Nursing - BSN

Program Overview

College
College of Education & Human Services

Department
Nursing

Program Level
Undergraduate

About this Degree

This four-year program leads to a Baccalaureate of Science in Nursing (BSN) degree, qualifying graduates to apply for RN licensure and preparing them for graduate degrees in nursing.

The USU Nursing Program integrates nursing theory with biological, physical, and behavioral sciences through classroom, lab, and clinical experiences in multiple healthcare settings. It is accredited by the Accreditation Commission for Education in Nursing (ACEN).

- Visit the Nursing Department website for BSN program details.
- Pre-nursing and admitted Nursing students must meet with a Nursing advisor to create and update their Degree Works plan.
- The highest math requirement for this degree is STAT1040 INTRO TO STATISTICS (QL), STAT1045 INTRO STAT WITH ALGEBRA (QL), or STAT 1080.

Admission Requirements for this Program

Nursing admits up to 30 students **twice** per year into the Nursing BSN program. Applications are available on the Department of Nursing website and will be submitted online. Applications deadlines are as follows:

- **Application for Fall Entry: accepted annually January 1 – February 15**
- **Application for Spring Entry: accepted annually July 1 – August 15.**

**** If taking prerequisites at another university, inform your Nursing Advisor and provide updates on your progress and final grade to maintain eligibility for admission.***

- Proof of Certified Nursing Assistant (CNA) or Medical Assistant (MA) certification is required at the time of application. CNA/MA work experience is preferred.
- Score 75% or higher on the HESI A2 exam (maximum two attempts, with at least two weeks between attempts).
- Submit all application materials, including a resume (template provided), HESI A2 results, CNA or MA Certificate, and application fee receipt.
- After submission, applicants will receive details on the writing assignment.

Prerequisite courses require a C or better and cannot be taken pass/fail. Applicants with more than three attempts per course without a C grade will not be considered. AP credit is pass/fail; consult your advisor for approved AP course credit and score conversions.

Program Requirements

Total Credits Required In Program Coursework
52

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- Earn a grade of C or better in all prerequisites and a B- or better for all NURS courses. Courses may *not* be taken on a pass/fail basis.
- Maintain a minimum GPA of 2. 67 in major courses.
- Maintain a 2.0 overall GPA.
- Maintain a minimum exam average of 79. 5%, and a B- or better in all NURS courses. Students will receive the lesser of the exam average or the overall course average as the course grade.

After acceptance to the USU BSN program, students will be given instructions on how to submit the results of a background check, a negative drug screen, Basic Life Support (BLS) certification, CNA or MA certificate/degree, and proof of required immunizations per program policy.

Prerequisites Required for Admission to Program

Type
Completion Requirement

Application for Entry

Fulfill ALL of the following requirements:

Required Prerequisites

These prerequisite courses require a minimum grade of C and 2. 0 overall GPA for program application.

Earn a minimum grade of C in the following:

- BIOL2060 - Elementary Microbiology - 4cr.
- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
- CHEM1130 - General, Organic, & Biological Chemistry - 4cr.
- CHEM1135 - General, Organic, and Biological Chemistry Lab - 1cr.

NOTE:

1. BIOL2420 HUMAN PHYSIOLOGY - Must be completed within 5 years of BSN program entry.

AND

Required Prerequisites with Time Limitations

These prerequisites require a minimum C and 2. 0 overall GPA and **must be completed prior to starting the program.**

Earn a minimum grade of C in the following:

- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT1080 - Foundations of Data Science (QL) - 3cr.
- NURS2500 - Pathophysiology for Nursing - 3cr.
  OR BIOL2520 - Pathophysiology - 3cr.

NOTE:

1. NURS2500 PATHOPHYS NURSING - Must pass the class with a B- or better and an overall test average of 79.5% or better.
2. BIOL2520 PATHOPHYSIOLOGY - Must pass the class with a B- or better and an overall test average of 79.5% or better.

Nursing - BSN Major Requirements

Type
Completion Requirement

Prerequisite Courses (29-31 credits)

Complete ALL of the following Courses:

- BIOL2060 - Elementary Microbiology - 4cr.
- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
- CHEM1130 - General, Organic, & Biological Chemistry - 4cr.
- CHEM1135 - General, Organic, and Biological Chemistry Lab - 1cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT1080 - Foundations of Data Science (QL) - 3cr.
- NURS2500 - Pathophysiology for Nursing - 3cr.
  OR BIOL2520 - Pathophysiology - 3cr.

NOTE:

1. NURS2500 PATHOPHYS NURSING - Must pass the class with a B- or better and an overall test average of 79.5% or better.
2. BIOL2520 PATHOPHYSIOLOGY - Must pass the class with a B- or better and an overall test average of 79.5% or better.

Nursing Core Courses (53 credits)

Earn a minimum grade of B- in the following:

- NURS3010 - Nursing Health Assessment, Teaching, & Skills - 2cr.
- NURS3020 - Fundamentals of Nursing - 2cr.
- NURS3025 - Fundamentals of Nursing Practicum - 2cr.
- NURS3030 - Nursing Management of Care I - 4cr.
- NURS3035 - Nursing Management of Care I Practicum - 3cr.
- NURS3040 - Pharmacology in Health Care - 3cr.
- NURS3200 - Psychiatric Mental Health Nursing - 3cr.
- NURS3210 - Population Health and Prevention (CI) - 3cr.
- NURS3215 - Population Health and Prevention Practicum - 2cr.
- NURS3220 - Family Nursing through the Lifespan - 4cr.
- NURS3225 - Family Nursing through the Lifespan Practicum - 2cr.
- NURS3230 - Evidence-Based Health Care (QI) - 3cr.
- NURS3240 - Health Information Management and Technology - 2cr.
- NURS4010 - Leadership, Management, and Policy in Health Care (CI) - 3cr.
- NURS4020 - Nursing Management of Care II - 4cr.
- NURS4025 - Nursing Management of Care II Practicum - 4cr.
- NURS4210 - Nursing Capstone - 2cr.
- NURS4215 - Nursing Capstone Practicum - 4cr.

Open Electives

Complete the following as needed:

Total elective credits are determined by completed General Education and University Study credits, prerequisites, and Nursing major credits. Please consult your Academic Advisor for details.

Nursing: RN to BSN - BS (Online Program)

Program Overview

College	Department	Program Level
College of Education & Human Services	Nursing	Undergraduate

About this Degree

Students build on their Associate Degree in Nursing to become outstanding nurses through relevant coursework with the advantage of a flexible schedule. In the RN to BSN program, students continue to practice critical thinking, and apply clinical reasoning to make decisions, manage healthcare resources, apply leadership and management skills, and gain additional experience in community and public health settings.

The RN to BSN Completion curriculum of study includes professional nursing practice, population health, evidence-based health care, health informatics, care of the aging adult, advanced health assessment, leadership, management and policy, health care trends and issues, and a final capstone experience.

- For more information about the Nursing - RN to BSN (online program), visit the Nursing website.
- *Associate degree graduates may need to take additional courses to satisfy all general education and depth requirements.*
- All admitted and current students are required to meet with theRNtoBSN advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL).

Admission Requirements for this Program

USU's RN to BSN program is an entirely online program that admits up to 45 students twice each year.

Applications are available on the Department of Nursing website and will be submitted online. Application dates are as follows:

- Fall semester admission: January 1 - March 31
- Spring semester admission: June 1 - August 31

Required qualifications for admission include:

- Current, unencumbered RN licensure. If currently enrolled in an RN program, submit your RN license by the first day of your first semester in the RN to BSN program.
- Minimum GPA of 2.67
- Graduation from an accredited associate degree RN program (ACEN or other U.S. Department of Education approved nursing program)
    - Minimum of 63 earned credits.
- Submission of all required application materials by the due date listed for the preferred semester.
- Submission of all official transcripts of previous education to the USU Logan campus Registrar's office.

Outdoor Adventure Leadership - Minor

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

The outdoor adventure leadership minor equips students with the skills and knowledge to pursue entry-level positions in outdoor recreation settings, such as river guiding in Moab, managing a climbing expedition company in Jackson Hole, or teaching skiing in Park City. Through hands-on experience leading and guiding individuals and groups in a range of outdoor environments, including mountains, rivers, lakes, and deserts, students gain practical knowledge and expertise in outdoor recreation.

Admission Requirements for this Program

- New freshmen, transfer students, and students from other USU majors who have at least a 2.0 overall GPA qualify to declare the Outdoor Adventure Leadership minor.

Program Requirements

Total Credits Required In Program Coursework
16

Total Credits Required To Earn This Credential
16

Simple Requisites

Program Requirements

- A 2.0 overall GPA is required to receive the minor upon graduation with a bachelor's degree.
- A grade of **C** or better is required for all courses taken for the minor, and a **minimum GPA of 2.5** is required for all **minor coursework**. Coursework cannot be taken for a pass/fail grade, except for P. E. courses and other courses graded pass/fail.

Section 1

Type
Completion Requirement

Required Courses (14 credits)

Complete ALL of the following Courses:

- PE1543 - Wilderness First Aid - 1cr.
- RAM1700 - Backcountry Basics: Designing a Backcountry Experience - 3cr.
- RAM2250 - RAM Cooperative Work Experience - 4cr.
- RAM2500 - Outdoor Recreation Management - 3cr.
- RAM3400 - Outdoor Education and Facilitation - 3cr.

Section 2

Type
Completion Requirement

Outdoor Adventure Lifetime Activity Electives (2 credits required)

- Must complete 2 credits of Outdoor Adventure Lifetime Activity Courses.
- Choose 2 credits from RAM5900 INDEPENDENT STUDY - **Independent Study** or **PE-prefix courses ranging from 1505 to 1615 (course numbers).** PE courses teach outdoor adventure activities.

Complete at least 2 of the following courses:

- RAM5900 - Independent Study - 1cr.
- PE1505 - Kayaking - 1cr.
- PE1507 - Swiftwater Safety - 2cr.
- PE1508 - River Guide Preparation - 3cr.
- PE1509 - River Running I - 1cr.
- PE1510 - Fly Fishing - 1cr.
- PE1511 - Fly Tying Beginning - 1cr.
- PE1512 - Fly Tying Intermediate - 1cr.
- PE1513 - Fly Casting - 1cr.
- PE1514 - Fly Rod Building - 1cr.
- PE1520 - Hiking - 1cr.
- PE1527 - Rock Climbing: Basic - 1cr.
- PE1528 - Advanced Rock Climbing - 1cr.
- PE1530 - Bouldering - 1cr.
- PE1544 - Wilderness First Responder - 3cr.
- PE1547 - Avalanche AIARE 1 (Avy 1) - 2cr.
- PE1548 - Avalanche AIARE 2 (AVY 2) Course - 2cr.
- PE1549 - AIARE Avalanche Rescue - 1cr.
- PE1550 - Cycling - 1cr.
- PE1565 - SKATING - 1cr.
- PE1580 - Canyoneering I - 1cr.
- PE1605 - Skiing - 1cr.
- PE1615 - Snowboarding - 1cr.

Outdoor Adventure Leadership - Certificate

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

This certificate aims to create a community of highly skilled, knowledgeable, and safety-conscious leaders. Graduates will be poised to enter the outdoor adventure industry with a robust skill set that includes not only effective leadership but also a deep commitment to safety and ethical considerations. The program is designed to be both academically rigorous and experientially enriching, preparing students for socially and environmentally responsible roles in the field of outdoor adventure.

Program Requirements

Total Credits Required In Program Coursework
16

Total Credits Required To Earn This Credential
16

Simple Requisites

Program Requirements

The Certificate is available to all majors.

- Cumulative Number of Required Credits: 16
- Cumulative Minimum GPA in **Certificate Coursework** for Graduation: **2.5 GPA**
- Courses may not be taken on a pass/fail basis except for those courses that are only taught pass/fail

Outdoor Adventure Leadership - Certificate

Type
Completion Requirement

Required Core Courses (14 credits)

Complete ALL of the following Courses:

- PE1543 - Wilderness First Aid - 1cr.
- RAM1700 - Backcountry Basics: Designing a Backcountry Experience - 3cr.
- RAM2250 - RAM Cooperative Work Experience - 4cr.
- RAM2500 - Outdoor Recreation Management - 3cr.
- RAM3400 - Outdoor Education and Facilitation - 3cr.

Required Elective Courses (2 credits)

Students must choose **two credits from either** RAM5900 INDEPENDENT STUDY **- Independent Study or Physical Education (PE) Activity courses** from a range of options focusing on outdoor recreation skills **(PE 1505-1615)**.

Complete at least 2 of the following courses:

- RAM5900 - Independent Study - 1cr.
- PE1505 - Kayaking - 1cr.
- PE1507 - Swiftwater Safety - 2cr.
- PE1508 - River Guide Preparation - 3cr.
- PE1509 - River Running I - 1cr.
- PE1510 - Fly Fishing - 1cr.
- PE1511 - Fly Tying Beginning - 1cr.
- PE1512 - Fly Tying Intermediate - 1cr.
- PE1513 - Fly Casting - 1cr.
- PE1514 - Fly Rod Building - 1cr.
- PE1520 - Hiking - 1cr.
- PE1527 - Rock Climbing: Basic - 1cr.
- PE1528 - Advanced Rock Climbing - 1cr.
- PE1530 - Bouldering - 1cr.
- PE1544 - Wilderness First Responder - 3cr.
- PE1547 - Avalanche AIARE 1 (Avy 1) - 2cr.

Outdoor Product Design and Development - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The **Outdoor Product Design and Development** program prepares students for exciting careers in the sports, outdoor, and active industries by creating innovative, sustainable, and impactful products.

As the first bachelor's degree of its kind, this hands-on program integrates industrial design, engineering, digital design, fashion, sustainability, marketing, business, and supply chain management—key elements in consumer product development.

Bringing products to market requires collaboration between designers, developers, product line managers, engineers, and others. After a series of foundational courses, students can specialize in one of three emphasis areas:

Design Emphasis: Master the design process, user research, idea visualization, and CAD modeling techniques to develop products conceptually and as producible prototypes.

Development Emphasis: Focus on project management, production, supply chain, and operations to turn concepts into market-ready products.

Product Line Management Emphasis: Learn leadership, market research, and product planning to manage costs, schedules, and successful product launches.

- For more information about Outdoor Product Design and Development, see the website
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is emphasis specific: Any Quantitative Literacy (QL)

Admission Requirements for this Program

- **New Freshmen:** Must be admitted to USU in Good Standing.
- **Transfer Students from other institutions or programs:** Minimum 2.67 GPA.
- **Matriculation:** All Outdoor Product Design and Development (OPDD) students must apply for acceptance into the Design, Development, or Product Line Management program after completing core courses and submitting an advancement package in their sophomore year.

Program Requirements

Total Credits Required In Program Coursework
68

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

***Advancement Package or Portfolio Requirements for Matriculation* To matriculate into the Professional Program (final two years), all Outdoor Product Design, Development, and Product Line Management students must meet the following criteria:**

- **Overall GPA:** 2.67
- **GPA in OPDD Core Courses:** 3.0
- **Minimum Grade:** C or better in core OPDD courses
- **Electives**
- Students receive advancement guidelines in OPDD2710
- Students must apply to submit their portfolio by **5 PM MST** on the last day of Fall classes.
- The Advancement Package or Portfolio submission is due by **5 PM MST** the Friday before Spring Break.
- A minimum grade of **C** is required for all Pre-Professional courses.
- No more than **2 retakes** are allowed in the Pre-Professional program.
    - Retakes include multiple repeats of the same course and audits.
- The **pass/fail grading option** cannot be used for required or elective Pre-Professional courses (though it is allowed for University Studies courses).

For more information, please consult the OPDD academic advisor and visit opdd.usu.edu

Professional Program Requirements:

Students are admitted to the OPDD Professional Program only in the fall semester and must follow the designated course sequence as outlined in the 4-year program of study.

- Due to class capacities, OPDD courses cannot be repeated or taken out of sequence.
- Students who do not follow the prescribed sequence of OPDD courses in the 4-year program of study must reapply to complete the major.
- Design emphasis students who do not take studio courses in order must reapply to complete the studio sequence. No more than **3 credit hours** of D, D+, or C- grades can count toward graduation requirements.
- **No repeats** allowed in Professional Program courses.
- Studio courses cannot be repeated; students receiving an F must reapply to complete the program.
- The **pass/fail grading option** is not permitted for required or elective courses in the Professional Program (it is allowed for University Studies courses).
- Leave of absence requests for military service, medical conditions, or extenuating circumstances will be reviewed by OPDD faculty.

For more information about Outdoor Product Design and Development, see the website

Admitted and current students must meet with an advisor.

Log on to Degree Works to check student-specific program progress.

Software Requirements

Students will need access to the following software programs by either purchasing their own or using a campus computer lab. It is strongly suggested that they meet with faculty before purchases are made as changes could occur.

- Adobe Illustrator
- Adobe Photoshop
- Keyshot
- Rhinoceros 3-D

- Solidworks (optional)

Outdoor Product Design and Development - BS

Type
Completion Requirement

OPDD Required Core Courses (31 credits)

Students will need the following courses with a C or better to submit a portfolio:

Fulfill ALL of the following requirements:

Lower-level OPDD Technical Electives

Complete at least 2 of the following courses:

- TESY1030 - Material Processing Systems - 3cr.
- FCSE1040 - Introductory Sewing - 3cr.
- TESY1200 - Computer-Aided Drafting and Design - 3cr.
- TEE2030 - Wood-Based Manufacturing Systems - 3cr.
- FCSE2040 - Intermediate Clothing Construction Skills, Principles, and Alterations - 3cr.
- OPDD2050 - Intermediate Soft Goods Gear Construction & Development - 3cr.

AND

Outdoor Product Design and Development Core Courses

Complete ALL of the following Courses:

- OPDD1000 - Product Concept Sketching - 3cr.
- OPDD1010 - Introduction to Digital Visualization - 3cr.
- OPDD1050 - Fundamentals of Design - 3cr.
- OPDD1100 - Introduction to Product Creation - 3cr.
- OPDD1750 - History of Outdoor Products (BHU) - 3cr.
- OPDD2000 - From Insight to Innovation: Design Research Foundations - 3cr.
- OPDD2010 - Form Development - 3cr.
- OPDD2710 - Outdoor Product Design& Development Professional Seminar - 1cr.
- OPDD2420 - Digital Technologies for 2-D Design - 3cr.
- OPDD2430 - Digital Technologies for 3-D Design - 3cr.

Undergraduate students must matriculate (be accepted) to the program. Matriculation is based on required core courses along with an advancement package or portfolio of work. Matriculation advancement packages or portfolios will be submitted spring of the student's sophomore year.

Additional Required Courses (17-18 credits)

These courses will be taken after admission into the OPDD program. Courses require a grade of C or better.

Complete ALL of the following Courses:

- FCSE3030 - Textile Science (DSC/QI) - 4cr.
  OR CCA3070 - Unveiling the Anthropocene (DSC/QI) - 3cr.
- OPDD3030 - Design Thinking, Methods, and Materials (CI) - 3cr.
- OPDD3500 - Applied Material Science - 3cr.
- OPDD3600 - Sustainable Design and Operations - 3cr.
- OPDD3700 - Outdoor Product Design & Development Professional Seminar II - 1cr.
- OPDD4040 - Outdoor Product Testing & Research - 3cr.
- OPDD4770 - Senior Exhibit - 1cr.

Design Emphasis (24 credits)

Fulfill ALL of the following requirements:

QL Requirement

Requires a C- or better

Complete at least 1 course in the following course sets:

- Quantitative Literacy (QL) Course

AND

BPS Requirement

Complete at least 1 of the following courses:

- CHEM1010 - Introduction to Chemistry (BPS) - 3cr.
  OR PHYS1010 - Elementary Physics (BPS) - 3cr.
  OR PHYS1200 - Introduction to Physics by Hands-on Exploration (BPS) - 4cr.
  OR PHYS1800 - Physics of Technology (BPS) - 4cr.

AND

Design Emphasis Required Courses

Requires a grade of C or better

Complete ALL of the following Courses:

- OPDD3400 - Color Theory & Design - 3cr.
- OPDD3760 - Outdoor Product Design and Development Studio I - 3cr.
- OPDD3800 - Advanced Digital Visualization - 3cr.
- OPDD4440 - Aesthetics and Brand Identity - 3cr.
- OPDD4750 - Senior Design Studio I - 3cr.
- OPDD4760 - Senior Design Studio II - 3cr.
- OPDD4770 - Senior Exhibit - 1cr.
- OPDD Technical Electives (6 - 9credits required)
- An OPDD Technical Elective course can be taken as an alternative to OPDD 3400, see advisor for more information

Development Emphasis (27 credits)

Courses require a grade of C or better.

Fulfill ALL of the following requirements:

QL Requirement

Complete at least 1 course in the following course sets:

- Quantitative Literacy (QL) Course

AND

BPS Requirement

Complete ALL of the following Courses:

- CHEM1010 - Introduction to Chemistry (BPS) - 3cr.
  OR PHYS1010 - Elementary Physics (BPS) - 3cr.
  OR PHYS1200 - Introduction to Physics by Hands-on Exploration (BPS) - 4cr.
  OR PHYS1800 - Physics of Technology (BPS) - 4cr.

AND

Development Emphasis Required Courses:

Complete ALL of the following Courses:

- DATA1100 - Excel for Business Analysis - 1cr.
- MGT3700 - Operations Management - 3cr.
- MGT4790 - Managing Global Value Chains - 2cr.
- MGT4720 - Sales and Operations Planning - 2cr.
  OR ITLS4110 - Project and Product Management - 3cr.
- OPDD4250 - Outdoor Product Design and Development Industry Experience - 1cr.
  OR OPDD4900 - Senior Project Research and Creative Opportunity - 3cr.
- TESY4330 - Product Innovation Processes, Tools, and Strategies - 3cr.

- OPDD Technical Electives (15 credits required)

grade of B- or better is required in MGT3700 OPERATIONS MGMT
3 credits required in OPDD4250 OUTDOOR INDUSTRY EXPERIENCE

Product Line Management Emphasis (27 credits)

Fulfill ALL of the following requirements:

QL Requirement

Requires a C- or better

Complete at least 1 course in the following course sets:

- Quantitative Literacy (QL) Course

AND

BPS Requirement

Complete at least 1 of the following courses:

- CHEM1010 - Introduction to Chemistry (BPS) - 3cr.
  OR PHYS1010 - Elementary Physics (BPS) - 3cr.
  OR PHYS1200 - Introduction to Physics by Hands-on Exploration (BPS) - 4cr.
  OR PHYS1800 - Physics of Technology (BPS) - 4cr.

AND

Product Line Management Emphasis Required Courses

Requires a C or better

Complete ALL of the following Courses:

- DATA1100 - Excel for Business Analysis - 1cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3855 - Sustainability Marketing - 2cr.
- MSLE3620 - Marketing Research and Analytics - 2cr.
- MSLE4510 - Consumer Behavior - 2cr.
- MSLE4590 - Marketing Strategy - 3cr.
- OPDD3400 - Color Theory & Design - 3cr.
- OPDD4440 - Aesthetics and Brand Identity - 3cr.
- OPDD4250 - Outdoor Product Design and Development Industry Experience - 1cr.
  OR OPDD4900 - Senior Project Research and Creative Opportunity - 3cr.

- OPDD Technical Electives (6-9 credits required)

- An OPDD Technical Elective course can be taken as an alternative to OPDD 3400, see advisor for more information

grade of B or better required in MSLE3500 FUND OF MARKETING
3 credits are required in OPDD4250 OUTDOOR INDUSTRY EXPERIENCE

Technical Elective Courses

OPDD Technical Elective requirements determined by emphasis: design emphasis (6 credits), development emphasis (15 credits), product line management (6 credits).

Earn at least 6 credits from the following:

- ASTE3030 - Metal Fabrication for Agriculture and Natural Resource Industries - 3cr.
- FCSE3040 - Advanced Clothing Studies: Patternmaking - 3cr.
- FCSE3080 - Fashion Studies and Society (DHA) - 3cr.
- FCSE3140 - Digital Patternmaking for Apparel - 3cr.
- FCSE4030 - Textiles and Technology - 3cr.
- FCSE4040 - Advanced Apparel Studies - 3cr.
- FCSE4140 - Advanced Apparel Design - 3cr.
- OPDD2050 - Intermediate Soft Goods Gear Construction & Development - 3cr.
- OPDD3800 - Advanced Digital Visualization - 3cr.
- OPDD3810 - Performance Wear - 3cr.
- OPDD3820 - Equipment Design - 3cr.
- OPDD3900 - Special Problems in Outdoor Product Design and Development - 1cr.
- OPDD4240 - Advanced Gear Design - 3cr.
- OPDD4510 - Footwear Concepts - 3cr.
- TEE4320 - Advanced Applications in Woods and Composites - 3cr.
- TESY3030 - Computer-Integrated Manufacturing Systems - 3cr.
- TESY3200 - Additive Manufacturing I - 3cr.
- TESY3270 - Advanced Computer-Aided Drafting - 3cr.
- TESY4230 - Advanced Materials and Processing Systems - 3cr.
- TESY4300 - Intellectual Property for Product Developers - 3cr.
- TESY4330 - Product Innovation Processes, Tools, and Strategies - 3cr.
- OPDD4250 - Outdoor Product Design and Development Industry Experience - 1cr.
  OR OPDD4900 - Senior Project Research and Creative Opportunity - 3cr.

In the OPDD Development and Product Line Management tracks, 3 credits are required in OPDD4250 OUTDOOR INDUSTRY EXPERIENCE or OPDD4900 SENIOR PROJECT RESEARCH

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students need a minimum C grade in required core courses

Advancement Package or Portfolio is due spring semester of second year.

PORTFOLIO REQUIREMENTS: ***All design, development, and product line management students MUST apply to matriculate into the Professional Program (final two years). To apply to matriculate a student must have a 2.67 overall GPA, a 3.0 minimum OPDD GPA, with a C or better in the OPDD core courses, and two of the following lower-level OPDD technical elective courses. Students must apply to submit an advancement package or portfolio 5 PM MST the last day of Fall classes. Students submission of advancement package or portfolio is due by 5 pm MST the Friday before Spring Break.***

Organizational Communication - Minor

Program Overview

College	Department	Program Level
College of Arts & Sciences	Communication & Media	Undergraduate

About this Degree

About this Minor

The Organizational Communication minor at USU is designed to help students develop a specific set of communication skills to effectively engage in all kinds of organizations, including collaboration, decision-making, conflict, leadership, etc.

This minor is designed to:

- Increase your communication competence in workplace settings.
- Help you understand and explain how communication can positively shape and improve organizations.
- Improve your ability think through communication challenges and come up with effective solutions.

To declare an Organizational Communication minor, students need to contact the department academic advisor.

Students receive a minor by completing twelve Communication Studies (CMST) credits in the required categories. Please make sure to consult regularly with your departmental advisor to confirm what courses will be available and to work out your plan of study.

- Admitted and current students are encouraged to meet with the academic advisor for the program.
- Once declared, log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

Admission Requirements for this Program

- Students must contact the academic advisor for admission to the major.
- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.5 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
12	12

Simple Requisites

Program Requirements

- **Total Credits:** 12
- **Requirements to Declare Organizational Communication Minor:** 2.5 Overall GPA and completion of one CMST course.
- **Grade Point Average to Graduate with Organizational Communication Minor:** 2.5 GPA within minor coursework
- **Credits in Residence:** At least half (50 percent) of the credits earned for this minor must be completed through USU and be approved by the department head.

- **Minimum Grade Requirement:** All courses taken for the minor require a minimum grade of **C-** or better. Courses for the minor *may not* be taken on a pass/fail basis.
- **Note:** As many as 6 credits completed at other colleges or universities may be used to partially satisfy these requirements. At least 6 of the 12 total credits must be completed in courses offered at the 3000 level or above. For more information, please contact the program's academic advisor.

Section 1

Type
Completion Requirement

Required Course (3 credits)

Complete ALL of the following Courses:

- CMST3250 - Organizational Communication (CI) - 3cr.

Section 2

Type
Completion Requirement

Elective Communication Courses (9 credits)

Earn at least 9 credits from the following:

- CMST2120 - Group Collaboration and Decision Making - 3cr.
- CMST3280 - Organizations and Social Change - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.
- CMST3400 - Persuasion - 3cr.
- CMST3600 - Communication and Conflict - 3cr.
- CMST3730 - Culture and Global Intervention (DHA) - 3cr.
- CMST4200 - Language, Thought, and Action (CI/DSS) - 3cr.
- CMST5500 - Communication and Leadership - 3cr.

Ornamental Horticulture - AAS

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Undergraduate

About this Degree

This program provides practical training in greenhouse and nursery management, turf production, and landscape management. Coursework encompasses pest control, plant identification, construction of landscapes, small business management, and the operation and maintenance of equipment, including small engines. As an integral part of their training, students are required to complete an internship in the industry. Students may work toward a **one-year certificate** or an **Associate of Applied Science Degree.**

- For more information about Ornamental Horticulture, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.50 GPA.

Program Requirements

The 63 credits are distributed as follows. Some courses require biology prerequisite courses.

Ornamental Horticulture Program Associate of Applied Science Degree (63 credits)

Type
Completion Requirement

General Education Requirements (15-16 credits)

Complete ALL of the following Course Sets:

- Communications Literacy (CL1) Course
  AND Communications Literacy (CL2) Course

Breadth General Education Requirements

Fulfill ALL of the following requirements:

General Education (continued)

Complete at least 2 of the following courses:

- LAEP1030 - Introduction to Landscape Architecture (BCA) - 3cr.
- USU1300 - U.S. Institutions (BAI) - 3cr.
- PHIL1320 - The Good Life (BHU) - 3cr.
- USU1340 - Social Systems and Issues (BSS) - 3cr.

AND

General Education (continued)

Complete at least 1 of the following courses:

- CHEM1110 - General Chemistry I (BPS) - 4cr.
  OR PSC1800 - Introduction to Horticulture (BLS) - 3cr.

Choose remaining credits from the following courses: (30-33 credits)

Complete ANY of the following Courses:

- LAEP1200 - Introduction to Graphics and Illustration - 4cr.
- PSC2030 - Basic Flower Arranging - 2cr.
- PSC2700 - Climate Change Impacts (BPS) - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC3300 - Residential Landscapes - 3cr.
- PSC3400 - Arboriculture - 3cr.
- PSC3430 - Construction Methods for Residential Landscape Installation - 2cr.
- PSC3500 - Structure and Function of Plants - 3cr.
- PSC3700 - Plant Propagation - 4cr.
- PSC3810 - Turfgrass Management - 3cr.
- PSC4050 - Greenhouse Management and Crop Production - 4cr.
- PSC4301 - Computer Aided Residential Landscape Design - 3cr.
- PSC4302 - Advanced Residential Landscape Design - 3cr.
- PSC4400 - Modern Vegetable Production - 3cr.
- PSC4500 - Urban Soil Management and Reclamation - 3cr.
- PSC4550 - Integrated Weed Management - 3cr.
- PSC4900 - Special Problems - 1cr.
- PSC5090 - Sustainable Low Water Landscaping - 3cr.
- PSC5100 - Professional Turf and Urban Landscape Water Management - 3cr.
- PSC5222 - Temperate Zone Fruit Production - 3cr.
- PSC5420 - Landscape Irrigation Design (QI) - 2cr.

Elective Credits

A maximum of 11 credits can be taken

Complete ANY of the following Courses:

- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
  OR BIOL1610 - Biology I - 3cr.
- CHEM1110 - General Chemistry I (BPS) - 4cr.
- LAEP1030 - Introduction to Landscape Architecture (BCA) - 3cr.
- MATH1050 - College Algebra (QL) - 4cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

Internship Requirements (1 credit)

Planning & Design Technologies – BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Landscape Architecture & Environmental Planning

Program Level
Undergraduate

About this Degree

The B.S. in Planning & Design Technologies undergraduate program prepares future professionals to work in the environmental planning and design fields by equipping them with practical skills in design, drafting, representation, construction, and technology. The program prepares students to bridge the gap between planning and design and the technical aspects of practice. Graduates will support planners, designers (landscape architects and architects), and engineers in developing detailed construction documents, 3D models, geographic information analyses, and digital representations/renderings using software like AutoCAD, ArcMap, and Revit (Building Information Modeling).

- For more information about Planning & Design Technologies, see the department website.
- Current and admitted students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.0 GPA

Program Requirements

Total Credits Required In Program Coursework
69

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

A minimum overall GPA of 3.0 is required in LAEP-prefix courses, with no individual LAEP-prefix course grade less than a C-. No pass/fail grades are accepted to fulfill LAEP-prefix courses. A minimum USU GPA of 2.5 is required for all other courses used to fulfill major requirements.

Some of the core Applied Design Technology coursework fulfills general education requirements, such as BHU and CI requirements. Students should consult with their Academic Advisor and make a plan to complete all general education requirements.

Digital Modeling and Visualization Core (29 credits)

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- LAEP1200 - Introduction to Graphics and Illustration - 4cr.
- LAEP1300 - Digital Drafting, Illustration, and Modeling - 3cr.
- LAEP1360 - Fundamentals of Design - 4cr.
- LAEP2300 - History of Landscape Architecture (BHU) - 3cr.
- LAEP2400 - 3D Representation - 3cr.
- LAEP2900 - VR Design and Thematics Studio - 3cr.
- LAEP2450 - Artificial Intelligence Generative Design - 3cr.

- DMV1050 - Application and Ethics of Visualization - 2cr.
- DMV3100 - Unreal Engine 1 - 4cr.

Geospatial Technologies Core (14 credits)

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- LAEP5300 - GIS for Environmental Planning - 4cr.
- LAEP5400 - Advanced Geospatial Analysis and Visualization for Environmental Planning - 4cr.
- GEOG3700 - Python Programming for GIS - 3cr.
- GEOG5300 - Geospatial Analysis with R - 3cr.
  OR ENVS3500 - Environmental Data Science (QI) - 3cr.

Computer Assisted Drafting Core (17 credits)

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- LAEP2500 - Construction Materials and Detailing - 4cr.
- LAEP4110 - Landscape Construction II - 4cr.
- PSC4301 - Computer Aided Residential Landscape Design - 3cr.
- TEDR1110 - Introduction to Building Information Modeling - 3cr.
  OR IAD4790 - Building Information Modeling in Interior Architecture and Design - 3cr.
  OR EDDT2750 - Architectural Revit - 3cr.

Representation Core (9 credits)

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- LAEP3200 - Graphic Design for Landscape Architects and Environmental Planners - 3cr.
  OR MSLE3200 - Adobe Graphic Design - 3cr.
- OPDD2420 - Digital Technologies for 2-D Design - 3cr.
  OR TEE1010 - Graphic Communication Technologies - 3cr.
- LAEP4910 - Foundations of Business in Design and Planning (CI) - 3cr.

Electives (18 credits)

Type
Completion Requirement

Required Credit

Earn at least 18 credits

Additional Comments:

In addition to the core coursework required to develop the practical skills in Planning and Design Technologies students completing the degree program may receive an Associates of Digital Modeling and Visualization and a certificate in Advanced Design, Geospatial, and Visualization Technologies. In addition, the degree program is structured to provide students with opportunities to further differentiate themselves in the professional marketplace according to their interests and aptitudes. Students seeking a Bachelor of Science in Planning and Design Technologies degree are encourage to use available elective credit to complete a Certificate of Proficiency or Minor. The following are suggested certificates and minors which may be completed within the 120 credit requirement for the degree:

- Geographic Information Science - Minor or Applied Geographic Information Science - Certificate
- Residential Landscape Design - Minor
- Landscape Architecture - Minor
- Environmental Planning - Minor

Other certificates and minors may potentially be completed within the 120 credit requirement for the degree. Students seeking an alternate Certificate or Minor from the USU Catalog should consult with their Academic Advisor to declare a certificate or minor and make a plan to complete all degree requirements without extending beyond the 120 credits required to earn the Bachelor of Science in Planning and Design Technologies.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Program Learning Outcomes

The mission of the B.S. in Planning & Design Technologies undergraduate program is to prepare future professionals to work in the environmental planning and design fields by equipping them with practical skills in design, drafting, representation, construction, and technology. The curriculum will prepare students to bridge the gap between planning and design and the technical aspects of practice.

Paleontology - Institutional Certificate of Proficiency

Program Overview

College	Department	Program Level
College of Arts & Sciences	Geosciences	Undergraduate

About this Degree

To be proficient in paleontology, students need a core understanding of Earth history, as well as sedimentation and stratigraphy. In addition, there are multiple added skills and knowledge sets that usefully build upon this core. The series of elective courses provides the possibility of studying a broad range of specific topics relevant to paleontology, while also providing a focus in fossil identification. A special feature of the certificate is the availability of hands-on research and internship experiences with our faculty and through the Prehistoric Museum at USU Eastern.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential

Precision Agriculture Technology - Institutional Certificate of Proficiency

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Undergraduate

About this Degree

The Precision Agriculture Technology Post-Bachelor's Certificate is designed to prepare undergraduate students wishing to enhance their portfolios to understand and implement precision agriculture technology. Precision agriculture is a multi-faceted science that involves several different disciplines – including plant, soil, and climate sciences, several facets of engineering (electrical, agriculture, biological, irrigation, etc.), agricultural technologies and systems, applied economics, statistics, mathematics, and geographic information systems. This certificate incorporates these disciplines with courses from four departments (PSC, CEE, APEC, and ASTE). This certificate may be earned as a stand-alone certification or as part of a participating department's undergraduate program.

Students who complete the program will receive a post-bachelor's certificate in Precision Agriculture Technology. They will learn and become proficient in the latest techniques, tools, and technologies for precision agriculture, including site-specific management of crop inputs. Their USU transcript will list the courses and grades received to complete the certificate.

Admission Requirements for this Program

There are no specific admission requirements. Any enrolled student who completes the requirements will be awarded the certificate. Please reach out to the program coordinators if you have questions about eligibility or requirements.

Program Requirements

Total Credits Required In Program Coursework
14-16

Total Credits Required To Earn This Credential
14-16

Simple Requisites

Program Requirements

The Precision Agriculture Technology Certificate consists of a minimum of 12 credit hours. The certificate is designed to provide students with broad experience in key components of precision agriculture technology, science, engineering, and data analysis. Students may tailor their 12 credit hours depending on their goals, prior experience, and course work in precision agriculture topics. Students must maintain a minimum 3.0 GPA for program courses. Course grades less than a B (B- and below) do not count toward the certificate.

Section 1

Type
Completion Requirement

Remote Sensing/Geographic Information Systems (3-4 credits)

Select one course in Remote Sensing or Geographic Information Systems (GIS)

Complete at least 1 of the following courses:

- CEE5003 - Remote Sensing of Land Surfaces - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.

Additional Required Courses (8-10 credits)

Additional three courses will be required in plant/soil/water/applied economics/unoccupied aerial systems.

Complete at least 3 of the following courses:

- APEC3310 - Analytical Methods in Applied Economics (QI) - 3cr.
- APEC4310 - Agribusiness Finance - 3cr.
- APEC5015 - Applied Economics for Decision Making (QI) - 3cr.
- ASTE4250 - Occupational Experiences in Agriculture - 1cr.
- ASTE5260 - Environmental Impacts of Agricultural Systems (CI) - 3cr.
- AV3520 - UAS Guidance and Control - 3cr.
- CEE5001 - Design and Evaluation of Pressurized Irrigation Systems - 3cr.
- CEE5006 - Agricultural Water Management - 3cr.
- CEE5007 - Field Evaluation of Agricultural Irrigation Systems - 2cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC4320 - Forage Production and Pasture Management - 3cr.
- PSC4400 - Modern Vegetable Production - 3cr.
- PSC4550 - Integrated Weed Management - 3cr.
- PSC5710 - Irrigated Soils - 3cr.

Practicum (3 credits)

3 credits in Practicum coursework is required

Complete at least 1 of the following courses:

- ASTE5999 - Precision Agriculture Practicum - 3cr.
- CEE5999 - Precision Agriculture Practicum - 3cr.
- PSC5999 - Precision Agriculture Practicum - 3cr.

Parks and Recreation - Minor

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

Pursuing a minor in parks and recreation can provide a range of employment opportunities in the field of recreation and leisure services. These opportunities are diverse, as the ability to participate in recreational activities is influenced by individual attitudes, resources, financial capabilities, and educational awareness. Formal settings for recreation and leisure activities can include government agencies at the local, state, and federal levels, as well as quasi-public agencies, industrial and employee recreation programs, military recreation programs, and private or commercial recreation enterprises. A minor in parks and recreation can open the door to a variety of career paths in this dynamic and rewarding field.

Program Requirements

Total Credits Required In Program Coursework
15

Total Credits Required To Earn This Credential
15

Simple Requisites

Program Requirements

New freshmen, transfer students, and students from other USU majors who have at least a **2.0 overall GPA** qualify to enter the Parks and Recreation minor. A **2.0 overall GPA** is required to receive the minor upon graduation with a bachelor's degree. A minimum **grade of C or better must be earned in RAM (prefix) courses**. A pass/fail grading is not permitted for the minor courses, excluding P.E. activity courses and other courses graded as pass/fail. Students who are majoring in Recreation Administration may not add this minor.

Section 1

Type
Completion Requirement

Required Courses (9 credits)

Complete ALL of the following Courses:

- RAM1000 - Introduction to Recreation Services - 2cr.
- RAM4000 - Experience and Event Design - 3cr.

Section 2

Type
Completion Requirement

Elective Courses (9 credits)

At least 6 of the 9 credits must be RAM (prefix) courses.

Earn at least 9 credits from the following:

- RAM1500 - Leisure and Human Behavior (BSS) - 3cr.
- RAM2000 - Recreational Sport Management - 3cr.
- RAM2250 - RAM Cooperative Work Experience - 4cr.
- RAM2500 - Outdoor Recreation Management - 3cr.
- RAM3100 - Experience and Sport Promotion and Marketing - 3cr.
- RAM3400 - Outdoor Education and Facilitation - 3cr.
- RAM3900 - Civic Engagement in Recreation and Sports - 3cr.
- RAM4500 - Management of Recreation Services - 3cr.
- RAM4600 - Legal Issues and Risk Management of Recreation - 3cr.
- RAM5900 - Independent Study - 1cr.
- RAM5910 - Independent Research - 1cr.
- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.
- ENVS4130 - Natural Resource Recreation Policy and Planning - 3cr.
- ENVS4500 - Advanced Natural Resource Recreation Management (CI) - 3cr.
- ENVS5600 - Natural Resource Interpretation - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.

Phlebotomy Technician - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

Federal Gainful Employment Information

This program will provide students with the skills and knowledge needed to become competent phlebotomists. The program provides hands-on, competency-based technical education through classroom and laboratory instruction as well as hands-on practice. Lectures are given on basic and advanced phlebotomy, including the healthcare setting, overview of the human body, blood collection procedures, and special collection procedures. Laboratory skills being taught include

- Multi-sample Needle Newborn Screen
- Urinalysis Test Requisitions
- Butterfly Needle Hemoglobin
- Proper Patient Identification Order of Draw
- Needle to Syringe and Transfer Hematocrit
- Glucose Testing Specimen Transport
- Special Procedures Syncope
- Blood Cultures Centrifugation

Students have the opportunity to draw blood from classmates and volunteers. Upon completion students are eligible to take the National Certified Phlebotomy Technician (CPT) exam. Graduates are able to work as a phlebotomist and use their phlebotomy skills in a variety of hospitals, care centers, clinics, and other healthcare settings.

Admission Requirements for this Program

Students must turn 18 years old prior to hands-on lab hours.

Program Requirements

Phlebotomy Course Requirements (3 Credits)

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- TEPH1010 - Phlebotomy I - 2cr.
- TEPH1020 - Phlebotomy II - 1cr.

Program Learning Outcomes

Program Learning Outcomes

- Identify laboratory, OSHA, hazardous material, blood borne pathogen exposures, warning symbols, infection control, and patient safety rules.
- Gain a basic understanding of the laboratory equipment and computer systems.
- Demonstrate basic terminology for the healthcare setting, understand and utilize correct order of draw, and have basic knowledge of human anatomy and physiology related to venipuncture.
- • Draw blood correctly and safely from a patient by properly using equipment and supplies necessary while identifying and adjusting for any challenges associated with the venipuncture.
- Pass all final examinations, gain a certificate from the college and be eligible to take the National certification exam.

Product Development - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Product Development Certificate provides students with a focused and practical education in the design, development, and manufacturing of innovative products. This interdisciplinary program blends technical skills with creative problem-solving, preparing students to contribute meaningfully to product innovation across a variety of industries.

Students will gain hands-on experience in areas such as computer-aided design (CAD), materials processing, innovation strategies, and intellectual property. The curriculum emphasizes both the technical and strategic aspects of product development, offering a flexible and accessible credential for students seeking to enhance their design and manufacturing expertise.

This certificate is ideal for students pursuing careers in product design, manufacturing, prototyping, and innovation management. It also complements a variety of majors, offering valuable skills for those interested in entrepreneurship, engineering, or industrial design.

Physical Education Teaching - Minor

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

The Health Education Teaching Minor at Utah State University prepares students to teach health education in K–12 school settings. This program includes the essential coursework and practicum experiences required to apply for the Health Education endorsement through the Utah State Board of Education (USBE).

Students must either hold or be working toward a valid Utah teaching license to be eligible for the USBE endorsement. The minor is an excellent option for students in teacher preparation programs who want to enhance their credentials and expand their teaching opportunities.

Program Requirements

21

Total Credits Required To Earn This Credential
21

Simple Requisites

Program Requirements

Important Note: Completion of the program's academic requirements does not guarantee a recommendation for the USBE endorsement. A formal recommendation will be made only when the following criteria are met:

- Successful completion of all required coursework (C or better) and Student Teaching Education Program (STEP) requirements
- Possession of a current and valid Utah teaching license
- Submission of all required forms and applicable fees

This minor cannot be used alone for teaching licensure unless the student has a teaching major. For more information, please contact the Academic Advisors in the Department of Kinesiology and Health Science.

Physical Education Teaching - Minor

Physical Education Teaching - Post-Bachelor's Certificate (NOT CURRENTLY OFFERED)

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Graduate

About this Degree

The Post-Baccalaureate Certificate in Physical Education Teaching is a 24-credit, fully online program designed to equip licensed K–12 educators with the knowledge and skills required for the Utah State Board of Education (USBE) physical education teaching endorsement. The program is intended for individuals who already hold a bachelor's degree and a valid teaching license and seek advanced preparation for teaching physical education in elementary and secondary schools.

Completion of this certificate provides all required coursework and practicum experiences necessary to apply for the USBE K–12 physical education teaching endorsement. Completing the Post-Baccalaureate Certificate in Physical Education Teaching could allow a student to apply some courses toward the Applied Sport Coaching MEd degree.

This program is offered by the Department of Kinesiology and Health Science (KHS) in the Emma Eccles Jones College of Education and Human Services (CEHS) at Utah State University.

Admission Requirements for this Program

This certificate is designed for individuals who already hold a teaching license and are currently employed as K-12 educators. Completion of a bachelor's degree from an accredited university.

Program Requirements

Total Credits Required In Program Coursework
24

Total Credits Required To Earn This Credential
24

Simple Requisites

Program Requirements

- Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of program.
- Overall Graduate GPA at least 3.0 and no grades of C- or lower.

Required Courses (24 credits)

Type
Completion Requirement

Required

Complete ALL of the following Courses:

- KIN6000 - Administration of Athletics - 3cr.
- KIN6830 - Motor Learning - 3cr.
- KIN6210 - Biophysical Aspects of Sport and Exercise - 3cr.
- NDFS6320 - Advanced Sports Nutrition - 3cr.
- KIN6700 - Special Topics - 1cr.
- KIN6020 - Curriculum and Methods of Physical Education - 3cr.
- KIN6510 - Adapted Physical Education - 3cr.
- KIN6270 - Injury Prevention and Risk Management - 3cr.

Program Learning Outcomes

Program Learning Outcomes

- Demonstrate ethical decision-making, professional conduct, and inclusive practices in physical education and sport settings, accommodating diverse learners, including students with disabilities.
- Design, implement, and assess developmentally appropriate, standards-aligned physical education curricula for K–12 students, integrating principles of skill development, fitness, and lifelong physical activity.
- Analyze and teach fundamental motor skills and movement concepts using evidence-based instructional strategies, providing individualized feedback to optimize student learning.
- Apply knowledge of exercise physiology, biomechanics, growth and development, and nutrition to promote student health, performance, and injury prevention in physical activity settings.
- Assess, plan, and implement inclusive adaptations and accommodations for students with disabilities, collaborating with educators, parents, and IEP/BIP teams to ensure equitable participation.
- Demonstrate effective leadership, communication, and classroom management skills to engage, motivate, and inspire students and promote a positive learning environment.
- Recognize sociocultural factors that influence student participation and learning in physical education and integrate culturally responsive teaching practices.
- Apply professional knowledge and skills in supervised practicum experiences, demonstrating proficiency in lesson planning, instruction, assessment, and reflective teaching practice.

Personal Financial Planning - Minor

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Economics and Finance	Undergraduate

About this Degree

There is high demand for financial planning advice and the minor in Personal Financial Planning satisfies the education criteria needed to sit for the Certified Financial Planner (CFP)© examination. Set yourself apart as a financial advisor with the industry-leading certification or better prepare yourself to handle your own finances with this minor.

Admission Requirements for this Program

There is no GPA requirement but all courses require a B- or better to fulfill the minor requirements. Courses required for this minor may not be taken pass/fail.

Program Requirements

Simple Requisites

Program Requirements

Section 1

Type
Completion Requirement

Minor Requirements (18 credits)

Complete ALL of the following Courses:

- ACCT5030 - Individual Taxation - 3cr.
  OR FIN5050 - Financial Tax Planning - 3cr.
- FIN3300 - Investments - 3cr.
- FIN5060 - Introduction to Personal Financial Planning - 3cr.
- FIN5070 - Retirement Planning - 3cr.
- FIN5080 - Estate Planning - 3cr.
- FIN5090 - Personal Financial Plans - 3cr.

The courses above are registered with the Certified Financial Planner (CFP)© Board of Standards. Students completing these courses will qualify to sit for the comprehensive CFP© Examination.

Additional Comments:

Licensure Notification

This program was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state.

According to the most recent information from the sponsoring department, this program meets licensure requirements in all states within the United States.

For more information, please contact Todd Griffith at todd.griffith@usu.edu.

Public Health - Health Promotion: Health Science Emphasis - BS

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

A major in Health Science prepares students to become professionals who aid individuals, groups, and communities to maintain or improve their health status. Students gain a strong foundation in biological science and health promotion content.

This major is for students who plan to pursue advanced medical training; work in a public health, clinical, private, worksite, non-profit, or other health/medical-related setting; or are still exploring career options in those settings. In addition to a core of courses focused on providing the acquisition of skills and competencies in health promotion, this program gives students maximum flexibility to tailor coursework to meet their specific postgraduate and career goals. Completion of the program qualifies students to take the Certified Health Education Specialist (CHES) exam and Certified Wellness Practitioner exam.

- For more information about Public Health-Health Promotion, see the department webpage.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest Quantitative Literacy (MATH, QL) for this degree is STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL) or STAT1080 FOUNDATIONS OF DATA SCI (QL) or AP Statistics with a passing grade. *(Please note: students who are planning to go on to graduate school or need certain Chemistry and/or Physics courses may also need MATH1050 COLLEGE ALGEBRA (QL) or higher. Consult with your advisor.)*

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have an overall 2.0 GPA.

Program Requirements

Total Credits Required In Program Coursework
74

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- Students must earn a C- or better in all required HEP-prefix courses.
- Pass/Fail grading is not allowed for required major courses, including electives.
- A 2.0 overall GPA and a 2.75 major coursework GPA are required for graduation.

Any of the following statistics courses is a prerequisite for select courses in the major: STAT1040 INTRO TO STATISTICS (QL), STAT1045 INTRO STAT WITH ALGEBRA (QL), STAT1080 FOUNDATIONS OF DATA SCI (QL), or AP STAT with a passing grade.

Please note: MATH1050 COLLEGE ALGEBRA (QL) or higher may be necessary for students planning to take certain chemistry and/or physics courses or intending to go on to graduate school.

Public Health - Health Promotion: Health Science Emphasis - BS

Type
Completion Requirement

Health Science Core Requirements (45 credits)

Complete ALL of the following Courses:

- HEP2000 - First Aid and Emergency Care - 2cr.
- HEP2500 - Health and Wellness - 2cr.
- HEP3000 - Drugs and Human Behavior - 3cr.
- HEP3400 - Stress Management - 3cr.
- HEP3600 - Functions of Community & Public Health (CI) - 3cr.
- HEP3700 - Introduction to Epidemiology for Health Educators - 3cr.
- HEP4100 - Professional Development in Health Promotion - 3cr.
- HEP4400 - Community and Organizational Leadership, Policy, and Advocacy - 3cr.
- HEP4600 - Health Science Internship - 1cr.
- HEP4800 - Human Diseases - 3cr.
- HEP5000 - Health Trends Across Communities (CI) - 3cr.
- HEP5400 - Prevention Strategies for Obesity and Disordered Eating - 3cr.
- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
- NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.

NOTE:

1. HEP2000 FIRST AID - Or certification. Certification must be First Aid and CPR with AED for adult, child and infant.
2. All HEP-prefix courses require a C- or better grade to fulfill the major requirement.

Health Science Professional Core Requirements (5 credits)

Must complete **one** of the following tracks.

Fulfill ANY of the following requirements:

Track 1: Healthcare (5 credits)

Complete ALL of the following Courses:

- HEP3800 - Health Care Systems and Administration - 3cr.
- NDFS1600 - Medical Terminology for Health Care Professionals - 2cr.

OR

Track 2: Public Health-Health Promotion (5 credits)

Complete ALL of the following Courses:

- HEP4200 - Community-Based Program Planning, Implementation, and Evaluation - 3cr.
- NDFS1600 - Medical Terminology for Health Care Professionals - 2cr.

Health Science Professional Development Requirements (24 credits)

Must complete at least **24 credits** in total from the following three groups. **Important:** Only **9 credits** are **allowed** in the **Social Sciences** group.

Fulfill ANY of the following requirements:

Biological Science (0-24 credits)

Complete ANY of the following Courses:

- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL2060 - Elementary Microbiology - 4cr.
- BIOL2520 - Pathophysiology - 3cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3100 - Bioethics (CI) - 3cr.
- BIOL3300 - General Microbiology - 3cr.
- BIOL3500 - Plagues, Pests, and People - 3cr.
- BIOL4000 - Human Dissection - 1cr.
- BIOL5210 - Cell Biology - 3cr.
- CHEM1010 - Introduction to Chemistry (BPS) - 3cr.
- CHEM1110 - General Chemistry I (BPS) - 4cr.
- CHEM1115 - General Chemistry I Laboratory - 1cr.
- CHEM1120 - General Chemistry II (BPS) - 4cr.
- CHEM1125 - General Chemistry II Laboratory - 1cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- CHEM3710 - Introductory Biochemistry Laboratory - 1cr.
- CHEM5700 - General Biochemistry I - 3cr.
- HEAL1500 - Anatomy and Physiology (BLS) - 4cr.
- KIN3250 - Anatomical Kinesiology - 3cr.
- KIN4100 - Exercise Physiology - 4cr.
- KIN4200 - Biomechanics (QI) - 4cr.
- MATH1100 - Calculus Techniques (QL) - 3cr.
- MATH1210 - Calculus I (QL) - 4cr.
- PHYS1100 - Great Ideas in Physics (BPS) - 3cr.
- PHYS1200 - Introduction to Physics by Hands-on Exploration (BPS) - 4cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PSY3010 - Psychological Statistics (QI) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
- STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
- STAT1080 - Foundations of Data Science (QL) - 3cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
- STAT2300 - Business Statistics (QL) - 4cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.

OR

Supporting (Choose 0-24 credits)

Complete ANY of the following Courses:

- CMST4700 - Health Communication (CI) - 3cr.
- HEP1500 - Introduction to Global Health (BSS) - 3cr.
- HEP3200 - Consumer Health - 3cr.
- HEP4250 - Advanced Cooperative Work Experience - 1cr.
- HEP5250 - Global Health & Service Learning - 3cr.
- HEP5700 - Special Topics in Health - 1cr.
- MGT4500 - Principles of Healthcare Management - 3cr.
- MGT4510 - Innovation and Improvement in Healthcare Management - 3cr.
- MGT4520 - Healthcare Policy and Strategy - 3cr.

Program Requirements

Total Credits Required In Program Coursework
18

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

- **Total Minor Credits:** 18
- **Grade Point Average to Declare Minor:** 2.5 Overall GPA
- **Grade Point Average to Graduate with Minor:** 2.5 GPA within minor coursework
- **Credits in Residence:** At least half (50 percent) of the credits earned for this minor must be completed in upper-division USU courses offered by the Communication Studies and Philosophy Department. All other credits (including transfer and study abroad credits) must be approved by the Philosophy faculty in order to be counted toward this minor.
- **Minimum Grade Requirement:** All courses for the minor require a minimum grade of **C-** or better. Up to 3 pass/fail credits in Philosophy (PHIL) courses may be applied toward the Philosophy minor.

Section 1

Type
Completion Requirement

Required courses (6 credits)

Complete ALL of the following Courses:

- PHIL3010 - Survey of Ancient and Medieval Philosophy (CI) - 3cr.
- PHIL3020 - Survey of Modern Philosophy (CI) - 3cr.

Section 2

Type
Completion Requirement

Elective Courses (12 credits)

Earn at least 12 credits from the following:

- PHIL1000 - Introduction to Philosophy (BHU) - 3cr.
- PHIL1120 - Social Ethics (BHU) - 3cr.
- PHIL1130 - Living in a Brave New World: Philosophy and Technology (BHU) - 3cr.
- PHIL1320 - The Good Life (BHU) - 3cr.
- PHIL1500 - The Examined College Life: Education and Its Ends (BHU) - 3cr.
- PHIL2200 - Deductive Logic (QI) - 3cr.
- PHIL2400 - Ethics (BHU) - 3cr.
- PHIL2600 - Introduction to Philosophy of Religions (BHU) - 3cr.
- PHIL2988 - Special Problems - 1cr.
- PHIL3500 - Healthcare Ethics (DHA) - 3cr.
- PHIL3520 - Business Ethics (DHA) - 3cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.
- PHIL3540 - Ethics Bowl - 3cr.
- PHIL3550 - Philosophy in the Public Square - 3cr.
- PHIL3580 - Ethics and Economic Life (DHA) - 3cr.
- PHIL3600 - Philosophy of Religion (DHA) - 3cr.
- PHIL3700 - Political Philosophy (DHA) - 3cr.
- PHIL3710 - Philosophies of East Asia - 3cr.
- PHIL3720 - Philosophical Theology - 3cr.
- PHIL3800 - Philosophy in Literature (DHA) - 3cr.
- PHIL3810 - Philosophy of Art (DHA) - 3cr.
- PHIL3820 - Theories of Sex and Gender (DHA) - 3cr.
- PHIL3990 - Philosophy and Pop Culture (DHA) - 3cr.
- PHIL4250 - Tolkien and Lewis on Myth and Truth - 3cr.

Program Overview

College
College of Arts & Sciences

Department
History, Cultures & Ideas

Program Level
Undergraduate

About this Degree

Philosophy is the study of general and fundamental human problems and questions, including existence, religion, reality, knowledge, values, reason, mind, and language. The philosophy program at Utah State is designed to provide students with an understanding of the origin and nature of philosophical issues, the development of these issues, the debates surrounding them, and their implications for various fields of study.

Students in the Philosophy program have the opportunity to pursue undergraduate research and receive individual mentoring from faculty. Through the program, students develop skills that allow them to generate ideas, solve problems, and communicate effectively.

The curriculum is designed to meet a wide variety of student interests and provide a rigorous foundation for students planning to further their education in law, medicine, or other graduate work. On average, philosophy majors outperform students in business, the sciences, and humanities on the MCAT, LSAT, and GMAT exams, which makes them excellent candidates for graduate and professional programs.

The preferred degree is the BA, in which students gain proficiency in one or more foreign languages in addition to regular coursework. If students wish to pursue a BS, they need to complete four extra science courses in addition to the regular course requirements for the major.

- For more information about Philosophy, please see the Philosophy website.
- Please make sure to consult regularly with your departmental advisor to confirm what courses will be available and to work out your plan of study.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is Quantitative Literacy (QL) course of the student's choice.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.50 GPA.

Philosophy Major Requirements

- **Total Credits:** 31
- **Grade Point Average to graduate with Philosophy Major:** 2.5 GPA within major coursework
- **Credits in Residence:** At least half (50 percent) of the credits earned for these degrees must be completed in upper-division USU courses offered by the Department of History. All other credits (including transfer and study abroad credits) must be approved by the Philosophy faculty in order to be counted towards these degrees.
- **Minimum Grade Requirement:** All courses taken for the major require a minimum grade of **C-** or better. Up to 6 pass/fail credits in philosophy courses may be applied toward the Philosophy major.
- **A Minor, Double Major, or Certificate completion is required in addition to major requirements.**
- To receive a Bachelor of Arts (BA) degree, students must complete the foreign language requirement.

Bachelor of Arts Degree Language Requirement

For requirements for a Bachelor of Arts Degree in Philosophy, please see Minimum University Requirements (Bachelor's Degree) for required language credit.

Additional Information

Several philosophy courses meet USU's General Education Requirements and University Studies Requirements:

• PHIL1000 INTRO TO PHILOSOPHY (BHU), PHIL1120 SOCIAL ETHICS (BHU), PHIL1320 THE GOOD LIFE (BHU), PHIL 1130, or PHIL2400 ETHICS (BHU) will fulfill the Breadth Humanities (BHU) requirement under the General Education Requirements.
• PHIL3010 ANCIENT & MEDIEVAL PHIL (CI) or PHIL3020 SURVEY MODERN PHILOSOPHY (CI) will fulfill the Communications Intensive (CI) requirement (two CIs must be taken).
• PHIL2200 DEDUCTIVE LOGIC (QI) will fulfill the Quantitative Intensive (QI) requirement.

Students should meet with an advisor for further details.

Philosophy Major Requirements (31 credits)

Type
Completion Requirement

A. Required Courses (15 credits)

Earn at least 15 credits from the following:

- PHIL1120 - Social Ethics (BHU) - 3cr.
  OR PHIL2400 - Ethics (BHU) - 3cr.
  OR PHIL3500 - Healthcare Ethics (DHA) - 3cr.
  OR PHIL3520 - Business Ethics (DHA) - 3cr.
  OR PHIL3530 - Environmental Ethics (DHA) - 3cr.
  OR PHIL3580 - Ethics and Economic Life (DHA) - 3cr.
  OR PHIL4500 - Virtue Ethics (DHA) - 3cr.
  OR PHIL1130 - Living in a Brave New World: Philosophy and Technology (BHU) - 3cr.
- PHIL1250 - Practical Logic (BHU) - 3cr.
  OR PHIL2200 - Deductive Logic (QI) - 3cr.
- PHIL3010 - Survey of Ancient and Medieval Philosophy (CI) - 3cr.
- PHIL3020 - Survey of Modern Philosophy (CI) - 3cr.
- PHIL4300 - Epistemology (DHA) - 3cr.
  OR PHIL4310 - Philosophy of Science (DHA) - 3cr.
  OR PHIL4400 - Metaphysics - 3cr.
  OR PHIL4410 - Philosophy of Mind (DHA) - 3cr.

B. Elective Courses (15 credits)

Choose five additional philosophy courses not already taken above. Four of the courses must be at the upper-division level (3000 or higher). PHIL4910 READINGS AND RESEARCH cannot count more than twice toward major or minor.

Complete at least 5 of the following courses:

- PHIL1000 - Introduction to Philosophy (BHU) - 3cr.
- PHIL1120 - Social Ethics (BHU) - 3cr.
- PHIL1130 - Living in a Brave New World: Philosophy and Technology (BHU) - 3cr.
- PHIL1250 - Practical Logic (BHU) - 3cr.
- PHIL1320 - The Good Life (BHU) - 3cr.
- PHIL1500 - The Examined College Life: Education and Its Ends (BHU) - 3cr.
- PHIL2200 - Deductive Logic (QI) - 3cr.
- PHIL2400 - Ethics (BHU) - 3cr.
- PHIL2600 - Introduction to Philosophy of Religions (BHU) - 3cr.
- PHIL2988 - Special Problems - 1cr.
- PHIL3010 - Survey of Ancient and Medieval Philosophy (CI) - 3cr.
- PHIL3020 - Survey of Modern Philosophy (CI) - 3cr.
- PHIL3500 - Healthcare Ethics (DHA) - 3cr.
- PHIL3520 - Business Ethics (DHA) - 3cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.
- PHIL3540 - Ethics Bowl - 3cr.
- PHIL3550 - Philosophy in the Public Square - 3cr.
- PHIL3580 - Ethics and Economic Life (DHA) - 3cr.
- PHIL3600 - Philosophy of Religion (DHA) - 3cr.
- PHIL3700 - Political Philosophy (DHA) - 3cr.
- PHIL3710 - Philosophies of East Asia - 3cr.
- PHIL3720 - Philosophical Theology - 3cr.
- PHIL3800 - Philosophy in Literature (DHA) - 3cr.
- PHIL3810 - Philosophy of Art (DHA) - 3cr.
- PHIL3820 - Theories of Sex and Gender (DHA) - 3cr.
- PHIL3990 - Philosophy and Pop Culture (DHA) - 3cr.
- PHIL4250 - Tolkien and Lewis on Myth and Truth - 3cr.
- PHIL4300 - Epistemology (DHA) - 3cr.
- PHIL4310 - Philosophy of Science (DHA) - 3cr.
- PHIL4400 - Metaphysics - 3cr.
- PHIL4410 - Philosophy of Mind (DHA) - 3cr.
- PHIL4500 - Virtue Ethics (DHA) - 3cr.
- PHIL4530 - Ethics and Biotechnology (DSC) - 3cr.
- PHIL4600 - Philosophy of Law - 3cr.
- PHIL4900 - Philosophy Seminar - 3cr.
- PHIL4910 - Readings and Research - 1cr.
- PHIL4950 - Senior Thesis in Philosophy - 3cr.
- PHIL4990 - Philosophy Capstone Portfolio - 1cr.
- PHIL5400 - Ethics and Emerging Technology (DHA) - 3cr.
- PHIL5430 - History and Philosophy of Physical Activity and Sport (CI) - 3cr.

NOTE:

1. PHIL4910 READINGS AND RESEARCH - This course cannot count more than twice toward major or minor.

Philosophy Capstone (1 credit)

The following 1 credit Capstone Portfolio course is required and should be taken in a student's senior year.

Complete ALL of the following Courses:

- PHIL4990 - Philosophy Capstone Portfolio - 1cr.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree
Federal Gainful Employment Information

The Pharmacy Technician program prepares students to support pharmacists by performing a wide range of practice-related duties for community, institutional, compounding, long-term care, mail-order, and other pharmaceutical settings. Students learn the most common medications, calculate dosages, process prescriptions, bill third-party insurance, learn aseptic techniques, and prepare sterile and non-sterile compounded medications. Students receive extensive hands-on training in the lab area using advanced pharmacy technology.

Licensure Notification
This program meets licensure requirements in the following states:

- UT
- After the successful completion of the required coursework and practicum, PhT students may sit for the **national certification**. Upon passing, students will be certified as a Certified Pharmacy Technician through Pharmacy Technician Certification Board (PTCB). PhT is a national certification; however, students do need to be licensed in the state of Utah first. After 1,000 working hours (approximately 6-8 months), they may then exercise reciprocity and get licensed in any state should they relocate.

Admission Requirements for this Program
Additional Application Process Required - See below, ask an advisor for details

1. Meet programmatic admission requirements
2. Maintain a 2.67 GPA throughout program

Personal Documentation Requirements:

- Pass background check and drug screen
- Provide documentation of Immunizations
- Annual Influenza Vaccine
- 2-Step TB Test

Physical Demands:

- Stand or sit for 10 hours per day
- Push and pull 50 pounds
- Lift and support 25 pounds
- Move within confined spaces
- Effective verbal communication in English without visual clues
- Hear normal speaking level sounds
- Hear in situations when not able to see lips (when masks are used)
- Communicate verbally with others

Pharmacy Technician Course Requirements

Type
Completion Requirement

The following courses are required for the Pharmacy Technician Certificate of Completion:

Complete ALL of the following Courses:

- TEPT1010 - Introduction to Pharmacy - 3cr.
- TEPT1100 - Community Pharmacy Practice - 3cr.
- TEPT1110 - Institutional Pharmacy Practice - 3cr.
- TEPT1320 - Pharmacology - 3cr.
- TEPT1900 - Pharmacy Technician Externship - 4cr.
- TEPT1620 - Pharmacy Technician National Exam and State Licensure Readiness - 1cr.

Program Learning Outcomes

Program Learning Outcomes

- Practice personal and interpersonal skills needed in various pharmacy settings.
- Demonstrate the pharmacy technician's role in the medication-use process and wellness promotion.
- Recall the most utilized drugs by brand and generic name, indications, and interactions.
- Solve pharmacy mathematical calculations.
- Prepare sterile and non-sterile compounds.

Photonics - Post-Bachelor's Certificate

Program Overview

College
College of Arts & Sciences

Department
Physics, Electrical & Computer Engineering

Program Level
Graduate

About this Degree

The Photonics Post-Baccalaureate Certificate provides essential skills for careers in optics and photonics. The three required courses provide essential background and training. The eight elective courses cover a broad range of career directions. Quantum mechanics and solid-state physics are essential to the design of photonic devices. Microwave circuits, antennas, and electromagnetics are key to wireless communication. Microfabrication is used to create photonic devices for all applications. In addition to the courses we provide, students are encouraged to take summer internships with our industrial partners.

Photonics - Post-Bachelor's Certificate

Type
Completion Requirement

Required Courses (9 credits)

Complete ALL of the following Courses:

- PHYS5210 - Introduction to Photonics and Devices - 3cr.
  OR ECE5210 - Introduction to Photonics and Devices - 3cr.
- PHYS5250 - Photonics Laboratory - 3cr.
  OR ECE5250 - Photonics Laboratory - 3cr.
- PHYS6650 - Optics I - 3cr.
  OR ECE6650 - Optics I - 3cr.

Elective Courses (3 credits)

Complete at least 1 of the following courses:

- ECE5700 - Introduction to Microfabrication - 3cr.
- ECE5800 - Electromagnetics II - 3cr.
- ECE5810 - Microwave Circuits I - 3cr.
- ECE5850 - Antennas I - 3cr.
- ECE6830 - Microwave Circuits II - 3cr.
- ECE7860 - Computational Electromagnetics A - 3cr.
- PHYS5700 - Introduction to Microfabrication - 3cr.
- PHYS6210 - Quantum Mechanics I - 3cr.
- PHYS6530 - Solid State Physics I - 3cr.

Photonics - Certificate

Program Overview

College
College of Arts & Sciences

Department
Physics

Program Level
Undergraduate

About this Degree

The Photonics Certificate introduces students to electromagnetism, quantum mechanics, optics, microfabrication, photonics, and integrated photonic devices, providing a broad background to pursue careers in photonics. The certificate program will build up students' employable skills in the photonics industry and provide a strong foundation for those who want to pursue graduate degrees in photonics.

Undergraduate

Program Requirements

Total Credits Required In Program Coursework
22-27

Total Credits Required To Earn This Credential
22-27

Simple Requisites

Program Requirements

Students in any teaching major may obtain the Physics Teaching - Minor by successfully completing the requirements listed below. A minimum of 22 credits is required for the Physics Teaching - Minor. Admission to STEP requires an overall GPA of 3.0. All PHYS courses require a grade of C or better.

Required credits: 22-23 (depending on electives chosen), plus STEP requirements.

Section 1

Type
Completion Requirement

Required Courses (23 credits)

Complete ALL of the following Courses:

- PHYS1040 - Introductory Astronomy (BPS) - 3cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.
- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- PHYS2710 - Introductory Modern Physics - 3cr.

• Any PHYS course 3000 level and above.

Physics Teaching Minor (STEP) Courses (4 credits)

Complete ALL of the following Courses:

- SCED3300 - Clinical Experience I - 1cr.
- SCED5820 - Science Education Teaching and Dispositions Knowledge - 3cr.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Physics Teaching - BS

Program Overview

College
College of Arts & Sciences

Department
Physics

Program Level
Undergraduate

About this Degree
Physics is the study of matter and energy and their interactions.

Students study both the theory of physics and experiment using those theories as a guide. Physics teaching majors take classes in thermal physics, intermediate modern physics, wave phenomena, electromagnetism, and quantum mechanics, as well as teaching courses.

- For more information about Physics, see the Department of Physics website.
- Admitted and current students must meet with the advisor, Vanessa Chambers.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1220 CALCULUS II (QL). Suggested schedule assumes student has passed MATH1210 CALCULUS I (QL).

Additional Information

Courses used to fulfill major requirements may *not* be taken on a pass/fail basis, except those courses that are only taught pass/fail.

Admission Requirements for this Program
- New freshmen must be admitted to USU in Good Standing and an overall GPA of 2.0.
- Transfer students from other institutions or other programs at USU must have a 2.20 GPA.
- A combined GPA of 3.0 is required to be admitted to SCED program.

Physics Teaching - BS

Type
Completion Requirement

Major Requirements (37 credits)

All courses must be passed with a grade of C or better.

Complete ALL of the following Courses:

- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
  OR BIOL1610 - Biology I - 3cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- GEO1110 - Physical Geology (BPS) - 3cr.
- GEO1115 - Physical Geology Laboratory - 1cr.
- PHYS1040 - Introductory Astronomy (BPS) - 3cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) -

4cr.
OR PHYS2310 - Physics for Scientists I (BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
  OR PHYS2320 - Physics for Scientists II (BPS) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.
- PHYS2710 - Introductory Modern Physics - 3cr.
- PHYS3710 - Intermediate Modern Physics - 3cr.
- PHYS3870 - Intermediate Physics Laboratory (CI) - 3cr.

Physics Teaching Math Requirements (11 credits)

All courses must be passed with a grade of C or better.

Complete ALL of the following Courses:
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.

Physics Electives (6 credits)

All courses must be passed with a grade of C or better.

Complete ALL of the following Courses:
- PHYS3010 - Space Exploration from Earth to the Solar System (DSC/QI) - 3cr.
  OR PHYS3030 - The Universe (DSC/QI) - 3cr.
  OR PHYS3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr.
- PHYS3700 - Thermal Physics - 3cr.
  OR PHYS3880 - Advanced Physics Laboratory (CI) - 3cr.

General Science Requirements (6-8 credits)

A minimum grade of C is required for all courses. In addition, students must select one full Science Series (2 semesters) from the following:

Fulfill ANY of the following requirements:

Biology Series

Complete ALL of the following Courses:
- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Series

Complete ALL of the following Courses:
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

OR

Geology Series

Complete ALL of the following Courses:
- GEO1110 - Physical Geology (BPS) - 3cr.
  AND GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.

OR

Computer Science Series

Complete ALL of the following Courses:
- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
  OR CS1440 - Software Engineering Fundamentals - 3cr.

Required Courses for the Secondary Teacher Education Program (38 credits)

All courses must be passed with a grade of C or better.

Fulfill ALL of the following requirements:

STEP Admission Courses

This course may be taken prior to admission.

Complete ALL of the following Courses:
- ITLS2500 - Technology Enabled Instruction - 3cr.

AND

Secondary Education courses, continued

Complete ALL of the following Courses:
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SCED5820 - Science Education Teaching and Dispositions Knowledge - 3cr.
- SCED5821 - Three-Dimensional Science and Engineering Pedagogical Knowledge - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Program Requirements

Majors in other departments may obtain a minor in physics by successfully completing the following courses. All courses for this minor must be passed with a C- or better.

Section 1

Type
Completion Requirement

Required Courses (14 credits)

Complete ALL of the following Courses:

- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
  OR PHYS2310 - Physics for Scientists I (BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
  OR PHYS2320 - Physics for Scientists II (BPS) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.
- PHYS2710 - Introductory Modern Physics - 3cr.
- PHYS5800 - Physics Colloquium - 1cr.

Section 2

Type
Completion Requirement

Elective Credits (6 credits)

Earn at least 6 credits

- 1 PHYS course at 3000 level or above
- 1 PHYS course at 3500 level or above

Physics: Applied Emphasis - BS

Program Overview

College
College of Arts & Sciences

Department
Physics

Program Level
Undergraduate

About this Degree

Physics is the study of matter and energy and their interactions.

Students study both the theory of physics and experiment using those theories as a guide. At USU, all students participate in faculty-mentored research, gaining valuable experience in campus research centers and laboratories. This makes USU students better prepared for entrance into either the workforce or graduate school.

Applied Emphasis: This emphasis is recommended for students preparing for graduate work in applied physics, engineering physics, materials science, or an interdisciplinary area, such as biophysics, medical physics, geophysics, or chemical physics.

- For more information about Physics, see the Department of Physics website.
- Admitted and current students must meet with the advisor, Vanessa Chambers
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2280 ORD DIFFRNTIAL EQUATIONS (QI). Suggested schedule assumes student has passed MATH1210 CALCULUS I (QL).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.20 GPA.

Physics: Applied Emphasis - BS

Type
Completion Requirement

Major Requirements (37 credits)

All major courses must be passed with a grade of C- or better.

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
  OR PHYS2310 - Physics for Scientists I (BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
  OR PHYS2320 - Physics for Scientists II (BPS) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.
- PHYS2710 - Introductory Modern Physics - 3cr.
- PHYS3550 - Intermediate Classical Mechanics - 3cr.
- PHYS3600 - Electromagnetism I - 3cr.
- PHYS3700 - Thermal Physics - 3cr.
- PHYS3870 - Intermediate Physics Laboratory (CI) - 3cr.
- PHYS3880 - Advanced Physics Laboratory (CI) - 3cr.
- PHYS5650 - Optics I - 3cr.
- PHYS4900 - Research in Physics (CI) - 1cr.

Applied Major Math Requirements (13 credits)

All courses require a grade of C- or better.

Complete ALL of the following Courses:

- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.

College of Science Sequence Requirement (3-8 credits)

Select one full science series. (***Teaching majors must also complete the first course of two of the other three series.***)

Only 3 credits if Computer Science sequence is selected (as CS1400 INTRO COMPUTER SCIENCE 1 is required for the major). Else, 6-8 credits to satisfy the College of Science Requirement.

Fulfill ANY of the following requirements:

Biology Series

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Series

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

OR

Geology Series

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
  AND GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.

OR

Computer Science Series

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
  OR CS1440 - Software Engineering Fundamentals - 3cr.

Elective Technical Courses (12 credits)

Complete the following:
Select 12 credits from courses in other technical departments at the 3000-level or above with a coherent theme. Selected courses require approval of the Physics advisor. Elective courses must be passed with a grade of C- or better.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Physics - BA

Program Overview

College
College of Arts & Sciences

Department
Physics

Program Level
Undergraduate

About this Degree

Physics is the study of matter and energy and their interactions.

Students study both the theory of physics and experiment using those theories as a guide. At USU, all students participate in faculty-mentored research, gaining valuable experience in campus research centers and laboratories. This makes USU students better prepared for entrance into either the workforce or graduate school.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages.

- For more information about Physics, see the Department of Physics website.
- Admitted and current students must meet with the advisor, Vanessa Chambers.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2280 ORD DIFFRNTIAL EQUATIONS (QI). Suggested schedule assumes student has passed MATH1210 CALCULUS I (QL).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.20 GPA.

Program Requirements

Total Credits Required In Program Coursework
57-59

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Courses used to fulfill major requirements may *not* be taken on a pass/fail basis.

- College of Science Sequence Requirement consists of 7-8 credits, i.e., a year-long introduction course in biology, chemistry, geology, or computer science to be selected by the student and completed in their freshman year.
- University Studies Breadth courses consist of 18 credits. These are distributed through freshman, sophomore, and into the junior year. Experience has shown that taking the majority of these credits in the first year has a negative impact on our majors.
- Elective credits. This particular degree offering enables the student to complement their physics interest with up to 15 credits from other disciplines. These could consist of computer science, mathematics, geology, English, etc. Working with the physics advisor in the sophomore/junior year would enable a timely plan to be created based upon the student's developing career goals.

Physics - BA

Type
Completion Requirement

Major Requirements (39 credits)

All major courses must be passed with a grade of C- or better.

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.
- PHYS2500 - Introduction to Computer Methods in Physics - 2cr.
- PHYS2710 - Introductory Modern Physics - 3cr.
- PHYS3550 - Intermediate Classical Mechanics - 3cr.
- PHYS3600 - Electromagnetism I - 3cr.
- PHYS3870 - Intermediate Physics Laboratory (CI) - 3cr.
- PHYS4900 - Research in Physics (CI) - 1cr.

AND

Required Course Options

Complete one of the following course sets.

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.

OR

Option 2

Complete ALL of the following Courses:

- PHYS2310 - Physics for Scientists I (BPS) - 4cr.
- PHYS2320 - Physics for Scientists II (BPS) - 4cr.

Physics Electives (6 credits)

Complete the following:

• Choose 2 Physics courses at the 3500+ level (6 credits total). Must pass with a C- or better.

Philosophy Requirements (6 credits)

Choose 2 courses (6 credits) from the following list. Must pass with a C- or better.

Complete at least 2 of the following courses:

- PHIL4300 - Epistemology (DHA) - 3cr.
- PHIL4310 - Philosophy of Science (DHA) - 3cr.
- PHIL4400 - Metaphysics - 3cr.
- PHIL4410 - Philosophy of Mind (DHA) - 3cr.

College of Science Sequence Requirement (6-8 credits)

Complete one of the following Series. ***(Teaching majors must also complete the first course of two of the other three series.)***

Fulfill ANY of the following requirements:

Biology Series

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Series

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

OR

Geology Series

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
  AND GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.

OR

Computer Science Series

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
  OR CS1440 - Software Engineering Fundamentals - 3cr.

Required Language Courses (16 credits)

Complete the following:
Two years' training or equivalent (16 credits) in a foreign language approved by the Department of World Languages and Cultures. For further information, see the Bachelor of Arts Degree Requirements on the Undergraduate Academic Credential Requirements page of this catalog.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Physics - BS

Program Overview

College
College of Arts & Sciences

Department
Physics

Program Level
Undergraduate

About this Degree

Physics is the study of matter and energy and their interactions.

Students study both the theory of physics and experiment using those theories as a guide. At USU, all students participate in faculty-mentored research, gaining valuable experience in campus research centers and laboratories. This makes USU students better prepared for entrance into either the workforce or graduate school.

Beyond the experimental facilities at USU, many students are involved in theoretical work, data analysis, and computer simulations in general relativity and field theory, space weather forecasting, surface science, and complex system applications. There is also a Physics Learning Center available for undergraduate physics students where physics graduate students provide individualized help with homework concerns.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages.

- For more information about Physics, see the Department of Physics website.
- Admitted and current students must meet with the advisor, Vanessa Chambers
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2280 ORD DIFFRNTIAL EQUATIONS (QI). Suggested schedule assumes student has passed MATH1210 CALCULUS I (QL).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.20 GPA.

Simple Requisites

Program Requirements

Courses used to fulfill major requirements may *not* be taken on a pass/fail basis.

Physics - BS

Type
Completion Requirement

Major Requirements (28 credits)

All courses must be passed with a C- or better.

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
  OR PHYS2310 - Physics for Scientists I (BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
  OR PHYS2320 - Physics for Scientists II (BPS) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.
- PHYS2710 - Introductory Modern Physics - 3cr.
- PHYS3550 - Intermediate Classical Mechanics - 3cr.
- PHYS3600 - Electromagnetism I - 3cr.
- PHYS3870 - Intermediate Physics Laboratory (CI) - 3cr.
- PHYS4900 - Research in Physics (CI) - 1cr.

Required Math Courses (13 credits)

All courses must be passed with a C- or better.

Complete ALL of the following Courses:

- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.

BS Degree Requirements (6 credits)

All courses must be passed with a C- or better.

Complete ALL of the following Courses:

- PHYS3700 - Thermal Physics - 3cr.
  OR PHYS5650 - Optics I - 3cr.
- PHYS3710 - Intermediate Modern Physics - 3cr.

Elective Physics Courses (6 credits)

All courses must be passed with a grade of C- or better.

Earn at least 6 credits

- Select 6 additional Physics credits at the 3500 level and above (not including PHYS5800 PHYSICS COLLOQUIUM).

College of Science Sequence Requirement (3-8 credits)

Select one full science series. (***Teaching majors must also complete the first course of two of the other three series.***)

Fulfill ANY of the following requirements:

Biology Series

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Series

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

OR

Geology Series

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
  AND GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.

OR

Computer Science Series

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
  OR CS1440 - Software Engineering Fundamentals - 3cr.

Only 3 credits if Computer Science sequence is selected (as CS1400 INTRO COMPUTER SCIENCE 1 is required for the major). Else, 6-8 credits to satisfy the College of Science Requirement.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Simple Requisites

Program Requirements

Admissions Requirement: A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Time Limit: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Course and Credit Requirements: All Master's degrees require the student complete a minimum of 30 semester credit hours. Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability: The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Coursework Validity: Class credits must be revalidated if more than 8 years have elapsed before completion of degree. The student's supervisory committee (SC) is responsible for developing and submitting the revalidation plan to the Vice Provost of Graduate Studies for approval. The plan and determination must be verified in writing and include the Vice Provost of Graduate Studies and the student's major professor.

Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.

Thesis / Project Requirements

Plan A: The Plan A a master's degree requires the preparation and defense of a thesis. The thesis is to be a contribution to the field of knowledge based on the student's own research or a treatment and presentation of known subject matter from a new point of view.

Plan B: A Plan B master's degree requires the preparation and defense of a paper. The Plan B paper is usually a review of literature, with conclusions drawn after conceptualizing an area of inquiry, planning a systematic search, and analyzing and critiquing the acquired information. The summary and conclusions developed should enhance the student's knowledge in the discipline.

Required Training: All graduate students are required to complete the online CITI-Responsible Conduct in Research (RCR) training.

Required Forms

Approval of academic forms required for master's students by the School of Graduate Studies:

- Supervisory Committee Approval Form
- Program of Study
- Master's Thesis/Project Approval
- Appointment for Examination
- Authorship and Copyright (Plan A)
- Format and Style and Electronic Publication Approval (Plan A)
- Title Page (Plan A)
- Report/Creative Project Submission (Plan B)
- Record of Examination
- Graduation Application

Further Information

Further details regarding Physics MS degrees can be found in the Physics Department MS Handbook.

Course Requirements

Type
Completion Requirement

PhD Core Courses

Coursework must be approved by the Student's Supervisory Committee and documented with the Program of Study Form, which is approved by the Supervisory Committee and the School of Graduate Studies.

Plan A: A total of 30 credits are required, with 6 – 15 as thesis research and the remaining credits coming from course work. A minimum of 4 (out of 9) core PhD courses must be taken.

Plan B: A total of 30 credits are required, with 2 – 3 (as thesis research) for writing the Plan B report and the remaining credits coming from course work. A minimum of 5 (out of 9) core PhD courses must be taken.

Each student is required to attend Physics Colloquium for four consecutive semesters, beginning with the first semester after matriculation.

Complete ANY of the following Courses:

- PHYS5340 - Methods of Theoretical Physics I - 3cr.
- PHYS5350 - Methods of Theoretical Physics II - 3cr.
- PHYS6010 - Classical Mechanics I - 3cr.
- PHYS6110 - Electrodynamics I - 3cr.
- PHYS6120 - Electrodynamics II - 3cr.
- PHYS6410 - Statistical Mechanics I - 3cr.
- PHYS6530 - Solid State Physics I - 3cr.
- PHYS6910 - Relativity I - 3cr.

Program Requirements

Total Credits Required In Program Coursework
60

Total Credits Required To Earn This Credential
60

Simple Requisites

Program Requirements

Admissions Requirement

A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Time Limit

A master's degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Course and Credit Requirements

60 credit hours (minimum) [including minimum 18 hours dissertation research (PHYS7970 DISSERTATION RESEARCH)] are required beyond a bachelor's degree, or

30 credit hour (minimum) [including minimum 12 hours dissertation research (PHYS7970 DISSERTATION RESEARCH)] are required beyond a master's degree.

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C– or lower will not be accepted for a graduate degree.

Courses at the 6000 level and above are acceptable. Up to 12 credits at the 5000 - 5990 level may be used for the degree.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 3000.

Coursework Validity

Class credits must be revalidated if more than 8 years have elapsed before completion of degree. The student's supervisory committee (SC) is responsible for developing and submitting the revalidation plan to the Vice Provost of Graduate Studies for approval. The plan and determination must be verified in writing and include the Vice Provost of Graduate Studies and the student's major professor.

Required Exams

Qualification: Each student enrolled in the PhD program is evaluated for qualification for PhD work. In order that the totality of the student's first year in the program can be evaluated, consideration of qualification occurs at the **beginning of the fall semester of the second year**. Qualification of the student is primarily based on coursework, although the qualification process may also include an evaluation of the student's work as a teaching assistant or research assistant.

Candidacy Exam: The Candidacy Exam consists of a written report an oral presentation, followed by deliberation and voting by the faculty. The examination topic is typically set (by the student's Supervisory Committee) during the fourth semester of the student's program; **the examination takes place during the student's fifth semester**. Details of the examination can be found in the Department's Guide to the Candidacy Exam.

Dissertation Requirements

A PhD degree requires the preparation and defense of a dissertation. The dissertation is to be a contribution to the field of knowledge based on the student's own research.

Seminar Requirement

The Physics Department requires each PhD student to present at least two research seminars associated with his/her research (neither of which can be the Candidacy Examination oral presentation). One of these is associated with the dissertation defense, the other seminar can be a local seminar given to members of a local research group, a presentation at a regional, national, or international conference, or an invited talk at another institution.

Required Training

All graduate students are required to complete the online CITI-Responsible Conduct in Research (RCR) training.

Required Forms

Physics Department Forms

- Application for Qualification
- Intent for Candidacy

School of Graduate Studies Forms

- Supervisory Committee Approval Form
- Program of Study
- Full Time at Three Credits
- Application for Candidacy for a Doctoral Degree
- Appointment for Examination
- Authorship and Copyright
- Format and Style and Electronic Publication Approval
- Title Page
- Record of Examination
- Graduation Application

Further Information

Further details regarding Physics PhD degrees can be found in the Physics Department PhD Handbook

Physics - PhD

Type
Completion Requirement

Core Courses

Complete ALL of the following Courses:

- PHYS5340 - Methods of Theoretical Physics I - 3cr.
- PHYS5350 - Methods of Theoretical Physics II - 3cr.
- PHYS6010 - Classical Mechanics I - 3cr.
- PHYS6110 - Electrodynamics I - 3cr.
- PHYS6120 - Electrodynamics II - 3cr.
- PHYS6210 - Quantum Mechanics I - 3cr.
- PHYS6410 - Statistical Mechanics I - 3cr.
- PHYS6530 - Solid State Physics I - 3cr.
- PHYS6910 - Relativity I - 3cr.

Elective Credit (3 credits)

In addition to the cores courses, the student must take an additional 3-credit graduate-level course to round out their Program of Study. With approval by the student's Supervisory Committee, a core course can be substituted with another course, if it is germane to the student's area of research.

Complete the following:
• Graduate-level course (3 credits)

Dissertation Research (12-18 credits)

- A minimum 18 credit hours dissertation research are required beyond a bachelor's degree
- A minimum 12 credit hours dissertation research are required beyond a master's degree.

Complete ALL of the following Courses:

- PHYS7970 - Dissertation Research - 1cr.

Physics: Professional Emphasis - BS

Program Overview

College
College of Arts & Sciences

Department
Physics

Program Level
Undergraduate

About this Degree

Physics is the study of matter and energy and their interactions.

Students study both the theory of physics and experiment using those theories as a guide. At USU, all students participate in faculty-mentored research, gaining valuable experience in campus research centers and laboratories. This makes USU students better prepared for entrance into either the workforce or graduate school.

Professional Emphasis: The professional emphasis prepares students who wish to establish careers in research to enter graduate-level education studying physics, astronomy, materials science, applied mathematics, and other related areas of physical science and engineering.

- For more information about Physics, see the Department of Physics website.
- Admitted and current students must meet with the advisor, Vanessa Chambers.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2280 ORD DIFFRNTIAL EQUATIONS (QI).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.2 GPA.
- Received credit for or completed MATH1210 CALCULUS I (QL).

Simple Requisites

Program Requirements

Courses used to fulfill major requirements may not be taken on a pass/fail basis.

Physics: Professional Emphasis - BS

Type
Completion Requirement

Major Requirements (27 credits)

All courses must be passed with a grade of C- or better.

