of the following courses:

- CHIN3510 - Chinese Business Presentations - 3cr.
- CHIN3520 - Chinese Business Strategies - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.
- CMST3730 - Culture and Global Intervention (DHA) - 3cr.
- CMST4270 - Communication, Culture, and Power - 3cr.
- FREN3510 - Business French (CI) - 3cr.
- GEOG1300 - World Geography: Human and Environmental Dynamics (BSS) - 3cr.
- GERM3510 - Business German (CI) - 3cr.
- HIST1510 - The Modern World (BHU) - 3cr.
- POLS3200 - The Politics of Development (CI/DSS) - 3cr.
- POLS4410 - International Negotiations - 3cr.
- PORT3510 - Business Portuguese - 3cr.
- RELS1010 - Introduction to Religious Studies (BHU) - 3cr.
- RELS1070 - Religion, Violence, and Peace (BHU) - 3cr.
- SOC2650 - Globalization and International Development (BSS) - 3cr.
- SPAN3510 - Business Spanish - 3cr.

Section 4

Type
Completion Requirement

(4) International Academic Experience Requirement

Students must complete an international academic experience. These include Huntsman's Global Learning Experiences (including a Huntsman Scholar Experience), SEED Experience (Small Enterprise Education and Development), a full study abroad, a service learning, or other relevant international academic experiences offered at USU or "as approved". This requirement is not required to have been completed through the Huntsman School of Business. A list of approved experiences will be developed and students completing one of these will automatically satisfy this requirement. There is also an "as approved" option for students who can show the completion of a relevant international academic experience/courses that would meet the criteria of providing adequate global perspective and competency. The general criterion is that this experience last at least one week. It would be preferable to have the length requirement be longer, but many USU trips are offered over spring break and many students, such as athletes, may have limited opportunities to pursue longer experiences.

Instruments and Controls (for Powerplant) - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

Federal Gainful Employment Information

What if a student could gain the skills needed to work with advanced instrumentation and control systems? So that they're prepared for the demands of maintenance technician roles in industries like power generation, manufacturing, and automation. For example, students will train in accordance with industry standards set by Power Plant Unions, learning to install, maintain, and troubleshoot critical systems. This program is designed with industry needs in mind, ensuring they graduate with the expertise and hands-on experience employers are looking for.

- ELET2120 - Micro Systems Lab - 2cr.

Elective and Industry Credit

Complete ALL of the following Courses:

- ELET2977 - Cooperative Education - 1cr.
- ELET2988 - Special Problems - 1cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

- Install, maintain, and troubleshoot industrial instrumentation and control systems used in power generation and automated environments.
- Apply industry-standard procedures and testing methods aligned with Power Plant Union training expectations.
- Interpret and work with advanced measurement, monitoring, and control technologies essential to modern industrial operations.
- Demonstrate hands-on competency with electrical, mechanical, and automated control equipment used in manufacturing, powerplants, and related industries.
- Practice safe, reliable maintenance techniques that meet employer and industry requirements for critical system operations.

Intercultural Communication Competence - Certificate

Program Overview

College
College of Arts & Sciences

Department
Communication & Media

Program Level
Undergraduate

About this Degree

The Intercultural Communication Competence Certificate provides students with practical skills for communicating, engaging, adapting, and fitting within a wide range of intercultural contexts. The certificate offers students, from a variety of colleges and majors, flexible pathways to obtaining the foundations of intercultural competence: intercultural knowledge (knowledge of self and others), skills (communicating, interpreting, relating, interacting, and discovering), and attitudes (valuing others, beliefs, behaviors and relativizing oneself). Together, these learning outcomes help students to become more effective intercultural communicators and to contribute accordingly in their personal and professional lives.

Program Learning Outcomes

Program Learning Outcomes

Utah State University is committed to excellence, access, and inclusion. The certificate will be available to all USU students and will equip students from all academic and professional foci with the skills necessary to work effectively in multicultural environments. The skills will be paramount in their pursuit of excellence in their professional and personal lives.

Intersectional Gender Studies - Minor

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

The Intersectional Gender Studies (IGS) Minor offers students breadth and depth training in the interdisciplinary field of gender studies. This program will prepare students to think critically about social inequality at the intersection of race, ethnicity, social class, gender identity and expression and sexual identity. Students completing the minor will have the opportunity to take courses across a range of disciplines including anthropology, English, history, sociology, political science, psychology, education and biology.

Program Requirements

Total Credits Required In Program Coursework
18

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

To complete the undergraduate minor, students must complete 18 credits of coursework, including three required core courses and one course from three of the four thematic clusters: (1) *Race, Ethnicity & Indigenous Studies*; (2) *Gender, Sexuality & the Body*; (3) *Global and Transnational Issues;* and (4) *Science, Technology and the Environment*. Courses within each cluster are drawn from a range of disciplines including history, religious studies, sociology, political science and environmental studies.

The minor is available to all majors. A grade of C is required for all courses taken to meet the requirements of the minor. To graduate with an IGS minor, students must have a 2.5 GPA.

For more information regarding intersectional gender studies, please visit https://www.usu.edu/intersections/.

Required Courses

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- SOC1030 - Introduction to Gender & Sexuality Studies (BSS) - 3cr.
- SOC3020 - Inclusive Leadership & Community Engagement (CI) - 3cr.
- SOC3910 - Theories of Gender and Sexuality - 3cr.

Elective Courses

Type
Completion Requirement

Thematic Clusters

Students must select one course from three of the four thematic clusters. Courses listed in multiple thematic clusters may only be used once to satisfy minor requirements.

Elective Cluster #1: Race, Ethnicity and Indigenous Studies (3 credits)

Complete ANY of the following Courses:

- ANTH3110 - North American Indian Cultures (DSS) - 3cr.
- ANTH3200 - Perspectives on Race (DSS/CI) - 3cr.
- ANTH5110 - Southwest Indian Cultures, Past and Present (DSS) - 3cr.
- ARTH3270 - Native North American Art (CI) - 3cr.
- ARTH3840 - Race and Visual Culture (CI) - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.
- ELED3000 - Historical, Social, and Cultural Foundations of Education (CI) - 3cr.
- ENGL3610 - Multicultural American Literature - 3cr.
- ENGL3620 - Native American Studies - 3cr.
- ENGL4370 - Native American Literature - 3cr.
- ENGL4375 - U.S. Latinx Literature - 3cr.
- ENGL4380 - African American Literature - 3cr.
- ENGL4520 - Teaching Literacy in English Language Arts Classrooms - 2cr.
- ENGL5330 - Race and Ethnicity in Literature (CI) - 3cr.
- FILM3300 - The African American Cinematic Experience (CI) - 3cr.
- HEP5000 - Health Trends Across Communities (CI) - 3cr.
- HIST3615 - Latinx History - 3cr.
- HIST3630 - History of Modern Latin America - 3cr.
- HIST3670 - Slavery in the Atlantic World (CI) - 3cr.
- HIST3750 - Civil War and Reconstruction - 3cr.
- HIST3910 - Health, Disease, and Medicine in North America (DHA) - 3cr.
- HIST4630 - History of the Southwest Borderlands (DHA) - 3cr.
- HIST4710 - American Indian History - 3cr.
- HIST4711 - Northern Ute History (DHA) - 3cr.
- HIST4720 - The Civil Rights Movement (DHA/CI) - 3cr.
- HIST4730 - History of Black America (CI) - 3cr.
- MUSC3020 - History of Jazz (DHA) - 3cr.
- POLS4220 - Ethnic Conflict and Cooperation (CI/DSS) - 3cr.
- PSY4240 - Multicultural Psychology (DSS) - 3cr.
- PSY4940 - Indigenous Community Engaged Learning - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SOC3340 - Activism, Protest, and Social Movements (DSS) - 3cr.
- SOC3650 - Sociology of Education - 3cr.
- SOC4350 - People, Power, and the Political - 3cr.
- SOC4410 - Race and Crime (CI) - 3cr.
- SPAN3300 - Introduction to Hispanic Literature and Literary Analysis - 3cr.
- SPAN3560 - Introduction to U.S. Latino/a Culture - 3cr.
- SPAN3570 - Hispanic American Culture and Civilization (DHA) - 3cr.
- SPAN3620 - Survey of Hispanic American Literature I (DHA) - 3cr.
- SPAN3630 - Survey of Hispanic American Literature II (DHA) - 3cr.
- SPAN3640 - Introduction to U.S. Latino/a Literature - 3cr.

Elective Cluster #2: Gender, Sexuality and the Body (3 credits)

Complete ANY of the following Courses:

- ANTH3140 - Anthropology of Sex and Gender (DSS) - 3cr.
- ANTH3200 - Perspectives on Race (DSS/CI) - 3cr.
- ANTH3225 - Sex, Evolution, and Health (DSC) - 3cr.
- ARTH4710 - Feminist Theory and Practice in the Visual Arts (CI) - 3cr.

- CMST3160 - Gender Communication - 3cr.
- ENGL5320 - Gender and Sexuality in Literature (CI) - 3cr.
- FCSE3080 - Fashion Studies and Society (DHA) - 3cr.
- HDFS3110 - Human Sexuality - 3cr.
- HIST4260 - Witches, Workers, & Wives: Gender and Family in Early Modern Europe and America (DHA) - 3cr.
- JCOM4410 - Gender and the Mass Media - 3cr.
- KIN4910 - Methods of Teaching Health - 3cr.
- PHIL3820 - Theories of Sex and Gender (DHA) - 3cr.
- PSY4230 - Psychology of Gender (DSS) - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SOC2370 - Sociology of Gender (BSS) - 3cr.
- SOC3040 - The History of Sexuality - 3cr.
- SOC3650 - Sociology of Education - 3cr.
- SOC4350 - People, Power, and the Political - 3cr.
- SOC5420 - Gender, Sexuality and Social Inequality - 3cr.
- SPED4300 - What is Normal?: Introduction to Disability Studies - 3cr.
- SPED5500 - Interdisciplinary Disability Awareness and Community Engaged Learning - 3cr.
- THEA3570 - Historic Clothing (DHA) - 3cr.

Elective Cluster #3: Global and Transnational Issues (3 credits)

Complete ANY of the following Courses:

- ANTH3130 - Peoples of Latin America (CI) - 3cr.
- ARTH4520 - The Visual Cultures of Empire (CI) - 3cr.
- CMST4330 - Advanced Perspectives in Global Communication (CI) - 3cr.
- ENGL3385 - Postcolonial World Literature - 3cr.
- GEOG5120 - Environment and Development in Latin America (CI) - 3cr.
- HIST3020 - Introduction to Hinduism (DHA) - 3cr.
- HIST3340 - Holocaust History and Memory (DHA) - 3cr.
- HIST3630 - History of Modern Latin America - 3cr.
- HIST3670 - Slavery in the Atlantic World (CI) - 3cr.
- HIST4540 - Gender, Violence, and Non-violence - 3cr.
- HIST4660 - Work and Migration in North American History (DHA) - 3cr.
- POLS4270 - The Politics of Global Inequality - 3cr.
- PORT3570 - Brazilian Culture and Civilization (DHA) - 3cr.
- RELS3165 - Bridging Religious Difference in Theory and Practice: an Introduction to Interfaith Leadership - 3cr.
- RELS3420 - Gods and Goddesses of India - 3cr.
- SOC2650 - Globalization and International Development (BSS) - 3cr.
- SOC5270 - Global Migration - 3cr.

Elective Cluster #4: Science, Technology and the Environment (3 credits)

Complete ANY of the following Courses:

- CMST4260 - Environmental Communication - 3cr.
- GEOG5120 - Environment and Development in Latin America (CI) - 3cr.
- ENGR1940 - Women in Engineering Seminar - 1cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
- TCR4220 - Technology and Activism - 3cr.
- TCR4230 - Project Management - 3cr.

Industrial Mechanics/Maintenance - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

What if a student could master the hands-on skills needed to keep power plants, factories, and industrial systems running—so that they graduate ready to step into a high-paying, in-demand career?

For example, in the Industrial Mechanics/Maintenance program, students train on real equipment, learning to install, repair, and maintain complex machinery. From hydraulics and pneumatics to welding and electrical systems, they'll gain the expertise industries rely on.

And that's not all—this program prepares students to take their Journeyman's test in Industrial Maintenance, giving them a competitive edge for jobs in power plants, manufacturing, mining, and beyond. Employers are looking for skilled technicians—so why wait to get started?

Industrial Mechanics Required Courses

Type
Completion Requirement

Welding and Related Subjects

Students must complete 18 credits in courses with a TEWT or WELD prefix. The following are possible courses, but students may talk to the program advisor regarding additional options.

Complete ALL of the following Courses:

- WELD1100 - Shielded Metal Arc Welding (SMAW) - 5cr.
  OR TEWT1111 - Shielded Metal Arc Welding (SMAW) I - 2cr.
- WELD1120 - Beginning Gas Metal Arc Welding (GMAW) and Flux Cored Arc Welding (FCAW) - 5cr.
  OR TEWT1340 - Gas Metal Arc Welding (GMAW) and Flux-Cored Arc Welding (FCAW) Theory - 2cr.
- WELD1150 - Beginning Gas Tungsten Arc Welding (GTAW) - 5cr.
  OR TEWT1211 - Gas Tungsten Arc Welding (GTAW) I - 2cr.
- WELD2400 - Print Reading for Welders - 3cr.

Machine Shop and Related Subjects

Complete ALL of the following Courses:

- TEMT1000 - Manufacturing Fundamentals - 3cr.
- TEMT1200 - Lathe Concepts - 3cr.
- TEMT1100 - Mill Concepts - 3cr.
- TEMT2000 - Process Control - 3cr.
- TEMT1005 - Machining for Manufacturing Trades - 3cr.
- MACH2988 - Special Problems - 1cr.
- WELD2600 - Metallurgy - 3cr.
  OR TEWT1080 - Welding Metallurgy - 3cr.

Industrial Mechanics

Students must take 6 credits of courses with the prefix of ELET and TEEL. Students should consult the program advisor regarding which courses would fit best with the student's goals.

Complete ALL of the following Courses:

- ELET2200 - Industrial Mechanics II - 3cr.
- TEAM1040 - Industrial Mechanics - 3cr.

Technical Mathematics or Equivalent

Complete ALL of the following Courses:

- ELET1110 - Technical Mathematics - 3cr.
  OR MATH1050 - College Algebra (QL) - 4cr.
- MATH1060 - Trigonometry - 2cr.
- MATH1030 - Quantitative Reasoning (QL) - 3cr.

or higher is accepted

Program Learning Outcomes

Program Learning Outcomes

- Install, maintain, and repair industrial machinery and mechanical systems using industry-standard tools and procedures.
- Apply foundational knowledge of hydraulics and pneumatics to troubleshoot and service fluid-powered equipment.
- Perform welding and metal-fabrication tasks required in industrial maintenance settings.
- Diagnose and repair electrical and electronic systems used in industrial environments.
- Demonstrate safe working practices and professional competence aligned with industry expectations and preparation for the Industrial Maintenance Journeyman's test.

International Business - Minor

Program Overview

College
Jon M. Huntsman School of Business

Department
Marketing and Strategy

Program Level
Undergraduate

Program Requirements

Total Credits Required To Earn This Credential
13-14

Simple Requisites

Program Requirements

An International Business minor is available to Huntsman School of Business majors and non-Huntsman School of Business majors. Students are responsible for completing prerequisite courses where applicable. A minimum GPA of 2.50 is required in minor courses. An overall GPA of 2.50 is required for the minor to be awarded at graduation. Courses for the minor *may not* be taken on a pass/fail basis.

There is also a certificate in International Business offered by the University: International Business - Institutional Certificate of Proficiency

Section 1

Type
Completion Requirement

International Business Minor Required Courses (11 credits)

Complete ALL of the following Courses:

- FIN4300 - International Finance - 3cr.
- MGT4790 - Managing Global Value Chains - 2cr.
- MSLE3820 - International Business (DSS) - 3cr.
- MSLE4050 - International Marketing - 3cr.

Select one elective course (2-3 credits)

Complete ANY of the following Courses:

- ECON3500 - Introduction to International Business and Economics (DSS) - 3cr.
- MGT3830 - International Law - 2cr.

Additional Comments:
Any deviation from the program as outlined must be submitted in writing to the department head for approval, including justification for the changes.

Aggies Elevated - Integrated College and Community Studies - Certificate

Program Overview

College
College of Education & Human Services

Department
Special Education & Rehab Counseling

Program Level
Undergraduate

About this Degree

Aggies Elevated is an inclusive college program at Utah State University for young adults with intellectual disabilities. The program empowers students with intellectual disabilities to develop the skills needed for meaningful employment, full community inclusion, and independent living to their highest ability. Students work towards a *Certificate* in Integrated College and Community Studies and enjoy access to the same opportunities for academic and career exploration, growth and maturity, and increased social networks that all other college students experience.

The program is housed within the Department of Special Education and Rehabilitation Counseling in the Emma Eccles Jones College of Education and Human Services.

Aggies Elevated has specific eligibility criteria and requires a separate application for admission. For more information, visit our website here.

Inclusive Leadership - Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

A Certificate in Inclusive Leadership will prepare students to lead in an increasingly diverse and global world. This program is appropriate for students planning careers in the public, private and non-profit sectors. Students will develop grounding in inclusive leadership principles, theories and research and gain valuable communication, collaboration and community engagement skills. Completion of this interdisciplinary program will enhance the professional skills and leadership potential of students from any major.

For more information For more information regarding Inclusive Leadership, please visit www.usu.edu/intersections/.

Interfaith Leadership Certificate - Certificate

Program Overview

College	Department	Program Level
College of Arts & Sciences	School of Social Sciences	Undergraduate

About this Degree

In today's increasingly complex and religiously diverse world, there is an urgent need for interfaith cooperation, which is characterized by respect for individual religious or non-religious identities, by the capacity to create and sustain mutually inspiring relationships with people of differing faith commitments, and by mastering the vision, knowledge and skills that facilitate the ability to come together across religious differences in service to a common good. The emerging field of Interfaith Studies provides students with an appreciative knowledge of the ways that religious and non-religious commitments shape peoples' lives as well as with the vision and the necessary skills to engage with people of differing world views and faith-commitments. This 18-credit interdisciplinary certificate program has been carefully designed to build undergraduate student capacity for serving as an Interfaith Leader, regardless of the career that you may choose. This Certificate program can be combined with any major or minor and will add real value to any post-graduation employment or graduate-level studies that you seek.

The interdisciplinary nature of this certificate allows you to select from classes already being offered in religious studies, philosophy, history, anthropology, and many other majors, while adding a core set of courses that teach the theory and method. A key component of this Certificate program is the combination of classroom instruction together with opportunities to use these concepts and skills to help solve "real" world challenges through a practicum or community-based internship experience. It is intended to add value to *any* undergraduate major and it has been carefully designed to give you both the tools and the experience to share authentically, engage respectfully, and to bridge religious difference in order to serve the common good.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
18	18

Simple Requisites

Program Requirements

Program Objectives

- To help students of any major **become interfaith leaders conversant in the theory and practice** of interfaith engagement, as related to a variety of disciplines, their future career, and community, peace & justice issues.
- To teach students **transferable perspectives and skills** including appreciation for diversity, strategies of non-violent communication, ethnographic interviewing and transcription, non-judgmental observation and participation, cultural humility and cultivation of the attitudes associated with becoming a life-long learner and an engaged citizen-scholar.
- To enable students to **integrate interfaith studies into almost any major**; completion of this certificate will make graduates **more attractive on the job market**, given the need for such sensitivity in any field.
- To further the university mission of cultivating a diversity of thought and culture while serving the public through learning, discovery, and engagement.

PROGRAM STRUCTURE AND REQUIREMENTS

The Interfaith Leadership Certificate is open to all USU Undergraduates who have at least a 2.0 cumulative GPA. A grade of C or above must be obtained in each course that is counted for the certificate. Courses are divided into core courses (9 credits) and elective courses (9 credits).

A 3 credit foundations course (ANTH1090 INTERFAITH LEADERSHIP (BHU)/RELS1090 INTERFAITH LEADERSHIP (BHU)) introduces students to the field of Interfaith Studies. This course is required of all who seek to obtain the Interfaith Leadership Certificate. It is offered on-line, and it is available both Fall and Spring semesters. A second 3 credit course is chosen from introductory offerings in either Religious Studies or Anthropology (RELS1010 INTRO RELIGIOUS STUDIES (BHU) or ANTH3160 ANTH OF RELIGION (DSS)). While these courses may not be offered every semester, each of these two courses if offered at least once per year. The third required course is an Interfaith Leadership Practicum (currently ANTH5195 INTERFAITH LEADER PRACTICUM/RELS5195 INTERFAITH LEADER PRACTICUM). This course serves as a capstone experience which is supervised by the Interfaith Leadership Certificate program coordinator. Students should begin discussing this internship/practicum experience with the Program Coordinator early in their course of studies to discuss both possibilities and expectations of this capstone experience.

The three elective courses (for a total of 9 credits) are drawn from multiple course offerings organized into four categories of course offerings including Appreciative Knowledge of Religious Traditions, the History of Religious Conflict and Cooperation, Ways of Knowing, Being, and Interacting in the World and Religious Engagement Beyond the Classroom. Students may choose from any course listed in the matrix, below, to fulfill these requirements. While not required, students are strongly encouraged to choose one course (3 credits) from the category called Religious Engagement Beyond the Classroom because courses in this category have some community-based or experiential learning as one of the course requirements. Because most of these courses are required or elective courses that serve one or more undergraduate majors/minors, students may count these courses for *both* major/minor requirements and for the Interfaith Leadership Certificate as long if the requirements for their major permit this option. Exceptions to this include ANTH1090 INTERFAITH LEADERSHIP (BHU)/RELS1090 INTERFAITH LEADERSHIP (BHU) and sections of ANTH5195 INTERFAITH LEADER PRACTICUM/RELS5195 INTERFAITH LEADER PRACTICUM, which are exclusive to the Interfaith Leadership Certificate. Students are encouraged to talk with the Program Coordinator regarding any concerns or requests for clarification that may come up.

Requirements for this Certificate

1. There is no separate admissions process necessary to pursue this Certificate.
2. Students pursuing this Certificate must be matriculated as degree-seeking USU undergraduate students.
3. Transfer students from other institutions may articulate semester-based courses that align with courses offered in the Appreciative Knowledge of Religious Traditions, the History of Religious Conflict and Cooperation, or the Ways of Knowing, Being and Interacting in the World categories, with permission of the Program Coordinator.
4. Students who have taken courses that articulate with either ANTH3160 ANTH OF RELIGION (DSS) or RELS1010 INTRO RELIGIOUS STUDIES (BHU) at another institution may also articulate these courses.
5. Students must receive a C or better in any course that they intend to count towards the Interfaith Leadership Certificate program.

Academic Advisement

Upon declaring the intent to pursue the Interfaith Leadership Certificate, each student is assigned an advisor. Students are strongly encouraged to meet with their advisor at least once per semester to review their academic progress, plan their program, and discuss postgraduate opportunities. Students are

encouraged to consult with their advisor about course election, academic programs, program requirements, and any other aspect of their college experience. Questions concerning University Studies requirements should be directed to the College of CHASS Advising Center, Taggart Student Center 302, (435) 797-3883.

Interfaith Website

Students are strongly encouraged to use the USU Interfaith Initiative Home Page on the internet at: (http://interfaith.usu.edu) to obtain more detailed information about the program including requirements, detailed course descriptions, tentative course schedules for the coming year, funding opportunities, information about hands-on opportunities in the program, and information about graduate school and employment opportunities where an Interfaith Leadership Certificate will be especially useful.

Interfaith Leadership Certificate - Certificate

Type

Completion Requirement

Required Introductory Courses (6 credits)

Complete at least 2 of the following courses:

- ANTH1090 - Introduction to Interfaith Leadership (BHU) - 3cr.
  OR RELS1090 - Introduction to Interfaith Leadership (BHU) - 3cr.
- ANTH3160 - Anthropology of Religion (DSS) - 3cr.
  OR RELS1010 - Introduction to Religious Studies (BHU) - 3cr.

Structured Electives (9 credits)

Students choose three courses (9 credits) from categories listed below:

Fulfill ANY of the following requirements:

Appreciative Knowledge of Religious Traditions

The courses in this category introduce students to religious/spiritual traditions.

Complete ANY of the following Courses:

- ANTH3090 - Introduction to Shamanism: Shamanic Healing for Personal and Planetary Transformation - 3cr.
- RELS3010 - Introduction to Buddhism (DHA) - 3cr.
- RELS3020 - Introduction to Hinduism (DHA) - 3cr.
- RELS3030 - Introduction to Islam (DHA) - 3cr.
- RELS3050 - Introduction to Christianity (DHA) - 3cr.
- RELS3060 - Introduction to Judaism (DHA) - 3cr.
- RELS3080 - Mormonism and the American Religious Experience (DHA) - 3cr.
- RELS3090 - Introduction to Shamanism: Shamanic Healing for Personal and Planetary Transformation - 3cr.
- RELS3210 - Classical Mythology - 3cr.
- RELS3420 - Gods and Goddesses of India - 3cr.
- RELS3510 - Islamic Visual Cultures (CI/DHA) - 3cr.
- RELS3820 - Hindu Sacred Texts (CI) - 3cr.
- RELS4555 - Women in Buddhism - 3cr.
- RELS4560 - Women in Islam (DHA) - 3cr.
- RELS4795 - Biography, Autobiography, and Joseph Smith - 3cr.

OR

History of Religious Conflict and Cooperation

The courses in this category introduce students to historical and contemporary instances of conflict and cooperation that have religious themes at the core of these interactions.

Complete ANY of the following Courses:

- RELS2050 - The Historical Jesus in a First Century Jewish Context - 3cr.
- RELS3270 - The Crusades (DHA) - 3cr.
- RELS3430 - History of Ancient Religions - 3cr.
- RELS3470 - Religion and Politics in South Asia - 3cr.
- RELS3482 - Ancient China to 1800 (DHA) - 3cr.
- ADVS4230 - Supervised Hours in Providing Equine-Assisted Services - 3cr.
- RELS4565 - Medieval Islam (DHA) - 3cr.
- RELS4566 - Global Faces of Islam (DHA) - 3cr.
- RELS4790 - American Religious History - 3cr.

OR

Ways of Knowing, Being, and Interacting in the World

The courses in this category introduce students to epistemological and ontological assumptions of religious or non-religious worldviews that impact how adherents and non-adherents see and understand the world and one's place within it.

Complete ANY of the following Courses:

- ENGL2340 - Navajo Literature and Philosophy - 3cr.
- LING2500 - Language & Religion - 3cr.
- PHIL3710 - Philosophies of East Asia - 3cr.
- PHIL3720 - Philosophical Theology - 3cr.
- PHIL3730 - Philosophy of the New Testament - 3cr.
- PHIL3750 - Religion and Science in the Modern World - 3cr.
- PHIL4300 - Epistemology (DHA) - 3cr.
- PHIL4310 - Philosophy of Science (DHA) - 3cr.
- PHIL4320 - History of Scientific Thought - 3cr. (Inactive)
- PHIL4400 - Metaphysics - 3cr.
- PHIL4410 - Philosophy of Mind (DHA) - 3cr.
- PHIL4500 - Virtue Ethics (DHA) - 3cr.
- PHIL4530 - Ethics and Biotechnology (DSC) - 3cr.
- RELS2060 - Religion & Science: Examining a Complex History of Interaction - 3cr.
- RELS3170 - Descent and Return: Ancient Views of Hades and the Afterlife - 3cr.

OR

Religious Engagement Beyond the Classroom

Students are encouraged to choose one course (3 credits) from the elective requirement from this category. Courses in this category require students to engage in at least three assignments that take them out of the classroom and into the community.

Complete ANY of the following Courses:

- ANTH3165 - Bridging Religious Difference in Theory and Practice: an Introduction to Interfaith Leadership - 3cr.
  OR RELS3165 - Bridging Religious Difference in Theory and Practice: an Introduction to Interfaith Leadership - 3cr.
- RELS4010 - Yoga Theory - 2cr.
- SW3850 - Spirituality and Social Work - 3cr.
- SW4160 - Practice III - 3cr.

Capstone Requirement (3 credits)

Complete ALL of the following Courses:

- ANTH5195 - Interfaith Leadership Practicum Experience - 3cr.

OR RELS5195 - Interfaith Leadership Practicum Experience - 3cr.

Industrial Mathematics - MS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Mathematics & Statistics	Graduate

About this Degree

The Industrial Mathematics Program teaches students modeling, simulation, mathematical and statistical analysis for careers in industry and mathematical sciences. Students are prepared to work at a variety of government and industrial research jobs, teaching careers at community colleges as well as for entry to doctoral programs in applied mathematics or statistics. Research project topics are suggested by industrial and scientific internship partners; recent research has developed Bayesian optimization tools for use in quantitative Enzyme-Linked ImmunoSorbant Assay (ELISA) to detect bio-pathogens, used path planning algorithms to govern robotic devices in complicated environments, or developed mathematical models and dynamical systems approaches to optimize genetic amplification technology for industrial pathogen detection. Applicants are welcomed from any undergraduate technical major, including computer science, chemistry, engineering, math, physics and statistics. Undergraduate linear algebra, multivariate calculus and differential equations is prerequisite, as is computer programming experience.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (https://gradschool.usu.edu/admissions/policies). Applicants are also expected to have a GPA in math/stat coursework of at least 3.5. Applicants must submit either Official GRE scores (GRE-Q at least 70th percentile, GRE-V of at least 40th percentile) or a research portfolio, consisting of (1) a research statement of no more than 2 pages including references, and (2) (optional) supplemental materials, such as abstracts, paper summaries, of no more than 3 pages. Papers can be provided in the form of web pages, DOIs, or arXiv preprints, but not the full documents.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
36	36

Simple Requisites

Program Requirements

- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- This degree requires 36 credits of coursework. At least 24 credits must be at 6000 level or above, excluding STAT6990 and STAT7990 (Continuing Graduate Advisement) with no more than 12 credits allowed at the 5000 level. Credits below the 5000 level are not acceptable for a graduate degree.
- No more than 12 transfer credits may be used toward a graduate degree.
- Supervisory Committee Approval by the end of the second semester
- Program of Study submitted by the end of the second semester

- Appointment for examination form submitted 10 days before defense and during defense semester must be registered for credit
- Record of Examination Form
- Plan B Report/Creative Project form
- Graduation application

This is a Plan B (project/report) degree program, there are no Plan A or Plan C options:

A Plan B option requires the production and defense of a research project which can be conveyed in a technical report or journal-manuscript format. Students are required to complete 3 semester credits of thesis research (MATH6970 THESIS). Successful defense and submission of the paper/project to the library is required.

INDUSTRIAL MATHEMATICS MS – PLAN B

This degree requires 36 credits at or above the 5000 level – 30 credits in coursework, 3 credits for research (MATH6970 THESIS), and 3 credits for internship (MATH6250 GRAD INTERN/COOP) and no more than 12 credits at the 5000 level allowed. At least 15 of the coursework credits must be completed in MATH/STAT courses at the 6000 level or above (including the 3 credits of required internship). The internship could be a formal paid or unpaid summer internship at a tech company, NGO or national lab, but could also be a less formal 'imbedding' experience in another discipline requiring the student to assist with field or lab experiments and data collection. The governing notion is to be completely out of Math & Stats for at least a month, seeing another discipline from the inside and figuring out how Math & Stats could be usefully applied.

Additionally, students must complete a total of 9 graduate-level credits outside of the Department, complementing their internship and final project. A maximum of 3 of these credits may be taken at the 5000-level (i.e., one 3-credit course in another department), provided the student doesn't exceed a total of 12 credits at the 5000-level. To build a foundation in applied mathematics, students are required to take four 5000-level classes in their first year (or receive approval from their Supervisory Committee for substitutes):

Students are also required to complete a final project based on work done during an internship, either with a company or possibly with another department on campus. The project will include a technical write-up suitable to the industry/field, and presentation to the involved faculty and students in the program, following the Plan B option.

Plan B option:

Type
Completion Requirement

Plan B Requirements

A Plan B option requires the production and defense of a project. Students are required to complete 3 semester credits of thesis research (MATH6970 THESIS). Successful defense and submission of the project to the library is required. Approval of academic forms required for master's students by the School of Graduate Studies.

There are no Plan A or Plan C options for this program.

Complete ALL of the following Courses:
- MATH6970 - Thesis - 1cr.

Foundational Requirements

Type
Completion Requirement

Required Core Courses (16 credits)

Earn a minimum grade of B in the following:
- MATH5410 - Methods of Applied Mathematics - 3cr. **OR** MATH5420 - Partial Differential Equations - 3cr.
- MATH5610 - Introduction to Numerical Analysis - 3cr. **OR** MATH5620 - Numerical Algorithms for Approximate Solutions of DE - 3cr.
- MATH6250 - Graduate Internship/Cooperative Studies - 1cr.
- MATH6910 - Directed Reading and Conference - 1cr.
- MATH6970 - Thesis - 1cr.
- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.

NOTE:

1. MATH6250 GRAD INTERN/COOP - 3 credits required
2. MATH6910 DIRECTED READING - Students should take the MATH6910 DIRECTED READING - DR: Modern Research in MATH/STATS the first Fall semester.
3. MATH6970 THESIS - 3 credits required

Additional Required Core Courses (3 credits)

In addition to the above listed required courses, students must one course from either Option 1 or Option 2,

Fulfill ANY of the following requirements:

Option 1

A minimum grade of B is required.

Complete at least 1 of the following courses:
- MATH5270 - Complex Variables - 3cr.
- MATH5460 - Nonlinear Dynamics - 3cr.
- MATH5760 - Applied Stochastic Processes - 3cr.

OR

Option 2

A minimum grade of B is required.

Complete at least 1 of the following courses:
- MATH5410 - Methods of Applied Mathematics - 3cr.
- MATH5420 - Partial Differential Equations - 3cr.
- MATH5610 - Introduction to Numerical Analysis - 3cr.
- MATH5620 - Numerical Algorithms for Approximate Solutions of DE - 3cr.

Elective Credit (17 credits)

Complete the following:
- At least 8 credits of additional MATH/STAT credit approved by their supervisory committee.
- 9 credits of graduate credits outside of the MATH/STATS department approved by their supervisory committee.

Information Systems - BA, BS

Program Overview

College
Huntsman School of Business

Department
Data Analytics & Information Systems

Program Level
Undergraduate

About this Degree

Information Systems (IS) provide the technical and human infrastructure that enables companies of all shapes and sizes to compete in today's global electronic marketplace.

- For more information about Data Analytics and Information Systems, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is satisfied by the fulfillment of the QL requirement. MATH1050 COLLEGE ALGEBRA (QL) is recommended.

Admission Requirements for this Program

First-Year and Transfer Students are admitted to the Huntsman School of Business based on USU's Admission Requirements.

Current USU Students in good standing qualify for admission into a Huntsman School major.

Huntsman School Admission Details: https://huntsman.usu.edu/undergraduate/apply

Program Requirements

Total Credits Required In Program Coursework
120

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- Elective credits needed will be determined on an individual basis (a student with continuing education, AP credits, and Language credits may not require additional elective credits).
- Completing a minor is recommended to fulfill elective credits.
- ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) requires a grade of C or better to satisfy prerequisites for further courses.
- A 2.0 overall and a 2.5 major GPA is required to be recommended for graduation.
- Major requirements may *not* be taken on a pass/fail basis.

Information Systems - BA, BS Course Requirements

Type
Completion Requirement

Major Requirements (15 credits)

Students are required to complete the following courses, along with the business acumen and at least one of the emphases below.

Complete ALL of the following Courses:

- IS4250 - Data Analytics and Information Systems Internship - 1cr.
- IS5200 - Introduction to Cloud Computing - 3cr.
- DATA5300 - Database Management - 3cr.
- DATA5400 - Data Visualization with Tableau (CI) - 3cr.
- DATA5500 - Python Programming for Analytics - 3cr.

3 credits are required in IS4250 DAIS INTERNSHIP

Cybersecurity Emphasis (14-15 credits)

Fulfill ALL of the following requirements:

Required

Complete ALL of the following Courses:

- IS5800 - Networks - 3cr.
- IS5810 - Introduction to Cybersecurity - 3cr.
- IS5820 - Cybersecurity Detection, Response, and Intelligence - 3cr.
- IS5850 - Enterprise Security: Advanced Arithmancy Studies - 3cr.

AND

Electives

Choose one elective course (2-3 credits):

Complete at least 1 of the following courses:

- IS5100 - Agile Tech Design and Development - 3cr.
- DATA5510 - Advanced Python Programming for Analytics - 3cr.
- DATA5570 - Building Software With Artificial Intelligence - 3cr.
- IS5750 - JavaScript for Web Development - 2cr.
- IS5770 - Advanced Server-Side Web Application Development - 3cr.
- IS5780 - Advanced Client-Side Web Application Development - 3cr.

Data Engineering Emphasis (15 credits)

Fulfill ALL of the following requirements:

Required

Complete ALL of the following Courses:

- DATA5330 - Data Pipeline Engineering - 3cr.
- DATA5360 - Data Warehousing - 3cr.
- DATA5510 - Advanced Python Programming for Analytics - 3cr.

AND

Electives

Choose two electives (6 credits):

Complete at least 2 of the following courses:

- IS5100 - Agile Tech Design and Development - 3cr.
- DATA5310 - Advanced Database and Database Analytics - 3cr.
- DATA5570 - Building Software With Artificial Intelligence - 3cr.
- IS5700 - User Interface/User Experience Web Design - 3cr.
- IS5770 - Advanced Server-Side Web Application Development - 3cr.

Web Development Emphasis (14 credits)

Fulfill ALL of the following requirements:

Required

Complete ALL of the following Courses:

- IS5700 - User Interface/User Experience Web Design - 3cr.
- IS5750 - JavaScript for Web Development - 2cr.
- IS5770 - Advanced Server-Side Web Application Development - 3cr.
- IS5780 - Advanced Client-Side Web Application Development - 3cr.

AND

Electives

Choose one elective (3 credits):

Complete at least 1 of the following courses:

- IS5100 - Agile Tech Design and Development - 3cr.
- DATA5510 - Advanced Python Programming for Analytics - 3cr.
- DATA5570 - Building Software With Artificial Intelligence - 3cr.

Business Acumen (46-47 credits)

All acumen courses must have a minimum grade of C unless otherwise stated.

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- BUS3200 - Professional Communication with AI (CI) - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- DATA3100 - Making Decisions with Data - 3cr.
- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- MGT3700 - Operations Management - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3800 - Leadership - 2cr.
- MSLE3890 - Systems Strategy and Problem Solving - 2cr.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Information Systems: Cybersecurity Emphasis - BA, BS

Program Overview

College
Jon M. Huntsman School of Business

Department
Data Analytics & Information Systems

Program Level
Undergraduate

About this Degree
Information Systems (IS) provide the technical and human infrastructure that enables companies of all shapes and sizes to compete in today's global electronic marketplace.

- For more information about Data Analytics and Information Systems, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is satisfied by the fulfillment of the QL requirement. MATH1050 COLLEGE ALGEBRA (QL) is recommended.

Admission Requirements for this Program
First-Year and Transfer Students are admitted to the Huntsman School of Business based on USU's Admission Requirements.

Current USU Students in good standing qualify for admission into a Huntsman School major.

Huntsman School Admission Details: https://huntsman.usu.edu/undergraduate/apply.

Program Requirements

Information Systems: Cybersecurity Emphasis - BA, BS

Type
Completion Requirement

Major Requirements (15 credits)

Students are required to complete the following courses, along with the business acumen and the emphasis below.

Complete ALL of the following Courses:

- IS4250 - Data Analytics and Information Systems Internship - 1cr.
- IS5200 - Introduction to Cloud Computing - 3cr.
- DATA5300 - Database Management - 3cr.
- DATA5400 - Data Visualization with Tableau (CI) - 3cr.
- DATA5500 - Python Programming for Analytics - 3cr.

NOTE:

1. IS4250 DAIS INTERNSHIP - 3 credits required.

Cybersecurity Emphasis (14-15 credits)

Fulfill ALL of the following requirements:

Required Courses (12 credits)

Complete ALL of the following Courses:

- IS5800 - Networks - 3cr.
- IS5810 - Introduction to Cybersecurity - 3cr.
- IS5820 - Cybersecurity Detection, Response, and Intelligence - 3cr.
- IS5850 - Enterprise Security: Advanced Arithmancy Studies - 3cr.

AND

Electives (2-3 credits)

Complete at least 1 of the following courses:

- IS5100 - Agile Tech Design and Development - 3cr.
- DATA5510 - Advanced Python Programming for Analytics - 3cr.
- DATA5570 - Building Software With Artificial Intelligence - 3cr.
- IS5750 - JavaScript for Web Development - 2cr.
- IS5770 - Advanced Server-Side Web Application Development - 3cr.
- IS5780 - Advanced Client-Side Web Application Development - 3cr.
- IS5885 - Cybersecurity Certification Preparation - 2cr.
- IS5890 - Cybersecurity Competitions - 3cr.

Business Acumen (46-47 credits)

All acumen courses must have a minimum grade of C unless otherwise stated.

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- BUS3200 - Professional Communication with AI (CI) - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- DATA3100 - Making Decisions with Data - 3cr.
- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- FIN3300 - Investments - 3cr.
- MGT3350 - Legal and Ethical Environment of Business - 3cr.
- MGT3700 - Operations Management - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3800 - Leadership - 2cr.
- MSLE3890 - Systems Strategy and Problem Solving - 2cr.

NOTE:

1. ACCT2010 FINANCIAL ACCT PRINCIPLES - Accounting majors: B grade or higher.
2. FIN3200 CORPORATE FINANCE (QI) - All Finance, International Business, and Management (Wealth Management emphasis) majors: B- grade or higher.
3. MGT3700 OPERATIONS MGMT - International Business and Management: Operations and Supply Chain Management emphasis) majors: B- grade or higher required.
4. MSLE3500 FUND OF MARKETING - International Business majors: B- grade or higher; Marketing majors: B- grade or higher.

Additional Information

See the following:

- Elective credits needed will be determined on an individual basis (a student with continuing education, AP credits, and Language credits may not require additional elective credits).
- Completing a minor is recommended to fulfill elective credits.
- ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) requires a grade of C or better to satisfy prerequisites for further courses.
- A 2.0 overall and a 2.5 major GPA is required to be recommended for graduation.
- Major requirements may *not* be taken on a pass/fail basis.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Information Systems: Web Development Emphasis - BA, BS

Program Overview

College
Jon M. Huntsman School of Business

Department
Data Analytics & Information Systems

Program Level
Undergraduate

About this Degree

Information Systems (IS) provide the technical and human infrastructure that enables companies of all shapes and sizes to compete in today's global electronic marketplace.

- For more information about Data Analytics and Information Systems, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is satisfied by the fulfillment of the QL requirement. MATH1050 COLLEGE ALGEBRA (QL) is recommended.

Admission Requirements for this Program

First-Year and Transfer Students are admitted to the Huntsman School of Business based on USU's Admission Requirements.

Current USU Students in good standing qualify for admission into a Huntsman School major.

Huntsman School Admission Details: https://huntsman.usu.edu/undergraduate/apply.

Program Requirements

Information Systems: Web Development Emphasis - BA, BS

Type
Completion Requirement

Major Requirements (15 credits)

Students are required to complete the following courses, along with the business acumen and the emphasis below.

Complete ALL of the following Courses:

- IS4250 - Data Analytics and Information Systems Internship - 1cr.
- IS5200 - Introduction to Cloud Computing - 3cr.
- DATA5300 - Database Management - 3cr.
- DATA5400 - Data Visualization with Tableau (CI) - 3cr.
- DATA5500 - Python Programming for Analytics - 3cr.

NOTE:

1. IS4250 DAIS INTERNSHIP - 3 credits required.

Web Development Emphasis (14 credits)

Fulfill ALL of the following requirements:

Required Courses (11 credits)

Complete ALL of the following Courses:

- IS5700 - User Interface/User Experience Web Design - 3cr.
- IS5750 - JavaScript for Web Development - 2cr.
- IS5770 - Advanced Server-Side Web Application Development - 3cr.
- IS5780 - Advanced Client-Side Web Application Development - 3cr.

AND

Electives (3 credits)

Complete at least 1 of the following courses:

- IS5100 - Agile Tech Design and Development - 3cr.
- DATA5510 - Advanced Python Programming for Analytics - 3cr.
- DATA5570 - Building Software With Artificial Intelligence - 3cr.

Business Acumen (46-47 credits)

All acumen courses must have a minimum grade of C unless otherwise stated.

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- BUS3200 - Professional Communication with AI (CI) - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- DATA3100 - Making Decisions with Data - 3cr.
- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- FIN3300 - Investments - 3cr.
- MGT3350 - Legal and Ethical Environment of Business - 3cr.
- MGT3700 - Operations Management - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3800 - Leadership - 2cr.
- MSLE3890 - Systems Strategy and Problem Solving - 2cr.

NOTE:

1. ACCT2010 FINANCIAL ACCT PRINCIPLES - Accounting majors: B grade or higher.
2. FIN3200 CORPORATE FINANCE (QI) - All Finance, International Business, and Management (Wealth Management emphasis) majors: B- grade or higher.
3. MGT3700 OPERATIONS MGMT - International Business and Management: Operations and Supply Chain Management emphasis) majors: B- grade or higher required.
4. MSLE3500 FUND OF MARKETING - International Business majors: B- grade or higher; Marketing majors: B- grade or higher.

Additional Information

See the following:

- Elective credits needed will be determined on an individual basis (a student with continuing education, AP credits, and Language credits may not require additional elective credits).
- Completing a minor is recommended to fulfill elective credits.
- ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) requires a grade of C or better to satisfy prerequisites for further courses.
- A 2.0 overall and a 2.5 major GPA is required to be recommended for graduation.
- Major requirements may *not* be taken on a pass/fail basis.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Information Technology - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree
This program provides education and training in preparation for employment in Information Technology. Throughout the program, students apply classroom theory to computer hardware and software, mobile devices, operating systems, networking, security, cloud technology and other technologies relevant to the industry. Through a combination of simulations, hands-on labs and virtual labs, students will apply techniques for technology deployment, support, maintenance, and troubleshooting. This training can be used as a step to gain valuable industry recognized certifications which may include CompTIA A+, Network +, Security+, Cisco Certified Support Technician (CCST), Microsoft, Amazon Web Services (AWS), Linux, and more.

International Studies - BA

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree
Problems of security, development, ethnic conflict, and human rights, as well as problems relating to the environment and natural resources, are increasingly confronted at a global rather than a national level. With its theoretical models and real-world application, the study of international studies is an exciting and highly relevant interdisciplinary major. This program cultivates the development of language and intercultural skills, develops an understanding of global problems and circumstances, and expands the student's capacity to make informed judgments regarding complex international and global issues.

The department is home to diverse faculty members who all have a wide range of international experiences and who are highly committed to both teaching and research. Student have the opportunity to enhance their international education by participating in an international experience or an internship relevant to international studies.

- For more information about International Studies, see the Department of Political Science website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is Quantitative Literacy (QL) course of the student's choice.

Admission Requirements for this Program
- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.50 USU GPA and a 2.50 Overall GPA.

Program Requirements

Simple Requisites

Program Requirements

Bachelor of Arts Degree Requirement

In addition to completion of the requirements for a bachelor's degree, a Bachelor of Arts (BA) degree signifies proficiency in one or more foreign languages. Specifically, the BA requirement may be completed in one of the following ways:

- Demonstration of proficiency in one foreign language by successful completion of one course at the 2020-level or higher (or its equivalent) OR
- Demonstration of proficiency in American Sign Language by successful completion of American Sign Language IV (ASL2020 AMERICAN SIGN LANGUAGE IV) and Socio-Cultural Aspects of Deafness (ASL4780 DEAF CULTURE), and by passing an exit interview OR

- Demonstration of proficiency in two foreign languages by successful completion of the 1020 course level or higher in one language and the 2010 course level or higher in the second language (or its equivalent) OR
- Completion of an upper-division (3000-level or higher) foreign language grammar or literature course requiring the 2020 course level (or its equivalent) as a prerequisite. Conversation courses cannot be considered for satisfying this requirement.
- For non-native English-speaking students only, the following options are available:
- Successful completion of the Intensive English Language Institute (IELI) program for international students OR
- TOEFL, IELTS, other USU approved exams.

Additional Information

In addition to completing the necessary core courses listed below, students must also choose **one area option** from the four available area options. Through these options, students gain a level of expertise in their chosen area.

Each student must also complete a senior research project (3 credits). This project must fit within the area option chosen by the student. Under the direction of a faculty member, this project may be completed within the context of an existing course or may be completed independently under the guidance of the chosen faculty member.

In addition to the senior research project and the choice of one area option, students must also complete an international experience component. Students may choose a traditional study abroad experience in an accredited program, which must be approved by the international studies advisor. Students may also choose an internship. The internship may be based in a foreign country or the US, must have a clear international focus, and must be supervised by the international studies advisor. All internships must be pre-approved by the international studies advisor. Students may count a total of 3 credits earned during an internship toward completion of the major.

Minimum GPA for Graduation: 2.5, major courses; 2.0, Career

Minimum Grade Accepted: C- in major requirements (courses may not be taken on a pass/fail basis)

For detailed information about requirements for the International Studies major and minor, see the major requirement sheet, which can be obtained from the Political Science Department.

NOTE:
Students may count up to 6 credit hours toward the International Studies major that were also taken in pursuit of another major or minor.

Major Requirements (39 credits minimum)

Type
Completion Requirement

A. Core Courses (18 credits)

Complete ALL of the following Courses:

- ANTH1010 - Cultural Anthropology (BSS) - 3cr.
  OR ANTH2010 - Peoples of the Contemporary World (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
  OR SOC2650 - Globalization and International Development (BSS) - 3cr.
- GEOG1300 - World Geography: Human and Environmental Dynamics (BSS) - 3cr.
  OR POLS2430 - Contemporary Geopolitics (BSS) - 3cr.
- HIST1500 - Pre-Modern World (BHU) - 3cr.
  OR HIST1510 - The Modern World (BHU) - 3cr.
- POLS2100 - Introduction to International Relations (BSS) - 3cr.
  OR POLS2200 - Comparative Politics (BSS) - 3cr.
- POLS2500 - Introduction to International Studies (BSS) - 3cr.

B. Electives (6 credits)

Complete the following:
Students may earn these credits by taking any of the courses listed in the four area options: (1) Global Development, (2) Peoples and Nations, (3) Peace and Security, and (4) Global Environment and Natural Resources.

C. Language Requirement

Complete the following:
Students must complete the language requirements for a BA degree as described above. Students must complete the language requirement for International Studies. A level 3000 language course is required for the major language requirement. If students face difficulty in completing their language requirements with USU courses, they should meet with an academic advisor.

D. Senior Research Project (3 credits)

Complete the following:
Each student must complete a senior research project which must fit within the area option chosen by the student.

E. International Experience

Complete the following:
Students may choose a traditional study abroad experience in an accredited program, which must be approved by the international studies advisor. Students may also choose an internship. The internship may be based in a foreign country or US, must have a clear international focus and must be supervised by the international studies advisor. All internships must be pre-approved by the international studies advisor. Students may count a total of 3 credits earned during an internship toward completion of the major.

F. Area Option Requirement (12 credits)

Students choose four classes from one of the area options listed below. Students must complete courses from at least two different departments within their chosen option, for a total of 12 credits.

1. Global Development

Complete ANY of the following Courses:

- ANTH5650 - Developing Societies (DSS) - 3cr.
- ECON3500 - Introduction to International Business and Economics (DSS) - 3cr.
- ECON3520 - History of Economic Thought - 3cr.
- ECON3530 - Comparative Economic Systems (DSS)(CI) - 3cr.
- ECON5510 - International Trade Theory - 3cr.
- FIN4300 - International Finance - 3cr.
- GEOG4120 - Environment and Development in Latin America (CI) - 3cr.
- HIST3510 - Africa and the World (DHA) - 3cr.
- HIST3630 - History of Modern Latin America - 3cr.
- HIST3670 - Slavery in the Atlantic World (CI) - 3cr.
- HIST4610 - Themes and Methods in Economic History - 3cr.
- MSLE3610 - Strategic Planning for Career and Life (CI) - 2cr.
- MSLE3820 - International Business (DSS) - 3cr.
- MSLE4590 - Marketing Strategy - 3cr.
- PHIL3520 - Business Ethics (DHA) - 3cr.
- POLS3100 - Global Issues: Non-Democratic Politics - 3cr.

- POLS3200 - The Politics of Development (CI/DSS) - 3cr.
- POLS4890 - Special Topics - 1cr.
- POLS4990 - Senior Research Seminar (CI) - 3cr.
- POLS5120 - Economics of Russia and Eastern Europe, 9th Century to 21st Century - 3cr.
- POLS5210 - Comparative Political Change/Development - 3cr.
- POLS5290 - Development in Europe - 3cr.
- POLS5480 - International Trade Policy - 3cr.
- SOC2650 - Globalization and International Development (BSS) - 3cr.
- SOC3600 - Finding Community in Today's Society (DSS) - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.

NOTE:

1. POLS4890 SPECIAL TOPICS and POLS4990 SENIOR RESEARCH SEMINAR (CI) - May *only* be counted toward the major when the topic is appropriate.

2. Peoples and Nations

Complete ANY of the following Courses:

- ANTH3130 - Peoples of Latin America (CI) - 3cr.
- ANTH3160 - Anthropology of Religion (DSS) - 3cr.
- ANTH3200 - Perspectives on Race (DSS/CI) - 3cr.
- ANTH4100 - The Study of Language - 3cr.
- ANTH4130 - Introduction to Medical Anthropology (DSS) - 3cr.
- ANTH5130 - Ethnographic Field School - 3cr.
- ANTH5190 - Applied Anthropology Practicum - 1cr.
- CMST3270 - Culture and Public Discourse (DHA) - 3cr.
- ENGL4230 - Language and Culture (DSS) - 3cr.
- HIST3230 - Early Modern Europe (DHA) - 3cr.
- HIST3240 - Modern Europe - 3cr.
- HIST3280 - East Central Europe Since 1520 - 3cr.
- HIST3330 - Modern Russia and the Soviet Experiment - 3cr.
- HIST3410 - The Modern Middle East - 3cr.
- HIST3460 - Comparative Asian History (DHA) - 3cr.
- HIST3483 - Modern China 1800 to present (DHA) - 3cr.
- HIST3510 - Africa and the World (DHA) - 3cr.
- HIST3630 - History of Modern Latin America - 3cr.
- HIST3650 - Caribbean History - 3cr. (Inactive)
- HIST3660 - History of Mexico (DHA) - 3cr.
- HIST4290 - Europe and the French Revolution, 1700-1815 - 3cr.
- HIST4310 - History of Nationalism - 3cr.
- HIST4330 - Modern Germany with Special Emphasis on the Twentieth Century - 3cr. (Inactive)
- JCOM4020 - Mass Media and Society (DSS) - 3cr.
- LANG3550 - Culture of East Asia (DHA) - 3cr.
- LATS2200 - Introduction to Latin America - 3cr.
- LING4100 - The Study of Language - 3cr.
- LING4900 - Analysis of Cross-Cultural Difference - 3cr.
- PHIL3600 - Philosophy of Religion (DHA) - 3cr.
- PHIL3710 - Philosophies of East Asia - 3cr.
- POLS3210 - Western European Government and Politics (DSS) - 3cr.
- POLS3220 - Russian and East European Government and Politics (DSS) - 3cr.
- POLS3230 - Middle Eastern Government and Politics - 3cr.
- POLS3240 - African Government and Politics - 3cr.
- POLS3250 - Chinese Government and Politics (DSS) - 3cr.
- POLS3270 - Latin American Government and Politics (DSS) - 3cr.
- POLS3410 - International Human Rights System - 3cr.
- POLS4220 - Ethnic Conflict and Cooperation (CI/DSS) - 3cr.
- POLS4230 - Issues in Middle East Politics - 3cr.
- POLS4260 - Asian Government and Politics (DSS) - 3cr.
- POLS4500 - The Politics of Social Movements (DSS) - 3cr.
- POLS4890 - Special Topics - 1cr.
- POLS4990 - Senior Research Seminar (CI) - 3cr.
- POLS5270 - Latin American Politics and Development - 3cr.
- PSY4240 - Multicultural Psychology (DSS) - 3cr.
- SOC3200 - Population and Society (DSS) - 3cr.

3. Peace and Security

Complete ANY of the following Courses:

- GEOG3430 - Political Geography (CI/DSS) - 3cr.
- HIST4310 - History of Nationalism - 3cr.
- HIST4390 - European Imperialism - 3cr.
- HIST4810 - American Military History - 3cr.
- HIST4815 - World War I: A Global Conflict (DHA) - 3cr.
- HIST4820 - World War II in Europe - 3cr.
- HIST4821 - World War II in Asia (DHA) - 3cr.
- HIST4822 - The Vietnam War (DHA) - 3cr.
- JCOM4530 - Special Topics in Communication - 3cr.
- PHIL3700 - Political Philosophy (DHA) - 3cr.
- PHIL3100 - Ancient Philosophy - 3cr.
- POLS3100 - Global Issues: Non-Democratic Politics - 3cr.
- POLS3400 - United States Foreign Policy (DSS) - 3cr.
- POLS3430 - Political Geography (CI/DSS) - 3cr.
- POLS3700 - Terrorism and Counterterrorism - 3cr.
- POLS4210 - European Union Politics - 3cr.
- POLS4220 - Ethnic Conflict and Cooperation (CI/DSS) - 3cr.
- POLS4280 - Peacebuilding After War - 3cr.
- POLS4410 - International Negotiations - 3cr.
- POLS4450 - United States and Latin America (CI) - 3cr.
- POLS4460 - National Security Policy - 3cr.
- POLS4462 - The US Intelligence Community - 3cr.
- POLS4463 - Grand Strategy and International Politics - 3cr.
- POLS4464 - Why Nations Fight? International Security in the 21st Century (DSS) - 3cr.
- POLS4470 - Foreign Policy in the Pacific - 3cr.
- POLS4890 - Special Topics - 1cr.
- POLS4990 - Senior Research Seminar (CI) - 3cr.
- POLS5770 - Strategic Culture - 3cr.

4 Global Environment and Natural Resources

Complete ANY of the following Courses:

- APEC5560 - Natural Resource and Environmental Economics - 3cr.
- BIOL3100 - Bioethics (CI) - 3cr.
- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- GEOG1000 - Physical Geography (BPS) - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- GEOG4120 - Environment and Development in Latin America (CI) - 3cr.
- GEOG5400 - Natural Hazards and Society - 3cr.
- HIST3530 - African Environmental History (DHA) - 3cr.
- HIST3950 - Environmental History (DHA/CI) - 3cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.
- POLS3100 - Global Issues: Non-Democratic Politics - 3cr.
- POLS4820 - Natural Resources and Environmental Policy: Political Economy of Environmental Quality (DSS) - 3cr.

- POLS4890 - Special Topics - 1cr.
- POLS4990 - Senior Research Seminar (CI) - 3cr.
- POLS5200 - Global Environment - 3cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
- SOC5640 - Managing Community Conflict (CI) - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

Irrigation Engineering - MS

Program Overview

College
College of Engineering

Department
Civil & Environmental Engineering

Program Level
Graduate

Admission Requirements for this Program
Students must have a BS from an ABET-accredited engineering program in the U.S. or its equivalent in their home countries or must take the make-up coursework required for a BS in engineering at USU. It is assumed that the bachelor's degree mathematical training includes courses in calculus, linear analysis, and differential equations.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Three MS options are available: research (Plan A), technical practice (Plan B), and training/extension (Plan C).

Research Option
Students wishing to gain experience in research may select the research option, particularly if they have a long-term goal of PhD study. The minimum requirements for this option are 30 credits, of which 8 may be awarded for the thesis.

Technical Practice Option
Some students may not be interested in pursuing a PhD degree or in doing the research necessary for a thesis. For such students, the technical practice (Plan B) option is offered. The requirements for the degree are similar to those for the research option, with the exception of the thesis. The 8 thesis credits are replaced by 4 credits for a significant engineering report or design project and 4 additional credits of coursework. The minimum course requirement for the technical practice option is 30 approved graduate credits.

Training/Extension Option
Students expecting to terminate their graduate studies at the MS level and wishing to develop an emphasis in the training and/or extension fields of irrigation engineering, may choose the training/extension option (Plan C). The same engineering BS or equivalent requirements noted under the Plan A option apply. The minimum requirements for this degree are 30 approved graduate credits. No report or thesis is required. The degree requirements under this option can be met by taking courses.

Irrigation Engineering - PhD

Program Overview

College
College of Engineering

Department
Civil & Environmental Engineering

Program Level
Graduate

Admission Requirements for this Program

Students who have completed an MS with a thesis (Plan A or equivalent) in an engineering discipline are eligible to apply for admission to a PhD program. Admission will be based on the students' prior academic records and, if they are graduates of USU, the recommendations of their graduate committees. It is assumed that students are adequately prepared in mathematics and engineering design courses to compete at the PhD level. If such is not the case, a program of courses to make up the deficiency will be required.

Program Requirements

Total Credits Required In Program Coursework
42

Total Credits Required To Earn This Credential
42

Simple Requisites

Program Requirements

In addition to any prescribed review courses and seminars, the minimum requirements for a PhD program include 42 credits of approved graduate courses beyond a master's degree, satisfactory completion of comprehensive examinations or submission of an approved manuscript to a refereed archival journal, and the writing of a dissertation based on an original research project.

The degree requirements beyond a master's degree can be met by taking courses in engineering design, synthesis, and systems; mathematics; and related sciences.

Research

USU has attained worldwide prestige through the successful professional contributions of its graduates during a period of 80 years. The CEE Department is substantially involved in overseas research and training activities, for example in the Dominican Republic, Armenia, and Tatarstan, concerned with managing irrigation systems, on-farm water management, water resource development, and soil assimilation and recycling of industrial residues. Specific research projects in the irrigation and drainage engineering option include hydraulics of surface irrigation, consumptive use, return flow quantity and quality of irrigation waters, transient flow in tile drainage systems, drain envelopes, sprinkler irrigation, trickle irrigation, crop production and water requirements, salt movement, regional groundwater modeling for optimizing sustainable yield, conveyance system modeling and control, and remote sensing.

Financial Assistance

The large and diverse departmental research programs make it possible to offer graduate financial support in the form of research assistantships, traineeships, and teaching assistantships for qualified students. Research assistantships are provided by the CEE Department and by individual research projects. Teaching assistantships are provided by the School of Graduate Studies and by the College of Engineering. Traineeships and research assistantships carry tuition waivers. It is the goal of the CEE Department to provide research and/or teaching support for all qualified students.

Additional Information

Two guides are available from the department to assist students: (1) *Report, Thesis, and Dissertation Format Guidelines and Policies, and (2) Policies and Procedures for Graduate Study.*

Integrated Studies - BS

Program Overview

College
University

Department
General University

Program Level
Undergraduate

About this Degree
The Integrated Studies degree reaches across traditional college and departmental boundaries. Integrated Studies degree requirements are focused in a Career Focus Area. 33 credits are required in addition to university undergraduate requirements.

Admission Requirements for this Program
Admission to the Integrated Studies program requires a minimum 2.0 GPA, 12 USU credits, and 60 earned credit hours.

Program Requirements

Integrated Studies - BA, BS Requirements

Type
Completion Requirement

Required Courses (3 credits)

A minimum grade of C- is required

Complete ALL of the following Courses:
- ISTU3010 - Career Exploration and Design - 2cr.
- ISTU4010 - Career Design and Planning - 1cr.

Career Focus Areas (30 credits)

Complete the following:
Students choose one Career Focus Area. Courses in the Career Focus Area cannot be used to fulfill minor requirements. Please see advisor for course options. A 'D' grade or higher is required for courses to fulfill focus area requirements.

Agriculture, Natural Resources, and Environmental Science

Applied and Clinical Health Sciences

Business and Communication

Humanities and Arts

Physical Science, Engineering, and Technology

Social Sciences and Human Services

Internship Options

Please see advisor for more information about internship options

Complete ALL of the following Courses:
- ISTU2250 - Introductory Internship - 1cr.
- ISTU4250 - Advanced Internship - 1cr.

Interdisciplinary Studies (AGNR) - BA, BS

Program Overview

College
College of Agriculture & Natural Resources

Department
College of Agriculture & Natural Resources

Program Level
Undergraduate

About this Degree

The Interdisciplinary Studies major is intended to serve the needs of students who want to design a more individualized academic program, obtain a more broad-based education, and diversify their professional potential. An Interdisciplinary Studies major can be developed in three specific ways.

First, it can be designed as a customized grouping of individual courses from across disciplines and majors that meet a student's specific professional goals.

Second, it can be used to combine multiple minors and/or certificates in order to better meet a student's educational objectives.

Third, it can combine two groupings of courses from within different majors or programs to integrate a student's coursework across disciplines. A combination of these three approaches can also be used. The Interdisciplinary Studies major is intended to provide students with a flexible curriculum that is more responsive to individual goals and interests.

The Interdisciplinary Studies major is available through the following six colleges:

- College of Agriculture and Applied Sciences
- Caine College of the Arts
- Emma Eccles Jones College of Education and Human Services
- S.J. & Jessie E. Quinney College of Natural Resources
- College of Science
- College of Humanities and Social Sciences

Please contact a specific college advisor for more information regarding how to apply for this major:

College of Agriculture and Applied Sciences
Advisor: Dawnetta Mahnken
Location: AGRS 421
Email: dawnetta.mahnken@usu.edu
Phone: 435-797-2282

Admission Requirements for this Program

Students may apply for admission to the Interdisciplinary Studies major after completing 30 credits with a minimum GPA of 2.25. Students who wish to pursue the Interdisciplinary Studies major must submit an application to a specific college containing the following information:

1. A statement of the student's educational/professional objectives and how the Interdisciplinary Studies major would help achieve those objectives.
2. A proposed program of study including specific courses, groupings of courses, minors, and/or certificates that will comprise the student's interdisciplinary major.
3. An estimated timeline for completion of the major. The application will be reviewed by and discussed with an academic advisor.

Students will then work with an academic advisor to create a plan for the major in Degree Works

Program Requirements

Total Credits Required To Earn This Credential

120

Simple Requisites

Program Requirements

- **Total Credits:** 45
- **Interdisciplinary Focus:** Courses used for the major must include at least 15 credits each from two different programs or disciplines.
- **Upper Division Coursework:** At least 24 of the 45 credits must be at the 3000 level and above.
- **Internship Credit or Capstone Experience:** Completion of the major requires one of the following courses: 1-3 credit internship, capstone course within an existing academic program, project-based upper division course, ISTU4010 CAREER DESIGN AND PLANNING, or ITDS4900 SENIOR THESIS/PROJECT
- **Minimum Grade Point Average to Apply to and Graduate in Interdisciplinary Studies:** 2.25 USU GPA
- **Credits in Residence:** At least half (50 percent) of the credits earned for the Interdisciplinary Studies major must be earned at USU. As many as 21 credits completed at other colleges or universities may be used to partially satisfy major requirements. For more information, students should contact their advisor.
- **Minimum Grade Requirement:** A maximum of 3 credits of a D grade can count toward the major.

Students can pursue a **BA** or **BS** degree.

Bachelor of Science Degree

Students desiring a (BS) Bachelor of Science degree must complete all major requirements.

Bachelor of Arts Degree

Students desiring a (BA) Bachelor of Arts degree must complete the language proficiency requirements in one of the following ways in addition to the Bachelor of Science (BS) degree requirements:

- Demonstration of proficiency in one foreign language by successful completion of one course at the 2020-level or higher (or its equivalent) OR
- Demonstration of proficiency in American Sign Language by successful completion of and ASL 4920 and ASL 4780 by passing an exit interview OR
- Demonstration of proficiency in two foreign languages by successful completion of the 1020 course level in one language and the 2010 course level in the second language (or its equivalent) OR
- Completion of an upper-division (3000-level or higher) foreign language grammar or literature course requiring the 2020 course level (or its equivalent) as a prerequisite. Conversation courses cannot be considered for satisfying this requirement.

For nonnative English-speaking students only, the following options are available:

- Successful completion of the Intensive English Language Institute (IELI) program for international students **OR**

- TOEFL, Michigan, or IELI placement scores high enough to meet the University admission criteria.

Internship Credit or Capstone Experience

Type
Completion Requirement

Required

Complete at least 1 of the following courses:

- ISTU4010 - Career Design and Planning - 1cr.
  OR ITDS4900 - Senior Thesis/Project - 3cr.

College of Humanities and Social Sciences
Advisor: Tom Liljegren
Location: Old Main 106
Email: tom.liljegren@usu.edu
Phone: (435) 797-3883

Admission Requirements for this Program

Students may apply for admission to the Interdisciplinary Studies major after completing 30 credits with a minimum GPA of 2.25. Students who wish to pursue the Interdisciplinary Studies major must submit an application to a specific college containing the following information:

1. A statement of the student's educational/professional objectives and how the Interdisciplinary Studies major would help achieve those objectives.
2. A proposed program of study including specific courses, groupings of courses, minors, and/or certificates that will comprise the student's interdisciplinary major.
3. An estimated timeline for completion of the major. The application will be reviewed by and discussed with an academic advisor.

Students will then work with an academic advisor to create a plan for the major in Degree Works

Program Requirements

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- **Total Credits:** 45
- **Interdisciplinary Focus:** Courses used for the major must include at least 15 credits each from two different programs or disciplines.
- **Upper Division Coursework:** At least 24 of the 45 credits must be at the 3000 level and above.
- **Internship Credit or Capstone Experience:** Completion of the major requires one of the following courses: 1-3 credit internship, capstone course within an existing academic program, project-based upper division course, ISTU4010 CAREER DESIGN AND PLANNING, or ITDS4900 SENIOR THESIS/PROJECT
- **Minimum Grade Point Average to Apply to and Graduate in Interdisciplinary Studies:** 2.25 USU GPA
- **Credits in Residence:** At least half (50 percent) of the credits earned for the Interdisciplinary Studies major must be earned at USU. As many as 21 credits completed at other colleges or universities may be used to partially satisfy major requirements. For more information, students should contact their advisor.
- **Minimum Grade Requirement:** A maximum of 3 credits of a D grade can count toward the major.

Students can pursue a **BA** or **BS** degree.

Bachelor of Science Degree

Students desiring a (BS) Bachelor of Science degree must complete all major requirements.

Bachelor of Arts Degree

Students desiring a (BA) Bachelor of Arts degree must complete the language proficiency requirements in one of the following ways in addition to the Bachelor of Science (BS) degree requirements:

- Demonstration of proficiency in one foreign language by successful completion of one course at the 2020-level or higher (or its equivalent) OR
- Demonstration of proficiency in American Sign Language by successful completion of and ASL 4920 and ASL 4780 by passing an exit interview OR
- Demonstration of proficiency in two foreign languages by successful completion of the 1020 course level in one language and the 2010 course level in the second language (or its equivalent) OR
- Completion of an upper-division (3000-level or higher) foreign language grammar or literature course requiring the 2020 course level (or its equivalent) as a prerequisite. Conversation courses cannot be considered for satisfying this requirement.