Earn at least 28 credits from the following:

- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
  OR PHYS2310 - Physics for Scientists I (BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
  OR PHYS2320 - Physics for Scientists II (BPS) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.
- PHYS2710 - Introductory Modern Physics - 3cr.
- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- PHYS3550 - Intermediate Classical Mechanics - 3cr.
- PHYS3600 - Electromagnetism I - 3cr.
- PHYS3870 - Intermediate Physics Laboratory (CI) - 3cr.
- PHYS4900 - Research in Physics (CI) - 1cr.

Professional Emphasis Math Requirements (13 credits)

All courses must be passed with a C- or better.

Earn at least 13 credits from the following:

- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.

Professional Emphasis Additional Required Courses (28 credits)

All courses must be passed with a grade of C- or better.

Earn at least 28 credits from the following:

- PHYS3700 - Thermal Physics - 3cr.
- PHYS3710 - Intermediate Modern Physics - 3cr.
- PHYS3750 - Foundations of Wave Phenomena - 3cr.
- PHYS3880 - Advanced Physics Laboratory (CI) - 3cr.
- PHYS4600 - Electromagnetism II - 3cr.
- PHYS5650 - Optics I - 3cr.
- PHYS4700 - Quantum Mechanics I - 3cr.
- PHYS4710 - Quantum Mechanics II - 3cr.
- PHYS4900 - Research in Physics (CI) - 1cr.

NOTE:

1. A total of 4 credits of PHYS4900 RESEARCH IN PHYSICS (CI) is required for the Professional Emphasis.

College of Science Sequence Requirement (6-8 credits)

Select one full science sequence. (***Teaching majors must also complete the first course of two of the other three series.***)

Only 3 credits are required if Computer Science sequence is selected (as CS1400 INTRO COMPUTER SCIENCE 1 is required for the major). Else, 6-8 credits to satisfy the College of Science Requirement.

Fulfill ANY of the following requirements:

Biology Sequence

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Sequence

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

OR

Geology Sequence

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.

AND GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.

OR

Computer Science Sequence

Complete ALL of the following Courses:
- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
  OR CS1440 - Software Engineering Fundamentals - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Plumbing Apprenticeship - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Plumbing Apprenticeship program satisfies the educational requirements to take the State Journeyman Plumber Exam. To complete the entire Apprentice Plumbing Program, an individual must be licensed through the State and work under the supervision of a licensed Journeyman Plumber. A basic assessment is required prior to enrolling. This program provides a solid understanding of the International Plumbing Code (IPC), its layout, and the requirements for different plumbing systems and parts of those systems. This program discusses the processes, parts, and risks involved with the various plumbing systems as well as the safety equipment and measures that are in place to protect plumbers and the public alike.

Required Courses

Complete ALL of the following Courses:

- TEPL1110 - Plumbing I A - 3cr.
- TEPL1120 - Plumbing I B - 3cr.
- TEPL1210 - Plumbing II A - 3cr.
- TEPL1220 - Plumbing II B - 3cr.
- TEPL1310 - Plumbing IIIA - 3cr.
- TEPL1320 - Plumbing IIIB - 3cr.
- TEPL1410 - Plumbing IVA - 3cr.
- TEPL1420 - Plumbing IVB - 3cr.

Program Learning Outcomes

Program Learning Outcomes

- Determine the application of the International Plumbing Code (IPC).
- Demonstrate how to navigate the International Plumbing Code (IPC).
- Calculate sizing of various piping, including natural gas, supply, and waste lines.
- Demonstrate the application of the International Fuel Gas Code.
- Demonstrate the application of the International Mechanical Code.
- Demonstrate practical application of plumbing mathematics.
- Apply critical and practical thinking skills necessary to pass the State Journeyman's Test.

Plant Science - Horticulture and Cropping Systems Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Undergraduate

About this Degree

In this program, students focus on the research, production, and management of economically important plants. Students have access to faculty mentors and the opportunity to receive hands-on experience working side-by-side with research scientists in laboratories, greenhouses, and fields.

Horticulture and Cropping Systems Emphasis: This emphasis is focused more on applied, hands-on work with plants. It is designed for students interested in applied aspects of plant production and management in the field, nursery, orchard, or greenhouse. Students can also study plant management, preparing them for careers with golf courses, botanical gardens, school campuses, and other landscapes.

- For more information about Plant Science, see the website.
- Admitted and current students must meet with an advisor, Abby Macbeth, abby.macbeth@usu.edu, 435-797-0454.
- Log on to Degree Works to check student-specific program progress.
- Can also have an emphasis in Research.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL4430 - Introduction to Plant Pathology - 4cr.

- BIOL4500 - Applied Entomology - 3cr.
- PSC1050 - Plants, Soils, and Climate Orientation - 1cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC5550 - Fundamentals of Integrated Weed Management - 4cr.

In addition to the courses listed above, students must complete the course requirements for the emphasis

Horticulture and Cropping Systems (21-22 credits)

Complete ALL of the following Courses:

- CHEM1110 - General Chemistry I (BPS) - 4cr.
- MATH1050 - College Algebra (QL) - 4cr.
  OR MATH1100 - Calculus Techniques (QL) - 3cr.
- PHYS1200 - Introduction to Physics by Hands-on Exploration (BPS) - 4cr.
- PSC3600 - An Introduction to Plant Breeding and Heredity - 3cr.
  OR BIOL3060 - Principles of Genetics (QI) - 3cr.
  OR PSC5720 - Advanced Plant Breeding - 3cr.
- PSC4250 - Internship in Plants, Soils, and/or Climate - 1cr.
- PSC5530 - Soil Health and Fertility (QI) - 3cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

Plant Biology Electives (5-7 credits)

Complete at least 2 of the following courses:

- PSC3500 - Structure and Function of Plants - 3cr.
- BIOL4420 - Plant Systematics and Diversity - 3cr.
- PSC5270 - Environmental Plant Physiology - 2cr.

Production Electives (21-23 credits)

Students must complete seven courses

Fulfill ALL of the following requirements:

Required Electives

Complete at least 2 of the following courses:

- PSC4050 - Greenhouse Management and Crop Production - 4cr.
- PSC4280 - Field and Food Cropping Systems - 3cr.
- PSC4320 - Forage Production and Pasture Management - 3cr.
- PSC4400 - Modern Vegetable Production - 3cr.
- PSC5222 - Temperate Zone Fruit Production - 3cr.

AND

Additional Electives

Complete ANY of the following Courses:

- PSC2200 - Pesticide Certification - 2cr.
- PSC2600 - Herbaceous Plant Materials - 3cr.
- PSC2620 - Woody Plant Materials: Trees and Shrubs for the Landscape - 3cr.
- PSC3400 - Arboriculture - 3cr.
- PSC3700 - Plant Propagation - 4cr.
- PSC3800 - Fundamentals of Organic Agriculture - 3cr.
- PSC3810 - Turfgrass Management - 3cr.
- PSC6100 - Professional Turf and Urban Landscape Water Management - 3cr.

Other Electives (5-12 credits)

Complete at least 3 of the following courses:

- CHEM1115 - General Chemistry I Laboratory - 1cr.
- CHEM1120 - General Chemistry II (BPS) - 4cr.
- PSC1800 - Introduction to Horticulture (BLS) - 3cr.
- PSC2000 - The Atmosphere and Weather (BPS) - 3cr.
- PSC2030 - Basic Flower Arranging - 2cr.
- PSC2700 - Climate Change Impacts (BPS) - 3cr.
- PSC3200 - Microbes in Environmental Action (DSC) - 3cr. (Inactive)
- PSC3300 - Residential Landscapes - 3cr.
- PSC4500 - Urban Soil Management and Reclamation - 3cr.
- PSC5000 - Environmental Instrumentation - 2cr.
- PSC5050 - Principles of Environmental Soil Chemistry - 3cr.
- PSC5130 - Soil Genesis, Morphology, and Classification - 4cr.
- PSC5270 - Environmental Plant Physiology - 2cr.
- PSC5280 - Plant Stress Physiology - 3cr.
- PSC5310 - Soil Microbiology - 3cr.
- PSC5350 - Wildland Soils - 3cr.
- PSC5560 - Analytical Techniques for the Soil Environment - 3cr.
- PSC5670 - Environmental Soil Physics - 4cr.
- PSC5710 - Irrigated Soils - 3cr.
- PSC6100 - Professional Turf and Urban Landscape Water Management - 3cr.
- STAT2000 - Statistical Methods (QI) - 4cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.

- Check your Degree Works for requirements and completion.

Plant Science - MS

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Graduate

About this Degree

Plant Science graduate degrees are centered on the biology, genetics, and management of plants and other issues related to agricultural and horticultural production.

Research areas are offered in crop physiology; crop production and management; molecular biology; plant breeding and cytology; plant biotechnology and tissue culture; plant nutrition; space biology; weed science; and bioinformatics and computational biology.

The Climate Adaptation Science Specialization is also offered as an interdepartmental program.

Graduate Program Director: Dr. Jeanette Norton

E-mail: jeanette.norton@usu.edu

Admission Requirements for this Program

Prior to applying, the potential applicant must have a qualified PSC faculty member agree to accept them into their laboratory and be their major (supervisory) professor. Contact Dr. Jeanette Norton with questions.

General Requirements

All prospective graduate students must apply through the School of Graduate Studies. Refer to the School of Graduate Studies website for admission requirements. Please note that all applicants must meet the following general admission requirements:

- A bachelor's degree from an accredited college
- A 3.0 GPA as calculated by the School of Graduate Studies. An official transcript must be sent directly to the School of Graduate Studies from each college or university previously attended (except USU).
- Student recommendation request forms (included in application materials) should be used to request three people to submit letters of recommendation directly to the graduate school. Two letters of recommendation should be from faculty from whom you have taken course work.
- International Students: Please visit the School of Graduate Studies website for requirements.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability

The Program of Study for a master's degree must include at least 15 semester credits of 6000 level or above.

Courses numbered 5000-5990 are advanced, upper-division courses and a maximum of 12 credits may be used on an approved program of study.

Credits in the following areas are not acceptable in a degree program: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Matriculation Start Semester
A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity
Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.

Minimum Total Credits
The minimum requirement for a master's degree is 30 semester credits.

Course requirements leading to MS degrees are developed jointly by the student and the student's supervisory committee. Each student must have a Program of Study approved by their supervisory committee.

The following are required:

- 15 credits minimum of committee-approved 6000-7000 level courses related to selected research area
    - including 2 credits of Plants, Soils and Climate Graduate seminar (PSC6890 PSC GRADUATE SEMINAR)
    - 2-15 credits of Thesis Research credits (PSC6970 RESEARCH AND THESIS) depending on plan type
        - Plan A - minimum of 6 credits, maximum of 15 credits
        - Plan B - minimum of 2 credits, maximum of 3 credits

(5000 level courses are considered upper-division and maximum of 12 credits may be used in a graduate program if approved by the supervisory committee)

Program of study course selections reflect research areas in crop physiology; crop production and management; molecular biology; plant breeding and cytology; plant biotechnology and tissue culture; plant nutrition; space biology; weed science; and bioinformatics and computational biology. There are additional specific departmental requirements regarding physical sciences, biological sciences, and mathematics courses, which differ depending on the program and area of research.

Information for the Bioinformatics and Computational Biology Specialization is listed at the bottom of this page.

All MS students write a Plan A thesis or create a Plan B project under the guidance of their advisor and supervisory committee. The master's thesis must be successfully defended before the supervisory committee and submitted to the library.

Master's Plan A students:

The Plan A option requires the preparation and defense of a thesis. Students are required to complete a minimum of 6 semester credits of thesis research (PSC6970 RESEARCH AND THESIS) that will be applied toward a Program of Study.

Master's Plan B students:

A Plan B option requires the production and defense of a paper or project. Students are required to complete a minimum of 2 credits of thesis research (PSC6970 RESEARCH AND THESIS) with a maximum of 3 thesis research credits applied toward a Program of Study.

Professional/Plan C students cannot use any thesis/dissertation credits.

Approval of academic forms required by the School of Graduate Studies:

- Supervisory Committee approval form
- Program of Study form
- Thesis/Project Approval
- Appointment for Examination
- Record of Examination
- SGS and library review and approval (Plan A)
- Library review and approval (Plan B)

Bioinformatics and Computational Biology Specialization

Type
Completion Requirement

Requirements

Total course credits needed for the specialization: 16 credits

Required course credit hours: 12 credits

Elective courses, take any four credits from the list: 4 credits

Students need to take all five required courses (12 credits), and can select another four credits from the list of elective courses.

Fulfill ALL of the following requirements:

Required Courses (12 credits)

Complete ALL of the following Courses:

- DATA5500 - Python Programming for Analytics - 3cr.
- PSC6150 - Bioinformatics and Big Data Mining - 3cr.
- STAT5050 - Introduction to R - 1cr.
- STAT6570 - Statistical Bioinformatics - 2cr.
- STAT6685 - Deep Learning Theory and Applications - 3cr.

AND

Elective Courses (4 credits)

Students must take four credits from the list of electives.

Earn at least 4 credits from the following:

- BENG6630 - Synthetic Biological Engineering - 3cr.
- BIOL6300 - Programming for Biologists - 3cr.
- CS6030 - High Performance Computing - 4cr.
- CS5800 - Introduction to Database Systems - 3cr.
- CS6040 - Scientific Visualization for Data Science - 3cr.
- STAT5550 - Statistical Visualization I - 2cr.

Program Requirements

Total Credits Required In Program Coursework
30-60

Total Credits Required To Earn This Credential
30-60

Simple Requisites

Program Requirements

Doctoral degrees generally require 30 academic credits beyond a master's degree or 60 academic credits beyond a bachelor's degree. The credit amounts are determined by the approved Program of Study.

Course requirements leading to Ph.D. degrees are developed jointly by the student and the student's supervisory committee. Each student must have a Program of Study approved by their supervisory committee.

The following are required:

- Ph.D. (post-master's):
  - 15 credits minimum of committee-approved 6000-7000 level courses
    - including 2 credits of Plants, Soils and Climate Graduate seminar (PSC7890 PSC GRADUATE SEMINAR)
- Ph.D. (post-baccalaureate):
  - 30 credits minimum of committee-approved 6000-7000 level courses
    - including 2 credits of Plants, Soils and Climate Graduate seminar (PSC7890 PSC GRADUATE SEMINAR)

Courses numbered 5000-5990 are advanced, upper-division courses and a maximum of 12 credits may be used on an approved program of study.

- Thesis Research credits (PSC7970 RESEARCH AND THESIS)
  - If student has master's degree - minimum of 12 credits
  - If student has a bachelor's degree - minimum of 18 credits

Course selections reflect desired research areas. Designation of a specialization is optional. Official specializations will appear on transcript. There are additional specific departmental requirements regarding physical sciences, biological sciences, and mathematics courses, which differ depending on the program and area of research.

All Ph.D. students write a dissertation under the guidance of their advisor and supervisory committee. The doctoral dissertation must be successfully defended before the supervisory committee and submitted to the library.

Information for the Bioinformatics and Computational Biology Specialization is listed at the bottom of this page.

Qualifying Exams

- Each Ph.D. student must undergo some sort of qualifying experience. Depending on the student's particular research and their faculty committee, the exam can either be a traditional oral and written exam, a scholarly proposal, or another option best suited to the student's individual situation.

Required of all programs and degree types:

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability

The Program of Study for a doctoral degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above. If the student does not have a master's degree, the Program of Study must include at least 30 credits at the level of 6000 or above.

Credits in the following areas are not acceptable in a degree program: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Matriculation Start Semester

A doctorate must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is re-validated.

Thesis Research Credits 7970

A minimum of 12 dissertation credits (7970) is required if the student has a master's degree, and a minimum of 18 is required if the student has a bachelor's degree.

Doctoral Forms

Doctoral forms: Approval of the following academic forms required for doctoral students by the School of Graduate Studies (SGS):

- Supervisory Committee
- Program of Study
- Application for Candidacy (includes proposal)
- Appointment for Examination
- Record of Examination
- Authorship and Copyright
- Style and Format
- SGS and library review and approval

Required course credit hours: 12 credits

Elective courses, take any four credits from the list

Students must take all five required courses (12 credits), and may select another four credits from the list of elective courses.

Fulfill ALL of the following requirements:

Required Courses (12 credits)

Complete ALL of the following Courses:

- DATA5500 - Python Programming for Analytics - 3cr.
- PSC6150 - Bioinformatics and Big Data Mining - 3cr.
- STAT5050 - Introduction to R - 1cr.
- STAT6570 - Statistical Bioinformatics - 2cr.
- STAT6685 - Deep Learning Theory and Applications - 3cr.

AND

Elective Courses (4 credits)

Students must take four (4) credits from the list of electives.

Earn at least 4 credits from the following:

- BENG6630 - Synthetic Biological Engineering - 3cr.
- BIOL6300 - Programming for Biologists - 3cr.
- CS5800 - Introduction to Database Systems - 3cr.
- CS6030 - High Performance Computing - 4cr.
- CS6040 - Scientific Visualization for Data Science - 3cr.
- STAT5550 - Statistical Visualization I - 2cr.

Plant Science - Research Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Undergraduate

About this Degree

In this program, students focus on the research, production, and management of economically important plants. Students have access to faculty mentors and the opportunity to receive hands-on experience working side-by-side with research scientists in laboratories, greenhouses, and fields.

Research Emphasis: This emphasis is designed for students intending to attend graduate school. It is focused on the science of crop production, including plant breeding and genetic engineering. Because of the rapidly changing technologies in the field of plant and food production, plant research scientists are in high demand.

- For more information about Plant Science, see website.
- Admitted and current students must meet with an advisor, Abby Macbeth, abby.macbeth@usu.edu, 435-797-0454.
- Log on to Degree Works to check student-specific program progress.
- Can also have an emphasis in Horticulture and Cropping Systems
- The highest math requirement for this degree is MATH1210 CALCULUS I (QL)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
76-81

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

This major requires a minimum GPA of 2.5 in all program coursework.

Contact Abby Macbeth, abby.macbeth@usu.edu, 435-797-0454 for advising.

Plant Science: Research Emphasis - BS Course Requirements

Type
Completion Requirement

Plant Science Core Requirements (23 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL4430 - Introduction to Plant Pathology - 4cr.
- BIOL4500 - Applied Entomology - 3cr.
- PSC1050 - Plants, Soils, and Climate Orientation - 1cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC5550 - Fundamentals of Integrated Weed Management - 4cr.

In addition to the courses listed above, students must complete the course requirements for the emphasis.

Research Core (39 credits)

Complete ALL of the following Courses:

- BIOL2220 - General Ecology - 3cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL4400 - Plant Physiology (QI) - 4cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- MATH1210 - Calculus I (QL) - 4cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PSC5270 - Environmental Plant Physiology - 2cr.

Other Electives (8-11 credits)

Complete at least 3 of the following courses:

- PSC2030 - Basic Flower Arranging - 2cr.
- PSC2600 - Herbaceous Plant Materials - 3cr.
- PSC2620 - Woody Plant Materials: Trees and Shrubs for the Landscape - 3cr.
- PSC2700 - Climate Change Impacts (BPS) - 3cr.
- PSC3400 - Arboriculture - 3cr.
- PSC3700 - Plant Propagation - 4cr.
- PSC3800 - Fundamentals of Organic Agriculture - 3cr.
- PSC3810 - Turfgrass Management - 3cr.
- PSC4050 - Greenhouse Management and Crop Production - 4cr.
- PSC4280 - Field and Food Cropping Systems - 3cr.
- PSC4320 - Forage Production and Pasture Management - 3cr.
- PSC4400 - Modern Vegetable Production - 3cr.
- PSC5280 - Plant Stress Physiology - 3cr.
- PSC6100 - Professional Turf and Urban Landscape Water Management - 3cr.
- PSC5222 - Temperate Zone Fruit Production - 3cr.
- PSC5720 - Advanced Plant Breeding - 3cr.
- PSC3500 - Structure and Function of Plants - 3cr.

Soil Science Electives (6-8 credits)

Complete at least 2 of the following courses:

- PSC4500 - Urban Soil Management and Reclamation - 3cr.
- PSC5710 - Irrigated Soils - 3cr.
- PSC5050 - Principles of Environmental Soil Chemistry - 3cr.
- PSC5130 - Soil Genesis, Morphology, and Classification - 4cr.
- PSC5310 - Soil Microbiology - 3cr.
- PSC5350 - Wildland Soils - 3cr.
- PSC5530 - Soil Health and Fertility (QI) - 3cr.
- PSC5560 - Analytical Techniques for the Soil Environment - 3cr.
- PSC5670 - Environmental Soil Physics - 4cr.

Recommended Electives

Complete ANY of the following Courses:

- CHEM3700 - Introductory Biochemistry - 3cr.
- CHEM3710 - Introductory Biochemistry Laboratory - 1cr.
- PSC1800 - Introduction to Horticulture (BLS) - 3cr.

- PSC2000 - The Atmosphere and Weather (BPS) - 3cr.
- PSC2200 - Pesticide Certification - 2cr.
- PSC4250 - Internship in Plants, Soils, and/or Climate - 1cr.
- PSC5000 - Environmental Instrumentation - 2cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
- PSC4970 - Undergraduate Research - 1cr.
- PSC5760 - Climate and Climate Change (DSC)(QI) - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree
While only three courses are required for certificate completion, students will be welcome and invited to take additional courses of electives.

Program Requirements

Total Credits Required In Program Coursework
9

Total Credits Required To Earn This Credential
9

Simple Requisites

Program Requirements

Certificate completion will require three courses totaling 9-credit hours.

Police Officers and Policing - Certificate

Type
Completion Requirement

Required Course (3 credits)

Complete ALL of the following Courses:

- CJ1390 - Introduction to Policing - 3cr.

Electives (6 credits)

Complete at least 2 of the following courses:

- CJ1330 - Criminal Law - 3cr.
- CJ1340 - Criminal Investigations - 3cr.
- SW4925 - Resilience and Human Flourishing - 3cr.

Minimum University Requirements

Minimum University Requirements
Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes
Demonstrate knowledge about crime prevention, law enforcement, peacekeeping; depth in understanding tools and strategies used in criminal prevention and law enforcement.

Objectives:

1- Students will examine the role of police in society, exploring their functions, organizational structure, subculture, community interactions, and contemporary challenges such as technology, corruption, violence, and use of force.

2- Students will analyze the foundations of criminal liability, investigative processes, and legal defenses while developing critical problem-solving skills for navigating obstacles in criminal investigations.

3- Students will integrate principles of criminal law, investigative techniques, and resilience science to enhance their ability to manage stress, improve decision-making, and maintain well-being in high-pressure criminal justice settings.

Political Communication - Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

The field of Political Communication has employment merit in its own right. Political communication jobs vary in specifics, from government affairs at Coca-Cola to a communication specialist at the Environmental Defense Fund to a position at CNN in criminal justice reporting. For students interested in pursuing careers in politics, adding communication/public relations skills improves their marketability because they receive extra training in forming compelling messages and the dissemination of those messages through traditional communication methods (like print and broadcast media) and newer methods (like social media, podcasts, and other electronic media). For students interested in pursuing communication careers (like journalism and public relations) it improves their marketability by providing a strong knowledge base in politics and public policy—key subjects journalists and other communication professionals are often asked to address.

Program Requirements

Total Credits Required In Program Coursework
18

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

The certificate will incorporate classes from the Journalism & Communication Department, the Political Science Department, and the Communications Studies & Philosophy Department.

From these three areas, students will be required to complete 18 credits, including 9 credits from a list of core classes, with one core class from each area: Journalism & Communication (JCOM), Political Science (POLS), and Communication Studies (CMST). The core is meant to ensure that students are participating in all three areas brought together in the certificate. The core classes will begin to give students some common terminology as well as shared experiences that they can then take into the second half of their certificate.

Political Communication - Certificate

Type
Completion Requirement

Core Courses (9 credits)

Select one core course from each area: Journalism & Communication (JCOM), Political Science (POLS), and Communication Studies (CMST).

Fulfill ALL of the following requirements:

Political Science (POLS) Core Courses:

Complete at least 1 of the following courses:

- POLS1100 - United States Government and Politics (BAI) - 3cr.
- POLS2100 - Introduction to International Relations (BSS) - 3cr.
- POLS2200 - Comparative Politics (BSS) - 3cr.

AND

Journalism Core (JCOM) Core Courses

Complete at least 1 of the following courses:

- JCOM1500 - Introduction to Mass Communication (BSS) - 3cr.
- JCOM2300 - Introduction to Public Relations - 3cr.

AND

Communication Studies (CMST) Core Courses:

Complete at least 1 of the following courses:

- CMST1020 - Public Speaking (BHU) - 3cr.
- CMST1330 - Introduction to Global Communication (BSS) - 3cr.
- CMST2110 - Interpersonal Communication (BHU) - 3cr.
- CMST2270 - Argumentation and Debate - 3cr.

Electives (9 credits)

Take an additional nine (9) credits in elective courses from each area–credits must come from at least two of the three areas.

Students are strongly encouraged to complete a three-credit internship as part of those nine elective credits (a maximum of three credits of internship may be counted toward the certificate). Whether the additional nine credits include an internship or not, the credits must come from at least two of the three areas.

Fulfill ANY of the following requirements:

Communication Studies (CMST) Elective Courses:

Complete ANY of the following Courses:

- CMST2250 - Introductory Internship/Co-op - 1cr.
- CMST3270 - Culture and Public Discourse (DHA) - 3cr.
- CMST3280 - Organizations and Social Change - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.
- CMST3400 - Persuasion - 3cr.
- CMST3730 - Culture and Global Intervention (DHA) - 3cr.
- CMST4200 - Language, Thought, and Action (CI/DSS) - 3cr.
- CMST4250 - Advanced Internship/Co-op - 1cr.
- CMST4270 - Communication, Culture, and Power - 3cr.

OR

Journalism (JCOM) Elective Courses:

Complete ANY of the following Courses:

- JCOM2010 - Media Literacy (BSS) - 3cr.
- JCOM2030 - Multimedia Bootcamp - 4cr.
- JCOM2400 - Introduction to Social Media - 3cr.
- JCOM3100 - Reporting Public Affairs (CI) - 3cr.
- JCOM4020 - Mass Media and Society (DSS) - 3cr.
- JCOM4030 - Mass Media Law (DSS) - 3cr.
- JCOM4410 - Gender and the Mass Media - 3cr.
- JCOM4510 - Communication Internship - 1cr.
- JCOM5400 - Social Media Strategy, Analytics & Artificial Intelligence - 3cr.
- JCOM5420 - The Mass Media and Politics - 3cr.

OR

Political Science Elective Courses:

Complete ANY of the following Courses:

- POLS3110 - Parties and Elections (DSS) - 3cr.
- POLS3120 - Law and Politics (DSS) - 3cr.
- POLS3130 - United States Legislative Politics (DSS) - 3cr.
- POLS3140 - The Presidency (DSS) - 3cr.
- POLS3320 - The Foundations of American Constitutionalism - 3cr.
- POLS3400 - United States Foreign Policy (DSS) - 3cr.
- POLS3700 - Terrorism and Counterterrorism - 3cr.
- POLS4410 - International Negotiations - 3cr.
- POLS4220 - Ethnic Conflict and Cooperation (CI/DSS) - 3cr.
- POLS5910 - Campaign Internship - 1cr.
- POLS5920 - Washington Internship - 1cr.
- POLS5930 - State Government Internship - 1cr.
- POLS5940 - Administrative Internship - 1cr.
- POLS5950 - International Internship - 1cr.
- POLS5960 - International Studies Internship - 1cr.

Practitioner of Food Safety - Post-Bachelor's Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Nutrition, Dietetics & Food Sciences

Program Level
Graduate

About this Degree

The *Practitioner of Food Safety Certificate* is a post-bachelor certificate program designed to provide students with advanced training in food microbiology, toxicology, and sanitation. Students must also demonstrate mastery in two areas aligned with industry or regulatory trainings, for example, Hazard Analysis and Critical Control Points, Preventive Controls for Human Food, or Food Safety and Quality management systems. The certificate can be completed in one year.

The certificate credits can be applied towards the requirements for the Master of Food Safety and Quality degree, should the student decide to further their studies. A bachelor's degree is required for admission into the certificate program, and previous coursework in chemistry and microbiology is strongly recommended.

The PFS program does not provide financial aid or assistantships.

Admission Requirements for this Program

Applicants must have a BS or BA degree and provide one letter of recommendation. No entrance exam is required. Applicants are encouraged to contact the MFSQ program director prior to completing the University online application for graduate studies. The School of Graduate Studies will hold your application until it is complete, and it will then be reviewed by the NDFS department. When students are accepted into the program, they will be assigned a faculty advisor within the food science group in NDFS.

Program Requirements

Type
Completion Requirement

Required Courses

Students must take all three core courses.

Complete ALL of the following Courses:

- NDFS6110 - Food Microbiology - 3cr.
- NDFS6150 - Principles of Food Sanitation - 3cr.
- NDFS6160 - Principles of Food Toxicology - 3cr.

Two credits from NDFS 617X series

Students can choose any two of the following:

Earn at least 2 credits from the following:

- NDFS6170 - Food Safety and Quality: Food Safety Management - 1cr.
- NDFS6171 - Food Safety and Quality: Current Good Manufacturing Practice - 1cr.

- NDFS6172 - Food Safety and Quality: Hazard Analysis and Critical Control Points - 1cr.
- NDFS6173 - Food Safety and Quality: Preventive Controls - 1cr.
- NDFS6174 - Food Safety and Quality: Standards for Produce Safety - 1cr.
- NDFS6175 - Food Safety and Quality: Acidified Foods - 1cr.

- Students can obtain a minor in political science by completing a total of 18 credits in the field.
- **Minimum GPA for Admission:** 2.5, minor; 2.0, Career
- **Minimum GPA for Graduation:** 2.5, minor courses; 2.0, USU
- **Minimum Grade Accepted:** *C-* in minor courses
- Students may count up to 6 credit hours toward the Political Science minor that were also taken in pursuit of another major or minor.

Section 1

Type
Completion Requirement

Required Courses (3 credits)

Complete at least 1 of the following courses:

- POLS1100 - United States Government and Politics (BAI) - 3cr.
- POLS2100 - Introduction to International Relations (BSS) - 3cr.
- POLS2200 - Comparative Politics (BSS) - 3cr.
- POLS2300 - Introduction to Political Theory (BHU) - 3cr.
- POLS2500 - Introduction to International Studies (BSS) - 3cr.

Section 2

Type
Completion Requirement

Electives (9 credits)

Any Political Science courses can be used to complete the minor and fulfill this requirement with two exceptions:
EXCEPTIONS:

1. Not more than ***three*** credits in Directed Readings courses (POLS4910 READINGS AND CONFERENCE) can apply to this requirement.

2. Not more than **three** credits in Political Science Internship courses (POLS5900 GOVT AND POLICY INTERN SEMINAR, POLS5910 CAMPAIGN INTERNSHIP, POLS5920 WASHINGTON INTERNSHIP, POLS5930 STATE GOVERNMENT INTERN and POLS5940 ADMINISTRATIVE INTERNSHIP) can apply to this requirement.

Political Science - BA, BS

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

Political science is the study of government, public policies, political processes, and political behavior. The department is committed to encouraging students to reflect on the political demands that will inevitably fall on them as citizens of the U.S. and as human beings.

As political science majors at USU, students will gain a theoretical and factual understanding of international and national governments, politics and political philosophies. Through discussion-based classroom experiences and research experiences, students will be able to gain hands-on experience interacting with the tenets of government functions and duties. Students will learn to reflect on their role in society and communicate those expectations clearly.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages.

- For more information about Political Science, see the Department of Political Science website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is Quantitative Literacy (QL) course of the student's choice.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.5 GPA Overall and 2.5 at USU.

Simple Requisites

Program Requirements

Bachelor of Science Degree

Students desiring a (BS) Bachelor of Science degree must complete all requirements listed in the core requirements below.

Bachelor of Arts Degree Requirement

For language requirements, please see Minimum University Requirements (Bachelor's Degree).

Major Requirements (36 credits)

Minimum GPA for Graduation: 2.5, major courses

Minimum Grade Accepted: C- in major courses

Please note that none of the courses can be taken pass/fail; all Political Science courses must be taken for a letter grade. Also, all courses must be attended in their entirety.

Students may count up to 6 credit hours toward the Political Science major that were also taken in pursuit of another major or minor.

Major Requirements (36 credits)

Type
Completion Requirement

Required Courses (15 credits)

Complete ALL of the following Courses:

- POLS1100 - United States Government and Politics (BAI) - 3cr.
- POLS2100 - Introduction to International Relations (BSS) - 3cr.
  OR POLS2200 - Comparative Politics (BSS) - 3cr.
- POLS2300 - Introduction to Political Theory (BHU) - 3cr.
- POLS3000 - Introduction to Political Research (QI) - 3cr.
- POLS4990 - Senior Research Seminar (CI) - 3cr.

NOTE:

1. POLS3000 INTRO POLITICAL RESEARCH (QI) must be taken before POLS4990 SENIOR RESEARCH SEMINAR (CI).

B. Area Requirements (15 credits minimum)

Select two of the following four areas: U.S. Government and Policy, International Relations, Comparative Politics, and Political Theory. Complete nine upper-division credits in one of the selected areas and six upper-division credits in the other. Even though a course may be listed under more than one area, it can be applied to only one area. Prior to taking the upper-division courses in a particular area, students must take the introductory course corresponding to that specific area.

B-1. Us Government and Policy Course Options

Type
Completion Requirement

US Government and Policy Courses

Complete ANY of the following Courses:

- POLS3110 - Parties and Elections (DSS) - 3cr.
- POLS3115 - Electoral Behavior - 3cr.
- POLS3120 - Law and Politics (DSS) - 3cr.
- POLS3130 - United States Legislative Politics (DSS) - 3cr.
- POLS3140 - The Presidency (DSS) - 3cr.
- POLS3150 - State and Local Government - 3cr.
- POLS3170 - Law and Economics - 3cr.
- POLS3180 - Introduction to Public Administration - 3cr.
- POLS3810 - Introduction to Public Policy (DSS) - 3cr.
- POLS4120 - American Constitutional Law - 3cr.
- POLS4140 - Political Organizations - 3cr.
- POLS4150 - The Supreme Court and the Shaping of America - 3cr.
- POLS4160 - The First Amendment - 3cr.
- POLS4350 - Public Policy and Democratic Theory - 3cr.
- POLS4800 - Constitutional Design - 3cr.
- POLS4820 - Natural Resources and Environmental Policy: Political Economy of Environmental Quality (DSS) - 3cr.
- POLS4840 - Regulatory Politics - 3cr.
- POLS4890 - Special Topics - 1cr.
- POLS5000 - Political Analysis (QI) - 3cr.
- POLS5100 - Politics and Public Policy - 3cr.
- POLS5110 - Social Policy - 3cr.
- POLS5130 - Law and Policy - 3cr.
- POLS5140 - Law, Politics, and War - 3cr.
- POLS5420 - The Mass Media and Politics - 3cr.
  OR JCOM5420 - The Mass Media and Politics - 3cr.

NOTE:

1. POLS4890 SPECIAL TOPICS - Special Topics- 3 credit maximum. The subject matter determines the area in which it applies.

B-2. International Relations Course Options

Type
Completion Requirement

International Relations Courses

Complete ANY of the following Courses:

- POLS3100 - Global Issues: Non-Democratic Politics - 3cr.
- POLS3200 - The Politics of Development (CI/DSS) - 3cr.
- POLS3400 - United States Foreign Policy (DSS) - 3cr.
- POLS3410 - International Human Rights System - 3cr.
- POLS3430 - Political Geography (CI/DSS) - 3cr.
- POLS3700 - Terrorism and Counterterrorism - 3cr.
- POLS4210 - European Union Politics - 3cr.
- POLS4260 - Asian Government and Politics (DSS) - 3cr.
- POLS4280 - Peacebuilding After War - 3cr.
- POLS4410 - International Negotiations - 3cr.
- POLS4450 - United States and Latin America (CI) - 3cr.
- POLS4460 - National Security Policy - 3cr.
- POLS4462 - The US Intelligence Community - 3cr.
- POLS4463 - Grand Strategy and International Politics - 3cr.
- POLS4464 - Why Nations Fight? International Security in the 21st Century (DSS) - 3cr.
- POLS4470 - Foreign Policy in the Pacific - 3cr.
- POLS4890 - Special Topics - 1cr.
- POLS5210 - Comparative Political Change/Development - 3cr.
- POLS5270 - Latin American Politics and Development - 3cr.
- POLS5300 - Cyber Warfare and International Politics - 3cr.
- POLS5400 - National Security Strategy and Strategic Uncertainty - 3cr.
- POLS5480 - International Trade Policy - 3cr.
- POLS5770 - Strategic Culture - 3cr.

NOTE:

1. POLS4890 SPECIAL TOPICS - Special Topics- 3 credit maximum. The subject matter determines the area in which it applies.

B-3. Comparative Politics Course Options

Type
Completion Requirement

Comparative Poltics Courses

Complete ANY of the following Courses:

- POLS3200 - The Politics of Development (CI/DSS) - 3cr.
- POLS3210 - Western European Government and Politics (DSS) - 3cr.
- POLS3220 - Russian and East European Government and Politics (DSS) - 3cr.
- POLS3230 - Middle Eastern Government and Politics - 3cr.
- POLS3240 - African Government and Politics - 3cr.
- POLS3250 - Chinese Government and Politics (DSS) - 3cr.
- POLS3270 - Latin American Government and Politics (DSS) - 3cr.
- POLS4210 - European Union Politics - 3cr.

- POLS4220 - Ethnic Conflict and Cooperation (CI/DSS) - 3cr.
- POLS4230 - Issues in Middle East Politics - 3cr.
- POLS4260 - Asian Government and Politics (DSS) - 3cr.
- POLS4410 - International Negotiations - 3cr.
- POLS4450 - United States and Latin America (CI) - 3cr.
- POLS4500 - The Politics of Social Movements (DSS) - 3cr.
- POLS4890 - Special Topics - 1cr.
- POLS5140 - Law, Politics, and War - 3cr.
- POLS5210 - Comparative Political Change/Development - 3cr.
- POLS5270 - Latin American Politics and Development - 3cr.

NOTE:

1. POLS4890 SPECIAL TOPICS - Special Topics- 3 credit maximum. The subject matter determines the area in which it applies.

B-4. Political Theory Course Options

Type
Completion Requirement

Political Theory Courses

Complete ANY of the following Courses:

- POLS3310 - American Political Thought (DSS) - 3cr.
- POLS3320 - The Foundations of American Constitutionalism - 3cr.
- POLS4130 - Constitutional Theory - 3cr.
- POLS4310 - History of Political Thought I (CI) - 3cr.
- POLS4320 - History of Political Thought II (DSS) - 3cr.
- POLS4330 - Political Theory and Literature - 3cr.
- POLS4360 - Critical Topics in Political Theory (DHA) - 3cr.
- POLS4370 - Modern Political Thought (DHA) - 3cr.
- POLS4890 - Special Topics - 1cr.

NOTE:

1. POLS4890 SPECIAL TOPICS - Special Topics- 3 credit maximum. The subject matter determines the area in which it applies.

Major Electives (6 credits)

Type
Completion Requirement

Complete the following:

In addition to the 15 credits of required prerequisite courses and the 15 credits of area courses, students must complete six upper-division elective credits. Any upper-division Political Science courses may be used to fulfill this requirement, with **two exceptions**:

1. Not more than **three** credits in Directed Readings courses (POLS4910 READINGS AND CONFERENCE) can apply to this requirement.
2. Not more than **three Internship** credits in the following courses can apply to this requirement:

Optional Major Elective

These are suggested internship courses and are not required for graduation.

Complete ANY of the following Courses:

- POLS5900 - Government and Policy Internship Seminar - 3cr.
- POLS5910 - Campaign Internship - 1cr.
- POLS5920 - Washington Internship - 1cr.
- POLS5930 - State Government Internship - 1cr.
- POLS5940 - Administrative Internship - 1cr.
- POLS5950 - International Internship - 1cr.

Open Electives

Political Science - MA

Program Overview

College	Department	Program Level
College of Arts & Sciences	School of Social Sciences	Graduate

About this Degree

The Master of Arts (MA) in Political Science at Utah State University prepares students for rigorous engagement with the study of government, public policy, political processes, and international affairs. Working alongside award-winning faculty, graduate students develop expertise in research design and data analysis, political theory, and in political behavior and institutions at local, national, and international levels. The program serves students with a wide range of professional and academic goals, including careers as policy analysts in government and the private sector, positions in the Foreign Service, international organizations, think tanks, and lobbying firms, as well as entry into doctoral programs in political science and related disciplines at leading research universities.

Students select from coursework spanning American politics, comparative politics, international relations, and political theory, with opportunities for interdisciplinary engagement through affiliated centers and institutes, including the Heravi Peace Institute, the Institute of Government and Politics, and the Center for the Study of American Constitutionalism. Faculty research strengths cluster in four areas that are unusually difficult to find combined in a single master's program. The first is American political institutions and behavior: faculty research addresses Congressional bargaining and bicameral dynamics, judicial selection and court reform, campaign finance and electoral representation, and the intersection of political psychology, public opinion, and health politics. The second is conflict, peace, and geopolitics: faculty work covers the quantitative study of bargaining obstacles to war resolution, the micro-level dynamics of civilian survival in conflict, and the geopolitics of great power transitions and world-systems — a combination of statistical, field-based, and geographic approaches to conflict directly supported by USU's Heravi Peace Institute. The third is comparative politics and political economy: faculty expertise includes autocratic politics and democratic backsliding, as well as electoral and administrative accountability in unequal democracies. The fourth is political theory and constitutional thought: faculty work spans the realist tradition in western political philosophy, the founders' constitutional design and its relationship to partisanship, and the theory of republican government and the rule of law. Across all four areas, the political science faculty brings methodological range (statistical analysis, survey experiments, formal modeling, multi-method field research, and political geography) that prepares students for both applied policy careers and doctoral study.

The MA and MS degrees differ in their competency requirements. MA candidates must demonstrate proficiency in one or more foreign languages, reflecting the program's preparation for fields where language expertise is essential. MS candidates fulfill a quantitative competency requirement in lieu of a foreign language, providing advanced methodological training suited to empirical research and policy-analytic careers.

Funding in the form of teaching assistantships is available on a merit-based, highly competitive basis.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (gradschool.usu.edu/admissions/policies). Applicants are expected to have a minimum GPA of 3.0 on the final 60 semester or 90 quarter credits. The department will consider applications from students with undergraduate degrees in subjects other than political science; acceptance in these cases may require fulfilling certain course prerequisites. The department accepts new students each fall; the application deadline is February 1. Applicants who submit after February 1 may still be considered for admission but will not be reviewed for financial assistance.

Additional information about the program may be obtained by contacting the Director of Graduate Studies for Political Science (see the contact information above) or by visiting the program website at artsci.usu.edu/social-sciences/political-science.

SCHOOL OF GRADUATE STUDIES REQUIREMENTS

Degree Verification: A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Course Number Acceptability: The Program of Study for a master's degree must include no more than 9 credit hours at the 5000 level. All additional coursework must be at the 6000 level or above.

Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3. 0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

USU Residency Requirement: To maintain USU graduate residency requirements, at least 24 semester-credits for a master's degree must be from an approved Program of Study from USU.

Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost for Graduate Studies for review.

Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the School of Graduate Studies.

Thesis Research Credits:

Plan A students:

Plan A requires preparing and defending a thesis. Students must complete six credits of thesis research counting toward the Program of Study. The department expects a Plan A thesis, which typically involves a data-based evaluation of hypotheses, though requirements vary by subfield.

Plan B students:

Plan B requires producing and defending a paper or project in line with committee guidelines and typically does not involve a data-based evaluation of hypotheses. No more than three thesis research credits may count toward the Program of Study.

Academic Forms: Completion of the MA degree requires the approval of the following forms by the School of Graduate Studies:

Plan A

- Supervisory Committee
- Program of Study
- Thesis Proposal Approval
- Appointment for Exam
- Authorship & Copyright
- Format and Style
- Title Page
- Graduation Application

PLAN B

- Supervisory Committee
- Program of Study
- Thesis Proposal Approval
- Appointment for Exam
- Plan B Report/Creative Project Submission
- Graduation Application

Additionally, all MA degree students must complete Responsible Conduct of Research training prior to forming their supervisory committees.

Language Requirement Status for Master of Arts (if required by department).

MASTER OF ARTS IN POLITCAL SCIENCE REQUIREMENTS

This program requires completion of 30 graduate credits (all courses are three credits unless otherwise designated). The Master of Arts degree requires language proficiency in a second language as determined by the World Languages and Cultures Department. The Master of Science degree requires quantitative competency. Completion of the degree requires a Plan A thesis or a Plan B paper. The department expectation is the completion of a Plan A thesis.

Required for all degrees:
Successful defense and submission of the thesis to the library.

Program Requirements

Type
Completion Requirement

Required Courses (21 credits)

Complete ALL of the following Courses:

- POLS6010 - Research Design - 3cr.
- POLS6220 - Comparative Politics Seminar - 3cr.
- POLS6250 - International Relations Seminar - 3cr.
- POLS6300 - American Politics Seminar - 3cr.
- POLS6310 - Political Theory Seminar - 3cr.
- POLS6970 - Thesis Research - 1cr.

Plan A students:

Plan A requires preparing and defending a thesis. Students must complete six credits of thesis research counting toward the Program of Study. The department expects a Plan A thesis, which typically involves a data-based evaluation of hypotheses, though requirements vary by subfield.

Plan B students:

Plan B requires producing and defending a paper or project in line with committee guidelines and typically does not involve a data-based evaluation of hypotheses. No more than three thesis research credits may count toward the Program of Study.

Elective Courses (9 credits)

Complete the following:

- Take 9 credit hours of 5000-level or 6000-level POLS courses (or outside courses with approval). No more than 9 credit hours of 5000-level coursework may be applied to a graduate degree.

Political Science - MS

Program Overview

College	Department	Program Level
College of Arts & Sciences	School of Social Sciences	Graduate

About this Degree

The Master of Science (MS) in Political Science at Utah State University prepares students for rigorous engagement with the study of government, public policy, political processes, and international affairs. Working alongside award-winning faculty, graduate students develop expertise in research design and data analysis, political theory, and in political behavior and institutions at local, national, and international levels. The program serves students with a wide range of professional and academic goals, including careers as policy analysts in government and the private sector, positions in the Foreign Service, international organizations, think tanks, and lobbying firms, as well as entry into doctoral programs in political science and related disciplines at leading research universities.

Students select from coursework spanning American politics, comparative politics, international relations, and political theory, with opportunities for interdisciplinary engagement through affiliated centers and institutes, including the Heravi Peace Institute, the Institute of Government and Politics, and the Center for the Study of American Constitutionalism. Faculty research strengths cluster in four areas that are unusually difficult to find combined in a single master's program. The first is American political institutions and behavior: faculty research addresses Congressional bargaining and bicameral dynamics, judicial selection and court reform, campaign finance and electoral representation, and the intersection of political psychology, public opinion, and health politics. The second is conflict, peace, and geopolitics: faculty work covers the quantitative study of bargaining obstacles to war resolution, the micro-level dynamics of civilian survival in conflict, and the geopolitics of great power transitions and world-systems — a combination of statistical, field-based, and geographic approaches to conflict directly supported by USU's Heravi Peace Institute. The third is comparative politics and political economy: faculty expertise includes autocratic politics and democratic backsliding, as well as electoral and administrative accountability in unequal democracies. The fourth is political theory and constitutional thought: faculty work spans the realist tradition in western political philosophy, the founders' constitutional design and its relationship to partisanship, and the theory of republican government and the rule of law. Across all four areas, the political science faculty brings methodological range (statistical analysis, survey experiments, formal modeling, multi-method field research, and political geography) that prepares students for both applied policy careers and doctoral study.

The MA and MS degrees differ in their competency requirements. MA candidates must demonstrate proficiency in one or more foreign languages, reflecting the program's preparation for fields where language expertise is essential. MS candidates fulfill a quantitative competency requirement in lieu of a foreign language, providing advanced methodological training suited to empirical research and policy-analytic careers.

Funding in the form of teaching assistantships is available on a merit-based, highly competitive basis.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (gradschool.usu.edu/admissions/policies). Applicants are expected to have a minimum GPA of 3.0 on the final 60 semester or 90 quarter credits. The department will consider applications from students with undergraduate degrees in subjects other than political science; acceptance in these cases may require fulfilling certain course prerequisites. The department accepts new students each fall; the application deadline is February 1. Applicants who submit after February 1 may still be considered for admission but will not be reviewed for financial assistance.

Additional information about the program may be obtained by contacting the Director of Graduate Studies for Political Science (see the contact information above) or by visiting the program website at artsci.usu.edu/social-sciences/political-science.

Powerplant Maintenance - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Airframe Maintenance program equips students with the necessary skills for a career in aviation maintenance. After completing this certificate, students will meet the Federal Aviation Administration requirements to take the General and Airframe tests required to earn their FAA Airframe license.

This Technical Certificate will provide independent, statewide-developed certification and a stackable credential toward a two-year Associate of Applied Science in Powerplant Maintenance Technician. After completion, students will be eligible to take the FAA Part 147 licensing exam. Credits earned in the certificate program(s) will meet requirements for existing Certificate and BS program requirements:

• AAS, Aircraft Maintenance Technician

• AAS, General Technology

• AAS, Small Business Operations

• BS, Technology Systems, Technical Management

Simple Requisites

Program Requirements

- **Total Credits:** 12
- **Minimum Grade Requirement:** All courses taken for the Portuguese minor require a minimum grade of **C-** or better. Courses for the minor *may not* be taken on a pass/fail basis.

Section 1

Type
Completion Requirement

Required Courses (3 credits)

Complete ALL of the following Courses:

- PORT3040 - Advanced Portuguese Grammar and Composition (CI) - 3cr.

Section 2

Type
Completion Requirement

Elective Courses (9 credits)

Earn at least 9 credits from the following:

- PORT3000 - Intermediate Grammar and Composition - 3cr.
- PORT3081 - Healthcare Translation in Portuguese - 3cr.
- PORT3100 - Healthcare Portuguese - 3cr.
- PORT3116 - Navigating Identities of the Portuguese-speaking World - 3cr.
- PORT3117 - Cultural Issues Through Literature and FIlm - 3cr.
- PORT3118 - Popular Culture in the Portuguese-speaking World - 3cr.
- PORT3400 - Popular Music in the Portuguese-Speaking World - 3cr.
- PORT3510 - Business Portuguese - 3cr.
- PORT3540 - Introduction to Translation Studies in Portuguese - 3cr.
- PORT3570 - Brazilian Culture and Civilization (DHA) - 3cr.
- PORT3630 - Literatures of the Portuguese-Speaking World (DHA) - 3cr.
- PORT3700 - Contemporary Brazilian Cinema - 3cr.
- PORT3800 - Portuguese III Study Abroad - 1cr.
- PORT3820 - Advanced Independent Study Abroad: Experiencing Lusophone Culture III - 2cr.
- PORT4000 - Contemporary Issues in Brazil - 3cr.
- PORT4071 - Simultaneous and Consecutive Healthcare Interpretation - 3cr.
- PORT4100 - Trends in Lusophone Cultures - 3cr.
- PORT4200 - Brazilian Media in Global Context - 3cr.
- PORT4880 - Individual Readings - 1cr.
- PORT4920 - Portuguese Language Tutoring - 1cr.

Section 3

Type
Completion Requirement

Bridge Program

Requirements
Bridge Pathway: Students who have participated in a High School Portuguese Bridge Program should follow the instructions below for successful completion of the Portuguese minor.

- **Credits in Residence:** At least half (50 percent) of the credits earned for this minor must be earned at USU. Bridge courses will count toward elective credits and credits in residence at USU.
- **AP Exam:** Bridge students who received a score of 3 or higher on the AP Portuguese Exam taken prior to starting Bridge classes **may register directly for** PORT3040 ADV GRAMMAR/COMPOSITION (CI) without having to take any of the lower-division Portuguese courses or another placement test.
- **Bridge Courses:** PORT3116 PORTUGUESE-SPEAKING WORLD, PORT3117 CULTURE ISSUES THRU LIT & FILM, and PORT3118 POP CULTURE PORTUGUESE should be transferred to the Registrar's Office if taken through another University.

If Bridge student successfully completed:

- 1 Bridge course: Take PORT3040 ADV GRAMMAR/ COMPOSITION (CI) and **2** more 3 credit upper-division Portuguese electives
- 2 Bridge courses: Take PORT3040 ADV GRAMMAR/ COMPOSITION (CI) and **1** more 3 credit upper-division Portuguese elective
- 3 Bridge courses: Take PORT3040 ADV GRAMMAR/ COMPOSITION (CI)

Upon completion, student should have 12 credits of upper division Portuguese coursework to complete the minor, Bridge classes included.

Simple Requisites

Program Requirements

Special Function Officer

- Nine-week program
- 7 credit hours
- SFO Certification prepares a student to work in a limited number of special function positions, such as Security Officer.
- Students must past the SFO module to continue to the second or third module.

Basic Correctional Officer

- Seven-week program
- 5 credit hours
- Successful completion of this module qualifies cadets to work at a county jail or at the state prison.

Law Enforcement Officer

- Thirteen-week program
- 11 credit hours
- Completes the cadet training for LEO Certification (the more widely-known police academy course)
- The 360 hours of training includes accident investigation, sex crimes investigation, firearms, crimes in progress, patrol, physical fitness and arrest contro

Precision Agriculture Technology - Post-Bachelor's Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate, Applied Economics, Applied Sciences, Technology and Education, Civil & Environmental Engineering

Program Level
Graduate

About this Degree

The Graduate Certificate in Precision Agriculture Technology is designed to prepare both fully matriculated graduate students as well as current professionals in the field wishing to enhance their portfolios to understand and implement precision agriculture technology. Precision agriculture is a multi-faceted science that involves several different disciplines – including plant, soil, and climate sciences, several facets of engineering (electrical, agriculture, biological, irrigation, etc.), agricultural technologies and systems, applied economics, statistics, mathematics, and geographic information systems. This science has developed rapidly over the past few decades and focuses on more precise management of agricultural systems using site-specific science, engineering, and technologies. This certificate incorporates these disciplines with courses from four departments (PSC, CEE, APEC, and ASTE). This certificate may be earned as a stand-alone certification or as part of a participating department's graduate program.

Certificate

Students who complete the program will receive a graduate-level certificate in Precision Agriculture Technology. Their USU transcript will list the courses and grades received to complete the certificate.

Admission Requirements for this Program

There are no specific admission requirements. Any enrolled student who completes the requirements will be awarded the certificate. Please reach out to the program coordinators if you have questions about eligibility or requirements.

Program Requirements

Total Credits Required In Program Coursework
12

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

The Precision Agriculture Technology Certificate consists of a minimum of12 credit hours. The certificate is designed to provide students with broad experience in key components of precision agriculture technology, science, engineering, and data analysis. Students may tailor their 12 credit hours depending on their goals, prior experience, and course work in precision agriculture topics. Students must maintain a minimum 3.0 GPA for program courses. Course grades less than a B (B- and below) do not count toward the certificate.

Course Requirements

Type
Completion Requirement

Required Core in Remote Sensing (1-4 credits)

Select one course in Remote Sensing.

Complete at least 1 of the following courses:

- CEE6003 - Remote Sensing of Land Surfaces - 3cr.
- PSC6003 - Remote Sensing of Land Surfaces - 3cr.
- WATS6003 - Remote Sensing of Land Surfaces - 4cr.
- GEOG6815 - Insights from Above: Processing and Analyzing Drone Data - 1cr.
- NR6815 - Insights from Above: Processing and Analyzing Drone Data - 1cr.
- GEOG6835 - Geovisualization for Remote Sensing Applications - 1cr.
- NR6835 - Geovisualization for Remote Sensing Applications - 1cr.
- NR6940 - Principles of Remote Sensing of Natural Resources - 3cr.
- WATS6720 - Drone Data Analysis for Environmental Restoration - 2cr.
- WILD6750 - Applied Remote Sensing - 3cr.

Required Core in GIS (Geographic Information Systems) (1-3 credits)

Select one course in GIS.

Complete at least 1 of the following courses:

- CEE6190 - Geographic Information Systems for Civil Engineers - 3cr.
- GEOG6100 - GIS Fundamentals - 1cr.
- GEOG6500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- GEOG6800 - GIS Advanced Individual Projects - 1cr.
- GEOG6805 - Introduction to Geospatial Artificial Intelligence: The Remote Sensing and GeoAI Frontier - 3cr.
- NR6805 - Introduction to Geospatial Artificial Intelligence: The Remote Sensing and GeoAI Frontier - 3cr.
- GEOG6825 - Geospatial Artificial Intelligence, Ethics, & Society - 1cr.
- NR6825 - Geospatial Artificial Intelligence, Ethics, & Society - 1cr.
- GEOG6855 - Advanced Geospatial Artificial Intelligence - 3cr.
- NR6855 - Advanced Geospatial Artificial Intelligence - 3cr.
- GEOG6300 - Geospatial Analysis with R - 3cr.
- NR6910 - Geographic Information Systems for Natural Resource Applications - 3cr.
- NR6950 - Geospatial Analysis for Natural Resource Management - 3cr.
- NR6960 - Python Programming for GIS - 3cr.

Required Core in Plant/Soil/Applied Economics/Unoccupied Aircraft Systems (6-14 credits)

Additional three courses will be required in plant/soil/water/economics/unoccupied aircraft systems.

Complete at least 3 of the following courses:

- APEC5015 - Applied Economics for Decision Making (QI) - 3cr.
- APEC5950 - Applied Economics Policy Analysis - 3cr.
- APEC6040 - Production Economics, Applied Risk Analysis and Simulation - 3cr.
- ASTE5260 - Environmental Impacts of Agricultural Systems (CI) - 3cr.
- ASTE6260 - Environmental Impacts of Agricultural Systems - 3cr.
- CEE6001 - Design and Evaluation of Pressurized Irrigation Systems - 3cr.
- CEE6006 - Agricultural Water Management - 3cr.
- CEE6007 - Field Evaluation of Agricultural Irrigation Systems - 2cr.
- CEE6570 - Computer Vision Applications for Natural and Built Environments - 3cr.
- PSC6000 - Environmental Instrumentation - 2cr.
- PSC6150 - Bioinformatics and Big Data Mining - 3cr.
- PSC6900 - Special Problems in Plants, Soils, and/or Climate - 1cr.
- ***Choose from the following list of special problem (PSC6900 SPECIAL PROBLEMS) topics:***
    1. ***Temperate Zone Fruit Production***
    2. ***Modern Vegetable Production***
    3. ***Irrigated Soils***

Practicum (1 credit)

Precision Agriculture Practicum is required (1 credit). Meet with your advisor for details.

Earn at least 1 credits from the following:

- APEC6910 - Independent Research - 1cr.
- ASTE6450 - Graduate Topics in Agricultural Education - 3cr.
- CEE6930 - Special Problems - 1cr.
- PSC6900 - Special Problems in Plants, Soils, and/or Climate - 1cr.

Professional Bookkeeping - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

What if students could develop the essential skills to manage financial records with accuracy and confidence so that businesses can make informed financial decisions?

For example, students will learn to track income and expenses, reconcile accounts, and use industry-standard bookkeeping software to maintain accurate financial records.

This program also provides a strong foundation in financial principles, preparing students for a variety of bookkeeping roles in businesses of all sizes.

18

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

Professional Bookkeeping Course Requirements

Type
Completion Requirement

Technical Education Required Courses (18 credits)

Complete ALL of the following Courses:

- TEBP1000 - Basic Financial Principles - 3cr.
- TEBP1100 - Digital Literacy - 2cr.
- TEBP1140 - Spreadsheets - 2cr.
- TEBP1300 - Accounting I - 2cr.
- TEBP1350 - Computerized Accounting - 3cr.
- TEBP1500 - Business English - 1cr.
- TEBP1550 - Business Communications - 3cr.
- TEBP2300 - Accounting II - 2cr.

Program Learning Outcomes

Program Learning Outcomes

- Prepare students to take and succeed on the national certification exams administered by the American Institute of Professional Bookkeepers (AIPB).
- Equip students with the knowledge and skills required to meet national bookkeeping standards and gain recognition as qualified bookkeeping and accounting professionals.
- Train students to support small businesses with essential functions such as business accounting, tax filing, general financial management, and budget tracking.
- Provide students with an accelerated pathway into the job market through a short-term, stackable credential.
- Enable graduates to build on this certificate for access to advanced career opportunities and higher earning potential.

Psychology Teaching - Minor

Undergraduate

Program Requirements

Total Credits Required In Program Coursework
23

Total Credits Required To Earn This Credential
23

Simple Requisites

Program Requirements

At least 12 credits of the 19 required credits must be completed at USU. Required GPA for psychology courses is 3.0. Students must receive a grade of C or better in all psychology courses (USU and transfer) in order to have them counted toward minor requirements. Finally, students must fulfill the 35-credit requirement for the Secondary Teacher Education Program (STEP) in the Secondary Education Program of the School of Teacher Education and Leadership.

All psychology courses require a grade of C or better.

Psychology Teaching - Minor

Type
Completion Requirement

Required Courses (16 credits)

Fulfill ALL of the following requirements:

Required Courses

Complete the following courses and choose one course from each focus area below:

Complete ALL of the following Courses:
- PSY1010 - General Psychology (BSS) - 3cr.
- PSY1400 - Analysis of Behavior: Basic Principles - 3cr.
- PSY1410 - Analysis of Behavior: Basic Principles Lab - 1cr.

AND

Research Focus Area

Complete ALL of the following Courses:
- PSY3500 - Research Methods in Psychology (DSS/CI) - 3cr.

AND

Developmental Focus Area

Complete at least 1 of the following courses:
- PSY1100 - Lifespan Development - 3cr.
- PSY2100 - Developmental Psychology: Adolescence - 3cr.

AND

Sport/Positive/Health Psychology Focus Area

Complete at least 1 of the following courses:
- PSY3110 - Health Psychology - 3cr.
- PSY4000 - Mental Aspects of Sports Performance - 3cr.
  OR KIN4000 - Mental Aspects of Sports Performance - 3cr.

Minor Elective Requirement (3 credits)

Complete at least 1 of the following courses:
- PSY2300 - Psychological Disorders - 3cr.
- PSY3510 - Social Psychology (DSS) - 3cr.

Secondary Teacher Educational Program Levels

Fulfill ANY of the following requirements:

Psychology Teaching Minor Methods and Clinicals at Level 1 (4 credits)

Complete ALL of the following Courses:
- SCED3300 - Clinical Experience I - 1cr.
- SCED3500 - Teaching Social Studies - 3cr.

OR

Psychology Teaching Minor Methods and Clinicals at Level 2 (4 credits)

Complete ALL of the following Courses:
- SCED3500 - Teaching Social Studies - 3cr.
- SCED4300 - Clinical Experience II - 1cr.

Additional Comments:

Licensure Notification

- To obtain licensure in another state, students will probably need to complete an "Institutional Recommendation" form. These forms can be sent to the Educator Licensing Office, 2800 Old Main Hill, Logan UT 84322-2800 or to lisa.christensen@usu.edu. The office will return them to students as quickly as possible. These forms cannot be filled out by the Educator Licensing Office until students have completed the program and all necessary documentation is on their transcript.
- For more information concerning licensure in other states, see the Education Licensure Compliance Table.

Psychology - Minor

Program Overview

College
College of Education & Human Services

Department
Psychology

Program Level
Undergraduate

About this Degree

Psychology is the scientific study of the mind and behavior. As such the Psychology minor is an excellent companion to any major. The 15-credit psychology minor provides students with an excellent base of knowledge and skills in behavioral science.

Program Requirements

Total Credits Required To Earn This Credential

15

Simple Requisites

Program Requirements

- Students are required to have a 3.0 (B) or better composite GPA on all minor coursework with a minimum grade of C in each course accepted for the minor.
- Courses may *not* be taken on a pass/fail basis.
- At least 9 of the 15 credits required for the minor must be completed through USU.

Section 1

Type
Completion Requirement

Required Courses (3 credits)

Complete ALL of the following Courses:

- PSY1010 - General Psychology (BSS) - 3cr.

Section 2

Type
Completion Requirement

Electives (12 credits)

Earn at least 12 credits from the following:

- PSY1100 - Lifespan Development - 3cr.
  OR HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- PSY1400 - Analysis of Behavior: Basic Principles - 3cr.
- PSY1410 - Analysis of Behavior: Basic Principles Lab - 1cr.
- PSY2100 - Developmental Psychology: Adolescence - 3cr.
- PSY2300 - Psychological Disorders - 3cr.
- PSY2400 - Happiness: An Evolutionary, Experimental, Experiential Course - 3cr.
- PSY3000 - Special Topics - 3cr.
- PSY3010 - Psychological Statistics (QI) - 3cr.
- PSY3110 - Health Psychology - 3cr.
- PSY3120 - Abuse, Neglect, and the Psychological Dimensions of Intimate Violence (DSS) - 3cr.
- PSY3400 - Analysis of Behavior: Advanced (DSS) - 4cr.
- PSY3460 - Neuroscience I - 3cr.
- PSY3500 - Research Methods in Psychology (DSS/CI) - 3cr.
- PSY3510 - Social Psychology (DSS) - 3cr.
- PSY3700 - Mental Health Advocacy and Awareness - 3cr.
  OR HDFS3700 - Mental Health Advocacy and Awareness - 3cr.
- PSY4210 - Personality Theory (DSS) - 3cr.
- PSY4230 - Psychology of Gender (DSS) - 3cr.
- PSY4240 - Multicultural Psychology (DSS) - 3cr.
- PSY4420 - Cognitive Psychology (DSS) - 4cr.
- PSY4000 - Mental Aspects of Sports Performance - 3cr.
  OR KIN4000 - Mental Aspects of Sports Performance - 3cr.

Psychology - BA, BS

Program Overview

College
College of Education & Human Services

Department
Psychology

Program Level
Undergraduate

About this Degree

Psychology is the science of behavior and mental processes. The department is internationally known for its innovative research, teaching, and scholarship programs. Graduates are prepared for professions in mental health, research, education, and human service settings. Given that most career paths in psychology require graduate training, Utah State's psychology program is directed toward helping majors meet the prerequisites of competitive graduate programs and preparing them for research and graduate work in psychology.

The modern and forward-thinking curriculum includes a series of courses designed to help students think, plan, and practice for future careers both within and outside of the classroom setting. To further enrich their educational experience, students are encouraged to join Psi Chi, the international honor society in psychology, participate in the University Honors Program, and the Psychology Leadership Advisory Board. These platforms allow students to deepen their learning, foster leadership skills, and connect with peers and faculty who share their passion for psychology.

Students earn a BS in psychology by completing: 1) all required courses in the major and 2) Psychology Department exit interview. To receive a BA, students must also gain proficiency in one or more foreign languages. See the Undergraduate Academic Credential Requirements for language requirements. The courses within the major are designed and selected to align with the American Psychological Association's Guidelines for the bachelor's degree. Course substitutions are a rare but viable option for students who have completed or plan to undertake a course with similar objectives. Approval for such substitutions requires a consultation with an academic advisor in the psychology department and is contingent upon a compelling justification based on the guidelines' objectives.

- For more information about Psychology, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Worksto check student-specific program progress.

Program Requirements

41

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must be admitted to USU in Good Standing.
- A grade of C or better is required for all major courses.
- A 3.0 major course GPA required at graduation
- Psychology Department exit interview required for graduation

Math Requirements

Type
Completion Requirement

Highest Math Requirement

Complete at least 1 of the following courses:

- STAT1040 - Introduction to Statistics (QL) - 3cr.
- STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
- STAT1080 - Foundations of Data Science (QL) - 3cr.

Psychology - BA, BS

Type
Completion Requirement

Required Courses (20 credits)

Complete ALL of the following Courses:

- PSY1010 - General Psychology (BSS) - 3cr.
- PSY1400 - Analysis of Behavior: Basic Principles - 3cr.
- PSY1410 - Analysis of Behavior: Basic Principles Lab - 1cr.
- PSY2010 - Orientation to Psychology as a Career and Profession - 2cr.
- PSY2710 - Brain and Behavior - 3cr.
- PSY3010 - Psychological Statistics (QI) - 3cr.
- PSY3020 - Career Organization for the Psychology Major - 1cr.
- PSY3500 - Research Methods in Psychology (DSS/CI) - 3cr.
- PSY4020 - Career Preparation for the Psychology Major - 1cr.

Undergraduate Research Core (4 credits)

Choose one of the following courses to fulfill the undergraduate research requirement. The other course may be used as a major elective.

Complete at least 1 of the following courses:

- PSY3400 - Analysis of Behavior: Advanced (DSS) - 4cr.
- PSY4420 - Cognitive Psychology (DSS) - 4cr.

Human Psychology in Context Core (3 credits)

Choose one of the following courses to fulfill the Human Psychology in Context requirement. The other course may be used as a major elective.

Complete at least 1 of the following courses:

- PSY4230 - Psychology of Gender (DSS) - 3cr.
- PSY4240 - Multicultural Psychology (DSS) - 3cr.

Major Electives (12 credits)

Students must complete 12 credits of major electives. Courses from the Undergraduate Research Core and the Diversity and Inclusivity Core may count in the major elective area if the additional courses have not been used for the core requirements.

Earn at least 12 credits from the following:

- PSY1100 - Lifespan Development - 3cr.
- PSY2100 - Developmental Psychology: Adolescence - 3cr.
- PSY2300 - Psychological Disorders - 3cr.
- PSY2400 - Happiness: An Evolutionary, Experimental, Experiential Course - 3cr.
- PSY3110 - Health Psychology - 3cr.
- PSY3120 - Abuse, Neglect, and the Psychological Dimensions of Intimate Violence (DSS) - 3cr.
- PSY3460 - Neuroscience I - 3cr.
- PSY3510 - Social Psychology (DSS) - 3cr.
- PSY3700 - Mental Health Advocacy and Awareness - 3cr. **OR** HDFS3700 - Mental Health Advocacy and Awareness - 3cr.

- PSY4000 - Mental Aspects of Sports Performance - 3cr.
  OR KIN4000 - Mental Aspects of Sports Performance - 3cr.
- PSY4210 - Personality Theory (DSS) - 3cr.

Capstone Experience (3 credits)

Choose one of the following courses to fulfill the capstone requirements:

Complete at least 1 of the following courses:

- PSY4950 - Undergraduate Apprenticeship (CI) - 3cr.
- PSY4960 - Capstone Seminar in Psychology (CI) - 3cr.

Minor or Certificate Requirement

Complete the following:
Students are required to complete a minor or certificate housed in another department. The minimum GPA and grade for minor courses will be determined by the minor the student selects and are not determined by the psychology major GPA and minimum grade requirements.

Experiential Courses (Suggested Electives)

The following courses will count toward general elective credit but will not count toward major electives or other major requirements. These courses are designed to allow credit for research, teaching, or related employment experience outside of the classroom.

Complete ANY of the following Courses:

- PSY2250 - Introductory Cooperative Work Experience - 1cr.
- PSY4250 - Advanced Cooperative Work Experience - 1cr.
- PSY4920 - Practicum - 1cr.
- PSY4940 - Indigenous Community Engaged Learning - 3cr.
- PSY5900 - Independent Study - 1cr.
- PSY5910 - Independent Research - 1cr.
- PSY5930 - Instructional Apprenticeship in Psychology - 1cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Psychology Department Exit Interview

Complete the following:
Must complete Psychology Department exit interview. Contact Psychology advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Psychology - EdS

Program Overview

College
College of Education & Human Services

Department
Psychology

Program Level
Graduate

About this Degree

The School Psychology Ed.S. program trains practitioners with expertise in promoting the academic, social, emotional, behavioral, and mental health of youth in school settings. Training involves assessment and intervention across multiple levels, including direct services with youth, consultation-based services with parents and teachers, and systems-level services with educational administrators and multidisciplinary teams. The program is approved by the National Association of School Psychologists and the Utah State Board of Education for licensure of school psychologists. Students will earn their M.Ed. in route to their Ed.S. degree. Program graduates will be prepared to practice in K–12 education settings as school psychologists.

For more specific information about the program, see the department's website at https://cehs.usu.edu/psychology/eds/school-psychology-eds.

Disclosure of Educational Requirements for Licensure by state:

https://www.usu.edu/online/state-authorization/

Admission Requirements for this Program

Admissions requirements vary somewhat across Psychology graduate programs. Therefore, applicants should review program web pages for more details. However, applications submitted to the School of Graduate Studies must include the following:

- Transcripts from all previous universities attended.
- Three letters of recommendation
- A statement of professional goals and intent
- A curriculum vitae/resume

Simple Requisites

Program Requirements

School of Graduate Studies Requirements:

- Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Students are expected to earn a minimum grade of B- in all coursework. Students receiving a grade lower than B- are expected to repeat the course or demonstrate their mastery in that area in a manner approved by the faculty.
- Course Number Acceptability: The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
- Education Specialist's forms: Approval of the Program of Study is required by the School of Graduate Studies

Psychology - PhD

Program Overview

College
College of Education & Human Services

Department
Psychology

Program Level
Graduate

About this Degree

Behavior Analysis

The graduate program in Psychology offers students the opportunity to obtain specialty training in behavior analysis. The Behavior Analysis specialization in the Psychology Ph.D. program provides training for students interested in experimental behavior analysis and translational research. Students receive extensive classroom and hands-on training in laboratory, applied research, and translating contemporary behavioral theories into innovative behavior-analytic practice.

For more specific information, see the department's website at https://cehs.usu.edu/psychology/doctoral/behavior-analysis.

Brain and Cognition

The Brain and Cognition area of specialization in the Psychology Ph.D. program offers students the opportunity to obtain specialty training in areas related to cognition and neuroscience. The Brain and Cognition specialization provides extensive training for behavioral, cognitive, molecular, systems, or computational neuroscience students. Training opportunities for students include investigating basic behavioral, cognitive, and neurological processes; understanding the contribution of basic neurological processes to psychological disorders; neural correlates of behavioral phenomena; and related issues. Students interested in neuroscience may also want to consider the Neuroscience Ph.D. program.

For more specific information, see the department's website at https://cehs.usu.edu/psychology/doctoral/brain-and-cognition.

Combined Clinical/Counseling Psychology (APA-accredited)

This program integrates the theory and practice of psychology common to the disciplines traditionally denoted as clinical and counseling psychology. It subscribes to the scientist-practitioner model and seeks to balance research and clinical training. Students completing the program will enter professional practice in various settings, including university counseling centers, community mental health centers, hospitals, clinics, and academic settings. Independent research, in the form of a thesis and dissertation, is required of all students. The Combined Clinical/Counseling program provides generalized training but also provides specialized training opportunities aligned with student interests via elective coursework and practica. These experiences are intended to help students develop a specialty area aligned with their future career goals. The program is also affiliated with the American Indian Support Project, one of the nation's most successful programs for training and mentoring American Indian psychologists.

Complete information on accreditation and standards for accreditation are available through the Commission on Accreditation (CoA) at Education Directorate, American Psychological Association, 750 First Street NE, Washington DC 20002-4242, (202) 336-5979, or on the web at https://accreditation.apa.org/.

Undergraduate prerequisites: Applicants admitted to the Ph.D. program in Combined Clinical/Counseling who did not major in psychology or a related field may need to take some undergraduate psychology courses (e.g., basic statistics) as prerequisites for program requirements. Any prerequisite requirements will be determined in consultation with the student and program faculty.

For more specific information about the program, see the department's website at https://cehs.usu.edu/psychology/doctoral/combined-clinical-counseling.

School Psychology

The School Psychology Ph.D. program trains psychologists with expertise in promoting the academic, social, emotional, behavioral, and mental health of youth in schools and related settings. Training is grounded in the scientist-practitioner model and involves assessment and intervention across multiple levels, including direct services with youth, consultation-based services with parents and teachers, and systems-level services with educational administrators and multidisciplinary teams. The program emphasizes research that advances science-based practice and requires the completion of original research projects. Program graduates are prepared to work in various professional settings, including academia, educational/psychological research firms, school systems, and traditional clinical settings.

For more information, see the program's website at https://cehs.usu.edu/psychology/doctoral/school-psychology

Disclosure of Educational Requirements for Licensure by State

https://www.usu.edu/online/state-authorization/

Admission Requirements for this Program

Admission requirements vary somewhat across Psychology graduate programs. Therefore, applicants should review pthe rogram web pages for more details. However, applications submitted to the School of Graduate Studies must include the following:

- Transcripts from all previous universities attended.
- Three letters of recommendation
- A statement of professional goals and intent
- A curriculum vitae/resume

Applicants to the Doctor of Philosophy (Ph.D.) programs are advised that they should possess a broad base of knowledge at the undergraduate level in a substantive subgroup of the following: general psychology, human development, learning theory, cognition, personality theory research, psychometrics, elementary statistics, history and systems, physiological, sensation and perception, and social psychology.

Program Requirements

School of Graduate Studies Requirements

- A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Students are expected to earn a minimum grade of B- in all coursework. Students receiving a grade lower than B- are expected to repeat the course or demonstrate their mastery in that area in a manner approved by the faculty.
- A doctorate must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Course Number Acceptability: The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

- Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- Master's forms: Approval of academic forms required for doctoral students by the School of Graduate Studies.

List of specific forms, depending on plan type:

- Supervisory Committee
    - Program of Study
    - Application for Candidacy
    - Appointment for Examination
    - Record of Examination
    - Dissertation Format and Style
    - Authorship and Copyright
    - Dissertation Title Page
    - SGS and library review and approval of Thesis/ Dissertation

Program Requirements:

All Psychology Ph.D. candidates must meet the following general core requirements, regardless of specialty emphasis:

- Submission of a manuscript for publication in a recognized journal, usually first-authored;
- Presentation of research findings at a regional or national convention or professional meeting, usually first-authored;
- Completion of comprehensive examination;
- Completion of the doctoral dissertation
- Completion of all the required coursework.

Students in the Combined PhD program must also complete a clinical comprehensive exam and compete nationally for admission to an APA-approved, 2,000-hour predoctoral internship. The Behavior and Analysis and Brain and Cognition programs have an additional requirement of a grant proposal.

Students entering with only a bachelor's degree will earn a Master of Science (M.S.) in addition to their doctoral degree. The requirements for the M.S. in Psychology are typically completed within the first four semesters of the program. Receipt of this master's degree is not intended to be a terminal degree and does not provide sufficient preparation for professional practice as a psychologist or school psychologist.

Behavior Analysis (70 credits)

Type
Completion Requirement

Required Courses

Must complete 30 credits to earn the MS degree, this includes 6 credits of PSY6970 THESIS.
Must complete 40 credits to earn the PhD degree, this includes 12 credits of PSY7970 DISSERTATION.

Students entering with an approved master's degree will complete 51 hours.

Complete ALL of the following Courses:

- PSY6560 - Introduction to Educational and Psychological Research - 3cr.
- PSY6600 - Statistical Foundations - 3cr.
- PSY6970 - Thesis - 1cr.
- PSY7250 - Professional Ethics and Standards - 1cr.
- PSY7610 - Regression Analysis - 3cr.
- PSY7900 - Independent Study - 1cr.
- PSY7910 - Independent Research - 1cr.
- PSY7970 - Dissertation - 1cr.

NOTE:

1. PSY6970 THESIS - Complete 6 credits.
2. PSY7250 PROFESSIONAL ETHICS/STANDARDS - Complete 2 credits.
3. PSY7900 INDEPENDENT STUDY and PSY7910 INDEPENDENT RESEARCH - Students can enroll in variable credits with no more than 3 credit hours in each within a single semester.
4. PSY7970 DISSERTATION - Complete 12 credits.

Required Courses for ABAI

Complete ALL of the following Courses:

- PSY6600 - Statistical Foundations - 3cr.
- SPED6700 - Introduction to Behavioral Research in Education - 3cr.
- SPED6710 - Concepts and Principles of Behavior Analysis in Education - 3cr.
- SPED6720 - Educational Applications of Behavior Analysis I - 3cr.
- SPED6730 - Educational Applications of Behavior Analysis II - 3cr.
- SPED6770 - Coaching and Systems Change - 3cr.
- SPED6780 - Ethics & Professional Behavior in Behavior Analysis - 3cr.
- SPED6790 - Special Topics - 1cr.

Brain and Cognition (70 Credits)

Type
Completion Requirement

Required Courses

Must complete 30 credits to earn the M.S. degree. This includes 6 credits of PSY6970 THESIS.
Must complete 40 credits to earn the Ph.D. This includes 12 credits of PSY7970 DISSERTATION.

Students entering with an approved master's degree will complete 51 hours.

Complete ALL of the following Courses:

- PSY6020 - Cellular and Molecular Neuroscience - 3cr. **OR** PSY7110 - Cognitive Neuroscience - 3cr.
- PSY6560 - Introduction to Educational and Psychological Research - 3cr.
- PSY6600 - Statistical Foundations - 3cr.
- PSY6970 - Thesis - 1cr.
- PSY7250 - Professional Ethics and Standards - 1cr.
- PSY7900 - Independent Study - 1cr.
- PSY7910 - Independent Research - 1cr.
- PSY7970 - Dissertation - 1cr.

NOTE:

1. PSY6970 THESIS - Complete 6 credits.
2. PSY7250 PROFESSIONAL ETHICS/STANDARDS - Complete 2 credits.
3. PSY7900 INDEPENDENT STUDY and PSY7910 INDEPENDENT RESEARCH - Students can enroll in variable credits with no more than 3 credit hours in each within a single semester.
4. PSY7970 DISSERTATION - Complete 12 credits.

Combined Clinical/Counseling (87-93 credits)

Type
Completion Requirement

M.S. Required Courses (31 credits)

Complete ALL of the following Courses:

- PSY6290 - Diversity Issues in Treatment and Assessment - 1cr.
- PSY6291 - Diversity Issues in Treatment and Assessment: Self-Awareness - 1cr.
- PSY6292 - Diversity Issues in Treatment and Assessment: Skills - 1cr.
- PSY6160 - Evidence-Based Psychotherapy Across Ages - 3cr.
- PSY6310 - Intellectual Assessment - 3cr.
- PSY6320 - Objective Assessment of Personality and Affect - 3cr.
- PSY6350 - Introduction to Theories of Intervention in Psychology - 3cr.
- PSY6560 - Introduction to Educational and Psychological Research - 3cr.
- PSY6600 - Statistical Foundations - 3cr.
- PSY6850 - Introduction to the Combined Doctoral Program - 1cr.
- PSY6970 - Thesis - 1cr.
- PSY7270 - Lifespan Psychopathology - 3cr.

NOTE:

PSY6290 DIVERSITY TREAT/ASSMNT - Complete 1 credit.

Ph.D. Required Courses (26 Credits)

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- PSY6100 - History and Systems of Psychology - 3cr.
- PSY6510 - Social Psychology - 3cr.
- PSY7100 - Biological Basis of Behavior - 3cr.
- PSY7250 - Professional Ethics and Standards - 1cr.
- PSY7540 - Advanced Cognition and Development - 3cr.
- PSY7610 - Regression Analysis - 3cr.
- PSY7630 - Supervision and Consultation in Applied Psychology - 1cr.
- PSY7850 - Internship and Professional Development Seminar - 1cr.

AND

Advanced Integrative Courses

Complete at least 1 of the following courses:

- PSY6670 - Neuropharmacology - 2cr.
- PSY7550 - Multicultural Perspectives on Social Development - 3cr.
- PSY7830 - Mechanisms of Neuropsychiatric Disease - 3cr.
- PSY7810 - Seminar - 1cr.

NOTE:

PSY7810 SEMINAR - *Neurocognitive, Neuropsychiatric and Behavioral Aspects of Central Nervous System Disorders*

AND

Advanced Research Courses

Complete at least 1 of the following courses:

- PSY7070 - Advanced Measurement Theories and Practice - 3cr.
- PSY7650 - Multilevel and Marginal Models for the Social Sciences - 3cr.
- PSY7670 - Literature Reviews in Education and Psychology - 2cr.
- PSY7760 - Structural Equation Modeling - 3cr.
- PSY7770 - Longitudinal Data Analysis - 3cr.

AND

Elective Credit

Complete the following:

- Students must also complete 6 elective credits.

Intervention Practica Courses (14-18 credits required)

Fulfill ALL of the following requirements:

Year 2 Fall & Spring (6 total credits)

Complete ALL of the following Courses:

- PSY7350 - Integrated Practicum with Adults, Adolescents, and Children - 3cr.

AND

Year 3 Fall & Spring (6 total credits)

Complete ANY of the following Courses:

- PSY7360 - Practicum in Clinical Child/School Psychology - 3cr.
  OR PSY7370 - Practicum in Counseling/Clinical Psychology - 3cr.

AND

Year 4 and beyond Fall & Spring (2-6 total credits)

Complete ANY of the following Courses:

- PSY7380 - Practicum in Psychology - 1cr.
  OR PSY7390 - Externship in Adult Clinical/Counseling Psychology - 1cr.
  OR PSY7395 - Externship in Child/Adolescent Psychology - 1cr.

Dissertation and Internship (12 Credits)

Complete ALL of the following Courses:

- PSY7970 - Dissertation - 1cr.
- PSY7950 - Internship in Professional Psychology - cr.

NOTE:

1. PSY7970 DISSERTATION - Complete 12 credits.
2. PSY7950 INTERN PROFESSIONAL PSY - Students must register for 3 semesters of Internship in the last year of the program. (Fall, Spring, Summer).

School Psychology (93-95)

Type
Completion Requirement

Master's. Requirements (36 credits)

Complete ALL of the following Courses:

- PSY6160 - Evidence-Based Psychotherapy Across Ages - 3cr.
- PSY6310 - Intellectual Assessment - 3cr.
- PSY6380 - Practicum in School Psychology - 3cr.
- PSY6410 - Psychoeducational Assessment - 3cr.
- PSY6450 - Introduction to School Psychology - 3cr.
- PSY6440 - Legal and Ethical Issues in the Schools - 3cr.
- PSY6540 - School Mental Health I: Assessment - 3cr.
- PSY6560 - Introduction to Educational and Psychological Research - 3cr.
- PSY6600 - Statistical Foundations - 3cr.
- PSY7540 - Advanced Cognition and Development - 3cr.
- PSY7610 - Regression Analysis - 3cr.

Ph.D. Requirements (57-58 credits)

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- PSY6100 - History and Systems of Psychology - 3cr.
- PSY6290 - Diversity Issues in Treatment and Assessment - 1cr.
- PSY6291 - Diversity Issues in Treatment and Assessment: Self-Awareness - 1cr.
- PSY6292 - Diversity Issues in Treatment and Assessment: Skills - 1cr.
- PSY6380 - Practicum in School Psychology - 3cr.
- PSY6510 - Social Psychology - 3cr.
- PSY6630 - Supervision and Consultation in Psychological and Educational Settings - 3cr.
- PSY6910 - Independent Research - 1cr.
- PSY7100 - Biological Basis of Behavior - 3cr.
- PSY7200 - School Mental Health II: Intervention - 3cr.
- PSY7270 - Lifespan Psychopathology - 3cr.
- PSY7395 - Externship in Child/Adolescent Psychology - 1cr.

NOTE:

1. PSY6290 DIVERSITY TREAT/ASSMNT - Complete 1 credit.
2. PSY6380 PRACT SCHOOL PSY - Complete 6 total credits. Year 2: Fall & Spring.
3. PSY6910 INDEPENDENT RESEARCH - Complete 1 credit each. Year 2: Fall & Spring.
4. PSY7395 EXTERNSHIP: CHILD/ADOL PSYCH - Complete 4-6 credits. Students on campus for 4 years will do 2 years of advanced practicum and should register for 4 credits, whereas students on campus for 5 years may do 3 years of advanced practicum and can therefore register for up to 6 credits.

AND

Dissertation and Internship (12 Credits)

Complete ALL of the following Courses:

- PSY7950 - Internship in Professional Psychology - cr.
- PSY7970 - Dissertation - 1cr.

NOTE:

1. PSY7970 DISSERTATION - Complete 12 credits.
2. PSY7950 INTERN PROFESSIONAL PSY - Students must register for 3 semesters of Internship in the last year of the program. (Fall, Spring, Summer).

AND

Elective Credit

Complete the following:

- Students must complete 6 elective credits and an additional research methods elective.

Program Learning Outcomes

Program Learning Outcomes

1. Students will demonstrate accurate patternmaking techniques (flat, digital, drafting, and draping)
2. Students will demonstrate the ability to research target markets and apply that research to create apparel designs
3. Students will demonstrate the ability to grade patterns into a range of sizes
4. Students will demonstrate the ability to pattern clothing for an accurate fit

Public Health: Environmental Health Emphasis - BS

Program Overview

College
College of Arts & Sciences

Department
Biology

Program Level
Undergraduate

About this Degree

A four-year program leading to the Bachelor of Science in Public Health is offered by the Department of Biology with options in environmental health, industrial hygiene, or public health education. The industrial hygiene program is accredited by the Applied Science Commission of the Accreditation Board for Engineering and Technology; 111 Market Place, Suite 1050; Baltimore MD 21202-4012; telephone (410) 347-7700. Individuals completing the environmental health option are qualified to take the Registered Environmental Health Specialist/Sanitarian Examination (REHS/RS). The Public Health degree requires a core of biology courses similar to that required for the biology degrees; additional biology and public health courses; and chemistry, physics, mathematics, statistics, and allied science and engineering courses appropriate to each emphasis.

Environmental Health Emphasis: An environmental health and protection professional is primarily concerned with the investigation and prevention of health-related problems within a community. These problems include air and water pollution, solid and hazardous waste disposal, food-borne illnesses in public eating establishments, water and wastewater treatment, and insect and rodent disease. Graduates are eligible for the Utah Environmental Health Scientist-In-Training License and the Registered Environmental Health Specialist/ Sanitarian examination.

- For more information about Public Health, see the Department of Biology.
- Admitted and current students must meet with their advisor, Carl Farley.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1210 CALCULUS I (QL) or MATH1100 CALCULUS TECHNIQUES (QL) and either STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Additional Information

Minimum grades and GPA for graduation: Students must complete the BIOL1610 BIOLOGY I, BIOL1615 BIOLOGY I LABORATORY, BIOL1620 BIOLOGY II (BLS), and BIOL1625 BIOLOGY II LABORATORY courses with grades of C- or better and attain a minimum GPA of 2.25 in all Biology or Public Health coursework required by the major. Major requirements may *not* be taken on a pass/fail basis.

- PUBH5500 PUBLIC HEALTH MANAGEMENT (CI), along with another course having CI designation (such as ASTE3050 TECH/ PROF COMMUNICATION (CI) or NDFS5110 FOOD MICROBIOLOGY (CI)) will fulfill the Communications Intensive (CI) requirement.
- STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI) will fulfill the Quantitative Intensive (QI) requirement.

For further information contact the Biology Advising Center in the Biology-Natural Resources Building Room 101. The advisor for Public Health majors is Carl Farley, Biology-Natural Resources 131, (435)797-2566, carl.farley@usu.edu.

Public Health: Environmental Health Emphasis - BS

Type
Completion Requirement

Public Health Major Requirements (31-36 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL2420 - Human Physiology - 4cr.
  OR BIOL4600 - Advanced Human Physiology - 5cr.
- BIOL3300 - General Microbiology - 3cr.
- MATH1210 - Calculus I (QL) - 4cr.
  OR MATH1100 - Calculus Techniques (QL) - 3cr.
- PUBH4000 - Public Health Internship - 3cr.
- PUBH4040 - Fundamentals of Epidemiology - 3cr.
- PUBH5500 - Public Health Management (CI) - 2cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.

NOTE:

1. BIOL1610 BIOLOGY I - Requires a grade of C- or better.
2. BIOL1615 BIOLOGY I LABORATORY - Requires a grade of C- or better.
3. BIOL1620 BIOLOGY II (BLS) - Requires a grade of C- or better.
4. BIOL1625 BIOLOGY II LABORATORY - Requires a grade of C- or better.

Public Health Course Requirements (35 credits)

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- ASTE3050 - Technical and Professional Communication Principles (CI) - 3cr.
  OR CMST1020 - Public Speaking (BHU) - 3cr.
  OR CMST2120 - Group Collaboration and Decision Making - 3cr.
  OR JCOM3050 - Technical and Professional Communication

Principles (CI) - 3cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PUBH3310 - Occupational Health and Safety - 3cr.
- PUBH3610 - Environmental Management - 3cr.
- PUBH4310 - Industrial Hygiene Recognition of Hazards - 4cr.

Emphasis Required Courses (13 credits)

Complete ALL of the following Courses:
- BIOL2220 - General Ecology - 3cr.
- NDFS5110 - Food Microbiology (CI) - 3cr.
- PUBH4030 - Communicable Disease Control - 3cr.
- PUBH4200 - Public Health Seminar - 1cr.
- PUBH5730 - Environmental Chemistry of Organic Contaminants - 3cr.

Required Electives (10 credits)

Earn at least 10 credits from the following:
- BIOL3085 - Ecology Laboratory (CI) - 2cr.
- BIOL4420 - Plant Systematics and Diversity - 3cr.
- BIOL5550 - Freshwater Invertebrates - 3cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- CHEM3710 - Introductory Biochemistry Laboratory - 1cr.
- NDFS1250 - Sanitation and Safety - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PUBH5400 - Environmental Toxicology - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Master of Public Health: Health Education and Promotion Specialization - MPH

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Graduate

About this Degree

The online Master of Public Health (MPH) with an emphasis in Health Education and Promotion (HEP) at Utah State University equips students with the foundational competencies necessary for the practice of public health, including focused training in health education and promotion. The MPH HEP program, fully accredited by the Council on Education for Public Health in Fall of 2022, effectively trains students to be leaders in the field of public health by advancing education, research, practice, and advocacy. MPH graduates are well prepared for careers in health care settings, academic institutions, local, state, and federal health agencies, private industry, worksite wellness, and non-profit organizations. Students receive training in program planning and evaluation, social determinates of health, health communication, quantitative and qualitative public health methods, health behavior, health policy, leadership, and global health. Students also complete integrative, interprofessional, and applied learning experiences outside of the classroom to demonstrate mastery of public health competencies. The fully online MPH HEP is available on a part-time or full-time basis.

Admission Requirements for this Program

Admission requirements can be found at the USU School of Graduate Studies (apply at https://gradschool.usu.edu/admissions/index). Students are expected to be admitted to the program as matriculated students before taking coursework leading to the degree.

Additional information about the Master of Public Health Degree-Health Education and Promotion Concertation may be obtained by contacting the Department of Kinesiology and Health Science or by visiting http://cehs.usu.edu/khs/graduate/master-of-public-health/index.

Program Requirements

School of Graduate Studies Requirements

- Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- Course Number Acceptability: The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 6000.
- Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the School of Graduate Studies.
- A maximum of 12 credits of 5000-level coursework may be used on a program of study.
- Thesis Research Credits: Professional/Plan C students cannot use any thesis credits.
- Master's forms: Approval of academic forms required for master's students by the School of Graduate Studies. This includes the Supervisory Committee Approval Form (SCAF), Program of Study (POS), and USU Graduation Application.

Program Requirements

The Master of Public Health in Health Education Promotion degree program requires a minimum of 45 credits. Students who have completed an undergraduate public health degree from a program accredited by the Council on Education for Public Health are not required to take HEP6050 FOUNDATIONS OF PUBLIC HEALTH and may complete the program with a minimum of 42 credits.

Master of Public Health in Health Education and Promotion - MPH HEP (45 Credits)

Type
Completion Requirement

Required Courses

Fulfill ALL of the following requirements:

Foundational Competency Courses (27 credits)

Complete ALL of the following Courses:

- HEP6000 - Advanced Program Planning and Evaluation for Public Health - 3cr.
- HEP6010 - Communication for Public Health - 3cr.
- HEP6020 - Introduction to Biostatistics and Epidemiology - 3cr.
- HEP6050 - Foundations of Public Health - 3cr.
- HEP6200 - Health Administration, Organizations, and Systems - 3cr.
- HEP6350 - Social Determinants of Health - 3cr.
- HEP6400 - Policy, Leadership, and Advocacy in Public Health - 3cr.
- HEP6550 - Qualitative Methods for Public Health - 3cr.
- HEP6850 - Capstone in Public Health - 3cr.

AND

Concentration Competency Courses (18 credits)

Complete ALL of the following Courses:

- HEP6120 - Foundations of Global Health - 3cr.
- HEP6150 - Global Maternal and Child Health - 3cr.
- HEP6450 - Research Methods in Population Health - 3cr.
- HEP6600 - Practicum in Health Promotion - 3cr.
- HEP6670 - Principles of Grant Writing in Public Health - 3cr.
- HEP6800 - Health Behavior - 3cr.

HEP 6020 Pre-Test

HEP MPH students are required to pass the pre-test prior to registering for HEP6020 INTRO TO BIOSTATISTICS AND EPI. Students should take the pre-test within the first two semester of starting the degree.

Complete ALL of the following Courses:

- HEP6020 - Introduction to Biostatistics and Epidemiology - 3cr.

Public Health: Industrial Hygiene Emphasis - BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Biology	Undergraduate

About this Degree

A four-year program leading to the Bachelor of Science in Public Health is offered by the Department of Biology with options in environmental health, industrial hygiene, or public health education. The industrial hygiene program is accredited by the Applied Science Commission of the Accreditation Board for Engineering and Technology; 111 Market Place, Suite 1050; Baltimore MD 21202-4012; telephone (410) 347-7700. Those completing the industrial hygiene option are granted benefits toward both the Certified Industrial Hygienist (CIH) and the Certified Safety Professional (CSP) examinations. The Public Health degree requires a core of biology courses similar to that required for the biology degrees; additional biology and public health courses; and chemistry, physics, mathematics, statistics, and allied science and engineering courses appropriate to each emphasis.

Industrial Hygiene Emphasis: This emphasis prepares students to anticipate, recognize, evaluate, and control occupational health hazards in the workplace. An industrial hygienist is responsible for inspection of the working environment, measurement of workers' exposure to chemical, physical, and biological hazards, and implementation of control measures to provide a safe and healthy working environment. This emphasis is accredited by the Applied Science Accreditation of ABET, and the coursework prepares students to take an exam to be certified as professional industrial hygienists.

- For more information about Public Health, see the Department of Biology.
- Admitted and current students must meet with their advisor, Carl Farley.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1210 CALCULUS I (QL) or MATH1100 CALCULUS TECHNIQUES (QL) and either STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Public Health Major Requirements (32 credits)

Earn at least 32 credits from the following:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL2420 - Human Physiology - 4cr.
  OR BIOL4600 - Advanced Human Physiology - 5cr.
- MATH1210 - Calculus I (QL) - 4cr.
  OR MATH1100 - Calculus Techniques (QL) - 3cr.
- BIOL3300 - General Microbiology - 3cr.
- PUBH4040 - Fundamentals of Epidemiology - 3cr.
- PUBH4380 - Industrial Hygiene Internship - 3cr.
- PUBH5500 - Public Health Management (CI) - 2cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.

NOTE:

1. BIOL1610 BIOLOGY I - Requires a grade of C- or better.
2. BIOL1615 BIOLOGY I LABORATORY - Requires a grade of C- or better.
3. BIOL1620 BIOLOGY II (BLS) - Requires a grade of C- or better.
4. BIOL1625 BIOLOGY II LABORATORY - Requires a grade of C- or better.

Public Health Course Requirements (35 credits)

Earn at least 35 credits from the following:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- ASTE3050 - Technical and Professional Communication Principles (CI) - 3cr.
  OR CMST1020 - Public Speaking (BHU) - 3cr.
  OR CMST2120 - Group Collaboration and Decision Making - 3cr.
  OR JCOM3050 - Technical and Professional Communication Principles (CI) - 3cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PUBH3310 - Occupational Health and Safety - 3cr.
- PUBH3610 - Environmental Management - 3cr.
- PUBH4310 - Industrial Hygiene Recognition of Hazards - 4cr.

Emphasis Required Courses (23-25 credits minimum)

Fulfill ALL of the following requirements:

Required Courses

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- CHEM3000 - Quantitative Analysis (QI) - 3cr.
  AND CHEM3005 - Quantitative Analysis Laboratory - 1cr.

OR

Option 2

Complete ANY of the following Courses:

- CHEM3650 - Environmental Chemistry (DSC) - 3cr.
  OR PUBH5730 - Environmental Chemistry of Organic Contaminants - 3cr.

NOTE:

1. PUBH5730 ENVIRON CHEM OF ORGANIC CONTAM - Course may satisfy either the additional chemistry requirement or the elective option, **but not both.**

OR

Option 3

Complete ALL of the following Courses:

- CHEM2320 - Organic Chemistry II - 4cr.
- CHEM2325 - Organic Chemistry Laboratory II - 1cr.

AND

Complete ALL of the following Courses:

- CHEM3700 - Introductory Biochemistry - 3cr.
- CHEM3710 - Introductory Biochemistry Laboratory - 1cr.
- PUBH4300 - Industrial Hygiene Seminar - 1cr.
- PUBH4320 - Industrial Hygiene Chemical Hazard Evaluation - 3cr.
- PUBH4330 - Industrial Hygiene Physical Hazards - 3cr.
- PUBH4410 - Industrial Safety - 3cr.
- PUBH5330 - Industrial Hygiene Chemical Hazard Control (QI) - 3cr.
- PUBH5400 - Environmental Toxicology - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Public Health: Public Health Education Emphasis - BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Biology	Undergraduate

About this Degree

A four-year program leading to the Bachelor of Science in Public Health is offered by the Department of Biology with options in environmental health, industrial hygiene, or public health education. The industrial hygiene program is accredited by the Applied Science Commission of the Accreditation Board for Engineering and Technology; 111 Market Place, Suite 1050; Baltimore MD 21202-4012; telephone (410) 347-7700. Public Health Education graduates are qualified to take the Certified Health Education Specialist (CHES) examination. The Public Health degree requires a core of biology courses similar to that required for the biology degrees; additional biology and public health courses; and chemistry, physics, mathematics, statistics, and allied science and engineering courses appropriate to each emphasis.

Public Health Education Emphasis: This emphasis prepares students to educate people about a variety of health issues. A public health educator assists people in developing positive health attitudes and behaviors. The public health education profession includes various responsibilities, such as teaching, research, program development, administrative duties, speaking before civic groups, arranging publicity campaigns, and coordinating the activities of various service organizations with those of governmental or community agencies. Graduates are qualified to take the Certified Health Education Specialist examination.

- For more information about Public Health, see the Department of Biology.
- Admitted and current students must meet with their advisor, Carl Farley.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1210 CALCULUS I (QL) or MATH1100 CALCULUS TECHNIQUES (QL) and either STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI).

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Simple Requisites

Program Requirements

Additional Information

Some major coursework will fulfill the General Education Requirements or University Studies Requirements.

- PUBH5500 PUBLIC HEALTH MANAGEMENT (CI), along with another course having CI designation (such as NDFS5110 FOOD MICROBIOLOGY (CI) or ENGL3080 INTRO TO TECH COMM (CI)) will fulfill the Communications Intensive (CI) requirement.

- STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI) will fulfill the Quantitative Intensive (QI) requirement.

For further information contact the Biology Advising Center in the Biology-Natural Resources Building Room 101. The advisor for Public Health majors is Carl Farley, Biology-Natural Resources 131, (435)797-2566, carl.farley@usu.edu.

Minimum grades and GPA for graduation: Students must complete the BIOL1610 BIOLOGY I, BIOL1615 BIOLOGY I LABORATORY, BIOL1620 BIOLOGY II (BLS), and BIOL1625 BIOLOGY II LABORATORY courses with grades of C- or better and attain a minimum GPA of 2.25 in all Biology or Public Health coursework required by the major. Major requirements may *not* be taken on a pass/fail basis.

Public Health: Public Health Education Emphasis - BS

Type
Completion Requirement

Public Health Major Requirements (31-36 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL2420 - Human Physiology - 4cr.
  OR BIOL4600 - Advanced Human Physiology - 5cr.
- BIOL3300 - General Microbiology - 3cr.
- PUBH4000 - Public Health Internship - 3cr.
- PUBH4040 - Fundamentals of Epidemiology - 3cr.
- MATH1210 - Calculus I (QL) - 4cr.
  OR MATH1100 - Calculus Techniques (QL) - 3cr.
- PUBH5500 - Public Health Management (CI) - 2cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.

NOTE:

1. BIOL1610 BIOLOGY I - Requires a grade of C- or better.
2. BIOL1615 BIOLOGY I LABORATORY - Requires a grade of C- or better.
3. BIOL1620 BIOLOGY II (BLS) - Requires a grade of C- or better.
4. BIOL1625 BIOLOGY II LABORATORY - Requires a grade of C- or better.

Emphasis Required Courses (51 credits)

Complete ALL of the following Courses:

- CHEM1110 - General Chemistry I (BPS) - 4cr.
- CHEM1120 - General Chemistry II (BPS) - 4cr.
- CHEM1125 - General Chemistry II Laboratory - 1cr.
- CMST1020 - Public Speaking (BHU) - 3cr.
- HEP2000 - First Aid and Emergency Care - 2cr.
- HEP2500 - Health and Wellness - 2cr.
- HEP3000 - Drugs and Human Behavior - 3cr.
- HEP3900 - Social Marketing in Health Education - 3cr.
- HEP4200 - Community-Based Program Planning, Implementation, and Evaluation - 3cr.
- HEP4205 - Program Management and Evaluation for Health Education - 3cr.
- NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.
- NDFS5210 - Advanced Public Health Nutrition (CI) - 3cr.
- PHYS1200 - Introduction to Physics by Hands-on Exploration (BPS) - 4cr.
  OR PHYS1800 - Physics of Technology (BPS) - 4cr.
- PSY1010 - General Psychology (BSS) - 3cr.
- PUBH3120 - Family and Community Health - 3cr.
- PUBH4030 - Communicable Disease Control - 3cr.
- PUBH4200 - Public Health Seminar - 1cr.
- SOC3330 - Medical Sociology (DSS) - 3cr.

Open Electives

Master of Public Health: Public Health Nutrition Specialization - MPH

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Nutrition, Dietetics & Food Sciences	Graduate

About this Degree

Program Contact:

Mateja R. Savoie-Roskos, PhD, MPH, RD, FAND
Associate Dean for Academic Programs and Student Services; College of Agriculture and Applied Sciences

Associate Professor, MPH Program Director; Department of Nutrition, Dietetics and Food Sciences
mateja.savoie@usu.edu; 435-797-5777

Program Description

This 100% online Master of Public Health (MPH) in Public Health Nutrition degree includes interdisciplinary training in nutrition-related sciences and prepares students with skills and competencies essential for leadership and administrative positions in public health nutrition. Potential positions include public health nutritionist, nutritional epidemiologist, program coordinator, public health educator, executive director, and nutrition services supervisor. These positions can be found in a variety of governmental, academic, nonprofit, and for-profit settings, including state and local public health departments, colleges and universities, health care organizations, Women, Infants, and Children (WIC), food banks, food pantries, nutrition education programs such as SNAP-Ed and EFNEP, community action agencies, and anti-hunger/poverty organizations, among many others.

Students learn about designing, implementing, and evaluating nutrition-related programs and policies to improve the health and well-being of local, national, and global populations. The land grant setting of Utah State University provides unique opportunities for the study of the relationship between human nutritional status and health with strong academic and research programs in nutritional epidemiology, federal, and community nutrition programs, USU Extension nutrition outreach programs, food science, food safety, agricultural practices, animal health, climate change, environmental sciences and much more. This program is 100% online, so students can complete the program from anywhere around the world. This program can be pursued part-time or full-time.

The MPH Public Health Nutrition program is considered a professional non-thesis (Plan C) program. Students must complete an Applied Practice Experience (APE) and write a capstone paper, also known as the Integrative Learning Experience (ILE). Students should contact their advisor early in their program to start planning their APE and ILE, to ensure that all degree requirements will be met, and that all appropriate paperwork has been sent to the School of Graduate Studies (SGS).

The USU Public Health Nutrition and Veterinary Public Health MPH programs are accredited Council on Education for Public Health (CEPH) programs. This accreditation addresses the Public Health Nutrition and Veterinary Public Health MPH concentrations only. Other degrees and areas of study offered are not included in the unit of accreditation review. Please visit CEPH.org to learn more.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (https://gradschool.usu.edu/admissions/policies). Students are also required to have completed and passed undergraduate courses in statistics and human nutrition. Students are expected to be admitted to the program as matriculated students before taking coursework leading to the degree.

Additional information about the MPH Public Health Nutrition program may be obtained by contacting the Department of Nutrition, Dietetics and Food Sciences or by visiting the program website at https://qanr.usu.edu/mph/public-health-nutrition.

Program Requirements

42

Total Credits Required To Earn This Credential
42

Simple Requisites

Program Requirements

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- **Master's forms:** Approval of the Program of Study is required by the School of Graduate Studies.
- **Plan C (Non-Thesis):**
    1. Program of Study

Students in the MPH Public Health Nutrition program are required to take 42 credits, 3 of which are electives. The 42-credit requirement is an established credit requirement by the Council on Education for Public Health. Students with a bachelor's degree from a CEPH-accredited public health program can take an alternative course to NDFS6140 INTRODUCTION TO PUBLIC HEALTH since they would have fulfilled these foundational public health knowledge competencies in their undergraduate program.

MPH Public Health Nutrition Degree Plan (42 credits)

Type
Completion Requirement

Foundational Competency Courses (21 credits)

Complete ALL of the following Courses:

- NDFS6140 - Introduction to Public Health - 3cr.
- NDFS6240 - Program Planning and Evaluation in Public Health - 3cr.
- NDFS6280 - Public Health Administration and Leadership - 3cr.
- NDFS6540 - Introduction to Epidemiology and Biostatistics - 3cr.
- NDFS6550 - Public Health Policy and Advocacy - 3cr.
- NDFS6810 - Social Determinants of Health - 3cr.
- VCLS6020 - One Health: People, Animals, and the Environment - 3cr.

Concentration Competency Courses (18 credits)

Complete ALL of the following Courses:

- NDFS6010 - Hunger Issues and Solutions - 3cr.
- NDFS6200 - Nutritional Epidemiology - 3cr.
- NDFS6210 - Advanced Public Health Nutrition - 3cr.
- NDFS6230 - Communicating Current Topics in Public Health - 3cr.
- NDFS6600 - Current Topics in Obesity - 3cr.
- NDFS6850 - Applied Practice Experience in Public Health Nutrition - 3cr.

Students who start the program in this catalog year must take 3 credits of NDFS6850 APPLIED PRACTICE EXPERIENCE

Elective Courses (3 credits)

Students are required to take 3 credits of electives from courses that advance knowledge or skills that align with the field of public health nutrition. These courses may be offered by any department across campus. This list is not comprehensive. Students are advised to work with their MPH advisor to find additional elective options that may align with their career goals and interests in public health.

Complete ANY of the following Courses:

- NDFS6320 - Advanced Sports Nutrition - 3cr.
- NDFS6470 - Global Public Health - 3cr.
- NDFS6580 - Application of Research Principles in Dietetics - 3cr.
- NDFS6800 - Counseling and Motivational Interviewing for Health Professionals - 3cr.
- VCLS6000 - Ecology and Health: Case Studies of Relationships Between the Environment, Organisms, and Health - 3cr.
- ASTE6220 - Volunteer Programs and Partnerships - 3cr.
- ASTE6920 - Communication Tools for Extension - 3cr.

Program Requirements

Fulfill ALL of the following requirements:

- Successful completion of Applied Practice Experience (APE)
- Successful completion of Integrative Learning Experience (ILE)

About this Degree

Program Contact:

E. Jane Kelly, DVM, MS, MPH, DACVPM, DACVM

Clinical Professor in the Veterinary Clinical and Life Sciences Department, Veterinary Diagnostician and Microbiologist at the Utah Veterinary Diagnostic Laboratory

jane.kelly@usu.edu

Program Description

This 100% online Master of Public Health (MPH) in Veterinary Public Health degree includes interdisciplinary training in veterinary-related public health science and prepares students with skills and competencies essential for leadership and administrative positions in the epidemiology of zoonotic diseases, food safety, and the wildlife-domestic animal-human interface. The Master of Public Health (MPH) in Veterinary Public Health program offers specialized training in the emerging public health discipline of One Health. Students learn how to work with veterinarians, ecologists, and physicians to monitor and control public health threats by applying the core disciplines of public health and specialized knowledge of veterinary medicine to learn how diseases spread among people, animals and the environment. The land grant setting of Utah State University provides unique resources for the Master of Public Health (MPH) in Veterinary Public Health program with the College of Veterinary Medicine, agricultural extension programs, the Utah Veterinary Diagnostic Laboratories, as well as strong academic programs in climate sciences, ecology, and natural resources. This program is 100% online, so students can complete the program from anywhere around the world. This program can be pursued part-time or full-time.

The Master of Public Health (MPH) in Veterinary Public Health is considered a professional program (Plan C) program. Students must complete an Applied Practice Experience (APE) and write a capstone paper, also known as the Integrative Learning Experience (ILE). Students should contact their advisor early in their program to start planning their APE and ILE, to ensure that all degree requirements will be met, and that all appropriate paperwork has been sent to the School of Graduate Studies (SGS).

The USU Public Health Nutrition and Veterinary Public Health MPH programs are accredited Council on Education for Public Health (CEPH) programs. This accreditation addresses the Public Health Nutrition and Veterinary Public Health MPH concentrations only. Other degrees and areas of study offered are not included in the unit of accreditation review. Please visit CEPH.org to learn more.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website. Applicants do NOT have to be veterinarians or interested in becoming veterinarians to be admitted to or benefit from this program. Students are expected to be admitted to the program as matriculated students before taking coursework leading to the degree.

Additional information about the Master of Public Health (MPH) in Veterinary Public Health program may be obtained by contacting the Veterinary Clinical and Life Sciences Department or by visiting the program website.

- PSC6760 - Climate and Climate Change - 3cr.
- WILD6400 - Ecology of Animal Populations - 3cr.

Non - Course Requirements

Fulfill ALL of the following requirements:

- Successful completion of Applied Practice Experience (APE)
- Successful completion of Integrative Learning Experience (ILE)

As a result of successfully completing the requirements of the MPH degree, students will be prepared for leadership positions within local, state, and federal health agencies, the private industry, and non-profit organizations.

Program Learning Outcomes

Program Learning Outcomes

Students will demonstrate knowledge of biostatistics, epidemiology, environmental health, sociobehavioral public health, and public health policy and administration.

Students will demonstrate competency attainment through applied practice experiences in governmental, non-governmental, non-profit, industrial and for-profit settings or appropriate university-affiliated settings.

Welding Technology - Technical Certificate (formerly Certificate of Proficiency)

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

Federal Gainful Employment Information

USU Eastern's welding technology program offers unique opportunities for students interested in the field of welding to receive excellent instruction in hands-on welding skills, welding theory and scientific concepts, and to explore additional careers in the field of welding including inspection, engineering, and project management. In-depth instruction is provided in all common arc welding and cutting processes, such as: Gas Metal Arc Welding (GMAW), Flux-cored Arc Welding (FCAW), Gas Tungsten Arc Welding (GTAW), Shielded Metal Arc Welding (SMAW), Oxy-fuel Cutting (OFC), and Plasma Arc Cutting (PAC). Additional welding processes are explored and introduced including Submerged-Arc Welding (SAW), Resistance Spot Welding (RSW), Stud Welding (SW), Brazing, Soldering, and Carbon Arc Cutting (CAC-A). Print reading, weld inspection, welding metallurgy, and structural fabrication courses are also offered.

Successful students may work as welders locally or nationally, manage welding/fabrication shops, start their own welding businesses, explore careers in weld inspection, or seek baccalaureate and/or graduate degrees after graduation with welding as a program area of study.

The program offers a Welding Technology and a Welding Technology - AAS - additionally, many students choose to complete an Associate of Science (in addition to a Welding AAS) in order to more seamlessly transfer to baccalaureate and graduate programs.

Piano Pedagogy - Minor

Program Overview

College
College of Arts & Sciences

Department
Music

Program Level
Undergraduate

About this Degree

The Minor in Piano Pedagogy is designed for pianists who wish to build strong musicianship skills while preparing for independent piano teaching in both private studios and group settings. Through a balance of coursework and hands-on teaching experiences, the program provides practical tools for effective instruction and fosters professional readiness. By preparing well-rounded and capable piano teachers, the Piano Pedagogy Minor reflects USU's ongoing commitment to excellence in music education.

There is no official audition process required to declare the Piano Pedagogy Minor, making the program accessible to students from a variety of musical backgrounds. However, several of the required piano courses do require entrance exams to assess overall fluency, proficiency, and readiness to keep up with course requirements.

For more information on the degree and entrance expectations, contact Kevin Olson at kevin.olson@usu.edu.

Quality and Reliability - Institutional Certificate of Proficiency

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The purpose of this institutional certificate is to support students wishing to pursue a career in quality management-related fields. This certificate will provide training in quality management systems, statistical process control, lean manufacturing, and root cause analysis.

This institutional certificate allows students to earn an industry-recognized credential that will qualify them for beginning-level careers in quality.

Rehabilitation and Disability Studies - Post-Master's Certificate

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Graduate

About this Degree

Post-Master's Certificate in Rehabilitation and Disability Studies

Program Director: Trenton Landon
Location: EDUC 322
Phone: 435-797-3269
FAX: 435-797-3572
E-mail: trent.landon@usu.edu

Program Advisor: Kris Wengreen
Location: EDUC 306
Phone: 435-797-3246
FAX: 435-797-3572
E-mail: kris.wengreen@usu.edu

USU provides the Certificate in Rehabilitation and Disability Studies for the Commission on Rehabilitation Counselor Certification (CRCC) Category 3.

- The program includes eight (9) courses. Students must take a minimum of 16 credits from these courses.
- All courses are offered via distance education (Live Zoom classes in the evenings, and Online/Asynchronous courses).
- Tuition: $517/credit hour
- CRCC Employment Requirement: Twelve (12) months of acceptable work experience under the supervision of a CRC, or twenty-four (24) months of acceptable work experience. Work experience does not need to be completed before applying for the program.
- For additional information on CRCC Category 3, see the CRCC website: https://crccertification.com/get-certified/
- Certificate can be completed in as few as three semesters. Courses are offered spring, summer, and fall semesters via distance education. Students have the flexibility to register for as many courses each semester as they desire.

Admission Requirements for this Program

To be eligible for certification in this Category you must have a master's, specialist, or doctoral degree in Counseling or Social Work. CRCC requires a pre-review of transcripts and work experience.

In order to gain admittance to the program, students must submit an application, application fee, official master's degree transcripts, statement of purpose, and resume. To apply, contact the program advisor, Kris Wengreen (kris.wengreen@usu.edu)

Ranch Horse Management - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Animal, Dairy & Veterinary Sciences

Program Level
Undergraduate

About this Degree

The Ranch Horse Management Certificate is offered only at the USU Blanding Campus. It will provide a foundation for students wishing to find careers in the equine industry, but also portions of the beef industry where horses are used in cattle management systems. The certificate of completion is also a beginning pathway for students who decide to purse an associate's degree in Agricultural Science or a bachelor's degree in Equine Science and Management.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

1. Attain a grade point average of at least 2.50 across all courses applied toward this certificate.
2. Courses required for the certificate may *not* be taken for a *pass/fail* grade except for courses that are only offered as pass/fail.
3. A minimum grade of C is required in all courses applied toward this certificate.

NOTE:

- Students must maintain a 2.5 GPA in ADVS prefix courses if they wish to move forward to obtain the Equine Science and Management BS degree.
- The following is a sample degree pathway. Students should meet with an academic advisor for individual plans.
- For further information about this program, contact Professor Jim Keyes at jim.keyes@usu.edu or (435) 678-8162.

Ranch Horse Management Course Requirements

Type
Completion Requirement

First Year Fall

Complete ALL of the following Courses:

- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- ADVS1110 - Introduction to Animal Science (BLS) - 3cr.
- ADVS1200 - Basic Horsemanship Skills - 3cr.
- ADVS1600 - Riding Fundamentals I - 3cr.
- ADVS2500 - Feeds and Feeding - 3cr.

First Year Spring

Complete ALL of the following Courses:

- ADVS2080 - Beef Production Practices - 3cr.
- ADVS2190 - Horse Production Practices - 3cr.
- ADVS2350 - Equine Marketing: Buying, Selling, Trading - 3cr.
- ADVS2400 - Riding Fundamentals II - Intermediate - 3cr.
- CMST2110 - Interpersonal Communication (BHU) - 3cr.

Range Science - MS

Program Overview

College
College of Agriculture & Natural Resources

Department
Wildland Resources

Program Level
Graduate

About this Degree

Students in this program study the science and application of ecological principles in rangeland environments. While the focus of range sciences at USU is primarily on the rangelands of the Great Basin, students will receive a broad background in various subjects in rangeland ecosystems. Students can study specific areas related to rangeland science, such as vegetation management, animal behavior, range ruminant nutrition, and restoration of rangelands. The program is integrated with other natural resource programs in the college focusing on forestry, wildlife, and ecology for a broad interdisciplinary experience.

The MS degree targets students motivated toward a management or administrative career in natural resources with an emphasis in range science. The Range Science MS degree may be obtained through either a Plan A (research thesis) or Plan B (paper) program. The MS Plan A requires the preparation and defense of a thesis and is best suited for students desiring research experience. The Plan B option requires the preparation and defense of a paper and is most appropriate for range science professionals who are not pursuing a research career path.

Department Head: Dr. Chris Keyes, chris.keyes@usu.edu
Graduate Program Coordinator: Stacey Brummer, 435-797-2503, stacey.brummer@usu.edu

Admission Requirements for this Program

Prior to applying, the prospective applicants must have a Wildland Resources faculty member agree to serve as their major (supervisory) advisor. It is recommended that interested applicants first contact specific faculty members with whom they are interested in working.

If the faculty member is accepting graduate students and agrees to serve as the major advisor, the applicant may then apply for admission through the School of Graduate Studies website. Applications are reviewed and processed on an ongoing basis.

Please note that funding is not provided by the Wildland Resources Department. Funding may be available through the major advisor, or a third party (such as an employer), or a student may be self-funded.

General Admission Requirements:

- A bachelor's degree from an accredited college
- A 3.0 GPA as calculated by the School of Graduate Studies.
- Completion of the formal application is required. This includes the submission of three letters of recommendation, a statement of purpose, and official transcripts from each college or university previously attended (except USU). The letter of recommendation request forms and statement of purpose prompt are included in the application materials.
- International Students: Please visit the School of Graduate Studies website for requirements.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

The Master of Science in Range Science program includes required course work, research, and the defense and submission of an original thesis (Plan A) or paper (Plan B).

The MS **Plan A** option includes a significant research component that leads to the production and defense of a thesis, which is submitted to the School of Graduate Studies for approval and then archived at the library. Students complete a required 6–15 thesis research credits, which support the development of their research and thesis. Thesis chapters frequently form the basis of papers prepared and submitted for publication in peer-reviewed journals by the student. Almost all MS students in the Wildland Resources department pursue a Plan A.

The MS **Plan B** option includes an extensive literature review that forms the basis of a paper. Plan B papers are defended but are not subject to the School of Graduate studies approval before submission to the library. Plan B students are required to complete 2-3 thesis research credits and take more coursework to fulfill the remaining credits.

Regardless of plan type, you will work closely with your major advisor and your supervisory committee to determine the trajectory of your research and the course work that will be most beneficial to you.

Department Requirements:

- **Completion of 30 required credit hours:** Only courses included on a supervisory committee approved Program of Study will count towards an MS degree. Please see specific course requirements under MS Plan A and MS Plan B below.
- **Presentation of Research Proposal**: Students must present a research proposal at the department Graduate Research Symposium.
- **Successful defense:** Students must successfully defend a Plan A research thesis or a Plan B paper.
- **Submission of thesis or paper**: Students must submit a Plan A research thesis or a Plan B paper to the School of Graduate Studies and library for review and approval. All thesis and paper submissions must follow the School of Graduate Studies Publication Guide and departmental requirements.

School of Graduate Studies (SGS) Requirements:

- **Completion of Required Forms:**
  - Supervisory Committee Approval
  - Program of Study
  - Master's Thesis Proposal/Project Approval
  - Appointment for Examination
  - Record of Examination (submitted by department office)
  - Format & Style form
  - Authorship & Copyright form
  - Title Page form
  - Application for Graduation
- **Completion of Required Trainings:** Students must complete all School of Graduate Studies required trainings, including Responsible Conduct of Research training.

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- **Minimum GPA Requirement:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Degree Programs

Type
Completion Requirement

MS Plan A (Research Thesis) Course Requirements

Complete ALL of the following Courses:

- WILD6800 - Wildland Resources Departmental Seminar - 1cr.
- WILD6970 - Thesis Research - 1cr.
- 30 required credit hours (minimum) including:
  - 1 credit of WILD6800 WILD SEMINAR
  - 6-15 credits of WILD6970 THESIS RESEARCH
  - Remaining credits fulfilled via: Program of Study approved coursework

MS Plan B (Paper) Course Requirements

Complete ALL of the following Courses:

- WILD6800 - Wildland Resources Departmental Seminar - 1cr.
- WILD6970 - Thesis Research - 1cr.
- 30 required credit hours (minimum) including:
  - 1 credit of WILD6800 WILD SEMINAR
  - 2 but no more than 3 credits of WILD6970 THESIS RESEARCH
  - Remaining credits fulfilled via: Program of Study approved coursework

Program Requirements

Total Credits Required In Program Coursework
30-60

Total Credits Required To Earn This Credential
30-60

Simple Requisites

Program Requirements

The Range Science PhD program includes required coursework, research, and the defense and submission of an original dissertation. In addition, you must achieve candidacy by successfully completing a comprehensive exam (comps), which assesses your ability to conduct independent research, and by submitting your research proposal. The PhD program may be pursued either post-master's or post-baccalaureate. The post-baccalaureate PhD requires additional credit hours, coursework, and increased guidance from your major advisor and committee.

To develop your dissertation research, you will work closely with your major advisor and supervisory committee to generate original ideas, refine research direction, and identify the coursework and professional activities that will be most beneficial to your progress. As you approach candidacy, you should demonstrate a strong command of the literature, creativity in hypothesis development, and proficiency in research design and data analysis.

Department Requirements:

- **Completion of required credit hours:** Students must complete a total 30 credit hours if pursuing a PhD post-master's or 60 credit hours if post-baccalaureate. Only courses included on a supervisory committee approved Program of Study will count towards a PhD degree. Please see specific course requirements under the PhD post master's and PhD post baccalaureate sections below.
- **Presentation of Research**: PhD students are required to present an initial research proposal and then biennial research updates at the department Graduate Research Symposium.
- **Successful defense:** Students must successfully defend a dissertation.
- **Submission of thesis or paper**: Students must submit a dissertation to the School of Graduate Studies and library for review and approval. All dissertation submissions must follow the School of Graduate Studies Publication Guide and departmental requirements.

School of Graduate Studies (SGS) Requirements:

- **Completion of Required Forms:**
    - Supervisory Committee Approval
    - Program of Study
    - Application of Candidacy Doctoral Degree
    - Appointment for Examination
    - Record of Examination (submitted by department office)
    - Format & Style form
    - Authorship & Copyright form
    - Title Page form
    - Application for Graduation
- **Completion of Required Trainings:** Students must complete all School of Graduate Studies required trainings, including Responsible Conduct of Research training.
- **Degree Verification:** A bachelor's degree and master's degree (if applicable) from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- **Minimum GPA Requirement:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester:** A PhD degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Recreation Administration: Outdoor Adventure Leadership Emphasis - BS

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

A degree in recreation administration is a valuable asset for those interested in pursuing careers in recreation and leisure. This program provides hands-on, experiential learning opportunities that prepare students for a profession focused on serving the needs of individuals and communities. Students have the option to specialize in areas such as sports management, outdoor adventure leadership, public recreation, or program and event planning. Through cooperative work experiences and internships, students can gain practical experience and build valuable industry connections. Upon completing their degree, graduates will be well-positioned to enter the dynamic and rewarding $2.9 trillion RAM industry, where they can make a positive impact on the well-being of individuals and communities.

The Outdoor Adventure Leadership (OAL) emphasis will prepare you to step into an entry-level position in the booming outdoor recreation industry in Utah and beyond. The OAL emphasis will expose you to industry skills and opportunities. USU RAM Alumni are making their mark in a wide range of settings, from USU Outdoor Programs, and Bridgerland Adventure Park to Deer Valley Ski Resort, and Outward Bound. Through courses designed to get you "out-there" you will be ready to take on exciting jobs in land, water, and air-based adventures. Plus, with nearly three-quarters of Utah residents participating in outdoor recreation each year, there is no shortage of opportunities to explore the state's incredible public lands and make a difference in the $12.3 billion Utah outdoor recreation industry. So why not turn your passion for adventure into a career? Enroll in this major and emphasis and start your Outdoor Adventure Leadership journey today.

Graduates of the program will be capable of leading, programming, directing, planning, designing, managing, and administering recreation experiences in a variety of settings.

- For more information about Recreation Administration, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL) or STAT1080 FOUNDATIONS OF DATA SCI (QL).

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.0 overall GPA

Program Requirements

Total Credits Required In Program Coursework
42

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- Students **must earn a C** or better in all required **RAM-prefix courses**.
- Pass/Fail grading is not allowed for required major courses, except for courses graded pass/fail only.
- A **2.0 overall GPA and a 2.5 major coursework GPA** are required for graduation.

Recreation Administration: Outdoor Adventure Leadership Emphasis - BS

Type
Completion Requirement

Core Required Courses (40 credits required)

Complete ALL of the following Courses:

- PE1543 - Wilderness First Aid - 1cr.
- RAM1000 - Introduction to Recreation Services - 2cr.
- RAM1500 - Leisure and Human Behavior (BSS) - 3cr.
- RAM1700 - Backcountry Basics: Designing a Backcountry Experience - 3cr.
- RAM2250 - RAM Cooperative Work Experience - 4cr.
- RAM2500 - Outdoor Recreation Management - 3cr.
- RAM3400 - Outdoor Education and Facilitation - 3cr.
- RAM3900 - Civic Engagement in Recreation and Sports - 3cr.
- RAM4200 - Community-Based Program Planning, Implementation, and Evaluation - 3cr.
- RAM4500 - Management of Recreation Services - 3cr.
- RAM4600 - Legal Issues and Risk Management of Recreation - 3cr.
- RAM4800 - Senior Seminar (CI) - 3cr.
- RAM4900 - Internship in Recreation Services - 6cr.

NOTE:

1. Most RAM-prefix major course requirements in this bachelor's program are offered only once per year, either fall only or spring only, with only a few exceptions. Because of this limited rotation, it is essential that students stay on track by meeting with their academic advisor every semester.

Required Electives (2 credits required)

Complete at least two credits in RAM 5900 and/or PE-prefix courses ranging from 1505 to 1615, totaling 2 credits minimum.

Earn at least 2 credits from the following:

- RAM5900 - Independent Study - 1cr.
- PE1505 - Kayaking - 1cr.
- PE1507 - Swiftwater Safety - 2cr.
- PE1508 - River Guide Preparation - 3cr.
- PE1509 - River Running I - 1cr.
- PE1510 - Fly Fishing - 1cr.
- PE1511 - Fly Tying Beginning - 1cr.
- PE1512 - Fly Tying Intermediate - 1cr.
- PE1513 - Fly Casting - 1cr.
- PE1514 - Fly Rod Building - 1cr.
- PE1520 - Hiking - 1cr.
- PE1527 - Rock Climbing: Basic - 1cr.
- PE1530 - Bouldering - 1cr.
- PE1543 - Wilderness First Aid - 1cr.
- PE1544 - Wilderness First Responder - 3cr.
- PE1547 - Avalanche AIARE 1 (Avy 1) - 2cr.
- PE1548 - Avalanche AIARE 2 (AVY 2) Course - 2cr.
- PE1549 - AIARE Avalanche Rescue - 1cr.
- PE1550 - Cycling - 1cr.
- PE1580 - Canyoneering I - 1cr.
- PE1605 - Skiing - 1cr.
- PE1615 - Snowboarding - 1cr.

Open Electives (0-48 estimated credits)

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Recreation Administration: Program and Event Management Emphasis - BS

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

Program and Event Management prepares students to plan, deliver, and evaluate programs and events that create engaging experiences for diverse audiences. Students gain practical skills in event operations, marketing, budgeting, risk management, and guest experience through applied coursework and industry engagement. Graduates are prepared for careers in recreation and tourism, professional and nonprofit organizations, and resort or destination settings as event coordinators, program managers, and operations or guest experience professionals.

- For more information about Recreation Administration, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL) or STAT1080 FOUNDATIONS OF DATA SCI (QL).

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.0 overall GPA

Program Requirements

Total Credits Required In Program Coursework
42

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- Students must **earn a C** or better in all required **RAM-prefix courses**.
- Pass/Fail grading is not allowed for required major courses, except for those graded pass/fail.
- A **2.0 overall GPA and a 2.5 major coursework GPA** are required for graduation.

Recreation Administration: Program and Event Management Emphasis - BS

Type
Completion Requirement

Core Required Courses (42 required credits)

Complete ALL of the following Courses:

- RAM1000 - Introduction to Recreation Services - 2cr.
- RAM1500 - Leisure and Human Behavior (BSS) - 3cr.
- RAM2250 - RAM Cooperative Work Experience - 4cr.
- RAM3100 - Experience and Sport Promotion and Marketing - 3cr.
- HEP4400 - Community and Organizational Leadership, Policy, and Advocacy - 3cr.
- RAM3900 - Civic Engagement in Recreation and Sports - 3cr.
- RAM4000 - Experience and Event Design - 3cr.
- RAM4200 - Community-Based Program Planning, Implementation, and Evaluation - 3cr.
- RAM4400 - Recreation and Park Facility Planning and Management - 3cr.
- RAM4500 - Management of Recreation Services - 3cr.
- RAM4600 - Legal Issues and Risk Management of Recreation - 3cr.
- RAM4800 - Senior Seminar (CI) - 3cr.
- RAM4900 - Internship in Recreation Services - 6cr.

NOTE:

1. Most **RAM-prefix** major course requirements in this bachelor's program are offered only once per year, either fall only or spring only, with only a few exceptions. Because of this limited rotation, it is essential that students stay on track by meeting with their academic advisor every semester.

Open Electives (0-42 estimated credits)

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Recreation Administration: Public Recreation Emphasis - BS

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree
A degree in recreation administration (RAM) is a valuable asset for those interested in pursuing careers in recreation and leisure. This program provides hands-on, experiential learning opportunities that prepare students for a profession focused on serving the needs of individuals and communities. Students have the option to specialize in areas such as sports management, outdoor adventure leadership, public recreation, or program and event planning. Through cooperative work experiences and internships, students can gain practical experience and build valuable industry connections. Upon completing their degree, graduates will be well-positioned to enter the dynamic and rewarding $2. 9 trillion RAM industry, where they can make a positive impact on the well-being of individuals and communities.

The Public Recreation emphasis is designed to equip students with the skills and knowledge they need to take on leadership roles in the exciting world of public and non-profit recreation. In addition to a core set of classes in recreation administration, students will have the opportunity to specialize in areas such as park management, community outreach, and program development. Upon graduation, our alumni have gone on to work in a wide range of settings, from municipal recreation organizations and state parks to the National Parks Service and the Army Corps of Engineers. Join the ranks of our successful alumni and start your journey toward a rewarding career in public recreation management today!

Graduates of the program will be capable of leading, programming, directing, planning, designing, managing, and administering recreation experiences in a variety of settings

- For more information about Recreation Administration, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL) or STAT1080 FOUNDATIONS OF DATA SCI (QL).

Recreation Administration: Public Recreation Emphasis - BS

Type
Completion Requirement

Core Required Courses (42 credits required)

Must complete all the following and earn a grade of C or better in all the required RAM-prefix courses. Reminder: Must maintain a minimum 2.5 major coursework GPA.

Complete ALL of the following Courses:

- RAM1000 - Introduction to Recreation Services - 2cr.
- RAM1500 - Leisure and Human Behavior (BSS) - 3cr.
- RAM2250 - RAM Cooperative Work Experience - 4cr.
- RAM3100 - Experience and Sport Promotion and Marketing - 3cr.
- RAM3400 - Outdoor Education and Facilitation - 3cr. **OR** HEP4400 - Community and Organizational Leadership, Policy, and Advocacy - 3cr.
- RAM3900 - Civic Engagement in Recreation and Sports - 3cr.
- RAM4000 - Experience and Event Design - 3cr.
- RAM4200 - Community-Based Program Planning, Implementation, and Evaluation - 3cr.
- RAM4400 - Recreation and Park Facility Planning and Management - 3cr.
- RAM4500 - Management of Recreation Services - 3cr.
- RAM4600 - Legal Issues and Risk Management of Recreation - 3cr.
- RAM4800 - Senior Seminar (CI) - 3cr.
- RAM4900 - Internship in Recreation Services - 6cr.

NOTE:

1. RAM3400 OUTDOOR EDUC & FACILITATION or RAM4400 REC/PARK FACILTY PLAN/MGT - May take either course, see advisor for approval.
2. Most RAM-prefix major course requirements in this bachelor's program are offered only once per year, either fall only or spring only, with only a few exceptions. Because of this limited rotation, it is essential that students stay on track by meeting with their academic advisor every semester.

Required Electives (6 credits total required)

Complete at least two or more of the following, totaling 6 credits minimum.

Complete at least 6 of the following courses:

- HDFS3570 - Youth and Adolescence - 3cr.
- HEP2500 - Health and Wellness - 2cr.
- HEP3400 - Stress Management - 3cr.
- KIN3000 - Principles of Health and Fitness - 3cr.
- KIN4000 - Mental Aspects of Sports Performance - 3cr.
- MGT3850 - Sports Management - 2cr.
- RAM1700 - Backcountry Basics: Designing a Backcountry Experience - 3cr.
- RAM2500 - Outdoor Recreation Management - 3cr.
- RAM5130 - Data Analytics and Data Driven Decision Making in Sports - 3cr.

Open Electives (0-37 estimated credits)

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Recreation Administration - Sport Management - BS

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Undergraduate

About this Degree

A degree in recreation administration (RAM) is a valuable asset for those interested in pursuing careers in recreation and leisure. This program provides hands-on, experiential learning opportunities that prepare students for a profession focused on serving the needs of individuals and communities. Students have the option to specialize in areas such as sports management, outdoor adventure leadership, public recreation, or program and event planning. Through cooperative work experiences and internships, students can gain practical experience and build valuable industry connections. Upon completing their degree, graduates will be well-positioned to enter the dynamic and rewarding $2. 9 trillion RAM industry, where they can make a positive impact on the well-being of individuals and communities.

The Sport Management emphasis is your ticket to a thrilling career in the world of sports! Our program will equip you with the skills and knowledge you need to succeed in the collegiate, professional, and recreational sport industries. In addition to a core set of classes in recreation administration, you'll have the opportunity to specialize in areas such as event planning, sports marketing, and athlete management. Our alumni have gone on to work for top organizations such as Real Salt Lake, the Utah Jazz, Minor League Baseball, community recreational sport organizations, and more. Don't miss your chance to join the ranks of our successful graduates and start your journey toward a dynamic career in the exciting world of sports!

Graduates of the program will be capable of leading, programming, directing, planning, designing, managing, and administering recreation experiences in a variety of settings.

- For more information about Recreation Administration, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL) or STAT1080 FOUNDATIONS OF DATA SCI (QL).

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: **2.0 Overall GPA**

Program Requirements

Total Credits Required In Program Coursework
69

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

- Students **must earn a C** or better in all required **RAM-prefix courses**.
- Pass/Fail grading is not allowed for required major courses except for those graded as pass/fail.
- A **2.0 overall GPA and a 2.5 major coursework GPA** are required for graduation.

Recreation Administration - Sport Management - BS

Type
Completion Requirement

Core Required Courses (59 credits)

Complete ALL of the following Courses:

- KIN4000 - Mental Aspects of Sports Performance - 3cr.
- KIN5430 - History and Philosophy of Physical Activity and Sport (CI) - 3cr.
- RAM1000 - Introduction to Recreation Services - 2cr.
- RAM1500 - Leisure and Human Behavior (BSS) - 3cr.
- RAM1888 - Leadership from the Sideline - 2cr.
- RAM2000 - Recreational Sport Management - 3cr.
- RAM2250 - RAM Cooperative Work Experience - 4cr.
- RAM2300 - Fundamentals of Sport Management - 3cr.
- RAM3100 - Experience and Sport Promotion and Marketing - 3cr.
- RAM3400 - Outdoor Education and Facilitation - 3cr.
  OR HEP4400 - Community and Organizational Leadership, Policy, and Advocacy - 3cr.
- RAM3900 - Civic Engagement in Recreation and Sports - 3cr.
- RAM4000 - Experience and Event Design - 3cr.
- RAM4200 - Community-Based Program Planning, Implementation, and Evaluation - 3cr.
- RAM4400 - Recreation and Park Facility Planning and Management - 3cr.
- RAM4500 - Management of Recreation Services - 3cr.
- RAM4600 - Legal Issues and Risk Management of Recreation - 3cr.
- RAM4800 - Senior Seminar (CI) - 3cr.
- RAM4900 - Internship in Recreation Services - 6cr.
- RAM5130 - Data Analytics and Data Driven Decision Making in Sports - 3cr.

NOTE:

1. RAM3400 OUTDOOR EDUC & FACILITATION or HEP4400 LEADERSHIP & ADVOCACY - May take either course, see advisor for approval.
2. Most RAM-prefix major course requirements in this bachelor's program are offered only once per year, either fall only or spring only, with only a few exceptions. Because of this limited rotation, it is essential that students stay on track by meeting with their academic advisor every semester.

Business Foundations (10 credits)

Students are strongly recommended to complete **DATA 1100** and **DATA 2100 before** enrolling in **RAM 5130**, as these courses provide the foundational data skills and preparation needed for the rigor of RAM 5130.

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
  AND DATA2100 - Data and Information in Business - 3cr.
- ECN1500 - Introduction to Macroeconomics - 3cr.

NOTE:

1. It is recommended to take DATA1100 EXCEL BUSINESS ANALYSIS and DATA2100 DATA OF INFORMATION BUSINESS concurrently in the same semester.

Open Electives (0-18 estimated credits)

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Ranch Economics and Management - BS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Applied Economics	Undergraduate

About this Degree

The Bachelor of Science in Ranch Economics and Management at Utah State University is designed to give you the competitive edge you need to thrive in the modern ranching industry.

Whether you're managing a family-owned ranch or working in large-scale operations, this degree equips you with essential skills in applied economics, livestock management, and resource stewardship. Unlike other programs, our focus on the unique challenges of ranching in the Intermountain West—particularly on public lands—makes USU the ideal choice for aspiring ranch managers who want to make a real impact.

Why Choose USU for Ranch Economics and Management?

At Utah State University, we are dedicated to providing an education that combines academic excellence with real-world application. As the only university in Utah offering a specialized Ranch Management Economics degree, USU stands out for its commitment to student success and innovative learning. Our program is developed in collaboration with ranching industry leaders, ensuring that the curriculum is always relevant to the evolving demands of ranching and land management.

- **Learn from Experts:** USU's faculty bring a wealth of experience in agribusiness, animal science, and rangeland management. With access to these experts, you'll gain the tools needed to make efficient decisions, optimize resources, and manage risks.
- **Real-World Experience:** Our program offers hands-on learning opportunities, including internships and fieldwork, so you can apply classroom knowledge to real ranching scenarios.
- **Location Advantage:** USU is ideally situated in the heart of Utah's ranching region, offering unparalleled access to rangelands and public lands where many ranching operations take place.

Accreditation and Recognition: Utah State University has a long history of excellence in agriculture and natural resource programs, and our Ranch Economics and Management degree continues this tradition of leadership in the field.

What you will Learn

As a student in this program, you'll develop critical skills in economic analysis, agribusiness, and resource management. You'll learn how to make informed decisions that balance profitability with the wise stewardship of resources—a skillset that is increasingly important in today's ranching industry. Whether your goal is to manage ranches efficiently, improve livestock production, or optimize the use of public lands, this degree provides a solid foundation for a rewarding career in ranch management.

You'll gain a diverse set of skills and competencies essential for effective ranch management. Through a blend of coursework and hands-on experience, you'll develop expertise in the following key areas:

- **Economic Decision-Making:** Learn how to use economic tools to make informed decisions that improve ranch profitability while ensuring the efficient use of resources.
- **Agribusiness Fundamentals:** Build a strong foundation in business principles, including financial management, risk assessment, and marketing, all tailored to the ranching industry.
- **Rangeland and Livestock Management:** Gain practical knowledge of livestock production, forage management, and the principles of rangeland ecology to optimize land use and animal health.

- **Public Lands and Resource Stewardship:** Understand the complexities of ranching on public lands and develop strategies for the wise stewardship of natural resources, ensuring long-term viability.
- **Agricultural Law and Policy:** Get familiar with the legal and regulatory frameworks that govern ranching operations, including policies related to land use, water rights, and environmental considerations.

With a focus on practical applications, this program ensures that you will graduate ready to manage a ranch, make impactful decisions, and contribute to the future of ranching in the Intermountain West.

Admitted students must meet with an advisor. Current students should also meet with an advisor and log on to Degree Works to check student-specific program progress. For more detailed information about courses, the recommended sequence for taking them and the selection of QANR electives, see the APEC academic advisor, Abby Macbeth, abby.macbeth@usu.edu, 435-797-0454.

Admission Requirements for this Program

New freshmen: Admitted to USU in Good Standing

Transfer students from other institutions or other programs at USU: 2.50 GPA

Ranch Economics and Management - BS Course Requirements

Type

Completion Requirement

Required Courses (72-73 credits)

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- ADVS1110 - Introduction to Animal Science (BLS) - 3cr.
- ADVS2080 - Beef Production Practices - 3cr.
  OR ADVS2090 - Sheep Production Practices - 3cr.
- ADVS2200 - Anatomy and Physiology of Animals - 3cr.
- ADVS2500 - Feeds and Feeding - 3cr.
- APEC1600 - Natural Resources and American Economic Institutions (BAI) - 3cr.
- APEC2010 - Introduction to Microeconomics (BSS) - 3cr.
- APEC2120 - Small Firm Accounting Basics - 3cr.
- APEC2310 - Small Firm Management - 3cr.
- APEC2500 - Commodity Futures and Options Trading and Analysis - 3cr.
- APEC2900 - Agricultural and Natural Resource Law - 3cr.
- APEC3010 - Agricultural Economics (DSS) - 3cr.
  OR APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- APEC3310 - Analytical Methods in Applied Economics (QI) - 3cr.
  OR STAT2000 - Statistical Methods (QI) - 4cr.
- APEC4250 - Applied Economics Internship - 1cr.
- APEC4310 - Agribusiness Finance - 3cr.
- APEC5010 - Firm Marketing and Price Analysis (QI) - 3cr.
- APEC5150 - Advanced Agricultural Credit Analysis - 3cr.
- APEC5250 - Advanced Ranch Economics & Management - 3cr.
- APEC5940 - U.S. Agricultural Policy Analysis - 3cr.
- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- MATH1050 - College Algebra (QL) - 4cr.
- WILD4000 - Principles of Rangeland Management - 3cr.

Additional Courses (6 credits)

Earn at least 6 credits from the following:

- ADVS3000 - Animal Health and Hygiene - 3cr.
- ADVS3500 - Principles of Animal Nutrition - 3cr.
- ADVS4310 - Animal Growth and Development - 3cr.
- ADVS4560 - Principles of Animal Genetics and Breeding (QI) - 3cr.
- ADVS5080 - Beef Cattle Management - 3cr.
- ADVS5090 - Sheep Management and Wool Technology - 3cr.
- APEC5950 - Applied Economics Policy Analysis - 3cr.
- PSC4320 - Forage Production and Pasture Management - 3cr.
- WILD5340 - Range Ruminant Nutrition and Management - 3cr.
- WILD5860 - Poisonous Range Plants Affecting Livestock - 3cr.
- ***Other approved elective 2-3 credits***

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.

- Check your Degree Works for requirements and completion.

Religious Studies - Minor

Program Overview

College	Department	Program Level
College of Arts & Sciences	History, Cultures & Ideas	Undergraduate

Program Requirements

Total Credits Required To Earn This Credential
15

Simple Requisites

Program Requirements

Students seeking a minor in Religious Studies must have a 2.5 GPA to declare the minor and must complete 15 credits with a minimum grade of C or better.

Religious Studies - Minor

Type
Completion Requirement

Required Course (3 credits)

Complete ALL of the following Courses:
- RELS1010 - Introduction to Religious Studies (BHU) - 3cr.

Group A (3 credits)

Students must take one course from group A.

Fulfill ANY of the following requirements:

Buddhism

Complete at least 1 of the following courses:
- RELS3010 - Introduction to Buddhism (DHA) - 3cr.
  OR HIST3010 - Introduction to Buddhism (DHA) - 3cr.
- RELS4015 - Buddhism and the West - 3cr.
  OR HIST4015 - Buddhism and the West - 3cr.
- RELS4555 - Women in Buddhism - 3cr.
  OR HIST4555 - Women in Buddhism - 3cr.

OR

East Asian Traditions

Complete at least 1 of the following courses:
- RELS3482 - Ancient China to 1800 (DHA) - 3cr.
  OR HIST3482 - Ancient China to 1800 (DHA) - 3cr.
- PHIL3710 - Philosophies of East Asia - 3cr.

OR

Hinduism

Complete at least 1 of the following courses:
- RELS3020 - Introduction to Hinduism (DHA) - 3cr.
  OR HIST3020 - Introduction to Hinduism (DHA) - 3cr.
- RELS3420 - Gods and Goddesses of India - 3cr.
- RELS3820 - Hindu Sacred Texts (CI) - 3cr.

OR

Indigenous Traditions

Complete at least 1 of the following courses:

- RELS3090 - Introduction to Shamanism: Shamanic Healing for Personal and Planetary Transformation - 3cr.
  OR ANTH3090 - Introduction to Shamanism: Shamanic Healing for Personal and Planetary Transformation - 3cr.
- ANTH2011 - Introduction to Peoples of the Southwest (BHU) - 3cr.
- ANTH2018 - Introduction to Native American History and Culture (BSS) - 3cr.
- ANTH3110 - North American Indian Cultures (DSS) - 3cr.
- ANTH5110 - Southwest Indian Cultures, Past and Present (DSS) - 3cr.
  OR NAS1010 - Introduction to Native American Studies (BHU) - 3cr.
- HIST2018 - Introduction to Native American History and Culture (BSS) - 3cr.

Group B (3 credits)

Students must take one course from group B.

Fulfill ANY of the following requirements:

Christianity

Complete at least 1 of the following courses:

- RELS3050 - Introduction to Christianity (DHA) - 3cr.
- RELS3290 - Studying the New Testament - 3cr.
- RELS4230 - The History of Christianity in the West (DHA/CI) - 3cr.
  OR HIST4230 - The History of Christianity in the West (DHA/CI) - 3cr.

OR

Islam

Complete at least 1 of the following courses:

- RELS3030 - Introduction to Islam (DHA) - 3cr.
  OR HIST3030 - Introduction to Islam (DHA) - 3cr.
  OR ARBC3030 - Introduction to Islam (DHA) - 3cr.
- RELS4560 - Women in Islam (DHA) - 3cr.
  OR HIST4560 - Women in Islam (DHA) - 3cr.
- RELS4565 - Medieval Islam (DHA) - 3cr.
  OR HIST4565 - Medieval Islam (DHA) - 3cr.
- RELS4566 - Global Faces of Islam (DHA) - 3cr.
  OR HIST4566 - Global Faces of Islam (DHA) - 3cr.

OR

Judaism

Complete at least 1 of the following courses:

- RELS3060 - Introduction to Judaism (DHA) - 3cr.
  OR HIST3060 - Introduction to Judaism (DHA) - 3cr.
- RELS3160 - Anthropology of Religion (DSS) - 3cr.

OR

Mormonism

Complete at least 1 of the following courses:

- RELS3080 - Mormonism and the American Religious Experience (DHA) - 3cr.
  OR HIST3080 - Mormonism and the American Religious Experience (DHA) - 3cr.

Religious Studies Elective Courses (6 credits)

Students may pick additional courses from either the religious traditions courses listed above OR from any of the courses listed below, however, the 2 additional courses required must be courses that the student has not already taken.

Earn at least 6 credits from the following:

- ARTH2710 - Survey of Western Art: Prehistoric to Medieval (BHU) - 3cr.
- ARTH3620 - Early Christian and Byzantine Art (DHA) - 3cr.
- ARTH3630 - Medieval Art (CI/DHA) - 3cr.
- HIST3150 - Roman History (CI) - 3cr.
- HIST3230 - Early Modern Europe (DHA) - 3cr.
- HIST3850 - History of Utah (DHA/CI) - 3cr.
- HIST4250 - The Reformation in Britain: 1450-1688 - 3cr.
- HIST4710 - American Indian History - 3cr.
- HIST4711 - Northern Ute History (DHA) - 3cr.
- LING2500 - Language & Religion - 3cr.
- PHIL1320 - The Good Life (BHU) - 3cr.

Religious Studies - BA, BS

Program Overview

College	Department	Program Level
College of Arts & Sciences	History, Cultures & Ideas	Undergraduate

About this Degree

Religious studies majors learn to be thoughtful about the influence of religion upon culture and the influence of culture upon religion.

They learn to analyze the influence of religious values and concepts on individuals and communities. They gain competence in thinking about how humans make meaning in the face of confusing and sometimes painful realities. Through examining these and other issues concerning religion, students develop strong research, communication, and imaginative skills that are highly valued by employers.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages.

- For more information about Religious Studies, see the Religious Studies website.
- Admitted and current students must meet with an academic advisor, Stacey Kelly, (435) 797-3883, stacey.kelly@usu.edu
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) and Quantitative Intensive (QI) of the student's choice.

Admission Requirements for this Program

- First Year Students: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Simple Requisites

Program Requirements

Bachelor of Science Degree
Students desiring a (BS) Bachelor of Science degree must complete all of the requirements below.

Bachelor of Arts Degree
In addition to completion of the requirements for a bachelor's degree, a Bachelor of Arts (BA) degree signifies proficiency in one or more foreign languages. Specifically, the BA requirement may be completed in one of the following ways:

- Demonstration of proficiency in one foreign language by successful completion of one course at the 2020-level or higher (or its equivalent) **OR**
- Demonstration of proficiency in American Sign Language by successful completion of American Sign Language IV (**ASL4920 AMERICAN SIGN LANGUAGE IV**) and Socio-Cultural Aspects of Deafness (**ASL4780 DEAF CULTURE**), and by passing an exit interview **OR**

- Demonstration of proficiency in two foreign languages by successful completion of the 1020 course level or higher in one language **and** the 2010 course level or higher in the second language (or its equivalent) **OR**
- Completion of an upper-division (3000-level or higher) foreign language grammar or literature course requiring the 2020 course level (or its equivalent) as a prerequisite. Conversation courses cannot be considered for satisfying this requirement.

For non-native English-speaking students only, the following options are available:

- Successful completion of the Intensive English Language Institute (IELI) program for international students OR
- TOEFL, IELTS, other USU approved exam, or IELI placement scores high enough to meet the university admission criteria.

Additional Information
Minimum GPA for Graduation: 2.5, Major; 2.0, Cumulative
Minimum Grade Accepted: *C* in all major requirements

Students must complete at least 33 credits in interdisciplinary coursework. A grade of *C* or better must be earned in all classes used for the major. Major requirements may not be taken for a pass/fail grade.

Required Courses in Major (36 credits)

To earn the BS or BA in Religious Studies, students must successfully complete 36 credits (12 courses), as follows:

Required Courses in Major (36 credits)

Type
Completion Requirement

Core Courses (6 credits)

Students must take both core Religious Studies courses, preferably in sequence:

Complete ALL of the following Courses:
- RELS1010 - Introduction to Religious Studies (BHU) - 3cr.
- RELS4990 - Religious Studies Senior Seminar - 3cr.

Traditions Courses (12 credits)

Students must take courses focusing on at least four different religious traditions, with at least one course from both of the following groups:

Fulfill ALL of the following requirements:

Group A

Fulfill ANY of the following requirements:

Buddhism

Complete ANY of the following Courses:
- RELS3010 - Introduction to Buddhism (DHA) - 3cr.
  OR HIST3010 - Introduction to Buddhism (DHA) - 3cr.
- RELS4015 - Buddhism and the West - 3cr.
  OR HIST4015 - Buddhism and the West - 3cr.
- RELS4555 - Women in Buddhism - 3cr.
  OR HIST4555 - Women in Buddhism - 3cr.

OR

East Asian Traditions

Complete ANY of the following Courses:
- RELS3482 - Ancient China to 1800 (DHA) - 3cr.
  OR HIST3482 - Ancient China to 1800 (DHA) - 3cr.
- PHIL3710 - Philosophies of East Asia - 3cr.

OR

Hinduism

Complete ANY of the following Courses:
- RELS3020 - Introduction to Hinduism (DHA) - 3cr.
  OR HIST3020 - Introduction to Hinduism (DHA) - 3cr.
- RELS3420 - Gods and Goddesses of India - 3cr.
- RELS3820 - Hindu Sacred Texts (CI) - 3cr.

OR

Indigenous Traditions

Complete ANY of the following Courses:
- ANTH2011 - Introduction to Peoples of the Southwest (BHU) - 3cr.
- ANTH2018 - Introduction to Native American History and Culture (BSS) - 3cr.
  OR HIST2018 - Introduction to Native American History and Culture (BSS) - 3cr.
- ANTH3110 - North American Indian Cultures (DSS) - 3cr.
- ANTH5110 - Southwest Indian Cultures, Past and Present (DSS) - 3cr.
- NAS1010 - Introduction to Native American Studies (BHU) - 3cr.

AND

Group B

Fulfill ANY of the following requirements:

Christianity

Complete ALL of the following Courses:
- RELS3050 - Introduction to Christianity (DHA) - 3cr.
- RELS3290 - Studying the New Testament - 3cr.
- RELS4230 - The History of Christianity in the West (DHA/CI) - 3cr.
  OR HIST4230 - The History of Christianity in the West (DHA/CI) - 3cr.

OR

Islam

Complete ANY of the following Courses:

- RELS3030 - Introduction to Islam (DHA) - 3cr.
  OR HIST3030 - Introduction to Islam (DHA) - 3cr.
  OR ARBC3030 - Introduction to Islam (DHA) - 3cr.
- RELS4560 - Women in Islam (DHA) - 3cr.
  OR HIST4560 - Women in Islam (DHA) - 3cr.
- RELS4565 - Medieval Islam (DHA) - 3cr.
  OR HIST4566 - Global Faces of Islam (DHA) - 3cr.
- RELS4566 - Global Faces of Islam (DHA) - 3cr.
  OR HIST4566 - Global Faces of Islam (DHA) - 3cr.

OR

Judaism

Complete ANY of the following Courses:

- RELS3060 - Introduction to Judaism (DHA) - 3cr.
  OR HIST3060 - Introduction to Judaism (DHA) - 3cr.
- RELS3190 - The Old Testament: The Hebrew Bible in Context - 3cr.

OR

Mormonism

Complete ALL of the following Courses:

- RELS3080 - Mormonism and the American Religious Experience (DHA) - 3cr.
  OR HIST3080 - Mormonism and the American Religious Experience (DHA) - 3cr.

Religious Studies Elective Courses (18 credits)

Students may choose any of the courses listed above (not already taken), or any of the courses listed below. Courses are subject to change, and students should consult with their academic advisor when selecting courses.

Earn at least 18 credits from the following:

- ANTH4160 - Evolution of Religion: The Cognitive Science of Religion and Faith - 3cr.
- ARTH2710 - Survey of Western Art: Prehistoric to Medieval (BHU) - 3cr.
- ARTH3620 - Early Christian and Byzantine Art (DHA) - 3cr.
- ARTH3630 - Medieval Art (CI/DHA) - 3cr.
- HIST3150 - Roman History (CI) - 3cr.
- HIST3230 - Early Modern Europe (DHA) - 3cr.
- HIST3850 - History of Utah (DHA/CI) - 3cr.
- HIST4250 - The Reformation in Britain: 1450-1688 - 3cr.
- HIST4710 - American Indian History - 3cr.
- HIST4711 - Northern Ute History (DHA) - 3cr.
- LING2500 - Language & Religion - 3cr.
- PHIL1320 - The Good Life (BHU) - 3cr.
- PHIL2600 - Introduction to Philosophy of Religions (BHU) - 3cr.
- PHIL3010 - Survey of Ancient and Medieval Philosophy (CI) - 3cr.
- PHIL3600 - Philosophy of Religion (DHA) - 3cr.
- PHIL4250 - Tolkien and Lewis on Myth and Truth - 3cr.
- RELS1070 - Religion, Violence, and Peace (BHU) - 3cr.
- RELS1090 - Introduction to Interfaith Leadership (BHU) - 3cr.
  OR ANTH1090 - Introduction to Interfaith Leadership (BHU) - 3cr.
- RELS2050 - The Historical Jesus in a First Century Jewish Context - 3cr.
- RELS3125 - Religion & Science: Examining a Complex History of Interaction - 3cr.
- RELS3160 - Anthropology of Religion (DSS) - 3cr.
  OR ANTH3160 - Anthropology of Religion (DSS) - 3cr.
- RELS3165 - Bridging Religious Difference in Theory and Practice: an Introduction to Interfaith Leadership - 3cr.
  OR ANTH3165 - Bridging Religious Difference in Theory and Practice: an Introduction to Interfaith Leadership - 3cr.
- RELS3170 - Descent and Return: Ancient Views of Hades and the Afterlife - 3cr.
  OR HIST3170 - Descent and Return: Ancient Views of Hades and the Afterlife - 3cr.
  OR CLAS3170 - Descent and Return: Ancient Views of Hades and the Afterlife - 3cr.
- RELS3210 - Classical Mythology - 3cr.
  OR HIST3210 - Classical Mythology - 3cr.
- RELS3220 - Medieval European Civilization, 500-1500 (DHA/CI) - 3cr.
  OR HIST3220 - Medieval European Civilization, 500-1500 (DHA/CI) - 3cr.
- RELS3270 - The Crusades (DHA) - 3cr.
  OR HIST3270 - The Crusades (DHA) - 3cr.
- RELS3410 - The Modern Middle East - 3cr.
  OR HIST3410 - The Modern Middle East - 3cr.
- RELS3430 - History of Ancient Religions - 3cr.
- RELS3456 - History of South Asia (DHA) - 3cr.
- RELS3470 - Religion and Politics in South Asia - 3cr.
  OR HIST3470 - Religion and Politics in South Asia - 3cr.
- RELS3510 - Islamic Visual Cultures (CI/DHA) - 3cr.
  OR ARTH3510 - Islamic Visual Cultures (CI/DHA) - 3cr.
- RELS3830 - The History of Yoga - 3cr.
  OR HIST3830 - The History of Yoga - 3cr.
- RELS4350 - Greek Intellectual History - 3cr.
  OR HIST4350 - Greek Intellectual History - 3cr.
- RELS4520 - Religious Studies Editing Internship - 1cr.
- RELS4730 - History of Black America (CI) - 3cr.
  OR HIST4730 - History of Black America (CI) - 3cr.
- RELS4790 - American Religious History - 3cr.
  OR HIST4790 - American Religious History - 3cr.
- RELS4825 - Historical Roots of the War on Terror (DHA) - 3cr.
  OR HIST4825 - Historical Roots of the War on Terror (DHA) - 3cr.
- RELS4910 - Special Topics in Religious Studies - 1cr.
- RELS4930 - Directed Readings - 1cr.
- RELS5195 - Interfaith Leadership Practicum Experience - 3cr.
- RELS5740 - Art and Religion: Topics in Sacred Art - 3cr.
  OR ARTH5740 - Art and Religion: Topics in Sacred Art - 3cr.

NOTE:

1. RELS4930 DIRECTED READINGS - This course may only be taken once to fulfill major requirements unless special permission is obtained.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Rangeland Ecology and Management - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Wildland Resources

Program Level
Undergraduate

About this Degree

Range scientists and managers deal with natural resources on rangelands, which are the grasslands, deserts, woodlands, wetlands, and tundras that occupy a significant land area in the United States and around the world.

Students learn to manage and conserve rangeland resources to ensure the sustained output of products and values, such as habitat for a wide variety of plant and animal life, forage for livestock and wildlife, water for agricultural and municipal use, and scenic beauty for recreational activities. This degree program also teaches students how to restore lands damaged by past misuse.

- For more information about Rangeland Ecology and Management, see the website.
- Admitted and current students must meet with an academic advisor for help with semester by semester planning, connections to co-curricular experiences, understanding of USU policies, and accessing USU resources.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
94

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses required for the major must be taken on an A-B-C-D-F basis. A grade of C- or better is required for all courses taken in the major department, as well as STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI). The grade point average for all courses taught by the College of Agriculture and Natural Resources must be 2.5 or higher.

Rangeland Ecology and Management Required Courses

Type
Completion Requirement

CL1/CL2 Requirements (6 credits)

Complete ALL of the following Courses:

- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.

Scientific Foundation (26-27 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
- WATS2220 - General Ecology - 3cr.

Chemistry Options within the Scientific Foundation

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- CHEM1110 - General Chemistry I (BPS) - 4cr.
- CHEM1120 - General Chemistry II (BPS) - 4cr.
- CHEM1125 - General Chemistry II Laboratory - 1cr.

OR

Option 2

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

Department Common Courses (22 credits)

Complete ALL of the following Courses:

- WILD2800 - Introduction to Geographic Information Sciences - 4cr.
  OR GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
- WILD2000 - Natural Resource Professional Orientation - 1cr.
  OR ENVS2000 - Natural Resource Professional Orientation - 1cr.
  OR WATS2000 - Natural Resource Professional Orientation - 1cr.
- WILD2400 - Wildland Resource Techniques - 3cr.
- WILD3800 - Wildland Plants and Ecosystems - 4cr.
- WILD3830 - Range Plant Taxonomy and Function - 3cr.
  OR WILD3600 - Advanced Plant Identification and Terminology - 3cr.
- WILD3850 - Vegetation and Habitat Management - 3cr.
- WILD4750 - Monitoring and Assessment in Natural Resource and Environmental Management - 4cr.

Degree Program Courses (24-25 credits)

Complete ALL of the following Courses:

- ADVS2080 - Beef Production Practices - 3cr.
  OR ADVS2090 - Sheep Production Practices - 3cr.
  OR WILD5340 - Range Ruminant Nutrition and Management - 3cr.
- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- PSC5130 - Soil Genesis, Morphology, and Classification - 4cr.
- WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.
- WILD4000 - Principles of Rangeland Management - 3cr.
- WILD4910 - Vegetation Resource Management and Planning (CI) - 3cr.

Plant Science Courses (3-4 credits)

Complete at least 1 of the following courses:

- BIOL4400 - Plant Physiology (QI) - 4cr.
- PSC3500 - Structure and Function of Plants - 3cr.
- PSC5550 - Fundamentals of Integrated Weed Management - 4cr.

Resource Management Courses (3 credits)

Complete at least 1 of the following courses:

- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.
- PSC4320 - Forage Production and Pasture Management - 3cr.
- WILD4500 - Principles of Wildlife Management - 3cr.
- WILD5300 - Human-Wildlife Interactions - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.

- Check your Degree Works for requirements and completion.

Recreation Resource Management - MS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Environment & Society	Graduate

About this Degree

The MS in Recreation Resource Management prepares recreation professionals to manage outdoor natural settings for human recreation. These settings can include public forests and rangelands, state and national parks, and wilderness areas—among others. Foundation in the social and behavioral sciences is combined with basic ecological understanding to facilitate policy and management of both land resources and the people who visit. The personalized program of study includes both Plan A (thesis) and Plan B (paper/project) options. For additional degree information, see the program page on the Department of Environment and Society website. Students may complete the Graduate Specialization in Climate Adaptation Science as a part of this degree.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
30	30

Simple Requisites

Program Requirements

Requirements for this degree include the graduate school and program requirements outlined below.

Graduate School and Home Department Requirements:

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- **Thesis Research Credits 6970:** Plan A students must take at least 6 thesis (ENVS 6970) credits/Plan B students must take a minimum of 2 credits of thesis research (ENVS 6970) but no more than 3 can be included on an approved Program of Study.

- Presentation at the Department's Pre-Project Graduate Research Symposium.
- Completion of the Responsible Conduct of Research (*RCR*) Training
- Approval of a thesis (Plan A) or paper/project (Plan B) proposal.
- Successful defense of the thesis (Plan A) or paper/project (Plan B).
- Submission of thesis to the School of Graduate Studies and library for review and approval, or of the paper/project to the library.
- Completion of academic forms required by the School of Graduate Studies.
    - Supervisory Committee Approval
    - Program of Study
    - Master's Thesis Proposal/Project Approval
    - Appointment for Examination
    - Record of Examination
    - Application for Graduation

Recreation Resource Management – M.S. Requirements

Type
Completion Requirement

A. Complete the Required Core (2 credits):

Complete ALL of the following Courses:

- ENVS6800 - Environment and Society Departmental Colloquium - 1cr.
- ENVS6840 - Graduate Orientation Seminar for Environment and Society - 1cr.

B. Complete a Committee-Approved Plan of Study (minimum of 28 additional credits) that Includes:

1. Theory coursework (at least 3 credits)

2. Methods/analysis coursework (at least 3 credits)

3. Thesis research (Plan A) or a paper/project (Plan B)

ENVS6970 THESIS RESEARCH (6 credits for Plan A or 2-3 credits for Plan B)

4. Elective courses (16 credits Plan A or 19-20 credits Plan B)

Complete ALL of the following Courses:

- ENVS6970 - Thesis Research - 1cr.

6 credits of ENVS6970 THESIS RESEARCH for Plan A or 2-3 credits for Plan B

Rehabilitation Counseling - MRC

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Graduate

About this Degree

Program Contact:

Trent Landon, Ph.D., Program Director, trent.landon@usu.edu, 435-797-3269

Kris Wengreen, Graduate Program Coordinator (GPC), kris.wengreen@usu.edu, 435-797-3246

Program Description:

The Master of Rehabilitation Counseling (MRC) program is housed in the Department of Special Education and Rehabilitation Counseling. Rehabilitation Counseling has a dual identity, that of an allied health profession and that of a specialized area of general counseling. This degree prepares students at the master's degree level to serve people with disabilities and "assist persons with physical, mental, developmental, cognitive, and emotional disabilities to achieve their personal, career, and independent living goals" (CRCC Scope of Practice Statement: www.crccertification.com/crc-crcc-scope-of-practice). The MRC program emphasizes counseling skill development, vocational and mental health assessment, transition services for youth with disability, advocacy, and employment.

The USU MRC program prepares rehabilitation counselors to provide professional counseling services to individuals with a broad range of disabilities in a variety of settings, such as state rehabilitation agencies, independent living centers, Veterans Administration, rehabilitation hospitals, psychiatric and community mental health programs, private rehabilitation facilities and agencies, employment assistance programs, and private industry. The degree is a 61-credit program accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP). The Rehabilitation Counseling program has a limited number of scholarships funded through the U.S. Department of Education, Rehabilitation Services Administration. These scholarships require a postgraduate commitment to work for a not-for-profit agency serving the needs of individuals with disabilities for two years for every year of scholarship received.

Mission

The mission of the Master of Rehabilitation Counseling program is to promote quality rehabilitation services for individuals with disabilities through the education of rehabilitation professionals, provision of rehabilitation continuing education, emphasizing ethical service delivery, and through research related to rehabilitation.

Objectives

Program objectives include:

1. Preparation of master's level counselors,
2. Promotion of the code of Professional Ethics, and
3. Advancement of the basic philosophical tenets of rehabilitation, including the value and worth of all individuals, a belief in human dignity, and the right of all persons to fully participate in society.

Admission Requirements for this Program:

Admission requirements can be found on the USU School of Graduate Studies website (gradschool.usu.edu/admissions/policies).

Additional information about the MRC Rehabilitation Counseling program may be obtained by contacting the Department of Special Education and Rehabilitation Counseling, or by visiting the program website at https://cehs.usu.edu/sperc/rehab-counseling/masters/.

School of Graduate Studies (SGS) General Graduation Guidelines

• Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.

• Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

• Course Number Acceptability: The Program of Study for a master's degree or a doctoral degree, if the student has a master's degree, must include at least 15-semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 6000. The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level.

• Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.

• Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.

Master's forms (Plan C - Non-thesis, coursework only):

Program of Study approved by the School of Graduate Studies

Rehabilitation Counseling - MRC (61 credits)

Type
Completion Requirement

Required Courses

All courses require a grade of C or better except for REH6130 COUNSELING SKILL DEVELOPMENT which requires a B or better.

Complete ALL of the following Courses:

- REH6100 - Professional Counseling Orientation - 3cr.
- REH6110 - Medical Aspects of Disability - 3cr.
- REH6120 - Psychosocial Aspects of Disability - 2cr.
- REH6130 - Counseling Skill Development - 3cr.
- REH6140 - Counseling Practicum - 3cr.
- REH6160 - Career Development, Analysis and Placement - 3cr.
- REH6170 - Counseling Internship I - 4cr.
- REH6175 - Counseling Internship II - 5cr.
- REH6180 - Mental Illness, Disability, and Trauma - 2cr.
- REH6190 - Vocational Assessment in Rehabilitation Counseling - 3cr.
- REH6200 - Theories of Counseling - 3cr.
- REH6210 - Mental Health Assessment - 3cr.
- REH6220 - Multicultural Aspects of Counseling - 3cr.
- REH6230 - Research in Clinical Rehabilitation Counseling - 3cr.
- REH6240 - Ethical Decision-Making in Counseling - 3cr.
- REH6250 - Group Counseling - 3cr.
- REH6260 - Human Growth and Development - 3cr.
- REH6320 - The Diagnostic and Statistical Manual (DSM 5) of Mental Health Disorders - 3cr.
- REH6350 - Treatment Approaches for Addiction Disorders - 3cr.
- REH6500 - Fundamental Skills for Transition Services - 3cr.

Students are required to take and pass a national counselor certification exam to graduate with the Master's in Rehabilitation Counseling (MRC). Acceptable exams are the Certified Rehabilitation Counselor (CRC) exam [preferred], the National Clinical Mental Health Counselor (NCMHC) exam [required for licensure as a mental health counselor in Utah], or the National Certified Counselor (NCC) exam. Students that do not pass a national counseling exam will be required to take a comprehensive exam through the MRC program to graduate.

Residential Landscape Design - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Undergraduate

Program Requirements

Total Credits Required In Program Coursework
17

Total Credits Required To Earn This Credential
17

Simple Requisites

Program Requirements

To graduate with the Residential Landscape Design minor, a minimum GPA of 2.5 is required in minor coursework.

This minor allows students in other majors to add a design component to their skill set. Students develop a working knowledge of residential landscape design.

Section 1

Type
Completion Requirement

Prerequisite courses:

Complete ALL of the following Courses:

- PSC2600 - Herbaceous Plant Materials - 3cr.
- PSC2620 - Woody Plant Materials: Trees and Shrubs for the Landscape - 3cr.

Required courses:

Complete ALL of the following Courses:

- LAEP1200 - Introduction to Graphics and Illustration - 4cr.
- PSC3300 - Residential Landscapes - 3cr.
- PSC3430 - Construction Methods for Residential Landscape Installation - 2cr.
- PSC4301 - Computer Aided Residential Landscape Design - 3cr.
- PSC4302 - Advanced Residential Landscape Design - 3cr.
- PSC5090 - Sustainable Low Water Landscaping - 3cr.

Residential Landscape Design and Construction - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Undergraduate

About this Degree

The residential landscape design and construction major deals with design, construction, and maintenance of residential and small-scale commercial landscapes. In this major, students receive a well-rounded education that integrates aesthetic design with applied installation and maintenance skills. Students gain hands-on experience designing and planning landscape projects in addition to pouring concrete, planting trees, shrubs, and flowers, and all aspects of small-scale residential landscape production from start to finish.

The core curriculum includes preparatory courses in chemistry, mathematics, biology, design, and graphics. Required program courses emphasize the plant sciences, soil sciences, design, and construction.

Contact Abby Macbeth abby.macbeth@usu.edu 435-797-0454 for advising.

- For more information about Residential Landscape Design and Construction, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework

120

Simple Requisites

Program Requirements

A minimum GPA of 2.5 is required for major coursework. Major coursework may not be taken on a pass/fail basis, and a grade of C- or better must be earned in each course required for the major.

Residential Landscape Design and Construction - BS Course Requirements

Type
Completion Requirement

Required Core Courses (75 credits)

Complete ALL of the following Courses:

- APEC2120 - Small Firm Accounting Basics - 3cr.
  OR BUSN2320 - Small Business Management - CTE - 3cr.
- ASTE3050 - Technical and Professional Communication Principles (CI) - 3cr.
- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
- CHEM1110 - General Chemistry I (BPS) - 4cr.

- LAEP1030 - Introduction to Landscape Architecture (BCA) - 3cr.
- LAEP1200 - Introduction to Graphics and Illustration - 4cr.
- LAEP2500 - Construction Materials and Detailing - 4cr.
- MATH1050 - College Algebra (QL) - 4cr.
- PSC1050 - Plants, Soils, and Climate Orientation - 1cr.
- PSC1800 - Introduction to Horticulture (BLS) - 3cr.
- PSC2200 - Pesticide Certification - 2cr.
- PSC2600 - Herbaceous Plant Materials - 3cr.
- PSC2620 - Woody Plant Materials: Trees and Shrubs for the Landscape - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC3300 - Residential Landscapes - 3cr.
- PSC3400 - Arboriculture - 3cr.
- PSC3430 - Construction Methods for Residential Landscape Installation - 2cr.
- PSC3500 - Structure and Function of Plants - 3cr.
- PSC3810 - Turfgrass Management - 3cr.
- PSC4250 - Internship in Plants, Soils, and/or Climate - 1cr.
- PSC4301 - Computer Aided Residential Landscape Design - 3cr.
- PSC4302 - Advanced Residential Landscape Design - 3cr.
- PSC5090 - Sustainable Low Water Landscaping - 3cr.
- PSC5100 - Professional Turf and Urban Landscape Water Management - 3cr.
- PSC5420 - Landscape Irrigation Design (QI) - 2cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

Recommended Courses

The optional APEC courses, while not required for the RLDC degree, would provide students with the Small Firm Management Certificate.

Complete ALL of the following Courses:

- APEC2310 - Small Firm Management - 3cr.
- APEC2900 - Agricultural and Natural Resource Law - 3cr.
- APEC3310 - Analytical Methods in Applied Economics (QI) - 3cr.
- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- MSLE3110 - Managing Organizations and People (DSS) - 3cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.

Suggested Elective Courses

Complete ALL of the following Courses:

- LAEP1300 - Digital Drafting, Illustration, and Modeling - 3cr.
- LAEP2300 - History of Landscape Architecture (BHU) - 3cr.
- LAEP2600 - Landscape Construction I (QI) - 4cr.
- LAEP5550 - Travel Course - 2cr.
- PSC2030 - Basic Flower Arranging - 2cr.
- PSC2700 - Climate Change Impacts (BPS) - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Military Science (Army ROTC Commission)

Type
Completion Requirement

Basic Course Requirements (8 credits)

A lab is included in each of the following MSL courses:

Complete ALL of the following Courses:

- MSL1010 - Introduction to the Army - 2cr.
- MSL1020 - Foundations of Leadership - 2cr.
- MSL2010 - Leadership and Ethics - 2cr.
- MSL2020 - Army Doctrine and Decision-Making - 2cr.

Advanced Course Requirements (15 credits)

A lab is included in each of the following MSL courses:

Complete ALL of the following Courses:

- MSL3010 - Training Management and the Warfighting Functions - 3cr.
- MSL3020 - Applied Leadership in Small Unit Operations - 3cr.
- MSL4510 - ROTC Leader Development and Assessment Course - 1cr.
- MSL4010 - The Army Officer - 3cr.
- MSL4020 - Company Grade Leadership - 3cr.
- HIST4810 - American Military History - 3cr.

NOTE:

1. MSL4510 LEADER DEV ASSESMENT COURSE - Must be taken summer after MSL 3020, does NOT need to be taken for credit.

Additional Comments:
If a student is Prior Service, the first two years of courses DO NOT need to be completed.

Recreation Resource Management - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Undergraduate

About this Degree
Recreation resource management involves managing lands to accommodate recreational uses as well as interpreting the natural values of these lands to recreation visitors. Recreation resources play a vital role in maintaining the multiple uses of public lands. USU is located within half a day's drive of six national parks, putting students in close proximity with field study opportunities at some of the most beautiful and most commonly visited recreation sites in the world.

Program Requirements

Total Credits Required In Program Coursework
12

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

All courses required for the minor must be taken on an *A-B-C-D-F* basis. A grade of *C-* or better and a grade point average of 2.5 or higher is required for all courses taken to meet requirements for the minor.

Students should make an appointment with an academic advisor in the S.J. and Jessie E. Quinney College of Agriculture and Natural Resources to add this minor: qanr.usu.edu/advising/.

Recreation Resource Management Core

Type
Completion Requirement

Required Course (3 credits)

Complete ALL of the following Courses:

- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.

Additional Required Courses (6 credits)

Complete at least 2 of the following courses:

- ENVS4130 - Natural Resource Recreation Policy and Planning - 3cr.
- ENVS4500 - Advanced Natural Resource Recreation Management (CI) - 3cr.
- ENVS5600 - Natural Resource Interpretation - 3cr.

The course not selected above can be instead taken as the elective course below.

Minor Elective

Type
Completion Requirement

Elective Course (3 credits)

Complete at least 1 of the following courses:

- APEC1600 - Natural Resources and American Economic

Institutions (BAI) - 3cr.
- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- ENVS4130 - Natural Resource Recreation Policy and Planning - 3cr.
- ENVS4500 - Advanced Natural Resource Recreation Management (CI) - 3cr.
- ENVS4920 - Special Projects in Natural Resource Recreation Management - 3cr.
- ENVS5020 - Human Dimensions of Fire Management - 3cr.
- ENVS5600 - Natural Resource Interpretation - 3cr.

Only take ENVS4130 NAT RESOURCE REC POLICY/PLAN, ENVS4500 ADV NAT RESOURCE REC MGMT (CI), or ENVS5600 NR INTERPRETATION as the elective if not taken above as part of the core.

Recreation Resource Management - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Undergraduate

About this Degree
Recreation resource management involves managing lands to accommodate recreational uses as well as interpreting the natural values of these lands to recreation visitors. Recreation resources play a vital role in maintaining the multiple uses of public lands. USU is located within half a day's drive of six national parks, putting students in close proximity with field study opportunities at some of the most beautiful and most commonly visited recreation sites in the world.

- Admitted and current students must meet with an academic advisor for help with semester-by-semester planning, connections to co-curricular experiences, understanding of USU policies, and accessing USU resources.
- Meeting with the advisor is also recommended for clarifying the appropriate Biology coursework based on student career goals.
- Log on to Degree Works to check student-specific program progress.
- The highest Math Requirement for this degree is STAT1040 INTRO TO STATISTICS (QL), STAT1045 INTRO STAT WITH ALGEBRA (QL), STAT1080 FOUNDATIONS OF DATA SCI (QL), or STAT2000 STATISTICAL METHODS (QI).

Admission Requirements for this Program
- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
59-65

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses required for the major must be taken on an A-B-C-D-F basis. A grade of C- or better and a grade point average of 2.5 or higher is required for all ENVS, GEOG, WATS, or WILD courses used to meet requirements for the major.

Major Requirements

Type
Completion Requirement

Disciplinary Foundation (9-13 credits)

Complete ALL of the following Courses:
- CHEM1110 - General Chemistry I (BPS) - 4cr.
  OR CHEM1010 - Introduction to Chemistry (BPS) - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT1080 - Foundations of Data Science (QL) - 3cr.
  OR STAT2000 - Statistical Methods (QI) - 4cr.

Biology Options within the Disciplinary Foundation

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- ENVS1350 - Introduction to Environmental Science (BLS) - 3cr.

OR

Option 2

Complete ALL of the following Courses:

- BIOL1010 - Biology and the Citizen (BLS) - 3cr.

OR

Option 3

To be eligible for certain public lands recreation positions, students must complete both the Biology course listed below and its associated lab.

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.

Professional Coursework (50-52 credits)

Complete ALL of the following Courses:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
  OR APEC1600 - Natural Resources and American Economic Institutions (BAI) - 3cr.
- ENVS2000 - Natural Resource Professional Orientation - 1cr.
  OR WATS2000 - Natural Resource Professional Orientation - 1cr.
  OR WILD2000 - Natural Resource Professional Orientation - 1cr.
- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.
- ENVS3500 - Environmental Data Science (QI) - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- ENVS4130 - Natural Resource Recreation Policy and Planning - 3cr.
- ENVS4500 - Advanced Natural Resource Recreation Management (CI) - 3cr.
- ENVS4920 - Special Projects in Natural Resource Recreation Management - 3cr.
- ENVS5000 - Environmental Nonprofit and Volunteer Management - 3cr.
- ENVS5600 - Natural Resource Interpretation - 3cr.
- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WILD2800 - Introduction to Geographic Information Sciences - 4cr.
- GEOG5400 - Natural Hazards and Society - 3cr.
  OR GEO3100 - Natural Disasters (DSC) - 3cr.
  OR PSC3000 - Fundamentals of Soil Science - 4cr.
  OR WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr.
  OR WATS2220 - General Ecology - 3cr.
  OR BIOL2220 - General Ecology - 3cr.
- ENVS3600 - Living with Wildlife (DSC) - 3cr.
  OR WATS3100 - Fish Ecology, Conservation, and Management (CI/DSC) - 3cr.