For nonnative English-speaking students only, the following options are available:

- Successful completion of the Intensive English Language Institute (IELI) program for international students **OR**
- TOEFL, Michigan, or IELI placement scores high enough to meet the University admission criteria.

Internship Credit or Captsone Experience

Type
Completion Requirement

Required

Complete at least 1 of the following courses:

- ISTU4010 - Career Design and Planning - 1cr.
  OR ITDS4900 - Senior Thesis/Project - 3cr.

Interdisciplinary Studies (NR) - BA, BS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	College of Agriculture & Natural Resources	Undergraduate

About this Degree

The Interdisciplinary Studies major is intended to serve the needs of students who want to design a more individualized academic program, obtain a more broad-based education, and diversify their professional potential. An Interdisciplinary Studies major can be developed in three specific ways.

First, it can be designed as a customized grouping of individual courses from across disciplines and majors that meet a student's specific professional goals.

Second, it can be used to combine multiple minors and/or certificates in order to better meet a student's educational objectives.

Third, it can combine two groupings of courses from within different majors or programs to integrate a student's coursework across disciplines. A combination of these three approaches can also be used. The Interdisciplinary Studies major is intended to provide students with a flexible curriculum that is more responsive to individual goals and interests.

The Interdisciplinary Studies major is available through the following six colleges:

- College of Agriculture and Applied Sciences
- Caine College of the Arts
- Emma Eccles Jones College of Education and Human Services
- S.J. & Jessie E. Quinney College of Natural Resources
- College of Science
- College of Humanities and Social Sciences

Please contact a specific college advisor for more information regarding how to apply for this major:

Undergraduate

Program Requirements

Total Credits Required In Program Coursework
20-21

Total Credits Required To Earn This Credential
20-21

Simple Requisites

Program Requirements

The courses in the certificate focus on human development, infancy, and early childhood development, applied behavior analysis, characteristics and services for young children, family coaching and providing services in applied settings. Students can take the coursework on the Logan Main Campus (21 credits) **or** through the statewide campuses (20 credits). By completing this certificate, students meet the requirements for a Utah Department of Health and Human Services Early Intervention Specialist credential to serve children with disabilities ages 0-3 and their families.

Logan Main Campus Option (21 credits)

Type
Completion Requirement

Course Requirements

Complete ALL of the following Courses:

- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- HDFS3500 - Infancy and Childhood - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- SPED5010 - Applied Behavioral Analysis 1: Principles, Assessment, and Analysis (QI) - 3cr.
- SPED5030 - Assessment in Special Education - 2cr.
- SPED5710 - Young Children with Disabilities: Characteristics and Services - 3cr.
- SPED5810 - Seminar and Field Experiences with Infants and Families - 4cr.

Statewide Campus Option (20 credits)

Type
Completion Requirement

Course Requirements

Complete ALL of the following Courses:

- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- HDFS4550 - Preschool Methods and Curriculum - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- SPED5012 - Basic Behavior Management and Instructional Strategies (QI) - 3cr.
- SPED5014 - Foundations in Assessment - 2cr.
- SPED5713 - Early Intervention: Services for Infants and Families - 3cr.
- SPED5714 - Early Childhood Development and Social Competency: Implications for Intervention - 3cr.

Instructional Technology and Learning Sciences - EdS

Program Overview

College
College of Education & Human Services

Department
Instructional Technology & Learning Sciences

Program Level
Graduate

About this Degree

The goal of the Education Specialist (EdS) program is to furnish students with advanced skills in instructional technology and learning sciences beyond those acquired with the master's degree.

The program focus is practical, applied, and grounded in theory. Students can complete coursework in interactive instructional tool building, advanced interactive multimedia design, adult and distance education, or research and evaluation among other areas. All EdS students complete the same ITLS research core courses as our PhD students.

Students with this degree are prepared to assume leadership positions in industry, business, education, government, and private organizations. The EdS student will graduate with research experience but do a creative project or internship rather than a thesis or dissertation.

Program Requirements

Total Credits Required In Program Coursework
31

Total Credits Required To Earn This Credential
31

Simple Requisites

Program Requirements

The degree requires a minimum of 31 credits beyond the master's degree, providing the master's degree was received in the instructional technology field. For students with a master's degree in a field other than instructional technology, a minimum of 40 credits is required.

The EdS is available at the Logan, Utah State University campus.

- **Degree Verification**

A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

- **Overall Graduate GPA at least 3.0 and no grades of C- or lower;**

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

- **Course Number Acceptability**

The Program of Study for a master's degree or a doctoral degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 3000.

- **Matriculation Start Semester**

A EdS degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Instructional Technology and Learning Sciences - EdS

Type
Completion Requirement

Major Requirements (16 credits)

All courses require a grade of C or better and students must maintain an overall GPA of 3.0 or higher. Planning sheets with course semester availability are available on the ITLS website.

Fulfill ALL of the following requirements:

Core Courses (7 credits)

Complete ALL of the following Courses:

- ITLS6300 - ITLS Orientation - 1cr.
- ITLS7000 - Pro-seminar I in Instructional Technology - 3cr.
- ITLS7025 - Foundations In Instructional Technology and Learning Sciences - 3cr.

AND

Research Methods Course (3 credits)

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.

AND

Culminating Experience Course (6 credits)

Complete ALL of the following Courses:

- ITLS7960 - Practicum, Educational Specialist - 1cr.

NOTE:

1. ITLS7960 PRACT EDUCATIONAL SPECIALIST - 6 credits required.

Master's Required Core Courses (9 credits)

Required if a student does not have a master's degree in the field of Instructional Technology and Learning Sciences.

Complete ALL of the following Courses:

- ITLS6520 - Instructional Design I - 3cr.
- ITLS6535 - Design Thinking - 3cr.
- ITLS6540 - Learning Theory - 3cr.

General Elective Course Options (15 credits)

Other electives may be chosen with program chair approval.

Earn at least 15 credits from the following:

- ITLS5000 - School Library Foundation and Learning - 3cr.
- ITLS5015 - School Library Organization and Access - 3cr.
- ITLS5025 - School Library Instruction and Assessment - 3cr.
- ITLS5030 - School Library Literacy and Programs - 3cr.
- ITLS5040 - School Library Leadership and Administration - 3cr.
- ITLS6205 - Instructional Media Production - 3cr. (Inactive)
- ITLS6210 - Virtual Environment Development - 3cr.
- ITLS6215 - Video and Audio Design and Production I - 3cr.
- ITLS6220 - Video and Audio Design and Production II - 3cr. (Inactive)
- ITLS6230 - Graphic Design and Production I - 3cr.
- ITLS6240 - Graphic Design and Production II - 3cr.

- ITLS6245 - eLearning Authoring Tools - 3cr.
- ITLS6260 - Mobile Design and Development for Learning - 3cr.
- ITLS6265 - Internet Design and Development - 3cr.
- ITLS6270 - Digital Making and Learning - 3cr.
- ITLS6300 - ITLS Orientation - 1cr.
- ITLS6320 - Writing for Design - 3cr.
- ITLS6390 - Transformative Uses of Technology for Learning - 3cr.
- ITLS6510 - Evaluation and Research - 3cr.
- ITLS6520 - Instructional Design I - 3cr.
- ITLS6530 - Instructional Design II - 3cr.
- ITLS6535 - Design Thinking - 3cr.
- ITLS6540 - Learning Theory - 3cr.
- ITLS6545 - Socio-Cultural Learning Theory - 3cr.
- ITLS6560 - Project and Organizational Management - 3cr.
- ITLS6570 - Performance Systems - 3cr.
- ITLS6650 - Research Seminar - 1cr.
- ITLS6700 - Special Topics - 1cr.
- ITLS6720 - Instructional Technology in Adult Education - 3cr.
- ITLS6730 - Games and Learning - 3cr.
- ITLS6760 - Grant and Proposal Writing - 3cr.
- ITLS6870 - Current Issues Seminar - 1cr.
- ITLS6900 - Independent Study - 1cr.
- ITLS6910 - Independent Research - 1cr.
- ITLS7340 - Building Community Partnerships in Research Contexts - 3cr.

Instructional Technology and Learning Sciences - MA

Program Overview

College
College of Education & Human Services

Department
Instructional Technology & Learning Sciences

Program Level
Graduate

About this Degree

MA students focus on human experience design skills relevant to corporate, business, and educational settings. Coursework includes instructional design and development, project management, learning theory, design thinking, multi-media production, and evaluation and research. Students also complete a creative project or internship focused on their career goals.

These students often go into careers in instructional design and development in business, education, and government. Positions range from highly design-oriented jobs requiring extensive instructional development skills to product development-oriented jobs requiring skills in data analysis, project management, and evaluation. Graduates can also use these skills in preparing training materials for face-to-face and online formats.

Instructional Technology and Learning Sciences - MEd

Program Overview

College
College of Education & Human Services

Department
Instructional Technology & Learning Sciences

Program Level
Graduate

About this Degree

The Master of Education (MEd) degree is available on campus at Utah State University in Logan UT, or completely online.

The MEd is designed for classroom teachers, educators, and administrators who want to increase their understanding of the role of technology and its appropriate implementation in the teaching and learning process. Students typically continue in careers in education but see new doors open to them, many at the district or state level.

The program helps students evaluate, integrate, and implement various forms of technology and instructional design skills into their current teaching or administrative assignments. Completing the MEd program does not qualify the student for a Utah teaching license. The MEd is a master's level degree.

MEd students complete a creative project or internship as their culminating experience. The Master of Education degree is available at Utah State University main campus in Logan, Utah, or online.

Students who are interested in a school library career path may choose the School Library Media Administration (SLMA) track. Our SLMA program is designed for those interested in working in a school library media center, public or private. The program includes all the coursework and practicum experience necessary to apply for the Utah State Board of Education (USBE) Library Media K-12 endorsement. Those seeking the state endorsement must currently have, or be working toward, a valid Utah teaching license. Students may choose to take these courses and not apply for state endorsement. SLMA courses are completed via web broadcast. All SLMA students complete a practicum that requires in-school experiences.

Culminating Experience (3 credits minimum)

Complete ALL of the following Courses:
- ITLS6940 - Internship - 1cr.

OR ITLS6960 - Creative Project - 1cr.

General Elective Course Options (18 credits)

Complete at least 6 of the following courses:

- ITLS6205 - Instructional Media Production - 3cr. (Inactive)
- ITLS6210 - Virtual Environment Development - 3cr.
- ITLS6215 - Video and Audio Design and Production I - 3cr.
- ITLS6230 - Graphic Design and Production I - 3cr.
- ITLS6240 - Graphic Design and Production II - 3cr.
- ITLS6245 - eLearning Authoring Tools - 3cr.
- ITLS6250 - Artificial Intelligence for Learning and Design - 3cr.
- ITLS6255 - Designing Ethical Technologies - 3cr.
- ITLS6260 - Mobile Design and Development for Learning - 3cr.
- ITLS6265 - Internet Design and Development - 3cr.
- ITLS6270 - Digital Making and Learning - 3cr.
- ITLS6320 - Writing for Design - 3cr.
- ITLS6390 - Transformative Uses of Technology for Learning - 3cr.
- ITLS6400 - Foundations of Instructional Coaching - 3cr.
- ITLS6530 - Instructional Design II - 3cr.
- ITLS6545 - Socio-Cultural Learning Theory - 3cr.
- ITLS6560 - Project and Organizational Management - 3cr.
- ITLS6570 - Performance Systems - 3cr.
- ITLS6700 - Special Topics - 1cr.
- ITLS6720 - Instructional Technology in Adult Education - 3cr.
- ITLS6730 - Games and Learning - 3cr.
- ITLS6760 - Grant and Proposal Writing - 3cr.
- ITLS6900 - Independent Study - 1cr.
- ITLS6910 - Independent Research - 1cr.

School Library Media Administration Track

Type

Completion Requirement

Required Courses

If a School Library Media Administration track is chosen the student will complete the following courses in the Tools & Professional Strand in place of general elective courses. A School Library Media Practicum is also an added option for the culminating experience along with an internship or creative project.

Complete ALL of the following Courses:

- ITLS5000 - School Library Foundation and Learning - 3cr.
- ITLS5015 - School Library Organization and Access - 3cr.
- ITLS5025 - School Library Instruction and Assessment - 3cr.
- ITLS5030 - School Library Literacy and Programs - 3cr.
- ITLS5040 - School Library Leadership and Administration - 3cr.
- ITLS5500 - Integration and Innovation of Technology in Education - 3cr.

Instructional Technology and Learning Sciences - MS

Program Overview

College	Department	Program Level
College of Education & Human Services	Instructional Technology & Learning Sciences	Graduate

About this Degree

The MS student focuses on core knowledge, best practices, current theories, and research. This program is unique from our other master's programs because the student learns to conduct original research. These students often go into either academic careers or jobs that require, or benefit from, research skills. The MS student will follow the USU Plan A format, graduate with research experience, and produce a final research thesis.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
40	40

Simple Requisites

Program Requirements

The Master of Science degree is available at Utah State University's main campus or online. The MS degree is available to qualified students with bachelor's degrees in any field. A minimum of 40 successfully completed credits is required within 6 calendar years. All students must complete the online Responsible Conduct of Research Social and Behavioral Module at http://research.usu.edu/irb/training.

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

GPA and Minimum Grade Acceptability

Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability

The Program of Study for a master's degree or a doctoral degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 3000.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

USU Residency Requirement

At least 24-semester credits for a master's degree must be from a committee-approved and a School of Graduate Studies-approved Program of Study from Utah State University

Thesis Research Credits (6970)

The Plan A option for a master's degree requires the preparation and defense of a thesis. Students are required to complete a minimum of 6 semester credits of thesis research (6970) with a maximum of 15 thesis credits applied toward a Program of Study.

Required Master's forms:

Approval of academic forms required for master's students by the School of Graduate Studies

- Supervisory Committee
- Program of Study
- Thesis/Project Approval
- Appointment for Examination
- Record of Examination
- SGS and library review & approval

Instructional Technology and Learning Sciences - MS

Type

Completion Requirement

Major Requirements

All courses require a grade of C or better and students must maintain an overall GPA of 3.0 or higher. Planning sheets with course semester availability are available on the ITLS website

Fulfill ALL of the following requirements:

Orientation (1 credit)

Complete ALL of the following Courses:

- ITLS6300 - ITLS Orientation - 1cr.

AND

Design Strand (6 credits)

Complete ALL of the following Courses:

- ITLS6535 - Design Thinking - 3cr.
- ITLS6520 - Instructional Design I - 3cr.

AND

Analysis and Theory Strand (9 credits)

Complete ALL of the following Courses:

- EDUC6040 - Applied Research Methods - 3cr.
- EDUC6050 - Applied Statistical Analysis - 3cr.
- ITLS6540 - Learning Theory - 3cr.

AND

Culminating Experience (6 credits minimum)

Earn at least 6 credits from the following:

- ITLS6970 - Thesis - 1cr.

Elective Courses (18 credits)

Other electives may be chosen with program chair approval.

Complete at least 6 of the following courses:

- EDUC6010 - Introduction to Program Evaluation: Evaluation Models and Practical Guidelines - 3cr.
- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- EDUC7650 - Longitudinal Research Design and Analysis - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.
- EDUC6800 - Mixed Methods Research - 3cr.
- EDUC7610 - Regression Analysis - 3cr.
- EDUC7670 - Literature Reviews in Education and Psychology - 2cr.
- ITLS5500 - Integration and Innovation of Technology in Education - 3cr.
- ITLS6205 - Instructional Media Production - 3cr. (Inactive)
- ITLS6210 - Virtual Environment Development - 3cr.
- ITLS6215 - Video and Audio Design and Production I - 3cr.
- ITLS6220 - Video and Audio Design and Production II - 3cr. (Inactive)
- ITLS6230 - Graphic Design and Production I - 3cr.
- ITLS6240 - Graphic Design and Production II - 3cr.
- ITLS6245 - eLearning Authoring Tools - 3cr.
- ITLS6260 - Mobile Design and Development for Learning - 3cr.
- ITLS6265 - Internet Design and Development - 3cr.

Instructional Technology and Learning Sciences - PhD

Program Overview

College	Department	Program Level
College of Education & Human Services	Instructional Technology & Learning Sciences	Graduate

About this Degree

The department of Instructional Technology & Learning Sciences (ITLS) offers a doctoral program to earn a Doctor of Philosophy (Ph.D.) in ITLS. The Doctor of Philosophy (PhD) is a research-based degree with career options that range from academic research to corporate business, non-profit pursuits, higher education roles in faculty success or student support, and more.

Students complete three core classes and four research classes, students are free to select courses that will best meet their program requirements and long-term professional goals. The ITLS PhD program is nationally and internationally recognized for its research related to design and learning. Please see individual faculty bios and recent student dissertations to get a sense of active research going on in the department.

Doctoral graduates are well-positioned for tenure track positions at research or teaching institutions, for work in student services or higher education administration, engaging in faculty development, or as directors of instructional design. Some PhDs go on to leadership positions in corporate settings or use their doctoral degrees in K-12 as teachers or district specialists. All PhD students complete original research in the form of a dissertation.

The PhD is available only at Utah State University's main campus in Logan, Utah.

Admission Requirements for this Program

You can apply for the PhD only one time each year. Materials are due December 15th for students who wish to start Fall semester of the next year.

Requirements:

- A bachelor's or master's degree before the program starts
- GPA: 3.0 or higher for your most recent credits (the last 60 credits for semester-based programs or 90 credits for quarter-based programs)
- Three letters of recommendation
- In recognition of the high cost and low predictive validity of admissions tests ITLS no longer requires the GRE or MAT
- A Statement of Purpose addressing provided questions.
    - Clear indication of 1-2 prospective mentors as part of the Statement of Purpose.
- For international students only: TOEFL or IELTS or two years' attendance at an English-speaking college or University.
    - Passing TOEFL: Internet based - 79; Computer based - 214; Paper based - 550
    - Passing IETLS: Overall score - 6; Subscale scores – 5

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
48-70	48-70

Simple Requisites

Program Requirements

The PhD degree is available only at Utah State University's main campus. All students must complete the online Responsible Conduct of Research Social and Behavioral Module at http://research.usu.edu/irb/training.

School of Graduate Studies Requirements:

- Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- Course Number Acceptability:
    - The Program of Study for PhD must include at least 15 semester credits at the level of 6000 or above. With approval, students can take up to 12 credits at the 5000 level.
    - Credits in the following areas are not acceptable: Foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and course numbers below 5000.
- Matriculation Start Semester: The PhD degree must be completed within eight years of entering the program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review. If classes are older than eight years, Instructional Technology and Learning Sciences does not re-validate, courses must be retaken instead.
- Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
- PhD forms: Approval of academic forms required for PhD students by the School of Graduate Studies.
    - Supervisory Committee Form
    - Program of Study
    - Application for Candidacy
    - Appointment for Exam
    - Authorship & Copyright
    - Format and Style
    - Title Page
    - Graduation Application
    - Record of Exam

Program Requirements:

- All courses require a grade of C or better and students must maintain an overall GPA of 3.0 or higher. Planning sheets with course semester availability are available on the ITLS website at cehs.usu.edu/itls/.
- The **PhD** degree program requires a minimum of **48** credits with a master's degree in this field. A minimum of **54** credits, including ITLS master's core courses, are required for students with a master's degree in a field other than Instructional Technology or Learning Sciences. Students who do not have a master's degree will

be required to complete a minimum of **70** credits, including ITLS master's core courses. Students have 8 calendar years to complete all degree requirements.

Instructional Technology and Learning Sciences - PhD

Type
Completion Requirement

Major Requirements

Fulfill ALL of the following requirements:

Core Courses (9 credits)

Complete ALL of the following Courses:

- ITLS7011 - Introduction to Theories and Methods of Instructional Technology and Learning Sciences I - 3cr.
- ITLS7015 - Introduction to Theories and Methods of Instructional Technology and Learning Sciences II - 3cr.
- ITLS7021 - Conducting a Literature Review - 3cr.

AND

Research Methods Courses (15 credits from 1 of 2 tracks)

There are 4 required courses for the research track because the college is requiring the two-sequence minimum for basic quant methods. Taking as many methods classes as possible is encouraged, students can, in consultation with their advisor open up methods elective credits by doing the applied research track instead. The applied research track will close the door to advanced methods classes students should check prerequisites before making this impactful decision.

Fulfill ANY of the following requirements:

Research Methods Track

Fulfill ALL of the following requirements:

Research Method Track Core (12 Credits)

Complete ALL of the following Courses:

- EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- EDUC6770 - Qualitative Research Methods - 3cr.
- EDUC7610 - Regression Analysis - 3cr.

AND

Research Methods Elective Courses (3 Credits)

Earn at least 3 credits from the following:

- ITLS6760 - Grant and Proposal Writing - 3cr.
- ITLS7340 - Building Community Partnerships in Research Contexts - 3cr.
- ITLS7350 - Ethnography - 3cr.
- ITLS7870 - Current Issues Seminar - 1cr.
- EDUC6010 - Introduction to Program Evaluation: Evaluation Models and Practical Guidelines - 3cr.
- EDUC6800 - Mixed Methods Research - 3cr.
- EDUC7670 - Literature Reviews in Education and Psychology - 2cr.
- HDFS6031 - Research Methodology - 3cr.
- HDFS7032 - Multivariate and Dyadic Data Analysis in Human Development and Family Studies - 3cr.
- HDFS7033 - Dyadic and Longitudinal Data - 3cr.
- HDFS7034 - Extant/Secondary Data Analysis - 3cr.
- PSY6330 - Evidence-Based Practice: School Assessment and Measurement - 3cr.
- PSY6560 - Introduction to Educational and Psychological Research - 3cr.
- PSY7070 - Advanced Measurement Theories and Practice - 3cr.
- PSY7090 - Experimental and Applied Psychological Science Program Seminar - 1cr.
- PSY7650 - Multilevel and Marginal Models for the Social Sciences - 3cr.
- PSY7760 - Structural Equation Modeling - 3cr.
- TEAL7546 - Qualitative Data Analysis - 3cr.
- TEAL7547 - Thinking with Theory in Qualitative Research - 3cr.

Other methodology course (Computer Science, English, Sociology etc.) with chairperson approval.

OR

Applied Research Methods Track

Fulfill ALL of the following requirements:

Applied Research Methods Track Core (6 Credits)

Complete ALL of the following Courses:

- EDUC6040 - Applied Research Methods - 3cr.
- EDUC6050 - Applied Statistical Analysis - 3cr.

AND

Research Methods Elective Courses (9 Credits)

Earn at least 9 credits from the following:

- ITLS6760 - Grant and Proposal Writing - 3cr.
- ITLS7340 - Building Community Partnerships in Research Contexts - 3cr.
- ITLS7350 - Ethnography - 3cr.
- ITLS7870 - Current Issues Seminar - 1cr.
- EDUC6010 - Introduction to Program Evaluation: Evaluation Models and Practical Guidelines - 3cr.
- EDUC7670 - Literature Reviews in Education and Psychology - 2cr.
- HDFS6031 - Research Methodology - 3cr.
- PSY6330 - Evidence-Based Practice: School Assessment and Measurement - 3cr.
- PSY6560 - Introduction to Educational and Psychological Research - 3cr.
- PSY7090 - Experimental and Applied Psychological Science Program Seminar - 1cr.

Other methodology course (Computer Science, English, Sociology etc.) with chairperson approval.

Note: Students can take more than 15 credits of Research Track and Methods electives and count them towards general electives.

Elective Courses (6 credits)

In addition to courses listed above under Research Methods, these courses are suggested general electives, feel free to coordinate with your advisor on specific classes to support your program of study.

Earn at least 6 credits from the following:

- ITLS6270 - Digital Making and Learning - 3cr.
- ITLS6320 - Writing for Design - 3cr.
- ITLS6545 - Socio-Cultural Learning Theory - 3cr.
- ITLS6730 - Games and Learning - 3cr.
- ITLS6910 - Independent Research - 1cr.

• Other General Electives as approved by chairperson.

Master's Core Courses (6 credits)

Required ***if*** students do not have an ITLS master's degree

Complete ALL of the following Courses:

- ITLS6520 - Instructional Design I - 3cr.
- ITLS6535 - Design Thinking - 3cr.

Dissertation Credits for Student with Master's Degree (12 credits)

Earn at least 12 credits from the following:

- ITLS7970 - Dissertation - 1cr.

Dissertation Credits for student with Bachelor's Degree (18 credits)

Earn at least 18 credits from the following:

- ITLS7970 - Dissertation - 1cr.

IT Support and Web Development - AAS

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The IT Support and Web Development Associate of Applied Science (AAS) degree prepares students for high-demand careers at the intersection of technology, business, and digital design. The program blends web design training with the technical skills required to support and maintain small-business networks, offering a balanced foundation in both creative and technical IT roles.

Students gain hands-on experience in areas such as website design, digital content creation, networking, scripting, cybersecurity, and operating system support. The curriculum also incorporates key business competencies—professional communication, small business management, and digital marketing—to equip graduates with the entrepreneurial and organizational skills needed to thrive in modern technology environments.

Graduates are prepared for careers in computer networking, website design, photo and video production, and small-business IT management, with the flexibility to pursue roles in both creative and technical fields.

Common Core

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Course Sets:

- Communications Literacy (CL1) Course
- Quantitative Literacy (QL) Course
- Breadth Life Sciences (BLS) Course
  OR Breadth Social Sciences (BSS) Course
  OR Breadth American Institutions (BAI) Course
  OR Breadth Creative Arts (BCA) Course
  OR Breadth Physical Sciences (BPS) Course
  OR Breadth Humanities (BHU) Course
- Breadth Life Sciences (BLS) Course
  OR Breadth Social Sciences (BSS) Course
  OR Breadth American Institutions (BAI) Course
  OR Breadth Creative Arts (BCA) Course
  OR Breadth Physical Sciences (BPS) Course
  OR Breadth Humanities (BHU) Course

Two breadth courses are required, see advisor for options.

Preferred Electives

Students may choose a class with any of the following prefixes: BCIS, BUSN, TEIT, TEBP, or ECON class that is not already required for the degree. The courses listed below are suggested.

BCIS1550 INTRO TO PYTHON - Intro to Python is highly recommended.

Earn at least 16 credits from the following:

- BUSN1021 - Personal Finance - 3cr.
- BUSN1405 - Word Processing - 2cr.
- BUSN2050 - Business Law - 3cr.
- BUSN2710 - Entrepreneurial Mindset - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- BCIS1550 - Introduction to Python - 3cr.
- BCIS2300 - Web Programming - 3cr.

Information Technology

Complete ALL of the following Courses:

- BCIS1250 - A+ Core 1 - 3cr.
  OR TEIT1200 - A+ Core 1 - 3cr.
- BCIS1260 - A+ Core 2 - 3cr.
  OR TEIT1210 - A+ Core 2 - 3cr.
- BCIS1320 - Linux Foundations - 2cr.
  OR TEIT1300 - Linux Foundations - 2cr.
- BCIS1100 - Introduction to Networking - 1cr.
  OR TEIT1100 - Introduction to Networking - 1cr.
- BCIS1050 - Career and Workplace Relations - 1cr.
  OR TEIT1050 - Career and Workplace Relations - 1cr.
- TEIT1170 - Computer Networks I - 2cr.
  OR BCIS2988 - Special Problems - 1cr.

BCIS 2988 should be taken at 2 credit hours.

Networking and Cybersecurity

Complete ALL of the following Courses:

- BCIS2652 - Intro to Cloud Security - 3cr.
  OR TEIT1400 - Introduction to Cloud - 2cr.
- BCIS2651 - Cybersecurity/Security+ - 4cr.
  OR TEIT2200 - Security + - 4cr.
- BCIS2631 - Network+ - 4cr.
  OR TEIT2170 - Computer Networks II - 3cr.

Core Electives

Earn at least 15 credits from the following:

- BCIS1081 - Introduction to Mobile Application Development - 3cr.
  OR TEIT1081 - Introduction to Mobile Application Development - 3cr.
- BCIS1300 - Website Design - 3cr.
  OR TEIT1310 - Website Design - 3cr.
- BCIS1340 - Digital Video Production - 3cr.
  OR TEIT1340 - Digital Video Production - 3cr.
- BCIS2210 - Linux + - 3cr.
  OR TEIT2300 - Linux + - 3cr.
- BCIS2441 - Photoshop - 3cr.
  OR TEIT2441 - Photoshop - 3cr.
- BCIS2500 - Web Business - 3cr.
  OR TEIT2500 - Web Business - 3cr.
- BCIS1040 - Introduction to Programming - 3cr.
  OR TEIT1041 - Introduction to Programming - 3cr.
- BUSN2390 - Organizational Behavior - 3cr.
  OR TEBP1200 - Professionalism - 3cr.
- BUSN1010 - Business Principles (BSS) - 3cr.
  OR TEBP1650 - Management Principles - 2cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Associate Degrees)

Program Learning Outcomes

Program Learning Outcomes

- Install, configure, secure, and troubleshoot computer systems and networks using skills from A+ hardware/software, networking, Linux, and Network+ coursework.
- Apply foundational cybersecurity practices to protect systems and data in organizational environments.
- Design and create functional websites and digital media using modern web design, video production, and image-editing tools.
- Support online business operations and digital marketing efforts, including e-commerce and small-business workflows.
- Use industry-standard software tools to organize data, automate tasks, and support business and IT functions.
- Communicate effectively in technical and business settings, both in writing and verbally.
- Analyze problems and integrate technical, design, and business knowledge to develop practical solutions.

Journalism and Communication - BA, BS

Program Overview

College
College of Arts & Sciences

Department
Communication & Media

Program Level
Undergraduate

About this Degree

The Department of Journalism and Communication (JCOM) prepares students for careers in a wide range of communication fields. Students develop knowledge and skills in such areas as information gathering, writing, video production, online journalism, and media literacy.

The journalism and communication bachelor's degree (BA, BS) begins with six foundational courses intended to build competence and insight, and includes four additional areas of mastery: "writing," "critical thinking," "professional application," and "deep exploration." The full program is available to students on any Utah State University campus as well as those studying partially or fully online.

Students receive a by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages.

- For more information about Journalism and Communication, see the department website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest Math Requirement for this degree is: STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL) or STAT1080 FOUNDATIONS OF DATA SCI (QL).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.50 GPA.

- JCOM4030 - Mass Media Law (DSS) - 3cr.

NOTE:

1. JCOM1130 MEDIA WRITING, JCOM1500 INTRO TO MASS COMM (BSS), JCOM2010 MEDIA LITERACY (BSS) - A minimum grade of C+ or higher.

Writing (3 credits)

The ability to write with accuracy, brevity, and clarity — and do so in accordance with industry and project-specific standards — is essential for all professional communicators. Every student enrolled in the Journalism and Communication - BA, BS program must take at least three credits from these courses. A minimum grade of **"C"** or higher is required.

Earn at least 3 credits from the following:

- JCOM1720 - Writing for Broadcast - 3cr.
- JCOM3110 - Feature Writing (CI) - 3cr.
- JCOM3140 - Opinion Writing (DSS) - 3cr.
- JCOM3200 - Writing for Electronic Media - 3cr.
- JCOM3310 - Writing for Public Relations (CI) - 3cr.
- JCOM4750 - Special Topics: Advanced Writing for Professional Communicators - 3cr.

Critical Thinking (9 credits)

Theory, history, context, and ethics are essential building blocks for the practice of professional communication in a rapidly changing world. Every student enrolled in the Journalism and Communication - BA, BS program must take at least nine credits from these courses. A minimum grade of **"C"** or higher is required.

Earn at least 9 credits from the following:

- JCOM1510 - Introduction to Broadcasting - 3cr.
- JCOM1660 - Introduction to Television - 3cr.
- JCOM2160 - Introduction to Online Journalism - 3cr.
- JCOM2220 - Introduction to Video Media - 3cr.
- JCOM2300 - Introduction to Public Relations - 3cr.
- JCOM2400 - Introduction to Social Media - 3cr.
- JCOM2977 - Cooperative Education - 1cr.
- JCOM2988 - Special Problems - 1cr.
- JCOM3030 - Corporate Communication - 3cr.
- JCOM3050 - Technical and Professional Communication Principles (CI) - 3cr.
- JCOM3320 - Strategic Research Methods in Public Relations (DSS) - 3cr.
- JCOM3410 - Film as Cultural Communication (DSS) - 3cr.
- JCOM4010 - Mass Communication Ethics (DSS) - 3cr.
- JCOM4020 - Mass Media and Society (DSS) - 3cr.
- JCOM4130 - Immersive Crisis Communication - 3cr.
- JCOM4300 - Integrated Marketing Communication - 3cr.
- JCOM4400 - Mass Media Criticism - 3cr.
- JCOM4410 - Gender and the Mass Media - 3cr.
- JCOM4520 - Senior Thesis - 1cr.
- JCOM4760 - Special Topics: Advanced Critical Thought in Media - 3cr.
- JCOM5010 - Mass Media Historiography - 3cr.
- JCOM5020 - Mass Communication Theory - 3cr.
- JCOM5030 - International Communications Problems - 3cr.
- JCOM5300 - Case Studies in Public Relations (CI) - 3cr.
- JCOM5420 - The Mass Media and Politics - 3cr.

- JCOM6000 - Introduction to Graduate Study in Mass Communication - 3cr.
- JCOM6010 - Mass Media Historiography - 3cr.
- JCOM6020 - Mass Communication Theory - 3cr.
- JCOM6030 - International Communications Problems - 3cr.
- JCOM6040 - Seminar in Mass Media Research Methods - 3cr.
- JCOM6050 - Seminar in Mass Media Issues and Problems - 3cr.
- JCOM6300 - Case Studies in Public Relations - 3cr.

Professional Application (9 credits)

Journalism and communication are professional crafts, the mastery of which require real-world practice. Every student enrolled in the Journalism and Communication - BA, BS program must take at least nine credits from these courses. A minimum grade of **"C"** or higher is required.

Earn at least 9 credits from the following:

- JCOM1040 - Newspaper Production I - 3cr.
- JCOM1050 - Newspaper Production II - 3cr.
- JCOM1560 - Radio Production I - 3cr.
- JCOM1800 - Communication Graphics - 3cr.
- JCOM2070 - Newspaper Production - 3cr.
- JCOM2080 - Newspaper Production IV - 3cr.
- JCOM2180 - Beginning Photojournalism - 3cr.
- JCOM2560 - Radio Production III - 1cr.
- JCOM2660 - Television Practicum - 1cr.
- JCOM3090 - Graphic Design in Agriculture and Media Industries - 3cr.
- JCOM3100 - Reporting Public Affairs (CI) - 3cr.
- JCOM3120 - Editing and Design (CI) - 3cr.
- JCOM4040 - Social Media Content Development - 3cr.
- JCOM4100 - Hard News Café - 3cr.
- JCOM4110 - Investigative Journalism (CI) - 3cr.
- JCOM4120 - Sports Reporting (CI) - 3cr.
- JCOM4150 - Advanced Digital Photojournalism - 3cr.
- JCOM4210 - Newscast I (CI) - 6cr.
- JCOM4220 - Newscast II (CI) - 6cr.
- JCOM4230 - Corporate Video - 3cr.
- JCOM4340 - Event Planning and Manager Communications - 3cr.
- JCOM4770 - Special Topics: Advanced Professional Experiences in Media - 3cr.
- JCOM5110 - Literary Journalism (CI) - 3cr.
- JCOM5210 - Website Design and Production - 3cr.
- JCOM5220 - Advanced Video Production - 3cr.
- JCOM5230 - Advanced Video Documentary Production - 3cr.
- JCOM5310 - Mass Media Management - 3cr.
- JCOM5320 - Public Relations Agency - 3cr.
- JCOM5400 - Social Media Strategy, Analytics & Artificial Intelligence - 3cr.
- JCOM6110 - Literary Journalism - 3cr.
- JCOM6210 - Website Design and Production - 3cr.

Deep Exploration Elective Courses (3 credits)

It is the intention of the Department of Journalism and Communication to provide students with opportunities to follow their interests, aptitudes, and passions. Any three credits with a JCOM prefix, including internships, may be used to fulfill this requirement. A course may only be taken once and is not repeatable for the major requirements. Students are enthusiastically encouraged to pursue additional credits as their time, resources, and needs allow, particularly in consultation with their advisers and professors.

Earn at least 3 credits from the following:

- JCOM1040 - Newspaper Production I - 3cr.
- JCOM1050 - Newspaper Production II - 3cr.
- JCOM1510 - Introduction to Broadcasting - 3cr.
- JCOM1560 - Radio Production I - 3cr.
- JCOM1660 - Introduction to Television - 3cr.
- JCOM1720 - Writing for Broadcast - 3cr.
- JCOM1800 - Communication Graphics - 3cr.
- JCOM2070 - Newspaper Production - 3cr.
- JCOM2080 - Newspaper Production IV - 3cr.
- JCOM2160 - Introduction to Online Journalism - 3cr.
- JCOM2180 - Beginning Photojournalism - 3cr.
- JCOM2220 - Introduction to Video Media - 3cr.
- JCOM2300 - Introduction to Public Relations - 3cr.
- JCOM2400 - Introduction to Social Media - 3cr.
- JCOM2560 - Radio Production III - 1cr.
- JCOM2660 - Television Practicum - 1cr.
- JCOM2977 - Cooperative Education - 1cr.
- JCOM2988 - Special Problems - 1cr.
- JCOM3030 - Corporate Communication - 3cr.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Juvenile Justice - Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

The Undergraduate Certificate in Juvenile Justice will be housed and administered by USU's School of Social Sciences in the College of Arts and Sciences.

While only three courses are required for certificate completion, students will be welcome and invited to take additional courses of electives.

Program Requirements

Total Credits Required In Program Coursework
9

Total Credits Required To Earn This Credential
9

Simple Requisites

Program Requirements

Certificate completion will require three courses totaling 9 credit hours.

Juvenile Justice - Certificate

Type
Completion Requirement

Required Courses (6 credits)

Complete ALL of the following Courses:

- CJ2330 - Juvenile Justice - 3cr.
- SW3350 - Child Welfare - 3cr.

Required Course (3 credits)

Complete at least 1 of the following courses:

- CJ2360 - Juvenile Law and Procedures - 3cr.
- SW3360 - Adolescents: Theories, Problems, and Issues - 3cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

Objectives:

1- Students will explore the origin, philosophy, and development of the juvenile justice system, focusing on the nature of juvenile law and the guiding principles that shape the system.

2- Students will analyze the impact of poverty and violence on children, examining the changing American family and the systems, including the Child Welfare and Juvenile Justice Systems, that affect children's well-being.

3- Students will examine the juvenile justice system with a focus on law and procedure, exploring the distinctions between juvenile and adult systems, and analyze major social problems affecting youth today, including substance abuse, unemployment, education, and mental health.

Kinesiology - Exercise Science Emphasis - BS

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

The Kinesiology degree at USU provides two different options for students who wish to pursue careers in exercise science or physical therapy. Many graduates from the program are accepted into advanced degree programs in kinesiology, physical and occupational therapy, medical schools, or other various health professional programs. In all of these areas, students study the psychological, neurophysiological, and biomechanical/biophysical aspects of human movement. Through mentoring, students are given the opportunity to conduct undergraduate research. The department collaborates with USU athletics and fitness centers to provide students with opportunities for hands-on experience and professional training.

Exercise Science Emphasis: The exercise science emphasis is science-based and focuses on the integration of anatomical, psychological, biomechanical, and physiological principles related to human movement, exercise, and sport. Many students complete the exercise science emphasis in order to build a strong foundation prior to pursuing graduate study in exercise science fields or health professions, such as medicine, physician assistant, dentistry, or chiropractic.

- For more information about Kinesiology, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT1045 INTRO STAT WITH ALGEBRA (QL) or higher.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have an overall 2.0 GPA.

Simple Requisites

Program Requirements

- Program Graduation Requirement: **2.0 overall GPA**
- All required major and elective courses may not be taken for a pass/fail grade, except for PE Skill Development courses.
- A minor is not required for this degree, but is strongly encouraged. Please visit with your advisor about career and graduate school options.

Kinesiology - Exercise Science Emphasis - BS

Type
Completion Requirement

I. Prerequisites (11-13 credits)

Complete ALL of the following Courses:

- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
- MATH1030 - Quantitative Reasoning (QL) - 3cr.
  OR MATH1050 - College Algebra (QL) - 4cr.
  OR MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1210 - Calculus I (QL) - 4cr.
  OR STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT1080 - Foundations of Data Science (QL) - 3cr.

• Or acceptable Math exam scores, ACT, SAT, AP.

II. Professional Foundation Required Courses (29 credits)

Complete ALL of the following Courses:

- KIN2000 - Introduction to Kinesiology - 2cr.
- KIN3000 - Principles of Health and Fitness - 3cr.
- KIN3100 - Athletic Injuries - 3cr.
- KIN3250 - Anatomical Kinesiology - 3cr.
- KIN4000 - Mental Aspects of Sports Performance - 3cr.
- KIN4100 - Exercise Physiology - 4cr.
- KIN4200 - Biomechanics (QI) - 4cr.
- KIN4400 - Measurement and Evaluation in Kinesiology (QI) - 3cr.
- KIN5100 - Fitness Assessment and Exercise Programs - 4cr.

III. Professional Development Courses (16 credits)

Fulfill ALL of the following requirements:

Health & Kinesiology (must complete at least 3 credits)

Earn at least 3 credits from the following:

- HEP2000 - First Aid and Emergency Care - 2cr.
- HEP2500 - Health and Wellness - 2cr.
- HEP3200 - Consumer Health - 3cr.
- HEP3400 - Stress Management - 3cr.
- KIN3200 - Motor Control and Learning (CI) - 3cr.
- KIN4460 - Exercise Electrocardiogram Interpretation - 2cr.
- KIN5430 - History and Philosophy of Physical Activity and Sport (CI) - 3cr.

AND

Biology Courses (must complete at least 3 credits)

Earn at least 3 credits from the following:

- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
- BIOL1610 - Biology I - 3cr.
  AND BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
  AND BIOL1625 - Biology II Laboratory - 1cr.
- BIOL2060 - Elementary Microbiology - 4cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3300 - General Microbiology - 3cr.

AND

Chemistry Courses (must complete at least 3 credits)

Earn at least 3 credits from the following:

- CHEM1010 - Introduction to Chemistry (BPS) - 3cr.
- CHEM1110 - General Chemistry I (BPS) - 4cr.
- CHEM1120 - General Chemistry II (BPS) - 4cr.
- CHEM1210 - Principles of Chemistry I - 4cr.

- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

NOTE:

1. CHEM1120 GENERAL CHEMISTRY II (BPS) - Although not required for the major, student should consider taking the appropriate lab as well.
2. CHEM1210 PRIN OF CHEMISTRY I - Although not required for the major, student should consider taking the appropriate lab as well.
3. CHEM1220 PRIN OF CHEMISTRY II (BPS) - Although not required for the major, student should consider taking the appropriate lab as well.

AND

Integrated Courses (must complete at least 7 credits)

Earn at least 7 credits from the following:

- NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.
- NDFS2030 - Nutrition and Physical Performance - 2cr.
- PHYS1100 - Great Ideas in Physics (BPS) - 3cr.
- PHYS1200 - Introduction to Physics by Hands-on Exploration (BPS) - 4cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PSY1010 - General Psychology (BSS) - 3cr.
- PSY2100 - Developmental Psychology: Adolescence - 3cr.
- PSY2300 - Psychological Disorders - 3cr.
- PSY3010 - Psychological Statistics (QI) - 3cr.

IV. Skill Development Courses (must complete at least 3 credits)

KIN Courses and PE activity courses may not be repeated for credit in the major. Must be three different activity courses.

Earn at least 3 credits from the following:

- KIN2100 - Skills 1 (Swimming, Volleyball, Football) - 1cr.
- KIN2200 - Skills 2 (Lifetime Activities) - 1cr.
- KIN2300 - Skills 3 (Softball, Basketball, Soccer) - 1cr.
- KIN2400 - Skills 4 (Tennis, Badminton, Track and Field) - 1cr.

• or any three PE activity courses from PE 1000-2120

Open Electives (0-19 estimated credits)

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Kinesiology - MS

Program Overview

College	Department	Program Level
College of Education & Human Services	Kinesiology and Health Science	Graduate

About this Degree

The Master of Science in Kinesiology program provides a comprehensive foundation in the biological, physical, mechanical, and social sciences of human movement. Students gain expertise in areas such as exercise physiology, biomechanics, sport psychology, motor control, wellness, and sport ethics, preparing them for advanced study or professional practice.

Graduate students combine advanced coursework with practical and research experiences, developing skills to critically evaluate evidence, apply scientific principles, and address complex questions in health, performance, and sport.

The program offers two pathways:

- Research/Thesis Pathway: Students conduct empirical research under faculty mentorship, producing a thesis or scholarly research paper. This pathway is ideal for students preparing for doctoral study or research-focused careers.
- Applied/Literature-Informed Pathway: Students engage in literature reviews and supervised applied experiences, producing a scholarly paper based on evidence-informed practice. This pathway is ideal for students preparing for applied careers in health, performance, or wellness.

Graduates are prepared for doctoral programs, medical and allied health professions, or applied careers in areas such as cardiac rehabilitation, strength and conditioning coaching, wellness programming, and research or clinical settings. Through advanced coursework, research, and practical experiences, students gain the skills and knowledge to excel in these fields. For more information on admissions, courses, and faculty research, please visit the department website at https://cehs.usu.edu/khs/graduate/ms-kinesiology.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
30	30

Simple Requisites

Program Requirements

School of Graduate Studies Requirements

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered

below 6000. The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the School of Graduate Studies.
- **Thesis Research Credits**
    - **Plan A students:** The Plan A option for a master's degree requires the preparation and defense of a thesis. Students are required to complete a minimum of 6 semester credits of thesis research with a maximum of 15 thesis credits applied toward a Program of Study.
    - **Plan B students:** A Plan B option requires the production and defense of a paper or project, depending on the department and program. A minimum of two credits of thesis research are required, but no more than three thesis research credits can be included in an approved Program of Study. Some degree programs require creative project credits in addition to or in place of research.
- **Required for all defense degrees:** Successful defense and submission of the thesis or paper to the library.
- **Master's forms:** Approval of academic forms required for master's students by the School of Graduate Studies This includes the Supervisory Committee Approval Form (SCAF), Program of Study (POS), Thesis Proposal Approval (TPA), Appointment for Examination (AFE), Record of Examination (ROE), Thesis/ Dissertation Format and Style (F&S) and Electronic Publication Approval – required for Plan A, not Plan B, Authorship and Copyright (A&C) form – required for Plan A, not Plan B, Submission of paper to the USU Library, and USU Graduation Application.

Kinesiology - MS (30 credits)

Type
Completion Requirement

Courses

MS students must select to follow either Plan A (thesis option) or the Plan B (research/creative project option).

Fulfill ALL of the following requirements:

Required Core Courses (10 credits)

Complete ALL of the following Courses:

- KIN6300 - Seminar in Kinesiology - 1cr.
- KIN6810 - Research Methods in Kinesiology - 3cr.
- KIN6700 - Special Topics - 1cr.
- EDUC6050 - Applied Statistical Analysis - 3cr.

AND

Capstone/Culminating Experience Requirement - Plan A (6 credits);

Plan B (3 credits)

Complete ALL of the following Courses:

- KIN6970 - Thesis - 1cr.
  OR KIN6500 - Practicum in Corporate Wellness - 1cr.

NOTE:

● Plan A students must take a minimum of 6 credits of KIN6970 THESIS.
● Plan B students must take 3 credits of either KIN6970 THESIS or KIN6500 PRACT CORP WELLNESS depending on their culminating experience.

AND

Electives (14-17 credits)

Students can select electives from list of courses below, or other courses with approval from their supervisory committee. **Plan A** students need 14 elective credits and **Plan B** students need 17 credits.

Complete ANY of the following Courses:

- KIN6050 - Psychological Aspects of Sports Performance - 3cr.
- KIN6210 - Biophysical Aspects of Sport and Exercise - 3cr.
- KIN6270 - Injury Prevention and Risk Management - 3cr.
- KIN6410 - Bioenergetics and Exercise Metabolism - 2cr.
- KIN6425 - Exercise in Extreme Environments - 2cr.
- KIN6440 - Body Composition - 2cr.
- KIN6460 - Exercise Electrocardiogram Interpretation - 2cr.
- KIN6480 - Advanced Neuromuscular Exercise Physiology - 2cr.
- KIN6610 - Topics in Biomechanics - 2cr.
- KIN6620 - Methods in Biomechanics - 1cr.
- KIN6840 - Fundamentals of Motor Behavior - 2cr.
- KIN6850 - Neural Aspects of Rehabilitation - 2cr.
- KIN6860 - Motor Development - 2cr.
- KIN6500 - Practicum in Corporate Wellness - 1cr.
- KIN6900 - Independent Study - 1cr.

Additional courses that are not listed can count towards a students program of study with approval from the department and the students supervisory committee.

Kinesiology: Pre-Physical Therapy Emphasis - BS

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

The Kinesiology degree at USU provides two different options for students who wish to pursue careers in exercise science or physical therapy (PT). Many graduates from the program are accepted into advanced degree programs in kinesiology, physical and occupational therapy, medical schools, or other various health professional programs. In all of these areas, students study the psychological, neurophysiological, and biomechanical/biophysical aspects of human movement. Through mentoring, students are given the opportunity to conduct undergraduate research. The department collaborates with USU athletics and fitness centers to provide students with opportunities for hands-on experience and professional training.

Pre-Physical Therapy Emphasis: The pre-physical therapy emphasis prepares students with the necessary coursework, including common PT prerequisites (not all), to apply to a graduate physical therapy program. Physical therapists help people who have limited abilities to move and perform functional activities. They work in a variety of settings, including hospitals, private practices, outpatient clinics, home health agencies, schools, sports and fitness facilities, work settings, and nursing homes.

- For more information about Kinesiology, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1060 TRIGONOMETRY or MATH1100 CALCULUS TECHNIQUES (QL) or MATH1210 CALCULUS I (QL).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have an overall 2.0 GPA.

Program Requirements

Total Credits Required In Program Coursework
71

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- Program Graduation Requirement: **2.0 overall GPA**
- Coursework for the major may not be taken pass/fail, except KIN4250 ADV COOP WORK EXPER.
- It is ultimately the student's responsibility to investigate physical therapy or other graduate/professional programs to determine all required prerequisites for admissions, and meet with their academic advisor to ensure the degree plan includes any remaining prerequisites to take.

Additional Information

Some Physical Therapy (PT) or other graduate programs may require additional coursework for admission. Students can verify prerequisites for most PT programs they are interested in here: https://www.apta.org/cas/ptcas (physical therapy programs) or on individual program websites. **Many PT schools could require specific prerequisite Math and Science courses to be completed (graded) before applying to their program.** The GRE is also a possible prerequisite for PT school, but requirements vary and are subject to change. It is strongly recommended that students use USU Pre-Health Advising for additional guidance on preparing for health profession programs.

Kinesiology: Pre-Physical Therapy Emphasis - BS

Type

Completion Requirement

I. Prerequisites (11-13 credits)

Note: Must complete BIOL2320 HUMAN ANATOMY & BIOL2420 HUMAN PHYSIOLOGY (or BIOL4600 ADV HUMAN PHYSIOLOGY) before enrolling in KIN3250 ANATOMICAL KINESIOLOGY, KIN4100 EXERCISE PHYSIOLOGY, KIN4200 BIOMECHANICS (QI), and KIN5100 FITNESS ASSESSMENT.

Complete ALL of the following Courses:

- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
  OR BIOL4600 - Advanced Human Physiology - 5cr.
- PSY1010 - General Psychology (BSS) - 3cr.
- MATH1050 - College Algebra (QL) - 4cr.

● Or ACT Math Score of 26 or higher; SAT Math Score Equivalent.

II. Professional Foundations (30 credits)

Complete ALL of the following Courses:

- KIN2020 - Introduction to Physical Therapy - 2cr.
- KIN3000 - Principles of Health and Fitness - 3cr.
- KIN3100 - Athletic Injuries - 3cr.
- KIN3250 - Anatomical Kinesiology - 3cr.
- KIN4100 - Exercise Physiology - 4cr.
- KIN4200 - Biomechanics (QI) - 4cr.
- KIN4250 - Advanced Cooperative Work Experience - 1cr.
- KIN4400 - Measurement and Evaluation in Kinesiology (QI) - 3cr.
- KIN5100 - Fitness Assessment and Exercise Programs - 4cr.

NOTE:

1. KIN4250 ADV COOP WORK EXPER - 4 credits required, but 10 credits is the maximum allowed for this course.

III. Professional Development (30-33 credits)

Fulfill ALL of the following requirements:

Biology (4 credits required, including lab)

It is the student's responsibility to determine which biology courses are required for the particular graduate schools they are interested in attending. Many schools require both BIOL1610 BIOLOGY I/BIOL1615 BIOLOGY I LABORATORY **AND** BIOL1620 BIOLOGY II (BLS)/BIOL1625 BIOLOGY II LABORATORY.

Earn at least 4 credits from the following:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL2060 - Elementary Microbiology - 4cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.

- BIOL3300 - General Microbiology - 3cr.

NOTE:

1. BIOL1610 BIOLOGY I and BIOL1615 BIOLOGY I LABORATORY - Are recommended.
2. BIOL1620 BIOLOGY II (BLS) and BIOL1625 BIOLOGY II LABORATORY - Are recommended after completion of BIOL 1610 & 1615.

AND

Chemistry (10 credits required)

Required prerequisite/corequisite(s) to enroll in the chemistry courses: Math ACT score of at least 25 or equivalent SAT Math score **or** MATH1050 COLLEGE ALGEBRA (QL) or higher (may be taken concurrently).

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
  AND CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
  AND CHEM1225 - Chemical Principles Laboratory II - 1cr.

AND

Mathematics (2-4 credits) Choose one course

The math requirement in the Pre-Physical Therapy program is required for the physics courses. Thus, any of the following will suffice. However, it is the student's responsibility to determine which math course(s) may be required for the specific Physical Therapy schools they intend to apply to.

Please note that AP Calculus credit is typically not acceptable for many physical therapy schools and/or other medical schools. Check the university catalog or academic advisor to verify prerequisites to enroll in the math course.

Complete at least 1 of the following courses:

- MATH1060 - Trigonometry - 2cr.
- MATH1100 - Calculus Techniques (QL) - 3cr.
- MATH1210 - Calculus I (QL) - 4cr.

AND

Statistics (3-4 credits) Choose one course

Check the university catalog or academic advisor to verify prerequisites to enroll in the statistic course.

Complete at least 1 of the following courses:

- STAT2000 - Statistical Methods (QI) - 4cr.
- STAT2300 - Business Statistics (QL) - 4cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.

AND

Physics (8 credits required)

MATH1060 TRIGONOMETRY or MATH1100 CALCULUS TECHNIQUES (QL) or MATH1210 CALCULUS I (QL) (only one of the three math required) must be completed before enrolling in PHYS2110 GENERAL PHYS LIFE SCI I and PHYS2120 GENERAL PHYS LIFE SCI II (BPS). Labs are required in the 4 credits for each course.

Earn at least 8 credits from the following:

- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.

NOTE:

1. PHYS2210 PHYS SCI AND ENGR I (QI)(BPS) and PHYS2220 PHYS SCI AND ENGR II (BPS)(QI) - Are also acceptable, but are generally for math, science, and engineering students.

AND

Psychology (3 credits) Choose one course

PSY1010 GENERAL PSYCHOLOGY (BSS) must be completed first before either course.

Complete at least 1 of the following courses:

- PSY2100 - Developmental Psychology: Adolescence - 3cr.
- PSY2300 - Psychological Disorders - 3cr.

Open Electives (0-3 estimated credits)

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Landscape Architecture - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Landscape Architecture & Environmental Planning

Program Level
Undergraduate

About this Degree
The Landscape Architecture Minor helps students better understand the form and function of natural, cultural, and built environments. Students from all disciplines will find compelling connections to their own interests as they become more familiar with how landscapes emerge and evolve. With a solid introduction to landscape architecture history, environmental systems, and design analysis, students gain an appreciation for the many dimensions of the landscape architecture field.

Program Requirements

Total Credits Required In Program Coursework
18

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

- Courses may not count in more than one of the categories.
- All existing course pre-requisites apply.
- A minimum overall GPA of 3.0 is required in LAEP-prefix courses, with no individual LAEP-prefix course grade less than a C-. No pass/fail grades are accepted to fulfill LAEP-prefix courses. A minimum USU overall GPA of 2.5 is required for all other courses used to fulfill minor requirements.

Section 1

Type
Completion Requirement

Professional Foundations (6 credits)

Complete ALL of the following Courses:

- LAEP2300 - History of Landscape Architecture (BHU) - 3cr.
- CIVC1610 - Design Thinking (BCA) - 3cr.

Section 2

Type
Completion Requirement

Skills Foundation (6 credits minimum)

Earn at least 6 credits from the following:

- LAEP1200 - Introduction to Graphics and Illustration - 4cr.
- LAEP1300 - Digital Drafting, Illustration, and Modeling - 3cr.
- LAEP1350 - Theory of Design - 4cr.
- LAEP2039 - Foundations of Sustainable Systems - 3cr.
- LAEP2700 - Analysis Design I - 5cr.

Section 2

Type
Completion Requirement

Advanced Skills (2 credits minimum)

Earn at least 2 credits from the following:

- LAEP2500 - Construction Materials and Detailing - 4cr.
- LAEP2510 - Landscape Materials - 2cr.
- LAEP2600 - Landscape Construction I (QI) - 4cr.
- LAEP2720 - Analysis and Design 2 - 5cr.
- LAEP5370 - City and Regional Planning (CI) - 3cr.

Section 3

Type
Completion Requirement

Natural Systems (3 credits minimum)

Earn at least 3 credits from the following:

- ENVS1350 - Introduction to Environmental Science (BLS) - 3cr.
- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- LAEP1040 - Introduction to Environmental Planning and Sustainable Development (BLS) - 3cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.
- PSC2620 - Woody Plant Materials: Trees and Shrubs for the Landscape - 3cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

Landscape Architecture - BLA

Program Overview

College
College of Agriculture & Natural Resources

Department
Landscape Architecture & Environmental Planning

Program Level
Undergraduate

About this Degree
Landscape architecture is the design of built and natural spaces to achieve environmental, socio-behavioral, and aesthetic outcomes. USU's landscape architecture program is the 13th oldest landscape architecture program in the United States and is accredited by the American Society of Landscape Architects.

- For more information about Landscape Architecture, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- Please note that LAEP students have specific computer requirements.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL) or any Quantitative Literacy (QL) course.

Admission Requirements for this Program
- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Undergraduate students must matriculate (be accepted) to the program at the end of their sophomore year, in order to move on to the subsequent program years.

Students pursuing the Landscape Architecture degree need to apply to matriculate by the last Monday in March at the end of a student's sophomore year. An average of up to 30 students are accepted to the program per year. Matriculation is based on performance in LAEP1200 INTRO GRAPHIC AND ILLUSTRATION, LAEP1300 DIGITAL DRAFTING, ILLUS, MODEL, LAEP1350 THEORY OF DESIGN, LAEP2300 HIST LANDSCAPE ARCHITECT (BHU), LAEP2500 CONSTRUCTION MATERIALS, LAEP2600 LANDSCAPE CONSTRUCTION I (QI), LAEP2700 ANALYSIS DESIGN I, LAEP2720 ANALYSIS AND DESIGN 2, and PSC2620 WOODY PLANT MATERIALS, a portfolio of work from those courses, and a statement of intent. A 3.0 LAEP GPA is required, with no grade lower than C- in any course required for matriculation. Matriculation Portfolios are due the last Monday in March. Learn more about the matriculation application process at https://qanr.usu.edu/laep/undergraduate/matriculation.

Please note that LAEP students have specific computer requirements.

Program Requirements

Total Credits Required In Program Coursework
90

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

A minimum GPA of 3.0 is required in LAEP-prefix courses, with no individual LAEP-prefix course grade less than a C-. No pass/fail grades are accepted to fulfill LAEP-prefix courses. A minimum GPA of 2.5 is required for all other courses used to fulfill major requirements.

Once matriculated, an overall minimum GPA of 3.0 is required to maintain good standing.

Landscape Architecture - BLA Course Requirements

Type
Completion Requirement

LAEP Courses Required for Matriculation (35 credits)

Complete ALL of the following Courses:

- LAEP1200 - Introduction to Graphics and Illustration - 4cr.
- LAEP1300 - Digital Drafting, Illustration, and Modeling - 3cr.
- LAEP1350 - Theory of Design - 4cr.
- LAEP2300 - History of Landscape Architecture (BHU) - 3cr.
- LAEP2500 - Construction Materials and Detailing - 4cr.
- LAEP2600 - Landscape Construction I (QI) - 4cr.
- LAEP2700 - Analysis Design I - 5cr.
- LAEP2720 - Analysis and Design 2 - 5cr.
- PSC2620 - Woody Plant Materials: Trees and Shrubs for the Landscape - 3cr.

BLA Courses (44 credits)

Complete ALL of the following Courses:

- LAEP2200 - AutoCAD for Environmental Design - 3cr.
- LAEP2400 - 3D Representation - 3cr.
- LAEP3500 - Planting Design - 4cr.
- LAEP4110 - Landscape Construction II - 4cr.
- LAEP4910 - Foundations of Business in Design and Planning (CI) - 3cr.
- LAEP5310 - Recreation and Open Space Planning and Design - 5cr.
- LAEP5320 - Land Planning for Residential Development - 5cr.
- LAEP5370 - City and Regional Planning (CI) - 3cr.
  OR LAEP5060 - E Studio/Entrepreneurship in Planning and Design (CI) - 3cr.
- LAEP5410 - Urban Theory, Systems, and Design - 5cr.
- LAEP5100 - Senior Capstone: Planning & Design Leadership - 5cr.
- LAEP5300 - GIS for Environmental Planning - 4cr.

Study Abroad Requirement (2 credits)

In addition to travel within studios, the Bachelor of Landscape Architecture degree requires students to complete at least one study abroad experience sanctioned by the department during the Spring semester following matriculation (generally the Junior year). Three options are available to students: Semester-long Study Abroad, Individual Study Abroad Experience, and Faculty-led Study Abroad. Students are strongly encouraged to participate in faculty-led study abroad experiences

The faculty-led study abroad course occurs over spring break. Costs associated with the study abroad course vary, and students will be informed of their financial responsibility associated with the trip in a timely manner. **Students are individually responsible for finding and purchasing their own airfare to and from the destination.**

These study abroad experiences are planned well in advance, and require advance planning on the part of students. A significant course fee is associated with faculty led study abroad which covers shared expenses such as lodging, local transportation, and venue entry. In addition, students are responsible for and will need to plan for the cost of travel to and from the destination, meals during the trips, as well as souvenirs and any costs associated with personal care and toiletries, all of which are not included in the course fee. International travel requires legal documentation (i.e., a U.S. Passport), which is also the responsibility of the student. Passport applications should be processed the Fall semester before planned travel to study abroad.

Travel Course Requirement must be completed during the Spring semester following matriculation.

Learn more at https://caas.usu.edu/laep/undergraduate/study-abroad-requirements.

Complete ALL of the following Courses:

- LAEP5550 - Travel Course - 2cr.

Required Courses for BLA Majors that will Fulfill General Education Requirements (30 credits)

University General Education requirements must be met in the following areas:

Complete at least 1 course in the following course sets:

- Quantitative Literacy (QL) Course
- Breadth Creative Arts (BCA) Course
- Breadth American Institutions (BAI) Course
- Breadth Physical Sciences (BPS) Course
- Breadth Social Sciences (BSS) Course

University General Education course options

Additionally, the following courses are required to meet BLA requirements and also will fulfill General Education requirements, beyond those met through BLA core coursework.

Complete ALL of the following Courses:

- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
- LAEP1040 - Introduction to Environmental Planning and Sustainable Development (BLS) - 3cr.
  OR WILD2200 - Ecology of Our Changing World (BLS) - 3cr.
- GEO3000 - Epic Earth - Geoscience of National Parks (DSC) - 3cr.
  OR GEO3100 - Natural Disasters (DSC) - 3cr.
  OR PSC3100 - Soils and Civilization (DSC) - 3cr.
  OR ENVS3600 - Living with Wildlife (DSC) - 3cr.
  OR PSC5760 - Climate and Climate Change (DSC)(QI) - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.
  OR SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
  OR ANTH5650 - Developing Societies (DSS) - 3cr.
  OR ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
  OR POLS4820 - Natural Resources and Environmental Policy: Political Economy of Environmental Quality (DSS) - 3cr.

Elective Courses (9 credits)

Elective courses:
In addition to the core coursework required to meet accreditation standards for professional skills and competency to practice Landscape Architecture, the degree program is structured to provide students with opportunities to differentiate themselves in the professional marketplace according to their interests and aptitudes. Students seeking a Bachelor of Landscape Architecture degree should complete a Certificate or Minor in:

- Advanced Design, Geospatial, and Visualization Technologies
- Design Entrepreneurship
- Digital Modeling and Visualization
- Environmental Planning
- Sustainable Systems – Minor

These Certificates of Proficiency may be completed within the 120 credit requirement for the degree. Students seeking an alternate certificate should consult with their Academic Advisor to declare a

certificate and make a plan to complete all degree requirements (general education, core coursework, certificate) without extending beyond the 120 credits required to earn the Bachelor of Landscape Architecture degree.

Additional Comments:

Licensure Notification

This program typically leads to licensure and is accredited by the Landscape Architectural Accreditation Board (LAAB) to meet the educational requirements for licensure in the United States and its territories. USU has not determined if the program curriculum meets all the licensure requirements for individual jurisdictions, as each sets its own requirements for licensure and may have additional requirements such as a supervised employment period. Students wishing to work within the United States should review the qualifications for their intended jurisdiction, and complete the LARE exam for that state or territory. For more information, please visit www.clarb.org/home/about-clarb.

Accelerated Master of Landscape Architecture - BLA, MLA

Program Overview

College
College of Agriculture & Natural Resources

Department
Landscape Architecture & Environmental Planning

Program Level
Graduate

About this Degree

The accelerated Bachelor of Landscape Architecture and Master of Landscape Architecture (BLA+MLA) program allows advanced Landscape Architecture and Environmental Planning (LAEP) undergraduates the opportunity to pursue a combined bachelor's and master's degree program within an accelerated time frame.

The mission of the accelerated BLA+MLA program is to prepare future professionals to address the dynamic issues and scales of landscapes across the Intermountain West and around the world and engage in creative intellectual work that contributes to the theory and practice of landscape architecture.

- For more information about Landscape Architecture, see the website.
- Please consult the LAEP undergraduate advisor, and the LAEP Graduate Program Coordinator if interested in pursuing this dual degree.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program

Undergraduate students must matriculate (be accepted) to the program at the end of their sophomore year. Please contact the LAEP Department at (435) 797-0500 for more information.

Matriculated landscape architecture undergraduate students will apply for this accelerated B+MLA program by March 15th of their Junior year.

Program Requirements

Total Credits Required In Program Coursework
120

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

A minimum overall GPA of 3.0 is required in LAEP-prefix courses, with no individual LAEP-prefix course grade less than a C-. No pass/fail grades are accepted to fulfill LAEP-prefix courses. A minimum USU overall GPA of 2.5 is required for all other courses used to fulfill major requirements.

Course Number Acceptability

Credits in the following areas are not acceptable in a graduate degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

At least 30-semester graduate credits for a master's degree must be from a committee-approved and a School of Graduate Studies-approved Program of Study from Utah State University.

Type
Completion Requirement

University General Education course options

Additionally, the following courses are required to meet BLA requirements and also will fulfill General Education requirements, beyond those met through BLA core coursework.

Complete ALL of the following Courses:

- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
- GEO3100 - Natural Disasters (DSC) - 3cr.
  OR GEO3000 - Epic Earth - Geoscience of National Parks (DSC) - 3cr.
  OR PSC3100 - Soils and Civilization (DSC) - 3cr.
  OR ENVS3600 - Living with Wildlife (DSC) - 3cr.
  OR PSC5760 - Climate and Climate Change (DSC)(QI) - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.
  OR SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
  OR ANTH5650 - Developing Societies (DSS) - 3cr.
  OR ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
  OR POLS4820 - Natural Resources and Environmental Policy: Political Economy of Environmental Quality (DSS) - 3cr.
- LAEP1040 - Introduction to Environmental Planning and Sustainable Development (BLS) - 3cr.
  OR WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

LAEP Courses Required for Matriculation (35 credits)

Students must matriculate (be accepted) to the BLA program. Matriculation is based on performance in the following courses and submission of a design portfolio and letter of intent. Learn more at laep.usu.edu/students/how-to-apply.

Complete ALL of the following Courses:

- LAEP1200 - Introduction to Graphics and Illustration - 4cr.
- LAEP1300 - Digital Drafting, Illustration, and Modeling - 3cr.
- LAEP1350 - Theory of Design - 4cr.
- LAEP2300 - History of Landscape Architecture (BHU) - 3cr.
- LAEP2500 - Construction Materials and Detailing - 4cr.
- LAEP2600 - Landscape Construction I (QI) - 4cr.
- LAEP2700 - Analysis Design I - 5cr.
- LAEP2720 - Analysis and Design 2 - 5cr.
- PSC2620 - Woody Plant Materials: Trees and Shrubs for the Landscape - 3cr.

BLA Courses (43 credits)

The following courses are required for the BLA undergraduate portion of the degree.

Complete ALL of the following Courses:

- LAEP2200 - AutoCAD for Environmental Design - 3cr.
- LAEP2400 - 3D Representation - 3cr.
- LAEP5310 - Recreation and Open Space Planning and Design - 5cr.
- LAEP5320 - Land Planning for Residential Development - 5cr.

- LAEP5300 - GIS for Environmental Planning - 4cr.
- LAEP3500 - Planting Design - 4cr.
- LAEP5410 - Urban Theory, Systems, and Design - 5cr.
- LAEP4110 - Landscape Construction II - 4cr.
- LAEP5100 - Senior Capstone: Planning & Design Leadership - 5cr.
- LAEP5550 - Travel Course - 2cr.
- LAEP4910 - Foundations of Business in Design and Planning (CI) - 3cr.

Undergraduate Electives (9 credits)

Complete the following as needed:
Total undergraduate elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Students seeking an accelerated degree program are not required to complete a Certificate of Proficiency or Minor. Please consult your Academic Advisor for details.

Theory Graduate Courses (9 credits)

Complete ALL of the following Courses:

- LAEP6740 - Planning Theory and Implementation Issues - 3cr.
- LAEP6750 - Implementation and Regulatory Techniques in Planning - 3cr.
- LAEP6860 - Faculty/Interdisciplinary Seminar I - 1cr.
- LAEP6910 - Readings in Landscape Architecture - 1cr.
- LAEP6930 - Readings in Environmental Planning - 1cr.

Thesis Courses (8 credits)

To be accepted into the combined BLA+MLA program, students must apply for the Master's of Landscape Architecture Degree via applynow.usu.edu during their junior year. If accepted, they begin taking graduate-level courses during their senior year. Students only pay graduate-level tuition during their fifth year of study. Learn more on the LAEP website.