Geography/Geology Options within Professional Coursework

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- GEOG1000 - Physical Geography (BPS) - 3cr.

OR

Option 2

Complete ALL of the following Courses:

- GEO1010 - Introduction to Geology (BPS) - 3cr.

OR

Option 3

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
- GEO1115 - Physical Geology Laboratory - 1cr.

OR

Option 4

Complete ALL of the following Courses:

- GEO3000 - Epic Earth - Geoscience of National Parks (DSC) - 3cr.

Program Learning Outcomes

Program Learning Outcomes

Upon completing their program, students will be able to:

- Identify and articulate central foundations, theories and ideas, and best approaches and practices in Recreation Resource Management (RRM)
- Utilize theories, principles, and knowledge of RRM to address management issues and challenges
- Utilize theories, principles, and knowledge of related disciplines to address management issues and challenges
- Quantify and analyze recreational use and associated impacts utilizing research approaches and methods, sampling and measurement, and data analysis techniques for managing recreation resources
- Write logical and analytical papers supported by appropriate research
- Determine, apply, and interpret appropriate basic statistical or other quantitative analyses to RRM data
- Productively conduct group/team work to deliver professional quality presentations and reports
- Demonstrate basic competency in the use of geographic information systems and field data collection using global positioning systems

Race, Society, Environment - Minor

Program Overview

College
College of Arts & Sciences

Department
English

Program Level
Undergraduate

About this Degree

The Race, Society, Environment (RSE) minor is an 13-credit interdisciplinary minor that fosters deeper understandings of race and racism from a variety of disciplinary approaches. The RSE minor provides students with information, tools, and opportunities to participate responsibly in building inclusive and just local, national, and global communities.

Program Requirements

Total Credits Required In Program Coursework
13

Total Credits Required To Earn This Credential
13

Simple Requisites

Program Requirements

CORE:

Type
Completion Requirement

REQUIRED COURSE

Complete ALL of the following Courses:

- ENGL2640 - Race and Ethnicity in the United States (BHU) - 3cr.

RACE

These courses study the history of race as a tool for categorizing people and organizing societies and examine the ways in which racial identities are constructed, expressed, imposed, and resisted. Students must take at least one course in this category.

Complete at least 1 of the following courses:

- ANTH3200 - Perspectives on Race (DSS/CI) - 3cr.
- ARTH2730 - Art of the African Diaspora (BHU) - 3cr.
- ARTH3295 - Latinx Art (CI/DHA) - 3cr.
- ARTH3840 - Race and Visual Culture (CI) - 3cr.
- ARTH4520 - The Visual Cultures of Empire (CI) - 3cr.
- BIOL3100 - Bioethics (CI) - 3cr.
- ENGL3610 - Multicultural American Literature - 3cr.
- ENGL4370 - Native American Literature - 3cr.
- ENGL4375 - U.S. Latinx Literature - 3cr.
- ENGL4380 - African American Literature - 3cr.
- ENGL5330 - Race and Ethnicity in Literature (CI) - 3cr.
- FILM3300 - The African American Cinematic Experience (CI) - 3cr.
- HIST3670 - Slavery in the Atlantic World (CI) - 3cr.
- HIST4710 - American Indian History - 3cr.
- SOC2630 - Sociology of Race and Ethnicity (BSS) - 3cr.

SOCIETY

These courses study race in a variety of social contexts that illuminate how racial categories are configured, reproduced, communicated, and understood in the public sphere. Students must take at least one course in this category.

Complete at least 1 of the following courses:

- CMST4270 - Communication, Culture, and Power - 3cr.
- ELED3000 - Historical, Social, and Cultural Foundations of Education (CI) - 3cr.
- ENGL3620 - Native American Studies - 3cr.
- HDFS3210 - Families and Cultural Diversity (CI) - 3cr.
- HIST4720 - The Civil Rights Movement (DHA/CI) - 3cr.
- HIST4760 - America in the 1960s (DHA) - 3cr.
- ITLS5255 - Designing Ethical Technologies - 3cr.
- NURS3210 - Population Health and Prevention (CI) - 3cr.
- POLS3200 - The Politics of Development (CI/DSS) - 3cr.
- PSY4240 - Multicultural Psychology (DSS) - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SOC1020 - Social Problems (BSS) - 3cr.
- SOC2650 - Globalization and International Development (BSS) - 3cr.
- SOC3010 - Social Inequality (DSS) - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.
- SOC4410 - Race and Crime (CI) - 3cr.
- SW2400 - Social Work with Diverse Populations - 3cr.

ENVIRONMENT

These courses study the connections between race, environment, and environmental factors that impact well-being and contribute to disparities in lived experiences. Students must take at least one course in this category.

Complete at least 1 of the following courses:

- APEC1600 - Natural Resources and American Economic Institutions (BAI) - 3cr.
- BIOL4040 - Fundamentals of Epidemiology - 3cr.
- CEE5655 - Green Stormwater Infrastructure - 3cr.
- CMST4260 - Environmental Communication - 3cr.
- ENGL3640 - Nature Writing (DHA) - 3cr.
- ENGL4630 - Environmental Justice Literature - 3cr.
- ENVS4700 - Communicating Sustainability (CI) - 3cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- GEOG5400 - Natural Hazards and Society - 3cr.
- HIST3950 - Environmental History (DHA/CI) - 3cr.
- HIST4510 - American Metropolis: Cities and Suburbs in United States History (DHA) - 3cr.
- HIST4600 - The History of the American West (DHA/CI) - 3cr.
- HIST4625 - The History of Natural Disasters (DHA) - 3cr.
- LAEP1040 - Introduction to Environmental Planning and Sustainable Development (BLS) - 3cr.
- SOC3300 - Sociology of Climate Change - 3cr.
- SOC3310 - Environmental Justice - 3cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

PROJECT

Students must propose and complete a short project under faculty mentorship in conjunction with this course.

Complete ALL of the following Courses:

- ENGL5920 - Directed Study - 1cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Minors)

Program Learning Outcomes

Program Learning Outcomes

Core Principles and Learning Outcomes:

- Understanding of the differences between social race and biological race.
- Understanding of the sociocultural, political, global, and scientific histories that established the fallacy of biological races in humans.
- Understanding of systemic and institutional racism.
- Identification of current issues in which racism, social race, and their connections to environmental contexts are factors, consideration of intersectionality in understanding those issues, and exploration of avenues for engagement with such issues.
- Awareness of the interplay between race, racism, and environment, from the local to the global.
- Interdisciplinary awareness of efforts to increase public knowledge and cultural competence related to issues of race and racism.
- Proficiency in communicating concepts related to race and racism to diverse audiences.
- Awareness of how the minor informs future plans for study, employment, and community engagement.

Remote Sensing and Geospatial Artificial Intelligence Foundations - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Environment & Society

Program Level
Undergraduate

About this Degree

The Remote Sensing and Geospatial Artificial Intelligence (GeoAI) Foundations Certificate introduces students to the development and application of artificial intelligence to remote sensing and data-driven geospatial methods. Remote sensing via satellites and drones and advanced geospatial science tools that harness GeoAI allow for analyzing large amounts of data to understand and address a variety of complex social, economic, and environmental challenges facing society. Over the past few decades, technological advancements, the democratization of geospatial information, and the proliferation of consumer-grade drones have made high-resolution imagery and data more accessible than ever before, generating new demand for individuals skilled in gathering, analyzing, and delivering geospatial products. As automation through machine learning increases efficiency, the role humans play is transforming, moving from lower-level data management tasks to higher-level tasks of problem definition, inquiry, and innovation. Humans must engage with, troubleshoot, and guide GeoAI efforts, drawing upon critical thinking, creative problem-solving, complex reasoning, the application of emotional intelligence, and other distinctively human capabilities.

The Remote Sensing and GeoAI Foundations Certificate will prepare students at the convergence of geospatial analysis, remote sensing, and artificial intelligence for opportunities for innovation across various industry and government sectors, including for example environmental monitoring, urban planning, agriculture, disaster planning and response, and natural resource management. Students can pair the certificate with any major at USU and can pursue both the Applied Geographic Information Science - Certificate and the Remote Sensing and GeoAI Foundations Certificate for simultaneously broad and deep skillsets in emerging geospatial technologies. Program requirements consist of 16 credits of required coursework including a capstone experience that consists of either an internship experience with an industry partner or a project design and implementation experience under supervision of program faculty. The certificate can be completed fully online, or with a combination of online and in-person courses for students at the Logan campus.

Certificate Stacking: Ease of certificate stacking is a program goal. When stacked with the Applied Geographic Information Science - Certificate the Remote Sensing and GeoAI Foundations Certificate requires only 6-9 additional credits, as several courses can be applied to both certificates,

Admission Requirements for this Program

Students should make an appointment with an academic advisor in the S. J. and Jessie E. Quinney College of Agriculture and Natural Resources to add this certificate: https://qanr.usu.edu/advising/.

Program Requirements

Total Credits Required In Program Coursework
16

Total Credits Required To Earn This Credential
16

Simple Requisites

Program Requirements

To receive the certificate, a student must complete the following set of requirements:

- Register for and successfully complete at least 16 credits.
- Grades below C+ will not be accepted, and students must have a 3.0 minimum GPA across all courses used to meet certificate requirements.
- Abide by the Code of Policies and Procedures for Students at Utah State University.

Remote Sensing and GeoAI Foundations Course Requirements

Type
Completion Requirement

Coursework in GIS, Remote Sensing, and GeoAI (12 credits)

Complete ALL of the following Courses:

- GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
  OR WILD2800 - Introduction to Geographic Information Sciences - 4cr.
- GEOG5805 - Introduction to Geospatial Artificial Intelligence: The Remote Sensing and GeoAI Frontier - 3cr.
- GEOG5815 - Insights from Above: Processing and Analyzing Drone Data - 1cr.
- GEOG5825 - Geospatial Artificial Intelligence, Ethics, & Society - 1cr.
- GEOG3200 - Principles of Remote Sensing - 3cr.
  OR WILD5750 - Applied Remote Sensing - 3cr.

GIS Programming Elective (3 credits)

Complete at least 1 of the following courses:

- GEOG3700 - Python Programming for GIS - 3cr.
- GEOG5300 - Geospatial Analysis with R - 3cr.

GEOG 3700 is the recommended option

Capstone Experience (1 credit)

Earn at least 1 credits from the following:

- GEOG5880 - Remote Sensing & GeoAI Internship - 1cr.
  OR GEOG5890 - Project Design and Implementation for Remote Sensing & GeoAI - 1cr.

Program Learning Outcomes

Program Learning Outcomes

Upon successful completion of this program, students will have a foundational understanding of remote sensing technologies and possess basic skills integrating artificial intelligence for geospatial applications. Students will be prepared to apply image interpretation and analysis techniques to practical scenarios.

Real Estate - Minor

Program Overview

College
Jon M. Huntsman School of Business

Department
Economics and Finance

Program Level
Undergraduate

About this Degree

The Minor in Real Estate gives students a foundational understanding of property markets, investment analysis, and real estate finance. Coursework covers topics such as property valuation, real estate principles, and development, blending quantitative skills with practical market insight. Individuals from any background or major could benefit from a better understanding of real estate and real estate markets.

Program Requirements

Russian - Minor

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Undergraduate

About this Degree
In the Russian minor, students develop durable language skills, cultural competence skills, analysis skills, critical thinking skills, translation and interpretation skills, and communication skills useful in a wide variety of careers. In literature, culture, and art courses, students develop an understanding of traditions and perspectives of Russian-speaking communities around the world.

Admission Requirements for this Program
2.0 minimum GPA

Program Requirements

Total Credits Required In Program Coursework
12

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

• Total Credits: 12 credits of upper-division Russian
• USU Credit Requirement: At least half (50 percent) of the credits earned for this minor must be earned at USU. Courses taken through the high school Bridge program for Russian also count toward credits earned at USU for the Russian minor or Russian major emphasis.
• Minimum Grade Requirement: All courses taken for the Russian minor require a minimum grade of C- or better. Courses for the minor may not be taken on a pass/fail basis.

Russian - Minor

Type
Completion Requirement

Required Courses (12 credits)

Earn at least 12 credits from the following:

- RUSS2030 - Accelerated Russian Second Year - 4cr.
- RUSS3040 - Advanced Russian Grammar and Composition - 3cr.
- RUSS3050 - Advanced Russian Grammar and Composition - 3cr.
- RUSS3100 - Healthcare Russian - 3cr.
- RUSS3116 - Rusophone Popular Culture: Trends and Traditions - 3cr.
- RUSS3117 - Exploring Russia: East to West - 3cr.
- RUSS3300 - Contemporary Russian Language and Culture (DHA) - 3cr.
- RUSS3400 - Russian Language through Art - 3cr.
- RUSS3510 - Business Russian (CI) - 3cr.
- RUSS3540 - Russian Translation for Science, Business, and Culture - 3cr.
- RUSS3600 - Ethical Communication in Russian Life - 3cr.
- RUSS4081 - Medical Interpreting Training - 3cr.
- RUSS4880 - Individual Readings - 1cr.
- RUSS4920 - Russian Language Tutoring - 1cr.
- POLS3220 - Russian and East European Government and Politics (DSS) - 3cr.
- CAI5510 - Russian Security Affairs - 3cr.

NOTE:

1. RUSS4920 RUSS LANG TUTORING - Repeatable for credit; students may take RUSS4920 RUSS LANG TUTORING for a maximum of 3 credits to be applied to the Russian minor or Russian major emphasis.

Statistics and Data Science - PhD

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Graduate

About this Degree

The PhD program in statistics and data science offers training in cutting edge statistics, machine learning, data science, and artificial intelligence for students seeking careers in academe, industry, or government. This program is unique in that it allows students to explore and specialize in topics across a wide spectrum of applied, computational, and theoretical problems in statistics and data science under the guidance of faculty dedicated to advancing methodology for important and timely real-world problems. Many students work on collaborative research problems with faculty in other departments and at other universities.

Admission Requirements for this Program

There are no formal admissions requirements beyond those required by USU's graduate school. That in mind, it is expected that students applying to the program will have demonstrated proficiency in intermediate mathematics courses, such as calculus and linear algebra, and exposure to intro-level statistics and/or probability courses. Additionally, the department requires either satisfactory GRE scores (typically above the 40th percentile in Verbal and above the 70th percentile in Quantitative) or a research portfolio as part of the application materials.

Program Requirements

Total Credits Required In Program Coursework
45-72

Total Credits Required To Earn This Credential
45-72

Simple Requisites

Program Requirements

School of Graduate Studies Requirements:

- Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
- Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
- Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
- Course Number Acceptability: The program of study cannot include more than 12 semester credits of courses below the 6000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- Master's forms: Approval of the Program of Study is required by the School of Graduate Studies.

Program Requirements:

- A doctoral degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- This degree requires at least 45 total credits (Masters) or 72 total credits (no Masters) numbered 5000-level or higher. This includes research credits but excludes MATH6990 CONT GRAD ADVISEMENT/STAT6990 CONT GRAD ADVISEMENT and STAT7990 CONT GRAD ADVISEMENT (Continuing Graduate Advisement). No more than 12 of these credits can be numbered 5000-5999.
- Take no more than 3 (Masters) or 6 (no Masters) credits of STAT6250 GRAD INTERN/COOP
- Supervisory Committee Approval by the end of the second semester
- Program of Study submitted by the end of the third semester
- Write and successfully defend a dissertation research proposal
- Pass a comprehensive examination that is constructed specifically for the student by his or her supervisory committee. The form of the examination may be written or oral or may include a combination of written and oral components. The length and content of the exam are determined by the student's supervisory committee but is expected to take at least eight hours of direct effort from the student (e.g., three two-hour written exams followed by a two-hour oral exam).
- Application for Candidacy Form at least 3 months before final defense
- Appointment for examination form submitted 10 days before defense and during defense semester must be registered for credit
- Write and successfully defend a dissertation
- Record of Examination Form
- Thesis/Dissertation format and Style and Electronic Publication Form
- Authorship and Copyright form
- Graduation application

Statistics and Data Science - PhD

Type
Completion Requirement

Introductory Seminar (1 credit)

Complete ALL of the following Courses:

- MATH6910 - Directed Reading and Conference - 1cr.

NOTE:

MATH6910 DIRECTED READING - 1 credit.

Mathematical Statistics (9 credits)

Complete ALL of the following Courses:

- STAT6710 - Mathematical Statistics I - 3cr.
- STAT6720 - Mathematical Statistics II - 3cr.
- STAT6300 - Bayesian Statistical Methods and Data Analysis - 3cr.
  OR MATH6645 - Mathematical Methods for Data Science - 3cr.

Programming (3 credits)

Complete ALL of the following Courses:

- DSAI6060 - Python for Data Science - 3cr.
  OR STAT6060 - Python for Data Science - 3cr.
  OR STAT6555 - Advanced R Programming for Data Science - 3cr.

Data Visualization (2 credits)

Complete ALL of the following Courses:

- STAT5550 - Statistical Visualization I - 2cr.
  OR STAT6560 - Statistical Visualization II - 2cr.

Dissertation Credit (12-21 credits)

Students with a prior masters degree will take between 12-15 credits of STAT7970 DISSERTATION RESEARCH (repeatable for credit). Students without a prior masters degree will take between 18-21 credits of STAT7970 DISSERTATION RESEARCH (repeatable for credit).

Complete ALL of the following Courses:

- STAT7970 - Dissertation Research - 1cr.

Elective Credit (18-39)

Complete the following:
Students must take at least 45 total credits (Masters) or 72 total credits (no Masters) numbered 5000-level or higher. This includes research credits but excludes MATH6990 CONT GRAD ADVISEMENT/STAT6990 CONT GRAD ADVISEMENT and STAT7990 CONT GRAD ADVISEMENT (Continuing Graduate Advisement). Students are required to complete suitable electives at the 5000-level or higher, as approved by their supervisory committee, to meet the total credit thresholds after accounting for the required courses. No more than 12 of these elective credits can be numbered 5000-5999 and no more than 3 (Masters) or 6 (no Masters) can be STAT6250 GRAD INTERN/COOP (repeatable for credit).

Sheep and Wool Production - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Animal, Dairy & Veterinary Sciences

Program Level
Undergraduate

About this Degree

The Sheep and Wool Production Certificate is a 24- to 25-credit program that equips students with the knowledge and practical skills needed for careers in the sheep industry. The curriculum covers essential areas such as sheep production practices, wool technology, nutrition, health management, and business operations. The program integrates hands-on learning opportunities, including fieldwork at a working sheep ranch, and allows students to choose electives such as live animal evaluation, small firm management, or forage production.

This certificate prepares students for roles in sheep management, wool production, and small ruminant farming, ensuring they gain the specialized skills needed to run profitable and sustainable sheep farming enterprises. The certificate can be pursued independently or alongside a Bachelor of Science degree, providing a pathway for students interested in sheep agriculture.

Program Requirements

Total Credits Required In Program Coursework
24

Total Credits Required To Earn This Credential
24

Simple Requisites

Program Requirements

1. Attain a grade point average of at least 2.50 across all courses applied toward this certificate.
2. Courses required for the certificate may *not* be taken for a *pass/fail* grade except for courses that are only offered as pass/fail.
3. A minimum grade of C is required in all courses applied toward this certificate.

Required Courses

Type
Completion Requirement

Complete the following courses:

Complete ALL of the following Courses:

- ADVS1110 - Introduction to Animal Science (BLS) - 3cr.
- ADVS2090 - Sheep Production Practices - 3cr.
- ADVS2500 - Feeds and Feeding - 3cr.
- ADVS3930 - Sheep Day - 1cr.
- ADVS5090 - Sheep Management and Wool Technology - 3cr.
- APEC2120 - Small Firm Accounting Basics - 3cr.
- APEC2310 - Small Firm Management - 3cr.

Repeat ADVS3930 SHEEP DAY for 3 credits total.

Choose one of the following courses:

Complete at least 1 of the following courses:

- ADVS3650 - Live Animal and Carcass Evaluation - 3cr.
  OR NDFS5020 - Meat Science and Technology - 4cr.
  OR NDFS5030 - Dairy Technology and Processing - 3cr.
  OR PSC4320 - Forage Production and Pasture Management -

3cr.
OR WILD5340 - Range Ruminant Nutrition and Management - 3cr.

Additional Comments:
NOTE:

1. Some of these courses have prerequisites, which may in turn have further prerequisites, etc. We encourage you to plan accordingly and/or speak with an advisor.

Small Business Operations - AAS

Program Overview

College
College of Agriculture & Natural Resources

Department
Aviation Technology

Program Level
Undergraduate

About this Degree

The Associate of Applied Science in Small Business Management equips individuals with the essential knowledge and skills to thrive in or start their own small business. Designed for those with technical expertise from partnering technical colleges, the program prepares graduates to manage financial records, develop effective marketing strategies, utilize essential software, oversee projects, and manage employees, making them valuable assets in the small business sector.

This program is designed to be completed in four semesters with students completing a minimum of 63 credits.

Program Learning Outcomes

Program Learning Outcomes

- Apply foundational business principles to understand how small businesses operate and make strategic decisions.
- Use digital tools and software—including word processing, spreadsheets, databases, and web/digital literacy skills—to support business operations.
- Demonstrate effective financial management skills, including basic accounting, financial recordkeeping, and managerial accounting practices.
- Communicate professionally in business settings through written, verbal, and presentation formats.
- Understand and apply business law concepts relevant to small business ownership and operations.
- Develop and evaluate marketing strategies, including digital marketing concepts and market analysis for small business growth.Demonstrate knowledge of small business management practices, including HR, organizational behavior, and day-to-day operational decision-making.
- Apply entrepreneurial thinking to generate ideas, assess opportunities, and develop a small business mindset.
- Integrate hands-on workplace experience through internships or project-based learning to apply business skills in real-world settings.

School Counseling - MEd

Program Overview

College
College of Education & Human Services

Department
Psychology

Program Level
Graduate

About this Degree

Successful completion of this program qualifies graduates for a professional educator license in K-12 school counseling in the state of Utah. Additionally, this program qualifies graduates for the College and Career Readiness Certificate, required of Licensed School Counselors in the state of Utah.

The program is delivered through various tracks, outlined on the MEd in School Counseling web page. The program is a state-wide, web-based program delivered via Online and Virtual modalities. Virtual delivery is supported via Zoom; and courses offered Online are accessible as an asynchronous Canvas course. The delivery method is determined based on the best fit for course content and student learning.

Coursework is designed to train students in a broad range of skills, including K-12 college and career readiness, individual and group counseling for K-12 populations, behavioral and educational assessment and intervention, research and methodological foundations, and ethical, legal, and professional standards.

Experiential learning in the form of practicum and internship is a critical component of the program during the second and third years of enrollment.

The program is approved by the Utah State Board of Education and is fully accredited by the Association for Advancing Quality in Educator Preparation (AAQEP).

For additional details about the program please visit: https://cehs.usu.edu/psychology/masters/

Disclosure of Educational Requirements for Licensure by State

USU's MEd in School Counseling program adheres to the training standards of the American School Counselor Association (ASCA) and is accredited by the Association for Advancing Quality in Educator Preparation (AAQEP). Given the varied and changing requirements across jurisdictions, the department has not determined and cannot assure that graduates will meet all requirements for licensure in all states or territories. Students are encouraged to become familiar with relevant state licensing laws and discuss their curricular plan with the program director and advisors.

This program meets the requirements in Utah. Please see the following webpage for further information relating to licensing for School Counselors in other states: https://cehs.usu.edu/psychology/masters/Education_Licensure_Compliance_Table.pdf

Admission Requirements for this Program

Students are expected to be admitted to the program as matriculated students before taking coursework leading to the degree. Students apply through USU School of Graduate Studies: https://gradschool.usu.edu/admissions/

Additional information about the Master of Education in School Counseling Program may be obtained by visiting https://cehs.usu.edu/psychology/masters/ and/or contacting the Program Coordinator: https://cehs.usu.edu/psychology/people/campbell-meg.

Program Requirements

School of Graduate Studies Requirements:

• Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
• Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
• Course Number Acceptability: The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
• Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
• Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
• Master's forms: Approval of the Program of Study is required by the School of Graduate Studies.

Program Requirements

The MEd in School Counseling program requires a minimum of 49 credits. Programming is delivered through various tracks, outlined on the MEd in School Counseling web page. All courses in the MEd in School Counseling Program of Study require a grade of B- or higher. Grades below a B- will not be accepted. Students who receive below a B- in a course must retake the course. Students must maintain a 3.0 GPA for degree-program courses.

Graduate

About this Degree

NOT CURRENTLY OFFERED

The MEd in School Leadership (Higher Education/Student Affairs Specialization) is not currently offered at this time. The program prepares professionals for careers as leaders in higher education, student affairs, religious and private education, and other education-related fields. If you are interested in any college/university professional staff position, this program can be tailored to fit your goals.

The program provides opportunities for skill development, collaboration, and community building within higher education settings and provides a unique look into education leadership through internship and practical coursework taught by current leaders in college and university settings.

School Leadership - MEd

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Graduate

About this Degree

The Master of Education in School Leadership (Plan C) is designed for classroom teachers and educators who want to become school and/or educational leaders. We use the Utah Effective Leadership Standards to prepare educators across the state of Utah to meet the demands placed on today's instructional leaders. Coursework encompasses leadership and management with a specific focus on curriculum and instruction. The program prioritizes the effective use of data to inform successful school improvement for the diverse learners in our schools. Upon successful completion, graduates are recommended to the Utah State Board of Education for a license in School Leadership.

Program Delivery: All courses in our program are delivered online. Most classes include interactive Zoom sessions totaling up to 9 hours per semester (for example, six 90-minute sessions). Class meetings are typically held at either 4:30 PM or 7:15 PM.

Students can complete coursework from anywhere with reliable Wi-Fi and a device that supports Zoom and Canvas. Because of this flexibility, our students come from across Utah, bringing a rich diversity of school settings, geographic perspectives, and professional experiences to the program.

Program Structure: Our program does not follow a cohort model, allowing students to move through coursework at their own pace and learn alongside a variety of peers.

Students are required to take:
• TEAL6080 LEADERSHIP AND SCHL PRINCIPAL during their first semester
• TEAL6930 SUPRVSN/ADMIN INTERN SEMINAR during their final semester

All other courses are offered two out of every three semesters, with a full range of courses available during the summer. This structure supports working professionals while fostering meaningful collaboration across diverse groups of educators.

For additional admission information, including contact information, please visit the department's School Leadership webpage.

Admission Requirements for this Program

Your application will require you to submit:

1. Three recommendations. One recommendation should be from your immediate supervisor (typically your current principal). One recommendation should be from someone from the district office or higher leadership position who knows your leadership abilities/ potential. The third recommendation should be a person of your choice who knows your leadership experience.
2. Official transcripts which list your awarded degree(s). (Not needed if degree is from USU.)
3. Copy of current teaching license
4. Evidence of clearing a USBE fingerprint background check. You can access your license and background check on the state page. Take a screen shot and upload to application.
5. Evidence of being deemed effective or higher by your district or charter summative evaluation system.
6. Statement of Purpose: Describe why you want to earn a graduate degree, and the experiences and qualifications that make you a strong candidate for advanced study (500 word limit).

After completing the admissions application, you will be invited to participate in a 15-minute Zoom interview with the admissions committee.

*Recommended 3-5 years of teaching experience

****Current teaching license is required**

Deadline for applications: March 1st, June 1st, and November 1st

Program Requirements

School of Graduate Studies General Graduation Guidelines:

Degree Verification: A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
Overall Graduate GPA: At least 3.0 and no grades of C- or lower. Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
Course Number Acceptability: The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. The program of study may include up to 12 semester credits of 5000 level courses.
Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested and submitted to the Vice Provost of Graduate Studies for review.
Required Master's Forms (Professional/Plan C): Approval of academic forms required for master's students by the School of Graduate Studies

- Program of Study
- Graduation Application

Department Requirements:

Embedded Internship:
Internship experiences are embedded within coursework, allowing students to directly apply what they are learning to real-world leadership practice aligned with Utah state standards.

In the first course, students complete 12 hours of shadowing. Beyond that, internship activities are integrated into coursework and can typically be completed with minimal time away from a student's current position.
Students are required to complete internship experiences in both elementary and secondary settings. While students are responsible for identifying their own internship sites (which may include their current school), faculty provide guidance and support throughout the process.

Course Offerings:
Students will take 27 credit hours (or nine 3-credit courses), plus one 3-credit elective course from Curriculum and Instruction Core course offerings—for a total of 30 credits. To see planning guide and course offerings, please refer to our School Leadership webpage.

School Leadership - MEd

School Leadership - Post-Master's Certificate

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Graduate

About this Degree
The School Leadership Certificate is designed for classroom teachers and educators who want to become school and/or educational leaders and already hold a master's degree in education. We use the Utah Effective Leadership Standards to prepare educators across the state of Utah to meet the demands placed on today's instructional leaders. Coursework encompasses leadership and management with a specific focus on curriculum and instruction. The program prioritizes the effective use of data to inform successful school improvement for the diverse learners in our schools. Upon successful completion, graduates are recommended to the Utah State Board of Education for a license in School Leadership.

Program Delivery: Our program is considered a virtual online program. This includes online courses that are fully asynchronous or a combination of asynchronous and synchronous with scheduled meetings via Zoom. Course meetings occur no earlier than 4:30 pm. Students can complete the coursework anywhere they have WIFI and a device that is supported by Zoom and Canvas. Our students and faculty are located all throughout the state of Utah.

Internship: Students are expected to accomplish a series of experiences as part of this more competency-based approach for their internship. Students are required to select both elementary and secondary internship sites to complete the competencies included in the Utah Effective Leadership Standards. Students are asked to find their own internship sites/mentor principals, assistance is provided if needed. Many students use their current school of employment as one of these sites.

Program Verification and application information:

- A master's degree in education from an accredited U. S. college or university or a similarly recognized international university is required for admission. In that graduate program, students must have an overall GPA of at least a 3.0 and no grades of C- or lower
- Once admitted students are required to maintain at least a 3.0 GPA. Grades of C- or lower will not be accepted
- No GRE needed for admission
- Recommended 3-5 years of teaching experience
- Current teaching license is required

School Resource Officers - Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree
Crime in schools is a complex subject that is heavily tied to issues of class, race, and gender. A Schools response to crime should be nuanced and guided by evidence-based practices. The aim of this certificate is to foster a culture within local agencies, schools, communities and juvenile court institutions that embraces multiple perspectives and evidence-based practices.

One of the most important ways the School of Social Sciences can serve the public is by educating future school criminal justice practitioners to be culturally aware in the maintenance of formal social control. In keeping with this aim, the proposed certificate strategically integrates curriculum from the USU Department of Social Work to prepare professionals to individuals experiencing juvenile mental health crises while caring for their own wellbeing. Thus, students earning this certificate will have the socially informed education required to operate in school and youth communities.

Social Dimensions of Climate Change and Environmental Justice - Minor

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

This is a 15-credit minor in Social Dimensions of Climate Change and Environmental Justice. To be equipped to address the multi-faceted, multi-scalar issues of Social Dimensions of Climate Change and Environmental Justice, students need an understanding of both the social and natural dimensions of this socio-environmental issue. Climate change refers to long term shifts in temperature and weather patterns. It has social drivers and social impacts, which are characterized by inequality from the local to the global scale. Environmental justice approaches focus on fair and equitable outcomes and meaningful involvement and participation in response to environmental issues. Environmental justice is intersectional and interdisciplinary and relates to inequality based on class, gender, race, ethnicity, Indigeneity, sexuality, disability, etc., and spans local to global scales.

This minor in Social Dimensions of Climate Change and Environmental Justice prepares students to understand and address in their personal and professional lives some of the myriad aspects of climate change, a challenge that many deem to be the greatest of our time. Students learn about natural and social science theories and methods related to studying this issue. It will also prepare students to understand and, if desired, support environmental justice efforts in their personal and professional lives. Students learn about environmental justice theories, efforts, and case studies from the local to the global level and will gain a deeper understanding of the related processes of inequality. Students who complete this minor will gain foundational knowledge about Social Dimensions of Climate Change and Environmental Justice, preparing them to work to address climate change and other environmental issues with an approach that considers equity, including in academic, government, nonprofit, and corporate settings.

Social Dimensions of Climate Change - Institutional Certificate of Proficiency

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

This is a 9-credit micro certificate, Social Dimensions of Climate Change. To be equipped to address the multi-faceted, multi-scalar issue of climate change, students, regardless of the career path they choose, need an understanding of both the social and natural dimensions of this socio-environmental issue. Climate change refers to long-term shifts in temperature and weather patterns. It has social drivers and social impacts, which are characterized by inequality from the local to the global scale.

This micro certificate in Social Dimensions of Climate Change prepares students, including and especially those not focusing on environment and society relationships with their major area of study, to understand and address in their personal and professional lives some of the myriad aspects of climate change, a challenge many deem to be the greatest of our time. Students learn about social science theories and methods related to studying this issue and gain some background knowledge on natural science components. Students who complete this certificate will be better prepared to work to address climate change moving forward and contribute insights about climate change to various fields, including in academic, government, nonprofit, and corporate settings.

Program Requirements

Total Credits Required In Program Coursework
9

Total Credits Required To Earn This Credential
9

Simple Requisites

Program Requirements

- Required credits: 9
- Maximum credits: 15
- Required course: 1 (3 credits)
- Elective courses: 2 (6 credits)

The micro certificate requires the completion of 9 credits with a grade of C or better, at least 50% of which must be completed at USU. Courses taken pass/fail will not count towards the micro certificate. Courses more than 10 years old will not count towards the micro certificate. To enroll in the micro certificate, students must have a GPA of 2.5 at USU and 2.5 overall. GPA required to earn the certificate is 2.25 in the courses applying toward the certificate.

This micro certificate must be attached to a bachelor's degree.

Social Dimensions of Climate Change - ICP

Type
Completion Requirement

Required Course (3 credits)

Complete ALL of the following Courses:

- SOC3300 - Sociology of Climate Change - 3cr.

Elective Courses (6 credits minimum)

Select one elective from **A Deeper Dive into Socio-Environmental Issues Courses (3 credits minimum)** and one elective from **Climate Change through a Natural Sciences Lens Courses (3 credits minimum)**.

Fulfill ALL of the following requirements:

Course options for A Deeper Dive into Socio-Environmental Issues

Complete at least 1 of the following courses:

- ANTH3240 - Anthropology of Disease (DSC) - 3cr.
- ANTH3320 - Archaeology of Climate Change (DSS) - 3cr.
- ANTH4650 - Utah's Public Lands: Past, Present, Future (DSS/HASS) - 3cr.

Social Determinants of Crime - Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

The Undergraduate Certificate in Social Determinants of Crime will be housed and administered by USU's Sociology, Anthropology, and Criminal Justice (SACJ) department in the College of Humanities and Social Sciences. The curriculum will include currently offered undergraduate courses. While only three courses are required for certificate completion, students will be welcome and invited to take additional courses of electives.

Program Requirements

Total Credits Required In Program Coursework
9

Total Credits Required To Earn This Credential
9

Simple Requisites

Program Requirements

Certificate completion will require three courses totaling 9 credit hours. This includes two required courses. In addition to the two required courses, students will select one elective course from the list of options.

Social Determinants of Crime - Certificate

Type
Completion Requirement

Required Courses (6 credits)

Complete ALL of the following Courses:

- CJ3370 - Gender-Based Violence - 3cr.
- SOC3430 - Social Deviance (DSS) - 3cr.

Required Courses (3 credits)

Complete at least 1 of the following courses:

- ANTH3200 - Perspectives on Race (DSS/CI) - 3cr.
- SOC4410 - Race and Crime (CI) - 3cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

Objectives:

1- Students will explore the relationship between gender and violence through the lens of intersectionality, analyzing how marginalized identities intersect with various forms of violence, including sexual assault, intimate partner violence, and systemic violence.

2- Students will examine sociological perspectives on deviance, focusing on how they apply to lifestyles, commitment, and social control in American society.

3- Students will explore the racial and ethnic disparities in incarceration in the United States, examining the social, political, and historical factors behind minority overrepresentation in the criminal justice system, while studying the processes of racial differentiation and the role of biology, culture, and social context in shaping perceptions of race.

Secondary Education - 2nd BA, BS

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Undergraduate

About this Degree

The second bachelor's degree in secondary education is designed for students who have earned their first bachelor's in a subject taught in secondary schools. They can complete this degree and take the courses needed to qualify for licensure to teach in middle schools and high schools. Students who have already completed requirements for a bachelor's degree and who are seeking a second bachelor's degree and/or teacher licensure must have a GPA of at least 3.00 in the last 60 credits of academic work.

Qualifying subject areas include chemistry, English, geography, history, health education, mathematics, physics, biology, theater arts, certain foreign languages, and more. Since each student's academic background is different, they will need to see an advisor for more information on approved teaching areas and to create an individualized plan of study.

The length of time required to complete the program varies, but if students have already completed the coursework required for an approved teaching major and minor in their first bachelor's degree, they will only have to complete the teacher education courses and student teaching, which takes approximately three semesters. Typically the program takes longer than this, as most students need to take additional courses in their chosen teaching major area or complete a teaching minor in its entirety.

University policy requires that students seeking a second BS or BA degree must obtain a minimum of 30 semester credits from USU. Students receive a second **BS** by completing all required courses in the major. To receive a second **BA**, students must also gain proficiency in one or more foreign languages. See Undergraduate Academic Credential Requirements for required language courses.

Simple Requisites

Program Requirements

Education Component:

In order to obtain a secondary teaching license for grades 6-12, students must complete the 35-credit Secondary Teacher Education Program (STEP), which includes one semester of student teaching in a public school. This program is administered by USU's School of Teacher Education and Leadership (TEAL) within the Emma Eccles Jones College of Education and Human Services.

Some courses may be waived due to previous coursework.

**A dual licensure program is available for Special Education Mild/Moderate Emphasis majors with elementary education majors in the School of TEAL. See website for more information cehs.usu.edu/sperc/sped/undergrad/main-campus/mild-moderate-options.

**A dual licensure program is available for Special Education Severe Emphasis majors with secondary education content majors in the School of TEAL See website for more information cehs.usu.edu/sperc/sped/undergrad/main-campus/severe-options.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Special Education: Birth to 5 Emphasis/Early Childhood Education Composite - BA, BS

Program Overview

College
College of Education & Human Services

Department
Special Education & Rehab Counseling, School of Teacher Education & Leadership

Program Level
Undergraduate

About this Degree

This degree is a combination of courses required for the early childhood education major and the special education major with Birth to Age Five emphasis.. Students who complete this composite degree are eligible for two licenses, one for special education preschool (birth to age 5) and one for elementary education (K-3). Students gain content knowledge through the early childhood education program and learn strategies for teaching diverse learners through the special education program.

This degree gives students the opportunity to have more flexibility in their careers. Having both licenses allows teachers to move back and forth between special education and elementary education. Most teachers will have students with disabilities in their classrooms, and this composite degree makes them more qualified to meet the unique educational needs of these students.

- For more information about Elementary Education, see the website.
- For more information about Special Education, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest Math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).
- For Bachelor of Arts (BA) degrees see Undergraduate Academic Credential Requirements for language requirements.

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.

Program Requirements

Total Credits Required To Earn This Credential

126

Simple Requisites

Program Requirements

This program requires a GPA of 3.0 in required major courses. Program requirements may not be taken for a pass/fail grade, except for those courses that are only taught pass/fail. In addition to satisfying the basic Communications Literacy (CL) general education requirement, students in this major must receive a grade of C+ or better in both ENGL1010 WRITING AS INQUIRY (CL1) and ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2).

Preparation Courses

Type
Completion Requirement

Required Courses

Unless otherwise noted, these courses require a B- or higher.

Complete ALL of the following Courses:

- ELED1010 - Orientation to Elementary Education - 3cr.
  OR TEAL1010 - Introduction to Education - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- TEAL2660 - Educational Psychology for Teachers - 2cr.

Special Education: Birth to 5 Emphasis/Early Childhood Education Composite - BA, BS

Type
Completion Requirement

Mathematics Requirements

Fulfill ALL of the following requirements:

Math Courses

Earn a minimum grade of C- in the following:

- MATH1050 - College Algebra (QL) - 4cr.
  OR MATH1051 - Classical Algebra for Teachers (QL) - 4cr.

AND

Additional Math Courses

Earn a minimum grade of C in the following:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Assessment, Curriculum, and Instruction Core

A grade of B- or higher is required.

Fulfill ALL of the following requirements:

Arts Block

A grade of B- or higher is required.

Complete at least 1 of the following courses:

- ART3700 - Elementary Art Methods - 3cr.
- MUSC3260 - Elementary School Music - 3cr.
- THEA3320 - Movement Exploration for Elementary Education Majors - 3cr.
- THEA3330 - Drama for Classroom Teachers - 3cr.
- THEA3340 - Methods of Teaching Drama, Grades K-6 - 3cr.
- THEA3380 - Drama Across the Curriculum, Grades K-12 - 3cr.

AND

Foundations Block

Earn a minimum grade of B- in the following:

- ELED2620 - Early Childhood Education Kindergarten Through Grade 3 - 3cr.
- ELED3000 - Historical, Social, and Cultural Foundations of Education (CI) - 3cr.
- ELED3002 - Foundations Practicum - 1cr.
- ELED3050 - PE and Health in the Elementary Classroom - 2cr.
- ELED3100 - Classroom Reading Instruction - 3cr.

- HDFS2600 - Seminar in Early Childhood Education - 2cr.
- HDFS2605 - Early Childhood Education Practicum - 2cr.

AND

ELED Literacy Block

Earn a minimum grade of B- in the following:

- ELED4040 - Reading Assessment and Intervention (CI) - 2cr.
- ELED4042 - Reading Assessment and Intervention Practicum - 1cr.
- ELED4049 - Foundations of Reading Review - 1cr.
- SHS3200 - Child Language Development - 3cr.
- TEAL3080 - Integrating Arts into Academic Learning (DHA) - 3cr.

AND

ELED Content Block

Earn a minimum grade of B- in the following:

- ELED5010 - Teaching Social Studies in Elementary School - 2cr.
- ELED5020 - Teaching Science in Elementary School - 2cr.
- ELED5030 - Teaching Language Arts (CI) - 2cr.
- ELED5040 - Teaching Elementary School Mathematics II: Number, Operations, and Algebraic Reasoning - 2cr.
- ELED5060 - Elementary Content Practicum - 4cr.
- HDFS4960 - Practice Teaching in Child Development Laboratories - 3cr.

Special Education Major

Fulfill ALL of the following requirements:

Junior Fall

Earn a minimum grad of B- in the following:

- ELED4061 - Teaching Elementary School Mathematics I: Rational Numbers, Operations, and Proportional Reasoning - 3cr.
- HDFS3500 - Infancy and Childhood - 3cr.
- HDFS4550 - Preschool Methods and Curriculum - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- SPED5030 - Assessment in Special Education - 2cr.
- SPED5040 - Foundations of Effective Instructional Practices - 4cr.

AND

Junior Spring

Earn a minimum grade of B- in the following:

- SPED5010 - Applied Behavioral Analysis 1: Principles, Assessment, and Analysis (QI) - 3cr.
- SPED5070 - Policies, Procedures, and Collaboration in Special Education - 3cr.
- SPED5310 - Teaching Reading and Language Arts to Students with Disabilities - 1cr.
- SPED5710 - Young Children with Disabilities: Characteristics and Services - 3cr.
- SPED5810 - Seminar and Field Experiences with Infants and Families - 4cr.
- SPED5840 - Practicum: Working with Young Children with Autism - 1cr.

NOTE:

1. SPED5310 TEACH READ/LANG ARTS ST W/DIS - Enroll in 1 credit.

AND

Senior Fall Semester

Earn a minimum grade of B- in the following:

- SPED5050 - Applied Behavioral Analysis 2: Applications - 3cr.
- SPED5530 - Family/Professional Collaboration and Technology for Teaching Exceptional Learners - 3cr.
- SPED5730 - Intervention Strategies for Young Children with Disabilities - 3cr.
- SPED5820 - Preschool Practicum with Young Children with Disabilities in Community Environments - 2cr.
- TEAL5710 - Instruction for Linguistically and Culturally Diverse Learners - 3cr.

NOTE:

1. SPED5820 PRESCHOOL PRACT W/DISABILITIES - Enroll in 3 credits.

Student Teaching (15 credits)

Earn at least 15 credits
NOTE:

1. ELED5050 STUDENT TEACH EARLY CHILDHOOD - Enroll in 3 credits.
2. SPED5200 STUDENT TEACHING (CI) - Enroll in 12 credits.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Special Education: Birth to 5 Emphasis/ Elementary Education Composite - BA, BS

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling, School of Teacher Education & Leadership	Undergraduate

About this Degree
This degree is a combination of courses required for the elementary education major and the special education major with Birth to Age Five emphasis.. Students who complete this composite degree are eligible for two licenses, one for special education preschool (birth to age 5) and one for elementary education (K-6). Students gain content knowledge through the early childhood education program and learn strategies for teaching diverse learners through the special education program.

This degree gives students the opportunity to have more flexibility in their careers. Having both licenses allows teachers to move back and forth between special education and elementary education. Most teachers will have students with disabilities in their classrooms, and this composite degree makes them more qualified to meet the unique educational needs of these students.

- For more information about Elementary Education, see the website.
- For more information about Special Education, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest Math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).
- For the Bachelor of Arts (BA) see Undergraduate Academic Credential Requirements for language requirements.

Admission Requirements for this Program
Pre-Special Education Major Admission Requirements

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.
- Grade of C+ or better: for Communications Literacy **(CL1)** General Education Requirements (required for program admission; it can also be met with AP ENGL or an ACT score of 30 or higher)
- Grade of C or better: General Education Requirements (Breadth American Institutions **(BAI)**, Breadth Life Sciences **(BLS)**, Breadth Physical Sciences **(BPS)**, HDFS1500 HUMAN DEV LIFESPAN (BSS) (required for program admission)
- Grade of C- or better in Quantitative Literacy (QL) (required for program admission)

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
102-104	126

Simple Requisites

Program Requirements

Minimum Grade Requirements:

- Grade of B- or better: All other HDFS, SPED, TEAL courses courses (except SPED1010 DISABILITY AND SOCIETY (BSS), SPED2910 EARLY FIELD EXPERIENCE IN SPED, SPED5200 STUDENT TEACHING (CI), and SPED5900 INDEPENDENT STUDY).
- Grade of C or better in MATH2010 ALG/NUMER FOR ELED TEACH (QI) and MATH2020 GEOMETRY/STAT ELED TEACH(QI)
- Grade of C- or better in all other courses required for the bachelor's degree
- Courses used to fulfill major requirements may not be taken pass/fail, except those courses that are only taught on a pass/fail basis.
- 3. 0 GPA required in major coursework

Students are required to earn a grade of "B-" or better in all major courses (SPED, TEAL, ELED prefixes). Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Pre-Program Courses

Type
Completion Requirement

Pre-Program Courses (8 credits)

Unless otherwise noted, these courses require a B- or higher.

Complete ALL of the following Courses:

- ELED1010 - Orientation to Elementary Education - 3cr.
  OR TEAL1010 - Introduction to Education - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- TEAL2660 - Educational Psychology for Teachers - 2cr.

Special Education: Birth to 5 Emphasis/Elementary Education Composite - BA, BS

Type
Completion Requirement

Mathematics Requirements (9-11 credits)

Fulfill ALL of the following requirements:

Quantitative Literacy (QL)

Earn a minimum grade of C- in the following:

- Quantitative Literacy (QL) Course

AND

Math Courses

Earn a minimum grade of C in the following:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Elementary Education Requirements (40 credits)

Fulfill ALL of the following requirements:

Foundations Block (28 credits)

Complete ALL of the following Courses:

- ELED3000 - Historical, Social, and Cultural Foundations of Education (CI) - 3cr.
- ELED3002 - Foundations Practicum - 1cr.
- ELED3050 - PE and Health in the Elementary Classroom - 2cr.
- ELED3100 - Classroom Reading Instruction - 3cr.
- ELED4061 - Teaching Elementary School Mathematics I: Rational Numbers, Operations, and Proportional Reasoning - 3cr.
- ELED4049 - Foundations of Reading Review - 1cr.
- HDFS3500 - Infancy and Childhood - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- TEAL3080 - Integrating Arts into Academic Learning (DHA) - 3cr.
- TEAL5710 - Instruction for Linguistically and Culturally Diverse Learners - 3cr.
- ELED2620 - Early Childhood Education Kindergarten Through Grade 3 - 3cr.

AND

ELED Content Block (12 credits)

Complete ALL of the following Courses:

- ELED5010 - Teaching Social Studies in Elementary School - 2cr.
- ELED5020 - Teaching Science in Elementary School - 2cr.
- ELED5030 - Teaching Language Arts (CI) - 2cr.
- ELED5040 - Teaching Elementary School Mathematics II: Number, Operations, and Algebraic Reasoning - 2cr.
- ELED5060 - Elementary Content Practicum - 4cr.

Special Education Major Requirement (33 credits)

Fulfill ALL of the following requirements:

Junior Fall (6 credits)

Earn a minimum grade of B- in the following:

- SPED5030 - Assessment in Special Education - 2cr.
- SPED5040 - Foundations of Effective Instructional Practices - 4cr.

AND

Junior Spring (16 credits)

Earn a minimum grade of B- in the following:

- SPED5010 - Applied Behavioral Analysis 1: Principles, Assessment, and Analysis (QI) - 3cr.
- SPED5070 - Policies, Procedures, and Collaboration in Special Education - 3cr.
- SPED5310 - Teaching Reading and Language Arts to Students with Disabilities - 1cr.
- SPED5710 - Young Children with Disabilities: Characteristics and Services - 3cr.
- SPED5810 - Seminar and Field Experiences with Infants and Families - 4cr.
- SPED5840 - Practicum: Working with Young Children with Autism - 1cr.

NOTE:

1. SPED5310 TEACH READ/LANG ARTS ST W/DIS - Enroll in 2 credits.

AND

Senior Fall (11 credits)

Earn a minimum grade of B- in the following:

- SPED5050 - Applied Behavioral Analysis 2: Applications - 3cr.
- SPED5530 - Family/Professional Collaboration and Technology for Teaching Exceptional Learners - 3cr.
- SPED5730 - Intervention Strategies for Young Children with Disabilities - 3cr.
- SPED5820 - Preschool Practicum with Young Children with Disabilities in Community Environments - 2cr.

NOTE:

1. SPED5820 PRESCHOOL PRACT W/DISABILITIES - Enroll in 2 credits.

Student Teaching (12 Credits)

Earn at least 12 credits from the following:

- SPED5200 - Student Teaching in Special Education (CI) - 3cr.
- SPED5150 - Teaching Children with Dual Sensory Impairments (Deaf/Blind) - 3cr.

NOTE:

1. SPED5200 STUDENT TEACHING (CI) - Enroll in 6 credits.
2. ELED5150 STUDENT TEACHING: ELEMENTARY - Enroll in 6 credits.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Special Education: Mild/Moderate Emphasis/ Elementary Education Composite - BA, BS

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling, School of Teacher Education & Leadership	Undergraduate

About this Degree
This degree is a combination of courses required for the elementary education major and the special education major with Mild/Moderate emphasis.. Students who complete this composite degree are eligible for two licenses, one for special education (K-12) and one for elementary education (K-8, though, students are "highly qualified" to teach grades K-6 based on federal standards for "No Child Left Behind"). Students gain content knowledge through the elementary education program and learn strategies for teaching diverse learners through the special education program.

This degree gives students the opportunity to have more flexibility in their careers. Having both licenses allows teachers to move back and forth between special education and elementary education. Most teachers will have students with disabilities in their classrooms, and this composite degree makes them more qualified to meet the unique educational needs of these students.

- For more information about Elementary Education, see the website.
- For more information about Special Education, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- Students following the recommended schedule should be able to complete degree requirements in four years (eight semesters).
- The highest math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).
- For Bachelor of Arts (BA) degree see Undergraduate Academic Credential Requirements for language requirements.

Admission Requirements for this Program
Pre-Special Education Major Admission Requirements

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.
- Grade of C+ or better: for Communications Literacy **(CL1)** General Education Requirements (required for program admission; it can also be met with AP ENGL or an ACT score of 30 or higher)
- Grade of C or better: General Education Requirements (Breadth American Institutions **(BAI)**, Breadth Life Sciences **(BLS)**, Breadth Physical Sciences **(BPS)**, HDFS1500 HUMAN DEV LIFESPAN (BSS) (required for program admission)
- Grade of C- or better in Quantitative Literacy (QL) (required for program admission)

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
92-94	126

Simple Requisites

Program Requirements

Minimum Grade Requirements:

- Grade of B- or better: All other HDFS, SPED, TEAL courses courses (except SPED1010 DISABILITY AND SOCIETY (BSS), SPED2910 EARLY FIELD EXPERIENCE IN SPED, SPED5200 STUDENT TEACHING (CI), and SPED5900 INDEPENDENT STUDY).
- Grade of C or better in MATH2010 ALG/NUMER FOR ELED TEACH (QI) and MATH2020 GEOMETRY/STAT ELED TEACH(QI)
- Grade of C- or better in all other courses required for the bachelor's degree
- Courses used to fulfill major requirements may not be taken pass/fail, except those courses that are only taught on a pass/fail basis.
- 3. 0 GPA required in major coursework

Students are required to earn a grade of "B-" or better in all major courses (SPED, TEAL, ELED prefixes). Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Courses

Earn a minimum grade of B- in the following:

- ELED1010 - Orientation to Elementary Education - 3cr. **OR** TEAL1010 - Introduction to Education - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- TEAL2660 - Educational Psychology for Teachers - 2cr.

Special Education: Mild/Moderate Emphasis/Elementary Education Composite - BA, BS

Type
Completion Requirement

Mathematics Requirements (9-11 credits)

Fulfill ALL of the following requirements:

Quantitative Literacy (QL)

Earn a minimum grade of C- in the following:

- Quantitative Literacy (QL) Course

AND

Courses

Earn a minimum grade of C in the following:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Elementary Education Requirements (34 credits)

Fulfill ALL of the following requirements:

Foundations Block (22 credits)

Earn a minimum grade of B- in the following:

- ELED3000 - Historical, Social, and Cultural Foundations of Education (CI) - 3cr.
- ELED3002 - Foundations Practicum - 1cr.
- ELED3050 - PE and Health in the Elementary Classroom - 2cr.
- ELED3100 - Classroom Reading Instruction - 3cr.
- ELED4049 - Foundations of Reading Review - 1cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- TEAL3080 - Integrating Arts into Academic Learning (DHA) - 3cr.
- TEAL5710 - Instruction for Linguistically and Culturally Diverse Learners - 3cr.
- ELED2620 - Early Childhood Education Kindergarten Through Grade 3 - 3cr.

AND

ELED Content Block (12 credits)

Earn a minimum grade of B- in the following:

- ELED5010 - Teaching Social Studies in Elementary School - 2cr.
- ELED5020 - Teaching Science in Elementary School - 2cr.
- ELED5030 - Teaching Language Arts (CI) - 2cr.
- ELED5040 - Teaching Elementary School Mathematics II: Number, Operations, and Algebraic Reasoning - 2cr.
- ELED5060 - Elementary Content Practicum - 4cr.

Special Education Requirements (34 credits

Fulfill ALL of the following requirements:

Junior Fall (6 credits)

Earn a minimum grade of B- in the following:

- SPED5030 - Assessment in Special Education - 2cr.
- SPED5040 - Foundations of Effective Instructional Practices - 4cr.

AND

Junior Spring (16 credits)

Earn a minimum grade of B- in the following:

- SPED5010 - Applied Behavioral Analysis 1: Principles, Assessment, and Analysis (QI) - 3cr.
- SPED5070 - Policies, Procedures, and Collaboration in Special Education - 3cr.
- SPED5310 - Teaching Reading and Language Arts to Students with Disabilities - 1cr.
- SPED5340 - Teaching Math to Students with Mild/Moderate Disabilities - 3cr.
- SPED5410 - Practicum I (Elementary) for Mild/Moderate Disabilities - 3cr.

NOTE:

1. SPED5310 TEACH READ/LANG ARTS ST W/DIS - Enroll in 4 credits.

AND

Senior Fall (12 credits)

Earn a minimum grade of B- in the following:

- SPED5050 - Applied Behavioral Analysis 2: Applications - 3cr.
- SPED5080 - Transition-Focused Education and Collaboration - 2cr.
- SPED5420 - Practicum II (Secondary) for Mild/Moderate Disabilities - 3cr.
- SPED5530 - Family/Professional Collaboration and Technology for Teaching Exceptional Learners - 3cr.

NOTE:

1. SPED5420 PRACT II: SECONDARY MM DISABIL - Enroll in 4 credits.

Student Teaching (15 credits)

Complete ALL of the following Courses:

- ELED5150 - Student Teaching: Elementary - 3cr.
- SPED5200 - Student Teaching in Special Education (CI) - 3cr.

NOTE:

1. SPED5200 STUDENT TEACHING (CI) - Enroll in 9 credits.
2. ELED5150 - Enroll in 6 credits.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Special Education: Severe Emphasis/ Elementary Education Composite - BA, BS

Program Overview

College
College of Education & Human Services

Department
Special Education & Rehab Counseling, School of Teacher Education & Leadership

Program Level
Undergraduate

About this Degree

This degree is a combination of courses required for the special education major with complex support needs and the elementary education major. Students who complete this composite degree are eligible for two licenses, one for special education (K-age 22) and one for elementary education, (K-8, though students are "highly qualified" to teach grades k-6 based on federal standards for "No Child Left Behind"). Students gain content knowledge through the elementary education program and learn strategies for teaching diverse learners through the the special education program.

This degree allows students to have more flexibility in their careers. Having both licenses allows teachers to move back and forth between special education and elementary education. Most elementary teachers will have students with disabilities in their classrooms, and this composite degree makes them more qualified to meet the unique educational needs to these students.

- For more information about Elementary Education, see the website.
- For more information about Special Education, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- Students following the recommended schedule should be able to complete degree requirements in four years (eight semesters).
- The highest math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).

Admission Requirements for this Program

Pre-Special Education Major Admission Requirements

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.
- Grade of C+ or better: for Communications Literacy **(CL1)** General Education Requirements (required for program admission; it can also be met with AP ENGL or an ACT score of 30 or higher)
- Grade of C or better: General Education Requirements (Breadth American Institutions **(BAI)**, Breadth Life Sciences **(BLS)**, Breadth Physical Sciences **(BPS)**, HDFS1500 HUMAN DEV LIFESPAN (BSS) (required for program admission)
- Grade of C- or better in Quantitative Literacy (QL) (required for program admission)

Program Requirements

Total Credits Required In Program Coursework
101-103

Total Credits Required To Earn This Credential
126

Simple Requisites

Program Requirements

Minimum Grade Requirements:

- Grade of B- or better: All other HDFS, SPED, TEAL courses courses (except SPED1010 DISABILITY AND SOCIETY (BSS), SPED2910 EARLY FIELD EXPERIENCE IN SPED, SPED5200 STUDENT TEACHING (CI), and SPED5900 INDEPENDENT STUDY).
- Grade of C or better in MATH2010 ALG/NUMER FOR ELED TEACH (QI) and MATH2020 GEOMETRY/STAT ELED TEACH(QI)
- Grade of C- or better in all other courses required for the bachelor's degree
- Courses used to fulfill major requirements may not be taken pass/ fail, except those courses that are only taught on a pass/fail basis.
- 3. 0 GPA required in major coursework

Students are required to earn a grade of "B-" or better in all major courses (SPED, TEAL, ELED prefixes). Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Preparation Courses (8 credits)

Type
Completion Requirement

Courses

Earn a minimum grade of B- in the following:

- ELED1010 - Orientation to Elementary Education - 3cr. **OR** TEAL1010 - Introduction to Education - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- TEAL2660 - Educational Psychology for Teachers - 2cr.

Special Education/Elementary Education: Severe Emphasis Composite - BA, BS

Type
Completion Requirement

Mathematics Requirements (9-11 credits)

Fulfill ALL of the following requirements:

Quantitative Literacy (QL)

Earn a minimum grade of C- in the following:

- Quantitative Literacy (QL) Course

AND

Courses

Earn a minimum grade of C in the following:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Elementary Education Requirements (37 credits)

Fulfill ALL of the following requirements:

Foundations Block

Earn a minimum grade of B- in the following:

- ELED2620 - Early Childhood Education Kindergarten Through Grade 3 - 3cr.
- ELED3000 - Historical, Social, and Cultural Foundations of Education (CI) - 3cr.
- ELED3002 - Foundations Practicum - 1cr.
- ELED3050 - PE and Health in the Elementary Classroom - 2cr.
- ELED3100 - Classroom Reading Instruction - 3cr.
- ELED4049 - Foundations of Reading Review - 1cr.
- ELED4061 - Teaching Elementary School Mathematics I: Rational Numbers, Operations, and Proportional Reasoning - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- TEAL3080 - Integrating Arts into Academic Learning (DHA) - 3cr.
- TEAL5710 - Instruction for Linguistically and Culturally Diverse Learners - 3cr.

AND

Elementary Education Content Block

Earn a minimum grade of B- in the following:

- ELED5010 - Teaching Social Studies in Elementary School - 2cr.
- ELED5020 - Teaching Science in Elementary School - 2cr.
- ELED5030 - Teaching Language Arts (CI) - 2cr.
- ELED5040 - Teaching Elementary School Mathematics II: Number, Operations, and Algebraic Reasoning - 2cr.
- ELED5060 - Elementary Content Practicum - 4cr.

Special Education Major (Severe) (32 credits)

Students must be admitted to the SPED program before taking SPED courses.

Fulfill ALL of the following requirements:

Junior Fall (6 credits)

Earn a minimum grade of B- in the following:

- SPED5030 - Assessment in Special Education - 2cr.
- SPED5040 - Foundations of Effective Instructional Practices - 4cr.

AND

Junior Spring (13 credits)

Earn a minimum grade of B- in the following:

- SPED5010 - Applied Behavioral Analysis 1: Principles, Assessment, and Analysis (QI) - 3cr.
- SPED5070 - Policies, Procedures, and Collaboration in Special Education - 3cr.
- SPED5310 - Teaching Reading and Language Arts to Students with Disabilities - 1cr.
- SPED5510 - Curriculum and Assessment for Students with Severe Disabilities I - 2cr.
- SPED5600 - Practicum I Severe - 3cr.

NOTE:

1. SPED5310 TEACH READ/LANG ARTS ST W/DIS - Enroll in 2 credits.
2. SPED5600 PRACTICUM I SEVERE - Enroll in 3 credits.

AND

Senior Fall (13 credits)

Earn a minimum grade of B- in the following:

- SPED5050 - Applied Behavioral Analysis 2: Applications - 3cr.
- SPED5080 - Transition-Focused Education and Collaboration - 2cr.
- SPED5520 - Curriculum and Assessment for Students with Severe Disabilities II - 3cr.
- SPED5530 - Family/Professional Collaboration and Technology for Teaching Exceptional Learners - 3cr.
- SPED5610 - Practicum II Severe - 2cr.

Student Teaching (15 credits)

Earn at least 15 credits from the following:

- ELED5150 - Student Teaching: Elementary - 3cr.
- SPED5200 - Student Teaching in Special Education (CI) - 3cr.

NOTE:

1. ELED5150 STUDENT TEACHING: ELEMENTARY - Enroll in 6 credits.
2. SPED5200 STUDENT TEACHING (CI) - Enroll in 9 credits.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

Sexuality Studies - Minor

Program Overview

College	Department	Program Level
College of Arts & Sciences	School of Social Sciences	Undergraduate

About this Degree

The Sexuality Studies Minor offers students interdisciplinary training in the study of sex, gender and sexuality. Students will gain mastery of the history of human sexuality and the formation of sexual identity and sexual expression.
This interdisciplinary program will prepare students to think critically about sexuality at the intersection of race, ethnicity, social class, gender identity and gender expression. Students completing the minor will have the opportunity to take courses across a range of disciplines including anthropology, religious studies, political science, sociology and history.

Program Requirements

Total Credits Required To Earn This Credential

18

Simple Requisites

Program Requirements

To complete the undergraduate minor, students must complete 18 credits of coursework, including three required core courses and three elective courses. Elective courses are drawn from a range of disciplines and students are encouraged to explore courses that expose them to different perspectives.

The minor is available to all majors. A grade of C or better is required for all courses taken to meet the requirements of the minor. To graduate with a Sexuality Studies Minor, students must have a minimum GPA of 2.5.

For more information regarding Sexuality Studies, please visit https://www.usu.edu/intersections/.

Section 1

Type
Completion Requirement

Required Courses (9 credits)

Complete ALL of the following Courses:

- SOC1030 - Introduction to Gender & Sexuality Studies (BSS) - 3cr.
- SOC3040 - The History of Sexuality - 3cr.
- SOC3910 - Theories of Gender and Sexuality - 3cr.

Section 2

Type
Completion Requirement

Elective Courses (6 credits)

Complete at least 3 of the following courses:

- ANTH3140 - Anthropology of Sex and Gender (DSS) - 3cr.
- ANTH3225 - Sex, Evolution, and Health (DSC) - 3cr.
- ANTH4180 - Ethnography of Virtual Cultures - 3cr.
- ARTH4710 - Feminist Theory and Practice in the Visual Arts (CI) - 3cr.
- CMST3160 - Gender Communication - 3cr.
- ENGL5320 - Gender and Sexuality in Literature (CI) - 3cr.

- FCSE3080 - Fashion Studies and Society (DHA) - 3cr.

Master in Secondary Teaching - MST

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Graduate

About this Degree

The School of Teacher Education and Leadership (TEAL) offers a Master in Secondary Teaching (MST) degree that is designed for persons seeking educator licensing following a previous undergraduate degree. The MST (Plan C) degree is available for students both at the Logan campus and at Statewide Campuses. The basic elements of the MST coursework option include completion of 30 credits in an approved program of study. Additional coursework may be necessary to meet licensure requirements of the Utah State Board of Education (USBE).

This program is specifically designed to provide an avenue for education degree seekers and job changers to become licensed educators. Upon degree completion, USU will be able to recommend licensure.

This program leads to a recommendation for teaching licensure from USU. However, licensure is granted by the Utah State Board of Education.

For additional admission information, including contact information, visit the School of Teacher Education & Leadership MST website.

Admission Requirements for this Program

- A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- At minimum 3.0 GPA will be required for admission over the last 30 credits taken prior to the application.
- Official transcripts (not needed if degree is from USU)
- 3 letters of recommendation
- Acceptance to the Secondary Teacher Education Program (STEP) program.
- Approved FBI/BCI background fingerprint check cleared through the Utah State Board of Education (USBE).

Deadline for applications: March 1st, June 1st, and November 1st

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

School of Graduate Studies General Graduation Guidelines:

Degree Verification: A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA: At least 3.0 and no grades of C- or lower. Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability: The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. The program of study may include up to 12 semester credits of 5000 level courses.

Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Required Master's Forms (Professional/Plan C): Approval of academic forms required for master's students by the School of Graduate Studies:

- Program of Study
- Graduation Application

Department Requirements:

A grade of B- or better is required on all major courses and pedagogical content knowledge courses. Students must maintain an overall GPA of 3.0 or higher.

At the conclusion of the program, each student must complete/submit the following:

- Exit interview
- Exit survey

Licensure Information:

Utah State Board of Education (USBE) licensure requirements included content endorsement courses and pedagogy courses before taking your Methods/ Clinical courses. See USBE endorsement site for more information regarding the licensure requirements. Depending on your bachelor's degree, satisfying licensure requirements may vary and include additional courses. See the Teacher Education and Leadership Advisor with the MST advising area for more information.

The content/pedagogy courses are required for USU to recommend teaching licensure to the USBE, however, they do not fulfill master's requirements.

Secondary Content/Pedagogy Courses:

A grade of B- or better is required in all pedagogical content knowledge courses.

- Defined USBE Secondary Endorsement Courses (Courses and credits vary depending on content area)
- Content Area Methods I
- Content Area Clinical I
- Content Area Methods II (if required by content area)
- Content Area Clinical II (if required by content area)
- SPED4000 EDUCATION STUD W/DISABILITIES
- ITLS2500 TECHNOLOGY ENABLED INSTRUCTION or ITLS5500 INTEGRAT INNOVAT TECH IN EDUC

Master in Secondary Teaching - MST (30 Credits)

Type

Completion Requirement

Required Courses (21 credits)

A grade of B- or better is required in all major courses.

Complete ALL of the following Courses:

- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- TEAL6150 - Foundations of Curriculum - 3cr.
- TEAL6410 - Social Foundations of Education - 3cr.
- TEAL6545 - Research For Teachers - 3cr.
- TEAL6710 - Diversity in Education - 3cr.
- TEAL6770 - Content Based Instruction for Dual Language Immersion/English as a Second Language - 3cr.

Student Teaching (9 credits)

TEAL6210 GRAD STUDENT TEACHING and TEAL6211 GRAD STUDENT TEACHING SEMINAR **must be taken together.**

Complete ALL of the following Courses:

- TEAL6210 - Graduate Student Teaching - 3cr.
- TEAL6211 - Graduate Student Teaching Seminar - 3cr.

NOTE:

1. TEAL6210 GRAD STUDENT TEACHING - Register for 6 credits.

Additional Comments:

Licensure Notification

This program, combined with content and pedagogy courses, may lead to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Program Learning Outcomes

Program Learning Outcomes

Learners & Learning
Effective teachers exhibit knowledge, skills and dispositions that demonstrate an awareness of and sensitivity toward diversity in learner development and student individualities.

Instructional Clarity
Effective teachers exhibit knowledge, skills, and dispositions that demonstrate clarity regarding the content they teach and how to organize and sequence it to effectively facilitate learning and drive student engagement.

Instructional Practice
Effective teachers exhibit knowledge, skills, and dispositions that support instructional practices that drive high-quality instruction, demonstrate a data-driven and cooperative approach to teaching and learning, and meet the diverse needs of all learners.

Classroom Climate
Effective teachers exhibit the knowledge, skills, and dispositions that enable them to create appropriate physical, social, and emotional environments to support learning.

Professional Responsibility
Effective teachers exhibit the knowledge, skills, and dispositions that demonstrate awareness of and adherence to professional and ethical standards personally, within their school community, with parents, and within their local community.

Small Firm Management - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Economics

Program Level
Undergraduate

About this Degree

The Small Firm Management minor at Utah State University focuses on providing students with the knowledge and skills required to effectively manage and operate small businesses.

Students will learn about microeconomics, small firm accounting basics, small firm management, and business law. They will also choose from courses covering topics such as commodity futures and options trading, applied economics for decision-making, and strategic firm management.

Speech and Hearing Sciences (Online) 2nd Bachelor of Science Degree - BS

Program Overview

College
College of Education & Human Services

Department
Speech and Hearing Sciences

Program Level
Undergraduate

About this Degree

The second bachelor's degree in Speech and Hearing Sciences (SHS) is designed for students who already have a bachelor's degree in another field but need the prerequisite coursework to be considered for admission into graduate programs in speech-language pathology, audiology, or deaf education. The entire program is offered online and can be completed in three semesters, or can be finished at a more leisurely pace according to the student's needs.

Speech-language pathologists work with individuals of all ages who have difficulties communicating, learning to communicate, feeding, or swallowing. This may include infants with feeding disorders or children with speech, language, hearing, or literacy development problems. It may also include children and adults who stutter, have voice disorders, or suffer speech, language, and swallowing problems as a consequence of neurological disease or stroke.

Audiologists evaluate and manage individuals who are suspected or have been identified as having differences associated with hearing. Audiologists conduct testing to help identify hearing loss, select and fit hearing aids, program cochlear implants, and provide aural rehabilitation.

Deaf educators at USU are trained to work with children who are deaf or hard of hearing who are developing and using listening and spoken language. Deaf educators trained in other programs also work with children developing sign language.

Nationally there is a critical need for master-level or doctoral-level professionals in the field of communicative disorders. Many individuals already holding bachelor's degrees in another field who would like to pursue these professions are lacking the required undergraduate prerequisites needed in order to be considered for admission into graduate programs. There are also employment opportunities as bachelor-degree speech-language assistants. The Department of Speech and Hearing Sciences at Utah State University has developed an online second bachelor's degree program to help fulfill these needs.

In order to be accepted into this program, students must have a bachelor's degree from an accredited U.S. or Canadian university in another discipline.

A 3.0 overall GPA within the first bachelor's degree is strongly recommended. However, students having a GPA below 3.0 will still be considered for admission.

- For more information about Speech and Hearing Sciences, see the department website. For more information about this program please visit the Speech and Hearing Sciences (Online 2nd BS Degree) website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.

Admission Requirements for this Program

- In order to be accepted into this program, students must have a bachelor's degree from an accredited U.S. or Canadian university in another discipline.
- A 3.0 overall GPA within the first bachelor's degree is strongly recommended. However, students having a GPA below 3.0 will still be considered for admission.

Program Requirements

Simple Requisites

Program Requirements

Minimum University Requirements (2nd Bachelor's Degree)

- Total credits beyond those applied toward the first bachelor's degree: 30
- Grade Point Average: 2.0 GPA
- Credits of upper-division courses (3000 or above): 18
- Candidates for a 2nd bachelor's degree who did not satisfy the General Education, Breadth American Institutions (BAI) requirement in the first bachelor's degree, must satisfy this requirement before receiving the 2nd bachelor's degree.

Additional Information

- Degree-seeking students take a minimum of 13 SHS courses: 12 required courses and at least one 3-credit Options course.
- Degree-seeking students must also meet the Breadth American Institutions (BAI) requirement.
- SHS-required courses should be taken in the sequence listed.
- All required courses are typically taught online every semester.
- Options online course availability varies by semester.
- Students may take more Options courses based on their educational interests and career plans.
- Students cannot take prerequisites concurrently with courses that require them.
- All required and Options SHS courses must be taken for a letter grade (not Pass/D+, D, F).
- A minimum grade of C is required for all SHS courses and prerequisites.
- SHS students are allowed a total of three SHS course repeats.
- SHS students must have an overall GPA of 3.0 in order to register for the next semester. See SHS policies for failure to meet GPA requirements.
- Students may waive up to six credits of approved undergraduate SHS courses, equivalent to USU SHS courses.

Major Requirements

The USU second bachelor's degree program consists of 13 online SHS courses. The entire program may be completed during three semesters but can be completed over a longer period if desired. All courses in the second bachelor's program are taken online. Students must maintain at least a 3.0 GPA in order to continue in the program. Students who fall below the 3.0 GPA at the end of any semester will be placed on probation and allowed to take only three repeats or additional SHS courses to get their GPA back to 3.0 or higher. SHS students are allowed a TOTAL of three SHS course repeats.

A minimum grade of C is required in all SHS courses required to graduate in the SHS major. C grades should be rare so a minimum GPA of 3.0 can be maintained over this short program of study.

With permission, students may have up to 2 approved, equivalent SHS courses waived. These courses must have been completed as part of a CAA-ASHA accredited program. In order to use these courses to replace equivalent courses within USU's program, students should contact their advisor.

Speech and Hearing Sciences (Online) - 2nd BS

Type

Completion Requirement

Required SHS Core Courses (34 credits)

Complete ALL of the following Courses:

- SHS2400 - Orientation and Observation - 1cr.
- SHS2600 - Introduction to Communication Disorders - 3cr.
- SHS3200 - Child Language Development - 3cr.
- SHS3500 - Phonetics and Phonological Development - 3cr.
- SHS3600 - Language Science (CI) - 3cr.
- SHS3800 - Anatomy and Physiology of Speech and Hearing - 3cr.
- SHS4200 - Clinical Methods (CI) - 3cr.
- SHS4450 - Developmental Communication Disorders - 3cr.
- SHS4500 - Acquired Communication Disorders - 3cr.
- SHS4700 - Basic Audiology - 3cr.
- SHS5070 - Acoustics of Speech and Hearing - 3cr.
- SHS5330 - Aural Rehabilitation - 3cr.

Additional SHS Options Course Requirements (3-4 credits)

Choose one SHS Options course. Not all Options courses are offered each semester, please see your advisor for information. Students are encouraged to take more than two Options courses and other available courses depending upon interests and career paths. See course catalog or advisor for other educational opportunities not listed here, such as more ASL courses, Senior Clinic, SLPA Clinical Experience, Honors, and Community Engaged Scholars.

Complete at least 1 of the following courses:

- ASL1020 - American Sign Language II - 4cr.
- ASL1010 - American Sign Language I - 4cr.
- SHS5120 - Management of Speech Sound Disorders - 3cr.
- SHS5240 - Neural Bases of Cognition and Communication - 3cr.

American Institutions Course

Complete the following as needed:
Candidates for a second bachelor's degree who did not satisfy an American Institutions requirement in the first bachelor's degree must satisfy any deficiency in this requirement before receiving the second bachelor's degree. This course is typically part of the general education courses completed in a bachelor's degree.

Additional Related Courses (not included in this program)

The following non-SHS courses are strongly recommended and may be required for certain graduate schools. For graduate school in speech-language pathology and certification as a speech-language pathologist, ASHA requires one course in each of the following four areas: statistics, biological science, physical science (physics or chemistry), and social/behavioral sciences. If students have not completed courses of this type as a part of another university degree, they should discuss this in more detail with their advisor. Some of these non-SHS courses may not be available online at USU or taught every semester.

Complete ANY of the following Courses:

- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT2000 - Statistical Methods (QI) - 4cr.
- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
  OR NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.
- CHEM1010 - Introduction to Chemistry (BPS) - 3cr.
- PSY1010 - General Psychology (BSS) - 3cr.
  OR SOC1010 - Introductory Sociology (BSS) - 3cr.
  OR ANTH1010 - Cultural Anthropology (BSS) - 3cr.
- BIOL2320 - Human Anatomy - 4cr.
  OR BIOL2420 - Human Physiology - 4cr.
  OR SHS1500 - Basics of Human Anatomy and Physiology for Applied Sciences - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
  OR PSY1100 - Lifespan Development - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

Speech and Hearing Sciences - BA, BS

Program Overview

College
College of Education & Human Services

Department
Speech and Hearing Sciences

Program Level
Undergraduate

About this Degree

A bachelor's degree in speech and hearing sciences is a pre-professional degree that prepares students for graduate school in speech-language pathology, audiology, or deaf education. With a bachelor's degree in SHS, students may also become speech-language pathology assistants.

Speech-language pathologists work with individuals of all ages who have difficulty communicating, learning to communicate, feeding, or swallowing. This may include infants with feeding disorders or children with speech, language, hearing, or literacy development problems. It may also include children and adults who stutter, have voice disorders, or suffer from speech, language, and swallowing problems as a consequence of neurological disease or stroke.

Audiologists evaluate and manage individuals who are suspected or have been identified as having differences associated with hearing. Audiologists conduct testing to help identify hearing loss, select and fit hearing aids, program cochlear implants, and provide aural rehabilitation.

Deaf Educators at USU are trained to work with children who are deaf or hard of hearing who are developing and using listening and spoken language. Deaf educators trained in other programs also work with children developing sign language.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages.

- For more information about the department and major, see the website.
- Admitted and current students must meet with an advisor.
- Online and Main Campus course sequences may vary. Please see your advisor for an individual plan.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL).

Admission Requirements for this Program

- Freshmen admitted to USU in good standing qualify for admission as **pre**-SHS majors.
- Transfer students and USU students transferring from other USU majors qualify for the pre-SHSmajor. To move to the SHS major, students must meet the department's admissions requirements.

Program Requirements

Total Credits Required In Program Coursework
45

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

To advance from pre-SHS to the SHS major, students should meet with their advisor after the following requirements have been met:

- GPA of 3.0 across all courses required for the SHS Major that a student can take in pre-SHS status
- Earned at least 60 semester credits
- Complete at least 5 courses required for the SHS Major that the student can take in pre-SHS status: Required Gen Ed, Additional Core, SHS2600 INTRO TO COMD INTRO TO SHS, SHS3500 PHONETICS AND PHONOLOGICAL DEV PHONETICS AND PHONOLOGICAL DEV, and optionally ASL1010 AMERICAN SIGN LANGUAGE I AMERICAN SIGN LANGUAGE I (CI).

(Transfer students who have completed equivalent courses to those above that have been articulated by USU will be evaluated on those courses.)

For the SHS Major, students take 12 SHS courses and two SHS Options courses plus Gen Ed and Additional Core (see lists below for the courses in each category.)

In order to graduate with a degree in SHS, students admitted to the major must maintain a 3.0 major GPA and a grade of C or better in all SHS courses required for the student's SHS major.

To improve learning and major GPA, students are allowed to repeat up to a total of three SHS courses. They can also repeat SHS Major Required Gen Ed and Additional Core courses (See university policy on repeats; total allowed includes SHS repeats).

Students may waive up to six credits of USU SHS upper division course requirements equivalent to transfer courses approved as lower division SHS Electives. This limit excludes ASL courses. This policy does not affect courses approved as specific USU SHS course transfers. See the Department Policies webpage for policy information.

Acceptance into graduate programs is on a competitive basis. Students are selected on GPA in combination with other indicators of achievement. Students planning on graduate school in speech-language pathology, audiology, or deaf education should carefully and honestly evaluate their potential for excelling in their coursework and maintaining a high GPA.

Speech and Hearing Sciences - BA, BS

Type
Completion Requirement

Core Requirements (15-18 credits)

Some courses may fulfill general education requirements.

Complete ALL of the following Courses:

- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
  OR NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.
- BIOL2320 - Human Anatomy - 4cr.
  OR BIOL2420 - Human Physiology - 4cr.
  OR SHS1500 - Basics of Human Anatomy and Physiology for Applied Sciences - 3cr.
- CHEM1010 - Introduction to Chemistry (BPS) - 3cr.
  OR PHYS1010 - Elementary Physics (BPS) - 3cr.
  OR PHYS1200 - Introduction to Physics by Hands-on Exploration (BPS) - 4cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
  OR PSY1100 - Lifespan Development - 3cr.
- PSY1010 - General Psychology (BSS) - 3cr.
  OR SOC1010 - Introductory Sociology (BSS) - 3cr.
  OR ANTH1010 - Cultural Anthropology (BSS) - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.
  OR STAT2000 - Statistical Methods (QI) - 4cr.

Required SHS Core Courses (34 credits)

Complete ALL of the following Courses:

- SHS2400 - Orientation and Observation - 1cr.
- SHS2600 - Introduction to Communication Disorders - 3cr.
- SHS3200 - Child Language Development - 3cr.
- SHS3500 - Phonetics and Phonological Development - 3cr.
- SHS3600 - Language Science (CI) - 3cr.
- SHS3800 - Anatomy and Physiology of Speech and Hearing - 3cr.
- SHS4200 - Clinical Methods (CI) - 3cr.
- SHS4450 - Developmental Communication Disorders - 3cr.
- SHS4500 - Acquired Communication Disorders - 3cr.
- SHS4700 - Basic Audiology - 3cr.
- SHS5070 - Acoustics of Speech and Hearing - 3cr.
- SHS5330 - Aural Rehabilitation - 3cr.

Additional SHS Options Course Requirements (6-7 credits)

Choose two SHS Options courses. Not all courses are offered each semester. See advisor for available Option courses. Students are encouraged to take more than two Option courses depending upon interests and career paths. See course catalog or advisor for other educational opportunities not listed here, such as additional ASL courses, Senior Clinic, SLPA Clinical Experience, Honors, and Community Engaged Scholars.

Complete at least 2 of the following courses:

- ASL1010 - American Sign Language I - 4cr.
- ASL1020 - American Sign Language II - 4cr.
- SHS5120 - Management of Speech Sound Disorders - 3cr.
- SHS5240 - Neural Bases of Cognition and Communication - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

School Library Media Administration - Post-Bachelor's Certificate

Program Overview

College
College of Education & Human Services

Department
Instructional Technology & Learning Sciences

Program Level
Graduate

About this Degree

The certificate will prepare students to work in Library Media Centers by developing knowledge and skills in foundations of school libraries, school library media-oriented instruction and assessments, library programming, information and media literacy, school library organization and access, the leadership role of a school librarian, and educational technology integration.

School Library Media Administration - Certificate

Program Overview

College
College of Education & Human Services

Department
Instructional Technology & Learning Sciences

Program Level
Undergraduate

About this Degree

The Department of Instructional Technology and Learning Sciences (ITLS) offers a Certificate in School Library and Media Administration (SLMA) to prepare students to work in school library media centers. The certificate program requires 18 credits (6 courses) to develop knowledge and skills in foundations of school libraries, school library media-oriented instruction and assessments, library programming, information and media literacy, school library organization and access, the leadership role of a school librarian, and educational technology integration.

School Library Media Administration - Minor

Program Overview

College
College of Education & Human Services

Department
Instructional Technology & Learning Sciences

Program Level
Undergraduate

About this Degree

The program is designed for students to begin with 2 courses fall semester, continue with 2 courses spring semester, and complete all requirements by the end of summer semester. Or students may take 2 years to complete the program by taking 1 course per semester. A practicum experience, which involves in-school observations throughout the school year is a major component in the program. The program consists of six courses for a total of eighteen credits. A minimum of fifteen of the eighteen required credits must be taken through the Department of Instructional Technology & Learning Sciences at Utah State University for a departmental recommendation to the Utah State Board of Education for endorsement. But students may apply, and be granted, the library media endorsement without a departmental recommendation. The SLMA courses are web broadcast on Tuesday nights each semester, with additional materials and assignment online through Canvas.

Admission Requirements for this Program

If you are currently not a student at Utah State University, you must apply and be accepted before you begin the coursework. Use the online transfer student application form (available at usu.edu/admissions/) or work with your local Utah State University Statewide Campus. Find your local USU Statewide Campus here. Directions for completing the online transfer student application form are available on the Instructional Technology & Learning Sciences website (itls.usu.edu/).

Program Requirements

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

18 credits

The purpose of the School Library Media Administration (SLMA) program is to provide both pre and in-service teachers with the courses necessary to meet the requirements for library media K-12 endorsement as a school library media specialist/teacher in the state of Utah. It is assumed that the individual seeking teacher endorsement in library media holds, or is working toward, licensure as a classroom teacher. Students enrolled in the teacher education program at either the elementary or secondary education level at Utah State University may elect the program as an undergraduate minor.

Other majors may choose this as a minor.

Completion of the coursework does not automatically guarantee a recommendation by the Instructional Technology & Learning Sciences Department to the Utah State Office of Education. A recommendation for the library media K-12 endorsement will be made when the student has:

1. Approval of the practicum advisor
2. Completed the program courses with a 3.0 GPA or higher
3. Demonstrated competency in all coursework
4. Demonstrated interpersonal skills to work effectively with students and teachers

Speech-Language Pathology - MA, MS

Program Overview

College
College of Education & Human Services

Department
Speech and Hearing Sciences

Program Level
Graduate

About this Degree
Utah State University's speech-language pathology program results in a Master's of Arts (MA) or Master's of Science (MS) in Speech-Language Pathology. This post-baccalaureate degree is part of the Western Regional Graduate Exchange program (WRGP). The program in speech-language pathology is accredited by the Council on Academic Accreditation (CAA) of the American Speech-Language-Hearing Association (ASHA). Our program adheres to the Utah Speech-Language Pathology Professional and Educational Standards and prepares students for entry into the profession of speech-language pathology.

Students graduate prepared for employment in educational and healthcare settings and eligible for national certification and Utah state licensure. For licensure in states other than Utah, see https://www.usu.edu/online/state-authorization/.

Program Requirements

Total Credits Required In Program Coursework
57

Total Credits Required To Earn This Credential
57

Simple Requisites

Program Requirements

The two-year program consists of a minimum of 57 credit hours (32 credits of academic coursework and 25 credits of clinical coursework). Students complete a Plan B thesis project (MS) or Plan C comprehensive exam (MA). Students must take the ASHA national exam (Educational Testing Service-Praxis test) and notify the department of Praxis results to graduate.

The two-year program occurs across six semesters of full-time study. It begins with an intensive on-campus summer semester that starts in early June. A small number of students may enroll in the Listening and Spoken Language (LSL) Certificate for working with children who are deaf or hard of hearing. An Outreach track allows a small number of students to complete the program while working as Speech-Language Technicians in Utah school districts. Admission to all program options is on a competitive basis.

For further information on Campus, Outreach, and LSL options, course sequence, admission requirements, and other program features, see SLP graduate program and SHS Policies.

To be accepted into the master's degree program, students must have a bachelor's degree in Speech and Hearing Sciences or equivalent.

Students must have a GPA of 3.0 or better, with no more than one course grade below B- and have met program competencies to graduate with this degree.

School of Graduate Studies and Program Requirements:

Degree Verification. A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA and minimum grades. Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree. In the Speech-Language Pathology program, no more than one course grade below B- is allowed. Students must also meet all program competencies and submit a national certification exam score to graduate with this degree.

Course Number Acceptability. The Program of Study for a master's degree or a doctoral degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 6000.

Matriculation Start Semester. A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review

Required SGS forms for Plan B:

- Supervisory Committee Approval Form
- Program of Study
- Appointment for Examination
- Record of Examination
- Thesis Project Approval Form
- Library Approvals

Speech Language Pathology Core Courses

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

Speech-Language Pathology Assistant - Certificate

Program Overview

College
College of Education & Human Services

Department
Speech and Hearing Sciences

Program Level
Undergraduate

About this Degree

The Speech-Language Pathology Assistant (SLPA) certificate can be earned with the USU 1st or 2nd Speech and Hearing Sciences - BA/BS. It may also be earned accompanying or following a bachelor's degree in other disciplines without completing a Speech and Hearing Sciences major.

Program Requirements

Total Credits Required In Program Coursework
25

Total Credits Required To Earn This Credential
25

Simple Requisites

Program Requirements

The Speech-Language Pathology Assistant (SLPA)certificate requires a total of 9 courses. To earn the certificate, students must meet the SHS minimum course grade requirement of C, pass the clinical experience course and have a GPA of at least 3.0 in the required courses.

SHS courses may be repeated to improve grades up to a total of three times for a particular course or across courses. Students may waive up to six credits of undergraduate Utah State University SLPA courses (excluding SHS5960 CLINCAL EXP: SPEECH/LANG/PATH CLINICAL EXP: SPEECH/LANG/PATH) equivalent to approved undergraduate courses from another institution.

Students are responsible for finding their own SLPA employment or internship that meets the clinical experience requirements of SHS5960 CLINCAL EXP: SPEECH/LANG/PATH. Instructor approval for use of that setting is required before enrollment in 5960.

Students who have completed a USU Speech and Hearing Sciences bachelor degree, but have not yet completed all the SLPA certificate requirements may do so in post-bachelor status. For further information on the SLPA certificate and eligibility for national certification and state licensure, see the department SLPA webpage.

Soil Science - MS

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Graduate

About this Degree

Soil is the basis of sustainable land systems, a storehouse of organic carbon, nutrients and water, and the critical link between land and atmosphere. The soil science program is particularly strong in water-related issues and soils in sustainable agroecosystems.

Research areas are offered in soil and water chemistry; soil biochemistry and ecology; soil conservation systems; soil fertility and plant nutrition; soil physics; soil-plant-water relations; soil taxonomy and genesis; molecular biology, and soils and irrigation.

The Climate Adaptation Science Specialization is also offered as an interdepartmental program.

Graduate Program Director: Dr. Jeanette Norton

E-mail: jeanette.norton@usu.edu

Admission Requirements for this Program

Prior to applying, the potential applicant must have a qualified PSC faculty member agree to accept them into their laboratory and be their major (supervisory) professor. Contact Dr. Jeanette Norton with questions.

General Requirements

All prospective graduate students must apply through the School of Graduate Studies. Refer to the School of Graduate Studies website for admission requirements. Please note that all applicants must meet the following general admission requirements:

- A bachelor's degree from an accredited college
- A 3.0 GPA as calculated by the School of Graduate Studies. An official transcript must be sent directly to the School of Graduate Studies from each college or university previously attended (except USU).
- Student recommendation request forms (included in application materials) should be used to request three people to submit letters of recommendation directly to the graduate school. Two letters of recommendation should be from faculty from whom you have taken course work.
- International Students: Please visit the School of Graduate Studies website for requirements.

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability
The Program of Study for a master's degree must include at least 15 semester credits at the level of 6000 or above.

Credits in the following areas are not acceptable in a degree program: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Matriculation Start Semester
A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity
Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Thesis Research Credits 6970

Master's Plan A students:
The Plan A option requires the preparation and defense of a thesis. Students are required to complete 6-15 semester credits of thesis research PSC6970 RESEARCH AND THESIS that will be applied toward a Program of Study.

Master's Plan B students:
A Plan B option requires the production and defense of a paper or project. Students are required to complete a minimum of 2 credits of thesis research PSC6970 RESEARCH AND THESIS with a maximum of 3 thesis research credits applied toward a Program of Study.

Professional/Plan C students cannot use any thesis/dissertation credits.

Master's Forms

Master's forms: Approval of the following academic forms is required for master's students by the School of Graduate Studies (SGS):

- Supervisory Committee
- Program of Study
- Thesis/Project Approval
- Appointment for Examination
- Record of Examination
- SGS and library review and approval (Plan A)
- Library review and approval (Plan B)

Degree Requirements

Minimum Total Credits

The minimum requirement for a master's degree is 30 semester credits.

Course requirements leading to MS degrees are developed jointly by the student and the student's supervisory committee. Each student must have a Program of Study approved by their supervisory committee.

The following are required:

- 15 credits minimum of committee-approved 6000-7000 level courses
    - including 2 credits of Plants, Soils and Climate Graduate seminar (PSC6890 PSC GRADUATE SEMINAR)

(5000 level courses are considered upper-division and up to 12 credits may be used in a graduate program if approved by the supervisory committee)

- 2-15 credits of Thesis Research credits (PSC6970 RESEARCH AND THESIS) depending on plan type.
    - Plan A - minimum of 6 credits, maximum of 15 credits
    - Plan B - minimum of 2 credits, maximum of 3 credits

Course selections reflect areas of research. Designation of a specialization is optional and specializations will appear on transcript. There are additional specific departmental requirements regarding physical sciences, biological sciences, and mathematics courses, which differ depending on the program and area of research.

All MS students write a Plan A thesis or create a Plan B project under the guidance of their advisor and supervisory committee. The master's thesis must be successfully defended before the supervisory committee and submitted to the library.

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Minimum Total Credits

Doctoral degrees generally require 30 academic credits beyond a master's degree or 60 academic credits beyond a bachelor's degree. The credit amounts are determined by the approved Program of Study.

Course requirements leading to Ph.D. degrees are developed jointly by the student and the student's supervisory committee. Each student must have a Program of Study approved by their supervisory committee.

The following are required:

- Ph.D. (post-master's):
  - 15 credits minimum of committee-approved 6000-7000 level courses
    - including 2 credits of Plants, Soils and Climate Graduate seminar (PSC7890 PSC GRADUATE SEMINAR)
- Ph.D. (post-baccalaureate):
  - 30 credits minimum of committee-approved 6000-7000 level courses
    - including 2 credits of Plants, Soils and Climate Graduate seminar (PSC7890 PSC GRADUATE SEMINAR)

(5000 level courses are considered upper-division and up to 12 credits may be used in a graduate program if approved by the supervisory committee)

- Thesis Research credits (PSC7970 RESEARCH AND THESIS):
  - If student has master's degree - minimum of 12 credits
  - If student has a bachelor's degree - minimum of 18 credits

Course selections reflect areas of research. Designation of a specialization is optional and specializations will appear on transcript. There are additional specific departmental requirements regarding physical sciences, biological sciences, and mathematics courses, which differ depending on the program and area of research.

All Ph.D. students write a dissertation under the guidance of their advisor and supervisory committee. The doctoral dissertation must be successfully defended before the supervisory committee and submitted to the library.

Qualifying Exams

- Each Ph.D. student must undergo some sort of qualifying experience. Depending on the student's particular research and their faculty committee, the exam can either be a traditional oral and written exam, a scholarly proposal, or another option best suited to the student's individual situation.

Required of all programs and degree types:

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability
The Program of Study for a doctoral degree, if the student has a master's degree, must include at least 15 semester credits at the level of 6000 or above. If the student does not have a master's degree, the Program of Study must include at least 30 credits at the level of 6000 or above.

Credits in the following areas are not acceptable in a degree program: foreign languages, continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

Matriculation Start Semester
A doctorate must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity
Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is re-validated.

Thesis Research Credits 7970
A minimum of 12 dissertation credits (7970) is required if the student has a master's degree, and a minimum of 18 is required if the student has a bachelor's degree.

Doctoral Forms

Doctoral forms: Approval of the following academic forms required for doctoral students by the School of Graduate Studies (SGS):

- Supervisory Committee
- Program of Study
- Application for Candidacy (includes proposal)
- Appointment for Examination
- Record of Examination
- Authorship and Copyright
- Style and Format
- SGS and library review and approval

Second Language Teaching - MS

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Graduate

About this Degree
The Master of Science in Second Language Teaching (MS-SLT) is an interdisciplinary master's degree program emphasizing teaching practice, teaching methods, and related topics. The MS-SLT program attracts graduate students who seek training in second language education, bilingual education, dual language immersion, and English as a foreign/second language. Many are current or future K-12 teachers.

Admitted applicants will be able to choose between two available tracks. Through the Online Master of Science in Second Language Teaching Track, all coursework is provided online and asynchronously, providing flexibility for students from any location and with any work schedule. This track prepares students for careers in second language instruction in higher education, readies students to pursue doctoral studies, and provides professional development for current K-12 instructors. Students will take courses on the methodology, theories, and research of second language teaching. Students in this track will choose to complete either an original research project (Plan A) or a teaching portfolio (Plan B).

Through the Teaching Licensure Track with a Master of Science in Second Language Teaching, students have the ability to earn both a Master of Science degree and take the necessary coursework for secondary teaching licensure (grades 6-12 with a World Languages endorsement). This track also provides students the opportunity to observe and teach classes in a K-12 school setting under the supervision of a mentor. All students in this track will complete a teaching portfolio (Plan B).

For up-to-date information, including application requirements, refer to the SLT-MS web page. To apply, visit the graduate school admission page.

Admission Requirements for this Program
Refer to the SLT-MS web page and graduate school admission page.

Program Requirements

Online Master of Science in Second Language Teaching Track

Students in the Online Track will choose between Plan A and Plan B options.

Plan A: Students who choose the Plan A option will take 18 credits of core MS-SLT classes, 6 credits of electives, and 6 credits of thesis research. They will finish their work in the program through an original research project under the guidance of a faculty mentor. These students will register for 6 credits of LING6970 THESIS RESEARCH. A Plan A student on the online track will complete 30 credits of coursework to earn the degree.

Plan B: Students who choose the Plan B option will take 18 credits of core MS-SLT classes, 9 credits of electives, and 3 credits of thesis research They will finish their work in the program with the creation of a teaching portfolio under the guidance of a faculty mentor. These students will register for 3 credits of LING6970 THESIS RESEARCH. A Plan B student on the online track will complete 30 credits of coursework to earn the degree.

Teaching Licensure Track

Students who complete the Teaching Licensure Track with a Master of Science in Second Language Teaching, earn a Master of Science degree and take the necessary coursework for secondary teaching licensure (grades 6-12 with a World Languages endorsement). The Teaching Licensure Track is comprised of 15 credits of core MS-SLT classes which focus on the foundational aspects of foreign/second language education. This track also includes general education courses through the College of Education and Human Services, which focus on general education issues (motivation, classroom management, curricular development, assessment, etc.) as well as key topics in secondary school teaching.

Students in this track also observe and teach classes in a K-12 school setting under the supervision of a mentor. Note that this track has two prerequisites: 1) admission to the Secondary Teacher Education Program (STEP), which includes passing the Utah State Board of Education background check; and 2) passing an Oral Proficiency Interview at the advanced low level (or better), which is administered by the American Council on the Teaching of Foreign Languages.

Some requirements for this track require the student to take classes in person on USU's Logan campus.

The Teaching Licensure Track is Plan B only. All students in the Teaching Licensure Track will finish their work in the program with the creation of a teaching portfolio under the guidance of a faculty mentor. These students will register for 3 credits of LING6970 THESIS RESEARCH: Thesis Research. This track requires 36 credits of coursework to earn the master's degree. Teaching licensure (6-12 with a World Languages Endorsement) will require an additional 3-credit Special Education course. Both the master's and the licensure together require a total of 39 credits of coursework.

Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA at least 3.0 and no grades of C- or lower; Graduate stude nts are required to maintain at least a 3.0 GPA for degree-program courses. Gra des of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability: The Program of Study for a master's degree must include at least 15 semester credits at the level of 6000 or above. The maximum number of 5000-level credits that may count toward this degree is 12.

Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost for Graduate Studies for review.

Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost for Graduate Studies.

Thesis Research Credits

Master's Plan A students:
The Plan A option requires the preparation and defense of a thesis. Students are required to complete a minimum of 6 credits of thesis research (LING6970 THESIS RESEARCH THESIS RESEARCH) for a Program of Study.

Plan A Required Forms:

- Supervisory Committee Form
- Program of Study
- Thesis Proposal Approval
- Appointment for Exam
- Authorship & Copyright
- Format and Style
- Title Page
- Graduate Application
- Record of Exam

Master's Plan B students:
A Plan B option requires the production and defense of a paper or project. Students are required to complete a minimum of 3 credits of thesis research (LING6970 THESIS RESEARCH THESIS RESEARCH) with a maximum of 3 thesis research credits applied toward a Program of Study

Plan B Required Forms:

- Supervisory Committee Form
- Program of Study
- Thesis/Project Approval
- Appointment for Exam
- Plan B Report/Creative Project Submission
- Graduate Application
- Record of Exam

Online Track (30 credits)

Type
Completion Requirement

Online Track Requirements

The Online Master of Science in Second Language Teaching degree (SLT-MS) has a 30-credit requirement. All coursework is delivered online, asynchronously.

Students must complete either a thesis (Plan A), or teaching portfolio (Plan B).

● Full-time student degree completion expectation is 2 years.
● In-person courses are not currently offered for this track.

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- LING6010 - Research in Second Language Learning - 3cr.
- LING6400 - Second Language Teaching: Theory and Practice - 3cr.
- LING6500 - Second Language Acquisition: Theory and Practice - 3cr.
- LING6520 - Technology for Language Teaching - 3cr.
- LING6820 - Second Language Pragmatics - 3cr.
- LING6900 - Culture Teaching and Learning: Theory and Practice - 3cr.
- LING6970 - Thesis Research - 3cr.

NOTE:

1. LING6970 THESIS RESEARCH

   PLAN A (Thesis) - Enroll in 6 credits
   PLAN B (Teaching Portfolio) - Enroll in 3 credits

AND

Elective Courses (6-9 credits)

Students will choose 6-9 credits.

Earn at least 6 credits from the following:

- LING6800 - Topics in Second Language Acquisition - 3cr.

- LING6810 - Current Issues in Teaching World Languages - 3cr.
- LING6830 - Sociolinguistics, Sociolinguistic Competence, and Second Language Acquisition - 3cr.
- LING6940 - Independent Study - 1cr.

● Approved TEAL 6XXX-level Course (3 credits)
● Approved ITLS 6XXX-level Course (3 credits)

NOTE:

1. PLAN A (Thesis)- Enroll in 6 elective credits.
2. PLAN B (Teaching Portfolio)- Enroll in 9 elective credits.

Teaching Licensure Track (36 credits)

Type
Completion Requirement

Required Courses (36 credits)

Master of Science in Second Language Teaching (SLT-MS) track with teaching licensure path/program must complete 36 credits.

The Teaching Licensure Track offers Plan B option only.

● The Teaching Licensure Track requires both in-person and online asynchronous coursework.
● Full-time student degree completion expectation is 2 years.

Complete ALL of the following Courses:

- LING5400 - Teaching Modern Languages - 3cr.
- LING6010 - Research in Second Language Learning - 3cr.
- LING6400 - Second Language Teaching: Theory and Practice - 3cr.
- LING6500 - Second Language Acquisition: Theory and Practice - 3cr.
- LING6520 - Technology for Language Teaching - 3cr.
- LING6900 - Culture Teaching and Learning: Theory and Practice - 3cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
  AND SCED5500 - Student Teaching Seminar - 2cr.
- SCED6305 - Graduate Clinical Experience - 1cr.
- TEAL6210 - Graduate Student Teaching - 3cr.
- LING6970 - Thesis Research - 3cr.

NOTES:

1. TEAL6210 GRAD STUDENT TEACHING - Enroll in 6 credits.

Requirement for grades 6-12 teaching licensure in the state of Utah.

Teaching Licensure: SPED4000 EDUCATION STUD W/DISABILITIES(3 credits) is not required to earn the Master's degree for students on the Teaching Licensure Track. However, it is required to apply for grades 6-12 teaching licensure in the state of Utah. This increases the total number of credits for students choosing to earn both the Master's and licensure to 39 credits.

Complete ALL of the following Courses:

- SPED4000 - Education of Students with Disabilities - 3cr.

Social Analytics - Post-Bachelor's Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Graduate

About this Degree

The certificate includes two core required classes. These classes cover fundamental research methods and statistical techniques used across a range of social sciences. A minimum of 6 hours of elective coursework will span a range of topic areas, such as: geographic information science; demographic analysis; ethnographic methods; survey research methods; and structural equation modeling.

Socio-Behavioral Research Methods Courses (3 credits)

Complete at least 1 of the following courses:

- ANTH6360 - Research Design and Quantitative Methods in Archaeology - 3cr.
- POLS6010 - Research Design - 3cr.
- SOC6100 - Advanced Methods of Social Research - 3cr.
- SW6200 - Social Work Research Methods - 3cr.

Socio-Behavioral Statistics (3 credits)

Complete ALL of the following Courses:

- SOC6150 - Social Statistics II - 3cr.

Elective Courses (6 credits)

Complete at least 2 of the following courses:

- ANTH6170 - Ethnographic Methods in Anthropology - 3cr.
- ANTH6370 - GIS in Archaeology - 3cr.
- POLS5000 - Political Analysis (QI) - 3cr.
- PSY7650 - Multilevel and Marginal Models for the Social Sciences - 3cr.
- PSY7760 - Structural Equation Modeling - 3cr.
- SOC6230 - Techniques of Demographic Analysis - 3cr.
- SOC6280 - Event History and Survival Analysis - 3cr.
- SOC7100 - Advanced Survey Techniques - 3cr.
- SOC7110 - Advanced Quantitative Analysis - 3cr.
- SOC7150 - Advanced Qualitative Methods in Sociology - 3cr.

Program Learning Outcomes

Program Learning Outcomes

As Utah's land-grant institution, Utah State University is charged with the task of providing a holistic and well-rounded education that also addresses critical employer needs and economic opportunities in the state. Graduate students who complete the Certificate in Social Analytics will be well positioned to address those needs and capitalize on excellent job opportunities involving the collection, management, and analysis of social data. In addition, they will have the education necessary to detect inappropriate uses of social analytics and adjudicate between competing arguments in the marketplace of ideas.

Type
Completion Requirement

Socio-Behavioral Research Methods

Complete at least 1 of the following courses:

- ANTH2030 - Principles of Archaeology (BSS) - 3cr.
- CMST4810 - Quantitative Communication Studies Research Methods (QI) - 3cr.
- HDFS3130 - Research Methods (QI) - 3cr.
- JCOM2020 - Communication Research Methods (QI) - 3cr.
- POLS3000 - Introduction to Political Research (QI) - 3cr.
- PSY3500 - Research Methods in Psychology (DSS/CI) - 3cr.
- SOC3110 - Methods of Social Research (CI) - 3cr.
- SW4100 - Social Work Research (CI) - 3cr.

Socio-Behavioral Statistics

Take one of the following courses in socio-behavioral statistics.

Complete at least 1 of the following courses:

- PSY3010 - Psychological Statistics (QI) - 3cr.
- SOC3120 - Social Statistics I (QI) - 3cr.

Electives (6 credits)

Choose 6 credits from any of the areas below to count towards this certificate.

Fulfill ANY of the following requirements:

Geographic Information System (GIS)

May count one of these courses towards the certificate.

Complete ANY of the following Courses:

- ANTH3340 - Geographic Information Science for Anthropology (QI) - 3cr.
- GEO2800 - Minerals and Rocks - 4cr.
- WILD2800 - Introduction to Geographic Information Sciences - 4cr.

OR

Advanced Spatial Analysis

May count one of these courses towards the certificate.

Complete ANY of the following Courses:

- GEOG5300 - Geospatial Analysis with R - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.

OR

Qualitative Methods

May count one of these courses towards the certificate. A maximum of 3 credits are allowed from course options in this area.

Complete ANY of the following Courses:

- ANTH5115 - Applied Anthropology/Ethnographic Research Lab - 1cr.
- ANTH5130 - Ethnographic Field School - 3cr.
- ANTH5170 - Ethnographic Methods in Anthropology - 3cr.

NOTE:

1. ANTH5130 ETHNOGRAPHIC FIELD SCHOOL - A maximum of 3 credits is allowed for this certificate.

OR

Open Source Statistical Software

May count one of these courses towards the certificate.

Complete ANY of the following Courses:

- STAT5050 - Introduction to R - 1cr.
- WATS5650 - Analysis of Fisheries Data with R - 2cr.

OR

Miscellaneous Courses

May count one of these courses towards the certificate.

Complete ANY of the following Courses:

- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- DATA3330 - Database Management - 3cr. (Inactive)
- DATA3400 - Data Visualization with Tableau (CI) - 3cr. (Inactive)
- DATA3500 - Introduction to Python Programming - 3cr. (Inactive)
- DATA5310 - Advanced Database and Database Analytics - 3cr.
- ENVS3500 - Environmental Data Science (QI) - 3cr.
- GEOG3800 - Geospatial Data Visualization - 3cr.
- POLS5000 - Political Analysis (QI) - 3cr.
- PSY5330 - Principles of Psychological Measurement and Test Theory - 3cr.
- SOC5230 - Techniques of Demographic Analysis - 3cr.
- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.
- STAT5150 - SAS Predictive Analytics - 2cr.

Total Credits Required To Earn This Credential
12

Simple Requisites

Program Requirements

Students minoring in sociology must complete a minimum of 12 credits in sociology courses. Only classes with a Sociology (SOC) prefix will be accepted for the Sociology minor. Sociology minors must maintain a minimum GPA of 2.5 in sociology courses. They must also earn a grade of *C* or better in SOC1010 INTRO SOCIOLOGY (BSS) or SOC1020 SOCIAL PROBLEMS (BSS), and a *C-* or better in all courses to be counted toward the minor. Students taking SOC1010 INTRO SOCIOLOGY (BSS) as the required course may include SOC1020 SOCIAL PROBLEMS (BSS) as part of the 9 additional sociology credits. At least 50 percent of coursework for the minor must be completed at USU. None of the credits counted toward the minor may be taken pass-fail. Sociology courses over 10 years old, do not count toward the major credit requirement.

Section 1

Type
Completion Requirement

Required Courses (12 credits)

Complete ALL of the following Courses:

- SOC1010 - Introductory Sociology (BSS) - 3cr.
  OR SOC1020 - Social Problems (BSS) - 3cr.

• 9 additional credits with a SOC prefix.

NOTE:

Only sociology classes are accepted for the minor in sociology. Although other classes may be accepted for the sociology major, they are not accepted for the sociology minor.

Sociology - BA, BS

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

About this Degree

Sociology is the study of social life, social change, and the social causes and consequences of human behavior.

Students receive a BS by completing all required courses in the major. To receive a BA, students must gain proficiency in one or more foreign languages.

- For more information about Sociology, see the Sociology, Anthropology and Criminal Justice Department website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) course of the student's choice.

Admission Requirements for this Program

- New freshmen: Admission to USU in Good Standing with an overall USU GPA of 2.5
- Transfer students from other institutions or other programs at USU: 2.5 GPA
- Complete SOC1010 INTRO SOCIOLOGY (BSS) and at least one other SOC-prefix class with a grade of C or better.

Program Requirements

Total Credits Required In Program Coursework
33

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Minimum GPA for Graduation: 2.25, major; 2.0, USU; 2.0, Overall

Minimum Grade Accepted: C in SOC 1010; C- in major courses

- At least fifty percent of the sociology coursework must be completed in the USU Sociology program. Sociology majors must maintain a minimum GPA of 2.25 in sociology courses and earn a grade of C or better in SOC 1010 Introductory Sociology (effective Fall Semester 2005) and a C- or better in all other courses to be counted toward the major. Classes taken P/F and earning a 'P' grade cannot be counted towards the major without special permission. Sociology courses over 10 years old do not count toward the major requirement.
- A minor outside the program is encouraged but not required.

Bachelor of Science Degree
Students desiring a (BS) Bachelor of Science degree must complete all requirements listed in the sample four-year plan below:

Bachelor of Arts Degree
In addition to completion of the requirements for a bachelor's degree, a Bachelor of Arts (BA) degree signifies proficiency in one or more foreign languages. Please see Minimum University Requirements (Bachelor's Degree) for details about language requirements.

Sociology - BA, BS

Type
Completion Requirement

Required Courses (15 credits)

Fulfill ALL of the following requirements:

Understanding Society

Complete ALL of the following Courses:

- SOC1010 - Introductory Sociology (BSS) - 3cr.
- SOC3010 - Social Inequality (DSS) - 3cr.
- SOC4010 - Sociological Theory: Insights from Classical and Contemporary Perspectives (DSS) - 3cr.

AND

Tools Classes

Complete ALL of the following Courses:

- SOC3110 - Methods of Social Research (CI) - 3cr.
- SOC3120 - Social Statistics I (QI) - 3cr.

Sociology Elective Courses (18 credits)

Of the 18 elective credits, at least 3 credits must come from three of the four specialty areas listed below.

Fulfill ANY of the following requirements:

a. Crime & Deviance

Complete ANY of the following Courses:

- SOC1020 - Social Problems (BSS) - 3cr.
- SOC3370 - Gender-Based Violence - 3cr.
  OR CJ3370 - Gender-Based Violence - 3cr.
- SOC3400 - Tribal Criminal Justice Systems - 3cr.
  OR CJ3400 - Tribal Criminal Justice Systems - 3cr.
- SOC3410 - Juvenile Delinquency - 3cr.
- SOC3420 - Criminology - 3cr.
- SOC3430 - Social Deviance (DSS) - 3cr.
- SOC3440 - Victimology - 3cr.
  OR CJ3440 - Victimology - 3cr.
- SOC3520 - Sociology of Mental Illness - 3cr.
- SOC4410 - Race and Crime (CI) - 3cr.
- SOC4420 - Law and Society (CI) - 3cr.

OR

b. Social Inequality

Complete ANY of the following Courses:

- SOC1020 - Social Problems (BSS) - 3cr.
- SOC2120 - Social Statistics in Everyday Life (QI) - 3cr.
- SOC2370 - Sociology of Gender (BSS) - 3cr.
- SOC2600 - Families Yesterday and Today - 3cr.
- SOC2630 - Sociology of Race and Ethnicity (BSS) - 3cr.
- SOC2650 - Globalization and International Development (BSS) - 3cr.
- SOC3300 - Sociology of Climate Change - 3cr.
- SOC3310 - Environmental Justice - 3cr.
- SOC3320 - Work, Inequality and the American Dream (DSS) - 3cr.
- SOC3330 - Medical Sociology (DSS) - 3cr.
- SOC3340 - Activism, Protest, and Social Movements (DSS) - 3cr.

- SOC3370 - Gender-Based Violence - 3cr.
  OR CJ3370 - Gender-Based Violence - 3cr.
- SOC3650 - Sociology of Education - 3cr.
- SOC4410 - Race and Crime (CI) - 3cr.

OR

c. People, Place, and Change

Complete ANY of the following Courses:

- SOC2650 - Globalization and International Development (BSS) - 3cr.
- SOC3200 - Population and Society (DSS) - 3cr.
- SOC3300 - Sociology of Climate Change - 3cr.
- SOC3310 - Environmental Justice - 3cr.
- SOC3600 - Finding Community in Today's Society (DSS) - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.
- SOC4350 - People, Power, and the Political - 3cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
- SOC4640 - Managing Community Conflict (CI) - 3cr.
- SOC4720 - Effective Community Engagement - 3cr.

OR

d. Social Health and Well-Being

Complete ANY of the following Courses:

- SOC2600 - Families Yesterday and Today - 3cr.
- SOC2650 - Globalization and International Development (BSS) - 3cr.
- SOC3200 - Population and Society (DSS) - 3cr.
- SOC3330 - Medical Sociology (DSS) - 3cr.
- SOC3430 - Social Deviance (DSS) - 3cr.
- SOC3500 - Social Psychology - 3cr.
- SOC3520 - Sociology of Mental Illness - 3cr.
- SOC3750 - Sociology of Aging (DSS) - 3cr.
- SOC4720 - Effective Community Engagement - 3cr.

Capstone Research in Sociology (1-3 credits)

Students may count a maximum of three credits toward their degree.

Complete ALL of the following Courses:

- SOC4900 - Capstone Experience - 1cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Sociology - MS

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Graduate

About this Degree

The MS program in Sociology merges foundational coursework in sociological theory and research methods with focused training in selected specialty areas and apprenticeship roles in both basic and applied research projects. We place particular emphasis on three areas of specialization: Demography, Environment & Community, and Social Inequality. Sustained personal interaction between faculty and students is a hallmark and strength of the program. Students have the opportunity to take electives in any of the departmental specialty areas or outside the department.

The Sociology MS degree is available at the USU main campus in Logan. However, many courses are offered in online, web broadcast, and blended formats, such that students need not be resident in Logan to complete the degree.

Contacts

Interim director of graduate studies – Erin Hofmann https://artsci.usu.edu/social-sciences/sociology/directory/faculty-staff/erin-hofmann

Graduate program coordinator – Megan Sills https://artsci.usu.edu/social-sciences/anthropology/directory/faculty-staff/sills-megan

Admission Requirements for this Program

The MS program in Sociology admits students in Fall semesters only, with an application deadline of December 20 of the previous year. Admission Requirements include:

- Unofficial transcript indicating a bachelor's degree in an accredited U.S. college or university or a similarly recognized international university. For admitted students, an official transcript must be provided by the end of the student's first semester.
- A degree in sociology is not required but preference is given to students who demonstrate a background in sociology or another social science.
- Three letters of recommendation from individuals familiar with the applicant's accomplishments and potential for success in graduate school.
    - An example of the applicant's written work.
    - A statement of purpose (1-2 pages)
    - A resume or CV
    - GRE scores may be provided but are not required
    - International students must provide TOEFL or IELTS scores as proof of English proficiency

For additional information on admissions, please visit the program website https://artsci.usu.edu/social-sciences/sociology/resources/graduate/admissions or the School of Graduate Studies https://gradschool.usu.edu/

Program Requirements

SCHOOL OF GRADUATE STUDIES REQUIREMENTS

Degree Verification: A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Course Number Acceptability: All courses applied to a graduate degree should be 6000-level or higher, but the sociology program will accept up to 6 credits of 5000-level courses.

Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3. 0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree. Exceptions for grades below a B can be offered for a maximum of 6 credits, at the discretion of the supervisory committee.

Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost for Graduate Studies for review.

Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the School of Graduate Studies.

Transfer Credits: We generally do not accept courses transferred from other graduate programs to count towards required credits in the MS program. However, with approval of the supervisory committee and graduate program director, a maximum of 6 transfer credits may be accepted.

Thesis Research Credits 6970: Students must complete a minimum of 6 credits of Thesis Research.

Academic Forms: Completion of the MS degree requires the approval of the following forms by the School of Graduate Studies:

- Supervisory Committee
- Program of Study
- Thesis Proposal Approval
- Appointment for Exam
- Authorship & Copyright
- Format and Style
- Title Page
- Graduation Application

Additionally, all MS degree students must complete Responsible Conduct of Research training prior to forming their supervisory committees.

MASTER OF SCIENCE IN SOCIOLOGY REQUIREMENTS

Completion of the degree requires 30 total credits (including a minimum of 9 credits of thesis research hours) with a grade of B or higher.

All MS students write a Plan A thesis under the guidance of their advisor and supervisory committee. The master's thesis must be successfully defended before the supervisory committee and submitted to the library.

Course Requirements for Master's Degree Students

Type
Completion Requirement

Core Courses (9 credits)

Complete ALL of the following Courses:

- SOC6010 - Development of Sociological Theory - 3cr.
- SOC6100 - Advanced Methods of Social Research - 3cr.
- SOC6150 - Social Statistics II - 3cr.

Electives (12 credits)

A minimum of 12 elective credits are required. At least 6 elective credits must be sociology courses at the 6000-level or above.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 6000.

Classes not listed below (i.e. relevant courses from another program or department) may be applied toward the MS elective requirement but must be authorized by the Graduate Program Director and/or Major Professor and included in an approved Program of Study.

Earn at least 12 credits from the following:

- SOC6200 - Social Demography - 3cr.
- SOC6230 - Techniques of Demographic Analysis - 3cr.
- SOC6270 - Global Migration - 3cr.
- SOC6280 - Event History and Survival Analysis - 3cr.
- SOC6310 - Sociology of Work and Occupations - 3cr.
- SOC6420 - Gender, Sexuality, and Social Inequality - 3cr.
- SOC6460 - Sociology of Health, Illness, and Disability - 3cr.
- SOC6470 - Inequalities in the Criminal Justice System - 3cr.
- SOC6480 - Seminar in Race and Ethnicity - 3cr.
- SOC6620 - Environment, Technology, and Social Change - 3cr.
- SOC6630 - Social and Community Dimensions of Natural Resources - 3cr.
- SOC6640 - Multispecies Justice and Indigenous Environmentalisms - 3cr.
- SOC6720 - Applied Community Development - 3cr.
- SOC6760 - Theory and Research in Social Inequality - 3cr.
- SOC6800 - Seminar in Sociology - 1cr.
- SOC7100 - Advanced Survey Techniques - 3cr.
- SOC7110 - Advanced Quantitative Analysis - 3cr.
- SOC7150 - Advanced Qualitative Methods in Sociology - 3cr.
- SOC7350 - People, Power, and the Political - 3cr.
- SOC7720 - Applied Community Theory and Development - 3cr.

Thesis Research (9 credits)

All Sociology MS students are required to complete 9 credits of thesis research hours.

However, a student may substitute 3 of the 9 required thesis research credits (for a total of 6) with an additional 3-credit elective course if approved by their supervisory committee.

Complete ALL of the following Courses:

- SOC6970 - Thesis Research - 1cr.

Sociology - PhD

Program Overview

College	Department	Program Level
College of Arts & Sciences	School of Social Sciences	Graduate

About this Degree

The PhD program in Sociology merges foundational coursework in sociological theory and research methods with focused training in selected specialty areas and apprenticeship roles in both basic and applied research projects. We place particular emphasis on three areas of specialization: Demography, Environment & Community, and Social Inequality. Sustained personal interaction between faculty and students is a hallmark and strength of the program.

PhD students are expected to concentrate in and pass a written comprehensive examination in one major specialty area. The three available specialization areas are as follows:

- ***Demography***

This specialization explores issues of population change, migration, and health outcomes. Graduate coursework is provided in social demography, techniques of demographic analysis, population health, migration, and various special topic seminars.

- ***Environment & Community***

This specialization focuses on the sociology of natural resources, environmental sociology, community theory, and applied community development. Faculty and students in this specialization area engage in numerous cooperative research ventures with colleagues in natural resource sciences, water engineering, and other physical and social sciences.

- ***Social Inequality***

The area specialization in social inequality allows graduate students to explore how states, policies, organizations and labor markets come together to create differing opportunities and outcomes for diverse groups within society, as well as across societies. Department faculty conduct research on gender, racial, and class inequalities within the United States and other countries, as well as comparative, cross-national research.

Graduate program coordinator – Megan Sills https://artsci.usu.edu/social-sciences/anthropology/directory/faculty-staff/sills-megan

Admission Requirements for this Program

The PhD program in Sociology admits students in Fall semesters only, with an application deadline of December 20 of the previous year. Admission requirements include:

- Unofficial transcripts from all previous higher educational institutions attended. A bachelor's degree in an accredited U.S. college or university or a similarly recognized international university is required for admission to the PhD program, and a master's degree is preferred. For admitted students, an official transcript must be provided by the end of the student's first semester.
- A degree in sociology is not required but preference is given to students who demonstrate a background in sociology or another social science.
- Three letters of recommendation from individuals familiar with the applicant's accomplishments and potential for success in graduate school.
- An example of the applicant's written work.

- A statement of purpose (1-2 pages)
- A CV or resume
- GRE scores may be provided but are not required
- International students must provide TOEFL or IELTS scores as proof of English proficiency

SCHOOL OF GRADUATE STUDIES REQUIREMENTS

Degree Verification: A bachelor's and/or master's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of the PhD in Sociology.

Course Number Acceptability: All courses applied to a graduate degree should be 6000-level or higher, but the sociology program will accept up to 6 credits of 5000-level courses.

Overall Graduate GPA at least 3.0 and no grades of C- or lower: All PhD coursework must be completed with a grade of B or higher. Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree. Exceptions for grades below a B can be offered for a maximum of 6 credits, at the discretion of the supervisory committee.

Matriculation Start Semester: A doctoral degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost for Graduate Studies for review.

Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the School of Graduate Studies.

Transfer Credits: We generally do not accept courses transferred from other graduate programs to count towards required credits in the PhD program. However, with approval of the supervisory committee and graduate program director, a maximum of 6 transfer credits may be accepted.

Dissertation Research Credits 7970: Students entering with a master's degree must complete a minimum of 12 credits of Dissertation Research. Students entering with a bachelor's degree must complete 15 hours of Dissertation Research. A maximum of 21 Dissertation Research credits may be applied to the PhD.

Academic Forms: Completion of the PhD requires the approval of the following forms by the School of Graduate Studies:

- Supervisory Committee
- Program of Study
- Application for Candidacy
- Appointment for Exam
- Authorship & Copyright
- Format and Style
- Title Page
- Graduation Application

Additionally, all graduate level students must complete Responsible Conduct of Research training prior to forming their supervisory committees.

PHD IN SOCIOLOGY REQUIREMENTS

All PhD students, regardless of track, will complete written comprehensive examinations in the student's area of specialization, successfully defend a dissertation proposal, and defend and complete a PhD dissertation.

The PhD program has three separate tracks:

1. ***For students who hold a master's degree from an accredited U.S. college or university or a similarly recognized international university.*** 51 credits
2. ***For students who at the time of admission hold a master's degree in Sociology from Utah State University.*** 48 credits
3. ***For students who hold a bachelor's degree but no master's at the time of admission.*** 30 credits of MS coursework + 39 credits of PhD coursework.

Requirements for Students Entering With a Master's Degree

Type
Completion Requirement

Requirements

PhD students who have already earned a Master's degree in sociology or a closely related field are required to earn 51 credits to complete their doctoral degree (48 credits if the student received their MS in Sociology from USU). Specific minimum requirements for a PhD in sociology include the following:

Theory (6 credits)

Fulfill ALL of the following requirements:

Required

Complete ALL of the following Courses:

- SOC6760 - Theory and Research in Social Inequality - 3cr.

AND

Required

Complete at least 1 of the following courses:

- SOC6270 - Global Migration - 3cr.
- SOC6310 - Sociology of Work and Occupations - 3cr.
- SOC6420 - Gender, Sexuality, and Social Inequality - 3cr.
- SOC6460 - Sociology of Health, Illness, and Disability - 3cr.
- SOC6480 - Seminar in Race and Ethnicity - 3cr.
- SOC6620 - Environment, Technology, and Social Change - 3cr.
- SOC7720 - Applied Community Theory and Development - 3cr.

Research Methods (6 credits)

Complete ALL of the following Courses:

- SOC7110 - Advanced Quantitative Analysis - 3cr.
- SOC7150 - Advanced Qualitative Methods in Sociology - 3cr.

Electives (21 credits)

Completion of at least 21 credits of electives, including at least 12 credits in one of three approved major specialization areas (Demography, Environment & Community, and Social Inequality) and at least 9 credits of additional electives

Classes not listed below (i.e. relevant courses from another program or department) may be applied toward the PhD elective requirement but must be authorized by the Graduate Program Director and/or Major Professor and included in an approved Program of Study. Students may also take up to 6 credits of 6000- or 7000-level credits outside of sociology. Any sociology course at the 6000-level or higher that has not been applied to the theory, methods, or major requirement can be used as an additional elective but also must be authorized by the Graduate Program Director and/or Major Professor and included in an approved Program of Study.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 6000.

Coursework in the three established specialization areas are as follows:

Fulfill ANY of the following requirements:

Demography

Complete ANY of the following Courses:

- SOC6120 - Population and Health - 3cr.
- SOC6200 - Social Demography - 3cr.
- SOC6230 - Techniques of Demographic Analysis - 3cr.
- SOC6270 - Global Migration - 3cr.
- SOC6280 - Event History and Survival Analysis - 3cr.
- SOC6460 - Sociology of Health, Illness, and Disability - 3cr.
- SOC6800 - Seminar in Sociology - 1cr.
- SOC7640 - Population and Environment - 3cr.

OR

Environment and Community

Complete ANY of the following Courses:

- SOC6620 - Environment, Technology, and Social Change - 3cr.
- SOC6630 - Social and Community Dimensions of Natural Resources - 3cr.
- SOC6640 - Multispecies Justice and Indigenous Environmentalisms - 3cr.
- SOC6800 - Seminar in Sociology - 1cr.
- SOC7720 - Applied Community Theory and Development - 3cr.

OR

Social Inequality

Complete ANY of the following Courses:

- SOC6270 - Global Migration - 3cr.
- SOC6310 - Sociology of Work and Occupations - 3cr.
- SOC6420 - Gender, Sexuality, and Social Inequality - 3cr.
- SOC6460 - Sociology of Health, Illness, and Disability - 3cr.
- SOC6470 - Inequalities in the Criminal Justice System - 3cr.
- SOC6480 - Seminar in Race and Ethnicity - 3cr.
- SOC6760 - Theory and Research in Social Inequality - 3cr.
- SOC6800 - Seminar in Sociology - 1cr.
- SOC7350 - People, Power, and the Political - 3cr.

Dissertation Research (12-21 credits)

Completion of 12-21 total credits of dissertation research.

Complete ALL of the following Courses:

- SOC7970 - Dissertation Research - 1cr.

Requirements for Students Entering with a Bachelor's Degree

Type

Completion Requirement

Requirements:

Exceptionally well-qualified applicants who have completed an undergraduate degree in Sociology or a closely related social science discipline and who demonstrate outstanding potential for success in the pursuit of doctoral-level training may be considered for concurrent enrollment in the MS and PhD programs. Bachelor's track students will complete all the requirements of the Sociology MS program (30 credits) and must submit a concurrent enrollment form. Requirements for the MS program are available in the catalog: https://catalog.usu.edu/programs/SOCI-SOCI_MS-MAJOR In addition to the 30 credits required for the MS, students will complete 39 credits in the following areas:

Concurrent Enrollment Program

Students entering the Sociology PhD program with a Bachelor's Degree must concurrently enroll in the Sociology MS program and complete all MS program requirements.

Enroll in the following Programs:

- SOCI_MS - Sociology - MS

Completion of Master's Degree in Sociology (30 credits)

No later than the 5th semester of their program, bachelor's-level students must have successfully completed all MS coursework requirements and write and defend a master's thesis proposal and thesis before their supervisory committee. Students will only be allowed to continue in the PhD program upon successful completion of a master's thesis and receipt of master's degree.

Complete ALL of the following Programs:

- SOCI_MS - Sociology - MS

Theory (6 credits)

Complete ALL of the following Courses:

- SOC6010 - Development of Sociological Theory - 3cr.
- SOC6760 - Theory and Research in Social Inequality - 3cr.

Research Methods (6 credits)

Complete ALL of the following Courses:

- SOC7110 - Advanced Quantitative Analysis - 3cr.
- SOC7150 - Advanced Qualitative Methods in Sociology - 3cr.

Electives (12 credits)

Completion of at least 12 credits of electives in one of the three major specialization areas (Demography, Environment & Community, and Social Inequality).

Coursework applied toward Theory and/or Methods requirements may not also be applied to Elective Coursework Requirements.

Classes not listed below may be applied toward the PhD elective requirement but must be authorized by the Graduate Program Director and included in an approved Program of Study.

Coursework in the three established specialization areas are as follows:

Fulfill ANY of the following requirements:

Demography

Complete ANY of the following Courses:

- SOC6200 - Social Demography - 3cr.
- SOC6230 - Techniques of Demographic Analysis - 3cr.
- SOC6270 - Global Migration - 3cr.
- SOC6280 - Event History and Survival Analysis - 3cr.
- SOC6460 - Sociology of Health, Illness, and Disability - 3cr.
- SOC6480 - Seminar in Race and Ethnicity - 3cr.
- SOC7640 - Population and Environment - 3cr.

OR

Environment and Community

Complete ANY of the following Courses:

- SOC6620 - Environment, Technology, and Social Change - 3cr.
- SOC6630 - Social and Community Dimensions of Natural Resources - 3cr.
- SOC6640 - Multispecies Justice and Indigenous Environmentalisms - 3cr.
- SOC6800 - Seminar in Sociology - 1cr.
- SOC7720 - Applied Community Theory and Development - 3cr.

OR

Social Inequality

Complete ANY of the following Courses:

- SOC6270 - Global Migration - 3cr.
- SOC6310 - Sociology of Work and Occupations - 3cr.
- SOC6420 - Gender, Sexuality, and Social Inequality - 3cr.
- SOC6460 - Sociology of Health, Illness, and Disability - 3cr.
- SOC6470 - Inequalities in the Criminal Justice System - 3cr.
- SOC6480 - Seminar in Race and Ethnicity - 3cr.
- SOC6760 - Theory and Research in Social Inequality - 3cr.
- SOC6800 - Seminar in Sociology - 1cr.
- SOC7350 - People, Power, and the Political - 3cr.

Dissertation Research (15 credits)

Completion of 15 total credits of dissertation research.

Complete ALL of the following Courses:

- SOC7970 - Dissertation Research - 1cr.

Social Media - Institutional Certificate of Proficiency

Program Overview

College	Department	Program Level
College of Arts & Sciences	Communication & Media	Undergraduate

About this Degree

The Social Media Institutional Certificate of Proficiency program will enhance job prospects for students interested in online political communication, crisis communication, sales and marketing, and health communication.

This program will teach them how to create engaging content and analyze how the content is performing.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
12	12

Simple Requisites

Program Requirements

- 12 credits
- Students must be advised by the JCOM adviser before registering for the certificate program and before registering for courses.
- *A formal admission process to the certificate program will be adopted by faculty vote.*

Section 1

Type

Completion Requirement

Core Courses (12 credits)

Complete ALL of the following Courses:

- JCOM2400 - Introduction to Social Media - 3cr.
- JCOM4040 - Social Media Content Development - 3cr.
- JCOM5400 - Social Media Strategy, Analytics & Artificial Intelligence - 3cr.
- JCOM5040 - Social-Media, Philanthropy and Advocacy - 3cr. **OR** JCOM6060 - Social Media & Public Health Campaigns - 3cr.

NOTES:

1. JCOM2400 INTRODUCTION TO SOCIAL MEDIA must be taken and successfully passed with a minimum grade of "C" before taking the other courses for the certificate.
2. JCOM4040 SOCIAL MEDIA CONTENT DEVELOP, JCOM5400 SOCIAL MEDIA ANALYTICS, and either JCOM5040 SOC MEDIA, PHILNTHRPY & ADVCY or JCOM6060 SOC MED & PUBL HEALTH CAMPAIGN must be taken during the same or subsequent semesters.

Sociology Teaching - Minor

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Undergraduate

Program Requirements

Total Credits Required In Program Coursework
53 (18 - minor coursework + 35 - STEP)

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

Sociology teaching minors must maintain a minimum GPA of 2.75 in sociology courses. They must also earn a grade of C or better in SOC1010 INTRO SOCIOLOGY (BSS) and a grade of C or better in all courses to be counted toward the teaching minor. At least 50 percent of coursework for the minor must be completed at USU. A teaching minor requires completion of a teaching license in the Emma Eccles Jones College of Education and Human Services. Sociology courses over 10 years old, do not count toward the major credit requirement. Pass/Fail classes cannot count toward the SOC classes for this Minor.

Section 1

Type
Completion Requirement

Required Courses (18 credits)

Complete ALL of the following Courses:

- SOC1010 - Introductory Sociology (BSS) - 3cr.
- SOC2370 - Sociology of Gender (BSS) - 3cr.
- SOC2630 - Sociology of Race and Ethnicity (BSS) - 3cr.
- SOC3010 - Social Inequality (DSS) - 3cr.
- SOC3110 - Methods of Social Research (CI) - 3cr.
- SOC4010 - Sociological Theory: Insights from Classical and Contemporary Perspectives (DSS) - 3cr.

Section 2

Type
Completion Requirement

STEP Program (35 credits)

Finally, students need to fulfill the 35-credit requirement for the Secondary Teacher Education Program (STEP) in the Secondary Education Program of the School of Teacher Education and Leadership.

Methods courses and the clinical experiences must be completed before student teaching courses.

• Only ITLS 2500 may be taken before admission to STEP.

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED3500 - Teaching Social Studies - 3cr.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Social Work - BA, BS

Program Overview

College
College of Arts & Sciences

Department
Social Work

Program Level
Undergraduate

About this Degree

Social work is a professional and academic discipline involving the pursuit of social welfare, social change, and social justice.

Students receive a BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages.

For more information about Social Work, see the Social Work Department website.

- USU's Social Work programs are accredited by the Council on Social Work Education (CSWE) and consequently meet licensure requirements in all 50 states. States differ in their licensing processes and students are encouraged to become familiar with these processes when pursuing licensure in a particular state. The Utah Division of Professional Licensing (DOPL) is the governing professional licensure body in Utah.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is SOC3120 SOCIAL STATISTICS I (QI).

Admission Requirements for this Program

- Information regarding admission application can be found on the department website, and required pre-program courses listed in the catalog
- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.75 GPA
- **Additional Requirements for Transfer Students:** Unofficial transcript(s) from your previous institution(s); contact information for an academic reference
- **Minimum GPA for Admission:**
  - 2.75 major
  - 2.75 USU

For non-native English-speaking students only, the following options are available:

- Successful completion of the Intensive English Language Institute (IELI) program for international students OR
- TOEFL, IELTS, other USU approved exam, or IELI placement scores high enough to meet the university admission criteria

Social Work Major

Career Additional Matriculation Requirements: Students must apply for the Social Work major once all pre-program courses are completed or are in progress. Application requirements and admission cycle dates can be found on the social work website.

Minimum GPA for Graduation:

2.75 major
2.75 USU

Minimum Grade Accepted: B- or better in all SW courses (in SW1010 INTRO SOCIAL WELFARE (BSS), SW2100 BEHAVIOR IN SOC ENVIRON, SW2400 SW W/DIVERSE POPULATIONS, SW3000, SW3050 PRACTICE I, SW4100 SOCIAL WORK RESEARCH (CI), SW4150 PRACTICE II, SW4160 PRACTICE III, SW4870 BEGINNING FIELD PRACT, SW5350 SOCIAL POLICY/SOCIAL JUST (CI), SW5400 SW ETHICS, SW5870 ADV FIELD PRACTICUM). C or better grade in all other major specific courses including electives. C- or better grade for QL course prerequisite and for SOC3120.

Students may declare Social Work as their major at any time, but are considered pre-major students until they are accepted into the Social Work program. All Social Work courses are open to any student with the exception of practice courses (SW3000, SW3050 PRACTICE I, SW4100 SOCIAL WORK RESEARCH (CI), SW4150 PRACTICE II, SW4160 PRACTICE III, SW5350 SOCIAL POLICY/ SOCIAL JUST (CI), SW5400 SW ETHICS) and the field practicum courses (SW4870 BEGINNING FIELD PRACT and SW5870 ADV FIELD PRACTICUM), all of which require admission to the major. All Social Work electives are available to students prior to acceptance into the major. Once admitted to the program, Social Work students must complete courses in the prescribed sequence indicated in their acceptance letter and identified by an academic advisor. This ensures that students build the necessary professional foundation for each class. Maintenance of a high grade point average and demonstration of professional behavior is important as students progress through the major.

Social Work - BA, BS

Type
Completion Requirement

Program Requirements

Fulfill ALL of the following requirements:

Program Requirements (27-29 credits)

Courses must be completed prior to admission to the program.

Complete ALL of the following Courses:

- SW1010 - Introduction to Social Welfare (BSS) - 3cr.
- SW2100 - Human Behavior in the Social Environment - 3cr.
- SW2400 - Social Work with Diverse Populations - 3cr.
- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
  OR ANTH1020 - Biological Anthropology (BLS) - 3cr.
- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.

70-72

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Bachelor of Science Degree

Students pursuing a Bachelor of Science (BS) degree must complete all the requirements listed in the program requirements below.

Complete ALL of the following Course Sets:

- Breadth Social Sciences (BSS) Course
- Quantitative Literacy (QL) Course

NOTE:

1. Breadth Social Sciences (BSS) - take 6 credits
2. Quantitative Literacy (QL) requirement - STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL) is preferred.

Students should apply for the major according to the preferred application timeline listed on the website once they have completed, or are currently enrolled, in all required pre-program courses. Additionally, students will complete the Advanced Placement Test (APT) during finals week of the semester prior to beginning the program after successful completion of pre-program courses and admission to the program.

Professional Curriculum courses (34 credits)

Complete ALL of the following Courses:

- SOC3120 - Social Statistics I (QI) - 3cr.
- SW3000 - BSW Orientation - 1cr.
- SW3050 - Practice I - 3cr.
- SW4100 - Social Work Research (CI) - 3cr.
- SW4150 - Practice II - 3cr.
- SW4160 - Practice III - 3cr.
- SW4870 - Beginning Field Practicum - 6cr.
- SW5350 - Social Policy and Social Justice (CI) - 3cr.
- SW5400 - Social Work Ethics - 3cr.
- SW5870 - Advanced Field Practicum - 6cr.

Notes: Students will complete a practicum after successful completion of all practice courses. The practicum placement process is initiated and coordinated by the program and includes an orientation and opportunities for student input. Students DO NOT establish their own practicum placement. Additionally, students will complete the General Practice Test (GPT) during finals week of the semester prior to beginning their practicum.

Elective Enrichment Courses (9 credits)

A total of nine elective credits must be completed. At least two of these electives must be in Social Work, and one upper-division (3000-level or higher) elective may be taken outside of the Social Work department (ANTH, CMST, CJ, HDFS, POLS, PSY, SOC).

Earn at least 9 credits from the following:

- SW3350 - Child Welfare - 3cr.
- SW3360 - Adolescents: Theories, Problems, and Issues - 3cr.
- SW3450 - School Social Work - 3cr.
- SW3540 - Forensic Child Welfare - 3cr.
- SW3580 - Crisis Intervention Response - 3cr.
- SW3650 - Mental Health - 3cr.
- SW3850 - Spirituality and Social Work - 3cr.
- SW4900 - Topical Issue Seminar - 3cr.
- SW4925 - Resilience and Human Flourishing - 3cr.
- SW5040 - Community Justice Advocacy: Debt Navigation - 3cr.
- SW5525 - Aging in the 21st Century - 3cr.
- SW5530 - Social Work and Community Health - 3cr.
- SW5540 - Nonprofit Management for Social Workers - 3cr.
- SW5575 - Substance Use Disorders: Approaches to Treatment and Policy - 3cr.
- SW5580 - Grief and Loss in Social Work Practice - 3cr.
- SW5920 - Trauma and Resilience - 3cr.

Optional Elective (does not fulfill elective requirement)

Complete ANY of the following Courses:

- SW4950 - Directed Readings - 1cr.

NOTE:

1. SW4950 DIRECTED READINGS - Requires a plan of study, approved by a social work faculty member, at least one semester prior to registration. This course is *not* considered to be a required elective.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your academic advisor for details.

Social Work

Program Level
Graduate

About this Degree

Program Contacts:
Statewide programs: Chelsey Spears chelsey.spears@usu.edu
Logan programs: Morgan Walton morgan.walton@usu.edu

The MSW curriculum consists of course and field work designed to prepare students for advanced generalist practice with systems of all sizes with particular emphasis on advanced direct practice with individuals, families, groups, and communities. The curriculum is grounded in the liberal arts and integrates content on professional values and ethics, diversity, populations-at-risk and social and economic justice. Also included are the professional foundation areas of human behavior and the social environment, social welfare policy and services, social work practice, social work research, and field education.

Social work graduates find meaningful careers working with individuals, families, groups, organizations, and communities in a wide range of settings like schools, hospitals, prisons, and community mental health centers. Generalist social workers view clients and client systems from a strengths perspective and work to empower them to realize their full potential. Using an anti-oppressive, professional problem-solving process, social workers engage, assess, broker services, advocate, counsel, educate, and organize with and on behalf of clients and client systems.

Students with an undergraduate degree in Social Work are eligible for the Advanced Standing program while students with an undergraduate degree from any other field are eligible for the Traditional program. Each program is offered on a full-time and part-time basis.

USU's Social Work programs are accredited by the Council on Social Work Education (CSWE) and consequently meet licensure requirements in all 50 states. States differ in their licensing processes and students are encouraged to become familiar with these processes when pursuing licensure in a particular state.

Admission Requirements

Advanced Standing Program:

- A bachelor's degree in social work that will be completed before matriculation in the MSW program
- A 3.0 or higher GPA for most recent 60 semester or 90 quarter credits, and SW GPA of 3.3 or higher
- Earned "B" or higher in each undergraduate SW course attempted
- Additional admission requirements can be found on the USU School of Graduate Studies website (gradschool.usu.edu/admissions/policies) and the program website (https://artsci.usu.edu/social-work/students/msw-program-options/).

Traditional Program:

- A bachelor's degree in any field that will be completed before matriculation in the degree program
- A 3.0 or higher GPA for most recent 60 semester or 90 quarter credits
    - Completion of a quantitative course (research or statistics) and intro to social/behavioral (science) course.
- Additional admission requirements can be found on the USU School of Graduate Studies website (gradschool.usu.edu/admissions/policies) and the program website (https://artsci.usu.edu/social-work/students/msw-program-options/).

Program Requirements

Total Credits Required In Program Coursework
36-60

Total Credits Required To Earn This Credential
36-60

Simple Requisites

Program Requirements

Students are held responsible for meeting requirements as outlined below. It is the student's responsibility to be aware of all requirements and initiate the resolution of apparent inconsistencies.

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

GPA Requirement

- MSW students are required to maintain a cumulative 3.0 GPA for degree-program courses.
- No credit for "C-" grades or lower will be accepted.

Matriculation Start Semester

A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity

- Except in unusual circumstances, only 6 semester credits earned may be transferred into the MSW program at USU. The credits must not have been used for another degree. Credits with grades below "B" cannot be transferred; "P" credit can be transferred from another university, if approved by the Social Work Program and the Graduate Review Committee.
- Transfer credits cannot replace required residency credits. Transfer credits are subject to approval of the MSW Supervisory Committee, MSW Program Coordinator and the Dean of the School of Graduate Studies.
- Transfer credits more than eight years old may not be accepted. Transfer credits will be shown on official USU transcripts upon completion of the degree.
- Students who wish to transfer credits must submit their request in writing to the MSW Program Coordinator. If the request is approved, the request is then forwarded to the Dean of the School of Graduate Studies for final approval and processing.
- The Social Work program does not grant academic credit for life experience or previous work experience in lieu of the field practicum or any courses.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.
- The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000 level.

Master's Forms

Approval of the Program of Study is required by the School of Graduate Studies.

Required Practicum Hours

The traditional MSW program includes 974 hours of field education. During the foundation component of the program students complete 426 hours of fieldwork plus 24 hours of professional seminar. The number of required field

hours increases to 500 during the advanced portion of the program plus 24 hours of professional seminar. Advanced Standing students will complete 24 hours of professional seminar and 500 hours of fieldwork required in the advanced portion of the MSW program.

Professional and Ethical Behavior

During academic and field training, students are required to abide by the National Association of Social Workers (NASW) Code of Ethics and demonstrate practice behaviors associated with applicable CSWE EPAS competencies.

Additional requirements regarding expected behavior can be found in the MSW Program and Field Education Manual. Failure to adhere to the behavior expectations outlined as above may result in dismissal from the Social Work program.

Traditional Master of Social Work Degree Requirements (60 credits)

Type
Completion Requirement

Course Requirements

The courses for the traditional MSW degree (2- and 3- year programs) include the following:

Complete ALL of the following Courses:

- SW6000 - Principles and Philosophy of Social Work - 3cr.
- SW6050 - HBSE: Individuals and Families in Their Environment - 3cr.
- SW6100 - Generalist Practice I: SW Practice with Individuals, Families, and Groups - 3cr.
- SW6150 - Generalist Practice II: SW Practice with Groups, Organizations, and Communities - 3cr.
- SW6200 - Social Work Research Methods - 3cr.
- SW6300 - Social Policy Analysis - 3cr.
- SW6400 - Field Practicum I - 4cr.
- SW6450 - Field Practicum II - 5cr.
- SW6600 - Policy and Administration - 3cr.
- SW6650 - Advanced Research Methods - 3cr.
- SW6700 - Advanced Generalist Practice I: Individuals and Families - 3cr.
- SW6725 - Diagnosis and Intervention in Social Work Practice - 3cr.
- SW6750 - Advanced Generalist Practice II: Groups - 3cr.
- SW6900 - Field Practicum III - 6cr.
- SW6950 - Field Practicum IV - 6cr.

- SW Elective-6 credits required (see approved elective courses below).

NOTE:

1. For SW6400 FIELD PRACTICUM I and SW6450 FIELD PRACTICUM II - In rare circumstances, and with the pre-approval of the Program Director, students may take SW6475 FOUNDATION BLOCK FIELD PRACT (9 credits) in in place of SW6400 FIELD PRACTICUM I and SW6450 FIELD PRACTICUM II.
2. For SW6900 FIELD PRACTICUM III and SW6950 FIELD PRACTICUM IV - In rare circumstances, and with the pre-approval of the Program Director, students may take SW6975 ADV BLOCK FIELD PRACTICUM (12 credits) in place of SW6900 FIELD PRACTICUM III and SW6950 FIELD PRACTICUM IV.

Advanced Standing Master of Social Work Program (36 credits)

Type
Completion Requirement

Course Requirements

The courses for the advanced standing MSW degree **(1-year and 5-semester programs)** include the following:

Complete ALL of the following Courses:

- SW6590 - Advanced Standing Seminar I: Social Work Generalist Practice-Theories and Methods - 3cr.
- SW6595 - Advanced Standing Seminar II: Social Work Generalist Practice-Research Policy - 3cr.
- SW6600 - Policy and Administration - 3cr.
- SW6650 - Advanced Research Methods - 3cr.
- SW6700 - Advanced Generalist Practice I: Individuals and Families - 3cr.
- SW6725 - Diagnosis and Intervention in Social Work Practice - 3cr.
- SW6750 - Advanced Generalist Practice II: Groups - 3cr.
- SW6900 - Field Practicum III - 6cr.
- SW6950 - Field Practicum IV - 6cr.

- SW Elective 3 credits required (see approved elective courses below).

NOTE:

For SW6900 FIELD PRACTICUM III and SW6950 FIELD PRACTICUM IV - In rare circumstances, and with the pre-approval of the Program Director, students may take SW6975 ADV BLOCK FIELD PRACTICUM (12 credits) in place of SW6900 FIELD PRACTICUM III and SW6950 FIELD PRACTICUM IV.

Approved Elective Courses

Electives are offered based on faculty expertise, work load, and needs of the program. Graduate level electives from other departments may or may not be approved as a qualifying elective (referred to as an "alternative elective*"). **The following electives may or may not be offered during a student's enrollment in an MSW program.** Choose from the courses below and ensure you meet the elective credit requirement of your program type.

Complete ANY of the following Courses:

- SW6010 - Spanish for Social Services - 3cr.
- SW6040 - Community Justice Advocacy: Debt Navigation - 3cr.
- SW6350 - Emotionally Focused Therapy: Advanced Practice - 3cr.
- SW6370 - Acceptance and Commitment Therapy: Theory and Practice - 3cr.
- SW6480 - Advanced School Social Work Practice - 3cr.
- SW6525 - Aging in the 21st Century - 3cr.
- SW6530 - Social Work and Community Health - 3cr.
- SW6540 - Nonprofit Management for Social Workers - 3cr.
- SW6550 - Advanced Practice with Victims and Perpetrators of Family Violence - 3cr.
- SW6575 - Substance Use Disorders: Approaches to Treatment and Policy - 3cr.
- SW6580 - Grief and Loss in Social Work Practice - 3cr.
- SW6630 - Social Work in the Healthcare Setting - 3cr.
- SW6850 - Psychopharmacology in Advanced Social Work Practice - 3cr.
- SW6905 - I-System Model and Mind-Body Bridging - Foundation - 3cr.
- SW6907 - I-System Model and Mind-Body Bridging - Advanced - 3cr.
- SW6920 - Trauma and Resilience - 3cr.

- SW6925 - Advanced Optional Practicum - 1cr.
- SW6990 - Independent Study - 1cr.
- SW6995 - Special Topics on Social Work Practice - 1cr.

To pursue an alternative elective, students must make a request in writing to the MSW Program Coordinator and Graduate Program Coordinator (GPC) assigned to their campus. The request should include the course number and description. Together, the program coordinators will make a determination to accept or deny the request. Classes taken outside of the social work department are subject to standard tuition rates rather than our per-credit hour rate and can result in higher-than-expected costs.

Spanish - Minor

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Undergraduate

About this Degree

The Spanish minor develops language skills, cultural competence skills, analytical skills, critical thinking skills, and communication skills useful in a wide variety of careers. Course offerings range from language courses, to culture courses, to literature and film courses, to business Spanish, to healthcare Spanish, and beyond. The Spanish section offers many opportunities for cultural activities, student club activities, tutoring, scholarships, outreach practicum, and study abroad programs in Spain (summer) and Argentina (fall semester).

Admission Requirements for this Program

- **Grade Point Average to Declare Spanish Minor: 2.0**

Program Requirements

Total Credits Required In Program Coursework
18

Total Credits Required To Earn This Credential
18

Simple Requisites

Program Requirements

- **Total Credits:** 18
- **Grade Point Average to Declare Spanish Minor:** 2.0
- **USU Credit Requirement**: At least half (50 percent) of the credits earned for this degree must be completed in upper-division USU courses having prefixes of SPAN or LING. All other credits (including transfer and study abroad credits) must be approved by the program's academic advisor in order to be counted toward the minor. Students who have completed Bridge Program Language courses should contact their advisor as Bridge courses may count for credits toward minor or major requirements of courses taken at USU.
- **Minimum Grade Requirement:** All courses taken for the Spanish minor require a minimum grade of **C-** or better. Courses taken for the Spanish minor *may not* be taken on a pass/fail basis (except courses designated as pass/fail, such as SPAN3010 HISPANIC OUTREACH PRACT, SPAN3520 BUSINESS SPANISH PRACT and SPAN4920 SPANISH LANG TUTORING).

Required Courses

Type
Completion Requirement

Required Courses (15 credits)

Fulfill ALL of the following requirements:

Gateway course (3 credits)

Complete at least 1 of the following courses:

- SPAN3040 - Advanced Spanish Grammar - 3cr.
- SPAN3060 - Advanced Spanish Conversation and Composition (CI) - 3cr.
- SPAN3800 - Spanish III Study Abroad - 1cr.

AND

SPAN 34XX or SPAN 35XX-level course (3 credits)

Complete at least 1 of the following courses:

- SPAN3400 - Introduction to Hispanic Cinema - 3cr.
- SPAN3550 - Spanish Culture and Civilization (DHA) - 3cr.
- SPAN3560 - Introduction to U.S. Latino/a Culture - 3cr.
- SPAN3570 - Hispanic American Culture and Civilization (DHA) - 3cr.
- SPAN4800 - Hispanic Culture and Civilization-Study Abroad - 1cr.

AND

Required course (3 credits)

Complete ALL of the following Courses:

- SPAN3300 - Introduction to Hispanic Literature and Literary Analysis - 3cr.

AND

SPAN 36XX-level course (3 credits)

Complete at least 1 of the following courses:

- SPAN3600 - Survey of Spanish Literature I (DHA) - 3cr.
- SPAN3610 - Survey of Spanish Literature II (DHA/CI) - 3cr.
- SPAN3620 - Survey of Hispanic American Literature I (DHA) - 3cr.
- SPAN3630 - Survey of Hispanic American Literature II (DHA) - 3cr.
- SPAN3640 - Introduction to U.S. Latino/a Literature - 3cr.
- SPAN3650 - Spanish Literature-Study Abroad - 1cr.
- SPAN3660 - Hispanic American Literature - Study Abroad - 1cr.

AND

SPAN 49XX-level course (3 credits)

Complete at least 1 of the following courses:

- SPAN4900 - Topics of Spanish Cultural Production - 3cr.
- SPAN4910 - Topics of Hispanic American Cultural Production - 3cr.
- SPAN4920 - Spanish Language Tutoring - 1cr.
- SPAN4930 - Topics of U.S. Latina/o Literature and Culture - 3cr.

Additional Comments:

NOTE:

1. SPAN3660 HISPANIC AMER LIT-STUDY ABROAD, SPAN3650 SPANISH LIT-STUDY ABROAD, and SPAN4800 HISPANIC STUDY ABROAD - Students desiring to apply study abroad credits should meet with the World Languages & Cultures Advisor.

Special Education - Minor

Program Overview

College
College of Education & Human Services

Department
Special Education & Rehab Counseling

Program Level
Undergraduate

About this Degree

This minor is for students who want to work toward the Utah Department of Health and Human Services centennial to serve children with disabilities (0-3) and their families in the Baby Watch Early Intervention Program.

This minor is available to students in any major, providing admission requirements are met. The minor would be especially useful to majors in Speech and Hearing Sciences, Early Childhood Education, Elementary Education, Human Development and Family Studies, Kinesiology, Health Education and Promotion, and Social Work. Students must apply for the Special Education Minor through the Special Education and Rehabilitation Counseling Department.

Admission Requirements for this Program

Admission requirements include a 2.0 GPA and a USBE Educator Background Check.

Special Education - AS

Program Overview

College
College of Education & Human Services

Department
Special Education & Rehab Counseling

Program Level
Undergraduate

About this Degree

This degree provides students with a background in special education and accomplishes two purposes. First, as a stand-alone degree, it prepares students to work as teacher's aides, special education paraprofessionals, and direct support professionals providing support to special education and general education teachers through the delivery of specialized curriculum, behavior interventions, and a variety of support activities related to the education and care of students with disabilities. Second, this degree provides a foundation for continued study toward a bachelor's degree in Special Education, Elementary Education or Secondary Education. Students pursuing general education degrees would benefit from instructional and behavioral strategies to meet the needs of students with disabilities in the general education classroom.

Special Education: Birth to 5 Emphasis - BA, BS

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Undergraduate

About this Degree

The program prepares students to work with young children with disabilities. Students are given the opportunity to gain hands-on experience working with local school districts or on-campus programs.

Birth to Age 5 Special Education Emphasis: This emphasis prepares graduates to work with children ages birth to five years who have disabilities. Children ages birth to three years are typically served by early intervention programs in their homes. Children three to five years are taught in public preschool settings within local school districts. Students in this emphasis may choose to combine this emphasis with either the mild/moderate disabilities emphasis or the severe disabilities emphasis. To receive a Bachelor's of Arts (BA) degree, please see Undergraduate Academic Credential Requirements for required language courses.

- For more information about Special Education and Rehabilitation Counseling, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- Students following the recommended schedule should be able to complete degree requirements in four years (eight semesters).
- The highest math requirement for this degree is Quantitative Literacy (QL).

***Dual licensure programs are available on the Logan Main Campus for Special Education Birth to Five Emphasis majors within special education with severe and mild/moderate emphases or with elementary education or early childhood majors in the School of TEAL. See website for more information.*

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.
- Grade of C+ or better: Communications Literacy **(CL1)** for General Education Requirements (required for program admission; and can also be met with AP ENGL or an ACT score of 30 or higher).
- Grade of C or better in General Education Requirements of Breadth American Institutions **(BAI)**, Breadth Life Sciences **(BLS)**, Breadth Physical Sciences **(BPS)**, HDFS1500 HUMAN DEV LIFESPAN (BSS) (required for program admission).
- Grade of C- or better for General Education Requirements in Quantitative Literacy **(QL)** (required for program admission).

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
47	120

Simple Requisites

Program Requirements

Minimum Grade Requirements:

- Grade of B- or better: All HDFS, SPED and TEAL courses (except SPED1010 DISABILITY AND SOCIETY (BSS), SPED2910 EARLY FIELD EXPERIENCE IN SPED, SPED5200 STUDENT TEACHING (CI) and SPED5900 INDEPENDENT STUDY).
- Grade of C- or better: All other courses required for the bachelor's degree
- Courses used to fulfill major requirements may *not* be taken pass/fail, except those courses that are only taught on a pass/fail basis.
- 3.0 GPA required in major coursework

Students are required to earn a grade of "B-" or better in all major courses (HDFS, SPED, TEAL prefixes). Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Special Education: Birth to 5 Emphasis - BA, BS

Type
Completion Requirement

Birth to Age 5 Specialization (47 credits)

Fulfill ALL of the following requirements:

Fall Junior Year: Professional Education (16 credits)

Complete ALL of the following Courses:

- HDFS2600 - Seminar in Early Childhood Education - 2cr.
- HDFS2630 - Early Childhood Education Practicum - 2cr.
- HDFS3500 - Infancy and Childhood - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

1. SPED5820 PRESCHOOL PRACT W/DISABILITIES - Enroll in 3 credits.

AND

Spring Senior Year: Student Teaching (15 credits)

Fulfill ALL of the following requirements:

Communication Intensive (CI)

Complete ALL of the following Course Sets:

- Communications Intensive (CI) Courses

AND

Required Course

Complete ALL of the following Courses:

- SPED5200 - Student Teaching in Special Education (CI) - 3cr.

NOTE:

1. SPED5200 STUDENT TEACHING (CI) - May fulfill one of the Communications Intensive (CI) requirements.

Teaching Support (15 credits)

Fulfill ANY of the following requirements:

Earn at least 15 credits from the following:

- ELED1010 - Orientation to Elementary Education - 3cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.
- HDFS2660 - Parenting and Child Guidance - 3cr.
- HEP3000 - Drugs and Human Behavior - 3cr.
- PSY1010 - General Psychology (BSS) - 3cr.
- PSY1400 - Analysis of Behavior: Basic Principles - 3cr.
- PSY1410 - Analysis of Behavior: Basic Principles Lab - 1cr.
- REH2060 - Health Promotion for Individuals with Chronic Illness and Disability - 3cr.
- SPED1010 - Disability and Society (BSS) - 3cr.
- SOC1010 - Introductory Sociology (BSS) - 3cr.
- SPED2910 - Early Field Experience in Special Education - 3cr.
- SW1010 - Introduction to Social Welfare (BSS) - 3cr.
- ASL1010 - American Sign Language I - 4cr.
- SHS3200 - Child Language Development - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

Special Education Online Practical Teacher Training (OPTT): Birth to Age 5 Emphasis - BA, BS

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Undergraduate

About this Degree

This program prepares students to work with young children with disabilities (birth to age five). The Online Practical Teacher Training (OPTT) is an innovative, online special education preparation program specifically designed for individuals currently working in a Utah school as a special education teacher or a special education paraprofessional. Applicants will be fully qualified for preschool special education licensure upon completion of this 5-semester program (fall-spring-summer-fall-spring). The program will be longer for applicants who are completing a first bachelor's degree. To receive a Bachelor's of Arts (BA) degree, please see Undergraduate Academic Credential Requirements for required language courses.

- For more information about Special Education and Rehabilitation Counseling, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- Students following the recommended schedule should be able to complete degree requirements in four years (eight semesters).
- The highest math requirement for this degree is Quantitative Literacy (QL).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.
- Grade of C+ or better: for Communications Literacy **(CL1)** for General Education Requirements (required for program admission; it can also be met with AP ENGL or an ACT score of 30 or higher)
- Grade of C or better in General Education Requirements of Breadth American Institutions **(BAI)**, Breadth Life Sciences **(BLS)**, Breadth Physical Sciences **(BPS)**, HDFS1500 HUMAN DEV LIFESPAN (BSS) (required for program admission).
- Grade of C- or better for General Education Requirements; Quantitative Literacy **(QL)** (required for program admission).

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
57-69	120

Simple Requisites

Program Requirements

Minimum Grade Requirements:

- Grade of B- or better: All SPED and TEAL courses (except SPED1010 DISABILITY AND SOCIETY (BSS), SPED2910 EARLY FIELD EXPERIENCE IN SPED, SPED5230 SPED STUDENT TEACHING (CI), and SPED5900 INDEPENDENT STUDY).

- Grade of C- or better: All other courses required for the bachelor's degree
- Courses used to fulfill major requirements may *not* be taken pass/fail, except those courses that are only taught on a pass/fail basis.
- 3.0 GPA required in major coursework

Students are required to earn a grade of "B-" or better in all major courses (HDFS, SPED, TEAL prefixes). Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Special Education Online Practical Teacher Training (OPTT): Birth to Age 5 Emphasis - BA, BS

Type

Completion Requirement

Professional Education (8 credits)

These courses must be passed with a grade of B- or higher before starting fall semester.

Earn at least 8 credits from the following:

- HDFS4550 - Preschool Methods and Curriculum - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- TEAL2660 - Educational Psychology for Teachers - 2cr.

Birth To Age 5 Specialization (34-46 credits)

Fulfill ALL of the following requirements:

OPTT First Year Fall (11 credits)

Earn at least 11 credits from the following:

- SPED5011 - Foundations in Special Education: Instructional Strategies, Behavior Management, and IEPs - 2cr.
- SPED5012 - Basic Behavior Management and Instructional Strategies (QI) - 3cr.
- SPED5311 - Reading and Language Arts Interventions for Students with Disabilities - 1cr.
- SPED5714 - Early Childhood Development and Social Competency: Implications for Intervention - 3cr.
- SPED5715 - Practicum I: Birth to Five Special Education - 2cr.

NOTE:

1. SPED5311 TEACH RDG/LANG ARTS ST W/DIS - Enroll in 1 credit.

AND

OPTT First Year Spring (7 credits)

Earn at least 7 credits from the following:

- SPED5014 - Foundations in Assessment - 2cr.
- SPED5711 - Introduction to Instruction for Preschoolers with Disabilities - 3cr.
- SPED5725 - Practicum II: Birth to Five Special Education - 2cr.

AND

OPTT First Year Summer (6 credits)

Earn at least 6 credits from the following:

- SPED5015 - Law/Policies/Procedures - 3cr.
- SPED5713 - Early Intervention: Services for Infants and Families - 3cr.

AND

OPTT Second Year Fall (7 credits)

Earn at least 7 credits from the following:

- SPED5013 - Advanced Behavior Management and Instructional Strategies - 3cr.
- SPED5016 - Technology and Collaboration for Teaching Exceptional Learners - 3cr.
- SPED5018 - Eligibility Assessment - 1cr.

AND

OPTT Second Year Spring (3-15 credits)

Complete ALL of the following Courses:

- SPED5230 - Special Education Student Teaching (CI) - 3cr.

NOTE:

1. SPED5230 SPED STUDENT TEACHING (CI) - 15 credits for first bachelor's; 3 credits for second bachelor's.

Teaching Support (15 credits)

Fulfill ANY of the following requirements:

Earn at least 15 credits from the following:

- SPED1010 - Disability and Society (BSS) - 3cr.
- ELED1010 - Orientation to Elementary Education - 3cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.
- HDFS2660 - Parenting and Child Guidance - 3cr.
- HEP3000 - Drugs and Human Behavior - 3cr.
- PSY1400 - Analysis of Behavior: Basic Principles - 3cr.
- PSY1410 - Analysis of Behavior: Basic Principles Lab - 1cr.
- SOC1010 - Introductory Sociology (BSS) - 3cr.
- SPED2910 - Early Field Experience in Special Education - 3cr.
- SW1010 - Introduction to Social Welfare (BSS) - 3cr.
- ASL1010 - American Sign Language I - 4cr.
- SHS3200 - Child Language Development - 3cr.

NOTE:

1. SPED2910 EARLY FIELD EXPERIENCE IN SPED - May repeat for 6 total credits.

Open Electives

Special Education - BA, BS

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Undergraduate

About this Degree

Students graduating from USU with a degree in special education are highly sought after by school districts across Utah and the United States. Utah State has a 100% job placement rate for special education graduates, with many students getting hired before they even graduate.

The department offers a number of unique educational and training opportunities for those interested in working with children and youth with disabilities. The program prepares students to work with individuals who have mild, moderate, and severe disabilities, as well as young children with disabilities. Students are given the opportunity to gain hands-on experience working with local school districts or on-campus programs.

Students receive a first or 2nd BS by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages. See Undergraduate Academic Credential Requirements for required language courses.

- For more information about Special Education and Rehabilitation Counseling, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Worksto check student-specific program progress.
- The highest math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 3.0 GPA.

Special Education - EdS

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Graduate

About this Degree

The educational specialist degree is designed for advanced graduate students seeking instruction beyond a master's degree. Programs are individually planned to address specific student needs. Completion of the EdS program is based on completion of required coursework, submission of a research proposal to a supervisory committee, and satisfactory defense of the research project.

Special Education - MEd

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Graduate

About this Degree

Program Contact:

Kris Wengreen, Graduate Program Coordinator (GPC), kris.wengreen@usu.edu, 435-797-3246

Program Description:

The Master of Education degree program is designed for persons who desire a graduate program that will help them improve their competencies as educators. This includes school personnel, as well as individuals who are involved in education-related activities across a variety of community, work, and clinical settings. The MEd degree focuses on improving instruction and management practices, implementing legal requirements, professional collaboration, and translating research into practice.

Admission Requirements for this Program

Online application, application fee, official transcripts, 3 letters of recommendation, statement of purpose, and resume.

Additional information about the Special Education MEd program may be obtained by contacting the Department of Special Education and Rehabilitation Counseling or by visiting the program website at https://cehs.usu.edu/sperc/sped/masters/master-of-education

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
36	36

Simple Requisites

Program Requirements

School of Graduate Studies Requirements:

- All candidates must complete a creative project which consists of a professional portfolio or a research project. A minimum of 36 credits, including a creative project is required for the MEd degree. Students are not required to complete a particular area of specialization but are encouraged to fill their required elective credits with courses that align with their interests.
- Students interested in the School Leadership Licensure option should indicate that interest on their initial master's application and submit an additional application to the School of Teacher Education and Leadership.
- Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- Course Number Acceptability: The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000. The Program of Study for a master's degree must include at least 15 semester credits at the level of 6000 or above.
- Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
- Master's forms: Approval of the Program of Study is required by the School of Graduate Studies. Successful defense and submission of the project to the library.

Master's forms:

- Supervisory Committee Form
- Program of Study
- Thesis/Project Approval
- Appointment for Exam
- Plan B Report/Creative Project Submission
- Graduation Application

Master of Education (MEd)

All master's students are required to enroll in courses that support their area(s) of interest. Courses may either be taken in the Department of Special Education and Rehabilitation Counseling or other departments. Coursework taken post bachelor's degree can be applied from licensure or endorsement areas such as:

- School Leadership Licensure option
- Dual Sensory Impairments
- Early Childhood
- English as a Second Language
- Mild/Moderate
- Reading
- Severe Disabilities

Coursework can be applied from a single program or accrued across departments such as:

- Elementary Education
- Family and Human Development
- Instructional Technology
- Psychology
- Program Evaluation
- Secondary Education
- Sociology or Social Work

For more specific information, please visit the department's website: http://cehs.usu.edu/sperc/sped/masters/index

MEd with School Leadership Licensure

The Master of Education with the School Leadership Licensure option is designed for individuals pursuing administrative or supervisory positions in the public school system. The program combines the special education focus on refining school practices in terms of instruction and management practices, legal requirements, and professional collaboration with the knowledge and

competencies of the School Leadership Licensure option. A separate application to the Teacher Education and Leadership department is required for this program. For more information, please visit the department's website.

Special Education: Mild/Moderate & Birth to 5 Dual Emphasis - BA, BS

Program Overview

College
College of Education & Human Services

Department
Special Education & Rehab Counseling

Program Level
Undergraduate

About this Degree

The program prepares students to work with individuals who have minimal to moderate support needs, as well as young children with disabilities. Students are given the opportunity to gain hands-on experience working with local school districts or on-campus programs.

This dual-emphasis prepares graduates to work with children ages birth to five years who have disabilities. Children ages birth to three years are typically served by early intervention programs in their homes. Children three to five years are taught in public preschool settings within local school districts. This dual-emphasis also prepares graduates to work with students who have high-incidence disabilities, such as learning disabilities, minimal to moderate intellectual disabilities, behavior and emotional disorders, or communication disorders. Educators work with children in grades K-12 in a resource-room setting or inclusive setting teaching academic skills.

- For more information about Special Education and Rehabilitation, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- Students following the recommended schedule should be able to complete degree requirements in five years (nine semesters). This degree is a dual emphasis degree, so it is not possible to complete in four years.
- The highest math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).
- For the Bachelor of Arts (BA) see Undergraduate Academic Credential Requirements for language requirements.

Admission Requirements for this Program

Pre-Special Education Major Admission Requirements

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.
- Grade of C+ or better: for Communications Literacy **(CL1)** General Education Requirements (required for program admission; it can also be met with AP ENGL or an ACT score of 30 or higher)
- Grade of C or better: General Education Requirements (Breadth American Institutions **(BAI)**, Breadth Life Sciences **(BLS)**, Breadth Physical Sciences **(BPS)**, HDFS1500 HUMAN DEV LIFESPAN (BSS) (required for program admission)
- Grade of C- or better in Quantitative Literacy (QL) (required for program admission)

Program Requirements

Total Credits Required In Program Coursework
77-79

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Minimum Grade Requirements:

- Grade of B- or better: All other HDFS, SPED, TEAL courses courses (except SPED1010 DISABILITY AND SOCIETY (BSS), SPED2910 EARLY FIELD EXPERIENCE IN SPED, SPED5200 STUDENT TEACHING (CI), and SPED5900 INDEPENDENT STUDY).
- Grade of C or better in MATH2010 ALG/NUMER FOR ELED TEACH (QI) and MATH2020 GEOMETRY/STAT ELED TEACH(QI)
- Grade of C- or better in all other courses required for the bachelor's degree
- Courses used to fulfill major requirements may not be taken pass/fail, except those courses that are only taught on a pass/fail basis.
- 3. 0 GPA required in major coursework

Students are required to earn a grade of "B-" or better in all major courses (SPED, TEAL, ELED prefixes). Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Special Education: Mild/Moderate & Birth to 5 Dual Emphasis - BA, BS

Type
Completion Requirement

Math Requirements (9-11 credits)

Fulfill ALL of the following requirements:

Quantitative Literacy (QL)

Complete ALL of the following Course Sets:

- Quantitative Literacy (QL) Course

AND

Courses

Complete ALL of the following Courses:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Professional Education (20 credits)

Complete ALL of the following Courses:

- ELED3100 - Classroom Reading Instruction - 3cr.
- HDFS2600 - Seminar in Early Childhood Education - 2cr.
- HDFS2605 - Early Childhood Education Practicum - 2cr.

Complete ALL of the following Courses:

- SPED5710 - Young Children with Disabilities: Characteristics and Services - 3cr.

AND

Student Teaching (15 credits)

Complete ALL of the following Courses:

- SPED5200 - Student Teaching in Special Education (CI) - 3cr.

NOTE:

1. SPED5200 STUDENT TEACHING (CI) - Enroll in 15 credits.

Open Electives

Complete the following as needed:

Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Special Education: Mild/Moderate Emphasis - BA, BS

Program Overview

College
College of Education & Human Services

Department
Special Education & Rehab Counseling

Program Level
Undergraduate

About this Degree

The program prepares students to work with individuals who have minimal to moderate support needs. Students are given the opportunity to gain hands-on experience working with local school districts or on-campus programs.

Mild/Moderate Disabilities Emphasis: This emphasis prepares graduates to work with students who have high-incidence disabilities, such as learning disabilities, mild/moderate intellectual disabilities, behavior and emotional disorders, or communication disorders. Educators work with children in grades K-12 in a resource-room setting or inclusive setting teaching academic skills. To receive a Bachelor's of Arts (BA) degree, please see Undergraduate Academic Credential Requirements for required language courses.

- For more information about Special Education and Rehabilitation Counseling, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Worksto check student-specific program progress.
- Students following the recommended schedule should be able to complete degree requirements in four years (eight semesters).
- The highest math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).

***Dual licensure programs are available on the Logan Main Campus for Special Education Mild/Moderate majors within special education with severe and birth to five emphases or with elementary education or secondary content majors in the School of TEAL. See website for more information.*

Admission Requirements for this Program

Pre-Special Education Major Admission Requirements

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.
- Grade of C+ or better: for Communications Literacy **(CL1)** General Education Requirements (required for program admission; it can also be met with AP ENGL or an ACT score of 30 or higher).
- Grade of C or better: General Education Requirements (Breadth American Institutions **(BAI)**, Breadth Life Sciences **(BLS)**, Breadth Physical Sciences **(BPS)**, HDFS1500 HUMAN DEV LIFESPAN (BSS) (required for program admission).
- Grade of C- or better in Quantitative Literacy (QL) (required for program admission).

Program Requirements

Total Credits Required In Program Coursework
81-83

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Minimum Grade Requirements:

- Grade of B- or better: All other HDFS, SPED, TEAL courses courses (except SPED1010 DISABILITY AND SOCIETY (BSS), SPED2910 EARLY FIELD EXPERIENCE IN SPED, SPED5200 STUDENT TEACHING (CI), and SPED5900 INDEPENDENT STUDY).
- Grade of C or better in MATH2010 ALG/NUMER FOR ELED TEACH (QI) and MATH2020 GEOMETRY/STAT ELED TEACH(QI)
- Grade of C- or better in all other courses required for the bachelor's degree
- Courses used to fulfill major requirements may not be taken pass/fail, except those courses that are only taught on a pass/fail basis.
- 3. 0 GPA required in major coursework

Students are required to earn a grade of "B-" or better in all major courses (SPED, TEAL, ELED prefixes). Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Special Education: Mild/Moderate Emphasis - BA, BS

Type
Completion Requirement

Mild/Moderate Specialization (57 credits)

All courses listed below must be passed with a grade of B- or higher before beginning the next semester of SPED courses.

Fulfill ALL of the following requirements:

Junior Fall: Professional Education (14 credits)

Complete ALL of the following Courses:

- ELED3100 - Classroom Reading Instruction - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- SPED5030 - Assessment in Special Education - 2cr.
- SPED5040 - Foundations of Effective Instructional Practices - 4cr.
- TEAL2660 - Educational Psychology for Teachers - 2cr.

AND

Junior Spring (16 credits)

Complete ALL of the following Courses:

- SPED5010 - Applied Behavioral Analysis 1: Principles, Assessment, and Analysis (QI) - 3cr.
- SPED5070 - Policies, Procedures, and Collaboration in Special Education - 3cr.
- SPED5310 - Teaching Reading and Language Arts to Students with Disabilities - 1cr.
- SPED5340 - Teaching Math to Students with Mild/Moderate Disabilities - 3cr.
- SPED5410 - Practicum I (Elementary) for Mild/Moderate Disabilities - 3cr.

NOTE:

1. SPED5310 TEACH READ/LANG ARTS ST W/DIS - Enroll in 4 credits.

AND

Senior Fall (12 credits)

Complete ALL of the following Courses:

- SPED5050 - Applied Behavioral Analysis 2: Applications - 3cr.
- SPED5080 - Transition-Focused Education and Collaboration - 2cr.
- SPED5420 - Practicum II (Secondary) for Mild/Moderate Disabilities - 3cr.
- SPED5530 - Family/Professional Collaboration and Technology for Teaching Exceptional Learners - 3cr.

NOTE:

1. SPED5420 PRACT II: SECONDARY MM DISABIL - Enroll in 4 credits.

AND

Senior Spring (15 credits)

Complete ALL of the following Courses:

- SPED5200 - Student Teaching in Special Education (CI) - 3cr.

NOTE:

1. SPED5200 STUDENT TEACHING (CI) - Enroll in 15 credits.

Teaching Support (15 credits)

Earn at least 15 credits from the following:

- SPED1010 - Disability and Society (BSS) - 3cr.
- ELED1010 - Orientation to Elementary Education - 3cr.
- ASL1010 - American Sign Language I - 4cr.
- HDFS2660 - Parenting and Child Guidance - 3cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.
- HEP2000 - First Aid and Emergency Care - 2cr.
- HEP3000 - Drugs and Human Behavior - 3cr.
- PSY1400 - Analysis of Behavior: Basic Principles - 3cr.
- PSY1410 - Analysis of Behavior: Basic Principles Lab - 1cr.
- SOC1010 - Introductory Sociology (BSS) - 3cr.
- SW1010 - Introduction to Social Welfare (BSS) - 3cr.
- REH2060 - Health Promotion for Individuals with Chronic Illness and Disability - 3cr.
- PSY1010 - General Psychology (BSS) - 3cr.
- SPED2910 - Early Field Experience in Special Education - 3cr.
- SHS3200 - Child Language Development - 3cr.

NOTE:

1. SPED2910 EARLY FIELD EXPERIENCE IN SPED - May repeat this course for credit.

Math Requirements (9-11 credits)

Fulfill ALL of the following requirements:

Quantitative Literacy (QL)

Complete ALL of the following Course Sets:

- Quantitative Literacy (QL) Course

AND

Math Courses

Complete ALL of the following Courses:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Special Education Online Practical Teacher Training (OPTT): Mild/Moderate Emphasis - BA, BS

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Undergraduate

About this Degree

USU OPTT is an innovative, online special education preparation program specifically designed for individuals currently working in a Utah school as a special education teacher or a special education paraprofessional. Applicants may choose to specialize in either early childhood special education, K-12 complex support needs, or K-12 minimal/moderate support needs, and will be fully qualified for special education licensure upon completion of this 5-semester program (fall-spring-summer-fall-spring). The program will be longer for applicants who are completing a first bachelor's degree. To receive a Bachelor's of Arts (BA) degree, please see Undergraduate Academic Credential Requirements for required language courses.

Mild/Moderate Disabilities Emphasis: This emphasis prepares graduates to work with students who have high-incidence disabilities, such as learning disabilities, minimal/moderate support needs, behavior and emotional disorders, or communication disorders. Educators work with children in grades K-12 in a resource-room setting or inclusive setting teaching academic skills.

- For more information about Special Education and Rehabilitation Counseling, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- Students following the recommended schedule should be able to complete degree requirements in four years (eight semesters).
- The highest math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.
- Grade of C+ or better: Communications Literacy **(CL1)** for General Education Requirements (required for program admission; it can also be met with AP ENGL or an ACT score of 30 or higher)
- Grade of C or better in General Education Requirements of Breadth American Institutions **(BAI)**, Breadth Life Sciences **(BLS)**, Breadth Physical Sciences **(BPS)**, HDFS1500 HUMAN DEV LIFESPAN (BSS) (required for program admission).
- Grade of C- or better for General Education Requirements; Quantitative Literacy **(QL)** (required for program admission).

- Grade of C- or better: All other courses required for the bachelor's degree
- Courses used to fulfill major requirements may *not* be taken pass/fail, except those courses that are only taught on a pass/fail basis.
- 3.0 GPA required in major coursework

Students are required to earn a grade of "B-" or better in all major courses (HDFS, SPED, TEAL prefixes). Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Special Education Online Practical Teacher Training (OPTT): Mild/Moderate Emphasis - BA, BS

Type

Completion Requirement

Math Requirements (9-11 credits)

Fulfill ALL of the following requirements:

Quantitative Literacy (QL)

Complete ALL of the following Course Sets:

- Quantitative Literacy (QL) Course

AND

Required Math Requirements

Complete ALL of the following Courses:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Professional Education (8 credits)

Must be admitted to Special Education before taking ELED3100 CLASSROOM READING INSTRUCTION and TEAL2660 EDUCATIONAL PSYCH FOR TEACHERS. All of courses listed below must be passed with a grade of B- or higher before beginning the next semester of SPED courses.

Complete ALL of the following Courses:

- ELED3100 - Classroom Reading Instruction - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- TEAL2660 - Educational Psychology for Teachers - 2cr.

Mild/Moderate Specialization (32-44 credits)

Fulfill ALL of the following requirements:

Junior Year Fall:

Complete ALL of the following Courses:

- SPED5011 - Foundations in Special Education: Instructional Strategies, Behavior Management, and IEPs - 2cr.
- SPED5012 - Basic Behavior Management and Instructional Strategies (QI) - 3cr.
- SPED5311 - Reading and Language Arts Interventions for Students with Disabilities - 1cr.
- SPED5415 - Practicum I for Mild/Moderate Disabilities - 3cr.