A Plan A thesis or Plan B paper/project option is required and is to be negotiated with the candidate, major professor, and supervisory committee. Every graduate student is required to complete 2 credits of LAEP6970 THESIS RESEARCH, and an additional 3 credits of LAEP6970 THESIS RESEARCH **or** 3 credits in LAEP6960 MASTER'S PROJECT, depending on plan type.

Complete ALL of the following Courses:

- LAEP6880 - Landscape Architecture Research Methods - 2cr.
- LAEP6890 - Seminar on Thesis Proposals and Procedures - 1cr.
- LAEP6970 - Thesis Research - 1cr.

all students are required to complete 2 credits of LAEP6970 THESIS RESEARCH

Plan-specific Thesis Requirements

Fulfill ANY of the following requirements:

Plan A

Earn at least 3 credits from the following:

- LAEP6970 - Thesis Research - 1cr.

Plan A students required to complete 3 additional credits

OR

Plan B

Earn at least 3 credits from the following:

- LAEP6960 - Master's Project - 1cr.

Plan B students required to complete 3 additional credits

Graduate Design Courses (11 credits)

Complete ALL of the following Courses:

- LAEP6060 - E Studio / Entrepreneurship in Planning and Design (CI) - 3cr.
- LAEP6110 - Landscape Ecology for Planning - 3cr.
- LAEP6200 - Bioregional Analysis and Planning - 5cr.

Graduate Electives (11 credits)

Complete the following as needed:
Elective courses must be 5000 level or higher. Students should consult their major professor when selecting elective courses.

Required Courses for BLA Majors that will Fulfill General Education Requirements (30 credits)

University General Education requirements must be met in the following areas:

Complete at least 1 course in the following course sets:

- Quantitative Literacy (QL) Course
- Breadth Creative Arts (BCA) Course
- Breadth American Institutions (BAI) Course
- Breadth Physical Sciences (BPS) Course
- Breadth Social Sciences (BSS) Course

Accelerated Bachelor of Landscape Architecture and Master of Science in Environmental Planning - BLA, MsEP

Program Overview

College
College of Agriculture & Natural Resources

Department
Landscape Architecture & Environmental Planning

Program Level
Graduate

About this Degree

The accelerated Bachelor of Landscape Architecture and Master of Science in Environmental Planning (BLA+EP) program allows advanced Landscape Architecture and Environmental Planning (LAEP) undergraduates the opportunity to pursue a combined bachelor's and master's degree program within an accelerated time frame.

The accelerated BLA+EP program prepares future professionals to recognize the reciprocal relationship between the biophysical attributes of a region and the human dimensions of settlement and culture; build expertise in landscape level analysis and planning, and prepare to serve as leaders within a transdisciplinary environment to develop better alternatives for land-use decisions and policy. The accelerated program is comprised of a core set of undergraduate landscape architecture and graduate environmental planning courses and experiences.

- For more information about Landscape Architecture, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program

Undergraduate students must matriculate (be accepted) to the program at the end of their sophomore year. Please contact the LAEP Department at (435) 797-0500 for more information.

Matriculated landscape architecture undergraduate students will apply for this accelerated BLA+EP program by March 15th of their Junior year.

Program Requirements

Total Credits Required In Program Coursework
120

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

A minimum overall GPA of 3.0 is required in LAEP-prefix courses, with no individual LAEP-prefix course grade less than a C-. No pass/fail grades are accepted to fulfill LAEP-prefix courses. A minimum USU overall GPA of 2.5 is required for all other courses used to fulfill major requirements.

Course Number Acceptability

Credits in the following areas are not acceptable in a graduate degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

At least 30-semester graduate credits for a master's degree must be from a committee-approved and a School of Graduate Studies-approved Program of Study from Utah State University.

Accelerated Bachelor of Landscape Architecture and Master of Science in Environmental Planning - BLA, MsEP Course Requirements

Type
Completion Requirement

University General Education course options

Additionally, the following courses are required to meet BLA requirements and also will fulfill General Education requirements, beyond those met through BLA core coursework.

Complete ALL of the following Courses:

- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
- GEO3100 - Natural Disasters (DSC) - 3cr.
  OR GEO3000 - Epic Earth - Geoscience of National Parks (DSC) - 3cr.
  OR PSC3100 - Soils and Civilization (DSC) - 3cr.
  OR ENVS3600 - Living with Wildlife (DSC) - 3cr.
  OR PSC5760 - Climate and Climate Change (DSC)(QI) - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.
  OR SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
  OR ANTH5650 - Developing Societies (DSS) - 3cr.
  OR ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
  OR POLS4820 - Natural Resources and Environmental Policy: Political Economy of Environmental Quality (DSS) - 3cr.
- LAEP1040 - Introduction to Environmental Planning and Sustainable Development (BLS) - 3cr.
  OR WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

LAEP Courses Required for Matriculation (35 credits)

Students must matriculate (be accepted) to the BLA program. Matriculation is based on performance in the following courses and submission of a design portfolio and letter of intent. Learn more at laep.usu.edu/students/how-to-apply.

Complete ALL of the following Courses:

- LAEP1200 - Introduction to Graphics and Illustration - 4cr.
- LAEP1300 - Digital Drafting, Illustration, and Modeling - 3cr.
- LAEP1350 - Theory of Design - 4cr.
- LAEP2300 - History of Landscape Architecture (BHU) - 3cr.
- LAEP2500 - Construction Materials and Detailing - 4cr.
- LAEP2600 - Landscape Construction I (QI) - 4cr.
- LAEP2700 - Analysis Design I - 5cr.
- LAEP2720 - Analysis and Design 2 - 5cr.
- PSC2620 - Woody Plant Materials: Trees and Shrubs for the Landscape - 3cr.

BLA Courses (42 credits)

The following courses are required for the BLA undergraduate portion of the degree:

Complete ALL of the following Courses:

- LAEP2200 - AutoCAD for Environmental Design - 3cr.
- LAEP2400 - 3D Representation - 3cr.
- LAEP3500 - Planting Design - 4cr.
- LAEP4110 - Landscape Construction II - 4cr.
- LAEP4910 - Foundations of Business in Design and Planning (CI) - 3cr.
- LAEP5300 - GIS for Environmental Planning - 4cr.
- LAEP5310 - Recreation and Open Space Planning and Design - 5cr.
- LAEP5320 - Land Planning for Residential Development - 5cr.
- LAEP5400 - Advanced Geospatial Analysis and Visualization for Environmental Planning - 4cr.
- LAEP5410 - Urban Theory, Systems, and Design - 5cr.
- LAEP5550 - Travel Course - 2cr.

Undergraduate Electives (9 credits)

Complete the following as needed:
Total undergraduate elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Students seeking an accelerated degree program are not required to complete a Certificate of Proficiency or Minor. Please consult your Academic Advisor for details.

Theory Graduate Courses (8 credits)

Complete ALL of the following Courses:

- LAEP6740 - Planning Theory and Implementation Issues - 3cr.
- LAEP6750 - Implementation and Regulatory Techniques in Planning - 3cr.
- LAEP6910 - Readings in Landscape Architecture - 1cr.
- LAEP6930 - Readings in Environmental Planning - 1cr.

Thesis Courses (8 credits)

To be accepted into the combined BLA+EP program, students must apply to the Environmental Planning Master's Degree via applynow.usu.edu during their junior year. If accepted, they begin taking graduate level courses during their senior year. Students only pay graduate level tuition during their fifth year of study. Learn more at https://caas.usu.edu/degrees/laep/accelerated/bla-msep.

A Plan A thesis or Plan B paper/project option is required and is to be negotiated with the candidate, major professor, and supervisory committee. Students will then either complete 3 credits of LAEP6970 THESIS RESEARCH or 3 credits in LAEP6960 MASTER'S PROJECT, depending on the student's plan type.

Complete ALL of the following Courses:

- LAEP6880 - Landscape Architecture Research Methods - 2cr.
- LAEP6890 - Seminar on Thesis Proposals and Procedures - 1cr.
- LAEP6970 - Thesis Research - 1cr.

all students must complete 2 credits of LAEP6970 THESIS RESEARCH

Plan-Specific Thesis Requirements

Fulfill ANY of the following requirements:

Plan A

Earn at least 3 credits from the following:

- LAEP6970 - Thesis Research - 1cr.

OR

Plan B

Earn at least 3 credits from the following:

- LAEP6960 - Master's Project - 1cr.

Environmental Planning Graduate Courses (16 credits)

Complete ALL of the following Courses:

- LAEP6110 - Landscape Ecology for Planning - 3cr.
- LAEP6200 - Bioregional Analysis and Planning - 5cr.
- LAEP6210 - Bioregional Management and Policy - 5cr.
- LAEP6370 - City and Regional Planning - 3cr.

Graduate Electives (7 credits)

Graduate elective courses must be 5000 level or higher.

The following are suggested electives:

Complete ALL of the following Courses:

- ENVS6310 - Introduction to Environmental Laws and Policy - 3cr.

Required Courses for BLA Majors that will Fulfill General Education Requirements (30 credits)

University General Education requirements must be met in the following areas:

Complete at least 1 course in the following course sets:

- Quantitative Literacy (QL) Course
- Breadth Creative Arts (BCA) Course
- Breadth American Institutions (BAI) Course
- Breadth Physical Sciences (BPS) Course
- Breadth Social Sciences (BSS) Course

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Apply for matriculation to the BLA program spring semester of second year. Applications are due the last Monday in March.

Apply to the Accelerated Bachelor of Landscape Architecture and Master of Science in Environmental Planning BLA+EP by March 15th of third year.

Landscape Architecture - MLA

Program Overview

College
College of Agriculture & Natural Resources

Department
Landscape Architecture & Environmental Planning

Program Level
Graduate

About this Degree

The department offers a three-year, first professional graduate degree for students with a bachelor's degree in any area of study. This option allows students having a wide range of undergraduate experience to obtain an accredited degree in landscape architecture that fulfills the educational requirement for professional registration and allows entrance into the field of landscape architecture.

The mission of the Department of Landscape Architecture and Environmental Planning's Master of Landscape Architecture graduate program is to: (1) prepare future professionals to address the dynamic issues and scales of landscapes across the Intermountain West and around the world; and (2) engage in creative intellectual work that contributes to the theory and practice of landscape architecture.

The program for the Master of Landscape Architecture (MLA) emphasizes both traditional site planning and design, as well as broader areas of the profession, such as large-scale regional landscape analysis and planning. The MLA first professional degree is fully accredited by the Landscape Architectural Accreditation Board of the American Society of Landscape Architects.

The Master of Landscape Architecture program provides opportunities for each student to study and conduct research in areas which take advantage of the strengths of Utah State University and the landscape context of the Intermountain West centered around the expertise of the LAEP Department faculty. These areas of faculty expertise include relevant environmental, design, social, economic, and public policy issues utilizing a wide range of computer-based techniques, models, and analog skills.

Consult the LAEP department website for more information regarding this graduate degree program.

Admission Requirements for this Program

The application deadline for consideration in the first round of reviews is March 15. Applications received later than March 15 will be considered as space availability allows.

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Program Requirements

Total Credits Required In Program Coursework
69

Total Credits Required To Earn This Credential
69

Simple Requisites

Program Requirements

A minimum overall GPA of 3.0 is required in LAEP-prefix courses, with no individual LAEP-prefix course grade less than a C. No pass/fail grades are accepted to fulfill LAEP-prefix
courses. Graduate students are required to maintain at least a 3.0 GPA for degre e-program courses. Grades of C or lower will not be accepted for a graduate deg ree.

Course Number Acceptability

Credits in the following areas are not acceptable in a graduate degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Program Requirements

Type
Completion Requirement

Prerequisite Courses (14 credits)

Complete ALL of the following Courses:

- LAEP1200 - Introduction to Graphics and Illustration - 4cr.
- LAEP1300 - Digital Drafting, Illustration, and Modeling - 3cr.
- LAEP1350 - Theory of Design - 4cr.
- PSC2620 - Woody Plant Materials: Trees and Shrubs for the Landscape - 3cr.

MLA Courses (37 credits)

Complete ALL of the following Courses:

- LAEP2720 - Analysis and Design 2 - 5cr.
- LAEP2300 - History of Landscape Architecture (BHU) - 3cr.
- LAEP2600 - Landscape Construction I (QI) - 4cr.
- LAEP2700 - Analysis Design I - 5cr.
- LAEP6160 - Foundations of Business in Design and Planning - 3cr.
- LAEP6310 - Recreation and Open Space Planning and Design - 5cr.
- LAEP6320 - Land Planning for Residential Development - 5cr.
- LAEP6350 - Planting Design - 4cr.
- LAEP6750 - Implementation and Regulatory Techniques in Planning - 3cr.

Theory Courses (6 credits)

Complete ALL of the following Courses:

- LAEP6740 - Planning Theory and Implementation Issues - 3cr.
- LAEP6860 - Faculty/Interdisciplinary Seminar I - 1cr.
- LAEP6910 - Readings in Landscape Architecture - 1cr.
- LAEP6930 - Readings in Environmental Planning - 1cr.

Thesis Courses (5 credits)

A Plan A thesis or Plan B paper/project option is required and is to be negotiated with the candidate, major professor, and supervisory committee. Every graduate student is required to complete 2 credits of LAEP6970 THESIS RESEARCH, and an additional 3 credits of LAEP6970 THESIS RESEARCH **or** 3 credits in LAEP6960 MASTER'S PROJECT depending on plan type.

Complete ALL of the following Courses:

- LAEP6880 - Landscape Architecture Research Methods - 2cr.
- LAEP6890 - Seminar on Thesis Proposals and Procedures - 1cr.
- LAEP6970 - Thesis Research - 1cr.

all students are required to complete 2 credits of LAEP6970 THESIS RESEARCH

Plan A Thesis requirement (3 credits)

Complete ALL of the following Courses:

- LAEP6970 - Thesis Research - 1cr.

Plan A students required to complete 3 additional credits

Plan B Project requirement (3 credits)

Complete ALL of the following Courses:

- LAEP6960 - Master's Project - 1cr.

Plan B students required to complete 3 additional credits

Graduate Studios (8 credits)

Complete ALL of the following Courses:

- LAEP6200 - Bioregional Analysis and Planning - 5cr.
- LAEP6060 - E Studio / Entrepreneurship in Planning and Design (CI) - 3cr.

Elective Courses (10 credits)

Electives are dependent on thesis work and recommendations from a student's major professor.

Additional Comments:

Licensure Notification

This program typically leads to licensure and is accredited by the Landscape Architectural Accreditation Board (LAAB) to meet the educational requirements for licensure in the United States and its territories. USU has not determined if the program curriculum meets all the licensure requirements for individual jurisdictions, as each sets its own requirements for licensure and may have additional requirements such as a supervised employment period. Students wishing to work within the United States should review the qualifications for their intended jurisdiction, and complete the LARE exam for that state or territory. For more information, please visit www.clarb.org/home/about-clarb.

Law and Constitutional Studies - BA, BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	School of Social Sciences	Undergraduate

About this Degree

The program is intended to introduce students to the study of law and politics, with an emphasis on the American Constitution. The program focuses on how constitutional rules affect political and economic processes. Students study the theory, history, economics, and development of constitutional thought. They also learn about natural and civil rights, a market economy, a self-governing citizenry, voluntary associations, and the rule of law.

Through an intensive program of constitutional study, this major equips students with the intellectual tools and understanding of constitutional principles necessary to enter graduate study or law school, as well as a variety of other professions.

Students receive a by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages.

- For more information about Law and Constitutional Studies, see the Department of Political Science website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is Quantitative Literacy (QL) course of the student's choice.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 3.0 USU GPA and a 3.0 Career GPA

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
36	120

Simple Requisites

Program Requirements

Major Requirements (36 credits)
Minimum GPA for Graduation: 3.0 in major courses
Minimum Grade Accepted: C in major courses

Please note that none of the courses can be taken pass/fail; all Political Science courses must be taken for a letter grade. Also, all courses must be attended in their entirety.

Additional Information

In addition to completion of the requirements for a bachelor's degree, a Bachelor of Arts (BA) degree signifies proficiency in one or more foreign languages. Specifically, the BA requirement may be completed in one of the following ways:

- Demonstration of proficiency in one foreign language by successful completion of one course at the 2020-level or higher (or its equivalent) **OR**

- Demonstration of proficiency in American Sign Language by successful completion of American Sign Language IV (**ASL4920 AMERICAN SIGN LANGUAGE IV**) and Socio-Cultural Aspects of Deafness (**ASL4780 DEAF CULTURE**), and by passing an exit interview **OR**
- Demonstration of proficiency in two foreign languages by successful completion of the 1020 course level or higher in one language **and** the 2010 course level or higher in the second language (or its equivalent) **OR**
- Completion of an upper-division (3000-level or higher) foreign language grammar or literature course requiring the 2020 course level (or its equivalent) as a prerequisite. Conversation courses cannot be considered for satisfying this requirement.

For non-native English-speaking students only, the following options are available:

- Successful completion of the Intensive English Language Institute (IELI) program for international students OR
- TOEFL, IELTS, other USU approved exam, or IELI placement scores high enough to meet the university admission criteria.

Note:

- Students may count up to 6 credit hours toward the Law and Constitutional Studies major that were also taken in pursuit of another major or minor.
- For detailed information about requirements for the Law and Constitutional Studies major, see the major requirement sheet, which can be obtained from the Political Science Department.

Major Requirements (36 credits)

Type
Completion Requirement

A. Required Courses (21 credits)

Course Sequencing: Law and Constitutional Studies majors are **required** to complete POLS1100 US GOVT AND POLITICS (BAI) as a prerequisite to all 3000-and 4000-level Political Science courses. It is **advised** that Law and Constitutional Studies majors take POLS3120 LAW AND POLITICS (DSS) prior to POLS4120 AMERICAN CONSTITUTIONAL LAW, POLS4130 CONSTITUTIONAL THEORY, POLS5130 LAW AND POLICY, or POLS5140 LAW, POLITICS AND WAR.

Fulfill ALL of the following requirements:

Required Courses (12 credits

Complete ALL of the following Courses:

- POLS1100 - United States Government and Politics (BAI) - 3cr.
- POLS2300 - Introduction to Political Theory (BHU) - 3cr.
- POLS3120 - Law and Politics (DSS) - 3cr.
- POLS4120 - American Constitutional Law - 3cr.

NOTE:

1. POLS1100 US GOVT AND POLITICS (BAI) - Advanced Placement (AP) U.S. Government may replace this course requirement.

AND

Required Courses

Complete at least 1 of the following courses:

- POLS5130 - Law and Policy - 3cr.
- POLS5140 - Law, Politics, and War - 3cr.

AND

Required Courses

Complete at least 2 of the following courses:

- POLS3310 - American Political Thought (DSS) - 3cr.
- POLS3320 - The Foundations of American Constitutionalism - 3cr.
- POLS4130 - Constitutional Theory - 3cr.
- POLS4140 - Political Organizations - 3cr.
- POLS3170 - Law and Economics - 3cr.
- POLS4800 - Constitutional Design - 3cr.

C. Area Requirements (6 credits minimum)

Complete the following;
Students must take a minimum of **six upper-division credits** in U.S. Government and Policy in addition to courses required for this major.

D. Electives (9 credits)

Any Political Science upper-division courses can be used to complete the major and fulfill this requirement, with **two exceptions:**

1. Not more than **three** credits in Directed Readings courses (POLS4910 READINGS AND CONFERENCE) can apply to this requirement.
2. Not more than **three** Internship credits in the following courses can apply to this requirement:

Complete ANY of the following Courses:

- POLS5900 - Government and Policy Internship Seminar - 3cr.
- POLS5910 - Campaign Internship - 1cr.
- POLS5920 - Washington Internship - 1cr.
- POLS5930 - State Government Internship - 1cr.
- POLS5940 - Administrative Internship - 1cr.
- POLS5950 - International Internship - 1cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Law Enforcement Officer - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

Federal Gainful Employment Information

The Law Enforcement Officer technical certificate is designed to help students prepare for a career in Law Enforcement and certification under Utah law. All law enforcement departments must have all police officers complete this program before performing the duties of a patrol officer, investigator, or deputy. This program functions to allow students a high-quality and structured entry into the field of criminal justice with a marketable skill set and state-recognized credentials. Students who complete the certificate will be prepared to work in law enforcement and prepare for a career that can be stacked upward into a future degree.

Admission Requirements for this Program

- Successfully completed the SFO certification test in the past 4 years AND/OR employment with an agency and engaging in SFO duties.
- At least 21 years of age at the time of certification for LEO
- If over 12 months since completing the SFO certification, they applicant must the LEO entry test.

Program Learning Outcomes

Program Learning Outcomes

- Understand core criminal justice and law enforcement principles.
- Meet Utah's requirements for police officer certification.
- Demonstrate essential skills for entry-level law enforcement roles.
- Act professionally and ethically in law enforcement settings.
- Follow legal procedures, state statutes, and department policies.
- Earn marketable, state-recognized credentials for employment.
- Build a foundation for further education in criminal justice.

Landscape Architecture and Environmental Planning - PhD

Program Overview

College
College of Agriculture & Natural Resources

Department
Landscape Architecture & Environmental Planning

Program Level
Graduate

About this Degree

The interdisciplinary Doctor of Landscape Architecture and Environmental Planning prepares leaders and future faculty in landscape architecture by engaging in creative intellectual work that contributes to the theory and practice of landscape architecture. Candidates apply critical theories and methods in landscape architecture to address the dynamic issues and scales of natural and built landscapes in the context of human systems. All courses require a minimum grade of C or higher. A total of 60 credits are required for this program.

Law and Society Area Studies - Institutional Certificate of Proficiency

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

The Department of Sociology and Anthropology sponsors an interdisciplinary program emphasizing the study of the relationship between law and society. The Law and Society Area Studies Certificate is an opportunity for students interested in law school, public administration, counseling or law enforcement-related careers to emphasize the study of the relationship between law and society from an interdisciplinary perspective

Program Requirements

Total Credits Required In Program Coursework
24

Total Credits Required To Earn This Credential
24

Simple Requisites

Program Requirements

Students must complete at least 24 credits from the courses listed below, at least 50% of which must be completed at USU. The courses must be chosen from at least three different disciplines; no more than 12 credits may be chosen from a single discipline; and at least 15 of the 24 credits must be at the 3000 level or above. A student must maintain a 3.0 grade point average for the 24 credits. Classes more than 10 years old may not count towards the certificate, neither will classes take P/F. The Law and Society Area Studies Certificate must be attached to a bachelor's degree. Courses taken for the Law and Societies Area Studies requirements may also count toward fulfilling requirements for a major and general education requirements. A student's final transcript will reflect the Law and Society Area Studies Institutional Certificate of Proficiency upon completion of the requirements for a degree.

Law and Society Area Studies - ICP

Type
Completion Requirement

Required Course Options (24 credits)

Earn at least 24 credits from the following:

- CJ1010 - Introduction to Criminal Justice (BSS) - 3cr.
- CJ1300 - Introduction to Corrections - 3cr.
- CJ1330 - Criminal Law - 3cr.
- CJ1340 - Criminal Investigations - 3cr.
- CJ1390 - Introduction to Policing - 3cr.
- CJ2330 - Juvenile Justice - 3cr.
- CJ2350 - Laws of Evidence - 3cr.
- CJ2360 - Juvenile Law and Procedures - 3cr.
- CJ2370 - Child Abuse and Neglect - 3cr.
- CJ3150 - Moot Court - 3cr.
- CJ3320 - Criminal Procedure - 3cr.
- CJ3370 - Gender-Based Violence - 3cr.
- CJ4200 - Criminal Justice Ethics - 3cr.
- CJ4440 - The Origins of the United States Criminal Justice System (DSS) - 3cr.
- ECON4500 - Public Economics - 3cr.
- ENVS3600 - Living with Wildlife (DSC) - 3cr.
- HDFS3100 - Abuse and Neglect in Family Context - 3cr.

OR PSY3120 - Abuse, Neglect, and the Psychological Dimensions of Intimate Violence (DSS) - 3cr.
- HDFS4220 - Family Crises and Interventions - 3cr.
- HDFS4230 - Family and Social Policy - 3cr.
- HEP3000 - Drugs and Human Behavior - 3cr.
- HIST4720 - The Civil Rights Movement (DHA/CI) - 3cr.
- HIST4730 - History of Black America (CI) - 3cr.
- JCOM4030 - Mass Media Law (DSS) - 3cr.
- MGT3350 - Legal and Ethical Environment of Business - 3cr.
- MGT3810 - Employment Law (DSS) - 3cr.
- PHIL1120 - Social Ethics (BHU) - 3cr.
- PHIL3520 - Business Ethics (DHA) - 3cr.
- POLS3120 - Law and Politics (DSS) - 3cr.
- POLS3130 - United States Legislative Politics (DSS) - 3cr.
- POLS3170 - Law and Economics - 3cr.
  OR ECON3550 - Law and Economics - 3cr.
- POLS3230 - Middle Eastern Government and Politics - 3cr.
- POLS3320 - The Foundations of American Constitutionalism - 3cr.
- POLS3810 - Introduction to Public Policy (DSS) - 3cr.
- POLS4120 - American Constitutional Law - 3cr.
- POLS4130 - Constitutional Theory - 3cr.
- POLS5100 - Politics and Public Policy - 3cr.
- POLS5130 - Law and Policy - 3cr.

Latin American Studies - Minor

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Undergraduate

About this Degree

The Latin American Studies Minor is housed across several departments in the College of Arts & Sciences. The curriculum provides students with an interdisciplinary introduction to Latin American Studies and Latinx Studies, enabling students to develop multicultural literacy and intercultural competence skills that are valuable in globalized contexts and in a wide range of careers. Students will enhance their understanding of the historical, political, economic, cultural, and sociological aspects of the countries and peoples of Latin America. Students may choose from electives taught in English, and/or Spanish, and/or Portuguese languages.

Coordination:

Marcela Lemos, Department of World Languages & Cultures, marcela.lemos@usu.edu and Sophia Martinez-Abbud, Department of English, sophia.martinezabbud@usu.edu

Admission Requirements for this Program

Admission requirements for the minor: 2.0 GPA

Liberal Arts - BA

Program Overview

College	Department	Program Level
College of Arts & Sciences	Communication & Media	Undergraduate

About this Degree

The liberal arts program helps students gain a basic understanding of the development of civilization, historical and cultural traditions, political institutions and processes, and develop an appreciation of fine arts and literature. Because it covers such a broad base, it develops the student's rational thought and intellectual capabilities in many areas.

Students graduating with a degree in liberal arts are highly desired by employers in a number of areas. By completing a degree through this program, students show they are trainable, fast learners, motivated, flexible, and willing to take on new ideas and concepts. Because students also study a foreign language, they develop marketable language and communication skills, which are sought after by many employers.

- Please make sure to consult regularly with your departmental advisor to confirm what courses will be available and to work out your plan of study.
- Admitted and current students must meet with an academic advisor.
- Login to Degree Works to check student-specific program progress.
- The highest Math Requirement for this degree is STAT1040 INTRO TO STATISTICS (QL) or STAT1080 FOUNDATIONS OF DATA SCI (QL).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.5 USU cumulative, 2.5 minimum career total
- Students must have completed 45 credits before being admitted to the Liberal Arts major.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
36	120

Simple Requisites

Program Requirements

Minimum Grade: C in major courses
Minimum Graduation GPA: 2.5 in major courses, 2.0 USU cumulative
Number of Required Credits: 36 (18 must be in upper-division courses)
Other Major Requirements: Must complete the university's Bachelor of Arts Degree Requirements found on the Undergraduate Academic Credential Requirements page

The focus of study for the Liberal Arts major is to help students gain a basic understanding of the development of civilization, including historical and cultural traditions, political institutions and processes, an appreciation of arts and literature, and expanded capacities for critical thought. Students will work with an academic advisor to develop a program of interdisciplinary courses which will provide this base of knowledge. Although the student's program should be outlined and approved by the academic advisor, the student will be able to choose from a number of courses and disciplines in defining his or her program of study. The program requirements are as listed:

- Four goals for learning have been identified, and courses are selected to fulfill these goals.
- Students must choose 9 credits of coursework from each goal for a total of 36 credits.
- Students must complete courses from a minimum of two different departments listed under each goal.
- Of the 36 total credits, students must earn 18 credits in courses numbered 3000 or higher.
- All credits counting in the 36-credit minimum must have a letter grade of C or better and cannot be taken pass/fail.
- At least 18 credits used in the goal areas must be completed at USU.
- At least 18 credits used in the goal areas must be no older than 10 years.

Foreign Language Requirement

In addition to completion of the requirements for a bachelor's degree, a Bachelor of Arts (BA) degree signifies proficiency in one or more foreign languages. Specifically, the BA requirement may be completed in one of the following ways:

- Demonstration of proficiency in one foreign language by successful completion of one course at the 2020-level or higher (or its equivalent) **OR**
- Demonstration of proficiency in American Sign Language by successful completion of American Sign Language IV (**ASL4920 AMERICAN SIGN LANGUAGE IV**) and Socio-Cultural Aspects of Deafness (**ASL4780 DEAF CULTURE**), and by passing an exit interview **OR**
- Demonstration of proficiency in two foreign languages by successful completion of the 1020 course level or higher in one language **and** the 2010 course level or higher in the second language (or its equivalent) **OR**
- Completion of an upper-division (3000-level or higher) foreign language grammar or literature course requiring the 2020 course level (or its equivalent) as a prerequisite. Conversation courses cannot be considered for satisfying this requirement.

For non-native English-speaking students only, the following options are available:

- Successful completion of the Intensive English Language Institute (IELI) program for international students OR
- TOEFL, IELTS, other USU approved exam, or IELI placement scores high enough to meet the university admission criteria.

Liberal Arts - BA

Type
Completion Requirement

Goal One - Historical and Cultural Traditions (9 credits)

Purpose: To acquire an understanding of the historical and cultural traditions of Western and/or other civilizations

Students must choose courses from at least two of the following areas:

Earn at least 9 credits

- Any History Courses

- Any Anthropology Courses
- Any Folklore Courses
- Any Religious Studies Courses
- World/Regional Geography Courses
- Upper-division Language Courses dealing with culture or civilization (Does not include grammar or conversation courses.)
- Selected Linguistics Courses dealing with culture or civilization

Goal Two - Social and Legal Institutions (9 credits)

Purpose: To develop an understanding of social and legal institutions

Students must choose courses from at least two of the following areas:

Earn at least 9 credits

- Any Sociology Courses
- Any Political Science Courses
- Any Family, Consumer, and Human Development Courses
- Any Economics Courses (except orientation courses)
- Any Psychology Courses (except for study skills or career exploration courses)
- Any Management Courses (except orientation courses or leadership courses)

Goal Three - Arts and Literature (9 credits)

Purpose: To develop and strengthen an appreciation of the arts and literature

Courses selected must be theory or history based, not skill based.

Students must choose courses from at least two of the following areas:

Earn at least 9 credits

- Art
- Theatre Arts
- Music
- Literature (English or Upper-division Foreign Language Courses)
- Selected Landscape Architecture and Environmental Planning Courses
- Selected Interior Design Courses

Goal Four - Critical Thinking, Reasoning, and Ethical Inquiry (9 credits)

Purpose: To promote habits of critical, reasonable, and ethical inquiry, providing logic and intellectual integrity in seeking truths

Students must choose courses from at least two of the following areas:

Earn at least 9 credits

- Any Philosophy Courses
- Any departmental Ethics Courses
- Upper-division Speech Courses dealing with persuasion, debate, influence, and argumentation.
- Other courses from other areas may be approved in the goals by consultation with the academic advisor.

Methods Course Requirement: A Statistics or methods course must be taken as part of the 9-credit minimum for Goal Four if not taken as a part of the University Studies Quantitative Literacy requirement.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Legal and Business Translation and Interpretation - Certificate

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Undergraduate

About this Degree

The Certificate in Legal and Business Translation and Interpretation is a program with a strong emphasis on the theory and practice of the field of translation and interpretation for legal and business settings. This certificate seeks to attract students who are fluent in English and Spanish (upper intermediate-advance proficiency of their second language) who are interested in pursuing a career as language professionals specializing in legal and business settings. This certificate is perfect for bilingual individuals (Spanish/English) who are committed to easing communication barriers that exist when non-English speakers interact with institutions, private companies, and the legal system at large, whether they are Spanish heritage speakers or have a high intermediate-advanced level of Spanish as a second language.

Program Requirements

Total Credits Required In Program Coursework
16

Total Credits Required To Earn This Credential
16

Simple Requisites

Program Requirements

Upon completing 16 credits of in-person coursework at USU main campus in Logan, the certificate prepares students for careers in business and legal translation as well as legal interpretation. Students will develop competencies to provide accurate written translation and interpreting services in the business and legal fields, including court settings. This certificate will prepare students to take the State and Federal legal/court interpreter certification exams, the American Translators Association (ATA) Certification test, and guide students towards the pursuit of careers as language professionals offering high-quality interpretation and translation services.

Legal and Business Translation and Interpretation - Certificate

Type
Completion Requirement

Admission Requirement: Prerequisites

Students must take one of the following prerequisite courses.

Complete at least 1 of the following courses:

- SPAN3040 - Advanced Spanish Grammar - 3cr.
  OR SPAN3060 - Advanced Spanish Conversation and Composition (CI) - 3cr.
  OR SPAN3510 - Business Spanish - 3cr.

Course Requirements

Complete ALL of the following Courses:

- SPAN3061 - Fundamentals of Translation and Interpretation - 3cr.
- SPAN3082 - Legal and Business Translation - 3cr.
- SPAN4072 - Simultaneous and Consecutive Legal Interpretation - 3cr.
- SPAN4082 - Advanced Legal Translation and Interpretation - 3cr.

Additional Requirement

Students will ultimately enroll in the following course to complete the certificate.

Complete ALL of the following Courses:

- LANG1050 - Language Skills and Career Design - 1cr.

Leadership & Diplomacy - Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

This certificate helps provide a multidisciplinary foundation that fosters greater awareness, knowledge, and skills for becoming more effective community leaders, communicators, and problem solvers with a focus on either the domestic or global level.

Program Requirements

Total Credits Required In Program Coursework
21

Total Credits Required To Earn This Credential
21

Simple Requisites

Program Requirements

- Minimum GPA for Admission: 2.5
- Cumulative Minimum GPA in Certificate Coursework for Graduation: 2.5
- Cumulative Number of Required Credits: 21
- Students must select 1 of 2 academic tracks: Domestic or Global
- CAPSTONE: a domestic or international internship
- Courses may not be taken on a pass/fail basis except for those courses which are only taught pass/fail

Track 1: Domestic Leadership and Diplomacy

Type
Completion Requirement

Track Information

See the following:
Students in this track must take the following core courses from the list of options: 1 Political Science course (3 credits), 1 Communication Studies course (3 credits), one Careers/Leadership seminar course (1 credit) and participate in a domestic internship (2 credit minimum), for a total of 9 credits.

REQUIRED COURSES (9 credits)

Complete ALL of the following Courses:

- CMST2110 - Interpersonal Communication (BHU) - 3cr.
  OR CMST3600 - Communication and Conflict - 3cr.
- POLS1100 - United States Government and Politics (BAI) - 3cr.
- POLS4890 - Special Topics - 1cr.
  OR POLS4850 - Public Policy and Community Leadership - 1cr.
- POLS5910 - Campaign Internship - 1cr.
  OR POLS5920 - Washington Internship - 1cr.
- POLS5930 - State Government Internship - 1cr.
  OR POLS5940 - Administrative Internship - 1cr.

NOTE:

1. POLS4890 SPECIAL TOPICS - *With title "Careers in Government and Policy"*

Elective Courses (12 credits)

Students can select a minimum of 4 division courses (3 credits each) from the following departments and colleges, although they must take at least one upper division course each from the Political Science and Communication Departments.

Fulfill ANY of the following requirements:

Political Science Courses (3 credits)

Complete at least 1 of the following courses:

- POLS3110 - Parties and Elections (DSS) - 3cr.
- POLS3115 - Electoral Behavior - 3cr.
- POLS3120 - Law and Politics (DSS) - 3cr.
- POLS3130 - United States Legislative Politics (DSS) - 3cr.
- POLS3140 - The Presidency (DSS) - 3cr.
- POLS3150 - State and Local Government - 3cr.
- POLS3180 - Introduction to Public Administration - 3cr.
- POLS4120 - American Constitutional Law - 3cr.
- POLS4140 - Political Organizations - 3cr.
- POLS4160 - The First Amendment - 3cr.
- POLS4350 - Public Policy and Democratic Theory - 3cr.
- POLS4500 - The Politics of Social Movements (DSS) - 3cr.
- POLS4820 - Natural Resources and Environmental Policy: Political Economy of Environmental Quality (DSS) - 3cr.
- POLS4840 - Regulatory Politics - 3cr.
- POLS5100 - Politics and Public Policy - 3cr.

OR

Communication Studies Courses (3 credits)

Complete at least 1 of the following courses:

- CMST3250 - Organizational Communication (CI) - 3cr.
- CMST3270 - Culture and Public Discourse (DHA) - 3cr.
- CMST3280 - Organizations and Social Change - 3cr.
- CMST3400 - Persuasion - 3cr.
- CMST3510 - Development and Philanthropy - 3cr.
- CMST4200 - Language, Thought, and Action (CI/DSS) - 3cr.
- CMST4270 - Communication, Culture, and Power - 3cr.
- CMST4700 - Health Communication (CI) - 3cr.
- CMST4750 - Strategic Health Messaging - 3cr.
- CMST5500 - Communication and Leadership - 3cr.
- CMST5600 - Advanced Communication and Conflict - 3cr.

OR

Other Elective Courses (6 credits)

Fulfill ANY of the following requirements:

Religious Studies

Complete ANY of the following Courses:

- RELS1070 - Religion, Violence, and Peace (BHU) - 3cr.
- RELS1090 - Introduction to Interfaith Leadership (BHU) - 3cr.
- RELS3010 - Introduction to Buddhism (DHA) - 3cr.
- RELS3020 - Introduction to Hinduism (DHA) - 3cr.
- RELS3030 - Introduction to Islam (DHA) - 3cr.
- RELS3050 - Introduction to Christianity (DHA) - 3cr.
- RELS3160 - Anthropology of Religion (DSS) - 3cr.

- RELS3165 - Bridging Religious Difference in Theory and Practice: an Introduction to Interfaith Leadership - 3cr.

OR

History

Complete ANY of the following Courses:

- HIST2710 - United States 1877-Present (BAI) - 3cr.
- HIST3010 - Introduction to Buddhism (DHA) - 3cr.
- HIST3020 - Introduction to Hinduism (DHA) - 3cr.
- HIST3030 - Introduction to Islam (DHA) - 3cr.
- HIST3060 - Introduction to Judaism (DHA) - 3cr.
- HIST3615 - Latinx History - 3cr.
- HIST3770 - Contemporary America: World War II to the Cold War - 3cr.
- HIST3950 - Environmental History (DHA/CI) - 3cr.
- HIST4540 - Gender, Violence, and Non-violence - 3cr.
- HIST4710 - American Indian History - 3cr.
- HIST4720 - The Civil Rights Movement (DHA/CI) - 3cr.

OR

Sociology

Complete ANY of the following Courses:

- CJ4200 - Criminal Justice Ethics - 3cr.
- SOC2630 - Sociology of Race and Ethnicity (BSS) - 3cr.
- SOC3200 - Population and Society (DSS) - 3cr.
- SOC3340 - Activism, Protest, and Social Movements (DSS) - 3cr.
- SOC3600 - Finding Community in Today's Society (DSS) - 3cr.
- SOC4350 - People, Power, and the Political - 3cr.
- SOC4410 - Race and Crime (CI) - 3cr.

Livestock Extension - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Animal, Dairy & Veterinary Sciences, Applied Sciences, Technology and Education

Program Level
Undergraduate

About this Degree

The Livestock Extension Certificate is a 25-credit program designed to prepare students for careers in Extension, specifically focused on serving the animal agriculture needs of Utah's communities and stakeholders. This certificate is a collaborative effort between the Department of Animal, Dairy and Veterinary Sciences (ADVS) and the Department of Applied Sciences, Technology, and Education (ASTE). The curriculum integrates both disciplinary knowledge in livestock management and practical skills in Extension services.

The program emphasizes hands-on learning and community engagement, equipping students with the skills needed to lead educational outreach programs and apply innovative livestock management practices in the field. This certificate provides a critical educational pathway for students interested in advancing Utah's agricultural sector through Extension work.

Admission Requirements for this Program

Students must be declared in a bachelor's degree program.

18

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

Fall semester: students are required to take SHS6340 FOUNDATIONS LIST & SPOKEN LANG and SHS6320 LANG LIT CHILD HL, in addition to practicum, SHS6700 PRACT IN ED DEAF/HH for 3 credit hours, for a total of 9 credit hours Fall semester.
Spring semester: students are required to take SHS6770 AUDIO AND TEACHERS DEAF/HH. They then have a choice of taking one of two options: SHS6350 LS ITINERANT SUP/CHLD DHH or SHS6580 FAMILY CENTERED PRAC IN HL, in addition to practicum, COMD6700 PRACT IN ED DEAF/HH for 3 credit hours, for a total of 9 credit hours Spring semester.

As current professionals, they are already established in their employment settings and can determine if a course in K-12 services (SHS6350 LS ITINERANT SUP/CHLD DHH) or 0-5 Early Intervention services (SHS6580 FAMILY CENTERED PRAC IN HL) is most relevant to them.

Practicum fall and spring semesters: A unique aspect of the program is the individual mentoring students receive in fulfilling the practicum requirements during fall and spring semester (SHS6700 PRACT IN ED DEAF/HH). USU faculty supervisors connect weekly with students to discuss lesson plans, observe them (recorded and real-time) as they are providing services in their employment settings, and provide them with guidance and feedback in service delivery. Students who have completed the program report this to be invaluable to them in connecting theory to practice.

Marketing Analytics - Post-Bachelor's Certificate

Program Overview

College
Jon M. Huntsman School of Business

Department
Data Analytics & Information Systems

Program Level
Graduate

About this Degree

Through the collaboration of the Data Analytics and Information Systems (DAIS) and Marketing and Strategy (MSLE) departments, the Marketing Analytics graduate certificate is designed for students with a marketing background who want to build strong, applied analytics skills to compete in today's data-driven marketing profession. This certificate provides a focused, career-relevant pathway that aligns with the Huntsman School's emphasis on real-world impact, employer partnerships, and stackable credentials.

Who should consider this certificate?

- Marketing graduates seeking to deepen quantitative and analytical capabilities.
- Professionals aiming to analyze customer data, optimize campaigns, and demonstrate measurable marketing ROI.
- Anyone pursuing flexible, stackable credentials that complement a broader data analytics skillset.

Note that the Marketing Analytics Post-Bachelor's Certificate can be completed on its own, or it can be stacked with other certificates offered by the Department of Data Analytics and Information Systems (or with designated certificates from other campus programs) to meet the requirements of the Master's of Data Analytics (MDATA) program.

Data Analytics and Information Systems Faculty

Courses in Data Technologies Post-Bachelor's Certificate program are taught by faculty in the Department of Data Analytics and Information Systems who have years of corporate and academic experience. Our instructors are experts in the most cutting-edge tools and strategies for data and tech.

https://huntsman.usu.edu/dais/directory

Admission Requirements for this Program

Prior bachelor's degree with at least a 3.0 GPA in previous 90 credits; relevant coursework or experience in basic data analysis, programming, and marketing.

Program Requirements

Total Credits Required In Program Coursework
12

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

The certificate requires 12 total credits, with 9 required credits and one additional 3-credit elective course as outlined within the curriculum below. Individual substitutions for course requirements may be considered and approved on a case-by-case basis by the Data Analytics and Information Systems Department.

Courses used to fulfill requirements for this certificate may not include courses previously completed to meet the requirements of any other certificate or program, and cannot be used to complete any other certificate or program.

Courses remain valid for 6 years for potential inclusion in a future master's degree program (MMIS or MDATA).

Certificate students who opt to earn an MMIS or MDATA degree will be granted a waiver for reduced application fees for their future master's application. Please contact our office for details.

Museum Administration and Collections Management - Post-Bachelor's Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Graduate

About this Degree

Program Director: Dr. Jacob Freeman, Department of Sociology and Anthropology
Graduate Program Director: Dr. Judson Finley, Department of Sociology and Anthropology

Department Head: Dr. Judson Finley, Department of Sociology and Anthropology
Location: Old Main 245
Phone: (435) 797-0219
WWW: https://chass.usu.edu/anthropology/index

The Post-Bachelor's Certificate in Museum Administration and Collections Management Policy is designed to prepare both fully matriculated graduate students as well as current professionals in the field wishing to enhance their portfolios in Museum Administration and Collections Management. The certificate combine graduate level anthropology courses as well as courses offered from the School of Business and the College of Agriculture and Applied Sciences. This certificate may be earned as a stand-alone certification or as part of the USU Anthropology Graduate Program.

Students who complete the program will receive a post-bachelor's certificate in Museum Administration and Collections Management Policy. Their USU transcript will list the courses and grades received to complete the program.

Admission Requirements for this Program

To apply for admittance to the program, a person must complete and submit an application to the School of Graduate Studies. Academic credits obtained from the program may be applied toward a graduate degree.

To apply, the School of Graduate Studies requires:

1. A bachelor's degree (or, for some doctoral programs, a master's degree) that is or will be completed before the student matriculates in the degree program.
2. A 3.0 or higher grade-point average for terms that include the student's last 60 semester credits or 90 quarter credits.
3. Resume/CV
4. International applicants are required to submit proof of proficiency in English.

Marketing Design - Minor

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Instructional Technology & Learning Sciences, Marketing and Strategy	Undergraduate

About this Degree

The most successful products and services are designed with the end user, the customer, in mind. The Marketing Design minor explores the customer-product interface, Whether an app, a physical product, software, physical space, or service, the product offering must make sense to the customer.

The Marketing Design Minor is a collaboration between the Department of Marketing and Strategy (MSLE) in the Huntsman School of Business and the Department of Instructional Technology and Learning Sciences (ITLS) in the Emma Eccles Jones College of Education. Students will learn the fundamentals of marketing and customer behavior and have options of taking courses in instructional design, product design, or multimedia design. Students earning this minor are qualified for careers in User Experience and User Interface Design, Project and Product Management, Web Development, Learning Design, and Data Analysis.

Program Requirements

14	14

Simple Requisites

Program Requirements

A Marketing Design Minor is available to all majors at the university. Students are responsible for completing prerequisite courses where applicable. A minimum, average 2.5 GPA must be obtained in minor coursework for the minor to be awarded at graduation. Courses for the minor *may not* be taken on a pass/fail basis. At least nine (9) of the credits for the minor must be completed through USU.

Required Core Courses

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- MSLE3200 - Adobe Graphic Design - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3620 - Marketing Research and Analytics - 2cr.
- ITLS3110 - Design Perspectives and Processes I - 3cr.

Elective courses. Complete at least one of the following courses:

Type
Completion Requirement

Elective Courses (3 credits)

Complete at least 1 of the following courses:

- ITLS3120 - Design Perspectives and Processes II - 3cr.
- ITLS3130 - How People Learn - 3cr.
- ITLS5215 - Video and Audio Design and Production I - 3cr.
- ITLS5230 - Graphic Design and Production I - 3cr.
- ITLS5265 - Internet Design and Development - 3cr.
- ITLS5270 - Digital Making and Learning - 3cr.

A minimum GPA of 2.50 is required in every minor course.

Manufacturing and Design Technology - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Manufacturing and Design Technology Certificate is designed to provide students with essential technical skills in manufacturing and design, preparing them for immediate entry into the workforce or further study in related fields. This hands-on, skills-based program emphasizes the use of industry-standard tools and techniques, with a strong focus on computer-aided design (CAD), manufacturing processes, and quality assurance.

Students will gain practical experience in areas such as graphic communication, materials processing, automation, electronics, and engineering technology communication. The curriculum is tailored to meet the needs of today's manufacturing industry and is ideal for students seeking a robust, applied education in technical design and production.

Career Relevance

Graduates of this program will be well-prepared for careers in manufacturing, product design, automation, and related technical fields. The certificate responds directly to industry demand for skilled professionals and supports students in building a strong foundation for long-term career success.

Program Highlights

This 31-credit certificate program is particularly valuable for students who did not attend a Utah technical college and therefore lack a formal credential in a related field. It also serves as a stackable credential within the department's Associate of Applied Science (AAS) Degree in General Technology, offering a clear pathway for continued education and career advancement.

Mathematics Education - Minor

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Undergraduate

About this Degree

The Mathematics Education minor satisfies Utah requirements for the Middle School Mathematics Teaching Endorsement which qualifies educators to teach 6th grade through 9th grade mathematics. (https://schools.utah.gov/curr/mathematics/endorsements).

This program is recommended for future educators who want to add mathematics to another teaching major.

Mathematics Education - BA, BS

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Undergraduate

About this Degree

The mathematics education major is designed to prepare teachers of mathematics at the middle and high school levels. USU's math education program is recognized as the largest and the best in the state, with 100% of its graduates receiving teaching positions in school districts upon graduation.

Students in the program learn much higher math than they will ever teach in middle school or high school, making them experts in their subject area. They also take methods courses where they learn how to teach the material to students and have early experience in actual classrooms, making them more familiar and comfortable with these settings before they begin their student teaching.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages. See Undergraduate Academic Credential Requirements for language requirements.

- For more information about Mathematics Education, see the website.
- Admitted and current students must meet with an advisor - Linda Skabelund.
- Log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 3.0 GPA; ACT scores of 21 composite or 20 verbal/ English and 19 mathematics/quantitative.

In addition to Utah State University's admissions requirements, the mathematics education program has additional requirements:

New freshmen admitted to USU in good standing qualify for admission to this major. A 3.0 GPA, ACT scores of 21 composite and 20 verbal/English and 19 mathematics/quantitative and 30 credits of coursework are required for admission to the Secondary Teacher Education Program (STEP). Students should contact the School of Teacher Education and Leadership (TEAL) for information on additional admission criteria.

Transfer students from other institutions or other USU majors need a 3.0 GPA, ACT scores of 21 composite and 20 verbal/English and 19 mathematics/ quantitative to be admitted to the major. They also need 30 credits of coursework to be admitted to the STEP. Students should contact the School of Teacher Education and Leadership (TEAL) for information on additional admission criteria.

Program Requirements

Total Credits Required In Program Coursework
35

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

In order to obtain a secondary teaching license for grades 6-12, students must complete the 35-credit Secondary Teacher Education Program (STEP), which includes one semester of student teaching in a public school. This program is administered by USU's School of Teacher Education and Leadership (TEAL) within the Emma Eccles Jones College of Education and Human Services. Student must apply to the School of TEAL the semester before taking STEP courses. This is usually the fall of their junior year. Students learn subject content through the Mathematics and Statistics Department, and spend the last year or two studying education techniques through the STEP program.

A grade of C or better is required in all courses taken for the major. Program coursework *may not* be taken on a pass/fail basis, except MATH4300 SCHOOL MATH LAB II **and** SCED5630 STUDENT TEACHING SEC SCHOOL**. A cumulative GPA of 3.0 is required to be recommended for graduation.**

Some major coursework may fulfill the General Education Requirements, or University Studies Requirements.

- Two courses having the CI designation (such as MATH4200 FOUNDATIONS OF ANALYSIS (CI), MATH4310 INTRO ALGEBRAIC STRC (CI), MATH5580 ACTUARIAL MATH II (CI), and STAT5100 MODERN REGRESSION METH(CI)(QI)) will meet the Communications Intensive (CI) requirement.
- One course having the QI designation (such as MATH2210 MULTIVARIABLE CALCULUS (QI), MATH2250 LINEAR ALG/DIFF EQUATIONS (QI), MATH2270 LINEAR ALGEBRA (QI), MATH2280 ORD DIFFRNTIAL EQUATIONS (QI), STAT2000 STATISTICAL METHODS (QI), and STAT3000 STATISTICS FOR SCIENTISTS (QI)) will meet the Quantitative Intensive (QI) requirement.

Mathematics Education - BA, BS

Type
Completion Requirement

Major Requirements (35 credits)

Complete ALL of the following Courses:

- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- MATH3110 - Modern Geometry - 3cr.
- MATH3310 - Discrete Mathematics - 3cr.
- MATH4200 - Foundations of Analysis (CI) - 3cr.
- MATH4310 - Introduction to Algebraic Structures (CI) - 3cr.
- MATH5400 - Mathematics and Its History - 3cr.
  OR MATH3010 - Pedagogical Foundations of Algebra - 3cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.

Clinicals (13 credits)

Must be taken after students are admitted into the SCED program and within the year before student teaching.

MATH3300 SCHOOL MATH LAB I is not required for students with teaching minors in other departments.

Earn at least 13 credits from the following:

- MATH3300 - School Laboratory for Mathematics Teachers Level I - 1cr.
- MATH4300 - School Laboratory for Mathematics Teachers Level II - 1cr.
- MATH5010 - Technology for Teaching Mathematics - 3cr.
- MATH5020 - Mathematical Cognition and Assessment of Mathematical Achievement - 3cr.
- MATH5500 - Methods of Secondary School Mathematics Teaching - 3cr.
- STAT4010 - Probability and Statistics for Teachers - 3cr.

Mathematics Secondary Teaching Requirements (24 credits)

Earn at least 24 credits from the following:

- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

College of Science Sequence (6-8 credits)

Choose one of the following sequences:

Fulfill ANY of the following requirements:

Biology Sequence

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Sequence

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

OR

Geology Sequence

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
  AND GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.

OR

Physics Sequence

Complete one of the following coursesets.

Complete ANY of the following Courses:

- PHYS2110 - General Physics—Life Sciences I - 4cr.
  AND PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
  AND PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.

OR

Computer Science Sequence

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
  OR CS1440 - Software Engineering Fundamentals - 3cr.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Marketing - Minor

Program Overview

College
Jon M. Huntsman School of Business

Department
Marketing and Strategy

Program Level
Undergraduate

Program Requirements

Total Credits Required In Program Coursework
12

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

A Marketing Minor is available to all majors at the university (except for Marketing Majors). Students are responsible for completing prerequisite courses where applicable. A minimum, average 2.5 GPA must be obtained in the Minor for the Minor to be awarded at graduation. Courses for the minor *may not* be taken on a pass/fail basis. At least nine (9) of the credits for the minor must be completed through USU.

Marketing Minor Required Courses (12 credits)

Type
Completion Requirement

Required Classes (7 credits)

Complete ALL of the following Courses:

- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3620 - Marketing Research and Analytics - 2cr.
- MSLE4510 - Consumer Behavior - 2cr.

Elective Courses (Complete at least 5 credits)

Earn at least 5 credits from the following:

- MSLE3200 - Adobe Graphic Design - 3cr.
- MSLE3530 - New Venture Marketing - 3cr.
- MSLE3630 - E-Commerce and Internet Marketing - 2cr.
- MSLE3855 - Sustainability Marketing - 2cr.
- MSLE4050 - International Marketing - 3cr.
- MSLE4535 - Promotional Strategy - 2cr.
- MSLE4545 - Digital Marketing - 2cr.
- MSLE4555 - Pricing & B2B Buyer-Seller Decisions - 2cr.
- MSLE4560 - Strategic Sales (CI) - 2cr.
- MSLE4590 - Marketing Strategy - 3cr.

Marketing - BA, BS

Program Overview

College
Jon M. Huntsman School of Business

Department
Marketing and Strategy

Program Level
Undergraduate

About this Degree

The marketing major prepares students to understand brand management and the marketing needs of companies ranging from major consumer product companies to small businesses. As part of the marketing major, students can pursue coursework specialization related to digital marketing and e-commerce, marketing research and analytics, corporate buying and category management, business sustainability, small business marketing, consumer psychology, and/or business to business (B2B) professional selling.

- For more information about Marketing, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL) OR STAT1040 INTRO TO STATISTICS (QL).

Admission Requirements for this Program

First-Year and Transfer Students are admitted to the Huntsman School of Business based on USU's Admission Requirements.

Current USU Students in good standing qualify for admission into a Huntsman School major.

Huntsman School Admission Details: https://huntsman.usu.edu/undergraduate/apply

Program Requirements

Total Credits Required In Program Coursework
70

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Students must complete the university General Education Requirements

Students must also complete the University Studies Requirements

- Elective credits needed will be determined on an individual basis (a student with continuing education, AP credits, and language credits may not require additional elective credits).
- Completing a minor or set of certificates is recommended to fulfill elective credits.
- All marketing majors need to complete an internship or equivalent career accelerating work experience before graduation. See description of college career accelerator program further below.
- This major requires an overall GPA of 2.0 and a GPA of 2.5 in all major requirements. Major requirements *may not* be taken for a pass/fail grade.

Career Paths

A wide variety of career paths are possible in the Marketing major, for example:

1. Marketing Research and Analytics
2. Product Development and Brand Management
3. E-Commerce and Digital Marketing
4. Advertising and Content Creation
5. Corporate Buying and Corporate Sales

Marketing - BA, BS Course Requirements

Type
Completion Requirement

Business Acumen (46-47 credits)

All acumen courses must have a minimum grade of C unless otherwise stated.

Complete ALL of the following Courses:

- MSLE3500 - Fundamentals of Marketing - 3cr.
- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- BUS3200 - Professional Communication with AI (CI) - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- DATA3100 - Making Decisions with Data - 3cr.
- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- FIN3300 - Investments - 3cr.
- MGT3350 - Legal and Ethical Environment of Business - 3cr.
- MGT3700 - Operations Management - 3cr.
- MSLE3800 - Leadership - 2cr.
- MSLE3890 - Systems Strategy and Problem Solving - 2cr.

Marketing majors require a B- grade or higher in MSLE 3500

Beginning Fall 2026, all Majors (not Minors) in the Huntsman School of Business are required to participate in a career accelerating experience (aka the Career Acceleration Program, or CAP); the requirement for CAP varies by Major. The listed MSLE4250 internship elective course (further below) does count as one of the options for CAP for marketing Majors. Please see your assigned marketing student advisor in the advising office for the full list of approved marketing CAP activities.

Major Requirements

All majors in the Huntsman School of Business require 70 hours split between acumen and major courses. Currently the acumen is 47 credits. Thus, in addition to the business acumen classes, marketing majors must complete 23 credits in marketing courses, split across the marketing core and electives as currently follows:

Fulfill ALL of the following requirements:

Required Marketing Courses (15 credits)

Complete ALL of the following Courses:

- MSLE3610 - Strategic Planning for Career and Life (CI) - 2cr.
- MSLE3620 - Marketing Research and Analytics - 2cr.
- MSLE4510 - Consumer Behavior - 2cr.
- MSLE4535 - Promotional Strategy - 2cr.
- MSLE4545 - Digital Marketing - 2cr.
- MSLE4560 - Strategic Sales (CI) - 2cr.
- MSLE4590 - Marketing Strategy - 3cr.

Note: MSLE3500 is a prerequisite for several of the required marketing classes. MSLE 3500 is not shown in this section of courses because it is already previously listed as a part of the required business acumen courses.

Marketing Elective Credits (8 credits)

Earn at least 8 credits from the following:

- MSLE3200 - Adobe Graphic Design - 3cr.
- MSLE2800 - HMA Consulting - 1cr.
- MSLE2850 - PhD Prep Seminar - 1cr.
- MSLE2900 - Pro Sales - 1cr.
- MSLE3530 - New Venture Marketing - 3cr.
- MSLE3630 - E-Commerce and Internet Marketing - 2cr.
- MSLE3855 - Sustainability Marketing - 2cr.
- MSLE4050 - International Marketing - 3cr.
- MSLE4250 - Marketing-Strategy-Leadership-Entrepreneurship Internship - 2cr.
  OR ACCT4250 - Accounting Internship - 3cr.
  OR FIN4250 - Finance Internship - 1cr.
  OR MGT4250 - Management Internship - 1cr.
  OR ECON4920 - Economics Internship - 1cr.
  OR IS4250 - Data Analytics and Information Systems Internship - 1cr.
- MSLE4555 - Pricing & B2B Buyer-Seller Decisions - 2cr.
- MSLE4565 - Sales Management - 2cr.
- MSLE4575 - Customer Success Strategy - 2cr.
- MSLE4580 - Artificial Intelligence in Marketing Experimental Design - 2cr.

Note:

- MSLE2800 HMA CONSULTING, MSLE2850 PHD PREP, and MSLE2900 PRO SALES are each repeatable, but limited to 2 credits combined towards elective Marketing major credit.
- Two credits combined towards elective Marketing major credit can be taken from the listed different 4250 internship courses.
- Suggested course for different elective courses for different marketing career focus areas:

  · **Marketing Analytics:** Take MSLE3620 MARKETING RESEARCH ANALYTICS, MSLE4555 PRICING&B2B BUY-SELL DECISIONS, and at least two of either DATA5420 INTRO TEXT MINING, DATA5480 DATA MINING, DATA5600 INTRO REGRESSION MACHINE LEARN, or DATA5620 CAUSAL INFERENCE

  · **Digital & E-Commerce Marketing:** Take MSLE3630 E-COMMERCE MARKETING, MSLE4545 DIGITAL MARKETING, MSLE4555 PRICING&B2B BUY-SELL DECISIONS, and either JCOM3120 EDITING AND DESIGN (CI) or JCOM4040 SOCIAL MEDIA CONTENT DEVELOP

  · **B2B/Category Management/E-Commerce:** Take MSLE3630 E-COMMERCE MARKETING, MSLE4555 PRICING&B2B BUY-SELL DECISIONS and one or more of MSLE4560 STRATEGIC SALES (CI), MSLE4575 CUSTOMER SUCCESS STRATEGY

  · **Corporate B2B Sales:** MSLE4560 STRATEGIC SALES (CI), MSLE4565 SALES MANAGEMENT, MSLE4575 CUSTOMER SUCCESS STRATEGY, and 2 credits of MSLE2900 PRO SALES

  · **Business Sustainability:** MSLE3855 SUSTAINABILITY MARKETING, MGT4790 MANAGING GLOBAL VALUE CHAINS, and either ADVS5030 SUSTAINABLE AG PROD SYSTEMS, ENVS5550 SUSTAINABILITY CONCEPTS MSRMNT, WATS1200 NATURAL WORLD (BLS). Additional sustainability courses can be found at: https://www.usu.edu/sustainability/programs/academic/usu-courses

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Marine Science - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Watershed Sciences

Program Level
Undergraduate

About this Degree

Through coursework and immersive experiences, the marine science minor introduces students to marine ecosystems, marine biota, the chemical and physical properties of the ocean and the seafloor, and the conservation and management of marine resources.

The marine science minor is limited to students enrolled in a Watershed Sciences bachelor's degree program to ensure students have the relevant complementary science background and experiences to make the minor a valuable addition when they are applying for jobs. The marine science minor requires students to complete a minimum of 20 credits, 14 of which are required courses that span a breadth of marine subdisciplines. The remaining 6 credits can be achieved by taking at least two electives from a list of curated courses. The curriculum was developed to ensure that USU marine science minors receive a rigorous program of study with several opportunities for experiential learning. The minor requirements are achievable for individuals enrolled in a Watershed Sciences bachelor's degree with no additional time required to earn their degree.

Program Requirements

Mathematics/Statistics (Composite) - BA, BS

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Undergraduate

About this Degree

The mathematics/statistic (composite) major allows students to reap the benefits of applied mathematics and also the benefits of statistics, keeping both doors open for greater marketability and graduate school options. Through the program's coursework, students can gain essential knowledge in both areas, giving them a greater knowledge base.

Through the mathematics portion of the curriculum, students gain a solid education in areas including algebraic structures, analysis/advanced calculus, complex variables, partial differential equations, and more. They also take courses in computer science and physics to learn how to use mathematics in applied settings solving real problems.

In their statistics coursework, students study areas like probability, linear regression/ time series, experiment design, quality control, and various areas in statistical analysis. Essentially, statisticians can work in any career or for any company where data is collected or analyzed, making it a smart career choice with lots of possibilities.

- For more information about Mathematics/Statistics (Composite), see the website.
- Admitted and current students must meet with the advisor, Linda Skabelund.
- Log on to Degree Works to check student-specific program progress.

Additional Information

Some major coursework will fulfill General Education and University Studies Requirements.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.20 GPA; ACT scores of 21 composite and 20 verbal/ English and 19 mathematics/quantitative to be admitted.

Program Requirements

Program Requirements

- A grade of C- or better is required in all department major courses.
- Program coursework *may not* be taken on a pass/fail basis. This major requires a 2.00 GPA.

Major Requirements

Type
Completion Requirement

Required Courses (48-49)

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
  OR DSAI2275 - Linear Algebra for Data Science - 4cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- MATH3310 - Discrete Mathematics - 3cr.
- MATH4200 - Foundations of Analysis (CI) - 3cr.
- MATH4310 - Introduction to Algebraic Structures (CI) - 3cr.
- MATH5210 - Introduction to Analysis I - 3cr.
- MATH5710 - Introduction to Probability - 3cr.
- MATH5720 - Introduction to Mathematical Statistics - 3cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.
- STAT5200 - Analysis of Designed Experiments - 3cr.

Elective Credits (15 credits)

The following elective credits are required. Please see program advisor for course options.

Complete the following:
• 6 credits in MATH 5000 level or above
• 9 credits in STAT 5000 level or above

Science Sequence (6-8 credits)

Choose one of the following sequences:

Fulfill ANY of the following requirements:

Biology Sequence

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Sequence

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

OR

Geology Sequence

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
  AND GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.

OR

Physics Sequence

Chose one of the following Course sets.

Complete ALL of the following Courses:

- PHYS2110 - General Physics—Life Sciences I - 4cr.
  AND PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/ BPS) - 4cr.

AND PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.

OR

Computer Science Sequence

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
  OR CS1440 - Software Engineering Fundamentals - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Machining Technology - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

Students will master the safe and efficient operation of manual and automated equipment. Students will become proficient in interpreting complex engineering drawings and performing essential mathematical calculations. With hands-on experience using advanced measuring tools and cutting tool geometry, they'll transform raw materials into precise components.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Foundational Courses (15 Credits)

Type
Completion Requirement

Complete all courses (15 credits)

Complete ALL of the following Courses:

- TEMT1000 - Manufacturing Fundamentals - 3cr.
- TEMT1100 - Mill Concepts - 3cr.
- TEMT1150 - Computer-Numeric Control (CNC) Mill Concepts - 3cr.
- TEMT1200 - Lathe Concepts - 3cr.
- TEMT1250 - Computer-Numeric Control (CNC) Lathe Concepts - 3cr.

Supplemental Courses (15 Credits)

Type
Completion Requirement

Supplemental Courses

Earn at least 15 credits from the following:

- TEMT1300 - Computer Numerical Control (CNC) Mill Programming - 3cr.
- TEMT1350 - Computer-Numeric Control (CNC) Lathe Programming - 3cr.
- TEMT1400 - Intro to Computer-Numeric Control (CNC) Machining - 3cr.
- TEMT1565 - Advanced Print Reading - 3cr.
- TEMT1600 - Introduction to Manual Machining - 3cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

- Demonstrate safe operation of machine shop equipment.
- Interpret engineering drawings.
- Perform calculations common to the machining industry.
- Use appropriate measuring equipment.
- Use cutting tool geometry and theory in the machining process.
- Properly select appropriate equipment and cutting tools.
- Setup, program, and operate a Computer Numerical Control (CNC) machine.

Mathematics - Minor

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Undergraduate

Program Requirements

Total Credits Required To Earn This Credential
21-24

Simple Requisites

Program Requirements

All grades for MATH courses applied toward the Mathematics minor must be *C-* or better. Courses for the minor *may not* be taken on a pass/fail basis.

Mathematics - Minor

Type
Completion Requirement

Required Courses (11 credits)

Courses for the minor *may not* be taken on a pass/fail basis.

Earn a minimum grade of C- in the following:

- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.

Required Course Options (4-6 credits)

Students can choose Option 1 or Option 2 from below:

Fulfill ANY of the following requirements:

Option 1 (6-7 credits)

Earn a minimum grade of C- in the following:

- DSAI2275 - Linear Algebra for Data Science - 4cr.
  OR MATH2270 - Linear Algebra (QI) - 3cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.

OR

Option 2 (4 credits)

Earn a minimum grade of C- in the following:

- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.

Elective Courses (6 credits)

Select at least two additional courses (6 credits) from the following, ***excluding*** the following courses: MATH4300 SCHOOL MATH LAB II, MATH5500 METHODS SEC MATH TEACHING, MATH5570 ACTUARIAL MATH I, and MATH5580 ACTUARIAL MATH II (CI).

Complete ANY of the following Courses:

- MATH3310 - Discrete Mathematics - 3cr.

● Courses in mathematics numbered above 4000.

Mathematics: Actuarial Science Emphasis - BA, BS

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Undergraduate

About this Degree

USU's undergraduate degree in mathematics is a versatile program where students have a large variety of options as they study different areas in mathematics. The department is a close-knit unit where students receive individual attention from faculty mentors and the opportunity to pursue undergraduate research

Actuarial Science Emphasis: An actuary is a business professional who uses mathematical skills to define, analyze, and solve financial and social problems. USU is one of the only universities where students can complete the full undergraduate program in actuarial science required for job placement as an actuary. USU graduates in actuarial science require no further education in graduate school and receive 100% job placement in a career that is consistently rated as one of the top two careers in terms of job satisfaction, opportunities for advancement, and pay. This emphasis is also available through the statistics degree, but it is essentially the same.

Students receive a by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages. See Undergraduate Academic Credential Requirements for language course requirements.

- For more information about Mathematics: Actuarial Science Emphasis, see the website.
- Admitted and current students must meet with the advisor, Linda Skabelund.
- Log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.50 GPA.

Program Requirements

Total Credits Required In Program Coursework
62-65

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses in the major require a grade of C- or better. Courses *may not* be taken on a pass/fail basis.

Mathematics: Actuarial Science Emphasis - BA, BS

Type
Completion Requirement

Major Requirements (62-65 credits)

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
  OR DSAI2275 - Linear Algebra for Data Science - 4cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- MATH3310 - Discrete Mathematics - 3cr.
- MATH4200 - Foundations of Analysis (CI) - 3cr.
- MATH4310 - Introduction to Algebraic Structures (CI) - 3cr.
- MATH5210 - Introduction to Analysis I - 3cr.
- MATH5560 - Actuarial Financial Mathematics - 3cr.
- MATH5570 - Actuarial Math I - 3cr.
- MATH5580 - Actuarial Math II (CI) - 3cr.
- MATH5710 - Introduction to Probability - 3cr.
- MATH5720 - Introduction to Mathematical Statistics - 3cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.

Science Sequence (6-8 credits)

Choose one of the following Sequences:

Fulfill ANY of the following requirements:

Biology Sequence

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Sequence

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.

Mathematics: Applied Mathematics Emphasis - BS

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Undergraduate

About this Degree

USU's undergraduate degree in mathematics is a versatile program where students have a large variety of options as they study different areas in mathematics. The department is a close-knit unit where students receive individual attention from faculty mentors and the opportunity to pursue undergraduate research.