NOTE:

1. SPED5311 TEACH RDG/LANG ARTS ST W/DIS - Enroll in 3 credits.

AND

Junior Year Spring:

Complete ALL of the following Courses:

- SPED5014 - Foundations in Assessment - 2cr.
- SPED5312 - MM K-12 Math Content, Applications, and Co-Teaching - 3cr.
- SPED5425 - Practicum II for Mild/Moderate Disabilities - 4cr.

AND

Junior Year Summer

Complete ALL of the following Courses:

- SPED5015 - Law/Policies/Procedures - 3cr.

AND

Senior Year Fall:

Complete ALL of the following Courses:

- SPED5013 - Advanced Behavior Management and Instructional Strategies - 3cr.
- SPED5016 - Technology and Collaboration for Teaching Exceptional Learners - 3cr.
- SPED5018 - Eligibility Assessment - 1cr.

AND

Senior Year Spring

Complete ALL of the following Courses:

- SPED5017 - Transition Planning and Collaboration for Exceptional Learners - 3cr.
- SPED5230 - Special Education Student Teaching (CI) - 3cr.

NOTE:

1. SPED5230 SPED STUDENT TEACHING (CI) - **15 credits for first bachelor's; 3 credits for a second bachelor's.**

Teaching Support (15 credits)

Earn at least 15 credits from the following:

- ASL1010 - American Sign Language I - 4cr.
- ELED1010 - Orientation to Elementary Education - 3cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.
- HDFS2660 - Parenting and Child Guidance - 3cr.

- HDFS3100 - Abuse and Neglect in Family Context - 3cr.
- HEP2000 - First Aid and Emergency Care - 2cr.
- HEP3000 - Drugs and Human Behavior - 3cr.
- PSY1010 - General Psychology (BSS) - 3cr.
- PSY1400 - Analysis of Behavior: Basic Principles - 3cr.
- PSY1410 - Analysis of Behavior: Basic Principles Lab - 1cr.
- REH2060 - Health Promotion for Individuals with Chronic Illness and Disability - 3cr.
- SHS3200 - Child Language Development - 3cr.
- SOC1010 - Introductory Sociology (BSS) - 3cr.
- SPED1010 - Disability and Society (BSS) - 3cr.
- SPED2910 - Early Field Experience in Special Education - 3cr.
- SW1010 - Introduction to Social Welfare (BSS) - 3cr.

NOTE:

1. SPED2910 EARLY FIELD EXPERIENCE IN SPED - Up to six credits.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

Special Education: Mild/Moderate & Severe Dual Emphasis - BA, BS

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Undergraduate

About this Degree

The program prepares students to work with individuals who have minimal to moderate support needs and complex support needs. Students are given the opportunity to gain hands-on experience working with local school districts or on-campus programs.

This dual-emphasis prepares graduates to work with students who have high-incidence disabilities, such as learning disabilities, minimal to moderate support needs, behavior and emotional disorders, or communication disorders. Educators work with children in grades K-12 in a resource-room setting or inclusive setting teaching academic skills. This dual-emphasis also prepares graduates to work with students who have low-incidence disabilities, such as intellectual disabilities, physical disabilities, autism spectrum disorder, traumatic and acquired brain injury, and multiple disabilities. Graduates typically teach academic and life skills in a K-12 classroom or in a post-secondary setting (students age 18-21).

- For more information about Special Education and Rehabilitation, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).

Admission Requirements for this Program

Pre-Special Education Major Admission Requirements

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.
- Grade of C+ or better: Communications Literacy **(CL1)** for General Education Requirements (required for program admission; it can also be met with AP ENGL or an ACT score of 30 or higher)
- Grade of C or better: General Education Requirements; **BAI, BLS, BPS**, HDFS1500 HUMAN DEV LIFESPAN (BSS), (required for program admission)
- Grade of C- or better in Quantitative Literacy (QL) required for program admission)

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
70-72	120

Simple Requisites

Program Requirements

Minimum Grade Requirements:

- Grade of B- or better: All SPED, TEAL and ELED courses (except SPED1010 DISABILITY AND SOCIETY (BSS), SPED2910 EARLY FIELD EXPERIENCE IN SPED, SPED5200 STUDENT TEACHING (CI), SPED5900 INDEPENDENT STUDY)
- Grade of C or better in MATH2010 ALG/NUMER FOR ELED TEACH (QI) and MATH2020 GEOMETRY/STAT ELED TEACH(QI)
- Grade of C- or better: All other courses required for the bachelor's degree
- Courses used to fulfill major requirements may not be taken pass/fail, except those courses that are only taught on a pass/fail basis.
- 3.0 GPA required in major coursework
- For Bachelor of Arts (BA) degree see Undergraduate Academic Credential Requirements for language requirements.

Students are required to earn a grade of "B-" or better in all major courses (SPED, TEAL, ELED prefixes). Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Special Education - MS

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Graduate

About this Degree

Program Contact:

Kris Wengreen, Graduate Program Coordinator (GPC), kris.wengreen@usu.edu, 435-797-3246

Program Description:

The Master of Science degree program is designed for persons who desire a graduate program that will help them improve their competencies as educators while also gaining expertise in educational research. This includes school personnel, as well as individuals who are involved in education-related activities across a variety of community, work, and clinical settings. The MS degree focuses on acquiring the knowledge and skills needed to evaluate and conduct educational research, improving instruction and management practices, implementing legal requirements, professional collaboration, and translating research into practice.

Admission Requirements for this Program

Online application, application fee, official transcripts, 3 letters of recommendation, statement of purpose, and resume.

Additional information about the Special Education MS program may be obtained by contacting the Department of Special Education and Rehabilitation Counseling or by visiting the program website at https://cehs.usu.edu/sperc/sped/masters/master-of-science

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
30	30-36

Simple Requisites

Program Requirements

Program Requirements:

All candidates must complete a thesis project. A minimum of 30-36 credits (depending on the specific program), including a thesis project is required for the MS degree. Students in the SPED MS Program are not required to complete a particular area of specialization but are encouraged to fill their required elective credits with courses that align with their particular interests. Students in the SPED MS with Applied Behavior Analysis (ABA) focus must complete a required course sequence (no elective credits).

All master's students are required to enroll in courses that support their area(s) of interest. Courses may either be taken in the Department of Special Education and Rehabilitation Counseling or in other departments. Coursework taken post bachelor's degree can be applied from licensure or endorsement areas such as:

- Administrative/Supervisory
- Dual Sensory Impairments
- Early Childhood
- English as a Second Language
- Mild/Moderate
- Reading
- Severe Disabilities

Coursework can be applied from a single program or accrued across departments such as:

- Elementary Education
- Family and Human Development
- Instructional Technology
- Program Evaluation
- Psychology
- Secondary Education
- Sociology or Social Work

For more specific information, please visit the department's website: https://cehs.usu.edu/sperc/sped/masters/master-of-science.

Degree Requirements

- A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- The Program of Study for a master's degree must include at least 15 semester credits at the level of 6000 or above.The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
- Approval of academic forms required for master's students by the School of Graduate Studies.
- Successful defense and submission of the project to the library.

Master's forms:

- Supervisory Committee Form
- Program of Study
- Thesis Proposal Approval
- Appointment for Exam
- Authorship & Copyright
- Format and Style
- Title Page
- Graduation Application

M.S. with Applied Behavior Analysis Coursework

In the M.S. with Applied Behavior Analysis (ABA) concentration, students complete coursework that meets eligibility requirements to take the Behavior Analyst Certification Board Exam. Individuals already possessing a master's degree can apply to take only the ABA courses. Students will gain valuable conceptual knowledge and clinical and research experience that will strengthen their professional skills and/or prepare them for further graduate study. For more specific information, please visit the department's website: https://cehs.usu.edu/sperc/sped/masters/ms-with-aba

MS Transition Concentration

The Master of Science Transition Concentration degree program will prepare special education teachers licensed at the bachelor's level and other eligible graduate students to (a) provide transition services preparing individuals with disabilities for adult living, and (b) support and monitor individuals with disabilities in post-secondary education and supported/competitive employment. Students will take "core" master's courses along with transition-related courses.

Special Education - MS (30-36 credits)

Type
Completion Requirement

Special Education MS Core Courses

Complete ALL of the following Courses:

- SPED6060 - Legal Issues in Special Education - 3cr.
- SPED6700 - Introduction to Behavioral Research in Education - 3cr.
- SPED6720 - Educational Applications of Behavior Analysis I - 3cr.
- SPED6770 - Coaching and Systems Change - 3cr.
- SPED6970 - Thesis - 1cr.

NOTE:

SPED6970 THESIS - Minimum of 6 Thesis credits required. May be completed in one semester or spread across multiple semesters.

SPED MS - No Specialization (36 total credits)

All SPED MS (no specialization required) must complete these core courses.

Complete ALL of the following Courses:

- SPED6300 - Effective Practices with Culturally and Linguistically Diverse Populations - 3cr.
- SPED6900 - Independent Study - 1cr.

• Elective credits approved by advisor- 12 credit(s)

NOTE:

SPED6900 INDEPENDENT STUDY - Enroll in 3 credits.

SPED MS with ABA Coursework (30 total credits)

Complete ALL of the following Courses:

- SPED6710 - Concepts and Principles of Behavior Analysis in Education - 3cr.
- SPED6730 - Educational Applications of Behavior Analysis II - 3cr.
- SPED6780 - Ethics & Professional Behavior in Behavior Analysis - 3cr.
- SPED6790 - Special Topics - 1cr.

NOTE:

1. SPED6790 SPECIAL TOPICS - enroll in ST: Conceptual Framework of Beh Analysis/Exper Beh Analysis

Special Education: Severe & Birth to 5 Dual Emphasis - BA, BS

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Undergraduate

About this Degree

The program prepares students to work with individuals who have complex support needs, as well as young children with disabilities. Students are allowed to gain hands-on experience working with local school districts or on-campus programs. This dual emphasis prepares graduates to work with children ages birth to five years who have disabilities. Children ages birth to three years are typically served by early intervention programs in their homes. Children three to five years old are taught in public preschool settings within local school districts. Students in this emphasis combine this emphasis with the complex support needs emphasis. This dual emphasis also prepares graduates to work with students who have low-incidence disabilities, such as intellectual disabilities, physical disabilities, autism spectrum disorder, traumatic and acquired brain injury, and multiple disabilities. Graduates typically teach academic and life skills in a K-12 classroom or in a post-secondary setting (students aged 18-21).

- For more information about Special Education and Rehabilitation Counseling, see the department website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- Students following the recommended schedule should be able to complete degree requirements in four years (eight semesters).
- The highest math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).

Admission Requirements for this Program

Pre-Special Education Major Admission Requirements

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.
- Grade of C+ or better: for Communications Literacy **(CL1)** General Education Requirements (required for program admission; it can also be met with AP ENGL or an ACT score of 30 or higher)
- Grade of C or better: General Education Requirements (Breadth American Institutions **(BAI)**, Breadth Life Sciences **(BLS)**, Breadth Physical Sciences **(BPS)**, HDFS1500 HUMAN DEV LIFESPAN (BSS) (required for program admission)
- Grade of C- or better in Quantitative Literacy (QL) (required for program admission)

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
88-90	124

Simple Requisites

Program Requirements

Minimum Grade Requirements:

- Grade of B- or better: All other HDFS, SPED, TEAL courses courses (except SPED1010 DISABILITY AND SOCIETY (BSS), SPED2910 EARLY FIELD EXPERIENCE IN SPED, SPED5200 STUDENT TEACHING (CI), and SPED5900 INDEPENDENT STUDY).
- Grade of C or better in MATH2010 ALG/NUMER FOR ELED TEACH (QI) and MATH2020 GEOMETRY/STAT ELED TEACH(QI)
- Grade of C- or better in all other courses required for the bachelor's degree
- Courses used to fulfill major requirements may not be taken pass/fail, except those courses that are only taught on a pass/fail basis.
- 3. 0 GPA required in major coursework

Students are required to earn a grade of "B-" or better in all major courses (SPED, TEAL, ELED prefixes). Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Special Education: Severe & Birth to 5 Dual Emphasis - BA, BS

Type

Completion Requirement

Math Requirements (9-11 credits)

Fulfill ALL of the following requirements:

Quantitative Literacy (QL)

Complete ALL of the following Course Sets:

- Quantitative Literacy (QL) Course

AND

Courses

Complete ALL of the following Courses:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Professional Education (14 credits)

Students must be officially admitted to the Special Education program before taking any Professional Education or Specialization Coursework.

Earn at least 14 credits from the following:

- ELED3100 - Classroom Reading Instruction - 3cr.
- HDFS2600 - Seminar in Early Childhood Education - 2cr.
- HDFS2630 - Early Childhood Education Practicum - 2cr.
- HDFS3500 - Infancy and Childhood - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- SPED5030 - Assessment in Special Education - 2cr.
- SPED5040 - Foundations of Effective Instructional Practices - 4cr.
- SPED5920 - Internship in Early Intervention - 1cr.

Severe & Birth to Five Specializations (65 credits)

Fulfill ALL of the following requirements:

Junior Spring (14 credits)

Complete ALL of the following Courses:

- SPED5010 - Applied Behavioral Analysis 1: Principles, Assessment, and Analysis (QI) - 3cr.
- SPED5070 - Policies, Procedures, and Collaboration in Special Education - 3cr.
- SPED5310 - Teaching Reading and Language Arts to Students with Disabilities - 1cr.
- SPED5510 - Curriculum and Assessment for Students with Severe Disabilities I - 2cr.
- SPED5600 - Practicum I Severe - 3cr.

NOTE:

1. SPED5310 TEACH READ/LANG ARTS ST W/DIS - Enroll in 2 credits.
2. SPED5600 PRACTICUM I SEVERE - Enroll in 3 credits.

AND

Senior Fall (18 credits)

Complete ALL of the following Courses:

- SPED5050 - Applied Behavioral Analysis 2: Applications - 3cr.
- SPED5080 - Transition-Focused Education and Collaboration - 2cr.
- SPED5520 - Curriculum and Assessment for Students with Severe Disabilities II - 3cr.
- SPED5530 - Family/Professional Collaboration and Technology for Teaching Exceptional Learners - 3cr.
- SPED5610 - Practicum II Severe - 2cr.
- SPED5730 - Intervention Strategies for Young Children with Disabilities - 3cr.
- SPED5820 - Preschool Practicum with Young Children with Disabilities in Community Environments - 2cr.

NOTE:

1. SPED5610 PRACTICUM II SEVERE - Enroll in 2 credits.
2. SPED5820 PRESCHOOL PRACT W/DISABILITIES - Enroll in 2 credits.

AND

Senior Spring (18 credits)

Complete ALL of the following Courses:

- SPED5710 - Young Children with Disabilities: Characteristics and Services - 3cr.
- SPED5810 - Seminar and Field Experiences with Infants and Families - 4cr.
- SPED5840 - Practicum: Working with Young Children with Autism - 1cr.

AND

Student Teaching (15 credits)

Complete ALL of the following Courses:

- SPED5200 - Student Teaching in Special Education (CI) - 3cr.

NOTE:

1. SPED5200 STUDENT TEACHING (CI) - Enroll in 15 credits.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Special Education: Severe Emphasis - BA, BS

Program Overview

College
College of Education & Human Services

Department
Special Education & Rehab Counseling

Program Level
Undergraduate

About this Degree

This program prepares students to work with individuals who have complex support needs. Students are given the opportunity to gain hands-on experience working with local school districts or on-campus programs.

Severe Emphasis: This emphasis prepares graduates to work with students who have low-incidence disabilities, such as intellectual disabilities, physical disabilities, autism spectrum disorder, traumatic and acquired brain injury, and multiple disabilities. Graduates typically teach academic and life skills in a K-12 classroom or in a post-secondary setting (students age 18-21).

- For more information about Special Education and Rehabilitation, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- Students following the recommended schedule should be able to complete degree requirements in four years (eight semesters).
- The highest math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).

***Dual licensure programs are available on the Logan Main Campus for Special Education Severe Emphasis majors within special education with mild/moderate and birth to 5 emphases or with elementary education or secondary education content majors in the School of TEAL See website for more information.*

Admission Requirements for this Program

Pre-Special Education Major Admission Requirements

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.
- Grade of C+ or better: for Communications Literacy **(CL1)** General Education Requirements (required for program admission; it can also be met with AP ENGL or an ACT score of 30 or higher).
- Grade of C or better: General Education Requirements (Breadth American Institutions **(BAI)**, Breadth Life Sciences **(BLS)**, Breadth Physical Sciences **(BPS)**, HDFS1500 HUMAN DEV LIFESPAN (BSS) (required for program admission).
- Grade of C- or better in Quantitative Literacy (QL) (required for program admission).

Program Requirements

Total Credits Required In Program Coursework
79-81

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Minimum Grade Requirements:

- Grade of B- or better: All other HDFS, SPED, TEAL courses courses (except SPED1010 DISABILITY AND SOCIETY (BSS), SPED2910 EARLY FIELD EXPERIENCE IN SPED, SPED5200 STUDENT TEACHING (CI), and SPED5900 INDEPENDENT STUDY).
- Grade of C or better in MATH2010 ALG/NUMER FOR ELED TEACH (QI) and MATH2020 GEOMETRY/STAT ELED TEACH(QI)
- Grade of C- or better in all other courses required for the bachelor's degree
- Courses used to fulfill major requirements may not be taken pass/fail, except those courses that are only taught on a pass/fail basis.
- 3. 0 GPA required in major coursework

Students are required to earn a grade of "B-" or better in all major courses (SPED, TEAL, ELED prefixes). Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Special Education: Severe Emphasis - BA, BS

Type
Completion Requirement

Math Requirements (9-11 credits)

Fulfill ALL of the following requirements:

Quantitative Literacy (QL)

Complete ANY of the following Course Sets:

- Quantitative Literacy (QL) Course

AND

Math Courses

Complete ALL of the following Courses:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Junior Fall: Professional Education (14 credits)

Complete ALL of the following Courses:

- ELED3100 - Classroom Reading Instruction - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- SPED5030 - Assessment in Special Education - 2cr.
- SPED5040 - Foundations of Effective Instructional Practices - 4cr.
- TEAL2660 - Educational Psychology for Teachers - 2cr.

Severe Specialization (41 credits)

Fulfill ALL of the following requirements:

Junior Spring (13 credits)

Complete ALL of the following Courses:

- SPED5010 - Applied Behavioral Analysis 1: Principles, Assessment, and Analysis (QI) - 3cr.
- SPED5070 - Policies, Procedures, and Collaboration in

Special Education - 3cr.
- SPED5310 - Teaching Reading and Language Arts to Students with Disabilities - 1cr.
- SPED5510 - Curriculum and Assessment for Students with Severe Disabilities I - 2cr.
- SPED5600 - Practicum I Severe - 3cr.

NOTE:

1. SPED5310 TEACH READ/LANG ARTS ST W/DIS - Enroll in 2 credits.

AND

Senior Fall (13 credits)

Complete ALL of the following Courses:
- SPED5050 - Applied Behavioral Analysis 2: Applications - 3cr.
- SPED5080 - Transition-Focused Education and Collaboration - 2cr.
- SPED5520 - Curriculum and Assessment for Students with Severe Disabilities II - 3cr.
- SPED5530 - Family/Professional Collaboration and Technology for Teaching Exceptional Learners - 3cr.
- SPED5610 - Practicum II Severe - 2cr.

AND

Student Teaching (15 credits)

Complete ALL of the following Courses:
- SPED5200 - Student Teaching in Special Education (CI) - 3cr.

NOTE:

1. SPED5200 STUDENT TEACHING (CI) - Enroll in 15 credits.

Teaching Support (15 credits)

Fulfill ANY of the following requirements:

Complete ANY of the following Courses:
- ASL1010 - American Sign Language I - 4cr.
- ELED1010 - Orientation to Elementary Education - 3cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.
- HDFS2660 - Parenting and Child Guidance - 3cr.
- HEP3000 - Drugs and Human Behavior - 3cr.
- PSY1400 - Analysis of Behavior: Basic Principles - 3cr.
- PSY1010 - General Psychology (BSS) - 3cr.
- PSY1410 - Analysis of Behavior: Basic Principles Lab - 1cr.
- REH2060 - Health Promotion for Individuals with Chronic Illness and Disability - 3cr.
- SOC1010 - Introductory Sociology (BSS) - 3cr.
- SPED1010 - Disability and Society (BSS) - 3cr.
- SPED2910 - Early Field Experience in Special Education - 3cr.
- SW1010 - Introduction to Social Welfare (BSS) - 3cr.

NOTE:

1. SPED2910 EARLY FIELD EXPERIENCE IN SPED - Up to 6 credits.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Special Education Online Practical Teacher Training (OPTT): Severe Emphasis - BA, BS

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Undergraduate

About this Degree

USU OPTT is an innovative, online special education preparation program specifically designed for individuals currently working in a Utah school as a special education teacher or a special education paraprofessional. Applicants may choose to specialize in K-12 complex support needs and will be fully qualified for special education licensure upon completion of this 5-semester program (fall-spring-summer-fall-spring). The program will be longer for applicants who are completing a first bachelor's degree. To receive a Bachelor's of Arts (BA) degree, please see Undergraduate Academic Credential Requirements for required language courses.

Severe Disabilities Emphasis: This emphasis prepares graduates to work with students who have low-incidence disabilities, such as intellectual disabilities, physical disabilities, autism spectrum disorder, traumatic and acquired brain injury, and multiple disabilities. Graduates typically teach academic and life skills in a K-12 classroom or in a post-secondary setting (students age 18-21).

- For more information about Special Education and Rehabilitation Counseling, see the website.
- Admitted and current students must meet with an academic advisor.
- Log on to Degree Works to check student-specific program progress.
- Students following the recommended schedule should be able to complete degree requirements in four years (eight semesters).
- The highest math requirement for this degree is MATH2020 GEOMETRY/STAT ELED TEACH(QI).

Admission Requirements for this Program

- New freshmen must be admitted to USU in Good Standing.
- Transfer students from other institutions or other programs at USU must have a 2.0 GPA.
- Grade of C+ or better: for Communications Literacy **(CL1)** for General Education Requirements (required for program admission; it can also be met with AP ENGL or an ACT score of 30 or higher).
- Grade of C or better in General Education Requirements of Breadth American Institutions **(BAI)**, Breadth Life Sciences **(BLS)**, Breadth Physical Sciences **(BPS)**, HDFS1500 HUMAN DEV LIFESPAN (BSS) (required for program admission).
- Grade of C- or better for General Education Requirements; Quantitative Literacy **(QL)** (required for program admission).

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
79-81	120

Simple Requisites

Program Requirements

- **Minimum Grade Requirements:**
  - Grade of B- or better: All SPED and TEAL courses (except SPED1010 DISABILITY AND SOCIETY (BSS), SPED2910 EARLY FIELD EXPERIENCE IN SPED, SPED5230 SPED STUDENT TEACHING (CI), and SPED5900 INDEPENDENT STUDY).
  - Grade of C or higher in MATH2010 ALG/NUMER FOR ELED TEACH (QI) and MATH2020 GEOMETRY/STAT ELED TEACH(QI).
  - Grade of C- or better: All other courses required for the bachelor's degree
  - Courses used to fulfill major requirements may *not* be taken pass/fail, except those courses that are only taught on a pass/fail basis.
  - 3.0 GPA required in major coursework

Students are required to earn a grade of "B-" or better in all major courses (SPED, TEAL prefixes). Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Special Education Online Practical Teacher Training (OPTT): Severe Emphasis - BA, BS

Type
Completion Requirement

Math Requirements (9-11 credits)

Fulfill ALL of the following requirements:

Quantitative Literacy (QL)

Complete ALL of the following Course Sets:

- Quantitative Literacy (QL) Course

AND

Math Requirements

Complete ALL of the following Courses:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Professional Education (8 credits)

Complete ALL of the following Courses:

- ELED3100 - Classroom Reading Instruction - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- TEAL2660 - Educational Psychology for Teachers - 2cr.

Severe Specialization (47 credits)

Fulfill ALL of the following requirements:

Junior Year Fall (11 credits)

Complete ALL of the following Courses:

- SPED5011 - Foundations in Special Education: Instructional Strategies, Behavior Management, and IEPs - 2cr.
- SPED5012 - Basic Behavior Management and Instructional Strategies (QI) - 3cr.
- SPED5311 - Reading and Language Arts Interventions for Students with Disabilities - 1cr.
- SPED5511 - Effective Instruction and Curriculum for Students with Severe Disabilities I - 2cr.
- SPED5615 - Practicum I for Severe Disabilities - 3cr.

NOTE:

1. SPED5311 TEACH RDG/LANG ARTS ST W/DIS - Enroll in 1 credit.

AND

Junior Year Spring (8 credits)

Complete ALL of the following Courses:

- SPED5014 - Foundations in Assessment - 2cr.
- SPED5512 - Effective Instruction and Curriculum for Students with Severe Disabilities II - 3cr.
- SPED5625 - Practicum II for Severe Disabilities - 3cr.

AND

Junior Year Summer (3 credits)

Complete ALL of the following Courses:

- SPED5015 - Law/Policies/Procedures - 3cr.

AND

Senior Year Fall (7 credits)

Complete ALL of the following Courses:

- SPED5013 - Advanced Behavior Management and Instructional Strategies - 3cr.
- SPED5016 - Technology and Collaboration for Teaching Exceptional Learners - 3cr.
- SPED5018 - Eligibility Assessment - 1cr.

AND

Senior Year Spring (18 credits)

Complete ALL of the following Courses:

- SPED5017 - Transition Planning and Collaboration for Exceptional Learners - 3cr.
- SPED5230 - Special Education Student Teaching (CI) - 3cr.

NOTE:

1. SPED5230 SPED STUDENT TEACHING (CI) - 15 credits for first bachelor's degree or 3 credits for second bachelor's degree.

Teaching Support (15 credits)

Fulfill ANY of the following requirements:

Earn at least 15 credits from the following:

- ASL1010 - American Sign Language I - 4cr.
- ELED1010 - Orientation to Elementary Education - 3cr.
- HDFS2400 - Couple and Family Relationships (BSS) - 3cr.
- HDFS3100 - Abuse and Neglect in Family Context - 3cr.
- HDFS2660 - Parenting and Child Guidance - 3cr.
- HEP3000 - Drugs and Human Behavior - 3cr.
- PSY1400 - Analysis of Behavior: Basic Principles - 3cr.
- PSY1410 - Analysis of Behavior: Basic Principles Lab - 1cr.
- SOC1010 - Introductory Sociology (BSS) - 3cr.
- SPED1010 - Disability and Society (BSS) - 3cr.
- SPED2910 - Early Field Experience in Special Education - 3cr.
- SW1010 - Introduction to Social Welfare (BSS) - 3cr.

NOTE:

SPED2910 EARLY FIELD EXPERIENCE IN SPED - Up to 6 credits.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Special Education: Visual Impairments Emphasis - BA, BS

Program Overview

College	Department	Program Level
College of Education & Human Services	Special Education & Rehab Counseling	Undergraduate

About this Degree

The visual impairments emphasis allows teachers to teach students who are blind or have visual impairments kindergarten to twelfth grade. This program is a Multi-University Consortium Teacher Preparation Program in Sensory Impairments with the Special Education Departments at Utah State University and the University of Utah. Once admitted to the major, students will take courses both at USU (fall and spring terms) and at the University of Utah in the summers. This Consortium is one of only 35 programs in visual impairments in the United States.

Courses address characteristics of disabilities, inclusion of students in general education, behavioral interventions, assessment, effective instruction, consulting with parents and teachers, assistive technology, Literary Braille, Nemeth Braille, orientation and mobility, and policies and procedures.

Admission Requirements for this Program

New freshmen must be admitted to USU in Good Standing.

Transfer students from other institutions or other programs at USU must have a 2.0 GPA.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
87	120

Simple Requisites

Program Requirements

Minimum Grade Requirements:

- Required for program admission: A grade of C+ or better: ENGL1010 WRITING AS INQUIRY (CL1) (ENGL1010 WRITING AS INQUIRY (CL1) may also be met with AP English score or an ACT score of 30 or higher)
- Required for program admission: A grade of C or better in General Education Requirements of Breadth American Institutions (BAI), Breadth Life Sciences (BLS), Breadth Physical Sciences (BPS), HDFS 1500 (required for program admission)
- Required for program admission: A grade of C- or better for General Education Requirements; Quantitative Literacy (QL)
- Grade of B- or better: All SPED, TEAL, and ELED courses (except SPED1010 DISABILITY AND SOCIETY (BSS), SPED2910 EARLY FIELD EXPERIENCE IN SPED, SPED5200 STUDENT TEACHING (CI), and SPED5900 INDEPENDENT STUDY)
- Grade of C or higher in MATH2010 ALG/NUMER FOR ELED TEACH (QI) and MATH2020 GEOMETRY/STAT ELED TEACH(QI)
- Grade of C- or better: All other courses required for the bachelor's degree
- Courses used to fulfill major requirements may *not* be taken pass/fail, except those courses that are only taught on a pass/fail basis

Students are required to earn a grade of "B-" or better in all major courses (SPED, TEAL, ELED prefixes).

Students who receive a grade below "B-" must retake the course. Each student will be allowed to repeat a maximum of one course (course is defined as didactic courses, practica, and student teaching). Students who receive two grades below "B-" or withdraw from two practica (or one practica two times) will not be permitted to continue in special education. Student teaching may not be repeated without appeal and approval by the appropriate special education program committee.

Major Courses that fulfill General Education Requirements **or** University Studies Requirements**.**

- HDFS1500 HUMAN DEV LIFESPAN (BSS) - Breadth Social Sciences (BSS)
- SPED5010 ABA 1: PRIN/ASSMNT/ANALY (QI) - Quantitative Intensive (QI)
- SPED5200 STUDENT TEACHING (CI) - Communications Intensive (CI)

Special Education: Visual Impairments - BA, BS

Type
Completion Requirement

Math Requirements

Fulfill ALL of the following requirements:

Quantitative Literacy (QL)

Complete ALL of the following Course Sets:

- Quantitative Literacy (QL) Course

AND

Math Courses

Complete ALL of the following Courses:

- MATH2010 - Algebraic Thinking & Number Sense for Elementary Education School Teachers (QI) - 3cr.
- MATH2020 - Euclidean Geometry & Statistics for Elementary Education School Teachers (QI) - 3cr.

Professional Education (14 credits)

Complete ALL of the following Courses:

- ELED3100 - Classroom Reading Instruction - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- SPED5030 - Assessment in Special Education - 2cr.
- SPED5040 - Foundations of Effective Instructional Practices - 4cr.
- TEAL2660 - Educational Psychology for Teachers - 2cr.

Visual Impairment (63 credits)

Fulfill ALL of the following requirements:

Sophomore Summer:

Complete ALL of the following Courses:

- SPED5105 - Introduction to Visual Impairments - 1cr.

AND

Junior Fall:

Complete ALL of the following Courses:

- SPED5120 - Ocular Disorders and Examination Techniques - 2cr.
- SPED5122 - Educational Implications for Students with Low Vision - 2cr.
- SPED5130 - Literary Braille Codes - 3cr.
- SPED5190 - Understanding the Brain, Damage to the Brain and Cerebral/Cortical Visual Impairment - 2cr.

AND

Junior Spring:

Complete ALL of the following Courses:

- SPED5010 - Applied Behavioral Analysis 1: Principles, Assessment, and Analysis (QI) - 3cr.
- SPED5070 - Policies, Procedures, and Collaboration in Special Education - 3cr.
- SPED5140 - Advanced Braille Codes & Abacus Instruction - 3cr.
- SPED5170 - Instructional Management for Students with Visual Impairments (0-21) - 3cr.
- SPED5175 - Early Literacy for Young Children with Visual Impairment, Birth to Five - 2cr.
- SPED5310 - Teaching Reading and Language Arts to Students with Disabilities - 1cr.
- SPED5510 - Curriculum and Assessment for Students with Severe Disabilities I - 2cr.

NOTE:

1. SPED5310 TEACH READ/LANG ARTS ST W/DIS - Enroll in 2 credits.

AND

Junior Summer:

Complete ALL of the following Courses:

- SPED5110 - Social and Psychological Implications of Visual Impairments - 2cr.
- SPED5135 - Assistive Technology for Students with Visual Impairments - 3cr.
- SPED5150 - Teaching Children with Dual Sensory Impairments (Deaf/Blind) - 3cr.
- SPED5160 - Introduction to Orientation and Mobility - 2cr.

AND

Senior Fall:

Complete ALL of the following Courses:

- SPED5050 - Applied Behavioral Analysis 2: Applications - 3cr.
- SPED5080 - Transition-Focused Education and Collaboration - 2cr.
- SPED5530 - Family/Professional Collaboration and Technology for Teaching Exceptional Learners - 3cr.

AND

Senior Spring:

Complete ALL of the following Courses:

- SPED5200 - Student Teaching in Special Education (CI) - 3cr.

NOTE:

1. SPED5200 STUDENT TEACHING (CI) - Enroll in 15 credits.

Additional Course Requirement (6 credits)

Complete ALL of the following Courses:

- SPED1010 - Disability and Society (BSS) - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.

Program Learning Outcomes

Program Learning Outcomes

1. Demonstrate an understanding of learner development and individual learning differences, including an understanding of the development of the human visual system, most prevalent causes of blindness and low vision in children, implications of visual impairments and the impact on sociocultural/psychoemotional development.
2. Demonstrate an ability to assess students who are blind or have low vision, including students with concurring disabilities, while considering specialized assessment materials, individualized needs of each student and federal/state requirements for eligibility.

3. Demonstrate the ability to create, implement and assess instructional planning and strategies to support students who are blind or have low vision.
4. Demonstrate an understanding of the importance of on-going professional learning and professional/ethical practices specific to the role and responsibilities of a teacher of students with visual impairments.
5. Demonstrate an understanding of the importance of collaboration with families and other professions to support the needs of students who are blind or have low vision.

Special Function Officer - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

Federal Gainful Employment Information

The Basic Corrections Officer program builds upon skills and knowledge gained in the Special Function Officer program and provides basic training required for employment in the field of corrections. Areas of study include constitutional and correctional law, offender supervision strategies, critical incident responses, and other correctional-related topics.

Admission Requirements for this Program

- Be a United States citizen; a United States National; or, for at least five (5) years continuous, be a legal permanent resident (LPR).
- Be at least 19 years of age at the time of certification as a special function officer.
- Be a high school graduate or furnish evidence of successful completion of an examination indicating an equivalent achievement.
- Pass the physical fitness test as outlined by POST and the academy director.
- Not convicted of a crime for which the applicant could have been punished by imprisonment in a federal penitentiary or by imprisonment in the penitentiary of this or another state.
- Demonstrated good moral character, as determined by a background investigation; and
- Be free of any physical, emotional, or mental condition that might adversely affect the performance of the applicant's duties as a peace officer.

An application for admission to a peace officer training program shall be accompanied by a criminal history background check of local, state, and national criminal history files and a background investigation. A fee of $50 shall be paid at the time of fingerprinting to cover the costs of the background check and investigation. See advisor for details.

Program Learning Outcomes

- Identify and demonstrate key ethical standards in corrections culture.
- Apply concepts of constitutional and correctional law to practical situations.
- Interact professionally with incarcerated offenders.
- Apply basic skills to avoid offender manipulation.
- Demonstrate competency in less-lethal options such as pepper spray.
- Demonstrate competency in critical incident and forced cell response actions.

Sports Management - MSM

Program Overview

College
College of Education & Human Services

Department
Kinesiology and Health Science

Program Level
Graduate

About this Degree

The Sports Management program is a professional degree offered fully online, focusing on administration and management within the sports industry. Our curriculum delivers a comprehensive, industry-ready education that prepares students through integrated approaches and hands-on experiences. Students gain experience in finance, marketing, legal issues, event and facility management, data analytics, fundraising and sponsorship, digital media, ethics and leadership–applying these disciplines directly to real-world sport settings. Graduates develop the strategic planning, organizational, and decision-making skills needed to excel in the sport industry.

Admission Requirements for this Program

For more information, including admission requirements and deadlines, visit the program page on the department website at http://cehs.usu.edu/khs/graduate/master-sports-management.

Program Requirements

School of Graduate Studies Requirements

- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- **Overall Graduate GPA at least 3.0 and no grades of C- or lower:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 6000. The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the School of Graduate Studies.

- **Thesis Research Credits:** Professional/Plan C students cannot use any thesis credits.
- **Master's forms:** Approval of academic forms required for master's students by the School of Graduate Studies. This includes the Supervisory Committee Approval Form (SCAF), Program of Study (POS), and USU Graduation Application.

Sports Management - MSM (30 Credits)

Type
Completion Requirement

Master of Sports Management students must complete the following courses:

Fulfill ALL of the following requirements:

Required Courses (27 Credits)

Complete ALL of the following Courses:

- KIN6025 - Intercollegiate Athletics Administration - 3cr.
- KIN6030 - Sports Marketing and Public Relations - 3cr.
- KIN6040 - Sport Event and Facility Management - 3cr.

Spanish Teaching Emphasis - Minor

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Undergraduate

Program Requirements

Total Credits Required To Earn This Credential
44 (25+29)

Simple Requisites

Program Requirements

- **Total Credits:** 44 (25 + 29 STEP credits)
- **Grade Point Average to Declare Spanish Teaching Emphasis Minor:** 3.0 Overall GPA
- **Grade Point Average to Graduate with Spanish Teaching Emphasis Minor:** 3.0 GPA within minor coursework
- **USU Credit Requirement**: At least half (50 percent) of the credits earned for this degree must be completed in upper-division USU courses having prefixes of SPAN or LING. All other credits (including transfer and study abroad credits) must be approved by the program's academic advisor in order to be counted toward the minor. Students who have completed Bridge Program Language courses should contact their advisor as these courses may count toward elective credits and credits toward minor requirements.
- **Minimum Grade Requirement:** All courses taken for the minor require a minimum grade of **C** or better. Courses *may not* be taken on a pass/fail basis (except for courses designated as pass/fail, such as SCED3300 CLINICAL EXPERIENCE I, SCED5630 STUDENT TEACHING SEC SCHOOL, SPAN3010 HISPANIC OUTREACH PRACT, SPAN3520 BUSINESS SPANISH PRACT, and SPAN4920 SPANISH LANG TUTORING).
- **Note:** Students with prior language credit or language experience should take the department placement test before admission to the Spanish major or minor. Credits obtained in lower-division Spanish courses cannot be applied toward the Spanish major or minor programs.

Section 1

Type
Completion Requirement

Spanish and Linguistics Courses (12 credits)

Complete ALL of the following Courses:

- SPAN3040 - Advanced Spanish Grammar - 3cr.
  OR SPAN3800 - Spanish III Study Abroad - 1cr.

- SPAN4072 - Simultaneous and Consecutive Legal Interpretation - 3cr.
- SPAN4081 - Medical Interpretation Training (BTG) - 3cr.
- SPAN4082 - Advanced Legal Translation and Interpretation - 3cr.
- SPAN4800 - Hispanic Culture and Civilization-Study Abroad - 1cr.

Section 3

Type

Completion Requirement

Secondary Teacher Education Program (STEP) - Languages, Philosophy, and Communication Studies (29 credits)

Several of the courses listed below count for both the teaching emphasis and the teaching minor.

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- LING5400 - Teaching Modern Languages - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- LING5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.

NOTE:

1. The Special Methods II course is taught under course number 5400.
2. SCED3300 CLINICAL EXPERIENCE I and LING5400 TEACHING MODERN LANGUAGES must be taken during the same semester, and should be the last courses taken for the minor. These courses should be taken the fall semester before student teaching. SCED3300 CLINICAL EXPERIENCE I and LING5400 TEACHING MODERN LANGUAGES are listed in both the STEP and minor requirements for those seeking the Spanish Teaching minor/non-licensure so the non-licensure minors understand the complete list of minor requirements. See non-licensure information below.

*Courses may be subject to change, and students should contact the Secondary Education Advising Office for a current course list of STEP requirements.

Section 4

Type

Completion Requirement

Additional Comments:

Spanish Teaching Emphasis Minor without Secondary School Licensure (Minor 19 credits)

Total Credits: 19

(2.5 GPA required in minor classes)

It is possible to have a teaching emphasis within a major or minor in Spanish without receiving secondary school teaching licensure. However, unless the student is an elementary education major, he or she would not be able to teach in Utah public schools (nor at many private ones). Graduating without licensure may allow employment at community colleges and universities.

In order to complete the Spanish Teaching Emphasis Minor without Secondary School Licensure, students must fulfill all of the requirements listed under Section I (Spanish and Linguistics Courses) of the Spanish Teaching Emphasis Minor with Secondary School Licensure (20 credits), except for SCED3300 CLINICAL EXPERIENCE I, for a total of 19 credits.

Related Programs

- Spanish Teaching Emphasis Minor without Licensure: 19 credits
- Spanish Minor: 15 credits
- Spanish Major: 33 credits
- Spanish Major with Teaching Emphasis: 67 credits
- Spanish Major with Teaching Emphasis without Licensure: 37 credits

LIcensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Secondary Science Composite Teaching - BA, BS

Program Overview

College
College of Arts & Sciences

Department
College of Arts & Sciences

Program Level
Undergraduate

About this Degree

Secondary Science Educators cover a wide range of science disciplines such as Life Sciences, Physical Sciences, Earth Sciences and Computer Science. The Science field develops constantly, and it is important for Secondary Science teachers to stay current. The College of Science helps students do this by incorporating recent research results into the classroom, providing research opportunities, and inviting them to participate in research seminars and presentations.

Students will receive a **BS** by completing all required courses in their major. To receive a **BA**, students must also gain proficiency in one or more foreign languages. See Undergraduate Academic Credential Requirements for language requirements. A bachelor's degree in the Secondary Science Teaching major includes: University Studies and coursework, as required by the College of Science; the Teaching major; and the Secondary Teacher Education Program (STEP). Students majoring in the Secondary Science Teaching major will complete courses which provide an in-depth understanding of Scientific principles.

All major and STEP requirements may *not* be taken as a pass/fail grade. A minimum grade of C or better is required in all major course work.

The Secondary Science Teaching program is fully accredited by the Utah State Office of Education.

For further information, students should contact their academic advisor.

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2300 - Principles of Organic Chemistry - 3cr.

OR

Physics Content Area

Complete ALL of the following Courses:

- MATH1220 - Calculus II (QL) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.
- PHYS2215 - Physics for Scientists and Engineers Lab I - 1cr.
- PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.
- PHYS2225 - Physics for Scientists and Engineers Lab II - 1cr.
- PHYS2710 - Introductory Modern Physics - 3cr.

OR

Computer Science Content Area

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
- CS2410 - Introduction to Event Driven Programming and GUI's - 3cr.
- CS2420 - Algorithms and Data Structures--CS 3 (QI) - 3cr.
- CS2610 - Developing Dynamic, Database-Driven Web Applications - 3cr.
- CS4350 - Computer Science Teaching Methods - 3cr.

Computer Science Teaching Minor - Following Endorsements

Intro to Computer Science; Programming Software Development

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
- CS2410 - Introduction to Event Driven Programming and GUI's - 3cr.
- CS2420 - Algorithms and Data Structures--CS 3 (QI) - 3cr.
- CS2610 - Developing Dynamic, Database-Driven Web Applications - 3cr.
- CS4350 - Computer Science Teaching Methods - 3cr.

Secondary Teacher Education Program (STEP) Required Courses (37 credits)

To begin the admission process to the STEP, students should see their advisor at least two semesters before they begin Level I coursework. STEP admission deadlines are March 1 for fall and October 1 for spring. For more information about secondary education requirements, visit the Secondary Education website.

For advising, please contact the Secondary Science Teaching Advisor or an Education and Leadership (TEAL) Secondary Education Advisor: advising.usu.edu

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SCED5820 - Science Education Teaching and Dispositions Knowledge - 3cr.
- SCED5821 - Three-Dimensional Science and Engineering Pedagogical Knowledge - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

● USBE approved Flinn Scientific Online Lab Safety Course: http://USBE approved Flinn Scientific Online Lab Safety.

NOTE:

1. ITLS2500 TECHNOLOGY ENABLED INSTRUCTION and SCED3210 ED/MULTICULTR FOUND (DSS)(CI) - May be taken prior to STEP Admission.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/.

Social Studies (Composite Teaching) - BA, BS

Program Overview

College
College of Education & Human Services

Department
School of Teacher Education & Leadership

Program Level
Undergraduate

About this Degree
The social studies (composite teaching) major is provides teaching endorsement in history, geography, psychology, sociology, economics, and political science. Students who graduate with this degree are "highly qualified" to teach all of these subject areas, based on federal standards for "No Child Left Behind".

- For more information about Social Studies Composite Teaching, see the website.
- Admitted and current students must meet with an advisor (435-797-0391).
- Log on to Degree Works to check student-specific program progress.
- The highest Math Requirement for this degree is STAT1040 INTRO TO STATISTICS (QL) **OR** MATH1050 COLLEGE ALGEBRA (QL) **OR** STAT1080 FOUNDATIONS OF DATA SCI (QL).

For Bachelor of Arts degree (BA) language requirements, see Undergraduate Academic Credential Requirements.

Admission Requirements for this Program
- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.0 GPA

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Social Studies (Composite Teaching) - BA, BS

Type
Completion Requirement

I. History (24 credits)

All courses C or better need for STEP.

Fulfill ALL of the following requirements:

World History (9 credits)

Earn at least 9 credits from the following:
- HIST1100 - European History to 1500 (BHU) - 3cr. **OR** HIST1110 - European History from 1500 (BHU) - 3cr.
- HIST1500 - Pre-Modern World (BHU) - 3cr.
- HIST1510 - The Modern World (BHU) - 3cr.

AND

American History (9 credits)

Earn at least 9 credits from the following:

- HIST2700 - United States to 1877 (BAI) - 3cr.
- HIST2710 - United States 1877-Present (BAI) - 3cr.
- HIST3850 - History of Utah (DHA/CI) - 3cr.
  OR HIST4600 - The History of the American West (DHA/CI) - 3cr.

AND

History Elective (3 credits)

Complete the following:

- Course at 3000-level or higher.

AND

History of Traditionally Underrepresented Communities Elective (3 credits)

Complete the following:

- Choose from approved list. See advisor for current options.

II. Geography (9 Credits)

All courses C or better needed for STEP.

Earn at least 9 credits from the following:

- GEOG1000 - Physical Geography (BPS) - 3cr.
- GEOG1300 - World Geography: Human and Environmental Dynamics (BSS) - 3cr.
- GEOG4210 - Geography of Utah - 3cr.

III. Economics (6 Credits)

All course C or better need for STEP.

Earn at least 6 credits from the following:

- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
  OR ECON3550 - Law and Economics - 3cr.
  OR ECON3610 - Sports Economics - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.

IV. Political Science (9 Credits)

All courses C or better needed for STEP.

Earn at least 9 credits from the following:

- POLS1100 - United States Government and Politics (BAI) - 3cr.
- POLS3000 - Introduction to Political Research (QI) - 3cr.
- POLS2100 - Introduction to International Relations (BSS) - 3cr.
  OR POLS2200 - Comparative Politics (BSS) - 3cr.

V. Anthropology and Sociology (6 credits)

All courses require a C or better for STEP.

Earn at least 6 credits from the following:

- ANTH1010 - Cultural Anthropology (BSS) - 3cr.
- SOC1010 - Introductory Sociology (BSS) - 3cr.
  OR SOC1020 - Social Problems (BSS) - 3cr.

VI. Psychology (6 Credits)

All courses C or better needed for STEP.

Earn at least 6 credits from the following:

- PSY1010 - General Psychology (BSS) - 3cr.
- PSY1100 - Lifespan Development - 3cr.
  OR PSY2100 - Developmental Psychology: Adolescence - 3cr.
  OR PSY4240 - Multicultural Psychology (DSS) - 3cr.

VII. Secondary Teacher Education Program (STEP) (41 credits)

To begin the admission process to STEP, students should see their advisor at least two semesters before they begin Level 1 coursework. Minimum 2.0 overall GPA is required for admission. A 3.0 GPA must be maintained in the major courses. STEP admission deadlines are March 1 for fall and October 1 for spring. See all application requirements at https://teal.usu.edu/htm/undergraduate-programs/seced/adstep

All courses C or better needed to continue in STEP. These courses may be taken before admission to STEP:

Complete ALL of the following Courses:

- HIST3000 - History Research Methods - 3cr.
- ITLS2500 - Technology Enabled Instruction - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED3300 - Clinical Experience I - 1cr.
- SCED3500 - Teaching Social Studies - 3cr.
- SCED3550 - Teaching Social Studies in the Middle Grades - 3cr.
- SCED4300 - Clinical Experience II - 1cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5500 - Student Teaching Seminar - 2cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

Space Systems Engineering (ECE) - MS

Program Overview

College	Department	Program Level
College of Engineering	Electrical & Computer Engineering	Graduate

About this Degree

The MS in Space Systems Engineering is a joint effort that is administered and delivered by the USU Electrical and Computer Engineering (ECE) Department and the USU Mechanical and Aerospace Engineering (MAE) Department. The program is primarily a MS Plan-C program (coursework only) and requires a total of 33 credit hours of coursework (12 core credit hours, and 21 elective credit hours) with a minimum of 18 credit hours at the 6000-level or higher. The program offers coursework in space systems engineering, space environment, space instruments, spacecraft controls, spacecraft navigation, astrodynamics, propulsion, aerodynamics, flight dynamics, and associated supporting coursework. The goal of the program is to provide early- and mid-career professionals with post-graduate education and an opportunity to develop an understanding of system engineering from the perspective of the space engineering discipline.

Admission Requirements for this Program

- GPA of 3.3

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
33	33

Simple Requisites

Program Requirements

School of Graduate Studies Requirements

- A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- The Program of Study for master's degree must include at least 18-semester credits at the level of 6000 or above.
- A master's degree must be completed within six years of entering the program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Space Systems Engineering (ECE) - MS

- A minimum of 18 credits hours must be at the 6000-level or higher.
- Must receive a grade of "C" or better in each course while maintaining a graduate cumulative GPA of 3.0 or higher.
- School of Graduate Studies form: Program of Study

Space Systems Engineering (ECE) - MS

Type
Completion Requirement

Core Requirements

12 credits of core coursework (students must take all of the following courses):

Complete ALL of the following Courses:

- ECE5230 - Spacecraft Systems Engineering - 3cr.
- ECE5310 - Control Systems - 4cr.
  OR MAE5310 - Control Systems - 4cr.
- MAE5560 - Dynamics of Space Flight - 3cr.
- ECE6240 - Space Environment and Engineering - 3cr.

Electives

Students must complete 21 credits of elective coursework (choose 7 of the following courses):

Earn at least 21 credits from the following:

- ECE5235 - Space System Design - 3cr.
- ECE5320 - Mechatronics - 4cr.
  OR MAE5320 - Mechatronics - 4cr.
- ECE6010 - Stochastic Processes in Electronic Systems - 3cr.
- ECE6030 - Mathematical Methods for Signals and Systems - 3cr.
- ECE6040 - Convex Optimization - 3cr.
- ECE6320 - Linear Multivariable Control - 3cr.
  OR MAE6320 - Linear Multivariable Control - 3cr.
- ECE6340 - Spacecraft Attitude Control Theory - 3cr.
  OR MAE6340 - Spacecraft Attitude Control Theory - 3cr.
- ECE6560 - Spacecraft Navigation - 3cr.
  OR MAE6560 - Spacecraft Navigation - 3cr.
- ECE7030 - Detection and Estimation Theory - 3cr.
- ECE7210 - Spacecraft Instrumentation - 3cr.
- ECE7330 - Nonlinear and Adaptive Control - 3cr.
  OR MAE7330 - Nonlinear and Adaptive Control - 3cr.
- ECE7560 - Optimal Estimation for Aerospace Systems - 3cr.
  OR MAE7560 - Optimal Estimation for Aerospace Systems - 3cr.
- MAE5370 - Optimization for Engineers - 3cr.
- MAE5420 - Compressible Fluid Flow - 3cr.
- MAE5500 - Aerodynamics - 3cr.
- MAE5510 - Dynamics of Atmospheric Flight - 3cr.
- MAE5540 - Propulsion Systems - 3cr.
- MAE6540 - Cislunar Astrodynamics and Distributed Space Systems - 3cr.
- MAE6570 - Optimal Spacecraft Guidance - 3cr.
- MAE7540 - Astrodynamic Perturbations and Propagation - 3cr.
- MATH5410 - Methods of Applied Mathematics - 3cr.

Space Systems Engineering (MAE) - MS

Program Overview

College
College of Engineering

Department
Mechanical & Aerospace Engineering

Program Level
Graduate

About this Degree

The Department of Mechanical and Aerospace Engineering provides each graduate with a foundation of knowledge and experience upon which to build successful careers in mechanical engineering, aerospace engineering, composite materials and structures or space systems engineering.

Space Systems Engineering MS-C degree is a joint effort between Mechanical and Aerospace Engineering (MAE) and Electrical and Computer Engineering (ECE). The goal of the program is to provide early- and mid-career professionals with post-graduate education and an opportunity to develop an understanding of system engineering from the perspective of the space engineering discipline. Space Systems engineers focus on the systems associated with space flight including propulsion, flight dynamics, navigation, controls, instrumentation and astrodynamics.

Admission Requirements for this Program

- Official transcript indicating a bachelor's degree in an accredited U.S. college or university or a similarly recognized international university in mechanical or aerospace engineering, or a closely related engineering discipline
- GPA of 3.3
- GRE scores are used by some faculty in choosing students and in funding decisions and are therefore strongly encouraged
- 3 letters of recommendation
- International students-proof of English proficiency (TOEFL or IELTS)

Program Requirements

Total Credits Required In Program Coursework
33

Total Credits Required To Earn This Credential
33

Simple Requisites

Program Requirements

- Must maintain a minimum 3.0 GPA
- A cumulative GPA of 3.0 is required for graduation
- Grades of C- or lower are not permitted on the program of study
- All graduate students must submit School of Graduate Studies forms and requirements for their chosen plan
- A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review
- Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated

One program plan is available for the Space Systems Engineering MS degree.

The **Plan C Coursework Only** requires 33 credits (minimum):

- 12 credits of Space core courses

- 21 credits of approved MAE technical electives
- Only 12 credits of approved 5000-level courses allowed
- Credits in the following areas are not acceptable: foreign languages, continuing graduate advisement, individual home study, military science, thesis research, and courses numbered below 5000
- Approval of academic forms required for master's students by the School of Graduate Studies
    - Program of Study

Course Requirements

Type
Completion Requirement

Soils and Sustainable Land Systems - Environmental Soil Science Option - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Undergraduate

About this Degree

The Soils and Sustainable Land Systems major provides students with an understanding of the physical, chemical, and biological processes that occur in the soil-water-atmosphere zone at the earth's surface.

Environmental Soil Science Emphasis: This emphasis features a core curriculum of math and science courses and introductory soil science courses. Students then choose electives that are more in-depth and specific to soil science.

- For more information about Soils and Sustainable Land Systems, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- Can also have an emphasis in Sustainable Food Production
- The highest math requirement for this degree is STAT2000 STATISTICAL METHODS (QI) or STAT3000 STATISTICS FOR SCIENTISTS (QI)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
84

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

This major requires a minimum GPA of 2.5 in program coursework. Courses for the program may not be taken on a pass/fail basis.

Contact Abby Macbeth, abby.macbeth@usu.edu, 435-797-0454 for advising.

Major Requirements (84 credits)

Type
Completion Requirement

Preparatory Core Requirements (47 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- CHEM1110 - General Chemistry I (BPS) - 4cr.
- CHEM1120 - General Chemistry II (BPS) - 4cr.
- CHEM1125 - General Chemistry II Laboratory - 1cr.
- GEO1110 - Physical Geology (BPS) - 3cr.
- GEO1115 - Physical Geology Laboratory - 1cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1060 - Trigonometry - 2cr.
- PSC1050 - Plants, Soils, and Climate Orientation - 1cr.
- PSC2000 - The Atmosphere and Weather (BPS) - 3cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC3500 - Structure and Function of Plants - 3cr.
- PSC5760 - Climate and Climate Change (DSC)(QI) - 3cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr.

Required Professional Core (22 credits)

Complete ALL of the following Courses:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- PSC5050 - Principles of Environmental Soil Chemistry - 3cr.
- PSC5130 - Soil Genesis, Morphology, and Classification - 4cr.
- PSC5530 - Soil Health and Fertility (QI) - 3cr.
- PSC5560 - Analytical Techniques for the Soil Environment - 3cr.
- PSC5670 - Environmental Soil Physics - 4cr.
- PSC5740 - Environmental Quality: Soil and Water (CI) - 2cr.

Further Discipline Courses (15 credits)

Choose 15 credits from the following courses.

Earn at least 15 credits from the following:

- ASTE5260 - Environmental Impacts of Agricultural Systems (CI) - 3cr.
- BIOL4400 - Plant Physiology (QI) - 4cr.
- BIOL4410 - Plant Structure - 3cr.
- BIOL4430 - Introduction to Plant Pathology - 4cr.
- BIOL4500 - Applied Entomology - 3cr.
- BIOL5310 - Soil Microbiology - 3cr.
- CEE3430 - Engineering Hydrology - 3cr.
- CEE5000 - Irrigation and Drainage of Agricultural Lands - 3cr.
- CEE5003 - Remote Sensing of Land Surfaces - 3cr.
- CEE5190 - Geographic Information Systems for Civil Engineers - 3cr.
- CHEM3000 - Quantitative Analysis (QI) - 3cr.
- GEO2800 - Minerals and Rocks - 4cr.
- GEO3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr.
- GEO3550 - Sedimentation and Stratigraphy - 4cr.
- GEO3600 - Geomorphology - 4cr.
- GEO5150 - Fluvial Geomorphology - 3cr.
- GEO5510 - Groundwater Geology (QI) - 3cr.
- GEO5520 - Techniques of Groundwater Investigations (CI) - 3cr.
- GEO5600 - Geochemistry - 4cr.
- GEO5630 - Remote Sensing for Geoscientists - 3cr.
- GEOG5500 - Advanced Geographic Information Sciences (GIS) - 3cr.
- GEO5680 - Paleoclimatology - 3cr.
- PSC1800 - Introduction to Horticulture (BLS) - 3cr.
- PSC2600 - Herbaceous Plant Materials - 3cr.
- PSC2620 - Woody Plant Materials: Trees and Shrubs for the Landscape - 3cr.
- PSC2700 - Climate Change Impacts (BPS) - 3cr.
- PSC3100 - Soils and Civilization (DSC) - 3cr.
- PSC3400 - Arboriculture - 3cr.
- PSC3600 - An Introduction to Plant Breeding and Heredity - 3cr.
- PSC3800 - Fundamentals of Organic Agriculture - 3cr.
  AND PSC3801 - Fundamentals of Organic Agriculture Lab I -

1cr.
AND PSC3802 - Fundamentals of Organic Agriculture Fall Lab 2 - 1cr.
- PSC3810 - Turfgrass Management - 3cr.
- PSC4070 - Agroecology - 3cr.
- PSC4280 - Field and Food Cropping Systems - 3cr.
- PSC4320 - Forage Production and Pasture Management - 3cr.
- PSC4400 - Modern Vegetable Production - 3cr.
- PSC4500 - Urban Soil Management and Reclamation - 3cr.
- PSC4970 - Undergraduate Research - 1cr.
- PSC5710 - Irrigated Soils - 3cr.
- PSC5003 - Remote Sensing of Land Surfaces - 3cr.
- PSC5222 - Temperate Zone Fruit Production - 3cr.
- PSC5270 - Environmental Plant Physiology - 2cr.
- PSC5310 - Soil Microbiology - 3cr.
- PSC5350 - Wildland Soils - 3cr.
- PSC5430 - Plant Nutrition - 2cr.
- PSC5500 - Environmental Physics of Land Ecosystems & Climate - 3cr.
- PSC5530 - Soil Health and Fertility (QI) - 3cr.
- PSC5550 - Fundamentals of Integrated Weed Management - 4cr.
- PSC6100 - Professional Turf and Urban Landscape Water Management - 3cr.
- WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.
- WATS4510 - Aquatic Ecology Methods - 2cr.
- WATS5003 - Remote Sensing of Land Surfaces - 4cr.

Degree Map Narrative
- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Soils and Sustainable Land Systems - Sustainable Food Production Option - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Plants, Soils and Climate

Program Level
Undergraduate

About this Degree

The Soils and Sustainable Land Systems major provides students with an understanding of the physical, chemical, and biological processes that occur in the soil-water-atmosphere zone at the earth's surface.

Sustainable Food Production Emphasis: This emphasis features a core curriculum of math, science and some introductory soil science courses. Students will choose electives that are more specific to agriculture and human systems.

Contact Abby Macbeth, abby.macbeth@usu.edu, 435-797-0454 for advising.

- For more information about Soils and Sustainable Land Systems, see the website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- Can also have an emphasis in Environmental Soil Science.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
78-81

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

This major requires a minimum GPA of 2.5 in program coursework. Courses for the program may not be taken on a pass/fail basis.

Soils and Sustainable Land Systems: Sustainable Food Production Option - BA, BS Course Requirements

Type
Completion Requirement

Preparatory Core Requirements (49-52 credits)

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL4430 - Introduction to Plant Pathology - 4cr.
- BIOL4500 - Applied Entomology - 3cr.
- CHEM1110 - General Chemistry I (BPS) - 4cr.
- MATH1050 - College Algebra (QL) - 4cr.
- PSC1050 - Plants, Soils, and Climate Orientation - 1cr.
- PSC2700 - Climate Change Impacts (BPS) - 3cr.

- PSC3000 - Fundamentals of Soil Science - 4cr.
- PSC3500 - Structure and Function of Plants - 3cr.
- PSC3600 - An Introduction to Plant Breeding and Heredity - 3cr.
- PSC3800 - Fundamentals of Organic Agriculture - 3cr.
- PSC3801 - Fundamentals of Organic Agriculture Lab I - 1cr.
- PSC3802 - Fundamentals of Organic Agriculture Fall Lab 2 - 1cr.
- PSC4250 - Internship in Plants, Soils, and/or Climate - 1cr.
- PSC5070 - Agroecology - 3cr.
- PSC5530 - Soil Health and Fertility (QI) - 3cr.
- PSC5550 - Fundamentals of Integrated Weed Management - 4cr.

Agricultural Coursework (18 credits)

Earn at least 18 credits from the following:

- ADVS1100 - Small-Scale and Specialty Animal Production - 3cr.
- ADVS5030 - Sustainable Agricultural Production Systems with Animals - 3cr.
- ASTE1130 - Agricultural Machinery Systems: Planting, Tillage, and Harvest Technologies - 3cr.
- ASTE3080 - Compact Power Units for Agricultural and Turfgrass Applications - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- PSC4050 - Greenhouse Management and Crop Production - 4cr.
- PSC4280 - Field and Food Cropping Systems - 3cr.
- PSC4320 - Forage Production and Pasture Management - 3cr.
- PSC4400 - Modern Vegetable Production - 3cr.
- PSC5222 - Temperate Zone Fruit Production - 3cr.
- PSC5420 - Landscape Irrigation Design (QI) - 2cr.
- PSC5710 - Irrigated Soils - 3cr.
- PSC5760 - Climate and Climate Change (DSC)(QI) - 3cr.
- WILD4000 - Principles of Rangeland Management - 3cr.
- WILD4500 - Principles of Wildlife Management - 3cr.

Human Systems Coursework (12 credits)

Earn at least 12 credits from the following:

- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- ENVS3300 - Fundamentals of Natural Resource Recreation Management - 3cr.
- ENVS4700 - Communicating Sustainability (CI) - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- IS5700 - User Interface/User Experience Web Design - 3cr.
- LAEP2039 - Foundations of Sustainable Systems - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
- SOC5640 - Managing Community Conflict (CI) - 3cr.
- WATS1200 - The Natural World and Our Place Within It (BLS) - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Completion Requirement

Elective Courses (6 credits)

Select 6 credits from STAT courses numbered above 5000, or from the following MATH courses:

Earn at least 6 credits from the following:

- MATH5710 - Introduction to Probability - 3cr.
- MATH5720 - Introduction to Mathematical Statistics - 3cr.
- MATH5760 - Applied Stochastic Processes - 3cr.

● STAT 5000 level course or higher.

Statistics: Actuarial Science Emphasis - BA, BS

Program Overview

College
College of Arts & Sciences

Department
Mathematics & Statistics

Program Level
Undergraduate

About this Degree

Statistics is the science of characterizing uncertainty and extracting information from numerical data.

Statistics majors at USU receive a solid education in areas like probability, linear regression/ time series, experiment design, quality control, and various areas in statistical analysis.

Essentially, statisticians can work in any career or for any company where data is collected or analyzed. Because of this, and the fact that not enough people graduate in statistics to meet the current career demand, USU statistics majors have an extremely high job placement after graduation. The Mathematics and Statistics Department is a close-knit unit where students receive individual attention from faculty mentors and the opportunity to pursue undergraduate research.

Students receive a degree by completing all required courses in the major. To receive a BA, students must also gain proficiency in one or more foreign languages. See Undergraduate Academic Credential Requirements for language requirements.

Actuarial Science: An actuary is a business professional who uses mathematical skills to define, analyze, and solve financial and social problems. USU is one of the only universities where students can complete the full undergraduate program in actuarial science required for job placement as an actuary. USU graduates in actuarial science require no further education in graduate school and receive 100% job placement in a career that is consistently rated as one of the top two careers in terms of job satisfaction, opportunities for advancement, and pay. This emphasis is also available through the mathematics degree, but it is essentially the same.

- For more information about Statistics, Actuarial Science Emphasis, see the website.
- Admitted and current students must meet with their advisor, Linda Skabelund.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH5580 ACTUARIAL MATH II (CI).

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.75 GPA

Simple Requisites

Program Requirements

All mathematics and statistics courses require a grade of C- or better. Program coursework *may not* be taken on a pass/fail basis.

Statistics: Actuarial Science Emphasis - BA, BS

Type
Completion Requirement

Statistics Major Requirements (56-57 credits)

Complete ALL of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ECON2010 - Introduction to Microeconomics (BSS) - 3cr.
- ECON2020 - Introduction to Macroeconomics (BAI) - 3cr.
- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
  OR DSAI2275 - Linear Algebra for Data Science - 4cr.
- MATH2280 - Ordinary Differential Equations (QI) - 3cr.
- MATH3310 - Discrete Mathematics - 3cr.
- MATH4200 - Foundations of Analysis (CI) - 3cr.
- MATH5560 - Actuarial Financial Mathematics - 3cr.
- MATH5570 - Actuarial Math I - 3cr.
- MATH5580 - Actuarial Math II (CI) - 3cr.
- MATH5710 - Introduction to Probability - 3cr.
- MATH5720 - Introduction to Mathematical Statistics - 3cr.
- STAT3000 - Statistics for Scientists (QI) - 3cr.
- STAT5100 - Modern Regression Methods (CI/QI) - 3cr.
- STAT5200 - Analysis of Designed Experiments - 3cr.

• 3 credits of STAT electives at the 5000-level

Science Sequence (6-8 credits)

Choose **one** of the following sequences:

Fulfill ANY of the following requirements:

Biology Sequence

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.

OR

Chemistry Sequence

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

OR

Geology Sequence

Complete ALL of the following Courses:

- GEO1110 - Physical Geology (BPS) - 3cr.
  AND GEO1115 - Physical Geology Laboratory - 1cr.
- GEO2200 - The Earth Through Time - 3cr.

OR

Physics Sequence

Choose one of the following course sets:

Complete ANY of the following Courses:

- PHYS2110 - General Physics—Life Sciences I - 4cr.
  AND PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.
- PHYS2210 - Physics for Scientists and Engineers I (QI/ BPS) - 4cr.
  AND PHYS2220 - Physics for Scientists and Engineers II (BPS/QI) - 4cr.

OR

Computer Science Sequence

Complete ALL of the following Courses:

- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
  OR CS1440 - Software Engineering Fundamentals - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Information

Some major coursework will fulfill General Education Requirements and University Studies Requirements.

- CHEM1120 GENERAL CHEMISTRY II (BPS) or GEO1110 PHYSICAL GEOLOGY (BPS) will fulfill the Breadth Physical Sciences (BPS) requirement.
- MATH4200 FOUNDATIONS OF ANALYSIS (CI), MATH4310 INTRO ALGEBRAIC STRC (CI) , MATH5580 ACTUARIAL MATH II (CI), and STAT5100 MODERN REGRESSION METH(CI)(QI) will meet the Communications Intensive (CI) requirement.
- MATH2210 MULTIVARIABLE CALCULUS (QI), MATH2210 MULTIVARIABLE CALCULUS (QI), MATH2250 LINEAR ALG/DIFF EQUATIONS (QI), MATH2270 LINEAR ALGEBRA (QI), MATH2280 ORD DIFFRNTIAL EQUATIONS (QI), STAT2000 STATISTICAL METHODS (QI), STAT2300 BUSINESS STATISTICS (QL) or STAT3000 STATISTICS FOR SCIENTISTS (QI) will meet the Quantitative Intensive (QI) requirement.

Program Requirements

All mathematics and statistics courses require a grade of C- or better. Program coursework *may not* be taken on a pass/fail basis.

Statistics - BA, BS

Type
Completion Requirement

Statistics Major Requirements (32 credits)

Complete ALL of the following Courses:

- MATH1210 - Calculus I (QL) - 4cr.
- MATH1220 - Calculus II (QL) - 4cr.
- MATH2210 - Multivariable Calculus (QI) - 3cr.
- MATH2270 - Linear Algebra (QI) - 3cr.
  OR DSAI2275 - Linear Algebra for Data Science - 4cr.
- MATH4200 - Foundations of Analysis (CI) - 3cr.

Statistics - MS

Program Overview

College	Department	Program Level
College of Arts & Sciences	Mathematics & Statistics	Graduate

About this Degree

The MS Statistics program prepares students for positions in industry or government, while providing them with the necessary applied and theoretical background to pursue PhD programs in statistics or biostatistics. Students may apply with an undergraduate degree in statistics, mathematics, or a wide variety of other disciplines, including the biological and social sciences. An advanced undergraduate class in probability and mathematical statistics and some programming experience (particularly in R) is desirable; classes in linear algebra and multivariable calculus are necessary. MS Stat students conduct research in areas such as Big Data, time series, statistical genetics, bioinformatics, computational statistics, data visualization, experimental design and biostatistics. Nearly all MS Statistics projects involve collaboration with researchers in other fields, including ecology, agriculture, genetics, cancer, finance, public health, nutrition, education and engineering.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (https://gradschool.usu.edu/admissions/policies). Applicants are also expected to have a GPA in math/stat coursework of at least 3.5. Applicants must submit either Official GRE scores (GRE-Q at least 70th percentile, GRE-V of at least 40th percentile) or a research portfolio, consisting of (1) a research statement of no more than 2 pages including references, and (2) (optional) supplemental materials, such as abstracts, paper summaries, of no more than 3 pages. Papers can be provided in the form of web pages, DOIs, or arXiv preprints, but not the full documents.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
30	30

Simple Requisites

Program Requirements

- Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- This degree requires 30 credits of coursework. At least 18 credits must be at 6000 level or above, excluding STAT6990 CONT GRAD ADVISEMENT and STAT7990 CONT GRAD ADVISEMENT (Continuing Graduate Advisement) with no more than 12 credits allowed at the 5000 level. Credits below the 5000 level are not acceptable for a graduate degree.
- No more than 12 transfer credits may be used toward a graduate degree.
- Supervisory Committee Approval by the end of the second semester
- Program of Study submitted by the end of the second semester

- Thesis/Project Approval Form by the third semester (Plan A students)
- Appointment for examination form submitted 10 days before defense and during defense semester must be registered for credit
- Record of Examination Form
- Thesis/Dissertation format and Style and Electronic Publication Form (Plan A students)
- Authorship and Copyright form (Plan A students)
- Plan B Report/Creative Project form (Plan B students)
- Graduation application

Plan A option:

The Plan A option for a master's degree requires the preparation and defense of a thesis. Students are required to complete 6 semester credits of thesis research (STAT6970 THESIS AND RESEARCH). Successful defense and submission of the thesis to the library is required.

Plan B option:

A Plan B option requires the production and defense of a research project which can be conveyed in a technical report or journal-manuscript format. Students are required to complete 3 semester credits of thesis research (STAT6970 THESIS AND RESEARCH). Successful defense and submission of the paper/ project to the library is required.

There is no Plan C option for this program.

Statistics - MS

Type
Completion Requirement

Core Requirements

Complete ALL of the following Courses:

- MATH6910 - Directed Reading and Conference - 1cr.
- STAT6970 - Thesis and Research - 1cr.

NOTE:

1. MATH6910 DIRECTED READING - 1 credit required. Students should take the MATH6910 DIRECTED READING - DR: Modern Research in MATH/STATS the first fall semester.
2. STAT6970 THESIS AND RESEARCH - Plan A students must take 6 credits, Plan B students must take 3 credits.

Qualifying Requirement

Select one of the following options below:

Fulfill ANY of the following requirements:

Option 1

Earn a minimum grade of B in the following:

- MATH5710 - Introduction to Probability - 3cr.
  AND MATH5720 - Introduction to Mathematical Statistics - 3cr.

OR

Option 2

Earn a minimum grade of B in the following:

- STAT6710 - Mathematical Statistics I - 3cr.
  AND STAT6720 - Mathematical Statistics II - 3cr.

Elective Credit

Complete the following with advisement of Program Coordinator
At least 18 credits at the 6000 level with no more than 12 credits at the 5000 level. Most coursework will be in Statistics, but the student's supervisory committee may approve courses in mathematics, biology, economics, or any other discipline if appropriate for the student's program of study.

Survey Methods - Post Bachelor's Certificate

Program Overview

College
College of Arts & Sciences

Department
School of Social Sciences

Program Level
Graduate

About this Degree

The certificate will be available to graduate students across USU (approximately 3,100 students) and professionals engaged survey research or evaluation. This certificate consists entirely of existing courses in the Sociology program and other departments and colleges across USU.

Program Requirements

Total Credits Required In Program Coursework
9

Total Credits Required To Earn This Credential
9

Simple Requisites

Program Requirements

The required 9 credits will consist of one required course, one elective statistics course, and 3 credits of directed learning or thesis/dissertation credits that include analysis of survey data and writing of survey results for academic and non-academic audiences.

Survey Methods - Post-Bachelor's Certificate

Type
Completion Requirement

Required Courses (6 credits)

Complete ALL of the following Courses:

- SOC7100 - Advanced Survey Techniques - 3cr.

• Directed Study, Dissertation, or Thesis course (3 credits)

Elective Courses (3 credits)

Complete at least 1 of the following courses:

- SOC6150 - Social Statistics II - 3cr.
- SOC7110 - Advanced Quantitative Analysis - 3cr.
- EDUC6050 - Applied Statistical Analysis - 3cr.
- EDUC6600 - Statistical Foundations - 3cr.
- EDUC7610 - Regression Analysis - 3cr.
- POLS5000 - Political Analysis (QI) - 3cr.
- WILD6500 - Design and Analysis of Ecological Research Using R - 3cr.

Program Learning Outcomes

Program Learning Outcomes

Students who complete this certificate will be knowledgeable about and prepared to conduct their own survey research and analyze their own or secondary survey data and disseminate findings to a variety of audiences. They will possess the skills necessary to work in academic, government nonprofit, research, and corporate positions. According to the Utah DWS Occupation Information Data Viewer, (https://jobs.utah.gov/jsp/utalmis/#/) survey research is used in occupations with current job openings including data scientists, natural sciences managers, social science research assistants, statisticians, and more.

Sustainable Systems - Minor

Students can make an appointment with an academic advisor in the S.J. and Jessie E. Quinney College of Agriculture and Natural Resources to add this minor: qanr.usu.edu/advising/.

Sustainable Systems Minor Requirements

Type
Completion Requirement

A. Required Courses (6 credits)

Complete ALL of the following Courses:

- ENVS4700 - Communicating Sustainability (CI) - 3cr.
- LAEP2039 - Foundations of Sustainable Systems - 3cr.

B. Agriculture, Food and Environment Systems (3 credits)

Earn at least 3 credits from the following:

- ASTE2900 - Food Matters: Ethics, Economics, and the Environment (BSS) - 3cr.
- ASTE5260 - Environmental Impacts of Agricultural Systems (CI) - 3cr.
- LAEP1040 - Introduction to Environmental Planning and Sustainable Development (BLS) - 3cr.
- NDFS1240 - Food Literacy - 3cr.
- PSC3800 - Fundamentals of Organic Agriculture - 3cr.
- PSC5070 - Agroecology - 3cr.
- PSC4400 - Modern Vegetable Production - 3cr.
- PSC5350 - Wildland Soils - 3cr.
  OR WILD5350 - Wildland Soils - 3cr.
- WATS1200 - The Natural World and Our Place Within It (BLS) - 3cr.
- WILD2200 - Ecology of Our Changing World (BLS) - 3cr.
- WILD3500 - Introduction to Rangeland Management - 3cr.

C. Energy and Earth Systems (3 credits)

Earn at least 3 credits from the following:

- CCA3070 - Unveiling the Anthropocene (DSC/QI) - 3cr.
- GEO3100 - Natural Disasters (DSC) - 3cr.
- GEO3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr.
  OR PHYS3150 - Energy in the Twenty-first Century (DSC/QI) - 3cr.
- ENVS4200 - Sustainability Metrics - 3cr.
- GEOG5400 - Natural Hazards and Society - 3cr.
- LAEP1030 - Introduction to Landscape Architecture (BCA) - 3cr.

- PHYS1020 - Energy (BPS) - 3cr. (Inactive)
- PSC4810 - Climate and Climate Change (DSC)(QI) - 3cr.
- PSC5880 - Earth System Science - 3cr.

D. Water Systems (2-4 credits)

Earn at least 2 credits from the following:

- LAEP5090 - Sustainable Low Water Landscaping - 3cr.
  OR PSC5090 - Sustainable Low Water Landscaping - 3cr.
- PSC2010 - Soils, Waters, and the Environment (BPS) - 3cr.
- WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.
- WATS5490 - Small Watershed Hydrology (QI) - 4cr.
- WATS5530 - Water Quality and Pollution - 3cr.
- WATS5621 - Science and Case Studies of Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5622 - Planning Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5623 - Designing Low-Tech Process-Based Restoration of Riverscapes - 1cr.
- WATS5624 - Implementation of Low-Tech Process-Based Restoration of Riverscapes - 1cr.

E. Social Systems (2-3 credits)

Earn at least 2 credits from the following:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- ENVS2340 - Environment, Natural Resources, and Society (BSS) - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS4030 - Building Community Environmental Resilience - 3cr.
- ENVS5350 - Ecological Economics - 3cr.
- ENVS5550 - Sustainability: Concepts and Measurement - 3cr.
- GEOG3100 - Human-Environment Geography (CI) - 3cr.
- MSLE3855 - Sustainability Marketing - 2cr.
- PHIL3530 - Environmental Ethics (DHA) - 3cr.
- SOC3300 - Sociology of Climate Change - 3cr.
- SOC3310 - Environmental Justice - 3cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.

Surgical Technology - AAS

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Surgical Technology program is an Associate of Applied Science degree program that can be completed in four semesters, after completing one semester of prerequisites. The prerequisites must be completed prior to the student applying for and being accepted into the Surgical Technology (ST) program. In addition, during clinical rotations and externship, students are required to complete a minimum of 120 surgical cases as outlined in the Association of Surgical Technologists Core Curriculum, 7th Edition once competency is demonstrated in the laboratory. Surgical technologists assist in operations under the supervision of surgeons, registered nurses and other surgical personnel. They must be knowledgeable in preparing the operating room, establishing and maintaining the sterile field, aseptic technique, and setting up surgical equipment, supplies and solutions. During surgery, the surgical technologist passes instruments, fluids, medications, and supplies to the surgeon and anticipates the needs of the surgeon for any given surgical procedure. Students receive an Associate of Applied Science degree in Surgical Technology from Utah State University upon completion of academic coursework and clinical experience.

The Surgical Technology program is offered on the Blanding, Moab and Price campuses via a blended delivery system. Students attending the Moab campus have to travel to the Blanding campus for their lab experience. The program will try to schedule clinical rotations for Moab students in their area.

The USU Blanding and USU Price programs are currently accredited through the accrediting bureau of Health Education Schools (ABHES). Upon the successful completion of coursework, students will be eligible to sit for the Certified Surgical Technologist (CST) certification exam administered by the National Board of Surgical Technology and Surgical Assisting (NBSTSA). If the student successfully passes this national board, they will be conferred the title of Certified Surgical Technologist (CST). The USU Surgical Technology curriculum was developed utilizing the curriculum recommendations of the Association of Surgical Technologist (AST) Core Curriculum, 7th Edition. Students successfully completing the program will be well prepared for a career as an entry-level (advanced beginner) surgical technologist. Student relocation to any state outside of Utah may adversely affect the student's ability to complete the Surgical Technology Program. Graduation from the surgical technology program does not guarantee employment.

Michele Lyman, M.S., PA-C - Director of Health Professions Programs

Utah State University Blanding, Moab, and Price campuses

John Redfield, BA, CST - Program Director, Instructor, and Clinical Coordinator (john.redfield@usu.edu, 435-613-5830)

Teryn Lyman - Health Professions Programs Coordinator/Student Advisor (teryn.lyman@usu.edu, 435-678-8208)

Admission Requirements for this Program

Surgical Technology Entrance Requirements

Utah State University has an open admission policy. Applicants will be admitted without regard to race, color, religion, sex, national origin, age, disability, or veteran's status. In addition, discrimination on the basis of sexual orientation for employees in all aspects of employment and for students in academic programs and activities is prohibited.

High school graduation or GED is required. A GPA of 3.0 or higher is required to be accepted into the program. Throughout the curriculum, the student must maintain an overall GPA of 3.0 or higher. No pass/fail grades are accepted for program

coursework. Acceptance into this program will be by the selection process. Please note that distance education students enrolled in the Surgical Technology - AAS program will have no additional admission requirements or fees.

General Admissions Procedures

To be officially admitted to the college as a full-time matriculated student, an applicant must submit the following:

1. A completed Application for Admission to Utah State University.
2. A $50 nonrefundable application fee to Utah State University.
3. Official transcripts of all previous high school and/or their GED and college work if the student is a transfer student.
4. Placement and evaluation exam: ACT (American College Test), or Accuplacer Exam for English and ALEKS Exam for math.

Notification of acceptance and resident status will be sent from the Health Professions Department Chairperson. If a student's application is incomplete at the time of registration, the student will not be admitted to the program. Students applying for financial aid must be a high school graduate or GED recipient, and be matriculated before receiving aid.

A declaration of a major is accomplished through the Application for Admission. Students desiring to change their majors after acceptance are required to complete a "Change of Major" form at the Admissions and Registrar's Office.

Returning Students

A student who has been away for more than two semesters must submit a new application for admission along with a $20.00 reapplication admission fee. Those who have attended other colleges or universities in the interim will be asked to submit transcripts of all college credits.

Enrollment Prior to High School Graduation

An academically qualified high school student who wishes to enroll at USU Eastern or USU Blanding must fill out a Concurrent Enrollment-Early College form as well as a Student Acknowledgement & Parental Consent Agreement form. **Students may work concurrently on high school classes and the college courses required for acceptance into the ST program while still in high school.**

Transfer Students

A transfer student from another college or university must submit the following:

1. A completed Application for Admission to Utah State University.
2. A $50 one-time nonrefundable application fee to Utah State University.
3. Official transcripts of all previous college work. (Official transcripts must be sent directly from the previous school. Hand carried transcripts will not be accepted.)
4. ACT or Accuplacer test scores. If a transfer student has completed 20 hours and has taken an English course equivalent to our English 1010, they will not be required to take the above tests.
5. A transfer student cannot transfer credits with D or E (F) grades or credits from developmental or remedial courses. **Grades of C or better will be allowed for all classes required for the program. Credits from remedial classes will not be accepted.**
6. The student must be in good standing and eligible to re-enroll at the college or university where they were most recently registered.
7. Transfer students will not be matriculated until official transcripts of all high school, previous college or university work are submitted to USU Eastern Blanding.

Program Requirements

Total Credits Required To Earn This Credential

63

Simple Requisites

Program Requirements

- Students interested in the Surgical Technology program should visit with an advisor prior to registration.
- Background checks and drug screen results are now processed online through the CastleBranch Compliance Tracking System. Students are required to pay a fee for this service. Vaccination records and the CPR requirement must be attached to the application. Students attending the Blanding campus will complete their drug screen on campus. Fees will be paid to the cashier. All information must be on file at the campus the student is attending. Students are advised to keep a copy of all records.

Immunizations and Background Check Requirements

All immunizations below are required. The program reserves the right to require additional vaccines as stipulated by teaching health care facilities. All records must be complete and on file with the program director **PRIOR** to beginning the program:

Hepatitis B: One of the following must be performed:

- Provide written evidence from your healthcare provider or immunization record documenting the three (3) Hepatitis B vaccinations and blood test with "Reactive" result.
- Documentation of three (3) Hepatitis B vaccinations given more than 8 weeks prior to start date with no documented blood test results (*no blood test required, but a baseline titer should be run immediately if the person has a significant exposure to blood or body fluids).*
- Provide written documentation of titer results as "Reactive."
- Documentation of six (6) Hepatitis B vaccinations with blood test result of "Not Reactive" (this person is considered a "Non-Responder").

Tuberculosis

- 2-step TST (two separate Tuberculin Skin Tests, aka PPD) is placed no sooner than seven (7) days apart. The 2-step TST must be completed at the time the student begins ST program; **OR**
- One (1) QuantiFERON Gold blood test with negative result; **OR**
- One (1) T-SPOT blood test with negative result.
- If there is history of a positive TB skin test, the student must see a physician for evaluation of risk AND have a chest x-ray report showing no evidence of active disease.

Tdap

- One (1) adult dose Tdap is required for USU Surgical Technology program. A tetanus/diphtheria (Td) booster is required if 10 years have elapsed since the last booster.

The *CDC Advisory Committee on Immunization Practices* recommends that all healthcare personnel, regardless of age, should receive a single dose of Tdap as soon as feasible if they have not previously received Tdap, regardless of the time since last Td dose.

Measles, Mumps and Rubella (MMR)

- Students must provide written evidence of the required two (2) vaccines; **OR**

- Provide written documentation of titer results (blood test). Verbal history of disease is NOT reliable and will not be accepted.

Varicella (Chicken Pox)

- Proof of two (2) Varicella vaccinations; **OR**
- Proof of immunity to Varicella through a blood test.

Flu (Influenza)

- Students must provide written evidence of having received the seasonal flu vaccine by October of current year.
- Students must maintain compliance with annual flu vaccinations during their enrollment in the Surgical Technology program.
- If students refuse to obtain this vaccine, they are required to wear a mask **AT ALL TIMES** when in the clinical facility.

Background Check/Drug Screen: Students are required to order and pay for a background check and drug screen through CastleBranch prior to being accepted into the Surgical Technology program.

CPR Requirement: Students must take a Healthcare Provider CPR course and receive CPR certification to meet the CPR requirement. Periodically, courses are offered on campus. Please make arrangements to attend (including notifying other instructors). This must be completed by the end of the first semester. CPR certification is valid for two years.

Students will be required to turn in a packet to the Health Professions staff assistant with all of the required records, including a copy of high school/GED documentation, any college transcripts, and the program application. On the first day of class, the Surgical Technician Student Contractual Agreement should be completed and turned in to the instructor. Students should keep a copy of all records for their own files.

Surgical Externship Orientation: Prior to initiating any surgical externship, students are required to complete an orientation with the sites that they will be attending for their surgical experience. At times this may require students who are completing externships at more than one surgical facility to attend orientations for each worksite.

Clinical Orientation: Prior to initiating any clinical or externship experience, students are required to attend an orientation with the appropriate sites that they will be attending for their surgical experience.

Surgical Technology Surgical Clinical and Externship: Our ST students train in various surgical settings. After students demonstrate proficiency in assigned skills in the surgical lab, students may begin practicing skills in the clinical setting under the direct supervision of an experienced surgical technologist or registered nurse. These clinical rotations are an important part of the program. Students must commit to attending all surgical rotations in which they are scheduled to participate in order to attain the required case completions for this degree.

Application Packet: Students will be required to turn in a completed Application Packet to the Health Professions staff assistant with all required records on the application admission checklist.

National Accreditation

Utah State University Eastern and Utah State University Blanding campuses are programmatically accredited by The Accrediting Bureau of Health Education Schools (ABHES). ABHES is listed by the U.S. Department of Education as a nationally recognized accrediting agency under the provision of Chapter 33, Title 38 of the U.S. Code and subsequent legislation. ABHES provides Utah State University Eastern programmatic accreditation for the delivery of Certificate of Completion level degrees.

Accrediting Bureau of Health Education Schools (ABHES)

Surgical Technology - AAS Course Requirements

Type

Completion Requirement

Required Prerequisite Courses

The following courses are required prior to admission to the Surgical Technology (ST) program:

Complete ALL of the following Courses:

- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- HEAL1008 - Medical Terminology - 2cr.
- HEAL1500 - Anatomy and Physiology (BLS) - 4cr.

Students may take available courses during high school by following the Concurrent Enrollment Pathway if concurrent enrollment procedures are followed.

Health Professions Math Prerequisite Options

Complete ALL of the following Courses:

- MATH1050 - College Algebra (QL) - 4cr.
  OR STAT1040 - Introduction to Statistics (QL) - 3cr.
- STAT1045 - Introduction to Statistics with Elements with Algebra (QL) - 5cr.

Required Program Courses

The following courses are required for the Associate of Applied Sciences degree in Surgical Technology:

Fulfill ALL of the following requirements:

Semester One

Complete ALL of the following Courses:

- BIOL2060 - Elementary Microbiology - 4cr.
- SURG1030 - Surgical Technology I - 6cr.
- SURG1035 - Surgical Technology Lab I - 4cr.
- SURG1600 - Surgical Technology Clinical Competencies I - 2cr.

AND

Semester Two

Complete ALL of the following Courses:

- SURG1040 - Surgical Technology II - 6cr.
- SURG1045 - Surgical Technology Lab II - 2cr.
- SURG1700 - Surgical Technology Clinical Competencies II - 4cr.

AND

Semester Three

Complete ALL of the following Courses:

- SURG1050 - Surgical Technology III - 6cr.
- SURG1055 - Surgical Technology III Laboratory - 2cr.
- SURG1800 - Surgical Technology III Clinical Competency - 6cr.

AND

Semester Four

Complete ALL of the following Courses:

- SURG1060 - Surgical Technology IV - 6cr.
- SURG1065 - Surgical Technology IV Lab - 2cr.
- SURG1900 - Surgical Technology IV Clinical Competency Externship - 6cr.

Technology and Design - AAS

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The **Associate of Applied Science (A.A.S.) in Technology and Design** is a flexible, stackable degree designed for students with a variety of educational backgrounds. Whether beginning their studies at **Utah State University (USU)** or transferring in with a certificate from a **Utah technical college**, students can build a customized degree that combines hands-on training with academic coursework. This program helps students earn a college credential while gaining the skills needed to succeed in today's workforce.

Degree Structure

Students may apply up to **30 credits of approved coursework from a Utah Technical College certificate** toward the A.A.S. in Technology and Design.

Students who apply technical college credit will complete an additional **10 credits of specialized electives**. In consultation with an academic advisor, students will select courses aligned with an emphasis area that supports their **career goals and academic interests**.

Available emphasis areas include:

- **Technology and Design: Health Sciences Emphasis (A.A.S.)**
- **Technology and Design: Design and Creative Arts Emphasis (A.A.S.)**
- **Technology and Design: General Business Emphasis (A.A.S.)**
- **Technology and Design: Technology Systems Emphasis (A.A.S.)**

Approved courses for all emphasis areas are listed in the program requirements.

Students who **do not have technical college credit** will complete their degree coursework through **advisor-guided course selection** at USU. Working closely with an academic advisor, students will select courses that align with their **career interests, professional goals, and academic objectives**. Coursework is intentionally chosen to help students develop relevant skills, explore areas of interest, and prepare for employment or future educational opportunities.

Pathway to a Bachelor's Degree

This degree sets students up to finish a bachelor's in Technology Systems with just two more years of study—fast-tracking their path to advanced skills and career growth.

Admission Requirements for this Program

Students are admitted into this program through the university's regular admission process.

1. New freshmen admitted to USU in good standing qualify for admission to this major.

2. Transfer students from other institutions and from other USU majors need a 2.20 overall GPA for admission to this major in good standing.