Applied Mathematics Emphasis: The emphasis in applied mathematics prepares students for careers in industry as well as graduate school in pure/applied mathematics, statistics, computer science and engineering. Internship and paid undergraduate research opportunities are available in quantitative biology and ecology, mathematical engineering, computational and data science, business, finance and economics. Our alumni are employed in data- and technology-oriented private industry as well as federal and state research institutions. Students receive foundational grounding in theoretical mathematical sciences and application-oriented training in model development and analysis, dynamic and stochastic systems, asymptotic analysis, differential equations, computational techniques, complex variables, statistics, data science and interdisciplinary problem-solving. The program provides excellent preparation for advanced study in applied topics, and students are consistently accepted into top-tier graduate schools.

- For more information about Applied Mathematics Emphasis, see the website.
- Admitted and current students must meet with the advisor, Linda Skabelund.
- Log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.75 GPA

Program Requirements

Total Credits Required In Program Coursework
70-72

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

A grade of C- or better is required in all mathematics and statistics courses. Program coursework *may not* be taken on a pass/fail basis.

Mathematics: Applied Mathematics Emphasis - BS

Type
Completion Requirement

Major Requirements (56 credits)

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
  OR DSAI2275 - Linear Algebra for Data Science - 4cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- MATH4200 - Foundations of Analysis (CI) - 3cr.
- MATH3310 - Discrete Mathematics - 3cr.
- MATH5210 - Introduction to Analysis I - 3cr.
- MATH5220 - Introduction to Analysis II - 3cr.
- MATH5270 - Complex Variables - 3cr.
- MATH5410 - Methods of Applied Mathematics - 3cr.
- MATH5420 - Partial Differential Equations - 3cr.
- MATH5710 - Introduction to Probability - 3cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.

AND

Required Courses

Complete one of the following course sets.

Complete ANY of the following Courses:

- PHYS2110 - General Physics—Life Sciences I - 4cr.
  AND PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
  AND PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.

NOTE: Completion of one of the PHYS options will also fulfill the Science Sequence requirement.

Elective Courses (5-7 credits)

Earn at least 5 credits from the following:

- MATH4410 - Discrete Math 2 - 4cr.
- MATH4610 - Fundamentals of Numerical Analysis - 3cr.
  OR MATH5610 - Introduction to Numerical Analysis - 3cr.
- MATH5620 - Numerical Algorithms for Approximate Solutions of DE - 3cr.

Additional Electives (9 credits)

Earn at least 9 credits
Select 9 credits from **Statistics** (STAT) courses numbered 5000 and above or **Mathematics** (MATH) courses numbered 5000 and above, **excluding** MATH5010 TECH FOR TEACHING MATH, MATH5020 TESTING AND COGNITION OF MATH, MATH5570 ACTUARIAL MATH I and MATH5580 ACTUARIAL MATH II (CI).

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

About this Degree

USU's undergraduate degree in mathematics is a versatile program where students have a large variety of options as they study different areas in mathematics. The department is a close-knit unit where students receive individual attention from faculty mentors and the opportunity to pursue undergraduate research.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages. See Undergraduate Academic Credential Requirements for required language credit.

- For more information about Mathematics, see the website.
- Admitted and current students must meet with and advisor - Linda Skabelund.
- Log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.75 GPA.

Program Requirements

Simple Requisites

Program Requirements

53 credits

Some major coursework may fulfill the General Education Requirements, or University Studies Requirements.

- Two courses having the CI designation (such as MATH4200 FOUNDATIONS OF ANALYSIS (CI), MATH4310 INTRO ALGEBRAIC STRC (CI), MATH5580 ACTUARIAL MATH II (CI), and STAT5100 MODERN REGRESSION METH(CI)(QI)) will meet the Communications Intensive (CI) requirement.
- One course having the QI designation (such as MATH2210 MULTIVARIABLE CALCULUS (QI), MATH2250 LINEAR ALG/DIFF EQUATIONS (QI), MATH2270 LINEAR ALGEBRA (QI), MATH2280 ORD DIFFRNTIAL EQUATIONS (QI), STAT2000 STATISTICAL METHODS (QI), and STAT3000 STATISTICS FOR SCIENTISTS (QI)) will meet the Quantitative Intensive (QI) requirement.

Mathematics - BA, BS

Type
Completion Requirement

Major Requirements (53 credits)

Complete ALL of the following Courses:

- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.

- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
  OR DSAI2275 - Linear Algebra for Data Science - 4cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- MATH3310 - Discrete Mathematics - 3cr.
- MATH4200 - Foundations of Analysis (CI) - 3cr.
- MATH4310 - Introduction to Algebraic Structures (CI) - 3cr.
- MATH5210 - Introduction to Analysis I - 3cr.
- MATH5220 - Introduction to Analysis II - 3cr.
- MATH5270 - Complex Variables - 3cr.
- MATH5310 - Introduction to Modern Algebra - 3cr.
- MATH5340 - Theory of Linear Algebra - 3cr.
- MATH5710 - Introduction to Probability - 3cr.

● Select 9 credits in Mathematics courses numbered above 5000.

College of Science Sequence (6-8 credits)

Choose one of the following sequences:

Fulfill ANY of the following requirements:

Biology Sequence

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Sequence

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

OR

Geology Sequence

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
  AND GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.

OR

Physics Sequence

Complete at least one courseset.

Earn at least 8 credits from the following:

- PHYS2110 - General Physics—Life Sciences I - 4cr.
  AND PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
  AND PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.

OR

Computer Science Sequence

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
  OR CS1440 - Software Engineering Fundamentals - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Mathematics: Computational - BA, BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Mathematics & Statistics	Undergraduate

About this Degree

USU's undergraduate degree in mathematics is a versatile program where students have a large variety of options as they study different areas in mathematics. The department is a close-knit unit where students receive individual attention from faculty mentors and the opportunity to pursue undergraduate research.

Computational Mathematics Emphasis: This emphasis deals with solving mathematical problems with computers and covers a wide range of coursework in computational mathematics and computer science. Students in this emphasis typically pursue careers as mathematicians for various companies that use computers.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign language. See Undergraduate Academic Credential Requirements for language requirements.

- For more information about Mathematics, see the website.
- Admitted and current students must meet with the advisor, Linda Skabelund.
- Log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.75 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
58-59	120

Simple Requisites

Program Requirements

A grade of C- or better is required in all courses taken for the major. Program coursework *may not* be taken on a pass/fail basis.

Mathematics: Computational - BA, BS

Type
Completion Requirement

Major Requirements (58-59 credits)

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
- CS2410 - Introduction to Event Driven Programming and GUI's - 3cr.
- CS2420 - Algorithms and Data Structures--CS 3 (QI) - 3cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
  OR DSAI2275 - Linear Algebra for Data Science - 4cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.

- MATH3310 - Discrete Mathematics - 3cr.
- MATH4200 - Foundations of Analysis (CI) - 3cr.
- MATH4610 - Fundamentals of Numerical Analysis - 3cr.
- MATH5210 - Introduction to Analysis I - 3cr.
- MATH5610 - Introduction to Numerical Analysis - 3cr.
- MATH5620 - Numerical Algorithms for Approximate Solutions of DE - 3cr.
- MATH5710 - Introduction to Probability - 3cr.

Elective Credits

The following elective credits are required. Please contact the program advisor for course options.

Complete the following:
● 6 credits in MATH 5000 level, excluding MATH5010 TECH FOR TEACHING MATH, MATH5020 TESTING AND COGNITION OF MATH, MATH5570 ACTUARIAL MATH I and MATH5580 ACTUARIAL MATH II (CI).
● 6 credits in CS 4000 level

College of Science Sequence (6-8 credits)

Choose one of the following sequences:

Fulfill ANY of the following requirements:

Biology Sequence

Complete ALL of the following Courses:
- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Sequence

Complete ALL of the following Courses:
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

OR

Geology Sequence

Complete ALL of the following Courses:
- GEO1110 - Physical Geology (BPS) - 3cr.
  AND GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.

OR

Physics Sequence

Chose one of the following course sets.

Complete ANY of the following Courses:
- PHYS2110 - General Physics—Life Sciences I - 4cr.
  AND PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
  AND PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.

OR

Computer Science Sequence

Complete ALL of the following Courses:
- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
  OR CS1440 - Software Engineering Fundamentals - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Master of Mathematics - MMath

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Graduate

About this Degree

The Master of Mathematics (MMath) degree is a professional master's degree serving mathematics educators at the secondary (and sometimes tertiary) levels who want to broaden their background in Mathematics, Statistics, and pedagogy. The program offers students the opportunity to enhance their mathematics content background as suited for personal enrichment and the teaching profession. The program is flexible to serve the needs of professional teachers and provide a route to secondary mathematics licensure and endorsement in Utah.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (https://gradschool.usu.edu/admissions/policies). Applicants are also expected to have a GPA in math/stat coursework of at least 3.5.

Program Requirements

Total Credits Required In Program Coursework
36

Total Credits Required To Earn This Credential
36

Simple Requisites

Program Requirements

School of Graduate Studies Requirements:

Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.

Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Credits in the following areas are not acceptable in a degree program: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000. Students are not allowed more than 12 credits of coursework at the 5000 level.

Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.

Master's forms: Approval of the Program of Study is required by the School of Graduate Studies.

Program Requirements:

- This degree requires 36 credits of coursework. At least 24 credits must be at 6000 level or above, excluding STAT6990 CONT GRAD ADVISEMENT and STAT7990 CONT GRAD ADVISEMENT (Continuing Graduate Advisement) with no more than 12 credits allowed at the 5000 level. Credits below the 5000 level are not acceptable for a graduate degree.
- Supervisory Committee Approval by the end of the second semester
- Program of Study submitted by the end of the second semester
- Graduation application

The Master of Mathematics (MMath) program requires the completion of 36 credits approved by an advisory committee within the Department of Mathematics and Statistics. At least 21 of these credits must come from Mathematics or Statistics classes numbered above 5000, while additional credits may be chosen from courses offered within the College of Education and Human Services. A minimum of 24 credits at the 6000 level or above are required and no more than 12 credits total at the 5000 level may be used.

Students may conduct faculty supervised projects oriented around Mathematics and/or Statistics education. Past students have worked on various project types from curriculum design, to teaching experiments, to observational studies, to software/applet development.

All students in the MMath program must pass a written qualifying examination. They may take the Advanced Calculus Exam, covering the introductory analysis and advanced calculus material presented in MATH4200 FOUNDATIONS OF ANALYSIS (CI), MATH5210 INTRO TO ANALYSIS I, and MATH5220 INTRO TO ANALYSIS II, *or* the qualifying exam in Mathematics Teaching. Students may take these exams before beginning formal coursework in the program but must take them at or before the end of the first full year of matriculation.

Mathematics - MMath

Type
Completion Requirement

Credit Total

36 credits with no more than 12 at the 5000 level.

Mathematics - MS

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Graduate

About this Degree

The MS program in Mathematics primarily prepares students for doctoral programs in pure and applied mathematics and statistics, and secondarily for careers in college teaching and industrial jobs. MS Math students conduct research in areas including differential geometry, computer-aided algebra and mathematical physics, mathematical ecology, dynamical systems and graph theory.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (https://gradschool.usu.edu/admissions/policies). Applicants are also expected to have a GPA in math/stat coursework of at least 3.5. Applicants must submit either Official GRE scores (GRE-Q at least 70th percentile, GRE-V of at least 40th percentile) or a research portfolio, consisting of (1) a research statement of no more than 2 pages including references, and (2) (optional) supplemental materials, such as abstracts, paper summaries, of no more than 3 pages. Papers can be provided in the form of web pages, DOIs, or arXiv preprints, but not the full documents.

Simple Requisites

Program Requirements

School of Graduate Studies Requirements:

- Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
- Course Number Acceptability: The program of study cannot include more than 12 semester credits of courses below the 6000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- Master's forms: Approval of the Program of Study is required by the School of Graduate Studies.

Program Requirements:

- This degree requires 30 credits of coursework. At least 18 credits must be at 6000 level or above, excluding MATH6990 CONT GRAD ADVISEMENT and MATH7990 CONT GRAD ADVISEMENT (Continuing Graduate Advisement), with no more than 12 credits allowed at the 5000 level. Credits below the 5000 level are not acceptable for a graduate degree.
- Supervisory Committee Approval by the end of the second semester
- Program of Study submitted by the end of the second semester
- Thesis/Project Approval Form by the third semester (Plan A students)
- Appointment for examination form submitted 10 days before defense and during defense semester must be registered for credit
- Record of Examination Form
- Thesis/Dissertation format and Style and Electronic Publication Form (Plan A students)
- Authorship and Copyright form (Plan A students)
- Plan B Report/Creative Project form (Plan B students)
- Graduation application

This degree requires 30 credits of approved coursework at or above the 5000 level. At least 18 of these credits must be at the 6000 level or above, excluding MATH6990 CONT GRAD ADVISEMENT and MATH7990 CONT GRAD ADVISEMENT (Continuing Graduate Advisement). Generally, most of the coursework will be in mathematics, but the student's supervisory committee may approve courses in statistics, physics, engineering, or any other discipline if it seems such coursework is appropriate for the student's program of study.

All students in the MS program in Mathematics must pass a written qualifying examination in either Advanced Calculus or Algebra. Students may take this exam before beginning formal coursework in the MS program but must take the exam by the end of the first full year of matriculation. The exam is typically given twice a year, in May and once during Fall semester. Matriculated students who fail on their first try must pass the exam at the next scheduled opportunity.

MS Mathematics students must obtain a minimum grade of B or better in at least two topic tracks from the 5000-level or the 6000-level topic tracks listed below. MS Mathematics students may substitute one topic track if they can document they have had something equivalent in a previous degree program.

Plan A option:

The Plan A option for a master's degree requires the preparation and defense of a thesis. Students are required to complete 6 semester credits of thesis research (MATH6970 THESIS). Successful defense and submission of the thesis to the library is required.

Plan B option:

A Plan B option requires the production and defense of a research project which can be conveyed in a technical report or journal-manuscript format. Students are required to complete 3 semester credits of thesis research (MATH6970 THESIS). Successful defense and submission of the paper/project to the library is required.

There is no Plan C option for this program.

Research Requirement

Type
Completion Requirement

Required Core Courses

Complete ALL of the following Courses:

- MATH6910 - Directed Reading and Conference - 1cr.
- MATH6970 - Thesis - 1cr.

NOTE:

1. **Plan A** students must take 6 credits of MATH6970 THESIS, **Plan B** students must take 3 credits of MATH6970 THESIS.
2. MATH6910 DIRECTED READING - Students should take the MATH6910 DIRECTED READING - DR: Modern Research in MATH/STATS the first Fall semester.

Topic Tracks

Type
Completion Requirement

Topic Track Options

Each series of courses is a topic track. Students must complete at least 2 topic tracks with a minimum grade of B.

Complete at least 2 of the following:

Topic Track 1

Complete ALL of the following Courses:

- MATH5210 - Introduction to Analysis I - 3cr.
  AND MATH5220 - Introduction to Analysis II - 3cr.

OR

Topic Track 2

Complete ALL of the following Courses:

- MATH5310 - Introduction to Modern Algebra - 3cr.
  AND MATH5340 - Theory of Linear Algebra - 3cr.

OR

Topic Track 3

Complete ALL of the following Courses:

- MATH5110 - Differential Geometry - 3cr.
  AND MATH5510 - Introduction to Topology - 3cr.

OR

Topic Track 4

Complete ALL of the following Courses:

- MATH5420 - Partial Differential Equations - 3cr.
  AND MATH5470 - Advanced Differential Equations - 3cr.

OR

Topic Track 5

Complete ALL of the following Courses:

- MATH5410 - Methods of Applied Mathematics - 3cr.
  AND MATH5420 - Partial Differential Equations - 3cr.

OR

Topic Track 6

Complete ALL of the following Courses:

- MATH5710 - Introduction to Probability - 3cr.
  AND MATH5760 - Applied Stochastic Processes - 3cr.

OR

Topic Track 7

Complete ALL of the following Courses:

- MATH5610 - Introduction to Numerical Analysis - 3cr.
  AND MATH5620 - Numerical Algorithms for Approximate Solutions of DE - 3cr.

OR

Topic Track 8

Complete ALL of the following Courses:

- MATH6210 - Real Analysis - 3cr.
  AND MATH6220 - Real Analysis - 3cr.

OR

Topic Track 9

Complete ALL of the following Courses:

- MATH6310 - Modern Algebra - 3cr.
  AND MATH6320 - Modern Algebra - 3cr.

OR

Topic Track 10

Complete ALL of the following Courses:

- MATH6110 - Differential Geometry - 3cr.
  AND MATH6510 - Topology - 3cr.

OR

Topic Track 11

Complete ALL of the following Courses:

- MATH6410 - Methods of Applied Mathematics - 3cr.
  AND MATH6440 - ODE and Dynamics - 3cr.
  AND MATH6420 - PDE I - 3cr.
  AND MATH6450 - PDE II - 3cr.

OR

Topic Track 12

Complete ALL of the following Courses:

- MATH6470 - Advanced Asymptotic Methods - 3cr.
  AND MATH6810 - Topics in Mathematics (Topic) - 1cr.

OR

Topic Track 13

Complete ALL of the following Courses:

- MATH6610 - Introduction to Numerical Analysis - 3cr.
  AND MATH6620 - Numerical Solution of Partial Differential Equations - 3cr.

Master of Business Administration - MBA

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Marketing and Strategy	Graduate

About this Degree
The Utah State MBA at the Jon M. Huntsman School of Business is an interdepartmental program, administered by Utah State University's Huntsman School of Business, which is designed to train students to lead, manage, and improve business performance. Utah State MBA students know how to commercialize profitable ideas quickly, cheaply, and successfully. They possess the know-how to improve existing businesses and create new businesses and are armed with cutting-edge intelligence and analytic tools to gain a deeper and clearer understanding of both domestic and global markets, competition, and customers. The MBA program creates leaders who possess a principle-based philosophy of entrepreneurial excellence who can add value to an organization from the first day on the job. It is accredited by the Association to Advance Collegiate Schools of Business (AACSB). The MBA Program is considered a professional (Plan C) program. The central mission of the MBA program is to:

1. Provide students with a relevant and rigorous background in business, increase student problem-solving and critical analysis skills, and develop the next generation of business leaders.

2. Provide focused education and experiences in specific areas of business (leadership or value creation) to improve student employability.

Admission Requirements for this Program
For admission information, please visit our website at: Utah State MBA Application page

For more information, contact the MBA Office: https://huntsman.usu.edu/mba/contact-us

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
36	36

Simple Requisites

Program Requirements

Students are held responsible for meeting requirements as outlined below. It is the student's responsibility to be aware of all requirements and initiate the resolution of apparent inconsistencies.

- Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

. Master's forms. Approval of the Program of Study is required by the School of Graduate Studies.

- Overall Graduate GPA at least 3.0 and no grades of C- or lower;

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

- Coursework Validity

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated. Classes under 6000 level cannot count towards the MBA Degree.

- USU Residency Requirement

At least 27-semester credits for a master's degree must be from a committee-approved and a School of Graduate Studies-approved Program of Study from Utah State University.

- Business Prerequisites

In order to enhance the probability of student success in the USU MBA program, all candidates must demonstrate proficiency in the required prep courses: Accounting and Finance. Students will meet with an MBA advisor to determine options for completion of the prep courses. Students are able to take a no-cost challenge exam and test out of the prep course.

Executive and Online MBA Programs

The Utah State University Executive MBA program is offered for working professionals at several convenient locations throughout the state of Utah and southern Idaho. It is a 36-credit program. Classes are taught in evening courses in face-to-face and broadcast formats. Admission information and deadlines for the Executive MBA programs can be found on the MBA website at utahstatemba.com.

Created with working professionals in mind, the Utah State University Online MBA program combines courses taught by seasoned professors with real-world experience. This 36-credit program allows students to complete their online MBA degree in one or two years. Admission information and deadlines for the online MBA programs can be found on the MBA website at utahstatemba.com

Any student who needs an exception for courses from the following list should contact the MBA Office: https://huntsman.usu.edu/mba/contact-us.

The MBA Program has several specializations students can choose from (listed below). Please contact the MBA Office with questions regarding Specializations: https://huntsman.usu.edu/mba/contact-us

Requirements

Type
Completion Requirement

MBA Requirements

Fulfill ALL of the following requirements:

Ethical Leadership (9 credits)

Complete ALL of the following Courses:

- MSLE6200 - Executive Influence - 3cr.
- MSLE6645 - Innovative and Inclusive Leadership - 3cr.
- MSLE6741 - Leadership Development - 3cr.

AND

Entrepreneurial Spirit (9 credits)

Complete ALL of the following Courses:

- MSLE6410 - Enterprise and Value Creation - 3cr.
- MSLE6520 - Enterprise Brand and Marketing - 3cr.
- MSLE6650 - Strategic Sales Management - 3cr.

AND

Analytical Rigor (9 credits)

Complete ALL of the following Courses:

- ACCT6350 - Accounting for Management Decision Making - 3cr.
- DATA6060 - Analytics in the Enterprise - 3cr.
- FIN6010 - Solving Financial Problems - 3cr.

AND

Strategic and Global Vision (9 credits)

Complete ALL of the following Courses:

- MGT6720 - Strategic Supply Chain Management - 3cr.
- MSLE6870 - Global Strategic Thinking - 3cr.
- MSLE6890 - Advanced Strategy - 3cr.

- ***Global Excursion (Optional): The Utah State MBA understands that in order for students to become tomorrow's business leaders, they must gain knowledge, experience, and technical skills that allow them to operate successfully within the context of a global business environment. The Huntsman School is committed to providing its students with experiences that prepare them to be effective and influential business professionals as well as leaders. A graduate study tour is one of the best experiences any student can have that will set them on a course of success.***

Shingo Specialization (9 credits)

Type
Completion Requirement

Shingo Specialization

The Shingo Specialization is an online program providing an understanding of the Shingo Model™ and the principles necessary to make organizational excellence sustainable.

Shingo Workshops: In this course, students will complete the following Shingo Workshops: DISCOVER EXCELLENCE, SYSTEMS DESIGN, CULTURAL ENABLERS, CONTINUOUS IMPROVEMENT, and ENTERPRISE ALIGNMENT. All workshops will be completed in a real-time virtual environment alongside working professionals. For more information regarding each workshop, please visit shingo.org/education.

Shingo Project: In this course, students will work directly with a mentor to design or create a system guided by the Shingo Model™ as they complete the capstone BUILD EXCELLENCE workshop. The workshop helps to develop a structured approach to execute a cultural transformation. It builds upon a foundation of principles, using tools that already exist within many organizations. It teaches you how to build systems that drive behavior which will consistently deliver desired results. The project is designed to be implemented at your current place of employment.

Complete ALL of the following Courses:

- MSLE6850 - Shingo Global Strategic Thinking - 0.5cr.
- MSLE6855 - Shingo Workshops - 0.5cr.
- MSLE6860 - Shingo Project - 0.5cr.

Leadership Specialization (9 credits)

Type
Completion Requirement

Leadership Specialization

This specialization focuses on developing impactful, innovative, and inclusive leaders who can negotiate strategic agreements and influence stakeholders.

Complete ALL of the following Courses:

- MSLE6200 - Executive Influence - 3cr.
- MSLE6645 - Innovative and Inclusive Leadership - 3cr.
- MSLE6741 - Leadership Development - 3cr.

Business Analytics Specialization (9 Credits)

Type

Completion Requirement

Business Analytics Specialization

The competencies learned in the Business Analytics specialization focus upon business intelligence, information systems strategy, and database design and mining.

Complete ALL of the following Courses:

- DATA6060 - Analytics in the Enterprise - 3cr.
- ***Graduate-level course in business intelligence, information systems strategy, or database design – must be approved by department (3 credits)***
- ***Graduate-level course in business intelligence, information systems strategy, or database design – must be approved by department (3 credits)***

Strategic Business Development and Venturing Specialization (9 Credits)

Type

Completion Requirement

Strategic Business Development and Venturing Specialization

The Strategic Business Development and Venturing Specialization focuses on strategy and venturing skills which are tremendous assets to companies which want managers capable of identifying and leading growth strategies.

Complete ALL of the following Courses:

- MSLE6410 - Enterprise and Value Creation - 3cr.
- MSLE6520 - Enterprise Brand and Marketing - 3cr.
- MSLE6650 - Strategic Sales Management - 3cr.

Finance Specialization (9 Credits) - NOT CURRENTLY OFFERED

Type

Completion Requirement

Finance Specialization - NOT CURRENTLY OFFERED

This specialization in Finance focuses on financial management, investment analysis, and strategic decision-making within the corporate and financial sectors.

Complete ALL of the following Courses:

- FIN6410 - Corporate Finance - 3cr.
- ***Graduate-level course in financial management, investment analysis or financial strategic decision-making – must be approved by department (3 credits)***
- ***Graduate-level course in financial management, investment analysis or financial strategic decision-making – must be approved by department (3 credits)***

Mind-Body Wellness - Certificate

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

The Mind-Body Wellness Certificate Program at Utah State University offers a comprehensive exploration of wellness, nutrition, and stress management to cultivate a holistic understanding of human health. Through a diverse curriculum spanning the science of nutrition, the progression of dietary needs through the human life cycle, and the practice of mindfulness and stress management, students are empowered with knowledge and practical skills. The program aims to:

1. Equip students with a deep understanding of human nutrition, its chemical foundations, and its impact on well-being across all life stages.
2. Foster practical competencies in applying mindfulness and meditation practices as effective tools for personal and community health enhancement.
3. Develop critical thinking and application skills in health and wellness, addressing the physical, spiritual, social, and emotional dimensions.
4. Prepare students to implement effective stress management techniques, understanding the interplay between the mind and body, and promoting long-term well-being.

Upon completion, graduates will possess a robust set of skills and knowledge that prepare them for diverse roles in health promotion, wellness coaching, and community health leadership, contributing to the improvement of public health outcomes. This certificate serves as both a foundation for further academic pursuit in health sciences and a standalone credential for immediate application in various professional contexts.

Master of Dietetics Administration - MDA

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Nutrition, Dietetics & Food Sciences	Graduate

About this Degree

Program Contact:

Lacie Peterson, PhD, RDN, CDCES, BC-ADM, FADCES, FAND

Clinical Professor, MDA Program Director

Department of Nutrition, Dietetics and Food Sciences

Lacie.peterson@usu.edu 435-797-4244

Program description:

The Utah State University Master of Dietetics Administration (MDA) prepares graduates to lead and manage people and projects, setting them apart as they enter the workforce or advance in their current careers. The skills emphasized in the MDA program enhance management career options for graduates in clinical, community, food service, and entrepreneurial practice. Nationwide, there is a great need for professionally educated managers and leaders at the local, district, state, and federal levels. Graduates of the program will build skills in leadership, problem-solving, decision-making, financial management, human resource management, business, and more. The hands-on curriculum delivered by faculty equips graduates with the skills they need to land the career they want. The program is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND).

Admission Requirements for this Program

Pre-RD MDA Track

The Pre-RD track is for students who have completed undergraduate dietetics education but do not yet hold the Registered Dietitian credential.

Option 2: The MDA is also available to students completing an affiliated dietetic internship outside Utah State University. Students in this program are concurrently enrolled in an ACEND-accredited Dietetic Internship and pursue their graduate degree online through USU. Students who successfully complete the internship and the MDA graduate program will be awarded a verification statement from their internship, making them eligible to sit for the Registered Dietitian (RD) Exam. For students not completing supervised practice through USU, 31 credits are required. This includes 16 MDA core credits, 6 elective credits, and students may be awarded up to 9 credits for Prior Assessed Learning (PLA) for the 1,000 hours of supervised practice completed as part of the dietetic internship. PLA credit determinations are made on a case-by-case basis and require approval by the Program Director. Tuition is not charged for PLA credits; however, a per-credit evaluation fee will apply.

Pre-RD MDA Admission Requirements

Applicants must complete one of the following two options:

1. Graduate from an accredited nutrition/dietetics program with a DPD Verification Statement OR be in the process of completing an accredited nutrition/dietetics program and will receive a DPD Verification Statement or Foreign Dietitian Education program (FDE) upon completion.
Applicants with a DPD Verification Statement more than 4 years old at the time of application may have to meet additional recency requirements.

2. Graduate with a minimum of a bachelor's degree or be in the process of completing a bachelor's degree and complete foundational dietetics coursework as determined by the USU MDA. Applicants who do not have a DPD Verification Statement must meet with the program director about prerequisite coursework prior to submitting an application.

- Applicants must have a DPD GPA/Prerequisite GPA of 3.0 or greater.
- No Ds or Fs in any DPD/Prerequisite courses.
- Applicants to the USU MDA must secure preceptors and training sites prior to applying.
- Applicants must have technological competence.
- Both a bachelor's degree and a DPD Verification Statement must be conferred prior to August 1st of the year a student plans to start the MDA.
- The GRE is not required for admission.

Post-RD MDA Track

The post-RD track is for students who already hold the Registered Dietitian credential and are interested in pursuing a graduate degree. Applicants must complete one of the following two options:

Option 1: For graduates of the USU Dietetic Internship (USU DI) prior to 2023. The 25 graduate credits earned in the USU DI are applied to the MDA if the MDA is completed prior to the credit expiration limit of 8 years. In addition, 15 MDA core credits and 3 elective credits are required, for a total of 41 credits.

Option 2: The MDA is also available to credentialed dietitians from non-USU degree programs or for those whose USU DI credits have expired. For students not using credits from the USU DI, 33 credits are required. These include 15 MDA core credits and 18 elective credits, of which at least 9 credits should be from the NDFS department.

Post-RD MDA Admission Requirements

- Registered Dietitian Credential through the Commission on Dietetic Registration
- Bachelor's degree
- Must meet the requirements of the USU graduate school admissions

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
31-43	31-43

Simple Requisites

Program Requirements

Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be received by the university.

Overall Graduate GPA at least 3.0 and no grades of B- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of B- or lower will not be accepted for a graduate degree.

Course Number Acceptability: The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000 level. Credits in the following areas are not acceptable in a degree program: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Master's forms: Approval of the Program of Study is required by the School of Graduate Studies.

The MDA program offers two tracks: Pre-RD MDA and Post-RD MDA. There are different options within each prorgam.

MDA Requirements

Type
Completion Requirement

Track 1: Pre-RD MDA

The Pre-RD track is for students who have completed undergraduate dietetics education but do not yet hold the Registered Dietitian credential. The pre-RD track provides a combination of coursework and supervised experiential learning to qualify to take the Registration Examination for dietitians (RD Exam). For complete program information, refer to www.mda.usu.edu.

Fulfill ANY of the following requirements:

Option 1

This option of the pre-RD MDA program combines graduate coursework with 1000 hours of supervised experiential learning to prepare and qualify candidates to sit for the Registration Examination for Dietitians (RD Exam). All graduate courses and experiential learning are completed through Utah State University. Students complete 37 MDA core credits in this program.

Complete ALL of the following Courses:

- NDFS6770 - Dietetics Leadership and Management I - 3cr.
- NDFS6050 - Community Nutrition Experience - 3cr.
- NDFS6051 - Advanced Community Nutrition - 2cr.
- NDFS6350 - Food Service Management Experience - 3cr.
- NDFS6351 - Advanced Food Service Management - 2cr.
- NDFS6450 - Dietetics Career Essentials - 1cr.
- NDFS6570 - Communication Techniques in Dietetics - 3cr.
- NDFS6580 - Application of Research Principles in Dietetics - 3cr.
- NDFS6780 - Dietetics Leadership and Management II - 3cr.
- NDFS6980 - MDA Master's Project - 1cr.

OR

Option 2

This option of the Pre-RD MDA is available to students completing an affiliated dietetic internship outside Utah State University. Students in this program are concurrently enrolled in an ACEND-accredited Dietetic Internship while completing the MDA program online through USU. Students who successfully complete the internship and the MDA will be awarded a verification statement from their internship, making them eligible to sit for the Registered Dietitian (RD) Exam. For students not completing supervised practice through USU, 31 graduate-level credits are required. This includes 16 MDA core credits, 6 elective credits, and 9 credits from supervised practice experiences. Up to 9 credits of Prior Assessed learning (PLA) may be awarded for the 1,000 hours of supervised practice completed during the dietetic internship. PLA credit determinations are made on a case-by-case basis, require an application, and require approval by the Program Director. Tuition is not charged for PLA credits; however, a per-credit evaluation fee will apply.

Complete ALL of the following Courses:

- NDFS6770 - Dietetics Leadership and Management I - 3cr.
- NDFS6450 - Dietetics Career Essentials - 1cr.
- NDFS6580 - Application of Research Principles in Dietetics - 3cr.
- NDFS6570 - Communication Techniques in Dietetics - 3cr.
- NDFS6250 - Clinical Nutrition Experience - 3cr.
- NDFS6050 - Community Nutrition Experience - 3cr.
- NDFS6350 - Food Service Management Experience - 3cr.
- NDFS6780 - Dietetics Leadership and Management II - 3cr.
- NDFS6980 - MDA Master's Project - 1cr.
- NDFS6470 - Global Public Health - 3cr.
  OR NDFS6210 - Advanced Public Health Nutrition - 3cr.
- NDFS6800 - Counseling and Motivational Interviewing for Health Professionals - 3cr.
  OR NDFS6320 - Advanced Sports Nutrition - 3cr.

Track 2: Post-RD MDA

The Post-RD MDA track is for students who already hold the Registered Dietitian credential and are interested in pursuing a graduate degree. The Post-RD MDA is designed for dietitians that are working full- or part-time.

Fulfill ANY of the following requirements:

Option 1

For students that have graduated from the USU Dietetic Internship, these 25 graduate credits earned in the USU Dietetic Internship are applied to the MDA: NDFS6050 COMMUNITY NUTRITION EXPERIENCE (5 credits), NDFS6250 CLINICAL NUTRITION EXPERIENCE (9 credits), NDFS6350 FOOD SERVICE MGMT EXPERIENCE (11 credits). The MDA must be completed prior to these credits expiring in 8 years. In addition, 18 credits are required (15 MDA core credits and 3 elective credits) after admission to the MDA, for a total requirement of 43 credits.

Complete ALL of the following Courses:

- NDFS6770 - Dietetics Leadership and Management I - 3cr.
- NDFS6780 - Dietetics Leadership and Management II - 3cr.
- NDFS6570 - Communication Techniques in Dietetics - 3cr.
- NDFS6580 - Application of Research Principles in Dietetics - 3cr.
- NDFS6980 - MDA Master's Project - 1cr.

- 3 elective credits from the following departments: NDFS, ITLS, ASTE. Courses from NDFS, ITLS and ASTE must be at the 6000-level or above.

OR

Option 2

The MDA is also available to credentialed dietitians that did not complete the USU Dietetic Internship or for those whose USU Dietetic Internship credits have expired. For students not using credits from the USU Dietetic Internship, 33 credits are required. These include 15 MDA core credits and 18 elective credits.

Complete ALL of the following Courses:

- NDFS6770 - Dietetics Leadership and Management I - 3cr.
- NDFS6780 - Dietetics Leadership and Management II - 3cr.
- NDFS6980 - MDA Master's Project - 1cr.
- NDFS6570 - Communication Techniques in Dietetics - 3cr.
- NDFS6580 - Application of Research Principles in Dietetics - 3cr.

- 18 elective credits from the following departments: NDFS, ITLS, ASTE. Courses from NDFS, ITLS and ASTE must be at the 6000-level or above.

Mechanical Engineering - Minor

Program Overview

College
College of Engineering

Department
Mechanical & Aerospace Engineering

Program Level
Undergraduate

About this Degree
For more information about the Mechanical and Aerospace Engineering department, see the Mechanical and Aerospace Engineering department webpage.

Admission Requirements for this Program
Before a student can declare this minor, they must have a declared major with 30 completed credits and a cumulative GPA of 3.0 or higher in their declared major. Courses for the minor may not be taken on a pass/fail basis.

Students must maintain a cumulative GPA of 3.0 or higher in Mechanical Engineering Minor required courses.

Students are ineligible for the minor and cannot register for the upper-division elective Mechanical Engineering Minor elective courses if they fail to maintain a cumulative GPA of 3.0 or higher in the Mechanical Engineering Minor required courses or exceed the allowed one repeat.

If a student pursuing a Mechanical Engineering major becomes ineligible to graduate in that degree program, they do not qualify for the Mechanical Engineering minor.

Additionally, if a student becomes ineligible to take any of the required courses in the Mechanical Engineering major for any reason, they do not qualify for the Mechanical Engineering minor.

Students who previously qualified for admission to the Mechanical Engineering Professional Program and who left the program in good standing, can qualify for the minor even if the GPA for the minor required courses is less than 3.0.

Students must take a minimum of 3 credit hours (1 course) worth of Mechanical Engineering Minor elective courses.

A student who desires to pursue a minor in Mechanical Engineering must recognize that there may be prerequisites to required minor courses.

Program Requirements

Mechanical Engineering - Aerospace Engineering Emphasis - BS

Program Overview

College
College of Engineering

Department
Mechanical & Aerospace Engineering

Program Level
Undergraduate

About this Degree

Mechanical engineering deals with the creation of the mechanical systems and machines that serve society. Mechanical engineers are involved in researching and designing mechanical devices of all types, including engines, tools, and machines. The broad discipline allows graduates to work in nearly every area of industry.

Aerospace Engineering Emphasis: Aerospace engineers design, develop, and test aircraft, spacecraft, and missile systems, as well as supervising the manufacturing process of these products. Students focusing on aerospace engineering have the qualifications to become an aeronautical engineer or an astronautic engineer. Aeronautical engineers are those aerospace engineers who deal with airplanes, while astronautic engineers are engineers who deal specifically with spacecraft.

- For more information about Mechanical and Aerospace Engineering department, see the Mechanical and Aerospace Engineering department webpage.
- The Mechanical Engineering Program is accredited by the Engineering Accreditation Commission of ABET, http://abet.org, under the commission's General Criteria and the Program Criteria for Mechanical Engineering and Similarly Named Programs.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is Math 2250

Admission Requirements for this Program

New Freshman and Transfer Students (from other institutions or other USU programs)

- Admitted to USU in Good Standing

New Freshman:

- 2.8 High School GPA or higher
- 20 ACT or 1030 SAT or higher

Admission Requirements for the Pre-Professional Program

- Completion of Engineering Foundations courses (listed below)
- MATH1210 CALCULUS I (QL), MATH 1220, CHEM 1210, CHEM 1215, PHYS 2210, PHYS 2215, ENGR 1010, ENGR 1400 completed with a C- or higher
- 2.8 or higher GPA in Engineering Foundations courses

Simple Requisites

Program Requirements

Mechanical Engineering- Aerospace Emphasis- BS Course Requirements

Type
Completion Requirement

Engineering Foundations Courses (25 credits)

- A Cumulative USU GPA of 2.8 or higher is required in Engineering Foundations courses below.
- Engineering Foundations courses: Math 1210, Math 1220, ENGR 1010, ENGR 1400, PHYS 2210, PHYS 2215, CHEM 1210, CHEM 1215 require a grade of C- or higher.
- The P/D+, D, F grading option may not be used in required courses completed as part of Engineering Foundations program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- ENGR1010 - Engineering Exploration - 3cr.
- ENGR1400 - Computer Programming for Engineers - 4cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.

Pre-Professional Program Courses (35 credits)

- A Cumulative USU GPA of 2.8 or higher is required in pre-professional courses, NOT including ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) or ENGL2020 PROFESSNL COMMUNICATION (CL2)
- All courses require a grade of C- or higher.
- The P/D+, D, F grading option may not be used in required courses completed as part of Engineering Foundations or a pre-professional program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
- MAE1200 - Engineering Graphics - 2cr.
- MAE2300 - Thermodynamics I - 3cr.
- MAE2450 - Engineering Numerical Methods - 3cr.
- ENGR2010 - Engineering Mechanics Statics - 3cr.
- ENGR2210 - Fundamental Electronics for Engineers - 3cr.
- ENGR2030 - Engineering Mechanics Dynamics - 3cr.
- ENGR2140 - Mechanics of Materials - 3cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.

ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2)/ENGL2020 PROFESSNL COMMUNICATION (CL2) not included in the Pre-Professional Program GPA calculation

****Students must take a minimum of 9 credit hours (3 courses) worth of aerospace technical electives. If a student takes ENGR1010 in their first 30 credits of the Pre-Professional Program, they are only required to take 6 credit hours (2 courses) worth of aerospace technical electives.***

Professional Program Required Coursework (39 credits)

For Mechanical Engineering major- Aerospace emphasis in the professional program the following academic regulations apply, in addition to University regulations:

- A Cumulative USU GPA of 2.0 or higher is required in all upper-division required and technical elective courses. Courses which were part of the pre-professional program requirements and University Studies courses are not included in this GPA calculation.
- All courses require a grade of C- or higher.
- No more than one total repeat is allowed for each required or technical elective course. Courses completed as part of a pre-professional program are not included in this total. Audits count as a time taking a class and will be counted towards repeats.
- Students must take a minimum of 9 credit hours (3 courses) worth of aerospace technical electives. If a student takes ENGR1010 in their first 30 credits of the Pre-Professional Program, they are only required to take 6 credit hours (2 courses) worth of aerospace technical electives.
- The P/D+, D, F grading option may not be used in required or technical elective courses completed as part of a professional program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- ENGR3080 - Creativity and Communication in Design (CI) - 3cr.
- MAE2160 - Material Science - 3cr.
- MAE2165 - Material Science Laboratory - 1cr.
- MAE3040 - Mechanics of Solids - 3cr.
- MAE3340 - Instrumentation and Measurements - 3cr.
- MAE3420 - Fluid Mechanics - 3cr.
- MAE3440 - Heat Transfer (QI) - 3cr.
- MAE3600 - Engineering Professionalism and Ethics - 1cr.
- MAE4300 - Machine Design - 3cr.
- MAE4400 - Fluids/Thermal Laboratory (CI) - 1cr.
- MAE4800 - Capstone Design I (CI) - 3cr.
- MAE4810 - Capstone Design II - 3cr.
- MAE5300 - Vibrations - 3cr.
  OR MAE5360 - Advanced Dynamics - 3cr.
- MAE5500 - Aerodynamics - 3cr.
- MAE5560 - Dynamics of Space Flight - 3cr.

****Students must take either MAE5300 VIBRATIONS or MAE5360 ADV DYNAMICS to fulfill the major requirements. The course that is used to fulfill the major requirements will not also fulfill the technical elective requirement; students must take an additional course from the specified list to fulfill the technical elective requirement.***

Aerospace Technical Elective Courses (6-9 credits)

One aerospace technical elective course must be completed from the **Supplemental** aerospace technical elective list.

The other aerospace technical elective courses must be completed from the **Supplemental** or **Breadth** aerospace technical elective lists.

Fulfill ALL of the following requirements:

Supplemental Aerospace Technical Electives

Complete at least 1 of the following courses:

- MAE5330 - Small Unmanned Aircraft Systems - 3cr.

- MAE5420 - Compressible Fluid Flow - 3cr.
- MAE5510 - Dynamics of Atmospheric Flight - 3cr.
- MAE5540 - Propulsion Systems - 3cr.
- MAE5550 - Introduction to Aircraft Structures - 3cr.
- ECE5230 - Spacecraft Systems Engineering - 3cr.
- ECE5235 - Space System Design - 3cr.

AND

Breadth Aerospace Technical Electives

Complete ANY of the following Courses:

- MAE5020 - Finite Element Methods in Solid Mechanics I - 3cr.
- MAE5040 - Experimental Solid Mechanics - 3cr.
- MAE5050 - Material Science of Composites - 3cr.
- MAE5060 - Mechanics of Composite Materials I - 3cr.
- MAE5300 - Vibrations - 3cr.
- MAE5310 - Control Systems - 4cr.
- MAE5320 - Mechatronics - 4cr.
- MAE5370 - Optimization for Engineers - 3cr.
- MAE5440 - Computational Fluid Dynamics - 3cr.
- MAE5460 - Combustion - 3cr.

Students must take either MAE5300 VIBRATIONS or MAE5360 ADV DYNAMICS to fulfill the major requirements. The course that is used to fulfill the major requirement will not also fulfill the technical elective requirement; students must take an additional course from the specified list to fulfill the technical elective requirement

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or co-requisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

*Please note: ENGL1010 is required by USU but is not included in the degree map because most engineering students satisfy this requirement through an ACT English score, an SAT Reading score, Advanced Placement (AP) Examinations, or College-Level Examination Program (CLEP).

Year 1 and Year 2 are intended to encompass the Pre-Professional program. Years 3 and 4 are intended to encompass the Professional Program.

Mechanical Engineering - BS

Program Overview

College
College of Engineering

Department
Mechanical & Aerospace Engineering

Program Level
Undergraduate

About this Degree
Mechanical engineering deals with the creation of the mechanical systems and machines that serve society. Mechanical engineers are involved in researching and designing mechanical devices of all types, including engines, tools, and machines. The broad discipline allows one to work in nearly every area of industry.

- For more information about the Mechanical and Aerospace Engineering department , see the Mechanical and Aerospace Engineering department webpage.
- The Mechanical Engineering BS program is accredited by the Engineering Accreditation Commission of ABET, http://abet.org, under the commission's General Criteria and the Program Criteria for Mechanical Engineering and Similarly Named Programs.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2250 LINEAR ALG/DIFF EQUATIONS (QI)

Admission Requirements for this Program
New Freshman and Transfer Students (from other institutions or other USU programs)

- Admitted to USU in Good Standing

New Freshman:

- 2.8 High School GPA or higher
- 20 ACT or 1030 SAT or higher

Admission Requirements for the Pre-Professional Program:

- Completion of Engineering Foundations courses (listed below)
- MATH1210 CALCULUS I (QL), MATH 1220, CHEM 1210, CHEM 1215, PHYS 2210, PHYS 2215, ENGR 1010, ENGR 1400 completed with a C- or higher
- 2.8 or higher GPA in Engineering Foundations courses

Program Requirements

Total Credits Required In Program Coursework
102

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Mechanical Engineering - BS Course Requirements

Type
Completion Requirement

Engineering Foundations Courses (25 credits)

- A Cumulative USU GPA of 2.8 or higher is required in Engineering Foundations courses.
- Engineering Foundations courses: Math 1210, Math 1220, ENGR 1010, ENGR 1400, PHYS 2210, PHYS 2215, CHEM 1210, CHEM 1215 require a grade of C- or higher.
- The P/D+, D, F grading option may not be used in required courses completed as part of Engineering Foundations program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- ENGR1010 - Engineering Exploration - 3cr.
- ENGR1400 - Computer Programming for Engineers - 4cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.

Pre-Professional Program Courses (35 credits)

- A Cumulative USU GPA of 2.8 or higher is required in pre-professional courses, NOT including ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) or ENGL2020 PROFESSNL COMMUNICATION (CL2)
- All courses require a grade of C- or higher.
- The P/D+, D, F grading option may not be used in required courses completed as part of Engineering Foundations or a pre-professional program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- ENGR2010 - Engineering Mechanics Statics - 3cr.
- ENGR2030 - Engineering Mechanics Dynamics - 3cr.
- ENGR2140 - Mechanics of Materials - 3cr.
- ENGR2210 - Fundamental Electronics for Engineers - 3cr.
- MAE1200 - Engineering Graphics - 2cr.
- MAE2300 - Thermodynamics I - 3cr.
- MAE2450 - Engineering Numerical Methods - 3cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.

ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2)/ENGL2020 is not included in the Pre-Professional Program GPA calculation

****Students must take a minimum of 15 credit hours (5 courses) worth of technical electives. If a student takes ENGR 1010 in their first 30 credits of the Pre-Professional Program, they are only required to take 12 credit hours (4 courses) worth of technical electives.***

Mechanical Engineering Professional Program Coursework (33 credits)

For Mechanical Engineering majors in the professional program the following academic regulations apply, in addition to University regulations:

- A Cumulative USU GPA of 2.0 or higher is required in all upper-division required and technical elective courses. Courses which were part of the pre-professional program requirements and University Studies courses are not included in this GPA calculation.
- All courses require a grade of C- or higher.
- No more than one total repeat is allowed for each required or technical elective course. Courses completed as part of a pre-professional program are not included in this total. Audits count as a time taking a class and will be counted towards repeats.
- Students must take a minimum of 15 credit hours (5 courses) worth of technical electives. At least two must have an MAE prefix. If a student takes ENGR 1010 in their first 30 credits of the Pre-Professional Program, they are only required to take 12 credit hours (4 courses) worth of technical electives.
- The P/D+, D, F grading option may not be used in required or technical elective courses completed as part of a professional program. (The P/D+, D, F grading option is approved for University Studies Courses.)

Complete ALL of the following Courses:

- ENGR3080 - Creativity and Communication in Design (CI) - 3cr.
- MAE2160 - Material Science - 3cr.
- MAE2165 - Material Science Laboratory - 1cr.
- MAE3040 - Mechanics of Solids - 3cr.
- MAE3340 - Instrumentation and Measurements - 3cr.
- MAE3420 - Fluid Mechanics - 3cr.
- MAE3440 - Heat Transfer (QI) - 3cr.
- MAE3600 - Engineering Professionalism and Ethics - 1cr.
- MAE4300 - Machine Design - 3cr.
- MAE4400 - Fluids/Thermal Laboratory (CI) - 1cr.
- MAE4800 - Capstone Design I (CI) - 3cr.
- MAE4810 - Capstone Design II - 3cr.
- MAE5300 - Vibrations - 3cr.
  OR MAE5360 - Advanced Dynamics - 3cr.

****Students must take either MAE5300 VIBRATIONS or MAE5360 ADV DYNAMICS to fulfill the major requirements. The course that is used to fulfill the major requirement will not also fulfill the technical elective requirement; students must take an additional course from the specified list to fulfill the technical elective requirement***

Technical Elective Courses (15 credits)

Mechanical engineering technical elective courses must be selected from any of the following courses. At least **two** must have an MAE prefix.

Complete ANY of the following Courses:

- MAE5020 - Finite Element Methods in Solid Mechanics I - 3cr.
- MAE5040 - Experimental Solid Mechanics - 3cr.
- MAE5045 - Adhesion Sciences - 3cr.
- MAE5050 - Material Science of Composites - 3cr.
- MAE5060 - Mechanics of Composite Materials I - 3cr.
- MAE5300 - Vibrations - 3cr.
- MAE5310 - Control Systems - 4cr.
- MAE5320 - Mechatronics - 4cr.
- MAE5330 - Small Unmanned Aircraft Systems - 3cr.
- MAE5340 - Introduction to Planning and Control for Mobile Robots - 3cr.
- MAE5350 - Kinematics - 3cr.

- MAE5360 - Advanced Dynamics - 3cr.
- MAE5370 - Optimization for Engineers - 3cr.
- MAE5420 - Compressible Fluid Flow - 3cr.
- MAE5430 - Advanced Thermal-Fluids - 3cr.
- MAE5440 - Computational Fluid Dynamics - 3cr.
- MAE5450 - Hybrid Energy - 3cr.
- MAE5460 - Combustion - 3cr.
- MAE5500 - Aerodynamics - 3cr.
- MAE5510 - Dynamics of Atmospheric Flight - 3cr.
- MAE5540 - Propulsion Systems - 3cr.
- MAE5550 - Introduction to Aircraft Structures - 3cr.
- MAE5560 - Dynamics of Space Flight - 3cr.
- MAE5700 - Introduction to Microfabrication - 3cr.
- CS5000 - Theory of Computability - 3cr.
- CS5050 - Advanced Algorithms - 3cr.
- CS5110 - MultiAgent Systems - 4cr.
- CS5300 - Compiler Construction - 4cr.
- CS5600 - Intelligent Systems - 4cr.
- CS5665 - Machine Learning for Data Science - 3cr.
- CS5680 - Computer Vision: Foundations and Applications - 3cr.
- CS5700 - Object-Oriented Software Development - 4cr.
- CS5800 - Introduction to Database Systems - 3cr.
- ECE3710 - Microcontroller Hardware and Software - 4cr.
- ECE5110 - Fundamentals of Electric Power Systems - 3cr.
- ECE5230 - Spacecraft Systems Engineering - 3cr.
- ECE5235 - Space System Design - 3cr.
- ECE5730 - Reconfigurable Computing - 3cr.
- ECE5790 - Principles of Cyber-Physical Systems - 3cr.
- ENGR5600 - Entrepreneurial Mindset for Engineers: An Introduction - 3cr.
- ENGR5970 - Introduction to Engineering Research - 3cr.
- MATH5110 - Differential Geometry - 3cr.
- MATH5270 - Complex Variables - 3cr.
- MATH5340 - Theory of Linear Algebra - 3cr.
- MATH5410 - Methods of Applied Mathematics - 3cr.
- MATH5420 - Partial Differential Equations - 3cr.
- MATH5460 - Nonlinear Dynamics - 3cr.
- MATH5610 - Introduction to Numerical Analysis - 3cr.
- MATH5620 - Numerical Algorithms for Approximate Solutions of DE - 3cr.
- MATH5710 - Introduction to Probability - 3cr.
- MATH5760 - Applied Stochastic Processes - 3cr.
- MATH6640 - Optimization - 3cr.
- PHYS4600 - Electromagnetism II - 3cr.
- PHYS4700 - Quantum Mechanics I - 3cr.
- PHYS4710 - Quantum Mechanics II - 3cr.
- PHYS5650 - Optics I - 3cr.
- STAT5200 - Analysis of Designed Experiments - 3cr.

Students must take either MAE5300 VIBRATIONS or MAE5360 ADV DYNAMICS to fulfill the major requirements. The course that is used to fulfill the major requirement will not also fulfill the technical elective requirement; students must take an additional course from the specified list to fulfill the technical elective requirement

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Mechanical Engineering - MS

Program Overview

College	Department	Program Level
College of Engineering	Mechanical & Aerospace Engineering	Graduate

About this Degree

The Department of Mechanical and Aerospace Engineering provides each graduate with a foundation of knowledge and experience upon which to build successful careers in mechanical engineering, aerospace engineering, composite materials and structures, or space systems engineering.

Mechanical Engineering touches nearly every aspect of our modern lives. Mechanical engineers use principles of motion, energy, heat, controls, vibrations, solids, and material science to design and build mechanical devices that lift enormous loads or move microscopic components. Mechanical Engineers effect technological advancements in nearly every field and component of life today.

Our graduate programs emphasize research with faculty by focusing on high levels of student involvement providing enhanced preparation for engineering practice, research and education.

Admission Requirements for this Program

- Official transcript indicating a bachelor's degree in from accredited U.S. college or university or a similarly recognized international university in mechanical or aerospace engineering, or closely related engineering discipline
- GPA of 3.3
- GRE Scores are used by some faculty in choosing students and in funding decisions and are therefore strongly encouraged
- 3 letters of recommendation
- Statement of purpose
- Curriculum Vitae
- International Students - proof of English proficiency (TOEFL or IELTS)

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
30-33	30-33

Simple Requisites

Program Requirements

- Must maintain a minimum 3.0 GPA
- A cumulative GPA of 3.0 is required for graduation
- Grades of C- or lower are not permitted on the program of study
- All graduate students must submit School of Graduate Studies forms and requirements for their chosen plan
- A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated

- Credits in the following areas are not acceptable: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000

Three program plans are available for the Mechanical Engineering MS degree.

The **Plan A Thesis** requires 30 credits (minimum):

- 21 credits of approved MAE coursework
- 3 credits of an approved 5000-level (or above) math course
- Minimum of 6 credits of thesis research
    - A maximum of 15 thesis research credits applied toward a Program of Study
- Only 12 credits of approved 5000- level courses allowed
- A thesis proposal and formal thesis defense are required. The thesis must meet School of Graduate Studies and MAE Department requirements
    - Successful defense and submission of the thesis to the library
- In-person attendance at 6 MAE Research Seminar Series presentations before graduating
- Approval of academic forms required for master's students by the School of Graduate Studies
    - Supervisory Committee
    - Program of Study
    - Thesis Proposal Approval
    - Appointment for Examination
    - Record of Examination
    - SGS and library review and approval

The **Plan B Report** requires 30 credits (minimum):

- 24 credits of approved MAE coursework
- 3 credits of an approved 5000-level (or above) math course
- 3 credits of project research
- Only 12 credits of approved 5000- level courses allowed
- A thesis project proposal and formal report defense are required. The report must meet School of Graduate Studies and MAE Department requirements
    - Successful defense and submission of the project to the library
- In-person attendance at 6 MAE Research Seminar Series presentations before graduating
- Approval of academic forms required for master's students by the School of Graduate Studies
    - Supervisory Committee
    - Program of Study
    - Thesis Project Approval
    - Appointment for Examination
    - Record of Examination
    - Library review and approval

The **Plan C Coursework Only** requires 33 credits (minimum):

- 30 credits of approved MAE coursework
- Only 12 credits of approved 5000- level courses allowed
- 3 credits of an approved 5000-level (or above) math course
- Approval of academic forms required for master's students by the School of Graduate Studies
    - Program of Study

Course Requirements

Type
Completion Requirement

Approved Courses:

Choose 9 credits (MS Plan A) or 12 credits (MS Plan B and C)

Complete ANY of the following Courses:

- CS6685 - Deep Learning Theory and Applications - 3cr. **OR** STAT6685 - Deep Learning Theory and Applications - 3cr.
- CS5680 - Computer Vision: Foundations and Applications - 3cr.
- CS7680 - Advanced Computer Vision - 3cr.
- ECE5230 - Spacecraft Systems Engineering - 3cr.
- ECE6240 - Space Environment and Engineering - 3cr.
- MAE5020 - Finite Element Methods in Solid Mechanics I - 3cr.
- MAE5040 - Experimental Solid Mechanics - 3cr.
- MAE5045 - Adhesion Sciences - 3cr.
- MAE5050 - Material Science of Composites - 3cr.
- MAE5060 - Mechanics of Composite Materials I - 3cr.
- MAE5300 - Vibrations - 3cr.
- MAE5310 - Control Systems - 4cr.
- MAE5320 - Mechatronics - 4cr.
- MAE5330 - Small Unmanned Aircraft Systems - 3cr.
- MAE5340 - Introduction to Planning and Control for Mobile Robots - 3cr.
- MAE5350 - Kinematics - 3cr.
- MAE5360 - Advanced Dynamics - 3cr.
- MAE5370 - Optimization for Engineers - 3cr.
- MAE5420 - Compressible Fluid Flow - 3cr.
- MAE5430 - Advanced Thermal-Fluids - 3cr.
- MAE5440 - Computational Fluid Dynamics - 3cr.
- MAE5450 - Hybrid Energy - 3cr.
- MAE5500 - Aerodynamics - 3cr.
- MAE5510 - Dynamics of Atmospheric Flight - 3cr.
- MAE5530 - Space System Design - 3cr.
- MAE5540 - Propulsion Systems - 3cr.
- MAE5550 - Introduction to Aircraft Structures - 3cr.
- MAE5560 - Dynamics of Space Flight - 3cr.
- MAE5700 - Introduction to Microfabrication - 3cr.
- MAE5930 - Special Problems - 1cr.
- MAE6010 - Finite Element Methods in Solid Mechanics II - 3cr.
- MAE6030 - Metal Additive Manufacturing - 3cr.
- MAE6040 - Continuum Mechanics and Elasticity - 3cr.
- MAE6050 - Manufacturing of Composite Materials and Structures - 3cr.
- MAE6055 - Testing of Composite Materials - 3cr.
- MAE6060 - Micro-Mechanics of Deformation - 3cr.
- MAE6061 - Micro-Mechanisms of Failure - 3cr.
- MAE6070 - Mechanics of Composite Materials II - 3cr.
- MAE6090 - Theory of Plates and Shells - 3cr.
- MAE6130 - Structural Dynamics and Seismic Design - 3cr.
- MAE6180 - Dynamics and Vibrations - 3cr.

- MAE6320 - Linear Multivariable Control - 3cr.
- MAE6330 - Robust Control - 3cr.
- MAE6340 - Spacecraft Attitude Control Theory - 3cr.
- MAE6410 - Fluid Dynamics - 3cr.
- MAE6420 - Mechanical Engineering Experiments - 3cr.
- MAE6430 - Boundary Layer Theory and Convection Heat Transfer - 3cr.
- MAE6440 - Advanced Computational Fluid Dynamics - 3cr.
- MAE6450 - Thermodynamics - 3cr.
- MAE6460 - Conduction and Radiation Heat Transfer - 3cr.
- MAE6490 - Turbulence - 3cr.
- MAE6500 - Potential Flow - 3cr.
- MAE6510 - Aircraft Dynamics and Flight Simulation - 3cr.
- MAE6530 - Propulsion Systems - 3cr.
- MAE6540 - Cislunar Astrodynamics and Distributed Space Systems - 3cr.
- MAE6560 - Spacecraft Navigation - 3cr.
- MAE6570 - Optimal Spacecraft Guidance - 3cr.
- MAE6670 - Fracture Mechanics - 3cr.
- MAE6930 - Special Problems - 1cr.
- MAE7080 - Advanced Plate and Shell Theory - 3cr.
- MAE7330 - Nonlinear and Adaptive Control - 3cr.
- MAE7360 - Optimal Control - 3cr.
- MAE7540 - Astrodynamic Perturbations and Propagation - 3cr.
- MAE7570 - Monte Carlo and Linear Covariance Techniques for Closed-Loop GN&C System Analysis - 3cr.
- ECE7560 - Optimal Estimation for Aerospace Systems - 3cr. **OR** MAE7560 - Optimal Estimation for Aerospace Systems - 3cr.

About this Degree

The Department of Mechanical and Aerospace Engineering provides each graduate with a foundation of knowledge and experience upon which to build successful careers in mechanical engineering, aerospace engineering, composite materials and structures, or space systems engineering.

Mechanical Engineering touches nearly every aspect of our modern lives. Mechanical engineers use principles of motion, energy, heat, controls, vibrations, solids, and material science to design and build mechanical devices that lift enormous loads or move microscopic components. Mechanical Engineers affect technological advancements in nearly every field and component of life today.

Admission Requirements for this Program

- Official transcript indicating a bachelor's degree from an accredited U.S. college or university or a similarly recognized international university in mechanical or aerospace engineering, or a closely related engineering discipline
- GPA of 3.3
- GRE Scores are used by some faculty in choosing students and in funding decisions and are therefore strongly encouraged
- 3 letters of recommendation
- Statement of Purpose
- Curriculum Vitae
- International Students - proof of English proficiency (TOEFL or IELTS)

Program Requirements

Total Credits Required In Program Coursework
42-72

Total Credits Required To Earn This Credential
42-72

Simple Requisites

Program Requirements

- Must maintain a minimum 3.0 GPA
- A cumulative GPA of 3.0 is required for graduation
- Grades of C- or lower are not permitted on the program of study
- All graduate students must submit School of Graduate Studies forms and requirements for their chosen plan
- A doctorate must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated
- Three PhD qualifying exams must be passed
- A proposal defense and a formal final defense are required for the dissertation. The dissertation must meet School of Graduate Studies and MAE Department requirements
    - Successful defense and submission of the dissertation to the library
- A paper related to the dissertation, with the student as the first author, must be submitted for publication in a refereed journal prior to scheduling the final defense
- Students may choose to earn a Plan C Aerospace Engineering or Mechanical Engineering MS degree while completing their PhD; this option increases the PhD minimum requirement to 81 credits
- Credits in the following areas are not acceptable: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000
- In-person attendance at 12 MAE Research Seminar Series presentations before graduating
- Approval of academic forms required for doctoral students by the School of Graduate Studies
    - Supervisory Committee
    - Program of Study
    - Application for Candidacy
    - Appointment for Examination
    - Record of Examination
    - SGS and library review and approval

Two program plans are available for the Mechanical Engineering PhD degree.

The **PhD beyond a Bachelor's** requires 72 credits (minimum):

- 30 credits of approved MAE coursework
- 6 credits of approved 5000-level (or above) math course
- 36 credits of dissertation research
- Only 12 credits of 5000-level courses allowed

The **PhD Degree beyond a Master's** requires 42 credits (minimum):

- 12 credits of approved MAE coursework
- 30 credits of dissertation research

Course Requirements

Type
Completion Requirement

Approved Courses:

Choose 12 credits (**PhD beyond a Bachelor's**)

Earn at least 12 credits from the following:

- CS5680 - Computer Vision: Foundations and Applications - 3cr.
- CS6685 - Deep Learning Theory and Applications - 3cr. **OR** STAT6685 - Deep Learning Theory and Applications - 3cr.
- CS7680 - Advanced Computer Vision - 3cr.
- ECE5230 - Spacecraft Systems Engineering - 3cr.
- ECE6240 - Space Environment and Engineering - 3cr.

Medieval and Early Modern Studies - Institutional Certificate of Proficiency

Program Overview

College
College of Arts & Sciences

Department
English

Program Level
Undergraduate

About this Degree
The Medieval and Early Modern Studies (MEMS) Certificate is an Institutional Certificate of Proficiency that recognizes a student's proficient knowledge of the history, cultures, literature, art, and religions of the Middle Ages (500-1500) and/or the Early Modern era (1500-1800).

Program Requirements

Total Credits Required In Program Coursework
24

Total Credits Required To Earn This Credential
24

Simple Requisites

Program Requirements

To receive the certificate, the student must complete 24 credits in approved medieval and early modern courses as delineated below. All courses counted toward the certificate must be completed with a grade of B or higher.

Medieval and Early Modern Studies - ICP

Type
Completion Requirement

Core Course (3 credits)

Complete at least 1 of the following courses:

- HIST1100 - European History to 1500 (BHU) - 3cr.
- HIST1500 - Pre-Modern World (BHU) - 3cr.

Foreign Language Courses

Complete the following:
Students must complete six credits in a foreign language at the 2000 level or above.

Elective Courses

Type
Completion Requirement

Elective Courses (15 credits)

Students must complete 15 credits from among at least three of the nine disciplines below:

Art History

Complete ANY of the following Courses:

- ARTH2710 - Survey of Western Art: Prehistoric to Medieval (BHU) - 3cr.
- ARTH3320 - Pre-Columbian Art (CI) - 3cr.
- ARTH3340 - African Art (CI) - 3cr.
- ARTH3510 - Islamic Visual Cultures (CI/DHA) - 3cr.
- ARTH3620 - Early Christian and Byzantine Art (DHA) - 3cr.
- ARTH3630 - Medieval Art (CI/DHA) - 3cr.
- ARTH3720 - Renaissance Art (CI) - 3cr.

- ARTH4210 - Celtic Europe - 3cr.
- ARTH4730 - Baroque and Rococo Art - 3cr.

Chinese

Complete ANY of the following Courses:

- CHIN4090 - Readings in Masterworks of Classical Chinese Fiction - 3cr.

English

Complete ANY of the following Courses:

- ENGL3305 - Medieval Literary History - 3cr.
- ENGL3310 - Resistance and Literature I - 3cr.
- ENGL3315 - Early Modern British Literary History - 3cr.
- ENGL3320 - Resistance and Literature II - 3cr.
- ENGL3325 - Eighteenth-Century British Literary History - 3cr.
- ENGL3355 - Literary History of the Early Americas - 3cr.
- ENGL3395 - World Literature in Translation - 3cr.
- ENGL4300 - Shakespeare - 3cr.
- ENGL4350 - Studies in Poetry - 3cr.

French

Complete ANY of the following Courses:

- FREN4610 - Studies in French Literature and Culture (DHA) - 3cr.
- FREN4630 - French and Francophone Fairy Tales (DHA) - 3cr.

German

Complete ANY of the following Courses:

- GERM3600 - Classic German Art and Literature (DHA) - 3cr.

History

Complete ANY of the following Courses:

- HIST3010 - Introduction to Buddhism (DHA) - 3cr.
- HIST3020 - Introduction to Hinduism (DHA) - 3cr.
- HIST3030 - Introduction to Islam (DHA) - 3cr.
- HIST3060 - Introduction to Judaism (DHA) - 3cr.
- HIST3150 - Roman History (CI) - 3cr.
- HIST3220 - Medieval European Civilization, 500-1500 (DHA/CI) - 3cr.
- HIST3225 - Medieval Britain, 500-1500 (DHA) - 3cr.
- HIST3230 - Early Modern Europe (DHA) - 3cr.
- HIST3250 - Renaissance Europe 1300 to 1520 (DHA/CI) - 3cr.
- HIST3270 - The Crusades (DHA) - 3cr.
- HIST3482 - Ancient China to 1800 (DHA) - 3cr.
- HIST3620 - History of Colonial Latin America (DHA) - 3cr.
- HIST3670 - Slavery in the Atlantic World (CI) - 3cr.
- HIST3720 - Colonial America - 3cr.
- HIST3730 - American Revolutionary Era - 3cr.
- HIST4150 - Japan, Europe, and the Early Modern World - 3cr.
- HIST4230 - The History of Christianity in the West (DHA/CI) - 3cr.
- HIST4250 - The Reformation in Britain: 1450-1688 - 3cr.
- HIST4251 - The Tudors, 1485-1603 (DHA) - 3cr.
- HIST4260 - Witches, Workers, & Wives: Gender and Family in Early Modern Europe and America (DHA) - 3cr.
- HIST4290 - Europe and the French Revolution, 1700-1815 - 3cr.
- HIST4565 - Medieval Islam (DHA) - 3cr.

Philosophy

Complete ANY of the following Courses:

- PHIL3020 - Survey of Modern Philosophy (CI) - 3cr.
- PHIL3710 - Philosophies of East Asia - 3cr.
- PHIL4250 - Tolkien and Lewis on Myth and Truth - 3cr.

Religious Studies

Complete ANY of the following Courses:

- RELS3010 - Introduction to Buddhism (DHA) - 3cr.
- RELS3020 - Introduction to Hinduism (DHA) - 3cr.
- RELS3030 - Introduction to Islam (DHA) - 3cr.
- RELS3050 - Introduction to Christianity (DHA) - 3cr.
- RELS3060 - Introduction to Judaism (DHA) - 3cr.
- RELS3120 - Early Modern Philosophy - 3cr. (Inactive)
- RELS3220 - Medieval European Civilization, 500-1500 (DHA/CI) - 3cr.
- RELS3270 - The Crusades (DHA) - 3cr.
- RELS3420 - Gods and Goddesses of India - 3cr.
- RELS3482 - Ancient China to 1800 (DHA) - 3cr.
- RELS3820 - Hindu Sacred Texts (CI) - 3cr.
- RELS4230 - The History of Christianity in the West (DHA/CI) - 3cr.
- RELS4565 - Medieval Islam (DHA) - 3cr.

Spanish

Complete ANY of the following Courses:

- SPAN3600 - Survey of Spanish Literature I (DHA) - 3cr.
- SPAN3620 - Survey of Hispanic American Literature I (DHA) - 3cr.

Middle East Studies - Minor

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures, History, Cultures & Ideas, School of Social Sciences

Program Level
Undergraduate

About this Degree

This interdisciplinary program offers an introduction to history, politics, language, religion, and culture in the region. It prepares students for careers in diplomacy, intelligence, global business, journalism, education, humanitarian work, and more. Students develop intercultural competence, global awareness, critical thinking skills, research skills, analytical skills, and Arabic language skills.

Program Requirements

Total Credits Required In Program Coursework
14

Total Credits Required To Earn This Credential
14

Simple Requisites

Program Requirements

- **Total Credits for Middle East Studies Minor:** 14
- **Grade Point Average to Declare Minor:** 2.0 GPA minimum
- **Minimum Grade Requirement:** All courses taken for the minor require a minimum grade of **C-** or better. Courses for the minor may not be taken on a pass/fail basis.

Required Courses

Type
Completion Requirement

Required Courses (8 credits in Arabic language courses)

Earn a minimum grade of C- in the following:

- ARBC1010 - Arabic First Year I - 4cr.
- ARBC1020 - Arabic First Year II - 4cr.

See advisor for additional language options. Students with prior language experience should see the Department of World Languages & Cultures for Language Proficiency and Placement Testing to potentially place into a higher level (ARBC2010 ARABIC SECOND YR I, ARBC2020 ARABIC SECOND YR II, ARBC3010 ADV ARABIC I, and ARBC3020 ADVANCED ARABIC II also count for this minor).

Elective Courses

Type
Completion Requirement

Elective courses (6 credits)

All courses taken for the minor require a minimum grade of **C-** or better.

Earn at least 6 credits from the following:

- ARBC3030 - Introduction to Islam (DHA) - 3cr.
  OR HIST3030 - Introduction to Islam (DHA) - 3cr.
  OR RELS3030 - Introduction to Islam (DHA) - 3cr.
- ARBC3800 - Study Abroad in Jordan - 3cr.
- ARBC4040 - Language and Culture of the Arab World (DHA) - 3cr.
- HIST3110 - Ancient Near East (DHA/CI) - 3cr.
- HIST3270 - The Crusades (DHA) - 3cr.
  OR RELS3270 - The Crusades (DHA) - 3cr.
- HIST3410 - The Modern Middle East - 3cr.
- HIST4560 - Women in Islam (DHA) - 3cr.
  OR RELS4560 - Women in Islam (DHA) - 3cr.
- HIST4565 - Medieval Islam (DHA) - 3cr.
  OR RELS4565 - Medieval Islam (DHA) - 3cr.

Master of Financial Economics - MFE

Program Overview

College
Jon M. Huntsman School of Business

Department
Economics and Finance

Program Level
Graduate

About this Degree

The Master of Financial Economics (MFE) is designed as a terminal, professional degree in financial economics. The curriculum includes courses in the key areas of finance and the supporting areas of economics and quantitative methods. It is intended to prepare students for a wide range of careers both within and outside the financial industry, including risk management, asset management, macroeconomic and financial forecasting, trading, and financial and economic research. In conjunction with their program of study, students may pursue well-known external certifications, which include the Certified Financial Analyst (CFA) or Certified Financial Planner (CFP).

CFA: The Certified Financial Analyst specialization is designed to help students pass the first CFA exam (i.e., Level I exam) at the end of their second semester in the program. The CFA is the most internationally recognized and credible credential for financial professionals and is earned by passing a series of analytically rigorous exams.

CFP: The Certified Financial Planner specialization is designed to help students pass the CFP® exam at the end of their second semester. The CERTIFIED FINANCIAL PLANNER™ certification is the standard of excellence in financial planning. CFP® professionals meet rigorous education, training, and ethical standards, and are committed to serving their clients' best interests today to prepare them for a more secure tomorrow. The CFP® specialization offers courses that have been approved by the CFP® Board to meet the education requirements to sit for the CFP® exam.

Bloomberg Terminals and Training: Bloomberg is synonymous with real-time financial information. Every major financial institution hosts Bloomberg terminals. Due to the expense, however, very few universities provide access to Bloomberg. The Department of Economics and Finance at the Huntsman School of Business is one of these select few. These terminals not only support classroom instruction and faculty research but provide a means for students to become certified in the use of Bloomberg – a skill that provides value to future employers on day one of your professional career.

Opportunity to help manage real money: Students may take courses where they make asset allocation, trading, risk management, and credit decisions under the direction of a faculty member who is an experienced financial professional. This valuable experiential learning will help you apply what you learn and allow you to stand out in the marketplace.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

The MFE program requires a minimum of 30 credits from an approved program of study with at least 18 credits from 6000-level courses with an FIN/ECON prefix or higher. More information about courses and specific fields of study can be found at https://huntsman.usu.edu/mfe/.

Graduate School Requirements

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review. Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Food Safety and Quality - MFSQ

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Nutrition, Dietetics & Food Sciences	Graduate

About this Degree

The Master of Food Safety and Quality is a professional (Plan C) graduate degree designed to provide in-depth training in food science and food safety. This program is offered entirely online, and was designed to be flexible to meet the needs of most students who desire to enhance their careers. For more information, please contact Karin Allen, Program Director (karin.allen@usu.edu).

Tuition and Financial Aid

The MFSQ program does not provide financial aid (assistantships).

Admission Requirements for this Program

The MFSQ program of study has been tailored for students with undergraduate training in food science or related fields of study. It is recommended that applicants have some background in chemistry, statistics and microbiology. Prior coursework in food science or food safety is desirable. Applicants are encouraged to contact the MFSQ program coordinator prior to completing the University online application for graduate studies.

Application, Review and Acceptance

Applicants must meet the requirements of the School of Graduate Studies, as seen on the School of Graduate Studies Catalog page. There is no entrance exam requirement for the MFSQ program, but applicants must meet these minimum requirements:

- Complete the online application.
- Pay the required application fee.
- Provide transcripts for all college/university credits.
- 3.0 or higher GPA for the last 60 semester (90 quarter) credit hours.
- 3 professional letters of recommendation from professors, employers, or other professional references. No personal references are accepted.

The School of Graduate Studies will hold the application until it is complete, and it will then be reviewed by the NDFS department. If applicants have not received notification within 3 weeks of completing the application, they should contact the NDFS department (1-435-797-2126) to inquire on the status of their application.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
33	33

Simple Requisites

Program Requirements

MFSQ Required Courses

Type
Completion Requirement

Core Courses

Complete ALL of the following Courses:

- NDFS6110 - Food Microbiology - 3cr.
- NDFS6150 - Principles of Food Sanitation - 3cr.
- NDFS6160 - Principles of Food Toxicology - 3cr.
- NDFS6510 - Food Laws and Regulations - 3cr.
- NDFS6960 - MFSQ Capstone - 1cr.

Core Course Options

Complete at least 2 of the following courses:

- NDFS6170 - Food Safety and Quality: Food Safety Management - 1cr.
- NDFS6171 - Food Safety and Quality: Current Good Manufacturing Practice - 1cr.
- NDFS6172 - Food Safety and Quality: Hazard Analysis and Critical Control Points - 1cr.
- NDFS6173 - Food Safety and Quality: Preventive Controls - 1cr.
- NDFS6174 - Food Safety and Quality: Standards for Produce Safety - 1cr.
- NDFS6175 - Food Safety and Quality: Acidified Foods - 1cr.

Elective Courses

Courses that are dual listed (e.g., NDFS 5000/6000-level courses) or were included in the student's undergraduate program cannot be retaken at the graduate (6000) level.

Complete ANY of the following Courses:

- NDFS6030 - Dairy Technology and Processing - 3cr.
- NDFS6180 - Food Safety Inspection and Auditing - 1cr.
- NDFS6440 - Food Composition and Analysis - 3cr.
- NDFS6530 - Food Packaging and Labeling - 3cr.
- NDFS6620 - Microbiology of Fermented Dairy Foods - 3cr.
- NDFS6660 - Cheese Science - 3cr.
- NDFS6950 - MFSQ Special Problems - 1cr.
- Students may include additional graduate-level courses in their program of study through a request to the faculty advisor that includes a description of the course and justification for how this course enhances their learning as part of their career objectives.

Capstone Report

The MFSQ program of study requires the production of a formal written capstone report. There are two options: (a) literature review or (b) special projects portfolio. The depth of the report is reflected in the number of credits taken for NDFS6960 MFSQ CAPSTONE (2-4 credits). Expectations and credits should be discussed with the faculty advisor.

If a literature review is chosen, it must be written in a similar style as a thesis. The literature review should be appropriately scientific with conclusions drawn. Since this program is a "Plan C" program, the literature review is not submitted to the graduate school.

The second option is a special projects portfolio. This document should reflect the experiential development of the student based on the NDFS6950 MFSQ SPECIAL PROBLEMS credits the student was engaged in during their MFSQ program of study at USU.

Students should make use of the University Writing Center (writing.usu.edu) to correct formatting, grammar and presentation for either capstone report. The capstone report is submitted to the supervising professor for approval by the tenth week of the student's final semester.

Complete ALL of the following Courses:

- NDFS6960 - MFSQ Capstone - 1cr.

Mental Health Advocacy and Awareness - Minor

Program Overview

College
College of Education & Human Services

Department
Psychology, Human Development and Family Studies

Program Level
Undergraduate

About this Degree
The Mental Health Advocacy and Awareness Minor prepares educators, direct care providers in treatment facilities, human resource personnel, nurses, law enforcement, and others to more effectively interact with individuals with mental health needs - including knowing where and when to refer individuals for appropriate services.

Program Requirements

Total Credits Required To Earn This Credential
13

Simple Requisites

Program Requirements

Students are required to have a 3.0 on all minor coursework with a minimum of C grade acceptable for credit in the minor.

Section 1

Type
Completion Requirement

Required Courses (9 credits)

Complete ALL of the following Courses:

- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
  OR PSY1100 - Lifespan Development - 3cr.
- HDFS3700 - Mental Health Advocacy and Awareness - 3cr.
  OR PSY3700 - Mental Health Advocacy and Awareness - 3cr.
- HDFS4930 - Practicum in Mental Health - 1cr.
  OR PSY4930 - Practicum in Mental Health - 1cr.

Section 2

Type
Completion Requirement

Additional Course Requirements

Students majoring in Psychology (PSY) should choose courses outside of the PSY major. Students majoring in Human Development and Family Studies (HDFS) should choose courses outside of the HDFS major.

Fulfill ALL of the following requirements:

Additional Requirement (3 credits)

Complete at least 1 of the following courses:

- HDFS3100 - Abuse and Neglect in Family Context - 3cr.
- HDFS4250 - Addictions and the Family - 3cr.
- PSY2300 - Psychological Disorders - 3cr.
- PSY3120 - Abuse, Neglect, and the Psychological Dimensions of Intimate Violence (DSS) - 3cr.

AND

Additional Requirements (3 credits)

Complete at least 1 of the following courses:

- HDFS4220 - Family Crises and Interventions - 3cr.
- HEP3000 - Drugs and Human Behavior - 3cr.
- HEP3200 - Consumer Health - 3cr.
- PSY3110 - Health Psychology - 3cr.
- PSY4240 - Multicultural Psychology (DSS) - 3cr.
- SW3650 - Mental Health - 3cr.

Additional Comments:
Please contact Laura.Holley@usu.edu to add the minor.

Kevin Barlow is the Practicum Coordinator for the HDFS4930 PRACTICUM IN MENTAL HEALTH or PSY4930 PRACTICUM IN MENTAL HEALTH - Practicum in Mental Health course. It is a 1-credit(s) course that requires 50 hours of fieldwork. For guidance on potential practicum sites, please visit the HDFS Practicum website or contact Kevin Barlow directly.

Master of Management Information Systems - MMIS

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Data Analytics & Information Systems	Graduate

About this Degree

Opportunities in the information systems and technology sectors continue to be among the hottest and most rewarding across the job market. The MMIS program is an exciting and hands-on pathway to these careers that comprise a majority of Glassdoor's annual top 25 "Best Jobs in America," including enterprise architect, devops engineer, data engineer, Java developer, cloud engineer, information security engineer, data scientist, software developer, and others.

The MMIS program allows students to customize their course of study by selecting two post-baccalaureate certificates from tracks that include Data Technologies, Data Engineering, Data Analytics, Web Development, and Cybersecurity. Careers in information systems and data technologies are multidisciplinary and require teamwork, critical thinking, and communication. Well-qualified applicants are encouraged to apply from *any* background (including non-technical areas of study or employment) in which they have developed and applied these skills. Upon acceptance into the MMIS program, students will meet with the MMIS program coordinator to select certificate tracks that best complement their individual prior experience.

Financial Assistance

A limited number of graduate assistantships and scholarships are available to outstanding students and are awarded on a competitive basis, typically once the student is on campus and enrolled in classes. Qualified students admitted into the program may also be considered for positions as teaching assistants.

Master of Management Information Systems Faculty

Courses in the MMIS program are taught by faculty in Data Analytics and Information Systems and across the Huntsman School of Business who have years of corporate and academic experience. Our instructors are experts in the most cutting-edge tools and strategies for data and tech.

Jon M. Huntsman School of Business Faculty

Admission Requirements for this Program

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of the MMIS program. Applicants should generally expect to start the MMIS program in fall semester. For admission, applicants will be required to submit the following, in addition to the application form: an application fee, all undergraduate transcripts, three letters of recommendation, and a statement of purpose describing why they are interested in the MMIS program. All materials will be uploaded or sent directly to the School of Graduate Studies. TOEFL or IELTS scores are required for international students whose native language is not English. International students with a prior degree from a university in an English-speaking country are exempt from the TOEFL or IELTS exam. No application will be considered until all required information is received by the School of Graduate Studies. The School of Graduate Studies requires a minimum 3.0 GPA for the last 60 credits. For further requirements from the School of Graduate Studies please consult the following website: https://gradschool.usu.edu/apply.

Simple Requisites

Program Requirements

Students are individually responsible for meeting coursework requirements as outlined below. Students should ensure that they are aware of all requirements and initiate resolution of any apparent inconsistencies. MMIS students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted. Modifications or substitutions for the listed MMIS course requirements can be made with department approval, but a student's Program of Study must include at least 18 semester credits at the level of 6000 or above. Please also note these additional requirements from the USU School of Graduate Studies:

- Credits in the following areas are not acceptable for the MMIS program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- Coursework over six years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- The MMIS degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Face-to-Face and Statewide MMIS Programs

The Utah State MMIS program can be completed face-to-face at the Logan campus and is also offered for working professionals through USU's Statewide campus system at locations throughout the state of Utah (see https://statewide.usu.edu/). Admission information and deadlines for the MMIS program can be found on the MMIS website at https://huntsman.usu.edu/mmis/index.

Degree Requirements

MMIS candidates can select two of the following certificates (24 total credits) and complete 6 additional capstone credits as specified below. Course substitutions can be made within certificate tracks or among the 6 capstone credits if approved by the department. A given course cannot be used to complete more than one certificate, or both a certificate and a capstone credit requirement.

Certificates

For each of the following certificates, specific course requirements are listed within the curriculum information below.

Data Technologies (12 credits) Designed specifically for students with nontechnical academic or employment backgrounds, the Data Technologies certificate allows students to learn foundational database, programming, and analytics skills to prepare them for successfully completing an additional certificate track. Note that the Data Technologies Certificate can be earned independently, without completing all MMIS requirements.

Data Engineering (12 credits) Data Engineering represents one of the fastest-growing sectors of the information economy. Data engineers provide critical support for the data pipeline, collaborating with their teams to obtain, manage, and prepare the right data needed to answer important questions and inform strategy. Well-qualified data engineers generally require experience in SQL, Agile project management tools, Python, JavaScript, web-based application program interfaces (APIs), and cloud architecture, and understand the applications of these in general business functions and processes. Note that the Data Engineering Certificate can be earned independently, without completing all MMIS requirements.

Data Analytics (12 credits) The Harvard Business Review has called data science the "sexiest job of the 21st century." Data analysts and data scientists are in heavy demand by companies who need to make strategic decisions in an increasingly data-driven world. In completing the Data Analytics certificate, students gain practical hands-on experience applying the latest data technologies and sophisticated analytical methods, developing advanced skills in programming, machine learning and artificial intelligence, visualization, and data mining. Note that the Data Analytics Certificate can be earned independently, without completing all MMIS requirements.

Web Development (12 credits) Companies of all sizes rely on interactive web applications to share data and support business transactions. This certificate prepares students to understand web application architecture and design, develop, and deploy data-driven web applications using the latest client-side and server-side frameworks. Note that the Web Development Certificate can be earned independently, without completing all MMIS requirements.

Cybersecurity (12 credits) Data, Service, and Systems Security is a crucial part of every industry and every vertical. Outstanding job opportunities strongly favor those who understand and apply secure practices that reduce corporate risk, in any IT/IS field. This certificate unveils the mysteries of vulnerabilities and sets student up for successful careers in proactive defense. Note that the Cybersecurity Certificate can be earned independently, without completing all MMIS requirements.

Capstone Requirements

In addition to completing two of the certificates listed above, students must complete 6 credits to broaden their strategic perspective in a business or organizational environment. These capstone credits include one required course and one elective, as specified within the curriculum below.

Requirements

Type
Completion Requirement

Required Certificates

Complete two of the post-bachelor's certificates listed below (24 credits)

- Data Technologies - Post-Bachelor's Certificate
- Data Engineering - Post-Bachelor's Certificate
- Data Analytics - Post Bachelor's Certificate
- Web Development - Post-Bachelor's Certificate
- Cybersecurity - Post- Bachelor's Certificate

MMIS Capstone Class

The following requirements must be completed by all MMIS candidates, in addition to two of the certificates listed above.

Fulfill ALL of the following requirements:

Required Course

Complete ALL of the following Courses:

- IS6610 - IS Strategy - 3cr.

AND

Elective Course

Complete at least 1 of the following courses:

- IS6250 - Graduate Internship - 1cr.
- DATA6490 - Prescriptive Analytics and Management Science - 3cr.
- ACCT6350 - Accounting for Management Decision Making - 3cr.
- FIN6010 - Solving Financial Problems - 3cr.
- MSLE6200 - Executive Influence - 3cr.
- MSLE6410 - Enterprise and Value Creation - 3cr.

Machine Learning and Artificial Intelligence - Post-Bachelor's Certificate

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Graduate

About this Degree

Machine learning and artificial intelligence (AI) are at the forefront of technological advances in fields such as healthcare, finance, autonomous vehicles, and more. This certificate provides a strong foundation in machine learning and AI, equipping students with the skills and knowledge to better harness the power of data, enabling them to tackle complex problems, make data-driven decisions, and develop cutting-edge solutions.

This Certificate is stackable towards certain masters degrees at USU (including Master of Data Analytics and Master of Data Analytics-Statistics specialization).

Admission Requirements for this Program

Students already pursuing a masters or doctoral degree at USU may apply for this Certificate as a Secondary Program using the Concurrent Degree Form. Students interested in pursuing this Certificate as a standalone certificate (who are not already in a masters or doctoral degree program at USU) should apply through the USU School of Graduate Studies at https://gradschool.usu.edu/.

(A bachelor's degree is required before this credential can be awarded.)

Program Requirements

12-13

Total Credits Required To Earn This Credential
12-13

Simple Requisites

Program Requirements

All grades for courses applied toward this Certificate must be C or better.

Machine Learning and Artificial Intelligence - Post-Bachelor's Certificate

Type
Completion Requirement

Machine Learning and Artificial Intelligence Core (3-4 credits)

Complete at least 1 of the following courses:

- STAT5650 - Applied Machine Learning and Multivariate Statistics - 3cr.
- STAT6655 - Machine Learning - 3cr.
- CS6600 - Intelligent Systems - 4cr.
- CS6840 - Graph Mining - 3cr.
- CS6665 - Machine Learning for Data Science - 3cr.

Electives (9 credits)

Students must take at least 9 credits from the following courses (not counting any courses taken for the core requirement above):

Earn at least 9 credits from the following:

- MATH5645 - Mathematical Methods for Data Science - 3cr.
  OR MATH6645 - Mathematical Methods for Data Science - 3cr.
  OR STAT5645 - Mathematical Methods for Data Science - 3cr.
  OR STAT6645 - Mathematical Methods for Data Science - 3cr.

- STAT5650 - Applied Machine Learning and Multivariate Statistics - 3cr.
- STAT5685 - Deep Learning Theory and Applications - 3cr.
  OR STAT6685 - Deep Learning Theory and Applications - 3cr.
- STAT6655 - Machine Learning - 3cr.
- BIOL6320 - Summarizing complex datasets and machine learning for life scientists - 1cr.
  OR CAS6320 - Summarizing complex datasets and machine learning for life scientists - 1cr.
- CS5080 - Data Mining - 3cr.
- CS6640 - Artificial Neural Networks - 3cr.
- CS6600 - Intelligent Systems - 4cr.
- CS6665 - Machine Learning for Data Science - 3cr.
- CS6675 - Advanced Data Mining - 3cr.
- CS6680 - Computer Vision: Foundations and Applications - 3cr.
- CS6830 - Data Science in Practice - 3cr.
- CS6840 - Graph Mining - 3cr.
- CS6850 - Introduction to Data Analysis - 3cr.
- DATA6420 - Introduction to Text Mining - 3cr.
- DATA6610 - Advanced Machine Learning for Analytics - 3cr.
- DATA6630 - Deep Forecasting - 3cr.
- ECON6090 - Machine Learning in Economics and Finance - 3cr.

Machine Learning Operations - Post-Bachelor's Certificate

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Data Analytics & Information Systems	Graduate

About this Degree

The Machine Learning Operations Certificate is designed to meet the increasing demand for professionals with skills in deploying, managing, and maintaining machine learning models in production environments. This program provides practical training in ML Ops, software development, web integration, and agile project management. These skills prepare graduates to meet the needs of organizations implementing AI technologies at scale. This program combines ML Ops-specific training with web development and project management methodologies to provide students with comprehensive, job-ready skills. The curriculum addresses a clear market need for professionals who can bridge the gap between data science and operational systems.

Note that the Machine Learning Operations Post-Bachelor's Certificate can be completed on its own, or it can be stacked with other certificates offered by the Department of Data Analytics and Information Systems (or with designated certificates from other campus programs) to meet the requirements of the Master's of Data Analytics (MDATA) program.

Data Analytics and Information Systems Faculty

Courses in Data Technologies Post-Bachelor's Certificate program are taught by faculty in the Department of Data Analytics and Information Systems who have years of corporate and academic experience. Our instructors are experts in the most cutting-edge tools and strategies for data and tech.

https://huntsman.usu.edu/dais/directory

Admission Requirements for this Program

Prior bachelor's degree with at least a 3.0 GPA in previous 90 credits; relevant coursework or experience in basic data analysis and programming.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
12	12

Simple Requisites

Program Requirements

The certificate requires 12 total credits, with 6 required credits and two additional 3-credit elective courses as outlined within the curriculum below. Individual substitutions for course requirements may be considered and approved on a case-by-case basis by the Data Analytics and Information Systems Department.

Courses used to fulfill requirements for this certificate may not include courses previously completed to meet the requirements of any other certificate or program, and cannot be used to complete any other certificate or program.

Courses remain valid for 6 years for potential inclusion in a future master's degree program (MMIS or MDATA).

Certificate students who opt to earn an MMIS or MDATA degree will be granted a waiver for reduced application fees for their future master's application. Please contact our office for details.

Machine Learning Operations - Post-Bachelor's Certificate Course

Requirements

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- DATA6580 - Machine Learning Operations - 3cr.
- IS6100 - Agile Tech Design and Development - 3cr.

Additional Courses

Complete at least 2 of the following courses:

- DATA6500 - Python Programming for Analytics - 3cr.
- DATA6570 - Building Software With Artificial Intelligence - 3cr.
- IS6770 - Advanced Server-Side Web Application Development - 3cr.
- IS6780 - Advanced Client-Side Web Application Development - 3cr.

Multimedia Development - Minor

Program Overview

College
College of Education & Human Services

Department
Instructional Technology & Learning Sciences

Program Level
Undergraduate

About this Degree

Objectives

1. Provide students with design skills.
2. Develop students' multimedia production skills.
3. Prepare students for employment in the multimedia field.

The Multimedia Development minor is especially appropriate for fields which require computer-based instruction, such as business, computer science, engineering, and communications, but students from all majors are accepted. For detailed requirements, contact the ITLS department.

Employment opportunities for graduates with multimedia development skills are increasing as hundreds of companies are being established to meet the demand for well-designed multimedia materials. This 15-credit undergraduate minor is designed for the individual who would enjoy producing multimedia computer-based training materials.

Admission Requirements for this Program

To be officially accepted into the minor, students must meet with the Instructional Technology & Learning Sciences (ITLS) multimedia minor coordinator and complete an Information Sheet (available in the ITLS department main office - Emma Eccles Jones Education building, room 215.

Program Requirements

Simple Requisites

Program Requirements

- Meet with the Multimedia Development Minor program coordinator to complete the necessary paperwork
- Successfully complete a minimum of 15 credits

Section 1

Type
Completion Requirement

Program Requirements (15 credits)

Earn at least 15 credits from the following:

- ITLS4208 - Integrated Multimedia Production - 3cr.
- ITLS4220 - Video and Audio Design and Production II - 3cr. (Inactive)
- ITLS5130 - Data Visualization - 3cr.
- ITLS5210 - Virtual Environment Development - 3cr.
- ITLS5215 - Video and Audio Design and Production I - 3cr.
- ITLS5225 - User Experience/User Interaction Design - 3cr.
- ITLS5240 - Graphic Design and Production II - 3cr.
- ITLS5260 - Mobile Design and Development for Learning - 3cr.
- ITLS5265 - Internet Design and Development - 3cr.
- ITLS5270 - Digital Making and Learning - 3cr.
- ITLS4275 - Multimedia Special Topic Studio I - 3cr. (Inactive)
- ITLS5245 - eLearning Authoring Tools - 3cr.
- ITLS5320 - Writing for Design (CI) - 3cr.

- IS3700 - User Interface/User Experience Web Design - 3cr.
- IS5700 - User Interface/User Experience Web Design - 3cr.

NOTE:

1. IS courses may have required prerequisites. Check before registration. Check the class schedule or with the program advisor for availability and course options.

Management - BA, BS

Program Overview

College
Huntsman School of Business

Department
Management

Program Level
Undergraduate

About this Degree

The Management major enables students to acquire a foundation of key concepts and skills that are applicable to both business and non-business organizations, coupled with the technical skills needed to support particular career paths.

Though this program can be earned without an emphasis, this major offers several emphasis options:
Management - Operations and Supply Chain Management Emphasis - BA, BS
Management - Human Resources Management Emphasis - BS
Management - Healthcare Management Emphasis - BA, BS
Management - Wealth Management Emphasis - BA, BS

- For more information about Management, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is any Quantitative Literacy (QL) course

Admission Requirements for this Program

First-Year and Transfer Students are admitted to the Huntsman School of Business based on USU's Admission Requirements.

Current USU Students in good standing qualify for admission into a Huntsman School major.

Huntsman School Admission Details: https://huntsman.usu.edu/undergraduate/apply

Program Requirements

Total Credits Required In Program Coursework
73

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Students must complete the General Education Requirements

- We recommend students consult with their academic advisor to understand which major courses may fulfill these requirements.

Students must also complete the University Studies Depth Requirements

- Elective credits needed will be determined on an individual basis (a student with continuing education, AP credits, and language credits may not require additional elective credits).
- A complete list of requirements can be found on the requirements sheet at huntsman.usu.edu/undergraduate/majors/management-major.
- Students are encouraged to enhance their education experience through use of the Roadmap to Graduation and Student Success found at https://huntsman.usu.edu/advising/road_map.
- A 2.5 overall and major GPA are required to be recommended for graduation.

Management Major - BA, BS

Type
Completion Requirement

Management Major Required Courses

Complete ALL of the following Courses:

- MGT1000 - Business Career Preparation - 1cr.
- MGT3100 - Organizational Behavior - 2cr.
- MGT3250 - Managing Human Capital - 3cr.
- MGT3600 - Project Management - 2cr.
- MGT4250 - Management Internship - 1cr.
- 1 credit required in MGT 4250

Management Major Elective Courses

Management Major students who are not choosing an emphasis, must complete at least seventeen (17) credits from the following list of courses:

Earn at least 17 credits from the following:

- MGT3150 - Critical Thinking for Managerial Decision Making - 2cr.
- MGT3400 - Managerial Ethics - 2cr.
- MGT3450 - Film and Management - 1cr.
- MGT3710 - Team Management - 2cr.
- MGT3810 - Employment Law (DSS) - 3cr.
- MGT3850 - Sports Management - 2cr.
- MGT4500 - Principles of Healthcare Management - 3cr.
- MGT4510 - Innovation and Improvement in Healthcare Management - 3cr.
- MGT4520 - Healthcare Policy and Strategy - 3cr.
- MGT4600 - Negotiations - 2cr.
- MGT4610 - Recruitment and Selection - 2cr.
- MGT4620 - Talent Acquisition - 3cr.
- MGT4630 - Applied Human Resource Management - 3cr.
- MGT4720 - Sales and Operations Planning - 2cr.
- MGT4740 - Quality Management - 2cr.
- MGT4760 - Services Management - 2cr.
- MGT4790 - Managing Global Value Chains - 2cr.
- MGT5730 - Lean Continuous Improvement - 3cr.
- MGT4800 - Independent Research and Readings - 1cr.
- MGT4850 - Special Topics in Management - 1cr.
- MGT4250 - Management Internship - 1cr.

Up to nine (9) credits of upper-division HSB courses from other Huntsman Business School Departments (ACCT, DATA, IS, ECON, FIN, MSLE; 3000 - 5999 course numbers), not already counting toward the Business Acumen requirements, may be used to fulfill the Management Major Elective course requirement.

MGT 4250 Internship can be repeated for up to a total of six (6) credits, one (1) of which will fulfill the Major Requirement and up to five (5) can be used to fulfill the Management Major Elective requirement.

Business Acumen (47 credits)

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- BUS3200 - Professional Communication with AI (CI) - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- DATA3100 - Making Decisions with Data - 3cr.
- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- FIN3300 - Investments - 3cr.
- MGT3350 - Legal and Ethical Environment of Business - 3cr.
- MGT3700 - Operations Management - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3800 - Leadership - 2cr.
- MSLE3890 - Systems Strategy and Problem Solving - 2cr.

A minimum grade of C is required in all Business Acumen courses, except in cases where Major requirements may require a higher grade. Please consult your advisor for further information concerning minimum grades.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students who have not attended any school beyond high school and have a declared major in the Huntsman School of Business are encouraged to enroll in BUS1000 HSB FRESHMEN ACADEMY during their first year at USU.

*The course is intended to acculturate students to college life, and is therefore not relevant for internal or external transfer students. This course is an in-person course on the Logan campus for now, so those at statewide campuses or online are not able to enroll.

Management - Healthcare Management Emphasis - BA, BS

Program Overview

College
Jon M. Huntsman School of Business

Department
Management

Program Level
Undergraduate

About this Degree

The Management major enables students to acquire a foundation of key concepts and skills that are applicable to both business and non-business organizations, coupled with the technical skills needed to support particular career paths.

The Healthcare Management emphasis prepares students for careers in a rapidly growing sector of the economy that is already worth more than $1 trillion.

- For more information about Management, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is any Quantitative Literacy (QL) course

Admission Requirements for this Program

First-Year and Transfer Students are admitted to the Huntsman School of Business based on USU's Admission Requirements.

Current USU Students in good standing qualify for admission into a Huntsman School major.

Huntsman School Admission Details: https://huntsman.usu.edu/undergraduate/apply

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Students must complete the General Education Requirements

- We recommend students consult with their academic advisor to understand which major courses may fulfill these requirements.

Students must also complete the University Studies Depth Requirements

- Elective credits needed will be determined on an individual basis (a student with continuing education, AP credits, and language credits may not require additional elective credits).
- Completing a minor is recommended to fulfill elective credits.
- A complete list of requirements can be found on the requirements sheet at huntsman.usu.edu/undergraduate/majors/management-major.
- Students are encouraged to enhance their education experience through use of the Roadmap to Graduation and Student Success found at https://huntsman.usu.edu/advising/road_map.
- A 2.5 overall and major GPA are required to be recommended for graduation.

Management - Healthcare Management Emphasis - BA, BS Course Requirements

Type
Completion Requirement

Management Major Requirements (9 credits)

Complete ALL of the following Courses:

- MGT1000 - Business Career Preparation - 1cr.
- MGT3100 - Organizational Behavior - 2cr.
- MGT3250 - Managing Human Capital - 3cr.
- MGT3600 - Project Management - 2cr.
- MGT4250 - Management Internship - 1cr.
- 1 credit required in MGT 4250

Management Major - Healthcare Management Emphasis (11 credits)

Complete ALL of the following Courses:

- MGT4500 - Principles of Healthcare Management - 3cr.
- MGT4510 - Innovation and Improvement in Healthcare Management - 3cr.
- MGT4520 - Healthcare Policy and Strategy - 3cr.
- MGT4600 - Negotiations - 2cr.

Management Major - Elective Credits (Minimum 6 credits required)

Business Acumen courses cannot also count toward Management major electives

Earn at least 6 credits from the following:

- MGT3150 - Critical Thinking for Managerial Decision Making - 2cr.
- MGT3400 - Managerial Ethics - 2cr.
- MGT3450 - Film and Management - 1cr.
- MGT3710 - Team Management - 2cr.
- MGT3810 - Employment Law (DSS) - 3cr.
- MGT3850 - Sports Management - 2cr.
- MGT4610 - Recruitment and Selection - 2cr.
- MGT4620 - Talent Acquisition - 3cr.
- MGT4630 - Applied Human Resource Management - 3cr.
- MGT4720 - Sales and Operations Planning - 2cr.
- MGT4740 - Quality Management - 2cr.
- MGT4760 - Services Management - 2cr.
- MGT4790 - Managing Global Value Chains - 2cr.
- MGT5730 - Lean Continuous Improvement - 3cr.
- MGT4800 - Independent Research and Readings - 1cr.
- MGT4850 - Special Topics in Management - 1cr.
- MGT4250 - Management Internship - 1cr.

MGT 4250 Internship may be repeated for up to six (6) total credits, one (1) of which will fulfill the Management Major requirements and up to five (5) can be used to fulfill the Management Major elective course requirements.

Up to 6 credits of any upper-division HSB courses (ACCT, FIN, ECON, DATA, IS, or MSLE, course number 3000 - 5999) may also be used to fulfill these elective credits required for the Management Major, Healthcare Emphasis.

Business Acumen (47 credits)

Complete all of the following Business Acumen courses:

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- BUS3200 - Professional Communication with AI (CI) - 3cr.

- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- DATA3100 - Making Decisions with Data - 3cr.
- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- FIN3300 - Investments - 3cr.
- MGT3350 - Legal and Ethical Environment of Business - 3cr.
- MGT3700 - Operations Management - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3800 - Leadership - 2cr.
- MSLE3890 - Systems Strategy and Problem Solving - 2cr.

Business Acumen courses require a C or better in all courses, except in cases where major-specific requirements may require a higher grade.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students who have not attended any school beyond high school and have a declared major in the Huntsman School of Business are encouraged to enroll in BUS1000 HSB FRESHMEN ACADEMY during their first year at USU.

*The course is intended to acculturate students to college life, and is therefore not relevant for internal or external transfer students. This course is an in-person course on the Logan campus for now, so those at statewide campuses or online are not able to enrol.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students who have not attended any school beyond high school and have a declared major in the Huntsman School of Business are expected to enroll in BUS1000 HSB FRESHMEN ACADEMY during their first year at USU.

*The course is intended to acculturate students to college life, and is therefore not relevant for internal or external transfer students. Thus, transfer students are *not* expected to enroll in BUS1000 HSB FRESHMEN ACADEMY. This course is an in-person course on the Logan campus for now, so those at statewide campuses or online are not able to enroll, and thus *not* expected to enroll.

Undeclared students should apply to the Jon M. Huntsman School during fall semester of their second year (see http://huntsman.usu.edu/apply/).

Spring semester of their third year, students should apply for graduation at http://www.usu.edu/registrar/htm/graduation/apply-online.

Management - Human Resources Management Emphasis - BA, BS

Program Overview

College
Jon M. Huntsman School of Business

Department
Management

Program Level
Undergraduate

About this Degree
The Management major enables students to acquire a foundation of key concepts and skills that are applicable to both business and non-business organizations, coupled with the technical skills needed to support particular career paths.

This emphasis develops students who understand human behavior in organizations and how human capital can be leveraged to create value for the individual and the organization.

- For more information about Management, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is any Quantitative Literacy (QL) course

Admission Requirements for this Program
First-Year and Transfer Students are admitted to the Huntsman School of Business based on USU's Admission Requirements.

Current USU Students in good standing qualify for admission into a Huntsman School major.

Huntsman School Admission Details: https://huntsman.usu.edu/undergraduate/apply

73

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Students must complete the General Education Requirements

- We recommend students consult with their academic advisor to understand which major courses may fulfill these requirements.

Students must also complete the University Studies Depth Requirements

- Elective credits needed will be determined on an individual basis (a student with continuing education, AP credits, and language credits may not require additional elective credits).
- A complete list of requirements can be found on the requirements sheet at huntsman.usu.edu/undergraduate/majors/management-major.
- Students are encouraged to enhance their education experience through use of the Roadmap to Graduation and Student Success found at https://huntsman.usu.edu/advising/road_map.
- A 2.5 overall and major GPA are required to be recommended for graduation.

Management Major - Human Resources Management Emphasis - BA, BS

Course Requirements (26 total credits)

Type
Completion Requirement

Major Requirements (9 credits)

Complete ALL of the following Courses:

- MGT1000 - Business Career Preparation - 1cr.
- MGT3100 - Organizational Behavior - 2cr.
- MGT3250 - Managing Human Capital - 3cr.
- MGT3600 - Project Management - 2cr.
- MGT4250 - Management Internship - 1cr.
- 1 credit required in MGT 4250

Management Major - Human Resource Management Emphasis (11 credits)

For the Human Resource Management Emphasis complete the following courses.

Complete ALL of the following Courses:

- MGT3810 - Employment Law (DSS) - 3cr.
- MGT4600 - Negotiations - 2cr.
- MGT4620 - Talent Acquisition - 3cr.
- MGT4630 - Applied Human Resource Management - 3cr.

MGT 4610 Recruitment and Selection (2 credits) and MGT 4620 Talent Management (2 credits) can be substituted in place of MGT 4620 Talent Acquisition and Development (3 credits) to fulfill this HR Emphasis requirement.

Management Major Elective Credits (Minimum 6 credits)

Business Acumen courses cannot also count toward Management major electives

Earn at least 6 credits from the following:

- MGT3150 - Critical Thinking for Managerial Decision Making - 2cr.
- MGT3400 - Managerial Ethics - 2cr.
- MGT3450 - Film and Management - 1cr.
- MGT3710 - Team Management - 2cr.
- MGT3850 - Sports Management - 2cr.
- MGT4500 - Principles of Healthcare Management - 3cr.
- MGT4510 - Innovation and Improvement in Healthcare Management - 3cr.
- MGT4520 - Healthcare Policy and Strategy - 3cr.
- MGT4720 - Sales and Operations Planning - 2cr.
- MGT4740 - Quality Management - 2cr.
- MGT4760 - Services Management - 2cr.
- MGT4790 - Managing Global Value Chains - 2cr.
- MGT5730 - Lean Continuous Improvement - 3cr.
- MGT4800 - Independent Research and Readings - 1cr.
- MGT4850 - Special Topics in Management - 1cr.
- MGT4250 - Management Internship - 1cr.

MGT 4520 Internship can be repeated for up to six (6) total credits, one (1) of which will fulfill the Management Major requirements and up to five (5) of which can fulfill the Management Major Elective credits.

Up to 6 credits of any upper-division HSB courses (ACCT, FIN, ECON, DATA, IS, or MSLE, course number 3000 - 5999) may also be used to fulfill these elective credits required for the Management Major, HR emphasis.

Business Acumen Courses (47 credits)

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- BUS3200 - Professional Communication with AI (CI) - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- DATA3100 - Making Decisions with Data - 3cr.
- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- FIN3300 - Investments - 3cr.
- MGT3350 - Legal and Ethical Environment of Business - 3cr.
- MGT3700 - Operations Management - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3800 - Leadership - 2cr.
- MSLE3890 - Systems Strategy and Problem Solving - 2cr.

Business Acumen courses require a C or better in all courses, except in cases where major-specific requirements may require a higher grade.

Management - Operations and Supply Chain Management Emphasis - BA, BS

Program Overview

College
Jon M. Huntsman School of Business

Department
Management

Program Level
Undergraduate

About this Degree

The Management major enables students to acquire a foundation of key concepts and skills that are applicable to both business and non-business organizations, coupled with the technical skills needed to support particular career paths.

This emphasis prepares students with interests in process improvement and how to manage supply chains.

- For more information about Management, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is any Quantitative Literacy (QL) course

Admission Requirements for this Program

First-Year and Transfer Students are admitted to the Huntsman School of Business based on USU's Admission Requirements.

Current USU Students in good standing qualify for admission into a Huntsman School major.

Huntsman School Admission Details: https://huntsman.usu.edu/undergraduate/apply

Program Requirements

Total Credits Required In Program Coursework
73

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Students must complete the General Education Requirements

- We recommend students consult with their academic advisor to understand which major courses may fulfill these requirements.

Students must also complete the University Studies Depth Requirements

- Elective credits needed will be determined on an individual basis (a student with continuing education, AP credits, and language credits may not require additional elective credits).
- A complete list of requirements can be found on the requirements sheet at huntsman.usu.edu/undergraduate/majors/management-major.
- Students are encouraged to enhance their education experience through use of the Roadmap to Graduation and Student Success found at https://huntsman.usu.edu/advising/road_map.
- A 2.5 overall and major GPA are required to be recommended for graduation.

Management - Operations and Supply Chain Management Emphasis - BA, BS

Type
Completion Requirement

Management Major Requirements (9 credits)

Complete ALL of the following Courses:

- MGT1000 - Business Career Preparation - 1cr.
- MGT3100 - Organizational Behavior - 2cr.
- MGT3250 - Managing Human Capital - 3cr.
- MGT3600 - Project Management - 2cr.
- MGT4250 - Management Internship - 1cr.
- 1 credit required for MGT 4250

Operations and Supply Chain Management Emphasis (11 credits)

Students desiring to obtain the Operations and Supply Chain Management Emphasis must also complete the following courses:

Complete ALL of the following Courses:

- MGT4720 - Sales and Operations Planning - 2cr.
- MGT4740 - Quality Management - 2cr.
- MGT4760 - Services Management - 2cr.
- MGT4790 - Managing Global Value Chains - 2cr.
- MGT5730 - Lean Continuous Improvement - 3cr.

Management - Operations and Supply Chain Management Emphasis Major Electives (Min. 6 credits)

Business Acumen courses cannot also count toward Management major electives

Earn at least 6 credits from the following:

- MGT3150 - Critical Thinking for Managerial Decision Making - 2cr.
- MGT3400 - Managerial Ethics - 2cr.
- MGT3450 - Film and Management - 1cr.
- MGT3710 - Team Management - 2cr.
- MGT3810 - Employment Law (DSS) - 3cr.
- MGT3850 - Sports Management - 2cr.
- MGT4500 - Principles of Healthcare Management - 3cr.
- MGT4510 - Innovation and Improvement in Healthcare Management - 3cr.
- MGT4520 - Healthcare Policy and Strategy - 3cr.
- MGT4600 - Negotiations - 2cr.
- MGT4610 - Recruitment and Selection - 2cr.
- MGT4620 - Talent Acquisition - 3cr.
- MGT4630 - Applied Human Resource Management - 3cr.
- MGT4800 - Independent Research and Readings - 1cr.
- MGT4850 - Special Topics in Management - 1cr.
- MGT4250 - Management Internship - 1cr.

Up to six (6) credits of any upper-division courses from other Huntsman School of Business Departments (e.g. ACCT, DATA, IS, ECON, FIN; course numbers 3000 - 5999) may be used to fulfill the Management Major Elective credits.

MGT 4250 Internship may be repeated for up to a total of six (6) credits, one (1) of which will count toward the Major Requirements, with the remaining five (5) credits counting toward the Management Major Elective credits.

Business Acumen (47 credits)

All HSB majors require students to complete all of the following Business Acumen courses:

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.

- ACCT2020 - Managerial Accounting Principles - 3cr.
- BUS3200 - Professional Communication with AI (CI) - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- DATA3100 - Making Decisions with Data - 3cr.
- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- FIN3300 - Investments - 3cr.
- MGT3350 - Legal and Ethical Environment of Business - 3cr.
- MGT3700 - Operations Management - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3800 - Leadership - 2cr.
- MSLE3890 - Systems Strategy and Problem Solving - 2cr.

Business Acumen courses require a C or better in all courses, except in cases where major-specific requirements may require a higher grade.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students who have not attended any school beyond high school and have a declared major in the Huntsman School of Business are encouraged to enroll in BUS1000 HSB FRESHMEN ACADEMY during their first year at USU.

*The course is intended to acculturate students to college life, and is therefore not relevant for internal or external transfer students. This course is an in-person course on the Logan campus for now, so those at statewide campuses or online are not able to enroll.

- Elective credits needed will be determined on an individual basis (a student with continuing education, AP credits, and language credits may not require additional elective credits).
- A complete list of requirements can be found on the requirements sheet at huntsman.usu.edu/undergraduate/majors/management-major.
- Students are encouraged to enhance their education experience through use of the Roadmap to Graduation and Student Success found at https://huntsman.usu.edu/advising/road_map.
- A 2.5 overall and major GPA are required to be recommended for graduation.

Management - Wealth Management Emphasis - BA, BS Course Requirements

Type
Completion Requirement

Major Requirements (9 credits)

Complete ALL of the following Courses:

- MGT1000 - Business Career Preparation - 1cr.
- MGT3100 - Organizational Behavior - 2cr.
- MGT3250 - Managing Human Capital - 3cr.
- MGT3600 - Project Management - 2cr.
- MGT4250 - Management Internship - 1cr.
- 1 credit required in MGT 4250

Management Major - Wealth Management Emphasis (11 credits)

Complete ALL of the following Courses:

- FIN5060 - Introduction to Personal Financial Planning - 3cr.
- FIN5070 - Retirement Planning - 3cr.
- FIN5080 - Estate Planning - 3cr.
- MGT4600 - Negotiations - 2cr.

Management Major Electives (min 6 credits)

Earn at least 6 credits from the following:

- MGT3150 - Critical Thinking for Managerial Decision Making - 2cr.
- MGT3400 - Managerial Ethics - 2cr.
- MGT3450 - Film and Management - 1cr.
- MGT3710 - Team Management - 2cr.
- MGT3810 - Employment Law (DSS) - 3cr.
- MGT3850 - Sports Management - 2cr.
- MGT4500 - Principles of Healthcare Management - 3cr.
- MGT4510 - Innovation and Improvement in Healthcare Management - 3cr.
- MGT4520 - Healthcare Policy and Strategy - 3cr.
- MGT4610 - Recruitment and Selection - 2cr.
- MGT4620 - Talent Acquisition - 3cr.
- MGT4630 - Applied Human Resource Management - 3cr.
- MGT4720 - Sales and Operations Planning - 2cr.
- MGT4740 - Quality Management - 2cr.
- MGT4760 - Services Management - 2cr.
- MGT4790 - Managing Global Value Chains - 2cr.
- MGT5730 - Lean Continuous Improvement - 3cr.
- MGT4800 - Independent Research and Readings - 1cr.
- MGT4850 - Special Topics in Management - 1cr.
- MGT4250 - Management Internship - 1cr.

Wealth Management emphasis requires a B- grade or higher in FIN3200

MGT 4250 Internship may be repeated for up to a total of six (6) credits, one (1) credit which fulfill the Management Major requirement, and up to five (5) credits can fulfill the Management Major electives.

Business Acumen (47 credits)

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- BUS3200 - Professional Communication with AI (CI) - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- DATA3100 - Making Decisions with Data - 3cr.
- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- ECON3050 - Foundations of Business: Capitalism, Markets, and Innovation - 3cr.

- FIN3200 - Corporate Finance (QI) - 3cr.
- FIN3300 - Investments - 3cr.
- MGT3350 - Legal and Ethical Environment of Business - 3cr.
- MGT3700 - Operations Management - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3800 - Leadership - 2cr.
- MSLE3890 - Systems Strategy and Problem Solving - 2cr.

Minimum grade of C or better is required in Business Acumen courses, except in cases where major-specific requirements may require a higher grade.

Open Electives

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students who have not attended any school beyond high school and have a declared major in the Huntsman School of Business are encouraged to enroll in BUS1000 HSB FRESHMEN ACADEMY during their first year at USU.

*The course is intended to acculturate students to college life, and is therefore not relevant for internal or external transfer students. This course is an in-person course on the Logan campus for now, so those at statewide campuses or online are not able to enroll.

Motion Design - MA

Program Overview

College
College of Arts & Sciences

Department
Art and Design

Program Level
Graduate

About this Degree

The MA in Motion Design offers advanced study in 2D and 3D motion methodologies and technologies, digital media theory, design for motion, video, and emerging media forms such as AI and augmented/virtual reality. The MA is a 30-credit (3 semester) program that culminates in a plan B master's thesis research project and exhibition. It is intended for students with a strong educational background in graphic design and for professional designers seeking to expand their motion-related abilities and professional competencies.

Admission Requirements for this Program

Successful applicants must exhibit academic excellence along with a portfolio that displays a strong understanding of graphic design and typography. A BFA or equivalent in a design related field is required. GPA in design courses during the last two years of undergraduate work must be at least 3.0 on a 4-point scale. A digital portfolio of recent work must be included in the application for consideration. Previous experience in motion design is not required.

Portfolios will be evaluated by faculty members to determine acceptance based on overall strength of applicant's work.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Degree Verification

- A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA at least 3.0 and no grades of C- or lower:

- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for graduate degree.

Course Number Acceptability

- The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above.
- Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbers below 5000.
- Courses numbered 5000 – 5990 are advanced, upper-division courses and a maximum of 12 credits may be used on a approved program of study.

Matriculation Start Semester

- A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Motion Design - MA

Master of Ecological Restoration - MOER (NOT CURRENTLY OFFERED)

Program Overview

College
College of Agriculture & Natural Resources

Department
Watershed Sciences

Program Level
Graduate

Program Requirements

Total Credits Required In Program Coursework
-

Total Credits Required To Earn This Credential
18-23

Simple Requisites

Program Requirements

1. Approved Program of Study
2. Approved MoER Internship Agreement Form
3. Submit a Graduation Check Request Form
4. Submit the Graduation Application and pay the $15.00 graduation fee
5. GPA of 3.0 or higher

USU School of Graduate Studies general graduation guidelines

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- **Overall Graduate GPA at least 3.0 with no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for courses on their Program of Study. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability**: A MoER Program of Study must include at least 18 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester**: A MoER degree must be completed within six years of entering the degree program. Additional time may be requested by a student's supervisory committee and submitted to the Vice Provost of Graduate Studies for review and approval.
- **Coursework Validity**: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

To be awarded the Master of Ecological Restoration (Plan C), students must:

Type
Completion Requirement

A. Complete the Required Courses (10-15 credits)

Complete ALL of the following Courses:

- WATS5620 - Intro to Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5625 - Adaptive Management and Monitoring of

Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS6240 - Graduate Internship/Co-op - 1cr.
- WATS6350 - Capstone Mentoring - 1cr.
- WATS6700 - Restoration Ecology - 4cr.

B. Complete a Committee-Approved Program of Study

A Master of Ecological Restoration (Plan C) Program of Study requires an additional 19-20 General Elective Credits, depending on the number of credits accrued for the required courses, including:

Fulfill ALL of the following requirements:

1. Ecology Block (Minimum of 2 credits)

Earn at least 2 credits from the following:
- WATS5200 - Fish Habitats - 2cr.
- WATS5305 - Ecology and Restoration of Plants - 3cr.
- WATS6540 - Ichthyology - 4cr.
- WATS6840 - Ecohydraulics - 3cr.

AND

2. GIS and Remote Sensing Block (Minimum of 2 credits)

Earn at least 2 credits from the following:
- UAS3700 - Unmanned Aircraft Systems Video Production - 3cr.
- NR6930 - Advanced GIS for Natural Resource Applications - 3cr.
- NR6940 - Principles of Remote Sensing of Natural Resources - 3cr.
- NR6950 - Geospatial Analysis for Natural Resource Management - 3cr.
- NR6960 - Python Programming for GIS - 3cr.

AND

3. Quantitative Methods Block (Minimum of 2 credits)

Earn at least 2 credits from the following:
- CEE6110 - Hydroinformatics - 3cr.
- CEE6740 - Surface Water Quality Modeling - 4cr.
- CEE6930 - Special Problems - 1cr.
- NR6580 - Data Analysis and Programming for Natural Resource Managers - 3cr.
- WATS6150 - Fluvial Geomorphology - 3cr.
- WATS6110 - Environmental Biogeochemistry - 3cr.
- WATS6580 - Base R: Data Management and Manipulation Using R - 1cr. (Inactive)
- WATS6900 - Graduate Special Topics - 1cr.

AND

4. Design Block (Minimum of 2 credits)

Earn at least 2 credits from the following:
- LAEP6100 - Regional Landscape Analysis and Planning - 5cr.
- LAEP6110 - Landscape Ecology for Planning - 3cr.
- WATS5621 - Science and Case Studies of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5622 - Planning Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5623 - Designing Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5624 - Implementation of Low-Tech Process-Based Restoration of Riverscapes - 1cr.

Management and Restoration of Aquatic Ecosystems - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Watershed Sciences

Program Level
Undergraduate

About this Degree

Utah State University is the only university in the state with a college devoted to the study of natural resources, and the management and restoration of aquatic ecosystems degree is unique in that it allows students the opportunity to integrate physics, chemistry, and biology to understand watershed systems. Clean and adequate water supplies and wetlands are essential elements of human society, and understanding the interactions between water and the rest of the world is necessary to the management of all ecosystems.

- For more information about Management and Restoration of Aquatic Ecosystems, see the website.
- Admitted and current students must meet with an academic advisor for semester by semester planning.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT3000 STATISTICS FOR SCIENTISTS (QI)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
74-79

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses required for the major must be taken on an A-B-C-D-F basis. A grade of C- or better is required for all WATS and GEOG courses used to meet requirements for a major in Management and Restoration of Aquatic Ecosystems. The grade point average for all courses taught by the College of Natural Resources must be 2.5 or higher.

Students majoring in Management and Restoration of Aquatic Ecosystems are required to select 12-15 directed elective credits, chosen from one of five areas of focus. The majority of these elective credits must come from courses directly related to the degree program, though you may choose to take more directed electives based on the field you are entering. Students must complete at least 5 credits from the 'Recommended' course list. All elective courses must be approved by the student's faculty advisor before enrollment. This degree is intentionally more open to allow you to meet OPM requirements in the field you are going into. Please work with your advisor to ensure you are taking sufficient pre-requisites and courses to meet current OPM requirements.

Management and Restoration of Aquatic Ecosystems Required Courses

Type
Completion Requirement

Scientific Foundation (30-31 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1210 - Calculus I (QL) - 4cr.
  OR MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
- WATS2220 - General Ecology - 3cr.

Scientific Foundation Core Options (4 credits)

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
- GEO1115 - Physical Geology Laboratory - 1cr.

OR

Option 2

Complete ALL of the following Courses:

- GEOG1000 - Physical Geography (BPS) - 3cr.
- GEOG1005 - Physical Geography Lab - 1cr.

Common Departmental Core (17 credits)

Complete ALL of the following Courses:

- ENVS2000 - Natural Resource Professional Orientation - 1cr.
  OR WATS2000 - Natural Resource Professional Orientation - 1cr.
  OR WILD2000 - Natural Resource Professional Orientation - 1cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
  OR WATS3500 - Water and Power - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WATS2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WILD2800 - Introduction to Geographic Information Sciences - 4cr.
- WATS3100 - Fish Ecology, Conservation, and Management (CI/DSC) - 3cr.
- WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.
- WATS5500 - Limnology: Ecology of Inland Waters - 3cr.

Required Courses for the MRAE Major (11-12 credits)

Complete ALL of the following Courses:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
  OR ENVS5350 - Ecological Economics - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
  OR WATS5530 - Water Quality and Pollution - 3cr.
  OR WATS5600 - Environmental Water Management - 3cr.

- WATS5800 - Watershed Sciences Departmental Seminar - 1cr.
- WATS4300 - Principles of Ecosystem Restoration - 3cr.
  OR WATS5360 - Wetland Ecology and Management - 3cr.
  OR WILD4700 - Ecological Foundations of Restoration - 3cr.
- WATS5350 - Capstone and Professional Practice - 2cr.
  OR WATS4990 - Senior Thesis - 2cr.
  OR WATS4250 - Advanced Internship/Co-op - 1cr.

Directed Electives (select 12-15 directed elective credits, chosen from one of the following five areas of focus)

Type
Completion Requirement

Aquatic Habitats

Fulfill ANY of the following requirements:

Recommended Courses

Complete ANY of the following Courses:

- WATS5200 - Fish Habitats - 2cr.
- WATS5305 - Ecology and Restoration of Plants - 3cr.
- WATS5540 - Ichthyology - 4cr.
- WATS5550 - Freshwater Invertebrates - 3cr.

OR

Elective Courses

Complete ANY of the following Courses:

- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- CEE5930 - Independent Study - 1cr.
- GEOG3700 - Python Programming for GIS - 3cr.
- GEOG4900 - GIS Individual Projects - 1cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC5350 - Wildland Soils - 3cr.
  OR WILD5350 - Wildland Soils - 3cr.
- WATS2050 - Data Management for Natural Resources – Cleaning and Shaping Data - 1cr.
- WATS2060 - Data Management for Natural Resources – Data Display and Analysis - 1cr.
- WATS2500 - Introduction to Marine Biology (BLS) - 3cr.
- WATS3000 - Oceanography (DSC) - 3cr.
- WATS3100 - Fish Ecology, Conservation, and Management (CI/DSC) - 3cr.
- WATS3110 - Fish Ecology, Conservation, and Management Lab - 1cr.
- WATS3200 - Marine Ecology: Expedition Sea of Cortez (DSC) - 3cr.
- WATS3450 - Introduction to Coral Reefs-Field Course (DSC) - 3cr.
- WATS4050 - Marine Global Change: Impacts and Conservation Strategies - 3cr.
- WATS4250 - Advanced Internship/Co-op - 1cr.
- WATS4510 - Aquatic Ecology Methods - 2cr.
- WATS4520 - Aquatic Ecology Practicum II: Analysis - 2cr.
- WATS4950 - Special Topics - 1cr.
- WATS4970 - Undergraduate Research - 1cr.
- WATS4990 - Senior Thesis - 2cr.
- WATS5110 - Environmental Biogeochemistry - 3cr.
- WATS5210 - The Secret Life of Elements on Earth - 2cr.
- WATS5360 - Wetland Ecology and Management - 3cr.
- WATS5610 - Field Introduction to Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5620 - Intro to Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5621 - Science and Case Studies of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5622 - Planning Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5623 - Designing Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5624 - Implementation of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5625 - Adaptive Management and Monitoring of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5690 - Climate Data-Driven Resource Management - 3cr.
- WILD3880 - Genetics in Conservation and Management - 3cr.
- WILD4600 - Conservation Biology - 3cr.
- WILD5560 - Applied Avian Ecology (CI) - 3cr.
- WILD5750 - Applied Remote Sensing - 3cr.

- Other courses as approved by faculty advisor

Water Quality

Fulfill ANY of the following requirements:

Recommended Courses

Complete ANY of the following Courses:

- WATS5110 - Environmental Biogeochemistry - 3cr.
- WATS4510 - Aquatic Ecology Methods - 2cr.
- WATS5550 - Freshwater Invertebrates - 3cr.

OR

Elective Courses

Complete ANY of the following Courses:

- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- CEE2620 - Environmental Engineering Microbiology - 3cr.
- CEE3610 - Environmental Management - 3cr.
- CEE5600 - Environmental Chemistry of Inorganic Contaminants - 2cr.
- CEE5610 - Environmental Quality Analysis - 3cr.
- CEE5620 - Aquatic Chemistry - 3cr.
- CEE5730 - Environmental Chemistry of Organic Contaminants - 3cr.
  OR PUBH5730 - Environmental Chemistry of Organic Contaminants - 3cr.
- GEOG3700 - Python Programming for GIS - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- GEO5510 - Groundwater Geology (QI) - 3cr.
- GEO5520 - Techniques of Groundwater Investigations (CI) - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- WATS2050 - Data Management for Natural Resources – Cleaning and Shaping Data - 1cr.
- WATS2060 - Data Management for Natural Resources –

Data Display and Analysis - 1cr.
- WATS3000 - Oceanography (DSC) - 3cr.
- WATS4250 - Advanced Internship/Co-op - 1cr.
- WATS4520 - Aquatic Ecology Practicum II: Analysis - 2cr.
- WATS4950 - Special Topics - 1cr.
- WATS4970 - Undergraduate Research - 1cr.
- WATS4990 - Senior Thesis - 2cr.
- WATS5210 - The Secret Life of Elements on Earth - 2cr.
- WATS5310 - Ecology and Restoration of Wetland and Riparian Plants - 3cr.
- WATS5540 - Ichthyology - 4cr.
- WATS5690 - Climate Data-Driven Resource Management - 3cr.

- Other courses as approved by faculty advisor

Hydrology and Water Resources*

*OPM requirements may require additional coursework. Please work with your advisor to ensure you are taking sufficient pre-requisites and courses to meet current OPM requirements.

Fulfill ANY of the following requirements:

Recommended Courses

Complete ALL of the following Courses:
- CEE3500 - Civil and Environmental Engineering Fluid Mechanics - 3cr.
- CEE4200 - Engineering Economics - 3cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- WATS5490 - Small Watershed Hydrology (QI) - 4cr.

OR

Elective Courses

Complete ANY of the following Courses:
- CEE3430 - Engineering Hydrology - 3cr.
- CEE6110 - Hydroinformatics - 3cr.
- CEE6440 - Advanced Hydrology Through CUAHSI Virtual University - 1cr.
- GEO5510 - Groundwater Geology (QI) - 3cr.
- GEO5520 - Techniques of Groundwater Investigations (CI) - 3cr.
- GEOG3700 - Python Programming for GIS - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- WATS2050 - Data Management for Natural Resources – Cleaning and Shaping Data - 1cr.
- WATS2060 - Data Management for Natural Resources – Data Display and Analysis - 1cr.
- WATS3000 - Oceanography (DSC) - 3cr.
- WATS3450 - Introduction to Coral Reefs-Field Course (DSC) - 3cr.
- WATS4250 - Advanced Internship/Co-op - 1cr.
- WATS4510 - Aquatic Ecology Methods - 2cr.
- WATS4520 - Aquatic Ecology Practicum II: Analysis - 2cr.
- WATS4950 - Special Topics - 1cr.
- WATS4970 - Undergraduate Research - 1cr.
- WATS4990 - Senior Thesis - 2cr.
- WATS5210 - The Secret Life of Elements on Earth - 2cr.
- WATS5610 - Field Introduction to Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5620 - Intro to Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5621 - Science and Case Studies of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5622 - Planning Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5623 - Designing Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5624 - Implementation of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5625 - Adaptive Management and Monitoring of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5690 - Climate Data-Driven Resource Management - 3cr.

- Other courses as approved by faculty advisor

Geomorphology

Fulfill ANY of the following requirements:

Required Courses (counts toward 5-credit Recommended Courses requirement)

Complete ALL of the following Courses:
- WATS5150 - Fluvial Geomorphology - 3cr.
- GEO3600 - Geomorphology - 4cr.

OR

Recommended Courses

Complete ANY of the following Courses:
- GEO2200 - The Earth Through Time - 3cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.

OR

Elective courses

Complete ANY of the following Courses:
- CEE3430 - Engineering Hydrology - 3cr.
- CEE3500 - Civil and Environmental Engineering Fluid Mechanics - 3cr.
- GEO2800 - Minerals and Rocks - 4cr.
- GEO3700 - Structural Geology - 4cr.
- GEO5510 - Groundwater Geology (QI) - 3cr.
- GEO3550 - Sedimentation and Stratigraphy - 4cr.
- GEO5520 - Techniques of Groundwater Investigations (CI) - 3cr.
- GEOG3700 - Python Programming for GIS - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2250 - Linear Algebra and Differential Equations (QI) - 4cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC5350 - Wildland Soils - 3cr.
  OR WILD5350 - Wildland Soils - 3cr.
- WATS2050 - Data Management for Natural Resources – Cleaning and Shaping Data - 1cr.
- WATS2060 - Data Management for Natural Resources –

Data Display and Analysis - 1cr.
- WATS3000 - Oceanography (DSC) - 3cr.
- WATS3450 - Introduction to Coral Reefs-Field Course (DSC) - 3cr.
- WATS4250 - Advanced Internship/Co-op - 1cr.
- WATS4510 - Aquatic Ecology Methods - 2cr.
- WATS4520 - Aquatic Ecology Practicum II: Analysis - 2cr.
- WATS4950 - Special Topics - 1cr.
- WATS4970 - Undergraduate Research - 1cr.
- WATS4990 - Senior Thesis - 2cr.
- WATS5210 - The Secret Life of Elements on Earth - 2cr.
- WATS5310 - Ecology and Restoration of Wetland and Riparian Plants - 3cr.
- WATS5360 - Wetland Ecology and Management - 3cr.
- WATS5490 - Small Watershed Hydrology (QI) - 4cr.
- WATS5540 - Ichthyology - 4cr.
- WATS5610 - Field Introduction to Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5620 - Intro to Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5621 - Science and Case Studies of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5622 - Planning Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5623 - Designing Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5624 - Implementation of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5625 - Adaptive Management and Monitoring of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5690 - Climate Data-Driven Resource Management - 3cr.

- Other courses as approved by faculty advisor

Human Dimensions

Fulfill ALL of the following requirements:

Recommended Courses

Complete ANY of the following Courses:
- ENVS4020 - Foundations of Environmental Thought (DHA/CI) - 3cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
- GEOG4900 - GIS Individual Projects - 1cr.

AND

Elective Courses

Complete ANY of the following Courses:
- TCR2100 - Introduction to Technical Communication - 3cr.
- ENVS3500 - Environmental Data Science (QI) - 3cr.
- ENVS4700 - Communicating Sustainability (CI) - 3cr.
- ENVS5000 - Environmental Nonprofit and Volunteer Management - 3cr.
- ENVS6320 - Water Law and Policy in the United States - 3cr.
- GEOG3700 - Python Programming for GIS - 3cr.
- GEOG5400 - Natural Hazards and Society - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- PUBH3610 - Environmental Management - 3cr.
  OR CEE3610 - Environmental Management - 3cr.
- SOC4640 - Managing Community Conflict (CI) - 3cr.
- WATS2050 - Data Management for Natural Resources – Cleaning and Shaping Data - 1cr.
- WATS2060 - Data Management for Natural Resources – Data Display and Analysis - 1cr.
- WATS3000 - Oceanography (DSC) - 3cr.
- WATS4050 - Marine Global Change: Impacts and Conservation Strategies - 3cr.
- WATS4250 - Advanced Internship/Co-op - 1cr.
- WATS4950 - Special Topics - 1cr.
- WATS4970 - Undergraduate Research - 1cr.
- WATS4990 - Senior Thesis - 2cr.
- WATS5210 - The Secret Life of Elements on Earth - 2cr.
- WATS5540 - Ichthyology - 4cr.
- WATS5690 - Climate Data-Driven Resource Management - 3cr.
- WILD5750 - Applied Remote Sensing - 3cr.

- Other courses as approved by faculty advisor

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Marriage and Family Therapy - MMFT

Program Overview

College
College of Education & Human Services

Department
Human Development and Family Studies

Program Level
Graduate

About this Degree

Students admitted into the Marriage and Family Therapy program are trained to be marriage and family therapists. While they receive their clinical training, students complete a Plan C non-thesis degree called the Master of Marriage and Family Therapy (MMFT). Along with the coursework, students are required to write and present an integrative Theory of Change paper as their major project, helping them to better prepare for clinical work.

This program is fully accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE) and qualifies students for associate-level licensure as marriage and family therapists in the State of Utah. Students are encouraged to research licensure requirements for other states.

Because we are a COAMFTE-accredited program, all courses are required. See http://hdfs.usu.edu/programs/graduate/mft-hdfs for the course requirements. For more specific information, see the department's Graduate Student Handbook at: cehs.usu.edu/hdfs/graduate/handbook.

Simple Requisites

Program Requirements

In addition to the department's requirements, the following are the School of Graduate Studies guidelines and are the minimum requirements for students to complete a degree.

School of Graduate Studies Requirements:

• Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
• Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
• Course Number Acceptability: The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
• Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
• Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
• Master's forms: Approval of the Program of Study is required by the School of Graduate Studies.

Approval of academic forms required for master's students by the School of Graduate Studies

- Supervisory Committee
- Program of Study
- Professional/Plan C students cannot use any thesis/dissertation credits on Program of Study.

Marriage and Family Therapy - MMFT

Type

Completion Requirement

Core Courses

Fulfill ALL of the following requirements:

Core Requirements

Complete at least 1 of the following courses:

- HDFS6060 - Human Development Theories - 3cr.
  OR HDFS6070 - Family Theories - 3cr.

AND

Core Requirements

Complete ALL of the following Courses:

- HDFS6300 - Ethical Systemic Practice Seminar - 1cr.
- HDFS6305 - Systemic Assessment and Diagnosis Seminar - 1cr.
- HDFS6310 - Introduction to Systemic Family Theory and Practice - 3cr.
- HDFS6320 - Theories and Models of Systemic Family Therapy - 3cr.
- HDFS6325 - Gender and Diversity in Systemic Family Therapy - 3cr.
- HDFS6330 - Couple and Sex Therapy - 3cr.
- HDFS6340 - Collaborative Health Care and Psychopharmacology - 3cr.
- HDFS6350 - Treating Addictions, Trauma, and Violence in Couples and Families - 3cr.
- HDFS6355 - Child and Family Play Therapy - 3cr.
- HDFS6360 - Ethical and Professional Development in Systemic Family Therapy - 3cr.
- HDFS6370 - Psychopathology and Systemic Assessment - 3cr.
- HDFS6380 - Applying Scholarly Research and Systemic Family Treatment - 3cr.
- HDFS6390 - Practicum in Systemic Family Therapy - 1cr.
- HDFS6400 - Readings and Conference - 1cr.

NOTE:

- HDFS6390 PRACT SYSTEMIC FAMILY THERAPY - 16 credits required.
- HDFS6400 READINGS & CONFERENCE - 3 credits required.

Required Orientation Course

The School of Graduate Studies requires the following courses for teaching assistantships: Course credit does not count on the Program of Study toward degree requirements.

Complete the following Continuing Education Courses:

- CEUS 7901 - Graduate Teaching Training I: FERPA, Title IX, and Best Practices in Assessment and Communication
- CEUS 7902 - Graduate Teaching Training II: Ethics, Pedagogy, and Student Support

Music: Music Education, Band - BM

Program Overview

College	Department	Program Level
College of Arts & Sciences	Music	Undergraduate

About this Degree

Music Education with an emphasis in band certifies graduates to teach instrumental, choral, and general music in secondary schools. Graduates routinely compete for positions throughout the state, region, and country for positions teaching band at the high school and junior high/middle school levels. The rigorous curriculum is capable of completion in four years and it fosters a comprehensive knowledge of band education with the concert experience as a core, reaching through the athletic bands and complete jazz experience.