3. Students who have attended a Utah Technical College and earned or worked towards a certificate may apply to USU for admission to this program.

For additional information, or to complete an online application, visit: usu.edu/admissions/applyonline/.

Program Requirements

Total Credits Required In Program Coursework
63

Total Credits Required To Earn This Credential
63

Simple Requisites

Program Requirements

A student must have an overall GPA of at least 2.0 in order to graduate and 20 USU credits.

To complete the AAS in Technology and Design, students must earn **at least 63 total credits**, structured as follows:

Technology and Design Course Requirements (63 credits)

Type
Completion Requirement

General Education (15 credits)

Complete ALL of the following Course Sets:

- Breadth American Institutions (BAI) Course
- Breadth Creative Arts (BCA) Course
  OR Breadth Humanities (BHU) Course
- Breadth Life Sciences (BLS) Course
  OR Breadth Physical Sciences (BPS) Course
- Communications Literacy (CL1) Course
- Quantitative Literacy (QL) Course

Core Requirements (8 credits)

Complete ALL of the following Courses:

- BUSN2200 - Professional Communications - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.
- BUSN2720 - Introduction to Project Management - 3cr.
- TESY1000 - Introduction to Technology and Design - 2cr.

Specialized Elective Requirements

Students who apply **30 credits from a Utah Technical College** toward the Associate of Applied Science (A.A.S.) in Technology and Design will complete **10 credits of specialized electives** aligned with an emphasis area that supports their **career goals**.

In consultation with an academic advisor, students will select courses from the list below aligned with **one of the following emphasis areas**, based on the student's professional interests and goals:

- **General Business** (e.g., accounting, finance, marketing, management)
- **Design and Creative Arts** (e.g., digital media, photography, design)
- **Technology Systems** (e.g., networking, programming, cybersecurity, web design)
- **Health Sciences** (e.g., biology, anatomy, physiology, medical terminology)

Approved courses for all emphasis areas are listed below. Course selection is determined in consultation with an academic advisor and may also support future educational opportunities for students who choose to continue their studies.

Complete ANY of the following Courses:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- ART1010 - Exploring Art (BCA) - 3cr.
- ART1050 - Introduction to Photography - 3cr.
- ASTE2100 - Personal and Team Leadership - 3cr.
- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
- BCIS1040 - Introduction to Programming - 3cr.
- BCIS1050 - Career and Workplace Relations - 1cr.
- BCIS1100 - Introduction to Networking - 1cr.
- BCIS1250 - A+ Core 1 - 3cr.
- BCIS1260 - A+ Core 2 - 3cr.
- BCIS1300 - Website Design - 3cr.
- BCIS1310 - Digital Image Basics - 2cr.
- BCIS1320 - Linux Foundations - 2cr.
- BCIS1540 - Introduction to Cloud - 2cr.
- BCIS2631 - Network+ - 4cr.
- BCIS2651 - Cybersecurity/Security+ - 4cr.
- BUSN1010 - Business Principles (BSS) - 3cr.

Degree Map Narrative

- Following is a sample two-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students fulfill their **first-year** requirements by completing 30 articulated technical credits from a Utah Technical College, a USU certificate, or advisor-approved technical coursework at USU.

Tip: Be sure to **meet with your academic advisor** to confirm what courses you may need and to create a personalized plan for year one.

Program Learning Outcomes

Program Learning Outcomes

Students will engage with industry professionals through guest lectures to explore how these systems operate in real-world scenarios.

Students will identify concepts, terminology, and roles of project management, gaining a foundational understanding of the field. They will become familiar with various tools and systems associated with project management, enabling them to effectively navigate and utilize these resources. Additionally, students will describe the Agile framework along with various other methodologies used in project management, broadening their knowledge of different approaches to managing projects. Finally, they will analyze the steps central to task management, equipping themselves with the skills necessary to efficiently organize and execute project tasks.

Students will be able to demonstrate proficiency in specific technical skills that are currently in demand by business and industry, as identified through advisory board recommendations and state employment needs.

Technology and Design: Health Sciences Emphasis - AAS

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The **Associate of Applied Science (A.A.S.) in Technology and Design** is a flexible, stackable degree designed for students with a variety of educational backgrounds. Whether beginning their studies at **Utah State University (USU)** or transferring in with a certificate from a **Utah technical college**, students can build a customized degree that combines hands-on training with academic coursework. This program helps students earn a college credential while gaining the skills needed to succeed in today's workforce.

Pathway Options

Pathway to Associates Degree

For students who have completed a certificate at a Utah Technical College, this pathway allows them to apply their certificate toward an associate degree. Emphasis areas include:

- Technology and Design: Health Sciences Emphasis (Technology and Design: Health Sciences Emphasis - AAS)
- Technology and Design: Design and Creative Arts Emphasis - AAS (Technology and Design: Design and Creative Arts Emphasis - AAS)
- Technology and Design: General Business Emphasis - AAS (Technology and Design: General Business Emphasis - AAS)
- Technology and Design: Technology Systems Emphasis - AAS (Technology and Design: Technology Systems Emphasis - AAS)

Pathway to a Bachelor's Degree

This degree sets students up to finish a bachelor's in Technology Systems with just two more years of study—fast-tracking their path to advanced skills and career growth.

Admission Requirements for this Program

Students are admitted into this program through the university's regular admission process.

1. New freshmen admitted to USU in good standing qualify for admission to this major.

2. Transfer students from other institutions and from other USU majors need a 2.20 overall GPA for admission to this major in good standing.

3. Students who have attended a Utah Technical College and earned or worked towards a certificate may apply to USU for admission to this program.

For additional information, or to complete an online application, visit: usu.edu/admissions/applyonline/.

Total Credits Required To Earn This Credential
63

Simple Requisites

Program Requirements

A student must have an overall GPA of at least 2.0 in order to graduate and 20 USU credits.

To complete the AAS in Technology and Design, students must earn **at least 63 total credits**, structured as follows:

Technology and Design: Health Sciences Emphasis Course Requirements (63 credits)

Type
Completion Requirement

General Education (15 credits)

Complete ALL of the following Course Sets:

- Breadth American Institutions (BAI) Course
- Breadth Creative Arts (BCA) Course
  OR Breadth Humanities (BHU) Course
- Breadth Life Sciences (BLS) Course
  OR Breadth Physical Sciences (BPS) Course
- Communications Literacy (CL1) Course
- Quantitative Literacy (QL) Course

Core Courses (8 credits)

Complete ALL of the following Courses:

- BUSN2200 - Professional Communications - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.
- BUSN2720 - Introduction to Project Management - 3cr.
- TESY1000 - Introduction to Technology and Design - 2cr.

Technical Foundation (30 credits)

Students must complete 30 articulated or advisor-approved technical credits. These credits may come from a Utah Technical College certificate, a USU certificate of proficiency/completion, or equivalent coursework or training verified in consultation with an academic advisor. These credits usually represent the first year of the degree.

Health Science Emphasis (10 credits)

After fulfilling the 30-credit technical foundation, students complete **10 credits in the Health Sciences emphasis** to build on their applied skills.

Earn at least 10 credits from the following:

- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
- BIOL2320 - Human Anatomy - 4cr.
- BIOL2420 - Human Physiology - 4cr.
- CHEM1110 - General Chemistry I (BPS) - 4cr.
- CHEM1120 - General Chemistry II (BPS) - 4cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CMST1020 - Public Speaking (BHU) - 3cr.
- CMST2110 - Interpersonal Communication (BHU) - 3cr.
- HDFS1500 - Human Development Across the Lifespan (BSS) - 3cr.
- HEAL1008 - Medical Terminology - 2cr.
- HEAL2020 - Emergency First Response - 3cr.
- HEP2500 - Health and Wellness - 2cr.
- NDFS1020 - Science and Application of Human Nutrition (BLS) - 3cr.

Program Learning Outcomes

Program Learning Outcomes

Students will engage with industry professionals through guest lectures to explore how these systems operate in real-world scenarios.

Students will identify concepts, terminology, and roles of project management, gaining a foundational understanding of the field. They will become familiar with various tools and systems associated with project management, enabling them to effectively navigate and utilize these resources. Additionally, students will describe the Agile framework along with various other methodologies used in project management, broadening their knowledge of different approaches to managing projects. Finally, they will analyze the steps central to task management, equipping themselves with the skills necessary to efficiently organize and execute project tasks.

Students will be able to demonstrate proficiency in specific technical skills that are currently in demand by business and industry, as identified through advisory board recommendations and state employment needs.

Technology and Design: Technology Systems Emphasis - AAS

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The **Associate of Applied Science (A.A.S.) in Technology and Design** is a flexible, stackable degree designed for students with a variety of educational backgrounds. Whether beginning their studies at **Utah State University (USU)** or transferring in with a certificate from a **Utah technical college**, students can build a customized degree that combines hands-on training with academic coursework. This program helps students earn a college credential while gaining the skills needed to succeed in today's workforce.

Pathway Options

Pathway to Associates Degree

For students who have completed a certificate at a Utah Technical College, this pathway allows them to apply their certificate toward an associate degree. Emphasis areas include:

- Technology and Design: Health Sciences Emphasis (Technology and Design: Health Sciences Emphasis - AAS)
- Technology and Design: Design and Creative Arts Emphasis - AAS (Technology and Design: Design and Creative Arts Emphasis - AAS)
- Technology and Design: General Business Emphasis - AAS (Technology and Design: General Business Emphasis - AAS)
- Technology and Design: Technology Systems Emphasis - AAS (Technology and Design: Technology Systems Emphasis - AAS)

Pathway to a Bachelor's Degree

This degree sets students up to finish a bachelor's in Technology Systems with just two more years of study—fast-tracking their path to advanced skills and career growth.

Admission Requirements for this Program

Students are admitted into this program through the university's regular admission process.

1. New freshmen admitted to USU in good standing qualify for admission to this major.

2. Transfer students from other institutions and from other USU majors need a 2.20 overall GPA for admission to this major in good standing.

3. Students who have attended a Utah Technical College and earned or worked towards a certificate may apply to USU for admission to this program.

For additional information, or to complete an online application, visit: usu.edu/admissions/applyonline/.

Program Requirements

Total Credits Required In Program Coursework
63

Total Credits Required To Earn This Credential
63

Simple Requisites

Program Requirements

A student must have an overall GPA of at least 2.0 in order to graduate and at least 20 credits completed at USU.

To complete the AAS in Technology and Design, students must earn **at least 63 total credits**, structured as follows:

Technology and Design: Technology Systems Emphasis Course Requirements (63 credits)

Type
Completion Requirement

General Education (15 credits)

Complete ALL of the following Course Sets:

- Breadth American Institutions (BAI) Course
- Breadth Creative Arts (BCA) Course
  OR Breadth Humanities (BHU) Course
- Breadth Physical Sciences (BPS) Course
  OR Breadth Life Sciences (BLS) Course
- Communications Literacy (CL1) Course
- Quantitative Literacy (QL) Course

Core Courses (8 credits)

Complete ALL of the following Courses:

- BUSN2200 - Professional Communications - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.
- BUSN2720 - Introduction to Project Management - 3cr.
- TESY1000 - Introduction to Technology and Design - 2cr.

Technical Foundation (30 credits)

Students must complete 30 articulated or advisor-approved technical credits. These credits may come from a Utah Technical College certificate, a USU certificate of proficiency/completion, or equivalent coursework or training verified in consultation with an academic advisor. These credits usually represent the first year of the degree.

Technology Systems Emphasis (10 credits)

After fulfilling the 30-credit technical foundation, students complete **10 credits in the Technology Systems emphasis** to build on their applied skills.

Earn at least 10 credits from the following:

- BCCM2240 - Construction Estimating - 3cr.
- TEE1040 - Construction and Estimating - 3cr.
- TEE2030 - Wood-Based Manufacturing Systems - 3cr.
- TEE2200 - Aquaponic Systems (BPS) - 3cr.
- TESY1020 - Energy, Power, Transportation Systems Control Technology - 3cr.
- TESY1030 - Material Processing Systems - 3cr.
- TESY1200 - Computer-Aided Drafting and Design - 3cr.
- TESY2200 - Intermediate CAD - 3cr.

Technology and Engineering Education - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Undergraduate

About this Degree
This minor allows students involved in education programs the opportunity to add an additional endorsement area to their credentials. The Utah State Office of Education has made changes in the requirements for endorsements. They have created a separate content area for middle school Technology and Engineering Education with fewer education requirements for endorsement. The required course experience is covered in 5 courses taught in the Technology and Engineering Education program at USU. The minor in Technology and Engineering Education provides students in other fields of education the opportunity to expand their marketability while addressing the shortage of technology and engineering teachers in Utah. Students who successfully complete this minor will qualify to apply for the Technology endorsement (aka, the “middle school” endorsement for TEE). This endorsement attaches to secondary licenses only, not to CTE licenses

Admission Requirements for this Program
In order to declare this minor, a student must be in a teaching major, earn a grade of C or better in their minor coursework, and maintain an overall minor GPA of 3.0 or above.

To contact the Technology and Engineering Education advisor, schedule an appointment online at caasam.usu.edu, or contact the CAAS advising office at (435) 797-2282.

Technology and Engineering Education - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Applied Sciences, Technology and Education

Program Level
Undergraduate

About this Degree

A degree in Technology and Engineering Education prepares students to become qualified instructors who can help students develop the technological literacy and technical skills that are increasingly necessary in our changing world. The ever-increasing rate of technological development and the impacts of globalization have created a strong demand for individuals who are technologically literate, skilled, innovative, and capable of working in teams. The world looks toward specialized educators to meet this demand.

A degree in Technology and Engineering Education with an emphasis in Technology and Engineering Education is designed to prepare students for careers in teaching Career and Technical Education (CTE) courses in the area of Technology and Engineering at the middle school and high school levels. Students in Technology & Engineering Education will develop their ability to use technological tools, processes, and systems safely and effectively in a laboratory setting by taking classes engaging them in multiple technological contexts. Students will prepare to apply these skills and teach technological literacy in a classroom setting by completing coursework in teaching methods, assessment and evaluation, teaching and learning theory, and classroom/lab management. Students will be exposed to extensive practical classroom experience through in-class role-playing, clinical experience, and student teaching. Students will also be required to complete leadership and professional development activities as part of the degree requirements.

Students choosing this major must be admitted to and complete the Secondary Teacher Education Program (STEP) administered by the Emma Eccles Jones College of Education and Human Services to complete their degree. For admission to STEP, students must have an overall GPA of 3.0, have earned a grade of C+ or better in ENGL 1010 or ENGL 2010, have earned a grade of C or better in at least three general education breadth courses, and have completed a background check

- For more information about Technology and Engineering Education, see the website.
- Admitted and current students must meet with an advisor. Advising appointments can be made at caas.usu.edu/advising or by calling (435) 797-2282.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL) and MATH1060 TRIGONOMETRY

Admission Requirements for this Program

New freshmen: Admitted to USU in Good Standing
Transfer students from other institutions or other programs at USU: 2.75 GPA

Program Requirements

Total Credits Required In Program Coursework
102

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Please note that all Foundation and Required Core Courses must be passed with the following: ENGL 1010 or ENGL 2010 must pass one with a grade of C+ or better. Breadth Courses need a minimum a grade of C or better. All STEP courses must be passed with a grade of C or better.

Technology and Engineering Education Major (102 credits)

Type
Completion Requirement

University Foundations (16 credits)

Complete ALL of the following Courses:

- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1060 - Trigonometry - 2cr.
- PHYS1800 - Physics of Technology (BPS) - 4cr.
  OR PHYS1200 - Introduction to Physics by Hands-on Exploration (BPS) - 4cr.
  OR PHYS2210 - Physics for Scientists and Engineers I (QI/BPS) - 4cr.

Student must earn a grade of C+ or better in one of the following courses: ENGL1010 WRITING AS INQUIRY (CL1), ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2), or ENGL2020 PROFESSNL COMMUNICATION (CL2)

Students must have a C or better in MATH1050 COLLEGE ALGEBRA (QL), MATH1060 TRIGONOMETRY, and in PHYS1800 PHYSICS OF TECHNOLOGY (BPS), PHYS1200 INTRO PHYS BY EXPLORATION(BPS), or PHYS2210 PHYS SCI AND ENGR I (QI)(BPS)

Technology and Engineering Foundations (30 credits)

Students complete all of the courses in this section with a final grade of C or better to receive a composite teaching endorsement in Technology & Engineering Education upon program completion and licensure with the Utah State Board of Education.

-OR-

Students may submit for substitution and approved certificate from a Utah technical college to receive and associated Career and Technical Education teaching endorsement upon program completion and licensure with the Utah State Board of Education. Up to 30 credits of technical college credit may be substituted for an equivalent number of Technology and Engineering Foundations course credits. For this option, the endorsement received after graduation and licensure depends on the technical college certificates applied.

All students entering the Technology & Engineering Education program should consult with their academic advisor to determine which option is best for their goals.

Complete ALL of the following Courses:

- ASTE1640 - Introduction to Welding - 3cr.
- ETEC1010 - Engineering Technology Principles - 3cr.
- ETEC2020 - Introduction to Automation - 3cr.
  OR TESY3030 - Computer-Integrated Manufacturing Systems - 3cr.
- ETEC2310 - Electronics Systems - 3cr.
- TEE1040 - Construction and Estimating - 3cr.
  OR ASTE4100 - Agricultural Structures and Environment (QI) - 3cr.
- TEE2030 - Wood-Based Manufacturing Systems - 3cr.
- TEE2220 - Civil Engineering and Architecture - 3cr.

OR EDDT1100 - Residential Architectural Drafting - 3cr.
- TEE2300 - Electronic Fundamentals (QI) - 3cr.
- TESY1030 - Material Processing Systems - 3cr.
- TESY1200 - Computer-Aided Drafting and Design - 3cr.

Leadership and Professional Foundations (9 credits)

Complete ALL of the following Courses:
- TEE1000 - Orientation to Technology and Engineering Education - 1cr.
- TEE2000 - Seminar in Leadership and Professional Development - 1cr.
- ASTE3440 - Science, Technology, and Modern Society (DSC) - 3cr.
- PUBH3310 - Occupational Health and Safety - 3cr.
  OR TESY3000 - Hazard Recognition & Control - 3cr.

Two credits of TEE 2000 are required. TEE 2000 is repeatable for credit.

Content Area Enhancement Courses (9 credits)

Some Content Area Enhancement courses may help meet requirements for additional teaching endorsements after receiving a teaching license. Please consult with your academic advisor for details when selecting these courses.

Earn at least 9 credits from the following:
- ASTE3030 - Metal Fabrication for Agriculture and Natural Resource Industries - 3cr.
- AV4200 - Composite Manufacturing Processes and Repair - 3cr.
- CS1030 - Foundations of Computer Science (BPS) - 3cr.
- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
- CS1440 - Software Engineering Fundamentals - 3cr.
- ETEC2200 - Engineering Technology Communications - 3cr.
- ETEC3010 - Materials Sciences for Engineering Technology - 3cr.
- ETEC3020 - Energy Systems - 3cr.
- ETEC3130 - Manufacturing and Quality Systems - 3cr.
- ETEC3850 - Statics and Strengths of Materials - 3cr.
- OPDD1100 - Introduction to Product Creation - 3cr.
- TEE4320 - Advanced Applications in Woods and Composites - 3cr.
- TESY2200 - Intermediate CAD - 3cr.
- TESY3040 - Design for Additive Manufacturing - 3cr.
- TESY3200 - Additive Manufacturing I - 3cr.
- TESY3210 - Additive Manufacturing II - 3cr.
- TESY3270 - Advanced Computer-Aided Drafting - 3cr.
- TESY4230 - Advanced Materials and Processing Systems - 3cr.
- TESY4330 - Product Innovation Processes, Tools, and Strategies - 3cr.
- TESY4500 - Quality Management Systems - 3cr.
- TESY4510 - Quality Root Cause Analysis Methods and Applications - 3cr.
- TESY4530 - Principles of Lean Manufacturing - 3cr.
- UAS1010 - Unmanned Aircraft Systems - Remote Pilot - 3cr.
- UAS1100 - Introduction to Unmanned Aircraft Systems - 1cr.
- UAS3010 - Unmanned Aircraft System Introduction to Remote Pilot Certification - 3cr.
- UAS3050 - Unmanned Aircraft Systems Pilot in Command Introduction - 3cr.

Secondary Teacher Education Program (STEP) Requirements (38 credits)

For admission to STEP, students must have an overall GPA of 2.0 or higher, a major GPA of 3.0 or higher, have earned a grade of C+ or better in ENGL1010 WRITING AS INQUIRY (CL1) or ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2), have earned a grade of C or better in at least three general education breadth courses as well as all major required courses, and have completed a background check.

STEP courses must be passed with a grade of C or better, or a P if the course is offered Pass/Fail only. An overall GPA of 3.0 is required for graduation.

Complete ALL of the following Courses:
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- TEE3200 - Methods of Teaching Engineering and Technology Education I - 3cr.
- TEE3300 - Clinical Experience I - 1cr.
- TEE4210 - Cognition and Evaluation of Student Learning in Career and Technical Education - 3cr.
  OR SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- TEE4300 - Clinical Experience II - 1cr.
- TEE4400 - Methods of Teaching Engineering and Technology Education II - 3cr.
- TEE5500 - Student Teaching Seminar - 2cr.
- TEE5630 - Student Teaching in Secondary Schools - 10cr.
- ITLS2500 - Technology Enabled Instruction - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Technology and Engineering Education - MS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Applied Sciences, Technology and Education	Graduate

About this Degree

Website: https://caas.usu.edu/degrees/aste/graduate/tee

This degree emphasizes research, leadership, and teaching. Students are provided with coursework to gain research skills, engage in mentoring and organizational management, and improve their pedagogical approaches to teaching and learning in formal or nonformal educational settings. This degree program does not lead to licensure and requires a thesis. The completion of a thesis prepares students with the skills and experiences needed to read, interpret, and conduct research. This degree program also prepares students for a future Ph.D. program.

The program can be completed on campus or at a distance as all coursework (30 credits) is available online. Four courses are required (12 credits), remaining electives are chosen by students. Most students in the program take two classes (6 credits) per semester. Students who follow this will be able complete the program in approximately 2 years (5 semesters).

Admission Requirements for this Program

The required documentation for the application package and admissions requirements are noted on the ASTE Graduate Admission and Application webpage, aste.usu.edu/degrees/graduate-program-admission.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
30	30

Simple Requisites

Program Requirements

School of Graduate Studies General Graduation Guidelines:

Degree Verification

A bachelor's degree from an accredited U. S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.

Overall Graduate GPA

At least 3. 0 and no grades of C- or lower. Graduate students are required to maintain at least a 3. 0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.

Course Number Acceptability

The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. A maximum of 12 credits from courses at the level of 5000 may be used on an approved program of study.

Matriculation Start Semester

A master's degree must be completed within six years of entering the degree program. Additional time may be requested and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Plan Type

Plan A - The Plan A option for a master's degree requires preparation and defense of a thesis.

Required Master's forms:

Approval of academic forms required for master's students by the School of Graduate Studies

- Supervisory Committee
- Program of Study
- Thesis/Project Approval
- Appointment for Examination
- Record of Examination
- Authorship & Copyright
- Format & Style
- Title Page
- SGS and library review & approval
- Graduation Application

Course Requirements

Type
Completion Requirement

Foundation Research (15 credits)

Complete ALL of the following Courses:

- ASTE6750 - Research Methods and Design - 3cr.
- ASTE6800 - Analysis of Social Research Data - 3cr.
- ASTE6100 - Research and Academic Writing - 3cr.
- ASTE6970 - Research and Thesis - 1cr.

A minimum of 6 credits is required in ASTE6970 RESEARCH AND THESIS

Electives (15 credits)

Earn at least 15 credits from the following:

- ASTE6090 - Curriculum Design - 3cr.
- ASTE6150 - Evaluation and Assessment - 3cr.
- ASTE6160 - Foundations of Adult Education - 3cr.
- ASTE6170 - Program Planning and Evaluation - 3cr.
- ASTE6180 - Administration and Leadership - 3cr.
- ASTE6220 - Volunteer Programs and Partnerships - 3cr.
- ASTE6300 - Advanced Teaching Strategies - 3cr.
- ASTE6315 - Career and Technical Student Organization Development - 3cr.
- ASTE6320 - Classroom Management, Student Motivation, and Guidance - 3cr.
- ASTE6350 - Safety and Risk Management for CTE Experential Learning Opportunities - 3cr.
- ASTE6360 - History, Philosophy, and Policy Development in Career and Technical Education - 3cr.
- ASTE6370 - Grant Writing and Management - 3cr.
- ASTE6380 - Mentoring and Supervision - 3cr.
- ASTE6460 - Integrating Career and Tech Educ Curriculum with Science, Technology, Engineering, and Mathematics - 3cr.
- ASTE6470 - Digital Tools for Learning - 3cr.
- ASTE6900 - Graduate Independent Study in Career and Technical Education - 1cr.
- ASTE6910 - Design Thinking for Career and Technical Education - 3cr.
- ASTE6950 - Graduate Internship - 1cr.

Teaching English to Speakers of Other Languages (TESOL) - Certificate

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Undergraduate

About this Degree

The TESOL certificate prepares students to teach English to speakers of other languages and develops professional teaching skills and intercultural competence skills. It offers the opportunity for hands-on practicum experience working with English Language Leaners (ELLs). The courses in this certificate focus on the application of pedagogic, linguistic, and cultural knowledge in the second language/ESL classroom, and adhere to the *TESOL International Association* standards. The certificate enables students to more easily obtain language teaching positions overseas or remote teaching positions. It may also qualify students to teach in the US, but does NOT qualify certificate holders to teach in the Utah K-12 school system. Courses may not be taken on a pass/fail basis. Courses are offered in the USU Connect mode where classes are held in-person at pre-scheduled meeting times with some students connecting virtually from other locations.

Technology Systems - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The **Bachelor of Science in Technology Systems** is a flexible, career-focused degree designed to build on technical training and applied learning. Many students begin with a **technical college certificate** that **stacks into the Associate of Applied Science (AAS) in Technology and Design**. The AAS provides the first two years of the bachelor's degree, integrating technical coursework, general education, and foundational professional skills to support success in advanced study and career preparation.

In the final two years, students gain the technical, managerial, and leadership skills employers value most, apply their learning through an internship or senior project, and customize their degree by **choosing one of three** emphasis areas:

- **Computer Technology Emphasis:** Build expertise in IT and cybersecurity while developing leadership skills to manage complex systems..
- **Manufacturing Emphasis:** Learn how to design, produce, and improve processes with practical skills that drive modern manufacturing.
- **Technical Management Emphasis:** Gain the leadership and problem-solving skills to manage people, projects, and processes across technical fields.

Each emphasis integrates a certificate or minor tailored to students' career goals, providing specialized, industry-relevant skills. This **stackable** design lets students earn progressive credentials that strengthen both their academic preparation and career advancement.

Advising and Support

- For more information, visit the Department of Technology, Design and Technical Education website.
- All admitted and current students are required to meet with an academic advisor.
- Schedule an appointment through the TDTE Advising Scheduler.
- Use Degree Works to track your academic progress.

Admission Requirements for this Program

New Freshman: Admitted to USU in Good Standing

Transfer students from other institutions or other programs at USU: 2.20 GPA

Program Requirements

Total Credits Required In Program Coursework
85-86

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

The Bachelor of Science in Technology Systems is designed as a stackable degree pathway. Students begin with the Technology and Design AAS, **or** an approved equivalent, which serves as the foundation for the bachelor's degree. In the final two years, students build on this foundation by completing an

emphasis area that includes a certificate or minor aligned with their career goals. All students must also complete either an internship or a senior project as a culminating experience.

Technology Systems - BS

Type
Completion Requirement

Foundational Technical Requirement

Fulfill ALL of the following requirements:

Technical Foundation (30 credits)

Students must complete 30 articulated or advisor-approved technical credits. These credits may come from a Utah Technical College certificate, a USU certificate of proficiency/completion, or equivalent coursework or training verified in consultation with an academic advisor. These credits usually represent the first year of the degree.

AND

Specialized Elective Credits (10 credits)

Students must complete 10 credits of lower-division electives to complement their certificate and general education coursework.

Course options vary by emphasis area. Students should consult with their academic advisor to select electives that align with their goals.

Required Core Courses (18 credits)

Complete ALL of the following Courses:

- BUSN2200 - Professional Communications - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.
- BUSN2720 - Introduction to Project Management - 3cr.
- TESY1000 - Introduction to Technology and Design - 2cr.
- TESY3000 - Hazard Recognition & Control - 3cr.
  OR PUBH3310 - Occupational Health and Safety - 3cr.
- TESY3020 - Strategic Human Skills Development (CI) - 3cr.
- TESY4000 - Technology Systems Seminar - 1cr.
- TESY4500 - Quality Management Systems - 3cr.

Required Capstone Experience (3 credits)

Complete ANY of the following Courses:

- TESY4250 - Internship in Technology Systems - 1cr.
  OR TESY4900 - Senior Project in Technology Systems - 1cr.

*Enroll in 3 credits of TESY4250 INTERNSHIP **or** TESY4900 SENIOR PROJECT TECH SYSTEMS.*

Emphasis Areas and Certificates (15 credits)

While not required, these emphases can be fulfilled by completing one of the following certificates or minors. Students must declare and be accepted into the certificate program or minor to have it reflected on their academic record.

Other courses may also be used to fulfill the 15-credit upper-division requirements; please see advisor for further options.

Emphasis Areas
Computer Technology Emphasis

- Cybersecurity - Certificate *(online)*
- Information and Computer Technology - Certificate *(online)*

Manufacturing Emphasis

- Quality and Reliability - Institutional Certificate of Proficiency *(online)*

Technical Management Emphasis

- Applied Economics - Minor *(100% online)*
- Data Analytics - Minor
- Entrepreneurship - Minor *(100% online)*
- Finance - Minor
- Leadership and Management - Minor
- Marketing - Minor
- Marketing and Design - Minor *(100% online)*
- Operations and Supply Chain Management - Minor
- People and Organizations - Minor *(100% online)*
- Quality and Reliability - Institutional Certificate of Proficiency *(100% online)*
- Technical Sales Management

Recommended Courses to Fulfill University Studies

Fulfill ANY of the following requirements:
Recommended course: MSLE3110 MANAGING ORGANIZ/PEOPLE (DSS) for (DSS) requirement.

Minimum University Requirements

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students complete their first-year coursework in one of two ways:

- **Option 1: Utah Technical College**
  Students who attended a Utah Technical College may have their first year of coursework fulfilled through **transfer credits**.
- **Option 2: Utah State University (USU)**
  Students who did **not** attend a technical college will complete their first year of coursework **at USU**. Working with their advisor to customize their path.

Program Learning Outcomes

Program Learning Outcomes

Apply project management principles and tools to effectively plan, execute, and lead technical projects across diverse industries.

Demonstrate proficiency in specialized technical skills aligned with one of three emphasis areas—Computer Technology, Manufacturing, or Technical Management.

Identify and mitigate safety hazards in technological environments using industry-standard risk management strategies.

Communicate and collaborate effectively in professional settings, demonstrating leadership, teamwork, and interpersonal skills.

Integrate academic and industry knowledge through experiential learning (e.g., internships or senior projects) to solve real-world problems and prepare for career advancement.

Technology Systems: Computer Technology Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Computer Technology emphasis prepares students for careers in cybersecurity, IT support, systems administration, and network management. Students build skills in ethical hacking, digital forensics, cloud computing, and hardware/software integration. This emphasis is ideal for those who want to protect digital infrastructure and support secure, efficient technology systems across industries. The program also includes experiential learning through internships or senior projects, helping students apply their skills in real-world settings.

Students choose one certificate—either Cybersecurity or Information & Computer Technology—to build specialized skills and earn credentials along the way to a bachelor's degree. Those who prefer a customized path can work with their advisor to select relevant coursework.

Advising and Support

- For more information, visit the Department of Technology, Design and Technical Education website.
- All admitted and current students are required to meet with an academic advisor.
- Schedule an appointment through the TDTE Advising Scheduler.
- Use Degree Works to track your academic progress.

Simple Requisites

Program Requirements

The Bachelor of Science in Technology Systems is designed as a stackable degree pathway. Students begin with the Technology and Design AAS, **or** an approved equivalent, which serves as the foundation for the bachelor's degree. In the final two years, students build on this foundation by completing an emphasis area that includes a certificate or minor aligned with their career goals. All students must also complete either an internship or a senior project as a culminating experience.

Technology Systems: Computer Technology Emphasis - BS Course Requirements

Type
Completion Requirement

Foundational Technical Requirement

Fulfill ALL of the following requirements:

Technical Foundation (30 credits)

Students must complete 30 articulated or advisor-approved technical credits. These credits are most often earned through the *Networking and Cybersecurity* certificate offered at Utah Technical Colleges, which stacks into USU's IT Support and Web Development AAS degrees and then into the Computer Technology TESY bachelor's degree. Equivalent training may also be accepted with advisor approval.

The following courses are commonly included in the Networking and Cybersecurity certificate pathway.

Complete ALL of the following Courses:

- BCIS1050 - Career and Workplace Relations - 1cr.
  OR TEIT1050 - Career and Workplace Relations - 1cr.
- BCIS1100 - Introduction to Networking - 1cr.
  OR TEIT1100 - Introduction to Networking - 1cr.
- TEIT1170 - Computer Networks I - 2cr.
- BCIS1250 - A+ Core 1 - 3cr.
  OR TEIT1200 - A+ Core 1 - 3cr.
- BCIS1260 - A+ Core 2 - 3cr.
  OR TEIT1210 - A+ Core 2 - 3cr.
- BCIS1300 - Website Design - 3cr.
  OR TEIT1310 - Website Design - 3cr.
- BCIS1320 - Linux Foundations - 2cr.
  OR TEIT1300 - Linux Foundations - 2cr.
- BCIS1540 - Introduction to Cloud - 2cr.
  OR TEIT1400 - Introduction to Cloud - 2cr.
- BCIS1550 - Introduction to Python - 3cr.
  OR TEIT1550 - Practical Python - 3cr.
- BCIS2631 - Network+ - 4cr.
  OR TEIT2170 - Computer Networks II - 3cr.
- BCIS2651 - Cybersecurity/Security+ - 4cr.
  OR TEIT2200 - Security + - 4cr.

Cybersecurity – (Prerequisites Courses include BCIS 1320, BCIS 2631,BCIS 2651 with a minimum grade of D)

Information and Computer Technology – (Prerequisites Courses include BCIS 1250, BCIS 1260, BCIS 1320, BCIS 1500, BCIS 1540, BCIS 2631, BCIS 2651 with minimum grade of D)

AND

Specialized Elective Credits (10 credits)

Students must complete 10 credits from the following courses. For additional options, contact the academic advisor.

Earn at least 10 credits from the following:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- APEC2010 - Introduction to Microeconomics (BSS) - 3cr.
- BUSN1111 - Accounting Principles - 3cr.
- BUSN2050 - Business Law - 3cr.
- BUSN2320 - Small Business Management - CTE - 3cr.
- CMST2110 - Interpersonal Communication (BHU) - 3cr.
- CS1400 - Introduction to Computer Science--CS 1 - 4cr.
- CS1410 - Introduction to Computer Science--CS 2 (QI) - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- MSLE2500 - Business for Good: Making an Impact through Social Entrepreneurship - 2cr.
- MSLE2550 - Entrepreneur Leadership Series - 1cr.
- MSLE2700 - 7-Habits of Highly Effective People - 2cr.
- MSLE2750 - Enhancing Happiness in Your Life and Career - 3cr.
- USU1010 - University Connections - 2cr.

Required Core Courses (18 credits)

Complete ALL of the following Courses:

- BUSN2200 - Professional Communications - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.
- BUSN2720 - Introduction to Project Management - 3cr.
- TESY1000 - Introduction to Technology and Design - 2cr.
- TESY3000 - Hazard Recognition & Control - 3cr.
  OR PUBH3310 - Occupational Health and Safety - 3cr.
- TESY3020 - Strategic Human Skills Development (CI) - 3cr.
- TESY4000 - Technology Systems Seminar - 1cr.
- TESY4500 - Quality Management Systems - 3cr.

Required Capstone Experience (3 credits)

Complete ANY of the following Courses:

- TESY4250 - Internship in Technology Systems - 1cr.
  OR TESY4900 - Senior Project in Technology Systems - 1cr.

*Students are only required to take a minimum of 3 credits in either TESY4250 INTERNSHIP **or** TESY4900 SENIOR PROJECT TECH SYSTEMS.*

Computer Technology Emphasis (15 credits)

Students complete **15 credits of upper-division coursework** in Computer Technology. Students will choose either the **Cybersecurity** Certificate or the I**nformation and Computer Technology** Certificate. Students must declare and be formally accepted into the certificate or minor for it to appear on their academic record.

Earn at least 15 credits from the following:

- TESY4760 - Information Technology Management - 3cr.
- TESY4810 - Computer Server Defense - 3cr.
- TESY4820 - Penetration Testing - 3cr.
- TESY4830 - Network Defense and Traffic Analysis - 3cr.
- TESY4840 - Security and Digital Forensics - 3cr.
- TESY4730 - Cloud Computing Architecture - 3cr.
- TESY4750 - Network Administration - 3cr.
- TESY4760 - Information Technology Management - 3cr.
- TESY4770 - Database Administration - 3cr.
- TESY4850 - Scripting for IT and Cybersecurity - 3cr.

Cybersecurity - Certificate *(Courses include in TESY 4760, TESY 4810, TESY 4820, TESY 4830, TESY 4840)*

Information and Computer Technology - Certificate *(Courses include TESY 4730, TESY 4750, TESY 4760, TESY 4770, TESY 4850).*

Recommended Courses to Fulfill University Studies

Fulfill ANY of the following requirements:
Recommended course: MSLE3110 MANAGING ORGANIZ/PEOPLE (DSS) for (DSS) requirement.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students complete their first-year coursework in one of two ways:

- **Option 1: Utah Technical College**
  Students who attended a Utah Technical College may have their first year of coursework fulfilled through **transfer credits**.
- **Option 2: Utah State University (USU)**
  Students who did **not** attend a technical college will complete their first year of coursework **at USU**. Working with their advisor to customize their path.

Program Learning Outcomes

Program Learning Outcomes

- Apply project management tools to lead IT and cybersecurity initiatives, including systems administration and network security.
- Demonstrate proficiency in digital forensics, ethical hacking, cloud computing, and hardware/software integration.
- Identify and mitigate cybersecurity threats using industry-standard risk management and ethical frameworks.
- Communicate technical concepts effectively across teams and stakeholders, fostering collaboration in digital environments.
- Integrate academic and industry knowledge through experiential learning (e.g., internships or senior projects) to solve real-world IT and cybersecurity challenges.

Technology Systems: Manufacturing Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The **Manufacturing Technology emphasis** equips students with the skills needed to succeed in quality, reliability, and modern manufacturing environments. Students develop hands-on experience with **quality management systems, lean manufacturing, root cause analysis, and statistical quality control**.

Students are **highly encouraged** to complete the **Quality and Reliability Certificate**, which aligns closely with the emphasis and enhances career readiness. While the certificate is *not required*, students who choose not to complete it must work closely with their academic advisor to identify an approved set of alternative courses to fulfill emphasis requirements.

Advising and Support

- For more information, visit the Department of Technology, Design and Technical Education website.
- All admitted and current students are required to meet with an academic advisor.
- Schedule an appointment through the TDTE Advising Scheduler.
- Use Degree Works to track your academic progress.

The Bachelor of Science in Technology Systems is designed as a stackable degree pathway. Students begin with the b5eKx0I7rjZ4cFTmp5mb - Missing program, **or** an approved equivalent, which serves as the foundation for the bachelor's degree. In the final two years, students build on this foundation by completing an emphasis area that includes a certificate or minor aligned with their career goals. All students must also complete either an internship or a senior project as a culminating experience.

Technology Systems: Manufacturing Emphasis - BS Course Requirements

Type
Completion Requirement

Foundational Technical Requirement

Fulfill ALL of the following requirements:

Technical Foundation (30 credits)

Students must complete 30 articulated or advisor-approved technical credits. These credits may come from a Utah Technical College certificate, a USU certificate of proficiency/completion, or equivalent coursework or training verified in consultation with an academic advisor. These credits usually represent the first year of the degree.

AND

Specialized Elective Credits (10 credits)

Students must complete 10 credits from the following courses. For additional options, contact the academic advisor.

Earn at least 10 credits from the following:

- BUSN1410 - Spreadsheet (Excel) - 2cr.
- OPDD1000 - Product Concept Sketching - 3cr.
- OPDD1050 - Fundamentals of Design - 3cr.
- MSLE2650 - Adobe Graphic Design - 3cr.
- TEE1010 - Graphic Communication Technologies - 3cr.
- TEE1040 - Construction and Estimating - 3cr.
- TEE1640 - Introduction to Welding - 3cr.
- TEE2030 - Wood-Based Manufacturing Systems - 3cr.
- TEE2220 - Civil Engineering and Architecture - 3cr.
- TESY1030 - Material Processing Systems - 3cr.
- TESY1020 - Energy, Power, Transportation Systems Control Technology - 3cr.
- TESY1200 - Computer-Aided Drafting and Design - 3cr.
- TESY2200 - Intermediate CAD - 3cr.

Required Core Courses (18 credits)

Complete ALL of the following Courses:

- BUSN2200 - Professional Communications - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.
- BUSN2720 - Introduction to Project Management - 3cr.
- TESY1000 - Introduction to Technology and Design - 2cr.
- TESY3000 - Hazard Recognition & Control - 3cr.
  OR PUBH3310 - Occupational Health and Safety - 3cr.
- TESY3020 - Strategic Human Skills Development (CI) - 3cr.
- TESY4000 - Technology Systems Seminar - 1cr.
- TESY4500 - Quality Management Systems - 3cr.

Required Capstone Experience (3 credits)

Complete ANY of the following Courses:

- TESY4250 - Internship in Technology Systems - 1cr.
  OR TESY4900 - Senior Project in Technology Systems - 1cr.

*Students are only required to take a minimum of 3 credits in either TESY4250 INTERNSHIP **or** TESY4900 SENIOR PROJECT TECH SYSTEMS.*

Manufacturing Emphasis (15 credits)

Students complete **15 credits of upper-division coursework** in Manufacturing. While not required, this emphasis **may be fulfilled through the Quality and Reliability certificate**. Students must declare and be formally accepted into the certificate or minor for it to appear on their academic record.

Earn at least 15 credits from the following:

- MGT3600 - Project Management - 2cr.
- MGT3700 - Operations Management - 3cr.
- MGT4760 - Services Management - 2cr.
- MGT5730 - Lean Continuous Improvement - 3cr.
- MSLE3110 - Managing Organizations and People (DSS) - 3cr.
- MSLE3710 - Leading Teams - 2cr.

- MSLE3800 - Leadership - 2cr.
- MSLE4550 - New Product Ideation and Brand Growth - 2cr.
- MSLE4531 - Critical Thinking and Competitive Intelligence - 2cr.
- TESY4510 - Quality Root Cause Analysis Methods and Applications - 3cr.
- TESY4520 - Statistical Quality Control w/SPC - 3cr.
- TESY4530 - Principles of Lean Manufacturing - 3cr.
- TESY4540 - Quality Management Systems II - 3cr.

Recommended Courses to Fulfill University Studies

Program Learning Outcomes

Program Learning Outcomes

- Apply project management principles to oversee manufacturing workflows, product development cycles, and quality assurance systems.
- Demonstrate proficiency in additive manufacturing, CAD, lean manufacturing, and statistical quality control.
- Identify and mitigate safety hazards in production environments using industry-standard safety and risk protocols.
- Collaborate effectively in cross-functional teams, demonstrating leadership in innovation and continuous improvement.
- Integrate academic and industry knowledge through experiential learning to address challenges in advanced manufacturing, food production or other areas.

Technology Systems: Technical Management Emphasis - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The Technical Management emphasis is designed for students who want to lead teams, manage operations, and drive innovation in technical environments. Students develop skills in project management, data analytics, supply chain logistics, and organizational leadership.

Students choose one certificate or minor—such as Leadership & Management, Operations and Supply Chain, or Entrepreneurship—to focus their studies. Those seeking a more personalized path can collaborate with their advisor to select courses that align with their goals. Through hands-on learning and real-world projects, students graduate ready to take on leadership roles in dynamic industries.

Advising and Support

- For more information, visit the Department of Technology, Design and Technical Education website.
- All admitted and current students are required to meet with an academic advisor.
- Schedule an appointment through the TDTE Advising Scheduler.
- Use Degree Works to track your academic progress.

Admission Requirements for this Program

New Freshman: Admitted to USU in Good Standing

Transfer students from other institutions or other programs at USU: 2.20 GPA

Simple Requisites

Program Requirements

The Bachelor of Science in Technology Systems is designed as a stackable degree pathway. Students begin with the Technology and Design AAS, **or** an approved equivalent, which serves as the foundation for the bachelor's degree. In the final two years, students build on this foundation by completing an emphasis area that includes a certificate or minor aligned with their career goals. All students must also complete either an internship or a senior project as a culminating experience.

Technology Systems: Technical Management Emphasis - BS Course Requirements

Type
Completion Requirement

Foundational Technical Requirement

Fulfill ALL of the following requirements:

Technical Foundation (30 credits)

Students must complete 30 articulated or advisor-approved technical credits. These credits may come from a Utah Technical College certificate, a USU certificate of proficiency/completion, or equivalent coursework or training verified in consultation with an academic advisor. These credits usually represent the first year of the degree.

AND

Specialized Elective Credits (10 credits)

Collaborate with your advisor to select the right courses that align with your intended bachelor's degree.

Earn at least 10 credits from the following:

- ACCT2010 - Financial Accounting Principles - 3cr.
- ACCT2020 - Managerial Accounting Principles - 3cr.
- APEC2010 - Introduction to Microeconomics (BSS) - 3cr.
- APEC2120 - Small Firm Accounting Basics - 3cr.
- APEC2310 - Small Firm Management - 3cr.
- ASTE2100 - Personal and Team Leadership - 3cr.
- BCIS1300 - Website Design - 3cr.
- BCIS1320 - Linux Foundations - 2cr.
- BCIS2631 - Network+ - 4cr.
- BUSN1010 - Business Principles (BSS) - 3cr.
- BUSN1020 - Digital Literacy - 2cr.
- BUSN1021 - Personal Finance - 3cr.
- BUSN1410 - Spreadsheet (Excel) - 2cr.
- BUSN2010 - Financial Accounting - 4cr.
- BUSN2020 - Managerial Accounting - 4cr.
- BUSN2050 - Business Law - 3cr.
- BUSN2160 - Introduction to Business Finance - 3cr.
- BUSN2320 - Small Business Management - CTE - 3cr.
- BUSN2390 - Organizational Behavior - 3cr.
- BUSN2620 - Digital Marketing - 3cr.
- BUSN2800 - Computerized Accounting - 3cr.
- BUSN2988 - Special Problems - 1cr.
- CMST1020 - Public Speaking (BHU) - 3cr.
- CMST1330 - Introduction to Global Communication (BSS) - 3cr.
- DATA1100 - Excel for Business Analysis - 1cr.
- DATA2100 - Data and Information in Business - 3cr.
- MSLE1800 - Leadership and Human Flourishing - 3cr.
- MSLE2500 - Business for Good: Making an Impact through Social Entrepreneurship - 2cr.
- MSLE2600 - Introduction to Entrepreneurship - 3cr.
- MSLE2650 - Adobe Graphic Design - 3cr.
- MSLE2700 - 7-Habits of Highly Effective People - 2cr.
- MSLE2750 - Enhancing Happiness in Your Life and Career - 3cr.

Required Core Courses (18 credits)

Complete ALL of the following Courses:

- BUSN2200 - Professional Communications - 3cr.
  OR ENGL2020 - Professional Communication (CL2) - 3cr.
- BUSN2720 - Introduction to Project Management - 3cr.
- TESY1000 - Introduction to Technology and Design - 2cr.
- TESY3000 - Hazard Recognition & Control - 3cr.
  OR PUBH3310 - Occupational Health and Safety - 3cr.
- TESY3020 - Strategic Human Skills Development (CI) - 3cr.
- TESY4000 - Technology Systems Seminar - 1cr.
- TESY4500 - Quality Management Systems - 3cr.

Required Capstone Experience (3 credits)

Complete ANY of the following Courses:

- TESY4250 - Internship in Technology Systems - 1cr.
  OR TESY4900 - Senior Project in Technology Systems - 1cr.

*Students are only required to take a minimum of 3 credits in either TESY4250 INTERNSHIP **or** TESY4900 SENIOR PROJECT TECH SYSTEMS.*

Technical Management Emphasis (15 credits)

Students complete **15 credits of upper-division coursework** in Technical Management. While not required, this emphasis **may be fulfilled through an approved USU certificate or minor**. Students must declare and be formally accepted into the certificate or minor for it to appear on their academic record.

Eligible Minor & Certificate Options Include:

- Applied Economics - Minor *(100% online)*
- Data Analytics - Minor
- Entrepreneurship - Minor *(100% online)*
- Finance - Minor
- Leadership and Management - Minor
- Marketing - Minor
- Marketing and Design - Minor (*100% online*)
- Operations and Supply Chain Management - Minor
- People and Organizations - Minor *(100% online)*
- Quality and Reliability - Institutional Certificate of Proficiency *(100% online)*
- Technical Sales Management

Earn at least 15 credits from the following:

- APEC3310 - Analytical Methods in Applied Economics (QI) - 3cr.
- APEC4010 - Intermediate Microeconomics - 3cr.
- APEC5000 - International Trade and Finance - 3cr.
- APEC5010 - Firm Marketing and Price Analysis (QI) - 3cr.
- APEC5015 - Applied Economics for Decision Making (QI) - 3cr.
- APEC5020 - Strategic Firm Management (CI) - 3cr.
- APEC5560 - Natural Resource and Environmental Economics - 3cr.
- APEC5700 - Regional and Community Economic Development - 3cr.
- DATA3300 - Introduction to Modern Data Analytics (QI) - 3cr.
- DATA4330 - Advanced Database and Database Analytics - 3cr.
- DATA5400 - Data Visualization with Tableau (CI) - 3cr.
- DATA5480 - Data Mining - 3cr.
- DATA5500 - Python Programming for Analytics - 3cr.
- DATA5600 - Introduction to Regression and Machine Learning for Analytics - 3cr.
- DATA5610 - Advanced Machine Learning for Analytics - 3cr.
- FIN3200 - Corporate Finance (QI) - 3cr.
- FIN3300 - Investments - 3cr.
- FIN4200 - Intermediate Corporate Finance - 3cr.
- FIN4410 - Financial Institutions - 3cr.
- ITLS3110 - Design Perspectives and Processes I - 3cr.
- ITLS3130 - How People Learn - 3cr.
- ITLS3120 - Design Perspectives and Processes II - 3cr.
- ITLS4110 - Project and Product Management - 3cr.
- ITLS5215 - Video and Audio Design and Production I - 3cr.
- ITLS5265 - Internet Design and Development - 3cr.
- ITLS5270 - Digital Making and Learning - 3cr.
- MGT3100 - Organizational Behavior - 2cr.
- MGT3150 - Critical Thinking for Managerial Decision Making - 2cr.
- MGT3250 - Managing Human Capital - 3cr.
- MGT3600 - Project Management - 2cr.
- MGT3700 - Operations Management - 3cr.
- MGT4250 - Management Internship - 1cr.
- MGT4600 - Negotiations - 2cr.
- MGT4720 - Sales and Operations Planning - 2cr.
- MGT4740 - Quality Management - 2cr.
- MGT4760 - Services Management - 2cr.
- MGT4790 - Managing Global Value Chains - 2cr.
- MGT5730 - Lean Continuous Improvement - 3cr.
- MSLE3110 - Managing Organizations and People (DSS) - 3cr.
- MSLE3500 - Fundamentals of Marketing - 3cr.
- MSLE3510 - New Venture Creation - 3cr.
- MSLE3530 - New Venture Marketing - 3cr.
- MSLE3540 - New Venture Finance - 3cr.
- MSLE3580 - New Venture Execution - 3cr.
- MSLE3590 - Small Business Consulting - 2cr.
- MSLE3710 - Leading Teams - 2cr.
- MSLE3800 - Leadership - 2cr.
- MSLE3820 - International Business (DSS) - 3cr.
- MSLE3855 - Sustainability Marketing - 2cr.
- MSLE4250 - Marketing-Strategy-Leadership-Entrepreneurship Internship - 2cr.
- MSLE4510 - Consumer Behavior - 2cr.
- MSLE4531 - Critical Thinking and Competitive Intelligence - 2cr.
- MSLE4533 - Marketing Research and Analytics - 2cr.
- MSLE4534 - Survey Research - 2cr.
- MSLE4535 - Promotional Strategy - 2cr.
- MSLE4550 - New Product Ideation and Brand Growth - 2cr.
- MSLE4555 - Pricing & B2B Buyer-Seller Decisions - 2cr.
- MSLE4560 - Strategic Sales (CI) - 2cr.
- MSLE4562 - Sales and Marketing Practicum - 2cr.
- MSLE4565 - Sales Management - 2cr.
- MSLE4575 - Customer Success Strategy - 2cr.
- MSLE4590 - Marketing Strategy - 3cr.
- MSLE4895 - Consulting Skills - 3cr.
- TESY4510 - Quality Root Cause Analysis Methods and Applications - 3cr.
- TESY4520 - Statistical Quality Control w/SPC - 3cr.
- TESY4530 - Principles of Lean Manufacturing - 3cr.
- TESY4540 - Quality Management Systems II - 3cr.

See your advisor for other possible course options.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Students complete their first-year coursework in one of two ways:

- **Option 1: Utah Technical College**
  Students who attended a Utah Technical College may have their first year of coursework fulfilled through **transfer credits**.
- **Option 2: Utah State University (USU)**
  Students who did **not** attend a technical college will complete their first year of coursework **at USU**. Working with their advisor to customize their path.

Program Learning Outcomes

Program Learning Outcomes

- Apply project management strategies to lead operations, supply chain initiatives, and/or organizational development projects.
- Demonstrate proficiency in business analytics, leadership, marketing, HR, and entrepreneurship within technical environments.
- Identify and mitigate organizational risks using ethical decision-making and strategic planning.
- Communicate and collaborate effectively in professional settings, demonstrating leadership and interpersonal skills across departments.
- Integrate academic and industry knowledge through experiential learning to drive innovation and efficiency in technical organizations.

Theatre Arts: Acting - BFA

Program Overview

College
College of Arts & Sciences

Department
Theatre Arts

Program Level
Undergraduate

About this Degree

The acting emphasis is for students desiring to become professional performers. Coursework for this emphasis covers acting, voice, movement, and directing fundamentals. It also provides an understanding of the technical and design responsibilities of any production.

The Acting Emphasis BFA at USU prepares students for performance careers in major-market cities or admission to an MFA training program. The curriculum includes ten acting courses covering all the major genres, such as musical theater, Shakespeare, and acting for the camera, as well as voice, movement and dance courses. Acceptance into the acting program is competitive and requires an audition, application and interview. The program functions on a cohort system, accepting between eight and twelve students per year. Retention must be earned by personal growth and commitment, along with the faculty's biannual evaluation of satisfactory progress. The training culminates in a capstone project.

- For more information about Theatre Arts, see the department website.
- Admitted and current students must meet with an acting area advisor as well as the Caine School of the Arts advisor before registering for courses.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- Students are considered for admission to the department and BFA degree program through application referral from USU Admissions and submission of supporting materials to the department https://artsci.usu.edu/theatre-arts/areas-of-study/acting-bfa.
- Acceptance is not guaranteed.
- Transfer students must verify transfer credit acceptance prior to application to USU.
- **Major Expectations:** Students are expected to develop proper attitudes, habits, work standards and professionalism to move on to graduate studies or directly into the professional world of theatre. Students are expected to audition for all department productions and be available to accept any role.
- **Minimum Overall GPA for Admission**: 2.75

Program Requirements

- Minimum GPA for Admission: 2.75 overall
- Minimum GPA for continuance in the program and for graduation: 2.75
- Minimum grade accepted in all major courses: B-
- Major requirements may not be taken on a pass/fail basis unless only offered as pass/fail

Departmental Requirements:

- Students are required to attend all production strikes.

Theatre Arts: Acting - BFA

Type
Completion Requirement

Required Core (15 credits)

Earn at least 15 credits from the following:

- THEA1513 - Stagecraft (BCA) - 3cr.
- THEA1713 - Playscript Analysis (BHU) - 3cr.
- THEA2203 - Costume Construction and Technology - 3cr.
- THEA3710 - Theatre History and Literature I (DHA)(CI) - 3cr.
- THEA3720 - Theatre History and Literature II (CI/DHA) - 3cr.

Theatre Practicum Requirement (5 credits)

Complete ALL of the following Courses:

- THEA2555 - Production Practicum - 1cr.

NOTE:

1. THEA2555 PRODUCTION PRACTICUM - Take a total of 5 credits of production practicum.

Note: Students should complete THEA1513 STAGECRAFT (BCA) and THEA2203 COSTUME CONSTRUCTION/TECH before taking THEA2555 PRODUCTION PRACTICUM.

- Register for Practicum in the following areas:
  - Costume
  - Paint & Props
  - Scenic
  - Run Crew

*Lighting/Sound Practicum is available by special permission

Required Acting Courses (29 credits)

Earn at least 29 credits from the following:

- THEA1000 - Acting I: Introduction to Acting (BCA) - 3cr.
- THEA1010 - Acting II: Audition Preparation - 2cr.
- THEA2000 - Acting III: Scene Study-Text as Action - 3cr.
- THEA2010 - Acting IV: Shakespeare - 3cr.
- THEA3000 - Acting V: Acting for Musical Theatre - 3cr.
- THEA3010 - Acting VI: Classical Comedy - 3cr.
- THEA3030 - Acting VII: Contemporary Playwrights - 3cr.
- THEA4000 - Acting VIII: Acting for the Camera - 3cr.
- THEA4010 - Acting IX - Modern Masters: Chekhov/Ibsen/Shaw - 3cr.
- THEA4020 - Acting X-Modern American Masters: O'Neill, Williams, and Miller - 3cr.

Required Voice Courses (9 credits)

Earn at least 9 credits from the following:

- THEA1113 - Voice for Actors I - 2cr.
- THEA2100 - Voice for ActorsII: Speech and IPA - 3cr.
- THEA2110 - Voice for Actors III: Dialects - 2cr.
- THEA3100 - Voice for Actors IV: Vocal Challenges/Voice Over/Microphone Technique - 2cr.

Required Movement Courses (12 credits)

Earn at least 12 credits from the following:

- THEA1210 - Movement for Actors - 2cr.
- THEA2200 - Ballet - 2cr.
- THEA2210 - Jazz Dance I - 2cr.
- THEA3200 - Stage Combat - 2cr.
- THEA3210 - Musical Theatre Dance I - 2cr.
- THEA4200 - Period and Social Dance - 2cr.

Required Literature Courses (6 credits)

Fulfill ALL of the following requirements:

Required Literature Courses

Complete ANY of the following Courses:

- ENGL2300 - Introduction to Shakespeare (BHU) - 3cr.
  OR ENGL4300 - Shakespeare - 3cr.

AND

Additional Required Literature Courses

Complete at least 1 of the following courses:

- HIST3160 - Classical Drama and Society - 3cr.
- THEA4350 - Theatre for Young Audiences - 3cr.
- THEA4710 - Contemporary Theatre (CI/DHA) - 3cr.
- THEA4720 - Musical Theatre History and Literature: Roots through the Golden Age - 3cr.
- THEA4730 - Musical Theatre History and Literature II: New Directions - 3cr.
- THEA4760 - Playwriting - 3cr.
- THEA5720 - Special Topics in Theatre History and Literature - 3cr.

Capstone Project Requirements (2 credits)

All students must complete a capstone project during their senior year. BFA Acting students put together a showcase which they take to New York to present to representatives from invited talent agencies. Students must enroll in THEA5910 CAPSTONE PROJECT during the semester in which the Mountain West: BFA Actor Showcase is presented.

Complete ALL of the following Courses:

- THEA5910 - Capstone Project - 2cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Theatre Arts - BA

Program Overview

College
College of Arts & Sciences

Department
Theatre Arts

Program Level
Undergraduate

About this Degree

Students pursuing the BA receive a degree in general theatre arts. This is a four-year program designed for students who want a more comprehensive liberal arts background in theatre. This emphasis prepares students for graduate study and is also appropriate for those entering the field of stage directing. This program provides students with the flexibility to pursue an additional major. The BA degree requires foreign language training and the completion of additional related study courses.

Students must apply for the Bachelor of Arts degree program as part of their separate application to the department and have an interview with the BA faculty. Acceptance is competitive and not guaranteed.

- For more information about Theatre, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

- Students are considered for admission to the department and BA degree program through application referral from USU Admissions and submission of supporting materials to the department https://artsci.usu.edu/theatre-arts/areas-of-study/theatre-arts-ba.
- Acceptance is not guaranteed.
- Transfer students must verify transfer credit acceptance prior to application to USU.
- Major Expectations: Students are expected to develop proper attitudes, habits, work standards and professionalism to move on to graduate studies or directly into the professional world of theatre. Students are expected to assist with all department productions and be available to accept any production assignment.
- Minimum Overall GPA for Admission: 2.75

Program Requirements

Theatre Arts - MFA

Program Overview

College
College of Arts & Sciences

Department
Theatre Arts

Program Level
Graduate

About this Degree

The Theatre Arts Master of Fine Arts (MFA) degree is a theatre design program. This is a hands-on degree with production shop work as well as course and show production work. This program is only offered on the USU Logan campus and is designed for the student to be in residency on campus.

The primary design area specializations offered are: Scenic Design, Lighting Design and Costume Design. The degree includes a secondary design specialization, chosen by the student in conjunction with their committee and program advisor. Secondary options include an additional primary design area, or course and production work in the areas of costume construction/management, projection design, properties design, or technical direction.

Committee members work with students to craft a program that is uniquely tailored to each individual's career goals. Students learn how to work in a collaborative environment with directors, designers and performers. All students in the Theatre Arts MFA program complete the Plan B option instead of a Thesis.

Admission Requirements for this Program

Admission requirements can be found on the USU School of Graduate Studies website (gradschool.usu.edu/admissions/policies). Applicants who have received their undergraduate training in a discipline other than theatre will be expected to meet a proficiency equivalent to that of USU Theatre Arts graduates. This may require the student to complete undergraduate level courses as deemed appropriate by the students committee, with a minimum accepted grade of B-. These courses do not count towards the graduate degree and are not covered by assistantship money.

Additional information about the Master of Fine Arts (MFA) in Theatre Arts program may be obtained by contacting the Theatre Arts Department or by visiting the program website (https://artsci.usu.edu/theatre-arts)

Simple Requisites

Program Requirements

Department of Theatre Arts

Total Required Graduate Credits: 60

Committee Requirements

Total Required Graduate Credits: 60

Degree Verification

A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.

Overall Graduate GPA at least 3.0 and no grades of B- or lower;

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of B- or lower will not be accepted for a graduate degree.

Matriculation Start Semester

A master's of fine arts degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.

Coursework Validity

The program of study for a master's degree cannot include more than 12 semester credits of courses below the 6000 level, or courses numbered below 5000. Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is re-validated.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

USU Residency Requirement

Master's of Fine Arts

At least 30 semester credits for a Master's of Fine Arts degree must be taken from Utah State University and be part of an approved Program of Study. At least three semesters, two of which must be consecutive, of full-time registration in residence at Utah State University, is required.

Committee Requirements

During (or upon the completion of) the first semester of this degree, the student will:

- Select an MFA Supervisory Committee of at least three members (one from outside of the Theatre Design area) and submit the list of members to the Department Head for approval.
- Submit the Department Head approved Committee to the Theatre Graduate Program Coordinator.
- Schedule a Supervisory Committee meeting.
- Develop a 3-year Program of Study with the approval of the Supervisory Committee.
- Plan B Approval

Plan B students:

The Plan B option requires the production and defense of a paper or project, depending on the department and program. A minimum of two credits of thesis research (6970) are required, but no more than three thesis research credits can be included in an approved Program of Study. Some degree programs require creative project credits in addition to or in place of research.

Prior to graduation, the student will:

- Complete all courses and requirements as determined by the Supervisory Committee.
- Earn successful MFA Continuance Evaluation ratings.
- Successfully complete an MFA Plan-B Defense process with the Supervisory Committee.
- Successfully complete Appointment for Examination.
- Submit successful Record of Examination.
- Successful SGS and Library review and approval.

Thesis/Dissertation Research Credits THEA 6970

Required Courses (29 credits)

Type
Completion Requirement

Introductory Course (1 credit) - Taken during the first Fall semester

Complete ALL of the following Courses:

- THEA6010 - Introduction to Graduate Study in Theatre - 1cr.

Advanced Literature Courses (4 credits)

Complete ALL of the following Courses:

- THEA6710 - Contemporary Theatre Studies - 2cr.
- THEA6720 - Specialized Theatre History and Literature Topics - 2cr.

Advanced Design Courses (in areas of specialization)

Earn at least 24 credits from the following:

- THEA6500 - Drafting for Theatre - 2cr.
- THEA6520 - Advanced Costume Design for Theatre - 2cr.
- THEA6530 - Specialized Theatre Props and Crafts - 2cr.
- THEA6540 - Advanced Lighting for Theatre Design - 2cr.
- THEA6550 - Rendering in Theatre Design - 2cr.
- THEA6555 - Scene Painting - 2cr.
- THEA6560 - Advanced Scene Design for Theatre - 2cr.
- THEA6565 - Historic Styles: Interiors & Architecture - 2cr.
- THEA6570 - Historic Clothing - 2cr.
- THEA6580 - Computer Design in Theatre - 2cr.
- THEA6900 - Research Studies - 1cr.
- THEA6910 - Graduate Studies in Theatre - 1cr.
- THEA6960 - Special Topics in Theatre Production - 2cr.

Design Studies (8 credits)

Type
Completion Requirement

Design Course

Complete 2 credits each semester.

Earn at least 8 credits from the following:

- THEA6590 - Design Studies for Theatre - 2cr.

Cognate Coursework (6 credits)

Type
Completion Requirement

Cognate Courses

Earn at least 6 credits
Students will take a minimum of 6 credits of courses outside the department (5000-level or above) to develop skills or increase knowledge in a field related to their area of specialization. Courses are subject to approval by the Graduate Study Committee. Courses can be in art, engineering and technology education, furniture construction or cabinetry, welding, or landscape architecture. Students may petition their committee to take coursework in other disciplines, upon justification of relevance to the course of study.

Graduate Projects (8 credits)

Type
Completion Requirement

Graduate Project

Students will complete a minimum of 4 separate production projects.

Earn at least 8 credits from the following:

- THEA6920 - Graduate Projects in Theatre - 2cr.

The option to cancel a student project, or to allow work to proceed but disqualify it as an MFA project based upon insufficient preparation or validity, rests with the department's Graduate Study Committee, the student's Supervisory Committee chairperson (advisor), and the Department Head/Artistic Director of the Theatre Arts Department. This rule is designed to protect the priorities of the department and the integrity of its productions.

Theatre Internship (6 credits)

Type
Completion Requirement

Internships

Two separate internships, related to the student's Program of Study, to be taken during summers at recognized professional theatre companies, are required. All internship must be approved by the Supervisory Committee prior to accepting the internship.

A letter of satisfactory performance from the appropriate company supervisor and other required documentation should be submitted to the student's program area advisor at the end of the internship.

Theatre Internship

Earn at least 6 credits from the following:

- THEA6980 - Theatre Internship - 2cr.

2 separate internships related to the student's Program of Study are required.

Culminating Courses (3 credits)

Type
Completion Requirement

Thesis (3 credits)

To be taken during the student's final semester.

Earn at least 3 credits from the following:

- THEA6970 - Thesis - 1cr.

Theatre Arts: Musical Theatre - BFA

Program Overview

College
College of Arts & Sciences

Department
Theatre Arts

Program Level
Undergraduate

About this Degree

The Musical Theatre program is designed to provide a comprehensive education that combines rigorous professional training in acting, voice, and dance with a strong liberal arts foundation. This program aims to cultivate innovative and adaptable artists who can excel in a dynamic and evolving global landscape.

The Bachelor of Fine Arts in Musical Theatre at Utah State University offers a comprehensive and rigorous training experience, nurturing the artistic and technical skills essential for success in the field. The curriculum emphasizes a collaborative approach, integrating voice, acting, and dance with coursework in music theory, performance practice, and production. Students participate in private voice instruction every semester to ensure continuous vocal development and engage in at least one intensive dance course each semester to excel in movement. The training culminates in a capstone project.

- For more information about Theatre Arts, see the department website.
- Admitted and current students must meet with a musical theatre area advisor before registering for courses, as well as meet with the Caine School of the Arts advisor.

Admission Requirements for this Program

- Students are considered for admission to the department and BFA degree program through application referral from USU Admissions and submission of supporting materials to the department https://artsci.usu.edu/theatre-arts/students-and-alumni/prospective-students/apply.
- Acceptance is not guaranteed.
- Transfer students must verify transfer credit acceptance prior to application to USU.
- **Major Expectations:** Students are expected to develop proper attitudes, habits, work standards and professionalism to move on to graduate studies or directly into the professional world of Musical Theatre. Students are expected to audition for all department productions and be available to accept any role.
- **Minimum Overall GPA for Admission:** 2.75

Required Theatre History/Literature courses

Type
Completion Requirement

Theatre History/Literature courses

Complete ALL of the following Courses:

- THEA4720 - Musical Theatre History and Literature: Roots through the Golden Age - 3cr.
- THEA4730 - Musical Theatre History and Literature II: New Directions - 3cr.

Required Production Practicum

Type
Completion Requirement

Production Practicum courses

Students should complete THEA1513 STAGECRAFT (BCA) and THEA2203 COSTUME CONSTRUCTION/TECH before the enroll in area specific practicum. Run Crew practicum may be taken any time.

Earn at least 4 credits from the following:

- THEA2555 - Production Practicum - 1cr.

Complete one practicum in each area:

- Costume (1 credit)
- Paint/Props (1 credit)
- Scenic (1 credit)
- Run Crew (1 credit)

Required Music Courses

Type
Completion Requirement

Music Courses

Students will test into piano course and be placed in either MUSC1150 GROUP PIANO, MUSC1170 KEYBOARD HARMONY I or MUSC1480 PIANO INSTR-NONMAJOR.

Complete ALL of the following Courses:

- MUSC1105 - Fundamentals for Music Majors (BCA) - 3cr.
- MUSC1110 - Music Theory I (BCA) - 3cr.
- MUSC1130 - Aural Skills I - 1cr.
- MUSC1150 - Group Piano - 1cr.
- MUSC1635 - Individual Pre-Music Voice Instruction - 1cr.
- MUSC2645 - Individual Pre-Barrier Voice Instruction - 1cr.
- MUSC3670 - Individual Vocal Instruction for Music Majors - 1cr.

NOTE:

1. MUSC1635 VOICE INSTR-PREMUSIC - 2 credits
2. MUSC3670 VOCAL INSTR - 5 credits

Theatre Arts: Theatre Education - BFA

Program Overview

College
College of Arts & Sciences

Department
Theatre Arts

Program Level
Undergraduate

About this Degree

Students in the theatre education program study all aspects of theatre as they prepare to teach theatre in schools at all levels or to work in educational roles with professional theatres. Coursework covers theatre/drama pedagogy (K-12), theatre for young audiences, applied theatre, performance, directing, technical theatre, and theatre history/literature.

- If beginning the program in an even year, please review the degree map, "even year". If beginning the program in an odd year, please review the degree map, "odd year".
- For more information about Theatre Arts, see the department website.
- Admitted and current students must meet with an advisor prior to registration.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice, although STAT1040 INTRO TO STATISTICS (QL) or STAT1045 INTRO STAT WITH ALGEBRA (QL) or STAT1080 FOUNDATIONS OF DATA SCI (QL) is recommended.

Admission Requirements for this Program

- Students are considered for admission to the department and BFA degree program through application referral from USU Admissions and submission of supporting materials to the department https://artsci.usu.edu/theatre-arts/areas-of-study/theatre-education-bfa.
- Acceptance is not guaranteed.
- Transfer students must verify transfer credit acceptance prior to application to USU.
- Major Expectations: Students are expected to develop proper attitudes, habits, work standards and professionalism to move on to graduate studies or directly into the professional world of theatre. Students are expected to assist with all department productions and be available to accept any production assignment.
- Minimum Overall GPA for Admission: 2.75

Program Requirements

Total Credits Required In Program Coursework
79

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Program Requirements

- Minimum GPA for Admission: 3.0 overall
- Minimum GPA for continuance in the program and for graduation: 3.0
- Minimum grade accepted in all major courses: B
- Minimum grade accepted for any Department elective courses: B-
- Major requirements may not be taken on a pass/fail basis unless only offered as pass/fail

Departmental Requirements

- Students are required to attend all production strikes.

Licensure Requirement:

- Students must maintain a GPA of 3.0, including licensure courses, to continuance in the program and graduation.
- Minimum grade accepted in licensure courses: C

Theatre Arts: Theatre Education - BFA

Type
Completion Requirement

Required Theatre Core (21 credits)

The Secondary Teacher Education Program (STEP) prepares and licenses students to teach in public secondary schools. The program consists of three successive semesters of education courses, culminating in supervised student teaching in both the major and minor subject areas.

Admissions Information: https://cehs.usu.edu/teal/undergraduate/sec-ed.

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SPED4000 - Education of Students with Disabilities - 3cr.
- THEA3300 - Clinical Experience in Teaching I - 1cr.
- THEA3340 - Methods of Teaching Drama, Grades K-6 - 3cr.
- THEA4300 - Clinical Experience in Teaching II - 1cr.
- THEA4340 - Methods of Teaching Theatre, Grades 7-12 - 3cr.

NOTE:

1. THEA3340 DRAMA TEACHING METHODS K-6 and THEA4340 THEATRE TEACHING METHODS, 7-12 are also included with the required Theatre Education Courses.

Theatre Certificate Student Teaching (12 credits)

Earn at least 12 credits from the following:

- THEA5390 - Student Teaching Seminar - 2cr.
- THEA5630 - Student Teaching in Secondary Schools - 10cr. **OR** THEA5631 - Student Teaching in Secondary Schools Out of State - 10cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.

- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Theatre Arts Teaching - Minor

Program Overview

College	Department	Program Level
College of Arts & Sciences	Theatre Arts	Undergraduate

About this Degree

The Theatre Education Minor is specifically designed for students seeking careers teaching theatre in K-12 education. The minor is only available to students completing a teaching major. Space is limited and acceptance is competitive and not guaranteed.

Program Requirements

Total Credits Required To Earn This Credential

26

Simple Requisites

Program Requirements

- **MINOR EXPECTATIONS**: Students are expected to develop proficiency in pedagogy, artistry, academic/scholarship, leadership/service, and professionalism appropriate for K-12 theatre educators.
- **APPLICATION:** Students must apply and interview for the Theatre Education minor in order to be considered for acceptance.
- **MINIMUM GRADE ACCEPTED:** B for all courses in the minor. Students may not use the P/F/D option for courses required for the minor.
- **MINIMUM GPA FOR ADMISSION AND GRADUATION: 3.0**

Caine College of the Arts Academic Advisor Angela Neff: angela.neff@usu.edu

Section 1

Type
Completion Requirement

Required Theatre Arts Department Coures (26 credits)

Complete ALL of the following Courses:

- THEA1033 - Beginning Acting (BCA) - 3cr.
- THEA1513 - Stagecraft (BCA) - 3cr.
- THEA1713 - Playscript Analysis (BHU) - 3cr.
- THEA2033 - Scene Study - 3cr. (Inactive)
- THEA2203 - Costume Construction and Technology - 3cr.

Tech Innovation and Entrepreneurship - Post-Bachelor's Certificate

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Data Analytics & Information Systems, Marketing and Strategy	Graduate

About this Degree
A collaboration between the Data Analytics and Information Systems (DAIS) and Marketing, Strategy, Leadership, and Entrepreneurship (MSLE) departments, this certificate empowers students to ideate, validate, and launch technology-based ventures. Built on the Huntsman School's strength in experiential learning — through the Analytics Solutions Center (ASC) and the Center for Entrepreneurship — the program blends technical insight with entrepreneurial discipline. Open to current students and community members, it offers an inclusive, barrier-free pathway to develop scalable, high-impact ventures and to engage with regional startup ecosystems, investors, and established firms.

Who this is for:

- Students and professionals eager to turn technology ideas into viable startups.
- Those who want hands-on experience in building and commercializing tech ventures while pursuing their academic degree.
- Individuals seeking a stackable credential that complements engineering, business, and design skills.

Note that the Tech Innovation and Entrepreneurship Post-Bachelor's Certificate can be completed on its own, or it can be stacked with other certificates offered by the Department of Data Analytics and Information Systems (or with designated certificates from other campus programs) to meet the requirements of the Master's of Data Analytics (MDATA) program.

Data Analytics and Information Systems Faculty

Courses in Data Technologies Post-Bachelor's Certificate program are taught by faculty in the DAIS and MSLE departments who have years of corporate and academic experience. Our instructors are experts in the most cutting-edge tools and strategies for data and tech.

DAIS Faculty

MSLE Faculty

Admission Requirements for this Program
Prior bachelor's degree with at least a 3.0 GPA in previous 90 credits; relevant coursework or experience in basic data analysis and programming.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
15	15

Simple Requisites

Program Requirements

The certificate requires 15 total credits, as outlined within the curriculum below. Individual substitutions for course requirements may be considered and approved on a case-by-case basis by the Data Analytics and Information Systems Department.

Courses used to fulfill requirements for this certificate may not include courses previously completed to meet the requirements of any other certificate or program, and cannot be used to complete any other certificate or program.

Courses remain valid for 6 years for potential inclusion in a future master's degree program (MMIS or MDATA).

Certificate students who opt to earn an MMIS or MDATA degree will be granted a waiver for reduced application fees for their future master's application. Please contact our office for details.

Tech Innovation and Entrepreneurship - Post-Bachelor's Certificate Course Requirements

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- IS6170 - Applied Tech Innovation - 3cr.
- IS6180 - Tech Innovation Implementation and Commercialization - 3cr.
- IS6181 - Tech Innovation Implementation and Commercialization Laboratory - 3cr.
- MSLE6410 - Enterprise and Value Creation - 3cr.

Additional Courses

Complete ANY of the following Courses:

- DATA6570 - Building Software With Artificial Intelligence - 3cr.
- IS6100 - Agile Tech Design and Development - 3cr.

USU Learning Outcomes Assessment - Tech Entrepreneurship certificate

Toxicology - Animal, Dairy and Veterinary Sciences - MS (NOT CURRENTLY OFFERED)

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Animal, Dairy & Veterinary Sciences	Graduate

About this Degree

Director: Roger A. Coulombe, Jr.
Location: Animal Science 213
Phone: (435) 797-1600
FAX: (435) 797-1601
E-mail: roger@usu.edu
WWW: toxicology.usu.edu

Degrees offered: Master of Science (MS) and Doctor of Philosophy (PhD) in Toxicology

Established in 1962, USU's Interdepartmental Graduate Program in Toxicology is one of the first degree-granting graduate toxicology programs in the country. More than 150 students have received MS and PhD degrees through this research-intensive interdisciplinary program. Students affiliate with the program through one of several departments: Animal, Dairy and Veterinary Sciences (ADVS); Biology (BIOL); Chemistry and Biochemistry (CAB); Civil and Environmental Engineering (CEE); or Plants, Soils, and Climate (PSC). The USDA Poisonous Plants Laboratory also provides facilities and research projects for study.

Toxicology Program Faculty:

Professors
Steven D. Aust, free radical toxicology and bioremediation (CAB)
Roger A. Coulombe, Jr., (Director) molecular and environmental toxicology, cancer chemoprevention, air pollution (ADVS)
R. Ryan Dupont, biological waste treatment (CEE)
Jeffery O. Hall, veterinary toxicology (ADVS)
Ronald C. Sims, biological engineering (BENG)

Research Associate Professor
Randy Martin, atmospheric chemistry, air pollution (CEE)

Associate Professors
Paul R. Grossl, soil chemistry and phytoremediation (PSC)

Assistant Professor
Abby Benninghoff, epigenetics, fetal basis of adult health and disease, carcinogenesis and cancer prevention, environmental toxicology (ADVS)

Collaborators at USDA Poisonous Plants Laboratory
Dale R. Gardner, natural product chemistry
Kip E. Panter, poisonous plants
James A. Pfister, behavioral toxicology
Bryan L. Stegelmeier, veterinary pathology
Kevin Welch, molecular toxicology

Admission Requirements for this Program

Students with a degree in life sciences, physical science, medical science, or engineering and with adequate preparation in chemistry, biology, physics, and/or mathematics are encouraged to apply. Admission to the program requires compliance with the general admission requirements of the School of Graduate Studies, a faculty sponsor, and acceptance into the sponsoring professor's home department. Applicants should have a minimum GPA of 3.0 from completed degree programs. International students must receive a minimum TOEFL score of 250.

Program Requirements

Major Research Areas

Molecular and Biochemical Toxicology

Modern molecular biological techniques are used to determine the mechanisms of toxicity and carcinogenesis by examining how various natural and synthetic compounds interact with the cellular genome and epigenome. Resultant mutations in oncogenes and tumor suppressor genes are being investigated. Other ongoing studies examine the mechanisms of cancer chemoprevention, chemical metabolism, effects of toxicants on macromolecular syntheses, and metabolic intermediates. A comprehensive research program in poisonous plants is another program emphasis at the USDA-ARS Poisonous Plants Laboratory, just north of the USU campus.

Environmental Toxicology

Utah State University has a comprehensive research program in several aspects of environmental toxicology. For example, Utah State University faculty pioneered the use of white-rot fungi to degrade environmental contaminants. Several members of the faculty study the effects of air pollution on human health, as well as develop models to predict episodes of high particulate matter. Models are developed and tested for dealing with the migration of chemicals in the environment, especially those with potential routes for human exposure. Basic biological, chemical, and physical methods are explored for hazardous waste management programs.

Financial Assistance

Graduate students are eligible for competitive fellowships, teaching assistantships, and research assistantships. Out-of-state fees are waived, and in many cases, in-state fees are also waived. Hourly employment, which often permits waiver of out-of-state fees, is also available.

The Toxicology Graduate Program participates in the WICHE Western Regional Graduate Degree Program (WRGP). Residents of participating states may enroll in this program without paying nonresident tuition. To facilitate this process, applicants should inform the Toxicology Program of their WRGP status upon application.

Course Requirements

Type

Completion Requirement

Required

Students in the MS program are required to complete the following core courses:

Complete ALL of the following Courses:

- ADVS5650 - Science Communication - 3cr.
- ADVS6400 - Environmental Toxicology - 3cr.
  OR BIOL6400 - Environmental Toxicology - 3cr.
  OR PUBH6400 - Environmental Toxicology - 3cr.
- ADVS6600 - Advanced and Molecular Toxicology - 3cr.
- ADVS6810 - Seminar in Toxicology (DELETED FALL 2025) - 1cr.
- CHEM5700 - General Biochemistry I - 3cr.
- CHEM5710 - General Biochemistry II - 3cr.
- STAT5200 - Analysis of Designed Experiments - 3cr.

Additional coursework may be required at the discretion of the student's advisory committee.

Toxicology - Animal, Dairy and Veterinary Sciences - PhD (NOT CURRENTLY OFFERED)

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Animal, Dairy & Veterinary Sciences	Graduate

About this Degree

Director: Roger A. Coulombe, Jr.
Location: Animal Science 213
Phone: (435) 797-1600
FAX: (435) 797-1601
E-mail: roger@usu.edu
WWW: http://toxicology.usu.edu

Degrees offered: Master of Science (MS) and Doctor of Philosophy (PhD) in Toxicology

Established in 1962, USU's Interdepartmental Graduate Program in Toxicology is one of the first degree-granting graduate toxicology programs in the country. More than 150 students have received MS and PhD degrees through this research-intensive interdisciplinary program. Students affiliate with the program through one of several departments: Animal, Dairy and Veterinary Sciences (ADVS); Biology (BIOL); Chemistry and Biochemistry (CAB); Civil and Environmental Engineering (CEE); or Plants, Soils, and Climate (PSC). The USDA Poisonous Plants Laboratory also provides facilities and research projects for study.

Toxicology Program Faculty:

Professors
Steven D. Aust, free radical toxicology and bioremediation (CAB)
Roger A. Coulombe, Jr., (Director) molecular and environmental toxicology, cancer chemoprevention, air pollution (ADVS)
William J. Doucette, fate of environmental chemicals, phytoremediation (CEE)
R. Ryan Dupont, biological waste treatment (CEE)
Jeffery O. Hall, veterinary toxicology (ADVS)
Ronald C. Sims, environmental engineering (CEE)

Research Professor
Darwin L. Sorensen, aquatic toxicology (CEE)

Associate Professors
Paul R. Grossl, soil chemistry and phytoremediation (PSC)
Randy Martin, atmospheric chemistry, air pollution (CEE)

Assistant Professor
Abby Benninghoff, epigenetics, fetal basis of adult health and disease, carcinogenesis and cancer prevention, environmental toxicology (ADVS)

Collaborators at USDA Poisonous Plants Laboratory
Dale R. Gardner, natural product chemistry
Kip E. Panter, poisonous plants
James A. Pfister, behavioral toxicology
Bryan L. Stegelmeier, veterinary pathology
Kevin Welch, molecular toxicology

Communication & Media

Program Level
Undergraduate

Program Requirements

Total Credits Required In Program Coursework
15

Total Credits Required To Earn This Credential
15

Simple Requisites

Program Requirements

The Technical Communication and Rhetoric (TCR) minor consists of 18 credits of TCR courses, 9 of which must be in upper-division coursework. Twelve of the 18 credits must be earned in residence at USU. Advanced Placement credit, CLEP credit, and credit from ENGL1010 WRITING AS INQUIRY (CL1) and ENGL2010 RSRCH&ARGUMENT PRSPCTVES (CL2) may **not** be counted toward this minor. Students must have a 2.5 Overall GPA to declare the TCR minor and must maintain a minimum 2.5 GPA within the minor courses with no grade lower than a C. Up to 3 pass/fail credits of ENGL4900 INTERN AND COOP EXPER may be applied toward the TCR minor.

Required Courses (6 credits)

Type
Completion Requirement

Required Introductory Courses (6 credits)

Complete ALL of the following Courses:

- TCR2100 - Introduction to Technical Communication - 3cr.
- TCR2110 - Digital Writing Technologies - 3cr.

Electives

Type
Completion Requirement

TCR Minor Electives (9 credits)

Earn at least 9 credits
Fulfill the 9 required credits with courses from the following sections:

Foundational Courses

Complete ANY of the following Courses:

- TCR3100 - Workplace Research - 3cr.
- TCR3110 - Accessibility and Disability Rhetorics - 3cr.
- TCR3120 - Rhetorical Theory (DHA) - 3cr.
- TCR3210 - Usability and Games User Research - 3cr.
- TCR3220 - Technical Editing (CI) - 3cr.
- TCR3230 - Community Grant Writing - 3cr.

Advanced Electives

Complete ANY of the following Courses:

- CHSS4250 - Advanced Internship/Co-op - 1cr.
- TCR4210 - Visual Communication Design - 3cr.
- TCR4220 - Technology and Activism - 3cr.
- TCR4230 - Project Management - 3cr.
- TCR4240 - User Experience Design - 3cr.

- TCR4250 - Careers in Professional Communication (CI) - 3cr.
- TCR5490 - Advanced Topics in Technical Communication and Rhetoric - 3cr.

Technical Communication and Rhetoric - BA, BS

Program Overview

College
College of Arts & Sciences

Department
Communication & Media

Program Level
Undergraduate

About this Degree

Technical communication and rhetoric (TCR) is a field that involves creating and delivering complex information to those who need to accomplish a defined task or goal. Students who have graduated from this program have gone on to work in a variety of industries and sectors, such as tech companies, non-profit organizations, and government agencies; our graduates work in a variety of roles in learning experience design, usability research, user experience design, video production, copywriting and editing, publishing, marketing, risk communication, technical writing, grant and proposal writing, and project management. This degree can also prepare students for law school and other postgraduate paths. At USU, students can major or minor in TCR. USU's TCR students learn rhetorically grounded design and communication skills, and they are encouraged to examine how their communications can better serve community needs and the public good. In TCR courses, students often work on projects that benefit communities they care about.

For Bachelor of Arts (BA) see Undergraduate Academic Credential Requirements for language requirements.

- For more information about Technical Communication and Rhetoric - BA, BS, see the department website.
- Admitted and current students must meet with an advisor.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is the Quantitative Literacy (QL) of the student's choice.

Admission Requirements for this Program

Minimum GPA for Admission: 2.5 USU cumulative (including courses taken for another USU major); 2.5 career total (including transfer credits) for new transfer students.

Program Requirements

Total Credits Required In Program Coursework
42

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

Graduation Standards and Number of Credits

- **Minimum GPA for Graduation**: 2.75 within major courses; 2.0 USU cumulative; 2.0 career total
- **Minimum Grade Accepted**: C in courses taught by major, with up to 3 credits with pass/fail grades allowed for internship.
- **Number of Required Credits**: 42
- **Credits in Residence**: Students must complete 21 credits of major-applicable coursework at Utah State University.

Major Requirements (42 credits)

Type
Completion Requirement

A. Required Introductory Classes (6 credits)

Complete ALL of the following Courses:

- TCR2100 - Introduction to Technical Communication - 3cr.
- TCR2110 - Digital Writing Technologies - 3cr.

B. TCR Major Courses (27 credits)

Earn at least 27 credits from the following:

- CHSS4250 - Advanced Internship/Co-op - 1cr.
- TCR3100 - Workplace Research - 3cr.
- TCR3110 - Accessibility and Disability Rhetorics - 3cr.
- TCR3120 - Rhetorical Theory (DHA) - 3cr.
- TCR3210 - Usability and Games User Research - 3cr.
- TCR3220 - Technical Editing (CI) - 3cr.
- TCR3230 - Community Grant Writing - 3cr.
- TCR4210 - Visual Communication Design - 3cr.
- TCR4220 - Technology and Activism - 3cr.
- TCR4230 - Project Management - 3cr.
- TCR4240 - User Experience Design - 3cr.
- TCR4250 - Careers in Professional Communication (CI) - 3cr.
- TCR5490 - Advanced Topics in Technical Communication and Rhetoric - 3cr.

NOTE:

1. CHSS4250 - 1-3 credits may fulfill TCR major or Secondary Area Electives requirements.

C. Secondary Area Electives (9 credits)

Earn at least 9 credits
Select 9 credits of electives from a secondary area of student interest that complement the TCR major. Common selections include Global Communications, Journalism, Specialized Writing courses in English (such as AI and Writing, Medical Writing, Science Writing), Foreign Language, Translation (World Languages and Cultures). Students are strongly encouraged to choose 3 electives from the same area (e.g., World Languages, English, CMST, JCOM).

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Technical Communication and Rhetoric - PhD

Program Overview

College
College of Arts & Sciences

Department
Communication & Media

Program Level
Graduate

About this Degree

The Technical Communication and Rhetoric (TCR) doctoral program defines technical communication as communication that facilitates action in the world. Facilitating action requires that communication be effective and persuasive–or intentionally rhetorical. Our program is known for addressing issues of social justice, community engagement, diversity, and service learning–issues that can be explored with partners from a variety of fields and backgrounds. Our students have opportunities to craft and pursue their own field-specific research agendas and to gain teaching experience as the instructors of record for a range of undergraduate courses in technical communication. For up-to-date information, including advice for submitting a competitive application, refer to the Technical Communication and Rhetoric pages. Please note that the application deadline for Fall admission is January 10th. For more comprehensive information about graduate program policies in the TCR PhD program, refer to the TCR Graduate Student Handbook. To apply, go to the graduate school admission page.

The Faculty

In the TCR program, doctoral students work alongside winners of prestigious national awards, experienced journal editors, and field leaders. The core faculty in TCR are experts in areas such as rhetorical theory, genre theory, online education, technology, editing, social justice, and qualitative methods. Our faculty's research interests include topics such as the effects of technologies on ethical behaviors and social justice, technical communication in humanitarian organizations, emergent technologies and human agency in gaming culture, and crisis communication.

Length of Program

From the date of matriculation (i.e., from the time a student is accepted into the program), the USU School of Graduate Studies allows students eight years to finish their doctoral degree, but this program is designed to be completed in four years. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review. Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.

Residency Requirements

PhD students will establish residency in their first year. They must remain in residence at least until achieving doctoral candidacy (ABD) and be engaged as active members of the USU academic community. Please note that students must be Utah residents to maintain their GI-ship.