Program Specifics

USU offers students in Music Education degrees the option of completing the Music K-12 Endorsement, which affords graduates a credential to teach Kindergarten through twelfth grades (K-12) rather than the Secondary Certificate (6-12) that comes with the standard USU Music Education degree. This program is recommended for all Music Education Majors for the following reasons: 1) the additional courses easily fit into the four-year curriculum and 2) having the Music K-12 Endorsement allows better reciprocity for students applying for employment in other states, which may require the K-12 certification. For more information, contact the CCA Advising Center for the coordinator of Music K-12 Endorsement. For specific information regarding coursework required to earn a Band emphasis, please refer to the BM Music Education - Band emphasis degree map.

- For more information about Music Education, see department website here.
- All music majors must pass an audition to be admitted.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- **Must** pass entrance audition on primary instrument
- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 3.0 GPA

Simple Requisites

Program Requirements

Course Grades and GPA Minimums

To maintain Music Major (and Pre-Music Major) status at USU, students must:

1. **Complete all Individual Instruction (primary instrument) courses with a grade of B- or higher**
    - Any grade lower than B- will result in an extra required semester of Individual Instruction.

- Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.

2. **Complete all music major core and emphasis classes with a grade of C or higher**
    - Any music course grade lower than C will not count towards graduation.
    - Core courses may be repeated once in an attempt to earn a grade of C or better.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
3. **Maintain a 3. 0 cumulative GPA in all courses that fulfill a degree/ emphasis requirement.**
    - This GPA does not include general education and depth courses.
    - This GPA does not include the STEP courses for Music Education majors.
    - If a student's degree/emphasis GPA falls under this minimum, the student will be placed on departmental academic probation for one semester.
    - Inability to meet this degree/emphasis GPA during the probationary period will result in referral to the department head who in consultation with the appropriate faculty member(s) will determine if the student shall be allowed to remain a music major through an extension of the probationary period.

GRADING SCALE for music courses:

93-100 A

90-92. 99 A-

87-89. 99 B+

83-86. 99 B

80-82. 99 B- Lowest grade for individual instruction to fulfill graduation requirements)

77-79. 99 C+

73-76. 99 C Lowest grade for all other program courses to fulfill graduation requirements)

70-72. 99 C-

67-69. 99 D+

60-66. 99 D

59. 99 or below F

Music - Music Education, Band - BM

Type
Completion Requirement

BM Music Education Core Curriculum (44 credits)

Earn a minimum grade of C in the following:

- MUSC1110 - Music Theory I (BCA) - 3cr.
- MUSC1120 - Music Theory II - 3cr.
- MUSC1130 - Aural Skills I - 1cr.
- MUSC1140 - Aural Skills II - 1cr.
- MUSC1170 - Keyboard Harmony I - 1cr.
- MUSC1180 - Keyboard Harmony II - 1cr.
- MUSC1190 - World Music - 3cr.
- MUSC1500 - String Techniques - 1cr.
- MUSC1800 - Percussion Techniques - 1cr.
- MUSC2110 - Music Theory III - 3cr.
- MUSC2130 - Aural Skills III - 1cr.
- MUSC2180 - Computer Applications in Music Proficiency Exam - 1cr.
- MUSC2350 - Conducting - 2cr.
- MUSC2700 - Woodwind Techniques I: Flute, Clarinet - 1cr.
- MUSC3110 - Music History I: Antiquity through the Renaissance - 3cr.
- MUSC3120 - Music History II: The Baroque and Classical Periods - 3cr.
- MUSC3170 - Special Topics in Music Theory - 3cr.
- MUSC3180 - Orchestration - 2cr.
- MUSC3190 - Music History III: Romanticism through the 21st Century (CI) - 3cr.
- MUSC3220 - Choral Methods and Materials - 2cr.
- MUSC3240 - Instrumental Methods and Materials - 2cr.
- MUSC4240 - Advanced Conducting - 2cr.
- MUSC4920 - Senior Recital - 1cr.

NOTE:

MUSC4920 SENIOR RECITAL - 1 credit required.

MUED Band Concentration (23 credits)

All individual instruction courses on major instrument must be passed with a grade of B- or better. All other music concentration courses must be passed with a grade of C or better. Major requirements may *not* be taken pass/fail, except those courses taught only on a pass/fail basis. Minimum GPA for all required program courses is a 3.0.

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- MUSC2710 - Woodwind Techniques II: Saxophone, Oboe, Bassoon - 1cr.
- MUSC2800 - High Brass Techniques - 1cr.
- MUSC2810 - Low Brass Techniques - 1cr.
- MUSC3785 - Marching Band (DHA) - 1cr.
- MUSC3900 - Improvisation I - 2cr.

AND

Individual Music Instruction (7 credit minimum)

Fulfill ALL of the following requirements:

Individual Pre-Music Wind/Brass/Percussion Instruction Course Options.

Complete ANY of the following Courses:

- MUSC1705 - Individual Pre-music Flute Instruction - 1cr.
- MUSC1715 - Individual Pre-Music Oboe Instruction - 1cr.
- MUSC1725 - Individual Pre-Music Clarinet Instruction - 1cr.
- MUSC1735 - Individual Pre-Music Bassoon Instruction - 1cr.
- MUSC1745 - Individual Pre-Music Saxophone Instruction - 1cr.
- MUSC1815 - Individual Pre-Music Trumpet Instruction -

1cr.
- MUSC1825 - Individual Pre-Music Trombone Instruction - 1cr.
- MUSC1835 - Individual Pre-music French Horn Instruction - 1cr.
- MUSC1845 - Individual Pre-Music Tuba/Euphonium Instruction - 1cr.
- MUSC1855 - Individual Pre-Music Percussion Instruction - 1cr.

AND

Individual Pre-Barrier Wind/Brass/Percussion Instruction Course Options.

Complete ANY of the following Courses:
- MUSC2755 - Individual Pre-barrier Flute Instruction - 1cr.
- MUSC2765 - Individual Pre-Barrier Oboe Instruction - 1cr.
- MUSC2775 - Individual Pre-Barrier Clarinet instruction - 1cr.
- MUSC2785 - Individual Pre-Barrier Bassoon Instruction - 1cr.
- MUSC2795 - Individual Pre-Barrier Saxophone Instruction - 1cr.
- MUSC2855 - Individual Pre-Barrier Trumpet Instruction - 1cr.
- MUSC2865 - Individual Pre-Barrier Trombone Instruction - 1cr.
- MUSC2875 - Individual Pre-barrier French Horn Instruction - 1cr.
- MUSC2885 - Individual Pre-Barrier Tuba/Euph Instruction - 1cr.
- MUSC2895 - Individual Pre-Barrier Percussion Instruction - 1cr.

AND

Individual Wind/Brass/Percussion Instruction Course Options.

Complete ANY of the following Courses:
- MUSC3710 - Individual Flute Instruction for Music Majors - 1cr.
- MUSC3720 - Individual Oboe Instruction for Music Majors - 1cr.
- MUSC3730 - Individual Clarinet Instruction for Music Majors - 1cr.
- MUSC3740 - Individual Bassoon Instruction for Music Majors - 1cr.
- MUSC3750 - Individual Saxophone Instruction for Music Majors - 1cr.
- MUSC3810 - Individual Trumpet Instruction for Music Majors - 1cr.
- MUSC3820 - Individual Trombone Instruction for Music Majors - 1cr.
- MUSC3830 - Individual French Horn Instruction for Music Majors - 1cr.
- MUSC3840 - Individual Tuba/Euphonium Instruction for Music Majors - 1cr.
- MUSC3860 - Individual Percussion Instruction for Music Majors - 1cr.

AND

Small Ensemble (1 credit)

1 credit of small ensemble is required. Two semesters of the following in an combination will satisfy the requirement.

Earn at least 1 credits from the following:
- MUSC2210 - Advanced Conducting Ensemble - 1cr.
- MUSC3700 - Woodwind Ensemble - 1cr.
- MUSC3760 - Jazz Ensemble - 1cr.
- MUSC3770 - Jazz Orchestra - 1cr.
- MUSC3780 - Flute Ensemble - 1cr.
- MUSC3800 - Low Brass Choir - 1cr.
- MUSC3870 - Percussion Ensemble - 1cr.
- MUSC4710 - Jazz Combo - 1cr.
- MUSC4720 - Saxophone Quartet - 1cr.

AND

Large Ensemble (7 credits)

7 credits of large ensemble are required. Any combination of these two courses will satisfy the requirement.

Earn at least 7 credits from the following:
- MUSC3790 - Symphonic Band (DHA) - 1cr.
- MUSC4700 - Wind Orchestra (DHA) - 1cr.

AND

Choral Ensemble (1 credit)

1 credit of choral ensemble is required. Any one of the following courses will satisfy the requirement.

Complete at least 1 of the following courses:
- MUSC2600 - Sapphire Singers - 1cr.
- MUSC4600 - University Chorale (DHA) - 1cr.

MUSC 1/2/3XXX Individual Instruction for Music Majors on major instrument (Students need to register in 7 semesters of which at least 2 semesters must be upper division (3000 level).)

Music Education STEP (32 credits)

Students must maintain a 3.0 overall GPA and a grade of C or better in all STEP program courses.

Complete ALL of the following Courses:
- ITLS2500 - Technology Enabled Instruction - 3cr.
- MUSC3100 - Motivation and Classroom Management Strategies in Secondary Classroom Music - 3cr.
- MUSC5500 - Seminar for Student Teaching - 2cr.
- MUSC5630 - Student Teaching in the Schools - 10cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

NOTE:

1. SCED3300 CLINICAL EXPERIENCE I - Taken concurrently with MUSC 3220.
2. SCED4300 CLINICAL EXPERIENCE II - Taken concurrently with MUSC3240 INSTRUMENTAL METHODS.

Recital and Concert Attendance Requirement

Complete the following:
To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Year	Semester	Actual Credits	Progress Credits
Year 1	Fall	16 - 18	0

Requirement Select

- Students with are pre-music majors are expected to enroll in MUSC 1105 during their first semester at USU. The course is intended to prepare students for MUSC 1110 - Music Theory I (BCA). Although the course is not required for graduation, it is expected that students will register for the course and either complete it or test out. Even if testing out, students must register for the course. MUSC 2180 consists of a series of three proficiency exams that all music majors must complete prior to the completion of four semesters of study. (Generic)

Music: Music Education, Choral - BM

Program Overview

College	Department	Program Level
College of Arts & Sciences	Music	Undergraduate

About this Degree

The Choral Education Program at USU offers students the opportunity to become some of the country's finest choral educators. Students participate in vigorous coursework and first class ensembles. Included are courses in choral and instrumental methods and conducting, choral literature, instrumental techniques, secondary education and pedagogy and a semester of student teaching experience. Upon graduating, the student will have received a well-rounded education that has prepared them to teach both choral and instrumental ensembles. Students also have an opportunity to sing in one of USU's acclaimed choral ensembles. The Bachelor of Music in Choral Education is a 4-year degree with the option of Dual Licensure for K-12.

Program Specifics

USU offers students in Music Education degrees the option of completing the Music K-12 Endorsement, which affords graduates a credential to teach Kindergarten through twelfth grades (K-12) rather than the Secondary Certificate (6-12) that comes with the standard USU Music Education degree. This program is recommended for all Music Education Majors for the following reasons: 1) the additional courses easily fit into the four-year curriculum and 2) having the Music K-12 Endorsement allows better reciprocity for students applying for employment in other states, which may require the K-12 certification. For more information, contact CCA Advising Center, for the coordinator of Music K-12 Endorsement. For specific information regarding coursework required to earn a Choral emphasis, please refer to the BM Music Education - Choral emphasis degree map.

- For more information about Music Education, see department website.
- All music majors must pass an audition to be admitted.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL)of the student's choice.

Admission Requirements for this Program

- **Must** pass an entrance audition on primary instrument
- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 3.0 GPA

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
97	126

Simple Requisites

Program Requirements

Course Grades and GPA Minimums

- To maintain Music Major (and Pre-Music Major) status at USU, students must:
    1. **Complete all Individual Instruction (primary instrument) courses with a grade of B- or higher**
        - Any grade lower than B- will result in an extra required semester of Individual Instruction.
        - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
    2. **Complete all music major core and emphasis classes with a grade of C or higher**
        - Any music course grade lower than C will not count towards graduation.
        - Core courses may be repeated once in an attempt to earn a grade of C or better.
        - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
    3. **Maintain a 3.0 cumulative GPA in all courses that fulfill a degree/emphasis requirement.**
        - This GPA does not include general education and depth courses.
        - This GPA does not include the STEP courses for Music Education majors.
        - If a student's degree/emphasis GPA falls under this minimum, the student will be placed on departmental academic probation for one semester.
        - Inability to meet this degree/emphasis GPA during the probationary period will result in referral to the department head who in consultation with the appropriate faculty member(s) will determine if the student shall be allowed to remain a music major through an extension of the probationary period.

GRADING SCALE for music courses:

93-100 A

90-92.99 A-

87-89.99 B+

83-86.99 B

80-82.99 B- Lowest grade for individual instruction to fulfill graduation requirements)

77-79.99 C+

73-76.99 C Lowest grade for all other program courses to fulfill graduation requirements)

70-72.99 C-

67-69.99 D+

60-66.99 D

59.99 or below F

- MUSC3240 - Instrumental Methods and Materials - 2cr.
- MUSC4240 - Advanced Conducting - 2cr.
- MUSC4920 - Senior Recital - 1cr.

NOTE:

1. MUSC4920 SENIOR RECITAL - 1 credit required.

Music Education Choral Concentration (21 credits)

All individual instruction courses on major instrument must be passed with a grade of B- or better. All other music concentration courses must be passed with a grade of C or better. Major requirements may *not* be taken for a pass/fail grade, except those courses which are only taught on a pass/fail basis. Minimum GPA for all required music program courses is 3.0.

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- MUSC3230 - Choral Literature - 2cr.
- MUSC3630 - Vocal Pedagogy I - 3cr.

NOTE:

MUSC3630 VOCAL PEDAGOGY I - Is offered every other year. Should be taken fall semester of either third or fourth year.

AND

Individual Vocal Instruction for Music Majors (7 credits minimum)

Students need 7 semesters of individual study to graduate, for a minimum of 7 credits.

Earn at least 7 credits from the following:

- MUSC1635 - Individual Pre-Music Voice Instruction - 1cr.
- MUSC2645 - Individual Pre-Barrier Voice Instruction - 1cr.
- MUSC3670 - Individual Vocal Instruction for Music Majors - 1cr.

NOTE:

1. MUSC1635 VOICE INSTR-PREMUSIC - First and second semesters in program.
2. MUSC2645 VOICE INSTR-PREBARRIER - Third semester in program.
3. MUSC3670 VOCAL INSTR - Fourth through seventh semesters of study.

AND

Large Ensemble (7 credits)

7 credits of large ensemble are required. Any combination of these three courses will satisfy the requirement.

Earn at least 7 credits from the following:

- MUSC2600 - Sapphire Singers - 1cr.
- MUSC4600 - University Chorale (DHA) - 1cr.
- MUSC4650 - Chamber Singers (DHA) - 1cr.

AND

Brass/Woodwind Techniques (2 credits)

Students may take MUSC2710 WOODWIND TECHNIQUES II for their own enrichment, but it is not required.

Complete ANY of the following Courses:

- MUSC2700 - Woodwind Techniques I: Flute, Clarinet - 1cr.
- MUSC2800 - High Brass Techniques - 1cr.
  OR MUSC2810 - Low Brass Techniques - 1cr.

Music Education STEP (32 credits)

Students must maintain a 3.0 overall GPA and a grade of C or better in all STEP program courses

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.
- MUSC3100 - Motivation and Classroom Management Strategies in Secondary Classroom Music - 3cr.
- MUSC5500 - Seminar for Student Teaching - 2cr.
- MUSC5630 - Student Teaching in the Schools - 10cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

NOTE:

1. SCED3300 CLINICAL EXPERIENCE I - Taken concurrently with MUSC3220 CHORAL METHODS AND MATERIALS.
2. SCED4300 CLINICAL EXPERIENCE II - Taken concurrently with MUSC3240 INSTRUMENTAL METHODS.

Recital and Concert Attendance Requirement

Complete the following:
To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Year	Semester	Actual Credits	Progress Credits
Year 1	Fall	14	0

Requirement Select

- Students with are pre-music majors are expected to enroll in MUSC 1105 during their first semester at USU. The course is intended to prepare students for MUSC 1110 - Music Theory I (BCA). Although the course is not required for graduation, it is expected that students will register for the course and either complete it or test out. Even if testing out, students must register for the course. MUSC 2180 consists of a series of three proficiency exams that all music majors must complete prior to the completion of four semesters of study. (Generic)

Music: Music Education, Guitar - BM

Program Overview

College	Department	Program Level
College of Arts & Sciences	Music	Undergraduate

About this Degree

Program Specifics

There is a long history of guitar education at Utah State University. Students are required to take classes in guitar pedagogy, instrumental methods, educational practices, guitar performance, and to participate in university ensembles. Ensembles include acoustic and electric guitar ensembles, jazz combo, jazz big band, and choirs.

Our guitar pedagogy class prepares future teachers by introducing them to important guitar literature and method books for studio and classroom teaching. It also give future teachers ideas about sequencing classes and material, teaching in private lesson or group settings, and how to navigate the day-to-day aspects of being a guitar teacher. This class and many others including the Guitar Styles classes, Guitar History, and ensembles have been thoughtfully designed to make you a great teacher.

- For more information about the Music Education program, see the department website.
- All music majors must pass an audition to be admitted.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) General Education Requirementsof the student's choice.

Admission Requirements for this Program

- **Must** pass entrance audition on primary instrument
- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 3.0 GPA

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential

Simple Requisites

Program Requirements

Course Grades and GPA Minimums

To maintain Music Major (and Pre-Music Major) status at USU, students must:

1. **Complete all Individual Instruction (primary instrument) courses with a grade of B- or higher.**
    - Any grade lower than B- will result in an extra required semester of Individual Instruction.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.

2. **Complete all music major core and emphasis classes with a grade of C or higher**
    - Any music course grade lower than C will not count towards graduation.
    - Core courses may be repeated once in an attempt to earn a grade of C or better.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
3. **Maintain a 3. 0 cumulative GPA in all courses that fulfill a degree/ emphasis requirement.**
    - This GPA does not include general education and depth courses.
    - This GPA does not include the STEP courses for Music Education majors.
    - If a student's degree/emphasis GPA falls under this minimum, the student will be placed on departmental academic probation for one semester.
    - Inability to meet this degree/emphasis GPA during the probationary period will result in referral to the department head who in consultation with the appropriate faculty member(s) will determine if the student shall be allowed to remain a music major through an extension of the probationary period.

GRADING SCALE for music courses:

93-100 A

90-92. 99 A-

87-89. 99 B+

83-86. 99 B

80-82. 99 B- Lowest grade for individual instruction to fulfill graduation requirements)

77-79. 99 C+

73-76. 99 C Lowest grade for all other program courses to fulfill graduation requirements)

70-72. 99 C-

67-69. 99 D+

60-66. 99 D

59. 99 or below F

Music: Music Education, Guitar - BM

Type

Completion Requirement

BM Music Education Core Curriculum (44 credits)

A minimum grade of a "C" is required for all Music Education Core Curriculum courses.

Complete ALL of the following Courses:

- MUSC1110 - Music Theory I (BCA) - 3cr.
- MUSC1120 - Music Theory II - 3cr.
- MUSC1130 - Aural Skills I - 1cr.
- MUSC1140 - Aural Skills II - 1cr.
- MUSC1170 - Keyboard Harmony I - 1cr.
- MUSC1180 - Keyboard Harmony II - 1cr.
- MUSC1190 - World Music - 3cr.
- MUSC1500 - String Techniques - 1cr.
- MUSC1800 - Percussion Techniques - 1cr.
- MUSC2110 - Music Theory III - 3cr.
- MUSC2130 - Aural Skills III - 1cr.
- MUSC2180 - Computer Applications in Music Proficiency Exam - 1cr.
- MUSC2350 - Conducting - 2cr.
- MUSC2700 - Woodwind Techniques I: Flute, Clarinet - 1cr.
- MUSC3110 - Music History I: Antiquity through the Renaissance - 3cr.
- MUSC3120 - Music History II: The Baroque and Classical Periods - 3cr.
- MUSC3170 - Special Topics in Music Theory - 3cr.
- MUSC3180 - Orchestration - 2cr.
- MUSC3190 - Music History III: Romanticism through the 21st Century (CI) - 3cr.
- MUSC3220 - Choral Methods and Materials - 2cr.
- MUSC3240 - Instrumental Methods and Materials - 2cr.
- MUSC4240 - Advanced Conducting - 2cr.
- MUSC4920 - Senior Recital - 1cr.

NOTE:

1. MUSC4920 SENIOR RECITAL - 1 credit required.

Guitar Requirements (24 credits)

All individual instruction courses on major instrument must be passed with a grade of B- or better. All other music concentration courses must be passed with a grade of C or better. Major requirements may *not* be taken for a pass/fail grade, except those courses which are only taught on a pass/ fail basis. Minimum GPA for all required music program courses as well as STEP courses is 3.0. An overall minimum GPA of 3.0 is required for graduation.

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- MUSC2550 - Guitar Styles: Blues - 2cr.
  OR MUSC2560 - Guitar Styles: Bluegrass/Folk - 2cr.
- MUSC2570 - Fingerboard Theory I - 2cr.
- MUSC2580 - Fingerboard Theory II - 2cr.
- MUSC3570 - Guitar Pedagogy I - 2cr.
- MUSC3580 - Guitar Pedagogy II - 2cr.

NOTE:

1. MUSC3570 GUITAR PEDAGOGY I and MUSC3580 GUITAR PEDAGOGY II - Are offered alternate years.

AND

Individual Instruction (7 credits)

Earn at least 7 credits from the following:

- MUSC1585 - Individual Pre-music Guitar Instruction - 1cr.
- MUSC2595 - Individual Pre-Barrier Guitar Instruction - 1cr.
- MUSC3550 - Individual Guitar Instruction for Music Majors - 1cr.

NOTE:

1. MUSC1585 GUITAR INSTR-PREMUSIC - First year fall and spring, 2 credits.

2. MUSC2595 GUITAR INSTR-PREBARRIER - Second year fall semester, 1 credit.
3. MUSC3550 GUITAR INSTR - Second year spring through fourth year fall semesters, 4 credits total.

AND

Large Ensemble (3 credits)

3 credits minimum of Large Ensemble are required. Any combinations of these two courses satisfies the requirement.

Earn at least 3 credits from the following:

- MUSC2600 - Sapphire Singers - 1cr.
- MUSC4600 - University Chorale (DHA) - 1cr.

AND

Choral Ensemble (1 credit)

1 credit of choral ensemble is required. Any one of these courses will satisfy the requirement.

Earn at least 1 credits from the following:

- MUSC2600 - Sapphire Singers - 1cr.
- MUSC4600 - University Chorale (DHA) - 1cr.

AND

Brass/Woodwind Techniques (2 credits)

It is recommended to take MUSC2700 WOODWIND TECHNIQUES I second year fall and MUSC2800 HIGH BRASS TECHNIQUES fourth year fall.

Complete ALL of the following Courses:

- MUSC2700 - Woodwind Techniques I: Flute, Clarinet - 1cr.
- MUSC2800 - High Brass Techniques - 1cr.
  OR MUSC2810 - Low Brass Techniques - 1cr.

Music Education STEP (32 credits)

Students must maintain a 3.0 overall GPA and a grade of C or better in all STEP program courses.

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.
- MUSC3100 - Motivation and Classroom Management Strategies in Secondary Classroom Music - 3cr.
- MUSC5500 - Seminar for Student Teaching - 2cr.
- MUSC5630 - Student Teaching in the Schools - 10cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

NOTE:

1. SCED3300 CLINICAL EXPERIENCE I - Taken concurrently with MUSC3220 CHORAL METHODS AND MATERIALS.
2. SCED4300 CLINICAL EXPERIENCE II - Taken concurrently with MUSC3240 INSTRUMENTAL METHODS.

Recital and Concert Attendance Requirement

Complete the following:
To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Open Electives

Complete the following as needed:
To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Year	Semester	Actual Credits	Progress Credits
Year 1	Fall	16 - 18	0

Requirement Select

- Students that are pre-music majors are expected to enroll in MUSC 1105 during their first semester at USU. The course is intended to prepare students for MUSC 1110 - Music Theory I (BCA). Although the course is not required for graduation, it is expected that students will register for the course and either complete it or test out. Even if testing out, students must register for the course. MUSC 2180 consists of a series of three proficiency exams that all music majors must complete prior to the completion of four semesters of study. (Generic)

Music: Music Education, Orchestra - BM

Program Overview

College
College of Arts & Sciences

Department
Music

Program Level
Undergraduate

About this Degree
Music Education with an emphasis in strings certifies graduates to teach instrumental, choral, and general music in secondary schools. As music education majors with an Orchestra Education emphasis, students are part of the String Program led by the members of the Fry Street Quartet and bassist Braun Khan. The curriculum for this degree fosters a comprehensive knowledge of string education alongside rigorous artistic development on one's primary instrument.

The Fry Street Quartet occupies the Manon Caine Russell and Dan C. Russell Endowed String Quartet Residency at Utah State University. This residency affords all string majors the rare opportunity to study with a world-renowned string quartet as their primary professors.

The size of the String Program at Utah State allows for each student to receive a great deal of individual attention throughout his or her study. With chamber music as a natural focus of a program led by a string quartet, a close-knit atmosphere is at the heart of the student experience. The shared artistic and educational values of the FSQ are central to this experience and transfer to the classroom as well as the concert stage.

- For more information about Music Education, see the department website.
- All music majors must pass an audition to be admitted.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program
- New freshmen:
    - Admitted to USU in Good Standing
    - Must pass entrance audition on primary instrument
- Transfer students from other institutions or other programs at USU:
    - Admitted to USU in Good Standing
    - Must pass entrance audition on primary instrument

Program Requirements

Course Grades and GPA Minimums

To maintain Music Major (and Pre-Music Major) status at USU, students must:

1. **Complete all Individual Instruction (primary instrument) courses with a grade of B- or higher**
    - Any grade lower than B- will result in an extra required semester of Individual Instruction.

- Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.

2. **Complete all music major core and emphasis classes with a grade of C or higher**
    - Any music course grade lower than C will not count towards graduation.
    - Core courses may be repeated once in an attempt to earn a grade of C or better.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
3. **Maintain a 3.0 cumulative GPA in all courses that fulfill a degree/emphasis requirement.**
    - This GPA does not include general education and depth courses.
    - This GPA does not include the STEP courses for Music Education majors.
    - If a student's degree/emphasis GPA falls under this minimum, the student will be placed on departmental academic probation for one semester.
    - Inability to meet this degree/emphasis GPA during the probationary period will result in referral to the department head who in consultation with the appropriate faculty member(s) will determine if the student shall be allowed to remain a music major through an extension of the probationary period.

GRADING SCALE for music courses:

93-100 A

90-92.99 A-

87-89.99 B+

83-86.99 B

80-82.99 B- Lowest grade for individual instruction to fulfill graduation requirements)

77-79.99 C+

73-76.99 C Lowest grade for all other program courses to fulfill graduation requirements)

70-72.99 C-

67-69.99 D+

60-66.99 D

59.99 or below F

Music - Music Education, Orchestra - BM

Type
Completion Requirement

BM Music Education Core Curriculum (44 credits)

A minimum grade of a "C" is required for all Music Education Core Curriculum courses.

Earn a minimum grade of C in the following:

- MUSC1110 - Music Theory I (BCA) - 3cr.
- MUSC1120 - Music Theory II - 3cr.
- MUSC1130 - Aural Skills I - 1cr.
- MUSC1140 - Aural Skills II - 1cr.
- MUSC1170 - Keyboard Harmony I - 1cr.
- MUSC1180 - Keyboard Harmony II - 1cr.
- MUSC1190 - World Music - 3cr.
- MUSC1500 - String Techniques - 1cr.
- MUSC1800 - Percussion Techniques - 1cr.
- MUSC2110 - Music Theory III - 3cr.
- MUSC2130 - Aural Skills III - 1cr.
- MUSC2180 - Computer Applications in Music Proficiency Exam - 1cr.
- MUSC2350 - Conducting - 2cr.
- MUSC2700 - Woodwind Techniques I: Flute, Clarinet - 1cr.
- MUSC3110 - Music History I: Antiquity through the Renaissance - 3cr.
- MUSC3120 - Music History II: The Baroque and Classical Periods - 3cr.
- MUSC3170 - Special Topics in Music Theory - 3cr.
- MUSC3180 - Orchestration - 2cr.
- MUSC3190 - Music History III: Romanticism through the 21st Century (CI) - 3cr.
- MUSC3220 - Choral Methods and Materials - 2cr.
- MUSC3240 - Instrumental Methods and Materials - 2cr.
- MUSC4240 - Advanced Conducting - 2cr.
- MUSC4920 - Senior Recital - 1cr.

NOTE:

1. MUSC4920 SENIOR RECITAL - 1 credit required.

MUED Orchestra Concentration (23 credits)

All individual instruction courses on major instrument must be passed with a grade of B- or better. All other music concentration courses must be passed with a grade of C- or better. Major requirements may *not* be taken for a pass/fail grade, except those courses which are only taught on a pass/fail basis. Minimum GPA for all required music program courses is 3.0.

Fulfill ALL of the following requirements:

Individual Instruction

MUSC 1/2/4XXX Individual Instruction for Music Majors (Students need 7 semesters of individual study to graduate, for a minimum of 7 credits.)

Fulfill ANY of the following requirements:

Violin Individual Instruction

Earn at least 7 credits from the following:

- MUSC1535 - Individual Pre-Music Violin Instruction - 1cr.
- MUSC2545 - Individual Pre-Barrier Violin Instruction - 1cr.
- MUSC4510 - Individual Violin Instruction for Music Majors - 1cr.

OR

Viola Individual Instruction

Earn at least 7 credits from the following:

- MUSC1525 - Individual Pre-music Viola Instruction - 1cr.
- MUSC2535 - Individual Pre-barrier Viola Instruction - 1cr.
- MUSC4520 - Individual Viola Instruction for Music

Majors - 1cr.

OR

Cello Individual Instruction

Complete ALL of the following Courses:

- MUSC1515 - Individual Pre-major Cello Instruction - 1cr.
- MUSC2525 - Individual Pre-Barrier Cello Instruction - 1cr.
- MUSC4530 - Individual Cello Instruction for Music Majors - 1cr.

OR

Double Bass Individual Instruction

Complete ALL of the following Courses:

- MUSC1545 - Individual Pre-Music String Bass Instruction - 1cr.
- MUSC2505 - Individual Pre-Barrier String Bass Instruction - 1cr.
- MUSC4540 - Individual String Bass Instruction for Music Majors - 1cr.

AND

Required Courses

Fulfill ALL of the following requirements:

Large Ensemble (7 credits)

Any combination of these two courses will satisfy the requirement.

Earn at least 7 credits from the following:

- MUSC3500 - Symphony Orchestra (DHA) - 1cr.
- MUSC3530 - Cache Symphony Orchestra - 1cr.

NOTE:

1. MUSC3500 SYMPHONY ORCHESTRA (DHA) - Preferred for music majors.

AND

Required Courses

Music Education, Orchestra students are required to take MUSC2700 WOODWIND TECHNIQUES I and one semester of brass techniques. Students may choose either MUSC2800 HIGH BRASS TECHNIQUES or MUSC2810 LOW BRASS TECHNIQUES for their brass techniques course. It is recommended to take MUSC2700 WOODWIND TECHNIQUES I 1st year fall and MUSC2800 HIGH BRASS TECHNIQUES 4th year fall.

Complete ALL of the following Courses:

- MUSC1600 - Voice Techniques - 1cr.
- MUSC4500 - String Ensemble - 1cr.
- MUSC2800 - High Brass Techniques - 1cr.
  OR MUSC2810 - Low Brass Techniques - 1cr.

NOTE:

1. MUSC4500 STRING ENSEMBLE - 2 credits.

AND

Choral Ensemble (1 credit)

Music Education, Orchestra majors are required to take one semester of choral ensemble.

Earn at least 1 credits from the following:

- MUSC2210 - Advanced Conducting Ensemble - 1cr.
- MUSC2600 - Sapphire Singers - 1cr.
- MUSC4600 - University Chorale (DHA) - 1cr.

AND

Required Courses

Complete ANY of the following Courses:

- MUSC3510 - Orchestra Literature - 2cr.
- MUSC3520 - String Pedagogy and Solo Literature - 2cr.

NOTE:

1. MUSC3510 ORCHESTRA LITERATURE and MUSC3520 STRING PED/SOLO LIT - Are offered consecutive semesters every other year. Check schedule to determine when these courses will be offered. See 2nd and 3rd year of Degree Map for details.

Music Education STEP (32 credits)

Students must maintain a 3.0 overall GPA and a grade of C or better in all STEP program courses.

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.
- MUSC3100 - Motivation and Classroom Management Strategies in Secondary Classroom Music - 3cr.
- MUSC5500 - Seminar for Student Teaching - 2cr.
- MUSC5630 - Student Teaching in the Schools - 10cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

NOTE:

1. SCED3300 CLINICAL EXPERIENCE I - Taken concurrently with MUSC3220 CHORAL METHODS AND MATERIALS.
2. SCED4300 CLINICAL EXPERIENCE II - Taken concurrently with MUSC3240 INSTRUMENTAL METHODS.

Recital and Concert Attendance Requirement

Complete the following:
To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Year	Semester	Actual Credits	Progress Credits
Year 1	Fall	15 - 17	0

Requirement Select

- Students that are pre-music majors are expected to enroll in MUSC 1105 during their first semester at USU. The course is intended to prepare students for MUSC 1110 - Music Theory I (BCA). Although the course is not required for graduation, it is expected that students will register for the course and either complete it or test out. Even if testing out, students must register for the course. MUSC 2180 consists of a series of three proficiency exams that all music majors must complete prior to the completion of four semesters of study. Students need 7 semesters of individual study to graduate, for a minimum of 7 credits. Students need 7 credits minimum of MUSC 3500. (Generic)

Mathematics/Statistics Education (Composite) - BA, BS

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Undergraduate

About this Degree

The mathematics/statistics education (composite) major is designed to prepare teachers of mathematics at the middle and high school levels. USU is one of the only universities in the nation where students can be certified to teach both mathematics and statistics in one degree program, which makes them more marketable and competitive for teaching positions. USU's program has also served as a model for other universities that wish to create similar programs.

USU's math education program is recognized as the largest and the best in the state, with 100% of its graduates receiving teaching positions in school districts upon graduation. Students in the program learn much higher math than they will ever teach in middle school or high school, making them experts in their subject area. They also take methods courses where they learn how to teach the material to students and have early experience in actual classrooms, making them more familiar and comfortable with these settings before they begin their student teaching.

- For more information about Mathematics/Statistics Education (Composite), see the website.
- Admitted and current students must meet with the advisor, Linda Skabelund.
- Log on to Degree Works to check student-specific program progress.

Bachelor of Arts Degree Requirement

See Undergraduate Academic Credential Requirements website for language requirements.

Admission Requirements for this Program

In addition to Utah State University's admissions requirements, the mathematics/statistics education (composite) program has additional requirements:

New freshmen admitted to USU in good standing qualify for admission to this major. A 3.0 GPA, ACT scores of 21 composite and 20 verbal/English and 19 mathematics/quantitative, and 30 credits of coursework are required for admission to the Secondary Teacher Education Program (STEP). Students should contact the School of Teacher Education and Leadership (TEAL) for information on additional admission criteria.

Transfer students from other institutions or other USU majors need a 3.0 GPA, ACT scores of 21 composite and 20 verbal/English and 19 mathematics/quantitative to be admitted to the major. They also need 30 credits of coursework to be admitted to the STEP. Students should contact the School of Teacher Education and Leadership (TEAL) for information on additional admission criteria.

Some major coursework may fulfill the General Education Requirements, or University Studies Requirements.

- Two courses having the CI designation (such as MATH4200 FOUNDATIONS OF ANALYSIS (CI), MATH4310 INTRO ALGEBRAIC STRC (CI), MATH5580 ACTUARIAL MATH II (CI), and STAT5100 MODERN REGRESSION METH(CI)(QI)) will meet the Communications Intensive (CI) requirement.
- One course having the QI designation (such as MATH2210 MULTIVARIABLE CALCULUS (QI), MATH2250 LINEAR ALG/DIFF EQUATIONS (QI), MATH2270 LINEAR ALGEBRA (QI), MATH2280 ORD DIFFRNTIAL EQUATIONS (QI), and STAT3000 STATISTICS FOR SCIENTISTS (QI)) will meet the Quantitative Intensive (QI) requirement.

120

Simple Requisites

Program Requirements

The Mathematics/Statistics Education (Composite) major requires a 3.00 GPA. A grade of C or better is required in all courses taken for the major. Program coursework *may not* be taken on a pass/fail basis, except MATH3300 SCHOOL MATH LAB I, MATH4300 SCHOOL MATH LAB II, and SCED5630 STUDENT TEACHING SEC SCHOOL.

Mathematics/Statistics Education (Composite) - BA, BS

Type
Completion Requirement

Major Requirements (44 credits)

Complete ALL of the following Courses:

- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
  OR DSAI2275 - Linear Algebra for Data Science - 4cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- MATH3110 - Modern Geometry - 3cr.
- MATH3310 - Discrete Mathematics - 3cr.
- MATH4200 - Foundations of Analysis (CI) - 3cr.
- MATH4310 - Introduction to Algebraic Structures (CI) - 3cr.
- MATH5400 - Mathematics and Its History - 3cr.
  OR MATH3010 - Pedagogical Foundations of Algebra - 3cr.
- MATH5710 - Introduction to Probability - 3cr.
- MATH5720 - Introduction to Mathematical Statistics - 3cr.
  OR STAT5200 - Analysis of Designed Experiments - 3cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.

Clinicals (14 credits)

Must be taken after students are admitted into the SCED program and within the year before student teaching.

MATH3300 SCHOOL MATH LAB I is not required of students with teaching minors in other departments.

Earn at least 14 credits from the following:

- MATH3300 - School Laboratory for Mathematics Teachers Level I - 1cr.
- MATH4300 - School Laboratory for Mathematics Teachers Level II - 1cr.
- MATH5010 - Technology for Teaching Mathematics - 3cr.
- MATH5020 - Mathematical Cognition and Assessment of Mathematical Achievement - 3cr.
- MATH5500 - Methods of Secondary School Mathematics Teaching - 3cr.
- STAT4010 - Probability and Statistics for Teachers - 3cr.

Mathematics Secondary Teaching Requirements (24 credits)

Earn at least 24 credits from the following:

- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED5100 - Motivation and Classroom Management - 3cr.

- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

College of Science Sequence (6-8 credits)

Choose one of the following sequences:

Fulfill ANY of the following requirements:

Biology Sequence

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Sequence

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

OR

Geology Sequence

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
  AND GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.

OR

Physics Sequence

Complete one of the following course sets.

Complete ANY of the following Courses:

- PHYS2110 - General Physics—Life Sciences I - 4cr.
  AND PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
  AND PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.

OR

Computer Science Sequence

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
  OR CS1440 - Software Engineering Fundamentals - 3cr.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Master of Technical Communication - MTC

Program Overview

College	Department	Program Level
College of Arts & Sciences	Communication & Media	Graduate

About this Degree

The professional degree program in Technical Communication welcomes applications from the following types of students:

- students interested in an academic career in technical communication
- working professionals seeking advancement and interested in gaining skills in the diverse and complex field of technical communication, which includes user experience, usability, social media, crisis communication, and other professional writing careers.
- high school English teachers who want to expand their repertoire of English courses to include technical communication

The entire program may be completed online and prepares students for understanding how culture, technology, and workplace research shape the field and practice of technical communication.

Refer to the Master of Technical Communication pages for more information.

Financial Information

For information on the cost of the program, refer to USU Online's Cost and Financial Aid Page.

Note that employees of Utah State University may be eligible to receive a tuition reduction for this program. Call Human Resources for further information at (435) 797-0216.

Admission Requirements for this Program

Master's Admission Requirements

The GRE, MAT or GMAT are not required to be considered for the Master of Technical Communication program. Applicants need to have a minimum GPA of 3.00 on a 4.00 scale in the last 60 credits taken in order to be considered. International applicants from non-English-speaking countries should see the additional requirements described on the Graduate School Admissions Policies

Master's Admission Procedure

Master's students must apply for admission through the School of Graduate Studies

The MTC program application requires the following supplemental items:

1. Letter of intent
2. Resume or CV
3. One sample of applicant's professional writing
4. Half-page introduction to the sample
5. Three letters of recommendation from people who can address your readiness for graduate studies

Refer to the Master of Technical Communication application page for more information on your application and for help in making your application more persuasive.

Deadlines

The online Master of Technical Communication will accept applications on a rolling basis for summer, fall, and spring semesters.

Additional Questions

You may send questions to TCR Program Director, Dr. Chen Chen at chen.chen@usu.edu.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
33	33

Simple Requisites

Program Requirements

Master of Technical Communication Degree Requirements

As part of the 33 credits required to graduate, two or three online classes are offered each fall and spring semester. Occasionally, classes may be offered in the summer.

The curriculum has been designed to allow students to complete all requirements within a three-year period, although students may take longer if they choose. The School of Graduate Studies requires students to complete their degrees in no more than six years. Extensions of this deadline are sometimes allowed, but classes expire after EIGHT years and will no longer count toward the degree.

Students should complete the three core requirements (TCR6130 PROFESSIONAL EDITING, TCR6100 FOUNDATIONS OF TECHNICAL COMM, and TCR6120 RHETORICAL THEORY) at their first opportunity after entering the program.

Students need to maintain at least a 3.0 GPA to remain in good standing. If the GPA falls below a 3.0, the School of Graduate Studies will take action, which could include a letter of warning, probation, or even dismissal from the program. Any grade below a B- will not count toward the degree.

The Program of Study for the MTC degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above. Refer to degree requirements above for more information. To count toward degree requirements, courses numbered below 6000 must be approved by the Director of Graduate Studies and the Program Chair for Technical Communication and Rhetoric.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000. No more than 12 credits of 5000 level courses are accepted.

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.

At least 21-semester credits for the MTC degree must be from Utah State University, approved by a program committee and the School of Graduate Studies through the Program of Study form.

Students in the master's program who are able to come to the Logan campus may be able to include some in-person classes in their programs of study. As an undergraduate or concurrent student, you can apply up to 12 credits of coursework to a future graduate degree if they are 5000 level or above. Courses can only be applied to one degree. Consult with the Director of Graduate Studies, Dr. Chen Chen at chen.chen@usu.edu, if interested.

Professional/Plan C students cannot use any thesis/dissertation credits.

A Technical Communication master's student will be required to complete the following academic forms during their time of study:

- Program of Study

- Other forms may be required; for details refer to the Graduate Student Handbook.

Curriculum

Students take all three core requirement classes and 24 additional credits for a total of 33 credit hours. All classes below are offered for 3 credits each, making a total of 11 courses. At minimum, 7 of these 11 courses must be Master of Technical Communication courses. Courses are not repeatable for credit unless otherwise indicated below.

Master of Technical Communication - MTC

Type
Completion Requirement

Core Requirements

Complete ALL of the following Courses:

- TCR6130 - Professional Editing - 3cr.
- TCR6100 - Foundations of Technical Communication - 3cr.
- TCR6120 - Rhetorical Theory - 3cr.

Issues in Professional Communication (12-24* credits required)

Complete ALL of the following Courses:

- TCR6210 - Cultural Research Methods - 3cr.
- TCR6220 - User Experience Design - 3cr.
- TCR6230 - Instructional Design for Technical Communicators - 3cr.
- TCR6240 - Communication Design - 3cr.
- TCR6250 - Digital Rhetorics - 3cr.
- TCR6260 - Accessibility Rhetorics and Disability Studies - 3cr.
- TCR6270 - Writing Technologies - 3cr.
- TCR6490 - Special Topics in Technical Communication and Rhetoric - 3cr.
- TCR6900 - Graduate Internship & Cooperative Work Experience - 1cr.
- TCR7110 - Empirical Research Methods - 3cr.
- ENGL6890 - Studies in Writing and Rhetoric - 3cr.

Note

See below:
Students may reach the required 33-credit total by taking the 9 required credits from TCR6100 FOUNDATIONS OF TECHNICAL COMM, TCR6120 RHETORICAL THEORY, and TCR6130 PROFESSIONAL EDITING and the remaining 24 credits from the courses listed under B above. Alternatively, they may take up to 12 of the 24 credits through online classes outside the TCR program. To fulfill up to 12 remaining credits with courses outside of list B above, contact the Director of Graduate Studies (DGS), Dr. Chen Chen, to request approval. To reiterate, any class not listed under A or B will only count towards the student's program of study if it has been approved by the DGS and the Technical Communication & Rhetoric faculty.

Mathematical Sciences - PhD

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Graduate

About this Degree
The Department of Mathematics and Statistics teaches advanced quantitative and analytic skills for professionals in education, industry and research. At the Ph.D. level this mission is realized through three doctoral specializations within the Mathematical Sciences PhD.

The Pure and Applied Mathematics specialization, a traditional doctoral program, provides training in the foundations of modern mathematics and specialized areas of mathematical research. Graduates are employed as tenured faculty at universities and colleges as well as governmental and industrial research centers. Students work with faculty researchers in differential geometry, computer-algebra and mathematical physics, dynamical systems, mathematical ecology, graph theory and low-dimensional topology. The dissertation should be a publishable, significant contribution to research in an area of mathematics or its applications. Students in this Pure and Applied Mathematics specialization must obtain a minimum grade of "B" or better in at least two of the 6000-level topic tracks listed below the specialization descriptions.

The Interdisciplinary Studies PhD specialization combines training in mathematics or statistics, significant interaction with other fields that use advanced methodology from mathematics or statistics, and training in an area of application outside math/statistics, with program direction by scholars in math/statistics and in an external discipline. The dissertation should constitute a body of work on significant application or relationship of mathematics or statistics to other disciplines, with the goal of publication in either mathematics, statistics or the field of impact.

The Interdisciplinary Studies Specialization requires at least 9 credits of coursework in the student's chosen interdisciplinary area (outside both Mathematics and Statistics). Recent students have taken external courses in the College of Education, from the Departments of Biology and Physics, or as part of the Program in Climate Adaptation Science. The student's PhD supervisory committee should include two persons in the student's selected interdisciplinary area, and the comprehensive examination (see below) should have a significant interdisciplinary component.

Students in this Interdisciplinary Studies specialization must obtain a minimum grade of "B" or better in at least two of the 6000-level topic tracks listed below the specialization descriptions.

The College Teaching Ph.D. specialization is designed for students preparing for careers focused on teaching mathematics and statistics. Students in the College Teaching specialization receive broad training in pure and applied mathematics and statistics and complete six credits of College Teaching Internship under the guidance of their supervisory committee. The dissertation for this specialization is flexible and may include original research in mathematics, statistics or education as well as exposition of important mathematical and statistical theories and their historical relationships.

Program Requirements

Total Credits Required In Program Coursework
45-72

Total Credits Required To Earn This Credential
45-72

Simple Requisites

Program Requirements

School of Graduate Studies Requirements:

- Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
- Course Number Acceptability: The program of study cannot include more than 12 semester credits of courses below the 6000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- Master's forms: Approval of the Program of Study is required by the School of Graduate Studies.

Program Requirements:

- This degree requires at least 45 total credits (Masters) or 72 total credits (no Masters) numbered 5000-level or higher. This includes research credits but excludes MATH6990 CONT GRAD ADVISEMENT/STAT6990 CONT GRAD ADVISEMENT and MATH6990 CONT GRAD ADVISEMENT/STAT7990 CONT GRAD ADVISEMENT (Continuing Graduate Advisement). No more than 12 of these credits can be numbered 5000-5999.
- Supervisory Committee Approval by the end of the second semester
- Program of Study submitted by the end of the third semester
- Write and successfully defend a dissertation research proposal
- Pass a comprehensive examination that is constructed specifically for the student by his or her supervisory committee. The form of the examination may be written or oral or may include a combination of written and oral components. The length and content of the exam are determined by the student's supervisory committee but is expected to take at least eight hours of direct effort from the student (e.g., three two-hour written exams followed by a two-hour oral exam).
- Application for Candidacy Form at least 3 months before final defense
- Appointment for examination form submitted 10 days before defense and during defense semester must be registered for credit
- Write and successfully defend a dissertation
- Record of Examination Form
- Thesis/Dissertation format and Style and Electronic Publication Form
- Authorship and Copyright form
- Graduation application

Introductory Seminar

Type
Completion Requirement

Required Seminar

Complete ALL of the following Courses:

- MATH6910 - Directed Reading and Conference - 1cr.

NOTE:

1. MATH6910 DIRECTED READING DR: Modern Research in Math/Stats) - 1 credit

Dissertation Research

Type
Completion Requirement

Dissertation Course

Complete ALL of the following Courses:

- MATH7970 - Dissertation Research - 1cr.

NOTE:

1. Students with a prior masters degree will take between 12-18 credits of MATH7970 DISSERTATION RESEARCH (repeatable for credit).
2. Students without a prior masters degree will take between 18-24 credits of MATH7970 DISSERTATION RESEARCH (repeatable for credit).

Topic Tracks for Pure/Applied Mathematics and Interdisciplinary Studies specializations

Type
Completion Requirement

Topic Options

Each series of courses is a topic track. Students must complete at least 2 topic tracks with a minimum grade of B.

Complete at least 2 of the following:

Complete ALL of the following Courses:

- MATH6210 - Real Analysis - 3cr.
  AND MATH6220 - Real Analysis - 3cr.

OR

Complete ALL of the following Courses:

- MATH6310 - Modern Algebra - 3cr.
  AND MATH6320 - Modern Algebra - 3cr.

OR

Complete ALL of the following Courses:

- MATH6110 - Differential Geometry - 3cr.
  AND MATH6510 - Topology - 3cr.

OR

Complete ALL of the following Courses:

- MATH6410 - Methods of Applied Mathematics - 3cr.
  AND MATH6440 - ODE and Dynamics - 3cr.
  AND MATH6420 - PDE I - 3cr.
  AND MATH6450 - PDE II - 3cr.

OR

Complete ALL of the following Courses:

- MATH6470 - Advanced Asymptotic Methods - 3cr.
  AND MATH6810 - Topics in Mathematics (Topic) - 1cr.

OR

Complete ALL of the following Courses:

- MATH6610 - Introduction to Numerical Analysis - 3cr.
  AND MATH6620 - Numerical Solution of Partial Differential Equations - 3cr.

Interdisciplinary Studies Specialization

Type

Completion Requirement

Specialization Requirement

Complete the following:
The Interdisciplinary Studies Specialization requires at least 9 credits of coursework in the student's chosen interdisciplinary area (outside both Mathematics and Statistics). Recent students have taken external courses in the College of Education, from the Departments of Biology and Physics, or as part of the Program in Climate Adaptation Science. The student's PhD supervisory committee should include two persons in the student's selected interdisciplinary area, and the comprehensive examination (see below) should have a significant interdisciplinary component.

College Teaching Specialization

Type

Completion Requirement

Teaching Requirement

Earn at least 6 credits from the following:

- MATH7910 - College Teaching Internship - 3cr.

Elective Credit

Type

Completion Requirement

Elective Requirement

Complete the following:
Students must take at least 45 total credits (Masters) or 72 total credits (no Masters) numbered 5000-level or higher. This includes research credits but excludes MATH6990 CONT GRAD ADVISEMENT/STAT6990 CONT GRAD ADVISEMENT and STAT7990 CONT GRAD ADVISEMENT (Continuing Graduate Advisement). Students are required to complete suitable electives at the 5000-level or higher, as approved by their supervisory committee, to meet the total credit thresholds after accounting for the required courses. No more than 12 of these elective credits can be numbered 5000-5999 and no more than 3 (Masters) or 6 (no Masters) can be STAT6250 GRAD INTERN/COOP (repeatable for credit).

Music - BA

Program Overview

College
College of Arts & Sciences

Department
Music

Program Level
Undergraduate

About this Degree

Students in the Bachelor of Arts in Music program develop excellence in music within the context of the liberal arts. Core courses in music are complemented by a range of electives outside music, including language study. BA students have a high degree of flexibility in choosing their electives, making this program perfect for students interested in a double major or careers in arts administration, music business, musicology, and music theory, among others. The BA is also suitable for students who wish to study music in college but learn a broad range of skills that can be transferred to careers or graduate study in other fields. For more information, read the BA in Music Student Guide or refer to the BA Music 4-year Degree Map.

- For more information about the Music BA, see the department website.
- All music majors must pass an audition to be admitted
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing. MUST PASS ENTRANCE AUDITION ON PRIMARY INSTRUMENT.
- Transfer students from other institutions or other programs at USU: 2.75 GPA. MUST PASS ENTRANCE AUDITION ON PRIMARY INSTRUMENT
- Department of Music website: https://cca.usu.edu/music/

Simple Requisites

Program Requirements

Course Grades and GPA Minimums

To maintain Music Major (and Pre-Music Major) status at USU, students must:

1. **Complete all Individual Instruction (primary instrument) courses with a grade of B- or higher**
    - Any grade lower than B- will result in an extra required semester of Individual Instruction.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
2. **Complete all music major core and emphasis classes with a grade of C or higher**
    - Any music course grade lower than C will not count towards graduation.
    - Core courses may be repeated once in an attempt to earn a grade of C or better.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
3. **Maintain a 3.0 cumulative GPA in all courses that fulfill a degree/emphasis requirement.**
    - This GPA does not include general education and depth courses.
    - This GPA does not include the STEP courses for Music Education majors.
    - If a student's degree/emphasis GPA falls under this minimum, the student will be placed on departmental academic probation for one semester.
    - Inability to meet this degree/emphasis GPA during the probationary period will result in referral to the department head who in consultation with the appropriate faculty member(s) will determine if the student shall be allowed to remain a music major through an extension of the probationary period.

GRADING SCALE for music courses:

93-100 A

90-92.99 A-

87-89.99 B+

83-86.99 B

80-82.99 B- Lowest grade for individual instruction to fulfill graduation requirements)

77-79.99 C+

73-76.99 C Lowest grade for all other program courses to fulfill graduation requirements)

70-72.99 C-

67-69.99 D+

60-66.99 D

59.99 or below F

Music - BA

Type
Completion Requirement

Musicianship (26 credits)

Musicianship courses must be passed with a grade of C or higher. Minimum GPA for all required program courses is 3.0.

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- MUSC1110 - Music Theory I (BCA) - 3cr.
- MUSC1120 - Music Theory II - 3cr.
- MUSC2110 - Music Theory III - 3cr.
- MUSC1130 - Aural Skills I - 1cr.
- MUSC1140 - Aural Skills II - 1cr.
- MUSC1170 - Keyboard Harmony I - 1cr.
- MUSC1180 - Keyboard Harmony II - 1cr.
- MUSC1190 - World Music - 3cr.

- MUSC2180 - Computer Applications in Music Proficiency Exam - 1cr.

AND

Required Music History Courses

Complete at least 2 of the following courses:

- MUSC3110 - Music History I: Antiquity through the Renaissance - 3cr.
- MUSC3120 - Music History II: The Baroque and Classical Periods - 3cr.
- MUSC3190 - Music History III: Romanticism through the 21st Century (CI) - 3cr.

AND

Required Courses

Complete at least 1 of the following courses:

- MUSC3020 - History of Jazz (DHA) - 3cr.
- MUSC3030 - Rock and Roll-Catalyst for Social Change (DSS) - 3cr.

AND

Specialization (29 credits)

Individual instruction courses on major instrument must be passed with a grade of B- or higher. Minimum GPA for all required program courses is 3.0. Major requirements may *not* be taken for a pass/fail grade.

Fulfill ALL of the following requirements:

Individual Instruction (4 credits)

Complete the following:

- MUSC 1/2/3/4XXX

NOTE:

• Must be on same instrument/voice; must include 1 credit past barrier jury.
• Up to 4 additional credits of major instrument instruction may be applied to the upper-division music elective requirement

AND

Large Ensemble (4 credits)

Complete the following:

- MUSC 2/3/4XXX

NOTE:

• Upper-division large ensembles are recommended for fulfillment of 40 upper-division credit requirement.
• Up to 4 additional credits of ensemble may be applied to the upper-division music elective requirement.

AND

Recital/Capstone

Complete at least 1 of the following courses:

- MUSC4920 - Senior Recital - 1cr.
  OR MUSC4935 - Music BA Capstone Project - 2cr.

NOTE:

1. MUSC4935 MUSIC BA CAPSTONE PROJECT - Capstone project proposal to be submitted to the program director by week 12, two semesters prior to registering for MUSC4935 MUSIC BA CAPSTONE PROJECT.

AND

Arts Elective (3 credits)

Complete the following:

- One class from ART or THEA department.

AND

Foreign Language Proficiency (16 credits)

Earn at least 16 credits

- See the BA Foreign Language Requirements on the Undergraduate Academic Credential Requirements page.

Upper-Division Music Electives (12 credits)

Additional courses at the 3000-level or higher or from the approved list below. Must be passed with a grade of C or higher.

Fulfill ANY of the following requirements:

Upper Division Courses

• Private Instruction (up to 4 credits in addition to the 4 required)
• Large Ensemble (up to 4 credits in addition to the 4 required)

NOTE: Students should consult with the program's academic advisor before selecting music electives to ensure that the university's graduation requirement of 40 upper-division credits is fulfilled.

OR

Additional Options for Upper-Division Music Electives

These lower-division courses have been approved to satisfy the upper-division music elective requirement:

Complete ANY of the following Courses:

- MUSC2130 - Aural Skills III - 1cr.
- MUSC2350 - Conducting - 2cr.
- MUSC2570 - Fingerboard Theory I - 2cr.
  AND MUSC2580 - Fingerboard Theory II - 2cr.
- MUSC2660 - Italian Diction for Singers - 2cr.
- MUSC2670 - German Diction for Singers - 2cr.
- MUSC2680 - French Diction for Singers - 2cr.

Recital and Concert Attendance Requirement

Complete the following:
To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Year	Semester	Actual Credits	Progress Credits
Year 1	Fall	16	0

Requirement Select

- Students with are pre-music majors are expected to enroll in MUSC 1105 during their first semester at USU. The course is intended to prepare students for MUSC 1110 - Music Theory I (BCA). Although the course is not required for graduation, it is expected that students will register for the course and either complete it or test out. Even if testing out, students must register for the course. (Generic)

Music: Composition - BA

Program Overview

College	Department	Program Level
College of Arts & Sciences	Music	Undergraduate

About this Degree

Students in the Bachelor of Arts in Music program develop excellence in music within the context of the liberal arts. Core courses in music are complemented by a range of electives outside music, including language study. BA students have a high degree of flexibility in choosing their electives, making this program perfect for students interested in a double major or careers in arts administration, music business, musicology, and music theory, among others. The BA is also suitable for students who wish to study music in college but learn a broad range of skills that can be transferred to careers or graduate study in other fields. For more information, read the BA in Music Student Guide or refer to the Music BA - 4 Year Degree Map.

Composition Emphasis

Students wishing a more directed experience in the context of the music BA degree can elect to adopt an emphasis in composition for the BA. This does not change the entrance requirements, or the curriculum for general education, musicianship, or performance. However, upper-level music electives are specific to the Composition Emphasis.

- For more information about the Music BA Composition Emphasis, see the department website.
- All music majors must pass an audition to be admitted
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- New freshmen:
    - Admitted to USU in Good Standing
    - Must pass entrance audition on primary instrument
- Transfer students from other institutions or other programs at USU:
    - Admitted to USU in Good Standing
    - Must pass entrance audition on primary instrument

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
66	120

Simple Requisites

Program Requirements

Course Grades and GPA Minimums

To maintain Music Major (and Pre-Music Major) status at USU, students must:

1. **Complete all Individual Instruction (primary instrument) courses with a grade of B- or higher**
    - Any grade lower than B- will result in an extra required semester of Individual Instruction.

- Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.

2. **Complete all music major core and emphasis classes with a grade of C or higher**
    - Any music course grade lower than C will not count towards graduation.
    - Core courses may be repeated once in an attempt to earn a grade of C or better.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
4. **Maintain a 3.0 cumulative GPA in all courses that fulfill a degree/emphasis requirement.**
    - This GPA does not include general education and depth courses.
    - This GPA does not include the STEP courses for Music Education majors.
    - If a student's degree/emphasis GPA falls under this minimum, the student will be placed on departmental academic probation for one semester.
    - Inability to meet this degree/emphasis GPA during the probationary period will result in referral to the department head who in consultation with the appropriate faculty member(s) will determine if the student shall be allowed to remain a music major through an extension of the probationary period.

GRADING SCALE for music courses:

93-100 A

90-92.99 A-

87-89.99 B+

83-86.99 B

80-82.99 B- Lowest grade for individual instruction to fulfill graduation requirements)

77-79.99 C+

73-76.99 C Lowest grade for all other program courses to fulfill graduation requirements)

70-72.99 C-

67-69.99 D+

60-66.99 D

59.99 or below F

Music: Composition - BA

Type
Completion Requirement

Musicianship (25 credits)

Musicianship courses must be passed with a grade of C or higher. Minimum GPA for all required program courses is 3.0.

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- MUSC1110 - Music Theory I (BCA) - 3cr.
- MUSC1120 - Music Theory II - 3cr.
- MUSC1130 - Aural Skills I - 1cr.
- MUSC1140 - Aural Skills II - 1cr.
- MUSC1170 - Keyboard Harmony I - 1cr.
- MUSC1180 - Keyboard Harmony II - 1cr.
- MUSC1190 - World Music - 3cr.
- MUSC2110 - Music Theory III - 3cr.

AND

Music History Courses

Complete at least 2 of the following courses:

- MUSC3110 - Music History I: Antiquity through the Renaissance - 3cr.
- MUSC3120 - Music History II: The Baroque and Classical Periods - 3cr.
- MUSC3190 - Music History III: Romanticism through the 21st Century (CI) - 3cr.

AND

Required Courses

Complete at least 1 of the following courses:

- MUSC3020 - History of Jazz (DHA) - 3cr.
- MUSC3030 - Rock and Roll-Catalyst for Social Change (DSS) - 3cr.

Specialization (29 credits)

All individual instruction courses must be passed with a grade of B- or better. All other music courses must be passed with a grade of C or better. Major requirements may *not* be taken on a pass/fail basis. Minimum GPA for all required courses is a 3.0.

Fulfill ALL of the following requirements:

Individual Instruction: 4 semesters (1-2 credits)

- Must be on same instrument/voice; must include 1 semester past barrier jury.
- Register for 1 or 2 credits per major instrument area requirement.

Complete the following:

- MUSC 1/2/3/4XXX Individual Instruction (4 semesters)

AND

Large Ensemble (4 credits)

Upper-division large ensembles are recommended for fulfillment of 40 upper-division credit requirement.

Complete the following:

- MUSC 2/3/4XXX Large Ensemble

AND

Capstone (2 credits minimum)

Capstone project proposal to be submitted to the program director by week 12, two semesters prior to registering for MUSC4935 MUSIC BA CAPSTONE PROJECT.

Complete ALL of the following Courses:

- MUSC4935 - Music BA Capstone Project - 2cr.

AND

Arts Elective (3 credits)

Complete the following:

- One class from ART, ARTH, or THEA department.

AND

Foreign Language Proficiency (16 credits)

Complete the following:
See the BA Foreign Language Requirements on the Undergraduate Academic Credential Requirements page.

Composition Emphasis (12 credits minimum)

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- MUSC3170 - Special Topics in Music Theory - 3cr.
- MUSC3180 - Orchestration - 2cr.
- MUSC3910 - Individual Composition Instruction - 1cr.
- MUSC3915 - Composition Seminar - 1cr.

NOTE:

1. MUSC3910 COMPOSITION INSTR - 2 credit minimum.
2. MUSC3915 COMPOSITION SEMINAR - 2 credit minimum.

AND

Composition Elective Credits (3 credits)

Earn at least 3 credits from the following:

- MUSC2350 - Conducting - 2cr.
- MUSC3900 - Improvisation I - 2cr.
- MUSC3910 - Individual Composition Instruction - 1cr.
- MUSC3915 - Composition Seminar - 1cr.

• Other classes approved by BA faculty mentor.

Open Electives (24 credits)

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Recital and Concert Attendance Requirement

Complete the following:
To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Music: Guitar Performance - BM

Program Overview

College
College of Arts & Sciences

Department
Music

Program Level
Undergraduate

About this Degree

The Guitar Performance degree at Utah State University has a strong legacy and has helped many students become international performers, educators, and writers. USU offers a unique experience for guitar students that transcends style by covering many styles (not just jazz and classical music).

We want our graduates to find THEIR voice but want them to arrive at originality with skills rooted in tradition that reflects dedication to their art. We want them to be original voices that are relevant, authentic and rooted so they will stand the test of time. We will work with students to help them become performers that will outshine the competition because of their work and training.

Program Specifics

Performance majors are required, and given the opportunity, to play in guitar ensembles, jazz combos, and jazz big bands, as well as work with large choirs and smaller groups such as duos and trios. We offer styles classes that prepare guitar performance majors to play authentically in blues, and American folk styles. The Fingerboard Theory class accelerates students' knowledge of music theory, advanced jazz theory, and arranging for the guitar. There are many off-campus opportunities and venues to hone the skills that are worked on in class.

For specific information regarding coursework required to earn a Guitar emphasis, please refer to the BM Guitar Performance degree map.

- For more information about Guitar Performance, see the department website.
- All music majors must pass an Audition to be admitted.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.75 GPA
- **Must** pass entrance audition on primary instrument

Simple Requisites

Program Requirements

Course Grades and GPA Minimums

To maintain Music Major (and Pre-Music Major) status at USU, students must:

1. **Complete all Individual Instruction (primary instrument) courses with a grade of B- or higher**
    - Any grade lower than B- will result in an extra required semester of Individual Instruction.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
2. **Complete all music major core and emphasis classes with a grade of C or higher**
    - Any music course grade lower than C will not count towards graduation.
    - Core courses may be repeated once in an attempt to earn a grade of C or better.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
3. **Maintain a 3. 0 cumulative GPA in all courses that fulfill a degree/ emphasis requirement.**
    - This GPA does not include general education and depth courses.
    - This GPA does not include the STEP courses for Music Education majors.
    - If a student's degree/emphasis GPA falls under this minimum, the student will be placed on departmental academic probation for one semester.
    - Inability to meet this degree/emphasis GPA during the probationary period will result in referral to the department head who in consultation with the appropriate faculty member(s) will determine if the student shall be allowed to remain a music major through an extension of the probationary period.

GRADING SCALE for music courses:

93-100 A

90-92. 99 A-

87-89. 99 B+

83-86. 99 B

80-82. 99 B- Lowest grade for individual instruction to fulfill graduation requirements)

77-79. 99 C+

73-76. 99 C Lowest grade for all other program courses to fulfill graduation requirements)

70-72. 99 C-

67-69. 99 D+

60-66. 99 D

59. 99 or below F

Music - Guitar Performance - BM

Type
Completion Requirement

BM Performance Music Core Curriculum (33 credits)

Earn a minimum grade of C in the following:

- MUSC1110 - Music Theory I (BCA) - 3cr.
- MUSC1120 - Music Theory II - 3cr.
- MUSC1130 - Aural Skills I - 1cr.
- MUSC1140 - Aural Skills II - 1cr.
- MUSC1170 - Keyboard Harmony I - 1cr.

- MUSC1180 - Keyboard Harmony II - 1cr.
- MUSC1190 - World Music - 3cr.
- MUSC2110 - Music Theory III - 3cr.
- MUSC2130 - Aural Skills III - 1cr.
- MUSC2180 - Computer Applications in Music Proficiency Exam - 1cr.
- MUSC3110 - Music History I: Antiquity through the Renaissance - 3cr.
- MUSC3120 - Music History II: The Baroque and Classical Periods - 3cr.
- MUSC3170 - Special Topics in Music Theory - 3cr.
- MUSC3190 - Music History III: Romanticism through the 21st Century (CI) - 3cr.
- MUSC3920 - Junior Recital - 1cr.
- MUSC4920 - Senior Recital - 1cr.

NOTE:

1. MUSC3920 JUNIOR RECITAL - 1 credit; 30-minute recital.
2. MUSC4920 SENIOR RECITAL - 2 credits; 60-minute recital.

Guitar Performance Requirements (46 credits)

All individual instruction courses must be passed with a grade of B- or better. All other music courses must be passed with a grade of C or better. Major requirements may *not* be taken on a pass/fail basis. Minimum GPA for all required courses is a 3.0.

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- MUSC1585 - Individual Pre-music Guitar Instruction - 1cr.
- MUSC2350 - Conducting - 2cr.
- MUSC2550 - Guitar Styles: Blues - 2cr.
- MUSC2560 - Guitar Styles: Bluegrass/Folk - 2cr.
- MUSC2570 - Fingerboard Theory I - 2cr.
- MUSC2580 - Fingerboard Theory II - 2cr.
- MUSC2595 - Individual Pre-Barrier Guitar Instruction - 1cr.
- MUSC3180 - Orchestration - 2cr.
- MUSC3550 - Individual Guitar Instruction for Music Majors - 1cr.
- MUSC3570 - Guitar Pedagogy I - 2cr.
- MUSC3580 - Guitar Pedagogy II - 2cr.
- MUSC3590 - Electric Guitar Ensemble - 1cr.
  OR MUSC4550 - Acoustic Guitar Ensemble - 1cr.

NOTE:

1. MUSC1585 GUITAR INSTR-PREMUSIC - First year fall and first year spring semesters for a total of 4 credits.
2. MUSC2595 GUITAR INSTR-PREBARRIER - Second year fall semester for a total of 2 credits.
3. MUSC3550 GUITAR INSTR - 5 remaining semesters for a total of 10 credits.

AND

Large Ensemble.

8 credits minimum of large ensemble. Any combination of these two courses satisfies requirements.

Earn at least 8 credits from the following:

- MUSC3900 - Improvisation I - 2cr.
- MUSC3905 - Improvisation II - 2cr.

AND

Music Electives (2 credits)

Complete the following:

- Any MUSC-prefix course.

Recital and Concert Attendance Requirement

Complete the following:
To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Open Electives.

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Year	Semester	Actual Credits	Progress Credits
Year 1	Fall	16 - 18	0

Requirement Select

- *Students that are pre-music majors are expected to enroll in MUSC 1105 during their first semester at USU. The course is intended to prepare students for MUSC 1110 - Music Theory I (BCA). Although the course is not required for graduation, it is expected that students will register for the course and either complete it or test out. Even if testing out, students must register for the course. ** MUSC 2180 consists of a series of three proficiency exams that all music majors must complete prior to the completion of four semesters of study. Music - Harp Performance - BM

Program Overview

College
College of Arts & Sciences

Department
Music

Program Level
Undergraduate

About this Degree

The Harp Program at Utah State University offers a rigorous, rewarding, and well-rounded experience that prepares students for graduate study or a professional career in teaching and performing. The focus is on the whole person, cultivating and fostering a healthy, engaged, and creative individual. By putting into action what is learned during one-to-one instruction, students solidify technical goals and explore their own musical personality while developing critical faculties students need for wherever life takes them.

Harp Performance is an emphasis for students who are passionate about discovering all that a musical life offers in an environment that encourages individual exploration.

Opportunities abound in the professional world as a teacher, a member of an orchestra or a military band, studio musician, therapeutic musician, and entrepreneur. In addition to many other professional possibilities, graduates of Utah State University will be prepared to continue their study at the next level in a graduate program. Most importantly, students learn that their future depends on their ability to create opportunities for themselves, to be proactive, seeking their musical life goals, rather than expecting them to materialize upon graduation.

Program Specifics

In addition to the core general education and music courses, harpists take classes exploring the multi-faceted world of their instrument. Focusing on the breadth of the harp repertoire, students learn about various musical styles including: orchestral, choral, chamber, contemporary, ballet, and popular music. Participation in a Harp Pedagogy and Solo Literature class prepares harpists to teach students of all ages and provides the opportunity to survey the solo repertoire.

Harpists collaborate in chamber music each semester with performers from other areas of the music department as well as fellow harpists. The latter may include harp ensemble.

Musical elements such as breathing and phrasing are reinforced in private voice lessons or a voice techniques class, while individual percussion instruction allows for focused concentration on timing and rhythm.

A healthy body and mind are fortified through yoga classes, performance exercises, and an educational atmosphere that inspires internal motivation.

For specific information regarding coursework required to earn a Harp emphasis, please refer to the BM Harp Performance degree map.

- For more information about Harp Performance, see the department website.
- All music majors must pass an audition to be admitted.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- **Must** pass entrance audition on primary instrument
- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.75 GPA

Program Requirements

67

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

To maintain Music Major (and Pre-Music Major) status at USU, students must:

1. **Complete all Individual Instruction (primary instrument) courses with a grade of B- or higher**
    - Any grade lower than B- will result in an extra required semester of Individual Instruction.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
2. **Complete all music major core and emphasis classes with a grade of C or higher**
    - Any music course grade lower than C will not count towards graduation.
    - Core courses may be repeated once in an attempt to earn a grade of C or better.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
3. **Maintain a 3. 0 cumulative GPA in all courses that fulfill a degree/ emphasis requirement.**
    - This GPA does not include general education and depth courses.
    - This GPA does not include the STEP courses for Music Education majors.
    - If a student's degree/emphasis GPA falls under this minimum, the student will be placed on departmental academic probation for one semester.
    - Inability to meet this degree/emphasis GPA during the probationary period will result in referral to the department head who in consultation with the appropriate faculty member(s) will determine if the student shall be allowed to remain a music major through an extension of the probationary period.

GRADING SCALE for music courses:

93-100 A

90-92. 99 A-

87-89. 99 B+

83-86. 99 B

80-82. 99 B- Lowest grade for individual instruction to fulfill graduation requirements)

77-79. 99 C+

73-76. 99 C Lowest grade for all other program courses to fulfill graduation requirements)

70-72. 99 C-

67-69. 99 D+

60-66. 99 D

59. 99 or below F

Music - Harp Performance - BM

Type
Completion Requirement

BM Performance Music Core Curriculum (33 credits)

Earn a minimum grade of C in the following:

- MUSC1110 - Music Theory I (BCA) - 3cr.
- MUSC1120 - Music Theory II - 3cr.
- MUSC1130 - Aural Skills I - 1cr.
- MUSC1140 - Aural Skills II - 1cr.
- MUSC1170 - Keyboard Harmony I - 1cr.
- MUSC1180 - Keyboard Harmony II - 1cr.
- MUSC1190 - World Music - 3cr.
- MUSC2110 - Music Theory III - 3cr.
- MUSC2130 - Aural Skills III - 1cr.
- MUSC2180 - Computer Applications in Music Proficiency Exam - 1cr.
- MUSC3110 - Music History I: Antiquity through the Renaissance - 3cr.
- MUSC3120 - Music History II: The Baroque and Classical Periods - 3cr.
- MUSC3170 - Special Topics in Music Theory - 3cr.
- MUSC3190 - Music History III: Romanticism through the 21st Century (CI) - 3cr.
- MUSC3920 - Junior Recital - 1cr.
- MUSC4920 - Senior Recital - 1cr.

NOTE:

1. MUSC3920 JUNIOR RECITAL - 1 credit; 30-minute recital.
2. MUSC4920 SENIOR RECITAL - 2 credits; 60-minute recital.

Harp Performance Requirements (34 credits)

All individual instruction courses must be passed with a grade of B- or better. All other music courses must be passed with a grade of C or better. Major requirements may *not* be taken on a pass/fail basis. Minimum GPA for all required courses is a 3.0.

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- MUSC1225 - Individual Pre-Music Harp Instruction - 1cr.
- MUSC2225 - Individual Pre-Barrier Harp Instruction - 1cr.
- MUSC3210 - Individual Harp Instruction for Music Majors - 1cr.
- MUSC1600 - Voice Techniques - 1cr.
  OR MUSC2640 - Individual Vocal Instruction (Second Instrument) for Music Majors - 1cr.
- MUSC2350 - Conducting - 2cr.
- MUSC2890 - Individual Percussion Instruction (Second Instrument) for Music Majors - 1cr.
- MUSC3180 - Orchestration - 2cr.
- MUSC4500 - String Ensemble - 1cr.
- MUSC4930 - Readings and Conference - 1cr.
  OR MUSC4730 - Directed Project in Instrumental Pedagogy and Literature (CI) - 3cr.
- PE1057 - Yoga - 1cr.

NOTE:

1. MUSC1225 HARP INSTR-PREMUSIC - First year fall and first year spring semesters for a total of 2 credits.
2. MUSC2225 HARP INSTR-PREBARRIER - Second year fall semester for a total of 1 credit.
3. MUSC3210 HARP INSTR - 5 remaining semesters for a total of 5 credits.
4. MUSC4500 STRING ENSEMBLE - 8 semesters of Chamber Ensembles.
5. MUSC4930 READINGS AND CONFERENCE - 4 credits total.
6. MUSC4730 DIR PROJ INST PED AND LIT (CI) - 3 credits total.

AND

Large Ensembles (8 credits)

Earn at least 8 credits from the following:

- MUSC2600 - Sapphire Singers - 1cr.
- MUSC2745 - Wind Symphony - 1cr.
- MUSC3500 - Symphony Orchestra (DHA) - 1cr.
- MUSC3530 - Cache Symphony Orchestra - 1cr.
- MUSC3790 - Symphonic Band (DHA) - 1cr.
- MUSC4600 - University Chorale (DHA) - 1cr.
- MUSC4650 - Chamber Singers (DHA) - 1cr.
- MUSC4700 - Wind Orchestra (DHA) - 1cr.
- MUSC5640 - American Festival Chorus - 1cr.

Recital and Concert Attendance Requirement

Complete the following as needed:
To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Year	Semester	Actual Credits	Progress Credits
Year 1	Fall	16 - 17	0

Requirement Select

- *Students that are pre-music majors are expected to enroll inMUSC 1105 during their first semester at USU. The course is intended to prepare students for MUSC 1110 - Music Theory I (BCA). Although the course is not required for graduation, it is expected that students will register for the course and either complete it or test out. Even if testing out, students must register for the course. ** MUSC 2180 consists of a series of three proficiency exams that all music majors must complete prior to the completion of four semesters of study. Music - MM

Program Overview

College	Department	Program Level
College of Arts & Sciences	Music	Graduate

About this Degree

The USU Music Department offers accredited Master of Music (MM) degrees with specializations in Piano Performance and Pedagogy, Voice Performance, Guitar Performance, and Choral Conducting. USU Master of Music students acquire comprehensive knowledge in their specialization through intensive one-on-one applied study, challenging seminar classes, and research. Through the curriculum, MM students have multiple opportunities to practice professional skills, expand their intellectual capabilities, and gain leadership experience.

Selected MM students will be offered graduate assistantship positions under faculty supervision. After completing departmental requirements, these students will be eligible to teach courses in the undergraduate curriculum for music majors and minors. All graduate students, including those who do not receive an assistantship position, may have the opportunity to provide instruction to non-majors, for which they would receive payment. These teaching opportunities will be invaluable components of the graduate program, which is specifically designed to prepare students for both performance and teaching careers.

Prospective students of the proposed graduate program will apply for admission to the Utah State University School of Graduate Studies. University policies that establish acceptable standards for these graduate programs are developed and maintained by the Dean of Graduate Studies with the advice of the University and College Graduate Councils. Within the Department of Music, the graduate program is governed by the Music Department Graduate Committee. The Department of Music is the final arbiter of whom meets the standards, both for admission and graduation in music.

Admission Requirements for this Program

Master of Music (MM) Application

All applications are submitted online through gradschool.usu.edu/apply/. Applicants for the Master of Music degree must complete the following:

1. **Official College Transcripts** - To qualify for admission to the MM program, applicants must have a bachelor's degree in any field of study, with a GPA of at least 3.0. Official transcripts must be sent directly from previous institutions to USU.
2. **(NOT REQUIRED) GRE or MAT Scores** - The GRE or MAT is **optional** for applicants to the Master of Music degree programs. However, applicants should be advised that the GRE/MAT is a requirement for some tuition waivers and scholarships available through the School of Graduate Studies. For information about these awards, and whether or not applicants may qualify, please visit gradschool.usu.edu/tuition-financial-aid/.
3. **Letters of Recommendation** – Three satisfactory letters of recommendation must be sent directly by the recommenders through the application server. Applicants are highly encouraged to seek a recommendation from a primary applied teacher and one academic music faculty (theory, history, etc.).
4. **Writing Sample** - Applicants must upload a 500–1000 word (1-2 pages, single-spaced) personal statement on one of the following topics:

- Topic 1: Describe a moment or experience in your musical education that convinced you to pursue higher education in music.
- Topic 2: How do you hope your music career will make an impact on today's musical culture?
- Topic 3: Why does/should music matter to individuals or society today?

An academic research paper on a musical subject may also be accepted at the discretion of the Graduate Music Committee. The writing sample will be evaluated by the Music Department Graduate Committee and all full-time faculty in the applicant's primary area of emphasis. Applicant essays will be evaluated in part on the quality of writing, including organization, concision, and clarity.

5. **International Student Requirements** - In addition to the General Admissions Requirements, International students must meet the language, degree, and funding requirements of the USU School of Graduate Studies, available at gradschool.usu.edu/apply/.
6. **Audition/Interview** - Applicants must complete a successful live or recorded entrance audition/interview. To schedule an audition, submit an "Online Graduate Audition Application" at music.usu.edu/apply/index. If travel distance or schedule conflicts prevent applicants from auditioning live, they may submit a video recording of their audition through the recorded audition form: music.usu.edu/students/recorded-audition-form.

Master of Music: Piano Performance and Pedagogy Audition Requirements

Pre-Screening Videos

Admission to the M.M. degree in Piano Performance and Pedagogy is granted on a rolling basis throughout the year. Applicants seeking priority scholarship consideration should submit a prescreening video, using the Piano Pre-screening Video form at https://cca.usu.edu/music/apply/auditions/piano, by **December 15th,** and audition on or before **February 27th.** Applicants' Pre-screen Video must contain at least 30 minutes of memorized repertoire including the following:

1. A sonata-allegro movement from a classical sonata, preferably by Haydn, Mozart, Beethoven, or Schubert
2. A Romantic work
3. 1 or 2 additional pieces of applicant's choice, from any style or period

- *Include a list of significant repertoire studied with pre screening submission.*

Audition

Auditions will take place in the Russell/Wanless Performance Hall on the audition dates posted on the Music Department website**.** If another time needs to be arranged, or if you would prefer to audition by video, contact Dr. Kevin Olson at kevin.olson@usu.edu.

For the M.M. degree in Piano Performance and Pedagogy, students should prepare the following for the audition:

1. A polyphonic work by J.S. Bach
2. A full classical sonata, preferably by Haydn, Mozart, Beethoven, or Schubert
3. A Romantic, Impressionist, modern, or contemporary work
4. One other freely chosen work of the applicant's choice
5. Applicants will receive a short "Independent Study Piece" 2-3 weeks before the audition and will perform the piece in the audition. Memory is not required, and applicants are welcome to bring their own scores with notes.
6. Applicants who wish to be considered for collaborative piano stipends may be asked to sight-read.

A list of significant repertoire studied should be brought to your audition.

Piano area scholarships are awarded only to applicants who intend to pursue a piano degree. Limited graduate assistantships are available for students entering the M.M. degree program in Piano Performance and Pedagogy. These assistantships cover up to full tuition plus a salary stipend.

If you have any questions, please contact Dr. Cahill Smith.

Master of Music - Performance (Voice Specialization) Audition Requirements

Applicants for the Master of Music - Performance (Voice Specialization) should prepare the following:

1. A combination of 5 art songs and arias (both categories should be represented) demonstrating proficiency in at least three languages, one of which should be English.
2. Two additional pieces are optional: one oratorio/concert work aria and/or one musical theatre selection.

An accompanist will be provided, but candidates may bring their own. Pre-recorded accompaniment tracks (minus tracks) are not allowed. All repertoire should be memorized for the audition, except for the optional oratorio/concert work aria. Auditions will also include a brief interview and may include an assessment of the auditioning student's sight-reading and/or aural skills.

For additional information, or to schedule another date for a live audition, please contact Dr. Thomas Glenn at thomas.glenn@usu.edu.

Master of Music: Performance (Guitar Specialization) Audition Requirements

Applicants for the Master of Music - Performance (Guitar Specialization) should prepare the following for an audition:

1. All major and minor (natural, harmonic, and melodic) scales in two octaves.
2. Other common scales – modes of the major scale, whole-tone, diminished, etc.
3. One solo piece (chord solo arrangement or classical/fingerstyle) that best represents the applicant's technical and artistic strengths.
4. Applicants should bring a typed list of repertoire studied in the last four years.

All applicants will also be tested on music reading and knowledge of chord voicing in the audition. Applicants with a jazz emphasis should also prepare to improvise over a "standard" and a blues progression.

For questions regarding guitar audition repertoire, please contact Corey Christiansen at corey.christiansen@usu.edu.

Master of Music: Choral Conducting Audition Requirements

Applicants for the Master of Music - Conducting (Choral Specialization) must complete the following **by December 15th** for full consideration:

1. Submit a pre-screening video recording, via web links (YouTube, Google Drive, etc.) through the recorded audition fSubmit a pre-screening video recording, via web links (YouTube, Google Drive, etc.) to musicadmissions@usu.edu. This pre-screening recording should include:
    1. Approximately 10 minutes of rehearsal footage demonstrating the applicant's abilities in teaching, assessing, coaching, and developing ensemble skills.
    2. Approximately 10 minutes of performance footage from the ensemble's perspective (conductor's face is visible) demonstrating the applicant's abilities as a creative colleague and performer. There is no restriction as to the profile of the ensemble (elementary, middle school, high school, college, professional, community). The applicant should select the footage that illustrates their best work in partnership with the ensemble. Careful consideration should be given to the quality of the repertoire and suitability of the ensemble's skills and for graduate conducting study.
2. Applicants whose pre-audition screening is approved should confer with the Coordinator of Graduate Choral Conducting Studies, Dr. Craig Jessop (craig.jessop@usu.edu), to schedule the audition/interview and discuss the literature to be conducted for the audition. The audition will include vocalizing and rehearsing the choir, an interview with the choral faculty, and a brief singing exercise to include sight-reading.

For questions regarding the choral conducting application process, please contact Dr. Craig Jessop, Professor of Choral Conducting, at craig.jessop@usu.edu.

Program Requirements

Total Credits Required In Program Coursework
30-36

Total Credits Required To Earn This Credential
30-36

Simple Requisites

Program Requirements

Overall GPA and minimum grades: Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Course Number Acceptability

- The Program of Study for a master's degree or a doctoral degree, if the student has a master's degree, must include at least 18 semester credits at the level of 6000 or above.
- Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000. A maximum of 12 credits of 5000-level coursework may be applied to a graduate program.
- A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Required Master's forms:

- Approval of academic forms required for master's students by the School of Graduate Studies
- Supervisory Committee

MM Piano Performance and Pedagogy Specialization (36 credits)

Type
Completion Requirement

Curriculum

Fulfill ALL of the following requirements:

Fall Semester Year 1

Complete ALL of the following Courses:

- MUSC6010 - Introduction to Music Research - 3cr.
- MUSC6300 - Graduate Piano Literature I - 2cr.
  OR MUSC6410 - Collaborative Artistry - 2cr.
- MUSC6430 - Special Topics in Performance and Pedagogy - 2cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.

NOTE:

1. MUSC6300 GRAD PIANO LIT I is offered every other year in the fall
2. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.

Note: Your faculty mentor may recommend an audit of MUSC4460 KEYBOARD SKILLS III in the fall before you take MUSC6470 KEYBOARD SKILLS IV in the spring.

AND

Spring Semester Year 1

Complete ALL of the following Courses:

- MUSC6130 - Music History Seminar - 3cr.
- MUSC6400 - Graduate Piano Literature II - 2cr.
  OR MUSC6470 - Keyboard Skills IV - 2cr.
- MUSC6430 - Special Topics in Performance and Pedagogy - 2cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.

NOTE:

1. MUSC6400 GRAD PIANO LIT II is offered every other year in the spring.
2. MUSC6470 KEYBOARD SKILLS IV is offered every other year in the spring.
3. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.

AND

Fall Semester Year 2

Complete ALL of the following Courses:

- MUSC6140 - Music Theory Seminar - 3cr.
- MUSC6410 - Collaborative Artistry - 2cr.
  OR MUSC6300 - Graduate Piano Literature I - 2cr.
- MUSC6420 - Pedagogy Practicum - 2cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.

Your faculty mentor may recommend an audit of MUSC4460 KEYBOARD SKILLS III **in the fall before you take** MUSC6470 KEYBOARD SKILLS IV **in the spring.**

NOTE:

1. MUSC6300 GRAD PIANO LIT I is offered every other year in the fall.
2. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.

AND

Spring Semester Year 2

Complete ALL of the following Courses:

- MUSC6420 - Pedagogy Practicum - 2cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.
- MUSC6910 - Individual Recital - 1cr.
- MUSC6400 - Graduate Piano Literature II - 2cr.

  OR MUSC6900 - Independent Study - 1cr.
  OR MUSC6970 - Research and Thesis - 2cr.

NOTE:

1. MUSC6630 INDIV INSTR-GRAD register for 1 credit.
2. MUSC6910 INDIVIDUAL RECITAL register for 1 credit.
3. MUSC6470 KEYBOARD SKILLS IV is offered every other year in the spring.
4. MUSC6400 GRAD PIANO LIT II is offered every other year in the spring.

Master of Music Performance (Voice Specialization) (32 credits)

Type
Completion Requirement

Curriculum

The MM in Performance with a specialization in Voice includes individual instruction, ensemble performance, and vocal pedagogy techniques which focus on the student's career and educational objectives. Students in the program must complete a minimum of 32 approved semester credits, divided into two main areas: (1) 20 credits in performance and (2) 12 credits in other studies in music.

Fulfill ALL of the following requirements:

Fall Semester Year 1

Complete ALL of the following Courses:

- MUSC6010 - Introduction to Music Research - 3cr.
- MUSC5600 - Opera Theatre Production - 1cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.
- MUSC6640 - Graduate Vocal Pedagogy Seminar - 3cr.
- MUSC6650 - Graduate Advanced Coaching and Repertoire Study - 1cr.

NOTE:

1. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.

AND

Spring Semester Year 1

Complete ALL of the following Courses:

- MUSC6130 - Music History Seminar - 3cr.
- MUSC5600 - Opera Theatre Production - 1cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.
- MUSC6650 - Graduate Advanced Coaching and Repertoire Study - 1cr.
- MUSC6910 - Individual Recital - 1cr.

NOTE:

1. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.
2. MUSC6910 INDIVIDUAL RECITAL - register for 2 credits.

AND

Fall Semester Year 2

Complete ALL of the following Courses:

- MUSC5600 - Opera Theatre Production - 1cr.
- MUSC6140 - Music Theory Seminar - 3cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.
- MUSC6650 - Graduate Advanced Coaching and Repertoire Study - 1cr.

NOTE:

1. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.

AND

Spring Semester Year 2

Complete ALL of the following Courses:

- MUSC5600 - Opera Theatre Production - 1cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.
- MUSC6650 - Graduate Advanced Coaching and Repertoire Study - 1cr.
- MUSC6910 - Individual Recital - 1cr.

NOTE:

1. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.
2. MUSC6650 GRAD ADV COACHING & REPERTOIRE - register for 1-3 credits.
3. MUSC6910 INDIVIDUAL RECITAL - register for 2 credits.

MM Performance (Guitar Specialization) (30 credits)

Type
Completion Requirement

Curriculum

The MM in Performance with specialization in Guitar includes individual instruction, ensemble performance and advisor-approved independent study which focuses on the student's career and educational objectives. Students in the program must complete a minimum of 30 approved semester credits, divided into two main areas: (1) 16 credits in performance and (2) 14 credits in other studies in music.

Fulfill ALL of the following requirements:

Fall Semester Year 1

Complete ALL of the following Courses:

- MUSC6010 - Introduction to Music Research - 3cr.
- MUSC6100 - Graduate Performance Ensemble - 1cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.
- MUSC6900 - Independent Study - 1cr.

NOTE:

1. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.
2. MUSC6900 INDEPENDENT STUDY - register for 2 credits.

AND

Spring Semester Year 1

Complete ALL of the following Courses:

- MUSC6100 - Graduate Performance Ensemble - 1cr.
- MUSC6130 - Music History Seminar - 3cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.
- MUSC6910 - Individual Recital - 1cr.

NOTE:

1. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.

AND

Fall Semester Year 2

Complete ALL of the following Courses:

- MUSC6100 - Graduate Performance Ensemble - 1cr.
- MUSC6140 - Music Theory Seminar - 3cr.
- MUSC6620 - Seminar in Musical Literature - 2cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.

NOTE:

1. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.

AND

Spring Semester Year 2

Complete ALL of the following Courses:

- MUSC6100 - Graduate Performance Ensemble - 1cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.
- MUSC6900 - Independent Study - 1cr.
- MUSC6910 - Individual Recital - 1cr.

NOTE:

1. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.
2. MUSC6900 INDEPENDENT STUDY - register for 2 credits.

MM Conducting (Choral Specialization) (32 credits)

Type
Completion Requirement

Curriculum

The primary purpose of this degree is to develop and educate graduate students with a high level of choral conducting and administrative skills so that they are prepared and qualified to direct a choral program at an advanced level and contribute as professionals to the growth and development of the choral field. This program includes the importance of intensive score preparation and study, emphasizing conducting abilities that demonstrate expressive and clear gestures with poise and confidence, and rehearsal preparation which is faithful to the score and connects with the musicians, resulting in inspiring performances. It introduces the students to a diverse choral repertoire of both secular and sacred music from the different stylistic periods of choral music.

This master's program is intended for the student who has had previous conducting experience and who wishes to pursue advanced studies to be a more fully-equipped teacher in a public or private education or to advance to doctoral study. The degree stresses the advancement of musical understanding and skill, as well as those personal traits and abilities required of the conductor who aspires to musical excellence.

The MM in Conducting with a specialization in Choral Conducting is a two-year, 32 credit hour program. Courses consist of private conducting lessons, bibliography, music history, and literature, advanced music theory, conducting seminars with ensembles, department ensemble participation, final recital, and final oral and/or written examinations.

Fulfill ALL of the following requirements:

Fall Semester Year 1

Complete ALL of the following Courses:

- MUSC6010 - Introduction to Music Research - 3cr.
- MUSC6100 - Graduate Performance Ensemble - 1cr.
- MUSC6610 - Practicum in Music Performance - 1cr.
- MUSC6620 - Seminar in Musical Literature - 2cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.

NOTE:

1. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.

AND

Spring Semester Year 1

Complete ALL of the following Courses:

- MUSC6100 - Graduate Performance Ensemble - 1cr.
- MUSC6110 - Advanced Conducting - 2cr.
- MUSC6130 - Music History Seminar - 3cr.
- MUSC6620 - Seminar in Musical Literature - 2cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.

NOTE:

1. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.

AND

Fall Semester Year 2

Complete ALL of the following Courses:

- MUSC6100 - Graduate Performance Ensemble - 1cr.
- MUSC6110 - Advanced Conducting - 2cr.
- MUSC6120 - Advanced Rehearsal Techniques - 2cr.
- MUSC6140 - Music Theory Seminar - 3cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.

NOTE:

1. MUSC6630 INDIV INSTR-GRAD - register for 2 credits.

AND

Spring Semester Year 2

Complete ALL of the following Courses:

- MUSC6100 - Graduate Performance Ensemble - 1cr.
- MUSC6610 - Practicum in Music Performance - 1cr.
- MUSC6630 - Individual Instruction for Graduates - 1cr.
- MUSC6900 - Independent Study - 1cr.

Music: Piano Performance and Pedagogy - BM

Program Overview

College
College of Arts & Sciences

Department
Music

Program Level
Undergraduate

About this Degree

The piano performance & pedagogy degree is designed for students that want to pursue careers in solo and collaborative performance, operate high-level teaching studios, and apply for and excel in the best graduate piano programs. Students receive multiple opportunities for collaborative and solo performing opportunities during their studies, and are able to study with a renowned group of piano faculty. USU became an All-Steinway school in 2012, offering students the ability to perform on the highest-quality pianos in the practice rooms and performing halls.

Program Specifics

The degree combines music core instruction with piano pedagogy and performance courses, preparing prospective piano teachers for careers in the teaching field. A unique aspect of this degree is the opportunity to receive hands-on teaching training in the USU Youth Conservatory, a preparatory lab program that provides private and group instruction to over 200 pre-college pianists each week. For more information, refer to the Piano Performance and Pedagogy BM degree map.

- For more information about Piano Performance, see the department website.
- All music majors must pass an audition to be admitted.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Music requires a 2.75 GPA overall for admission as a transfer student.
- Students must pass an entrance audition on primary instru

Program Requirements

Course Grades and GPA Minimums

To maintain Music Major (and Pre-Music Major) status at USU, students must:

1. **Complete all Individual Instruction (primary instrument) courses with a grade of B- or higher**
    - Any grade lower than B- will result in an extra required semester of Individual Instruction.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
2. **Complete all music major core and emphasis classes with a grade of C or higher**
    - Any music course grade lower than C will not count towards graduation.
    - Core courses may be repeated once in an attempt to earn a grade of C or better.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
3. **Maintain a 3.0 cumulative GPA in all courses that fulfill a degree/ emphasis requirement.**
    - This GPA does not include general education and depth courses.
    - This GPA does not include the STEP courses for Music Education majors.
    - If a student's degree/emphasis GPA falls under this minimum, the student will be placed on departmental academic probation for one semester.
    - Inability to meet this degree/emphasis GPA during the probationary period will result in referral to the department head who in consultation with the appropriate faculty member(s) will determine if the student shall be allowed to remain a music major through an extension of the probationary period.

GRADING SCALE for music courses:

93-100 A

90-92.99 A-

87-89.99 B+

83-86.99 B

80-82.99 B- Lowest grade for individual instruction to fulfill graduation requirements)

77-79.99 C+

73-76.99 C Lowest grade for all other program courses to fulfill graduation requirements)

70-72.99 C-

67-69.99 D+

60-66.99 D

59.99 or below F

All individual instruction courses must be passed with a grade of B- or better. All other music courses must be passed with a grade of C or better. Major requirements may *not* be taken on a pass/fail basis. Students register for 1 credit of individual Piano Instruction during the semester they prepare for a recital.

Music: Piano Performance and Pedagogy - BM

Type
Completion Requirement

BM Piano Major Music Core Curriculum (33 credits)

A minimum grade of C is required for all BM Piano Major Music Core Curriculum courses.

Complete ALL of the following Courses:

- MUSC1110 - Music Theory I (BCA) - 3cr.

- MUSC1120 - Music Theory II - 3cr.
- MUSC1130 - Aural Skills I - 1cr.
- MUSC1140 - Aural Skills II - 1cr.
- MUSC1190 - World Music - 3cr.
- MUSC1270 - Keyboard Skills I - 1cr.
- MUSC1280 - Keyboard Skills II - 1cr.
- MUSC2110 - Music Theory III - 3cr.
- MUSC2130 - Aural Skills III - 1cr.
- MUSC2180 - Computer Applications in Music Proficiency Exam - 1cr.
- MUSC2920 - Sophomore Recital - 1cr.
- MUSC3110 - Music History I: Antiquity through the Renaissance - 3cr.
- MUSC3120 - Music History II: The Baroque and Classical Periods - 3cr.
- MUSC3170 - Special Topics in Music Theory - 3cr.
- MUSC3190 - Music History III: Romanticism through the 21st Century (CI) - 3cr.
- MUSC4920 - Senior Recital - 1cr.

Piano Performance and Pedagogy Requirements (46 credits)

All individual instruction courses must be passed with a grade of B- or better. All other music courses must be passed with a grade of C or better. Major requirements may *not* be taken on a pass/fail basis. Minimum GPA for all required courses is a 3.0.

Complete ALL of the following Courses:

- MUSC1430 - Piano Pedagogy I - 3cr.
- MUSC1440 - Piano Pedagogy II - 3cr.
- MUSC1450 - Pedagogy Practicum - 1cr.
- MUSC1485 - Individual Pre-Music Piano Instruction - 1cr.
- MUSC2270 - Keyboard Improvisation - 1cr.
- MUSC2420 - Piano Literature I - 3cr.
- MUSC2430 - Piano Literature II - 3cr.
- MUSC2440 - Piano Literature III - 3cr.
- MUSC2495 - Individual Pre-Barrier Piano Instruction - 1cr.
- MUSC3410 - Collaborative Piano in Ensemble - 1cr.
- MUSC4460 - Keyboard Skills III - 2cr.
- MUSC3450 - Individual Piano Instruction for Music Majors - 1cr.
- MUSC4410 - Special Topics in Performance and Pedagogy - 1cr.
- MUSC5470 - Keyboard Skills IV - 2cr.

NOTE:

1. MUSC1450 PEDAGOGY PRACTICUM - 2 credits minimum.
2. MUSC1485 PIANO INSTR-PREMUSIC - 4 credits total; Register for 2 credits first year fall and first year spring semesters.
3. MUSC2495 PIANO INSTR-PREBARRIER - Register for 2 credits second year fall semester.
4. MUSC3410 COLLABORATIVE PIANO ENSEMBLE - 4 credits required.
5. MUSC3450 PIANO INSTR-MAJOR - 8 credits total); Register for 2 credits EXCEPT 2nd year Spring and 4th year Spring when preparing for Sophomore and Senior recitals.
6. MUSC4410 ST: PERFORMANCE AND PEDAGOGY - 6 credits minimum.

Music Electives (2 credits)

Earn at least 2 credits from the following:

- MUSC2410 - Individual Organ Instruction (Second Instrument) for Music Majors - 1cr.
- MUSC2470 - Individual Jazz Piano Instruction (Second Instrument) for Music Majors - 1cr.

• Second instrument, ensemble, or another course with permission of the piano faculty.

Recital and Concert Attendance Requirement

Complete the following:
To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Music: String Performance - BM

Program Overview

College
College of Arts & Sciences

Department
Music

Program Level
Undergraduate

About this Degree

The String Program at USU is lead by the members of the Fry Street Quartet and bassist Braun Khan.

The Fry Street Quartet occupies the Manon Caine Russell and Dan C. Russell Endowed String Quartet Residency at Utah State University. This residency affords string majors the rare opportunity to study with a world-renowned string quartet as their primary professors.

Dr. Khan has performed to equal acclaim in both the jazz and classical worlds, and runs a dynamic bass studio at USU.

The size of the String Program at Utah State allows for each student to receive a great deal of individual attention throughout his or her study. With chamber music as a natural focus of a program led by a string quartet, a close-knit atmosphere is at the heart of the student experience, and the shared artistic and educational values of the Fry String Quartet are central to this experience.

Competition winners and finalists, summer study at home and abroad, and continuing studies in prestigious graduate programs across the country are common among the ambitious students of the String Program at the Caine College of the Arts.

- For more information about String Performance, see the department website.
- All music majors must pass and audition to be admitted.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- New freshmen:
    - Admitted to USU in Good Standing
    - Must pass entrance audition on primary instrument
- Transfer students from other institutions or other programs at USU:
    - Admitted to USU in Good Standing
    - Must pass entrance audition on primary instrument

Program Requirements

Course Grades and GPA Minimums

To maintain Music Major (and Pre-Music Major) status at USU, students must:

1. **Complete all Individual Instruction (primary instrument) courses with a grade of B- or higher**
    - Any grade lower than B- will result in an extra required semester of Individual Instruction.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
2. **Complete all music major core and emphasis classes with a grade of C or higher**
    - Any music course grade lower than C will not count towards graduation.
    - Core courses may be repeated once in an attempt to earn a grade of C or better.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
3. **Maintain a 3.0 cumulative GPA in all courses that fulfill a degree/ emphasis requirement.**
    - This GPA does not include general education and depth courses.
    - This GPA does not include the STEP courses for Music Education majors.
    - If a student's degree/emphasis GPA falls under this minimum, the student will be placed on departmental academic probation for one semester.
    - Inability to meet this degree/emphasis GPA during the probationary period will result in referral to the department head who in consultation with the appropriate faculty member(s) will determine if the student shall be allowed to remain a music major through an extension of the probationary period.

GRADING SCALE for music courses:

93-100 A

90-92.99 A-

87-89.99 B+

83-86.99 B

80-82.99 B- Lowest grade for individual instruction to fulfill graduation requirements)

77-79.99 C+

73-76.99 C Lowest grade for all other program courses to fulfill graduation requirements)

70-72.99 C-

67-69.99 D+

60-66.99 D

59.99 or below F

Music - String Performance - BM

Type
Completion Requirement

BM Performance Music Core Curriculum (33 credits)

A grade of C or better is required in all Music Performance courses.

Complete ALL of the following Courses:

- MUSC1110 - Music Theory I (BCA) - 3cr.
- MUSC1120 - Music Theory II - 3cr.
- MUSC1130 - Aural Skills I - 1cr.
- MUSC1140 - Aural Skills II - 1cr.
- MUSC1170 - Keyboard Harmony I - 1cr.
- MUSC1180 - Keyboard Harmony II - 1cr.
- MUSC1190 - World Music - 3cr.
- MUSC2110 - Music Theory III - 3cr.
- MUSC2130 - Aural Skills III - 1cr.
- MUSC2180 - Computer Applications in Music Proficiency Exam - 1cr.
- MUSC3110 - Music History I: Antiquity through the Renaissance - 3cr.
- MUSC3120 - Music History II: The Baroque and Classical Periods - 3cr.
- MUSC3170 - Special Topics in Music Theory - 3cr.
- MUSC3190 - Music History III: Romanticism through the 21st Century (CI) - 3cr.
- MUSC3920 - Junior Recital - 1cr.
- MUSC4920 - Senior Recital - 1cr.

NOTE:

1. MUSC3920 JUNIOR RECITAL - 1 credit; 30-minute recital.
2. MUSC4920 SENIOR RECITAL - 2 credits; 60-minute recital.

String Performance Emphasis Required Courses (41 credits)

All individual instruction courses must be passed with a grade of B- or better. All other music courses must be passed with a grade of C or better. Major requirements may *not* be taken on a pass/fail basis. Minimum GPA for all required courses is a 3.0.

Fulfill ALL of the following requirements:

Individual Instruction (16 credits minimum)

Fulfill ALL of the following requirements:

1000- Level Courses (4 credits)

Register for 2 credits of pre-music individual instruction on your major instrument first and second semesters of study.

Earn at least 4 credits from the following:

- MUSC1515 - Individual Pre-major Cello Instruction - 1cr.
- MUSC1525 - Individual Pre-music Viola Instruction - 1cr.
- MUSC1535 - Individual Pre-Music Violin Instruction - 1cr.
- MUSC1545 - Individual Pre-Music String Bass Instruction - 1cr.

AND

2000-Level Courses (2 credits)

Register for 2 credits of individual pre-barrier instruction on major instrument the third semester of study.

Earn at least 2 credits from the following:

- MUSC2505 - Individual Pre-Barrier String Bass Instruction - 1cr.
- MUSC2525 - Individual Pre-Barrier Cello Instruction - 1cr.
- MUSC2535 - Individual Pre-barrier Viola Instruction - 1cr.
- MUSC2545 - Individual Pre-Barrier Violin Instruction - 1cr.

AND

4000-Level Courses (10 credits)

Register for 2 credits of individual instruction on major instrument for all remaining semesters of study.

Earn at least 10 credits from the following:

- MUSC4510 - Individual Violin Instruction for Music Majors - 1cr.
- MUSC4520 - Individual Viola Instruction for Music Majors - 1cr.
- MUSC4530 - Individual Cello Instruction for Music Majors - 1cr.
- MUSC4540 - Individual String Bass Instruction for Music Majors - 1cr.

AND

Ensembles (16 credits)

Earn at least 16 credits from the following:

- MUSC2350 - Conducting - 2cr.
- MUSC3180 - Orchestration - 2cr.
- MUSC3500 - Symphony Orchestra (DHA) - 1cr.
- MUSC3515 - Orchestral Auditions Seminar - 2cr.
- MUSC3520 - String Pedagogy and Solo Literature - 2cr.
- MUSC4500 - String Ensemble - 1cr.
- PE1057 - Yoga - 1cr.

NOTE:

MUSC3500 SYMPHONY ORCHESTRA (DHA) and MUSC4500 STRING ENSEMBLE - 8 credits minimum each.

Recital and Concert Attendance Requirement

To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Complete the following:

Music Electives (10 credits)

Complete the following;
Music electives are subject to music faculty approval.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Year	Semester	Actual Credits	Progress Credits
Year 1	Fall	16 - 18	0

Requirement Select

- Students that are pre-music majors are expected to enroll in MUSC 1105 during their first semester at USU. The course is intended to prepare students for MUSC 1110 - Music Theory I (BCA). Although the course is not required for graduation, it is expected that students will register for the course and either complete it or test out. Even if testing out, students must register for the course. MUSC 2180 consists of a series of three proficiency exams that all music majors must complete prior to the completion of four semesters of study. The MUSC 4500 requirement may also be satisfied by MUSC 3760, MUSC 3770, and MUSC 4710 for string bass majors only. 8 credits minimum are required for both MUSC 3500 and MUSC 4500. (Generic)

Music: Vocal Performance - BM

Program Overview

College	Department	Program Level
College of Arts & Sciences	Music	Undergraduate

About this Degree

The Vocal Performance degree at Utah State University provides a robust and comprehensive educational foundation for students wishing to learn artful and healthy techniques of singing in both classical and musical theatre styles. This degree track prepares students for continued graduate study or immediate entrance into the professional world as a voice teacher or performer.

In addition to private voice instruction from exceptional pedagogues, Voice Performance majors at Utah State receive innovative classroom instruction in vocal pedagogy, the languages of classical singing, repertoire, and close mentorship from an experienced and professional faculty as they work towards their goals in personal musical excellence. Annual productions of operas, musicals, and scenes programs provide all students with ample performance opportunities where the invaluable skills of acting and stagecraft are taught by knowledgeable faculty members and guest directors.

Program Specifics

Voice Performance majors take a combination of core music classes to perfect general musicianship and emphasis courses that teach the specific skills singers need to master the art and technique of singing. The students' training is also supplemented by frequent visiting master artists and guest performers/directors.

The most advanced students have the option of being part of the scholarship-receiving Manon Caine Russell Opera Outreach Quartet, providing these promising students additional performance and leadership opportunities.

Although students come from varying backgrounds with different levels of experience, those that have the most success as Voice Performance majors at Utah State are those that are motivated, dedicated, and involved. They exhibit a passion for communicating through song and typically have had some choral or solo vocal training before coming to college. Strong sight-singing and piano skills are also beneficial for all voice performance majors.

For specific information regarding coursework required to earn a Voice emphasis, please refer to the BM Vocal Performance degree map.

- For more information about Vocal Performance, see the department website.
- All music majors must pass an audition to be admitted.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Music requires a 2.75 GPA overall for admission as a transfer student
- Students must pass an entrance audition on primary instrument.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
77	120

Simple Requisites

Program Requirements

To maintain Music Major (and Pre-Music Major) status at USU, students must:

1. **Complete all Individual Instruction (primary instrument) courses with a grade of B- or higher**
    - Any grade lower than B- will result in an extra required semester of Individual Instruction.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
2. **Complete all music major core and emphasis classes with a grade of C or higher**
    - Any music course grade lower than C will not count towards graduation.
    - Core courses may be repeated once in an attempt to earn a grade of C or better.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
3. **Maintain a 3.0 cumulative GPA in all courses that fulfill a degree/ emphasis requirement.**
    - This GPA does not include general education and depth courses.
    - This GPA does not include the STEP courses for Music Education majors.
    - If a student's degree/emphasis GPA falls under this minimum, the student will be placed on departmental academic probation for one semester.
    - Inability to meet this degree/emphasis GPA during the probationary period will result in referral to the department head who in consultation with the appropriate faculty member(s) will determine if the student shall be allowed to remain a music major through an extension of the probationary period.

GRADING SCALE for music courses:

93-100 A

90-92.99 A-

87-89.99 B+

83-86.99 B

80-82.99 B- Lowest grade for individual instruction to fulfill graduation requirements)

77-79.99 C+

73-76.99 C Lowest grade for all other program courses to fulfill graduation requirements)

70-72.99 C-

67-69.99 D+

60-66.99 D

59.99 or below F

Music - Vocal Performance - BM

Type
Completion Requirement

BM Performance Music Core Curriculum (33 credits)

A grade of C or better is required in all Music Performance courses.

Complete ALL of the following Courses:

- MUSC1110 - Music Theory I (BCA) - 3cr.
- MUSC1120 - Music Theory II - 3cr.
- MUSC1130 - Aural Skills I - 1cr.
- MUSC1140 - Aural Skills II - 1cr.
- MUSC1170 - Keyboard Harmony I - 1cr.
- MUSC1180 - Keyboard Harmony II - 1cr.
- MUSC1190 - World Music - 3cr.
- MUSC2110 - Music Theory III - 3cr.
- MUSC2130 - Aural Skills III - 1cr.
- MUSC2180 - Computer Applications in Music Proficiency Exam - 1cr.
- MUSC3110 - Music History I: Antiquity through the Renaissance - 3cr.
- MUSC3120 - Music History II: The Baroque and Classical Periods - 3cr.
- MUSC3170 - Special Topics in Music Theory - 3cr.
- MUSC3190 - Music History III: Romanticism through the 21st Century (CI) - 3cr.
- MUSC3920 - Junior Recital - 1cr.
- MUSC4920 - Senior Recital - 1cr.

NOTE:

1. MUSC3920 JUNIOR RECITAL - 1 credit; 30-minute recital.
2. MUSC4920 SENIOR RECITAL - 2 credits; 60-minute recital.

Vocal Performance Emphasis Courses (44 credits)

All individual instruction courses must be passed with a grade of B- or better. All other music courses must be passed with a grade of C or better. Major requirements may *not* be taken on a pass/fail basis. Minimum GPA for all required courses is a 3.0.

Fulfill ALL of the following requirements:

Individual Instruction (8 credits)

Complete ALL of the following Courses:

- MUSC1635 - Individual Pre-Music Voice Instruction - 1cr.
- MUSC2645 - Individual Pre-Barrier Voice Instruction - 1cr.
- MUSC3670 - Individual Vocal Instruction for Music Majors - 1cr.

NOTE:

1. MUSC1635 VOICE INSTR-PREMUSIC - First year fall and first year spring semesters for a total of 2 credits.
2. MUSC2645 VOICE INSTR-PREBARRIER - Second year fall semester for a total of 1 credit.
3. MUSC3670 VOCAL INSTR - 5 remaining semesters for a total of 5 credits.

AND

Large Ensembles (8 credits)

Students must earn 8 credits from any combination of these courses.

Complete ANY of the following Courses:

- MUSC2600 - Sapphire Singers - 1cr.

- MUSC4600 - University Chorale (DHA) - 1cr.
- MUSC4650 - Chamber Singers (DHA) - 1cr.
- MUSC5640 - American Festival Chorus - 1cr.

AND

Required Courses

Complete ALL of the following Courses:

- MUSC2350 - Conducting - 2cr.
- MUSC2490 - Individual Piano Instruction (Second Instrument) for Music Majors - 1cr.
- MUSC2660 - Italian Diction for Singers - 2cr.
- MUSC2670 - German Diction for Singers - 2cr.
- MUSC2680 - French Diction for Singers - 2cr.
- MUSC3610 - Vocal Repertory I - 2cr.
- MUSC3620 - Vocal Repertory II (CI) - 2cr.
- MUSC3630 - Vocal Pedagogy I - 3cr.
- MUSC3640 - Vocal Pedagogy II - 3cr.
- MUSC5600 - Opera Theatre Production - 1cr.

NOTE:

1. MUSC2490 PIANO INSTR-2ND - Credits as determined by Music Faculty Advisor to pass Level 5 Piano Proficiency.
2. MUSC3610 VOCAL REPERTORY I - Even year fall.
3. MUSC3620 VOCAL REPERTORY II (CI) - Odd year spring.
4. MUSC3630 VOCAL PEDAGOGY I - Odd year fall.
5. MUSC3640 VOCAL PEDAGOGY II - Even year spring.
6. MUSC5600 OPERA THEATRE PROD - 8 credits minimum.

Language Course Requirement (8 credits)

Vocal Performance majors may either take one First Year I and one First Year II courses in the same language, or two First Year I courses in two different languages. Language options are limited to French, German or Italian.

Fulfill ANY of the following requirements:

French

Complete ALL of the following Courses:

- FREN1010 - French First Year I - 4cr.
- FREN1020 - French First Year II - 4cr.

OR

German

Complete ALL of the following Courses:

- GERM1010 - German First Year I - 4cr.
- GERM1020 - German First Year II - 4cr.

OR

Italian

Complete ALL of the following Courses:

- ITAL1010 - Italian First Year I - 4cr.
- ITAL1020 - Italian First Year II - 4cr.

Recital and Concert Attendance Requirement

Complete the following:
To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Year	Semester	Actual Credits	Progress Credits
Year 1	Fall	14 - 17	0

Requirement Select

- *Students that are pre-music majors are expected to enroll in MUSC 1105 during their first semester at USU. The course is intended to prepare students for MUSC 1110 - Music Theory I (BCA). Although the course is not required for graduation, it is expected that students will register for the course and either complete it or test out. Even if testing out, students must register for the course. **MUSC 2180 consists of a series of three proficiency exams that all music majors must complete prior to the completion of four semesters of study. 1-4 credits as determined by Music Faculty Advisor to pass Level 5 Piano Proficiency in MUSC 2490. MUSC 5600 - Register for 1 credit; May register for more with permission of instructor. Students will take a total of 8 semesters to graduate in MUSC 1635. 8 credits minimum in MUSC 26/46XX: Vocal Major Ensemble. (Generic)

Music: Woodwind/Brass/Percussion Performance - BM

Program Overview

College
College of Arts & Sciences

Department
Music

Program Level
Undergraduate

About this Degree

Woodwind, brass and percussion students who choose to major in instrumental performance at USU enter a rigorous program that prepares them to be excellent performers and studio teachers.

Music majors will have the opportunity to perform the finest literature for their instrument in ensembles such as the Wind Orchestra and Symphony Orchestra, the Jazz Orchestra, and the Caine Ensembles–a chamber music experience with scholarship support that is open to the finest performers in the department based on audition.

Majoring in Wind and Percussion Performance at Utah State University gives you the tools you need to succeed in the professional world and beyond.

Program Specifics

Each semester, students take private instruction on their major instrument and perform in large and small ensembles. Many students also participate in athletic bands which often comes with additional scholarship support, and most students complete their degrees in 4 years.

For specific information regarding coursework required to earn a Woodwind, Brass, and Percussion emphasis, please refer to the BM Woodwind/Brass/ Percussion Performance degree map.

- For more information about Wind/Brass/Percussion Performance, see the department website.
- All music majors must pass an audition to be admitted.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Music requires a 2.75 GPA overall for admission as a transfer student, for scholarship eligibility, and to graduate.
- Students must complete an entrance exam on primary instrument.

Simple Requisites

Program Requirements

To maintain Music Major (and Pre-Music Major) status at USU, students must:

1. **Complete all Individual Instruction (primary instrument) courses with a grade of B- or higher**
    - Any grade lower than B- will result in an extra required semester of Individual Instruction.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
2. **Complete all music major core and emphasis classes with a grade of C or higher**
    - Any music course grade lower than C will not count towards graduation.
    - Core courses may be repeated once in an attempt to earn a grade of C or better.
    - Any subsequent semester in which a student fails to meet this minimum grade may result in dismissal from the music program.
3. **Maintain a 3.0 cumulative GPA in all courses that fulfill a degree/ emphasis requirement.**
    - This GPA does not include general education and depth courses.
    - This GPA does not include the STEP courses for Music Education majors.
    - If a student's degree/emphasis GPA falls under this minimum, the student will be placed on departmental academic probation for one semester.
    - Inability to meet this degree/emphasis GPA during the probationary period will result in referral to the department head who in consultation with the appropriate faculty member(s) will determine if the student shall be allowed to remain a music major through an extension of the probationary period.

GRADING SCALE for music courses:

93-100 A

90-92.99 A-

87-89.99 B+

83-86.99 B

80-82.99 B- Lowest grade for individual instruction to fulfill graduation requirements)

77-79.99 C+

73-76.99 C Lowest grade for all other program courses to fulfill graduation requirements)

70-72.99 C-

67-69.99 D+

60-66.99 D

59.99 or below F

Music - Woodwinds/Brass/Percussion Performance - BM

Type
Completion Requirement

BM Performance Music Core Curriculum (33 credits)

A grade of C or better is required in all Music Performance courses.

Complete ALL of the following Courses:

- MUSC1110 - Music Theory I (BCA) - 3cr.
- MUSC1120 - Music Theory II - 3cr.
- MUSC1130 - Aural Skills I - 1cr.

- MUSC1140 - Aural Skills II - 1cr.
- MUSC1170 - Keyboard Harmony I - 1cr.
- MUSC1180 - Keyboard Harmony II - 1cr.
- MUSC1190 - World Music - 3cr.
- MUSC2110 - Music Theory III - 3cr.
- MUSC2130 - Aural Skills III - 1cr.
- MUSC2180 - Computer Applications in Music Proficiency Exam - 1cr.
- MUSC3110 - Music History I: Antiquity through the Renaissance - 3cr.
- MUSC3120 - Music History II: The Baroque and Classical Periods - 3cr.
- MUSC3170 - Special Topics in Music Theory - 3cr.
- MUSC3190 - Music History III: Romanticism through the 21st Century (CI) - 3cr.
- MUSC3920 - Junior Recital - 1cr.
- MUSC4920 - Senior Recital - 1cr.

NOTE:

1. MUSC3920 JUNIOR RECITAL - 1 credit; 30-minute recital.
2. MUSC4920 SENIOR RECITAL - 2 credits; 60-minute recital.

Wind/Brass/Percussion Performance Emphasis Courses (35 credits)

All individual instruction courses on major instrument must be passed with a grade of B- or better. All other music concentration courses must be passed with a grade of C or better. Major requirements may *not* be taken on a pass/fail basis. Music requires a 3.0 GPA in music classes.

Fulfill ALL of the following requirements:

Required Courses

MUSC 1/2/3XXX Individual Instruction for Music Majors on major instrument

(Students need 8 semesters of study for 16-21 credits to graduate, of which at least 3 semesters must be upper division-3000 level.)

Complete ANY of the following Courses:

- MUSC1705 - Individual Pre-music Flute Instruction - 1cr.
- MUSC1715 - Individual Pre-Music Oboe Instruction - 1cr.
- MUSC1725 - Individual Pre-Music Clarinet Instruction - 1cr.
- MUSC1735 - Individual Pre-Music Bassoon Instruction - 1cr.
- MUSC1745 - Individual Pre-Music Saxophone Instruction - 1cr.
- MUSC1815 - Individual Pre-Music Trumpet Instruction - 1cr.
- MUSC1825 - Individual Pre-Music Trombone Instruction - 1cr.
- MUSC1845 - Individual Pre-Music Tuba/Euphonium Instruction - 1cr.
- MUSC1855 - Individual Pre-Music Percussion Instruction - 1cr.
- MUSC2755 - Individual Pre-barrier Flute Instruction - 1cr.
- MUSC2765 - Individual Pre-Barrier Oboe Instruction - 1cr.
- MUSC2775 - Individual Pre-Barrier Clarinet instruction - 1cr.
- MUSC2785 - Individual Pre-Barrier Bassoon Instruction - 1cr.
- MUSC2795 - Individual Pre-Barrier Saxophone Instruction - 1cr.
- MUSC2855 - Individual Pre-Barrier Trumpet Instruction - 1cr.
- MUSC2865 - Individual Pre-Barrier Trombone Instruction - 1cr.
- MUSC2875 - Individual Pre-barrier French Horn Instruction - 1cr.
- MUSC2885 - Individual Pre-Barrier Tuba/Euph Instruction - 1cr.
- MUSC2895 - Individual Pre-Barrier Percussion Instruction - 1cr.
- MUSC3710 - Individual Flute Instruction for Music Majors - 1cr.
- MUSC3720 - Individual Oboe Instruction for Music Majors - 1cr.
- MUSC3730 - Individual Clarinet Instruction for Music Majors - 1cr.
- MUSC3740 - Individual Bassoon Instruction for Music Majors - 1cr.
- MUSC3750 - Individual Saxophone Instruction for Music Majors - 1cr.
- MUSC3810 - Individual Trumpet Instruction for Music Majors - 1cr.
- MUSC3820 - Individual Trombone Instruction for Music Majors - 1cr.
- MUSC3830 - Individual French Horn Instruction for Music Majors - 1cr.
- MUSC3840 - Individual Tuba/Euphonium Instruction for Music Majors - 1cr.
- MUSC3860 - Individual Percussion Instruction for Music Majors - 1cr.

AND

Large Ensemble

8 credits minimum of large ensemble-any combination of these 3 courses satisfies requirements:

Earn at least 8 credits from the following:

- MUSC3500 - Symphony Orchestra (DHA) - 1cr.
- MUSC3790 - Symphonic Band (DHA) - 1cr.
- MUSC4700 - Wind Orchestra (DHA) - 1cr.

AND

Small Ensemble

MUSC 2/3/4XXX Small Ensemble.

Earn at least 4 credits from the following:

- MUSC2210 - Advanced Conducting Ensemble - 1cr.
- MUSC3700 - Woodwind Ensemble - 1cr.
- MUSC3760 - Jazz Ensemble - 1cr.
- MUSC3770 - Jazz Orchestra - 1cr.
- MUSC3780 - Flute Ensemble - 1cr.
- MUSC3800 - Low Brass Choir - 1cr.
- MUSC3850 - Brass Ensemble - 1cr.
- MUSC3870 - Percussion Ensemble - 1cr.
- MUSC4710 - Jazz Combo - 1cr.
- MUSC4720 - Saxophone Quartet - 1cr.

AND

Additional Required Courses:

Fulfill ALL of the following requirements:

Additional Required Courses

Complete ALL of the following Courses:

- MUSC2350 - Conducting - 2cr.
- MUSC4730 - Directed Project in Instrumental Pedagogy and Literature (CI) - 3cr.

NOTE:

1. MUSC4730 DIR PROJ INST PED AND LIT (CI) - Will only be offered when there are students on that instrument who need it to graduate; students should take it as early in their degree plan as possible.

AND

Additional Required Course Options

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- MUSC3900 - Improvisation I - 2cr.

OR

Option 2

Complete ALL of the following Courses:

- MUSC3910 - Individual Composition Instruction - 1cr.
- MUSC3915 - Composition Seminar - 1cr.

Music Electives (9 credits)

Minimum of 9 credits to be approved by music faculty advisor

Earn at least 9 credits from the following:

- MUSC3020 - History of Jazz (DHA) - 3cr.
- MUSC3180 - Orchestration - 2cr.
- MUSC3785 - Marching Band (DHA) - 1cr.
- MUSC3905 - Improvisation II - 2cr.
- MUSC4240 - Advanced Conducting - 2cr.
- MUSC5915 - Careers in Music - 3cr.

• All other large and small ensembles (1 credit each)
• Any/all recording technology courses (2-3 credits each)
• Secondary applied lessons or individual composition instruction (1 credit)
• Independent study (1-6 credits; must be with a music faculty member)

Recital and Concert Attendance Requirement

Complete the following:

To graduate, students are required to attend a minimum of 80 concerts or recitals. Recital and concert attendance is monitored and recorded in the Music Student Services office. Students should turn in programs after attending concerts and recitals for documentation of attendance.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Year	Semester	Actual Credits	Progress Credits
Year 1	Fall	15	0

Requirement Select

- Students that are pre-music majors are expected to enroll in MUSC 1105 during their first semester at USU. The course is intended to prepare students for MUSC 1110 - Music Theory I (BCA). Although the course is not required for graduation, it is expected that students will register for the course and either complete it or test out. Even if testing out, students must register for the course. (Generic)

Museum Studies - Institutional Certificate of Proficiency

Program Overview

College	Department	Program Level
College of Arts & Sciences	School of Social Sciences	Undergraduate

About this Degree

Program Director: Dr. Jacob Freeman, Department of Sociology, Anthropology and Criminal Justice

Museum Director/Program Administrator: Dr. Molly Cannon, Department of Sociology, Anthropology and Criminal Justice

Advisor: Tom Liljegren, CHaSS Advising - Schedule an appointment at https://artsci.usu.edu/advising/.

Department Head: Dr. Judson Finley, Department of Sociology, Anthropology and Criminal Justice

Location: Old Main, 252

Phone: (435) 797-7545

E-mail: molly.cannon@usu.edu

The Museum of Anthropology is a teaching unit under the program's umbrella that offers a certificate in Museum Studies. The certificate program is unique among offerings at Utah's public and private institutions, in that a certificate can be earned as a complement to a bachelor's, master's, or PhD degree in any field. The 24-credit certification program, which features supporting coursework from nearly two dozen departments and programs across the USU campus, educates students in museum administration, collections management and care, and interpretation and exhibition skills. Interested students should consult the USU Museum of Anthropology Director or Museum Studies Advisor for more information on the certificate and a list of course and internship requirements.

Utah State University's Museum Studies Certificate is designed to provide both undergraduate and graduate students with a strong theoretical and experiential foundation (1) for graduate work with the field of Museum Studies; (2) paid jobs in museum settings upon graduation; and/or (3) voluntary service at Utah's 250+ museums.

The certificate program is unique among offerings at Utah's public and private institutions, in that a certificate can be earned as a complement to a bachelor's, master's, or PhD degree in any field.

Admission Requirements for this Program

Interested students are urged to meet with the Museum Curator or certificate advisor as early as possible to ensure efficient course planning.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
24	24

Simple Requisites

Program Requirements

Students must maintain a 3.0 GPA for all courses taken to fulfill certificate requirements. A maximum of 12 credits can come from any one course prefix. Students must have a 3.0 GPA for all coursework to graduate with the Museum Studies Certificate. All courses require a minimum grade of B or better.

Museum Studies Course Requirements (24 credits)

Type
Completion Requirement

1. Museum Studies Required Core Courses (6 credits)

Fulfill ALL of the following requirements:

Required (3 credits)

Complete ALL of the following Courses:

- ANTH3310 - Introduction to Museum Studies (CI) - 3cr.

AND

Required (3 credits):

And any combination of the following (3 credit hours):

Earn at least 3 credits from the following:

- ANTH5900 - Independent Studies - 1cr.
- ARTH4810 - Museum Internship - 1cr.
- HIST4940 - Historical Internship - 1cr.
- HIST4945 - Archives Management/Archives Internship - 1cr.
- USU4250 - Advanced Internship - 1cr.

2. Museum Administration Courses (6 credits)

Complete at least 2 of the following courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- BUS3200 - Professional Communication with AI (CI) - 3cr.
- CCA3060 - Quantitative Methods for the Arts (QI) - 3cr.
- DATA2100 - Data and Information in Business - 3cr.
- ECON1500 - Introduction to Economic Instititutions, History, and Principles - 3cr.
- ENGL3040 - Perspectives in Writing and Rhetoric (DHA) - 3cr.
- HIST3000 - History Research Methods - 3cr.
- HIST4020 - Public History - 3cr.
- HIST4990 - Undergraduate Research Capstone (CI) - 3cr.
- MGT3250 - Managing Human Capital - 3cr.
- MGT3710 - Team Management - 2cr.
- MGT3810 - Employment Law (DSS) - 3cr.
- MSLE3110 - Managing Organizations and People (DSS) - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- OSS1550 - Business Correspondence - 3cr.
- TCR2100 - Introduction to Technical Communication - 3cr.
- TCR3100 - Workplace Research - 3cr.

3. Object Care and Exhibition (6 credits)

Complete at least 2 of the following courses:

- ANTH3250 - Osteology - 3cr.
- ANTH5320 - Zooarchaeology - 3cr.
- ANTH5420 - Lithic Analysis - 1cr.
- ANTH5800 - Museum Development - 1cr.
- ART1050 - Introduction to Photography - 3cr.
- ART1120 - Two-Dimensional Design - 3cr.
- ART1130 - Three-Dimensional Design - 3cr.
- ART2400 - Introduction to Graphic Design - 3cr.
- ART2810 - Photography I - 3cr.
- ART3400 - Typography - 3cr.
- ARTH5430 - Curatorial Seminar - Rare Books and Manuscripts - 3cr.
- CHEM1010 - Introduction to Chemistry (BPS) - 3cr.
- CHEM1110 - General Chemistry I (BPS) - 4cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- ENGL4700 - Folk Material Culture (DHA) - 3cr.
- FCSE3030 - Textile Science (DSC/QI) - 4cr.
- HIST3390 - Objects of War - 3cr.
- HIST4940 - Historical Internship - 1cr.
- HIST4945 - Archives Management/Archives Internship - 1cr.
- ITLS3110 - Design Perspectives and Processes I - 3cr.
- ITLS3120 - Design Perspectives and Processes II - 3cr.
- ITLS4208 - Integrated Multimedia Production - 3cr.
- ITLS5215 - Video and Audio Design and Production I - 3cr.
- ITLS5220 - Video and Audio Design and Production II - 3cr.
- ITLS5230 - Graphic Design and Production I - 3cr.
- ITLS5240 - Graphic Design and Production II - 3cr.
- JCOM2030 - Multimedia Bootcamp - 4cr.
- TCR4210 - Visual Communication Design - 3cr.

4. Interpretation and Educational Outreach (6 credits)

Any 1 Art History (ARTH) Course (3 credits) will count toward the Interpretation and Educational Outreach requirement.

Complete at least 2 of the following courses:

- CCA3070 - Unveiling the Anthropocene (DSC/QI) - 3cr.
- CCA3330 - Arts Symposium (DHA) - 2cr.
- CMST1020 - Public Speaking (BHU) - 3cr.
- CMST2110 - Interpersonal Communication (BHU) - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.
- ELED1010 - Orientation to Elementary Education - 3cr.
- ENGL3040 - Perspectives in Writing and Rhetoric (DHA) - 3cr.
- ENGL3440 - Creative Nonfiction Writing - 3cr.
- ENVS5600 - Natural Resource Interpretation - 3cr.
- JCOM1130 - Media Writing - 3cr.
- JCOM1500 - Introduction to Mass Communication (BSS) - 3cr.
- JCOM3310 - Writing for Public Relations (CI) - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- THEA1033 - Beginning Acting (BCA) - 3cr.
- THEA4320 - Storytelling in Education (DHA) - 3cr.

Music Studies - Minor

Program Overview

College
College of Arts & Sciences

Department
Music

Program Level
Undergraduate

About this Degree
The Music Studies Minor gives students with or without formal training in music the opportunity to understand it from new perspectives. Classes address music listening, music notation, world music, and music history. Students who wish to take voice or instrument lessons and play or sing in ensembles should also consider the Basic Music Minor.

Music Therapy - BS

Program Overview

College
College of Arts & Sciences

Department
Music

Program Level
Undergraduate

About this Degree
Utah State offers the only music therapy program in the state of Utah, and the program is one of only five in the western United States.

USU employs top music therapy educators who attract students from around the world. Over the last 20 years our graduates have maintained a nearly perfect pass rate on the national board exam and 100% job placement, as music therapists are in high demand across the nation. Graduates also have excellent internship placement at nationally competitive sites throughout the country. A degree in music therapy prepares students for an established healthcare profession that uses music to address the physical, emotional, cognitive, and social needs of individuals of all ages.

Music therapists can improve the quality of life for people who are healthy as well as children and adults with illnesses or disabilities. They help others manage stress, alleviate pain, express feelings, enhance memory, improve communication, and improve health through music therapy practices.

- For more information about Music Therapy, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL) or STAT1080 FOUNDATIONS OF DATA SCI (QL).

Admission Requirements for this Program

- New freshmen:
    - Admitted to USU in Good Standing
    - Acceptance into the Music Therapy major based on competitive selection through audition/interview process.
    - 3.00 GPA
- Transfer students from other institutions or other programs at USU:
    - Admitted to USU in Good Standing
    - Acceptance into the Music Therapy major based on competitive selection through audition/interview process.
    - 3.00 GPA

Program Requirements

Total Credits Required In Program Coursework

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All individual instruction courses must be passed with a grade of B- or better. All Music Therapy Core Curriculum Courses (MUSC prefix) must be passed with a grade of B or better. All other music courses (MUSC prefix) must be passed with a grade of C or better. Music requires a 3.0 GPA in music courses and 3.0 GPA overall for admission as a transfer student and for scholarship eligibility.

Some major coursework will fulfill the General Education Requirements and University Studies Requirements.

• STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL) or STAT1080 FOUNDATIONS OF DATA SCI (QL) is required for the Music Therapy major for Quantitative Literacy (QL).
• MUSC3190 MUSIC HISTORY III (CI) and MUSC4320 RESEARCH IN MUSIC THERAPY (CI) will fulfill the Communications Intensive (CI) requirement.
• PSY3010 PSYCHOLOGICAL STAT (QI) is suggested for fulfilling the Quantitative Intensive (QI) requirement.
• Music Therapy majors must complete 9 credits of Behavioral Health electives. Three (3) credits must come from a Depth Social Sciences (DSS) designated course in order to fulfill the DSS University Studies Requirement. Behavioral Health Elective course options with the DSS designation are: PSY3120 ABUSE AND NEGLECT (DSS), PSY3510 SOCIAL PSYCHOLOGY (DSS), PSY4210 PERSONALITY THEORY (DSS), PSY4230 PSYCHOLOGY OF GENDER (DSS) and SOC3010 SOCIAL INEQUALITY (DSS).

Music Therapy - BS

Type
Completion Requirement

BS Music Therapy Music Core Curriculum (33 credits)

Earn a minimum grade of C in the following:

- MUSC1105 - Fundamentals for Music Majors (BCA) - 3cr.
- MUSC1110 - Music Theory I (BCA) - 3cr.
- MUSC1120 - Music Theory II - 3cr.
- MUSC1130 - Aural Skills I - 1cr.
- MUSC1140 - Aural Skills II - 1cr.
- MUSC1170 - Keyboard Harmony I - 1cr.
- MUSC1180 - Keyboard Harmony II - 1cr.
- MUSC1190 - World Music - 3cr.
- MUSC2110 - Music Theory III - 3cr.
- MUSC2130 - Aural Skills III - 1cr.
- MUSC2180 - Computer Applications in Music Proficiency Exam - 1cr.
- MUSC3110 - Music History I: Antiquity through the Renaissance - 3cr.
- MUSC3120 - Music History II: The Baroque and Classical Periods - 3cr.
- MUSC3170 - Special Topics in Music Theory - 3cr.
- MUSC3190 - Music History III: Romanticism through the 21st Century (CI) - 3cr.

BS Music Therapy Core Curriculum Requirements (31 credits)

The following 14 courses constitute the “core” of the music therapy program. Only matriculated majors are allowed to enroll in these courses, with the exception of MUSC1310 INTRO MUSIC THERAPY and MUSC3320 PSYCHOLOGY OF MUSIC. Students from any area of study are welcome to enroll in MUSC3110 MUSIC HISTORY I and/or MUSC3320 PSYCHOLOGY OF MUSIC. Music Therapy majors must earn a grade of B or better in each of these required music therapy core courses.

Earn a minimum grade of B in the following:

- MUSC1310 - Introduction to Music Therapy - 2cr.
- MUSC1320 - Improvisation Facilitation in Music Therapy - 2cr.
- MUSC2310 - Music Therapy Treatment I - 2cr.
- MUSC2320 - Music Therapy Treatment II - 2cr.
- MUSC3310 - Music Therapy With Diverse Clinical Populations - 3cr.
- MUSC3320 - Psychology of Music - 2cr.
- MUSC3331 - Music Therapy Practicum: Field Experience 1 - 1cr.
- MUSC3332 - Music Therapy Practicum: Field Experience 2 - 2cr.
- MUSC3333 - Music Therapy Practicum: Field Experience 3 - 3cr.
- MUSC3334 - Music Therapy Practicum: Field Experience 4 - 3cr.
- MUSC4310 - Music Therapy with Adult Populations - 3cr.
- MUSC4320 - Research in Music Therapy (CI) - 2cr.
- MUSC4330 - Clinical and Professional Issues in Music Therapy - 3cr.
- MUSC4340 - Internship in Music Therapy - 2cr.

BS Music Therapy - Ensemble and Individual Instruction Requirements (6 credits)

Music Therapy majors have the opportunity to participate in USU’s performing large ensembles (i.e., choir, band, and orchestra). Two semesters (2 credits) of participation are required.

Music Therapy majors are required to successfully pass four juried semesters of individual instruction on their major performing instrument. Individual instruction courses must be passed with a grade of B- or higher. [NOTE: Music Therapy Core Curriculum Courses must be passed with a B grade or better; all other music courses must be passed with a grade of C or better. Music requires a 3.0 GPA in music courses and 3.0 GPA overall for admission as a transfer student and for scholarship eligibility.

- MUSC 2/3/4XXX Large Ensemble (2 credits minimum)
- **Individual Instruction**

  Music Therapy majors must take 4 semesters of juried instruction on their major instrument.

  Register for 1 credit of pre-music individual instruction on your major instrument for the first and second semesters of study.