Program Requirements

Program Requirements

Additional Requirements

Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades below a B- will not be accepted for a Technical Communication and Rhetoric PhD program degree.

Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 6000. No more than 12 credits of 5000 level courses can be counted towards the degree.

Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost for the School of Graduate Studies. A doctorate must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review

All Technical Communication and Rhetoric PhD students must successfully defend their dissertation and submit the dissertation to the library. An oral defense typically takes place in the last semester of study. For details on the dissertation writing and defense process, refer to the TCR Graduate Student Handbook.

A graduate student in Technical Communication and Rhetoric will be required to complete the following academic forms during their time of study:

- Supervisory Committee
- Program of Study
- Application for Candidacy
- Appointment for Examination
- Record of Examination
- SGS and library review and approval
- Other forms may be required; for details refer to the TCR Graduate Student Handbook.

Curriculum Overview

Students in the TCR program must complete a minimum of 60 approved semester credits beyond their master's degree. Up to 12 graduate level credits may be transferred and applied toward this degree with approval from the Director of Graduate Studies and the Technical Communication and Rhetoric faculty. In addition to the minimum 60 credits of coursework, students must take Responsible Conduct of Research training, a brief online training on ethical conduct in research that the university requires of all PhD students.

Technical Communication and Rhetoric - PhD

Type
Completion Requirement

Division of Classes

Students select appropriate courses from the following seven categories (A-G) to develop their programs of study.

Fulfill ANY of the following requirements:

A. Rhetoric and Theory (12 credits required)

Earn at least 12 credits from the following:

- TCR7100 - Foundations of Technical Communication - 3cr.
- TCR7120 - Rhetorical Theory - 3cr.
- TCR7250 - Digital Rhetorics - 3cr.
- TCR7260 - Accessibility Rhetorics and Disability Studies - 3cr.

B. Research (6 credits required)

Earn at least 6 credits from the following:

- TCR7110 - Empirical Research Methods - 3cr.
- TCR7210 - Cultural Research Methods - 3cr.

NOTE:

1. TCR7210 CULTURAL RESEARCH METHODS is repeatable up to 6 credits.

C. Technology and Design (12 credits required)

Earn at least 12 credits from the following:

- TCR7130 - Professional Editing - 3cr.
- TCR7240 - Communication Design - 3cr.
- TCR7260 - Accessibility Rhetorics and Disability Studies - 3cr.
- TCR7220 - User Experience Design - 3cr.
- TCR7230 - Instructional Design for Technical Communicators - 3cr.

NOTE:

1. TCR7240 COMMUNICATION DESIGN is repeatable for up to 6 credits.

D. English/Communication Cognate (3 credits required)

Complete the following:
3-credit 6000-level course in English or Communication. Doctoral students may take a one-week ENGL summer credit workshop at the graduate level with the approval of their supervisory committee; however, summer workshops are not covered by tuition waiver.

E. External Cognate Area (3 credits required)

Complete the following:
3-credit course at the graduate level in a department outside Communication (course selection requires supervisory committee approval).

F. Research Internship (6 credits required)

Complete ALL of the following Courses:

- TCR7900 - Research Internship - 6cr.

G. Dissertation (18 credits required)

Complete ALL of the following Courses:

- TCR7970 - Dissertation Research - 1cr.

NOTE:

1. TCR7970 DISSERTATION RESEARCH (must pass comprehensive exam and successfully defend dissertation proposal before registering for TCR7970 DISSERTATION RESEARCH). With dissertation committee chair approval, a 3-credit elective may substitute for 3 credits of ENGL7970 DISSERTATION RESEARCH.

H. Optional Electives

The following courses may be taken as electives when available but are not required. They can count toward categories A, B, and C, if approved by TCR faculty.

Complete ANY of the following Courses:

- TCR7490 - Special Topics in Technical Communication and Rhetoric - 3cr.
- TCR7920 - Directed Study - 3cr.

Technical Sales Management - Minor

Program Overview

College	Department	Program Level
Jon M. Huntsman School of Business	Marketing and Strategy	Undergraduate

Admission Requirements for this Program

An overall GPA of 2. 0 is required for enrollment in this business minor. A student from outside the Huntsman School who desires to pursue any business minor must recognize there may be prerequisites to required minor courses.

Program Requirements

Total Credits Required To Earn This Credential

12

Simple Requisites

Program Requirements

A GPA of 2.5 must be obtained in minor courses in order for the minor to be awarded at graduation

Section 1

Type

Completion Requirement

Required Courses (10 credits)

Complete ALL of the following Courses:

- MSLE4555 - Pricing & B2B Buyer-Seller Decisions - 2cr.
- MSLE4560 - Strategic Sales (CI) - 2cr.
- MSLE4565 - Sales Management - 2cr.
- MSLE4575 - Customer Success Strategy - 2cr.
- MGT4600 - Negotiations - 2cr.

Students must take MSLE4560 STRATEGIC SALES (CI) before taking MSLE4565 SALES MANAGEMENT or MSLE4575 CUSTOMER SUCCESS STRATEGY

Section 2

Type

Completion Requirement

Experiential Learning (2 credits)

Complete one of the two following experiential learning requirements:

Earn at least 2 credits from the following:

- MSLE2900 - Pro Sales - 1cr.
- MSLE4562 - Sales and Marketing Practicum - 2cr.

Instructor permission required for MSLE2900 PRO SALES. Student must take this repeatable course twice to count for the minor

Instructor permission and application required for MSLE4562 SALES & MARKETING PRACTICUM

Additional Comments:

Any deviation from the program as outlined must be submitted in writing to the department head for approval, including justification for the changes.

Unmanned Aircraft Systems - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Aviation Technology

Program Level
Undergraduate

About this Degree

This minor prepares students to complete the Federal Aviation Administration (FAA) Unmanned Aircraft Systems (UAS) Commercial Drone Pilot certification. Students develop a working knowledge of design, maintenance, control of unmanned aircraft systems and learn how small UAS skills can enhance other majors and careers.

For more information, please contact the program advisor.

Admission Requirements for this Program

To declare the minor a student must have a cumulative GPA of 2.5 or higher.

Program Requirements

Total Credits Required In Program Coursework
13

Total Credits Required To Earn This Credential
13

Simple Requisites

Program Requirements

A minimum grade of C- is required for minor courses.

Section 1

Type
Completion Requirement

Required Courses

Complete ALL of the following Courses:

- UAS1010 - Unmanned Aircraft Systems - Remote Pilot - 3cr. **OR** UAS3020 - Part 61 Introduction to Unmanned Aircraft Systems and Flight Lab - 3cr.
- UAS1020 - Unmanned Aircraft Systems Part 107 Test - 1cr.
- UAS2050 - Unmanned Aircraft Systems Pilot in Command - 3cr.

Only students with FAA Part 61 Exam are eligible to register for UAS3020 PART 61 INTRO TO UAS & FLT LAB

Section 2

Type
Completion Requirement

Elective Courses (6 credits)

Students must select six credits from the following (courses completed as a required course may not be used as an elective).

Be aware that some of the classes below have required pre- or co-requisites.

For additional information regarding this program, please contact your advisor.

Earn at least 6 credits from the following:

- AV3900 - Aviation Independent Study - 1cr.
- AV4250 - Internship - 1cr.
- UAS1100 - Introduction to Unmanned Aircraft Systems - 1cr.
- UAS1200 - Unmanned Aircraft Systems Introduction to Fixed-Wings - 3cr.
- UAS1300 - Unmanned Aircraft Systems Introduction to Multirotor - 3cr.
- UAS1350 - UAS Intro to FPV (First Person View) Essentials - 3cr.
- UAS1500 - Introduction to Unmanned Aircraft Systems Maintenance and Components - 3cr.
- UAS2100 - Unmanned Aircraft Systems Flight Lab - Patterns and Maneuvers - 3cr.
- UAS2300 - Unmanned Aircraft Systems Multirotor Autonomy - 3cr.
- UAS2700 - Unmanned Aircraft Systems Photo and Video Basics - 3cr.
- UAS3200 - Fixed-wing Design and Construction Essentials - 3cr.
- UAS3360 - UAS First Person View (FPV) Fundamentals - 3cr.
- UAS3700 - Unmanned Aircraft Systems Video Production - 3cr.

Unmanned Aircraft Systems - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

This hands-on program gives students the chance to build, fly, and maintain drones while gaining the technical and professional skills needed for today's fast-growing drone industry. You'll prepare to earn your FAA Part 107 Remote Pilot certification, design and assemble your own drones, and explore how UAS technology is used across fields like agriculture, photography, construction, emergency response, and more.

If you're ready to turn curiosity into flight and innovation into opportunity, this program is your launchpad.

Unmanned Aircraft Systems - Technical Certificate Course Requirements (30 credits)

Type
Completion Requirement

Foundational Courses

Complete ALL of the following Courses:

- TEAV1130 - Flight Principles - 3cr.
- TEUA1011 - Unmanned Aircraft Systems Remote Pilot - 3cr.
- TEUA1021 - Unmanned Aircraft Systems Part 107 Test - 1cr.
- TEUA1201 - Unmanned Aircraft Systems Introduction to Fixed-Wings - 3cr.
- TEUA1301 - Unmanned Aircraft Systems Introduction to Multirotor - 3cr.
- TEUA1501 - Introduction to Unmanned Aircraft Systems Maintenance and Components - 3cr.
- TEUA2041 - Aviation Meteorology - 3cr.
- TEUA2051 - Unmanned Aircraft Systems Pilot in Command - 3cr.
- TEUA2101 - Unmanned Aircraft Systems Flight Patterns and Maneuvers - 3cr.
- TEUA2651 - Drones for Hire - 3cr.
- TEUA2701 - Unmanned Aircraft Systems Introduction to Aerial Photography - 3cr.

Program Learning Outcomes

Program Learning Outcomes

Students will apply their understanding of FAA rules and regulations, including preparation for the Part 107 certification exam. They will demonstrate the ability to identify UAS components, their functions, and real-world applications across the drone industry. Learners will also show proficiency in flight operations, repair, and construction for both fixed-wing and multirotor drones. In addition, students will develop strong professional communication skills, creating clear and accurate documentation to support their technical work.

Unmanned Aircraft Systems - Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Aviation Technology

Program Level
Undergraduate

About this Degree

This Technical Certificate will enable students to become FAA-certified as remote pilots. Students gain experience in flying, maintaining, programming, tuning, and repairing various fixed-wing and multirotor sUAS aircraft. Students learn how to collect, analyze, and report data in the one-year program.

Veterinary Assisting - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

Veterinary Assisting provides students with hands-on training to develop skills to work as support staff in veterinary clinics, shelters, or other animal-based entities. Under the supervision of veterinarians, laboratory animal specialists, and zoological professionals, students learn to provide patient management, care, and clinical procedures assistance as well as owner communication. Including instruction in animal handling and restraint, nursing care, animal health and nutrition, clinical pathology, radiology, anesthesiology, lab procedures, blood collection, IV catheterization, surgical assisting, dental cleanings, vaccines, physical exams, office administration skills, and applicable standards and regulations.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

- Safely and successfully restrain and work with a variety of small and large animals.
- Perform nursing care, laboratory procedures, dental cleanings, IV catheterization, vaccinations, and physical exams.
- Perform routine lab procedures including blood collection, fecals, and infection control.
- Use appropriate veterinary terminology and pharmacology in communication with faculty, veterinarians, and other veterinary staff.
- Provide various species care and demonstrate appropriate interactions with clients and the animals' owners.

Doctor of Veterinary Medicine - DVM

Program Overview

College	Department	Program Level
College of Veterinary Medicine	College of Veterinary Medicine	Graduate

About this Degree

College of Veterinary Medicine

The College of Veterinary Medicine, which was approved by the Utah Legislature in 2022, paved the way to form an independent four-year program, which includes the construction of a new Veterinary Medical Education building on the USU campus in Logan, Utah. Accreditation through the American Veterinary Medical Association Council of Education (AVMA COE) is now underway. The college anticipates matriculating its first cohort of 40 students in the fall of 2025. In subsequent years, enrollment will increase to 80 students per cohort, with 40 positions for Utah residents.

Curriculum

The Doctor of Veterinary Medicine (DVM) degree curriculum aims to train thriving day-one mixed animal veterinarians with the professional, foundational, and applied competencies to serve urban and rural communities in Utah and beyond. The DVM degree curriculum engages the veterinary community throughout Utah and the broader Intermountain Region through an integrated, competency-based approach. Courses offer students intensive training on the competencies expected of day-one veterinary general practitioners.

The first year of the veterinary curriculum provides an integrated systems-based foundation of the structure and function of the bodies of healthy domestic and exotic animals, while also providing an opportunity to develop technical expertise in diagnostics, principles of surgery, and other clinical skills. Lecture and laboratory-based instruction is augmented through participation in case-based discussions.

The second year focuses on disease conditions through the study of pathology, toxicology, virology, public health, and epidemiology while furthering additional professional skills, such as clinical communication. There are also electives in research, integrative medicine, sheep lambing/goat kidding, and large animal theriogenology.

The third year focuses on the diagnosis, prognosis, treatment, prevention, and management of the most common disorders in domestic and exotic species, including dentistry, emergency and intensive care, isolation, and biosecurity. This will be accomplished through the delivery of medicine and surgery courses using a combination of didactic classroom instruction, simulated models, live animal laboratories, and case studies.

In the fourth year, students will participate in a year dedicated to clinical rotations with community-based partner clinics called Affiliated Veterinary Instructional Partners (AVIPs). During their clinical training, fourth-year students will hone their clinical skills by actively participating in a variety of cases from routine wellness care to complex medical and surgical cases. The range of practices offering student experiences will include animal shelters, zoological parks, rural mixed-animal practices, species-specific practices, urban practices, emergency/urgent care, specialized veterinary medicine, and clinical practice focusing on diagnostics.

Admission Requirements for this Program

Admission Requirements

Veterinary medicine is a rigorous science-based field. When evaluating an applicant, emphasis is placed on a broad-based science education. Prerequisite coursework is considered an essential foundation. Applicants can major in any undergraduate subject area; however, a science-based major may better prepare an applicant for the demanding DVM curriculum. Although the Office of Veterinary Admissions recommends completion of a baccalaureate degree prior to matriculation to the DVM program, it is not required. Applications are evaluated on both overall grade point average (GPA) and the strength of prerequisite coursework completed at the time of application. While some prerequisites may be in-progress or planned at the time of application, applicants must have completed all prerequisite courses with a C- or higher before entering the program. Applicants must meet minimum GPA requirements to enter the review process (https://vetmed.usu.edu/cvm/admissions/requirements). Applicants who do not meet these requirements do not undergo further review.

Required prerequisite courses for admission are listed below. Specific USU courses are listed for each prerequisite as example courses.

- Biology, with laboratory (BIOL1610 BIOLOGY I & BIOL1615 BIOLOGY I LABORATORY; BIOL1620 BIOLOGY II (BLS) & BIOL1625 BIOLOGY II LABORATORY) - 8 semester credit hours
- Inorganic Chemistry, with laboratory (CHEM1210 PRIN OF CHEMISTRY I & CHEM1215 CHEMICAL PRINCIPLES LAB I; CHEM1220 PRIN OF CHEMISTRY II (BPS) & CHEM1225 CHEMICAL PRINCIPLES LAB II) -10 semester credit hours
- Organic Chemistry, laboratory not required (CHEM2310 ORGANIC CHEMISTRY I) - 4 semester credit hours
- Biochemistry (CHEM3700 INTRO BIOCHEMISTRY) - 3 semester credit hours
- Mathematics (MATH1050 COLLEGE ALGEBRA (QL)) - 4 semester credit hours
- Statistics (STAT1040 INTRO TO STATISTICS (QL)) - 3 semester credit hours OR Statistics (STAT2000 STATISTICAL METHODS (QI)) - 4 semester credit hours
- Physics, laboratory not required (PHYS2110 GENERAL PHYS LIFE SCI I) - 4 semester credit hours
- Genetics, laboratory not required (BIOL3060 PRIN OF GENETICS (QI)) - 3 semester credit hours
- English composition/communication - 6 semester credit hours*
- Arts and Humanities/Social Science/History, etc. - 21 semester credit hours*

*If an applicant has received or will receive a bachelor's degree prior to matriculation, the general education requirements are considered fulfilled regardless of credit hours.

For questions about prerequisite coursework, we recommend contacting your academic advisor for assistance. If you are an academic advisor and need additional assistance, please contact us at dvmadmit@usu.edu.

The Office of Veterinary Admissions considers a solid and broad undergraduate experience to be fundamental preparation for successful completion of the veterinary curriculum. When evaluating an applicant, the Office of Veterinary Admissions will consider both academic and non-academic qualities, which may include a personal interview. Applicants are encouraged to gain experience by working or volunteering with a veterinarian, spending time in animal-related fields or research, and participating in extracurricular activities and community service (https://vetmed.usu.edu/cvm/admissions/how-to-apply).

Applications for admission to the USU DVM program are submitted through the Veterinary Medical College Application Service (VMCAS), the centralized application service for accredited colleges of veterinary medicine. You can learn about the VMCAS application process and how to become a veterinarian on the AAVMC website.

More ways you can prepare to apply

- We encourage applicants to gain both animal and veterinary experience. Hint: Document your hours as you earn them!
- Document your employment history.
- Keep a log of your extracurricular activities (dates of membership, offices held, special projects you accomplished, etc.); any honors, awards, or scholarships you receive; and service in your community.
- Develop your interpersonal and communication skills. While veterinary medicine is rooted in science, successful veterinarians are good communicators as well as skilled clinicians.

High school students

Becoming a veterinarian generally requires seven to eight years of academic training after high school. Applicants complete undergraduate coursework, and the majority earn a bachelor's degree before entering veterinary school. The Doctor of Veterinary Medicine degree program then requires completion of an additional four years of advanced educational instruction and training.

As a high school student, you can start preparing now for admission to college. Although it is important to take math and science courses, involvement in activities that foster leadership opportunities and/or animal experience is encouraged.

High school courses that will provide the best foundation for a college pre-veterinary curriculum are laboratory-based sciences (chemistry, physics, and biology), math, and English.

Simple Requisites

Program Requirements

School of Graduate Studies Requirements:

• Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.
• Overall Graduate GPA at least 3.0 and no grades of C- or lower: Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
• Course Number Acceptability: The program of study for a master's degree cannot include more than 12 semester credits of courses at the 5000 level. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
• Matriculation Start Semester: A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's advisor and submitted to the Vice Provost of Graduate Studies for review.
• Coursework Validity: Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated by the Vice Provost of Graduate Studies.
• Master's forms: Approval of the Program of Study is required by the School of Graduate Studies.

Year 1 Curriculum

Type
Completion Requirement

Year 1 Courses

The first-year curriculum will provide an integrated systems-based foundation of the structure and function of the bodies of healthy domestic and zoological animals. Courses will focus on cell and developmental biology, anatomy, histology, physiology, immunity, homeostasis, and general pathology while emphasizing clinically relevant structures and physiological mechanisms.

Complete ALL of the following Courses:

- VM7001 - Clinical Skills I - 2cr.
- VM7002 - Clinical Skills II - 2cr.
- VM7011 - Professional Skills I - 2cr.
- VM7012 - Professional Skills II - 2cr.
- VM7021 - Thinking Like A Veterinarian I - 1cr.
- VM7022 - Thinking Like a Veterinarian II - 1cr.
- VM7031 - Exploration of Post-DVM Career Opportunities I - 0.5cr.
- VM7032 - Exploration of Post-DVM Career Opportunities II - 0.5cr.
- VM7101 - Cell Biology and Metabolism - 3cr.
- VM7111 - Animal Systems and the Veterinary Profession - 2cr.
- VM7121 - Form and Function- Musculoskeletal System - 5cr.
- VM7122 - Form and Function- Nervous System - 3cr.
- VM7123 - Form and Function- Cardiovascular System - 2cr.
- VM7124 - Form and Function - Respiratory - 1cr.
- VM7125 - Form and Function - Urinary - 2cr.
- VM7126 - Form and Function - Gastrointestinal - 2cr.
- VM7127 - Form and Function - Endocrine/Reproductive - 2cr.
- VM7128 - Form and Function - Zoological Companion Animals - 1cr.
- VM7132 - General Pathology - 3cr.
- VM7142 - Agents of Infection and Immunity - 3cr.
- VM7162 - Fundamentals of Pharmacology - 1cr.
- VM7172 - Principles of Nutrition - 2cr.

Year 2 Curriculum

Type
Completion Requirement

Year 2 Courses

The second-year curriculum will focus on the pathogenesis, pathophysiology, prevention, and diagnosis of the common diseases in domestic and exotic animal species. The Body in Disease course series will integrate systems pathology, clinical pathology, toxicology, bacteriology, virology, parasitology, diagnostic imaging, and pharmacology. In addition, students will take Anesthesiology, Theriogenology, and Population Health.

Complete ALL of the following Courses:

- VM7003 - Clinical Skills III - 2cr.
- VM7004 - Clinical Skills IV - 2cr.
- VM7013 - Professional Skills III - 2cr.
- VM7014 - Professional Skills IV - 2cr.
- VM7023 - Thinking Like a Veterinarian III - 1cr.
- VM7024 - Thinking Like a Veterinarian IV - 1cr.
- VM7033 - Exploration of Post-DVM Career Opportunities III - 0.5cr.
- VM7034 - Exploration of Post-DVM Career Opportunities IV - 0.5cr.
- VM7221 - The Body in Disease 1 - 7cr.
- VM7222 - The Body in Disease 2 - 6cr.
- VM7223 - The Body in Disease 3 - 5cr.
- VM7224 - The Body in Disease 4 - 3cr.
- VM7262 - Population Health - 4cr.
- VM7242 - Anesthesia - 2cr.
- VM7272 - Theriogenology I - 2cr.
- VM7625 - Clinical Zoological & Wildlife Medicine - 1cr.

Veterinary Science - Minor

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Animal, Dairy & Veterinary Sciences	Undergraduate

About this Degree

A minor can be valuable when associated with a major in agricultural education, agricultural economics, plant science, nutrition and food science, business, economics, computer science, rangeland resources, and in other disciplines where the animal industry has direct or indirect involvement.

The Veterinary Science Minor offers courses that cover basic animal anatomy and physiology, health and hygienic practices, clinical lab techniques, and topics related to current veterinary practices and issues. This minor is designed to enrich students' general knowledge in the field of veterinary science and provide hands-on learning experiences. This minor is appropriate for students who are interested in working in production agriculture, veterinary assistant positions, or students who would like to expand their knowledge in veterinary practices and methods. This minor is not sufficient for students hoping to apply to veterinary school.

Veterinary Science - BS

Program Overview

College	Department	Program Level
College of Agriculture & Natural Resources	Animal, Dairy & Veterinary Sciences	Undergraduate

About this Degree

The Veterinary Science BS degree offers a strong program in pre-veterinary studies.

The degree is a nonterminal program designed primarily for those students who intend to apply to veterinary schools. However, graduates with a degree in veterinary science are well-equipped for a variety of career paths in the veterinary and animal healthcare sectors. In addition to preparing for acceptance into a Doctor of Veterinary Medicine (DVM) degree program, the Veterinary Science BS degree prepares students for post-baccalaureate research degrees such as the Master of Science (MS) and Doctor of Philosophy (PhD) in a variety of biological and healthcare-related emphases.

This program consists of three to four years of study, after which the student is eligible to apply to several colleges of veterinary medicine. The pre-veterinary program can be individually tailored to meet the entrance requirements of various veterinary colleges and optimize a student's chance of gaining acceptance. If a student is uncertain of his or her interests and aptitudes for veterinary medicine, the program is an excellent opportunity to gain experience and make career choices. Students should consult with the ADVS academic advisor to develop a program of study which best meets their needs and requirements.

- For more information about the Department of Animal, Dairy & Veterinary Sciences, see the website.
- If you are a new/entering student, we strongly recommend reviewing the suggested degree map.
- Admitted and current students must meet with an advisor (see below).
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is MATH1050 COLLEGE ALGEBRA (QL). Please also note that MATH1060 TRIGONOMETRY, MATH1100 CALCULUS TECHNIQUES (QL), or MATH1210 CALCULUS I (QL) is required as a prerequisite for PHYS2110 GENERAL PHYS LIFE SCI I.

Students with last names A-L: Contact Allie East at allie.east@usu.edu, 435-797-2194, or here for advising.
Students with last names M-Z: Contact Tami Spackman at tami.spackman@usu.edu, 435-797-2150, or here for advising.

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.75 GPA

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
86	120

Simple Requisites

Program Requirements

1. Attain a grade point average of at least 2.50 across all ADVS courses.
2. Courses required for the major may *not* be taken for a *pass/fail* grade, except for courses that are only offered as pass/fail.
3. To graduate with a degree in this major, students must attain a GPA of at least 2.25 for all required courses for the major.

Students with last names A-L: Contact Allie East at allie.east@usu.edu, 435-797-2194, or here for advising.
Students with last names M-Z: Contact Tami Spackman at tami.spackman@usu.edu, 435-797-2150, or here for advising.

Requirements

Type

Completion Requirement

Required Courses (65-66 credits)

Complete ALL of the following Courses:

- ADVS1050 - Animal, Dairy and Veterinary Science Academic and Career Orientation I - 1cr.
- ADVS1060 - Animal, Dairy, and Veterinary Science Academic and Career Orientation II - 1cr.
- ADVS1110 - Introduction to Animal Science (BLS) - 3cr.
- ADVS2200 - Anatomy and Physiology of Animals - 3cr.
- ADVS2205 - Anatomy and Physiology of Animals: Applied Laboratory - 1cr.
- ADVS3000 - Animal Health and Hygiene - 3cr.
- ADVS3500 - Principles of Animal Nutrition - 3cr.
- ADVS4200 - Physiology of Reproduction and Lactation (CI) - 4cr.
- ADVS4920 - Undergraduate Seminar (CI) - 2cr.
- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- BIOL3060 - Principles of Genetics (QI) - 3cr.
- BIOL3300 - General Microbiology - 3cr.
- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.
- CHEM1225 - Chemical Principles Laboratory II - 1cr.
- CHEM2310 - Organic Chemistry I - 4cr.
- CHEM2315 - Organic Chemistry Laboratory I - 1cr.
- CHEM3700 - Introductory Biochemistry - 3cr.
- MATH1050 - College Algebra (QL) - 4cr.
- PHYS2110 - General Physics—Life Sciences I - 4cr.
- STAT1040 - Introduction to Statistics (QL) - 3cr.
  OR STAT2000 - Statistical Methods (QI) - 4cr.

Production Course (3 credits)

Choose one production course:

Complete at least 1 of the following courses:

- ADVS2010 - Companion Animal Science and Management - 2cr.
  AND ADVS2015 - Companion Animal Science and Management Laboratory - 1cr.
- ADVS2080 - Beef Production Practices - 3cr.
- ADVS2090 - Sheep Production Practices - 3cr.
- ADVS2110 - Poultry Production and Management - 3cr.

- ADVS2120 - Swine Production and Management - 3cr.
- ADVS2130 - Dairy Cattle Production - 3cr.
- ADVS2190 - Horse Production Practices - 3cr.

NOTE:

1. ADVS2010 COMPANION ANIMAL SCI/MGT and ADVS2015 COMP ANIMAL SCI MGMT LAB together count as one course toward this requirement.

Directed Electives (18 credits)

Earn at least 18 credits from the following:

- ADVS2020 - Companion Animal Nursing - 2cr.
  AND ADVS2025 - Companion Animal Nursing Laboratory - 1cr.
- ADVS2160 - Introduction to Exotic Animals - 3cr.
- ADVS2500 - Feeds and Feeding - 3cr.
- ADVS3280 - Applied Animal Molecular & Cellular Biology - 4cr.
- ADVS3300 - Equine Lower Limb Form and Function - 3cr.
- ADVS3520 - Equine Nutrition and Exercise Physiology - 3cr.
- ADVS3920 - Ag Animal Extension Field Experience - 1cr.
- ADVS3930 - Sheep Day - 1cr.
- ADVS3980 - Beef Cattle Handling Practices - 1cr.
- ADVS4210 - Applied Reproduction and Artificial Insemination - 2cr.
- ADVS4220 - Applied Equine Reproduction I - 3cr.
- ADVS4250 - Internship in Animal Industry - 1cr.
- ADVS4310 - Animal Growth and Development - 3cr.
- ADVS4560 - Principles of Animal Genetics and Breeding (QI) - 3cr.
- ADVS4800 - Undergraduate Research or Creative Opportunity - 1cr.
- ADVS5020 - One Health: People, Animals, and the Environment - 3cr.
- ADVS5080 - Beef Cattle Management - 3cr.
- ADVS5090 - Sheep Management and Wool Technology - 3cr.
- ADVS5130 - Dairy Cattle Management - 3cr.
- ADVS5190 - Equine Business Management - 2cr.
- ADVS5500 - Applied Animal Nutrition - 2cr.
- ADVS5530 - Nutrient Metabolization & Utilization - 3cr.
- ADVS5620 - Advanced Animal Physiology - 3cr.
- ADVS5630 - Endocrinology (CI) - 3cr.
- ADVS5650 - Science Communication - 3cr.
- ADVS5710 - Conceptualizing the Human-Animal Bond - 3cr.
- ADVS5720 - Animal-Assisted Interventions and Special Populations - 3cr.
- ADVS5730 - Welfare and Behavior of Animals in Animal-Assisted Interventions - 3cr.
- BIOL3090 - Molecular, Cellular, and Developmental Biology - 3cr.
- BIOL4540 - Invertebrate Zoology - 3cr.
- BIOL5150 - Immunology - 3cr.
- BIOL5210 - Cell Biology - 3cr.
- BIOL5230 - Developmental Biology - 3cr.
- BIOL5240 - Virology - 3cr.
- BIOL5600 - Comparative Animal Physiology - 3cr.
- BUSN2320 - Small Business Management - CTE - 3cr.
- CHEM2320 - Organic Chemistry II - 4cr.
- HEP2500 - Health and Wellness - 2cr.
- PHYS2120 - General Physics - Life Sciences II (BPS) - 4cr.

NOTE:

1. 3 credits maximum of ADVS4250 INTERN ANIMAL INDUSTRY will count toward directed electives.
2. 3 credits maximum of ADVS4800 UNDERGRADUATE RESEARCH will count toward directed electives.
3. A maximum of 6 directed elective credits may be experiential learning courses (currently ADVS3920 AG ANIMAL FIELD EXP, ADVS3930 SHEEP DAY, and ADVS3980 BEEF CATTLE HANDLING).

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your academic advisor for details.

Veterinary Technology - AS

Program Overview

College
College of Agriculture & Natural Resources

Department
Animal, Dairy & Veterinary Sciences

Program Level
Undergraduate

About this Degree

The Veterinary Technology Associate of Science program at Utah State University offers a hybrid, distributed learning model, combining online lectures with hands-on lab experiences at multiple campuses. Designed to meet Utah's workforce demands, this program prepares students for AVMA certification and careers in animal care. Graduates can enter the workforce as veterinary technicians or continue their education in bioveterinary science or advanced degrees in veterinary medicine or veterinary public health. The program emphasizes accessibility and stackability, allowing students to build on existing credentials and pursue diverse career opportunities in veterinary and animal health fields.

Admission Requirements for this Program

In addition to admission to Utah State University, applicants must submit:

- Professional resume (maximum two pages)
- Completed Veterinary Technology Career Exploration Form documenting animal and veterinary exposure
- Reflective statement (maximum 250 words) describing insights gained from veterinary observation experience
- Documentation of a minimum of 20 hours of veterinary or animal clinical observation completed within the past two years. Documentation must include the name and contact information of the supervising veterinarian or facility.

Applicants may be contacted to verify reported experience.

Standardized test scores (ACT/SAT) are not required for program admission but are required for scholarship eligibility.

Program Requirements

Total Credits Required In Program Coursework
49

Total Credits Required To Earn This Credential
60-61

Simple Requisites

Program Requirements

1. Attain a grade point average of at least 2.50 across all ADVS courses.
2. To graduate with a degree in this major, students must attain a GPA of at least 2.25 for all required courses for the major.

Required Courses (49 credits)

Type
Completion Requirement

Required

Complete ALL of the following Courses:

- ADVS2000 - Introduction to Veterinary Technology - 1cr.
- ADVS2010 - Companion Animal Science and Management - 2cr.
- ADVS2015 - Companion Animal Science and Management Laboratory - 1cr.
- ADVS2020 - Companion Animal Nursing - 2cr.
- ADVS2025 - Companion Animal Nursing Laboratory - 1cr.
- ADVS2030 - Exotic and Laboratory Animal Health and Care - 1cr.
- ADVS2035 - Exotic and Laboratory Animal Health and Care Laboratory - 1cr.
- ADVS2040 - Veterinary Critical Care Nursing - 2cr.
- ADVS2045 - Veterinary Critical Care Nursing Laboratory - 1cr.
- ADVS2050 - Veterinary Nurse Specialty - 2cr.
- ADVS2055 - Veterinary Nursing Specialty Laboratory - 1cr.
- ADVS2060 - Clinical Laboratory Techniques - 1cr.
- ADVS2065 - Clinical Laboratory Techniques Laboratory - 2cr.
- ADVS2070 - Food Animal and Equine Care and Nursing - 3cr.
- ADVS2075 - Food Animal and Equine Care and Nursing Laboratory - 1cr.
- ADVS2140 - Pharmacology and Toxicology for Veterinary Technicians - 1cr.
- ADVS2200 - Anatomy and Physiology of Animals - 3cr.
- ADVS2203 - Anatomy and Physiology of Animals: Exploratory Laboratory - 1cr.
  OR ADVS2205 - Anatomy and Physiology of Animals: Applied Laboratory - 1cr.
- ADVS2250 - Cooperative Work Experience - 1cr.
- BIOL1010 - Biology and the Citizen (BLS) - 3cr.
- CHEM1010 - Introduction to Chemistry (BPS) - 3cr.
- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- MATH1050 - College Algebra (QL) - 4cr.
- ENGL2020 - Professional Communication (CL2) - 3cr.

- **A minimum of 6 credits is required in ADVS 2250.**

Other General Education Courses

Additional credit requirement

The remaining courses should be selected to meet General Education requirements for Breadth Creative Arts (BCA), Breadth Humanities (BHU), Breadth Social Sciences (BSS), Breadth American Institutions (BAI).

Degree Map Narrative

For students enrolling in the Veterinary Technology AS at USU as first-year undergraduates without the USHE Veterinary Assistant Certificate

- Following is a sample plan. Please note that student-specific plans may differ.

- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

This model degree plan does not yet include the new general education curriculum planned for phased launch fall 2026. However, the total number of general education credits needed is expected to match the number of credits in this plan.

Degree Map Narrative

For students enrolling in the Veterinary Technology AS at USU with articulation of 18 USU credits from the USHE Veterinary Assistant Certificate

- Following is a sample plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

This model degree plan does not yet include the new general education curriculum planned for phased launch fall 2026. However, the total number of general education credits needed is expected to match the number of credits in this plan.

Simple Requisites

Program Requirements

All courses required for the Watershed Science minor must be taken on an *A-B-C-D-F* basis. A grade of *C-* or better is required for all WATS courses used to meet requirements for this minor.

Section 1

Type
Completion Requirement

A. Required Courses (10 credits)

Complete ALL of the following Courses:

- WATS3700 - Fundamentals of Watershed Science (CI) - 3cr.
- WATS5490 - Small Watershed Hydrology (QI) - 4cr.
- WATS5530 - Water Quality and Pollution - 3cr.

B. Electives (6 credits)

Select two courses from the following:

Complete at least 2 of the following courses:

- GEO3600 - Geomorphology - 4cr.
- WATS5305 - Ecology and Restoration of Plants - 3cr.
- WATS5500 - Limnology: Ecology of Inland Waters - 3cr.
- Other courses within Watershed Sciences as approved by Minor advisor

Watershed Science - MS

Program Overview

College
College of Agriculture & Natural Resources

Department
Watershed Sciences

Program Level
Graduate

About this Degree

Program Contacts

Department Head: Dennis Newell, (435) 797-0479, dennis.newell@usu.edu

Graduate Program Coordinator: Daniel Carolan, (435) 797-2463, daniel.carolan@usu.edu

Program Description

Graduates are prepared to work as hydrologists, wetland specialists, and watershed managers for federal and state agencies.

Because USU's watershed science program is designated as a Western Regional Graduate Program, students from participating western states qualify for in-state tuition. For more information, visit http://wrgp.wiche.edu.

Students in the program study water-related physical processes, including climate, surface and ground water, river formation, soil sciences, and water chemistry. This discipline focuses on protecting aquatic systems and includes coursework in hydrology, geomorphology, stream restoration, water pollution, climate change, and aquatic habitats.

Each student has an individualized plan of study created for them by their graduate committee. Students are able to take courses in other departments on campus, including civil and environmental engineering; plants, soils, and climate; and geology. This program encourages students to gain a broad-based education in areas related to watershed systems and water resource use.

Specializations are available in Climate Adaptation Science, Geomorphology, and Earth Surface Processes as part of this degree. For additional degree information, see the program page or the department website.

Admission Requirements for this Program

Applying for graduate study in Watershed Sciences is a two-step process. We admit applicants to begin graduate study during Fall, Spring, and Summer Semesters. Applications should be submitted by the following deadlines.

- Summer: March 15
- Fall: June 15
- Spring: October 15

Preference is given to applicants who apply before January 10. Fellowships for non-University funds, such as Quinney Fellowships, have different deadlines. Please see individual applications for deadlines.

1. Gain a faculty sponsor and funding

- Contact a faculty member you would like to work with directly. Students cannot be admitted to the program without first having a faculty sponsor and funding provided by their sponsor or an outside agency. In your email please explain why you are interested in working with your prospective mentor and discuss your qualifications for graduate study, including any undergraduate research. Be sure to also include your GPA. (Please note that the requirement to take the GRE has been removed.) To choose a prospective mentor, consult the list of faculty who have current active graduate programs.

2. Apply through the School of Graduate Studies

- Once you have secured a faculty sponsor and funding, you will be invited to officially apply through the School of Graduate Studies, send official transcripts, and pay the application fee.

Admission Requirements:

- GPA of 3.2 or higher
- Sponsorship by a faculty member (gaining a sponsorship usually requires correspondence directly with the faculty)
- A formal application
- A detailed statement outlining your objectives in graduate education, your future goals, and your specific area of research interest.

Program Requirements

Total Credits Required In Program Coursework
30

Total Credits Required To Earn This Credential
30

Simple Requisites

Program Requirements

Master's Plan A or Master's Plan B routes

Master's plan A degrees require a thesis and 6-15 thesis credits.

- Your plan A thesis should contribute to your field by presenting your original research or a new perspective of existing knowledge. You'll choose the problem or subject to focus on with your major professor by the end of your second semester of graduate study. You should perform thesis research during the semester(s) you are registered for thesis credit and when faculty support is available. Theses must follow USU publication formatting standards.

Master's plan B degrees require a final paper/project and 2-3 thesis credits.

- The plan B paper is usually a literature review based on inquiry, systematic research and analytic critique of your findings. Your conclusions should enhance knowledge in your discipline. Although perhaps less intensive or original than a master's thesis, a plan B paper must follow the standard USU thesis/dissertation format and reflect equivalent scholarship standards. You will defend your plan B paper, but it will not be reviewed by your assistant dean or signed by the Vice Provost for graduate studies. Like a thesis, your plan B paper will be submitted to the Merrill-Cazier Library for internal publication.

Department Requirements

- Completion of required trainings, including Responsible Conduct of Research training
- Present at the department Graduate Research Symposium
- Thesis/paper/project defense
- Submission of thesis/paper to the School of Graduate Studies and library for review and approval

School of Graduate Studies (SGS) Requirements

Completion of SGS-specific Forms:

- Supervisory Committee Approval
- Program of Study
- Master's Thesis Proposal/Project Approval
- Appointment for Examination
- Record of Examination
- Format & Style Form

- Authorship & Copyright Form
- Title Page Form
- Application for Graduation

Degree Verification: A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program. An official transcript must be sent directly to the School of Graduate Studies.

Overall Graduate GPA (≥ 3.0) and No Grades of C- or Lower: Graduate students must maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower cannot be applied toward a graduate degree.

Course Number Acceptability: A master's Program of Study may include no more than 12 semester credits of coursework below 6000-level. The following types of credits are not acceptable toward the degree: foreign language courses (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and any courses numbered below 5000.

Matriculation Start Semester: Master's degrees must be completed within six years of entering the program. Additional time may be requested by the advisor and submitted to the Vice Provost of Graduate Studies.

Coursework Validity: Coursework older than eight years at the time of degree completion may not be used unless it is formally revalidated.

Master's Plan A - 30 required credit hours (minimum), including:

Type
Completion Requirement

1 credit of WATS 6260 - Graduate Induction Course

Complete ALL of the following Courses:

- WATS6260 - Watershed Sciences Graduate Student Induction Course - 1cr.

6-15 credits of WATS 6970 - Thesis Research

Earn at least 6 credits from the following:

- WATS6970 - Thesis Research - 1cr.

Remaining Credits

Remaining credits to reach 30 credit hours (minimum)
Fulfilled via:

- Graduate level course work (6000 and above)
- No more than 12 credits of 5000-5990 level courses

Master's Plan B - 30 required credit hours (minimum), including:

Type
Completion Requirement

1 credit of WATS 6260 - Graduate Induction Course

Complete ALL of the following Courses:

- WATS6260 - Watershed Sciences Graduate Student Induction Course - 1cr.

2-3 credits of WATS 6970 - Thesis Research

Earn at least 2 credits from the following:

- WATS6970 - Thesis Research - 1cr.

Remaining Credits

Remaining credits to reach 30 credit hours (minimum)
Fulfilled via:

Web Development - Minor

Program Overview

College
Jon M. Huntsman School of Business

Department
Data Analytics & Information Systems

Program Level
Undergraduate

About this Degree
The foundational role of the web across all businesses and organizations provides an advantage for college graduates from *any* background or program who have basic web programming and design skills. The Web Development minor is an option that can significantly enhance any resume and complement any major, providing students with hands-on practical experience in HTML, CSS, Python, and JavaScript, along with web/database interfaces, web apps, application programming interfaces (APIs), and other web-related tools. These skills are consistently identified among the most critical and marketable in job postings related to all industries and professions.

Program Requirements

Simple Requisites

Program Requirements

No prior technical experience is needed for this minor, which includes 15 total credits (12 required and 3 elective). Individual substitutions for course requirements may be considered and approved on a case-by-case basis by the Data Analytics and Information Systems Department.

Section 1

Type
Completion Requirement

Required Courses (12 credits)

Complete ALL of the following Courses:

- IS5700 - User Interface/User Experience Web Design - 3cr.
- IS5750 - JavaScript for Web Development - 2cr.
- IS5770 - Advanced Server-Side Web Application Development - 3cr.
- IS5780 - Advanced Client-Side Web Application Development - 3cr.

Section 2

Type
Completion Requirement

Elective (3 credits)

Complete at least 1 of the following courses:

- IS5200 - Introduction to Cloud Computing - 3cr.
- DATA5300 - Database Management - 3cr.
- DATA5400 - Data Visualization with Tableau (CI) - 3cr.
- DATA5500 - Python Programming for Analytics - 3cr.

Web Development - Post-Bachelor's Certificate

Program Overview

College
Jon M. Huntsman School of Business

Department
Data Analytics & Information Systems

Program Level
Graduate

About this Degree

The foundational role of the web across all businesses and organizations provides an advantage for individuals from *any* background or program who have basic web programming and design skills. The Web Development Certificate is an option that can significantly enhance any resume and complement any prior degree, providing hands-on practical experience in HTML, CSS, Python, and JavaScript, along with web/database interfaces, web apps, application programming interfaces (APIs), and other web-related tools. These skills are consistently identified among the most critical and marketable in job postings related to all industries and professions, and the Web Development Certificate program allows students to build them in as little as one to two semesters.

Careers in information systems and data technologies are multidisciplinary and require teamwork, critical thinking, and communication. Well-qualified applicants are encouraged to apply from *any* background in which they have developed and applied these skills. Potential applicants with little or no prior technical experience may first consider the Data Technologies - Post-Bachelor's Certificate program.

Note that the Web Development Certificate can be completed on its own, or it can be stacked with any one of the other certificates offered by the Department of Data Analytics & Information Systems to meet the requirements of the Master of Management Information Systems - MMIS degree program.

Data Analytics and Information Systems Faculty

Courses in the Web Development Certificate program are taught by faculty in the Department of Data Analytics and Information Systems who have years of corporate and academic experience. Our instructors are experts in the most cutting-edge tools and strategies for data and tech.

https://huntsman.usu.edu/dais/directory

Admission Requirements for this Program

To begin the Web Development Certificate, applicants can submit an application form, along with the application fee and all undergraduate transcripts through the USU School of Graduate Studies at https://gradschool.usu.edu/apply/. TOEFL or IELTS scores are required for international students whose native language is not English. International students with a prior degree from a university in an English-speaking country are exempt from the TOEFL or IELTS exam. The School of Graduate Studies requires a minimum 3.0 GPA for the last 60 credits of prior undergraduate study.

Program Requirements

Total Credits Required In Program Coursework
14

Total Credits Required To Earn This Credential
14

Simple Requisites

Program Requirements

The certificate requires 12 total credits, as outlined within the curriculum below. Individual substitutions for course requirements may be considered and approved on a case-by-case basis by the Data Analytics and Information Systems Department.

Courses used to fulfill requirements for this certificate may not include those previously completed to meet the requirements of any other certificate or program, and cannot be used to complete any other certificate or program.

Courses remain valid for 6 years for potential inclusion in a future master's degree program (MMIS or MDATA).

Certificate students who opt to earn an MMIS or MDATA degree will be granted a waiver for reduced fees for their future master's application. Please contact our office for details.

Web Development Post-Baccalaureate Certificate Requirements (12 credits)

Type
Completion Requirement

Required Courses

This 11-credit core comprises the requirements for the Web Development Post-Baccalaureate Certificate. This certificate can be completed independently or stacked with another approved 12-credit certificate and 4-6 additional capstone credits to earn the MMIS degree.

Complete ALL of the following Courses:

- IS6700 - User Interface/User Experience Web Design - 3cr.
- IS6750 - JavaScript for Web Development - 2cr.
- IS6770 - Advanced Server-Side Web Application Development - 3cr.
- IS6780 - Advanced Client-Side Web Application Development - 3cr.

Elective Course

Choose one elective course

Complete at least 1 of the following courses:

- IS6100 - Agile Tech Design and Development - 3cr.
- DATA6510 - Advanced Python Programming for Analytics - 3cr.
- DATA6570 - Building Software With Artificial Intelligence - 3cr.

Welding Technology - Technical Certificate

Program Overview

College
College of Agriculture & Natural Resources

Department
Technology, Design & Technical Ed

Program Level
Undergraduate

About this Degree

The welding technology program offers unique opportunities for students interested in the field of welding to receive excellent instruction in hands-on welding skills, welding theory and scientific concepts, and to explore additional careers in the field of welding including inspection, engineering, and project management. In-depth instruction is provided in all common arc welding and cutting processes, such as: Gas Metal Arc Welding (GMAW), Flux-cored Arc Welding (FCAW), Gas Tungsten Arc Welding (GTAW), Shielded Metal Arc Welding (SMAW), Oxy-fuel Cutting (OFC), and Plasma Arc Cutting (PAC). Additional welding processes are explored and introduced including Submerged-Arc Welding (SAW), Resistance Spot Welding (RSW), Stud Welding (SW), Brazing, Soldering, and Carbon Arc Cutting (CAC-A). Print reading, weld inspection, welding metallurgy, and structural fabrication courses are also offered.

Successful students may work as welders locally or nationally, manage welding/ fabrication shops, start their own welding businesses, explore careers in weld inspection, or seek baccalaureate and/or graduate degrees after graduation with welding as a program area of study.

Admission Requirements for this Program

1. New freshman admitted to USU-Eastern in good standing qualify for admission to this program

2. Transfer students from other institutions need a 2.5 GPA for admission to this major

3. Students transferring from other USU-Eastern majors need an overall GPA of 2.5 for admission to this major

5. Visual acuity requirements: 20/40 vision and Jaeger J-2 at 12 inches, with or without corrective lenses. If corrective lenses are required to attain this level of visual acuity, the corrective lenses must be worn during class periods.

Welding Technology - Technical Certificate Course Requirements

Type
Completion Requirement

Foundational Courses - 26 Credits

A higher QL math course may substitute ELET 1110/MATH 1020. See advisor for details.

Complete ALL of the following Courses:

- TEWT1000 - Introduction to Welding and Cutting - 2cr.
- TEWT1111 - Shielded Metal Arc Welding (SMAW) I - 2cr.
- TEWT1140 - Shielded Metal Arc Welding (SMAW) Theory - 2cr.
- TEWT1112 - Shielded Metal Arc Welding (SMAW) II - 2cr.
- TEWT1211 - Gas Tungsten Arc Welding (GTAW) I - 2cr.
- TEWT1240 - Gas Tungsten Arc Welding (GTAW) Theory - 2cr.
- TEWT1212 - Gas Tungsten Arc Welding (GTAW) II - 2cr.
- TEWT1311 - Gas Metal Arc Welding (GMAW) I - 2cr.
- TEWT1340 - Gas Metal Arc Welding (GMAW) and Flux-Cored Arc Welding (FCAW) Theory - 2cr.
- TEWT1411 - Flux Cored Arc Welding (FCAW) I - 2cr.
- WELD2400 - Print Reading for Welders - 3cr.
- ELET1110 - Technical Mathematics - 3cr.
  OR MATH1020 - Trade Mathematics - 3cr.

Supplemental Courses - 4 Credits

Earn at least 4 credits from the following:

- TEDR1010 - Advanced Technical Drafting - 3cr.
- TEDR1200 - Parametric Solid Modeling - 3cr.
- TEDR2200 - Advanced Solid Modeling - 3cr.
- TEHE1400 - Forklift Operation - 1cr.
- TEBP1000 - Basic Financial Principles - 3cr.
- TEBP1500 - Business English - 1cr.
- TEBP1550 - Business Communications - 3cr.
- TEBP1650 - Management Principles - 2cr.
- TEBP2000 - Introduction to Entrepreneurship - 3cr.
- TEMT1600 - Introduction to Manual Machining - 3cr.
- TEWT1650 - Practical Fabrication and Layout - 5cr.
- TEWT1815 - Welding Sculpture - 3cr.
- TEWT1730 - Professional Vocational Leadership - 2cr.
- WELD1110 - Advanced Shielded Metal Arc Welding (SMAW) - 5cr.
- WELD1130 - Advanced Gas Metal Arc Welding (GMAW) and Flux Cored Arc Welding (FCAW) - 5cr.
- WELD1140 - Related Welding Processes - 5cr.
- WELD1160 - Advanced Gas Tungsten Arc Welding (GTAW) - 5cr.
- WELD1170 - Advanced Pipe Welding - 7cr.
- WELD2500 - Weld Inspection - 3cr.
- WELD2600 - Metallurgy - 3cr.

Minimum University Requirements

Minimum University Requirements

Minimum University Requirements (Undergraduate Academic or Technical Certificates)

Program Learning Outcomes

Program Learning Outcomes

The student assessment plan focuses on applying welding safety practices at all times and effectively using measurement systems, written instructions, and technical drawings to complete welding projects. Students will demonstrate a range of welding techniques—including GMAW, FCAW, GTAW, and SMAW—to produce high-quality welds on different types of metals. They will also develop proficiency in using thermal cutting equipment to make precise cuts on both ferrous and non-ferrous metals. Students will learn to identify and select the correct welding and cutting processes for specific applications.

Wildlife Ecology and Management - BS

Program Overview

College
College of Agriculture & Natural Resources

Department
Wildland Resources

Program Level
Undergraduate

About this Degree

Wildlife ecology and management includes the analysis, management, conservation, and restoration of forests, rangeland ecosystems, and their associated wildlife populations. The wildlife ecology and management major at USU emphasizes the ecology, behavior, conservation, and management of wildlife populations and communities in terrestrial ecosystems.

- For more information about Wildlife Ecology and Management, see the website.
- Admitted and current students must meet with an academic advisor for help with semester by semester planning, connections to co-curricular experiences, understanding of USU policies, and accessing USU resources. A faculty advisor will be appointed for each wildlife student (contact the academic advisor in the Academic Services Center for more information). Current students should also meet with a faculty advisor for career and graduate school information.
- Log on to Degree Works to check student-specific program progress.
- The highest math requirement for this degree is STAT3000 STATISTICS FOR SCIENTISTS (QI)

Admission Requirements for this Program

- New freshmen: Admitted to USU in Good Standing
- Transfer students from other institutions or other programs at USU: 2.5 GPA

Program Requirements

Total Credits Required In Program Coursework
81

Total Credits Required To Earn This Credential
120

Simple Requisites

Program Requirements

All courses required for the major must be taken on an A-B-C-D-F basis. A grade of C- or better is required for all courses taken in the major department as well as STAT 2000 or STAT 3000. The grade point average for all courses taught by the Quinney College of Natural Resources must be 2.5 or higher

Wildlife Ecology and Management Required Courses

Type
Completion Requirement

Courses Recommended to Fulfill Breadth/Depth Requirements

Complete ALL of the following Courses:

- ENGL1010 - Writing as Inquiry (CL1) - 3cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- ENGL2010 - Research and Argument Across Perspectives (CL2) - 3cr.
- HIST3950 - Environmental History (DHA/CI) - 3cr.
  OR WILD4100 - Scientific Communication for Natural Resource Professionals (CI) - 3cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.

Scientific Foundation

Complete ALL of the following Courses:

- BIOL1610 - Biology I - 3cr.
- BIOL1615 - Biology I Laboratory - 1cr.
- BIOL1620 - Biology II (BLS) - 3cr.
- BIOL1625 - Biology II Laboratory - 1cr.
- MATH1050 - College Algebra (QL) - 4cr.
- MATH1100 - Calculus Techniques (QL) - 3cr.
  OR MATH1170 - Modeling Change: Calculus in Life and Society - 4cr.
- PSC3000 - Fundamentals of Soil Science - 4cr.
- STAT2000 - Statistical Methods (QI) - 4cr.
  OR STAT3000 - Statistics for Scientists (QI) - 3cr.
- WATS2220 - General Ecology - 3cr.

Chemistry Options Within the Scientific Foundation

Fulfill ANY of the following requirements:

Option 1

Complete ALL of the following Courses:

- CHEM1110 - General Chemistry I (BPS) - 4cr.
- CHEM1120 - General Chemistry II (BPS) - 4cr.
- CHEM1125 - General Chemistry II Laboratory - 1cr.

OR

Option 2

Complete ALL of the following Courses:

- CHEM1210 - Principles of Chemistry I - 4cr.
- CHEM1215 - Chemical Principles Laboratory I - 1cr.
- CHEM1220 - Principles of Chemistry II (BPS) - 4cr.

Departmental Common Courses

Complete ALL of the following Courses:

- WILD2800 - Introduction to Geographic Information Sciences - 4cr.
  OR GEOG2800 - Introduction to Geographic Information Sciences - 4cr.
- WILD2000 - Natural Resource Professional Orientation - 1cr.
  OR ENVS2000 - Natural Resource Professional Orientation - 1cr.
  OR WATS2000 - Natural Resource Professional Orientation - 1cr.
- WILD2400 - Wildland Resource Techniques - 3cr.
- WILD3800 - Wildland Plants and Ecosystems - 4cr.
- WILD3810 - Wildlife Population Ecology - 3cr.
- WILD3820 - Forest Plants: Identification, Biology, and Function - 3cr.
  OR WILD3830 - Range Plant Taxonomy and Function - 3cr.
  OR WILD3600 - Advanced Plant Identification and Terminology - 3cr.
- WILD3850 - Vegetation and Habitat Management - 3cr.
- WILD4750 - Monitoring and Assessment in Natural Resource and Environmental Management - 4cr.

Degree Program Courses

Fulfill ALL of the following requirements:

Required Courses

Complete ALL of the following Courses:

- WILD3300 - Wildlife Behavior - 3cr.
- WILD4500 - Principles of Wildlife Management - 3cr.
- WILD4600 - Conservation Biology - 3cr.
- WILD3880 - Genetics in Conservation and Management - 3cr.
- WILD5580 - Mammalogy - 3cr.

AND

Elective Requirement 1

Choose one from the following courses:

Complete at least 1 of the following courses:

- BIOL5560 - Ornithology - 3cr.
- BIOL5570 - Herpetology - 3cr.
- WILD5560 - Applied Avian Ecology (CI) - 3cr.
- WATS3100 - Fish Ecology, Conservation, and Management (CI/DSC) - 3cr.
- WATS5540 - Ichthyology - 4cr.
- WATS5655 - Principles in Fishery Management - 3cr.

AND

Elective Requirement 2

Choose one from the following courses:

Complete at least 1 of the following courses:

- APEC3012 - Introduction to Natural Resource Economics (DSS) - 3cr.
- ENVS3010 - Natural Resource and Environmental Policy - 3cr.
- ENVS4000 - Human Dimensions of Natural Resource Management (DSS) - 3cr.
- SOC4620 - Sociology of the Environment and Natural Resources (DSS) - 3cr.
- SOC3610 - Rural People and Places (DSS) - 3cr.

Open Electives

Complete the following as needed:
Total elective credit is determined by General Education courses taken, degree type selected, additional credits earned, and any additional math or other prerequisite courses needed. Please consult your Academic Advisor for details.

Degree Map Narrative

- Following is a sample four-year plan. Please note that student-specific plans may differ.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class by clicking the course link and checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

Wildlife Biology - MS

Program Overview

College

College of Agriculture & Natural Resources

Department

Wildland Resources

Program Level

Graduate

About this Degree

Students in this program study the science and application of ecological principles in the management of wildlife populations. Areas of study include wildlife behavior, mammalogy, population dynamics, conservation biology, human-wildlife conflict, and wildlife ecology. The program is integrated with other natural resource programs in the college focusing on forestry, range, and ecology for a broad interdisciplinary experience.

The MS degree targets students motivated toward a management or administrative career in natural resources with an emphasis in wildlife biology. The Wildlife Biology MS degree may be obtained through either a Plan A (research thesis) or Plan B (paper) program. The MS Plan A requires the preparation and defense of a thesis and is best suited for students desiring research experience. The Plan B option requires the preparation and defense of a paper and is most appropriate for wildlife professionals who are not pursuing a research career path.

Department Head: Dr. Chris Keyes, chris.keyes@usu.edu
Graduate Program Coordinator: Stacey Brummer, 435-797-2503, stacey.brummer@usu.edu

Admission Requirements for this Program

Prior to applying, the prospective applicants must have a Wildland Resources faculty member agree to serve as their major (supervisory) advisor. It is recommended that interested applicants first contact specific faculty members with whom they are interested in working.

If the faculty member is accepting graduate students and agrees to serve as the major advisor, the applicant may then apply for admission through the School of Graduate Studies website. Applications are reviewed and processed on an ongoing basis.

Please note that funding is not provided by the Wildland Resources Department. Funding may be available through the major advisor, or a third party (such as an employer), or a student may be self-funded.

General Admission Requirements:

- A bachelor's degree from an accredited college
- A 3.0 GPA as calculated by the School of Graduate Studies.
- Completion of the formal application is required. This includes the submission of three letters of recommendation, a statement of purpose, and official transcripts from each college or university previously attended (except USU). The letter of recommendation request forms and statement of purpose prompt are included in the application materials.
- International Students: Please visit the School of Graduate Studies website for requirements.

Program Requirements

Total Credits Required In Program Coursework

30

Total Credits Required To Earn This Credential

30

Simple Requisites

Program Requirements

The Master of Science in Wildlife Biology program includes required course work, research, and the defense and submission of an original thesis (Plan A) or paper (Plan B).

The MS **Plan A** option includes a significant research component that leads to the production and defense of a thesis, which is submitted to the School of Graduate Studies for approval and then archived at the library. Students complete a required 6–15 thesis research credits, which support the development of their research and thesis. Thesis chapters frequently form the basis of papers prepared and submitted for publication in peer-reviewed journals by the student. Almost all MS students in the Wildland Resources department pursue a Plan A.

The MS **Plan B** option includes an extensive literature review that forms the basis of a paper. Plan B papers are defended but are not subject to the School of Graduate studies approval before submission to the library. Plan B students are required to complete 2-3 thesis research credits and take more coursework to fulfill the remaining credits.

Regardless of plan type, you will work closely with your major advisor and your supervisory committee to determine the trajectory of your research and the course work that will be most beneficial to you.

Department Requirements:

- **Completion of 30 required credit hours:** Only courses included on a supervisory committee approved Program of Study will count towards an MS degree. Please see specific course requirements under MS Plan A and MS Plan B below.
- **Presentation of Research Proposal**: Students must present a research proposal at the department Graduate Research Symposium.
- **Successful defense:** Students must successfully defend a Plan A research thesis or a Plan B paper.
- **Submission of thesis or paper**: Students must submit a Plan A research thesis or a Plan B paper to the School of Graduate Studies and library for review and approval. All thesis and paper submissions must follow the School of Graduate Studies Publication Guide and departmental requirements.

School of Graduate Studies (SGS) Requirements:

- **Completion of Required Forms:**
  - Supervisory Committee Approval
  - Program of Study
  - Master's Thesis Proposal/Project Approval
  - Appointment for Examination
  - Record of Examination (submitted by department office)
  - Format & Style form
  - Authorship & Copyright form
  - Title Page form
  - Application for Graduation
- **Completion of Required Trainings:** Students must complete all School of Graduate Studies required trainings, including Responsible Conduct of Research training.
- **Degree Verification:** A bachelor's degree from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- **Minimum GPA Requirement:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.
- **Matriculation Start Semester:** A master's degree must be completed within six years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Degree Programs

Type
Completion Requirement

MS Plan A (Research Thesis) Course Requirements

Complete ALL of the following Courses:

- WILD6800 - Wildland Resources Departmental Seminar - 1cr.
- WILD6970 - Thesis Research - 1cr.
- 30 required credit hours (minimum) including:
  - 1 credit of WILD6800 WILD SEMINAR
  - 6-15 credits of WILD6970 THESIS RESEARCH
  - Remaining credits fulfilled via: Program of Study approved coursework

MS Plan B (Paper) Course Requirements

Complete ALL of the following Courses:

- WILD6800 - Wildland Resources Departmental Seminar - 1cr.
- WILD6970 - Thesis Research - 1cr.
- 30 required credit hours (minimum) including:
  - 1 credit of WILD6800 WILD SEMINAR
  - 2 but not more than 3 credits of WILD6970 THESIS RESEARCH
  - Remaining credits fulfilled via: Program of Study approved coursework

Wildlife Biology - PhD

Program Overview

College
College of Agriculture & Natural Resources

Department
Wildland Resources

Program Level
Graduate

About this Degree

Students in this program study the science and application of ecological principles in the management of wildlife populations. Areas of study include wildlife behavior, mammalogy, population dynamics, conservation biology, human-wildlife conflict, and wildlife ecology. The program is integrated with other natural resource programs in the college focusing on forestry, range, and ecology for a broad interdisciplinary experience.

The PhD degree is intended for students seeking a research or academic career in wildlife biology. The Wildlife Biology PhD degree may be obtained through either a post-master's or post-baccalaureate program.

Department Head: Dr. Chris Keyes, chris.keyes@usu.edu
Graduate Program Coordinator: Stacey Brummer, 435-797-2503, stacey.brummer@usu.edu

Admission Requirements for this Program

Prior to applying, the prospective applicants must have a Wildland Resources faculty member agree to serve as their major (supervisory) advisor. It is recommended that interested applicants first contact specific faculty members with whom they are interested in working.

If the faculty member is accepting graduate students and agrees to serve as the major advisor, the applicant may then apply for admission through the School of Graduate Studies website. Applications are reviewed and processed on an ongoing basis.

Please note that funding is not provided by the Wildland Resources Department. Funding may be available through the major advisor, or a third party (such as an employer), or a student may be self-funded.

General Admission Requirements:

Total Credits Required In Program Coursework
30-60

Total Credits Required To Earn This Credential
30-60

Simple Requisites

Program Requirements

The Wildlife Biology PhD program includes required coursework, research, and the defense and submission of an original dissertation. In addition, you must achieve candidacy by successfully completing a comprehensive exam (comps), which assesses your ability to conduct independent research, and by submitting your research proposal. The PhD program may be pursued either post-master's or post-baccalaureate. The post-baccalaureate PhD requires additional credit hours, coursework, and increased guidance from your major advisor and committee.

To develop your dissertation research, you will work closely with your major advisor and supervisory committee to generate original ideas, refine research direction, and identify the coursework and professional activities that will be most beneficial to your progress. As you approach candidacy, you should demonstrate a strong command of the literature, creativity in hypothesis development, and proficiency in research design and data analysis.

Department Requirements:

- **Completion of required credit hours:** Students must complete a total 30 credit hours if pursuing a PhD post-master's or 60 credit hours if post-baccalaureate. Only courses included on a supervisory committee approved Program of Study will count towards a PhD degree. Please see specific course requirements under PhD post master's and PhD post baccalaureate sections below.
- **Presentation of Research**: PhD students are required to present an initial research proposal and then biennial research updates at the department Graduate Research Symposium.
- **Successful defense:** Students must successfully defend a dissertation.
- **Submission of thesis or paper**: Students must submit a dissertation to the School of Graduate Studies and library for review and approval. All dissertation submissions must follow the School of Graduate Studies Publication Guide and departmental requirements.

School of Graduate Studies (SGS) Requirements:

- **Completion of Required Forms:**
  - Supervisory Committee Approval
  - Program of Study
  - Application of Candidacy Doctoral Degree
  - Appointment for Examination
  - Record of Examination (submitted by department office)
  - Format & Style form
  - Authorship & Copyright form
  - Title Page form
  - Application for Graduation
- **Completion of Required Trainings:** Students must complete all School of Graduate Studies required trainings, including Responsible Conduct of Research training.
- **Degree Verification:** A bachelor's degree and master's degree (if applicable) from an accredited U.S. college or university or a similarly recognized international university is required for admission to and completion of a graduate program.
- **Minimum GPA Requirement:** Graduate students are required to maintain at least a 3.0 GPA for degree-program courses. Grades of C- or lower will not be accepted for a graduate degree.
- **Course Number Acceptability:** The Program of Study for a master's degree must include at least 18 semester credits at the level of 6000 or above. Credits in the following areas are not acceptable in a degree program: foreign languages (unless included

in an approved Program of Study), continuing graduate advisement, individual home study, military science, and courses numbered below 5000.

- **Matriculation Start Semester:** A PhD degree must be completed within eight years of entering the degree program. Additional time may be requested by the student's committee and submitted to the Vice Provost of Graduate Studies for review.
- **Coursework Validity:** Coursework over eight years old at the time of degree completion may not be used for a graduate degree unless it is revalidated.

Wildlife Science - Minor

Program Overview

College
College of Agriculture & Natural Resources

Department
Wildland Resources

Program Level
Undergraduate

About this Degree
This minor consists of a mix of 15 credits of fundamental wildlife courses that will give the recipient basic knowledge of wildlife science and management to complement the Fisheries and Aquatic Sciences (FAS) major in the Watershed Sciences Department.

Admission Requirements for this Program
This minor is restricted to only FAS (Fisheries and Aquatic Sciences) majors.

World Languages and Cultures: Arabic Emphasis - BA

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Undergraduate

About this Degree

Students in Arabic learn linguistic, communication, critical thinking, and cultural competency skills, gaining a competitive edge in career paths in diplomacy, intelligence, national security, global business, NGOs and non-profits, healthcare, engineering, international development, translation and interpretation, and education. Students develop a deeper understanding of cultures across the Arabic speaking world, through the study of texts, traditions, media and more. Cultural activities, free tutoring, and an active student club, as well as many scholarship and study abroad opportunities, are available for students of Arabic at USU. Students with higher language proficiency and prior language experience, who test out of lower-division language courses at USU, may potentially complete degree requirements much faster.

Degree Map Narrative

- Following is just a **sample, generic plan for a student who is just beginning to study a language.**
- Specific plans for each student will differ.
- Students with higher language proficiency, who test out of lower-division language courses at USU,

may complete the degree faster possibly.

- Several language and linguistics courses offer CI-Communications Intensive or DHA-Depth Humanities attributes.
- Meet with an academic advisor to create a specific plan that best fits your needs and goals.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Contact the Department of World Languages & Cultures for Language Proficiency and Placement testing in 50+ languages.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

World Languages and Cultures - BA

Program Overview

College	Department	Program Level
College of Arts & Sciences	World Languages and Cultures	Undergraduate

About this Degree
The World Languages & Cultures BA offers 10 emphases from which students must choose from.

- **Arabic**
- **Chinese**
- **French**
- **German**
- **Japanese**
- **Portuguese**
- **Spanish**
- **Russian**
- **Translation and Interpretation**
- **Linguistics.**

A K-12 Teaching Track option is available for: Spanish, French, German, Chinese, and Portuguese major emphases, and offers hands-on teaching experience.

Many students with prior language experience choose a World Languages & Cultures major, or World Languages & Cultures as a dual major, to further develop and showcase their language skills to employers. DLI (Dual Language Immersion)/Bridge/AP (Advanced Placement)/IB language students, returned missionaries with language experience, heritage speakers, bilingual students, members of the military with language experience, Concurrent Enrollment language participants, Study Abroad participants, and many others with experience in another language often select a World Languages & Cultures major, or choose a language as a dual major.

Those with prior language experience may take the USU Language Proficiency Test for placement, and may earn up to 16 USU lower-division credits (with option to purchase) based on test score.

No prior language skills are required, and students may begin a new language upon entry to the major.

Please contact your advisor for more information.

Careers

World Languages & Cultures degrees prepare students to succeed in a global economy by developing language proficiency, and building in-demand durable skills such as: cultural competence, communication, analysis, translation, interpretation, localization, storytelling, writing, editing, presentational skills, research skills, critical thinking, and more.

World Languages & Cultures students take a wide variety career paths, with recent alumni working in many different industries, such as: professional translators and interpreters, K-12 teachers, pilots, healthcare professionals, social workers, legal professionals, designers, diplomats, intelligence community members, law enforcement, NGOs, design, tech, sales, international business and global industry, and many more. World Languages & Cultures graduates may go on to medical school, dental school, law school, or graduate school in the humanities and social sciences.

Scholarships

World Languages & Cultures students are eligible to apply for a number of scholarships specifically for languages students and study abroad scholarships. Please contact your advisor or faculty for more information and visit USU Scholarship Universe.

Study Abroad

World Languages & Cultures offers several summer or semester-long faculty-led study abroad experiences for credit that counts toward degrees, including: France, Spain, Argentina, Brazil, Taiwan, Germany, Japan, and others. All majors are welcome.

Related minors, degrees, and certificates

Minors in World Languages & Cultures are also available: **Arabic Studies, Chinese, French, German, Japanese, Portuguese, Spanish, or Russian; Translation and Interpretation; or Linguistics.**

Teaching Minors in Chinese Teaching, French Teaching, German Teaching, and Spanish Teaching are also available.

Asian Studies major and minor, Middle East Studies minor, and Latin American Studies minor are also available, with some overlap in courses with World Languages & Cultures degrees.

Certificate programs in Medical Translation & Interpretation with 40-hour professional certification; Legal and Business Translation & Interpretation; and TESOL (Teaching English as a Second Language) are available to bolster professional skills and career readiness and all majors are welcome.

Other interdisciplinary programs in the College of Arts & Sciences, such as the Minor in Anticipatory Intelligence (CAI), Heravi Peace Institute certificates (HPI), or the Intercultural Communication Competence certificate are also popular complements to World Languages & Cultures degrees, with some overlap in courses.

The Masters of Science in Second Language Teaching (MS SLT) is a fully asynchronous online, career oriented graduate degree housed in the Department of World Languages & Cultures, open to students interested in teaching any language, ASL, and TESOL/ESL. The MS SLT is popular with current and future K-12 teachers, ESL teachers, and Dual Language Immersion teachers.

Degree Map Narrative

- Following is a **sample, generic plan for a student who is just beginning to study a language.**
- Specific plans for each student will differ.
- Major emphasis in **Linguistics** and major Emphasis in **Translation and Interpretation** differ slightly.
- Students with higher language proficiency, who test out of lower-division language courses at USU,

  may complete the degree faster (it is possible to test out of 1010, 1020, 2010, 2020).
- Students with **Bridge** program upper-division language course credits may complete the degree faster.
- Some accelerated language courses (covering two semesters in one) may be available in some languages.
- Several language courses offer CI-Communications Intensive or DHA-Depth Humanities attributes.
- Meet with an academic advisor to create a specific plan that best fits your needs and goals.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Contact the Department of World Languages & Cultures for placement testing in 50+ languages.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.

World Languages and Cultures: Chinese Emphasis - BA

Program Overview

College
College of Arts & Sciences

Department
World Languages and Cultures

Program Level
Undergraduate

About this Degree
Students will develop durable skills including Chinese language skills, translation and interpretation skills, intercultural competence skills, analytical skills, critical thinking skills, and communication skills. Course offerings include courses in language, literature, culture, popular culture, Chinese for Business, film studies, media studies, translation, communication, and more. The program offers many cultural activities and student events, and opportunities such as tutoring, outreach practicum, and USU summer study abroad in Taiwan.

Admission Requirements for this Program

Program Requirements

World Languages & Cultures BA: CHINESE

- **Notes for WL&C Major with Chinese Emphasis :**
- CHIN2050 CHINESE CONVERSATION is a required transition course for all students *without* extensive experience in a Mandarin-speaking environment. CHIN2050 CHINESE CONVERSATION must be taken after CHIN2010 CHINESE SECOND YR I and before CHIN3010 CHINESE THIRD YR I. Students should take CHIN2050 CHINESE CONVERSATION (unless waived), then CHIN3010 CHINESE THIRD YR I, then CHIN3020 CHINESE THIRD YR II before taking other advanced, upper-division CHIN courses. Students with at least one year of immersive Mandarin experience may potentially waive CHIN2050 CHINESE CONVERSATION and/or CHIN3000 CHIN CONVERSATION, based on USU language testing score. Please consult World Languages & Cultures advisor. Cantonese speakers are still required to take CHIN2050 CHINESE CONVERSATION.
- Bridge program students should consult with a World Languages and Cultures Advisor. Bridge courses CHIN3116 EXPLORING CHINA, CHIN3117 CHINESE LEGACIES, and CHIN3118 CHINESE POPULAR CULTURE count toward the Major Emphasis.

World Languages & Cultures BA, Emphasis in Chinese *with* World Languages Education Track/Secondary School Licensure

Admission Requirements for This Program (World Languages & Cultures BA, Emphasis in Chinese with World Languages Education Track/Secondary School Licensure)

GPA: New freshmen: 3.0 GPA; Transfer students from other institutions or other programs at USU: 3.0 GPA. Students must maintain a **minimum 3.0** through graduation. Pass the USOE background check. Complete admission core course requirements (see STEP application). World Languages and Cultures majors/minors-obtain required OPI exam score prior to admission.

Students should consult the application checklist: https://cehs.usu.edu/teal/files/undergrad/step-application-checklist-06242021.pdf and https://cehs.usu.edu/teal/undergraduate-1/sec-ed and contact a TEAL Advisor.

For this optional teaching licensure track in Chinese, the following are required for Chinese only:

- **Credits: 67 (30 credits + 37 STEP credits). 120 Total Credits.**
- **GPA required for STEP program:** 3.0 GPA
- **Minimum Grade Requirement:** All courses taken for the major and all **STEP** courses require a minimum grade of **C** or better. Courses may NOT be taken on a pass/fail basis (**except** for courses designated as pass/fail, such as SCED3300 CLINICAL EXPERIENCE I, SCED5630 STUDENT TEACHING SEC SCHOOL).
- **The Chinese program requires in addition to STEP requirements:** CHIN4100 TEACHING CHINESE**.**
- To be licensed to teach in the Utah public secondary school system, students completing the World Languages Education with Secondary School Licensure must complete the additional courses (28 credits) required by the Secondary Education Program (STEP). Courses may be subject to change, and students should contact the Secondary Education Advising Office for a current course list of STEP requirements. STEP Program: https://www.usu.edu/degrees-majors/secondary-teacher-education-program-step_licensure.
- SCED4300 CLINICAL EXPERIENCE II and LING5400 TEACHING MODERN LANGUAGES **must be taken during the same semester,** and should be the last courses taken for the minor. These courses should be taken the fall semester before student teaching.
- Students completing endorsements must follow all state requirements, including ACTFL OPI/Praxis test score requirements.
- World Languages Endorsement information: https://www.schools.utah.gov/licensing/endorsements/World%20Languages%20Endorsement%20Specs.pdf.

World Languages and Cultures: Chinese Emphasis - BA

Type

Completion Requirement

Required Courses (7 credits)

Please note prerequisite requirements for the following courses:

Complete ALL of the following Courses:

- CHIN3010 - Chinese Third Year I - 4cr.
- LING4100 - The Study of Language - 3cr.

Elective Courses (23 credits)

In addition to the 7 credits above of LING4100 STUDY OF LANGUAGE and CHIN3010 CHINESE THIRD YR I, required 23 minimum additional credits selected from the following sets of courses:

Fulfill ANY of the following requirements:

Chinese Elective Courses

Complete ANY of the following Courses:

- CHIN3000 - Chinese Conversation - 3cr.
- CHIN3020 - Chinese Third Year II - 4cr.
- CHIN3060 - Chinese Grammar and Composition - 3cr.
- CHIN3080 - Chinese Outreach Practicum - 1cr.
- CHIN3090 - Introduction to Modern Chinese Literature and Film - 3cr.
- CHIN3100 - Readings in Contemporary Chinese Culture (DHA) - 3cr.
- CHIN3116 - Exploring China - Past, Present and You - 3cr.
- CHIN3117 - Chinese Legacies - Tradition and Modernity - 3cr.
- CHIN3118 - Chinese Popular Culture - 3cr.
- CHIN3510 - Chinese Business Presentations - 3cr.
- CHIN3520 - Chinese Business Strategies - 3cr.
- CHIN3540 - Translating into and from Chinese (CI) - 3cr.
- CHIN3600 - Contemporary Children's Literature in Chinese - 3cr.
- CHIN3800 - Chinese III Study Abroad - 1cr.
- CHIN3880 - Individual Readings in Chinese - 1cr.
- CHIN4010 - Chinese Multimedia - 3cr.
- CHIN4030 - Love and Death in Chinese Film - 3cr.
- CHIN4050 - Chinese Media Topics - 3cr.
- CHIN4070 - Advanced Chinese Reading - 3cr.
- CHIN4080 - Expressive Chinese Communication Skills - 3cr.
- CHIN4090 - Readings in Masterworks of Classical Chinese Fiction - 3cr.
- CHIN4100 - Teaching Chinese as a Foreign Language - 3cr.
- CHIN4210 - Chinese/Sinophone Theatre and Performance - 3cr.
- CHIN4800 - Chinese IV Study Abroad - 1cr.
- CHIN4920 - Chinese Language Tutoring - 1cr.

NOTE:

1. CHIN3080 CHINESE OUTREACH - Repeatable for credit up to 3 credits
2. CHIN3116 EXPLORING CHINA - Bridge only
3. CHIN3117 CHINESE LEGACIES - Bridge only
4. CHIN3118 CHINESE POPULAR CULTURE - Bridge only
5. CHIN3800 CHINESE III STUDY ABROAD - Repeatable for credit
6. CHIN3880 INDIVIDUAL READINGS - Repeatable, only 1 credit may count toward requirements for the Chinese Major emphasis or minor.
7. CHIN4800 CHINESE IV STUDY ABROAD - Repeatable for credit
8. CHIN4920 CHINESE LANG TUTOR - Repeatable for credit up to 3 credits may count toward the Chinese Major emphasis

OR

Elective courses taught in English

Up to two of the following courses (maximum total limit of 6 credits) typically taught in English may also be used to fulfill the 23 required credits of elective coursework for the Chinese major emphasis:

Complete ANY of the following Courses:

- CAI5520 - Chinese Security Affairs - 3cr.
- CMST3330 - Intercultural Communication (DSS) - 3cr.
- HIST3480 - History of China - 3cr.
- HIST3483 - Modern China 1800 to present (DHA) - 3cr.
- JAPN3050 - Japanese Calligraphy - 1cr.
  OR ART3050 - Japanese Calligraphy - 1cr.
- LANG3550 - Culture of East Asia (DHA) - 3cr.

- LANG3570 - Narrative Ethics in Asian Literature and Film (DHA) - 3cr.
- LANG3650 - Women and Gender in East Asian Culture - 3cr.
- LING2500 - Language & Religion - 3cr.
- LING3100 - Language in Social Context - 3cr.
- LING5400 - Teaching Modern Languages - 3cr.
- POLS3250 - Chinese Government and Politics (DSS) - 3cr.

Additional Comments:
Important Notes for WL&C Major with Chinese Emphasis only:

- CHIN2050 CHINESE CONVERSATION is a required transition course for all students *without* extensive experience in a Mandarin-speaking environment. CHIN2050 CHINESE CONVERSATION must be taken after CHIN2010 CHINESE SECOND YR I and before CHIN3010 CHINESE THIRD YR I. Students should take CHIN2050 CHINESE CONVERSATION (unless waived), then CHIN3010 CHINESE THIRD YR I, then CHIN3020 CHINESE THIRD YR II before taking other advanced, upper-division CHIN courses. Students with at least one year of immersive Mandarin experience may potentially waive CHIN2050 CHINESE CONVERSATION and/or CHIN3000 CHIN CONVERSATION, based on USU language testing score. Please consult World Languages & Cultures advisor. Cantonese speakers are still required to take CHIN2050 CHINESE CONVERSATION.
- Bridge program students should consult with a World Languages and Cultures Advisor. Bridge courses CHIN3116 EXPLORING CHINA, CHIN3117 CHINESE LEGACIES, and CHIN3118 CHINESE POPULAR CULTURE count toward the Major Emphasis.

World Languages & Cultures BA, Emphasis in Chinese with World Languages Education Track/Secondary School Licensure

Type
Completion Requirement

World Languages Education Track/Secondary School Licensure Required Courses (37 credits)

Courses for teaching emphases and the teaching minors may be subject to change, and students should contact the Secondary Education Advising Office for a current course list of STEP requirements.

Complete ALL of the following Courses:

- CHIN4100 - Teaching Chinese as a Foreign Language - 3cr.
- ITLS2500 - Technology Enabled Instruction - 3cr.
- LING5400 - Teaching Modern Languages - 3cr.
  AND SCED4300 - Clinical Experience II - 1cr.
- SCED3210 - Educational and Multicultural Foundations (DSS/CI) - 3cr.
- SCED5100 - Motivation and Classroom Management - 3cr.
- SCED5200 - Language, Literacy, and Learning in the Content Areas (CI) - 3cr.
- SCED5210 - Learning Theory, Curriculum, and Assessment - 3cr.
- SCED5630 - Student Teaching in Secondary Schools - 10cr.
- SCED5500 - Student Teaching Seminar - 2cr.
  OR LING5500 - Student Teaching Seminar - 2cr.
- SPED4000 - Education of Students with Disabilities - 3cr.

NOTES:

1. The special methods course is taught under LING5400 TEACHING MODERN LANGUAGES.
2. SCED4300 CLINICAL EXPERIENCE II and LING5400 TEACHING MODERN LANGUAGES must be taken during the same semester.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Degree Map Narrative

- The following is a sample, generic 4-year plan for a student with no prior Chinese language experience. Student specific plans vary. This plan does *not* include the Teaching Licensure Track, but there is an optional track available.
- Students with prior Chinese language experience and/or coursework should take the Language Proficiency Placement Test in the Department of World Languages & Cultures and may complete degree requirements quicker or "test out of" some courses.
- Please meet with an academic advisor. Check your Degree Works for requirements and completion information.
- Bridge program students should meet with a Dept. of World Languages & Cultures advisor because Chinese Bridge courses count toward the Chinese Major emphasis and Chinese Minor.

World Languages and Cultures: French Emphasis - BA

Program Overview

College	Department	Program Level
College of Arts & Sciences	World Languages and Cultures	Undergraduate

About this Degree
Students in the French program explore the language and many cultures of the francophone world. Students in French develop durable skills for the global workplace, such as communications skills, analytical skills, critical thinking skills, and presentation skills, and increase their language proficiency level. Students may choose from a wide range of courses taught in French, ranging from Business French, to current events and culture, to courses in film, literature, music, translation, and more. The program offers many opportunities, such as a USU summer Study Abroad program in France, a very active student French Club and Conversation Hour, free French tutoring, French-specific scholarships to apply for, support applying for exchange and internship programs in the US and abroad, and more.

Admission Requirements for this Program

World Languages and Cultures: French Emphasis - BA
2.0 GPA minimum

World Languages & Cultures BA, Emphasis in French with World Languages Education Track/Secondary School Licensure
Admission Requirements for This Program

GPA: New freshmen: 3.0 GPA for Licensure track only; Transfer students from other institutions or other programs at USU: 3.0 GPA. Students must maintain a **minimum 3.0** through graduation. Pass the USBE background check. Complete admission core course requirements (see STEP application). World Languages and Cultures majors/minors-obtain required OPI exam score prior to admission. Students should consult the application checklist: https://cehs.usu.edu/teal/files/undergrad/step-application-checklist-06242021.pdf and https://cehs.usu.edu/teal/undergraduate-1/sec-ed and contact a TEAL Advisor.

Program Requirements

Total Credits Required In Program Coursework	Total Credits Required To Earn This Credential
30-62	120

Simple Requisites

Program Requirements

World Languages and Cultures: French Emphasis - BA
- 30 credits

World Languages & Cultures BA, Emphasis in French with World Languages Education Track/Secondary School Licensure
- **Credits: 62 (30 credits + 32 STEP credits). 120 Total Credits.**
- **GPA required for STEP program:** 3.0 GPA
- **Minimum Grade Requirement:** All courses taken for the major and all **STEP** courses require a minimum grade of **C** or better. Courses may NOT be taken on a pass/fail basis (**except** for courses designated as pass/fail, such as SCED3300 CLINICAL EXPERIENCE I, SCED5630 STUDENT TEACHING SEC SCHOOL).

- To be licensed to teach in the Utah public secondary school system, students completing the World Languages Education with Secondary School Licensure must complete the additional courses (32 credits) required by the Secondary Education Program (STEP). Courses may be subject to change, and students should contact the Secondary Education Advising Office for a current course list of STEP requirements. STEP Program: https://www.usu.edu/degrees-majors/secondary-teacher-education-program-step_licensure
- SCED4300 CLINICAL EXPERIENCE II and LING5400 TEACHING MODERN LANGUAGES **must be taken during the same semester,** and should be the last courses taken for the minor. These courses should be taken the fall semester before student teaching.
- Students completing endorsements must follow all state requirements, including ACTFL OPI/Praxis test score requirements.
- World Languages Endorsement information: https://www.schools.utah.gov/licensing/endorsements/World%20Languages%20Endorsement%20Specs.pdf

World Languages and Cultures: French Emphasis - BA

Type
Completion Requirement

Required Courses (6 credits)

Required course, LING4100 STUDY OF LANGUAGE (taught in English) ***or*** FREN4200 FRENCH LING/PHONETICS (taught in French) does not have any prerequisites, and may be taken at any time.

Complete ALL of the following Courses:

- LING4100 - The Study of Language - 3cr.
  OR FREN4200 - French Linguistics and Phonetics - 3cr.
- FREN3060 - French Intermediate Written Communication (CI) - 3cr.
  OR FREN4090 - Advanced Written Communication (CI) - 3cr.

Elective Courses (24 credits)

In addition to the 6 credits above, required 24 minimum credits selected from the following, taken in any order:

Fulfill ANY of the following requirements:

French Elective Courses

Complete ANY of the following Courses:

- FREN3030 - Advanced French for Everyday Communication - 3cr.
- FREN3060 - French Intermediate Written Communication (CI) - 3cr.
- FREN3070 - Advanced French Study Abroad I - 4cr.
- FREN3080 - Advanced French Study Abroad II - 4cr.
- FREN3116 - Adventure and Discovery: Journey in the Francophone World - 3cr.
- FREN3117 - Francophone Studies: Past, Present and Future - 3cr.
- FREN3118 - Paris, City of Lights - 3cr.
- FREN3400 - Introduction to Translation - 3cr.
- FREN3500 - French and Francophone Authors (DHA) - 3cr.
- FREN3510 - Business French (CI) - 3cr.
- FREN3550 - French Civilization (DHA) - 3cr.
- FREN3570 - France Today - 3cr.
- FREN3600 - Textual Analysis - 3cr.
- FREN3700 - Francophone Music (CI) - 3cr.
- FREN3820 - Advanced Independent Study: Experiencing Francophone Culture - 2cr.
- FREN4060 - Advanced French Conversation (CI) - 3cr.
- FREN4090 - Advanced Written Communication (CI) - 3cr.
- FREN4200 - French Linguistics and Phonetics - 3cr.
- FREN4610 - Studies in French Literature and Culture (DHA) - 3cr.
- FREN4620 - Genre Studies in French Literature (DHA) - 3cr.
- FREN4630 - French and Francophone Fairy Tales (DHA) - 3cr.
- FREN4640 - Exploring the French and Francophone Short Story - 3cr.
- FREN4880 - Individual Readings - 1cr.
- FREN4900 - Seminar in French and Francophone Studies - 3cr.
- FREN4920 - French Language Tutoring - 1cr.

NOTE:

1. FREN3060 FREN INT WRITTEN COMM (CI) - repeatable for credit, up to 6 credits
2. FREN3117 FRANCOPHONE STUDIES - Bridge Program only
3. FREN3118 PARIS, CITY OF LIGHTS - Bridge Program only
4. FREN3500 FRENCH AND FRANCO AUTHOR (DHA) - Repeatable for credit
5. FREN3820 ADVANCED INDEPENDENT STUDY - Study Abroad Only
6. FREN4060 ADV FRENCH CONVERSATION (CI) - Repeatable for credit
7. FREN4200 FRENCH LING/PHONETICS - Taught in French, may count as elective if not used for core course for WL&C major
8. FREN4640 FRANCOPHONE SHORT STORY - Repeatable for credit
9. FREN4900 SEMINAR: FRENCH/FRANCO STUDY - Repeatable for credit
10. FREN4920 FRENCH LANGUAGE TUTORING - Repeatable for credit

OR

Elective courses taught in English

Up to two (6 credits) of the following courses, taught in English, may be used toward the electives:

Complete ANY of the following Courses:

- LING2100 - Languages in Global and Historical Context (BSS) - 3cr.
- LING3100 - Language in Social Context - 3cr.
- LING3200 - Introduction to Linguistics (DSS) - 3cr.
- LING4900 - Analysis of Cross-Cultural Difference - 3cr.
- HIST4290 - Europe and the French Revolution, 1700-1815 - 3cr.

World Languages & Cultures BA, Emphasis in French with World Languages Education Track/Secondary School Licensure

Type
Completion Requirement

Required Courses for Licensure (32 credits)

Courses for teaching emphases and the teaching minors may be subject to change, and students should contact the Secondary Education Advising Office for a current course list of STEP requirements.

Complete ALL of the following Courses:

- ITLS2500 - Technology Enabled Instruction - 3cr.

1. The language methods course is taught under course number LING5400 TEACHING MODERN LANGUAGES.
2. SCED4300 CLINICAL EXPERIENCE II and LING5400 TEACHING MODERN LANGUAGES must be taken during the same semester.

Additional Comments:

Licensure Notification

This program typically leads to licensure and was designed to meet licensing qualifications in the state of Utah. If students wish to work in another state within the United States, they should review the qualifications for that state and the Education Licensure Compliance Table provided by School of Teacher Education and Leadership.

For more information, please contact the School of Teacher Education and Leadership at https://cehs.usu.edu/teal/

Degree Map Narrative

- Following is a sample four-year plan, with the example of starting as a beginner with no previous French language experience or coursework. Students with prior language experience should take the Language Proficiency and Placement Test at USU's Department of World Languages & Cultures to possibly "test out of" courses, purchase earned credits depending on score, or meet prerequisites to potentially complete the French Major emphasis quicker. Bridge program participants (up to 9 credits toward the major) and others with prior language experience may be able complete language course requirements quicker, or more quickly complete 2 majors.
- Please note that student-specific plans may differ. Consultation with an advisor is suggested.
- Meet with an academic advisor to create a specific plan that best fits your academic needs.
- The student is ultimately responsible for knowing and completing all degree requirements.
- Make sure you meet the registration requirements for each class, checking any prerequisites or corequisites.
- Consultation with an advisor may result in an altered plan customized for an individual student.
- Check your Degree Works for requirements and completion.