Fulfill ALL of the following requirements:

Pre-music 1000-level (2 credits)

Earn at least 2 credits from the following:

- MUSC1225 - Individual Pre-Music Harp Instruction - 1cr.
- MUSC1484 - Individual Pre-Music Piano Instruction for Music Therapy Majors - 1cr.
- MUSC1515 - Individual Pre-major Cello Instruction - 1cr.
- MUSC1525 - Individual Pre-music Viola Instruction - 1cr.
- MUSC1535 - Individual Pre-Music Violin Instruction - 1cr.
- MUSC1545 - Individual Pre-Music String Bass Instruction - 1cr.
- MUSC1585 - Individual Pre-music Guitar Instruction - 1cr.
- MUSC1635 - Individual Pre-Music Voice Instruction - 1cr.
- MUSC1705 - Individual Pre-music Flute Instruction - 1cr.
- MUSC1715 - Individual Pre-Music Oboe Instruction - 1cr.
- MUSC1725 - Individual Pre-Music Clarinet Instruction - 1cr.
- MUSC1735 - Individual Pre-Music Bassoon Instruction - 1cr.
- MUSC1745 - Individual Pre-Music Saxophone Instruction - 1cr.
- MUSC1815 - Individual Pre-Music Trumpet Instruction - 1cr.
- MUSC1825 - Individual Pre-Music Trombone Instruction -

1cr.
- MUSC1835 - Individual Pre-music French Horn Instruction - 1cr.
- MUSC1845 - Individual Pre-Music Tuba/Euphonium Instruction - 1cr.
- MUSC1855 - Individual Pre-Music Percussion Instruction - 1cr.

AND

Individual Pre-Barrier Instruction 2000-level (1 credit)

Register for 1 credit of individual pre-barrier instruction on major instrument the third semester of study.

Earn at least 1 credits from the following:
- MUSC2225 - Individual Pre-Barrier Harp Instruction - 1cr.
- MUSC2494 - Individual Pre-Barrier Piano Instruction for Music Therapy Majors - 1cr.
- MUSC2505 - Individual Pre-Barrier String Bass Instruction - 1cr.
- MUSC2525 - Individual Pre-Barrier Cello Instruction - 1cr.
- MUSC2535 - Individual Pre-barrier Viola Instruction - 1cr.
- MUSC2545 - Individual Pre-Barrier Violin Instruction - 1cr.
- MUSC2595 - Individual Pre-Barrier Guitar Instruction - 1cr.
- MUSC2645 - Individual Pre-Barrier Voice Instruction - 1cr.
- MUSC2755 - Individual Pre-barrier Flute Instruction - 1cr.
- MUSC2765 - Individual Pre-Barrier Oboe Instruction - 1cr.
- MUSC2775 - Individual Pre-Barrier Clarinet instruction - 1cr.
- MUSC2785 - Individual Pre-Barrier Bassoon Instruction - 1cr.
- MUSC2795 - Individual Pre-Barrier Saxophone Instruction - 1cr.
- MUSC2855 - Individual Pre-Barrier Trumpet Instruction - 1cr.
- MUSC2865 - Individual Pre-Barrier Trombone Instruction - 1cr.
- MUSC2875 - Individual Pre-barrier French Horn Instruction - 1cr.
- MUSC2885 - Individual Pre-Barrier Tuba/Euph Instruction - 1cr.
- MUSC2895 - Individual Pre-Barrier Percussion Instruction - 1cr.

AND

Individual Instruction on Major Instrument 3/4000-level (1 credit)

Register for 1 credit of individual instruction on major instrument for fourth semester of study

Earn at least 1 credits from the following:
- MUSC3210 - Individual Harp Instruction for Music Majors - 1cr.
- MUSC3445 - Individual Piano Instruction for Music Therapy Majors - 1cr.
- MUSC3480 - Individual Organ Instruction for Music Majors - 1cr.
- MUSC3550 - Individual Guitar Instruction for Music Majors - 1cr.
- MUSC3670 - Individual Vocal Instruction for Music Majors - 1cr.
- MUSC3710 - Individual Flute Instruction for Music Majors - 1cr.
- MUSC3720 - Individual Oboe Instruction for Music Majors - 1cr.
- MUSC3730 - Individual Clarinet Instruction for Music Majors - 1cr.
- MUSC3740 - Individual Bassoon Instruction for Music Majors - 1cr.
- MUSC3750 - Individual Saxophone Instruction for Music Majors - 1cr.
- MUSC3810 - Individual Trumpet Instruction for Music Majors - 1cr.
- MUSC3820 - Individual Trombone Instruction for Music Majors - 1cr.
- MUSC3830 - Individual French Horn Instruction for Music Majors - 1cr.
- MUSC3840 - Individual Tuba/Euphonium Instruction for Music Majors - 1cr.
- MUSC3860 - Individual Percussion Instruction for Music Majors - 1cr.
- MUSC4510 - Individual Violin Instruction for Music Majors - 1cr.
- MUSC4520 - Individual Viola Instruction for Music Majors - 1cr.
- MUSC4530 - Individual Cello Instruction for Music Majors - 1cr.
- MUSC4540 - Individual String Bass Instruction for Music Majors - 1cr.

NOTE:

Additional Individual Instruction in Piano, Voice, and Guitar (up to 4 credits). *Music Therapy majors will be individually advised whether additional instruction in Piano, Voice, and/or Guitar are required to achieve proficiency. Please work with your advisor for course options.*

BS Music Therapy - Additional Required Courses (17 credits)

In addition to the Music Therapy Core Curriculum, the Music Core Curriculum, and the General Education Requirements/University Studies Requirements curriculum, the following courses are required for degree fulfillment.

Complete ALL of the following Courses:
- BIOL2320 - Human Anatomy - 4cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- MUSC1185 - Group Piano for Music Therapy Majors - 1cr.
- MUSC1800 - Percussion Techniques - 1cr.
- MUSC2350 - Conducting - 2cr.
- PSY1010 - General Psychology (BSS) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.

Music Therapy Behavioral Elective Courses (9 credits)

Music Therapy students must earn a minimum of 9 credits of Behavioral Health/Natural Sciences electives from the list of courses below, or courses approved by the Music Therapy Program Director. Students must ensure that one of the Behavioral Health/Natural Sciences Electives has a DSS designation in order to fulfill the DSS requirement. These courses may also be leveraged to satisfy many of the requirements for the Psychology minor. Please see the Psychology - Minor minor requirements in this catalog for details.

Earn at least 9 credits from the following:
- ASL1010 - American Sign Language I - 4cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.

- HDFS3100 - Abuse and Neglect in Family Context - 3cr.
- HDFS3700 - Mental Health Advocacy and Awareness - 3cr.
- PSY1100 - Lifespan Development - 3cr.
- PSY1400 - Analysis of Behavior: Basic Principles - 3cr.
- PSY2300 - Psychological Disorders - 3cr.
- PSY3120 - Abuse, Neglect, and the Psychological Dimensions of Intimate Violence (DSS) - 3cr.
- PSY3460 - Neuroscience I - 3cr.
- PSY3510 - Social Psychology (DSS) - 3cr.
- PSY3700 - Mental Health Advocacy and Awareness - 3cr.
- PSY4210 - Personality Theory (DSS) - 3cr.
- PSY4230 - Psychology of Gender (DSS) - 3cr.
- SHS3200 - Child Language Development - 3cr.
- SOC1010 - Introductory Sociology (BSS) - 3cr.
- SOC2370 - Sociology of Gender (BSS) - 3cr.
- SOC3010 - Social Inequality (DSS) - 3cr.

Recital Attendance

Complete the following:
To graduate, students are required to attend a minimum of 80 (avg.10/ semester) concerts or recitals. Students will have access to an online Canvas course where they may report and monitor their attendance at concerts and recitals.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

Given the varied and changing requirements across jurisdictions, Utah State University departments make reasonable efforts to determine the states where their programs currently do and do not meet educational requirements for licensure. The current information for each program that is expected to lead to licensure and each state is available at https://www.usu.edu/online/state-authorization/. Students are encouraged to become familiar with relevant state licensing laws and discuss their curricular plan with their program advisor. The Music Therapy BS Program at USU fully prepares students to qualify for the national certification examination to earn the credential of "Music Therapist-Board Certified (MT-BC)." As a board-certified music therapist, graduates would then be eligible to apply for licensure in any state where this may be required.

Year 1	Fall	17	0

Requirement Select

- In order to ensure that music students are sufficiently prepared for the music theory sequence required in all music degrees (education, performance, and therapy), MUSC 1105 was established as a prerequisite for MUSC 1110. As this course is considered remedial work, the 3 credits earned in MUSC 1105 are not required for degree completion, but will apply to the 120-credit minimum for all bachelor's degrees. All incoming music students will have an opportunity to test out of MUSC 1105. Because this test is administered in part through Canvas, all incoming pre-program music majors should register for MUSC 1105 regardless of whether they expect to remain in the class. Those who do not pass the test must pass MUSC 1105 with a grade of C or better before taking MUSC 1110. Those students who pass the test will resume the music theory sequence with MUSC 1110 the following spring semester. MUSC 2180 - Computer Applications in Music Proficiency Exam consists of a series of three proficiency exams that all music majors must complete prior to the completion of four semesters of study. Native American Studies - Minor

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

The Native American Studies minor builds competency for students seeking cross-cultural experience in careers involving social justice, environmental policy, traditional knowledge, and cultural preservation among contemporary Native American communities. The minor is open to all majors.

Program Requirements

Total Credits Required In Program Coursework
15

Total Credits Required To Earn This Credential
15

Simple Requisites

Program Requirements

A grade of C or better is required for all courses taken to meet the requirements for the minor. A minimum GPA of 2.5 is required for courses taken to complete the minor. This minor requires 15 credit hours (3 credits Required Core, 3 credits Breadth, 9 credits Depth).

Section 1

Type
Completion Requirement

Required Courses (3 credits)

Complete ALL of the following Courses:

- NAS1010 - Introduction to Native American Studies (BHU) - 3cr.

Section 2

Type
Completion Requirement

Native American Studies Breadth (3 credits)

Complete at least 1 of the following courses:

- ANTH3110 - North American Indian Cultures (DSS) - 3cr.
- ANTH5110 - Southwest Indian Cultures, Past and Present (DSS) - 3cr.
- ARTH3270 - Native North American Art (CI) - 3cr.
- ARTH3320 - Pre-Columbian Art (CI) - 3cr.
- ENGL2340 - Navajo Literature and Philosophy - 3cr.
- ENGL3620 - Native American Studies - 3cr.
- HIST4710 - American Indian History - 3cr.

Section 3

Type
Completion Requirement

Native American Studies Depth (9 credits)

Complete at least 3 of the following courses:

- ANTH3300 - Archaeology in North America (DSS) - 3cr.
- ANTH5340 - Archaeology of the Desert West - 3cr.
- ENGL3610 - Multicultural American Literature - 3cr.
- ENGL4370 - Native American Literature - 3cr.
- ENGL4610 - Western American Literature (CI/DHA) - 3cr.
- HIST2730 - Writing about Indigenous Histories and Cultures (CL2) - 3cr.
- HIST3765 - Native Americans in Film (DHA) - 3cr.
- HIST3920 - History of Native American Business and Entrepreneurship (CI) - 3cr.
- HIST4650 - Women and Gender in the US West - 3cr.
- HIST4710 - American Indian History - 3cr.
- HIST4940 - Historical Internship - 1cr.
- PSY4240 - Multicultural Psychology (DSS) - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SOC2630 - Sociology of Race and Ethnicity (BSS) - 3cr.
- SOC3020 - Inclusive Leadership & Community Engagement (CI) - 3cr.
- SOC3340 - Activism, Protest, and Social Movements (DSS) - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.
- SOC3910 - Theories of Gender and Sexuality - 3cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
- SW2400 - Social Work with Diverse Populations - 3cr.
- SW3350 - Child Welfare - 3cr.

Nutrition and Food Sciences - MS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Nutrition, Dietetics & Food Sciences	Graduate

About this Degree

Candidates for graduate study in the Department of Nutrition, Dietetics, and Food Sciences need a background in chemistry, biochemistry, physics, mathematics, statistics, microbiology, and physiology. Prior coursework in food science or nutrition is desirable. Students may be accepted into the NDFS graduate program with deficiencies in these areas; however, their supervisory committee will require that competence equivalent to a BS degree in Nutrition, Dietetics, and Food Sciences be obtained as part of their program of study.

Graduate Program Coordinator: Tara Black, tara.black@usu.edu

Admission Requirements for this Program

Students must meet some departmental requirements, in addition to requirements of the School of Graduate Studies, as shown at: http://www.usu.edu/graduateschool/apply/

Departmental requirements include the following:

1. A student may enroll into a MS program with a BS degree pending meeting the other requirements of the department and graduate school.
2. Before acceptance into the Department of Nutrition, Dietetics, and Food Sciences, potential MS graduate students must be accepted by a faculty member who is willing to add them to his or her research team.
3. The department does not require students to take the Graduate Record Examination (GRE) but faculty may require it before accepting students. Scores should be at the 40th percentile minimum on the Verbal and Quantitative tests.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
30	30

Simple Requisites

Program Requirements

School of Graduate Studies General Graduation Guidelines:

Degree Verification

A bachelor's degree from an accredit US college or university or similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA

At least 3.0 and no grades of C- or lower. Graduate students are required to maintain at least a 3.0 GPA for degree program courses. Grade of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability

Program of Study for a MS may include 12 credits of 5000 level courses, all other courses must be 6000 level or higher.

Matriculation Start Semester

A master's degree must be completed within 6 years of entering the degree program.

Coursework Validity

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Minimum Course Requirements for MS Students in Nutrition and Food Sciences

Total Credits Required

For the MS degree, 30 total credits are required.

Required Orientation Courses

CEUS 7901 and/or 7902

Nutrition and Food Sciences - MS Requirements

Type

Completion Requirement

Required Courses (13-20 credits)

Complete ALL of the following Courses:

- CHEM5700 - General Biochemistry I - 3cr.
  OR NDFS6410 - Nutrient Gene Interactions - 3cr.
- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.
  OR STAT5120 - Statistical Methods for Rates and Proportions - 2cr.
  OR STAT5200 - Analysis of Designed Experiments - 3cr.
  OR PSY7610 - Regression Analysis - 3cr.
- NDFS6970 - Thesis Research - 1cr.
- NDFS7800 - Seminar - 1cr.

6 minimum, 12 maximum credits required in NDFS6970 THESIS RESEARCH

2 credits required in NDFS7800 SEMINAR; the first of the 2 credits should be taken in semester 1 (1 credit) and the second in semester 2 (1 credit)

Optional Courses (Approved by Student's Graduate Committee)

Complete ANY of the following Courses:

- NDFS6010 - Hunger Issues and Solutions - 3cr.
- NDFS6020 - Meat Science and Technology - 4cr.
- NDFS6030 - Dairy Technology and Processing - 3cr.
- NDFS6040 - Dairy Foods Processing Laboratory - 1cr.
- NDFS6100 - Sensory Evaluation of Food - 3cr.
- NDFS6110 - Food Microbiology - 3cr.

Nutrition and Food Sciences - PhD

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Nutrition, Dietetics & Food Sciences	Graduate

About this Degree

Candidates for graduate study in the Department of Nutrition, Dietetics, and Food Sciences need a background in chemistry, biochemistry, physics, mathematics, statistics, microbiology, and physiology. Prior coursework in food science or nutrition is desirable. Students may be accepted into the NDFS graduate program with deficiencies in these areas; however, their supervisory committee will require that competence equivalent to a BS degree in Nutrition, Dietetics, and Food Sciences be obtained as part of their program of study.

Graduate Program Coordinator: Tara Black, tara.black@usu.edu

Admission Requirements for this Program

Departmental requirements include the following:

1. A student may enroll into a PhD70 program with a BS degree or into a PhD48 program with an MS or equivalent degree pending meeting the other requirements of the department and graduate school.
2. Before acceptance into the Department of Nutrition, Dietetics, and Food Sciences, potential PhD graduate students must be accepted by a faculty member who is willing to add them to his or her research team.
3. The department does not require students to take the Graduate Record Examination (GRE) but faculty may require it before accepting students. Scores should be at the 40th percentile minimum on the Verbal and Quantitative tests.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
48-70	48-70

Simple Requisites

Program Requirements

School of Graduate Studies General Graduation Guidelines:

Degree Verification

A bachelor's degree from an accredit US college or university or similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA

At least 3.0 and no grades of C- or lower. Graduate students are required to maintain at least a 3.0 GPA for degree program courses. Grade of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability

Program of Study for a PhD degree may include 12 credits of 5000 level courses, all other courses must be 6000 level or higher.

Matriculation Start Semester

A doctorate must be completed within 8 years of entering the degree program.

Coursework Validity

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Minimum Course Requirements for MS/PhD Students in Nutrition and Food Sciences

Total Credits Required

For the PhD degree, 70 total credits are required from bachelor's degree (PhD70) and 48 total credits from master's degree (PhD48).

Required Orientation Courses:

https://www.usu.edu/equity/trainings/student-prevention

Master of Natural Resources - MNR

Program Overview

College
College of Agriculture & Natural Resources

Department
College of Agriculture & Natural Resources

Program Level
Graduate

About this Degree

Program Contacts:

MNR Director: Sunshine Brosi, sunshine.brosi@usu.edu

Program Coordinator: Leslie Gonzalez, leslie.gonzalez@usu.edu

Program Description:

The online Master of Natural Resources degree is designed to give natural resource professionals the skills to analyze complex natural resource issues and better communicate the results of their analysis. It will give them an interdisciplinary curriculum to broaden their knowledge and help them see the "big picture" view of managing both land and people. Students completing this degree acquire the skills to work as decision makers and advance their careers in natural resources management positions. The degree is designed to develop competencies in five core areas, several electives, and a capstone experience.

The MNR degree program consists of a minimum of 30 total semester credits. The core requirements from the program comprise of completing 3 credits from 4 of the 5 blocks (Human Dimensions, Ecological Foundations, Spatial Information Management, Natural Resources Policy, and Quantitative Methods) for a total of 12 credits. Students must take 3-6 credits of NR 6600 Capstone Requirements. Students may fill the remaining 12-15 elective credits with additional online coursework, certificates, and/or short courses. The MNR is tailored to the specific needs of each student. Each student works with the program coordinator and director to identify a program of study that best meets the students needs.

What makes this degree different from the traditional MS or MA is it does not require a research project or thesis, but rather emphasizes high quality course work and an integrative capstone experience. The MNR is offered through three different formats: online, on-campus and short-courses.

All required core courses are taught online and the program can be completed entirely online.

Admission Requirements for this Program

- A bachelor's degree, preferably in natural resources, biology, ecology or a closely related field
- A **minimum** of one year of work experience in a natural resources field
- 3.0 or higher grade point average on last 60 semester or 90 quarter credits
- Three letters of recommendation (one from an academic source, if possible)
- Statement of Purpose: Describe how your past experience and education have prepared you for the MNR program, and how the MNR program will help you meet your future professional goals (500 word limit).
- There is no GRE requirement.

Prior to applying to the program, applicants are encouraged to contact the program coordinator directly.

Admission requirements can also be found at the USU School of Graduate Studies (apply at https://gradschool.usu.edu/admissions/index). Students are expected to be admitted to the program as matriculated students before taking coursework leading to the degree.

Additional information about the Master of Natural Resources may be obtained by contacting the program coordinator or by visiting https://qanr.usu.edu/mnr/.

Program Requirements

School of Graduate Studies Requirements

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- **Master's forms:** Approval of the Program of Study is required by the School of Graduate Studies.

Master of Natural Resources Program

The MNR degree program consists of a minimum of 30 total semester credits. The degree is designed to develop competencies in five core areas, several electives, and a capstone experience. The MNR is tailored to the specific needs of each student. Each student works with the degree coordinator and director to identify a program of study that best meet student needs.

MNR Core Requirements

Type
Completion Requirement

Human Dimensions

Earn at least 3 credits from the following:

- ENVS6010 - Applying Human Dimensions Concepts to Natural Resource Management - 3cr.

Ecological Foundations

Earn at least 3 credits from the following:

- NR6570 - Ecological Foundations of Natural Resource Management - 3cr.

Spatial Information Management

Earn at least 3 credits from the following:

- NR6910 - Geographic Information Systems for Natural Resource Applications - 3cr.
- NR6950 - Geospatial Analysis for Natural Resource Management - 3cr.

Natural Resources Policy

Earn at least 3 credits from the following:

- ENVS6310 - Introduction to Environmental Laws and Policy - 3cr.

Quantitative Methods

Earn at least 3 credits from the following:

- NR6580 - Data Analysis and Programming for Natural Resource Managers - 3cr.

Capstone Requirement

Earn at least 3 credits from the following:

- NR6600 - Natural Resources Integrative Experience - 1cr.

Additional Elective Options

Type
Completion Requirement

Electives

Nail Technician - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree
The Nail Technician program provides the skills needed to work in a beauty or nail salon performing services such as natural nail care, including manicures and pedicures, and nail enhancements. Instruction also includes sanitation, salon safety, nail and skin disorders, professional ethics and salon management, and licensing laws and rules. Upon completion of the program, students have the knowledge and skills needed to take the state written and practical examinations required for licensure.

Program Requirements

Total Credits Required In Program Coursework
18

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

Courses for the certificate may *not* be taken on a pass/fail basis.

Nail Technician Course Requirements

Type
Completion Requirement

Required

Complete ALL of the following Courses:

- COST2800 - Nail Technician - 9cr.
- TEBP1000 - Basic Financial Principles - 3cr.
- TEBP1500 - Business English - 1cr.
- TEBP1550 - Business Communications - 3cr.
- TEBP1650 - Management Principles - 2cr.

Program Learning Outcomes

Program Learning Outcomes

- Demonstrate client protection safety and infection control procedures, including first aid.
- Recognize various diseases and disorders of skin and nails.
- Demonstrate various nail enhancement techniques.
- Evaluate various professional behaviors within the beauty industry.
- Demonstrate safe use of industry equipment.
- Demonstrate competency to pass nail technology state examinations.

Nonformal and Community-Based Education - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Undergraduate

About this Degree

This minor prepares students to work within nonformal education and/or community-based career work, which frequently requires education techniques and skills for a wide variety of participants. Students develop active-learning instructional skills, the ability to manage volunteers, design teaching events, evaluate curriculum and program impacts, and create connection through teambuilding. The required courses for the minor support organizational and community needs for establishing a career in nonformal education.

Admission Requirements for this Program

New first-year students, transfer students, and students from other USU majors who have at least a 2.5 overall GPA qualify to enter the NCE minor.

Program Requirements

Total Credits Required To Earn This Credential

14

Simple Requisites

Program Requirements

The NCE minor requires a minimum of 14 credit hours. Students must complete all required courses, plus one elective course. The maximum number of credits that may be obtained for completion is 18. Students must obtain a grade of C or higher for all associated courses to be awarded the minor. Coursework for the minor may not be taken on a pass/fail basis unless the course is only taught pass/fail.

Section 1

Type
Completion Requirement

Required Courses (12 credits)

Complete ALL of the following Courses:

- ASTE2100 - Personal and Team Leadership - 3cr.
- ASTE4155 - Nonformal Teaching Methods - 3cr.
- ASTE4215 - Community Programming and Evaluation - 3cr.
- ASTE5220 - Volunteer Programs and Partnerships - 3cr.
  OR ASTE6220 - Volunteer Programs and Partnerships - 3cr.

Section 2

Type
Completion Requirement

Supportive Electives (3-6 credits)

Fulfill ANY of the following requirements:

People & Education

Complete ANY of the following Courses:

- ASTE2250 - Occupational Experience in Agriculture - 1cr.
- ASTE3625 - Youth Development Education - 2cr.
- ENVS4610 - Foundations of Environmental Education - 3cr. (Inactive)
- ENVS4700 - Communicating Sustainability (CI) - 3cr.
- ENVS5000 - Environmental Nonprofit and Volunteer Management - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- HDFS2450 - Consumer and Family Economic Issues (BSS) - 3cr.
- HEP5250 - Global Health & Service Learning - 3cr.
- ITLS5215 - Video and Audio Design and Production I - 3cr.
- ITLS4220 - Video and Audio Design and Production II - 3cr. (Inactive)
- ITLS4230 - Graphic Design and Production I - 3cr.
- ITLS5240 - Graphic Design and Production II - 3cr.
- ITLS5270 - Digital Making and Learning - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- NDFS3110 - Food, Technology, Sustainability and Health (DSC) - 3cr.
- SOC3010 - Social Inequality (DSS) - 3cr.
- USU1340 - Social Systems and Issues (BSS) - 3cr.

OR

Organizations & Leadership

Complete ANY of the following Courses:

- ASTE3050 - Technical and Professional Communication Principles (CI) - 3cr.
- CMST1020 - Public Speaking (BHU) - 3cr.
- CMST3600 - Communication and Conflict - 3cr.
- TCR2100 - Introduction to Technical Communication - 3cr.
- MSLE3110 - Managing Organizations and People (DSS) - 3cr.
- MSLE3710 - Leading Teams - 2cr.

Networking and Cybersecurity - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

This program provides education and training in preparation for careers in Information Technology and Cybersecurity. Throughout the program, students apply classroom theory to computer hardware and software, mobile devices, operating systems, networking, security, cloud technology, and other technologies relevant to the industry. Students learn to develop, defend, and protect networks and information systems against cyber-attacks while implementing and managing hardware, operating systems, local and wide-area networks, computer forensics, vulnerability assessment, security compliance, and information assurance. Through a combination of simulations, hands-on labs and/or virtual labs, students apply techniques for technology deployment, support, maintenance, and troubleshooting. This training prepares students to gain valuable industry recognized certifications including CompTIA A+, Network+, and Security+. Additional certification opportunities may include Cisco Certified Network Associate (CCNA), Microsoft, Amazon Web Services (AWS), Linux, and more.

Earn at least 9 credits from the following:

- TEIT1041 - Introduction to Programming - 3cr.
- TEIT1091 - Introduction to Mobile Application Development - 3cr.
- TEIT1310 - Website Design - 3cr.
- TEIT1340 - Digital Video Production - 3cr.
- TEIT2300 - Linux + - 3cr.
- TEIT2441 - Photoshop - 3cr.
- TEIT2500 - Web Business - 3cr.
- TEBP1200 - Professionalism - 3cr.
- TEBP1650 - Management Principles - 2cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

- Develop and demonstrate skills required for positions in Information Technology & Cybersecurity.
- Demonstrate knowledge, skills, and abilities aligning with standards for industry certifications.
- Install, configure, maintain, and troubleshoot common hardware and software.
- Install, configure, maintain, and troubleshoot operating systems.
- Design, implement, and manage scalable networks.
- Identify advanced security threats and implement best practices to mitigate risks.
- Demonstrate effective verbal and written communication using industry specific terminology.

Neuroscience - PhD

Program Overview

College
College of Education & Human Services

Department
Psychology, Biology

Program Level
Graduate

About this Degree

The primary goal of the doctoral program in neuroscience is to provide students with a strong educational and research foundation in cellular, cognitive, and behavioral neuroscience. Students will apply critical concepts in neuroscience to understanding normal and disordered processes of sensation, movement, cognition, language, and communication across the lifespan. This goal will be accomplished through a core set of neuroscience courses, advanced electives, and laboratory experiences. For more specific information, see the department's website at neuroscience.usu.edu.

Department of Biology Contacts

Co-Directors: Dr. Erin Bobeck and Noelle Beckman
E-Mails: Erin.Bobeck@usu.edu and Noelle.Beckman@usu.edu

Total Credits Required To Earn This Credential
44-64

Simple Requisites

Program Requirements

School of Graduate Studies Requirements

- A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- The Program of Study for a doctoral degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above. If the student does not have a master's degree, the Program of Study must include at least 30 credits at the level of 6000 or above.
- A doctorate must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated and approved by the Vice Provost of the School of Graduate Studies.
- **Course Level Restrictions:**
  - Graduate-level coursework (6000 and above)
  - No more than 12 credits of 5000-5990 level courses

  Doctoral forms:
  - Supervisory Committee
  - Program of Study
  - Annual Professional Development Plan (for Biology students)
  - Individual Development Plan (for Biology students)
  - Completion of Comprehensive Exams (Written and Oral)
  - Application for Candidacy
  - Appointment for Examination
  - Record of Examination
  - Dissertation Format and Style
  - Authorship and Copyright
  - Dissertation Title Page
  - SGS and library review and approval of Dissertation
- **Defense**
  - Completion of Public presentation of research
  - Completion of Private Defense with Supervisory Committee
- **All Neuroscience Ph.D. candidates must meet the following general core requirements and professional milestones:**
- External Professional Presentation
  - All students must serve as the presenting author of a presentation (poster session or oral presentation) at an appropriate external professional conference;
- Peer-Reviewed Paper
  - Each student will make significant contributions to a data-based paper that is submitted for publication in a peer-reviewed journal. The preference is for students to graduate with at least one first-author publication. However, given the time constraints of some types of research, there may not be time to design a study, collect data, analyze it, submit a paper, revise it, and get a formal editorial decision during a doctoral program. In such cases, students would not be expected to have a first-author publication before graduation. Most students in the program serve as an author on multiple such articles and generally serve as lead author on at least one publication.
- Grant Writing
  - Students are expected to complete a grant-writing experience in which they write and submit a student research grant to an external agency or assist their mentor or another faculty member with preparing an external research grant. The preference is for students to write and submit an NSF or NIH doctoral

dissertation grant. However, the faculty realizes that not all disciplines conduct the type of research that would be funded by these agencies. In those cases, students should assist faculty in writing an external grant and/or should write a grant to an external agency such as a foundation.

- Completion of a second-year project
    - Students entering with a baccalaureate degree must complete a Second Year Project during the first 5 semesters of the program (fall semester of the 3rd year).
- Completion of a comprehensive exam

PhD Degree Course Requirements

Type
Completion Requirement

Dissertation Credits (12 credits)

Students can register for any of the following dissertation credits:

Earn at least 12 credits from the following:

- BIOL7970 - Dissertation Research - 1cr.
- HDFS7970 - Dissertation Research - 1cr.
- KIN7970 - Dissertation - 1cr.
- PSY7970 - Dissertation - 1cr.

Research Courses

Complete at least 3 of the following courses:

- BIOL5625 - Neurophysiology Laboratory - 2cr.
  OR EDUC6570 - Introduction to Educational and Psychological Research - 3cr.
  OR PSY6560 - Introduction to Educational and Psychological Research - 3cr.
- PSY6600 - Statistical Foundations - 3cr.
  OR STAT5200 - Analysis of Designed Experiments - 3cr.
- PSY7610 - Regression Analysis - 3cr.
  OR EDUC7700 - Grant Writing - 3cr.

Methods in Neuroscience (3 credits)

Complete ALL of the following Courses:

- BIOL7140 - Methods in Neuroscience - 3cr.
  OR PSY7140 - Methods in Neuroscience - 3cr.

Seminar (2 credits)

Students must take a total of 2 credits of PSY7090 EAPS SEMINAR. 1 per semester for 2 semesters.

Complete ALL of the following Courses:

- PSY7090 - Experimental and Applied Psychological Science Program Seminar - 1cr.

Mechanisms of Neuropsychiatric Disease (3 credits)

Complete ALL of the following Courses:

- BIOL7830 - Mechanisms of Neuropsychiatric Disease - 3cr.
  OR PSY7830 - Mechanisms of Neuropsychiatric Disease - 3cr.

Cognitive Neuroscience (3 credits)

Complete ALL of the following Courses:

- BIOL7110 - Cognitive Neuroscience - 3cr.
  OR PSY7110 - Cognitive Neuroscience - 3cr.

Behavioral Neuroscience (3 credits)

Complete ALL of the following Courses:

- BIOL6120 - Behavioral Neuroscience - 3cr.
  OR PSY6120 - Behavioral Neuroscience - 3cr.

Cellular and Molecular Neuroscience

Complete ALL of the following Courses:

- BIOL6020 - Cellular and Molecular Neuroscience - 3cr.
  OR PSY6020 - Cellular and Molecular Neuroscience - 3cr.

Fulfill ALL of the following requirements:

Conceptual Foundational Courses

Complete at least 1 of the following courses:

- CMST3280 - Organizations and Social Change - 3cr.
- MSLE2500 - Business for Good: Making an Impact through Social Entrepreneurship - 2cr.
- SW5540 - Nonprofit Management for Social Workers - 3cr.

AND

Practice-Based Courses

Complete at least 2 of the following courses:

- ASTE5220 - Volunteer Programs and Partnerships - 3cr.
- CMST3510 - Development and Philanthropy - 3cr.
- CMST3730 - Culture and Global Intervention (DHA) - 3cr.
- ENVS5000 - Environmental Nonprofit and Volunteer Management - 3cr.
- JCOM2400 - Introduction to Social Media - 3cr.
- MSLE3510 - New Venture Creation - 3cr.
- TCR2100 - Introduction to Technical Communication - 3cr.
- TCR3230 - Community Grant Writing - 3cr.

AND

Internship

Complete the following;

An internship is required to complete this certificate. See advisor for options.

Elective Courses (9 credits)

Select 9 credits from the elective course options:

Fulfill ANY of the following requirements:

Business/Entrepreneurship

Complete ANY of the following Courses:

- MSLE3530 - New Venture Marketing - 3cr.
- MSLE3540 - New Venture Finance - 3cr.
- MSLE3580 - New Venture Execution - 3cr.
- MSLE3820 - International Business (DSS) - 3cr.
- MSLE3855 - Sustainability Marketing - 2cr.

OR

Global Communication

Complete ANY of the following Courses:

- CMST1330 - Introduction to Global Communication (BSS) - 3cr.
- CMST3250 - Organizational Communication (CI) - 3cr.
- CMST3270 - Culture and Public Discourse (DHA) - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.
- CMST3400 - Persuasion - 3cr.
- CMST4330 - Advanced Perspectives in Global Communication (CI) - 3cr.
- CMST5500 - Communication and Leadership - 3cr.

OR

Social Media and Technical Communication

Complete ANY of the following Courses:

- TCR2110 - Digital Writing Technologies - 3cr.
- TCR4210 - Visual Communication Design - 3cr.
- TCR4220 - Technology and Activism - 3cr.
- TCR3110 - Accessibility and Disability Rhetorics - 3cr.
- TCR4230 - Project Management - 3cr.
- JCOM2030 - Multimedia Bootcamp - 4cr.
- JCOM2220 - Introduction to Video Media - 3cr.
- JCOM2400 - Introduction to Social Media - 3cr.
- JCOM3310 - Writing for Public Relations (CI) - 3cr.
- JCOM4530 - Special Topics in Communication - 3cr.

OR

Social Work

Complete ANY of the following Courses:

- SW1010 - Introduction to Social Welfare (BSS) - 3cr.
- SW2100 - Human Behavior in the Social Environment - 3cr.
- SW2400 - Social Work with Diverse Populations - 3cr.
- SW5902 - Social Work Practice Methods - 3cr.
- SW5903 - Social Welfare Policy - 3cr.

OR

Sociology

Complete ANY of the following Courses:

- SOC3010 - Social Inequality (DSS) - 3cr.
- SOC3320 - Work, Inequality and the American Dream (DSS) - 3cr.
- SOC3330 - Medical Sociology (DSS) - 3cr.
- SOC3340 - Activism, Protest, and Social Movements (DSS) - 3cr.
- SOC3520 - Sociology of Mental Illness - 3cr.

OR

Sustainability

Complete ANY of the following Courses:

- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS4610 - Foundations of Environmental Education - 3cr. (Inactive)
- ENVS4700 - Communicating Sustainability (CI) - 3cr.
- ENVS5000 - Environmental Nonprofit and Volunteer Management - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- LAEP2039 - Foundations of Sustainable Systems - 3cr.

OR

Nonformal and Community-Based Education

Complete ANY of the following Courses:

- ASTE3625 - Youth Development Education - 2cr.
- ASTE4155 - Nonformal Teaching Methods - 3cr.
- ASTE4215 - Community Programming and Evaluation - 3cr.
- ASTE5220 - Volunteer Programs and Partnerships - 3cr.

About this Degree

Director: Courtney Flint, Department of Environment and Society
Location: Natural Resources 316
Phone: (435) 797-8653
E-mail: courtney.flint@usu.edu

Graduate Program Description

The Natural Resources and Environmental Communication and Engagement Post-Bachelor's Certificate (NRECE) Program is administered by the Department of Environment and Society, S.J. and Jessie E. Quinney College of Agriculture and Natural Resources. The Department of Environment and Society is an interdisciplinary department focused on research, outreach/extension, and teaching on human-environment interactions; it espouses community engagement in research, outreach, and learning and is USU-designated as a community-engaged department. The NRECE Post-Bachelor's Certificate is open to existing or incoming graduate students in masters or doctorate programs or to students who have a bachelors degree and want to do the certificate program on its own.

The NRECE Program provides an opportunity for, and certification of, knowledge- and skill-building in environmental communication and community engagement. Program outcomes focus on a broad range of communication strategies within the knowledge and action domains of natural resource management and the socio-ecological and environmental sciences. The program emphasizes a modern, two-way approach to collaborating and partnering with communities and stakeholders, with a more critical perspective on improving how environmental science communication occurs. Curriculum draws on a suite of courses with communication and engagement content both within and beyond the Department of Environment and Society.

The certificate curriculum consists of three components, for a total of 10 credits: (1) minimum of 6 credits of coursework with communications and/or engagement content from an approved list of course options; (2) one departmental seminar course (1 credit) that introduces a range of environmental science topics; and (3) a three-credit capstone requirement met either through a communication, engagement, or outreach component of the student's master's thesis or doctoral dissertation or through an independent project, whichever works best for the student.

Certificate

Students who complete the program receive a certificate in Natural Resources and Environmental Communication and Engagement. Notification of this certificate appears on the student's transcript.

Admission Requirements for this Program

For admittance into the NRECE Post-Bachelor's Certificate Program, a graduate student must: (1) be accepted by the School of Graduate Studies at Utah State University for graduate study (current or provisional); and (2) meet with the NRECE Program Director to discuss personal interest in completing the NRECE Certificate with respect to professional goals.

Graduate students seeking to complete the NRECE Certificate will work with their major faculty advisor, as well as with the NRECE Program Director, for support in understanding and meeting the requirements of the certificate.

Program Requirements

Total Credits Required In Program Coursework
10

Total Credits Required To Earn This Credential

Simple Requisites

Program Requirements

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Requirements

Type
Completion Requirement

Communications and/or Engagement Courses (6 credits)

Take a minimum of 6 credits, from the following course list. Additional courses options may be approved by the NRECE Program Director.

Earn at least 6 credits from the following:

- ADVS6650 - Science Communication - 3cr.
- ASTE6200 - Principles and Practices of Extension Education - 3cr.
- ASTE6220 - Volunteer Programs and Partnerships - 3cr.
- ASTE6370 - Grant Writing and Management - 3cr.
  OR ASTE7370 - Grant Writing and Management - 3cr.
- ASTE6920 - Communication Tools for Extension - 3cr.
- ENVS6889 - Environmental Risks and Decision Making - 1cr.
- ENVS6300 - Conservation Psychology - 3cr.
- ENVS6410 - Translational Ecology - 3cr.
- ENVS6600 - Natural Resource Interpretation - 3cr.
- SOC7100 - Advanced Survey Techniques - 3cr.
- WATS6400 - Communicating Science: A Short Course for Graduate Students - 1cr.
- WILD6100 - Scientific Communication for Natural Resource Professionals - 3cr.

Departmental Seminar or Colloquium Course (1 credit)

Take at least one credit of a departmental seminar or colloquium series that introduces a range of environmental science topics.

Earn at least 1 credits from the following:

- ENVS6800 - Environment and Society Departmental Colloquium - 1cr.
- ENVS6870 - Ecology Seminar - 1cr.
- ENVS7800 - Environment and Society Departmental Colloquium - 1cr.
- WATS6800 - Watershed Sciences Departmental Seminar - 1cr.
- WATS6870 - Ecology Seminar - 1cr.
- WATS7800 - Watershed Sciences Departmental Seminar - 1cr.
- WILD6800 - Wildland Resources Departmental Seminar - 1cr.
- WILD6870 - Ecology Seminar - 1cr.
- WILD7800 - Wildland Resources Departmental Seminar - 1cr.

Or as approved by the NRECE Program Director

Capstone Project (3 credits)

Register for 3 credits of appropriate level of Directed Study; thesis credits can substitute for Directed Study for MS and MA students.

Earn at least 3 credits from the following:

- ENVS6910 - Directed Study - 1cr.
- ENVS7910 - Directed Study - 1cr.

Degree Map Narrative

Following is a sample plan. Please note that student-specific plans may differ.

- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Program Learning Outcomes

Program Learning Outcomes

Program Goals:

1. Train Students with Expertise in Natural Resource Economics: This involves understanding economic principles and applying them to real-world scenarios to balance economic development with environmental stewardship.

2. Foster Economic Analytical Skills: Teach students to use economic tools and methodologies to analyze and evaluate the allocation and utilization of natural resources. This includes proficiency in benefit-cost analysis, data analysis, and economic modeling to inform decision-making.

3. Enhance Understanding of Policy Impacts: Prepare students to assess the effects of governmental policies and regulations on natural resource use. Graduates will be able to predict and evaluate the implications of policy changes, helping to shape effective and efficient resource policy strategies.

4. Prepare for Leadership Roles: Equip students with the skills needed for leadership positions in various sectors, including government, private industry, and non-profits. Graduates will be prepared to take on roles that require strategic planning and allocation of natural resources.

6. Strengthen Community and Industry Connections: Build strong connections with local communities and industries. The program aims to engage students in outreach and practical projects that benefit Utah's land and water resources, fostering a sense of responsibility and service.

7. Support Career Readiness: Ensure that graduates are career-ready by providing practical experience through internships, co-op programs, and hands-on projects. This real-world experience is critical for successful entry into the workforce and long-term career development.

Natural Resource Economics - MS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Applied Economics	Graduate

About this Degree

The Master's of Science in Natural Resource Economics at Utah State University prepares students to become experts in managing Utah's land and water resources with a focus on economic efficiency and wise stewardship of Utah's natural resources. This program provides students with advanced economic tools and analytical skills to evaluate the allocation, utilization, and stewardship of natural resources, ensuring they can make informed decisions that address both immediate and long-term societal needs.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
30	30

Simple Requisites

Program Requirements

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability

The Program of Study for a master's degree must include at least 15 semester credits at the level of 6000 or above.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 3000.

A maximum of 12 credits of 5000-level coursework may be applied to programs of study.

Matriculation Start Semester

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

USU Residency Requirement

At least 24-semester credits for a master's degree must be from a committee-approved and a School of Graduate Studies-approved Program of Study from Utah State University

Thesis Research Credits 6970

Master's Plan A students: Students are required to complete a minimum of 6 credits of thesis research (APEC6970 THESIS RESEARCH) for a Program of Study.

Master's Plan B students: Students are required to complete a minimum of 3 credits of thesis research (APEC6970 THESIS RESEARCH) and an additional class.

Master's forms: Approval of the following academic forms is required for master's students by the School of Graduate Studies (SGS):

- Supervisory Committee
- Program of Study
- Thesis/Project Approval
- Appointment for Examination
- Record of Examination
- SGS and library review and approval (Plan A)
- Library review and approval (Plan B)

Natural Resource Economics MS

Type
Completion Requirement

Core Requirements

Complete ALL of the following Courses:

- APEC6100 - Microeconomic Theory I - 3cr.
- APEC6300 - Quantitative Analysis for Business and Policy Decisions - 3cr.
- APEC6330 - Applied Econometrics - 3cr.
- APEC6500 - Introduction to Natural Resource Economics - 3cr.
- APEC6700 - Regional and Community Economic Development - 3cr.

Thesis Credits (3-6)

Plan A students will take 6 credits of APEC6970 THESIS RESEARCH (Thesis Research). Plan B students will take 3 credits of APEC6970 THESIS RESEARCH (Thesis Research).

Earn at least 3 credits from the following:

- APEC6970 - Thesis Research - 1cr.

Elective Courses (12 credits)

Complete the following:
Complete 12 additional credits of APEC, SOC, CEE, ENVS, NR, ECN, WILD, or WATS 5000 to 7000 level courses as approved by Committee. 5000 level or higher courses from other departments as approved by Committee. Plan B students will need to take one additional course to fulfill credit requirement.

Practical Nursing - Certificate

Program Overview

College
College of Education & Human Services

Department
Nursing

Program Level
Undergraduate

About this Degree

The Practical Nursing Certificate is designed for students who wish to begin their nursing education and obtain licensure as a licensed practical nurse (LPN). A Certificate of Completion includes a minimum of one course in composition, math and human relations, in addition to the major courses.

Admission Requirements for this Program

1. Fulfill requirements for admission to USU.
2. Submit a completed application to the nursing department between January 1-February 15. A link to the application portal can be found on the Nursing website.
3. Submit transcript(s) showing completion of prerequisite courses. Prerequisite course requirements must be completed with a grade of C or better. Three course attempts for any one prerequisite course will be accepted, including transfer or equivalent courses.
4. Successful completion (75% or better) on the HESI A2 exam. Applicants are allowed two attempts per application cycle. Two weeks in between attempts is required.
5. A grade of C or better is required in all prerequisite courses. Courses may *not* be taken on a pass/fail basis.

Program Requirements

Total Credits Required In Program Coursework
33

Total Credits Required To Earn This Credential
33

Simple Requisites

Program Requirements

1. A grade of C or better is required in all prerequisite courses. Courses may *not* be taken on a pass/fail basis.
2. After acceptance to the USU PN program, students will be given instructions on how to submit results of a background check, a negative drug screen, Basic Life Support (BLS) certification and proof of required immunizations per program policy.

   A grade of B- or better is required in all NURS major courses. Courses may *not* be taken on a pass/fail basis. Students must maintain at least a 79.5% exam average in all nursing courses. Students will receive the lesser of the exam average or overall course average as the course grade.

   - For more information about the Practical Nursing program, see the department website.
   - Current and admitted students must meet with an advisor to co-create and update their Degree Works plan. Student-specific Degree Works plan may differ.
   - Program completion packets must be submitted to your advisor by February 28th.

Complete ALL of the following Courses:

- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
  OR PSY1010 - General Psychology (BSS) - 3cr.
  OR PSY1100 - Lifespan Development - 3cr.

• Certified Nursing Assistant (CNA) or Medical Assistant (MA) certificate.

NOTE:

1. BIOL2320 HUMAN ANATOMY - Lab recommended but not required.
2. BIOL2420 HUMAN PHYSIOLOGY - Must be completed within 5 years of admission date to the Practical Nursing program; lab recommended not required.
3. Students who are interested in taking a pathway toward completion of the BSN at Utah State University should complete HDFS1500 HUMAN DEV LIFESPAN (BSS) for their Human Growth and Development prerequisite.

Practical Nursing Courses (22 credits)

Complete ALL of the following Courses:

- NURS1010 - Introduction to Nursing - 2cr.
- NURS1020 - Fundamental Concepts of Nursing - 4cr.
- NURS1030 - Fundamental Concepts of Nursing Clinical - 4cr.
- NURS1042 - Maternal-Newborn Nursing - 1cr.
- NURS1110 - Pharmacology - 1cr.
- NURS1122 - Pediatric Nursing - 1cr.
- NURS1220 - Nursing Process I - 4cr.
- NURS1230 - Nursing Process I Clinical - 4cr.
- NURS1240 - Pharmacology 2 - 1cr.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in Utah and other Nurse License Compact (NLC) states. If students license in any of these states, they are considered licensed and can work in any of the other NLC states.

The Department of Nursing has not determined if this program meets licensure requirements in the non-NCL states, although it is possible as the National Council of State Boards of Nursing (NCSBN) requirements across the United States are the same.

Nutrition Science - BS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Nutrition, Dietetics & Food Sciences	Undergraduate

About this Degree
Nutrition scientists study the molecular and cellular basis of human health and disease. They integrate principles of nutrition with related sciences, such as anatomy, physiology, biochemistry, and medicine. This degree provides students with a solid background in health and life sciences. Students learn how food and nutrients interact with the human body to support health and physical performance.

- For more information about Nutrition, Dietetics, and Food Sciences, see the website.
- Admitted and current students must meet with an advisor, dawnetta.mahnken@usu.edu, 435-797-2282.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program
- First Year Student: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.75 GPA

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
52	120

Simple Requisites

Program Requirements

A minimum GPA of 2.5 is required in all coursework for the major. All NDFS courses require a grade of C- or better.

Nutrition Science - BS Course Requirements

Type
Completion Requirement

Required Courses (47-51 credits)

Complete ALL of the following Courses:
- NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.
- NDFS1030 - Introduction to Dietetics and Nutrition Science - 1cr.
- NDFS1600 - Medical Terminology for Health Care Professionals - 2cr.
  OR HEAL1008 - Medical Terminology - 2cr.
- NDFS2020 - Nutrition Throughout the Life Cycle - 3cr.
  OR NDFS2030 - Nutrition and Physical Performance - 2cr.
  OR NDFS3080 - Community Nutrition - 3cr.
  OR NDFS5432 - Community Nutrition - 3cr.
- NDFS4020 - Advanced Nutrition - 3cr.
  OR NDFS5433 - Advanced Nutrition - 3cr.

- NDFS5300 - Advanced Micronutrient Nutrition - 3cr.
- NDFS5410 - Nutrient Gene Interactions (CI) - 3cr.
- BIOL2420 - Human Physiology - 4cr.
  OR BIOL2320 - Human Anatomy - 4cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
  OR CHEM2310 - Organic Chemistry I - 4cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- MATH1050 - College Algebra (QL) - 4cr.
- PSY1010 - General Psychology (BSS) - 3cr.
  OR SOC1010 - Introductory Sociology (BSS) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.

Nutrition Science Upper Division Elective (5 - 6 credits)

Complete at least 2 of the following courses:

- NDFS3040 - Nutrition Assessment - 3cr.
- NDFS3110 - Food, Technology, Sustainability and Health (DSC) - 3cr.
- NDFS5210 - Advanced Public Health Nutrition (CI) - 3cr.
- NDFS5230 - Communication of Current Topics in Nutrition (CI) - 3cr.
- NDFS5310 - Fundamentals of Nutrition Research - 3cr.
- NDFS5450 - Study Abroad Experience - 1cr.
- NDFS5510 - Food Laws and Regulations - 3cr.

1. ***NDFS 5250 - minimum of 2 credits***
2. ***NDFS 5450 - minimum of 2 credits***

Suggested Electives

Students must complete 120 credits to earn a bachelor's degree, including 40 credits in upper-division. Consultation with an advisor is important to choose elective courses that will be most effective in helping students reach their academic goals. Contact Dawnetta Mahnken, at dawnetta.mahnken@usu.edu, 435-797-2282 for advising or to schedule an appointment through this link.

Complete ANY of the following Courses:

- NDFS1240 - Food Literacy - 3cr.
- NDFS2020 - Nutrition Throughout the Life Cycle - 3cr.
- NDFS2030 - Nutrition and Physical Performance - 2cr.
- NDFS3040 - Nutrition Assessment - 3cr.
- NDFS3080 - Community Nutrition - 3cr.
- NDFS3110 - Food, Technology, Sustainability and Health (DSC) - 3cr.
- NDFS5210 - Advanced Public Health Nutrition (CI) - 3cr.
- NDFS5230 - Communication of Current Topics in Nutrition (CI) - 3cr.
- NDFS5250 - Occupational Experiences in Nutrition and Food Sciences - 1cr.
- NDFS5310 - Fundamentals of Nutrition Research - 3cr.
- NDFS5450 - Study Abroad Experience - 1cr.
- NDFS5510 - Food Laws and Regulations - 3cr.
- BIOL1060 - Prehealth Professions - 1cr.
- ANTH4130 - Introduction to Medical Anthropology (DSS) - 3cr.
- ASTE2900 - Food Matters: Ethics, Economics, and the Environment (BSS) - 3cr.
- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3100 - Bioethics (CI) - 3cr.
- BIOL3300 - General Microbiology - 3cr.
- BIOL5150 - Immunology - 3cr.
- BIOL5210 - Cell Biology - 3cr.
- BIOL5630 - Endocrinology (CI) - 3cr.
- ENGL3060 - Mind And Body: The Rhetoric Of Health And Healing (DHA) - 3cr.
- HDFS3700 - Mental Health Advocacy and Awareness - 3cr.
- HEP3600 - Functions of Community & Public Health (CI) - 3cr.
- HIST3910 - Health, Disease, and Medicine in North America (DHA) - 3cr.
- PHIL3500 - Healthcare Ethics (DHA) - 3cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PSY3110 - Health Psychology - 3cr.
- PUBH3310 - Occupational Health and Safety - 3cr.
- PUBH4030 - Communicable Disease Control - 3cr.
- PUBH4040 - Fundamentals of Epidemiology - 3cr.
- SOC3330 - Medical Sociology (DSS) - 3cr.
- USU1010 - University Connections - 2cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Nutrition Science - Pre-Health Emphasis - BS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Nutrition, Dietetics & Food Sciences	Undergraduate

About this Degree
Nutrition scientists study the molecular and cellular basis of human health and disease. This degree provides students with a solid background in health and life sciences. Students learn how food and nutrients interact with the human body to support health and physical performance.

Pre-health Emphasis: Prepares students to enter medical school by providing experiences and opportunities in laboratory research, epidemiology, and clinical nutrition

- For more information about Nutrition, Dietetics and Food Sciences, see website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1060 TRIGONOMETRY or MATH1100 CALCULUS TECHNIQUES (QL) or MATH1210 CALCULUS I (QL)

Admission Requirements for this Program
- First Year Student: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.75 GPA

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
63	120

Simple Requisites

Program Requirements

Students must complete 120 credits to earn a bachelor's degree, including 40 credits upper division. Consultation with their advisor is important to choose elective courses that will be most effective in helping them reach their academic goals. Contact Dawnetta Mahnken, dawnetta.mahnken@usu.edu, 435-797-2282 for advising or schedule an appointment through this link.

It is the student's responsibility to check with health profession graduate programs concerning courses required for admission. Completion of Utah State University's Department of Nutrition Science: Pre-Health emphasis will not guarantee admission into health profession graduate schools.

The Pre-Health Advising Office has a team of advisors to assist and support USU students planning to attend health profession graduate programs. Please see their website for more information.

A minimum GPA of 2.5 is required in all coursework for the major. All NDFS courses require a grade of C- or better.

Nutrition Science: Pre-Health - BS Course Requirements

Type
Completion Requirement

Major Requirements (58-64 credits)

Complete ALL of the following Courses:

- NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.
- NDFS1600 - Medical Terminology for Health Care Professionals - 2cr.
  OR HEAL1008 - Medical Terminology - 2cr.
- NDFS2020 - Nutrition Throughout the Life Cycle - 3cr.
  OR NDFS2030 - Nutrition and Physical Performance - 2cr.
  OR NDFS3080 - Community Nutrition - 3cr.
  OR NDFS5432 - Community Nutrition - 3cr.
- NDFS4020 - Advanced Nutrition - 3cr.
  OR NDFS5433 - Advanced Nutrition - 3cr.
- NDFS5300 - Advanced Micronutrient Nutrition - 3cr.
- NDFS5410 - Nutrient Gene Interactions (CI) - 3cr.
- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL2320 - Human Anatomy - 4cr.
  OR BIOL2420 - Human Physiology - 4cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
  OR CHEM2310 - Organic Chemistry I - 4cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1060 - Trigonometry - 2cr.
  OR MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1210 - Calculus I (QL) - 4cr.
- PSY1010 - General Psychology (BSS) - 3cr.
  OR SOC1010 - Introductory Sociology (BSS) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.

Nutrition Science Upper Division Elective (5 - 6 credits)

1. NDFS 5250 - requires approval from Korry Hintz; minimum 2 credits
2. NDFS 5450 - minimum 2 credits

Complete at least 2 of the following courses:

- NDFS3040 - Nutrition Assessment - 3cr.
- NDFS3110 - Food, Technology, Sustainability and Health (DSC) - 3cr.
- NDFS5210 - Advanced Public Health Nutrition (CI) - 3cr.
- NDFS5230 - Communication of Current Topics in Nutrition (CI) - 3cr.
- NDFS5250 - Occupational Experiences in Nutrition and Food Sciences - 1cr.
- NDFS5310 - Fundamentals of Nutrition Research - 3cr.
- NDFS5450 - Study Abroad Experience - 1cr.
- NDFS5510 - Food Laws and Regulations - 3cr.

Pre-Health Emphasis Professional Courses (24 credits)

The term "pre-health" covers a broad spectrum of health profession graduate programs: medical, dental, physician assistant, physical therapy, occupational therapy, podiatry, optometry, etc., with each type of program requiring a different subset, or level of, prerequisite coursework. The Nutrition Science: pre-health emphasis strives to allow students course flexibility within their science coursework so students may align their coursework to the professional school they are working towards. It is the student's responsibility to determine the coursework required for the particular graduate schools they are interested in attending.

Choose at least 24 credits from any of the Pre-Health emphasis areas to meet the prerequisite coursework for the professional school of interest. Only 9 credits are allowed in the Social Sciences and Supportive Courses area.

Fulfill ANY of the following requirements:

Biological Science (0-24 credits)

Complete ANY of the following Courses:

- NDFS1030 - Introduction to Dietetics and Nutrition Science - 1cr.
- NDFS1240 - Food Literacy - 3cr.
- NDFS2020 - Nutrition Throughout the Life Cycle - 3cr.
- NDFS2030 - Nutrition and Physical Performance - 2cr.
- NDFS3040 - Nutrition Assessment - 3cr.
- NDFS3080 - Community Nutrition - 3cr.
- NDFS3110 - Food, Technology, Sustainability and Health (DSC) - 3cr.
- NDFS5210 - Advanced Public Health Nutrition (CI) - 3cr.
- NDFS5230 - Communication of Current Topics in Nutrition (CI) - 3cr.
- NDFS5250 - Occupational Experiences in Nutrition and Food Sciences - 1cr.
- NDFS5310 - Fundamentals of Nutrition Research - 3cr.
- NDFS5510 - Food Laws and Regulations - 3cr.
- BIOL1030 - Medical College Admissions Test (MCAT) Preparation - 1cr.
- BIOL1060 - Prehealth Professions - 1cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL2060 - Elementary Microbiology - 4cr.
- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
- BIOL2520 - Pathophysiology - 3cr.
- BIOL3010 - Evolution (DSC) - 3cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3100 - Bioethics (CI) - 3cr.
- BIOL3300 - General Microbiology - 3cr.
- BIOL3500 - Plagues, Pests, and People - 3cr.
- BIOL4000 - Human Dissection - 1cr.
- BIOL5150 - Immunology - 3cr.
- BIOL5210 - Cell Biology - 3cr.
- KIN3250 - Anatomical Kinesiology - 3cr.
- KIN4200 - Biomechanics (QI) - 4cr.
- PUBH3310 - Occupational Health and Safety - 3cr.
- PUBH4030 - Communicable Disease Control - 3cr.
- PUBH4040 - Fundamentals of Epidemiology - 3cr.

OR

Physical Science and Mathematics (0-24 credits)

(Physics is required for most health profession graduate programs. As such the math requirement in the NS Pre-Health program prepares students for physics courses. Thus, any of the following math courses will suffice: MATH1060 TRIGONOMETRY, MATH1100 CALCULUS TECHNIQUES (QL), or MATH1210 CALCULUS I (QL))

Complete ANY of the following Courses:

- ADVS5630 - Endocrinology (CI) - 3cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM3710 - Introductory Biochemistry Laboratory - 1cr.

- CHEM5700 - General Biochemistry I - 3cr.
- MATH1100 - Calculus Techniques (QL) - 3cr.
- MATH1210 - Calculus I (QL) - 4cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PSY3010 - Psychological Statistics (QI) - 3cr.

OR

Social Science and Supportive Courses (0-9 credits)

Only up to 9 credits are allowed in the Social Sciences and Supportive Courses area.

Complete ANY of the following Courses:

- ANTH4130 - Introduction to Medical Anthropology (DSS) - 3cr.
- ASTE2900 - Food Matters: Ethics, Economics, and the Environment (BSS) - 3cr.
- CMST4700 - Health Communication (CI) - 3cr.
- ENGL3060 - Mind And Body: The Rhetoric Of Health And Healing (DHA) - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- HDFS3100 - Abuse and Neglect in Family Context - 3cr.
- HDFS3110 - Human Sexuality - 3cr.
- HDFS3570 - Youth and Adolescence - 3cr.
- HDFS3700 - Mental Health Advocacy and Awareness - 3cr.
- HEP2500 - Health and Wellness - 2cr.
- HEP3200 - Consumer Health - 3cr.
- HEP3400 - Stress Management - 3cr.
- HEP3600 - Functions of Community & Public Health (CI) - 3cr.
- HIST3910 - Health, Disease, and Medicine in North America (DHA) - 3cr.
- KIN4100 - Exercise Physiology - 4cr.
- PHIL3500 - Healthcare Ethics (DHA) - 3cr.
- PSY1010 - General Psychology (BSS) - 3cr.
- PSY1100 - Lifespan Development - 3cr.
- PSY2100 - Developmental Psychology: Adolescence - 3cr.
- PSY2300 - Psychological Disorders - 3cr.
- PSY3110 - Health Psychology - 3cr.
- PSY3460 - Neuroscience I - 3cr.
- PSY3510 - Social Psychology (DSS) - 3cr.
- PSY4240 - Multicultural Psychology (DSS) - 3cr.
- SOC1010 - Introductory Sociology (BSS) - 3cr.
- SOC3330 - Medical Sociology (DSS) - 3cr.
- SOC3750 - Sociology of Aging (DSS) - 3cr.
- SPAN3061 - Fundamentals of Translation and Interpretation - 3cr.
- SPAN3081 - Healthcare Translation - 3cr.
- SPAN3100 - Spanish Healthcare - 3cr.
- SPAN4071 - Simultaneous and Consecutive Healthcare Interpretation - 3cr.
- SPAN4081 - Medical Interpretation Training (BTG) - 3cr.
- USU3410 - PreMed Ready: Application Prep - 1cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Nutrition Science - Sports Nutrition Emphasis - BS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Nutrition, Dietetics & Food Sciences	Undergraduate

About this Degree

Nutrition scientists study the molecular and cellular basis of human health and disease. This degree provides students with a solid background in health and life sciences. Students learn how food and nutrients interact with the human body to support health and physical performance.

Sports Nutrition Emphasis: Applies the principles of nutrition to exercise and physical performance. Students develop the skills needed to work as professionals within the fitness, health and dietary supplement industries as health coaches, personal trainers, product developers, and marketers.

- For more information about Nutrition, Dietetics, and Food Sciences, see the website.
- Admitted and current students must meet with an advisor, Dawnetta Mahnken at dawnetta.mahnken@usu.edu or 435-797-2282.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Simple Requisites

Program Requirements

A minimum GPA of 2.5 is required in all coursework for the major. All NDFS courses require a grade of C- or better.

Students must complete 120 credits to earn a bachelor's degree, including 40 credits of upper-division courses. Consultation with their advisor is important to choose elective courses that will be most effective in helping them reach their academic goals. Contact Dawnetta Mahnken, at dawnetta.mahnken@usu.edu, 435-797-2282 for advising or to schedule an appointment through this link.

Nutrition Science: Sports Nutrition - BS Course Requirements

Type
Completion Requirement

Required Core Courses (45-48 credits)

Complete ALL of the following Courses:

- NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.
- NDFS1030 - Introduction to Dietetics and Nutrition Science - 1cr.
- NDFS1600 - Medical Terminology for Health Care Professionals - 2cr.
  OR HEAL1008 - Medical Terminology - 2cr.
- NDFS2020 - Nutrition Throughout the Life Cycle - 3cr.
  OR NDFS3080 - Community Nutrition - 3cr.

OR NDFS5432 - Community Nutrition - 3cr.
- NDFS4020 - Advanced Nutrition - 3cr.
  OR NDFS5433 - Advanced Nutrition - 3cr.
- NDFS5300 - Advanced Micronutrient Nutrition - 3cr.
- NDFS5410 - Nutrient Gene Interactions (CI) - 3cr.
- BIOL1610 - Biology I - 3cr.
- BIOL2420 - Human Physiology - 4cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
  OR CHEM2310 - Organic Chemistry I - 4cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- MATH1050 - College Algebra (QL) - 4cr.
- PSY1010 - General Psychology (BSS) - 3cr.
  OR SOC1010 - Introductory Sociology (BSS) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.

Emphasis Required Courses (22 credits)

A minimum GPA of 2.5 is required in all coursework for the major. All NDFS courses require a grade of C- or better.

Complete ALL of the following Courses:
- NDFS2030 - Nutrition and Physical Performance - 2cr.
- NDFS5320 - Advanced Sports Nutrition - 3cr.
- BIOL2320 - Human Anatomy - 4cr.
- KIN2000 - Introduction to Kinesiology - 2cr.
- KIN3250 - Anatomical Kinesiology - 3cr.
- KIN4100 - Exercise Physiology - 4cr.
- KIN5100 - Fitness Assessment and Exercise Programs - 4cr.

Nutrition Science Upper Division Electives (5 - 6 credits)

Complete at least 2 of the following courses:
- NDFS3040 - Nutrition Assessment - 3cr.
- NDFS3110 - Food, Technology, Sustainability and Health (DSC) - 3cr.
- NDFS5210 - Advanced Public Health Nutrition (CI) - 3cr.
- NDFS5230 - Communication of Current Topics in Nutrition (CI) - 3cr.
- NDFS5250 - Occupational Experiences in Nutrition and Food Sciences - 1cr.
- NDFS5310 - Fundamentals of Nutrition Research - 3cr.
- NDFS5450 - Study Abroad Experience - 1cr.
- NDFS5510 - Food Laws and Regulations - 3cr.

1. NDFS 5250 - requires approval from Korry Hintz; minimum 2 credits
2. NDFS 5450 - minimum 2 credits

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

Federal Gainful Employment Information

The Nursing Assistant program is designed for students to receive their certification by completing coursework in classroom and clinical settings.

Admission Requirements for this Program

Additional Application Process Required - See below, ask an advisor for details

Students must be at 16 years old by the first day of class.

Pre-Admission Assessment taken at the Testing Center: Must score an 80% or higher. Students have 3 tries within a year to reach required score.

Personal Documentation Requirements:

- Immunization Records
- Annual Influenza Vaccine
- 2-Step TB Test
- Background Check for anyone 18 years and older
- Drug Screen

Physical Demands:

- Communicate effectively with patients and coworkers using speech and hearing.
- Stand and walk for extended periods.
- Bend, kneel, stoop, crouch, crawl, and climb without restriction.
- Frequently lift or move objects and patients over 50 pounds.
- Use close, distance, color, peripheral vision, depth perception, and quickly adjust focus.

Nursing Assistant Course Requirements

Type
Completion Requirement

Required Course (3 Credits)

Complete ALL of the following Courses:

- TENA1100 - Nursing Assistant - 3cr.

Program Learning Outcomes

Program Learning Outcomes

- Explain activities of daily living and nursing assistant scope of practice.
- Demonstrate correct recognizing and reporting, communication, infection control, safety, and residents' rights in the care setting.
- Demonstrate proficiency in all skills required for state certification.
- Perform nursing assistant skills in a healthcare setting.

Nursing - AAS

Program Overview

College
College of Education & Human Services

Department
Nursing

Program Level
Undergraduate

About this Degree

The Associate of Applied Science degree builds upon the practical nursing certificate and is designed for students who wish to continue their nursing education and obtain licensure as a registered nurse (RN). A minimum of 15 hours of general education, which shall include courses in composition, math, human relations, and six hours outside the major, are required in addition to the major courses for the Associate of Applied Science degree.

In addition to the Practical Nursing Certificate admissions requirements, AAS students must also:

1. Submit a completed application to the nursing department between January 1st and February 15th.
2. Obtain a grade of C or better in all prerequisite courses. Applicants who have completed a prerequisite course with more than three attempts without achieving a grade of C or better will not be considered for admission. Courses may *not* be taken on a pass/fail basis.
3. Pass the NCLEX-PN and submit a copy of current practical nursing license in good standing in the state of Utah, no later than one week prior to the first day of fall semester. This requirement does not apply to USU PN students immediately (without a break in their nursing program) transitioning to the USU AAS program in Blanding, Moab and Price.

After acceptance to the USU AAS program, students will be given instructions on how to submit results of a clean criminal background check, a negative drug screen, Basic Life Support (BLS) certification, and proof of required immunizations per program policy.

AAS students must maintain at least a 79.5% exam average and a grade of B- or better in all nursing courses. Courses may *not* be taken on a pass/fail basis. Students will receive the lesser of the exam average or overall course average as the course grade.

- For more information about the Nursing AAS program, see the department website.
- Current and admitted students must meet with an advisor to co-create their Degree Works plan. Student-specific Degree Works plans may differ.
- Graduation applications are due February 28th.

Nursing - AAS

Type
Completion Requirement

Prerequisite Courses (23-26 credits)

Students must receive a minimum grade of C or better in all prerequisite courses ***except*** NURS2500 PATHOPHYS NURSING or BIOL2520 PATHOPHYSIOLOGY.

Fulfill ALL of the following requirements:

Prerequisite Courses (17 credits)

Complete ALL of the following Courses:

- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
  OR PSY1010 - General Psychology (BSS) - 3cr.
  OR PSY1100 - Lifespan Development - 3cr.
- NURS2500 - Pathophysiology for Nursing - 3cr.
  OR BIOL2520 - Pathophysiology - 3cr.

NOTE:

1. BIOL2420 HUMAN PHYSIOLOGY - Must be completed within 5 years of program entry.
2. ENGL1010 WRITING AS INQUIRY (CL1) - Or any other CL1 course.
3. NURS2500 PATHOPHYS NURSING or BIOL2520 PATHOPHYSIOLOGY - Must have a minimum grade of B- or better.

AND

Math Prerequisite (3-5 credits)

Complete ALL of the following Course Sets:

- Quantitative Literacy (QL) Course

AND

Chemistry Options (3- 4 credits)

Choose one of the following Chemistry options:

Fulfill ANY of the following requirements:

Chemistry Option 1

Complete ALL of the following Courses:

- CHEM1010 - Introduction to Chemistry (BPS) - 3cr.

OR

Chemistry Option 2

Complete ALL of the following Courses:

- CHEM1110 - General Chemistry I (BPS) - 4cr.

Practical Nursing Courses (22 credits)

Complete ALL of the following Courses:

- NURS1010 - Introduction to Nursing - 2cr.

- NURS1020 - Fundamental Concepts of Nursing - 4cr.
- NURS1030 - Fundamental Concepts of Nursing Clinical - 4cr.
- NURS1042 - Maternal-Newborn Nursing - 1cr.
- NURS1110 - Pharmacology - 1cr.
- NURS1122 - Pediatric Nursing - 1cr.
- NURS1220 - Nursing Process I - 4cr.
- NURS1230 - Nursing Process I Clinical - 4cr.
- NURS1240 - Pharmacology 2 - 1cr.

Associate Nursing Courses (20 credits)

Complete ALL of the following Courses:

- NURS2020 - Nursing Process II - 5cr.
- NURS2030 - Nursing Process II Clinical - 4cr.
- NURS2140 - Advanced Maternal-Newborn Nursing - 1cr.
- NURS2220 - Manager of Care - 5cr.
- NURS2230 - Manager of Care Clinical - 4cr.
- NURS2240 - Advanced Pediatric Nursing - 1cr.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in Utah and other Nurse License Compact (NLC) states. If students license in any of these states, they are considered licensed and can work in any of the other NLC states.

The Department of Nursing has not determined if this program meets licensure requirements in the non-NCL states, although it is possible as the National Council of State Boards of Nursing (NCSBN) requirements across the United States are the same.
